**BETWEEN YOU 'N ME...**

by  
**BILL SUTHERLAND**  
Editor, The Coast News

MICKY McArthur, the man who has returned to us after a spell in Shaughnessy Military Hospital following treatment for third degree burns, was telling me about the fine treatment he had there. It seems they cannot do enough for patients in that institution. Three month's treatment, three operations and everything that goes with hospitals cost him in the neighborhood of \$35.

We got into conversation with Rollie Summerfield the other day, he is owner-manager of Summerfield Oil in Vancouver and a very splendid fellow to boot. It seems Rollie's dad, J. Summerfield, built himself a six-room house on Upper Keith Road, North Vancouver, and is now beginning to wonder if that was the best move.

The house cost a lot of money, it's complete in every detail with double plumbing, plate glass windows, copper tubing throughout and all the essentials, but it is still standing in a district that pays on the average of \$110 per year in taxes.

Mr. and Mrs. Summerfield, Sr., live there alone. They actually use less water than their neighbor — the neighbor has several children. The Summerfield wear and tear on the sewer system must be less. He probably looks less at the splendid view over Memorial Park than his neighbors, and on top of that, he has done a local blacktopping job to his own short driveway that benefits the city.

So, in splendid appreciation for him improving the place and definitely improving and increasing land values in the area — a direct benefit to the city in that they can sell their own at a higher price — North Vancouver hoists his taxes to \$550 per year. That's right: \$550 per every 365 days.

This is not Shaughnessy we are discussing, nor is it Beverly Hills. City council in North Vancouver just decided to punish a

# Roberts Creek School To Be First Contract

## Amalgamation Worry Championed By Winch

GIBSONS—Herewith is a letter from Harold E. Winch, CCF, MLA sent to the department of Municipal Affairs following an editorial re the amalgamation of two district lots and Gibsons Village, which recently appeared in the Coast News.

Dear Mr MacDonald:  
It is apparent from a communication which I have received that there is a very unsatisfactory situation in the Gibsons area. For a considerable period of time, residents outside of the official Gibsons area have been endeavoring to obtain amalgamation. This endeavor has gone on for several years. I am informed that it is the opinion of many residents that this amalgamation is being held up because of the attitude of your department.

I have the facts to show that many requirements have been demanded from your department and that everyone has been met with the exception of a most recent demand that a census be taken of the district. I can prove that every requirement ordered by Mr Bracewell, deputy minister, has been complied with.

In view of the fact that the endeavor for amalgamation is still being stalemated, I should appreciate knowing from you what is still holding up the amalgamation from your department's point of view.

I hope that this entire question can be amicably settled without it having to be raised in the Legislature next session.

An early reply would be appreciated.

Harold E. Winch.

## Local Club has Successful Year

GIBSONS—A many-point list of successful endeavors was outlined by Reg Godfrey as he made his report as past president to the local Kinsmen Club.

1. Resuscitation boards were installed throughout the peninsula. "We should be very proud of this effort," he said.
2. Shellout during last Halloween was a "big success. The kids are already looking forward to this year's."
3. May Day parade and float was a winner. "We should have it every year," he suggested.
4. The musical program. "This should be repeated next year but for a longer period."
5. Acquiring a new public address system with the aid of Joe Schutz.
6. Monthly raffle. "We always make a little every month."
7. Polio drive. "This raised quite a large sum of money which will certainly come in useful in fighting that dread disease."
8. Successful ladies' nights.
9. Fall fair. "This was an improvement from last year. Next year we will have to make it bigger than ever."
10. The playground has been started. "This will probably be our main program for some time to come."
11. Halfmoon Bay dance. "We made nearly \$40 from this. That is a major contribution to our funds."
12. "The TB committee headed by Sam Nutter, will have to be a big drive. This is for a great cause and has always been well patronized by people of the peninsula."

Mr. Godfrey forecast a year of hard work ahead and urged members to "support the new president."

## Bushfield Idea May be All New

GIBSONS—Keith Bushfield, son of our own Rev. Bushfield, may, as the saying goes, have something there.

The ex-infantryman came into the Coast News office recently, complete with a model landing barge-truck-and pontoon bridge which can easily revolutionize warfare in the future.

The complete unit which, when acting as a landing barge, is driven with a 10 h.p. outboard motor can be built for approximately \$3,000. It can carry men or materials or it can be expendable and used as a conveyance for demolition equipment.

Popular Mechanics magazine will feature a story with pictures very soon, according to Mr. Bushfield junior.

"I got the idea for this when I was operating in Alaska during the last war," he said. "I have had two star generals and navy experts looking at it, and they claim it is sound. All I have to do now is to sell it to the proper

ROBERTS CREEK—This community's two room elementary school will be the first school to be built, according to word received from the School Board.

A notice to contractors calling for bids on the complete (all trades) contract has been published. Working plans are ready which means that work can start immediately following approval from the Department of Education.

Preliminary estimates place construction costs at approximately \$40,000.

Local contractors may bid, provided they can arrange for the 50 percent surety bond. Several have intimated they may join forces in order to handle contracts of smaller schools.

A ruling re school contracts has been received by the School Board following an attempt to have contracts split up in order to facilitate building.

By recent motion, the Board had approved clearing of Madeira Park site by day labor instead of bundling it in the main contract or awarding a contract for clearing and laying of tile drain amounting to \$400. Bulldozer costs would be roughly \$2,000 while \$200 would go to

A. E. Ritchey for supervisory duties.

The Board contended the day contract method would be better and more economical. The Department of Education ruled that this must not be done. Contracts will be let on a total price basis.

It is known objections to the first plan were received at Victoria, from outside the Board.

It had also been suggested that roads be built into the sites before building started. It was contended this would facilitate construction.

The Department's ruling would outlaw these ideas also.

Local sub trade contractors will have to make their contracts with the company awarded the overall contract. Name of the company awarded the work will be listed in the Coast News early in September.

## Hunter Takes Office As New Kin Chief

GIBSONS—George Hunter was installed president of Gibsons and District Kinsmen Club at the regular supper meeting, in Hunter's Guest House, Wednesday.

Mr Hunter, who follows Reg Godfrey, was presented with his new pin by Deputy Gordon Anderson, who, accompanied by members of North Vancouver and West Vancouver Clubs, installed a new list of club officers.

In his preamble to the presentation and installation, Mr Anderson spoke on the responsibilities of being president, and warned that "the job held much re-

sponsibility, and that success of the club depended, to a large extent, on the president."

He also outlined a recent trip he took to the national convention in Winnipeg, claiming it must be one of the most outstanding in all of Canada.

"One of the real values," he said, "lies in the solidifying influence created by seeing Canadians from all over Canada, working for one aim and that an unselfish one."

District Five, carried home four of the top five national cups awarded during the convention. He thanked the local club for their promise to take control of the Christmas Seal drive. "This is a worthy project," he said, "I am certainly glad to hear that the Kinsmen will handle it this year."

Installing officers included Staff Mosher, North Vancouver; Edward Johnson, Jim Connack, and Mr Anderson, West Vancouver; and Vancouver.

Kinsmen installed at the ceremonies were, Samuel Nutter, treasurer; George Hill, vice-president; Colin Wingrave, secretary; Laurie Speck and Joe Schutz, directors. Among guests was James 'Jimmy' Schutz.

## Mrs Atchison Postmistress

NEW BRIGHTON—The highway between here and Gambier Harbour has been recently completed in order to facilitate mail delivery from the island port. Williams Construction Company handled the contract.

