IN THE MINES

WEEK'S BUDGET OF NEWS FROM THE MINING CAMPS

TRIBUTARY TO GREENWOOD

A Story of Progress and Development in Different Camps—Satisfactory Condition at Winnipeg.

SKYLARK CAMP.

George W. Raithel of Chicago, a director and Harry Shallenberger of Spokane, a shareholder of the Chicago-British Columbia Mining company are visiting the Lake group, under bond to the company. For some months past a small force has been sinking a double compartment 4x8

STAND IN WITH THE BOYS

They will have pleasant memories of you in after years and will be pleased to recount the many good things they received when young and will remember them as obligations to be redeemed when they grow up and you are old. Nothing pleases a boy more than a new suit of clothes buy them one each of Rendell & Co's nobby suits, we have them at all prices from \$2.00 up.

THE GIRLS ALSO LIKE FINE CLOTHES.

We have some very pretty Shirt Waists, Pinofores, Overdresses, Slippers, etc., at very close prices.

Agents for the W B & La vida CORSETS.

Rendell & Co.

shaft on the Lake. The shaft is down 68 feet and indications point to it being near to the big pyrrhotite ledge, which it is expected to strike on its dip. To the Times Mr. Raithel stated that while here he will arrange for the purchase of a hoisting plant and air compressor.

NORTH FORK.

Superintendent E. W. Liljegrän of the Humming Bird (B.C.) Gold Mines, limited, returned to the mine last Saturday from a trip to Spokane. He reports that the incline winze sunk from the tunnel level is down 35 feet with a full face of ore. Shipments are to be resumed to the Granby smelter.

SUMMIT CAMP.

John Dorsey, manager and promoter of the Lake Shore & British Columbia Mining company, limited, left this week for Chicago and Milwaukee on company business. To the Times he stated that the shaft on the Blue Bell, is to be sunk an additional 100 feet. The north drift at the 100-foot level had been driven 51 feet, practically all in ore. In this distance a 12-foot winze had been sunk. In the south drift the ore was followed for 35 feet. On the adjoining property the J.S., also under bond to his company, and on which a payment of \$4,000 has recently been made, development would be started on his return. His mission east is to lay before the shareholders a proposition to purchase a diamond drill outfit, to exploit the J.S. and also the Mountain View claim in which he has a large interest. He also hopes to arrange for the installation of a seven drill compressor plant on the Blue Bell.

Men are now at work unwatering the Maple Leaf, one of a group of claims owned by the Rathmullen company of Rossland. The property is equipped with a 10x14 straight line Rand air compressor, boilers, hoist, etc. Development on an extensive scale is to be prosecuted vigorously.

T. W. Gillett, of Fairhaven, Wash., president of the Everett and Spokane Mining company, owning the Rambler in Summit camp is here on a visit to the mine.

The crosscut on the second level of the R. Bell is in over 100 feet from the shaft and Manager Jack Hanly believes that the ore body will be struck within the next 50 feet.

WHITE CAMP.

Tenders are being called for hauling ore from the No. 7 mine in Central camp to the railway. The ore will be treated at the local smelter. Some 25 tons were sent down during the past winter the returns being satisfactory. This is one of the properties under the management of Frederic Keffer, M. E. and is owned by the No. 7 Mining

Company of New York, the leading shareholders being also largely interested in the British Columbia Copper Company, owning the Mother Lode mine in Deadwood camp and the local smelter. This spring the mine was equipped with a 100 horse power boiler, 12 x 16 air compressor, with a capacity of five drills; a Ledgerwood hoist with 32 inch drum and 8 1-4 x 10 cylinders and other accessories. The mine is developed to a depth of 139 feet by a double compartment shaft. Since work was resumed last december, the shaft has been completely re-timbered down to the 65 foot level where drifting is in progress.

WELLINGTON CAMP.

Richard Plewman of Rossland, managing director of the Winnipeg Mines, Limited, was here Monday on his way out from a visit to the mine. He reports a most satisfactory state of affairs both as to development and the financial condition of the company. At the mine the principal work is being carried on at a depth of 400 feet on the second north vein. This vein was followed down from the 300-foot level by a winze sunk to a depth of 100 feet. Of this distance they were in ore for 73 feet. Now a drift from the bottom of the winze is being run east and is in 35 feet all in ore. Monday a trial shipment of two car-loads of ore, taken from these workings was sent out to the Granby smelter. If this shipment proves satisfactory it is quite probable that the mine will continue sending out ore from time to time.

Speaking of assessments Mr. Plewman said the shareholders had been prompt in making payments. Under the terms of the re-incorporation it will be remembered that the company proposed to assess shareholders up to five cents per share, before endeavoring to sell any more treasury stock, of which there is 255,000 remaining in the treasury. The assessments are levied monthly, amounting to half a cent a share. So far six assessments, including the one this month have been levied. Out of the first five assessments, which if paid in full would return \$25,000, over \$22,000 has been paid, and when all the assessments for this and the balance of last month are turned into the company \$8,000 will be on hand. Last month's expense at the mine amounted to \$4,800, the highest amount spent in any one month for development. It is anticipated however before the balance of two cents per share is assessed the property will be nearly on a self sustaining basis, that is judging from the present favorable showing in the mine. If additional machinery and equipment is required when the assessment of five cents per share is exhausted the company will doubtless be able to dispose of its remaining treasury shares at a satisfactory figure. By that time nearly \$50,000 will have been expended in the development of the Winnipeg, by the new company, and those on the outside, who are in a position to judge are apparently satisfied it will then have passed from the prospecting stage to that of a shipper.

Nicholas J. Tregear, who has been superintendent since June 15th 1900 has resigned and Simon Jacobs has been promoted to his position. Mr. Tregear will take his family to Montana and will probably operate in that State.

DEADWOOD CAMP

John Hunner, T. J. Graham, E. K. Erwin and Fred Oliver, of Spokane, directors of the Morrison Mines Limited, have been here for the passed two days examining the mine, preparatory to presenting a full report to the shareholders. Accompanying party is Roy Clarke M. E. of Rossland.

