

BETWEEN

YOU 'N ME...

by
BILL SUTHERLAND
Editor, The Coast News

MRS. HARRY Greenwood came breezing — that is hardly the word for such a little woman — better say she came tripping into the office and relayed the information that her well liked husband is on the mend again.

Harry, it was, that came in one day and started telling us about his wood cutting prowess, which, by the way is now finished for good, according to Mrs. Greenwood. More than 70 years old, Harry can and has and if left to his own devices, will cut and pile a cord of wood a day. I have cut many acres of wood when the depression was with us and I know full well that 99 per cent of the men in this country won't be able to cut a cord a day when they top the three score and ten.

I was certainly glad to hear he is getting better. We need old-timers like that around. They set up marks for the younger ones to shoot at. It keeps the nation from getting too soft. If you remember, that was what happened to the Manchu dynasty in China. They got soft from having the coolies, etc., doing all their work for them.

Captain Billy Yates, strolling up the wharf the other day, stopped long enough to reminisce with this joker and Reg Godfrey.

Captain with the Union Steamships for many years, 1907 to be exact, Cappy, who looks like everything else but a sea skipper, recalled the day he opened the new Gibsons wharf. He was supposed to make a speech, had it all lined up and written out nicely. He walked up to the ribbon and started to speak—that beautiful flowing phrase stuck deep down in his throat. Not a word came out. To top it off his son and wife were on the wing of the bridge all set to get proud of "Pop." The crowd started to sing, "For He's a Jolly Good Fellow." That made everything right said Billy Yates with a nostalgic gleam in his eye.

He had no trouble recalling the time he had to eat onions in order to beat off the flu when the epidemic was on following the last war. He tells that the cooks on the boat had seen the crew loading victims of the plague on the ship for transfer to Vancouver and had announced that "Onions is the only safe cure."

"Onion it was," says Captain Billy with a chuckle. "We ate onions in everything during that terrible time."

Mr. Coates, the ex-shipbuilder and the man responsible for building the original Sea Bus Lines boats, was hurrying along the main street. He had that grim, I must get there, look on his face as he nodded to acquaintances. I figured that only supper time could cause that tense mien.

I noticed the ladies were having a great time in Mary Drew's lovely garden. The younger fry were playing bowls while the W.A. to the United Church swapped yarns or whatever ladies swap when they serve tea.

Ken Alexander was on his way to give a lecture to some group on the birds and bees. Ken may be one of the best qualified men in this neck of the woods to talk on that subject. Being a Fellow of the Royal Geographic and about ten other well known and national outfits, he is one of the nature authorities that is really an authority.

He tells me that he is in the nice position of being paid to do what he likes to do in the place where he likes to live.

A young mother, having saved up for a dining room set she dotted on, saw it installed and went out to market. She returned to find small son seated under the new table, busily whittling the neat sharp corners off its legs. For a moment she stood aghast, then rushed outdoors to her husband. "John, come quickly," she

Professor Lloyd Praises Quality of Local Poultry

Kinsmen Ready for Farmer's Fall Fair

GIBSONS—Battleman M. MacIntyre, MLA will officially open the Farmer's Institute Fair, August 18, according to word from the organizing committee.

The two day event will include entries in poultry, weaving and home handicrafts, some of which are reputed to be equal to any shown on the continent.

The show will officially start at 7 p.m. and will include demonstrations and pottery craft in the Parish Hall.

Judges will include A. H. Pepper, vice president of the B. C. Fairs Association; W. D. Christie, from Experimental Station, Abbotsford; home cooking and domestic science under Mrs. Margaret Henderson, Vancouver; needlework, Miss V. Britton, Vancouver; school section will be under James Sinclair sr, while poultry exhibits will be handled by Inspector R. H. McMillan, New Westminster.

The Carnival and Midway will be handled by the Kinsmen Club complete with all the equipment from various midways and shows throughout the country.

According to Chairman Laurie Speck, "This is going to be one of the best we have ever had. Everything is ready to take the sucke... I mean the friendly people to town. We don't intend to give anyone a break if we can help it."

He pointed out that several of the Kinsmen booths last year came close to losing money from trying to be fair with everyone. It is expected, despite the honky tonk talk of the chairman that he will still assure everyone of getting a fair break.

The money raised by this means will go toward helping the kiddies of Gibsons and Dis-

Union Ends All Transport Here

GIBSONS.—It has officially been announced that Union Steamships' schedules to West Howe Sound ports will cease on November 4. The same rule applies to West Howe Sound Ferries.

Waterhouse Freight, a subsidiary of Union, will continue to operate.

News that the Lady Alexandra would soon cease operation, had previously filtered through. This is the first time it had been announced by the Union Steamships.

Gambier Island had previously made arrangements with Clark Gibson for Sea Bus Lines to call "at least twice weekly." It is presumed this will be the method for mail delivery to that area.

James Veitch, as chairman of trade and industry, and Reg. Godfrey, chairman of local affairs committees of the Board of Trade are now trying to effect substitute service.

tribut, which actually goes as far as Pender Harbour if the need is there.

Happyland Camp is Girl's Happy Land

ROBERTS CREEK—Call of the wild is strong in even the young female of the species.

Truth of the above can be borne out by Mrs Carola Forst, one time editor of this paper and now manager-owner of Wonderland Camp for girls, hidden in the trees at Roberts Creek.

