WEDNESDAY, NOV. 13.

THE MAILS.

Clinton, Nov. 12.

Mr Barnard informs your correspondent that there will be no Mail this trip, in consequence of the neglect of the Post Office Department at New Westminster, to deliver a mail to the proper parties. Mr Barnard is willing to carry all mails that reach Yale in time for the stage.

QUESNELMOUTH.

Quesnelmouth, Nov. 12—From Gardiner, the Omineca mail courier, we learn that nearly all the claims in that district were shut down for the season when he left. About 30 men will winter in the mines. Mr Fitzgerald winters at Stewart's Lake. John Bryant had returned to Mansen from Fort Dungarven. He reports the Peace River valley to be a fine agricultural country.

The weather here has been very cold for the last few days and the Fraser is full of running ice. The steamer Victoria has made her last trip, and is now being hauled out at Alexandria.

ROADSIDE ITEMS.

Clinton, Nov. 12—Green and Tiedeman's Survey parties arrived here this evening en route for Victoria. Mr Watt started for the 127 mile house this evening.

The stage from below arrived at 6 p.m., with three passengers, but without the mails, the semi-monthly mail contract having gone into effect the first of this month. No passengers for Barkerville.

Weather here clear and cold; thermometer 8 below zero at 7 a.m. Sleighing above this point is remarkably good, but below indifferent.

127 Mile House, Nov. 12th—Tompkin's loaded team, for Barkerville, turned back from Bridge Creek. Freighting over now—about 7 inches of snow on the road.

Soda Creek, Nov. 12—Several stacks of hay, near the lakes on Carpenter's Mountain, were set on fire and totally destroyed. Ten degrees below zero this morning.

VICTORIA.

Victoria, Nov. 6—The extreme penalty of the law on Geo. W. Bell was carried out yesterday in the jail yard in the presence of about 100 persons, including the High Sheriff, the Mayor, Police, and the reporters for the Press. The prisoner, who was attended by Rev. Mr Pollard, seemed perfectly resigned and composed to his fate. Bell assisted the executioner, and observing that his hand trembled and he appeared agitated, Bell said, "What are you trembling for? are you afraid? I am not afraid—why should you be?" When told to walk across the yard to the brick building, he complied with seeming alacrity; his step was firm, he held his head erect, and his appearance was that of a man who was starting on a journey at the end of which he expected to find entire happiness and repose. At two minutes to 7 o'clock Bell was conducted to the scaffold, which stood opposite the door of the old debtors' prison. He ascended the steps firmly. After a short prayer from his spiritual adviser, the prisoner prayed fervently for his children.—He then rose and said, "I am ready." While the executioner adjusted the noose to his neck, Bell asked that it should be tightened, and directed the man to place the knot behind his ear. The cap was then drawn over his face, and while his lips moved in audible prayer the bolt was drawn, and Bell was launched into eternity. Three times a nervous tremor shook the body, and alone indicated the flight of the passing spirit. The body remained hanging for an hour, when it was cut down and delivered to Bell's friends, by whom it was interred.

The Princess Royal has on board eleven packages consigned to the Dominion Government. These packages consist of 1100 Snider rifles, with accoutrements and ammunition to match, and 1100 rifle uniforms for the British Columbia Volunteer service when organised.

Mr Barnard has undertaken the wintering of 500 mules belonging to the Railway Survey.

One of the lunatics escaped from the Lunatic Asylum yesterday, but was recaptured by the Warden of the Asylum.

Mr Thomas Spence has been awarded the contract for removing the Port Sister, near Yale, for the sum of $5000.

The new cable made at San Francisco to connect San Juan and Lopez Islands was shipped yesterday on board the Prince Alfred.

It is understood that the Starr Brothers have disposed of their entire interest in the steamers navigating the waters of Puget Sound. The purchasers are the Northern Pacific Railway Company and the Oregon Steam Navigation Company.

Lead ore from Kootenay assayed at Portland yielded 90 per cent. of fine metal. The Oregonian thinks that when the Canadian road is finished the lead mines of Kootenay will be developed.

WASHINGTON TERRITORY.

