Young fry fish derby startles Hopkins shiners

By MARGARET J. HUNTER

The sound of Eric Thomson's bagpipes brought to a close the third Annual Fishing Derby at Hopkins Landing on Aug. 22.

The Shiner Derby was open to all residents of Hopkins under six years of age. Winners were: Nancy Brant with the most shiners, Bob Davis with the second most and John Hopkins with the third most. Young Bobby Hopkins came away with the prize for the tiniest shiner.

The Fishing Derby was open to all residents between the ages of six and 18.

Barbara Dawson caught the heaviest salmon; Eleanor Hopkins caught the most fish and Libby Hopkins caught the second heaviest fish; Rusty Harrison came away with the prizes for the smallest fish and the strangest fish.

After luncheon the children from seven to eighteen entered dinghy and swimming races, also diving and driftwood competition for points.

The prizes were given out by Mrs. Florence Hopkins to the following for collecting the most points in their age groups:

Mark Elworthy and Libby Hopkins, 7-9 years.

Ron Hunter and Eleanor Hopkis, 10-12 years.

Dave Skidmore and Helen Smith, 13-14 years.

Hamish Donaldson and Elizabeth Carson, 15-18.

The Suntan and Freckle contests were won by Dave Trent and Ron Hunter respectively.

Mrs. Chutter took the first prize for the ladies nail driving, while Mrs. Smith took home the rubber hammer as the booby prize.

After supper the spectators gathered on the wharf to watch speed boat races. John Carson, Jr's, boat was the winner in the 18 H.P. and under class and Don Crombie and Tom Helina did their stuff in the open race.

John Carson, sr., showed he was the better sailor by sailing around Shelter Islands and back.

Men's tug-o-war was won by the north end of Hopkins with Tom Hopkins as captain.

The most interesting events of the day were the relay swimming races. North Hopkins won the 12 and under class with Diane Hopkins as the captain. In the 13 and up class, Soames Point challenged Hopkins, and Hopkins came home in the lead with Gail Hunter as captain.

To have a day as successful as this, there is a lot of thanks due to many people including John Carson for leading a wonderful sing song and also to Mr. and Mrs. Hamner of the Hopkins Landing store for donating the hot dogs, pop and coffee that everyone enjoyed in the Community hall.

The day ended with the teenagers having a dance in the hall.

European tour by air

It was quite a trip, but Dr. and Mrs. Hugh Inglis of Gibsons journeyed their way across the Polar route to Scotland and from there covered a considerable portion of Europe.

They left Gibsons about July 16 and flew CPA to Edinburgh where they were guests of the Canadian Medical Association at a meeting with the British Medical Association. This lasted five days. They then moved down to London for four days, Paris for two days then on to Nice where they took the bus along the Riviera to Genoa. Overnight they spent in Milan then had two fine days in Venice.

Heading northward they moved into the Innscruck and Lucerne country where they meandered for a while then took the boat trip along the Rhine, taking in Brussells as a side trip and winding up the European tour at Amsterdam.

Both the doctor and Mrs. Inglis report a wonderful trip and the doctor who took many photos en route is awaiting their arrival in Gibsons. They returned home on August 25.

WINNS ON HOLIDAY

Mr. and Mrs. Harry Winn, the former telephone representatives for this area have left on a vacation which will take them into the interior of British Columbia.

FIREHALL READY FOR ROOF

Work parties have been busy laying cement blocks on the North Road fire hall and have nearly completed the walls. A fine co-operative spirit is reported by members of Volunteer Fire Services and required help has made itself available when needed.

Special thanks go to Syd Smales, local bricklayer who headed a work party and offered his expert advice on how to get the job done. Universal Timber also donated a truck and loader operated by Bruce Campbell to haul fill. Dal Triggs also donated a day's work hauling fill to the new hall in his truck.

Others who have helped out include Ernie Reitze, Jim Lockhart, Alf Winn, Eric Cooper, Bill McAfee, George Weal, Bill Wright, Bob Barnes, Len Phare and Ace Lefler.