Mail contract has been awarded Mrs. May Atchison, according to postal authorities.

This system has been devised, and the highway completed, owing to mail being delivered to Gambier Harbour only, following withdrawal of Union service.

## Teachers Appointed To School Board

GIBSONS — Following is the final list of teachers and their appointment as approved by the school board.

Gibsons High School: A. S. Truman, Alex D. Goostrey, Mrs. Cloe Irene Day; Sechelt High-Elementary School: Mrs. Beatrice Rankin, Mrs. Norman Myers, Thomas Purcell, Miss Elsie Turner, Mrs. Muriel Neilson, Miss Georgina Steele; Britain River Elementary: Melvin A. Carrico; Deserted Bay: Arno Ulmer; Egmont: Martin Bordsen; Gibsons Elementary: Dickson Falconer, Mrs. Eileen Kane. Mrs. Iris Smith. Mrs. Anette McKay, Miss Mary Donald, Mrs. Alice Newton, Mrs. Kathleen Henderson. Mrs. Juanita Yavonne Hlookoff; Half Moon Bay, Mrs. Lorill Hanney; Irvine's Landing: Mrs. Gladys MacMillen; Kleindale: Mrs. Constance Harper; Nelson Island: Mrs. J. Sherry; Port Mellon: Mrs. Grace Wiren; Silver Sands: Mrs. J. J. Shaw; and Vancouver Bay: J. J. Francis and Wellburn.

authorities in Washington."

Keith is a tile setter in public life but spends all his time developing the idea he now has in the model stage. At the moment he is busy trying to make the proper contacts in Washington, D.C., and then it may be a trip to demonstrate his revolutionary idea.

## Increased School List Creates New Emergency

GIBSONS—Passage of a half million dollar bill for construction of new schools is still not the solution to scholastic housing problems in this area.

School District 46 Board members were given a half expected shock when figures for enrolment in the High School were produced following first day at school.

There were 91 pupils who answered first roll call, thereby creating an immediate problem. Eighty is the maximum number of pupils who should be taught by the three teachers.

It will now become necessary to hire another teacher and to move an elementary class into the Sicotte property, recently bought by the School Board as an added property insurance for the coming high school.

It was thought, when the property was first bought, that eventually the high school would need it either for playground purposes or as a site for part of the building itself.

"It was hardly expected to utilize this soon," one board member said. "It was certainly lucky we had it. We would have been put to a greater expense hiring and equipping another building.

filled with grades eight and nine following the major increase which also forced hiring another teacher.

The boosted enlistment has raised number of teachers from five, as of last year, to six now.

Said one board member, recalling the fight over the school bylaw, "We certainly hope the people who were telling us about the lowering enrolments that were going to come, take a good look at the figures now."

## Drage Presents Gambier Gavel

GAMBIER HARBOUR—Francis Drage, J.P., and George Stiles, fourth vice-president and president of B.C. command, Army, Navy and Airforce Veterans in Canada, have left by air for a dominion convention in Winnipeg.

Captain Drage will present Dominion president A. J. Wickens, K.C., with a gavel mounted in silver and made from Gambier Island wood. The gavel is a gift from the Gambier Island unit of veterans, and will be presented complete with a royal purple velvet bag, "to make it easier for travelling."

## Sechelt School Has Room Lack

SECHELT — School board foresight paid off in this community following increased pupil enrolment on the first day of school.

The board had recently built an additional room in the basement of the present school "just in case." It must have been a clear crystal, that room is now

MR AND Mrs Clarence Sicotte away for two weeks' holiday. Jerry Betelet and Harold Klein staying at Mrs E. Nestman's, going to Gibsons High School.

Mrs Betty Keen and family have left the district, to Vancouver, and points up the Coast. Mr and Mrs J. Lowden receiving congratulations on the arrival of a grandson to daughter Phyllis, making them grandma and grandpa, mother, babe and father. Joe doing very well, over in Alberni.

Wally Calder also walking on air these days. Greta presented him with a son last Sunday morning, at home in the Headlands. All doing well at latest report.

MM, to Reporter "Allen", all is forgiven. PS, I was only "kiddin'", anyhow. Mrs Bailey, wife of our genial Howe Sound Trading clerk, is quite ill in Vancouver hospital, we trust she is on the mend by this time.

C. P. Smith, and the Mrs, away for a few days to the big city. Frank Bailey home over the week-end.

Mrs A. Gardner back in our midst for another little visit, until that very elusive home in Ocean Falls is available. Tells me she has had a wonderful time while there, for past month or so, and is anxious to get back. She is loud in her praises of this very fine little town. Down on the wharf last Friday night, meeting the ferry on its 7 p.m. run, there was a barge tied up with about 30 cars, ready for town, and about another 30 waiting to get on. A small sawmill standing waiting for barge, three buses, a few trucks, the inevitable taxis, a large contingent of dogs, several dozen small fry, numberless private cars, waiting for their owners, a couple of hundred people waiting to get on the ferry, a couple of hundred coming off, struggling through a freight shed piled high with freight, talk about organized confusion, it was it, on one grand scale. All we needed to complete the picture, was a car ferry pulling in.

The firemen's baseball team journeyed to Woodfibre in a boat that was sent down for them. They reported a wonderful day, came out on the short end of the baseball score, took part in some of the races there, capturing a few prizes. Anne Drummond, Norm McKay, a pair of winners, Babe Murray, another winner. They had a wonderful dinner served to them by the reception committee, and then were brought home by boat. These Company towns, certainly know how to put on a sports day.

Mrs George Williamson back to Prince Rupert, after a very fine holiday in Gibsons. News from the traveller Dick Hammond, from Texas to California, having himself quite a holiday.

Visiting Mrs J. Coleridge last week-end Kay Coleridge, Marge O'Reilly, Gigs Paille, and Mrs J. Buckholtz and daughter Winky.

Home for the long week-end Claire Veitch, all the new probationers who had just signed into St Paul's, were given the holiday, then back to work in real earnest, Claire says it's really going to be grand. and we wish her the very best.

Mr and Mrs Jimmy Drummond, now occupying the Leach home. Roy Evans former driver for Co-op has left to go to Vancouver, A Hague our jeweller, now the new driver.

Mrs M. Welsh and Pat to town Tuesday, showed me a badly damaged purse, that some sneak thief had got into the house at Gower, and taken tickets, and money from the purse. It was only discovered as she was dashing for the boat, no time to stop and do anything about it. Guess we'll have to take to locking our doors, something that we have been very loath to do, seems a shame to have to start suspecting people around us.

Mrs Al Hammond away to Seattle for a few days holiday. Away to town yesterday, got onto the bus at 5:15 p.m., we sat there while driver debated whether he could get all passengers in bus

# EDITORIALS

These Are Our Opinions

MONDAY, SEPTEMBER ELEVENTH, NINETEEN FIFTY

## Too Big for the Work

ELSEWHERE in this paper is a letter from Harold Winch, MLA to the Minister of Municipal Affairs, R. C. MacDonald, requesting an answer to the problem of amalgamating District Lots 685 and 686 with the Village of Gibsons.

We predict this will have an effect on the department, which can react favorably to the wishes of those people desirous of joining with the village.

Mr Winch was not idly threatening when he said he had proof that the department had been delaying the amalgamation. This paper was willing to give Mr Winch the proof if necessary. There were three other gentlemen in the area who had proof of the department's shilly shallying. These gentlemen, only one had ever voted CCF, were willing to hand Mr Winch the proof.

