THE SUNSET

FOUR HUNDRED THOUSAND TONS OF ORE ABOVE 100-FOOT LEVEL.

A FEW FIGURES GIVEN

To Show What is in Sight in the Deadwood Camp Mine—Improvements Projected—The Sunset Smelter.

There is sufficient ore about the 100-foot level on the Sunset mine, in Deadwood camp, to keep a 500-ton smelter running continuously for over two years. Development work to date has demonstrated that there are approximately 400,000 tons of ore above this level. Two hundred feet south-east of the main working shaft a crosscut was started through the Sunset hill. This crosscut began in ore and continued across the ledge for a distance of 120 feet. From this crosscut was taken the greater portion of the 350 tons shipped last week to the Nelson smelter. From the centre of the ledge to the apex of the hill a 50-foot upraise was made, and this is all in ore. Immediately below this upraise a winze was sunk to the 100-foot level from the working shaft. This winze is of course 100 feet deep, and is all in ore. Midway between the surface crosscut mentioned and the 100-foot level, an intermediate level has been started and the ore body crosscut north and south. The ore body has been traced underground a distance of 360 feet. Mathematicians can now figure the quantity of ore in a body 360 feet long, 120 feet wide and with a depth of 150 feet, mining men allowing 16 cubic feet for a ton of ore.

The old tunnel run years ago on the Sunset is on the 100-foot level. It is being widened out so as to permit two tracks being laid. From this level raises about 35 feet apart are being made through the ore to the intermediate level. The station on the 100-foot level is being enlarged to control the cars, and a new cage is being placed in the other compartment of the shaft so that the ore may be expeditiously handled. The ore above the surface crosscut will be taken ont that way and loaded on the cars direct but the ore below will be sent through chutes to the 100-foot level and hoisted from there through the working shaft. On the 200-foot level a drift has been run south 300 feet. From the breast of the drift an upraise has been run through the ore. The ore will be mined on the 200-foot level in a similar way to that on the 100-foot, that is by means of upraises, the ore being hoisted through the shaft.

The rapid development work of the last few months and the large tonnage in sight induced the management to increase the plant. The compressor is being remodelled and put in shape for sufficient drills to control the required output. An order has been placed with the Jenckes Machine company for the manufacture and supply of a double hoisting engine to handle the double cages that are being placed in the shaft. The new hoist is a 14x20 double cylinder, double drum engine, fitted with Laines' patent clutches, cut gears and rawhide pinions. The drums will be 48 inches long and 72 inches in diameter. It is to be delivered on the cars at Sherbrooke early in November and should be installed before the first of the year. The order includes 750 feet of inch cable for each drum, ropes, ore cars and other requirements for the increased hoisting capacity that will be thus provided. Its capacity is 1,000 tons a day. The necessary power will be furnished by the two 80-horse power boilers already installed at the mine. The boiler capacity will be increased as required.

The railway contractors are rushing the 800-foot spur that is being constructed to provide adequate shipping facilities from the ore bunkers. The grading is about completed, some of the track is laid and the whole should be completed within 10 days.

John Robertson, the well known architect, is at the Sunset, preparing plans and getting out estimates for the large number of improvements that will be undertaken this fall. These include ore bunkers with a capacity of 2,000 tons and a large boarding house, the plans of which show as handsome a building as can be found anywhere. The main building is two and a half stories, with a 50-foot frontage and 30 feet deep. A 38x18 kitchen is attached. The main dining room for the men is 33x30. There is a private dining room 12x16, a reading room 12x16 and steward's sleeping room. On the second floor are commodious bedrooms for the office staff, bath room, office, linen closet and all modern conveniences. The building will be plastered throughout and when finished will present a very handsome appearance. The present buildings will be utilized for sleeping apartments for the men.

A dynamo, with a capacity of 150 lights, has been ordered and will be installed as quickly as possible, to light the mine and the various buildings.

The assay office at the mine is well equipped. It is in charge of Malcolm Galbraith, a graduate of McGill University.

It may be added that a glory hole is being opened up on the Crown Silver an adjoining property belonging to the company. The glory hole is in ore of good quality. The Sunset spur will be continued around the hill to the Crown Silver property so that the ore may be loaded from bunkers beneath the glory hole to the cars. Air machine drills will be installed in the glory hole so that a large tonnage can be secured from this source. The railway spur will also swing round the hill to reach the shaft house on top so as to make it conveient to receive coal and other supplies.

THE SMELTER.

With the mine in position to maintain a large and steady output, the question of treatment is one of great importance. A Times repesentative interviewed Mr. A. A. Munroe of the Montreal & Boston Copper company who is at present at the mine. "We are going to build a smelter" he said "We have decided to retain all the profit there is in the business and the Sunset justifies us in arranging for the construction of the smelter immediately Where will we build? well that depends. Personally I favor Greenwood. I like the town. It is convenient to the mine and there are suitable sites available. And we have been offered inducements to go to Cascade and as it is a business proposition with us we must go where it will best suit our interests. As Greenwood has already shown a willingness to bonus a smelter we see no good reason why we should be over looked simply because our mine is near the city. I can say however that the smelter will be built."

PRESIDENT McKINLEY SHOT.

BUFFALO, N. Y. Sept. 6.—President McKinley was shot by a stranger this afternoon at the temple of music. Two shots took effect in his stomach and his condition is serious. He is now at the hospital at the Pan-American grounds.

Later—The President was shot by Fred Naaman of Detroit who was shaking hands with him at the time. Naaman gives no reason for his act. One is a flesh wound and the other is not as serious as was first reported. The President may recover.

BOLDROBBERY

FRED KAISER, COMMERCIAL HOTEL EHOLT, HELD-UP

BY THREE MASKED MEN

Who Secured Cash and Valuable Jewellery—No Clue to the Robbers.

About ten o'clock last Tuesday night Chief Provincial Constable Wm. G. McMynn received a report by telephone from Fred Kaiser, Eholt, to the effect that his Commercial hotel had a few minutes before been entered by three men, masked and armed, who had robbed him and others of all the money and other valuables the roobers had been able to get hold of.

Unfortunately the information came just too late for outside police officers to be notified of the robbery that night for both telephone and telegraph offices at Grand Forks and other points it was desired to communicate with had already been closed. However Mr. McMynn at once sent men out to endeavor to get on the trail of the robbers, but without their meeting with any success.

The particulars of the occurance vary a little in detail, but it is gathered that about 9:45 on the night in question three masked men, of tall, medium and short stature respectively, entered the bar of the hotel through the front door. There were in the bar at the time Mr. Kaiser and three others and these were told to throw up their hands. One of them treated the matter as a "josh", but a hard tap on the head from a gun made him promptly change his opinion and comply with the preemptory order. Two railway men sitting in the adjoining office and two others in the dining room were brought into the bar and made to line up with the rest. The pockets of all were gone through and all money taken, together with one or two watches. Then Mr. Kaiser was told to open the safe standing in the corner of the bar, and this he did without hesitation, several loaded revolvers in the hands of those requiring him to perform this little office proving very persuasive. In a very few minutes the safe had been rifled, cash and Mrs. Kaiser's gold watch and chain having been taken, whilst cheques and other property not safely negotiable were left on the floor. Mr. Kaiser was likewise relieved of a valuable diamond ring, a diamond breast pin and his gold watch. The contents of the cash register were taken, too, and then with four bottles of champagne and a couple of whiskey, "to drink on the road", as was remarked by one of the robbers, the unwelcome visitors having first warned their victims that anyone showing himself outside the door whilst they were within shooting distance would be fired at, backed out of the front door and disappeared as mysteriously as they had appeared.

