Sixth Year of Publication Vol. 6-20 Thursday May 15 1952 Published in GIBSONS, B C. Serving the Sunny Sechelt Peninsula

Designed in Canada

Drapery material as designed and manufactured in Canada attracts the attention of MISS JANE POWLEY, New York City, at the Exhibition of Canadian-made textiles which is being staged in the Canadian Government Show Room in Rockefeller Centre until the end of May. Some fine Canadian suitings make a neat background for Miss Powley.

Best Wishes - Miss Editor

Education, these days, is no longer limited to readin', writin', 'rithmetic. In the good old days a scholar could leave school with honor marks and still not have what it takes to make a place for himself in the bustling world of business and industry.

Today, it is different. Vocational training is playing an important part in schooling, and young people are being taught how to go about getting jobs in the work-a-day world — and how to hold these jobs.

So, with this in mind, the Coast News will be turning over the entire issue of May 29 to the high school students. They will write the editorials; handle the reporting; the advertising; and the various local columns. The columnists from the various centres along the Gulf Coast will be given a holiday that week, while the students ferret out the news.

It is a big undertaking for Betty Brown, the school issue editor; and her staff, but they are already going ahead with enthusiasm. It will be an issue worth reading; it will contain many items of youth news that are often overlooked by the elders who occupy the editorial chair.

Meanwhile, if students come along to a meeting to get a write-up, or if they solicit your assistance, please be co-operative.

'Bainbridge' Delayed; 'Quillayute' Rushed

"We hope the travelling public will bear with us until the new ferry, MV Bainbridge, goes into service at the end of May," says George Frith, general manager for Black Ball Ferries Ltd., referring to MV Quilleyute's game but losing battle to keep up to the new seven round trip daily service betweeen Gibsons and Horseshoe Bay.

The timetable was designed for the new ferry, which is a "double-ender" and will not have to perform any time-wasting maneouvres at either end of the run. The Bainbridge is also a larger vessel, accommodating 60 cars and 600 passengers.

Discovery of the need for additional overhaul work, which will take two weeks to complete, was discovered too late to delay inauguration of the new schedule, which has been widely advertised throughout the northwest.

'Batt' Addresses Creek Audience

"The Liberal government has brought about most of the improvements in B.C." Thus spoke B. M. MacIntyre from the platform of the Roberts Creek Hall, May 9.

Introduced by his campaign manager, Mr. Harry Davis, Mr. MacIntyre told his listeners, "In 1949 I was elected as a straight coalitionist. I never joined Liberal or Conservative party. The day that Mr. Johnson dissolved the government, I was again free, white and 21, with no allegiance to anyone. I knew I was going to have to make a decision and I gave a lot of thought and analysis. I am a staunch supporter of all free enterprise systems. I found in looking over the Liberal party that for 20 years they have been a potent force in the political life of B.C. There has been great development under continuous policy of Liberal administration. This shows that the people throughout the world have had confidence in the Liberal government of the province of B.C. B.C. can and will continue to develop in future years by even greater leaps and bounds."

After touching briefly on his work and accomplishments during the past three years, Mr. MacIntyre gave facts and figures to support his statements, stressing local issues.

Two million dollars was voted in the house this year for the first time in 12 years as a special appropriation for rural roads, to be divided among 41 ridings.

Two hundred thousand dollars of this is to be spent on the right-of-way through the Halfmoon Bay cut-off, and the roads linking Thunder Bay to Saltery Bay and Kleindale to Agamemnon Bay.

Eighty-two thousand dollars

Gargrave Opens Vigorous Campaign

Tony Gargrave, CCF Candidate for MacKenzie, fired the first shots at the Redroofs Hall, Halfmoon Bay, in an election campaign, which looks like a determined effort by the CCF to wrestle this constituency back into the Socialist camp.

Speaking to an enthusiastic audience, chaired by Bob Cormac, Gargrave flayed the Liberal party for its disregard of the little man. "It is ridiculous," he said, "to expect elderly people living on small pensions, some lower than the old age pension, to pay $42 a year for Hospital Insurance. To demand such payments," he said, "was equivalent to taking food off their tables, and clothes off their backs. A CCF Government will provide free hospital coverage to these citizens, and immediately eliminate co-insurance charges."

He explained how CCF policy was based on peoples' needs, completely free from any influence by big business. "A party which is financed as is the Liberal party, by big corporations," he said, "is not free to bring in legislation which would charge these businesses' with part of the cost of social welfare projects."

He criticized "Batt" MacIntyre for claiming he had secured certain public work project for MacKenzie. "Public funds for road work must not be used to bribe voters," he said. He reminded his audience that the CCF had at one time or another won 25 seats in B.C., enough to form a government. He warned those who said they wanted a "government man" in Victoria. "Watch who you put your money on."

Gargrave himself, a wood-

Gambier-Keats Ferry Starts This Week

This week saw the start of the first regular service connecting Gambier Island and Keats Island with Gibsons. Operated by George Hunters' 20-passenger "Sea Wolf" for Black Ball Ferries Ltd., the service is inaugurated primarily to provide a connection with the car ferry service, but it is expected that many island residents will take advanage of it for shopping trips to Gibsons.

Black Ball Ferries wish to emphasize that in its present form, the service is experimental, and that changes in time and frequency, and in ports of call, will be made to suit public need. "Traffic statistics and a continuing survey of the island's travel needs," says George Frith of Black Ball, "will tell us what changes are desirable. The first two weeks of operation will be in the nature of an experiment."

Gibsons Talent Night Draws Big Crowd

The Gibsons Talent night, held last Friday evening, drew a large crowd despite the fact that other important meeting competed for an audience. Altogether, there were twenty competitors, the age groups ranging from 7 years to 18 years.

In the 7 to 10 group, the winner was Nancy Duggin, with Lyn Vernon placing second. In the 11 to 14 group, Barbara Knowles tied with Iris Symchuch for first place, with second place going to the duet team of Billy Nimmo and George Slinn.

Sylvia D'Aoust won the 15-18 group honors, with Sylvia D'Aoust and Grace Gray placing second.

The Gibsons Girls Choir won the choral group, with the Gibsons Junior Choir placing second.

All contestants were received with enthusiasm.

Winners came from both the Elphinstone High School and the Elementary School, five winners coming from the High school and three from the Elementary school. Finals for the Peninsula will be held in Gibsons on June 6.

Eckardt Speaks at Sechelt Tea Party

Larry Eckardt was the guest of honor and Mrs. Earl Dawe the hostess last Saturday afternoon when a group of Progressive Conservatives enjoyed tea in the Sechelt Inn while meeting and chatting with their candidate for the MacKenzie riding.

Mr. Eckardt addressed the group briefly, condemning Mr. Kenney for the forest management licence legislation which was putting the small logging operator out of business. He also said that Premier Byron Johnson was responsible for the highly unpopular hospital insurance legislation, and promised that the Progressive Conservative party would make the hospital insurance non-compulsary when they were elected to power.