We would suggest this is a sad commentary on the state of the province when good, solid Liberals have to go to the other camp for help.

We would suggest Mr Winch was not entirely motivated by a thought of embarrassing the powers that be when he took up the cudgels for the two districts.

We believe he did this more or less as a favour to people who needed help and had come to him in their need.

We would suggest that local Liberals certainly missed the boat when they stood around and watched the capers of these small time dictators. That would have been a golden opportunity for the party stalwarts to have cried, 'stop.' They would have looked very good in doing this. They would have been doing what was only right. They could probably have had a hand

## It's A Big Job

GEORGE HUNTER, our genial bakery man, is new president of the Kinsmen Club.

That, in itself may not be a great announcement, but it may have far reaching consequences among the younger fry on this peninsula.

The Kinsmen Club is dedicated to "Helping Kiddies." Mr Hunter will have to guide the club forward, ever striving to do more for the children, ever striving to help them.

A lot of money has been raised on this peninsula by the Kinsmen but that money was only donated by the generosity of the public. It will be up to Mr Hunter to keep the club name good. He has a great responsibility as more and more people say, 'tell the Kinsmen, they'll help.'

Local Kinsmen are proud of their badge. Well they may be. Theirs is a service of giving

or not, then he leisurely drifted over to the cafe where he did a little phoning, came back and advised those standing that another bus would be along in a few minutes, and he would wait for it, and put the luggage and the excess passengers on it. About quarter to six we were ready to take off, when he noticed the lady in the front seat had her dog with her, he informed her she could not take the dog with her, she demurred at this, and sat there with Fido beside her. The bus driver notified her he would sit there until she took the dog off. After another ten minutes of this, she finally got off, bus driver giving her back her fare, writing a receipt, etc, etc, we reached Vancouver about 6:30. Really we might be from the "Sticks", but we certainly expect a little better service than this. If we have to put up with this in the cold wet days ahead, a trip into town on the barge will almost be a pleasure. Besides having to lug

## Sensible Buying Best Safeguard Against Inflation

ONE EFFECT of the government's action last week in lowering import barriers will be to restrain prices in their current swing upward, financial observers report. The increased supply of consumer goods will mean more competition which, of course, will result in holding prices down.

This action, it is pointed out, will not be sufficient by itself to keep costs stabilized.

According to experts, the current increasing prices were an-

heavy grips and parcels that long last mile up the wharf, it certainly will discourage trips to the big city. What to do? Wonder who has the answer.

in telling Mr Bracewell just where his pants were a little tight.

The CCF member certainly never hesitated. It is this type of opportunism that could easily beat the Liberals. But even if it failed to do that it will, certainly help to keep the party so called strong men in line.

Among men who know Victoria best—the press gallery—it is whispered that certain departments are pulling the wool over Premier Johnson's eyes. It is hinted that groups in Victoria are not quite pulling their weight for the man who rose from the ranks in a phenomenal and very lucky sweep.

Be that as it may, proof of the rumours is in the attitude of our servants. We cannot believe the Premier is aware of such petty, trivial spitefulness as was shown in this amalgamation problem. We certainly hope he was not aware of that particular case and we also trust he will not have later cause to find a like case.

Mr Winch is to be congratulated for his rapid action. We know the fight will be carried with daring and despatch to the floor of the house if amalgamation is not forthcoming. We renew our faith in democracy by this means.

A majority of British Columbians voted for the Liberals last election. Following this episode we are sorry that so many did.

This country has not reached the stage where we can give too much power to our servants. They are not big enough to handle it yet.

We suggest it will be many years before they are.

for nothing. To many of them, it is the only thing they do with complete unselfishness. There is a feeling of pleasure in this. Too many of us are prone to keep self to the fore—all the time.

The Club is going after new members this fall. We could suggest worse than for they would like to do something for the community, for the kiddies, to join the Kinsmen Club.

It will be up to the new president to lead the way. He, it is, who will have to be an example. It is a lot of responsibility, but club members feel he can do the unit justice. They elected him president.

Congratulations Mr Hunter and thank you, retiring president, Reg Godfrey, who did such a good job unselfishly and without thought of payment.

anticipated as the country was already in a resumed boom before the Korean war started. Because of the international situation, it is stated, this boom will probably continue for some time.

It is in the interest of both business and consumers that prices don't run away, and both sides can do much to prevent them from doing so.

Business can help by keeping prices as low as reasonable profits will allow, and thus stave off controls which it won't like. The individual can help by refraining from panic-buying and by turning away from price tags which are unduly high.

In addition to the real causes for the present boom, it can become a partly-psychological state wherein people run thither and yon, grab up this and that, and get ideas of "get rich quick".

At best there will be a strong upward influence, and only sane thinking offers any prospect of keeping it under control.

One of the strongest inflation-

## IN MEMORIAM

I TOO KNEW you — knew you well. Always the smile. Tall, straight, the open shirt at the neck — never a tie. You needed none. Your school; charity, kindness and sympathy, had no special color.

At two in the morning. "I have a room ready for you doctor." "Thank you, but I cannot stay this time, I have a case early in the morning." Always the same, snow, rain, cold, bad roads. Morning, noon or night, you never failed, never once. The humble home of the Indian could have been a palace of the rich. You never noticed, did you doctor? Just the one in pain, the one who needed you. Nothing abrupt about you. The firm, gentle hands carefully examining, the quietly spoken words of encouragement and ever the quiet smile and behind the smile the deep sympathy. Yes, I knew you—we were friends. It was good too. Together we met the sick. From the tiny papoose to the very, very old granny, who both had a smile for you too, doctor. So throughout the years we learned to know each other. We had lots of chats—we spoke of many things. We were of different creeds, and so our philosophy was different. But this never affected our friendship. I do remember what you told me once. It was good to hear. I still remember it and will not forget it.

And now you have gone! "A cup of cold water given in my Name" Yes. Your work will be remembered. Here and there, we run across it; of one growing old gracefully. This you did, sir. Many do, but not all. It is something that has to be with one always—honesty, truth and sincerity of purpose. If all lived as you lived! Thank you, doctor, for knowing you. It did me good in doing so. You had always my respect. A gentleman always—a doctor always. God give you rest.—D.G.

## Garden Contest

GIBSONS—This district's rate-payer's association recently held a garden contest in the area. Judges were Arthur E. Eckford of Granthams Landing and Mr. Chatt of Gibsons.

According to association secretary Percy Leech, the gardens were divided into two groups, large and small, while each of these in turn were judged on both vegetables and flowers and then on an over-all basis.

