THE CARIBOO SENTINEL

SATURDAY, OCT 12, 1872.

A WEEKLY MAIL SERVICE.

The time is fast approaching when our weekly mail service will come to an end and the fortnightly one commence. This tells us of weary months of snow that is eternal in appearance, and days that are infinitesimal in length. In a short time, beyond the usual mining, telegraphic and local news, nothing will occur to disturb the serenity of our life or the regular indulgence of our dreams except the fortnightly arrival of the express bringing the mail and a few passengers. That is, of course, in itself a great relief, for with its arrival comes a large budget of English, American, and Canadian newspapers, bringing us information of all important events that are transpiring in the outside world. Besides this there comes the usual supply of long expected letters, bringing "tidings of glad joy" to some, news of indifference to others, and knowledge of evil import to many. This is all very well in its way. The news, good, bad or indifferent, will come under any circumstances, and we are always prepared to receive it with that proportionate amount of favor or disfavor which we may suppose it deserves. If good, we hail it with joy; if bad, with that amount of philosophy with which nature has gifted us, or years of "hard lines" in the mines has taught us to exhibit; and if indifferent, with the indifference it merits. Our only complaint is that it comes too seldom during the season when we require it most. During the summer season mining operations are brisker, there is more news of a local character, and we are favored with a weekly mail. We thus manage to get along well enough. Now, although the severe winter weather has to a certain extent the effect of cramping the industries of this district, still we must recollect it is only in a limited way, and the ordinary business of the country has to be transacted in the usual manner. Engagements have to be met, money has to be transmitted below, and all the exigencies of trade complied with in the same manner as it would have to be done in summer time when we are favored with a weekly mail. Every one at all acquainted with business is well aware of the great convenience that cheap, rapid and frequent communication is to those engaged in mining, commercial, or other enterprises of any moment, and of the unsatisfactory state of affairs that is produced when these communications are infrequent or interrupted. In this district it has long been felt that the weekly mail service ought to be continued the whole year round; and now that the Banks of British North America and British Columbia are about to close their establishments here for some months, it is evident that a frequent communication with the lower country will be of the greatest advantage to those who are either engaged in trade or commerce or in extensive mining operations. It is not for us to comment upon the reasons which may have actuated these two highly useful institutions in taking the step alluded to. They, of course, know their own business best, and in the movement they may either see a possible gain, or what is as good, a loss avoided. What we have to deal with is its probable effect on trade here, and the manifold inconveniences which the absence of these banking institutions will create, and which would, at any rate, be partially remedied by a weekly mail. The uses of banks as places of deposit and as convenient means for the transmission of money are so well known that it is almost needless for us to dilate upon the subject. It is sufficient for our purpose to say that these institutions have existed long enough here for us to become acquainted with their uses in both respects. Under these circumstances, it does seem rather hard to a business man to be obliged "to come down to first principles" and conduct his affairs by a species of barter,—gold dust for dry goods, or groceries for gold dust,—without any of the civilized accompaniments of bank notes or bills of exchange. But, of course, it has to be done, and persons who have any of the yellow ore at their disposal instead of being able to deposit their bars or dust at the banks, or there convert them into notes or "a first, second and third of exchange," will perforce be compelled to sleep with the "metal" under their pillows or stow it away in unsafe safes or insecure hiding places. All this is to a mind not completely obtuse to danger horrible to contemplate. The only course open to us is if possible to obtain an alleviation of the sufferings which we are likely to endure in this respect. This may be done by the establishment of a weekly mail service, which no doubt would do away with many of the inconveniences which business men will have to suffer during the next winter. Gold bars could be transmitted every week instead of being kept on hand double the time, and the multifarious demands of commerce and the convenient and regular transaction of business would be much assisted. We believe a moderate increase of the subsidy given to the present enterprising mail contractors would induce those gentlemen to continue their summer arrangement during the ensuing winter. Surely then an effort might be made to achieve this desirable end, and thus avoid many of the harassing inconveniences to which business men are sure to be subjected during the winter months.

Doyle has filed bonds for $28 000. McWilliams had not been arrested at adjournment of Court.

Cincinnati, Oct. 9—In Ripley, Ohio, yesterday afternoon J. Cochrane shot and mortally wounded his brother-in-law, Frank Bedwell, who died this morning.

Louisville, Ky., Oct. 9—This morning Dr. W. J. Bill, a well known physician of this city, shot himself in front of his son's drug store. He had just been refused admittance by his son. Family trouble supposed to be the cause of the rash act.

