## CFP promotions for Davies, Sherman

Effective April 26, Mr. C. B. Davies, Canadian Forest Products Port Mellon resident manager, will assume the combined positions of assistant manager of Canadian Forest Products Ltd. Pulp Sales, involving the sale of Port Mellon pulp throughout the world, and export manager of Canfor Pulp Sales Ltd., involving the sale of Prince George pulp in all areas of the world other than North America. Mr. J. G. Prentice, president of CFP, has announced.

At the same time R. F. Pateron, general manager of CFP pulp production, announces that effective April 26, Mr. E. C. Sherman is appointed resident manager of the Howe Sound Pulp Division mill at Port Mellon.

As resident manager of the Howe Sound Pulp Division since February 1, 1956, Mr. Davies has made an outstanding contribution to the welfare of the company and to the development of the Port Mellon mill. During these years the capacity of the mill has been almost doubled as a result of two major expansion programs which were carried out under his management.

Mr. Davies' move to pulp sales is prompted by a desire to strengthen this area of the company's activities at a time when greatly increased pulp production and more severe competition are anticipated.

Mr. Davies in a message to the Port Mellon staff wrote:

"I hope to be able to say goodbye to each of you personally but in case anyone is missed, I do want you to know that you have all contributed to the development of the Port Mellon mill that Mr. Prentice so kindly mentions. I would like to thank each of you, particularly those who have been here throughout the past nine years, for your help and friendship. During these years we have had the fun, plus the work and responsibility entailed, of spending some thirty million dollars on major projects.

"Mr. Prentice states that the mill capacity has almost doubled but I think that we can proudly go further and claim that the record daily production during these nine years has climbed from 230 tons per day to 600 tons per day and that average production has almost tripled during that time while we progressed into the manufacture of high grade fully bleached pulp."

"The second notice announces Ed Sherman's appointment. This is one of the more pleasant features of the move and I am sure that you will all be to the Shermans the same help that you have been to us.

Mrs. Davies and I are naturally sorry to leave Port Mellon and its associations, despite the fact that our new life should be most interesting. We expect to be back here frequently and I expect that Howe Sound pulp quality will be so good that this product will be easy to sell."

## P O hours

On Good Friday Gibsons post office will not be open to the public and the rural route will not operate.

Mail in the post office by 8:30 a.m. will be despatched to Vancouver.

There will be a full service for the public on Easter Monday.

## C of C to be greeter of ferry

Gibsons council Tuesday night decided to refer a letter concerning the taking part of Gibsons officials in the opening of the Comox-Powell River ferry, on May 15, over to the Chamber of Commerce for its consideration.

Council was generally opposed to donating \$50 towards the celebration. Chairman A. E. Ritchey said the trip was of no interest to him. Councillor James Drummond was opposed to the request for a \$50 grant. Councillor Sam Fladager found the second letter from R. Jolin of Powell River's Chamber of Commerce was more informative and should have been sent earlier.

Here is the letter:  
Gibsons Municipal Council, Attention: Mr. A. E. Ritchey — Chairman:

We have just read a front page article in the Coast News dated April 1st which attributes a statement to you as describing Powell River's suggestions relating to the Inaugural Run as "a shabby deal" insofar as the Sechelt Peninsula is concerned.

This has come to many of us as a real shock and the writer is prompted to wonder what it was in our letter of March 18th that has incurred your ire and what we did to be credited with offering you treatment that could be considered shabby.

We can only conclude that you have along with members of your council, misunderstood the full content of our letter and that you have not paused to consider many of the facts that we pointed out in careful detail.

The point that you appear to object to the most is the number of people representing each area. It has been suggested that the Sechelt Peninsula send 20 people or 10 couples. This is not at all out of line with the other areas. It is doubtful that Courtenay will send more than 10 couples and yet they are contributing \$300 towards the affair.

While our letter points out that there will be 100 from the mainland, please remember that this is 100 people or 50 couples. Out of this there will be ten couples from the Sechelt Peninsula plus representation from Texada Island, Lund and Cortes. The provincial and federal governments will be represented, as will the Vancouver Fraser Valley and B.C. Travel Bureaus. (Continued on Page 10)

## New committee

Formation of a new recreation committee for Sechelt was announced at last Wednesday night's meeting of Sechelt's municipal council by Councillor Joseph Benner.