November 4—McFadden has been returned as delegate for Washington Territory by an overwhelming majority.

Henry Quail, better known as Poker Jack, was eating in Ross's Restaurant, Port Townsend, when a man named James Thompson, alias Slim Jim, entered. Thompson assailed Quail with opprobrious epithets, and knocked his hat from his head. Quail left the restaurant and went into the street, where he was followed by Thompson. Here Thompson drew a jack knife and slashed Quail twice across the face. Quail then drew a bowie knife and almost cut his assailant to pieces.—He stabbed him sixteen times in the head, neck and face, and wound up by plunging the knife into his heart. Thompson fell dead in his tracks, and Quail gave himself up and is in jail.

UNITED STATES.

Yale, Nov. 11—From the Victoria Colonist specials we take the following:

New York, Nov. 6—The Herald's election estimates give Grant 23 States and Greeley 8; or 203 electoral votes for Grant to 90 for Greeley. Popular majority for Grant is placed at 350,000. The Herald editorially says, whether the result will be accounted for by the popular strength of General Grant on the one hand, or the weakness of Greeley and the feebleness of the liberal Republicans combined, or the Democratic bolt on the other hand, it is in many respects the most remarkable election in the history of the country.

The Tribune gives Grant 260 electoral votes at the lowest, and 82 for Greeley. There is scarcely a parallel, it says, in the completeness of Grant's triumph. Grant has now four years more power, with a Congressional majority. Whatever reform he may seek to effect, he will have the aid of the Tribune.

The World places the popular majority at 300,000. It says that the defeat is due to the Democracy surrendering to Greeley, and the demoralization consequent upon the New York ring speculations of a year or two ago disheartened the party, and they had not recovered in time from the Tammany taint to do anything until too late.

The Times gives Grant 300 electoral votes Greeley 43, with the balance doubtful.

PREVENTION BETTER THAN CURE.

I HAVE been requested by several respectable parties, who can testify to the efficacy of my system, to again make public the fact that

Moses' Hair Invigorator

WILL PREVENT BALDNESS,
RESTORE HAIR THAT IS BECOMING THIN OR FALLING OFF, and effectually CURE SCURF OR DANDRUFF.

This is not a mere assertion on my part, as I have in my possession numerous testimonials certifying to the success of my remedy.

I do not of course pretend that I can make the hair grow on heads which have been bald for years; but I will guarantee to stop the hair from falling off, to increase its growth, and effectually remove Scurf or Dandruff.

W. D. MOSES,
Barkerville, B.C.

CERTIFICATE.

This is to certify that during last spring my hair was rapidly falling out and my head was fast becoming bald, when I applied to Mr W. D MOSES, Barber Barkerville, who in a few weeks restored my hair to its former healthy state. DAVID GIBBONS.

THE CARIBOO SENTINEL

SATURDAY, NOV. 16, 1872.

NO MAIL.

In a late number of the SENTINEL we endeavored to show that a Weekly Mail Service would be of advantage to this district. We now ascertain that we are likely to be without a mail at all, except when the Post Office authorities in the lower country choose to remember that such a country as Cariboo is in existence. Such, at any rate, is the conclusion to be drawn from our late telegraphic dispatches; and now that the Banks are closing for the winter season, it is a matter of the utmost importance that business people should have every facility in communicating with those with whom they have transactions. The bare idea of being without a mail for a week is almost unendurable. According to appearances, such may not be the full extent of our troubles, for it is now evident that notwithstanding the fortnightly trips of Barnard & Co.'s stages we may at any time be deprived of a mail for the space of a month. This is a little more than we expected, and we sincerely hope that it will have the effect of awakening the people of this Province to the absolute necessity of having a weekly mail service through its entire length and breadth. This is also a point that our Ottawa representatives ought to pay particular attention to. We do not ask them to perform any Herculean tasks, but we do demand most positively that they obtain for us the means of cheap, rapid and frequent transmission of mail matter. There is every reason now why we should be favored to that very limited extent, and we feel satisfied that if the Post Office Department were to-day to make an arrangement with the present mail contractor whereby a weekly mail would be assured to us during the long and weary months of winter, that contract would receive the support of every man in the Province and the countenance of our representatives at Ottawa. In this district we would know how to appreciate such services. The gentleman whose name is favorably connected with the obtaining of this great necessity in this Province will earn a debt of gratitude which his constituency will be slow to forget. Surely an effort ought to be made to achieve a result so desirable when viewed in relation to the interests of the whole country. We have no doubt that the present mail contractors would perform the extra service for a moderate and reasonable sum. If it be impossible during the coming winter to obtain a favorable result in regard to our wants in this respect, we trust that our representatives at the Dominion seat of Legislature will as regards the future attend to our interests and achieve the much desired object of obtaining for us a weekly mail service.