St. Louis, October 9—At 3 o'clock this morning, during a heated political discussion between J. Milton Turner, colored Minister to Liberia, and George Molley, another prominent man, the latter stabbed the former with a pocket knife in the left breast, inflicting a wound thought to be mortal. Molley has been arrested.

Richmond, Va., Oct. 9—The members of John Robinson's circus have been arrested charged with murdering and robbing Davenport in Charlotte, Virginia.

EUROPEAN.

London, October 8—A Birmingham firm has contracted to furnish the Russian Government with 15,000 rifles of an improved pattern. The Czarovitch race was won by Salvanos, Sylvit second, and Enfield third.

Strasbourg, October 8.—The official statement made of the result of the option given shows that of the natives of the new German provinces of Alsace and Lorraine 164,633 have declared in favor of retaining French citizenship; of this number 38,800 declarations have become valid through immigration to France, and 12,000 domiciled Frenchmen have left the province.

Berlin, October 8—Five gambling saloons at well known German watering places have been closed.

Lisbon, October 8—The steamers Congress and Brooklyn, of the United States fleet, arrived in the Tagus to-day.

London, October 9—Eighteen coal masters of South Wales have resolved to release their works shortly pending rise of wages of employes.

Stockholm, October 9—Remains of late King Charles IV. have been brought to the capital from Malmo, and will be buried beneath Kiddersholm church.

Brussels, Oct. 9—A general strike of the workmen in the city is imminent.

Paris, October 5—The journals of this city have opened subscriptions to relieve Alsatians who left their homes to retain French citizenship.

The Paris correspondent of the Times telegraphs that the Russian Ambassador in that city has received a note from the Chief Secretary of the Emperor's Privy Council withdrawing the congratulations which the Emperor had tendered Thiers, and expressing dissatisfaction of Russia at aggressive attempts of the Radical party in France.

Kingston, Jamaica, Oct. 2—Advices state that another attack had been made upon the British settlers at Orange Walk, Yucatan.—The Indians numbered about 5,000. The garrison made a gallant defence, killing and wounding a number. Two soldiers were killed and 16 wounded; one civilian killed and 15 wounded. The Indians pillaged to the extent of twenty or thirty thousand dollars and then retired.

RACES AT ASHCROFT.—Cariboo now delights in the possession of the fastest piece of horse flesh in British Columbia. This has been fully proven both at the Pavilion and Ashcroft races. At the former McKay's horse "Cariboo Charlie" won the principal race—the "Pavilion Mountain Purse"—and at the latter carried off the two main events, the "Thompson River stakes," and the Ashcroft Derby. When it is recollected that the two first races were at mile heats, and the latter a single dash of one mile and a half, it will easily be seen that the staying powers of the Cariboo horse must have been good to enable him to beat the best horses in the lower country. When we can achieve such results with our stage horses, what will we not be able to do when we take to raising race animals? It is quite evident the breed of horses in the lower country will have to be improved. Two other horses from the Cariboo district are winners—Manife's horse "Dexter" and Doc English's colt "Pinto" winning some half mile races. Where was the fast stock from the great agricultural districts and from Vancouver Island? where? Echo answers —whar?

MINING INTELLIGENCE.

WILLIAMS CREEK.

The claims above Richfield have since the freshet commenced hydraulicing and ground sluicing. The Ballarat co. were only able to work part of last week, but obtained 40 oz.

THE MEADOWS.

The Lane & Kurtz co. have quit work for the present. As soon as their new pumps—two 13 inch ones—which are now on their way up, arrive, work will be recommenced.

JACK OF CLUBS CREEK.

The Discovery co. washed up 26 oz. yesterday. The Two Sisters co. is taking out pay. These claims are improving in appearance.

LOWHEE CREEK.

The Black Bull co. have completed their ditch to a point near Walker's gulch. The Victoria co. is paying about 30 oz. per week. The Calaveras co. ran their drain tunnel 60 ft. last week, and expect to be in the diggings in about a fortnight.

EAGLE CREEK.

The Walker co. are running through a narrow part of the channel, and find the bedrock rising rapidly.

LIGHTNING CREEK.

The Ross co. are working but not taking out much pay. The Eldorado co. are still running in rock. The South Wales co. have commenced work in their upper diggings expecting to find the Amador channel. The Spruce co. are about six feet from the shaft, still in bed rock. The Point co. took out 77 oz. last week. The Vanwinkle co. continue running their drain. The Clark co. have come back some distance in their drive, and have struck a good prospect. The Gladstone expect to be in gravel next week, about 8 ft lower than in the old drive.

KEITHLEY CREEK.

The claims on this creek have all been doing well this season, making from one-half oz. to an oz. and $20 per day. The late freshet filled all the claims up, and some of them will be unable to work any more this season.