The new committee will include Mrs. M. J. Gross, Ray Clarke, Frank Newton, Doug Wheeler, Mrs. C. L. Poteet, Robert Kent, Dick Branca and Harry Gregory. Councillor Benner will be chairman.

A letter of thanks will be sent from council to Mrs. A. Dawe, secretary of the retired committee in which council will thank its members for the work they have done.

## ELEPHANT SALE

House cleaning and are you at a loss to know where to put those valuable antiques? The Sechelt Kinsmen are holding a White Elephant Sale on May 1 and they will be only too glad to pick up any article which could be used in the sale.

A phone call to 885-9330 or 885-9560 or any Kinsmen, and arrangements will be made to pick up any articles.

## Campbell outlines plans for municipal expansion

Members of Sechelt and Gibsons municipal councils met Hon. Dan Campbell, minister of municipal affairs last Friday night at a dinner in the Totem Room, and then heard Mr. Campbell in a public address in the Legion hall expound on his department's new plans for the enlargement of organized municipal areas.

The dinner which was sponsored by Sechelt's council was attended by about 30 persons all associated with municipal work and their wives. At the public meeting later about 35 persons showed up.

Councillor J. Benner arranged

the dinner. Mrs. Christine Johnston, chairman of council, welcomed the visitors.

Mr. Campbell described today's municipal setup as having grown up when not much was happening, with dozens of administrative devices and artificially defined boundaries. In the early 1950s the picture changed along with the old geography of municipal administration. Now we have a setup that contains within itself something like 15 jurisdictions.

As a sample he offered the Victoria area with six municipalities and no unified action. Beaches

were polluted and parks had been overlooked all because what was done years ago made sense at that time but now the situation becomes dangerous. There are garbage problems, sub-divisions with no playgrounds and other things which all meant that growth and people created serious problems.

Warming up to his topic Mr. Campbell with the aid of a blackboard showed by graph how the government planned to form regional councils which would cut across artificial boundaries. Regional councils would cover an area which might contain a village and several types of improvement districts, such as water, garbage or fire prevention and so on. This central council, with representation on it from each of the municipal or improvement districts would become the functional unit for the entire area taking in water, public health, library, planning and any other area requirements.

Taxation in these enlarged areas would remain the same as before.

## Cemetery discussed

At Gibsons council meeting Tuesday night, Mrs. John Glassford, speaking for numerous members of the Gibsons family reviewed the old church cemetery's history and traced its course through Public Utilities Commission hearings down to the present day. She claimed the family had been harassed by newspaper stories and wanted some action taken. She objected to one story which suggested the burial area be covered with a cement slab, which she said the family had turned down some time ago.

As the discussion progressed it was discovered that council and the family were in close agreement as to what could be done but some councillors felt it had nothing before it. Mrs. Glassford said that Mr. Glassford had generally said what the family desired, to more than one councillor.

Councillor James Drummond suggested council was waiting for something from the family to define the cemetery area and what should be done, so it could begin work on it. Discussion broke off when Mrs. Glassford said she would try and have the desired information for the next

meeting.

Reg Adams, chairman of the Library board, speaking to a heating problem in the new library in the new municipal hall raised by the aid of Councillor Fred Feeney, complimented council on its desire to accommodate the library. The heating problem concerned using electric heat instead of another type. Mr. Adams was advised to see what money he could raise first because council's budget for the year was already overburdened.

Coast-Garibaldi Health Unit replying to a letter on indiscriminate garbage urged council to institute a compulsory garbage collection service. Council decided the garbage in question came from outside the village therefore was not the responsibility of the village.

Council passed a motion that unless water taxes on Indian Reserve property are paid up by the May 27 council meeting the water supply will be cut off.

For the first time in Gibsons history council is running short of cash and will have to seek a loan from the bank. Government accounts are still to come but in the meantime council needs cash.

## Park plan considered

Construction of a 12 by 32 foot building by the municipality containing a booth, storage for sports equipment and two toilets in Sechelt's Hackett Park came before Sechelt's municipal council meeting on Wednesday night of last week.

The proposal, still in the planning stage was placed before council by Mrs. C. L. Poteet, representing the PTA in Sechelt. Following discussion it was left to Councillor Ben Lang to look into the project and make a report to council at its next meeting.

Mrs. Poteet's outline of the proposal considered having a caretaker living in the park. She also suggested that teenage residents who are in favor of the move would be put to work in managing the booth section at sports events, with proceeds from the trade by the booth being returned for further development of the park.

