AT FAIRVIEW

REPORT FROM SPECIAL CORRESPONDENT REGARDING CAMP.

THE FAIRVIEW CORPORATION

What the Company Intends Doing Towards Meeting Liabilities—A Three Cent Assessment.

FARVIEW, B. C., June 10.—(Special to the Times.)—Word came today from Vernon that Richard Russell, manager of the Fairview corporation, had been called to Montreal. His visit east is for the purpose of meeting the heavy shareholders and to arrange plans for the carrying on the development of the Stemwinder. Now that Gooderham and Blackstock have decided not to take up the bond on the control of the stock of the corporation, it is up to the shareholders to devise ways and means to meet the mortgage due the Toronto millionaires and for future operations. This difficulty will probably be met with the levy of an assessment.

The Stemwinder mine has been reported upon most favorably and no doubt the reports will go a long way to obtain what is needed. The property is certainly a big—even if a low grade proposition—and mining men are hopeful of seeing it become a profit paying one. Today the correspondent of the Times was shown over the mine by Superintendent J. A. Campbell. The Stemwinder is developed to a depth of 200 feet by an incline shaft, and is equipped with a 5-drill straightline Rand compressor and small hoisting engine. The first level is at a depth of 85 feet where the main vein was drifted on 200 feet. A crosscut on this level encountered the north vein which was operated for a distance of 100 feet. One hundred feet fuuther down is the second level. The east drift followed the main vein 285 feet. The west drift is in ore for 480 feet. About 100 feet in on this drift the vein widened out between walls to 21 feet in thickness. The north vein on this level was also crosscut and drifted on 100 feet. At a depth of 289 feet the third level has recently been opened, and at the time of the correspondents visit the west drift had traversed the ore for 60 feet and for the past few weeks neither wall has been in sight. The drift is apparently entering a point under the second level where the big swell into the vein occured.

The values too at this point show a decided improvement, the average of the last 10 samplings being $7.94 a mill test of the ore from the first level gave a return of $6.25. The last mill run of 500 tons resulted in a fraction over $5 per ton.

The company also owns 400 acres of land 12 miles north of here. Surrounding this property Robert Wood and associates of Greenwood have 3000 acres. The coal lands are however unexplored to any degree. The ranchers merely have from time to time taken coal for home use and it is pronounced to be of a good grade and what is more valuable excellent for coking purposes.

MORE CENTRAL SCHOOL.

Efforts Being made to Secure a more Central site.

The Sisters of Peace who are going to erect a hospital in Greenwood are anxious to secure the present school site and the adjoining block for hospital purposes. As the site is not suitable for school purposes efforts are being made to induce the government to sell the site and building to the Sisters and secure one more centrally located. With this object in view a public meeting was held in the city hall last Friday evening. C. J. McArthur was voted to the chair and G. B. Taylor appointed secretary. The following resolution was unaminously passed:

WHEREAS; the public school in the City of Greenwood is so far distant from the centre of population, that smaller children can scarcely attend, especially in bad weather.

AND WHEREAS, the building is so badly planned and constructed that it is scarcely fit for school purposes.

AND WHEREAS; on account of conditions described above the average attendance is about fifty (50), while there are over one hundred and fifty (150) children of school age on the city.

THEREFORE BE IT RESOLVED; that the citizens of Greenwood in public meeting assembled, strongly urge upon the government the necessity of securing a more central site, and the erection of a suitable school building thereon, and strongly recommend that the present site and building be sold, as it is so situated that it will never be desirable for school purposes.

Members of the council and school board interviewed Mr. Wilson on Tuesday evening and discussed the matter with him. Mr. Wilson appreciated the necessity for some change since out of 150 children of school age only 50 are attending the public schools.

This week a delegation leaves for Victoria to assist school trustee Smailes who is down there and who will bring the matter to the attention of the government.

ELKINS—CLARK.

One of the prettiest weddings ever witnessed in Greenwood was celebrated by Rev. W. A. Robins at St. Jude's Mission room last Wednesday at 10.30 in the morning when Mr. F. M. Elkins and Miss Annie Clark were united in the holy bonds of matrimony. Miss Keefer acted as bridesmaid while Mr. Randolph Stuart supported the groom. The bride was gowned in a pretty electric blue costume with lace and hat to match and the bridesmaid in a pale blue costume. Mr. W. G. McMynn gave the bride away. The service was choral and the altar was nicely decorated. The congregation crowded the building among those present being many old timers. Both bride and groom are well known in the city having resided here since Greenwood was but a small mining camp. Mr. Elkins is deputy-sheriff for the county and was for many years a member of the provincial police force. Among the numerous presents received was a handsome one from the local lodge A. F. & A. M. of which Mr. Elkins is a prominent member.

Mr. and Mrs. Elkins left by Wednesday train for Nelson where the honeymoon will be spent.

MAIL CHANGES.

On and after Monday June 10th mails will arrive and be despatched from Greenwood post office as follows:

Mails close going East 10:30 a. m.
" " " West 9:30 p. m.
Mails arrive from East 10:45 p. m.
" " " West 11:45 a. m.

Registered mail closes fifteen minutes earlier than ordinary mail.

WEST FORK

INTERESTING REPORT OF THAT RICH MINING SECTION

FROM MR. W. G. GAUNCE

Who Has Just Returned Afrer a Three Weeks' Visit—Busy Times at Rendell—Several Buildings Going up.

Mr. W. G. Gaunce who returned a few days ago from a three weeks sojourn at Rendell at the junction of Beaver Creek and the West Fork of Kettle River reports matters of business as moderately slow in the entire West Fork country.

Nothing much in the way of development can be done until facilities of transportation are improved. The residents of that most promising section and the holders of claims, many of whom are now doing their assessments, feel that the government ought to do something at once to improve the condition of travel up the river. By the low water trail the river must be forded several times, a matter accompanied by both inconvenience and danger, and by the high water trail the trip is very tiresome and laborious. The judicious expenditure of a few thousand dollars during the summer season would convert the present partially built wagon road into a good thoroughfare over which loads could be hauled and would span the river at the necessary points with temporary but substantial bridges that would suffice for the next few years.