Sunday's bush fire on the Headlands bluff was quickly brough under control. Two trucks responded, one a tank truck owing to there being no water supply on the mound. The firemen at the time were getting ready for the swim meet at the Municipal float

3 drown

Up to press time no word had reached Sechelt RCMP of the finding of any of the three bodies of a man and his two sons who were apparently drowned Aug. 28 in the vicinity of Egmont, near Earls Cove

The victims were William Marshall, 50 and his two sons William, 8 and Donald, 7. They left Egmont wharf in a 10 foot cutboard motor boat laden with cedar shakes. They were to be taken to a home Mr. Marshall was building about a mile from Egmont.

Where this mishap occurred is not far from the Skookumchuck where the tide race creates continuously disturbed water. RCMP and local searchers have so far found no trace of the trio. Besides the mother, Mrs. Marjorie Marshall, there is a daughter Francis, 10 and another son Calvin, 4.

$300 to Library

Gibsons Public Library Association has just received a grant of $300 from the Public Library Commission.

The commission, appointed to act on behalf of the minister of education, is responsible for the administration of the Public Libraries act and for the promotion, by counsel and encouragement, of the establishment and extension of public library service throughout the province.

Out of its annual appropriation from the legislature, for the commission has made the assistance to public libraries, current grant in recognition of the valuable public service being performed by the Gibsons Public Library Association.

The money will be used to help in meeting the ever-increasing demand for books.

Signs name Gibsons sts.

Gibsons streets now carry signs bearing names of streets on which they stand.

These name plates have been scattered around the village in order to make it easier for people, specifically strangers, to find their way about.

Gibsons Village commissioners have worked on this idea for some weeks, realizing the village population was increasing and more homes being built. As a result more people were putting pressure on the village commission to have something done to make it easier to identify locations.

Before purchasing the signs the commissioners examined various makes of street signs and found a style they thought suitable, it was explained at Tuesday night's meeing.

Actually 50 were purchased at a cost of $473.54. They were erected under direction of Fred Holland of the municipal works department.

Another item concerning the municipality was the painting of the Municipal Hall by John Melhus at a cost of $123.50.

A letter from a local trucker explained that in future $6 an hour would be charged for use of the truck and driver instead of $5, the rate at present in force. The commissioners noted the letter said increasing costs caused the need for an increase. Contents of the letter were noted for future reference.

Accounts totalling $3,499.19 were scrutinized and ordered paid. Water costs absorbed $2,855.57; roads, $351.34 and general $292.28.

The next meeting of the commission will be held Sept. 22 to allow commissioners to attend the B.C. Municipalities convention in Kelowna.

Council was informed various businessmen were delinquent in payment of business tax and that the matter was being checked for future action

Invention will aid motorist

An invention which should have a wide appeal to motorists has been produced on the Sunshine Coast and should soon be on the market.

It will be a particular boon to motorists who travel at night becouse this invention could be at its peak at night. It is an electrically lighted magnifying glass on a flexible arm. Your map is attached to a small board on which the apparatus works. Press a button on a battery fed light under the magnifying glass and you wil lhave no difficulty in following your course on a map or in finding out where you are.

This invention is being produced and marketed by the Magnamap company of Gibsons with E.W. Shaw as president. He has announced that two test markets will be utilized o discover the potentialities of specific markets. These test points will be Seattle and Vancouver.

Ballet classes

School sessions will be underway Sept. 9 and so that aspiring dance students need wait no further to begin their fall term Miss Anne Gordon will re-open her Ballet Academy the same day.

The school of dance, which is taught according to the Royal Academy of Dancing syllabus, meets weekly on Wednesdays in the Gibsons Legion hall, with a women's class first at 1 o'clock. After this, kinder garten pupils meet a 2, and progressively through the afternoon, other classes of young people work by grade. Some changes may take place in times of classes, but unless otherwise informed, students will come to class at the same times as last year, on the first day.

For information about enrolling in Miss Gordon's classes, about equipment, or about the newly formed Women's Auxiliary to the Dance School those who are interested may phone Gibsons 370F.

What smiles do!

It happened on the CPR Princess Pat on a trip to Victoria. Mr. and Mrs. Mel Usher were wandering about the boat looking for some people to talk to and came across two visitors from the United States, Col. A.M. and Mrs. Gruhl and struck up an acquaintance with them.

This happened in 1954 when the Ushers were on a 19th wedding anniversary trip and the Gruhls on their 30th wedding anniversary trip.

A few days ago the Gruhls journeyed to Gibsons to meet the Ushers so they could celebrate their 24th for the Ushers and the 35th for the Gruhls, wedding anniversary.