The building would be constructed of cement blocks and there would be a septic tank. The cost of the building is expected to be in the region of \$2,000 with volunteer labor added. Plans were drawn up by Dick Branca. It would be situated in vicinity of the flag pole corner of the park. The PTA would look after the furnishing of the building after it was constructed.

Later in the meeting a proposal that users of booths be charged 20 percent of their gross take, such proceeds to be used for park improvements, was turned down. It was suggested that auxiliaries such as the Hospital auxiliary, placing its funds at the disposal of equipment needed for the hospital, would object.

On Wednesday night of this week council will meet to deliberate on its budget for this year and it is expected that then there would be further discussion on this project.

## 5 show up!

Because only five persons turned out for the Gibsons Recreation meeting in the Elementary School Activity room Monday night the meeting was called off.

Present were Phillip Lawrence, area recreation director; Eugene Yablonski of Gibsons Recreation committee; Councillor Sam Fladager, Gibsons; Helen Bezdeck, representing track and field, and a representative of Gibsons Rod and Gun Club.

A future date was selected for another meeting which will take place on Wednesday, April 28, details of which will be announced nearer that time.

## PIES WANTED

Sechelt Promenaders and Roberts Creek Square Dancers will be hosted by Gibsons Squarenaders club on Saturday evening, April 17 in Hopkins Hall starting at 8:30 p.m. Ladies of the Squarenaders are all asked to bring along a pie.

## SCHOOL BOARD—

## Vote of confidence

A vote of confidence in Gordon Johnson, superintendent of schools and Peter Wilson, secretary-treasurer of Sechelt District School board was passed by school board members at Monday's meeting in its Gibsons board room. There was one dissenting vote, that of Mrs. M. Ball, last year's board chairman. Trustee Mrs. Celia Fisher was chairman due to the absence of chairman J. Horvath.

The motion moving the vote of confidence came after considerable discussion on allegations which had been made by Mrs. Ball. The motion was made by Trustee Mrs. C. M. Volen and seconded by Trustee W. P. Malcolm.

The issue came before the board just after the reading of the minutes of two previous meetings, one a regular meeting and the other a special meeting, to discuss Mrs. Ball's allegations.

At the morning meeting, Mrs. Ball questioned the authenticity of the minutes of the special meeting

ing which she claimed did not record anything of the discussion on allegations that Mr. Johnson had made concerning her. It was pointed out to Mrs. Ball that while such discussion was underway the school trustees were not in official session. The meeting came to order when it discussed the plans for new school construction.

One subject openly discussed concerned a phone call which Mrs. Ball claimed was made to her at the special meeting which she said she did not get. The phone call concerned a Health Unit meeting which Mrs. Ball was supposed to attend. Mr. Wilson, the secretary, remembered taking the phone call and confessed frankly that he forgot to pass it on. It was not deliberate, he added.

As a result of the morning discussion, Mrs. Ball moved that the department of education be approached to investigate the administration of the school board. As there was no seconder, the motion died.

## Show packs house!

So popular is Sechelt's PTA Family Night that the show packed the activity room of Sechelt Elementary School for two consecutive nights, April 9 and 10, with all tickets sold out.

The show opened with O Canada by Mrs. Dorothy Stockwell, captain of the Girl Guides, and a color party on guard beside the flag. Mrs. Margaret Lamb, president of the P.T.A., welcomed all. M.C.'s were Frank Newton and Ben Lang. Mrs. Dorothy Goeson was program director and Mrs. Helen Sinclair, piano accompanist.

The program was varied and showed considerable talent. There were piano solos, music on the flutophone by Grade 5 pupils, accordion solos by pupils of the

Sharon Maylea Accordion Institute. Mrs. Ed Lowe's pupils gave an exhibition of tap dancing. Representing Halkmoon Bay was her 7-year old pupil, Rusty Cunningham who later this month will be competing in the B.C. Dance Festival in Vancouver.

There was some fine singing by 24 members of the school glee club and the Nine Teens sang old-time songs. There were Spanish dances, French songs, a gymnastic display and miming by the Pen Pals and the Surfers. The children of the Indian village gave a harmonious rendition of Cruising Down the River and an accomplished baton twirler from Grade 4 twirled her way into the hearts of the audience.