Local Guides To Go To Camp In Ottawa

Two lucky Girl Guides will be leaving in July for the national Girl Guide camp in Ottawa. They are Coral Benn and Joanne Ritchey, both of the First Girl Guide Company of Gibsons.

The two girls are first class guides and have Pioneer badges, making them the only two girls on the Peninsula who are eligible to attend the big jamboree.

The Local Association and the P-TA are showing a film, "The Royal Tour." on May 22 in the School Hall at Gibsons in order to raise funds for sending the girls to the camp.

Sawmill Safety Is "No Accident"

Sawmill Safety Week was inaugurated last year by the B.C. Lumber Manufacturers Association, the Workmen's Compensation Board and the International Woodworkers of America in an effort to reduce accidents to an absolute minimum for a period of five working days, thus demonstrating the accident production potential. The entire five days were completed by 15,000 sawmill workers in 71 plants with only four compensible accidents. All but three of the mills completed the week with a perfect score, and six of the particiants finished the entire year without an accident.

As a result of the effort put into Sawmill Safety Week, the number of accidents per million man hours worked was reduced from the normal weekly average of 25 to only 4.

Accident prevention unquestionably pays and as a result of the intensified effort of the safety branch of the B.C. Lumber Manufacturers Association, the accident incidence for member mills has steadily decreased from 83 per million man hours worked in 1946 to only 17 per million man hours worked in 1951. There was a reduction of 25 percent between 1949 and 1950, and 26 percent between 1950 and 1951.

Sawmills participating in Sawmill Safety Week raise white flags emblazoned with green safety crosses on the morning of May 12, the beginning of the Sawmill Safety Week. When a mill has a compensible accident, the flag must be struck.

Accidents are expensive and painful. A workman who is hurt suffers a great deal and loses money; the sawmill is put to great expense and, more important, loses a valuable employee. The average apparent cost of an accident in British Columbia's sawmills today is $580.01 and this is only one quarter of the actual cost, according to National Safety Council figures.

Editorials

It's up to us...

One of the headaches of the weekly newspaper is that the entire outlook on the news front can change between deadline date and publication date. Last week we complained, editorially, that three political parties on the Peninsula were dead from the shoes up. Our stories on Page 1 of last week's issue gives lie to our editorial statement. (The editorial page was printed two days before Page 1 was printed.)

The candidates are now beating their drums, and each drum has a clearly defined rhythm. There are important issues at stake next month, issues which may change the entire progress of the Peninsula. We can't choose a man merely because he happens to be a neighbor, or because we like the color of his eyes.

What the candidate stands for is all-important.

It is up to us to choose. And, if we neglect to cast our ballot when election day comes, we have no right to raise a fuss if we aren't satisfied later.

Every Week a Special Week

It's got so that every week of the year has become a special week for sombody. Some weeks, like Red Cross Week, or Fire Prevention Week, are important. Others, like Eat-More-Celery Week, or National Cosmetics Week are of lesser importance.

One of the biggest weeks of the year, coming up this month, is National Tourist Service Week, celebrated May 25 to 31.

National Tourist Service Week is important to the Peninsula because we can, and should, make our tourist business a big business.

A buoyant and prosperous tourist business in this area is not just the private concern of a few hotelmen, cafe owners, gas owners, and merchants. It is the public concern of all of us who live and work on the Peninsula.

We ought to realize — and most of us don't — what a wonderful vacationland we live in, and what this Peninsula could be, if developed according to plan.

Reader's Right

Editor, The Coast News,
Sir:

In your issue of the paper for this week it is noted that the Conservative (Progressive) party has emerged from, where it is not quite clear. Is this a case of Banquo's ghost, or merely a stirring of the maggots of mortification?

One wonders who might be expected to vote Conservative; certainly no one who works for a living, and is familiar with the record, should do so; of course, wonderful promises can be expected (for example, remember 1930 and "I will BLAST my way into the markets of the world."); but very many of the old-time Conservatives are now in the Liberal camp. Seemingly the only sound and sensible reason for affiliation with either of the old parties is the hope of getting a ride on the "gravy-train," and pickings have been desperately slim for many years for the Conservative cohorts. To really get the feet in the trough one is wise to be tagged "Liberal;" (one doesn't really have to liberal.)

So with a party, well-organized and disciplined, already solidly in control of patronage, at least two other parties offering some hope of relief from the thralldom of inefficiency and dictatorship, while on their record no semblance of such relief can be expected from the Conservatives, one must marvel at the effrontery of any Tory candidate who asks for public support.

Of course, as far as the big companies are concerned, they probably care little whether Liberals or Conservatives are elected, as long as it is one or the other. The Powell River Company, (controlled, I think, in Minnesota and Miami) and the Pacific Mills (Flieshackers, of San Francisco), have both received plenty of gifts from both Liberals and Conservatives, and may reasonably expect such consideration to continue. Perhaps our benevolence may not be so prodigal in the future, because we are beginning to scrape the bottom of the bowl as far as ownership by the public of our natural resources are concerned. But there are probably a few more Aero Timber deals that could be put over, and even perhaps a few more Alcans. Anyway, whatever we have, the big American corporations may feel quite confident of getting whenever they want it, from either a Liberal or Conservative government; so why take chances on splitting the vote, and perhaps letting in some other party that cannot be relied on?

— Robert Burns,
Gibsons, B.C.

Statistics show that Yale grads have 1.3 children while Vassar grads have 1.7 children. Which goes to show that women have more children than men.

"I put away my hard-earned money"

This young bank depositor recently wrote to his bank manager:

"I made a goal of $1,000 for this year. It is two years since I opened the account with two dollars. I owe thanks to you that I put away my hard-earned money where it will benefit me . . . I do not wish to touch it for the time being."

Building up a bank account means work and sacrifice. But Canadians know the value of having savings handy in time of opportunity or need: they maintain 7½ million savings accounts in the chartered banks—almost twice as many as ten years ago. At the same time bank staffs have almost doubled. That, and higher wages, have increased bank payrolls almost three times.

More people use the banks, more people work for the banks than ever before.

THIS PLOT OF EARTH

— By SANDY LOAM —

SPRING VEGETABLES

Just now we are enjoying April Queen broccoli with its delicious cauliflower-like heads. Here in the North West we can grow this luxury vegetable to perfection, and each year finds it more popular. This is the month to start the seeds, and you can choose varieties maturing from autumn to late spring, such at Winter Mammoth, Autumn Protecting and St. Valentine. Another broccoli we intend to try is Nine Star Perennial, which gives several green heads year after year when once established.

The Welsh onion is most useful for early salad use. A bed will produce for years with no other care than weeding and a twice yearly feeding of compost.

Last year we enjoyed mustard and cress in our salads, and wonder why so little is grown out west, and can also recommend the Icicle radish, tender and quick growing.

