IN THE COUNTY COURT OF BRITISH COLUMBIA, HOLDEN AT RICHFIELD.

IN BANKRUPTCY.

WHEREAS A PETITION FOR ADJUDIcation of Bankruptcy, bearing date the 24th day of July, A.D 1875, hath been duly filed at Richfield, in the County Court of British Columbia, sitting in Bankruptcy, by DOMINIQUE ERCOLE, of Lightning Creek, Free Miner, under which the said Dominique Ercole has been adjudged a Bankrupt, notice is hereby given that the said Bankrupt is hereby required to surrender himself to the said Court, at the first meeting of creditors, to be held before the said Court at Richfield on Tuesday, the third day of August, A.D. 1875, at 11 o'clock in the forenoon precisely, and also to the Court at the second meeting to be held at the same place and hour on Friday, the third day of September, A.D 1875, for the said Bankrupt to pass his examination. At the first meeting, Creditors are to come and prove their debts and choose an assignee or assignees of the Bankrupt's estate and effects; at the second meeting, proof of debts of creditors will be received, and the Bankrupt will be required to submit himself to be examined and to make a full disclosure and discovery of all his estate and effects, and to finish his examination.

Notice is also hereby given to all persons that are indebted to the said Bankrupt, or that have any of his effects, not to deliver the same but to Mr James Lindsay of Richfield, Official Assignee, whom the Court has appointed, and give notice to Mr Davie of Barkerville, Counsel in the matter of the Petition.

THE CARIBOO SENTINEL

SATURDAY, AUGUST 21, 1875.

TOPOGRAPHICAL AND GEOLOGICAL SURVEY.

We understand that the Hon. Dr. Ash, Minister of Mines, a short time since ordered inquiries to be made of two resident surveyors as to the cost of making a topographical survey of the country lying within the Cariboo Gold Belt. We are not aware that the result of the inquiries made was such as to induce the Minister of Mines to let the matter stand in abeyance for the present on the score of its expense; but if such is the case, we would urge that by no means should the expenditure of a few thousand dollars be allowed to stand in the way of the carrying out of a project which would, in connection with the Geological Survey of the Province, about to be commenced by the Dominion Government in the neighborhood of Fort George, and which will probably be extended through the Cariboo section, assist largely in developing our mining resources. Professor Selwyn, the able head of the Geological Survey of Canada, in his Report for 1870-1, says the necessity of good topographical maps is one which cannot be too often pointed out. Such maps are not only necessary for geological and mineralogical purposes, but for agricultural, sylvicultural, engineering, military, political, and statistical purposes they are likewise indispensable; and every dollar expended towards their production eventually becomes an annual saving to the country. The benefits arising from a topographical and geological survey of Cariboo would, we think, be so great as to warrant the necessary expenditure for that purpose. In an engineering point of view alone, the expenditure would be returned a hundredfold; for it only requires a topographical survey of the district to draw attention to the large field existing in Cariboo for hydraulic mining, and which must, before many years are past, take precedence of all other kinds of mining in this district. The deep diggings on the different creeks cannot be expected to last for ever, and attention must soon be perforce directed to the hills and the gravel banks of the rivers and creeks. To this end, a large supply of water is indispensable, and a topographical survey of the country necessary in order to determine the feasibility of bringing water from the various rivers and lakes. There can be no doubt that vast mines of wealth exist in the hills and gravel banks of Cariboo which can only be worked to advantage by hydraulicing them, but the want of knowledge of the topography of the country has set down as almost insurmountable the labor and expense of getting water to bear on them. There is notably one section of Cariboo where hydraulic mining would be carried on extensively did not a wrong impression exist as to the expense or impracticability of getting water. We refer to the extensive gravel benches in the Quesnel river district, only a few of which are at present being worked by Chinese companies. A survey of that section would undeceive people in this respect. Hydraulic mining is yet in its infancy in Cariboo, being chiefly confined to Williams creek, where, notwithstanding a short supply of water, very good returns have been obtained from the claims.