A story is told that a C. P. R. engineer, under orders to report at Nelson, had that afternoon received some $400 which, together with a valuable gold watch he had on him. He was proceeding to Kaiser's hotel but stopped across the street about 70 yards away to light a cigar. Having some difficulty in doing so he struck several matches in succession. Just after getting a light he observed three men holding revolvers, come out of the hotel, when they were joined by a fourth man who had been slowly walking up and down in front of the hotel, and the quartette made up the hill at the back of the town. His escape from being robbed was therefore a narrow one.

The booty the robbers secured was estimated at about $2,000 in value, some $400 having been in cash and three gold watches, gold chain, the diamond jewellery mentioned above and other valuables. So far no trace of the robbers has been discovered.

TO FIGHT AT GRAND FORKS.

Dal. Hawkins of San Francisco, champion lightweight of the Pacific Coast, and Koolgardie Smith who was a resident of Greenwood last spring are stated to have signed articles for a 20 round glove contest to take place at Grand Forks on Saturday 21st inst.

A press despatch from Grand Forks announces that the will be governed cy Marquis of Queensberry rules, under the auspices of the Grand Forks Athletic association. The stakes are $1.000, seventy per cent and twenty-five per cent of the gate receipts to winner and loser respectively. Both men who will go into training at once. have posted forfeits of one hundred dollars a side. The referee is to be mutually agreed upon. Koolgardie Smith is an Australian with a record of over fifty victories in the prize ring.

Hawkins is now staying at the Hotel Armstrong and will train here for this event.

Mrs. Hutchens, wife of the superintendent of the Mother Lode mine left by last Tuesday morning's train on a week's visit to friends in Rossland.

R. A. C. McNally, British Columbia representative of the Jas. Cooper Manufacturing company, of Montreal, is over from Rossland, looking up business for his company.

Provincial Constable D. J. Darraugh is reported from Phoenix to be slowly recovering from the acute attack of inflammatory rheumatism from which he has been suffering severely for several weeks.

CELEBRATION

GREENWOOD LABOR DAY CELEBRATION A BIG SUCCESS.

LARGE CROWD PRESENT

The Events Were Keenly Contested and all Enjoyed Themselves—The Winners of Different Events.

Perfect weather, a jolly crowd bent on having a good day's sport and a diversified programme of events combined to make the initial Labor Day celebration in Greenwood a great success. From the starting of the parade until the close of the day's proceedings by the miners' ball in the evening, there was not one unpleasant feature. There was one or two vexatious delays in pulling off the events, particularly the machine drilling contest, but these are to be found at every celebration. The visitors were many. Deadwood camp poured all its residents into the city, leaving no one to guard its treasure vaults. Midway, too, was well represented as was also the country as far west as Similkameen. Then Eholt and Summit camp came with their famous drillers, all enthusiastic in their confidence that the B. C. men would win.

The Grand Forks contingent was a disappointment. On Dominion Day—a day which Greenwood was in the habit of celebrating in the past, and which this year was abandoned in order that the people of Greenwood would have an opportunity to visit the prairie city—there was a large number of citizens went to Grand Forks. Not more than a dozen Grand Forkers could be found in Greenwood on Labor Day. However there was a big and jolly crowd here without them.

Before the celebration, there was some criticism directed against the smallness of the purses, but the result demonstrated the wisdom of the committee in so arranging the programme. The competitors in the drilling were all practical miners; there were no professionals. They drilled for all that was in them, won their prizes and spent their money in the city. The same may be said regarding the horse racing. There was no jockeying or vexatious delays that are usually found when professional turfmen get on the track. Local men rode their own horses and rode them honestly, furnishing plenty of entertainment for spectators.

THE PARADE.

The parade was a splendid success. Led by the Midway band, who throughout the day furnished really good music. the labor organizations and many floats marched through the principal streets of the city. The Miners' Union were out in full force and looked a splendid body of men. They had their banners and mottoes, among which were noticed "A Fair Day's Pay for a Fair Day's Work" "Eight Hour's Work, Eight Hour's Sleep, Eight Hour's Recreation." The Typographical, Barbers', Carpenters' and other unions were represented. The first prize for float was awarded to the Greenwood Fire Department, who spent much time and labor in decorating their wagon and fire team, The display was a creditable one, showing good taste and judgment. The second was won by the Miners' Union, who had a powerful four-horse team hauling a long wagon and steam boiler. On the wagon were several miners engaged in steam and hand drilling. The members of Greenwood Union, who got up the float, were materially assisted by R. P. Williams, of the Jenckes Machine company, who furnished the drills and boiler and who also furnished the drill for the machine drilling. The third place was won by Semerad, who neatly displayed his wares, the float being further ornamented by a picturesque Jehu and two pretty little girls. If mechanical skill counted in the judging, the Carpenters' Union should have had a place. Their float was a summer house whose architectur-

H. A. KING & CO

LABOR CELEBRATION

(Continued from Page 1.)

all beauty and neatness of construction showed that Greenwood carpenters are skilled handicraftsmen. The Elkhorn Brewery, P. Burns & Co., Mr. Archibald and others had floats in the parade. But the most unique part of the parade was Jakey's band. Jake Barnett was in Cariboo in '58, visited every mining camp on the Pacific slope since that time, made fortunes and lost them and finally landed in Greenwood where he earns his own living and where everybody knows and likes him, the old forty-niner is as happy as if he had never spent half a century in searching for the illusive yellow metal. Jakey feels young, too, and he likes to give the boys—the small boys—a good time. He marshalled them for Labor Day, fitted them out in gaudy uniforms and they hauled their Long Tom and drilled their gun with a zeal that would do credit to real soldiers. One young fellow astride a sleepy looking donkey was fitted out as the prospector from Greenwood. Some of the little fellows carried stretches of canvas on which were pencilled scenes of the days of '49 and the days of gold. The judges of the parade were Mayor Jakes, J. W. Nelson and A. W. Strickland.

ATHLETIC SPORTS.

No axemen could be found in the city and the log chopping contest had to be abandoned. In the small sports M. E. Miller was starter and the judges were Mayor Jakes and M. H. Kane. Those winning first and second place in the different event follow:

100 yard dash—F. J. Mitchell, C. Wilson.

220 yard dash—F. J. Mitchell, Jno. Lynch.

Boys' race—Jno. Ferguson, C. Russell.

Girls' race—Carrie Stalling, Effie March.

Bicycle race—B. McIntyre, E. Dill. The bicycle race for the championship cup was won in the same order. This gives the cup to McIntyre.

DRILLING.

After considerable delay in making arrangements, the machine drilling contest took place near the Electric light station. The steam was furnished from the boiler in the power house and the drill used was a new one supplied by the Canadian Rand Drill Co. The drill being new worked hard at first and this militated against the the B. C. men, Geo. McKenzie and Alex. McFarlane, who in casting lots had to take first place. They drilled 42 7-8 inches in the 13½ minutes. All teams began with everything loose and had to erect drill and arrange everything within that time. The winning team was C. Goldworthy and Wm. Chynoweth, of the Mother Lode mine, who drilled 43 1-8 inches. The other team, Young and Shovel, from the Mother Lode, drilled 31 3-4 inches. In the drilling for middle-weights William Tallon and W. Jean were easily the victors. Tallon has not lost any of his old time skill in handling hammer and drills and in Jean he has a crackerjack partner. In the language of the miner, from start to finish they did pretty work, drilling 28 1-4 inches in hard granite in ten minutes. Owing to the lateness of the hour, drilling the upper hole was abandoned. Steve McCarthy and Alex. McFarlane won second money with 20 5-8 inches, and Chynoweth and Shovel were third. In drilling for heavy-weights, Tallon and his partner Durham were victorious, Jean and O'Brien being second and McCarthy and McFarlane third. Judges: R. Hutchens, R. Anderson and R. P. Williams.

HORSE RACING.

