THE CARIBOO SENTINEL

SATURDAY, JULY 12, 1873.

DIED.

In Barkerville, on Monday, 7th July, THOMAS J MANIFE, ESQ., a native of Missouri, U.S., aged 42 years.

BY TELEGRAPH

VICTORIA.

Victoria, July 9—The steamer Prince Alfred is due to-night.

Following is special to the Standard:

"Montreal, July 8—The Huntingdon Railway Investigation Committee have met and refused to proceed in consequence of disability to administer the oath. The Government offered a Royal Commission to some five persons, with the same power given the Commission, including the power of swearing witnesses. The Opposition minority refused, and thereby stopped the investigation. The letters on which the Opposition founded their charge have since been published, also the sworn statement of Sir Hugh Allan. Public opinion is with the Government."

The parties to engage in the construction of Cape Beale Lighthouse and to cut a trail thereto will leave to-morrow or next day.

UNITED STATES.

Germantown, July 7—A fire broke out in the Fashion saloon at Coleman this morning. Four buildings burned; loss about $20,000.

San Francisco, July 7—The trustees of the Belcher Mining Company have declared a dividend of $8 per share, payable on Tuesday.

The first of the '73 wheat fleet—the ship Coronation—sailed for England to day.

Special officer Hopkins was attacked by a gang of hoodlums, robbed of his club and pistol, and severely beaten.

Capt. W. J. Wilson, produce merchant, committed suicide to-day by shooting himself. Business troubles supposed to be the cause.

Sacramento, July 7—Nearly 100 men were discharged from the railroad shops this morning, and about 50 last Tuesday—no work for them.

Redding, July 7—Batteries A, G, K and M, 4th Artillery, under Major Throckmorton, arrived this morning. They left Tule Lake on Sunday afternoon, and will leave in the morning for San Francisco. Acting Surgeon Semal, badly wounded at the time Dr. Thomas was killed, is with them, and stood the trip very well.

Louisville, Kentucky, July 8—The drawing of the Kentucky Library Lottery began early this morning. Ticket 20893 drew $100,000; No. 5620 drew $50,000; No. 21764 drew $20,000; No. 98743 drew $10,000; No. 10,550, $5000.

Nashville, July 8—The city is now clear of cholera, not a single case being reported for last 40 hours. Only two deaths from old cases to-day.

Evansville, Indiana, July 8—A great storm and tornado passed over this city and vicinity about 8 o'clock last night. Fronts of houses partly blown out and considerable damage done to the churches. In Kentucky roofs were blown off, cars blown from the track, &c. A number of persons are reported injured.

Springfield, Mass., July 9—A system of fraudulent importation from Canada of ready made clothing and dress goods, which probably has been carried on for several years, has been detected by the United States officers, and a considerable amount of goods seized.

Concord, N. H., July 9—An attempt was made last night to throw the Boston Express off the track near Sunny Creek. Two men were seen placing trees on the track by a woman, whom they had beat insensible and threw among some bushes. She managed to reach the depot and tell what she saw. The obstructions were removed. They had robbed the woman, and her satchel, which contained her money, was found with the following note attached: "We made more money than we should have if we had thrown the train off the track, you fool."

Little Rock, Ark., July 9—There were several fatal cases of cholera among the poorer classes during the past week. One death to-day.

Cincinnati, July 9—Four deaths from cholera to-day.

New York, July 9—Young Walworth was brought down from the Toombs to-day to the Hudson River Railroad depot for Sing Sing. Mrs Walworth was at the Toombs, and wished to convey her son to the depot in a private conveyance, but was refused.

Chicago, July 9—An extraordinary accident occurred near Kickapoo station, on the line of the Missouri and Pacific Railroad last evening. The track at this point runs for some distance along the bank of the Missouri river, and suddenly, without warning, half a mile of the track dropped into the flooded river and sank out of sight. It appears the track had been undermined by the river without attracting attention.

Reports from points in Illinois and Iowa show that while the recent heavy rain storms have injured all the crops in those States, there will be a full average crop of small grain.