DISTINGUISHED DEPARTURES.—It is not every day that we have to chronicle the departure of two members of Parliament and the acting representatives of two Banking Institutions. It seems, however, that notwithstanding all our efforts to induce the stay of the latter gentlemen in this district their departure is certain. Under these circumstances, the least thing we can do is to pay the Agents of the Banking Institutions a fair compliment, and express the regret of the whole community that will be experienced in consequence of their departure. Mr Fraser, as Agent of the Bank of British Columbia, has been most popular, and the same fact may be stated of Mr Morris, the Agent of the Bank of British North America. Both Institutions have great reason to be proud of the ability, as we know the people of Cariboo were pleased with the urbanity, of their respective Agents.

MR MARCUS WOLFE, who has so ably represented the firm of Oppenheimer Brothers in Barkerville for the past year, leaves by the next Express. Mr Wolfe's departure will be regretted by a host of friends. We cannot but again regret the withdrawal of this firm from Cariboo—their names were "familiar as household words;" but hope that the return of more prosperous times, which will undoubtedly take place before long, will induce them to resume business here.

IN consequence of the close of navigation on the upper Fraser, Barnard & Co.'s Express will not arrive till Sunday evening.

MINING INTELLIGENCE.

WILLIAMS CREEK.

The Forest Rose and Ballarat companies have closed operations in consequence of the severe frost.

JACK OF CLUBS CREEK.

The result of mining operations on this creek for the last two months shows conclusively the existence of gold in large and paying quantities. During last week the Discovery co. took out 35 oz., and have been stopped in consequence of an accumulation of ice in their ditch. The Two Sisters co. has been paying well, but have stopped work for a few days in consequence of the wheel breaking down with ice caused by the late cold weather. The Two Brothers co. are sinking a new shaft over the channel, and are running a drain in order to find the clay.

LIGHTNING CREEK.

The Spruce co. are making very slow progress, as the ground is soft and the water troublesome in the face. The Point co., owing to the severity of the weather, have been compelled to suspend operations until next spring. This, although unfortunate, can be borne by the lucky shareholders with considerable equanimity, as they have already received large dividends, and there is good reason to believe that they have just as good ground to work next summer as that which paid so well this fall. Last week the wash-up reached 290 oz. The Victoria company are preparing to pump out the water, which there is no doubt of their being able to accomplish, as they and the Vancouver co. have both double action 12 inch pumps. There is, therefore, a fair chance of the lower end of Lightning being prospected this winter, if the water in the creek only holds out well enough to supply the necessary power to drive the powerful machinery with which the claims are now supplied. The Gladstone co. have not yet, but may at any moment, break through the rock with their second drive.

HARVEY CREEK.

The Foster co. have struck bed-rock at 54 feet, and found a good prospect of coarse lead gold. The Minnehaha co. continue their drain, and expect to be on pay in about eight days. The Cummings co. are running up stream and have lost bed-rock; the indications are more favorable. The Manitoba co. are still drifting ahead. The Dominion co. have got their diggings pumped out and got to the face, and were stopped in consequence of the severe weather; they expect to be on pay in a few days. The Perseverance co. got between 30 and 40 oz. last week, and large pay is expected this one.

ANTLER CREEK.

The Eureka co. are now certain that the deep ground found by them is the main channel of Antler creek. The Nason and other companies are prospecting.