Wednesday directors were to have met local shareholders at informal gathering at the Hotel Armstrong for the purposes of discussing affairs relating to the company and the recent two cent assessment. None of the local shareholders turned up at the appointed time and the meeting was called off. Afterwards President John Hunner gave out the following statement to the Times:

"The meeting was called by the directors so that while on the ground we could informally discuss with dissatisfied stockholders any complaints regarding the assessment or management of the mine. It looks to me as though local shareholders have no reasonable complaint, else they would have met us here and talked matters over in a friendly manner. Our secretary is now at work on the financial statement. In this connection the directors are prepared to allow any competent accountant local sharehol-

ders like to chose a full examination of the books. We will pay all his expense Spokane and a reasonable fee for his services. Roy Clarke has been engaged to make a full report on the mine, the amount of development, the machinery needed and to prepare plans for future work. His report will be embodied with the statement shortly to be issued to the shareholders.

"Regarding the two cents assessment the directors thought it was absolutely necessary. No money had been received for several months. The company was in debt about \$5,000 and we needed additional machinery, such as boilers etc., to carry on the work. Our examination of the mine has convinced us that the work done under the management of Fred Oliver was as cheap or cheaper than in any other property in the Boundary district. If this is a fact shareholders certainly cannot find any fault with him.

"Complaint has been made that the head office of the company should be changed from Spokane to Greenwood. This will not be done. The majority of the shareholders are Spokane men and the office will remain in that city. "Greenwood being the registered office in this province we are bound by law to keep copies of all necessary books here for the inspection of the shareholders. This will be carried out so soon as the books are brought up to date.

"I have no information regarding the contract entered into by my company and the Standard Pyritic Smelting company. I have only been in office a few days and never saw this contract."

"The reason that the smelter company is not liable for damages as has been hinted by certain shareholders," said Fred Oliver is because of a clause making the contract null and void unless a railway spur was built to the mine within 90 days from its date and the same contained no clause compelling the smelter to build it.

SUMMIT CAMP.

Ross Thompson of Rossland, one of the heavy owners in the King Mining Company operating the Oro Denero in Summit camp is in the city. Asked when development would be resumed he said he was unable to state as the company was without funds. He admitted that several propositions had been made for the purchase of the mine but none had been accepted, neither was the property tied up under bond. Last winter W. H. Thomas, consulting engineer for the British Columbia Copper Company, made an examination, and had offered a certain figure for the property, but his terms were refused. Only recently F. F. Parrish, manager of the B. C. mine in the same camp, had reported on the property for Montreal people; and next week Mr. Thompson said, a further examination would be made for other parties.

Jay P. Graves last week made the second payment of \$1,500 on the bond on the Champion claim in Summit camp owned by Alex Omon, Joe Brown Grand Forks and Fred Mann of Greenwood. The Champion adjoins the R. Bell and has a good showing.

WEST FORK.

W. T. Smith and John Massam left today for the West Fork for the purposes of starting development on the Bounty claim, near the Washington and Idaho group.

A company is being floated in London to take over the Snowshoe now being developed by the Rossland & Slocan Syndicate. The company will be a strong one with the Earl of Chesterfield as chairman.

The best ice cream daily at Greenwood Candy Factory. We guarantee it pure, C. V. Semerad.

A RUNAWAY.

While driving from Eholt to McPherson's saw mill on Monday Duncan and Alexander McDonald, livery stable keepers of Eholt, were thrown from the rig. Something frightened the team and it bolted upsetting the vehicle and throwing the two men out. Both sustained contusions and bruises, but happily no bones were broken. Dr. Spankie went up to attend the injured men.

LIEUT. LECKIE

ENTHUSIASTICALLY WELCOMED BY CITIZENS OF GREENWOOD.

COMPLIMENTARY SMOKER.

In the Auditorium Monday Night. Presented With Gold Watch and Chain—Plenty Enthusiasm.

"There may be room for a few more people but none for further enthusiasm" said Mayor Jakes in his opening remarks at the complimentary smoker tendered to Lieut. J. Edwards Leckie, D. S. O., in the Auditorium on Monday night. It is said that there is always room for one more and equally true is it that a little more in enthusiasm can be crowded in. Before midnight the big crowd who started the evening in a most enthusiastic and patriotic frame of mind worked up to such a pitch that the rafters rang with shouts of welcome to the Greenwood hero who brought fame to the little city whence he went to fight the Empire's battles. The committee in charge of the entertainment had the theatre appropriately decorated with flags and bunting. In a cosmopolitan city like Greenwood, their patriotism was not selfish and the Stars and Stripes were strung along side the Union Jack. Pictures of Lords Roberts and Kitchener were hung on the stage and some enthusiastic Irishman draped the former with the flag of the Emerald Land. The box set aside for the guest of the evening was also suitably decorated. In front the letters D. S. O. paid eloquent tribute to the valor of the hero and the pride which those present felt in one of their fellow citizens.

The reception was not confined to Greenwood, Phoenix sent a strong delegation and Midway, Eholt and other surrounding districts were well represented. Among the visitors noticed in the big crowd were Dr. Gordon, C. D. Hunter, J. F. Hemenway, A. G. Simpson, P. C. McArthur and Mr. King of Phoenix.

H. C. Shaw made an excellent chairman. He wasted no time in preliminaries but attacked the official programme by requesting Mayor Jakes to make the opening address. Just as the mayor was about to begin, Lieut. Leckie appeared and was greeted with cheer after cheer as he was escorted to his seat. Mayor Jakes was brief in his opening remarks as he stated that he would have another opportunity of addressing them in the evening and would therefore content himself with expressing his great pleasure at being there to welcome Lieut. Leckie back from the front. Messrs. Whiteside, Hodge, Smith and Harris sang Annie Laurie, their voices blending sweetly. They were enthusiastically encored as were all other numbers on the programme. W. W. Howe gave one of his popular songs, Mr. McIntyre of the Mother Lode gave a selection on the mandolin. J. F. Hemenway was heard during the evening, in two or three of his popular songs. Neville Leese brought down the house in his comic songs more comically rendered. Mr. Warren gave a selection on the mandolin. Mr. Galloway was heard in a song, Mr. McIntyre a clog dance and Del. Mars, the fire king, gave an exhibition of how to eat molten lead and other equally warm articles. C. W. H. Samson and others contributed to the evening's entertainment. A hard working committee kept the audience well supplied with beer and tobacco. In the middle of the programme Lieut. Leckie accompanied by the citizens committee appeared on the stage. Mayor Jakes in presenting him with a handsome gold watch and chain said in part:

Mr. Chairman and Gentlemen: It is very gratifying to see such a large and enthusiastic gathering here tonight, but, when the purpose for which we have assembled is remembered, one feels that there could have been no room for doubt as to the suc-

(Concluded On Page Two.)