We hope the Minister of Mines, who takes a lively interest in anything tending to develope the mining resources of the Province, will not lose sight of the importance of a topographical survey of this district, and will also endeavor to induce the Dominion Government to establish a branch of the Geological Survey in Cariboo. We have the opinion of Professor Selwyn that the want of correct topographical maps of gold districts is a serious hindrance to their development. It renders accurate geological observations impossible; and thus the structure of the country cannot be worked out or understood, as it must be before either the probable course, or the extent of the mineral-veins can be ascertained with precision, or the localities determined in which further developments may be looked for.

"Joshua," said a Yankee mother to her hopeful at breakfast, "what is an heir-apparent?" "There's one on the butter, mother," replied the infilial youngster. And the old lady "lit" upon him with the coffee pot.

The other day, when the Sultan of Turkistan saw the splendid buildings of St. Thomas' Hospital in London, he said: "The poor who are ill inhabit these places, where do the poor who are not ill dwell?" There was a sharp sting in that.

The Carson, Nevada, Mint has treated 4,000,000 ounces of silver and 210,000 ounces of gold during last year, being double the business of the previous year.

During a game between two colored nines at New Haven recently, one of the players, who was running to a base and feared he would be put out, drew a pistol and fired it at the base man, who, hearing the ball pass close to his head fired his pistol in turn, badly shattering the base runner's hand.

One of the peculiarities of the paper on which the Bank of England notes are printed is its strength. A bank note will support 36 pounds before being sized.—[And if it is of the large sized species, it will support a whole family for an indefinite period.

BERKELEY, September, 1869.—Gentlemen, I feel it a duty I owe to you, to express my gratitude for the great benefit I have derived by taking 'Norton's Camomile Pills.' I applied to your agent, Mr. Bell, Berkeley, for the above-named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable Pills, I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may be thus afflicted.—I am, sir, truly yours, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS."

THE CARIBOO SENTINEL

SATURDAY, AUGUST 21, 1875.

BY TELEGRAPH

VICTORIA.

Victoria, August 16th—The steamer Vasco de Gama sailed from San Francisco for Victoria at 4 p.m. on Saturday.

The iron bark Blanche, consigned to Henry Rhodes & Co., arrived yesterday evening, after a passage of 174 days from Liverpool. Part of her cargo consists of 750 barrels cement for the dry dock.

The body of a Coloman was found floating in the harbor yesterday morning.

An Indian who had been lying in a tent on Store street, dangerously ill with small pox, seeing no chance of relief, blew his brains out in a fit of despair.

The Salvador sailed for San Francisco on Saturday evening with the mails, passengers, and 900 tons of coal.

The Pacific sailed at noon to-day. Fares have been reduced on the Pacific to $15 in the cabin and $7.50 steerage.

Wells, Fargo & Co. shipped the following amounts of treasure per steamer Pacific:—Bank of British Columbia, $14,884; Bank of British North America, $7,855; F. Garesche $9,885.

A big fire is raging furiously at Leech river. The only property spared by the devouring element is Macdonald's house and a Government building.

A fire broke out at half past 3 o'clock yesterday in the clothing store of Mr H. M. Cohen, next door to the Standard office.—Considerable damage was done to the stock which was insured for $7,500.

Victoria, 17th—A fire inquest was held yesterday. After a short deliberation with closed doors, the Jury returned the following verdict: "That the fire originated in H. M. Cohen's store, and there is no evidence to show how it originated or what caused it."

Complaint is made that parties who have had charge of Indian small pox patients have allowed them to mingle too freely with the public; also, that the boat used for conveying bodies to the place of interment is kept at the public wharf, where children are in the habit of going on board of it.

The steamer North Pacific, engaged in conveying a Masonic party of excursionists from Oregon, Idaho and Washington Territory, has arrived on the Sound. She will be here on Thursday with the party.

Flour has risen at Portland to $6 50 per barrel.

The death is announced of Isaac M. Singer, of sewing machine celebrity.

General G. E. Pickett, who was Captain of the United States troops that first invaded San Juan Island in 1859, and who afterwards became a General in the Confederate Army, died at Norfolk, Virginia, on 30th July.

The store house at Race Rocks was destroyed by fire a few days since.

The Hon. Mr Laird, Minister of the Interior, will visit British Columbia next month, and remain here four weeks.

The bark Blanche brought 20 tons telegraph wire for the C.P.R.R. line, consigned to F. J. Barnard.

