A HOSPITAL

SISTERS OF PEACE DECIDE TO ERECT ONE

IN GREENWOOD AT AN EARLY

Date—They Have Arranged With the Medical Men of the City for Contract Work.

The Sisters of St. Joseph of Peace have decided to erect a large hospital in Greenwood. Sister Teresa of Rossland and a sister from Nelson were in the district for nearly a week and after looking the situation over decided that Greenwood was the most central point for a hospital. They made arrangements with Dr. Jakes to close his hospital and also with the medical men of the city for contract work. They intend to begin July 1st, and will probably secure temporary quarters until the hospital building is completed. The Sisters are anxious to secure the present school site and as it is entirely unsuitable for school purposes both as far as the building and site is concerned, an effort will be made to arrange with the government for its purchase.

The hospital should prove of immense benefit to Greenwood, as it is the intention of the Sisters to make it equal to any similar hospitals of the province.

Fresh strawberries received twice a week at Semerad's, Copper street.

VANCOUVER MINING YARNS.

The Vancouver fakir has sent the following over the wires:

"The following two stories which show what may yet be done in mining and which have never appeared in print before are herewith given:

In January, 1900, John F. Humpheys, whom many of the readers of this paper will remember as having been mayor of Leadville in 1881-1882, who at the above date was living in Spokane, was so to speak forced into the Britannia mine, B. C. The miue had been hawked about and no one would take hold. He examined it, bought a sevenenths interest in it for $37,500, and during the year 1900 expended $60,000 on it. In January of this year he sold it to the London Exploration Company for two millions, $10,000 being paid down as forfeit. Mr. Valentine, the promoter, went to London and died and the sale fell through, Mr. Humphreys then incorporated with 400 shares of a par value of $625 each. Last month the mine was sold to Bewick, Moering & Co., of London for $1,100,000, and a large forfeit was paid, the balance to be paid in three or four early installments. The promoters are now in London and an expert is on the ground. Careful examinatinns state that the mine can produce 2,000 tons of ore (copper and gold) per day for the next ten years. The peesent owners think they have sold the mine too cheap, but to make a clean million out of an interest of less than one hundred thousand in fifteen months, and get their investment back seems good enough to an outsider.

Mr. Humphreys is a quite, unassuming gentleman, past 60 years of age, and was already well fixed when this good fortune was thrust upon him. This mine lies twenty-six miles from Vancouver on Howe Sound and near tide water.

The other instance which verifies the saying that it never rains but it pours is that of the Gray Brothers. C. H. and L. W. Gray came from North Carolina fifteen years ago and began prospecting. They located the Franklin coal mine, Washington, which they sold for a large sum to the Seattle Coal and Iron Combany. Then they went to Index and put $30,000 into the Copper Bell which they have developed into a large property. Last week they got wind of a gold discovery at Texada Island two miles from the well known Van Anda mine and seventy miles from Vancouver B. C. They went up and looked at it, buying 52 per cent of the property for a song. In sinking eight feet $6,000 was taken out and assays from picked specimens run $50,000 to the ton.

The ledge is three or four feet wide with a pay streak of twelve to fifteen inches and lies in a contact between lime and porphyry and diorite. The specimens from the mine equal anything ever seen."

As a matter of fact the latest Britannia deal has fallen through.

Go to Anderson's pharmacy for drugs, toilet, articles, sponges, soaps, perfumes, etc., Greenwood.

CITY COUNCIL.

Business Transacted at the Regular Meeting Monday Night.

Mayor Jakes and Ald Naden, Caulfield, Sullivan, Sutherland and Ross were present at the regular meeting on Monday. Several bills were reported by the finance committee and ordered paid. The special hospital committee reported having discussed hospital matters with the Sisters and recommended a bonus of $3500 extending over three and half years or $1000 a year. The report was adopted.

City Engineer Johnson reported that the contractor for Summit street had refused to sign the contract and it was decided to call for fresh tenders.

The fire chief was instructed to take a census of all the school children in the city with the object of calling the attention of the government to the present unsatisfactory slim attendance on account of the present school building. The street committee and city engineer were authorized to arrange for the construction of a new road to connect with the Deadwood camp road.

We're here to stay—Anderson the druggist.

MAIL CHANGES.

On and after Mouday June 10th mails will arrive and be despatched from Greenwood post office as follows:

Mails close going East 10:30 a. m.
" " " West 9:30 p. m.
Mails arrive from East 10:45 p. m.
" " " West 11:45 a. m.

Registered mail closes fifteen minutes earlier than ordinary mail.

ANDERSON—BARGER.

F. C. Andersen of the firm of Andersen & Cunningham electricians. and Miss L. Barger were married at the residence of W. J. Kirkwood on Wednesday evening by Rev. Mr. Anderson. Mr. and Mrs. Andersen are among Greenwood's most popular people and the Times joins their many friends in extending congratulations. They went house keeping in the cottage which has just been built by Mr. Andersen.

FATAL PLUNGE

DRIVER KIRKLAND OF CAMP McKINNY STAGE KILLED.

PASSENGERS WERE INJURED

Lost Control of horses on Jolly Jack Hill and Stage, Passengers and Horses Plunged into the Creek Below.

The first serious stage accident in this district for many years took place five miles this side of Camp McKinney on Wednesday morning when Andrew Kirkland the driver was instantly killed and Henry Nicholson J. P. and Mrs. Banners were seriously injured. The stage carrying His Majesty's mails the above named and Henry Clark from Portage La Prairie left McKinney at eight o'clock Wednesday morning. When they reached the hill above Jolly Jack Creek Kirkland lost control of his team. They went dashing down the steep hill. There is a sharp turn in the road at the foot leading to a bridge over Jolly Jack Creek.