Owing to the drilling taking place at the same time, the crowd at the race track to witness the horse races was not so large as it otherwise would have been but those who were there had a good time. The horses were all local and there was no jockeying. The races were close and sometimes exciting. There were some surprises. D. C. McRae's saddle horse exhibited great speed and easily won the race for owners up. The free for all was won by H. Stoecke, while "Mrs." Stoecke won the race for lady riders. J. J. Flood won first place in the pony race, Fungus being second. McRae's horse also won first place in the 600 yard dash. The second place in the free for all was won by C. Bubar, and C. Cawston won second place in the saddle horse race. Judges: Thos McAuley, D. Bannerman and A. Ferguson. Starter: J. Sutherland.

FIREMEN'S RACES.

Greenwood fire boys easily captured the purse for the hub-and-hub race against Trail. In the wet test Greenwood again won first money. A team from the Mother Lode mine exhibited speed and ability to make the necessary coupling, winning from Trail by a fraction of a second.

In the evening the Greenwood Fire Department entertained the visitors in their quarters at the city hall.

THE GRAND BALL.

The ball in the evening under the auspices of the Greenwood Miners' Union was a great success. There was an unusually large crowd present. The music, furnished by members of the Midway band, was excellent. Supper was served by the ladies of the R. C. church.

CELEBRATION NOTES.

The Midway band is all right. The boys play well and were always willing to tune up.

The Corntsh wrestling in the evening furnished plenty of amusement. The victor was Ed. Craze.

Alderman Donaldson and City Clerk Bower were among the few representatives from Grand Forks.

The Trail boys had hard luck but they are good fellows and their visit here was much appreciated.

Chief McLaren looked well in his uniform, but he had little to do. The boys were all good natured and orderly.

Frederic Keffer and S. F. Parrish were among the mining men who were here to see their boys enjoy themselves.

Mr. Turner, of the Columbia telephone office, Grand Forks came over to see the people he has been halloaing with in the Metropolis.

Jno. G. Sullivan and a big party came over from Trail. Mr. Sullivan is kept busy this summer with the construction of the Lardeau railway.

A number went up to see the fight in Phoenix. Upon their return they congratulated the Greenwood committee upon their wisdom in passing the fight up to the dinner bucket town

The Carpenters Union raffled the summer house they had in the parade. The lucky ticket was No. 52 held by H. G. Ceperly the well known insurance man who was a visitor in the city during the celebration.

AN APPROPRIATE SEAL.

The recently incorporated town of Trail has received its seal, which is a very appropriate design. The device is the Trail smelter, with ore cars in the foreground. "Gold Must be Tried by Fire," is the motto, "Smelting and Refining" the industrial title, and on the ribbon are the words "Seal of the Corporation of the City of Trail." The mottos and designs are suggestions of a local alderman and one of the city officials.

NOTICE OF FORFEITURE.

To:

D. R. Campbell and A. C. McKenzie, late of Greenwood in the Kettle River Mining Division of the Province of British Columbia, and to any other person or persons interested or claiming any title to the "Queen Bess" mineral claim, situate in Long Lake Camp (formerly called Gold Drop Camp,) in the said Kettle River Mining Division.

You are hereby notified that Frank B. Goetter of Colville. Wash., U. S. A., and W. G. McMynn, of Greenwood aforesaid, have expended in labour and improvements the sum of one hundred dollars upon the said "Queen Bess" mineral claim, and $2.50 for recording the same as will appear by a Certificate of Work recorded on the 13th June, 1901, in the office of the mining recorder of said Mining Division at Greenwood aforesaid, in order to hold the said cloim under the provisions of section 24 of the "Mineral Act", such being the amount required and necessary to hold the said claim for the year ending the 1st day of July, 1901; and if at the expiration of ninty days of publication of this notice you fail or refuse to contribute your proportion of the expenditure required under the said section 24 of the "Mineral Act", together with all costs of advertising, your interest in said claim shall become vested in the said Frank B. Goetter and W. G. McMynn [your co-owners] under section 4 of the "Mineral Act Amendment Act 1900".

Dated ot Greenwood, aforesaid, this 8th day of August, A. D., 1901.

FRANK B. GOETTER,
W. G. McMYNN.

NOTICE OF FORFEITURE.

To J. A. Drain and C. Hoffman, both of the City of Spokane in the State of Washington.

Sirs:

You are hereby notified that I have expended $100.00 in labor and improvements on the "Alice Maud" Mineral Claim situate in Smith's camp in the Kettle River Mining Division of Yale District in British Columbia, to count as an assessment on said claim, as will appear by a Certificate of Work recorded 23rd March, 1901, in the office of the Mining Recorder for the said Kettle River Mining Division of Yale District, in order to hold said claim under the provisions of Section 24 of the Mineral Act; such being the amount required to hold the said claim for the year ending 23rd March, 1901.

And if at the expiration of 90 days of publication of this notice you fail or refuse to contribute your proportions of the expenditure required under Section 24, together with all costs of advertising, your interests in said claim shall become vested in the subscriber [one of your co-owners] under Section 4 of the Mineral Act Amendment Act, 1900.

Dated at Greenwood, B. C., this 26th day of July, 1900.

W. T. SMITH.

MINERAL ACT.

To Sam Breslauer and others inetrested in the Henrietta Mineral Claim, situated near Beaverton in the Kettle River Mining Division of Yale District:

TAKE NOTICE that I have caused to be done on the Henrietta mineral claim, situated near Beaverton, in the Kettle River Mining Division of Yale District, the work required by Section 24 of the Mineral Act, for the year which has expired, and have expended for such work and for recordidg the certificates thereof the sum of One Hundred and Two Dollars and Fifty cents, ($102.50), and if at the expiration of ninety days from the date of the first publication of this notice you fail to contribute your proportion of such expenditure, namely, the sum of Fifty-One Dollars and Twenty-Five Cents ($51.25), together with all costs of advertising, your interest in said mineral claim shall be liable to forfeiture, as provided by the "Mineral Act Amendment Act, 1900."

Dated this 5th day of July, 1901.

CHARLES PHIPPS.

MINERAL ACT.

To Charles, W. Edwards, and others concerned.

TAKE NOTICE that I have caused to be done on the Uncle Same Mineral Claim, situate in Skylark Camp in the Kettle River mining division of Yale District, the work required by Section 24 of the Mineral Act, for the year which has expired, and have expended for such work and for recording the certificate thereof the sum of one hundred and two dollars and fifty cents ($102.50); and if at the expiration of ninety days from the date of the first publication of this notice, you fail to contribute your proportion of such expenditure, viz. Thirty-four dollars and seventeen cents ($34.17 for one-third interest in said mineral claim, together with all costs of advertising your interest in said mineral claim shall be liable to forfeiture, as provided by the "Mineral Act Amendment Act, 1900.

Dated this 29th day of August, 1901.

EMANUEL PASTRONE.

MINERAL ACT.

To Randolph Stuart, J. C. Haas, I. H. Hallett, Walter D'Eath and others concerned:

TAKE NOTICE that I have caused to be done on the Diamond Joe, Doubtful, May Day and Deer Trail mineral claims, situated in Greenwood camp, in the Kettle River mining division of Yale district, the work required by Section 24 of the Mineral Act, for the year which has expired, and have expended for such work and for recording the certificates thereof the sum of four hundred and fifteen dollars ($415.00); and if at the expiration of ninty days from the date of the first publication of this notice, you fail to contribute your proportion of such expenditure, namely, Randolph Stuart, J. C. Haas, I. H. Hallett and other parties interested, the sum of $83.00 for one-fifth interest in said mineral claims, and Walter D'Eath, the sum of $83.00 for a one-fifth interest in said mineral claims, together with all costs of advertising your interest in said mineral claims shall be liable to forfeiture, as provided by the "Mineral Act Amendment Act, 1900"

Dated this 12th day of June, 1901.

JOHN W POWELL.

MINERAL ACT.

