CLINTON.

Clinton, May 27—Barnard's up express, with Mr Crow, Mrs Cornwall and servant and Miss Felker as passengers, arrived this afternoon. Pearson's up express arrived soon after, with no passengers. Both stages left for up country at 4.30 p.m. Barnard's down stage arrived at 3.30. The stages did not connect with the San Francisco steamer of 20th.

VICTORIA.

Victoria, May 26—The Queen's birthday was very generally observed by the people of Victoria and towns on the Island as a holiday. At this place business houses and the public offices were closed, Royal salutes fired, and in the afternoon the attraction of the day, the regatta, came off, was witnessed by thousands, and proved a perfect success. The gunboat Boxer left here at 5 this morning for New Westminster, at which place three or four thousand Indians from all parts of British Columbia are assembled. Dr. Powell, Superintendent of Indian Affairs, will meet them to-morrow, and listen and reply to any grievances they may have to tell.

Three Indians were arrested here last Friday on suspicion of having murdered Mr and Mrs Dwyer on San Juan Island about ten days ago. They were committed to jail to await a requisition from the Governor of Washington Territory.

The steamer Prince Alfred arrived this morning, having experienced very rough weather.

The following is a special to the Standard, dated Ottawa, 24th:—Yesterday the Parliament of the Dominion adjourned till 13th of August. The Governor-General assented to the bills which had been passed. The prorogation will not take place till August, when a quorum will meet to receive the report of the Committee which is investigating the Huntingdon charges against Sir Hugh Allan and the Government. The prevailing opinion is that Sir Hugh Allan got money from Chicago, but it is uncertain whether any members of the Government can be connected with taking money for election purposes. There is a strong feeling here against Sir Hugh Allan. The Government is taking means to thoroughly investigate the charges. A change of Administration is predicted if the evidence before the Committee implicates the Government. The Prince Edward Island terms are passed, and the Dominion Government is waiting for the action of the Island Legislature. Nearly all the members of the House have gone home to their provinces.

Victoria, May 27—The Prince Alfred, which arrived on Sunday night from San Francisco, brought 250 passengers and 240 tons freight. One hundred of her passengers are destined for Puget Sound.

A gentleman arrived yesterday to take charge of a branch at Cariboo for the Bank of British North America, which will shortly be opened at Barkerville.

The bark Charlotte Clark, of Sproat & Co.'s line, sailed from London for Victoria on the 18th April.

The steamer Prince Alfred will sail at six o'clock this evening for San Francisco.

The Sheriff of Thurston County, Washington Territory, armed with a requisition for the suspected murderers of Mr and Mrs Dwyer, came over yesterday, but he will have to await the result of the inquiry into the affair which comes off next Friday.

EUROPE.

Versailles, May 25—Evening.—The Assembly resumed its session at 8 o'clock. Dufoure announced that the Ministry had tendered their resignation to Thiers, who had accepted them. Dufore then handed to Buffet, President of the Assembly, a message from Thiers announcing that he delivered back to the Assembly the high functions which had been conferred on him. The reading of the message produced a profound sensation.

General Changarniere moved that the Assembly immediately accept Thiers' resignation, which caused immense excitement and uproar.

The Left moved that the resignation of Thiers be not accepted. Motion rejected.

The resignation of Thiers was then formally accepted.

Buffet attempted to rule out Thiers. The members of the Left endeavored to secure an adjournment of the election. The Right insisted upon a change of President. A vote was then taken which resulted in the election of Marshall McMahon, who received 369 votes. The Left abstained from voting. A committee was appointed to wait on McMahon and inform him of his election, and he has accepted the Presidency of the Republic.

Paris, May 25—The change in the Presidency has been accomplished without the slightest disturbance. Perfect order prevails throughout France. The troops have been confined to barracks since yesterday morning, but all is quiet in Paris, and there are no signs of disorder in the Departments. The Radical journals to-day are calm in tone, recommend wisdom on the part of representatives, and urge peace and a strict adherence to the laws. Gambetta has issued a manifesto calling on representatives to respect the law.

THE MODOC WAR.