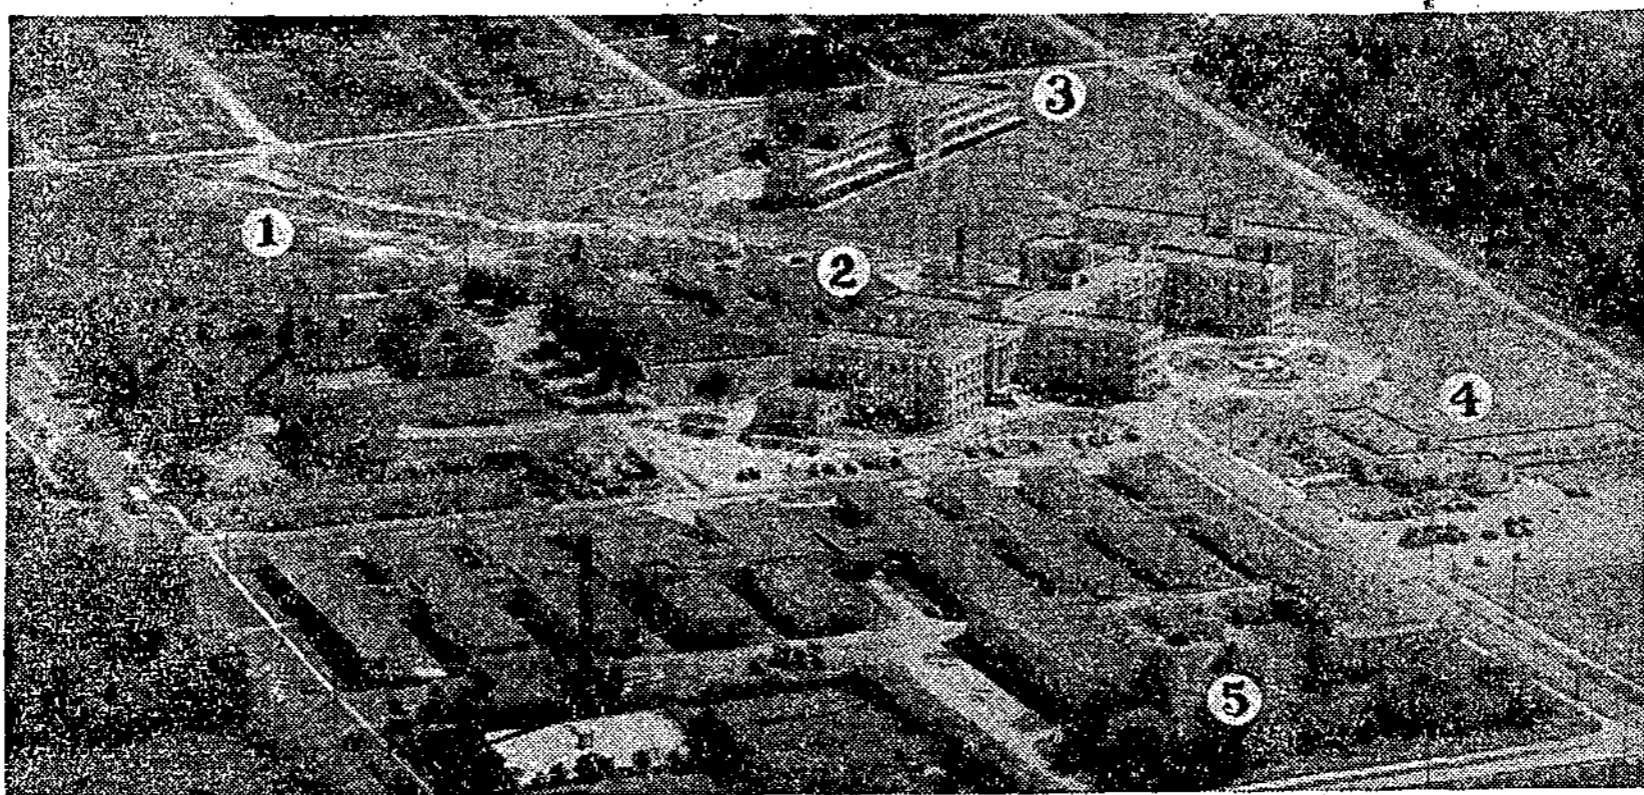

Competition in this event was keen in the area, resulting in judges having to draw very fine lines in making the following awards.

Large garden class was won by Mr. and Mrs. L. B. Knight and second by Mr. and Mrs. Donaldson. Honorable mention went to Mr. and Mrs. P. Leech.

In the smaller garden group, Mr. and Mrs. Woodside placed first while Mr. G. Smith walked away with second. In this event also, an honorable mention was made by the judges. This went to Mrs. Milligan.

ary influences at the moment is people to turn cash money into stable goods, houses, stocks, and so forth. Ordinarily this is a most laudable thing, and probably still is. But the old rule of investigate before investing holds, for along with opportunities there are plenty of pitfalls.

OTTAWA WILL ACT  
We don't know what changes in values are in front of us, including the value of money. But our economy has shown a great fear of inflation, which causes adaptability which in the main has worked out well for most people. Probably it can continue to do so if we keep our heads.

DVA'S SHAUGHNESSY Hospital in Vancouver which has quadrupled in size in the past ten years to become Canada's second largest veterans' active treatment centre. Aerial photo shows (1) Original 250-bed Shaughnessy, to be torn down this year; (2) Main Building opened in 1941; (3) Jean Matheson Memorial Pavilion, chest unit opened in 1946; (4) Red Cross Lodge; (5) Shaughnessy Extension, formerly the Vancouver Military Hospital.

Fluorides May be Answer . . .

# Test Possible Solution To Dental Deterioration

POSSIBLE solution to the alarming state of dental health in this district is seen in the tests being conducted in various cities in the United States on the use of fluorides in the water supply.

In their natural state, fluorides in drinking water harden the enamel of the teeth so that decay is reduced about 65 percent. The fluorides, which are colorless and tasteless, must get into the enamel while the teeth are growing. Constant use of fluorinated water by children up to about 16 builds armor plate that causes the low decay rate to continue through life. Fluorides won't stop all tooth decay, but, dentists say, will so harden teeth that when drilling does have to be done it won't hurt so much.

Many municipalities are adding fluorides to the city water when nature doesn't put them in. Already 30 of them are delivering fluorinated water, 36 more are installing equipment, and at least 30 others are considering the plan.

In 1944 the Wisconsin State Dental Society appointed a committee to determine whether "added fluoride" and "natural fluoride" are identical, and whether any ill effects come from "added fluoride". At the University of Wisconsin, Dr. M. Starr Nichols, professor of sanitary chemistry, made exhaustive experiments and reported that artificial and natural fluorides in water are identical and that artificial fluorides in mixtures of one part per million could do no harm. While some cases of brown stain on teeth were reported, scientists agreed that less than 1.5 parts produced no stain.

In March 1945, the Wisconsin Dental Society unanimously recommended fluorination, and the state board of health gave its approval.

The first Wisconsin city to get going with artificial fluorides, reported, after 44 months, that fluoride works best when children start using it at an early age. Kindergarten children's teeth improved 39.6 percent, fourth-graders 24.4 percent, eighth-graders 18 percent. (Three and a half years of experiment by the Canadian Government in Brantford, Ontario, show an improvement of 47 percent in five-year-olds and 23 percent in children aged five to 16.)

The full 65 percent reduction in decay that is predicted will not come until children have used the water through the first 14 to 16 years of their life.

Meanwhile, many cities, encouraged by the results, are beginning to act.

One point that is stressed: Sodium fluoride cannot be safe-

ly added to water by the homeowner. Mottled teeth may result if too much is added. Besides, the chemical is highly poisonous when taken in large doses.

The majority of cities and towns depend on surface water supplies which contain almost no fluorine; it occurs chiefly in water from deep wells. The addition of fluorine will eliminate at least a third of the dental wreckage which costs so much to repair.

The cost of adding fluorine to water is almost negligible. Dry-feeder machines which put measured amounts of sodium fluoride in municipal water supplies are readily available — they are also used by the milling industry to add bleach to flour. A machine to care for a city with the population of 3000 costs \$350.