BARNARD & CO.'S EXPRESS arrived about 11 o'clock on Saturday night, bringing the mails, an express, and the following passengers:—Mrs Michaels and son, and Wm. McColl, for Barkerville; Miss Kate Parker, for Stanley. The down Express left on Sunday morning, with the mails and the following passengers: Robert Dexter, R. Young, Sam. Roberts, A. Dick, Sam. Tompkins, and E. Pearson.

SAN JUAN QUESTION SETTLED.—Yesterday the Lieutenant-Governor received official notification by telegraph that the Emperor of Germany had decided that the Canal de Haro shall be the water boundary between British Columbia and the United States. This information then clears up all doubts about the ownership of San Juan.—Victoria Standard, Oct. 29.

THE CARIBOO SENTINEL

SATURDAY, NOV. 16, 1872.

BY TELEGRAPH

LAST NIGHT'S DISPATCHES.

SODA CREEK.

Soda Creek, Nov. 15—The Lane & Kurtz machinery has not arrived. Barnard's Express is expected this evening.

Soda Creek has a silver lead excitement, Captain Baughman, of the steamer Victoria, having discovered a ledge in this locality.

Dunlevy & Manifo are erecting a new stable of large dimensions.

YALE.

Yale, Nov. 15—Private advices from Victoria report George Dietz, of Moody, Dietz & Nelson, as partially paralyzed and in a dying state.

The Onward made several unsuccessful attempts to cross Jeffry's bar yesterday, and was obliged to return to Harrison river. In all probability navigation is closed for this year, the water in the river being very low. The mails, express and passengers arrived from the steamer in canoe. Weather moderating.

VICTORIA.

Victoria, Nov. 12—The election for Mayor of Victoria came off yesterday, and resulted in the return of Mr McMillan.

Wm. Barton, working in the Newcastle seam, Nanaimo, was about firing a blast, and finding that it did not ignite he went to it with a lamp, when it suddenly exploded, driving a piece of coal through his head, shattering an arm and both legs, killing him instantly.

UNITED STATES.

San Francisco, Nov. 6—The inspection into the escape of Bratherton, commenced this afternoon by the Commissioners of the Board of Supervisors. Darwin, assistant Attorney, testified that he heard District-Attorney Murphy warn Sheriff Adams that the prisoner would try to escape. The Sheriff treated the matter lightly, and said he had talked with him and he would not try to escape. It appeared in proof that Jailor Kelly told Adams he would trust him with his own commitments to San Quentin.

Portland, Oregon, Nov. 6—The total number of votes polled in Portland was 2390—Grant's majority, 772. Fourteen votes were cast for O'Connor. The State will give at least 1000 majority for Grant.

New York, Nov. 6—The funeral of Mrs Greeley took place to-day from Dr. Chapin's church. The coffin plate was inscribed 'Mary T. C. Greeley.' The services were simple, and read by Dr. Chapin, who delivered a short address on the virtues of the deceased and her patience under suffering. The remains were taken to Greenwood for interment. The chief mourners were Mr Greeley and his two daughters. The funeral was largely attended.

John Rodney, a rough, kicked Mrs McTierney this morning in a grocery on Cherry street, causing fatal injuries. Her son, in defending his mother, was fatally stabbed in the breast with a butcher knife by Rodney.

It is reported that the Western Union Telegraph Company has applied for an injunction restraining the working of all opposition lines in the United States, claiming that the operation of such lines under the present system is a violation of the patent improvements which are claimed to be included in the Morse system.

Washington, Nov. 2—Mrs Lloyd, tried at Leesburgh for poisoning her children, was yesterday acquitted. She was charged with giving them arsenic, but the evidence shows that a physician had prescribed bismuth for one of the children, while an analysis of the latter dose produced arsenic, and shows that bismuth contains an amount of arsenic equal to that which the mother of the child was charged with giving as pure arsenic. The evidence turned on this chemical fact, and acquitted the mother much to the surprise of her prosecutors. Considerable commotion is manifested by druggists and physicians and people generally at the discovery of arsenic in bismuth, and its use will probably be done away with in medical practice.