LIEUTENANT LECKIE

Continued From First Page.

ness of the efforts of the citizens committee, to whom I feel our sincere thanks are due for their services in originating and carrying to a successful issue by untiring endeavor a plan whereby we, as citizens of Greenwood, are enabled to show our appreciation of the gallantry of our esteemed friend, recently returned safely, by the grace of God, and covered with glory, from the bloody field of South Africa, where they cheerfully and bravely faced death in its most repellent forms, time after time, for love of King and country.

We are assembled to do them honor and rejoice at their return.

While I feel greatly honored by being chosen to welcome back and to voice your appreciation of his gallant services, I also feel somewhat timid at being chosen to convey your good wishes to one so distinguished as our good old friend Lieutenant Leckie, so lately honored by receiving the flag from the hands of His Majesty, our good King Edward VII.

In common I am sure with you all feel that I had a personal interest in this honor, because we knew and loved our gallant soldier boy, before he was shown on the battle field, the staff of which he was made. (Loud applause.)

Dr. Jakes continuing said that when he was notified that he would be called upon to make this presentation he asked why Leckie has received the D. S. O., and no one could tell him. This spoke volumes for the modesty of our hero (Loud cheers) and carried out the remark made by a gentleman tonight that Jack Leckie wore the same size hat as he did before gaining honor in South Africa (renewed cheers). Further inquiry elicited the information that in war departments official communications it was stated that Lieut. Leckie was especially selected by his colonel for a very difficult piece of work in connection with the rescue of British prisoners at Voigtacht E Transvaal. They were between the main army of French's and Eoers Leckie went out with his six men and accomplished his difficult work in two days and was on his return specially complimented by General Buller. This led to his being specially recommended by Lord Roberts for the D. S. O. (Loud cheers). Mayor Jakes also announced that Lieut. Leckie had agreed to take charge of and train a troop of mounted Infantry in Greenwood and also he felt sure that with such a brave leader there would be many volunteers. He asked Lieut. Leckie to accept the watch and chain as a small token of appreciation of the citizens of Greenwood. He hoped that he would live to a ripe old age in peace, but if ever again called upon to fight the empire's battles he would on behalf of Greenwood's citizens ask him to wear their token at the front. (Applause.)

Lieut. Leckie probably would rather face a regiment of Boers than be asked to make a speech, but he exhibited the same courage as on the battle field and suitably acknowledged the gift. He said in part: I thank you for your enthusiastic reception and I am naturally highly flattered at the ovation you have given me, but at the same time I recognize that I am only a particle of that splendid body of men who went from Canada and who fought for the Union Jack, and although the war might not have been entirely justifiable in the eyes of many, it was simply under a misconception of what brought about the war. They think that it was forced upon Great Britain by capitalists whereas it was no such a thing. The war was undoubtedly brought on by the Boers themselves who in their arrogance and ignorance thought that they could win the fight. Their cry was Africa for Africans, and they have been scheming and plotting and importing guns and ammunition for years to make from Transvaal to Cape Town one Republic under one flag, and you may rest assured it was not the British flag. We simply went out there and did our duty in upholding the empire in its darkest day and showing that we were sons of the motherland still. (Loud cheers). Now Mr. Chairman and gentlemen you cannot expect a long speech from a man who is a soldier. If ever the mother country needs us again I am willing to give my life in the defence of the Empire I am proud to belong to, and I once more thank you for all the kind things you have said about myself and my men who are quite as patriotic as myself. Let us hope for a speedy ending to the war and prosperity and happiness to Great Britain and all her colonies, especially Canada, of which I am proud to be a citizen and am proud to be a citizen of Greenwood. (Cheers.)

MCGILL STUDENTS IN B. C.

Summer School of Mines Class Will Study in This Province.

The Summer School of Mines, in connection with McGill University, Montreal, was founded some years ago for the purpose of giving a post graduate course to those of its students who have taken the mining and engineering course at the University. This finishing course by the Summer School is now looked upon as very important in completing the education of mining engineers and in giving our embryo experts a practical knowledge of mining by a course of study in the mining districts of Canada. This year the summer class numbering twenty-five, with four instructors, will spend a couple of months in the mining camps of British Columbia. The party left Montreal, May 1st, and are now at British Columbia, after spending a few days in the national park as the guests of the C. P. R., after which the real work of the tour begun. From Sanff the class will go to the Sloca where a thorough study of the silver-lead ores and the formations in which they occur will be made. The free milling gold ore districts of Nelson and Ymir will also be examined. An extended stay will be made in Rossland where the copper-gold ores and peculiar formations of Red mountain will be subjects for careful study and on which a course of lectures will be given.

From this point the C. P. R. smelter at Trail will be visited and the students is afforded an opportunity to study the treatment of various ores as accomplished at a modern smelter. Short trip through the Boundary will be made after which the party will return East via the Crow's Nest Pass, breaking their journey at Fernie where they will examine the coal mines at that point. On arriving at Montreal the balance of the summer will be devoted to a careful study of the notes, observations made on the trip and a complete course of lectures on the practical working of mines and the reduction of ores will finish the education of a quarter of a hundred expert mining men. With the party are several British Columbians, among whom is noted Norman Parlee, of Rossland.

Illustrated postal cards, views of both smelters. Do not miss seeing them. Smith & McRae.

METHODIST CONFERENCE.

The annual Conference of the Methodist church in British Columbia was held in Nelson last week. The Stationing Committee submitted their first draft. Under this arrangement Rev. B. H. Balderson of Greenwood goes to James Bay Church Victoria and Rev. W. Gordon Tanner comes to Greenwood.

Rev. James A. Wood is appointed to Grand Forks and Rev. John D. P. Knox to Phoenix.