GROW MORE SHRUBS

For background use a collection of the smaller shrubs which makes a fine and permanent show. While these are expensive to buy, it is surprising that so many people have a fine shrub that is outstanding, but make no attempt to start cuttings or layers from it.

May through August is a good time to take cuttings of many plants, both flowers and shrubs. A tiny slip of new growth, around four inches long, is usual. Trim off all leaves, except the top ones, and tuck the cutting for two-thirds of its length in shaded spot, pressing the soil down firmly. By fall or spring the slip will probably have taken root and can be moved to the open garden.

Among the easier flowering shrubs are Forsythia, Fuchsia, Kerria, Viburnum and Honeysuckle, while a much longer list of shrubs can be increased by partly ripened or hardwood cuttings in fall and winter.

Some shrubs are best layered by burying part of a low branch, making a cut on the underside of the buried part and pegging it down. Growth from this method is often slow but results are reasonably certain, if the new plant gets a good root system before severing from the parent plant.

PLANT NOW

Both Glads and Dahlias should be planted right away. The Dahlia loves hot weather and will come along quickly once it gets a start. We like to plant Dahlias much the same as we plant tomatoes, in a bucket sized hole almost filled with a mixture of rotted turf, soil and compost with a tablespoonful of bonemeal for good measure. If the tuber is first covered with 3 inches of soil, and then as it grows is banked up with good garden loam it will usually make better growth. When about to flower see that they have plenty of moisture and an occasional feed of weak liquid manure. Pompon and miniature Dahlias are getting more attention from coast gardeners as they make splendid cutting material as well as giving a most colorful display in the garden. Both varieties may be shortened when a foot or so high to give a more bushy and sturdy plant.

The fellow who tells his girl that he's out of gasoline on a dark country road is using the old stall.

Famed Band Comes To Vancouver Soon

An outstanding Musical Event to be held in Vancouver will be the visit of the famous Salvation Army International Staff Band, from London, England.

It is recognized as the fintst Brass Band in the world, having played at Buckingham Palace and travelled extensively throughout Europe and the British Isles.

The Band's appearance in Canada will commemorate the Salvation Army's Seventieth Anniversary. In their Canadian tour, they will visit Vancouver May 24 and 25, presenting a Grand Festival of Music at the Auditorium, Denman and Georgia Streets, on Saturday evening, May 24, at 8 p.m.

Reserved Seat tickets are obtainable from Kelly's Ticket Bureau, or the Salvation Army Public Relation Department, 501 East Hastings St., Vancouver.