Victoria, August 19—The steamer Vasco de Gama arrived at Esquimalt from San Francisco at 5 o'clock yesterday morning.

The following coffer-dam tenders were opened by the Chief Commissioner of Lands and Works:—Duncan McDonald, Victoria, $22,170; Hayward & Jenkinson, Victoria, $59,479; Reed Bros & Co., London, $59,711; Alex. Watson, Victoria, $69,017; Harvey & Kilner, Ontario, $107,018; H. D. Forbes, Victoria, $138,804. The contract was awarded to Hayward & Jenkinson.

A number of the members of the Grand Lodges of Oregon and Washington Territory arrived on the North Pacific at 3 p.m. to-day. The Philharmonic Hall has been fitted up for a ball to be given in their honor this evening.

A sloop arrived in port night before last with a case of small-pox on board. The patient was sent to hospital, and the boat quarantined.

The Vasco de Gama made the run up in 78 hours. It is stated that this will be her last visit to this port, and that she will be put on to the San Francisco and Australian mail service.

Mr Holbrook offers himself for re-election to represent New Westminster city.

The Ottawa Times says Major-General Selby Smith passed Fort Pelly the first week of August. His progress so far has been pretty expeditious, and we may soon expect to hear of his arrival at the Rocky Mountains.

Mr A. B. Ferguson, who lately returned from Red River, says that a young man named Charles Chapman, who left Kamloops in August of last year for Canada, was drowned in the Athabasca river in the September following.

Notice of trial in the libel suit of Theodore Tilton vs. the Brooklyn Eagle was entered in the City Court of Brooklyn a few days ago. Damages are laid at $100,000.

UNITED STATES.

New York, 19th—Gold opened at 113⅞ and advanced in the first few minutes to 114¼, but has since declined to 113⅝.

Springfield, 19th—The State Elector publishes the following: Grave apprehensions are entertained as to the corn crops owing to the continued cloudy weather. The corn is growing rank, but not filling as it should. Hail and sunshine is needed. There is much anxity among leading producers. It is hoped a more favorable season will soon set in, and put affairs to rights before it is too late.

Denver, Col., 19th—Gen. Sherman and party arrived here last night. They will remain a week or ten days in the territory.

Heavy rains are prevailing throughout Colorado and New Mexico, and the prospect for a good crop is favorable.

Pottsville, Pa., 19th—At Macon, last evening, the rain poured down in torrents for three hours. Cellars were submerged, billiard tables were destroyed, and a number of saloons compelled to suspend business. The trains are delayed by land slides.

New York, 19th—A London special says a still further decline of a quarter per cent. is noted in Consols. The market is in a confused condition.

New York, 19th—A West India letter says the American Minister at Port au Prince daily expects an outbreak among the Haytiens. He has General Carral lodged in his house under the protection of the American flag, and refuses to surrender him to the Government. He has requested the United States Government to send him a man of war. The American Minister's house is surrounded by a guard, who daily salute him and his family. Carral was one of the leaders in the outbreak recently against the President, and has been condemned to death.

EUROPE.

London 19th—Foreign stocks reported to be falling heavily. Market dull, following the tumble yesterday in Turkish, Egyptian and Peruvian bonds.

Paris 19th—Specie in the Bank of France increased 972,000 francs during the past week.

London 19th—Bullion in the Bank of England increased £138,000 during the past week. Proportion of reserve to liabilities 54⅛.

Versailles 19th—The Republican Permanent Committee to-day presented an interpellation to Bert, Minister of the Interior, concerning the Bonapartist demonstration, and asking for authority to prohibit the sale and publication of the slanderous Bonapartist pamphlet. Buffet defended the Government and said no strict measures would be taken against Bonapartist papers. He said he had no regret in regard to authorising the sale of Gladstone's book. Mr Buffet further explained that Gladstone's publication had been allowed to be sold in the shops, but not to be hawked about in the streets.

Paris, 19th—Cardinal McCloskey received visits to-day from the Papal Nuncio and the Archbishop of Paris.

The Catholic Congress at Poictiers began its session to-day. The Archbishop of Orleans preached the opening sermon.

Paris, 19th—A Vienna dispatch says Prince Milan of Servia addressed a note to the Powers making the Treaty of Paris to the effect that has not been informed of their intentions as to the insurrection, which begins to assume portions that may make the suppression possible.