GREENWOOD, B. C.

FROM NELSON

THE ENDING OF THE DES RIVIERES CASE.

FOUND NOT GUILTY,

Verdict Was Popular—The Fistic Fiasco—Getting Ready For Big Dominion Day Celebration.

NELSON, B. C., May 10th. [Special.]—It took the jury less than 15 minutes to set James F. McGill des Rivieres, charged with the murder of Harry Rowand, a free man. Tonight des Rivieres is a guest at the Hume Hotel and is receiving congratulations on all sides. The verdict here was a popular one. Throughout the morning and afternoon sessions today the court room was crowded. Des Rivieres was the first witness called on his own behalf. His version of the sad affair of last February 16th was that Thomas Jones, and Harry Rowand came to his cabin at Denero early in the afternoon. Shortly after eight o'clock Jones went to bed. Rowand went out to get a bottle of whiskey—as the supply on hand had all been consumed. He returned to the cabin, and without any provocation, assaulted the prisoner. During the struggle which ensued, while Rowand held him down over the bed and was attempting to strangle him, he stabbed him twice, inflicting a mortal wound. Des Rivieres cross-examination by W. A. MacDonald, K. C. lasted for over two hours, but the crown's attorney was unable to shake his evidence. After the examination of three witnesses proving the prisoner's previous good behaviour his counsel, E. P. Davis, K. C. addressed the jury. Seldom has such an eloquent plea for acquittal been heard in any court in this province. His Lordship, Justice Drake's charge was in favor of the prisoner. On the first ballot of the jury 11 were for acquittal and one for a verdict of guilty. The second ballot was unanimous. Accusers gave des Rivieres an ovation and his counsel, witnesses and friends speedily crowded around him to express congratulations. To the correspondents of the Times he said at the Hume Hotel that he intended shortly to return to his home, pack up his effects and go to Africa, his home. From there it is probable that he will sail for Africa. His health is good, but he suffers more or less from nervous feelings—resulting from the terrible strain he has been undergoing since the night of the unfortunate happening at Denero.

There is an angry crowd of sports in town late tonight. The 20-round go between Charles Goff and James Burns proved a fiasco. The men stayed to the limit, but fighting was an unknown quantity. The bout can best be described as slow. Archie McNaughton of Vancouver refereed the contest and Dan Thomas of Rossland was time-keeper. The referee declared it a draw, and there went up a howl from Goff's supporters that threatened to bring down the roof of the opera house and for a few minutes the stage was a perfect bedlam.

At the end of the 20 rounds both men were fresh. Goff did most of the sparring, tapping Burns at will, but the blows had no weight behind them. The affair was a disappointment, and it will be many a day before Nelson's sporting fraternity can hope to pull off another contest. Rossland sent over a large delegation on a special, and both Greenwood and Sandon contributed a number of lovers of the manly art. Rossland sports backed Goff heavily and were particularly sore at the decision.

For the past few days there has been quite a delegation of Greenwood folks in the city. At the Phair Hotel are Mr. and Mrs. H. M. Keefer, Mr. and Mrs. W. G. McMyan, Clive Pringle and F. J. Finucane. At the Hume are Dr. G. M. Foster, Provincial Constable Joe Darragh, C. Cunningham and I. Robert Jacobs.

The Thursday afternoon early closing movement, inaugurated two weeks since, is liable to be discontinued. While the majority of the merchants agreed to close, several small concerns failed to do so and this is the principal cause for friction.

Nelson's annual carnival is to be held on the 1st and 2nd July. The preliminary work, such as the appointment

of officers and committees, has been started. It is hoped to make the affair this year better than ever. The regatta and fireworks display in the evenings are to be prominent features. There will probably be a baseball tournament for the fans, and the athletes will be provided with two days of amateur sport for which substantial prizes will be offered.

Special Rates to Halcyon Springs.

The Canadian Pacific Railway has placed on sale from the 3rd May to 30th September, tickets from Greenwood to Halcyon Springs and return at rate of \$8.30, tickets good going on Fridays and Saturdays and returning leave the Springs on Monday following.

In addition to this special rate there are always on sale thirty day tickets at the usual special rate made for thirty day round trip ticket.

WEST FORK RAILWAY.

The West Fork Railway is one of the most important transportation enterprises before the public. Now that the house has adjourned and the smoke of railway battle has cleared away, the public generally will be sure to see still more clearly the importance of this connecting link. It is not only a development railway but in the absence of a direct Coast-Kootenay railway which under the most favorable circumstances could not be completed within three years it is necessary to secure speedier communication between the coast and the interior. The cities of the coast are more directly interested than the interior. Roseland Greenwood and other cities in Kootenay and Southern Yale have direct communication with the east. The circuitous route via Revelstoke to the coast involves several transfers that makes the carrying of goods expensive and inconvenient. A connecting link between the C. & W. and the Stuswap & Okanagan would give communication that could not be improved upon only by a few hours by the most direct route.

The province is financially interested as the construction of the Midway & Vernon would relieve the burden of interest now being paid on the S. & O. Taking everything into consideration, the development of the rich West Fork, the securing of speedy railway communication to the coast, relief from a heavy financial burden together with other advantages that might be pointed out, the Midway & Vernon road should receive every encouragement. We think it would have been good business on the part of the province to grant the guarantee of interest asked for. In any event the proposition with the government subsidy of \$4,000 a mile is one that should prove attractive to capital and the promoters should have no difficulty in managing the undertaking.

AMERICAN CAPITAL.