Mrs Forst is the leader of a girls' school, which is something different. It is a place where the youngsters from six to 12 years of age learn the ancient art of pottery, wool weaving, carpet and mat making and what is more important they learn discipline in a friendly, educational manner.

Chief consultant and psychologist teacher is Miss Beatrice Sanderson, graduate of UBC in Social Service. Swimming classes and controlled hikes and wood patrols through the shaded trees which border the stream at the bottom of Wonderland Camp are all under supervision of Miss Sanderson.

Tall, brunette and athletic looking, Miss Sanderson is a graduate of the school of theory in child training that has culminated in well behaved children with progressive minds tutored to absorb that which they can learn from the immediate surroundings.

Maxine Moase, 12 year of age and two term, is one of the

(Continued on Page 8)
cried. "If I touch him, I'll kill him."
It's in the Reader's Digest.

GIBSONS—The Sunshine Poultry Club which swept clean the local exhibition slate last year, and took second and third prizes in an all B.C. show, may quite easily repeat again.

This territory has a junior poultry club which may well take the lead in Pacific National Exhibition, according to UBC Professor A. G. Lloyd, following an all day tour of the club here.

"These are better chickens," he said on the tour, "than those produced at UBC this year." He forecast stiff judging among the local entries at least, owing to closeness of the high quality entrants.

All birds will be shown at the Farmers' Institute Fall Fair to be held Aug 18 and 19 in Gibsons. It was at this fair last year the four-year-old club under tutorship of Ed Smith and presidency of Don Trethaway, cleaned the decks of every worthwhile prize.

Poultry exhibits at the PNE this year have been cancelled owing to the prevalent Newcastle disease, again raising the mortality rate among poultry flocks in the Fraser Valley. Exhibits will be judged in their home pens by a travelling group of judges. Points and rules governing same will be as if actual entries at the Exhibition. "This is where we can really show the folks there is such a place as Gibsons," said enthusiastic Mr Smith. "We took the two prizes last year from among the finest exhibits in the country."

Drage to Attend Vets' Convention

GAMBIER ISLAND. — Captain Francis Drage, J.P., will attend the national convention of the Army, Navy and Airforce Veterans in Canada, to be held in Winnipeg during the first week in September.

He will act as president of the local unit also an executive member of the B.C. command. He is attending, it is believed, at the request of the Dominion president and is earmarked to participate in social service committees.

A strong speaker on the vexatious Imperial veterans question, Drage is also regarded as an authority on social service. Government officials for these services are expected to be on hand for the convention which gives the clue to Drage's going.

He will fly to the convention in order to allow his return for other pressing engagements.

Vic Metcalf Is Rawleigh's Man

GIBSONS—Vic Metcalf, onetime newspaper promoter and booster of Gibsons has accepted a position with the well known Rawleigh Products as salesman.

Mr. Metcalf has lived at Gower Point for 10 years and is quite sure his new venture will fill a much felt want in the lives of cooks on the peninsula.

His will be the well known door to door service.

Barbaree Lodge

WILSON CREEK—Recent guests at High Barbaree Lodge included Miss Evelyn MacIver, Miss Jean Buchanan and Miss Belle Ricker, from Edmonton, Mr. and Mrs. A. Cavers from Vancouver.

Reverend and Mrs. Morrison have returned to Kamloops following a month-long stay at the popular lodge.

"Glendalough"

SECHLT.—The following guests are holidaying at "Glendalough" in sunny Sechart.

Mrs. J. Wallace and David, Mary Paradis of Edmonton, Miss Vera Hopkins, Miss Neil Falconer, Miss Peggy Harvey, Mr. and Mrs. Will Alexander, Miss Jean Affleck, Mrs. S. Hendry, Miss Margaret Hendry, Miss Kay Huddleston and Miss Mary Lloyd of Victoria.

prime mover and long time fighter for this service.

"These are better chickens," he said on the tour, "than those produced at UBC this year." He forecast stiff judging among the local entries at least, owing to closeness of the high quality entrants.

All birds will be shown at the Farmers' Institute Fall Fair to be held Aug 18 and 19 in Gibsons. It was at this fair last year the four-year-old club under tutorship of Ed Smith and presidency of Don Trethaway, cleaned the decks of every worthwhile prize.

Poultry exhibits at the PNE this year have been cancelled owing to the prevalent Newcastle disease, again raising the mortality rate among poultry flocks in the Fraser Valley.

Exhibits will be judged in their home pens by a travelling group of judges. Points and rules governing same will be as if actual entries at the Exhibition. "This is where we can really show the folks there is such a place as Gibsons," said enthusiastic Mr Smith. "We took the two prizes last year from among the finest exhibits in the country."

Four members of the Sunshine Poultry Club will enter the judging contests at the Exhibition this year, competing for the Pym Trophy and Toronto eliminations.

A special trip will be made to look over the prize winning flocks by Assistant District Agriculturist, D. M. Hamilton, according to a letter received.

With 15 members, each having 25 chickens, the poultry club has already shown signs of becoming big business among the younger element. Chickens, following the judging, can and do demand higher prices than normal. There is a breeding value tacked onto the ordinary cost when a sale of these winners is made.

Formed four years ago, Ed Smith took over the reins with only six members. "It is gradually growing," he said. "And each one of the children has the backing of enthusiastic parents."

Two breeds, Leghorns and Rhode Island Reds are carried by the club which is led by the two officers already named and the following: Beverley Allan, vice president; Ruth Brumbaugh, secretary, and Lila Farnham, handling publicity.