Yreka, Cal., May 23—From J. S. McCoy, who has just come in from Fairchild's in eight hours, we learn that the Hat Creek band were brought in by Mr Fairchild's party and surrendered to Gen. Davis unconditionally, as they gave up their arms and were put under guard. The band numbered 55 men, women and children, including 50 warriors, among the number Bogus Charley, Shag, Nasty Jim, Curly-hair Doc, Frnnks, and others of the best fighting men. Capt. Jack and Boston Charley are believed to be killed, and Hookey Jim is hunting him. It is supposed there are 20 warriors with Capt. Jack, whose whereabouts is unknown, but thought to be in the Pit river mountains. General Gillem has been superseded by Gen. Wheaton. General Davis was very bluff with the Indians, and gave them to understand if they attempted treachery they would be shot dead by the guard.

Washington, Iowa, May 23—A terrible tornado, accompanied with hail, passed over the country six miles north of here yesterday afternoon. The tornado extended half a mile in width, tearing in fragments everything that came in its course—houses, barns, fences, trees, cattle, and people were caught up and whirled through the air like sticks and dashed to the ground with such violence as to produce instant death. The fields are strewn with large timber buried into the ground at an angle of 90 degrees, and cattle were dashed head foremost into the ground. One can hardly imagine the extent of the devastation and violence of the tornado. A schoolhouse was destroyed and a girl 14 years of age carried a quarter of a mile from the schoolhouse, dashed to the ground and crushed to jelly. Miss Smith, the teacher, and 6 or 8 children were badly hurt. Many others were killed in other parts of the country. The tornado was balloon shaped, with the small end to the ground, and moving at the rate of 20 miles per hour. It commenced its course near Keoka, where it destroyed several residences.

QUEEN'S BIRTHDAY.

Saturday, the 24th of May, the 54th anniversary of the birth of Her Majesty Queen Victoria, was celebrated in Barkerville by a series of public sports. In consequence of the backward state of the weather no great preparations were made for the celebration, but the committee made the best possible disposal of the time and fund subscribed, and the various sports were entered into with zest by the competitors, and afforded both mirth and excitement to the spectators. A Royal salute of 21 guns was fired at noon by Perrit's torpedo battery, and the sports commenced immediately afterwards. The first on the list was a

DOMINION DAY CELEBRATION.

Pursuant to public notice, a meeting of our residents was held at the Theatre Royal on Monday evening last to take steps for the proper celebration of 1st July, Dominion Day. Mr Rennie was called to the chair, and Mr Robert Holloway appointed secretary. On motion, the following gentlemen were appointed a Committee to make the necessary arrangements for the celebration:

James Wickham, Col. C. C. Lane, B. VanVolkenburgh, Hugh Ross, R. H. Brown, John Goodson, — McAlister, John Bowron, Robt. Lipsett, Wm. Forrist, E. Lallier, A. Munro, W. Hall, D. Kurtz, T. R. Pattullo, F. Neufelder, J. Bartlett, John Pinkerton, A. McPherson, John Stevenson, B. Edwards, I. Van Volkenburgh, John Glasson, M. B. Bray, G. L. Sheppard, John Polmere, S. A. Rogers, W. W. Houseman, J. Bastedo, A. Dow, Jos S. Laurent, John McLean, D. Mills, John Munro, Wm. McColl, R. Allen, Jas. Elder, John Clendinning, Frank Perrit, Jas. Boyce, A. Jeffray, E. H. Kimball, W. Pattullo, D. McNaughten, John Butts, James Innes, H. McDermott, — Newton, J. McCormick, A. McAlinden, N. McIntyre, Geo. Taylor, J. Devlin, Geo. Murdoch, R. Gregg, John Dawson, H. Morgan, John Powell, John L. Muir, D. Smith, J. Pomeroy, — McKenzie, W. Rennie, J. Newland, A. McNaughton, W. W. Dodd, W. B. Steele, Charles Wilson, I. B. Nason, Charles Vaillancour, G. Byrnes, Malcolm McCuaig, Jos. Denny, J. Bibby, Wm. Stevenson, A. Fletcher, W. Hitchcock, J. Mason, W. Trelaise, H. M. Ball, and J. Lindsay.