To J. C. Haas and others interested in the Admiral Dewey mineral claim, situated in Summit camp, Grand Forks mining division of Yale district:

TAKE NOTICE that I have caused to be done on the Admiral Dewey mineral claim, situate in Summit camp, in the Grand Forks mining division of Yale district, British Columbia, the work required by Section 24 of the Mineral Act, for the year which has expired, and have expended for such work and for recording the certificate thereof the sum of one hundred and three dollars and fifty cents ($103.50); and that if, at the expiration of ninety days from the date of the first publication of this notice you fail to contribute your proportion of such expenditure, namely, $25.87½ each, together with all costs of advertising, your interest in said mineral claim shall be liable to forfeiture, as provided by the "Mineral Act Amendment Act 1900."

Dated this 12th day of June, 1901.

J. W. POWELL,

LOCAL HAPPENINGS.

The body of the infant child of P. Dermody, foreman at the Granby company's big mines at Phoenix, was burried in the Greenwood cemetery yesterday.

Capt. Sam W. Hall arrived from Rossland on Wednesday night and went out to the King Solomon mine, in Copper camp yesterday. It was announced that teams were to commence yesterday hauling ore from the mine o the railway siding at Deadwood sawmill, for transportation thence to the Greenwood smelter by rail.

Wanted—Household goods at Second Hand Store, Deadwood street, opposite Armstrong hotel. *

The ladies of the R. C- church who served the supper in connection with the Miners' Union ball at the Auditorium wish to than the members of the union and other faiends for the use of the dining room and other courtesies.

Do not miss the W. C. T. U. convention rally on September 17th. Good music, bright addresses. Progromm published later.

P. W. W. King has served his business connection, as accountant at the Snowshoe mine, with the Snowshoe Mines, limited.

Rufus Pope, M. P., of Cookshire, Quebec, is expected to reach Greenwood on to-night's train from Nelson. He is coming on business connected with the Buckhorn, in Deadwood camp, from which mine the water is now being pumped out.

Mine buildings have been erected at the Ruby, near Boundary Falls, preparatory to doing extensive prospecting work on this property, now under bond to Detroit parties. Jas. Hamilton is in charge of the work now being got under way.

Ten cars of ore from the recently discovered new ore veins in the Winnipeg mine had been shipped to the smelter up to the 4th inst. inclusive. Should values continue as good as those returned from the first shipped two cars the outlook for the mine will be considerably improved.

C. J. Leggatt, barrister, of Trail and Mrs. Leggatt, were in town Wednesday. Mrs. Leggatt hrs been spending the summer at Midway with the sister, Mrs. Jas. Atwood, and Mrs. Leggatt came over a few days since to accompany his wife back to Trail.

Mrs, J. L. Coles with her infant daughter left by last Tuesday's train enroute to Hamilton Ontario. where she will visit relatives and friends. She intends to returns to her home in Greenwood towards the close of November.

The second anniversary of the Methodist church in Greenwood will be held on Sunday next when Rev. J. H. White of Nelson. chairman of the Kootenay District will preach at 11.am and 7.30 p m. After the evening service in the church the pastor will conduct a short service on the corner Greenwood and Copper streets. Singers who are in sympathy with the work are invited to be present and assist.

WORKING NIGHT AND DAY.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c per box. Sold by J. L. White, W. E. Anderson and Miller Bros.

Office and Works:— VANCOUVER, B.C.

The Times has been requested to call attention of builders to the fact that the Snowshoe Gold and Copper Mines, limited, is about to let contracts for the erection of offices, bunk house for about 70 men, boarding house, warehouse, managers' residence, cottages, etc.

Wednesday night's train brought in a party of gentleman who are among the leading shareholders in the British Columbia Copper company, limited, of New York, owning the Mother Lode mine, and the Greenwood smelter. The party which registered at the Hotel Armstrong consisted of J. F. Tichenor, capitalist, New York, vice-president of the company; C. E. Laidlaw, banker, New York, treasurer; W. H. Thomas, New Jersey, consulting engineer; Irving Schmitzel and W. Alexander, New York; Dr. John B. Laidley, Conway, Mas., and John Coughlin, San Francisco. Yesterday they went over the company's smelting works and today they visited the Mother Lode mine. They will probably remain here a week and before leaving will visit other large mines and works in the district.

The funeral of the late John Wahlberg, who some time since was accidentally injured in one of the mines of the Granby company at Phoenix, took place at the Greenwood cemetery last Sunday under the auspices of the Phoenix Miners' Union.

On Saturday Sept. 21st. Messrs. Miller and Smith better known as Emerald Duet, will give an entertainment in the Methodist church. Lime lights illustrating the life of Christ and a number of views sacred duets will comprise the programme.

MISCELLANEOUS.

New Goods at Allmacher & Wilson's.

Mail orders promptly filled—Anderson's drug store.

Dont forget to go to the South End Grocery for fresh eggs, good spuds, good mocha and java coffee, good tea and fresh groceries.

Rooms at the Clarendon 50 cents per night.

For Rent—A new store building on Copper street. Apply at Times office.

For fine tailoring go to Allmacher & Wilson's.

If you want the best candies in the city go to Munroe's.

Nitrous-oxide and oxygen for pain less extraction of teeth at Dr. Mathison's.

For Rent—Four room house furnished, all conveniences. $12. Apply at Times office.

We receive consignments weekly of the famous Okanagan fruit. Prices to suit those who want to put up fruit. C. V. Semerad.

Take your prescriptions to the Windsor Drug Store, W. E. Anderson, Greenwood.

Ice cream and fresh candies at the Greenwood Candy Factory, C. V. Semerad, proprietor.

If you want nice soft drinks call at South End grocery.

"Bromogrip cures colds—25 cents—Anderson's Pharmacy.

To LET—A furnished three roomed cottage. Apply Times office.

You can get the very best apple cider by the gallon at the B. C. Wholesale Liquor Co.

FOR RENT—Corner store with three rooms, papered, rent about $20. Apply The Times office. tf

Go to Anderson's pharmacy for drugs, toilet, articles, sponges, soaps, perfumes, etc., Greenwood.

Illustrated postal cards, views of both smelters. Do not miss seeing them. Smith & McRae.

Halcyon is the best mineral water on the market. B. C. Wholesale Liquor Company general agents.

Prescriptions filled correctly—Anderson's pharmacy.

Rooms at the Clarendon 50 cents per night. tf

CITY OF MINER.

Grand Forks in choosing a new name supplied fresh evidence of that peculiar penchant for taking credit for those things the city does not possess. Miner as a cognomen for a city is suggestive of mines and a mining population when as a matter of fact all the mines are tributary to Greenwood. Had the good people of Grand Forks decided to fittingly re-name their fair city under the terms of amalgamation and at the same time honor the syndicate responsible for the establishment of a smelter near the city, and had they been less prone to exaggeration, they would certainly have chosen the name of Graves. While Mr. Miner has done much towards the upbuilding of Grand Forks and in exploiting the natural wealth of the Boundary, it was the genius, foresight and wonderful business ability of Mr. Graves that was responsible for the inauguration of a policy that resulted in the development of the greatest low grade proposition in the world and the establishment of a smelter industry that means so much for Grand Forks.

Seriously speaking the people of Grand Forks have run to an absurdity in their anxiety to worship the name of Mr. Miner. After spending thousands of dollars in making known the name of Grand Forks, it certainly looks like poor policy to bury the town under the obscurity of an insignificant title like Miner. The name Grand Forks has its significance, so has Columbia, but Miner applied to the two amalgamated cities is as rational as it would be for the people of Boston to resolve that their city would henceforth be known as Beantown or that Chicagoans should change the name to Porktown.

We think that before the legislature will ratify the amalgamation the people of both cities will select a more suitable name. They should have a popular expression of opinion on a suitable name and not restrict the vote to three names whose absurdity and inappropriatness are about as great as could be well imagined.