Timber Show For Sechart Families

SECHLT.—An interesting and educational show will be presented by courtesy of the B.C. Loggers' Association, in Legion Hall, August 23 at 8:15 p.m.

With two main features costing more than \$25,000 each to produce, "Falling Timber" and "Yarding Logs," the show which includes cartoons for the younger set, will be one of the best entertainments of this nature ever put on.

"It will," said Andrew Jackson announcing the event, "be a real opportunity for wives and mothers to see what actually happens in the woods."

The film will show the life and loves of a tree from the moment the seed falls to the ground until it becomes mature and then part of your household furniture.

This, it is urged, is a whole family show. There will be entertainment for all tastes.

B.C. VICTORIA PROVINCIAL LIBRARY

DAVIS BAY

By Robbie

THOSE of you who knew Mr. and Mrs. F. Louma, who resided up the hill, overlooking the church and bay, and where now stands the residence of Mrs. Lobb, will be sorry to learn that Frank passed away at the hospital in Vancouver last week. Prior to his departure from Davis Bay, Frank logged quite a piece of the land adjacent to his home. His wife Minnie resides at Gibsons, B.C.

St. John's Church at Wilsons Creek is without the services of its regular pastor, Mr. William Elliott, who has for some considerable time been suffering a leg ailment, and has been advised to report to the military hospital at Vancouver. Bill is such a popular sort of guy that it would be foolish of me to pass up the opportunity to wish him, on behalf of all the folks round here, a very speedy recovery and safe return to pastoral duties at both Wilson Creek and Sechelt. Ily ought to be just about straight.

By this time the Whipple family ought to be just about straightened out in their new home up at Narrows Arm. They have rented their place up the Wilson Creek road to Mr. Harry Baker and family of Vancouver. Mr. Baker is working up at the Osborne camp, and is glad of the chance to have his family that much nearer. The Whipples have purchased a house at Porpoise Bay and are having it towed up to Narrows Arm. Well good luck, and welcome to both.

It is better to be safe than sorry, so goes the old adage, and it is with that in mind I appeal to you to join the Community Centre. We need the combined efforts of the whole, rather than "most" of the residents, in this area, to get where we wish to go. There is no end to the good we can do. We have an ambitious program ahead, especially where the children are concerned, so join at once, get on the band wagon, and you'll never regret it.

I AM SORRY to report one of our stalwarts, Bert Wright, has had to go to Shaughnessy Hospital, and right at the time when we need all the help we can get in order to make the Wilson Creek community efforts a complete success.

At our bi-monthly whist drive on Friday last, a discussion took place as to the advisability of holding a beach party this Friday, or the usual whist. A vote was taken, and the latter was decided upon. However there may be a change in plans, and you are asked to keep your eyes peeled for further announcements, as we may attend to the wants of both.

I am happy to announce one of our newest residents won the first prize in the ladies' battle for honors. Mrs. H. Macleod, while Mr. Teddy Cole took the corresponding prize in the men's section. Tommy Mutter and Mrs. J. Macleod with the lowest card, received the consolation gifts. Mrs. Hudson with her son and daughter are spending a few weeks at the Reid residence as was Mr. H.

One for the books. Who was the lady seen buying up so many groceries at the Trading Post, in order to stop these horrible people from hoarding?

I don't know, nor have I any way of finding out, how many countries this paper finds its way to. But I am assured that England, Australia, and the U.S. are among the many. It would be very interesting to know exactly or thereabouts, which countries have that distinction, so I would be very pleased to pass the information on to our readers, if you would be kind enough to let me know what you know, then we'll all know.

Mrs. F. Blower has taken another trip to the city. I think there is some kind of a birthday celebration in the offing, so many of 'em. Mr. and Mrs. Jack Baird and their two sons, Tommy and Bruce, are staying at the Lucken residence for a week or so, then they will return to the city to prepare for a motor trip, which will take them to some of the high spots south of the border, accompanying them (Continued on Page 3)

EDITORIALS

These Are Our Opinions

MONDAY, AUGUST FOURTEENTH, NINETEEN FIFTY

The Gauntlet is Down

PROBABLY the greatest challenge to ever face the combined Boards of Trade on the Sechelt Peninsula is here.

People can now truly see the strength, sagacity and foresight of the boards. All three have been tooting horns for some time. All three have been publicly lauded for the work they have done. We would point out that what has gone before is merely the chaff of achievement. Only the husks of challenge.

In this car ferry proposition, nibbled at by two reputable groups — the Gibson Brothers and the other, an unnamed group of business men, some of whom are known to this paper, and are reputable citizens quite capable of operating this type of transport — lies the challenge that really shows the leaders' calibre.

1. Let the Boards of Trade, for once in their lives, cooperate and unite for this one great cause.
2. Let us not hear quibbling about which community will gain the most.
3. Let us see that in the united front there is a real willingness to work without fear or favor, or worry about who or what gets the glory or the blame.
4. Bring in Mr. MacIntyre. Interview Mr. E. C. Carson. Talk to the Gibson Brothers. Hold converse with this new unit. Sift and dissect the results. Then act.
5. There seems little doubt but what the Public Utilities Commission will be amenable to any worthwhile idea that can assure it of success.

6. Make every effort, and unitedly it can be a considerable effort, to having the government view with lenience and intelligence this ferry adrenalin which can make and mould the very future, the very economy of our lives.

This is not something which can be put off as "just newspaper talk". This paper has worked on the ferry story ever since Mr. MacIntyre revealed that something was afoot when last he visited with us.