On motion, it was ordered that a meeting of the Committee take place on Tuesday evening, May 27.

There being no further business before the meeting, a vote of thanks to the chairman and secretary was passed, and the meeting separated.

The committee met on Tuesday evening, when the following sub-committees were appointed:

HORSE RACING—Messrs. Wickham, Hitchcock, Ball, Denny, McAlister.

COMMITTEE ON SPORTS—Messrs. M. McCuaig, A. McNaughton, Nason, Bibby, Rogers, W. W. Dodd.

The Racing Committee have decided that the Dominion Cup, a handsome piece of plate, with $300 added, should be run for on Dominion Day, and the People's Purse of $250 on the 2d July, entrance money in both races to be added to the stakes. Full particulars of the sports and races will appear in the next issue of the SENTINEL. Sporting men, bring along your fast stock to contend for the blue ribbon of the British Columbia turf!

"POSTMAN'S" LETTER.—Mr Edward Pearson has telegraphed to his Barkerville agent denying all connection with the authorship of "Postman's" Standard correspondence. We may state that his friends in Cariboo will be glad to hear of this denial of any connection with disreputable anonymous scribblers.

THE LANE & KURTZ ENTERPRISE.

Work was resumed by this Company immediately upon the arrival of Col. Lane. The work of placing the new boiler in position and readjusting the engine and machinery is being pushed forward with the utmost vigor. It is quite refreshing to visit the Company's extensive works at this time, when all are employed like so many busy bees, and to hear the roar of the forge, sweet music to the artizan's ear, and the merry ring of the machinist's hammer as it displaces the particles of malleable metal and shapes it at will. The central figure of this busy scene is the Colonel himself; as he stands before you en dishabille, with his brawny arms exposed and with face begrimed with the dust of the forge, he is the very picture of the Vulcan as impersonated in the celebrated character of Joseph Gargery: if he would write "hout" on the door of his forge when about to be absent, then the fac simile would be complete. In this connection we are forcibly reminded of the truth of the old truism, "'tis a long lane that has no turning," for we have seen a Lane, and not a short one, turned in an incredible short space of time from the gentleman of ease and leisure into a hard-working artizan. In a few weeks more the ponderous engine and machinery will be in motion, and the shrill steam whistle will be heard awakening the echoes of the mountains. The mill, with its great steam power, giving slight motion to both earth and air, is situated adjacent to an American Forrist. Who can say that wooden nutmegs will not be loosened from the limbs and drop from the trees of this Forrist, and, obeying the laws of gravity, fall to the ground!

We are but giving expression to public feeling when we say, may the brightest anticipations of the originators of the Lane and Kurtz enterprise be more than realized, and their success commensurate with their deserts.

BURNS CREEK.

The reports from this creek are excellent. There are over forty men at work, and most of the companies are taking out pay. The ground of the Dawson co. looks well, the last ground washed paying 9 oz. to the set.

LIGHTNING CREEK.

The Spruce co. expect to get to work on Monday. The Point co. washed up 9½ oz. on Wednesday. The Vancouver co. are pumping. Vulcan co. have ordered a steam engine and pump from Victoria. The Costello co. have started work on their tail-race. The Gladstone co. are running across the channel, but are not on the bottom. The Eleven of England co. are running a drain.

THE BAND OF "HOWLERS."—This organization has lately received an addition to its strength in the shape of an intelligent Siwash, who has waited upon the proprietor of the Colonist newspaper, and after having been interviewed by that gentleman in his capacity of Chief Organizer, was admitted as a member of the band. We have no doubt this last addition produced satisfactory testimonials as to character and ability, &c. The Premier may now well shake in his shoes. Only think of this mighty "Opposition!" Three unfortunate newspaper men, and an injured Siwash, who was cruelly robbed of his much-loved whisky by the active Superintendent of Police!