During the heated discussions on the advisability of allowing American railways an entrance into this country, some very bitter things have been uttered and written regarding United States and American enterprise. The truth is that English capital no longer considers British Columbia a favorable field for investment and the War Eagle and other flotations have soured eastern Canadian capitalists. Under the circumstances, if the natural resources of this country is to be rapidly developed, we must look more and more to the South for the needed capital. In the exploitation of the resources of New Ontario, American capital was largely drawn upon. It was in United States that most of the Dominion Iron and Steel company's issue of \$15,000,000 was underwritten last year. It is in New York and Philadelphia that a million dollars is being obtained for new steel works at Collingwood, Ont. To the United States, Mr. Clergue has hither to looked for the vast sums required for his various undertakings. Even in Boundary district, American capital has done much towards its develop-

ment. The Herald of Montreal is as truthful as it is sarcastic when it says:

"Who bought the claims for mines of our prospectors in British Columbia? The Americans!
"Who sold them to the Canadians afterward, pocketing fat profits? The Americans!
"Who have developed our wood-pulp trade? The Americans!
"Who sold us the wonderful Stanley mine? The Americans!
"Who started the iron industry in Sydney, Cape Breton? The Americans!
"Who pocketed the millions therefrom? The Americans!
"Who is the moving spirit at Sault Ste. Marie? An American!
"Who has obtained elevator privileges from our harbor commissioners? Americans!
"Who fails to build elevators, and thereby helps Buffalo? Americans!
"Who will gobble our meat export trade? The Americans!
"Who have bought all our petroleum wells? The Americans!
"Who was called to reorganize our Grand Trunk Railways? An American!
"What architects get the work for our largest and finest buildings? Americans!
"Who are quickest to appreciate and employ our smartest young men? Americans!

HON. MR. TURNER.

Mr. Turner's political opponents as well as his friends felt gratified that after a long career in the legislature he retires with almost universal expressions of good will. Mr. Turner's personality commends itself to everyone who comes in contact with him. Affable, courteous and always taking a strong interest in everything that from his point of view would tend to promote the interests of the province. The criticisms which were directed against his administration arose from no feeling of antagonism towards himself. As Agent General at London he has a good field for work in the interest of the province. His intimate knowledge of all parts of the province, his extensive connection as a successful business man will surely be used in promoting the development of the province in which he has so long resided and with whose politics he has been closely connected for over fifteen years.

MINERAL ACT. Certificate of Improvements. NOTICE.

LOCAL HAPPENINGS.

J. C. Haas, M. E. is expected in from Spokane, next week.

P. W. W. King, of the Snowshoe mine, was here Monday.

Provincial Constable I. A. Dinsmuir is over from Grand Forks.

Dr. George M. Foster has been visiting at Spokane during the week.

Thos McDonnell is away on business to Bolster and Conconully, Wash.

Fred Oliver, manager Morrison Mines, Limited arrived in the city last Saturday.

Hugh Murray, of Midway, has rented D. A. Holbrook's hotel at Boundary City.

W. B. Wilcox, editor of the Phoenix Pioneer paid the city a brief visit on Tuesday.

F. J. Finucane returned to the city on Tuesday from a trip to Nelson and Rossland.

C. B. Davis, a mining man of Coaley Col. was here the end of last week and proceeded to Phoenix.

J. G. Whiteacre on the road for Mason & Risch Piano Co., of Toronto, is at the Imperial Hotel.

H. M. Fullerton, with Wilson Bros, wholesale grocers of Vancouver was here the first of the week.

Special services are being held at St. Jude's Mission, Church of England today, it being Ascension day.

Superintendent J. P. Keane of the Cariboo, passed through the city Monday on his way to Camp McKinney.

Rev. Mr. Anderson of the Presbyterian church, returned to Greenwood from a visit to the coast on Saturday.

Rev. Ferguson Miller, who occupied the pulpit of the Presbyterian church last Sunday left on Tuesday for Fairview.

Miss Manahan head nurse at St. Spankies hospital returned here Saturday from a month's visit to House Jaw, N. W. T.

H. McCutcheon left on Tuesday for Rossland to attend a meeting of the John Bull Mines, Limited, held in that city yesterday.

Dave Morgan and Ed Cronin are back from a visit to the Smilkaméen. James Breen of the Dominion Paper Company, is in Phoenix.

John Dorsey, manager of the Bell, in Summit camp spent Sunday in the city, and left early for Chicago and Milwaukee.

P. F. Richardson, a manager of the White Horse and is on his way for a Vancouver wholesaler to meet at the Imperial on Saturday.

The adjourned general meeting of the Western Copper Company will be held in the office of Masson & Laidlaw next Monday at 3 o'clock in the afternoon.

Ex-Mayor Wallace of Rossland returned from a visit to the properties in the vicinity of Canyon City and expects to leave this week for the Smilkaméen.

Monday evening at the Presbyterian Manse, Alexander Olson, a miner employed at the Knob Hill was united in marriage to Miss Maud Hills, of Butte, Montana. Rev. Mr. Anderson tied the knot.

W. T. Hunter of the Hunter-Kendrick company who left for his old home in North Dakota last week, is expected to return shortly accompanied by his wife and family. They will take up their residence on Kimberley avenue.

E. Escalet, manager of the Clarendon Cafe, Rossland, was in the city the end of last week and returned home on Monday's train. While here he arranged for work to be started on the Dewey claim, across Copper creek from the smelter.

R. P. Williams resident agent for the Jenckes Machine Company, this week sold the Morrison Mines, Ltd a No. 7 Cameron Pump which is to be delivered at the mine from the Rossland warehouse immediately. He also sold the Old Ironsides Company an 8 horse power winch hoist.

W. G. Gaunce, secretary of the Board of Trade returned to the city on Saturday's train, after an absence of three weeks. He spent most of the time visiting at Seattle and other cities on the Sound, and took in the legislature at Victoria. He expects to spend the summer at Rendell.

The members of the Greenwood Dramatic Club entertained their friends to a picnic at Boundary falls last Sunday. Over 20 went down to the Falls and spent an enjoyable day. Mr. and Mrs. Frank Mills and Mrs. Peterson provided a recherche luncheon. On the return to town the party drove to the residence of Mrs. Peterson and spent the evening.

White blouses, all sizes and prices at G. F. Williams.

Halcyon is the best mineral water on the market. B. C. Wholesale Liquor Company general agents

H. E. Croasdaile of the Hall Mines Smelter, D. A. McFarland and A. G. Gamble of Nelson are registered at the Armstrong.

The Greenwood Lawn Tennis Club has invited the members of the Grand Forks Tennis Club to visit this city on May 24th for a series of games.

Clerk wants situation. Seven years experience in the grocery business also understands the boot and shoe business and gents furnishing business, best of references, address box 656 Rossland.

R. Grieger, accompanied by his wife and family will leave on Sunday for Conconully, Wash. The family will remain their visiting for several weeks Mr. Grieger returning here early next week.