At Rendell some improvements are going forward. Messrs W. A. Keith & Co., have erected a fine substantial store building 25 x 60 and 2 stories high. The upper story it to be used as a public hall, and as such would do credit to a town of a thousand people.

A fine new hotel building is now in process of erection. John Hamill of Armstrong who built the Clarendon Hotel in Greenwood, after a thorough inspection of the surrounding hills, saw reasons for Rendell's future, and as evidence of his good faith not only bought several lots but let a contract for a frame building to be 2 ½ stories, 30 x 70 with an additional 16 x 30. Several applicants have already appeared for the lease of the hotel when completed.

A movement is on foot to build a good wagon road from Rendell to the mouth of Cranberry Creek.

The claims on this creek are showing up very finely, and those on the hill north of Cranberry and just west of Rendell are very highly spoken of.

The Bullion and Iowa claims, particularly, hold out promise to their owners and promise well for Rendell's future.

But directly east of Rendell is the mountain where rest the certain hastages of Rendell's future. Within less than 3 miles of Rendell are to be found such well reputed claims as the Wellington, Sally, Rob Roy, Bell, Tiger, Bounty, Highland Chief, Idaho &c.

Out of this hill it is believed will come the ore that will make several of Greenwood's citizens if not millionaires at least comfortably rich.

Farther up Beaver Creek and the West Fork are scores of claims of more or less promise held by Greenwood people.

The prospectors feel however that their day dawns slowly. With a government apparently apathetic about the road, and with capital awaiting either a wagon road or a railway before investing in their prospects, they realize that to patiently wait and do their assessments meanwhile, is their inimitable fate.

They have no fears of the ultimate. They believe that once their camp is made more easily accessible its development will be very rapid and rewards will follow for their persistent hardships.

The sawmill owned and operated at Rendell by Messrs Branson & Wheatley is turning out some very fine lumber at moderate prices.

An assay office conducted by Messrs Pickard & Embrie has recently been opened and is receiving considerable work.

It proves a great convenience to the locality.

D. M. Wilkins has recently erected a livery barn on 4th street Rendell and has a pack train operating between that place and down river points.

Logan operates his trips between Westbridge and Rendell and Penticton and Rendell.

Recent arrivals in camp were Robert Wood and Andreg Laidlaw of Greenwood, Messrs Jno. Hamill and Hugh Wood of Armstrong and several parties from Idaho and Rossland.

Mr. Gaunce paid a flying visit to the Carmi and was shown over the town also over the Carmi and Butcher Boy claims by Mr. James Dale. He thinks the Butcher Boy a very promising claim and looks to see Carmi develop into quite a camp.

The Rev. Mr. Hunter, Presbyterian Missionary, recently made an initial trip into the West Fork penetrating as far as Carmi where he held service one evening last week and was the recipient of attention from Mr. Dale.

Mr. Gaunce believes things will be temporarily slow along the West Fork, but doubts not that the early future will witness great progress and development there. Anxious as people are for a railway they are more anxious for a wagon road. That begun, life along the West Fork will be wonderfully quickened and they who went into the country 3 years ago looking for opportunity will see some prospect of fulfilment of their plans, They deserve the road and the country will justify it. Many prospective mines are about Rendell, and some of them will be speedy shippers when afforded facility.

For lessons on violin, piano, mandolin etc., see Prof. Kauffman, Greenwood Music Store.

GRAND FORKS CELEBRATION.

GRAND FORKS, B. C., June 12.—The official programme for the two days celebration here on July 1st and 2nd has been issued. A noteworthy feature will be the horse races at the new Westside half-mile track which is nearing completion. In addition to the attendance of the fastest horses in the Kootenays and the Okanagan, several Washington, Idaho and Montana stables will be represented.

The events are as follows: July 1st, quarter mile dash, purse $200; half mile, purse $250; 300 yards dash, purse $150; pony race, purse $50; cowboy race 250 yards and turn, purse $50. July 2nd, mile race, purse $250; five-eighths of a mile, purse $200; ladies saddle race one-half mile, purse $40; gentleman's saddle race, quarter mile, purse $50; one mile trot, green, purse $50. Entries close Saturday, June 29, at 8 p. m. Entries can be obtained from the secretary. In all races four must enter and three start. All purses divided, 75 per cent to first and 25 per cent to second. Any horse distancing the field will be entitled to first money only. The managing committee reserves the right of changing the order of any race if deemed advisable, and to declare off any race not filling to their satisfaction. Entrance fee five per cent of purse with an additional five per cent from winners. California jockey club rules to govern. Entries will be received at the post for the pony, gent's saddle, cowboy and ladies races.

For the double-hand drilling contest for a purse of $200 donated by Jay P. Graves and A. C. Flummerfelt, a large number of entries are expected. There will be a hose contest (wet test) for a purse of $100. Teams from Greenwood, Grand Forks, Rossland and Nelson are expected to enter. On the evening of July 1st, under the auspices of the Grand Forks Athletic Association, there will be a heavy weight boxing contest between Charlie Goff, of Spokane and Bob Hodge, the champion of Idaho. The following evening in the lightweight class, Dal Hawkins, os San Francisco, formerly light champion of the world, will meet Kid Lee, champion of Colorado. Negotiations with the C. P. R. for the running of special trains are in progress.

The members of the Spokane Chamber of Commerce have been invited to attend the celebration.

We're here to stay—Anderson the druggist.

SMUGGLING

TWO ARRESTS MADE ON INFORMATION OF COLLECTOR OF CUSTOMS

FOR SMUGGLING TOBACCO

One Forfeits His Bail and the Other is Fined $100—Goods Were Offered to Merchants and Miners.