Concord, Nov. 4—An inquest is being held on the body of Georgiana Lovering, the young girl who now seems to have been dragged into the woods, and then ravished and murdered by Franklin D. Evans, her great uncle, who is 60 years of age. Evans is in custody.

New York, Nov. 2—Thomas Donahoe, who is supposed to have shot Florence Scannel two years ago, was shot dead to night by John Scannel, brother of Florence, in a saloon on the corner of 28th and Broadway.

Washington, Nov. 4—Dispatches from Berlin and Prague note the appearance of cholera in those places.

New York, Nov. 4—The United States Jury indicted Woodhull and Claflin to-day, and then presented a bearing before the United States Court. Stephen Pearl Andrews has also been arrested on a charge of being implicated with Woodhull. In the case of Woodhull and Claflin to day bench warrants were served upon them, and bail fixed at $8600 each. In default of the same they were remanded to the Ludlow street jail to await trial.

The ceremony of unveiling the Scott statue took place at Central Park this afternoon in the presence of a vast number of spectators. The presentation address was made by Richard Irvin, and the acceptance speech by Controller Green. William Cullen Bryant delivered the oration.

Cumberland, Indiana, Nov. 4—On Friday night two freight trains collided on the Huntington railroad. The conductor and three others were instantly killed, and another mortally injured.

New York, Nov. 4—Gen. Sherman will submit no extended report on the army this year. During the year to come he may have an opportunity to supply some ideas picked up from observations made in foreign countries.

It is stated that bad health prevents Chief Justice Baxom attending business. Unless he improves he will take a trip to the Pacific coast.

Chicago, Nov. 4—While the rite of baptism was being performed in the Baptist church, Evanstown, yesterday, in presence of a large congregation, a portion of the floor gave way, precipitating half the assembly a distance of 14 feet to the ground. Strange to say, only four or five people were hurt, and but two of them severely.

San Francisco, Nov. 4—Sheriff Adams has offered a reward of $4000 for the capture of the Brotherton brothers, the forgers. It is reported that Governor Booth will add $2000 to the amount, and that private parties will increase it to $10,000. R. M. Lee, one of the attorneys for the Brotherton brothers, who was indicted for embracery, was delivered into custody by one of his bondsmen and sent to jail, but gave new bonds and was released.

New Haven, Nov. 9—The horse disease has reached its worst stage. No cars are running and there is scarcely a horse on the streets.

Washington, Nov. 9—The horse disease is abating. Horses are again seen on the thoroughfares.

New York, Nov. 9—At the annual dinner given by the Mercantile Library Association last evening, Charles O'Connor delivered a speech on the progress of the reform movement in the metropolis, and concluded with this sentiment: "General Dix and Francis Kernan; endowed alike with integrity unquestioned, and moral above reach, are fit rivals for a high station, and we trust they have inaugurated a new era in political candidacies.

A Washington special says Gen. Hancock, being senior General in the United States service, is now being pushed by his friends for the command of the department of the Atlantic, made vacant by the death of General Meade.

San Francisco, Nov. 9—Anthony Trollope left San Francisco yesterday. The Brotherton forgers were recaptured and sent to San Quentin yesterday. The Pacific Railway is making great preparations to prevent a snow blockade.

EUROPEAN.

Dresden, Nov. 4—The Golden Wedding of the King and Queen of Saxony was celebrated here to-day with splendid ceremonies. The occasion was made remarkable by the presence of the Emperor and Empress and Crown Prince of Germany, who thus gave proof of the complete restoration of good feeling between the German and Saxon Courts.

Madrid, Nov. 4—Armed bands of Carlists appeared on the frontier and stopped three diligences, turned the passengers out, and robbed and stripped them. Two persons were wounded—an English passenger and the postillion.

London, Nov. 5—The Times says the re-election of President Grant will be eminently satisfactory, and will defeat an audacious intrigue to secure control of the Government of the United States. President Grant has not proved a perfect Chief Magistrate. He has been guilty of extreme carelessness, and it is hoped he will take a lesson from the development of the past six months. His errors were errors of ignorance, but his defence will no longer hold good, and must be effaced. The Civil services demands the appointment to office of persons able to administer their duties.