The Canadian Pacific R'y are issuing round trip tickets to Halcyon Hot Springs, good going Friday and Saturday of each week, and returning Monday following date of issue. The rate from Greenwood for the round trip is \$8.30.

The ladies of R. C. church were the hostesses at a pleasant strawberry and ice cream festival in the National dining room Saturday afternoon and evening. A large number attended and besides the good to eat, were entertained by a programme containing many excellent numbers.

WANTED—Trustworthy men and women to travel and advertise for old established house of solid financial standing. Salary \$780 a year and expenses—all payable in cash. No canvassing required. Give references and enclose self addressed stamped envelope. Address manager, 355 Caxton Bldg., Chicago.

Registered at the Hotel Armstrong Tuesday were: J. S. C. Fraser, manager, Bank of Montreal; John C. Brown, hardware merchant; Ross Thompson, mining operator and John Kirkup, gold miner, all of Rossland. J. P. Burns and Blake of Vancouver.

July 24th will be celebrated in style by the citizens of Midway, and extensive programme of music, games and sports will be given. A large number of prizes offered. The celebration will be held at the Midway Hotel. A dance will be given at the hotel.

It is reported that the new dining room at the hotel is being finished in Boundary City. The new dining room has been partitioned down the centre so as to make two stores. The rear end of the dining room was also cut off and a smaller dining room made out of it with three private boxes. In the Windsor Hotel the rooms at the end of the bar have been removed so as to make one large room and pool and billiard tables have been added.

Over the past ten days considerable attention has been made at the Boundary City Hotel. The large dining room has been partitioned down the centre so as to make two stores. The rear end of the dining room was also cut off and a smaller dining room made out of it with three private boxes. In the Windsor Hotel the rooms at the end of the bar have been removed so as to make one large room and pool and billiard tables have been added.

Dr. Mathison, dentist, 100 Bank of Commerce. Both phones.

ARE AT GREENWOOD.

Great Northern Engineers: Camped Near the City.

A party of Great Northern engineers reached Greenwood on Wednesday and camped near the Elkhorn brewery at the northern end of the town. Although numerous reports have been sent out that the line will be run from Carson to tap the Summit camp, indications now point to the commencement of the line tapping the Boundary camps from Midway. On a three per cent grade the line from Carson to Summit camp would be 26 miles in length and only serve three camps while the line from Midway up the Boundary valley through Greenwood to Summit and Phoenix camps would be the same length and with short spurs would tap Smith, Deadwood, Copper, Providence, Long Lake, Summit, Phoenix and Wellington camps. The easiest way to secure the trade of the Boundary district is through the Boundary Creek valley.

Home cooked meals, just the same as you used to get before you left the Old Folks at Home. At Kerfoot's.

Fresh strawberries received twice a week at Semerad's, Copper street.

Fresh fruit of all kinds at Semerad's, Copper street.

NEW SURVEY

TO BE MADE OF THE INTERNATIONAL BOUNDARY LINE.

MATTER BECOMING URGENT

Governments at Washington and Ottawa Have Decided Upon Methods of Procedure.

The exact location of the 49th parallel is giving the Canadian and United States governments some anxiety these days. They are also interested in other portions of the international boundary. In this district there are good grounds for dispute over the location of the boundary line. Near Midway there are two lines. The engineers whose duty it was to locate the 49th parallel and see that suitable monuments marked the same succeeded in running two lines about half a mile apart for a considerable distance. Which is which is difficult to determine. In fact a short time ago some sports gentlemen were seriously considering the narrow strip of land as a most suitable place for pulling off one of the big fistic encounters that have been stopped by governors of states and agents of law. As there was no suggestion of a boundary commission at that time, the officers of either country would have been greatly in doubt as to whether they had the right to interfere not knowing in which country the land was situated. Numerous other difficulties have arisen between the Atlantic and the Pacific and the contemplated survey is urgent.

It is upwards of half a century ago since the frontier landmarks were placed. In the interim large centers of population have grown up, both sides of the line, vast industries have been developed and fleets of steamers brought into existence, on coasts, lakes and rivers, forever creating new international interests.

In British Columbia, the impetus given to mining interests by the charters for railways connecting with American roads, and increasing investments of American capital, in all directions, render an early delimitation of the frontier imperative, in connection with trading and industrial enterprises. Discoveries of mineral deposits are constantly being made along the frontier, at places not accurately defined on the existing boundary maps, and respecting which there is endless controversy and uncertainty.

Going East, there are boundary disputes in the new mining regions in the southern corner of Manitoba and Western Ontario, and in the lake section. As the new mineral districts are developing rapidly in population, in commercial value and in railroads connecting with the systems both sides of the line, the necessity of an early settlement of these boundary disputes will be readily recognized.

It has been found repeatedly in recent frontier difficulties that the boundary marks have been wholly obliterated, over long distances, and not infrequently in remote parts where mineral discoveries, or industrial growth or the establishment of new railways or steamship lines, or trading concerns, are continually reported. The disappearance of boundary marks is particularly noticeable in the forest areas, and the demand for pulp limits on the American side of the line makes it advisable they should be restored without delay. In some cases, though not often, errors have been found in the sites of the old monuments, placing American territory erroneously in Canada, and vice versa.

The delimitation may consequently be a somewhat slow, tedious and expensive affair. It may possibly take several seasons to complete. The usual practice is for the Americans and Canadian parties to work independently and not very far apart, with consultation and agreement as the line is run from point to point, as to the exact positions of the new monuments and the most conspicuous places in which to have them erected.

As Washington and Ottawa have only just reached the understanding on which the survey parties are to be sent out, details have not yet been finally arranged, but the parties both sides of the line will, it is to be supposed, naturally take geologists with them to investigate the mineral conditions by the light of discoveries since previous surveys. Valuable as the work done by Canada's geological survey parties

since confederation undoubtedly is, still it has been impossible to cover the entire surface of the mineral lands of the dominion. There are probably no more gold fields like the Yukon awaiting development, but the Michigan deposits which suddenly turned out to be so rich and the Sudbury nickel discoveries, which, after all were quite recent, are thought to be but indications of the existence of equally abundant hidden wealth which accident at any moment may reveal in many other directions.