Sodium fluoride is an inexpensive chemical. Enough to treat a year's supply for one person costs about ten cents. Researchers think another chemical, cheaper than sodium fluoride, will turn in the same results. This is sodium silico fluoride, a by-product of the phosphate-fertilizer industry. It promises to cut the cost of water treatment to less than three cents per person per year — perhaps the greatest health bargain ever offered!

Results of experiments carried out at two cities on the Hudson River in New York State reveal most graphically the rapid decline in dental problems which can be attributed to the addition of fluorine.

Two nearly identical cities, were selected for the trial: Newburgh and Kingston. Both are on the Hudson River, 32 miles apart; they are the same size (about 30,000); they have the same number of grade-school children (about 3000); both have municipal water supplies virtually free of fluorine. Checks showed decay rates in the towns to be the same. Fluorine was added to Newburgh's water and Kingston was left as a control.

As a preliminary check, a team of dentists started examining school children in both towns. There was good reason for working with children. First, children's teeth decay rapidly. Second, children were readily available for examination in school-rooms, where dentists could work with portable equipment.

It took a year to lay the groundwork for the experiment. Meanwhile, complaints poured in from Newburgh citizens. Fluorides in water were discoloring saucepans, hurting the flavor of carbonated beverages, causing digestive upsets. One old lady said the chemical had dissolved her false teeth! There was only one thing wrong: These complaints came before fluorine was introduced. There was none after feeder machines started ad-

ding white, powdery sodium fluoride to the water supply on May 2, 1945 — at the rate of 1.2 parts of fluorine per million parts of water.

Each year thereafter children in both cities got annual dental checks. Recently preliminary findings were reported—the experiment will not be completed until 1955. At the end of each year's examination, Newburgh figures showed a decline in decay rate while Kingston remained constant. At present there is

"So you have to run home as usual?" scoffed one of the group at the bar as a timid looking little man rose to leave. "What are you, a man or a mouse?"

"A man, of course," replied the little fellow with dignity.

"What makes you so sure?" demanded the other.

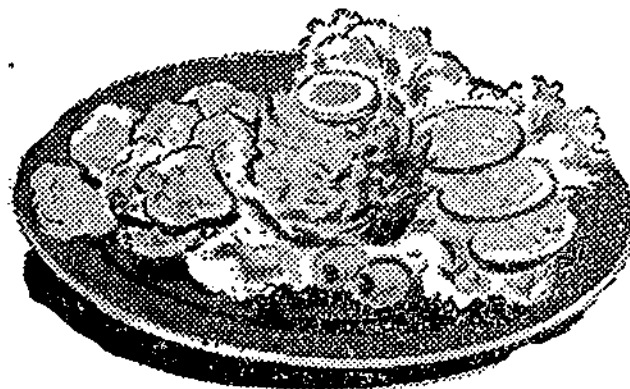

"Because," he explained, "my wife is afraid of a mouse."

30 percent less decay and the trend is still downward.

"Serving the Peninsula"

A stenographer turned up for work one morning flashing a diamond ring bigger than the Ritz. "What did you have to do to get that?" asked her catty fellow workers.

"Nothing," she replied calmly. "I told you when Grandma died last week she left \$3,000 for a stone commemorating her memory. Well, this is the stone."

### CASH NEEDED QUICKLY? DON'T SELL YOUR BONDS

You may need cash in a hurry, and think of selling your bonds to meet that need. But bonds that have been saved for over the years are often pretty hard to replace.

And there are better ways of raising the money. Here's what T. A. Larson, manager of the local branch of the Bank of Montreal, suggests, "If you want money for a good purpose, pay us a call at the B of M. Your bonds will serve as security for one of our low-cost personal loans, and will assure you an appreciably lower rate of interest than for a loan without such security. As a matter of fact, the interest on the bonds very nearly covers the interest on the loan."

B of M personal loans can be repaid in easy, regular instalments. By making use of this service, when you need cash in a hurry, you will protect that reserve fund you're building for the future. The next time you need money on short notice talk to Mr Larson. Advt.

THE CISCO KID rides to adventure every Tuesday and Thursday evening at 7:30 p.m. Cisco and Pancho invite you to join them by tuning to...

"Captain Morgan's in town!"

So serve something new and delightful—cocktails and long drinks made with Captain Morgan Rum. There are two brands. Gold Label is rich and full-bodied... Black Label extra smooth and flavourful. Both brands make taste-tempting drinks!

**PEOPLE** swimming at the Chicago lakefront have come to the conclusion that Canadian geese like the Windy City as a vacation resort. A flight of 30 birds from Canada landed on the lake and immediately "took over." The group of geese shown here waddle along the shore, much to the delight of a youngster. The geese refused to comment on their eventual destination.

**SECHELT WEST**  
By MARGARET ALLAN

MISS ANN Parr Sawyer has been the guest of her brother and his wife, Mr. and Mrs. Harry Sawyer.

The Keans have gone to Mission with their son Bob, intending to go on a trip down through the States.

George Gowland has gone to Port Alice to work.

Mrs. Rouse has sold her house to the Burtons.

Mrs. Murdoch had Mrs. McNeil up with her for a visit. Mr. Murdoch comes up when they go down. He has been working at the exhibition.

Chuck Nickerson and his wife Kay have moved to Halfmoon Bay, where he is working. Cecil has gone hunting for the Eighth Army. He was in it in the last war. He thinks he might get in quicker if he goes to the States. Ronnie has also joined something and gone east. So they have all gone overnight.

Nancy Taylor and fiancée was up visiting her parents, also Gordon and wife June. If you see anyone carrying what looks like a bomb, well it is June taking a vegetable marrow to town, to show what we can grow up here.

She did not take the big one; it weighs about sixteen pounds. A nice ambassador.

It was a shame how the strikes spoiled some holidays. However, I hear that Dr. Hill managed to get up eventually. I hope the ladies of the family came too. Col. Haines had to have an operation, but is all right now.

This self expression for children theory got an awful debunking the other day when one of the neighbors' kids took the new car out for a spin, spoiled the new chromium trim, also the garage door, which stands out now like a railway signal for danger. Dad could not find the book quick enough so an old-fashioned paddling had to do. Now aforesaid kid sings:  
If I ever sit again  
On an air-foam pad 'twill be.

The children's camp at the Depencier division has closed for the season. They had a grand time, and were well behaved.

Mrs. Colwell has bought at Selma park.

I hear that people called MacIntosh have moved into the district. Well the clans are gathering; they tell me you can't buy a lot out that way.

Made that Gambier Island rhubarb chutney. Must be good, the other half uses it on bread as jam.

**Gibsons School News**  
By MAUREEN ROSS

BACK TO school it is and if it is with smile or a frown. One of the pleasant things about school, for some of us, is the prospect of riding to and from home in a new spring filled bus. It sure makes a difference, but we still miss the old one.

It seems we will have to get our new high school in a big

**SECHELT**  
By "ARIES"

SORRY to hear little Jean Lawrence had an accident recently. She suffered a very painful fall in which her arm became involved. She is still having X-ray to find out just what is the matter. Jean is very popular hereabouts, as lively as a cricket, daughter of Mr. and Mrs. Cecil Lawrence. There's one lady who has been wishing she was twins we bet you, with one lively youngster to keep quiet and Judy rearing to go and what with a large house to keep up and a wonderful garden and the always courteous response on the phone on transportation problems.

We hear George Gowland has left us for Port Alice. Now isn't that just too bad, with his nice new home and work near at hand. He says a change is good some times, just so long as he doesn't get the family moving. We have become attached to our good neighbors.