St. Petersburg, 19th—Thirty houses were destroyed by fire to-day.

Berlin, 19th—It is said Austria offers, under guarantee to the European Powers, to interfere for the pacification of Herzegowina on the basis of reforms in the administration of the Christian provinces of Turkey, but the Porte refused.

Liverpool, 19th—The steamer Nevada has arrived. She broke her piston when about 15 miles from Tarewell Lighthouse.

Berlin, 19th—The War Office has invited Gen. Maiggs, the United States Army, to witness the military manœuvres in Silesia next autumn.

THE EXPRESS.

Clinton, August 18—Barnard's Express left yesterday at 1 p.m. Passengers—Dr Jones and son, Prof. Dawson, of the Geological Survey, Mr Ch. J. Toomey, T. P. Marshall.

A large wild cat has been discovered on the Hanover mountain, in Ulster County, near Shokan. The animal has a voice like the prolonged note of a split bugle, and can be heard in the night time at a distance of two miles. Whether by its tremendous yeowls it will make their fortune of a veteran backwoodsman rise on end spite of himself.

WHAT PLAGUE, PESTILENCE, FAMINE AND ACCIDENT HAVE DONE SINCE JANUARY LAST.

There have been four destructive earthquakes, one of which all but rivalled the terrible Lisbon catastrophe—New Granada has to mourn twenty thousand of her people, earth-engulfed in a few moments. From Asia Minor, two thousand victims are reported from the same cause. Mexico has been convulsed, and over one hundred souls have perished. From the Southern Archipelago, the Loyalty Islands send in their sad quota of two thousand sudden and violent deaths, attributable to tidal waves of enormous height, succeeded by volcanic eruptions of abnormal fierceness. Wind storms, such as cyclones and tornadoes, have bereft of life 1000 human beings, Hong Kong contributing five hundred and Georgia three hundred to the roll. Measles carried into eternity tens of thousands of Fiji Islanders, and has almost decimated this last acquired British possession. Gaunt famine takes her dreaded position on the death parade, and claims with cadaverous face, bloodless lips, blackened tongue and despairing eyes, nearly twenty thousand emaciated, starved human beings—this from Asia Minor alone. Inundations are next to be considered: their fatal and destructive effects have been confined almost entirely to Europe, and the estimated loss of life is about three thousand in France, and in Hungary six to seven hundred. Marine catastrophies, in terribly rapid succession, mark thirteen hundred to their credit, the principal cases being the Schiller, 350; Gottenburgh, 166; Cadiz, 62; Fu Sing, 50; Vicksburg, 40; and other vessels with an average below 20. Of fires, North America has succeeded in topping the list with the charred remains of 250 out of 300 men, women and children who have been burned or suffocated. Explosions in mines, powder manufactories, and of boilers are set down at 207. Snow slides present a total of over one hundred. Grand total, 97,000 deaths.

Large as these figures seem it must be remembered that they represent but a small percentage of the destruction of human life from other than natural causes. They are only the large disasters which have been deemed of sufficient interest to telegraph as items of public importance. They do not include the thousands of minor disasters constantly occurring all over the world, which would swell the aggregate far up into the thousands, if not into the millions. If there were added to these the immense number taken off by suicide, murder, war, and massacre, and other violent forms of death which it is impossible to estimate, the result would be frightful to contemplate.

New Zealand.—The New Zealand Times publishes the following information, supplied by the Registrar-General, regarding the population of the colony on the 31st December, 1874: Auckland, 73,362; Taranaki, 6,373; Wellington, 35,607; Hawke's Bay, 11,122; Marlborough, 9,533; Nelson, 23,971; Westland, 15,377; Canterbury, 71,316; Otago, 98,067; Chatham Islands, 132. Total, 341,860. Thus it will be seen that the European population increased by 12,350 souls during the last ten months of 1874—a rate of progress which no other colony in Australasia at all approaches. Mr Marsh, chief immigration officer for Canterbury, reports that during the year ended the 28th of February last, 26 immigrant ships had arrived at Lyttleton, carrying 10,098 immigrants for the province of Canterbury alone.