ALTERNATIVE VOTING

AND HOW TO MARK YOUR BALLOT IN THIS

PROVINCIAL ELECTION

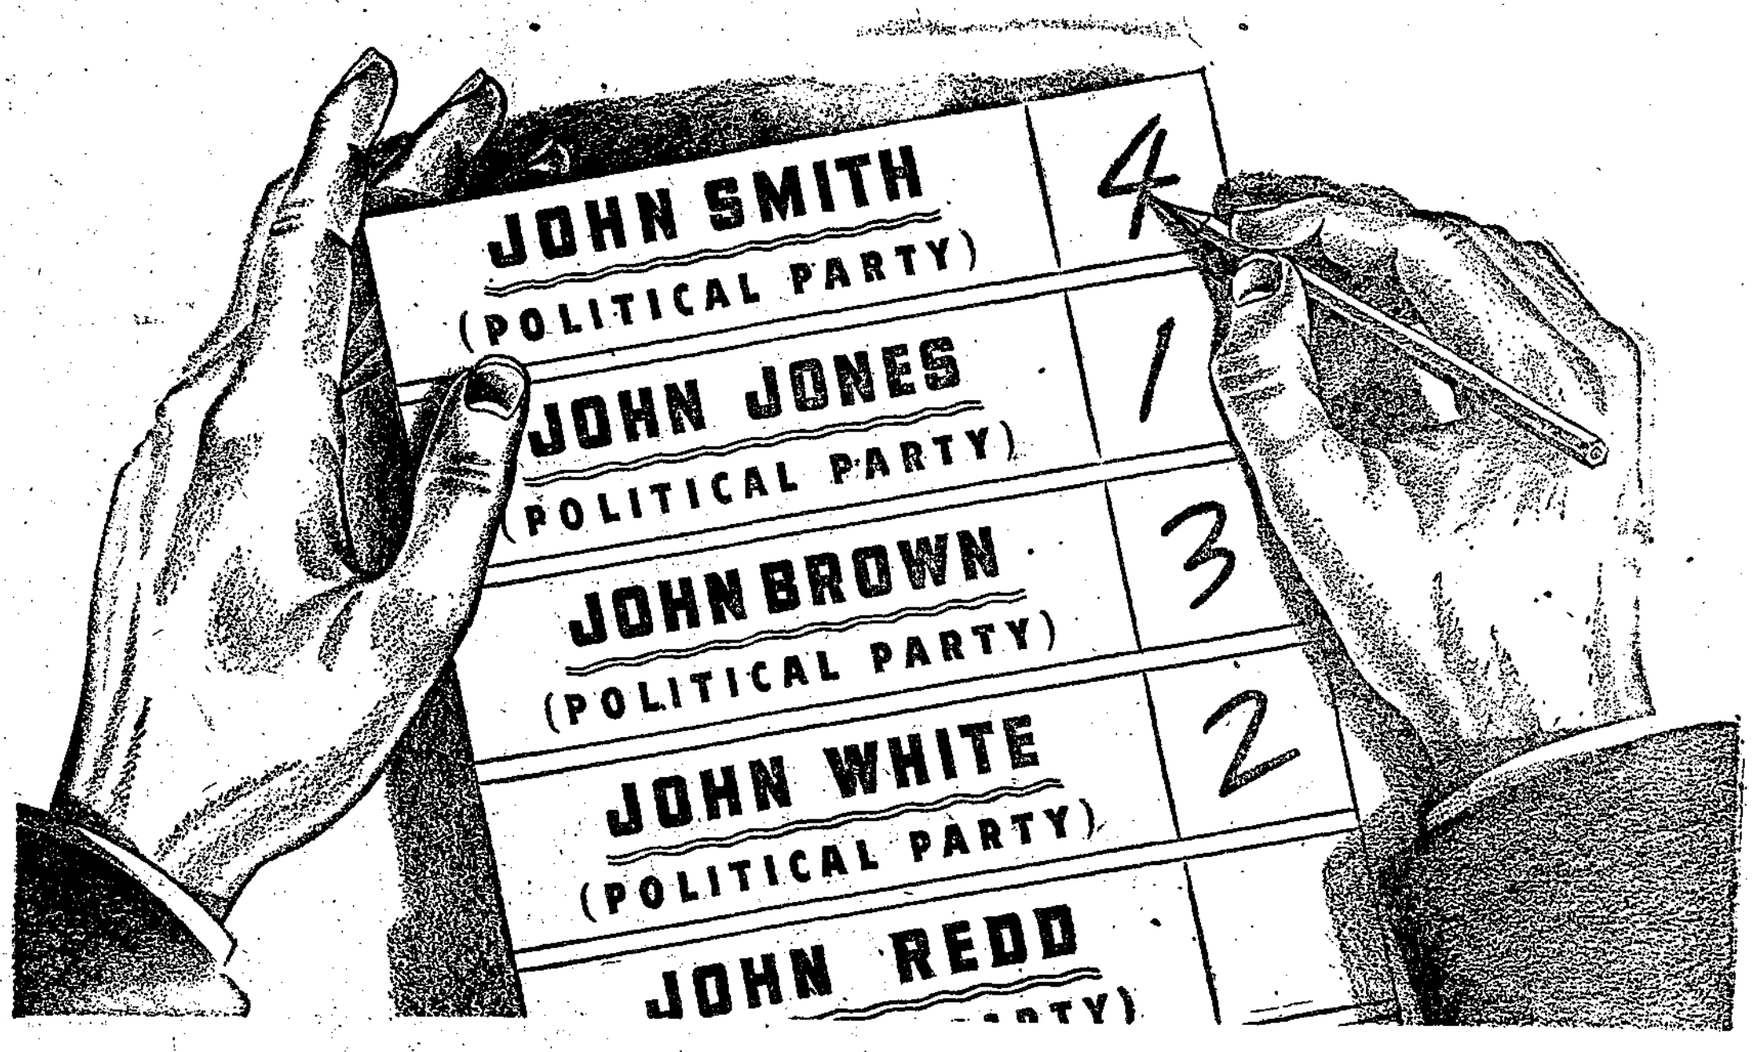
HERE'S WHY THE NEW SYSTEM IS BEING USED

The Voting system has been changed to enable every voter to cast his ballot for more than one candidate in order of his preference.

When you vote under the Alternative Vote system YOU GET MORE THAN ONE CHOICE. This will prevent any candidate being elected on a minority vote as has happened in the past. The candidate so elected in each riding will have received an absolute majority over all other candidates combined.

HERE'S HOW YOU VOTE WITH ALTERNATIVE VOTING

The Alternative Vote is as simple as the voting system used before only, instead of marking an X against your one choice only, you can mark 1-2-3-4 with your first choice as number one, your second choice as number two and so forth in order of your preference.



CUT OUT THIS MESSAGE FOR REFERENCE AND DISCUSSION.

AV-5

Fred H. Hurley .... Chief Electoral Officer
PROVINCE OF BRITISH COLUMBIA

What the PROGRESSIVE CONSERVATIVE PARTY Stands for...

OUR PLEDGE

THE B.C. Progressive Conservative Party is pledged to careful, efficient and honest administration and to courageous development of the God-given and matchless resources of this province for the benefit of all our people. We will protect freedom and enlarge opportunity for the individual as natural rights of all those who dwell within our borders today, and as a heritage for generations to come.

The B.C. Progressive Conservative Party believes that the welfare of the people is best assured by a minimum of compulsion by governments; that the increasing intrusion of government authority into the private affairs of the individual must be curbed; that the growth of bureaucratic controls brings burdensome and destructive taxation, and endangers the freedom of all our people.

The life of our province is the sum of the daily effort of all those who toil in mill or mine, factory, field or forest; in office, shop, school or home, and in the many other pursuits of our people. For all of them, the opportunity to work and save, to win advancement by ability and application, to found and maintain families, to find happiness and contentment, are of prime importance.

To achieve these aims, we pledge ourselves to deal reasonably and justly with the problems of all our people, to ensure equality of opportunity to all our citizens, to preserve freedom and to oppose monopoly.

The B.C. Progressive Conservative Party pledges itself to support in every way these principles and the actions outlined in its platform.

Leader B.C. Progressive Conservative Party

HOSPITAL INSURANCE . . .

We recognize the wide-spread dissatisfaction with the British Columbia Hospital Insurance Service as presently carried on in the Province.

The Progressive Conservative Party will institute a new plan of Government Hospital Insurance that will be on a non-compulsory, non-monopolistic basis, and will eliminate the problem of co-insurance.

EDUCATION COSTS . . .

That the Progressive Conservative Party will review the problem of School Finance as it exists at present, including mounting costs, and costs of school construction, with a view to effecting a more equitable distribution of the Province's contribution.

FOREST MANAGEMENT . . .

We will appoint at once a Commission of Inquiry to review the present Forest Management Policy in order to make recommendations as to how:

(a) to ensure perpetual yield of our forests;

(b) to provide adequate opportunity for small loggers, mill operators and all others who desire to use and develop the forest resources of the Province;

(c) to safeguard for the public the mining, power, fishing and recreational resources within all management license areas.

HIGHWAYS . . .

We prppose to continue and to accelerate the highway program laid down by the Conservative Section of the Coalition in 1943, which has been carried out continuously since then.

The B.C. Progressive Conservative Party will reduce the cost of license fees on all private passenger automobiles by 30% from the present prevailing license fees.

PACIFIC GREAT EASTERN RAILWAY . . .

As proposed by the Conservative Party members in the Legislature, immediately on forming a Government, we shall proceed to extend the P.G.E. into North Vancouver, with the final object in view of extending the railway from Prince George, into the Peace River area.

LIQUOR PLEBISCITE . . .

The B.C. Progressive Conservative Party stands for local option.

POWER DEVELOPMENT . . .

The B.C. Progressive Conservative Party will implement the Electric Power Act in accordance with the original intention of the Legislation, to provide power and light to our rural areas.

AGRICULTURE . . .

We advocate a reorganization and extension of the services of the Department of Agriculture, to make the services of the department, particularly in the information field, more widely available to the farmers.

We propose to negotiate with the Federal Government to make the Prairie Farm Rehabilitation Act applicable to the whole of B.C., so that our fertile but undeveloped agricultural areas can be brought under irrigation or be reclaimed.

PROVINCIAL-MUNICIPAL TAXATION REFORM . . .

The B.C. Progressive Conservative Party proposes the payment of grants in all areas where there is Provincial Government real property.

LABOR-MANAGEMENT RELATIONS . . .

The B.C. Progressive Conservative Party is pledged to give consideration to the reports of the Industrial Conciliation Act Inquiry Board Report, and to the report by Chief Justice Sloan on the Workmen's Compensation Act, at the next session of the Legislature, in the best interests of Labor, consumers and industry.

EXPORT TRADE . . .

The B.C. Progressive Conservative Party is deeply concerned over the deterioration of conditions in our basic industries in British Columbia due to loss of export trade. It is the firm belief and determination of the Party that some method can and must be found to simplify financial arrangements between the dollar and sterling areas of the Commonwealth and other nations. The Progressive Conservative Party will use its best efforts to bring about a betterment of trade within the Commonwealth.