The Old Timers turned out to be a group of 5 to 10 year olds from Selma Park singing old songs and dressed just like their grandparents. Bud Blatchford was caller for square dancing by his Roberts Creek children's classes and Pender Harbour was represented by two gifted guitar players. Folk songs were sung by Mr. and Mrs. Bud Blatchford and Tom Morrison and by the Rev. and Mrs. James Fergusson to the accompaniment of guitars. The Unteachables proved to be a gifted group from Gibsons consisting of Tony, Paul and Leo with guitars, and singer Eloise Delong. This is the same group which will play for the Teen Dance being sponsored by the PTA on April 23 at the Legion Hall. Dancing will be from 8 to 1 a.m. Tickets are 50c single and 75c for couples

## Six to go

Sechelt council at last Wednesday night's meeting decided to send six delegates to the opening on May 15 of the new ferry run from Powell River to the Comox area. While four of the invitations were left open to whoever desired to go it is quite likely that Magistrate Andrew and Mrs. Chris Johnston, chairman of council would be there.

Pender Harbor Chamber of Commerce has already arranged to send six to represent that area. Sechelt's council also voted to make a grant of \$50 towards expenses for this event in Powell River.

## Visiting band to play

A musical treat is in store for the residents of the Sechelt Peninsula when the Rutland Senior Secondary School Concert Band makes an appearance in the Elphinstone Auditorium on Friday, April 30, at 8:15 p.m.

Playing in Gibsons and the following night in Powell River this band of 35 young musicians will be under the leadership of Band Instructor Lloyd Burritt. Lloyd is a graduate of Elphinstone School and many will remember his directorship of musical and dramatic events in this school when he was a student. Most outstanding was the

production of The Mikado, and several excellent one-act plays.

Since leaving Gibsons, Mr. Burritt has obtained his degree in music from the University of British Columbia, and has studied in London, England.

The program which the band will present includes music by Elgar, Beethoven, Bach, Rimsky-Korsakov, Debussy, Sullivan as well as more recent composers such as Hindemith.

It will be necessary to billet members of the band for Friday night. Tickets will be on sale through the Elphinstone Junior Red Cross at \$1 for adults and 50c for students and children.

### It's getting late!

Following the wind-up of last year's July 1 Celebration committee work, those officials who had for three years kept the July 1 Celebration on track, decided to resign. This leaves the field open for no one waiting much longer to sound a warning. Even now if someone was to try and raise a band it would discover that most hands available to this area have been spoken for already. So if someone who desires to keep Gibsons in step with a July 1 Celebration now is the time to get into action. It is later than you think.

### 100 years from now?

Viewing the past to get a peak into the future is a worthwhile pastime. Take for instance this item among the last batch of Centennial committee memos sent out by the provincial Centennial committee:

A girls' collegiate school was opened at New Westminster in 1865. Tuition was \$1 a month, \$2 if the music course was taken. Other subjects included French, drawing and totany under supervision of Rev. Percival Jenns.

Then on the same sheet comes another item on education 100 years ago and it reads:

On August 10, 1865 it was reported that 51 children were attending school at Naniamo — all of them in one room measuring 23 by 16 feet.

When it comes to health and welfare and grants to hospitals 100 years ago must have been a heaven of sorts to government and hospital officials judging from the following:

Public health and welfare in 1865 cost the colony of British Columbia \$4,025. This included grants of \$1,750 to hospitals in New Westminster, Cariboo and Kootenay areas and a grant of \$175 annually "in aid of the destitute, poor and sick."

Even 100 years ago the word stereo was a high-powered word. Just read the following:

Wisely & Wormer's Great Stereoscopic, a form of magic lantern, came to New Westminster and Yale on June 15, 1865, showing scenes of the recent U.S. Civil War. It was pronounced a great success.

One can only wonder what the writers of Centennial Memos in the year 2065 will use as a comparison of what occurred 100 years previously — the period in which we now live. Too bad we will not be around to look over the shoulders of writers of that year. What they will think of us would be interesting — possibly!

### Minute message

PREPARATION:  
TRUE ACCEPTANCE

Prepare to meet thy God.  
Amos 4:12

A man would be considered foolish to run to an insurance agent to obtain insurance when his house is burning down or his car is smashed up. Isn't it amazing how willingly we adhere to these principles in every circumstance except that which concerns our relationship to God? The Holy Spirit motivates even the animals to prepare ahead of time for the change of seasons. Squirrels are busy all summer long storing up provisions for winter. Bears consume enormous amounts of food in summer so the body will survive during winter hibernation, and so it goes.