Paris, Nov. 5—Henri Rochefort has been permitted to come to Versailles to marry the dying mother of his children, in order to legitimatize them. When the ceremony is concluded he will return to prison.

The evacuation of the department of Marne is slowly proceeding.

Berlin, Nov. 5—The Government has created a number of new peers to secure a majority in the House of Lords. It is stated there will be sufficient time after the re-opening of the new Diet to reconsider the vote on the country reform bill before that measure is again introduced by the Government.

Rome, Nov. 1—The Pope has resolved to defend the cause of the Church at Geneva against the decree of the Swiss Government forbidding the exercise of Episcopal functions within Swiss territory by the recently appointed Bishop Mermiled.

London, Nov. 4—Dispatches from Sheffield at noon to-day report rioting there. The cause of the rioting is not reported. Demonstrations against closing of saloons during certain hours in Liverpool on Sunday were renewed yesterday. At one place a crowd numbering ten thousand, while being addressed by speakers in opposition to the Act, was dispersed by the police.

Oxford Music Hall, in Oxford street, was burned last evening.

Paris, Nov. 4—France will pay Germany this week two hundred millions of francs, and will continue to make similar instalments until the end of the year, so that on the first of January only two milliards of war indemnity will remain unpaid.

Paris, Nov. 4—The report, which first appeared in the Gaulois, that the German ambassador had demanded of Thiers a disavowal of General Ducrot's recent order of the day, is pronounced to be untrue.

St. Petersburgh, Nov. 2—Later advices from Khiva report that the Khan has built a fort at Djorkall, where he will resist the advance of the Czar's troops. He still refuses to surrender the Russian prisoners.

London, Nov. 2—A dispatch from Pekin announces that the Emperor of China was married on the 1st of October. There was no outside ceremony other than a procession which escorted the bride from her residence to the Imperial palace.

London, Nov. 4—The election for member of Parliament for Liverton to fill the vacancy caused by the elevation of Hon. Geo. Denman to the Judicial Bench, is proceeding to-day. A dispatch from that town at 1.30 this afternoon says the balloting is being conducted amidst great excitement. Vigilance Committees have been formed by both parties to watch the polls and see that no unfair advantage is taken.

Rome, Nov. 2—Dispatches from Turin report that there is no abatement of the floods in the river Po. Thousands of men are erecting barriers to arrest further progress of the water. The damage to property and crops is beyond calculation. In Ferrara alone 4000 people are homeless. Assistance is being rapidly forwarded from all points to the suffering people.

Dresden, Nov. 9—Six cases of cholera have appeared up to Sunday. Three of them proved fatal. Among them are two Americans—a child and a young lady. The police authorities state that the disease is cholera morbus. The first case came from Pesth.

Turin, Nov. 2—The Po continues to rise and the inundation is spreading. Families are fleeing. Those who cannot escape are starving on the housetops and trees. The streams are filled with the carcasses of cattle and wrecks of houses and barns. The top of Reggio, 14 miles from Modena, is almost entirely beneath the flood.

THE CARIBOO AMATEUR DRAMATIC ASSOCIATION.—The departure to-morrow of three active members—Messrs. I. Fisher, J. S. Thompson, and Marcus Wolfe—will be a serious loss to this Association. The appearance on the boards of the two first named gentlemen was always hailed with satisfaction by our play-goers, and Mr Marcus Wolfe, as Manager, displayed great energy in his efforts to please the public and make the institution a success. The public, we are sure, will sincerely regret the departure of these gentlemen.

CONVALESCENT.—Walter Alexander, who was so seriously injured last summer while working in the Cornish claim, and had one of his legs amputated in consequence, is now convalescent. An effort should be made to procure him one of the minor situations which the Government occasionally has at its disposal; and in case a vacancy of this kind exists at present, we are sure our kind-hearted Chief Commissioner will use his endeavors to procure it for one who, in the prime of manhood, has been debarred by accident from ever again earning his bread by manual labor.

MR WM. HOUSEMAN (better known as the Duke of York) is building a new saloon and restaurant on the wagon-road, adjoining the Vancouver Company's claim, below Van Winkle.