Collector McCutcheon of the local office has been rounding up some of the tobacco smugglers during the week. On Saturday Alex Hamilton a rancher residing near Boundary Falls appeared before Magistrate Hallett charged with offering contraband tobacco for sale. He was remanded until Monday and released on bail of $250 furnished by L. A. Smith of Anaconda. When his case was called on Monday Hamilton made no appearance and bail was estreated. He was in the habit of purchasing tobacco from Miner who has a store on the American side below Midway, and selling to the merchants. Some business men evidently do not realize the seriousness of purchasing smuggled goods. The penalty attached is as severe as that directed against the smuggler. The minimum fine is $100 and $500 with possible additional penalty of imprisonment from three months to two years.

On Monday Mr. McCutcheon secured the arrest of J. J. O'Neill a miner working in Summit camp. He appeared before Judge Hallett and was fined $100 which was paid. O'Neill bought tobacco in Nelson Wash., and sold it to the miners in Summit camp. As he acknowledged his guilt. the magistrate imposed the minimum fine.

The department is determined to put a stop to smuggling of this nature and subsequent cases will in all probability be more severely dealt with.

THE WARAGRAPH COMING.

On Saturday and Monday, June 15th and 17th, at the Auditorium, the celebrated Waragraph Company of London England, will present their excellent reproductions of the British-Boer and Chinese wars. The only complete reproductions in the world of the late Queen's funeral, showing the entire procession from start to the finish, also many interesting, humorous and instructive subjects, accompanied by startling mechanical sounding effects, this part of the entertainment being entirely new to the Canadian people makes the scenes very fine and realistic. The company is a very expensive one, carrying a large number of beautiful colored views, also specialties. Prof. M. J. Noel of Paris, France, who is claimed to be the greatest lady impersonator in the world will play a very pleasing part of the performance each evening. This is the company's first trip through Canada from the east. The company comes very highly recommended by Halifax, Montreal, Ottawa, Toronto and Winnipeg papers. The Winnipeg Free Press of May 25th, says: "Every person should see the Waragraph, they certainly present the best views ever exhibited in Winnipeg." Seats are placed on sale at Sprott and McPherson's.

Take your prescriptions to the Windsor Drug Store, W. E. Anderson, Greenwood.

CASE OF POISONING.

Dr. Freer was called into the country Monday night to see Mrs. W. D. Glaze, who was suffering from the effects of carbolic acid poisoning. Mrs. Glaze had been suffering from toothache and was using some medicine, the principle ingredient of which is carbolic acid. In applying the medicine to the toothe she accidently swallowed a portion of it. Dr. Freer found the patient in a very precarious condition, but by prompt action soon relieved her from the effects of the poison.—Chesaw Times.

Fresh strawberries received twice a week at Semerad's, Copper street.

IN DARKEST CANADA.

There is no need that adventurous travelers should sail for Africa or even South America in order to find regions yet unexplored, if, as the director of the geological survey of Canada asserts in his last report, practically nothing is known of one-third of Canada. He says, as quoted in The Scientific American Supplement, that there are more than 1, 520, 000 square miles of unexplored lands in Canada out of a total area computed at 3,450,257 square miles. Even exclusively of the inhospitable detached arctic portions, 954,000 square miles are for all practical purposes entirely unknown. The writer goes on to say:

"A careful estimate is made of the unexplored regions. Begining at the extreme northwest of the Dominion, the first of these areas is between the eastern boundary of Alaska, the Porcupine River, and the Arctic coast, about 9,500 square miles in extent, o somewhat smaller than Belgium, and lying entirely within the Arctic circle. The next is west of the Lewes and Yukon rivers and extends to the Boundary of Alaska. Until last year, 32,-000 square miles in this area was unexplored, but a part has since been traveled. A third area of 27,000 square miles—nearly twice as large as Scotland—lies between the Lewes, Pelly and Stikine rivers. Between the Pelly and Mackenzie rivers is another large tract of 100,000 square miles, or about double the size of England. It includes nearly 600 miles of the main Rocky Mountain range. An unexplored area of 50,000 square miles is found between Great Bear Lake and the Arctic coast, being nearly all to the north of the Arctic circle. Nearly as large as Portugal is another tract between Great Bear Lake, the Mackenzie River, and the western part of Great Slave Lake, in all 35,000 square miles. Lying between Stikine and Laird rivers to the north and the Skeena and Peach rivers to the south is an area of 81,000 square miles, which, except for a recent visit by a field party, is quite unexplored. Of the 35,000 square miles southeast of Athabasca Lake, little is known, except that it has been crossed by a field party en route to Fort Churchill. East of the Coppermine River and west of Bathurst Inlet lies 7,500 miles of unexplored land, which may be compared to half the size of Switzerland. Eastward from this, lying between the Arctic coast and Black's River, is an area of 31,000 square miles or about equal to Ireland. Much larger than Great Britain and Ireland, and embracing 178,000 square miles, is the region bounded by Black's River, Great Slave Lake, Athabasca Lake, Hatchet and Reindeer lakes, Churchill River, and the west coast of Hudson Bay. This country includes the barren grounds of the continent. Mr. J. B. Tyrell recently struck through this country on tis trip to Fort Churchill, on the Churchill River, but could only make a preliminary exploration. On the south coast of Hudson Bay, between the Severn and Attawapishkat rivers, is an area 22,000 square miles in extent or larger than Nova Scotia; and lying between Trout Lake, Lac Seul, and the Albany River is another 15,000 square miles of unexplored land.

South and east of James Bay and nearer to large centres of population than any other unexplored region is a tract of 35, 000 square miles, which may be compared in size to Portugal.

The most easterly area is the greatest of all. It comprises almost the entire interior of the Labrador peninsula or Northwest Territory, in all 289,-000 square miles, or more than twice as much as Great Britain and Ireland. Two or three years ago, Mr. A. P. Lowe made a line of exploration and survey into the interior of this vast region, and the same gentleman also traveled inland up the Hamilton River; but with these exceptions the country may be regarded as practically unexplored.

The Arctic islands will add an area of several hundred thousand square miles of unexp lored land.

PHOENIX WATER.

Greenwood Electric Company will Furnish Water to Dinner Bucket town.