God has so arranged the seasons that preparation is demanded of many creatures if they are to survive. God's spiritual laws are just as real as the natural.

What is this preparation we must make? Romans 3:23 states "The gift of God is eternal life." The thing that completes a transaction, in gift-giving and receiving, is acceptance. It is a personal thing. Ask yourself now—have I actually accepted, personally, the gift of God? The

Bible teaches us that true acceptance is evidenced by a change in one's life. II Cor. 5:17 says "If any man be in Christ he is a new creature."

Acts 17:31 tells us he (God) has appointed a day in the which he will judge the world in righteousness. At this present time the mercy of God is extended to us, but on that day mercy will be no more, rather every man will receive, justly, what he deserves. By God's grace may we be partakers of His mercy now and be ready to stand without fear in the judgment day. Pastor K. Duncan, Glad Tidings Tabernacle, Gibsons.

#### BRISK '65 TRADE

The British Columbian in 1865 reported a brisk trade between New Westminster and Puget Sound ports. In one week the Alexandra brought 79 oxen and three horses from Olympia, the Diana brought 200 hogs from the same port and from Whidby Island the Eliza Anderson brought 500 sheep.

#### STAGE COACH DAYS

A splendid new stage coach was built in Victoria in 1865 for use by travellers to the Cariboo gold towns. Built by Duck and Sandover it would accommodate 16 persons "on a pinch" the British Columbian reported.

# A boy and a tugboat back in '03

(By SAM DAWE)

My seafaring career began in May 1903 at the age of 14 on the tug Phoenix, built at Ballard on Puget Sound in 1896 as the Clayoquot. It was I believe, engaged in the passenger service on the west coast of Vancouver Island, until acquired by Henry Bell-Irving & Co. Ltd. and renamed Phoenix for the Phoenix cannery at Steveston on the Fraser River, also belonging to the Bell-Irving interests.

My father was skipper, hence my being able to get a job as deckhand and coal-passer at that young age. About the middle of May we were at the Wallace Shipyard, then situated at the north end of the old Granville St. bridge. (Mr. Wallace later moved to Burrard Dry Dock).

We had about 20 Columbia River boats in our tow also two small fish scows. The Columbia river boats were round-bottomed, about 26 feet long and fitted with a centreboard which was lowered when under sail and taken up when being rowed. Oars or sail were the only power for small boats in those days.

They were sloop-rigged with a boom and gaff, mainsail and a jib. They were fair sailers. They originated in the Columbia river, hence the name and were extensively used in the fishing business of B.C. in the early days. Two men usually comprised the crew, the fisherman who owned or operated the boat for one of the canneries. The other man was the boat puller and was paid by the fisherman.

After leaving False Creek we proceeded via the Straits of Georgia, Discovery Passage, Seymour Narrows, Johnstone Straits, Broughton Straits, Queen Charlotte Straits and Goletas Channel. As the boats had by this time considerable water in them, from leakage and from rain we went into Bull Harbor on Hope Island, situated in Goletas Channel to syphon them out. Bull Harbor at the present time is much frequented by fishermen. It has a radio station and marine station. At the time of which I write it was, as far as I know, uninhabited. At least we saw no one.

On our way through Johnstone Straits about 10 miles below Alert Bay we overtook Walter Walcott, the policeman stationed at Alert Bay as his father had been before him, and took him in tow to Alert Bay.

After pumping the boats and scows we left next morning via Nahwitte bar which can be a very wicked place under certain conditions. The day we left it was calm and somewhat foggy so we passed over the bar and proceeded out into Queen Charlotte Sound, heading for Cape Calvert, the entrance to Fitz Hugh Sound, 36 miles from Nahwitte bar, then into Llama passage, in which is situated McLoughlin Bay, named after Dr. John McLoughlin of the Hudson Bay company; then on to the Indian village of Bella Bella, into Seaforth Channel and across Millbank Sound, into Finlayson Channel, Tolmie Channel, Graham Reach, Fraser Reach, where the fishing village of Butedale is now situated; then on to McKay Reach, Wright Sound, Granville Channel, Arthur Passage, Malacca Passage between Gunn and Lawyer Islands, then into Inverness passage and Slough, one of the entrances to the Skeena River.