It is now out in the open. Neither this paper or the Boards of Trade have any axes to grind. They can all work in unison in solving this problem.

The Coast News is more than willing to do its part in this. We suggest the Boards get together immediately. The first moves are up to Royal Murdock, Ken Whitaker and Robert Telford. Now is the time to throw all other considerations aside. Now is the time to go forward together in building a greater Peninsula, a more prosperous place in which to live.

Let us not fail posterity. We, today, are the future tomorrows. Only by our combined effort now can we live in the time to come, without remorse for having let the chance slip by.

It is up to the Boards of Trade to lead the way.

We are looking to them for action.

This 'n That

By E. NESTMAN

CONGRATULATIONS to Mr. and Mrs. Claye Chamberlin, on wining the Kinsmen's Draw, for this month. It couldn't have happened to nicer people, almost gave Claye another heart attack though.

Mr. and Mrs. Harry Chaster and Grandma Chaster away back east for a wonderful holiday, they will leave Grandma at Winnipeg, and will visit points as far as Hamilton. Ross Gibson is visiting for a few days.

Mrs. D. Dean holidaying at Granthams Guest house. Mrs. Dean is one of our regular summer visitors of long standing.

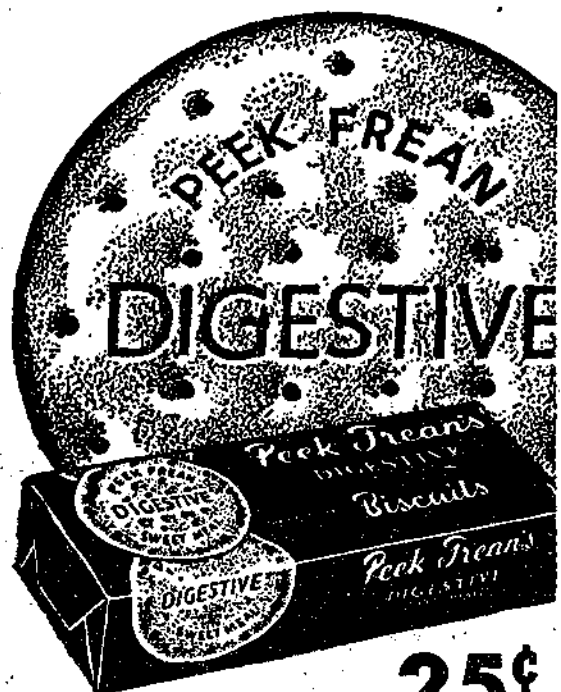

Bud Fisher home for a few days, Tommy Davies noticed around also, sorry I made a mistake last week, it is Bob Emerson who came home, Walt not around yet. Mrs. James Norris has sold her home, and expects to leave around the 19th of the month. Certainly sorry to see them leave.

A policeman's life is sure a merry one, the other night our

local gendarme was called out of bed to break up a beach party. When he arrived he found a perfectly legitimate little beach party around 10:30 p.m., two mothers with their offsprings, and a few of the neighbors' children, having a singsong and a dip in the sea. Sure they were making a noise, after all what's a beach for and in the summer holidays. Oh well 'twas ever thus. Then he gets a hurry up call again at night to one of our camps in the neighborhood, to stop boys from throwing stones at the camp members.

Ruth Norris is home for the wee-end.

A benefit concert will be staged by the boys of the YMCA camp at Elphinstone Camp in aid of the local VON, entitled "Elphinstone Review", Wednesday at 8:15 p.m. A collection will be taken, and profits of a refreshment stand will all go to the VON. Try to be there and support this very worthy affair,

and if only in appreciation of the camp's efforts, which we think is a very fine gesture. Transportation is being arranged, contact Mr. F. Bushfield, or Mr. T. Humphries for information re this project.

Roy Gray home for a week's vacation.

Don't forget the fair Aug 18th and 19th, with a dance on Saturday night to wind things up. Kinsmen will be there with entertainment, refreshments will be served, and our own Batt MacIntyre will open the fair 8 p.m. Aug 18. Turn out and support this very fine effort of the Farmers' Institute.

It is hoped the VON will be able to announce soon plans for a Fashion Show to be held in Gibsons approximately last week in September, watch for the date, and further particulars. This worthy cause should be given support by all local groups in the area, there is over \$500 to

Coffee Harmless To Most Drinkers

IS COFFEE a beneficial stimulant or an enemy of sleep and health? Medical opinion differs as to whether or not coffee keeps you awake, stimulates your circulation and appetite and aids your digestion. A roundup of the evidence pro and con, reveals that while coffee affects individuals differently, "it seems harmless" to 97 per cent of those who drink it. Three per cent are troubled by it, but about the same proportion of humanity is allergic to milk, eggs and certain fruits.

Caffeine content varies in different lots of coffee by as much as 250 per cent, but the average cup has the equivalent of two plentiful pinches of salt. On the basis of 90 milligrams of caffeine in a cup of coffee, a cup of tea has 67 milligrams, a bar of sweet chocolate 78, and a small bottle of a cola drink 54. The drug is a stimulant to the heart, brain and urinary tract. Administered as a heart stimulant, the normal dose of caffeine would be as much as is contained in three cups of coffee. A hundred cups, if you could drink them one after another, would give you a fatal dose of caffeine. There is no record of a caffeine fatality, the report observes.