LOSS OF THE CITY OF WASHINGTON.

Halifax, July 6—The tug boat Daisy arrived this morning with the purser of the Inman steamer City of Washington, from whom the following particulars of the shipwreck are gleaned:

The City of Washington sailed from Liverpool 23d June, and from the time of leaving that port until the vessel struck, neither sun nor stars had been seen, so that it was impossible to take observations during the entire passage in order to ascertain the position of the ship. When the steamer struck, about 2 o'clock on Saturday, the fog was so dense that no objects could be seen three rods ahead, and everybody supposed the vessel was proceeding on her way to New York.—The first intimation to the contrary was hearing a grating sound as the vessel was driven over the rough bottom of shoals where she ran. The steamer was going at the rate of about nine knots when she struck. No excitement on board, everybody perfectly calm. The officers and crew immediately set about lowering the boats and getting the passengers on shore. Twenty-nine cabin and 491 steerage passengers were on board.

Minute guns were fired from the ship. In answer to them men came alongside in small boats, from whom the first information was obtained of the locality where the vessel had been driven ashore. The sea was calm, the distance from the mainland about a quarter of a mile. The boats were launched and manned, and in three hours from the time of the disaster every soul on board was landed at Port Labor, where the inhabitants busied themselves providing temporary accommodation for the passengers. All the baggage and effects, ship's stores, &c., were also safely landed. The ship is lying on an even keel, as even as if riding at anchor. The engine room is full of water, which ebbs and flows through it, and it is supposed a hole is stove in the bottom beneath the engine room. The second deck is pretty clear of water, but below that the ship is full.

EUROPE.

Vienna, July 9—Notice is given in the journals that the International Patent Right Congress will convene, on 14th August, in Vienna. An Imperial Commissioner has been appointed to arrange preliminaries. The language to be used at the Congress will be German, but French and English will be permitted. The decision of the Congress will be communicated through the several Commissioners to their respective Governments. Inventors and proprietors of inventions are actively moving in the matter.

London, 9th—A Vienna special says an attempt was made yesterday to fire the Exposition building. Correspondents and other persons who have returned here, have hinted that the building will probably be burned.

CUBA.

Havana, July 5—The telegraph cable to Porto Rico is working. Several hundred vagrants who were sent to work on the terraces have deserted and joined the insurgents.

MINING STOCK ON LIGHTNING is again looking up. In consequence of the Vancouver Company having been working on moderate pay for the past few weeks, some people have jumped to the conclusion that Lightning is not a rich creek. But rich pay has again been struck by the Vancouver, and consequently the faith of the doubters has been renewed. Shares in several companies on Lightning have changed hands within the last few days at an advanced figure, and the prospects on that creek may be considered encouraging.

AMALGAMATION.—The Clark-Costello and Sawmill Companies on Lightning Creek have amalgamated. An attempt was made last week to amalgamate the Gladstone with two or three adjoining companies, but we understand the proposition has fallen through for the present.

BARNARD'S down express, with the mails and the following passengers, left early on Sunday morning last:—Rev. Mr Pollard, for Cache Creek; Mrs John Bowron and two children, for Yale.

RAFFLE.—The raffle for a Steinway Grand Piano and a Singer Sewing Machine has been postponed until August 9th.

FATAL ACCIDENT AND INQUEST.

An inquest was held on Tuesday evening at Lowhee Creek by Coroner Dr. Thomas Bell and a jury over the body of Thomas Howells, who was killed on the morning of that day by falling down the Calaveras Co.'s shaft. It appears from the evidence that the accident was the result of the deceased's carelessness, and that no blame can be attached to the man at the hoisting gear. The poor fellow was a native of Wales, aged about 38 years, and was a steady, industrious man. Death was almost instantaneous, as he fell head first down the shaft, a depth of 75 feet.

Ah Vawn, a Chinaman, sworn:—Was at the bottom of the shaft at a quarter to 12 on the 8th; saw a man come down the shaft head first; I was close to the bottom of the shaft; called John Gullixon.