SEPARATE SCHOOLS . . .

The B.C. Progressive Conservative Party believes in the democratic system of non-sectarian schools as at present established by law in the Province of British Columbia.

Vote PROGRESSIVE CONSERVATIVE JUNE 12

Published by the British Columbia Progressive Conservative Party

Roberts Creek Round-up

By MADGE NEWMAN

The Improvement Association will sponsor a Sports Day on July 1 at the Park. At a meeting of that organization, held in the Legion Hall, May 8, plans were discussed for the event, and it was decided to hold a dance at the Community Hall some time in June for the purpose of raising the wherewithal for prizes.

The park lies at the foot of Elphinstone Beach road, which cuts across the Sechelt Highway, or can be reached via Beach Avenue, which commences just below Roberts Creek Post Office. There is probably an absence of road signs. Just follow your nose; there's bound to be food there.

Further business given attention at the meeting was the disposal of trash in the district. For those interested — and who is not — if a hundred applicants agree to pay 25c per month, a truck will make the rounds monthly and pick up tins, bottles, etc. Larger articles, as bed springs, stoves and so on, will be charged accordingly.

There has long been a need of this service, judging by the unsightly array of junk lying besides the roads. Especially is the disgusting collection of debris, including carcasses of animals, tossed from bridges into the creeks, evidence that we need assistance in keeping our back yards clean.

The "Legion Ladies" can use more articles for their rummage sale on the 28th. If you can find anything among your souvenirs that you don't need, that might be useful to someone else, it would be greatly appreciated if you would take it to either of the following, Mrs. Edmunds, Mrs. Wallis or Mrs. Hughes, or notify them and it will be picked up. Children's outgrown clothing always sells well, as many such are as new. Many mothers are gifted in making over clothes for their youngsters, and would be glad to pick up coats and dresses for that purpose Household gadgets sell readily also.

The Legion Auxiliary is selling tickets on a raffle, the prize being a set of handwoven table mats, made only as Mrs. Georgina Johnston can make them, and coveted by all who see them.

Mrs. Cumming is the sec.-treasurer of the association.

The P-TA promises an interesting program on the 20th, when two teachers and two parents will participate in a panel discussion which should answer the questions "What schools expect of the home," and "What homes expects of the schools."

These questions could bear a little thought and it might prove interesting and in structive to many parents.

Judging by the tales brought home, the schools must put up with a good deal they don't expect.

It is doubtful if the homes know much about the school. More parents should attend P-TA and keep abreast of changing times and conditions. And have a pleasant evening to boot.

The project now under way at the Community Hall is the rest rooms. To this problem the Board is bending every effort, and it behooves all of us to assist in any way we can, since the Hall is the nucleus of all entertainment, and therefore used by the entire population. Money raised by the dance on the 24th will be used for this purpose, so if you do not dance you might still buy a ticket and feel you have shared with others in improving one small spot in your community. On the other hand, if you dance, you will enjoy doing it to the music of the Rhythm Larks, scheduled to play here on that night.

The Hall Board is coming up with another dance on the 31st, with the Sechelt orchestra to handle the music.

The Weiners Were Good!

Judging from the number of weiners eaten and the number of bottles of pop consumed, the Kinsmen party at the Memorial Park in Gibsons was a marked success. The Kinsmen invited the youngsters to a party at the park, for the young fry to pick up pebbles, rocks, and brush to ready the park for the May 24 celebration. According to the youngsters, the eats were more fun than was the rock-picking bee; but the job was well done.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

Important Notice

FROM THE MacKENZIE RIDING LIBERAL ASSN.

Owing to circumstances beyond the Hon. W. T. Straith's control, he was uuable to speak in Gibsons on May 14 as advertised. He joins with us in a sincere apology for any inconvenience and disappointment caused.

(The Hon. Mr. Straith was in northern B.C. when his aircraft flight was cancelled due to present gasoline shortage.)

Please accept our apologies.

LEGALS

LEGAL

LAND ACT

In the Recording District of Vancouver and in the vicinity of D.L. 1425, Group 1, N.W.D. Cape Cockburn, Nelson Island.

Take notice that Louis Harry Roberts of Billings Bay, Retired, intends to apply for permission to purchase the following described land:

Commencing at a post 20 chains East from the S.E. corner of D.L. 1425; thence East about 30 chains along the shore; thence North 20 chains; thence West 30 chains; South to shore.

Containing 40 acres more or less.
Dated February 20th, 1952.
LOUIS HARRY ROBERTS

NAVIGATION WATERS PROTECTION ACT
R.S.C. 1927, Chapter 140.

The Osborne Logging Company of Vancouver, British Columbia, hereby gives notice that it has, under Section 7 of the Navigable Waters Protection Act, Revised Statutes of Canada 1927, Chapter 140, deposited with the Minister of Public Morks, Ottawa, and in the Office of the District Registrar of the Land Registry District of Vancouver, in Vancouver, British Columbia, a description of the site and plans of a float approach, float, dolphins, loading gantry and small boat basin, proposed to be erected, constructed and dredged in Porpoise Bay, Sechelt Inlet, near Sechelt, British Columbia, between high and low water marks, in front of 1.07 acre portion of Block 10, (Plan 6457), District Lots 303 and 304, Group 1, New Westminster District.

And TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the Osborne Logging Company Limited will, under Section 7 of the said Act, apply to the Minister of Public Works, at his Office in the City of Ottawa, for approval of the site and plans.

Dated this 8th day of May, 1952.
E. F. COOKE,
P.Eng., Agent

"NAVIGABLE WATERS PROTECTION ACT."
R.S.C. 1927, Chapter 140.

British Columbia Power Commission hereby gives notice that is has, under Section 7 of the said Act, deposited with the Minister of Public Works, at Ottawa and in the Office of the District Registrar of the Land Registration District of Vancouver, B.C., a description of the site and detailed plans of an overhead power line following, more or less, the Easterly high water line of Salmon Arm of Sechelt Inlet from the vicinity of the Northeast corner of District Lot Three Thousand Three Hundred and Twenty-two A (3322A), thence back and forth crossing and re-crossing the Southerly and Easterly high water line of the said Salmon Arm of Sechelt inlet in the Northerly boundary of District Lot Three Thousand Two Hundred Sixty-six (3266), all in New Westminster District, Province of British Columbia.

And take notice that after the expiration of one month from the date of the first publication of this notice British Columbia Power Commission will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans.

Dated at Victoria, B.C., this 7th day of May, 1952.
BRITISH COLUMBIA POWER COMMISSION
by its Solicitor
J. L. WILSON

NOTICE OF CANCELLATION OF RESERVE

NOTICE is hereby given that the reserve established pursuant to Order-in-Council No. 13 approved January 3rd, 1947, on Lot 5963, Group 1, New Westminster District, comprising certain foreshore at Gibsons Landing, for the Department of Public Works, Canada is cancelled in so far as it relates to a portion of such foreshore surveyed as Lot 6298, Group 1, New Westminster, containing 0.3999 acres.