AUTO ACCESSORIES AND OUTDOOR NEEDS

Summer driving and country roads are hard on cars, but experts service, backed by expert equipment can save you dollars and add years to your automobile. Wherever you see the name Standard Stations, anywhere on the Sechelt Peninsula, you may drive in with surety and faith that your car will receive the treatment it deserves. When our experts check or repair an automobile there is the very minimum of guess work; the very minimum of chance.

Scientific repair parts have been produced by precision machinists. You should hardly expect to have them installed by amateurs. It takes a man with "car savvy" to instal the repairs in such a way that your car will be as good as new.

STANDARD STATIONS number 1, 2 or 3 are spread from Sechelt to Gibsons. They stand ready to do the slightest service with a smile and knowledge.

When you have an overhaul done by any of the Standard Stations it's not just a half-way job, but a complete reconditioning of your car engine. All the mechanisms will be dismantled, cleaned, adjusted and carefully reconstructed with new parts where necessary.

GENERAL DOUGLAS MacARTHUR (right), commander of the armed forces acting in behalf of the United Nations to restore the peace in Korea, shakes hands with the Chief of Staff of the United States Army, General J. Lawton Collins, after receiving the blue-and-white UN flag (centre) which once flew over the headquarters of the UN Mediator in Palestine. The flag was sent to General MacArthur by UN Secretary-General Trygve Lie, who expressed hope that it would fly until peace is restored in Korea. General Lawton Collins brought it to Tokyo.

Kids and Cats Get Show Break

GIBSONS.—Eight classes have been arranged for the Junior Show of the Pacific National Exhibition, which is the mecca for the youngsters and their pets.

There are prizes for any variety of cat owned by a boy or girl under 12, from 12 to 14 and from 14 to 18; best conditioned cat in each of these groups, the cat with the longest tail and the one with the shortest tail. Then there's an award for the best dressed cat, dress meaning ribbons, suitable blankets and container. A highlight will undoubtedly be the class for the best kitten under five months.

Judging the Junior show will be Mrs. J. E. Morison, honorary superintendent; Mrs. Grace Smith, Mrs. George Stevens, Mrs. G. O. Alsen and David Ricardo.

MORE ABOUT ... Davis Bay

Continued from Editorial Page will be Mrs. H. Roberts, Ivy's mom.

Once again let me remind you of the opportunity, to register as a member of the newly formed theatre group, which is being started by Mrs. C. G. Critchell of Davies Bay. Those of you who are interested may contact the lady herself, or if you wish, leave your name in the "R" section of the mail box in the store.

And now for one of those funny little episodes, which does happen once in a while. Pete Duncanson, who is staying at the Saunderson residence at Selma Park, was fishing off the wharf at Davies Bay, and Teddy Cole, got into an interesting conversation, which dealt mainly about

work, and all that it entails. Where do you toil asked friend Pete? Oh I've worked for the DVA for years and years replied friend Cole. Then you must be acquainted with a Mr Cole, said our two war veterans, staring at Ted as if it just didn't matter much. I am the Cole Gent you refer to countered my neighbor. Well so help me bob, said Pete, when was the last time I saw you member. Yes was the reply, at Cambri, when you ordered four Germans to pack me out on a ground sheet, that was October 13, 1917. Well it's a small world after all. RSM Duncanson was in charge of the barracks at Little Mountain for quite a spell during the last war.

Sechelt Girl Guide Events

SECHELT.—Wednesday will be the day when local Guides will join with Vancouver units in a camping week at Guide Camp, Wilson Creek.

Miss Kay Boulton, captain of the West Point Gray group will be in charge of the camp. August 20 will be visitor's day.

Captain E. G. Derby has issued a general invitation to mothers to join her on the 2:45 p.m. bus from Sechelt that day and she will guide them through the camp and show them all the finer points learned by the girls

at camp which are so often missed at home.

August 22 has been set as the date for the 2nd Sechelt Guide company to hold a picnic at Girl Guide Camp. Campers will leave on that day from Sechelt on the 2:45 bus and return from Wilson Creek on the 10 p.m.

Girls are asked to bring their supper on this jaunt, also, if weather provides, a bathing suit. Shorts should be worn if the elements are suitable.

It is the hope of Mrs. Derby that many second class Guides are at hand by opening date. If any girl has lost any of the papers dealing with the health chart that was to be kept during the holidays, duplicate papers may be had from Mrs. Derby.

A FARM IMPROVEMENT LOAN FOR THE KITCHEN STOVE?

THER'S MORE to Farm Improvement loans than tractors or combines, points out Tom Larson, manager of the Bank of Montreal at Gibsons. They're designed to help the farmer—and his wife—make the best out of their home as well as their land. For you can get a Farm Improvement Loan to cover the installation of water and electric systems, to improve your plumbing and put in stoves, washing machines and heating or lighting appliances.

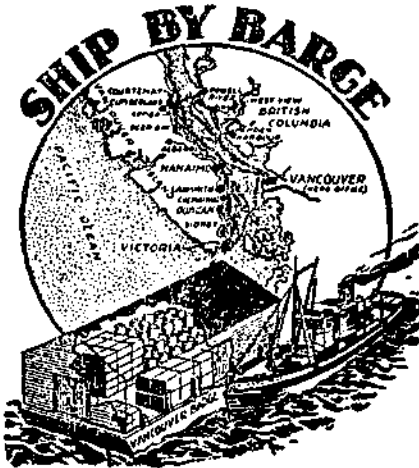

Even the building of tourist cabins and summer cottages, which provide a farm family with valuable extra revenue during the vacation season, may be financed through an FIL.