The horses were unable to make this turn and missing the bridge plunged into the creek below. The stage overturned with driver Kirkland underneath. Mr. Nicholson was badly bruised, Mrs. Banners had her shoulder dislocated and Mr. Clark escaped without serious injury. It was found that poor Kirkland's neck was broken and he must have been instantly killed. One or two of the horses were killed and the others badly cut up.

Kirkland's body and the injured passengers were taken back to McKinney. Dr. R. B. White the coroner would likely hold an inquest.

The stage and horses were owned by R. Myerhoff who has the contract for carrying the mail between Midway and Penticton. Kirkland was in the employ of Myerhoff for about ten years as a freighter before the advent of a railway and was considered a careful and capable driver. As far as can be ashe had no relatives in this country. He was about 40 years of age and a member of the I. O. O. F. The road at the point where the accident occurred has been considered dangerous for some time. Last session an appropriation was made for improving this road and as is announced in a special correspondence from Camp McKinney the work will shortly be undertaken.

Dr. Mathison, dentist, over Bank of Commerce. Both 'phones.

Violins, mandolins and guitars from $5.00 up at the Greenwood Music Store.

CASCADE POWER AND LIGHT.

Messrs Robertson and Anderson Visit Greenwood and District.

J. Roderick Robertson managing director of the London & British Columbia Gold Fields and Wm Anderson superintendent of the Cascade Power & Light Company were in the city this week and visited Phoenix on Tuesday. The London & British Columbia Gold Fields Co., financed the Cascade concern until a few weeks ago when a subsidiary company was organized in London for the purpose of developing the power at Cascade. The plant has been ordered and by next fall Mr. Anderson believes they will be in a position to furnish power. In the meantime they have called for tenders for erecting the necessary poles between Cascade and Phoenix and as tenders were received from here and Phoenix arranging for the contract was part of Messrs Robertson and Anderson's business here. The works at Cascade have been carried on for over a year and particulars regarding the same will be given in the next issue of the Times.

Mr Robertson has returned recently from Ottawa where he was one of the delegates from Kootenay to urge the necessity for a lead bounty. To Mr. Robertson must be given the chief credit for the success attending the efforts of the delegation as he remained there after the other delegates had returned home and against luke warmness on the part of the government succeeded in securing a bonus which in his opinion will give a great impetus to the lead mining industry in this province.

CHORAL SOCIETY.

The Initial Concert Given by Greenwood Society a Great Success.

The house which greeted the Greenwood Choral Society at their first concert on Wednesday evening was not encouraging. Those who were there were enthusiastic in their appreciation of the merits of the entertainment but too many vacant seats is a poor inducement to local people who train for months in order to provide a first class musical entertainment. The Choral Society were assisted by Mrs. Norman McInnes of Rossland whose singing alone would be well worth the price of admission. The members of the Choral Society who took part were as follows, sopsano: Misses. Amy Laird, L. C. Moffat, Ella Massam, Maud Minkler, Huberta Flesher, Schon, Petch, Farrow, E. Laird, McGregor, altos: Mrs. Forbes M. Kirby, Miss Genevieve Massam, Mrs. A. H. Sperry, Mrs. J. F. Mitchell, tenors: Messrs J. L. White, W. W. Howe, Custance, Maynard, basses: Messrs Lysons, Atwood, Dufresne, W. J. McGregor, Leonard B. Hodge, C. Scott Galloway, soloists: Piano—Miss Wilson, soprano—Mrs. Norman McInnes, Miss Huberta Flesher, Miss Ella Massam, tenor: Mr. J. L. Smith, Mr. Harris, bass: Mr. Leonard B. Hodge. Accompanist: Miss Flesher. Conductor: A. M. Whiteside.

Mr. Whiteside deserves the greatest credit for the success of the concert. When it is considered that this was the first attempt of any of the kind in Greenwood, and that it was necessary to organize the vocolists and train them within a short space of time keenly demonstrated that there is magic in his batin. The voices of the society blended admirably in all the part songs save "The Heavens are Telling" in which apparently there was a disorganized effort to create discord. Miss Wilson who is a recent arrival in the city was heard for the first time in public. She is a graduate of the Toronto Conrervatory of Music and her playing Wednesday evening did credit to her alma mater. Miss Huberta Flesher has a sweet and well trained Soprano voice. She gave "For all Eternity" and the hearty encore which greeted her testified that her singing met the hearty approval of the audience. Another valuable addition to Greenwood's musical talent is Mr. Harris whose baritone solo True till Death was energetically encored. Not since the visit of Madame Trebelli had a Greenwood audience an opportunity to here singing as sweet as that of Mrs. McInnes. In the flower girl a nursery song' and two verses of Annie Laurie as an encore. Greenwood was convinced that something exceedingly good can come from Rossland. Miss Flesher the accompanist of the evening did much towards making the concert a success.

Greenwood is not often visited by professional, there is plenty of musical talent in the city and all those who are anxious for something that will relieve the monotony of every day life should encourage entertainments such as that given on Wednesday evening.

ANOTHER HOLD-UP.

P. L. Nives Attacked by Footpads Near the B. C. Mine.

That the district is infested with a gang of bad men is evident from the several attempts that have been made to rob people. The latest of these attempts occurred Sunday afternoon when P. L. Nives, recently from the Slocan was held up by two men on the road from Eholt to the B. C. mine. Nives on leaving Eholt noticed the two men walking a head of him. After going some distance, they attacked him and he defended himself as best he could. Fortunately others who were coming from the mine to Eholt approached and the would be robbers decamped into the woods.

The provincial police were furnished with a description of the men and they are hopeful of effecting their capture.

THE CARIBOO

FINE SHOWING ON THE WEST DRIFT ON THE FOURTH LEVEL

OF THE FAMOUS MINE.