Mr. Gruhl who hails from Racine, Wisconsin, has done considerable work among Boy Scouts in his area and was a ranking official in the Boy Scouts of America.

VICTORS EARN PRIZES

It was a great day for the younger fry Saturday when the postponed July 1 water sports were run off. Members of the Volunteer Fire Services were in command and handled the afternoon events in fine style.

Mrs. Norman Geoghegan and Mr. L. Wray were judges of racing and diving, also the other events. Highlight of the afternoon for those hundreds seated on the bank overlooking the Municipal floats were the greasy pole event and the log rolling.

Merchants who donated prizes for the various events were: Sunnycrest Motors, Super-Valu, Ron Haig, Totem Realty, Gibsons Hardware, Gibsons Meat Market, Shell Oil Service Station, Steer Inn, Gibsons Loggers. and Sportsmen's Supply, Lang's Drugs, Marine Men's Wear and Graham Barber Shop.

The large numbers of smaller fry taking part in the swim events surprised officials in busy lining up contestants and in some events there were as many as 13 in the lineup.

Keeping the floats clear of spectators gave officials a chance to run off the events without delay. While the greasy pole was spectacular with various contestants gyrating towards the water with the greatest of ease. It was felt the log rollers got off too easy and a two-out-of-three test should have been arranged to allow for better competition and more thrills. Some contestants were not on the logs after their start, for more than several seconds. They could at least have had a warm-up test before competing. It would also have pleased many of the spectators if the barefoot youngsters were in a class of their own with the caulk-booted contestants doing their stuff in more professional manner.

However, the afternoon was well spent and resulted in some fine swimming races. It was a good start for next year's bigger and better event which is already being considered in the paper stage at any rate.

Here are the results of the various events:

Girls under 8, Marilyn Hopkins, Patsy Feeney.

Boys under 8, Ronnie Evans, Malcolm Winn.

Girls, 8 and 9, Nelie Johnson, Libby Hopkins.

Boys 8 and 9, Joey Gibson, Alan Wilson.

Girls, 10 and 11, Diane Hopkins, Carol Thompson.

Castaway party at Redroofs

By PAT WELSH

The annual costume Castaway party held by Redroofs Beach and Country Club was a delightful affair on the night of August 29.

It was divided in three divisions this year, the small fry, teeners and adults. The small fry gathered at the home of Mr. and Mrs. A. Jackson from 7 to 8 p.m., danced, enjoyed games, drank pop, devoured doughnuts and made merry. First prize winner for the most original dress went to Tove Hansen who was a delightful Spanish Lady with her hair in a chignon bound with pearls, a red bow with long streamers on her head. Her gown, floor length, was in tiers of red, black and white with a laced tight bodice.

Chinese gentlemen and Japanese ladies danced together, and small Indians with bows and arrows whooped and did a war dance. Another small girl was a member of the Fire Brigade and brought her dog along dressed in red polka dots applied with hair lacquer. The young fry had a ball.

The teeners met at the home of Mr. and Mrs. T. Cruise. Julie Pearson won first prize as a fireman, there were pirates, clowns, and bathing beauties, frogmen and brigands. All danced and made merry, making a most attractive picture. After refreshments they continued their merry making at verious homes.

The grownups met at the home of Mrs. W. Dix, who was unavoidably absent. Mr. and Mrs. Howard Cleveland were host and hostess and greeted the guests. This was a gay assembly, and showed wonderful ingenuity in ideas. Mrs. Chris Taylor was a sea maiden draped in fish nets adorned with corks, flashers, lures and star fish which won her first prize. Annie Oakley complete with gun was dancing with an Indian chief, one of the belles of St. Trinians made her appearance in a pleated white brief skirt, sweater and blazer, her two long blonde braids down her back. She, or rather he, turned out to be Ross McAllister behind a mask.

There were hula girls, ballerinas and fire belles. The whole Pearson family came as firemen. Herbert Hunt, Sr., won the men's most original costume, he was Mephistophilies.

It was an enjoyable party for the windup of the summer season. Dancing was enjoyed and games. Refreshments were served on the patio lit with torches, which added to the enchanted scene.

Community spirit

Sunday's swim meet at the Municipal dock revealed two important things, the result of the Kinsmen club effort to teach children to swim and the desire of Gibsons merchants to help along a community effort by donating the required prizes.