Our destination was the North Pacific Cannery on the north side of Inverness Slough. Other canneries in the slough at that time was Inverness and Cassiar. After delivering some of our tow at North Pacific we took the remainder up the river to the B.A. Cannery and Port Essington which also belonged to the Bell-

Irvings. Port Essington at that time was the metropolis of that part of the country. Prince Rupert did not exist as such.

Port Essington had three canneries, the hotel owned by Mr. Cunningham, three churches and a general store also owned by Mr. Cunningham. It was a very busy place especially during the fishing season. It was also the transhipping point for passengers and freight brought in by coastal steamers to be taken from there to Hazelton by stern-wheelers. There were two on the river, the Mount Royal of the Hudson Bay company, and the Hazelton belonging to Mr. Cunningham. Competition between them was very keen. The Skeena between Essington and Hazelton was a hazardous piece of navigation.

The Phoenix was primarily based at North Pacific which was run by a foreman with Mr. Lord the B.A. Cannery managing both canneries. Aboard the Phoenix was the skipper, chief engineer, second engineer, a Russian called Mike; the mate Jack Turner an old sailship man, a Chinese cook and myself, deckhand and coal passer. The Russian I remember too well. He had a lower bunk and I the upper in the same room and his snoring was terrible.

Mr. Weeks was the cannery watchman and he had two sons, one, Paul, about my own age with whom I was quite friendly. I have come across several articles which he has written pertaining to fishing. I have not seen him since those days.

Our first job after arriving was to establish camps at Lawyer and Rachael Islands to which the fishermen brought their fish. We collected them in scows and towed them to the canneries. We towed them out again Sunday evenings. We also made several side trips, one to Tuck's Inlet which is now Prince Rupert Harbor to get piles for the cannery wharf and

on to Ketchikan, Alaska, with friends of Mr. Bell-Irving. One of them lost a valuable pair of binoculars overboard and wanted the skipper to go back and find them. They were then fathoms deep in water.

On July 4 an American passenger ship brought a load of Americans from Ketchikan to Essington, resulting in a bang-up celebration which of course we took in.

Our last job at the end of the season was to bring the camp scows in, after which we left for the Fraser River. Two fishermen came with us working their way by passing coal and assisting where they could which pleased me very much. On arrival at the Phoenix cannery on

the Fraser at Steveston we were employed in bringing fish from the traps at Point Roberts and towing the boats in and out at the weekend.

At the end of the sockeye season we took a couple of the seine boats, large flat-bottomed square sterned boats with no power of their own, to Bayne Sound to try for dog salmon on a more or less experimental basis which was not successful. After this the Phoenix was laid up for the winter. I was back on her again in 1904 doing much the same work.

### ARE YOUR NOSE DROPS CONTAMINATED?

Nose drops are helpful in the treatment of adults and children. Most physicians prescribe them. When you get them from your pharmacy they are pure and potent. But as soon as you take out and use the dropper, it is exposed to virulent germs which may enter the bottle, multiply and cause a severe infection. Removal of the protective cap of the spray bottles permits these germs to collect at the top to infect you.

To avoid this, cleanse the dropper and top of the bottle with alcohol before replacing it. Examine partly used nose drops and if the contents become cloudy, or a sediment develops, don't use them. It may be dangerous.

Your doctor can phone us when you need a medicine. We will constantly endeavor to keep abreast of the expanding activities in the field of pharmacy — in this era of great change. We pledge at all times to be in the position to offer the finest of pharmaceutical services.

## Bill McIntosh, electrician, got a Scotia Plan Loan —\$1300—in 45 minutes.

Bill McIntosh was worried. He'd had a lot of home expenses he hadn't figured on. He needed quite a bit of money—and he needed it quickly.

Bill decided to take his money problems to his bank—The Bank of Nova Scotia. After talking to the manager about the many new things he had to buy for his new home Bill was asked a few quick questions about his job, income and how much money he needed.

In 45 minutes Bill McIntosh knew he would have the money he needed to pay all his home bills.

This is an average example of speedy Scotiabank service. Of course this actual customer was not named Bill McIntosh

and the speed of the loan depends upon individual circumstances. But—there are more and more people with all kinds of names and jobs coming to The Bank of Nova Scotia to have their money problems solved—quickly. Why don't you?