JOHN BROWN.

One John Brown of song and story sacrificed his life for principle. A more modern John Brown—our own John Brown—who a few years ago was ready to shoulder a Winchester in order to secure justice for the people, now accepts office with the descendant of the government against whom he raised his rather strident voice and almost raised his Winchester. What will be the result? Is John Brown stronger than his present associates and associations? John Brown of years ago was sound in his political views. He demanded just representation and economical and efficient administration, and a complete remodelling of the methods in vogue in this province. Will the leaven of John Brown succeed in leavening the whole or will John Brown become a mere figurehead? John Brown is in dangerous company. If he wants to stand by the people and for the people, he should keep his Winchester loaded.

We dislike to acknowledge it, but it looks as if we are all being made the playthings of one Joseph Martin. Those who worked for his defeat can see that he controls the present government and those who looked for his success find that he has sold them to Dunsmuir. Joseph may be a political pariah in some respects, but he is the managing director of all political parties in British Columbia at the present time. He loads John Brown's Winchester and he is going to turn Billy McInnes loose. God help the province and God help John Brown.

SUPREME COURT.

The decision to hold a sitting of the supreme court and court of assize in Greenwood will facilitate to a large extent the administration of justice in the Boundary district. As is pointed out in another column, the cost of litigation heretofore was enormous, and often worked a severe hardship on innocent persons who had to defend themselves.

The people of Greenwood will give the supreme court judge who visits here a very cordial welcome. It is unfortunate that the government has not seen its way clear in providing a suitable court house in the city, but this doubtless will come next year. The necessity for government buildings is becoming greater daily.

EDITORIAL NOTES.

THE New York Engineering and Mining Journal published in its last Canadian Supplement the substance of the representations made recently by the Mine Owners' Association, and commented thereon as follows: "We give below the list of grievances presented by the British Columbia Mining Association, some of which are solid enough. The taxation in an ambitious, growing province, with a population still comparatively small, is inevitably heavy, and it is not easy to see how it can be reduced to any considerable extent. Some of the legislative grievances are also serious, though we think the association makes a mistake in including among them the requirement of statistical information, and the regulations concerning the safety of mines and hoisting machinery. If these clauses had been omitted. the memorial would have been stronger."

WILL the Rossland Miner please double lead instead of double columning its editorials. The present appearance of the editorial page would damn the paper more than the Rossland Miners' Union can.

THE Nelson Economist gravely suggests that John Brown should now be placed on the Noble Five directorate.

TO SAVE HER CHILD.

From frightful disfigurement Mrs. Nannie Galleger, of La Grange, Ga., adplied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in sores, Bruises, Skin eruptions, Cuts, Burns, Scalds and Piles. 25c. Cure guaranteed by J. L. White, Miller Bros., and W. E. Anderson, druggists.

SAW LOGS FOR SALE.

The undersigned will receive tenders up to noon of Wednesday, Sept. 18th, 1901, for a quantity of Sawlogs (estimated to cut into about 500,000 feet of lumber) lying in and on the shore of the Granby Smelter Lake, south-west arm, near the site of Spraggett's saw mill, recently destroyed by fire, about two miles from Grand Forks.

There is a first-class opening here for a good sawmill man. It is understood that the Granby Smelter Co., desire to lease the premises and may assist to rebuild if a good tenant is secured.

Terms for saw logs, cash, no tender necessarily accepted.

For further particulars enquire of the Eastern Townships Bank, Grand Forks, or of

CLEMENT & SPENCE,
Barristers, &rand Forks.
Trustees for parties interested.
Grand Forks, Aug. 27th, 1901.

MAY BUY PYRITIC SMELTER

The following press despatch was sent out from Rossland last Saturday :

"W. L. Springer, president of the Chicago-British Columbia Mining company, announces that a group of Chicago manufacurters and capitalists has taken an option on the controlling interests in the Standard Pyritic Smelter company at Greenwood together with all the smelter company's assets, which include the Marguerite property adjoining the Mother Lode, and the Standard, a promising property.

"The option is for a short time only, and he expected that the matter would be closed favorably shortly after the arrival of himself and friends at Chicago. If a sale be consummated as he expected, as the Chicago people have been very favorably impressed with the outlook, he says the plant will be blown in at an early date. He declared he is satisfied that there is abundant ore available to keep the plant in constant operation for an indefinite period."

It is stated in Greenwood that Andrew Laidlaw and E. F. Massam have the option on the smelter and mining property and that they are endeavoring to sell to the Chicago people above alluded to.

Mr. Laidlaw has gone to Chicago in connection with this deal, Mr. Massam to Quebec where he will be in close touch with the principal owners of the smelter.

LOCAL HAPPENINGS.

Dr. Foster is back in town from a professional trip to Fairview and Vernon.

His Honor, Judge Leamy will hold a sitting of the County Court of Yale in Greenwood on Monday, next.

School inspector Wilson returned from the West Fork at the beginning of the week and has since been engaged in inspecting the public schools in the district.

J. G. Sullivan, C. P. R. construction engineer, came over to Greenwood on Monday's special train and returned to Trail next day. He was accompanied by Mrs. Sullivan.

R. J. Coulter, of the local staff of the Bank of British North America, returned from the coast on Monday night after having spent his brief vacation very enjoyably.

R. R. Gilpin, collector of customs at Grand Forks, came over on Monday to attend the Boundary Pioneers' reunion held that night. He left on his return by train on Tuesday morning.

A. E. Stewart, a returned South African volunteer, was last week removed from Fairview to the Vernon hospital at the same time as Dr. White. He, too, was suffering from typhoid fever.

W. Anderson, manager for the Cascade Power & Light company, and W. T. Dickson, electrical engineer from Nelson, were visitors to the city on Monday and Tuesday, going out on Wednesday morning's train.

Mr. Gange, of the V. V. & E. railway engineering staff, was taken seriously ill in the train when on his way to Greenwood on Monday morning. Upon arrival here he was taken to the Imperial hotel and Dr. Oppenheimer was called in. Later the sick man was removed to the Sisters' hospital.

The Shay locomotive that for some time past has been employed in hauling heavy train loads on the Rossland-Trail section of the Columbia & Western railway has commenced work between Eholt and Phoenix, over which length of the road heavier ore trains are now being taken.

Last month's Canadian Supplement of the New York Engineering and Mining Journal contains the first part of an illustrated article on Mining in British Columbia, contributed by E. Jacobs. The illustrations are a general view of the Mother Lode mine, near Greenwood, one of placer mining at Atlin, and one of the Crow's Nest Pass Coal company's coke ovens at Fernie.

Mrs. C. Æ. Shaw and her sisters, the Misses Flesher, recently received word that their only brother, Dr. Flesher, who had been practising his profession in Minnesota, was dead. The news was entirely unexpected, for no intimation had previously reached them even that he had been ill and no particulars have yet been received. Their many friends will be grieved to learn of this sad bereavement and will feel for them sympathy and condolence in their loss.

Forty-three notices of intention to apply to the Chief Commissioner of Lands and Works for licences to prospect for coal on lands situate up the main North Fork of Kettle river, were during August posted up in the office of the government agent, Greenwood. This means that 43 square miles of land have been staked in the district named for coal prospecting purposes.

Tom Newby and his two partners are at work on their Gloster mineral claim, in Franklin camp. They are sinking in the lead and are now down about 50 feet. The ore is described as similar in appearance to that obtained from the B. C. mine but carrying more iron pyrites. There is not at present any other development work being done in Franklin camp. Henry White had a working bond on the McKinley claim, but after driving a tunnel decided not to take up the bond.