Some Norwegians lately discovered a large lake about fifteen miles from Beaver Pass in which the fish are so thick that they say a man could walk across the lake on their backs. The discoverers intend to go into the fish business. Traces of an old Indian camp were found on the shores of the lake, and it is supposed that half a century has elapsed since the red men last camped there.

Three More Members of Mr Mackenzie's "Party of Purity" have been unseated for bribery and corruption. Mr Mackenzie, for Montreal West; Mr Murray, for North Renfrew; and Mr Lemuel Cushing, for Argenteuil. The latter gentleman has been disqualified for personal bribery. We learn from the Ottawa Citizen that Mr Cushing is a "Reformer" of the first water, being Secretary of a Sunday School Union and President of a Young Men's Christian Association.

Barnard & Co.'s Express arrived at 6 o'clock last night. Dr. Jones and son, and Mr Armitage, were passengers to Barkerville.

The dry, warm weather still continues.

The English Army.—The Army at home and abroad numbers 186,000. The number of the Militia is 118,000. The number of the Volunteers who are efficients is 161,150. Yeomanry 12,500. Enrolled Pensioners 21,995, and class A of the Reserve Forces 22,000. The total number of men is 450,755, but not in the sense of being an offensive army. The Regular Army must be looked upon as the offensive Army.

Geological Survey.—Professor Dawson, of the Canadian Geological Survey, arrived at Quesnel by this week's Express. Mr D. is a son of Professor Dawson, of McGill College, and is a Geologist of ability. We understand that he will take up his quarters at Fort George next winter, where he will commence geological explorations in the section of country through which the Canadian Pacific Railway line will run.

Canadian Politics.—It is worthy of remark that Montreal and Toronto, the two great centres of wealth, commerce, industry and enterprise in the Dominion, within a few months, during two general elections, have been swept by the Conservatives.

Pearson's Express.—It will be seen by advertisement that Pearson's Cariboo Express will leave Stanley for Yale three times a month, commencing Saturday, August 28th, making the trip in a week. The rate of passage is fixed at the low rate of $30.

Good Advice.—The Evangelist Hammond's advice to the "items man" of the Colonist before leaving Victoria for Sitka: "Make yourself an honest man, and then you may be sure that there is one rascal less in the world."

The steamer Victoria had to make an extra trip this week on account of press of freight, railway surveyors' stores, provisions, &c.

The new Methodist Church at Stanley was opened last Sunday.

MINING NEWS.

LIGHTNING CREEK.

The VanWinkle co. had 403 oz. last week and 251 oz. up to Wednesday. Victoria co. had 190 last week. Vancouver co. had 36 oz. up to Wednesday. Gladstone co. expect to break through in a week or ten days. Costello co. have commenced to work in the face. Eleven of England co. are out some 40 feet from the place where they rose up and struck gravel, and have concluded that they are too low, and will raise up again. Vulcan co. expect to commence work on Monday. Capt. Evans and John Valetti are sinking a shaft on the old Lightning ground, and expect to strike a big thing.

RICHON CREEK.

Pat. Synon and Pat. McGovern will have their ditch finished in a few days, after which they expect to take the metal out by the bushelful.

London has a debt of nearly 26 millions. Liverpool 19½ millions, Manchester 16 millions, Leeds 12 millions, and, taking the cities of England in the order of their indebtedness, it will take 21 of them, including the above, with an aggregate population of six millions, to get a debt as big as the city of New York. London and the surrounding municipalities, owe less than half as much as Boston. Cities like Liverpool and Manchester are vastly less encumbered than cities of the same class in America. Birmingham, for example, owes $2,865,000, or less than some American cities having one-eleventh of its population. Chicago has the best claim to solvency among the American cities. She owes less than half as much as Boston, and twelve millions less than Baltimore.

The Paris Opinion National informs its readers that there is a panic in New York regarding the scarcity of women, and on this account the mail population begin to leave; that Congress is disturbed about it; that there is a proposition to give brilliant fetes there to draw women from all parts of the country, who will then be kept there—as the Romans kept the Sabines.

A pious Parisian, who had religious scruples about committing felo de se, compromised with conscience by inducing his little son to pull the trigger of a pistol held close to his head in play, and the Websterian proof reader hesitated whether he should permit it to be spelled Paris side.