THE FIRST STEAM ENGINE FOR LIGHTNING.—The Vulcan Co., Lightning Creek, has ordered a steam-engine and iron pump from Spratt's foundry, Victoria. The engine will be 30-horse power, geared to work two pumps, and cost $4000; the pump 12 inch single action, costing $1700. The estimated cost of the machinery, laid on the ground, is between $10,000 and $12,000, and the total cost of opening up the claim about $18,000. The engine and pump will be ready for delivery in Victoria about 1st August, so that we may expect to hear the blowing of the whistle of the Lightning pioneer steam-engine in a few months hence.

THE CARIBOO SENTINEL

SATURDAY, MAY 31, 1873.

MARRIED.

At North street, Elgin, Scotland, on the 12th March, 1873, by the Rev. P. J. MACKIE, Collegiate Minister of Elgin, JAMES LESH, Esq., of Hollowmire, Lancashire, England, and Cariboo, British Columbia, to AGNES, youngest daughter of the late James McBride, Esq., Architect, Elgin.

BY TELEGRAPH

THE RAILROAD.

Victoria, May 29—The Standard's Ottawa special says Sir Hugh Allan's projected railway loan is a failure. He can raise a small part only. It is expected that the Dominion Government will build the railway. The Allan Company will merely break ground in British Columbia this year, so as to keep the letter of the terms of union unbroken. Exhaustive surveys will be continued this year in your province. Huntingdon's committee will meet in Montreal. Hon Mr DeCosmos leaves to-day for New York, but will not leave for Victoria before 12 days. Mr Nathan is still here.

CANADA.

Col. Coffin, of Nova Scotia, has accepted the Portfolio in the Dominion Cabinet vacant by the appointment of Hon. Jos. Howe to the Lieut.-Governorship of Nova Scotia.

Halifax, May 27—The Prince Edward Island Legislature yesterday unanimously passed resolutions accepting terms of union.

THE TORNADO IN IOWA.

Washington, Iowa, May 23—From the description of an eye-witness, it is almost a miracle that anything in its track escaped. Hail fell three inches in diameter. The roaring of the tornado could be heard nearly ten miles off. Many persons lives were saved by getting into cellars. A telegram from Keoka says three persons were killed one mile from that place. It is impossible to give an estimate of the amount of damage, but it amounts to many thousands of dollars.—Many lives not reported probably lost, and no estimate can be made of the stock killed.

Buffalo, May 23—Considerable excitement on account of a shooting affair between Col. E. R. Johnson, U. S. A., commander of Fort Porter, and Dr. Perkins, arising from alleged intimacy between the former and the latter's wife. Shots were exchanged, Col. Johnson receiving two flesh wounds. Popular sentiment is against Johnson.

EUROPE.

Paris, May 26—The Orleans Princes were present in the Assembly when the question was taken on accepting President Thiers' resignation, and voted in the affirmative. Ex-President Thiers has informed the members of the Left Centre that he will resume his seat in the Assembly to-morrow. He will take his place on their benches accompanied by late Ministers Duffer and Perrier. The whole Left has decided on the policy of Constitutional opposition to the new Government.

St. Petersburgh, May 25—It is believed the Russian Government assents to the proposition to construct a line of railroad to complete railroad communication across Central Asia from St. Petersburgh, connecting St. Petersburgh with the English railroads in India and Calcutta.

London, May 26—The House of Commons to-night, while in Committee of Supply, took up the item for the payment of the Alabama award. Mr Bentwick declared the Government policy on the question was humiliating and degrading. Government should have broken off negotiations at a time when no shame would have been left to England. This arbitration was the greatest proof of human folly, and could not be considered otherwise than a national degradation. Sir Stafford Northcote admitted that during the negotiation of the Treaty he did not minutely examine the consequences to British subjects.

The following is the text of President McMahon's address to the Prefects of Paris: "I have been called through the confidence of the National Assembly to the Presidency of the Republic. No immediate change will be made in existing laws, regulations, or institutions. I rely on material order, and count upon your vigilance, your patriotism," &c.

London, May 27—A fire attended with loss of life occurred this morning in Berkley square. Six persons, unable to escape from the burning building, perished, and six were injured by the falling walls.