GEORGE P. MELROSE,
Deputy Minister of Lands.

Womens Institute News

Regular meeting of the Womens Institute was held in the Anglican Hall April 16, Mrs. J. Atlee in the chair.

Plans were completed for Spring tea and plant sale.

Mrs. K. Metcalfe was presented with an Officers pin by Mrs. J. Corlett on behalf of the members. Mrs. Metcalfe received her award in recognition of 26 years service with the Howe Sound, much of the time as Past President. The award came as a complete surprise to her. Miss Dobie, delegate to the Port Hammond Regional WI Conference gave a very fine report. Miss Dobie and Mrs. J. Corlett were appointed delegates to biennial convention to be held in UBC in June.

Next regular meeting is to be held at the home of Mrs. Fred Soames, May 20.

$100 A MONTH FOR LIFE FROM AGE 60

This is the plan* — suppose you are not over 50, you make regular payments to the Sun Life of Canada. At age 60 you start receiving $100 a month for life or, if you prefer it, $17,149.00 in cash—both amounts can be increased by accumulating annual dividends. If you are over 50, benefits are available at a later date.

FOR YOUR FAMILY
Should you not live to the age of 60, $15,000 will be paid to your family on your death.
*Slightly varied for women.

By completing the enquiry form below you can obtain details suited to your personal requirements. The plan covers all amounts of premiums from as little as $5.00 per month and the cash or pension can in most cases commence at age 50-55-60 or 65.

Reader's Right

Editor, The Coast News,
Sir: —

An open letter to the Department of Public Works.
Gentlemen: —

Having been over the proposed Agamemnon ferry road as far as we could go go by wheel, that is within 2 miles of Ruby Lake, I feel that your department is failing in its duty to the people of the Peninsula, Powell River, and also the Black Ball ferry company.

There are very capable men at present on the ground that are eager and willing to put in the road NOW — not next year or the year after, as Mr. MacIntyre implies in his campaign speeches. They have the machines and are offering to do the road so that it can be used this year, and having seen the route, I do not see any obstacle of any importance to stop them.

All we ask is your speeding up of your survey crew, and to meet these men, and make a deal either by the hour, day or station, and let them put the road in under your supervision. Surely, gentlemen, bureaucracy can unbend that much.

We do not hold with this procrastination when there is good weather for construction. We feel entitled to ask that the Port Mellon debacle be not repeated here; that is, starting to build in the rain.

If you have $200,000 as Mr. MacIntyre says, then give the local men a chance — and let's go!

— L. S. Jackson,
Wilson Creek.

Editor, The Coast News,
Sir: —

An open letter to the Department of Public Works.

I was amazed to read in your recent issue, the statement by Mr. Batt MacIntyre, that at his nominating convention at Powell River, he claimed the credit for a series of public work projects during the last three years in MacKenzie. Is the Liberal Association attempting to blungeon their candidate into office by an implied threat of more or less road work in this constituency depending on how the citizens vote? Since the Liberal Party has tampered with our voting procedure in this Province to maintain themselves in office, I suppose black-mail shouldn't shock us.

If it is the last thing a CCF Government does, it will be to remove road work from politics, and place it under an independent highway commission, based on geographic areas divorced from constituency boundaries.

Yours truly,
— Tony Gargrave,
CCF Candidate for MacKenzie.

She's at the awkward age, too old for teddy bears, too young for wolves.

— Reader's Digest

Clean Up Paint Up Campaign Now On

The Board of Directors of the Canadian Beautification Association announced recently that this year's annual Beautification Campaign will be held from May 10 to 26. Local campaigns will be conducted in more than 600 communities in all the ten provinces of Canada. Keynote for the campaign is the slogan: "Clean-Up! Paint-Up! Plant-Up! Light-Up!"

Aimed at the overall improvement of the Canadian countryside, Beautification Campaigns are a factor in making Canada attractive to visitors from elsewhere and play their part in the development of the important tourist industry.

The Canadian Beautification Association was formed in 1951 to carry on the work of the Canadian Beautification Bureau. With headquarters in Montreal it provides the national co-ordinate and assistance which are so very vital to a campaign of this nature.

A number of Canadian organizations have in the past extended their support to Beautification Campaigns. Included are the National Film Board, the Canadian Association of Exhibitions, Ontario Horticultural Association, the Canadian Association of Nurserymen, Dominion Association of Fire Chiefs, the Canadian Chamber of Commerce and the Canadian Paint, Varnish and Laquer Association.

Much of the work is carried on at the community level by the hundreds of Beautification Committees which each year direct the conduct of their own individual campaigns. They receive a great deal of support from the various Junior Chambers of Commerce across Canada, who have participated in Beautification Campaigns for a number of years.

Tennis Enthusiasts To Form New Club

Had your exercise lately? If not, consider tennis.

Next Tuesday evening at 8 o'clock in the United Church Hall the tennis enthusiasts will be gathering to form a tennis club here in Gibsons.

The formation of this club is going to be a cinch. Already it has money in the bank earmarked for development of tennis courts. Already courts are laid out over at the Memorial Park in the Bay area.

All it needs is a few willing enthusiasts who'll start the ball rolling — or, rather, who will start the ball swatting.

Pert Jane Wyman is starred with Bing Crosby and Alexis Smith in the light comedy feature "Here Comes the Groom" at the Gibson Theatre this month.

Around Murdoch's

By MYRNER

Little Billie Nichols is in Vancouver being treated for an infection which started in his hand, but we're glad to hear he is coming along nicely and will be home soon. With Billie is his mother, Mrs. A. Nichols, while his wee baby sister, Charlyn, who is barely three months old, is staying with her grandmother, Mrs. Dave Pollock.

Mr. and Mrs. Bill Murdoch motored up last Friday. Mrs. Murdoch had to return to Haney on Sunday, but Bill will be here for a week or so while they are doing some work on the 'Murpak' before he takes her away for the packing season. Accompanying Mrs. Murdoch down were Mrs. Ollie Sladey and her young son, Dougie. Patsy Sladey stayed with her grandparents, Mr. and Mrs. R. D. Murdoch while her mother was away. Mr. Bob Leith also went to Vancouver on Sunday and returned Tuesday via the Jervis Express.

Mr. and Mrs. Horace Williamson are in Vancouver, staying with their daughter's family while she and her husband, Mr. and Mrs. Milton, are away to California.

School News

By MAUREEN ROSS

Home-room entertainment on Wednesday, May 7, was sponsored by the Student Council. On the programme were Gilda Reitze and Sylvia D'Aoust singing "Sin," accompanied by Karen Stockwell; Wendy Smith gave a monologue titled "Boy Crazy;" and Karen Stockwell's selection on the piano was "Nola."