The Salt Lake Mining Gazette estimates the gold and silver production of the States and Territories during the past 20 years at $1,550,330,485.

[L.S.] JOSEPH W. TRUTCH.

CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c.

To all to whom these presents shall come—GREETING.

A PROCLAMATION.

GEO. A. WALKEM, Attorney-General. } WHEREAS the Lieutenant-Governor in Council has thought fit to exempt the Electoral Districts of Lillooet and Yale, and the Electors thereof, from the operation of the "Qualification and Registration of Voters Act, 1875."

Now know ye that, under and by virtue of the authority contained in Section 7 of the "Qualification and Registration of Voters Act, 1875," the Lieutenant Governor in Council hereby proclaims that the Electoral Districts of Lillooet and Yale shall, until the first day of May, 1876, be exempted from the operation of the said Act, and the Electors of the said Districts shall, until the said first day of May, 1876, be exempted from the necessity of sending to the Collectors notice of their claim to vote.

In Testimony Whereof, We have caused these Our Letters to be made Patent, and the Great Seal of Our said Province to be hereunto affixed: Witness, the Honorable JOSEPH WILLIAM TRUTCH, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this 28th day of April, in the year of Our Lord, 1875, and in the 38th year of Our Reign.

By command,
JOHN ASH,
Provincial Secretary.

[L.S.] JOSEPH W. TRUTCH.

CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c.

To Our faithful the Members elected to serve in the Legislative Assembly of Our Province of British Columbia, and summoned and called to a meeting of the Legislature or Parliament of Our said Province, at Our City of Victoria, on Thursday, the Tenth day of June next, to have been commenced and held, and every of you—GREETING.

A PROCLAMATION.

GEO. A. WALKEM, Attorney General. } WHEREAS the meeting of the Legislature or Parliament of the Province of British Columbia, stands called for Thursday, the Tenth day of June next, at which time, at Our City of Victoria, you were held and constrained to appear:

Now know ye that, for divers causes and considerations, and taking into consideration the ease and convenience of Our loving subjects, We have thought fit, by and with the advice of Our Executive Council of the Province of British Columbia, to relieve you and each of you, of your attendance at the time aforesaid, hereby convoking, and by these presents enjoining you and each of you, that on TUESDAY, the TWELFTH day of the month of October next, you meet Us in Our said Legislature or Parliament of Our said Province, at Our City of Victoria, and therein to do as may seem necessary. Herein fail not.

In Testimony whereof, We have caused these Our Letters to be made Patent, and the Great Seal of Our said Province to be hereunto affixed: Witness, the Honorable JOSEPH WILLIAM TRUTCH, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this 18th day of May, in the year of Our Lord 1875, and in the 38th year of Our Reign.

By command,
CHARLES GOOD,
Deputy Provincial Secretary.

RULES RELATIVE TO PRIVATE BILLS.

All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of "The British North America Act 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line, the construction or improvement of a Harbor, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the right or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz.:

A Notice inserted in the British Columbia Gazette, and in one newspaper published in the district affected, or if there be no newspaper published therein, then in a newspaper in the next nearest district in which a newspaper is published.

Such notice shall be continued in each case of a period of at least six weeks, during the interval or time between the close of the next preceding Session and the consideration of the petition.

Before any Petition praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed in the preceding Rule, also at the same time, and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

J. ROWLAND HETT,
Clerk of the Legislative Assembly.

LEA & PERRINS'

Celebrated

WORCESTERSHIRE SAUCE

Declared by Connoisseurs to be

THE ONLY GOOD SAUCE.

Caution against Fraud.—The success of this most delicious and unrivalled Condiment has caused certain dealers to apply the name of Worcestershire Sauce to their own inferior compounds. The public is hereby informed that the only way to procure the genuine, is to

ASK FOR LEA & PERRINS' SAUCE and to see that their names are upon the WRAPPER, LABEL, STOPPER, and BOTTLE.

Some of the foreign markets having been supplied with spurious Worcestershire Sauce, upon which the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against MANUFACTURERS and VENDORS of such, or any other imitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce and see Name on Wrapper, Label, Bottle, and Stopper.

Wholesale and for export by the proprietors, Worcester; Crosse & Blackwell, London, &c., &c.; and by Grocers and Oilmen universally.