Sunday's event replaced the one postponed July 1 when a sudden heavy rain forced abandonment of the program. Since then the Volunteer Fire Services members, generally known as the fire department, kept their July 1 organization intact and were able to go ahead two months later with the original program.

It goes to show what can be done with organized determination. That determination, besides being shown in the effort to give the youngsters their big day, was also shown in the handling of the afternoon's events. The floats were kept clear of persons who were less in the way when on shore. This helped speed the handling of the numerous races, diving competitions, log rolling and a greasy pole competition. It showed what determined organization can do.

That same determination can be utilized sometime in the future. It is hoped soon it will be possible to organize a Gibsons Booster club which will be an organization to handle all major events of the district with the support of all organized bodies.

Its possibilities were revealed during operations leading to the July 1 celebration when with little time available the Legion executive was able to line up a good assortment of events for July 1.

If it has not been said before in these columns it will be said now and that is the July 1 celebration organization was the smoothest event the editor of this paper has ever been connected with in Gibsons. This organization should be maintained for future events. It should be the focal point of any celebration or major event Gibsons will put on in the years to come.

So Gibsonites should be alert for the formation of the Gibsons Booster club and give it their full and hearty support. Gibsons can do with a central organization which can call on any other organization to help out at specific times on a specific job.

Formation of such a club will do away with the usual leave it to George attitude. The club which should have on its executive members from all other organizations will be able to muster strength when and where needed. Think it over, and when the call is made for formation of the club, be Johnny-on-the-spot and help make Gibsons a real community-minded place.

The stay - at - homes

Holiday times are especially invigorating for those who are not holidaying. The stay-at-home, work-all-day husband, whose family is at the cottage, is expected to perform many new tasks, such as feeding himself, washing the dishes and making his bed. If he measures up to these assignments he may find a new interest in life around the home. Even dodging work is apt to stir his mind, as though improvising labor-saving devices such as putting the frying pan in the refrigerator after breakfast, instead of washing it. Such great inventions give a man a fresh sparkle, though the refrigerator may get dingy.

Down at the office, the holiday season offers like interests. Some of the work of those on holidays may turn out to be necessary after all, even though the holidayers had been considered unnecessary. Doing their jobs is a challenge, A portly executive finds himself forced to wrap a parcel and look up the correct address to put on it. This leads him into discovering the files, a labyrinthine area of the offices where he begins to understand something of the frustrations and excitements of explorers. The late-afternoon when he types a letter all by himself, finding the paper, carbons, envelope and an old stickumless stamp — this experience grows extra knobs on his brain and makes him a better man. Holidays are invigorating. — **The Printed Word.**

Sunset at Halfmoon Bay

By LETA HANNEY

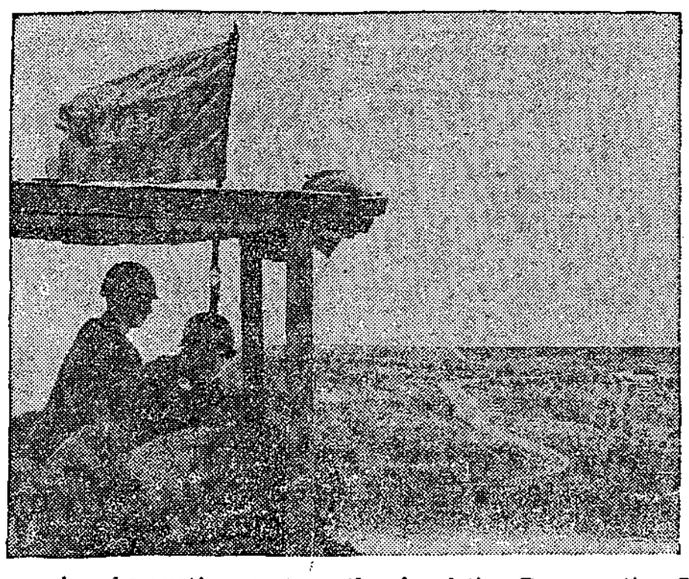
I gaze in awe, as I behold
The glory of the setting sun,
As he turns to molten gold, the shimmering sea,
And as far as eye can reach
High on mountain, low on beach,
The beauty stirs my soul with ecstasy
Lovely tints of pink and green,
On the seagull's breast are seen,
As he homeward flies across the gleaming bay,
And the eagle, high o'erhead,
Touched with lavender and red,
Circles to his nest, at close of day.
Statley sail-boats passing by,
Bathed in glory from the sky,
Seem like phantom boats from some land far away,
All this beauty, thrilling, grand,
Painted by the Master Hand,
The sun in setting, brings to Halfmoon Bay.