CAMP MCKINNEY, June 5th.—(Special to the Times.)—There is at present a remarkably fine showing in the west drift at the fourth level of the Cariboo mine. West of the last break the ore has been opened up for a length of 210 feet and the face of the drift shows 12 feet of solid quartz with the hanging wall not in sight. On the lowest level at a depth of 460 feet the east drift has been in a good grade of ore for 300 feet averaging a width of four feet. No attempt is being made to open stoping ground and the ore extracted in development is more than sufficient to supply the capacity of the mill—20 stamps.

During the past five months development work has opened up 75'000 tons of ore, estimated at a value of $12 per ton. The present showing has never been equalled in the history of this famous producer, and if its past record of $478,-087 in dividends is any criterion, it promises something equally as profitable for the future. Early next month it is expected that plans will be fully matured with a view to increasing the capacity of the mill. While the number of stamps to be added has not been finally settled it is expected to be 40, a new compartment shaft is also to be sunk. It will be located immediately south of the present shaft and on a line with the mill.

Eighty tons concentraters have been shipped to Greenwood smelter.

Work is to be started this month on the proposed 'cut off' wagon road between here and Rock Creek. The government has provided an appropriation of $2,000. The proposed route will partially follow the line of the Columbia Telephone Company and will lessen the distance between the two points some four miles, beside avoiding the steep grade up Jolly Jack's hill. A. J. Burnyeat will make the survey.

For lessons on violin, piano, mandolin etc,, see Prof. Kauffman, Greenwood Music Store.

DOMINION DAY.

A big Celebration will be held at Grand Forks.

GRAND FORKS, B. C., June 3, (Special to the Times,)—The Dominion Day celebration here on July 1 promises to be one of the finest affairs of the kind ever held in the Boundary country. The programme includes horse races, a lacrosse match, foot races and drilling contests. At a meeting of the various committees held last evening it was announced that $3,000 will be offered in prizes.

The new half mile track will be completed in ample time for the meet. It is expected that Montana, Idaho, Washington and Okanagan horses will compete. The events include the following.

Qnarter mile dash, first prize, $200; second prize,$75; five eight's of a mile, first prize, $175, second prize, $75; boy's pony race, quarter of a mile, $50, second prize, $25; saddle race, distance 300 yds fisst prize, $50, second prize, $25; 300 yds in heats, first prize, $175, second prize, $75; half mile dash, first prize, $200, second prize, $75. In the horse races the conditions are, four to enter and three to start. Entry $10. The first prize in the double —hand drilling contest will be a purse of $200. This event is open to all comers. An effort is being made to secure a large attendance of Americon horses. In addition a programme of athletic sports will be carried out and for which substantial prizes will be offered.

In the evening $1000 worth of fireworks will be dischargred from the summit of Observation mountain, overlooking the city.

Take your prescriptions to the Windsor Drug Store, W. E. Anderson, Greenwood.

ESCAPED FROM JAIL.

F. L. Jones Successfully Made a Dash For Liberty.

F. L. Jones, charged with breaking into the C. P. R. warehouses and who was confined in the city lockup made a bold and successful break for liberty Thursday morning. Chief McLaren was down town to breakfast and the prisoners were in charge of Fire Chief McKenzie. Jones scaled the high fence at the rear of the city hall and made a bold dash up the hill towards the hospital. He was soon missed by the fire chief who after a deligent search found him hiding behind a log. Before he could be captured he ran again when McKenzie called upon him to stop or he would shoot. Jones stopped but finding that McKenzie was without a gun, he started again. The chase continued up and down the hill until the waterworks dam was reached when Jones secreted himself in the woods. McKenzie returned to the city hall for help and Chief McLaren Officer Lawder, G. B. Taylor, city clerk and a C. P. R. detective startep in pursuit. The hills are steep and wind was at a premium for the rest of the forenoon but Jones succeeded in eluding the police. He had been in the jail for several days, his case having been adjourned from time to time in order to give the police an opportunity to secure evidence.

LOCAL HAPPENINGS.

Fresh candy at Semerads.

W. P. D. Pemberton, Victoria, is at the Armstrong.

Fresh strawberries daily at Semerads.

Geo. E. Funder the Rossland mining man is at the Armstrong.

Fresh candy at Semerad's, Copper street.

W. H. Covert, of Grand Prairie, was a visitor in the city this week.

Bromogrip for colds—Anderson's pharmacy.

Geo. R. Naden and H. S. Wallace have returned from a trip to the Similkameen.

Goods promptly delivered to any part of the city. Semerads Columbia phone 107.

M. J. Ready representing the Sullivan drill, registered at the Armstrong this week.

Russian Corn Paint—Anderson's pharmacy.

A. B. Cowan, of Cowan & Co., Galt, manufacturers of sawmill supplies paid the city a business visit this week.

Fresh fruit of all kinds at Semerad's, Copper street.

Geo. Buscombe, Vancouver, and Fred Starkey, Nelson, two well known commercial men were at the Imperial this week.

Headquarters for dressmaking and millinery at G. F. Williams.

During the concert Wednesday evening, the Auditorium was scented with Lorna by Messrs. Miller Bros. Lorna is a pleasant and fashionable perfume.

Fresh strawberries received twice a week at Semerad's, Copper street.

A public meeting will be held in the city hall this Thursday evening for the purpose of discussing plans to secure better and more central school accommodations.

Mail orders promptly filled—Anderson's drug store.

A lodge of the Independent Order Of Oddfellows will be instituted at Phoenix on the 20th inst. Greenwood and Grand Forks lodges will take charge of the ceremonies. There are a large number of oddfellows in Phoenix and they with the new members coming in will make a strong lodge.