A special from Paris says the new French Government has resolved to adopt a free trade policy and to reduce the military expenditure. The same dispatch says Thiers will resume his literary labors.

The Daily News has a dispatch from Berlin which advances the idea that it is the prevalent opinion in Germany that President McMahon will prove the counterpart of General Monk, restorer of the House of Stuart to the English throne, and that his election heralds a Legitimist restoration in France.

Paris, May 26—As soon as the vote was taken deposing Thiers, the representatives of the different foreign powers immediately telegraphed the news to their respective Governments. Thiers sat a close watcher of events. He was constantly rising with exclamations of "Eh bien, Messieurs!" He caused immense excitement when he said, "They have spoken of negotiations, when it occurred to me they only wanted the seat of Government to be transferred to Paris. But the Army would not enter there. I have repelled them in order to prevent the shedding of streams of blood in their midst. If there is a man who counts the cost of the effusion of blood it is myself. I have fallen, or rather I wish to say, we have fallen. For a long time I have hoped that this detestable faction—" The close of the sentence was lost in a tremendous uproar which had been constantly increasing from the beginning of his speech. Again did Thiers awaken the enthusiasm of his friends when charged with being the protege of Radicalism. He retorted that there was something still more remarkable than that in their midst: they had with them the Duke de Broglio, who was the protege of the Empire.

Madrid, May 27—The Captain-General of Cuba has been officially notified to carry into effect the order of March 4th, directing the emancipation of 10,000 slaves.

Paris, May 27—Ex-President Thiers took his seat in the Assembly to-day. Prince Pierre Bonaparte is in Paris.

Berlin, May 27—Paris correspondence for the German press assert that the movement for the removal of Thiers originated in Rome and Florence.

Rome, May 27—The Pope in a speech yesterday declared he had greater confidence in France, for the election of Marshal McMahon to the head of that country was a guarantee of order, of justice to civilization, which was menaced on all sides.

London, May 28—The annual summer meeting at Epsom commenced to day. The great event of the season was the Derby stakes, won by Doncaster, Kaiser second, and Gang Forward third.

OTTAWA CORRESPONDENCE.

OTTAWA, April 25, 1873.

But little of any great importance has transpired in Parliament during the past fortnight. The legislation of the country is being steadily and quietly proceeded with, and as the time approaches when the work of the session may reasonably be expected to be drawing towards a conclusion, late night sittings are becoming customary, and the ordinary Saturday holiday is hereafter to be dispensed with. About half of the Estimates have passed through Committee, and a few days more will probably finish them. A good many private bills have finally passed, but no important Government measures have yet been disposed of. Whether the Election Regulation Act and Controverted Elections Act, which have been introduced by the Ministry, will be pushed through during the present session is doubtful, as considerable discussion is likely to ensue upon details, and both parties are anxious, if possible, to see Parliament prorogued by the middle of May.

Notice of motion for a committee to consider the propriety of raising the salaries of the Lieutenant-Governors and some of the Judges, and also the indemnity to members, has been given by the Premier. If the resolutions are adopted members will receive $1000 instead of $666, and so far as an increase of salaries in British Columbia is concerned, that of the Lieutenant-Governor will be raised from $8,000 to $10,000, and that of the junior Puisne Judge from $3200 to $4000

There have been several sharp passages of arms between the leaders of the Government and the Opposition, without, however, any serious casualties on either side. Last week there was rather a lively discussion on a motion introduced by one of the Nova Scotia members to the effect that a certain article published in the St. John Freeman, under the head of editorial correspondence, signed T. W. A., in which the Ministry and all their supporters were loaded with the most opprobrious epithets, was "a scandalous and malicious libel." The article in question derived its importance and notoriety from the fact that the editor and proprietor of the Freeman is Mr T. W. Anglin, one of the members from New Brunswick. A few days previously the editor of a French paper in Ottawa, who was employed as an extra translator during the session, was dismissed because a complaint was made by Mr Dorion that he had written a defamatory article concerning some of the French Canadian members, but as soon as the motion censuring Mr Anglin was introduced, Mr Dorion and all the Opposition rushed to the rescue. What was a breach of privilege on the part of an editor who had the misfortune to be a temporary servant of the House, was in their eyes perfectly justifiable when the offender was a member of the House, belonging, moreover, to their own party. However, after a spicy debate, lasting from 4 p.m. till 2 a.m., the motion was carried by a majority of 26 in a House of 158. Had there been a full attendance, the majority would have been much larger. Mr Anglin's course was sustained by only one member from his own province, and none from Nova Scotia or British Columbia.