Travellers in print

People who travel on buses no matter what part of the world it might be do not realize they might become the subject of somebody's article in a periodical. That is just what happened to Eric Thomson and his wife while travelling in Scotland last year.

A young woman by the name of R.A. Ross had an article published in the Scots Magazine and in it she wrote: Last year there was a Canadian lawyer who had come home to see the little farm he had just inherited in the Orkneys. "Keeping it?" he said, "I am indeed!" It had been in his family for some hundreds of years. His wife, though nearly 40 years in Canada, still spoke with the native tongue of her native Scotland.

Mr. Thomson remembers the incident and also has a copy of the magazine containing the article.



An observation post on the Armistice Demarcation Line — in the distance (on right) can be seen another post. Since 1956, when the United Nations Emergency Force (UNEF) was created, a constant vigil has been kept along this line. The 5,500 men now forming this unique army come from Brazil, Canada, India, Norway, Sweden and Yugoslavia.

Johnston Twins on leave in Britain not Norway

Ronald and Roger Johnston, twin sons of Magistrate and Mrs. Johnston of Sechelt in their correspondence home report they are standing by ready for a three leave to Norway.

In the same letter Roger reports he is now a foster-parent having "adopted" an orphan girl in Greece. The expense involved, he writes, is $15 a month and he writes "so far I am enjoying it immensely." The girl is Vassiliki Tomba, 11, in grade four and her favorite subjects are history and religion. Her father died of cancer in 1955 leaving two sisters and a mother with a monthly income of $10 with 20 sheep and four goats.

Roger also reports his recent trip to visit holy places in vicinity of Jerusalem has helped him stimulate a deeper and increased study in his working knowledge of scripture.

Judging from the space gap in letters covering almost a month something must have occurred and the next letter reveals the Norway trip had to be cancelled so instead both lads took leave in England where they spent two weeks, making the Union Jack club in London their headquarters.

About this time came a series of postcards, some of them photographs such as one showing one of the twins feeding pigeons at Trafalgar square, Nelson's monument, Tower bridge with a freighter passing through, a bobby on duty at Ludgate Hill, the Horse Guard sentries at Whitehall, among ohers.

In London they visited Buckingham Palace, the Mall, Pall Mall, Leicester Square, Trafalgar Square, Regent Street, Hyde Park, House of Commons Westminster Abbey, St. Paul's, Madame Tussauds, and many other places usually visited by the hurrying tourist.

The first letter from back in Gaza explained the trip to England proved highly interesting and was a great change from the local (Gaza) scene. Leaving London, they toured some of the countryside after taking in the usual changing of the guard and other military scenes.

The correspondence revealed the fact the lads would have a longer leave due them in October of this year, after having served a certain length of time in the field. On this leave they hope to get to Norway and are trying to arrange to have the leave time start when they land in England instead of when they leave Gaza. This would give them a longer period for visiting outside England.

Roger reports that after being in Rajah for an eight month period he is leaving to join a signals detachment at an oasis named Dier El Belah. This he regards as a pleasant location and a welcome change.

The boys also write about the possibilities of leave to Canada some time in October which might be coupled with their leave to Norway. Judging from comments on the expectation of leave the members of UNEF on the Gaza are like all other troops, always looking forward to their next leave, particularly when it will be in one's home land.

The fellow with money to burn seldom sits by the fire.

B of M Personal Chequing Accounts Simplifies Paying Monthly Bills

Almost everyone agrees the quickest and safest way of paying bills is by cheque. Until recently, there have been only two types of accounts on which to draw cheques — current accounts and saving accounts.

Now there's a new type of account 'specially designed by the Bank of Montreal to meet the needs of husband and wife who pay by cheque. It's the B of M Personal Chequing Account, available at the **Gibsons** Branch.

Personal chequing accounts are economical to operate. You pay nothing in advance for your cheque-book, the service charge is only ten cents a cheque. And there's no charge for deposits to your account as there is with a current account in which there's a charge of ten cents for each entry.