A Scotia Plan Loan is one of the best—most practical ways for you to consolidate your debts. Your loan is life-insured at no extra cost. You get speedy service. You get the other advantage of dealing with the interested Scotiabank people. So talk over your money problem—whatever it is—debt consolidation—a new car—with the people at your nearest Scotiabank branch. They're ready and waiting to help you. How much money do you need?

Scotia BANK

## Roads program planned

Reports are going the rounds that a resident engineer of the provincial department of highways will be established in this area for the next four years. This leads into speculation that something of major significance is to happen as regards highways from Langdale to Earl's Cove.

Starting at the Langdale end, it is expected that before too long something will be done about starting the cutoff to take ferry traffic around Gibsons instead of through the village. Indications are too that the bridge at Granthams will be straightened out and probably strengthened.

It is also reported that the highways department has obtained the necessary land not too far from the Peninsula Hotel where the cut-off road will join the Sunshine Coast Highway.

There are also points along the highway which will have to be attended to, particularly in the lake area between Sechelt and Halfmoon Bay. Then at Earl's Cove it is understood

that widening of the approach to the ferry slip is to occur. Then the road to Egmont, badly in need of work on it, will be attended to this summer.

Late last fall there was a considerable stock-piling of roads material in the Pender Harbor area. With the report that a resident engineer will be established in the area and the definite increase in road traffic with the opening up of a circular route from Horseshoe Bay to Langdale to Jervis Inlet to Powell River to Comox area with highway traffic to Nanaimo then back to Horseshoe Bay, it would appear that highways on that route will have to receive some attention.

## Plebiscite lots in news again

The area which was the subject of a December plebiscite in Sechelt to be established as a Porpoise Bay park came before Sechelt's council last Wednesday night in the form of an application for subdividing it.

After checking over the proposed subdivision council returned it to the real estate operators suggesting that there be provision for a 20 foot lane and a 66 foot road to the water from the road fronting the land involved.

This was the area which in the proposal was turned down in a two to one vote against, by ratepayers.

### BIRD ENEMIES

On windy days, many casualties are suffered by small birds blown against telephone and power wires or dashed to death against plate glass windows as they zero in on inviting havens of light and warmth. In addition to these agents of destruction, the small birds' natural enemies are always active. Crows and magpies feed upon the eggs and nestlings, as do snakes, while Cooper's hawks and sharp-shinned hawks are also deadly enemies. Rats, squirrels, chipmunks, white footed mice and larger animals, such as the skunk and coyote are equally predatory when it comes to birds eggs.

BILL MCNEIL

Hard-working host of Assignment, a week-night program of people, places and things which has been a CBC Radio Network feature for over eight years. In that time it has broadcast over 20,000 individual stories by 1,000 reporters from 78 different countries.