Only a comparatively trifling area of the mineralized districts of Canada have ever been prospected. Every day brings reports of new finds. The coming delimitation will certainly add very materially to the available information respecting the extent and location along the Southern border of Canada of her undeveloped mineral wealth.

It has never yet been satisfactorily settled, for instance, where the Indians coming fourth down the Gattineau in their annual spring migrations used to bring their gold and silver. It was a common thing for these people to trade fine gold and pure silver with the palefaces for the commodities of civilization. Many thousands of dollars' worth of the precious metals have from first to last thus found their way into strong boxes of the old time traders of Bytown and Montreal, and formed the basis for many a fortune. None ever succeeded in inducing the redskins to reveal the secret of the source from which they derived their precious little bags of treasure. It is supposed they found the gold and silver in the stretch of two hundred miles or so of wild country that lies between the headwaters of the Ottawa and the Gattineau rivers. In fact many traces of rich deposits of gold and silver have been lighted upon from time to time by lumbermen and miners in that country, but the region has never yet been carefully prospected.

Whilst Canada is putting forth fresh strength to compete with the Pacific states for the far Eastern trade, her government has this week reached an important decision affecting competition for the Western traffic to the seaboard. Montreal is the key to the situation. Without adequate transfer arrangements there, everything else fails, has failed. Mr. Tarte, minister of public works, has at last carried the majority of the cabinet with him in his demand for heavy expenditures, for the port of Montreal and the St. Lawrence to transfer the former in reality as it is in name into the principal ocean port in Canada though a thousand miles up from the sea.

VERTICAL SINKING PUMPS

For Mine Duties

We can strongly recommend this Pump to those requiring its special type. The extreme convenience of the outside packed form enables it to be readily packed and taken up. The absence of the projecting valve gear is a valuable feature in avoiding breakages during hoisting and lowering in the confined space where these pumps are used. It is fitted with convenient suspending hooks and the piping arrangement takes up the least possible space. Mining superintendents and those interested in Mining Machinery would consult their interests by sending for catalogue and quotations before installing their plants. We manufacture Pumping Machinery for every conceivable duty.

We have given special attention to the construction of all Pumping Machinery required for Mine Work and also Manufacture any type of Pump for any Special Duty. Pumps actuated by Compressed Air, Pumps for Bad Mine Water, Station Pumps, etc., etc. Catalogue and specifications upon request.

BACK FROM VICTORIA.

Robert Wood and James Kerr Return From the Coast.

Robert Wood and James Kerr returned on Monday from Victoria where they spent the most of the session in the interests of the Midway and Vernon railway. They report that popular opinion is in favor of the construction of this important piece of road and that the subsidy of \$4,000 a mile mentioned in the loan bill was voted for this railway without opposition. They are hopeful of being able to make the necessary arrangements to build the railway at an early date. Regarding the political situation at the Coast, they stated that nothing is known beyond the newspaper reports. Hon. Mr. Turner is going to London, but they do not think that in the cabinet reconstruction to follow his retirement, Martin McInnes or Brown will be taken in. In all probability peace will be made with the bolting government supporters and Helmcken will be taken into the cabinet.

THE ELEVATIONS.

The Principal Points in the Boundary District.

Now that railway surveys are the fashion in the Boundary country the elevations will be read with interest. Here are the figures given by the C. P. R. engineers:

Summit (between Cascade and Robson)	3,975
West Robson	1,410
Cascade	1,578
Grand Forks	1,737
Eholt	3,086
Greenwood	2,454
Mother Lode	3,322
Phoenix (Knob Hill siding)	4,677
B. C. Mine	3,592
Midway	1,903

Violins, mandolins and guitars from \$5.00 up at the Greenwood Music Store.

WORTH MONEY.

Some Sworn Figures Regarding Heine's Company.

Certain shareholders in the American smelter trust having asked for an injunction restraining the trust from acquiring the Boston and Montreal and Butte and Boston mining companies for \$56,260,000. Sworn statements were filed with the court giving figures to prove the value of the said companies.

The answer of Henry H. Rogers, vice-president of the Amalgamated Copper company, and, since the death of Marcus Daly, the acting president, admitted that the purchase of the Boston and Montana company at \$375 per share would involve an expenditure of \$56,260,000, but denied that such expenditure would be excessive.

The answer further sets forth that the market value of the Boston & Montana stock is greater than \$375; that the stock is now selling at \$450 per share, and that it is largely dealt in, particularly in Boston. In 1890, the company paid dividends amounting to \$6,150,000 and in 1900 dividends of \$6,450,000. On February 20, 1901, a quarterly dividend of \$1,500,000 was paid. The answer says that the physical property and assets of the company, leaving out the good will and intangible assets, are worth at least \$50,250,000.

The Butte and Montana company, which was the successor of the Butte and Boston Mining company, the owner says, was organized when the Butte and Boston company went into the hands of a receiver in 1897. The properties of the latter company, now owned by the Butte and Montana company, were bought for \$1,000,000, but have enormously increased in value and are now worth \$115 or a par value of \$100. In January, 1901, the highest price was \$110 and the lowest \$95.

The answer announces that \$18,500,000 is an excessive price for the properties of the company. Similar affidavit was presented by William Rockefeller, vice-president of the Amalgamated Copper company. It says that the company is an investing company, and that \$75,000,000 worth of stock was issued for acquiring copper properties when it seems clearly for the benefit to the entire body of shareholders to do so. The Amalgamated Copper Company already owns 10,000 shares of the Boston and Montana company, which it acquired in 1900.

Similar affidavits were presented from Frederick B. Addicks, assistant treasurer of the Butte and Boston; Godfrey Hynes, general manager of the Boston and Montana company; Clarence King geologist and mining engineer, and Robert Winsor, of Kidder, Peabody and company of Boston. C. M. Verner, of Boston, holding 100 shares of the Amalgamated Copper company, is associated with Mr. Geer in the action.

CITY ENGINEER PREPARES ESTIMATES OF WORK TO BE DONE

FOR MONEY AVAILABLE.

SEVERAL GRADES AND A FEW SIDEWALKS—BY LAWS ADVANCED A STAGE.