The Advance states that Jas. Atwood and G. D. Cunningham, who have been prospecting up the West Fork country since early spring, have returned to Midway. They brought with them some fine looking ore taken from a couple of the claims which they located. Mr. Atwood is one of the oldest and best prospectors in the province, and is the locator of some of the best properties in the district. He thinks that one of the properties, which they recently located, called the Colby, on which they have done sufficient work to prove the existence of a large ledge of rich ore, is equal to any property he has yet located. Later on Messrs. Atwood and Cunningham will return and further develop the Colby.

R. Gardom, Customs officer at Midway, who is also fruit inspector there, last week condemned and had destroyed 21 boxes of apples brought in from the American Okanogan by Mr. Nash. This fruit was found to be affected by Codlin moth.

Dr. R. B. White, of Camp McKinney, when in professional attendance upon patients at Fairview, was taken ill with typhoid fever, for the second time within a year. Dr. Foster went over from Greenwood and accompanied his brother physician to the hospital at Vernon.

LAMONT-WEEKS.

In the afternoon on Wednesday last, Neil H. Lamont and Miss Florence Weeks were united in marriage at the residence of J. J. Bannerman, Boundary Falls. The officiating clergyman was Rev. P. H. McEwen, superintendent of Baptist missions. The bridesmaid was Miss Lamont, while W. Wilson supported the groom. The happy ceremony was witnessed by the immediate friends of both parties. Mr. and Mrs. Lamont began housekeeping on their ranch near Boundary Falls.

DISSOLUTION OF PARTNERSHIP.

THE PARTNERSHIP HERETOFORE subsisting between the undersigned, carrying on business as hotelkeepers in the premises known as the "Windsor Hotel" situate on Copper Street in the City of Greenwood, B. C., has this day been dissolved by mutual consent.

All debts owing to the said partnership are to be paid to the undersigned Ernest Cartier at the said Windsor Hotel, and all claims against the said partnership are to be presented to the said Ernest Cartier by whom the same will be paid.

Dated this 12th day of August, 1901.

HARRY DALE,
ERNEST CARTIER.

BOUNDARY ORE SHIPMENTS.

AT PHOENIX.

The Winners on Labor Day at the Dinner Bucket Town.

The Phoenix celebration pased off very successfully. The numerous events on the programme were run off with promptness, and there was not the delay so noticeable in the general run of these affairs. The several committees in charge of the different events did their work well and to the satisfaction of all concerned.

At a quarter past nine all the labor organizations met at the Miners' Union hall, and under the grand marshal of the day, P.J. Holohan, they formed in ine aud marched to the depot to meet the excursion train from Cascade Grand Forks. Immediately after the arrival of the train the drilling contests came off on the Dominion Copper company's flat, near the old skating rink.

In the heavyweight contest William Ross and John McLeod were the only entries, but as there was a lightweight contest, the winners of which, if they drilled a deeper hole than the winners of the heavyweight contest did, were to take the first money in both contests, this made Ross and McLeod get in and drill. They drilled 43 inches in good hard granite, The lightweight contest was won by Henderson and Cox with 36 5-8 inches, Riley and Alex McLeod second with 33 3-4 inches.

The boys' heavyweight contest under 16 was won by Furlong and Martin, of Rossland, who drilled 14 1-4 inches Hacket and Ross of Phoenix second with 9 1-2 inches. The lightweight contest, boys under 16, was won by Guidotti and De Muth, Rossland, with a hole 12 5-8 inches deep, the second pair being Loney and Nurse, Republic, Wash., 11 5-8 inches.

After lunch the foot races came off on Old Ironsides avenue, and resulted as follows:

One hundred yards open —1st Jack Lynch; 2nd Fred Mitchell. Time, 10 3-5 seconds. Two hundred yards open —1st, Fred Mitchell; 2nd Jack Lynch. Time 24 seconds.

One hundred and twenty yards hurdle race—1st Jack Lynch 2nd Fred Mitchell. Time 18 seconds.

Boys race under 16—1st, Jack McLaren; 2nd, Jack Pierce.

Girls' race under 16—1st, Ethel McLaren; 2nd, Agnes Pierce.

At 3 o'clock the horse races came off on Dominion avenue and were rather exciting. The one-fourth mile dash was won by Dr. Averill's Black Bird by two lengths, L. A. Manly's Yellow Girl second, Jack Hollany's Ginger third. In the three-eights mile dash the order of the horses was slightly reversed, Yellow Girl winning quite handily, with Black Bird second and Ginger third.

At 5 p. m. the single hand drilling contest took place in front of the Brooklyn hotel, Dominion avenue, when Eric Stevenson won first money with 13 1-4 inches, Mike Burns second with 12 1-2 inches, Time, 10 minutes and 3-4 inch steel used.

MAGNET FOR GOLD FOUND.

After more than 22 years of patient study and experimenting, F. M. Mecartea, of San Juan, Cal., insists that he has succeeded in perfecting a process whereby a piece of steel may be magnetized so as to attract gold, silver copper, tin and other metals heretofore believed to be unsusceptible.

Some two years ago Macartea was experimenting with a view to discovering the lost art of tempering copper and accidently discovered a process that would attract gold. The plan was so simple that he could not give public demonstrations of his discovery without exposing his secret, and consequently his statements were received with no great degree of credulity. But now that he has succeeded in imparting his mysterious force to a piece of steel he may show it with impunity.

A practical demonstration was given. The magnet used was a common steel chisel which had been drawn out until the end presented a surface of one-sixteenth of an inch by five-eighths of an inch. Although the surface was very small it readily attracted shavings of gold, silver, etc., which adhered very tenaciously. — Western Mining World.

GREENWOOD, B. C.

THE SNOWSHOE.

Anthony J. McMillan, managing director of the Snowshoe Mines, limited, was in town last Sunday and Monday. He was accompanied by the company's consulting engineer, J. W. Astley, C. E., and with him visited the British Columbia Copper company's smelter and Mother Lode mine before returning to Rossland.

Asked as to progress on the Snowshoe mine, in Greenwood camp, Mr. McMillan stated that it is intended to steadily extend mining operations at the mine, though for the time being the output of ore will not be large. The company has a large quantity of ore opened up and available for shipment to the smelter, but it is unlikely that any considerable quantity will be shipped until arrangements for freight and treatment rates more favorable to the mine can be made.

Present intentions are to ship a car of ore daily to the smelter at Greenwood, but the output will be thus restricted for a while. Meanwhile a surface working or quarry in ore will be opened out, and other preparations will be made for shipping on a considerable scale later. The quarry will be above the railroad track and chutes from several parts of the ore body, which is wide, will be built as to allow of the ore being shot down to the railway cars below. By the time things shall be in shape for the maintenance of a considerable output from this surface working it may be that better rates will have been secured for freight and treatment, but if not, then the company will have to consider the advisability of erecting its own smelter.

New mine buildings, both for officials and men, are to be put up shortly; for the former offices and for the latter boarding and bunk houses and several cottages for married employes. There are now about 40 men at work on the mine and the number will likely be gradually increased.

DEATH OF J. A. JACOBS.

We regret to chronicle the death of J. A. Jacobs (father of J. R. Jacobs, manager of the Midway Trading company) of Pasadena, California, at the residence of his daughter, Mrs. T. A. Winters, Colville, Washington.

Mr. Jacobs had been suffering for several years from Bright's disease, and came north some months ago hoping the change would be of benefit. There was a marked improvement while in Victoria, but the trip to Colville some days ago was too much for him, and he died at midnight last Thursday. Immediately upon the receipt of the news his son left for Spokane, from whence he will proceed to California with the remains. Mr. Jacobs leaves a widow (who accompanied him on his trip) and four children, the eldest of whom is J. R. Jacobs of this place.—Midway Advance

COPPER STREET

DALMADGE-WEST.