Sorry to hear Nels J. Nelson is again on the sick list and in Shaughnessy hospital. He really has been looking very much under the weather lately. Let's hope he will soon be his old self again and soon be home.

Mr. and Mrs. Alec Bain of Vancouver visiting for a few days with Mr. and Mrs. Bob Cooke enjoying the sunny days, although Alec is annoyed at no fishin'. Better luck next time. Late in September is the best time here, especially on Porpoise Bay.

Noticed recently in Sechelt for a change and visit with her son and daughter and in-laws of which there are many, was Mrs. Louis Hanson of Vancouver.

Miss Mary Cooper visiting her sister and brother-in-law, Mr. and Mrs. Harry Billingsley, enjoying the small fry when we saw her with Barbara, Dickie and Janet Billingsley and old Nigger the Billingsley dog he gets around a lot when his folks come up from Vancouver. He told our dogs this although Janet would not believe us.

We wish to welcome our two new teachers, Mrs. Myers and Miss Luck. I hope they like it here with us. Both come to us from Vancouver.

Visiting Mr. and Mrs. Walter McKissock are Mr. and Mrs. Ed Lindgren of Vancouver, enjoying the new home very much.

Visiting this week and staying with Mr. and Mrs. Myers are Mr. and Mrs. Whitehead of Vancouver. We hear that the flannel

hurry. Instead of three rooms and a teacher for each, we now have a fourth of both. Grade niners made a big difference with their increased enrolment.

A glance into the school, hall gave us a pleasant surprise, when we saw a newly varnished floor and new basketball and volley ball lines.

We are glad to see Donald Veal back to school again. Even with crutches he seems to get around better than most of us.

Cautious Father: "My dear, if you want a good husband take Mr. Easie. He really and truly loves you."

Daughter: "How do you know, dad?"

Cautious Father: "Because I've been borrowing money off him for six months and still he keeps coming."

graph presented in the Mission Sunday school by Mrs. Whitehead was very much enjoyed.

Returning after a very restful holiday at Gower Point is Mrs. Harry Sawyer.

Sorry to hear that Mr. Elliott has to undergo another operation. He is in Shaughnessy hospital and we miss his kindly smile and cheerful spirit. He is beloved by us all.

**WILSON CREEK**  
By A. JOHNSTON  
REPRESENTING Wilson Creek  
at the Macleod-Fletcher wed-  
ding were Mrs H. Macleod, Mrs  
H. Roberts, Jack Macleod and W.  
(Bill) Fletcher, this happy event  
took place in Vancouver, de-  
tails of which should appear in  
another column.  
An announcement which  
makes us feel not so happy is  
Mrs J. Thomson (Jessica) landed  
in from Trail on Saturday, where  
she spent most of the summer,  
and beat it out on Tuesday, to  
Vancouver where she plans to  
make her future home. There is  
one gal who will be missed, espe-  
cially by the Ladies' Glee Club.  
This group by the way, will meet  
for the first rehearsal on Sept  
18, and it is hoped that a goodly  
number will be on hand for the  
fall activities.  
Mrs F. Mutter has gone to the  
city, where she will meet rela-  
tives from the U.S. also in refer-

ence to her health, and we are  
glad to say, she is feeling better  
these days. Tommy by the way,  
is in the same category A1 after  
his mishap, and a broken thumb.  
Well, school's in again, and a  
couple of our sunburnt stalwarts,  
from Davis Bay, have taken the  
plunge, young Bishop, and Paddy  
McPeake. Time marches on, and  
far be it from us to wish the  
youngsters anything but the best  
of luck. There have been several  
enquiries regarding the proposed  
salmon derby, which was to be  
run in connection with the  
WCCC Labor week-end. On ac-  
count of the derby run by the  
Kinsmen and the one proposed  
by the Legion, which didn't ma-  
terialize, we couldn't give the of-  
ficials the go-ahead signal, be-  
sides, there ain't no fish around  
here anyway.  
The home of Mr and Mrs Mike  
Jackson was the scene of much  
activity the other day. Following  
a sumptuous spread, the lads and  
lassies gathered on the lawn, to  
play and romp around to their  
little hearts desire, much laugh-  
ter, thrills and spills, contributed  
to make the second anniversary of  
Pamela's birth, a huge success.  
The highlight of the party, was  
the bursting of many balloons,  
which were suspended among  
the trees, the following were the  
invited guests: Jennifer Waters,  
Laurie Stafford, David and Al-  
len Renton, Paul Warram, Sue  
and Alec Forbes, Lannie and Ri-  
chard Chamberlain, Vicky and  
Vaughn-Franske, Laurel Parkin-  
son.  
Paul and Mrs Warram, are vis-  
itors to the Renton family, for a  
few days, and at the George  
Wright residence Mrs Brooks  
with her two young daughters  
from Powell River, are holiday-  
ing for a week or so. While tra-  
velling around the district, I met  
Mr and Mrs Jones of Vancouver,  
just arrived to take a much  
needed rest. Mr Jones has had  
quite a seige recently, and his  
many friends will be glad to  
learn he has fully recovered,  
from a recent operation, they are  
both staying at the Jones Jr  
camp at Davies Bay, where Mr  
and Mrs Eric Jones are spending  
two weeks holiday.  
The Johnston boys, after  
spending a delightful summer at  
the home of their parents, Capt  
and Mrs Andy Johnston, have  
returned to school in New West-  
minster, en route they will, of  
course, take in the PNE. Shirley  
McNutt returned from the city,  
where she was the guest of Miss  
Ann Rickards, who incidentally,  
stayed with the McNutts, for a  
short vacation. I see George  
Kraft back from Vancouver,  
where he has been studying the  
whys and wherefores of machin-  
ery, and has got himself a job  
at the Burns and Jackson shops.  
About thirty guests attended  
the shower given in honor of  
Miss Rita Fletcher in Vancouver  
last week, and Teddy Arbo, who  
started a trip from the city to  
Davies Bay under his own pow-  
er, had to thumb a tow from a  
passing tug, he just didn't like  
the looks of the currents. He said  
he would make it back on his  
own, when the time came for de-  
parture, and he did just that.  
Returning this week-end also, is  
the Esselmont family, who have  
been staying all summer at the

**ROBERTS CREEK**  
By M. M.  
THE SUMMER season is defin-  
itely over as far as Roberts  
Creek is concerned. The sum-  
mer guests have ceased from  
troubling and the residents are  
at peace.  
The children are back at school  
once more and there is a new  
teacher, Mrs. Smith of Pender  
Harbour taking the place of Mrs.  
Heron, who has left the district  
to take up a teaching position at  
Abbotsford.  
Mr. F. Merrick, Mr. Charlie  
Merrick and his wife and family  
spent Labor Day week-end at  
their home here before leaving  
to spend the winter in West  
Vancouver.  
Mr. and Mrs. Paquette of  
North Vancouver have rented the  
Merrick house for the winter.  
Mr. and Mrs. Paquette are the  
parents of Mrs. Frank Read of  
Roberts Creek.  
An old-time resident of the  
Reid cottage on the Bay, Mr Ken  
Forbisher, was another ardent  
fisherman, who picked up his  
outboard putt-putt, and vanished  
into the mist and returned home  
to North Van. His wife and two  
daughters left later in the day.  
If this gallant little Herald of  
pleasantries doesn't go roaming  
up and down the coast again this  
week, our community minded  
residents will accept this remind-  
er of the general meeting, which  
takes place on Wednesday even-  
ing next, 8 p.m. sharp. The idea  
of the injection of the word  
sharp is to give you time to  
listen to the new P.A. system  
which we have acquired. Yes,  
things are looking up, and before  
I forget, there is the usual whist  
on Friday night.  
Mrs Parkinson and daughter  
Laurel, were house guests of  
Mrs L. S. Jackson. Mrs Ruben  
Stroshein has presented her hus-  
band with another daughter, a  
delightful little bundle, but Ru-  
ben would like a son and heir.  
Speculation is rife as to which  
will give way first, the Chap-  
man Creek bridge, or the new  
raft at Davis Bay, it's anybody's  
guess, but they are both on their  
way out.  
(Flash) Bernie Macleod start-  
ed his school days on Tuesday  
last.