I see that the Mainland Guardian finds fault with the British Columbia members for not speaking more frequently. Now, if some of the Ontario and Quebec members were to follow their example, instead of perpetually thrusting themselves forward to the annoyance of every one, with no other ostensible object than the pleasure of hearing themselves talk, the effect would be to materially expedite public business.

I have hitherto referred in connection with legislation merely to the proceedings in the House of Commons, and should perhaps apologise to the Senate for omitting to take notice of the doings of that venerable and highly respectable body, but really as a general thing they possess very little public interest, as is evinced by the fact that while the galleries of the House of Commons are usually crowded, those of the Senate are nearly always almost if not entirely tenantless. Certain resolutions were introduced last week by Senator Macpherson, formerly chief promoter of the Pacific Railway Company competing with Sir Hugh Allan's Company, which reflected seriously on the Ministry for giving Sir Hugh the charter, and anticipating some hard fighting, I, for the first time this session, visited the Senate during a debate. However, I found only about half a dozen spectators, and after a solemn, funereal debate, appropriate to the dignity of the august assembly, the motion was quietly rejected by an overwhelming majority.

The Governor General gave a grand ball on 16th April. About 700 persons were present, and the whole affair was a grand success. All the British Columbia members were invited. By the way, the Victoria Standard has, I believe, been inserting some news that Mr. DeCosmos was the only gentleman from British Columbia honored by an invitation to dinner at Government House. However, I think I am correct in saying that all the members from that Province have been similarly favored. Since Lent, there has been more gaiety in the capital. Several balls and parties have been given and more are spoken of.

The Hon. Joseph Howe, of Nova Scotia, commonly known as "Old Joe Howe," left here a few days since, and probably will never again be seen in the capital. He is to be the new Lieutenant-Governor of his native province,—a fitting end for the career of a statesman who has been prominent as a politician for nearly half a century. A large number of members of the House of Commons, particularly those from Nova Scotia, went to see him off on the train, and tendered him a complimentary address. Who is to be Mr Howe's successor in the Ministry is yet uncertain. It is currently rumored that the portfolio has been offered to Mr McDonald of Pictou, N.S. No better appointment could be made, but it is doubtful if Mr McDonald would sacrifice his lucrative practice at the Bar for a seat in the Cabinet.

The Lieutenant-Governor and the majority of the Manitoba Ministry have been here for some time conferring with the Government. How the province gets on in their absence I cannot say. The Speaker of the Assembly, who got treated to a coat of tar and feathers in that delectable country, is also here. For the benefit of the Speaker of the British Columbia Assembly, I may say that though only belonging to a very small province, he understands how to dress in proper Speaker's costume.

We have had a great deal of sickness in Ottawa for a month past and a good many deaths. Several members of the House of Commons have been or are seriously ill, though so far there have been no fatal results among them. Bad ventilation, over-heated houses, and defective sewerage may be considered as contributing materially to this unfortunate state of affairs. J. S. T.

It will be seen by the announcement published in another column, that an old an energetic Caribooite, Mr James Lesh, has gone and done the proper thing, by taking unto himself a wife from among the fair daughters of bonnie Scotland. His friends in Cariboo will join us in offering our congratulations on this happy event.

MEESTER EDITUR:—Is there a cheild free the itlee warld amang us taking notes? I ask ye this, because free certain circumstances that came under mi ain observation, I am deeficult as tae the causes, but I will tell ye all aboot it, an ye can judge for yersel.