By a popular vote the Greenwood Electric Company were chosen to furnish Phoenix with water. A public meeting was held in the school house Phoenix on Thursday when after discussing the different propositions submitted, the ratepayers chose that of the Greenwood company.

In calling the meeting to order the chairman explained its object and called on Mr. E. G. Warren, managing director of the Greenwood Electric Light company, to put his company's proposition before the meeting and explain it.

Mr. Warren's proposition was as follows: They would only ask for a ten years exclusive franchise for both water and light, with exemption from taxation of the company's property for ten years. They would give the city water free for fire protection and put in hydrants whenever and wherever needed and give the city free street lighting to the extent of $50 per month. The rates for water and lighting purposes would be essentially the same as those submitted by Messrs. McArthur and Monk and Messrs. Graves, Flumerfelt and Williams. They would also agree to put in fire protection at once on being granted the franchises, and put in domestic service as soon after as possible.

Mr. Whiteside, solicitor for Messrs. McArthur and Monk, was then called upon and stated that his principals were not willing to give such liberal terms to the city as Mr. Warren's company proposed, and would thereore withdraw their proposition.

Mr. H. G. S. Heisterman, who was to represent Messrs. Graves and Williams, was unavoidably absent, and at the request of the meeting Mr Kerr, city solicitor, read their proposition and Mr. Whiteside read that of his principals, to enable a comparison to be made of the three propositions. The points of difference of the three being rather confusing to the majority present, Mr. Kerr's services were again requested to explain away differences.

At the close of the meeting a vote of those entitled to vote on money loan bylaws was taken, and twenty-five were in favor of the Greenwood proposition and four voted for Mr. Graves, The vote taken last night was not at all legal, but was to give the city council an opportunity of judging whether a bylaw giving the franchises to a private company would be carried when put in a regular way,

It is the intention of the company to commence work immediately, and Phoenix will have an up-to-date water and light system within ninty days.

ITALIANS STEAL A DOG.

About two month ago a pretty fox terrier belonging to Mr. Geo. Ingster was carried off by two Italians. Several times the Italians with the dog were seen walking on the R. R. track. On Saturday of last week they were again seen with the dog, passing the house where Mr. Inkster formerly lived. Some one called the dog, he came and was identified. A fierce dispute arose, during which the Italians grabbed the dog and ran, pursued by the owners. All met on the trestle where a struggle took place, one of the Italians drew a knife. No one was hurt and the owners got their dog.—Anaconda News.

SALE UNDER CHATTEL MORTGAGE.

Under and by virtue of the powers contained in a certain Chattle Mortgage, dated the 29th day of September, 1900, which will be produced at the time of sale, and which said Chattle Mortgage was, by Indenture of Assignment dated the 8th day of May, 1901, duly assigned to The Ames Holden Company of Montreal, Limited, there will be offered for sale by public auction, at the store now or recently occupied by Joseph L. Smith, situate on Lot 34, Block 12, on the West side of Copper Street in the City of Greenwood in the County of Yale in the Province of British Columbia, at the hour of 1 o'clock in the forenoon on Tuesday the 25th day of June, 1901, the following property: The stock of Groceries, dry goods, boots and shoes, and all wares and merchandise of whatever kind and nature, together with all the store fittings and furniture, and the frame building in which said goods and chattels and fittings are contained, situate on said Lot 34, Block 12, City of Greenwood, aforesaid.

Dated this 13th day of June, 1901.

UNION LABEL

THURSDAY, JUNE 13, 1901.

PLACING THE RESPONSIBILITY.

Mr. Herchell Cohene, of Victoria, of Cassiar Central railway fame has written to the Victoria Colonist strongly criticizing the B. C. mine laws and setting forth reasons why more English capital does not seek investment in this provinces. He states that on account of demagogic utterance that are being hurled against capital, investors may be pardoned if they think twice before trusting themselves to B. C.'s tender mercies and asks who could be advised to purchase land in B. C. when labor cannot be secured at a rate that will give a settler a chance to live and winds up by stating that capital will shy at B. C. until laws relating to mining, labor, land, etc., are placed on a business basis.

While certain laws may be open to criticism while demagogic utterances have been too common. Mr. Cohen places the responsibility for the shyness of British capital where it does not belong. The laws of British Columbia are no harsher on capital than those in other countries where capital finds a safe and profitable investment and the demagogue are fewer here than possibly in any other British colony.

Mr. Cohen neglected to tell us that the British investor has been outrageously swindled by unscrupulous promoters. Veritable wild cats have been floated in London at enormous figures and when good properties were secured by English companies the forty-second cousin of Lord Guinea-Pig was sent out to manage the concern and the other relatives became supernumeraries at fat salaries. More money was expended in booz than in development add when the mines refused to pay for this extravagance the English investors is told that mines cannot be worked profitably because of the serious mining laws, The Yukon gold fields have been fruitful in schemes for the promoter and B. C. is not without its number. The english investor has been soaked by the Albert Canyon company, by the Fraser River, Lillooet and Cariboo Gold Fields and more recently by the B. A. C., although this company secured one of the best if not the best mine in the province. It is too bad that Mr. Cohen who is a gentleman of standing and who apparently is conducting his own enterprisises in a thoroughly businesslike way should be offering a plea for the boomsters and manipulaters who swindled the British investors out of their money. Mr. Cohen would be doing this province and the British investors a greater service if he directed his trenchant pen against those who by their methods have brought British Columbia investments into disrepute.

The country is all right and our laws are better than those of Colorado and elsewhere when British capital finds profitable investments but we have been unfortunate in having been a rich field for the manipulators of the wild catters and for mismanagement of good properties.

THE NUPTIAL KNOT.