John Gullixon, sworn:—Was down in the drive of the Calaveras co. at a quarter to 12 on the 8th; a Chinaman at the bottom of the shaft called to me to come; I went directly, and saw Thomas Howells, who I thought was dead; also saw Peter Corr and Jos. St. Lawrence come down the shaft; we then lifted Howells up and found he was dead.

Peter Corr, sworn:—Was on the platform of the Calaveras shaft at a quarter to 12 on the 8th; heard some one call hoist up; hoisted up Thomas Howells to the platform; he placed one foot on the platform, the other was apparently on the rope; his hand was on the rope; he immediately slipped the rope and fell down the shaft; I was not the usual man at the hoisting gear; R. Richards is hoisting-gear man; I am dump-box man; the work of the hoisting-gear man includes making wedges and keys; I am not a first-rate man at the hoisting-gear; upon my oath I did my duty; I consider Howells death was caused by his failure in keeping hold of the rope; never had any orders not to hoist; R. Richard's let me down the shaft directly after the accident; Richards was standing 6 or 8 feet from the hoisting-gear; the sling went down with Howells.

R. Richards, sworn:—At a quarter to 12 I was sharpening a saw about 12 feet from the Calaveras shaft; I saw a man whose name was Thomas Howells coming up the shaft; he put one foot on the platform, the other was in the shaft, his hands on the rope; he tried to swing himself out; he let go of the rope and fell down the shaft; I am hoisting gear man; I consider the hoisting gear properly handled, and the accident happened from the rope slipping out of the ring; I consider Corr quite capable of hoisting a man.

Joseph St. Lawrence, foreman Calaveras Co., sworn:—I do not consider Corr a capable man at hoisting-gear; never gave Richards orders to employ Corr to hoist; I gave orders for Richards to make wedges and keys; never ordered him to sharpen saws; his duty was to attend to the hoisting-gear before anything else.

After a short deliberation the Jury returned the following verdict:—"That Thomas Howells came to his death by falling down the Calaveras shaft, having lost his hold of the rope.

DEATH OF MR MANIFE.—An old pioneer of British Columbia, Mr Thomas J. Manife, died in Barkerville on Monday last after a short illness. Mr Manife came to this country in 1858, having started from the Dalles in July of that year with Capt. McLaughlin's company—the first party of gold-hunters who made the journey overland to Fraser river. When passing the mouth of Okanagan canyon, they were attacked by the Indians, and three of the party were killed and several wounded, among the latter Mr Manife, who was shot through the left lung, and had to be packed on mules to Lytton, a distance of some 250 miles, from whence he proceeded to Victoria for medical advice. After his partial recovery, Mr Manife returned to the mainland and engaged in packing, and on retiring from that business he purchased the Mission ranch at Williams Lake, where he successfully carried on farming and trading. Some three years since he entered into partnership with Mr C. P. Dunlevy, of Soda Creek, where he carried on business up to the time of his death. Mr Manife was a man of considerable energy, and stood high in the estimation of the community as an honest, reliable business man. Much sympathy was manifested by our citizens for Mr Manife during his last illness. Leaving home for Barkerville to take part in the festivities of Dominion Day and Fourth July, he was taken seriously ill on the road between Quesnelmouth and Vanwinkle, and brought into town in a very low condition. Notwithstanding the utmost attention on the part of his physician and the careful nursing of many friends, he succumbed to the disease—inflammation of the lung—and died at the residence of Mr J. A. Newland at 1 o'clock on Monday morning, 7th July. The deceased was a native of Missouri, U.S., and aged about 42 years. The funeral service was performed in Barkerville by Rev. Mr Hall, Wesleyan Minister, and the body taken to Soda Creek for interment, a large number of people following the remains as far as Richfield.

RANCH FOR SALE.—The 124-mile house, Bonaparte, with 160 acres of good land, and 43 head of cattle, is offered for sale by the proprietor, Mr Mundorf.

FIRST OX TEAMS.—Ryder's ox-team arrived on Monday, and Sperry's and Joe DeRouche's on Tuesday.

WORK on the Nelson Creek trail was commenced last Monday.