Poultry and good steaks always on hand at the Gem restaurant.

A committee has been appointed by the Trades and Labor Council to arrange for a big Labor Day celebration in Greenwood. They will wait upon the city council with a view to securing its co-operation. As there is to be no Dominion Day celebration here this year, the idea is an excellent one.

Prescriptions filled correctly—Anderson's pharmacy.

H. Bunting returned last week from Rendell where he and C. Dempsey erected a two storey building for Keitn & Co., general merchants, and a printing office for J. W. Grier who leaves on the 15th for Rendell in order to make arrangements for the publication of a weekly at that point on July 1st. Mr. Bunting reports that several other buildings will be erected in Rendell shortly.

Rooms at the Clarendon 50 cents per night.

REAL ESTATE SALES.

Two Lots Purchased This Week by Duncan McIntosh.

After a season of dull times, there are now many inquiries for Greenwood real estate. Residential lots are in demand by those who have decided to build residences of their own. This week Duncan McIntosh purchased two business lots on Copper street. These were the lot next to White's drug store owned by W. A. Corbett and the other near the Commercial hotel where Wright's shop stands and owned by Mrs. A. D. Worgan of Okanagan. The prices paid show that prices for business lots are not on the decline. Mr. McIntosh also purchased three residential lots in the upper part of the city upon which he will build cottages this summer.

W. G. McMynn is excavating his lot on Long Lake street for a handsome residence which he intends erecting thereon. J. W. Mellor will build a two storey bridk and stone business block next to the bank of B. N. A., and as already stated the Russell-Law-Caulfield company are calling for tenders for the excavation of their lots upon which they intend building a large brick and stone block this summer.

Mr. Bunting has started work on the English church and several residences are under course of erection. Then the Sisters hospital will be erected this summer so that the outlook for the building trade is not at all discouraging.

The best ice cream daily at Greenwood Candy Factory. We guarantee it pure, C. V. Semerad.

THE MAN BEHIND THE PICK.

BY BURT A. JUDD.

There has been all kinds of gush about the man who is behind,
And the man behind the cannon has been toasted, wined, dined,
There's the man behind the musket, and the man behind the fence;
And the man behind his whiskers, and the man behind his rents;
And the man behind the plow beam, the man behind the hoe;
And the man behind the ballot, and the man behind the dough;
And the man behind the counter, and the man behind the hill;
And the man behind the pestle, and the man behind the pill;
And the man behind the jimmy, and the man behind the bars;
And the Johnny who goes swooping on the stage behind the stars;
And the man behind the kisser, and the man behind the fist;
And the girl behind the man behind the gun is on the list;
And the man behind the bottle, and when they were short of men,
There was some small rhymster warbled of the man behind the pen;
But they missed the honest fellow, and I'm raising of a kick;
They didn't make a mention of the man behind the pick.
Up the rugged mountain side a thousand feet he takes his way;
Or as far into the darkness from the cheering light of day;
He is shut out from the sunlight, in the glimmer of the lamps;
He is cut off from the sweet air in the sickly fumes and damps;
He must toil in cramped positions, he must take his life in hand,
For he works in deadly pearly that but few can understand,
But he does it all in silence, and he seldom makes a kick,
Which is why I sing the praises of the man behind the pick.
He unlocks the bolted portals of the mountain to the stores
Hid in Natures vast exchequer in her treasurer house of ores.
He applies the key dynamite and the gates are backward rolled,
And the ancient rocks are riven to their secret heart of gold.
Things of comfort and beauty and of usefulness are mined,
By this brave and quiet worker; he's a friend of humankind
Who, though trampled down and underpaid, toils on without a kick,
So I lift my had in honor to the man behind the pick.

THE CITY SCHOOLS.

Under the new School Act the city of Greenwood will be called upon to maintain its own schools from January 1st, 1902. Heretofore the maintenance of schools outside of four cities on the coast rested with the government. We have no quarrel with the government because of its decision to extend the scope of municipal control over educational matters but do think before the change is made that all cities should be placed on an equitable basis in so far as proper school buildings are concerned. In Greenwood the school building itself and its situation have combined to make the attendance at the public schools not at all in keeping with the number of children of school age within the city. The building is situated away from the centre of population, making it inconvenient for small children to attend there. The building itself is built upon plans that were positively refused by many boards of school trustees and met with such violent opposition that they had to be withdrawn by the department. The building makes a first class hot house in summer and is a veritable ice house in winter so that at any season of the year it is unfit for children. The result is that not half the children of the city attend the public school. This is a serious matter for the city when it is considered that next year government aid comes in the shape of a per capita grant based upon the average attendance. With suitable and convenient school accomodation that grant would be satisfactory, but with a school building that places a high premium on non-attendance, the situation is unfair to the municipality. The point we wish to make is that the government should arrange for adequate school accommodation before turning the schools over to the city. They have promised this in other cities and we see no good reason why different treatment should be accorded Greenwood.

We think it would be wise for the government to arrange a sale of the present property with the Sisters. The proserty will never be saitable for school purposes nor is it likely that another opportunity to get rid of it will present itself. The government should then secure a more central site and erect a building in keeping with the importance of the city.

THE V. V. & E. RAILWAY.

A well written and neatly printed pamphlet is being circulated in reference to the Coast-Kootenay railway. It is a history of the struggle to obtain competitive railway from the coast to the interior and how the enterprise was blocked by the Dunsmuir government. It is a strong presentation of the V. V. &E. side and very siinteresting reading. The reasons for publishing the statements therein contained are given as follows :

1. To lay before the people of British Columbia an accurate and connected statement of the facts relating to the legislation in the matter of the Coast-Kootenay railway;

2. To show that the Dunsmuir Government have, in the legislation which they have brought down, disregarded the almost unanimous expression of public opinion throughout the Province, and have not performed the pledges made by the ministers to their constituents in the general election which returned them to power.