HARVEY CREEK.

The Foster co. at last accounts were down 34 feet, the machinery working well and managing the water easily. The other claims were all drowned out by the late freshet, the Cummings co. flume having broken in two places. As soon as the water goes down the different companies will be able to resume operations.

ANTLER CREEK.

The Eureka co. have raised a shaft through the rock, through which they have been driving, and have struck into gravel on what they suppose to be the rim of the channel; water not troublesome.

BEGGS GULCH.

The Cliff co., working in the old Ancient Briton ground, struck a good prospect last week. The gravel looks favorable, and the company is in hopes of soon having a good claim.

GOLD CREEK.

The Discovery co. will work on this creek during the winter. They intend to run a tunnel to strike bed rock about the lower line of their claim.

ACCIDENTS IN THE MCPHERSON AND BALLARAT CLAIMS.—We regret to state that Mr William Stevenson, of the McPherson co. at Cameronton, met with a severe accident in the shaft-house of that company on Wednesday last. While working in the neighborhood of the shaft his body was caught by the wheel and jammed against the partition. Mr Stevenson, who is much bruised and badly cut, is completely disabled, though no bones are broken. It is not known as yet whether any internal injury has been inflicted.—Another accident of the same sort occurred the next day in the Ballarat claim. Mr McAlister, foreman of that claim, was caught in the wheel in a similar way, and was much cut and bruised. Mr McAlister is fortunately able to move about, though for the present rendered unfit for work. Too much care can not be exercised in working round machinery.

THE BULKHEAD AND WAGON ROAD.—The bulkhead behind the town is being rapidly raised under the superintendence of Mr Spence. Mr Spence will also, we believe, put the street, which has been much damaged by the late freshet, in passable repair. Men have also been sent out in the neighborhood of Pine Grove to repair the wagon road there, it having been somewhat injured by the Lightning Creek freshet.

ELECTION OF OFFICERS.—At the regular meeting of the Cariboo Amateur Dramatic Association, held on Wednesday evening, 9th inst., the following officers were elected for the ensuing year:—Manager—Marcus Wolfe. Secretary—E. C. Neufelder. Stage Manager—J. Z. Hough. Costumer—F. Perrett.

FEDERAL APPOINTMENTS.—On reference to our telegraphic columns it will be seen that Mr B. W. Pearse, Surveyor-General of this Province, and Dr. I. W. Powell, have both received appointments at the hands of the Dominion Government. The former has been appointed Engineer in charge in this Province of the Federal public works department, and the latter has been appointed Indian Commissioner for this Province. We feel satisfied that no more competent men could be found to fill the positions. Mr Pearse is an old officer in Vancouver Island, having been connected with the Surveyor-General's department for some years before the gold excitement in '58. His well known professional ability will enable him to superintend satisfactorily those important works which are to be commenced forthwith. The appointment of Dr. Powell will be received with pleasure by those best acquainted with him. His well known good temper, moderation and ability well befits him to deal with the Indian tribes, with whose habits and modes of thought and reasoning he is, no doubt, from a long residence in this Province tolerably well acquainted. We congratulate these gentlemen upon their appointments. It is always satisfactory to find local men chosen to fill these offices, especially when their competence in that respect is undoubted.

BARNARD & Co.'s EXPRESS arrived on last Saturday morning, bringing a mail, an express, and the following passengers to Barkerville:—G. B. Wright, C. M. Beak, and two Chinamen. The Down Express left on Sunday morning, conveying a mail, an express, and the following passengers:—Geo. Spruce, Wm. McColl, R. C. Orr, and John Murphy, for Yale; G. B. Wright and C. M. Beak, for Quesnel.

THE BANKS.—We understand that a Memorial addressed to the Agents of the Banks here is being circulated for signatures. The object aimed at is to induce the Bank authorities to keep one of the agencies open. We only hope the endeavor will be successful. The closing of both institutions will be a loss both to the mining and mercantile community.

THE ELDORADO SALOON.—Messrs. W. Dodd and Llewellyn Jones have opened this old and favorite stand in a new and improved form. The best of liquors and cigars are on hand, and good club rooms are provided for private parties.

VACCINATION.—We would advise any one going below this fall to get vaccinated. Prevention is better than cure. Residents in this place should also adopt this very necessary precaution.

ACCIDENT TO THE STEAMER ONWARD.—No mail or express came up from any point below Yale last week in consequence of the accident to the Onward. We may therefore expect a double mail and express to-day.

THEATRICAL PERFORMANCE.—Don't forget Florence Wilson's benefit to-night at the Theatre. Everybody will, of course, go and see what will be the best performance of the season.