Creek passed away last Saturday.  
Mr. E. Kindred, who has been a  
member of the Roberts Creek  
community since 1923, was  
stricken with a heart attack and  
died on his way to hospital. Mr.  
Kindred was one time janitor of  
the Community Hall, and has  
been living with Mr. and Mrs.  
Pete Edmunds for the past year.  
The funeral was held last Mon-  
day at Gibsons.  
Mr. Stuart McIntyre has sold  
his property here and left for  
West Vancouver where he in-  
tends to reside in future.  
Mr. Michael Jervis spent the  
week-end in Roberts Creek.  
Miss M. McIntyre will resume  
her classes in violin and piano  
on Monday, September 11.  
The St. Aidan's Church Sun-  
day school will re-open next  
Sunday.  
Other organizations starting  
up after the summer vacation are  
the bridge club, first meeting of  
the season will be held at the  
home of Mr. and Mrs. R. Cum-  
ming next Tuesday, and the  
P.T.A. first meeting will be held  
September 19 at the Kewpie  
Kamp.  
Most of Canada's local trade  
unions are branches of inter-  
national organizations, either  
craft or industrial, with head-  
quarters in the United States.

Quality for quality, we will never know-  
ingly be undersold, either here or in  
Vancouver.

**BOWEN ISLAND**

By PEARL PUNNETT

MRS S. RODEN Lerizer and small son John, of North Vancouver, spent a week's vacation with their aunt, Mrs E. Bouts.

Miss Betty Innes was staying with the P. Punnett's recently.

Mr James Collins visited Pemberton Meadows last week to see his daughter and family, Mrs Morgan Miller and Mrs T. Forberg.

Things are terribly quiet around Bowen, no daily boats and mail three times a week only. It's good that the freight is coming in daily by landing barge from Horseshoe Bay or bread and milk would be good and stale sometimes. Hope long before this is published that everything will be back to normal.

In the absence of Rev W. H. On Saturday, August 26, at the

Wilkie, who was away at Portland, Oregon, for a week, the service at the United Church here, was conducted by "Doctor" Tom Smith, on Sunday, Aug 24.

Mr and Mrs Tom Gifford are leaving the Island for Santa Barbara, California, to take up permanent residence there with their daughter and son-in-law, Mr and Mrs Geof Grayson.

On August 29 Mrs Billy James entertained a few ladies from the church at afternoon tea, to wish Mrs M. Brand "au revoir" as she is leaving for Edmonton, Alberta, sometime in mid September to stay for the winter with her son-in-law and daughter, Mr and Mrs J. Jamieson. Her youngest daughter Beverley is leaving here on Sept 2 by air so that she will be able to attend school on the opening day. Ronnie Farrell is also leaving Bowen and will be living with his sister there.

Ryerson Church, Vancouver, a very pretty wedding was solemnized by the Rev George Turpin between Muriel Hutchinson, daughter of Mr and Mrs J. L. Hutchinson of Vancouver, and Gordon Harding, third son of Mr and Mrs Douglas Harding of Bowen Island. The bride's gown was white satin with nylon yoke and lily pointed sleeves. The hem of the hooped skirt was caught up with satin bows, revealing rows of imported French lace on the underskirt. A tiara of seed pearls held the full-length tulle veil. Her bouquet was red roses, white carnations and stephanotis. The bride's sister Beverley was maid of honor and wore yellow organdy over yellow taffeta. Mrs Ken Hewitt, the groom's sister, as bride's matron wore green taffeta, and Mrs Fay Schachter as bridesmaid also wore green taffeta. Their velvet floral halos toned with their frocks. Their flowers were contrasting colored gladioli. Little Carol Henderson as flower girl wore pale blue organdy with pink carnations in her hair and the basket she carried. Best man was Mr Barrie Tait, and Mr Cairns Torbet and Mr Ernest Hutchinson ushered. A reception was held at the Hollies, where a large number of friends gathered to wish the happy couple a long and happy life together. They flew to Yellowpoint, Vancouver Island for the honeymoon, the bride travelling in a pink suit and hat to match with navy accessories. On their return they will make their home in Burnaby. The wedding gifts were numerous and useful.

Mr and Mrs Billy Glenn and their two children from Seattle were recent visitors with the former's mother, Mrs Mary Glenn.

Mr and Mrs Douglas Harding and son Lloyd are vacationing at Lasqueti Island, staying with Mrs Peter Torbet, a former resident of Bowen Island.

Congratulations to Ruth and Gerry Ray on the arrival of a daughter, Penny Anne, on August 18 at the Vancouver General Hospital.

Mrs Sam Kinniston has her nephew Harry Ashcroft staying for a visit. Harry is stationed in the Army at Winnipeg and is home on three week's leave.

Mr and Mrs Eric Harding and young sons Trevor, Raymond, and Glen, have gone to live in Alaska. They left here on Sept 5 and were motoring to Seattle and going from there by plane to Anchorage. Happy landings folks and good luck in your new venture.

The Evergreen Stables put on a gymkhana on Sept 3, a lovely day and quite a good turnout.

Mr and Mrs Eric Cardinal and daughter Shawn, returned to their home in North Vancouver on Labor Day after staying at Bowen for the summer.

The Bowen Inn and the Tea Rooms closed on Labor Day for another season.

We are now back to winter schedule, boats and mail Tuesday, Thursday and Saturdays.

Mr and Mrs Billy James have

USEFUL as well as ornamental on CBS-TV's "Pantomime Quiz" is Sandra Spence, who helps keep scores of opposing teams in the popular guessing game.

gone to Seattle for a week's vacation.

Mrs M. Brand left by plane on Sept 10 for Edmonton to stay with her daughter for the winter months.

Mr and Mrs Claude Pidgeon were staying here for the long week-end.

Use The Coast News Ad Briefs.

**"Glendalough"**

GUESTS holidaying at "Glendalough" for the Labor Day week-end were: Mr. and Mrs. J. Broth, Mrs. Dorothy Worthington, Miss Elish Worthington, Miss Doris Demmery, Miss Glen Pellow, Miss Ruth Landsburg, Miss Clover Stevenson, Miss Rena Perkis, Miss Thelma Jones, Miss Alice Mill, Miss Agnes Jollymore, Miss Mildred Walker, Miss Betty Walker, Miss Janet Milne, Miss Barbara Milne, Miss Dorothy Dunster, Mr. and Mrs. Harry Hutchinson, Mr. Bob Muir.

The hand tooled leather bag made by Rev. Father O'Dwyer which Mrs. Jack Mayne kindly bought to raffle for the St. Vincent's Mission was won by a guest staying at Glendalough over the holidays. The ticket number was 271 and the name Miss Clover Stevenson. Miss Elish Worthington drew the lucky number Labor Day. A little over \$50 was realized on the raffle.