That the Loan Act which they had passed is beyond all question detrimental to the interests of the Province generally and to the coast cities in particular.

That it discloses an undue preference for the Canadian Pacific Railway company.

3. And to warn the public of the very dangerous situation which is now created by the active interference of the Canadian Pacific Railway in, and the undoubted influence which that corporation possesses over, legislative affairs in British Columbia.

JUST DAMAGES.

The versatile telegraph operator, the intelligent compositor and the omniscient proof reader working with a common object in view often succeed in making trouble for the newspaper proprietor. A striking instance of this occured in Louisiana the other day when the Times-Democrat was mulcted in damages and heavy costs for calling a Methodist minister a negro. Methodist ministers in Louisiana like Methodist ministers nearer home are addicted to speaking in public. This one referred to was giving utterance to remarks of sufficient importance to induce the enterprising correspondent of the Times-Democrat to write a report to his paper. For some reason best known to himself the correspondent desired to speak in complimentary terms of the Methodist minister and described him as a "cultured gentleman." The telegraph operator made it "colored gentleman" and it came in that way to the Times-Democrat office. The proof reader improved upon it by changing "colored gentleman" into "negro" and the mischief was done. The learned judge held that libel had been committed and the word complained of was provoking to an extreme degree. Inserted as it was in one of the daily papers, it was enough to arouse the most profound indignation of the most patient man.

SISTERS' HOSPITAL.

The decision of the Sisters of St. Joseph of Peace to erect their hospital in Greenwood is of the greatest importance to the city. There is nothing more attractive in a mining town than an efficient hospital where the workmen in the surrounding mines are sure of the best treatment in the event of sickness or accident.

The public will also be gratified to learn that while the Sisters could not see their way to take over Dr. Jakes' hospital they have made satisfactory arrangements with him. In the early days of the district Dr. Jakes maintained a splendid institution against adverse circumstances and it is only proper that he should be considered in securing a larger and more public institution in the city.

J. W. GRIER, managing editor of the Greenwood Miner, leaves for Rendell on the 15th to begin the publication of a weekly paper at that point. The West Fork, rich as it is, could not succeed without a newspaper and no better all round man than "Jim" could be found to launch the pioneer journal of a district which in a short time will have several newspapers.

ANOTHER smelter, a large public school, a first-class hospital and good times are among the probabilities for Greenwood this summer.

LOCAL NOTICES.

Home cooked meals, just the same as you used to get before you left the Old Folks at Home. At Kerfoot's.

LOCAL HAPPENINGS.

W. T. Smith left on Saturday for Spokane.

Two cars potatoes for sale at Crowstons store Gov. street.

Percy F. Godenrath is visiting the camps of the Similkameen.

Andrew Laidlaw visited the West Fork during the past week.

Crowstons store Gov. street is the place to get good potatoes.

J. B. McArthur was in the city last Saturday on his way to Rossland.

British Columbia has another city, Slocan being the latest to be added to the list.

Richard Plewman of the Winnipeg Mines Ltd., was here the end of last week.

You need not be in need of potatoes, upwards of 50000 lbs of them at Crowstons store Gov. street.

H. C. Shaw and J. P. Myers Gray attended the County Court sitting in Grand Forks this week.

The latest placer excitement is in Franklin camp, to which many are rushing in search of the yellow metal.

Alex Henderson, attorney-general in the Semlin government has been appointed County Court Judge for Vancouver.

The Russell Law Caulfield Company Ltd are calling for tenders for the excavation of their lots adjoining the present premises.

The Dominion Copper Company,s addition to Phoenix was placed on the market this week. There was a heavy sale of real estate at good figures.

Adolph Fisher has purchased the business of the Queen Cigar Company from I. Robert Jacobs and will carry on the business in the future. "Bobby" will likely visit Dawson this summer.

The men of St. Jude's church last week had an old fashioned bee and cleared the greater portion of the ground consecrated for burial purposes by the Church of England. The ladies were there, too, and furnished refreshments.

Hugh McCutcheon has received a letter from W. S. Keith announceing the arrival of the Canadian Contingent for the South African Constabulary. They were leaving for the front the day after the letter was written.

W. T. Hunter, accompanied by two of his sons returned to the city from a visit to his old home in North Dakota on Friday last. Mrs. Hunter arrived this week. The family have taken up their residence on Kimberley avenue.

R. G. Sidley J. P. of Anarchist mountain was in the city for several days last week. He stated that the outlook for the farmers in his locality was most promising, the recent rains materially assisting the growth of the crops.

Messrs Miller Bros of this city have been appointed sole agents for the B. C. Assay & Chemical Supply Company Ltd., of Vancouver B. C. They have secured a complete stock of goods and any thing in the line of assay supplies can be purchased from them at low prices.

The following have been elected officers of the K of P lodge for the ensuing term: M. Berger, C. C.; Norman McLeod, V- C.; Chas R. Pittock, prelate; Geo. Barber, M. of W.; A. D. Hallett, K. of R. and S.; K. C. B. Frith, M. of F.; re-elected; L. G. Whitbeck, M. of E.; M. Eilderman, M. at A.; K. McKenzie, I. G.; A. Allmacher, O. G.

Lieut. Leckie D. S. O. has received a letter from Ronald Harris the well known mining engineer who is at Mossamides, Portugese West Africa. He is engineer for Messrs Harrison & Barchard who at one time owned the B. C. Mine. They are investigating the placer wealth of that country. Mr. Harris is not in love with the country and intends to return in a short time.