Coast papers are discussing the validity of a marriage that took place in the city of Victoria last week. H. McConoughy and Miss Genevieve Eddy of Seattle came over from the Sound city to be married in Victoria. On the same steamer were Rev. A. Edson Barroughs and Rev. Mr. Seelick both of Seattle and ministers of the Methodist Episcopal church to which organization both bride and groom belonged. The parsons were invited to tie the nuptial knot and they readily consented. The pleasing ceremony took place in the Dominion Hotel. An inquisitive newspaper man dlover into the mysteries of Joe Martin's laws when he was attorney-general of this province and unearthed this clause from the act to regulate the soleminization of marriage to bring trouble to the happy couple. Clause 4 section 129 of the act referred to above says: The minister or clergyman of every church and religious denomination in British Columbia and the registars appointed by the lieutenant-governor in council under this act may celebrate a marriage between two persons neither of whom shall be under legal disqualification to contract such marriage.

This clause implies that the marriage ceremony must be celebrated by a B. C. minister or registrar and that the marriage performed by a Seattle parson of denominations that hav no existance in this province is illegal.

One coast paper suggests that the action of the Seattle ministers is a violation of the alien labor law. The majority of them treat the matt r in a spirit of levity which the couple most concerned doubtless do not feel.

FLEECING THE PUBLIC.

The Spokesman Review tells of a new method under which the public are induced to speculate in stocks. The plan guarantees speculations in mining stocks. It provides for returning the full price paid for the stock at the end of 10 years.

A number of mining companies several oil concerns have been floated lately with the guarantee feature. The guarantee is generally quite safe and the speculator can depend upon getting all his money back; if he wants it, at the end of 10 years. At the same time he pays pretty heavily for the privileges.

The gnarantee is generally backed by some building and loan association, or by some investment concern. The guarantee company receives 62 per cent of all the money that is paid by the purchaser for the stock. The mining company keeps 38 per cent of the amount. It is estimated that in the course of 10 years the interest on 62 per cent of the money will bring the amount up to the entire amount originally paid, with a fair margin besides. The guarantee provides that at the end of the 10 year period the investor can get his entire investment back, if he wants to surrender his stock.

The proposition is perfectly safe, but it makes the investor pay just about three prices for his stock.

It has been announced that K. C. Killeen of Victoria has been appointed superintendent of wagon roads throughout the province. It is hoped that this oppointment means the retirement of the public works engineer.

We hasten to congratulate the Dominion Government on so successfully maintaining the mediocerity of the British Columbia bench.

The Chesaw Times has been resurrected after a brief season in the journalistic boneyard. Fred T. Fine is again at the helm.

LOCAL NOTICES.

CITY COUNCIL.

Business Transacted at the Regular Meeting Monday Night.

Mayor Jakes and Ald. Caulfield, Naden, Sullivan, Sutherland and Ross were present at the regular meeting of the city council on Monday evening. City Engineer Johnson presented report regarding work on the streets which was received and suggestions adopted. C. Wilson on behalf of fire department asked for subscription to help fire department in sending a hose team to the races at Grand Forks. Thirty dollars was voted for this purpose. The council decided to send a representative to Victoria to urge upon the government the necessity for better school accommodation. The city solicitor presented a draft agreement between city and the Sisters in reference to the erection of a hospital and the Mayor and clerk were empowered to sign the same.

IN TOWN.

Miss Atkinson of Greenwood is building a store on Butte street to rent. Mr. Neitzel is building a nice cottage on Denver street. Mr. Price is also building a nice cottage. Mr. Lowery is finishing a residence on Tacoma street. Building operations will continue to go on as the time for Anaconda to go ahead has come.—Anaconda News.

AT THE MOTHER LODE.

Sunday while blasting in the Glory Hole a large rock fell on the roof of the hoist house and broke a big hole through the iron roofing. Fortunately no one was hit. The damage will be repaired immediately. —Anaconda News.

Licence to an Extra-Provincial Company.

"COMPANIES ACT, 1897."

CANADA: PROVINCE OF BRITISH COLUMBIA

THIS IS TO CERTIFY that the "Montreal and Boston Copper Company, Ltd." is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in Montreal, Province of Quebec, Canada.

The amount of the capital of the Company is $500,000, divided into five thousand shares of $100 each.

The head office of the Company in this Province is situate at Greenwood, and Clive Pringle, Barrister-at-Law, whose address is Greenwood aforesaid, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 11th day of March, one thousand nine hundred and one.

[L.S.] S. Y. WOOTTON, Registrar of Joint Stock Companies.

The following are the objects for which the Company has been established:

a. To mine, quarry, work, mill, manufacture and prepare for sale by any process, and to carry, sell and deal in coal, coke, iron, iron ores, stone, copper and copper ores, manganese and any other minerals, clays or mineral substances, and generally to carry on the trades of mine and coal owners, iron masters, founders, smelters of metals, and quarrymen and ore and metal dealers:

b. To purchase or acquire any interest in, and to hold, use or occupy any lands, buildings, coal and other mines, minerals, mining or other rights, easements or privileges, and the Company may sell and convey the same by deed, or deeds with the usual full covenants or otherwise:

c. To let or sub-let for building, mining or any other purpose any property, and to give and grant any rights, licenses, easements or privileges:

d. To construct, purchase, alter, operate or maintain, or to contribute to the purchase, construction, alteration, operation or maintenance of any building, railway, tramway, wire rope tramway, canal, bridge, pier, road, ship, steamer, barge or other work calculated to afford any facility in carrying on or extending the business of the Company, and to operate such railway, tramway, wire rope tramway, canal, wharf bridge, pier, road, ship, steamer, barge, and other works by steam, electricity or other motive power:

e. To purchase, hire, charter, construct, maintain, operate or manufacture for use in connection with any business of the Company any ships, steamers, barges, rolling stock, machinery or plant:

f. To acquire any exclusive right in letters patent, franchise or patent rights or privileges or lands in connection with the business of the Company.

g. To farm any land held by the Company, and for that purpose to buy, sell and deal in any farming stock or produce:

h. To construct and maintain telegraph and telephones, and generally to carry on the business of a telegraph and telephone company, and to transport freight and passengers on land and water, in connection with and confined to the business of the Company:

i. To acquire the good-will of any business within the objects of the Company, and any lands, privileges, rights and contracts a pertaining to the same, and in connection wit such purchase to undertake the liabilities of any company, association, partnership or person:

j. To sell or otherwise dispose of the whole or any branch or part of the business or property of the Company to any Company carrying on or formed for the purpose of carrying on objects similar to those of the Company eby incorporated:

To acquire by original subscription or erwise, and to hold, sell or otherwise dispose hares, stocks, debentures or debenture stock ny company carrying on, or formed for carg on, any trade or business within the cts of the Company:

To purchase, lease or otherwise acquire, and enjoy all property, franchises, rights privileges, held or enjoyed by any other pany or companies carrying or any busi- similar to that which this Company is orized to carry on under the provision of harter. Said property, rights, franchises privileges, when purchased, leased or other- acquired as above stated shall be owned enjoyed by this Company as fully and tually as the same were heretofore held enjoyed by the Company from which the were so purchased, leased or otherwise ired, subject to all existing valid liens and res.