Last Tuesday morning, at the house of the bride's parents, Greenwood, Rev. J. D. P. Knox married Garrett G. Dalmadge, formerly of Victoria but now with J. W. Mellor's Greenwood establishment, to Miss Jennie West. Mrs. Lena Peterson acted as bridesmaid and Fred Hilbert was groomsman. At the conclusion of the ceremony Mr. and Mrs. Dalmadge left by train for Nelson, where they are spending their honeymoon. Upon their return they make their home in Greenwood.

STOOD DEATH OFF.

E. B. Munday, a lawyer of Henrietta, Tex., *once fooled a grave-digger.* He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 60c at W. E. Anderson's, Miller Bro's. and J. L. White's drug store.

ROADS AND TRAILS.

A road repairing gang of five men, with David Beath in charge, has finished the customary summer repairs on the main roads between Greenwood and Rock Creek and between Anaconda and the summit of Boundary mountain. This gang is now engaged in similar work between Phoenix and Fourth of July creek. Thos. Falconer has completed construction of the wagon road road between Phoenix and Summit City and is now awaiting its acceptance by the government. Geo. Findlay is in charge of the grading gang at work on the new road, from Eholt to Long Lake camp, and A. Nicholson has had men ahead clearing the right of way Altogether 30 men are employed on this road, which, it is stated, will be of such an easy grade as will make it one of the best mountain roads in the district. The improvements to the road between Cascade and Edwards' Ferry are finished and now the trail from Gladstone to the John Bull mine is being made.

Up the North Fork work is being proceeded with between Bannock City and the junction of the East Fork with the main North Fork. Last year the road was practically completed to Bannock City, a few miles beyond Volcanic mountain, and a rough road was cut out to Lynch Creek, some three miles higher up the North Fork. Lately this short length of road has been improved and now the roadmakers are pushing on to the East Fork, which joins the North Fork about 12 miles higher up the river than Bannock City. There is already a good trail about 15 miles further to Franklin camp, this trail having been made by the government last year. The appropriation for the North Fork road will hardly do more than pay for the work to the East Fork and, perhaps, a bridge over the East Fork, which for three or four months in the year is not easily fordable. Such a bridge would serve as well for the main North Fork, which, in consequence of the attention now being paid to reputed coal lands some 30 or 35 miles higher up, should have some provision made for the travel to and from these lands. It is understood that an application has already been made to the government from Grand Forks for assistance in making a trail from the junction of the two forks northwards towards the coal district, and in view of the numerous applications that have lately been made for licences to prospect for coal it is probable that this reasonable request will be granted.

Dr. Mathison, dentist, over Bank of Commerce. Both 'phones.

MINERAL ACT.

To Ramoan Malcolm and any Others Concerned.

TAKE NOTICE that I have caused to be done on the Buster and Alaska Mineral claims situated on the West Fork of the Kettle River in the Kettle River Mining Division of Yale District, the work required by Section 24 of the Mineral Act, for the year which has expired, and have expended for such work and for recording the certificates thereof the sum of two hundred and five dollars ($205) and if at the expiration of ninty days from the date of the first publication of this notice, you fail to contribute your porportion of such expenditure, namely: One hundred and fifty three dollars and seventy five cents ($153.75) for three-fourths interest in said mineral claims, together with all costs of advertising; your interest in said mineral claims shall be liable to forfeiture, as provided by the "Mineral Act Amendment Act, 1900.

AT PHOENIX.

The Winners on Labor Day at the Dinner Bucket Town.

The Phoenix celebration pased off very successfully. The numerous events on the programme were run off with promptness, and there was not the delay so noticeable in the general run of these affairs. The several committees in charge of the different events did their work well and to the satisfaction of all concerned.

At a quarter past nine all the labor organizations met at the Miners' Union hall, and under the grand marshal of the day, P.J. Holohan, they formed in ine aud marched to the depot to meet the excursion train from Cascade Grand Forks. Immediately after the arrival of the train the drilling contests came off on the Dominion Copper company's flat, near the old skating rink.

In the heavyweight contest William Ross and John McLeod were the only entries, but as there was a lightweight contest, the winners of which, if they drilled a deeper hole than the winners of the heavyweight contest did, were to take the first money in both contests, this made Ross and McLeod get in and drill. They drilled 43 inches in good hard granite, The lightweight contest was won by Henderson and Cox with 36 5-8 inches, Riley and Alex McLeod second with 33 3-4 inches.

The boys' heavyweight contest under 16 was won by Furlong and Martin, of Rossland, who drilled 14 1-4 inches Hacket and Ross of Phoenix second with 9 1-2 inches. The lightweight contest, boys under 16, was won by Guidotti and De Muth, Rossland, with a hole 12 5-8 inches deep, the second pair being Loney and Nurse, Republic, Wash., 11 5-8 inches.

After lunch the foot races came off on Old Ironsides avenue, and resulted as follows:

One hundred yards open —1st Jack Lynch; 2nd Fred Mitchell. Time, 10 3-5 seconds. Two hundred yards open —1st, Fred Mitchell; 2nd Jack Lynch. Time 24 seconds.

One hundred and twenty yards hurdle race—1st Jack Lynch 2nd Fred Mitchell. Time 18 seconds.

Boys race under 16—1st, Jack McLaren; 2nd, Jack Pierce.

Girls' race under 16—1st, Ethel McLaren; 2nd, Agnes Pierce.

At 3 o'clock the horse races came off on Dominion avenue and were rather exciting. The one-fourth mile dash was won by Dr. Averill's Black Bird by two lengths, L. A. Manly's Yellow Girl second, Jack Hollany's Ginger third. In the three-eights mile dash the order of the horses was slightly reversed, Yellow Girl winning quite handily, with Black Bird second and Ginger third.

At 5 p. m. the single hand drilling contest took place in front of the Brooklyn hotel, Dominion avenue, when Eric Stevenson won first money with 13 1-4 inches, Mike Burns second with 12 1-2 inches, Time, 10 minutes and 3-4 inch steel used.

MAGNET FOR GOLD FOUND.

After more than 22 years of patient study and experimenting, F. M. Mecartea, of San Juan, Cal., insists that he has succeeded in perfecting a process whereby a piece of steel may be magnetized so as to attract gold, silver copper, tin and other metals heretofore believed to be unsusceptible.

Some two years ago Macartea was experimenting with a view to discovering the lost art of tempering copper and accidently discovered a process that would attract gold. The plan was so simple that he could not give public demonstrations of his discovery without exposing his secret, and consequently his statements were received with no great degree of credulity. But now that he has succeeded in imparting his mysterious force to a piece of steel he may show it with impunity.

A practical demonstration was given. The magnet used was a common steel chisel which had been drawn out until the end presented a surface of one-sixteenth of an inch by five-eighths of an inch. Although the surface was very small it readily attracted shavings of gold, silver, etc., which adhered very tenaciously. — Western Mining World.

THE SNOWSHOE.

Anthony J. McMillan, managing director of the Snowshoe Mines, limited, was in town last Sunday and Monday. He was accompanied by the company's consulting engineer, J. W. Astley, C. E., and with him visited the British Columbia Copper company's smelter and Mother Lode mine before returning to Rossland.

Asked as to progress on the Snowshoe mine, in Greenwood camp, Mr. McMillan stated that it is intended to steadily extend mining operations at the mine, though for the time being the output of ore will not be large. The company has a large quantity of ore opened up and available for shipment to the smelter, but it is unlikely that any considerable quantity will be shipped until arrangements for freight and treatment rates more favorable to the mine can be made.

Present intentions are to ship a car of ore daily to the smelter at Greenwood, but the output will be thus restricted for a while. Meanwhile a surface working or quarry in ore will be opened out, and other preparations will be made for shipping on a considerable scale later. The quarry will be above the railroad track and chutes from several parts of the ore body, which is wide, will be built as to allow of the ore being shot down to the railway cars below. By the time things shall be in shape for the maintenance of a considerable output from this surface working it may be that better rates will have been secured for freight and treatment, but if not, then the company will have to consider the advisability of erecting its own smelter.