Bob "Slammin' Sammy Smear" Jack and Noel "Swing Away O'Callahan" Poole gave their version of a game of golf. Their caddie, Paul Foulkes, wheeled around a wheelbarrow, loaded with everything imaginable from a lantern to a life preserver.

Batt Addresses

(Continued from page 1)

additional appropriations and grants for maintenance was also voted for this riding. Amounts to be spent in the different districts are as follows: $15000 general maintainance on the Islands (52 miles of road); $62,000 maintenance of roads here; $20,000 Gibsons to Gower Point; $12,000 to take up old bridges, build culverts, etc., on main road.

Although the divisional engineer recommended 3½ miles of road surfacing towards Roberts Creek from Wilson Creek, the work cannot go ahead because of insufficient gravel in the district.

Mr. MacIntyre stressed the need of a rock crusher. "I have done all in my power," he said. "Only one rock crusher has been located and the owners want $300 a day. If I can find one for $80 per day, this would be more in line."

Speaking of the ferry, he said his efforts were responsible for getting the bill before the legislature with the result that the ferry was in operation in 1951 instead of several years later. Said Mr. MacIntyre, "The boys in the House were not too fussy about it, but I carried on and went to all the meetings. Finally I dined and wined the members. . . . got a report from the traffic engineers of the BB line. They said "not very sound. It will take 3 years of pioneering before it will show a profit — two additionl years for a sinking fund."

The ferry, he said has shown a profit from the start. It has carried 3,551 trucks, 10,902 automobiles and 90,000 passengers.

In the matter of the Port Mellon Road, Mr. MacIntyre phoned Mr. Byron Johnson and told him he "wanted a commitment, not a promise," and got it, with the result that a contract for $206,000 was let. The contract calls for the road to be completed in September, but it is impossible until November due to swamp difficulties at the Gibsons end.

Of the Liquor question, the MLA said he believed the vast majority of the people wanted a liquor store on the Peninsula, and he was successful in getting one.

Since the VON grant comes from the provincial secretary, who is also the Minister of Education, the Hon. Wm. T. Straith, who is speaking at Gibsons on the 14th, Mr. MacIntyre suggested that VON representatives write up the whole story of that organization's needs and present it to him then.

Touching on the subject of BCHI Mr. MacIntyre said that the operation of the province of B.C. is the biggest business of the province, and second is BCHI. 740,000 people have received benefits. 86 hospitals have received payment in full and the nursing personnel and others connected with hospital work have benefitted in higher wages and salaries.

Mistakes have been made, he said, and these will be ironed out in the next session.

Mr. MacIntyre made but one promise, with which he wound up his speech. "I will continue to try and do the very best I can, with what ability I have, to work on your behalf."

Captain Andy Johnston was chairman of the meeting and introduced Mr. Davis in these words, "Mr. Davis did a wonderful job in the last election, has known Batt for years, and whatever he said about him three years ago has proved to be true."

FI Members Hear Committee Reports

Seventeen members were present at the last meeting of the Farmers' Institute, to hear reports of latest activities of the Howe Sound group. They heard that the Sunshine Junior poultry club continues to make headway with each member having about 25 chicks; the Wildwood Junior Garden club had a hundred percent attendance recently when Norman Sargent explained the humble potato.

N. Stewart gave a short introductory talk on the subject of bees, and it is expected that bees will again be discussed at the next meeting.

Work on the old cemetery is to be continued soon, the meeting was told.

Ways and Means Committee reported that Mrs. Critchell of the Joy Theatre Players will have her group here on May 16 to present three one-act plays in the community hall.

School Grounds Raked; Cleaned by Students

Students of the Elphinstone Junior-Senior High School helped with raking the school grounds and the removal of stones from the grounds this past month, according to a report by Principal A. S. Trueman to the School Board. The students had also dug jumping pits for sports practice, the report continued.

During the month, safety on the school buses was discussed with the students, following some difficulty with overcrowding and some lack of proper precautions by students riding the buses.

Attendance at the high school was 92.72 percent during the month of April, which is lower than the March figure of 95.37 perecent. But there was considerable illness during the month.

To elaborate further on the Harry Thorn's housewarming; 'Twas quite an event and most definitely a surprise! Those participating were the Rev. and Mrs. Hugh Oswald, Mr. and Mrs. James Beaton, Mr. and Mrs. Harry Chester, Mr. and Mrs. Percy Farnsworth, Mr. and Mrs. A. B. B. Hill and N T. Hill, Mr. and Mrs. M. King. and Mr. and Mrs. J. D. Smith.

The evening was spent with Court Whist, prizes going to Mrs. Harry Chaster, Mr. Harry Chaster, Mrs. Oswald, Mrs. M. King and Mr. Mitchell King, and Mr. J. D. Smith. Then came Scottish dancing followed by refreshments. Mr. Harry Thorn, in a few well chosen words, thanked the uninvited horde for descending upon them in such spectacular fash ion and made the visitors feel quite at home. A tour of inspection then ensued with particular admiration given to the attractive dining alcove with its Persian tone and fretwork, and to the colorful bathroom in shades of robin's egg blue, daffodil yellow and lavish chrome trim.

Mr. and Mrs. James Beaton entertaining Mr. and Mrs. James Sinclair, Sr., prior to their return to Vancouver, full of vim and vigor after a week of browsing in the Gower sunshine.

Mr. and Mrs. Ernest Real enroute to Toronto and way points to meet their son Teddy, who has just completed his course in optometry in the East. Before returning to Vancouver, they will visit with the Stanley Beaton's.

Guest of the William Bow's at Stronlochie is Mrs. W. A. Tolmie of Vancouver. Keeping her figure trim weeding, digging and planting, while her bewildered hosts look on with admiration at her inexhaustible vitality.

Mrs. Tom Dick entertained the members of the Gower Point WA at their May meeting. Her garden and home looking very smart and lovely with their blaze of glory and new paint job.

Harry Chaster washing the face of Gower Point Store. Now complete with lights, things should really be looking up, and we wish the new operator much success in her new venture.

Checker Flag Again Flies Pacific Lanes

Canadian Pacific Steamships will resume in August Trans-Pacific Freight service, disrupted by World War II, it was recently announced.

The service will be started by transferring to the Pacific two of the company's four post-war Beaver ships now operating on the Atlantic between Canadian and British ports.

Making their home port at Vancouver, these two Canadian-manned Beaver ships will provide monthly service starting August 31 between Tacoma, Seattle, Vancouver, Yokohama, Kobe, Manila Cebu, in the Philippines, Hong Kong, and return.

CORRECTION

The Husband Home Freezer unit, advertised last week by Howe Sound Trading Company, is priced at $459.50 and not at $495.50 as was quoted in the advertisement. This means that the materials to build the unit are even cheaper than what the advertisement says — and thus are well worth dropping in to see.

Woman Raises Moths To Make Her Living

Mrs. Mary Holmes has one of the oddest job in the world — she raises moths for a living.