KETTLE RIVER POWER.

Plans of the Company Organized to Develop Power at Cascade.

Through the courtesy of Mr. Anderson, superintendent of the Kettle River Power company, the Times publishes some interesting details regarding the company's plans and works. As has already been announced financial subscriptions is now being invited in London to a debenture issue of £100,000 in the Kettle River Power company. The success attending the operations of the Bonnington Falls company, which for the last two or three years has been selling power to most of the big Rossland and Nelson mines, has caused it to be recognized that the harnessing of the magnificent water power to be found all over the province affords one of the most lucrative forms of investment. It is calculated that the new company will supply all the big mines of the Boundary country and probably the smelter also. Its charter enables it to supply to any place within a radius of 40 miles of Grand Forks, which not only takes in all the mines at Cascade, Grand Forks, Phoenix, Greenwood, Anaconda and Midway, but those of Rossland and Trail creek as well.

The untertaking controls the water of the Kettle river, which at Cascade City enters a canyon and falls 120 feet in a distance of 2500 feet. It is estimated that this fall is capable of generating a minimum of 6000 horse power during that period of the year when the water is the lowest. Excepting at the Grand Forks smelter, which generates its own power from the north fork of Kettle river, steam power is employed on all the mines and other works in the Boundary district.

The cost of this steam power is estimated to range between $70 and $110 per horse power per annum, while this company will be able to make large profits by a sale of power at considerable lower prices that the minimum of $70. Under these circumstauces, and having regard to the fact that many of the mines depend upon the economical working of large low grade ore bodies for their profits, and are even now hampered by want of sufficient water even for steam purposes. There can be but little doubt that the company will be able to dispose of all its power as soon as it is in a position to supply it.

The construction of the works has been proceedtng for some time, and so far pratically the whole of the locol works, including the dam have been completed at a cost of about $115,000. The first installation of machinery will consist of three turbines of 1000 horse power each.

In order to guarantee the utmost efficiency, the company will erect two independent lines for the transmission of the power to its customers. As soon as the first 2000 horse power has been contracted for, four more turbines will be installed to bring the full efficiency up to 6000 horse power. The estimate for the installation of the first 2000 is $433,135, while to bring the efficiency up to 6000 a further estimated expenditure of $431,210 would be required.

The London & British Columbia Goldfields company, limited is placing the undertaking on the London market, while the Dominion Mining, Developing & Agency company, limited, occupies the position of vendor.

Rooms at the Clarendon 50 cents per night.

Vancouver prices at Anderson's drug store, Greenwood.

Geo. R. Naden and H. S. Wallace have returned from a trip to the Similkameen.

NOTICE.

STEAM BOILER INSPECTORS' EXAMINATION.

APPLICATIONS for examination for Steam Boiler Inspectors will be received by the Chief Inspector of Steam Boilers, New Westminster, B. C., up to June 10th, 1901. Applicants must be between the ages of 25 and 50 years, they must have had at least five years' practical workshop experience as machinists or boiler makers, and must also have a thorough understanding of steam engineering.

Forms of particulars may be obtained, on request of intending applicants, from the Chief Inspector of Steam Boilers, New Westminster, B. C., and must be properly filled in and returned to him on or before the above-mentioned date.

The candidates selected for examination will then be notified as to date and place of examination.

The salary will be $100 per month.

CITY COUNCIL.

Business Transacted at the Regular Meeting Monday Night.

Mayor Jakes and Ald. Caulfield, Naden, Sullivan, Sutherland and Ross were present at the regular meeting of the city council on Monday evening. City Engineer Johnson presented report regarding work on the streets which was received and suggestions adopted. C. Wilson on behalf of fire department asked for subscription to help fire department in sending a hose team to the races at Grand Forks. Thirty dollars was voted for this purpose. The council decided to send a representative to Victoria to urge upon the government the necessity for better school accommodation. The city solicitor presented a draft agreement between city and the Sisters in reference to the erection of a hospital and the Mayor and clerk were empowered to sign the same.

IN TOWN.

Miss Atkinson of Greenwood is building a store on Butte street to rent. Mr. Neitzel is building a nice cottage on Denver street. Mr. Price is also building a nice cottage. Mr. Lowery is finishing a residence on Tacoma street. Building operations will continue to go on as the time for Anaconda to go ahead has come.—Anaconda News.

AT THE MOTHER LODE.

Sunday while blasting in the Glory Hole a large rock fell on the roof of the hoist house and broke a big hole through the iron roofing. Fortunately no one was hit. The damage will be repaired immediately. —Anaconda News.

Licence to an Extra-Provincial Company.

"COMPANIES ACT, 1897."

CANADA: PROVINCE OF BRITISH COLUMBIA }

THIS IS TO CERTIFY that the "Montreal and Boston Copper Company, Ltd." is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in Montreal, Province of Quebec, Canada.

The amount of the capital of the Company is $500,000, divided into five thousand shares of $100 each.

The head office of the Company in this Province is situate at Greenwood, and Clive Pringle, Barrister-at-Law, whose address is Greenwood aforesaid, is the attorney for the Company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 11th day of March, one thousand nine hundred and one.

[L.S.] S. Y. WOOTTON, Registrar of Joint Stock Companies.