Last Monday neicht, as I was sitting haeing a crack aboot auld times wi oor freend Dickon, the hair o' oor heeds was made to stawud and oor bluid ta run cauld by a vera strange and peculiar noise, that soondit just ootside the room door. Yeel remember when we used ta lowdge wi' Grabbie Scrabit in auld Reckie, and he used tae come hame pretty fu' late at neicht; how he'd mak his auld wife Tibbie greet sair by knowking her aboot, and ye remember hoo her heed soondit as it came bump on ta the flair, wi' siccaw a dull, sodden kind o' thud. Weel, the noise Dickon and I heard was just like that for a' the warld; but as we kend fu' weel that nae-body lived whar the noise cam frae, we rushed oot ta see what it was, but deevil a thing could we find. This occurred several times, and after we went ta bed it came, accompanied wi' deep groans. Hech, mon, it was awfu'! Ye can picture us baith tying in bed, sweeting frae every poer, oor hairts gaion twa hunder ta the minute, and expecting ta see a ghaist or bogie, or mayhaps auld Hornie bissel. Weel, after a while, when we had gotten a little courage, we struck a leicht, got up and lookit all over the hoose, inside and oot, climbit ladders, turned oot boxes and barrels and stoves, but we didna find onything, and when we got done we took a guid look at each ither, and simultaneously holtit for the brewery, and it took twa guid glasses of hot Scotch ta restore the equaalty of oor nervous seestem and enable us to tell oor stories. Weel, the prospect of a bottle of Glenlivet helped ta persuad twa of our bravest ceetizens ta gae back wi' as, and as the knowcks and groans came after oor leicht was blawn oot, we sat in the dark for twa hoors waiting for it, but it didna come. Hech, sirs, it was too bad for it ta bilk us like that albams we were freichted oot o' our beds, and then oor twa citizens—after feenishing the bottle—laughed at us, and said there must be natural causes for it, and such like, when I ken fu' weel that some oneasy speerit is haunting your town. We didna ken hoo ta gaw aboot laying, but would it not be as weel for some of our citizens wha hae had some experience in speerits (not forgetting a legal adviser) to tak the matter in hawnd and try and mak the puir ghaist happy. I thocht at yin time that perhaps the deed tailor meicht want his puir doggie, and proposed til Dickon that we should kill the puppie, but he would ha hear of it, saying that the seicht of bluid made him nervous. By hawlding on to each ither and noo an' then smelling the empty bottle, we managed to live till morning.

Noo, Meester Editur, yeel allow that this was a verra peculiar thing, and I can tell ye that I am sae frichtet when I think o't, that I dinna think yeel see me back in your toon till some of the toonsfolk tak an affidavy before yin of your new J. P.'s that evera thing is alreicht.

Hoping, for yer ain sakes, that the matter will be weel investigated and the ghaist interviewed, and that yeel no forget ta pay for the affidavy,

I remain, yours in the flesh,

SANDY MCLINSEY.

P S.—Dinna forget aboet the wee doggie, in case the speerit is still troubling ye.

NEW TRAIL.—A memorial to the Hon. Chief Commissioner of Lands and Works was circulated yesterday and universally signed, praying that he will order the construction of a pack trail from the Mosquito wagon road to the foot of Nelson Creek, via Jack of Clubs Lake, a distance of six miles. The estimated cost of the trail is $400. The section of country through which the proposed trail will pass is increasing in importance, and the interests of the mining community demand its immediate construction. We would suggest that instead of waiting for the slow process of postal communication, that the movers in the matter take time by the forelock, and send their memorial by telegraph to the Hon. Mr Beaven, who will doubtless order the immediate construction of the trail.

REGISTER YOUR VOTES.—We again call the attention of Caribooites to the fact that the time for making application to be placed on the Voters' List expires on the 10th June.

PASSENGERS booked by Barnard's down Express to-morrow:—Mr and Mrs Davison, and one passenger from VanWinkle; Mr Williams, wife, and four children, from Quesnel—all bound for Yale.

COURT OF ASSIZE.—The sitting of the Court of Assize at Quesnelmouth has been postponed until June 11th.

BARNARD'S EXPRESS arrived at 12 o'clock last night.