In fifteen years Mrs. Holmes has carefully nurtured almost five million moths, feeding them their vitamins of fish meal and yeast, seeing that they have a pleasant, roomy temperature of 80 degrees, and even providing them with special blanket material and suits.

"Why, just a few years ago, I got 74 suits for my moths," recalls Mrs. Holmes, "and it is one of my duties each day to sprinkle healthy moths on the garments."

Every year a ceaseless battle is waged against the onslaughts of moth larvae which destroy millions of dollars worth of clothing. That great strides have been made in moth prevention is due, in a way, to the strange position which Mrs. Homes holds in the Larvex plant.

She raises the moths so that the chemists may experiment continually and also that demonstsration dishes may be made up which show woolens that have been treated with Larvex, and woolens that have not been treated with the preventive.

EIGHT VITAL FACTS

Mrs. Holmes also has a few vital facts on moth damage prevention which may save all of us a good deal of money when moths gather in conclave in Spring. They are:

1. Contrary to popular belief, the flying moth has no mouth and cannot eat;
2. Moth damage is caused by the worms or larvae that hatch from the eggs laid by the flying moth;
3. Killing the flying moth scarcely prevents moth damage, because the chances are that most of her eggs have already been laid.
4. Paper bags often fail to prevent moth damage, because moth eggs laid in clothing are invisible to the naked eye. When the clothes are packed away with moth eggs on them, the worms that hatch cause greater damage because they can eat undisturbed.
5. Odors such as paradichlorobenzene, naphthalene, camphor, tar and cedar have no effect on the flying moth or the mothworm. However, if the gas from camphor bath or crystals, such as paradichlorobenzene and naphthalene, is sufficiently concentrated and hermetically confined these substances are effective.
6. Spraying insecticides do not mothproof because, while they kill insects, they evaporate and they leave the cloth unprotected.
7. DDT, and DDT 'bombs,' are improved insecticides but not improved mothproofing agents. Use DDT to kill flies, mosquitoes, etc., but use a mothproofing product to prevent moth damage.
8. Mothproofing means to treat the fabric so that mothworms cannot eat it. A mothproofing product is the proper way to attack the moth problem. Washing removes the treatment but dry cleaning does not. The mothproofing product continues to give complete protection to clothes, woolens, carpets, etc. for at least a whole year.

A snuff manufacturer is a man who goes around putting his business in other people's noses.

West Sechelt

By MARGARET ALLAN

Andy Wilson has had to go back to the hospital, the result of being too active after an operation. That is learning the hard way.

Lance Taylor was up for the weekend visiting his parents — came in handy to help with the plumbing.

Carol Walker is all taped up after falling of her tricycle. She now figures waiting 'til she is three, as two is too young.

We have been in the habit of criticising the roads, now it is only fair to praise them when they are good. We certainly appreciate the improvement.

Sorry to hear about Mrs. F. Postlewaite being ill in bed. Hope she will be up soon. Don Taylor and his fiancee are visiting his parents, Mr. and Mrs. N. Taylor. Wedding bells June 14. The bride-to-be is Fern Jepson of Coquitlam.

It is all right for the birds to be so happy, but why at four in the morning? Yes, the garden is lovely; the rockery is at its best. I hear that Pastor Elliott's garden is lovely, too. And I understand he and Mrs. Elliott had to get out of bed in the middle of the night to heard the cows away a good half mile. I hear the Emerson children have the chicken-pox.

The husband who knows where his wife keeps her nickels has nothing on the husband who knows where the maid's quarters are.

C.C.F. Program for Social Welfare and Health

A. It must cover all citizens, regardless of whether they are able to contribute or not.

B. The benefits must be high enough to provide for modern standards of living.

C. The social welfare must be financed out of general revenue.

D. The C.C.F. will roll back the hospital insurance premiums to the former rate of $21.00 single and $33.00 for a family per annum.

E. The hospital Act will be amended to provide for free coverage of low income groups, the abolition of co-insurance, the supplying of adequate care for chronic cases and increased benefits for remote areas of the province.

F. A C.C.F. government will gradually extend the hospital insurance plan into a socialized health plan.

G. Pensions will be established for the unemployables, together with suitable training and rehabilitation schemes for the handicapped.

H. Special housing projects will be built and rents subsidized for aged and handicapped persons.

No plan of social security can or will endure unless we progress from the system of private ownership to that of public ownership, which alone can ensure the full employment and abundant production on which all social welfare is based.

SECHELT

By ARIES

So pleased to find at least one trail being cleared. Today we were able to get a walk through the woods. Now if the mothers can keep the young fry from getting the axe out into the woods, they may be clear for a while. Seems every Saturday the thing to do is to copy Dad and sail forth with an axe and chop down a few trees. It's a wonder that a few heads don't get split the way those axes are wielded around. Give them a spade, mother, and let them dig a little garden. Grow some flowers for the childrens table in the Legion Flower Show and win a prize — something constructive, not destructive.

We are sorry to hear that we are to lose W. Youngman, who has lived on the Peninsula both at Granthams and Sechelt for some time. Educated at Framlingham College, England, he held a commission in the RAF from 1914 to 1918; has been a lay-reader in the Church of England, both in England and Canada for 25 years. He is now to be ordained deacon by the bishop of Qu'Apelle, the Right Rev. Micheal Coleman, Trinity Sunday, June 8, in St. Paul's Cathedral in Regina. He will be installed at the Vicarage on Godon's reserve and have charge of the church there, and also of the church at Daystan reserve. We are happy that Mr. Youngman is realizing his life's ambition. We shall miss him more than most, as we both came from the same place practically in England and had many a pleasant evening talk about the old loved places. We wish both Mr. and Mrs. Youngman every happiness in their new location.

Understand Judy Lawrence had a birthday recently. Happy birhday, Judy! — althoug a little late with the greetings.

Mr. and Mrs. Youngson were in town for a few days, hope the little change did them good.

GARGRAVE OPENS VIGOROUS CAMPAIGN

(Continued from page 1)

worker, dwelt for some time on forestry problems. He said, "History will prove that the twelve forest management licenses granted to date, will prove to be a bigger steal than the CPR land grants ever were." He told his audience that many loggers in this constituency had not been able to find work since last December.

"When people talk about high wages, they should remember this," he said. He maintained that the high price of lumber was caused by high stumpage rates, stating that a small operator pays $16.00 a thousand for the privelege of cutting a few poles, while big operators pay .60c a thousand for fine stands of Douglas fir.

Gargrave reminded his listeners that he had no handouts from large corporations to finance his campaign, and all campaign expenses were paid out of the nickels and dimes contributed by working people.

He concluded by saying that the present government had made a mess of Hospital Insurance, and asked the voters to give his party a chance. "The CCF will do the job," he told them. A question period followed.

The CCF candidate pledged himself to assist in the completion of the ferry project. "This is necessary," he said, "to develop the coast of B.C."