The following are the objects for which the Company has been established:

a. To mine, quarry, work, mill, manufacture and prepare for sale by any process, and to carry, sell and deal in coal, coke, iron, iron ores, stone, copper and copper ores, manganese and any other minerals, clays or mineral substances, and generally to carry on the trades of mine and coal owners, iron masters, founders, smelters of metals, and quarrymen and ore and metal dealers:

b. To purchase or acquire any interest in, and to hold, use or occupy any lands, buildings, coal and other mines, minerals, mining or other rights, easements or privileges, and the Company may sell and convey the same by deed or deeds with the usual full covenants or otherwise:

c. To let or sub-let for building, mining or any other purpose any property, and to give and grant any rights, licenses, easements or privileges:

d. To construct, purchase, alter, operate or maintain, or to contribute to the purchase, construction, alteration, operation or maintenance of any building, railway, tramway, wire rope tramway, canal, bridge, pier, road, ship, steamer, barge or other work calculated to afford any facility in carrying on or extending the business of the Company, and to operate such railway, tramway, wire rope tramway, canal, wharf bridge, pier, road, ship, steamer, barge, and other works by steam, electricity or other motive power:

e. To purchase, hire, charter, construct, maintain, operate or manufacture for use in connection with any business of the Company any ships, steamers, barges, rolling stock, machinery or plant:

f. To acquire any exclusive right in letters patent, franchise or patent rights or privileges or lands in connection with the business of the Company.

g. To farm any land held by the Company, and for that purpose to buy, sell and deal in any farming stock or produce:

h. To construct and maintain telegraph and telephones, and generally to carry on the business of a telegraph and telephone company, and to transport freight and passengers on land and water, in connection with and confined to the business of the Company:

i. To acquire the good-will of any business within the objects of the Company, and any lands, privileges, rights and contracts appertaining to the same, and in connection with such purchase to undertake the liabilities of any company, association, partnership or person:

j. To sell or otherwise dispose of the whole or any branch or part of the business or property of the Company to any Company carrying on or formed for the purpose of carrying on objects similar to those of the Company by incorporated:

To acquire by original subscription or otherwise, and to hold, sell or otherwise dispose shares, stocks, debentures or debenture stock any company carrying on, or formed for carrying on, any trade or business within the objects of the Company:

To purchase, lease or otherwise acquire, and enjoy all property, franchises, rights privileges, held or enjoyed by any other company or companies carrying or any business similar to that which this Company is authorized to carry on under the provision of charter. Said property, rights, franchises privileges, when purchased, leased or otherwise acquired as above stated shall be owned enjoyed by this Company as fully and actually as the same were heretofore held enjoyed by the Company from which the were so purchased, leased or otherwise acquired, subject to all existing valid liens and charges.

KETTLE RIVER POWER.

Plans of the Company Organized to Develop Power at Cascade.

Through the courtesy of Mr. Anderson, superintendent of the Kettle River Power company, the Times publishes some interesting details regarding the company's plans and works. As has already been announced financial subscriptions is now being invited in London to a debenture issue of £100,000 in the Kettle River Power company. The success attending the operations of the Bonnington Falls company, which for the last two or three years has been selling power to most of the big Rossland and Nelson mines, has caused it to be recognized that the harnessing of the magnificent water power to be found all over the province affords one of the most lucrative forms of investment. It is calculated that the new company will supply all the big mines of the Boundary country and probably the smelter also. Its charter enables it to supply to any place within a radius of 40 miles of Grand Forks, which not only takes in all the mines at Cascade, Grand Forks, Phoenix, Greenwood, Anaconda and Midway, but those of Rossland and Trail creek as well.

The untertaking controls the water of the Kettle river, which at Cascade City enters a canyon and falls 120 feet in a distance of 2500 feet. It is estimated that this fall is capable of generating a minimum of 6000 horse power during that period of the year when the water is the lowest. Excepting at the Grand Forks smelter, which generates its own power from the north fork of Kettle river, steam power is employed on all the mines and other works in the Boundary district.

The cost of this steam power is estimated to range between $70 and $110 per horse power per annum, while this company will be able to make large profits by a sale of power at considerable lower prices that the minimum of $70. Under these circumstances, and having regard to the fact that many of the mines depend upon the economical working of large low grade ore bodies for their profits, and are even now hampered by want of sufficient water even for steam purposes. There can be but little doubt that the company will be able to dispose of all its power as soon as it is in a position to supply it.

The construction of the works has been proceedtng for some time, and so far pratically the whole of the locol works, including the dam have been completed at a cost of about $115,000. The first installation of machinery will consist of three turbines of 1000 horse power each.

In order to guarantee the utmost efficiency, the company will erect two independent lines for the transmission of the power to its customers. As soon as the first 2000 horse power has been contracted for, four more turbines will be installed to bring the full efficiency up to 6000 horse power. The estimate for the installation of the first 2000 is $433,135, while to bring the efficiency up to 6000 a further estimated expenditure of $431,210 would be required.

The London & British Columbia Goldfields company, limited is placing the undertaking on the London market, while the Dominion Mining, Developing & Agency company, limited, occupies the position of vendor.

Rooms at the Clarendon 50 cents per night.

THE MORRISON

EXTRAORDINARY GENERAL MEETING HELD IN SPOKANE.

AUDITORS WERE APPOINTED

Majority of Shareholders Express Confidence in Management—The Engineers Report.

On Wednesday last the stockholders in the Morrison Mines held a special meeting in Spokane. There were 623,192 shares represented or over one half the issued capital of the company. Moses Oppenheimer and W. S. McCrea were appointed auditors to examine the company's books and accounts for the purpose of making a report at a general meeting to be held on October 1st. The following resolution was unanimously passed:

"We, the stockholders of the Morrison Mines, limited, representing a total of 604,92 shares. after examining into the financial condition of the company and the amount of work accomplished at the mine, believe the present board and management to be thoroughly competent, and that the interests of the stockholders are being well subserved. We also unanimously endorse the action of the board in levying the last two assessments, Nos. 10 and 11, believing it was the best interests of the company."