If you feel that a low-cost Farm Improvement Loan would benefit your farm, or better your living conditions, make a point of calling on Mr. Larson next time you're in town. Talk over your plans with him, in confidence, so that you can work out together how the B of M can best help you with financing your farm improvement. advt.

SOME OF the big ones have been hanging around here lately. "Fish Hooks" caught a nice 37-pounder while one of the local fishermen caught one that weighed close to 50 pounds but had shrunk to around 30 the following day when he got it close to a scale.

Several of the local men have highed themselves to Blackfish Sound in chase of the Cohoe which are plentiful up that way.

DOG ODDITIES

By Harry Miller, Director, GAINES DOG RESEARCH CENTER

ANCIENT EGYPTIANS SO WORSHIPPED THE DOG THAT WHEN A PET DIED IT WAS CUSTOMARY FOR THE ENTIRE FAMILY TO GO INTO MOURNING

ADONIS, AN ENGLISH SETTER, WAS THE FIRST DOG AUTHENTICALLY REGISTERED IN THE U.S.

IN AN AVERAGE YEAR 80,000 PERSONS EXHIBIT THEIR ANIMALS IN AMERICAN DOG SHOWS

© 1949, Gaines Dog Research Center, N. Y. C.

Among them were, Marie and Gordie Roy on the M.V. "Troylen."

The gillnetters have also returned following a month at Smith's Inlet. One of the first to arrive was Sonny MacKay who was in a hurry to see his brand new daughter, Katherine Jean, who was born following her dad's leaving.

We met another young baby today, Nora Rosalie, two weeks old daughter of Mr. and Mrs. Ken Williamson.

Mr. and Mrs. Harvey Leith have just returned after a short holiday in Vancouver. Sunday, Mr. and Mrs. Charles Jones returned to Vancouver after spending a few days as the guests of Mr. and Mrs. R. D. Murdock.

Just in case anyone is interested. We finally made it to Sakinaw Lake which is one of the loveliest spots on the peninsula.

SECHLT WEST

By MARGARET ALLAN

MR. AND Mrs. Hutchins were up recently at their cottage on the Mason Road. Got a nice surprise. Their nephew had been up the previous week and made them a nice walk at the back of their house, also a platform for sunbathing. He ran out of lumber, otherwise he might have kept going. Jack of the Empire games was running at the Varsity Stadium last Saturday, have not heard yet how he made out.

Sorry to learn that Mrs. Lomas is in hospital under observation. I hope it is nothing serious.

We thought seven of a family was a high quota these days,

like the Woods and the Taylors, but I hear the Whites at the Creek have eleven.

Jack Wood has a bad foot.

I hear that Mr. and Mrs. Henton are going out to the Cleggs place to look after it.

I hope that Gunner Hansen makes good fishing. Phoebe was telling me he is up at Namu waiting to go out.

Met Mrs. Wilson; she is up at her summer place. They sure have made a nice job of it. I have a notion it will be a permanent home.

Mrs. Nelson that used to live here, now at Porpoise Bay, had ten, that is something we will have to look into one of these days.

I hear there is more property sold down at the Creek over the bridge, summer cottages going up.

It was a bear on the trail all right, so no more blackberry picking. We had found such a good place. Some of the kids around saw him, and not a bit scared either.

Decay in teeth is, in part at least, caused by clinging particles of food which need frequent brushing away. The toothbrush should be moved up and down, not only across the tooth, and inside surfaces should not be forgotten. Cleaning should be done as soon after eating as possible.

Bet You Don't Know This About Advertising

Quiz No. 8

How much does it cost to advertise a loaf of bread?

Are they spending 2¢? 3¢? 5¢? Or more?

Answer: It costs less than the wrapper to advertise the big-name brands of bread.

That's only half the story. Advertising lowers your cost two ways:

Cuts the selling costs. And by helping make mass production possible, lowers the production costs, too.

So advertising saves you many times the cost of that wrapper.

HELP YOURSELF TO PROFITS WITH A ONE MAN Pioneer Power Chain Saw

Weights only 28 lbs.

Supplied with Bar and Chain 14" 18" 24" 30"

When the going gets tough and you want to cut timber clean and fast... the PIONEER with the "Multiport" Engine is your answer. cations in 23 languages in 53
countries were used in the
world-wide advertising cam-
paign for the 1950 Canadian In-
ternational Trade Fair in Toron-
to.The Turtle
Comes HomeSECHELT. — Ethel Driver of 10
years ago, a school teacher in
this community, bought a small
turtle to be used in class as an
example for nature study.Miss Driver arrived at class
with its expectant children and
informed them the turtle had
escaped. Instead of two turtles
they had looked forward to, there
was only one left.Last week, the escaped turtle
returned to Jack Mayne's garden
from where it had originally
escaped a decade ago. "It was
the same turtle," said Mrs.
Mayne, "we had the original
marked for identification."It was a glad day in the hearts
of the Glendalough people.
Everyone was glad the little ani-
mal was safe and had lived
through the bad winters. Bigger
and stronger, the turtle stalked
across the lawn and headed to
where the boys were playing.
That was a sad error.The little turtle was killed by
some thoughtless youth "having
fun."

SUMMER FOODS

Milk, fruit, vegetables, cereals
and meat are needed by the body
daily, winter and summer. In
summer, foods should be served
more often cold than hot—in the
form of cold beverages, crisp sal-
ads, raw fruits and cold cuts of
meat. Seasonal foods offer an op-
portunity to prepare specially
attractive, nutritious meals.Selma Park

Ever Ask Yourself . . .