New mine buildings, both for officials and men, are to be put up shortly; for the former offices and for the latter boarding and bunk houses and several cottages for married employes. There are now about 40 men at work on the mine and the number will likely be gradually increased.

DEATH OF J. A. JACOBS.

We regret to chronicle the death of J. A. Jacobs (father of J. R. Jacobs, manager of the Midway Trading company) of Pasadena, California, at the residence of his daughter, Mrs. T. A. Winters, Colville, Washington.

Mr. Jacobs had been suffering for several years from Bright's disease, and came north some months ago hoping the change would be of benefit. There was a marked improvement while in Victoria, but the trip to Colville some days ago was too much for him, and he died at midnight last Thursday. Immediately upon the receipt of the news his son left for Spokane, from whence he will proceed to California with the remains. Mr. Jacobs leaves a widow (who accompanied him on his trip) and four children, the eldest of whom is J. R. Jacobs of this place.—Midway Advance

Wanted to manage mine boarding house. Over 15 year's experience. Apply at Times' office.

COPPER STREET

DALMADGE-WEST.

Last Tuesday morning, at the house of the bride's parents, Greenwood, Rev. J. D. P. Knox married Garrett G. Dalmadge, formerly of Victoria but now with J. W. Mellor's Greenwood establishment, to Miss Jennie West. Mrs. Lena Peterson acted as bridesmaid and Fred Hilbert was groomsman. At the conclusion of the ceremony Mr. and Mrs. Dalmadge left by train for Nelson, where they are spending their honeymoon. Upon their return they make their home in Greenwood.

STOOD DEATH OFF.

E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 60c at W. E. Anderson's, Miller Bro's. and J. L. White's drug store.

ROADS AND TRAILS.

A road repairing gang of five men, with David Beath in charge, has finished the customary summer repairs on the main roads between Greenwood and Rock Creek and between Anaconda and the summit of Boundary mountain. This gang is now engaged in similar work between Phoenix and Fourth of July creek. Thos. Falconer has completed construction of the wagon road road between Phoenix and Summit City and is now awaiting its acceptance by the government. Geo. Findlay is in charge of the grading gang at work on the new road, from Eholt to Long Lake camp, and A. Nicholson has had men ahead clearing the right of way. Altogether 30 men are employed on this road, which, it is stated, will be of such an easy grade as will make it one of the best mountain roads in the district. The improvements to the road between Cascade and Edwards' Ferry are finished and now the trail from Gladstone to the John Bull mine is being made.

Up the North Fork work is being proceeded with between Bannock City and the junction of the East Fork with the main North Fork. Last year the road was practically completed to Bannock City, a few miles beyond Volcanic mountain, and a rough road was cut out to Lynch Creek, some three miles higher up the North Fork. Lately this short length of road has been improved and now the roadmakers are pushing on to the East Fork, which joins the North Fork about 12 miles higher up the river than Bannock City. There is already a good trail about 15 miles further to Franklin camp, this trail having been made by the government last year. The appropriation for the North Fork road will hardly do more than pay for the work to the East Fork and, perhaps, a bridge over the East Fork, which for three or four months in the year is not easily fordable. Such a bridge would serve as well for the main North Fork, which, in consequence of the attention now being paid to reputed coal lands some 30 or 35 miles higher up, should have some provision made for the travel to and from these lands. It is understood that an application has already been made to the government from Grand Forks for assistance in making a trail from the junction of the two forks northwards towards the coal district, and in view of the numerous applications that have lately been made for licences to prospect for coal it is probable that this reasonable request will be granted.

Dr. Mathison, dentist, over Bank of Commerce. Both 'phones.

MINERAL ACT.

To Ramoan Malcolm and any Others Concerned.

TAKE NOTICE that I have caused to be done on the Buster and Alaska Mineral claims situated on the West Fork of the Kettle River in the Kettle River Mining Division of Yale District, the work required by Section 24 of the Mineral Act, for the year which has expired, and have expended for such work and for recording the certificates thereof the sum of two hundred and five dollars ($205) and if at the expiration of ninty days from the date of the first publication of this notice, you fail to contribute your porportion of such expenditure, namely: One hundred and fifty three dollars and seventy five cents ($153.75) for three-fourths interest in said mineral claims, together with all costs of advertising; your interest in said mineral claims shall be liable to forfeiture, as provided by the "Mineral Act Amendment Act, 1900.

ASSIZE COURT

TO BE HELD AT GREENWOOD ON OCTOBER 22ND.

GREENWOOD RECOGNIZED

Sitting Will Include Supreme Court Cases—History of Movement to Secure Supreme Court Sittings.

A Gazette extra issued last Saturday, contains the dates fixed for holding the Fall courts of assize, and the names of the places at which they shall be held. For the first time Greenwood appears on the list, October 22nd being the date appointed for opening the first assize court to be held in the Boundary district. Supreme court sittings, civil and criminal, are to be held. This eventual recognition by the provincial government of the increasing necessity for holding supreme court sittings here is a matter for congratulation. It is but simple justice to those having business in the higher courts that the great expense, inconvenience and loss of time attendant upon having to go out of the district to attend the courts shall be discontinued.

It is now nearly two years since a beginning was made to urge the claims of Greenwood in this direction, and since then both the Greenwood Board of Trade and the Bar Association have taken advantage of every opportunity—whether such was presented by the visit to the city of any member of the government or the sending to Victoria of any delegation in the public interests—to make such representations as appeared likely to further the end in view. Last year an advantage was gained in having secured the appointment of William G. McMynn as registrar of the supreme court at Greenwood, and this took effect on May 15th. Seventeen months from the time the local supreme court registry was established is rather a long time to have had to wait for the holding here of the first assize court, but now that the end long sought appears in view, those who worked to achieve this result may be satisfied with the assurance that "all's well that ends well."

It may be of interest at this juncture to recall some of the reasons that have been advanced in favor of holding supreme court sittings at Greenwood, so the following from a letter sent last May by the Greenwood Board of Trade to the Lieutenant-Governor-in-Council is now quoted: "The nearest assize town to Greenwood at present within the County of Yale, is Vernon, and each criminal trial arising in the Boundary country, triable at Vernon before the court of assize, costs the government from $50 to $75 per witness and in addition a greater amount for the expense of conducting the prisoner to the place. The witnesses for the accused cost him a like amount in addition to the expense of counsel. In the event of the accused being found innocent, the expense and loss to him is therefore unnecessarily great.

"In the year 1898 eleven indictable offences arising in this district were disposed of, some by speedy trial and a number at the Vernon assizes. In the year 1899 twelve like cases were tried. In 1900 ten were disposed of, and in the present year five cases have arisen in the Boundary country which come under the jurisdiction of the assize court. Four cases at least of this number will be heard at the forthcoming assizes at Vernon, unless the venue be previously changed. In the four cases mentioned we are informed that there will be twenty-two witnesses at least for the Crown alone, all of whom reside in the Boundary district. It is safe to assume that it will be necessary to have as many witnesses present at these trials on behalf of the prisoners.

"We beg further to point out that the greater part of the cost referred to above may be saved to the Crown and to the accused by making Greenwood an assize town, and as against this saving of expense the only cost to the Crown world be the expense of summoning a jury in this vicinity.

"We also beg to say that in 1900 from the 15th day of May, which is the date of the establishment of the supreme court registry at Greenwood, 25 supreme court actions were commenced, of which 11 are pending at the present time. In 1901 17 cases have been commenced, of which 14 are still pending. These figures do not include actions commenced in the neighboring registry of Grand Forks. It is unnecessary to point out that the expense of taking witnesses from the Boundary district to Rossland or Nelson, the nearest points at which the supreme court actions arising in this vicinity are tried, is even greater than in criminal cases."

STOOD DEATH OFF.

E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave-digger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life."