LEGAL: SEALED tenders for the General Contract including all trades endorsed "Tender for two-room Elementary School at Roberts Creek" for the erection and completion of the above described building will be received by the Secretary, School District No. 46 (Sechelt), Gibsons, B.C., on or before 12 o'clock noon Saturday, September 30, 1950.

Working drawings and specifications will be available at the office of the Architect, Harold Cullerne, 325 Howe Street, Vancouver, B.C., after 4 p.m. Thursday, September 7, 1950. A deposit of twenty-five dollars is required for each set of plans and specifications and will be returned on receipt of same in good order.

A certified cheque for five per cent (5%) of the tender submitted must accompany each and every tender and shall be forfeited if the party tendering declines to enter into Contract when called upon to do so. On award and signing of the Contract, the successful tenderer shall furnish to the Board of School Trustees a surety bond of fifty percent (50%) of the Contract price. On receipt of this bond the certified cheque submitted with the tender will be returned.

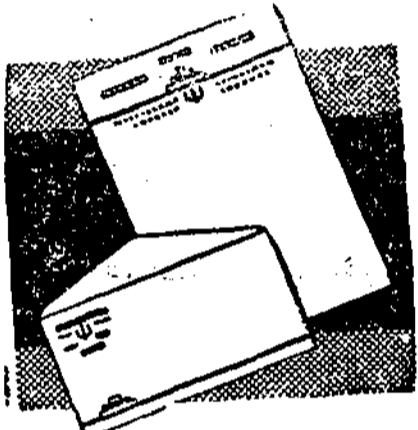

The Board of School Trustees and the Department of Education reserve the right to reject any or all tenders without explanation. No tender having any qualifying clauses will be considered.

HAROLD CULLERNE, Architect,  
For the Board of School Trustees, School District No. 46 (Sechelt), Gibsons, B.C.  
Dated this 5th day of September, 1950, at Vancouver, B.C.

# WHAT IS A BARGAIN?

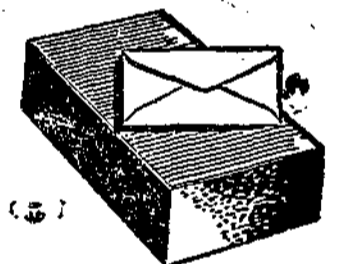

Printed Letterheads  
Printed Envelopes

A bargain is not usually found under any kind of pressure or impulse buying. And a bargain is not always what it seems. In printing, for instance, even though you might shave prices five or ten percent by shopping all over the city, you might find that your economy was a bit costly.

WEDDING INVITATIONS  
Social Stationery

Your newspaper is a service to your community. To perform that function properly, it must be a profitable enterprise. To be profitable, it needs wholehearted co-operation of every buyer of advertising AND PRINTING in the area it serves.

**MORE ABOUT . . .  
Between You 'n Me**

(Continued from Page 1).

man for improving their city. Yet that same council will sit back and beef about lack of publicity and urge everyone to get out and sell North Vancouver.

We know the assessor, by his oath is sworn to evaluate according to a set of rules. It's not his fault. But it certainly is the council's fault for not allowing a tremendous reduction when they sit as court of revision.

I never thought North Van would be heartless enough to practically break a man for living in a normal \$110 tax area. We would suggest this type of taxation is OK when it is aimed at restricting, like the area where Archie lives but hardly in a normal working class district.

If Alderman Christie McDevitt wants to use his influence as a newspaper man and city father, here would be one good chance. Excuse me now . . . I don't feel well.

May we point out a small matter to the lady who wrote in, saying she thought we were trying to be insulting when we mentioned her husband recently in this column. There is never any doubt about our being insulting. When we are, which to date has been never—at least in this column — there will not be any doubt.

We mentioned her husband because he is well known here as a man of habit and well liked by all who know him. He is good "copy" for any column of this nature and as far as we were concerned any mention of the gentleman in question was made with a smile of pleasure in knowing him.

That was not an apology, just a statement of our view on the matter.

**Local Girl Wed  
In Vancouver**

CAIRNS Hall, the smart appearing log building on Main Street between 32nd and 33rd Avenues, was the unique setting for nuptials, which united Rita Lucille Fletcher, only daughter of Mr. W. Fletcher of Wilson Creek, and Robert Lee Macleod, youngest son of Mr. and Mrs. H. Macleod of Vancouver and Wilson Creek on Saturday last. Officiating was the Rev. Burg Holder of Mountain View church.

The bride was given in marriage by her father, Mr. W. Fletcher. Miss Eve Bradshaw was the bridesmaid, while Mr. George Meswitch acted as best man. After the ceremony and in the same hall, about 40 guests sat down to refreshments, including a three-tier wedding cake. Mr. Harry Rivett gave the toast to the happy couple.

Dancing was enjoyed and musical items rendered to complete the evening. The bride and groom left later for a honeymoon trip to Seattle.

Mr. and Mrs. Macleod will make their home in Vancouver where Mr. Macleod is employed in the contract department of Woodward's department store.

A cablegram of congratulations from relatives of the Macleod family in far away Scotland was handed to the groom a few minutes after the marriage ceremony had taken place.

**Mrs A. Hamilton  
Wins Kin Draw**

GIBSONS — Mrs. A. Hamilton, 814 West 12th Avenue, was the lucky winner of the \$50 merchandise Kinsman monthly raffle.

Ticket was drawn during the show intermission at Bal's Hall, by young George Larson.

Money from the draw goes toward helping Kinsmen help kiddies. All proceeds are turned back into the community in the way of swings, teeter totters or other types of entertainment equipment.

Buy your monthly raffle ticket. It is a good habit for doing good.

Canada's population increased most rapidly at the time of the American Revolution, the Irish famine, the building of the Canadian railways and the opening of the Canadian west.

**MARRIED 50 YEARS** is the happy record of Mr and Mrs Alfred Edward Genower, West Sechelt. Surrounded by grandchildren and many friends who helped to celebrate the first Golden Wedding for many years in Sechelt, Mr and Mrs Genower find that life is still full of excitement and thrills. They were married in St John's Church, Halloway, London, in 1900. One-time JP here, Mr Genower served as Captain-Paymaster with the 158th Battalion from Vancouver, during the First Great War. They have two children, Cyril in Vancouver and Mrs Wally Berry in Sechelt. There are seven grandchildren and three great grandchildren.

**Friends Help  
Golden Wedding**

SECHELT—Among friends who helped Mr. and Mrs. A. E. Genower celebrate their golden wedding anniversary were Mrs. W. B. Billingsley, Mr. and Mrs. W. Allan, Mrs. A. Gibbons, Mrs. W. Elliott, Mrs. C. Phillips, Mrs. H. May of Vancouver, Miss Lorraine Ross, Frank French, Mrs. Uttley, Mr. and Mrs. L. McDonald, Mr. and Mrs. Stewart Henderson, Mrs. Frank French, three grandchildren, Jean Berry, Mrs. Alec Gibson and little Katherine Berry.

Mr. Genower was instrumental in organizing Branch 140 Canadian Legion and was first president of the unit. Mrs. Genower was a charter member of the ladies' auxiliary to the same branch.

Their seven grandchildren include Muriel Genower, Jean Berry, Mae Berry (Mrs. McMullen), Pat Berry (Mrs. Alec Gibson), and Gwen, Betty and Katherine at home, also three great grandchildren, Carol Ann, William Douglas and Patrick John McMullen all of Port Arthur.