Ald. Sutherland was in the chair with Ald. Caulfield, Sullivan and Ross present at the regular meeting of the council on Monday evening. E. Jacobs asked \$15 to assist in the publication of 10,000 copies annual report Board of Trade. The request was granted. Chas. Pittock representing K. of P. asked that they be allowed the piece of ground already selected for cemetery purpose. The council agreed to this.

Sydney M. Johnson, city engineer, presented the following report:

GREENWOOD, B.C., May 11th, 1911.

To,
The Mayor and Aldermen,
of the City of Greenwood:

Gentlemen: In accordance with your instructions, I have made an estimate of the necessary work to be done on the streets for the present year, the appropriation to be \$4,500. I having in view of the limited means available for this purpose, confined my attention to the most pressing needs only.

I find that to carry out the following sums have been expended on the streets:

Protection of Boundary Creek	123 31
Yale-Columbia yards	131 00
Miscellaneous	
Total	\$254 30

Also bills for side walks constructed by private individuals, who were to be reimbursed by the city, said bills being passed by the late council.

	136 85
	400 00
	35 00
	180 00
	\$1006 15

Total appropriation	4 500 00
Already spent or appropriated	1 006 15
Balance available	\$3 493 85

With this sum at my disposal, I would recommend the following improvements:

Establishing grade on Church street	40 00
Stumping Church street, Louisa street from Church to Kimberley, stumping Marguerite street from Wood street to Duncan McIntosh's	180 00
Grading roadway Church st., from Providence to Louisa	200 00
Moving 200 yds of gravel from Wood street to Louisa, between Kimberley and Copper streets	120 00
This latter item would make the school and Catholic church approachable from Kimberley, and also give an avenue to the station from the northern part of the city.	
Establishing grade on Long Lake st., Long Lake st., Greenwood to Lincoln. Establishing grade on Lincoln street, Long Lake to Dundee	50 00
Clearing and stumping Long Lake street	100 00
Grading Long Lake street, Greenwood to Lincoln and Barbara	350 00
Grading Summit st., from Greenwood to hospital	200 00
Grading Silver St. between Mowat and Mill Sts.	200 00
Improving Government st. between Providence and Louisa, removing the large stones and fill near Louisa	100 00
Side walk, 6 ft. wide and preparing foundation for same Silver st., Greenwood to Deadwood. Sidewalk 6 feet wide and preparing foundation on Deadwood st. Silver to Copper	180 00
Sidewalk 3 ft. wide, North side of Louisa street, from Kimberley to Boundary Avenue	100 00
Sidewalk 8 ft. wide on East side of Government st. from Centre to Deadwood	115 00
Sidewalk 6 ft. wide on South side of Deadwood streets Government to Presbyterian Church	75 00
Sidewalk, 6 ft. wide, on the North side of Mineral St., Government to Kimberley, to proposed English church	75 00
Sidewalk 6 ft. wide on East side of Gold st., from Mowat to Mill	120 00
Total	\$2205 00
Engineering and superintendence, 10 per cent	220 00
	2425 00
Amt. already appropriated less	4 500 00 5 431 15
Balance	\$1 068 85

This balance of \$1,068.85, in view of the present condition of the crib on Boundary Creek and the necessary expenditures which it is impossible to foresee, I consider a safe factor of safety.

I have not given details of the proposed items of expenditure, as I think the reasons for them are apparent, my purpose being to give facilities to public institutions and roadways where residences have been established. I have the honor to be,

Gentlemen,
Your obedient servant,
SIDNEY M. JOHNSON,
City Engineer.

It was considered in committee and adopted with a further appropriation of \$75 for sidewalks on Kimberley avenue. Ald. Ross moved and Ald. Caulfield seconded that tenders be called for establishing grade on Church street, stumping church street, Louisa street from Church to Kimberley, stumping Marguerite street from Wood street to Duncan McIntosh's, establishing grade on Lincoln, Long Lake to Dundee, cleaning and stumping Long Lake, grading Summit street from Greenwood to hospital, sidewalk Silver between Greenwood and Deadwood and sidewalk on Deadwood between Silver and Copper. Carried.

Ald. Caulfield's street sprinkling by-law was considered in committee and the rate fixed at two cents per foot frontage per month. The rate by-law was read a second time and the council adjourned.

Nitrous oxide and oxygen for pain less extraction of teeth at Dr. Mathison's.

C. V. Semerad headquarters for ripe fruit.

HAD THE CASH.

Albert Casole, an Italian, aged 40, died at the Pacific Hotel early Monday morning from double pneumonia. Deceased was a section foreman in the employ of the Canadian Pacific railway stationed at Eholt, and was essentially of a thrifty nature. In removing the body from the bed a leather wallet was found containing \$135 in cash: two certificates of deposit for \$300 and \$400 each, on the Royal Bank of Canada, Grand Forks; certificate of deposit for \$30 on the Traders National Bank, Spokane; five C. P. R. time cheques for \$59 each and a certificate of deposit on the Italian Bank, at No. 55 1/2 Mulberry street, New York for 1375 lire. His savings covered a period dating from March 1897 when he made his first deposit in the Spokane Bank. As far as can be learned deceased had no relatives in this country.

The funeral took place yesterday morning from T. M. Gulley & Co.'s undertaking parlors. The interment being at the local cemetery.

Dont forget to go to, the South End Grocery for fresh eggs, good spuds, good mocha and java coffee, good tea and fresh groceries.

COLUMBIA HOTEL

To be Reopened Next Monday by Dick Knight.

Dick Knight one of the most popular of the old time prospectors has taken over the Columbia hotel in Deadwood, B. C. Mr. Knight has secured the services of M. O'Leary and Angus McDonald, two well known local mixologists and intends to make the Columbia one of the most popular resorts in the district. He will carry nothing but the best of liquors and everyone patronizing this hostelry is sure to receive a cordial welcome and square treatment. The opening will take place on Monday next when a dance will be given. Good music will be furnished. Mr. Knight was until recently ore smelter at the Mother Lode. He is an adept at this business. The management regrets the loss of his services but Mr. Knight is of the opinion that there is a paying field for a good hotel in Deadwood Camp and he invites the travelling public to give him a trial.