WHAT IS A BARGAIN?

Printed Letterheads
Printed Envelopes

A bargain is not usually found under any kind of pressure or impulse buying. And a bargain is not always what it seems. In printing, for instance, even though you might shave prices five or ten percent by shopping all over the city, you might find that your economy was a bit costly.

Your newspaper is a service to your community. To perform that function properly, it must be a profitable enterprise. To be profitable, it needs wholehearted co-operation of every buyer of advertising AND PRINTING in the area it serves.

Our commercial printing department gives good service at fair prices. It is an important part of our newspaper business. The more business we can do with you, the better our newspaper can serve you.

Why not give us an opportunity to do your next printing?

ROBERTS CREEK

By M. M.

ON AUGUST 2nd the VON held their garden party at the home of Mrs Clark. There was a large crowd of residents and guests, and the financial results were very satisfactory. Tea was served under the trees, with Mesdames Cooper, Wallis and Shaw acting as serviteurs.

Visitors to the Creek include Mrs J. McIntyre to Greenacres. Mr. Oakley's son and daughter-in-law, Mrs Rose Bernard's sister from Salmon Arm, and Mrs J. Watson's daughter.

Old timers back again include W. Merrick with his daughter and grandchild; Mr and Mrs Colin McLean.

Congratulations to Mr and Mrs R. Cox on the birth of a son.

A serious drowning accident was averted last week through training in first aid and artificial respiration while in the RCAF. Young Wilson Anderson, son of Mr and Mrs Alec Anderson, got into difficulties in the sea in front of his home. Wilson, unable to swim, was playing in the water with an inflated inner tube and floated out of his depth. When he went to get off his float he sank, and it was only after repeated dives by his father that he was finally brought to the surface. Alec carried out artificial respiration until the arrival of Dr Inglis. Wilson is now recovered but it is doubtful if the parents will feel fully recovered until Wilson learns to swim.

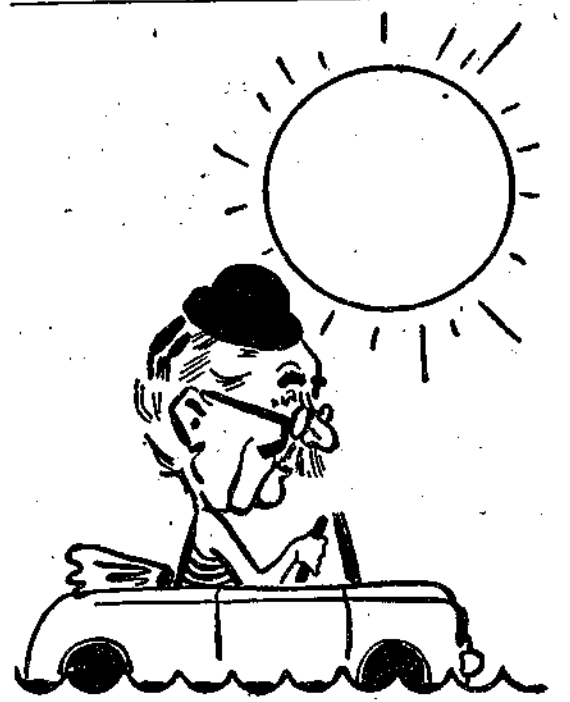

Don't forget the Hard Times Dance August 19 at the Community Hall.

BETTER CAR CARE STARTS HERE

the end of the wharf these days, but where oh where are the salmon? This was supposed to be a cycle year or are we being ignored?

Talking about the wharf, we might add that this handsome structure is about completed. Light standards are up and awaiting the lights. Come and stroll on our boardwalk in the evenings, and watch the Band of Hope jiggling for cod or what have you from the end of the wharf. There has been a suggestion that the opening of the wharf should be celebrated with an open air dance thereon. As the end of the pier has been considerably enlarged there will be no danger of anyone dancing off the end in their enthusiasm. Let us hope some of the local organizations adopt this idea. It seems to be rather a good one.

RECENTLY we mentioned the Sunday school which is being held every week on the beach at Mrs G. Gordon's home. This week we bring to the public notice another venture on the part of Mrs Gordon. The Hi-10 Club for boys and girls, which will be held in the old Co-op store by the wharf on the first two Mondays in August, after that the meetings will be held on Wednesdays.

Mrs J. Dickenson and children, her mother Mrs A. M. Grant and niece Norine Cross who have been staying at Mr R. Reeves' cottage for the last month, have left Roberts Creek for their home in Vancouver.

Miss Joan Beckham and Mr Gordon Crockett of Powell River were recent guests of Mr and Mrs G. Reeves.

Visitors at Greenacres were Misses Marion Dryden, Jessie Wilson and John H. Young of Vancouver.

Mr and Mrs C. Mclean of Beach Avenue who left the Creek to take up residence in West Vancouver, are back in Roberts Creek again. Just another family who found city life hard to take.

A little excitement was caused down by the wharf when the scow loaded with planking, filled with water and sank. The lumber was salvaged, fortunately, and the scow towed away.

Another interesting event was the visit of the handsome Diesel cruiser "Invader" of Vancouver.

GAMBIER HARBOUR

By Glenwood

MR. AND Mrs. George E. Thrift have left us to return home again. Mrs. Scott, has taken their place for a time.