R. P. Williams resident agent for the Jenckes Machine Company has just closed with the Granby Company for a timber framing machine, the first to be sold in the district. It will save a great deal of labor in connection with the timbering of the big mines. It also includes a wedge sawing machine. The order also includes a Jenckes stationery engine and other appurtinances.

Charles F. Alston who resigned the position of city engineer here in January last expecting to take a similar position in Nanaimo B. C. has been appointed engineer for the Black Eagle Mining Co., at Rat Portage Ont. Owing to difficulties about the transfer of waterworks no engineer was appointed in Nanaimo and Mr. Alston was employed by the New Vancouver Coal Co. until he accepted the latter position.

CHINESE QUESTION.

To the Editor: While the Chinese commissioners are holding sessions throughout the province at an enormous expense to the country; while the city of Phoenix is having considerable trouble in regard to the Chinese immigrating to that city; while the workingmen of Greenwood are fighting the Chinese of their city in order that they might drive them out of competition, their are still some that wish them success and drink to their health especially Greenwood's city fathers. There is only one hotel in this city that employes Chinese and that hotel was chosen by our council in the face of all this opposition which we have mentioned. This is not very encouraging for us, as we looked to you for your support. Why don't you give it to us? Why do you banquet students in an hotel which employes Chinamen. We thought better of you. If there was not a first-class hotel in your city that was not employing white labor only, we would not have written this.

Hoping dear editor you will find space for these few lines we remain

Yours etc.,

Boundary Trades and Labor Council.

Greenwood, B. C., June 4th, 1901.

GRANBY CONSOLIDATION.

Montreal, June 5.—The consolidation of the Granby mines into the Granby Consolidated Mining company was effected today, when the following directorate was elected: A. C. Miner, president: Jay P. Graves, vice-president and general manager; A. L. White, secretary; George W. Wooster, treasurer; A. C. Flumerfelt, assistant general manager. The following appointments were made: W. Y. Williams, superintendent of mines; A. B. S. Hodges, superintendent of smelters. The first meeting of the shareholders is to be held in August.

MANNERS FOR MINERS.

The following pointers to young miners are taken from a Colorado contemporary.

Always designate the Super as the "Old Man." It may inspire him with a parental regard for some who evidently need a guardian.

Don't fail to call the foreman "Captain." It may impress him (where impressions are possible) with a more exalted sense of importance and indispensability.

Never fail to mention the way things were done and run in some other "model" where you were formerly employed. This will create the impression that you are a "master among craftsmen."

Never let an opportunity pass to enlighten the public at large with reference to all that transpires in and about the mine. By so doing they will eventually know more about its workings and prospects than those who are paid top salaries for such knowledge.

Pick up all of the Cousin Jack terms possible, especially if either your Super or Foreman hail from the "Hornwall of old Albion," and fire them off frequently when in their presence. If this won't make them feel homesick, they are fully naturalised.

If in drilling double-handed, you should hit your partner, convince him, if possible, that it was his own fault; else console him with the assurance that he is not hurt nearly half so bad as the last fellow you struck. This will cause him to conclude that you think twice as much of him as you did of the other fellow.

Don't fail to cuss the blacksmith occasionally, especially if your holes fissure. Never for a minute admit any fault of your own.

Should the other shift accomplish more work than yours insist that it is only the result of your superior wisdom and foresight in giving them a show.

If the rock should prove very rich, pick out all of the handsome specimens you can and save them for the Super. Nearly all thrifty, honest miners do this.

If your holes fail to explode, cuss the fuse and detonators, as well as their manufacturers; if they fail to break, "blow up!" the dynamite and its compounders.

Should the Super and owners visit you in the mine don't fail to chip in the conversation at every opportunity. This will probably prove the means of your getting promoted—somewhere else.

Don't forget to pay your respects to the carpenter if the timbers fail to fit, and declare that either his square is not perfect or else his mechanical ability is not sufficient to construct a chicken-coop.

Don't say too much about the engineer. "He has the drop on you."

Rooms at the Clarendon 50 cents per night.

Vancouver prices at Anderson's drug store, Greenwood.

WANTED—Trustworthy men and women to travel and advertise for old established house of solid financial standing. Salary $780 a year and expenses—all payable in cash. No canvassing required. Give references and enclose self-addressed stamped envelope. Address manager, 355 Caxton Bldg., Chicago.

NOTICE.

Notice is hereby given that thirty days from the date hereof I intend to apply to the Board of License Commissioners in the City of Greenwood, for a transfer of the licence now held by me to Sidney Oliver, for the premises situate on Gold Street, Greenwood, and known as the Ladysmith Hotel. OLA LOFSTAD.

Dated June 4th, 1901.

Rooms at the Clarendon 50 cents per night. tf

MINERAL ACT, 1896.

Certificate of Improvement.

NOTICE.

HONALULU mineral claim, situate in the Kettle River Mining Division of Yale District. Where located: In Copper camp.

TAKE NOTICE that I, C. Æ. Shaw as agent for James R. McMackson, Free Miner's Certificate No. B1356 and William H. McMackson, Free Miners Certificate No. B13593 intend; sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action under Section 37 must be commenced before the issuance of such Certificate of Improvements.

Dated the 20th day of November, 1899.

192 C. Æ. SHAW.

Licence to an Extra-Provincial Company.

"COMPANIES ACT, 1897."

CANADA:
PROVINCE OF BRITISH COLUMBIA }

THIS IS TO CERTIFY that the "Montreal and Boston Copper Company, Ltd." is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in Montreal, Province of Quebec, Canada.

The amount of the capital of the Company is $500,000, divided into five thousand shares of $100 each.