The report of Roy H. Clarke, M. E., who examined the Morrison has been printed and distributed to the shareholders. It contains many interesting refereuces to the property.

"Some 5000 tons of ore which was taken out simply in drifting lies on the dumps," says Mr. Clarke. "The greater part of the ore contains about the right amount of silica, iron and lime to make it a good self fluxing ore, similar to the other ores of the Boundary country. However, the large amount of iron pyrites present may make it necessary to roast a portion of the lot to reduce the quantity of sulphur in it before it is smelted.

"The ore recently shipped from the Morrison contained about 22 per cent sulphur. This exceeds the amount for smelting operations, as required at present in this district. Such, if smelted by itself, is desulphurized by being roasted before it is smelted. It may be found practicable for the company to roast the ore in heaps at the mine. With fuel at hand and proper methods for about 50 cents per ton. A saving in freight and smelter charges will thereby be effected."

Mr. Clarkd took about 25 samples from various parts of the mine. They were averages as nearly as could be obtained. In speaking of the results that he obtained from them, Mr. Clarke says:

"In conclusion, it is evident from the values given above that the ore thus far encountered in the Morrison is of low grade. The average value per ton lies between $5 and $6. On the other hand, the ore is fairly uniform in value, and every sample shows some gold, silver and copper. The largest value is in gold, a condition which is desirable and which does not obtain in the large producers in the Boundary country. They are worked chiefly for copper.

"To make the mine profitable, first the ore must occur in large quantities; second it must be mined, transported and smelted for a cost not to exceed $5 a ton.

"The first condition gives promise of being fulfilled. The other large mines of the district are mining their ore where they do not have to hoist it from below, at a cost in some cases not exceeding $1 a ton. I believe that it can be made possible to mine the ore in the Morrison above the main tunnel, if large bodies are encountered, for a price not to exceed $1.25 a ton.

"The smelters of the British Columbia Copper company at Greenwood and the Miner-Graves syndicate at Grand Forks, are said to smelter their ores at cost of less than $2 r ton. I am of the opinion that ultimately it will be found more profitable, and perhaps necessary, for the Morrison company to own its smelter. The grade of ore throughout the Boundary district under existing conditions does not allow both the mining company and the smelting company to share the profits.

"I have advised installing new machinery for carrying out the proposed development. My advice would be to install an engine capable of hoisting 300 tons per day from a depth of 300 feet. A compressor plant of the compound steam condensing and compound air type, and two 80 horse power boilers, would be desirable.

"I have noticed articles in the papers of late derogatory to the management of the Morrison mine. If the present development at the mine is the result of mismanagement, it would be well if many of the other properties of the district could have the good luck to be mismanaged. The work already done and under way has been carried out with good objects in view and in a workmanlike manner, and certainly shows no extravagence."

Carlstein & Co. have secured the contract for excavating the basement for the Russell Law Caulfield Company's block. They began work on Tuesday □Jas. Kerr returned on Monday from the coast where he was arranging with the government for the selection of its lots in Carmi.

The new schedule went into effect on Monday night, the incoming train arriving at 10:30 p. m. and the outgoing leaving at 11:30 a. m. There are now two trains from Phoenix. One connects with the outgoing train at Eholt transfers passengers for the east and continues to Greenwood, returning to connect with the incoming train at Eholt.

WANTED—Trustworthy men and women to travel and advertise for old established house of solid financial standing. Salary $780 a year and expenses all payable in cash. No canvassing required. Give references and enclose self-addressed stamped envelope. Address manager, 355 Caxton Bldr., Chicago.

Hugh Cameron the genial proprietor of the Camp McKinney Hotel and his neice Miss McKay arrived in the city on Wednesday en route for Nova Scotia. Mr. Cameron has not been back to his old home for 30 years and it is probable that he will visit the Land 'O' Cakes before returning home. His host of friends in this district will wish him a pleasant journey.

Jno. Oliver M. P. P. for Delta was in the city this week, the guest of his old friend Geo R. Naden. He visited the different camps and received a fund of information regarding the possibilities of the interior mining districts. Mr. Oliver is a hard headed common sense farmer who has established a reputation in the legislature of saying more in five minutes than the ordinary politician in an hour's display of pyrotchinies. With more Jno. Olivers in the house, there would be less damphfool legislation and the length of sessions would be cut in two.

Fresh candy at Semerads.

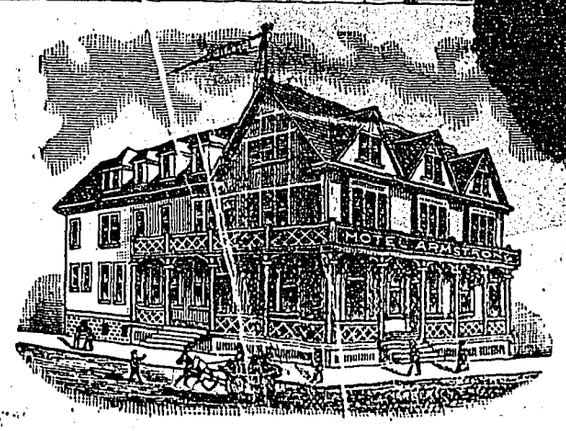
Fresh strawberries daily at Semerads.

Fresh candy at Semerad's, Copper street.

Rooms at the Clarendon 50 cents per night.

HOTEL ARMSTRONG

...THE PRIDE... OF GREENWOOD.



I. P. ARMSTRONG . .. PROPRIETOR.

OUR STOCK OF

HARDWARE...

GROCERIES...

BOOTS AND SHOES

MEN'S FURNISHINGS

is a large and varied one, every line is complete in itself, and strictly first-class. Not a shoddy article in any of the lines. They all concede that our stock of Groceries is the nicest and freshest in the city. Prices consistent with the quality of the goods. We would dislike very much to be considered the "cheapest" place in town, there are so many VERY CHEAP OENS, but we do think that we come very near being the best. Try us, and tell us what you think.