Jack Adkins arrived home safe and sound as did Mr. and Mrs. F. W. Alexander. Mr. and Mrs. Ren are visiting Mr. and Mrs. Alexander. Mr. Alexander and Mrs. Ren are brother and sister.

Mrs. Boyd, who had operated a store at Sechelt last year is back at New Brighton again. She tells me her husband will be home from the sea in a few days.

As this is the time of year that it is, that's Irish enough, I am going to get a recipe for chutney so you can all eat the grand kind my good wife makes. It is supposed to be one of the finest recipes in the world. It sure tastes as if that is not an exaggeration.

Residents and visitors alike were on hand to admire the boat, unfortunately there was no place for them to tie up for the night and they had to leave again. Where is that small boat harbor we have been promised?

Mr and Mrs C. J. Hobson and their two children Heather and Dickie, are staying at Mr. R. Reeves' cottage for two weeks.

leaders of the younger fry. She, it is, who can practically demonstrate a lot of the theory. She handles teaching like a veteran, albeit she is still a learner and under supervision of both Mrs Forst and Miss Sanderson.

The setting is ideal for taking children "away from themselves". They live, sleep and learn in the shaded glades which abound at Wonderland. When the weather is unsuitable for play outside there is a large sitting room-playroom complete with bright colored window shades, gramophones and piano. Children can relax and learn at Wonderland. There is a free camaraderie which makes of the many girls one big family aiming at the same target — good fellowship and citizenship.

With 27 acres of woodland, Wonderland has its own electric system, telephone and a complete water system. The pure mountain water is pumped from a lazy creek by means of electrical pump. While the boiling of it and the making of some of the most tempting "eatables" is under the capable direction of "Angel". She, it is who sees that good and ample supplies of the necessities are always at hand. 'Taps' is played at even when the children go to bed. They have their own flag which is raised in the morning. Undenominational church services are read on Sundays.

All night trips are also part of the curriculum. These are under control of Miss Sanderson and entail hiking and camping in previously prepared camps. The girls are given a chance to identify many of the noises which are peculiar to the woods. In a very short time they can tell the difference between the call of a hunting owl and the frightened

**Invitation To
Flowered Beauty**

By M. MACINTYRE

WE SPENT an hour yesterday at the invitation of Mr. A. R. Reeves looking at his breathtaking display of begonias, which are now at the height of their beauty.

The large greenhouse is a blaze of color, and we came away dazzled; also uplifted, and confident that the world after all is still wonderful, thanks to gardeners.

Mr. Reeves wants to share this beautiful sight with you, and has asked us to make public his invitation to all who may be interested, to visit his home. We think it is one of the most beautiful on the peninsula.

At any time, either Mr. Reeves or his housekeeper, Mrs. Warlow, will be glad to show you the greenhouse and the garden. No one should miss this generous offer.

If you don't know where the place is, ask in the village; it is near the second bridge out from Roberts Creek centre, on the north side of the road.

Mr. Reeves has lived here for over thirty years and has quite a reputation as a gardener and horticulturist, with cups and medals to boot. His experience before leaving Southampton, England, included supervision of the gardens and greenhouses of some of the famous estates in the Old Country. Roberts Creek can be justly proud of this accomplished citizen and his hospitable home.

Do come and see those begonias.

Post-war expansion of Bowater's, Corner Brook newsprint mill, has helped to boost the tenth province's pulp and paper industry into the lead in export and product value. Fish, which held top spot for years, is now in second place, with mining third.

scream of the captured squirrel. There are two dormitories in the camp and a play pen area for the younger set.

Information of prices and facilities and curriculum can be obtained by means of a colored folder sent on request by Mrs Carola Forst, Wonderland Camp, Wilson Creek, B.C.

**Aug. 19 To Be
Pender's Day**

PENDER HARBOUR—Plans are finally shaping up for the bumper all-day regatta slated for August 19.

According to committee chairman Lloyd Davis, this is going to be the one to end all regattas.

Professional and high grade amateurs will be on hand from the city to demonstrate and compete against each other in the swimming events. High diving and every type of nautical sport will also be on the programme. There will be boat events of every conceivable kind and it is all due to end with the bumper dance at Madeira Park Community Hall, Saturday night.

It was in this hall where one of the best dances in the history of the peninsula was held recently. It is believed this one will outdo even that memorable event in hilarity and fun for all.

**Application For
Increase in Bus Fares**

The travelling public is advised that the undersigned has applied for an increase in return trip bus fares EFFECTIVE SEPTEMBER 1, 1950. Tickets will be 180% of one way fare which is the usual return fare of all motor, rail and water transportation companies. This increase is made necessary due to increasing costs of operation. Copies of the new tariff are posted for inspection at all bus depots and information is available from bus drivers. This increase does not affect the fare for one way trips.

SECHLT MOTOR TRANSPORT LTD.

SUBJECT TO THE CONSENT OF THE PUBLIC UTILITIES COMMISSION.

Any objection may be filed with the Superintendent of Motor Carriers, Public Utilities Commission, Vancouver, B.C. up to and including August 21st.

INCREASE IN TAXI FARES

As previously advertised the undersigned have applied to increase taxi fares from 15c per travelled mile to 20c per travelled mile EFFECTIVE SEPTEMBER 1, 1950. Copies of proposed tariff are posted for inspection at offices of the undersigned. This increase is made necessary due to greatly increased operating costs which have been mounting steadily over the past five year period.