The head office of the Company in this Province is situate at Greenwood, and Clive Pringle, Barrister-at-Law, whose address is Greenwood aforesaid, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 11th day of March, one thousand nine hundred and one.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The following are the objects for which the Company has been established:

a. To mine, quarry, work, mill, manufacture and prepare for sale by any process, and to carry, sell and deal in coal, coke, iron, iron ores, stone, copper and copper ores, manganese and any other minerals, clays or mineral substances, and generally to carry on the trades of mine and coal owners, iron masters, founders, smelters of metals, and quarrymen and ore and metal dealers:

b. To purchase or acquire any interest in, and to hold, use or occupy any lands, buildings, coal and other mines, minerals, mining or other rights, easements or privileges, and the Company may sell and convey the same by deed or deeds with the usual full covenants or otherwise:

c. To let or sub-let for building, mining or any other purpose any property, and to give and grant any rights, licenses, easements or privileges:

d. To construct, purchase, alter, operate or maintain, or to contribute to the purchase, construction, alteration, operation or maintenance of any building, railway, tramway, wire rope tramway, canal, bridge, pier, road, ship, steamer, barge or other work calculated to afford any facility in carrying on or extending the business of the Company, and to operate such railway, tramway, wire rope tramway, canal, wharf bridge, pier, road, ship, steamer, barge, and other works by steam, electricity or other motive power:

e. To purchase, hire, charter, construct, maintain, operate or manufacture for use in connection with any business of the Company any ships, steamers, barges, rolling stock, machinery or plant:

f. To acquire any exclusive right in letters patent, franchise or patent rights or privileges or lands in connection with the business of the Company.

g. To farm any land held by the Company, and for that purpose to buy, sell and deal in any farming stock or produce:

h. To construct and maintain telegraph and telephones, and generally to carry on the business of a telegraph and telephone company, and to transport freight and passengers on land and water, in connection with and confined to the business of the Company:

i. To acquire the good-will of any business within the objects of the Company, and any lands, privileges, rights and contracts pertaining to the same, and in connection with such purchase to undertake the liabilities of any company, association, partnership or person:

j. To sell or otherwise dispose of the whole or any branch or part of the business or property of the Company to any Company carrying on or formed for the purpose of carrying on any objects similar to those of the Company hereby incorporated:

k. To acquire by original, subscription or otherwise, and to hold, sell or otherwise dispose of shares, stocks, debentures or debenture stock of any company carrying on, or formed for carrying on, any trade or business within the objects of the Company:

l. To purchase, lease or otherwise acquire, hold and enjoy all property, franchises, rights and privileges, held or enjoyed by any other company or companies carrying or any business similar to that which this Company is authorized to carry on under the provision of its charter. Said property, rights, franchises and privileges, when purchased, leased or otherwise acquired as above stated shall be owned and enjoyed by this Company as fully and effectually as the same were heretofore held and enjoyed by the Company from which the same were so purchased, leased or otherwise acquired, subject to all existing valid liens and charges.

FROM SIMILKAMEEN.

News Letter from the Mining District West.

PRINCETON, June 3, (Special to the Times).—A general feeling of dissappointment exists, owing to no contract having been made for the Coast-Boundary railway. A well-known mining man from Kootenay said: "If a definite announcement had been made by he government about the railway, and a date for commencement and completion settled, the Similkameen country would have been flooded by responsible mining men looking for properties."

The Sunset is being kept in shape for the immediate resumption of work. Engineer Stewart is keeping the water below the 150-foot level, and all preparations are complete for starting a large force of men.

The Jennie Silkmann is developing into one of the banner properties on the mountain. French and Day have run a large open cut 104 feet across the ore body without reaching its limit A sampling of 45 feet on the surface shows 7 and 6-10ths per cent copper. A shaft is being sunk at the discovery post, which is producing exceptionally good ore. The development work will be carried on next week with two shifts and it is the intention of the owners to have the claim asurveyed and crown granted as soon as possible.

Near the Jennie Silkmann the Snowden boys have been getting some fine ore on the Oriole. In the last five feet of the shaft the ore has strengthened, and is showing improved values.

The Ada B. is another prospect which is showing the ear-marks of a mine. At the bottom of the shaft a strong ledge of rich copper ore has been encountered. As soon as President Brown, of the Sueset, returns and the first payment on the different claims he has bonded are made, several properties equally good as the Sunset will be developed.

James D. Sword, of Montreal, accompanied by L. L. Patrick, M. E. of Molson are registered at the Hotel Tulameen. Mr. Sword is a mining man who is well known in the Rossland and Kootenay districts- He represents prominent Montreal capitalists, and it is quite possible that his principals may invest in the mines of the Similkameen. The gentlemen are making a careful examination of the different camps in the district. They have already visited Twenty-Mile and Copper Mountain camps, and will spend a few days looking at the resources of the Aspen Grove, Boulder Creek, Kelly Creek and other camps. Mr. Sword is quite satisfied with the properties he has seen, and has no doubt this camp, when properly developed, will be one of the largest corper producers in the province.

GREENWOOD, B. C.

OLIVER'S SIDE

MANAGER MORRISON MINES MAKES A STATEMENT

OF THE COMPANY'S AFFAIRS

He Gives the Directors Side of the Controversy and Criticizes the Dissatisfied Shareholders.

Owing to the fact that considerable interest is being taken in the present controversy between certain shareholders of the Morrison Mines and the directorate and also because the Times is anxious to deal fairly with both sides the following statement from F. H. Oliver managing director of the Morrison is published:

To the editor of the Spokesman-Review: In your paper of the 27th appeared an article from Greenwood B.C., evidently written by one Mr. Keefer, a stock broker. The article stated that "no fraud is charged," but "poor management."