With a B of M personal chequing account, you receive a quarterly statement, instead of a passbook. And your cancelled cheques, which are held by the bank for 20 years, are readily available to provide the best possible receipt for the bills you've paid.

If you'd like to hear more about this convenient new B of M service, **Gordon Goertzen,** accountant at the Gibsons branch of the B of M will be happy to give you the details. See him soon!

FIRE HAZARD

whether on the highway or in the woods - BE CAREFUL!

A carelessly dropped match, cigarette, or even pipe tobacco ash can lay waste to a forest that took a hundred years or more to grow — require another century to replace.

In this area only a prolonged rainfall will lessen the extremely hazardous condition.

So when woods travel is restricted because of fire danger — help protect lives and jobs — observe the closure regulations.

Halfmoon Bay

By PAT WELSH

Quite a few summer residents have gone from our midst. Some may come up for a few weekends. All have had a wonderful time and the youngsters stayed in their swim suits until the last possible moment. There were cries of "Goodbye, See you next Easter" as the various cars laden with children, family pets and boats pulled away from their summer homes.

Others arrived to spend a lost weekend, including Mr. and Mrs. G. Laird, Christopher and Robin; Mr. and Mrs. George Simpson, Susan, Carol. John and the twins Cathie and Jamie who weekended with Grandma Simpson at the Wee Pine Knot.

Mr. and Mrs. Ray Claydon, Sally and Philip are guests of the Frank Claydons from their home at Okanogan Mission, B.C. Mr. and Mrs. M. Hanley weekended here with Mrs. I. Hanley. Mr. and Mrs. Bill Thom enjoyed a visit from Mrs. Thom's sister and husband, the W. Clayton's. The Thoms left for Hundred Mile House for a few days and to see off their daughter and husband, the John Ruffells who left with them and will go on to Burns Lake, where Mr. Ruffell will teach school.

Mr. and Mrs. C. Lunn and Michael will leave for Prince George on Munday. They enjoyed a brief trip to Kelowna last week. Mr. and Mrs. J.E. Macdonald and family returned to their home in Vancouver after spending the last three weeks here at the Ken Argue cottage. Shane Welsh celebrated his 13th birthday on Sunday with a cake and ice cream party, his guests being the only two youngsters on the beach at this end, Ruth and Peted LeFeaux.

Mrs. R. Greggs has returned from Vancouver. She admired the floral display at the Exhibition and thought the Oriental theme quite good. Julius Sather of Redroofs is confined to St Mary's Hospital and at last report he was resting comfortably.

Ne arrivals at the Redroofs resort are Mr. and Mrs. P. Mullen and Mr. and Mrs. Nicholson Sr., and Mr. and Mrs. Nicholson Jr

5 PERCENT INTEREST

and unconditionally guaranteed by the entire resources of B.C!

PARITY BONDS OF $100, $500 AND $1000
REDEEMABLE ANY TIME AT FULL PURCHASE PRICE

For the first time, the people of British Columbia are invited to participate in, and profit financially from, the development of one of our Province's greatest enterprises. The offering of this bond issue, exclusively in B.C., means also that interest which normally would be paid to people outside the Province will be paid directly to British Columbians.

The PGE is now one of the world's most modern railroads and a vital factor in British Columbia's growth. The three year, 5% bonds of the Pacific Great Eastern Railway that are now being offered are the soundest bond buy on the market — an excellent way to let your savings earn more for you.

INTEREST: Interest at the rate of 5% per annum will be paid quarterly on the 15th day of December, March, June and September during the currency of the bond.

DATE OF ISSUE: September 15, 1959.

DATE OF MATURITY: September 15, 1962.

REDEMPTION: Should you need the money in a hurry, you will be able to cash these bonds at par value at any time you wish, at any bank in the Province of British Columbia and at the principal office of the Canadian Bank of Commerce in Calgary, Edmonton, Regina, Winnipeg, Toronto, Montreal, Saint John, Halifax or St. John's.

LIMIT OF PURCHASE: There is no limit whatsoever to the amount you may purchase.

REGISTRATION: Bonds of $500 and $1,000, or multiples thereof, can be fully registered.

PAYROLL DEDUCTIONS: Bonds may be purchased through payroll deduction. Your office manager will advise you.