Another article, published in the Greenwood Times of the 23rd, reported the proceedings of a meeting of the dissatisfied stockholders, claiming we have at all times refused stockholders the privilege of examining the books; that they represented 216,000 shares of stock: that they wanted an extraordinary meeting called at Greenwood, and demanding that the home office be moved from Spokane to Greenwood. And they ask that they be allowed to come in at any meeting and vote without paying their assessments; also that a new board of directors be elected to fill the vacancy of those who are going to be fired. (A very modest request indeed, all of which can be carried out if they can muster the necessary number of votes.)

DID NOT HAVE THE STOCK.

About one month ago a meeting of what was reported to be dissatisfied stockholders took place at Greenwood, and the next morning their appeared an article in The Spokesman-Review stating their troubles, and representing that at said meeting there were 240,000 shares represented (which, if it had been true, could have demanded an extraordinary meeting.)

In due time the petition arrived at our Spokane office, and we found they controlled 46,000 registered shares, about 200,000 short of what they represented. They asked in their petition that the directors call an extraordinary meeting, and they requested that it be called at Greenwood. (They could not come to Spokane and meet with the balance of the stockholders who represented 1,150,000 shares.) This request was ignored. They then appealed to the court and succeeded in obtaining an injunction. In their petition to the court they represented 71,173 shares of stock.

REFUSED TO BE DIRECTORY

They also claim that the directors have refused to allow them to see the books. Immediately after their first meeting in Greenwood the directors requested me to call up our attorneys at Greenwood by 'phone and offer to the dissatisfied shareholders the privilege of naming an expert accountant to come to Spokane and examine the books, we to pay his expenses and a per diem.

We also had a vacancy on the board at the time, and offered this to one of their number, all of which they refused. They claim that one Hanauer (a broker) was instructed to come to our office for the purpose of examining the books. He presented himself at the office and asked to see the books. They were all spread out for his inspection, and immediately he grabbed for the stock ledger and started to copy off the names and addresses. This the secretary refused to allow him to do.

We have been asked several times by the same brokerage firm to allow them to copy off the names and addresses of the shareholders, one request being made a few weeks previous to the late assessments, when the stock was very active on the market. At no time have they asked about the finances, the amount of money expended or the amount of work done. We went so far one day as to ask one of them if he wouldn't like to look over the finance account, and he replied, "No, I want to copy the stock ledger."

A Mr. Strong, who represents part of the dissatisfied faction at Greenwood, came to our office and wanted to see the books. He was not at the time a registered shareholder, but we offered to allow him to inspect any of the books. All he desired, however, was to see the stock ledger and copy off data. He looked over the ledger, but did not copy, as we advised him he would have to go to Greenwood to do that.

DO NOT WANT "MEDDLING."

We keep a stock register at our registered office, Greenwood, as the law requires. It is open to inspection there between tho hours of 10 and 12 a. m. This book will always be found there except at short intervals during the year when it is sent to the head office to be written up. In regard to inspection of books at our head office here, we have discriminated between "inspection" and "copying of the books;" between "legitimate investigation" and "meddling," and shall continue to do so.

The disturbing element say they have not charged "fraud." If you will read the little speech by one George Collins, ex-manager of the Brandon and Gold Crown mine, you will note he says: Mr. Hanauer was refused by the company the privilege of examining the books. It looked to him as though the directors did not want any one to see the books, and he asked his hearers to draw their own conclusions. If this is not a charge of fraud, what is it? They claim "mismanagement." If this be so none of them so far has had sense enough to ask for a financial statement, the condition of the mine, or the amount of development done.

I will state in brief the amount of work done: Shaft 350 feet, drifts and crosscuts 2100 feet, open cuts 600 feet. This work, including buildings, machinery, office expenses, in fact, all money paid out in connection with the company, has cost about $55,000.

This may be mismanagement, but it would have been well if some of the ex-managers of the Greenwood District mines could have done as much for their companies. If they had the mine would not be closed down and filled with water, as at present.

WHY MR. ROBERTS RESIGNED.

Prominent among the dissatisfied ones at the meeting at Greenwood was one C. W. Vedder, who was made permanent secretary, and who does not own any shares on record in his name. They also state that the reason of the resignation of E. J. Roberts was because he was out of the city when the levy was made. This is absolutely false. He was in the city and was talking with me not an hour before the meeting, and stated that if he should not get around in time to go ahead and hold the meeting, which we did. This was on the 22nd of April, and he resigned on May 6. In the closing remarks of the chairman, one Julius Ehrlich, he has the following to say: "This gathering is not for the purpose of reflecting anything of a personal nature on the management, It is a simple business proposition to find out just what money has been received and how it has been expended. To do this the books must be examined and a thorough accounting made."

CAN NOT PROVE CHARGES.

If this be true why did they not accept the offer made by the directors? they have charged fraud and mismanagement, and will not be able to establish either. They are asking the stockholders to give them their proxies that they may try and control any meeting in the future. Should they be able to carry out their scheme the board of dirictors would stand about like this: C. W. Vedder, president (occupation, insurance agent); H. M. Keefer, secretary treasurer and official broker at Greenwood (occupation, broker); possibly A. G. Hanauer, official broker a Spokane (occupation, broker), and last, but not least, George Collins, managing director.

Recently the board of directors visited the mine in a body for the purpose of inspecting it, and while at Greenwood the directors informed the complainers that on May 15, at 11 o'clock a. m., they would hold an informal meeting to listen to any complaint they might have to make. Not one of them showed up at the meeting. They claimed at the first meeting 240,000 shares; at next meeting 216,000 shares; a month later (now), if they really have the latter amount of stock. I will put in sufficient more to insure them a meeting, and if they vote they will pay their assessments, all of which will be thankfully received by the company, as it is in need of the money.

The extraordinary meeting called for June 5 was not called for the benefit of dissentient shareholders. It was called before we had and intimation of the injunction and for the purpose as set forth in the notice. F. H. OLIVER.