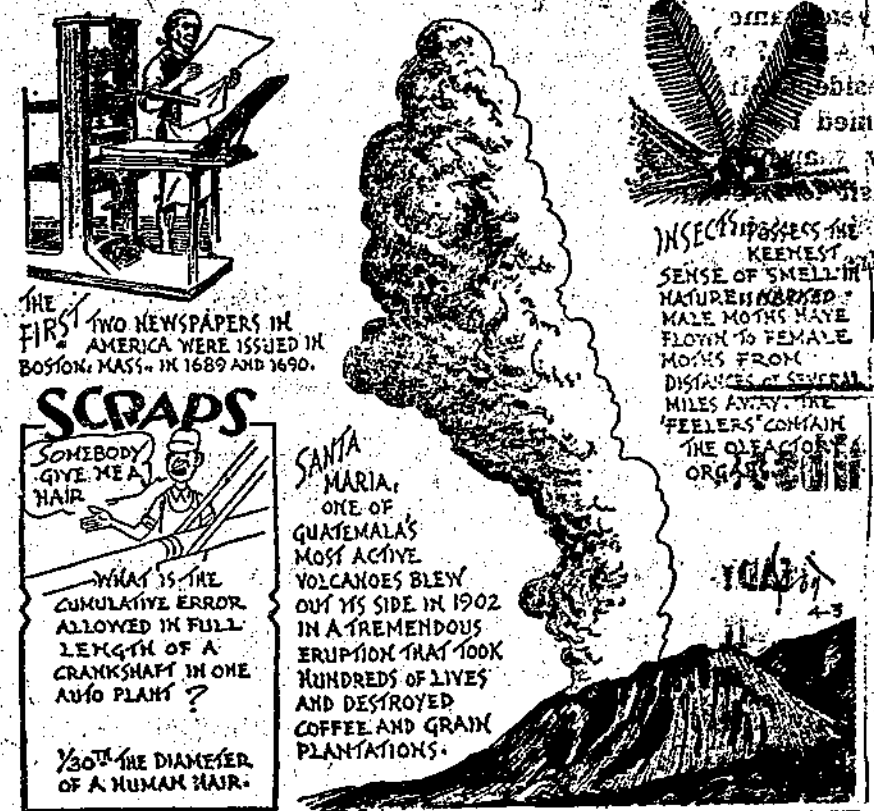

## 4 students selected

Hon. Eric Martin, minister of health services and hospital insurance, has announced the names of four British Columbia high school students who will represent the province at the coming Canadian Youth Conference on Smoking and Health, in Ottawa, on May 13 and 14. They are: Eleanor Chappell, Fernie; Jerry Shields, Prince George; Heather McNamara, New Westminster; and James Perkins, Youbou.

"The conference delegates are evenly divided between boys and girls, and each still has at least a year to go in high school," said Mr. Martin. "Selection of our representatives was made through the department of education. The conference is sponsored by the department of national health and welfare, and we and the other provincial health departments are co-operating in this, the first national and provincial effort to involve personally those of the age group within which the smoking habit is usually acquired."

## feeding time!

This mother chose electric cooking because it's clean, calm, convenient. Now it costs less too! Down go the rates for electric cooking. Up goes the value. You get more power for your money. More carefree electric cooking too. The latest electric ranges have surprises galore. Ovens specially designed for easy cleaning, timed appliance outlets, eye-level open rotisserie roasting ovens, precision heat control... to name a few. And now all-electric living costs less than ever. What better reason to see your appliance dealer about a new electric range. B.C. HYDRO

## Visit honors Rebekahs

The highlight of any Rebekah Lodge year came to Gibsons Wednesday April 7 when the assembly president, Mrs. F. Holland accompanied by Mrs. A. Swan, assembly marshal, paid her official visit to Arbutus No. 76 with Mrs. W. Hutchins, noble grand and Mrs. A. E. Ritchey, district deputy president as official hostesses.

On their arrival these distinguished ladies and several others from Arbutus sat down to a delicious luncheon at the home of Mrs. W. Hutchins. The remainder of the afternoon was spent in the company of Mrs. A. E. Ritchey, visiting the sick and shut-ins and obtaining a bird's eye view of the beautiful scenery Gibsons has to offer.

About 46 members and guests sat down to a pot luck supper,

Coast News, April 15, 1965.

smorgasbord style, the hall and tables being tastefully decorated in the blue-bird motif, the chosen emblem of Mrs. Holland. The beautiful centrepiece at the head table, the handiwork of Mrs. D. Drummond, was the centre of attraction.

The evening session was presided over by Mrs. W. Hutchins, in a charming manner, the president and her suite being introduced by the assembly marshal and each receiving a corsage.

The president's address, the highlight of the evening, proved inspiring, informative and enjoyable and was followed by many interesting speeches. A tribute to the memory of Mrs. Dave Rees, who was greatly loved and missed, was paid in a beautiful memorial service.

A surprise also came for Mrs. L. Turner of Sechelt when the president seized the opportunity to present her with her 40 year pin, a gift from Sunshine Rebekah Lodge in Sechelt.

Conducted to the centre of the floor, Mrs. Holland was presented with a gift from the lodge by Mrs. Hutchins, while the charming voice of Mrs. Hilda Lee poured forth The Bluebird of Happiness. All this, followed by a social hour and delicious refreshments, brought this memorable evening to a close, the hamper being won by Mr. R. Laine of South Burnaby.

Guests from Powell River included, Mr. and Mrs. W. E. Schadt, Mrs. Mary Furnival, Mrs. E. Peebles, Mrs. A. Beecham, Mrs. J. J. McIntosh, Mrs. C. Rushart, Mrs. F. Boniface, Mrs. B. Johnson, Mrs. B. McKnight, Mrs. T. Adams and Mrs. G. Adams.

Guests from Sechelt were: Mr. and Mrs. I. Smith, Mrs. G. Brown, Mrs. M. Walker, Mrs. L. Turner, Mrs. A. French, Mrs. E. Fletcher, Mrs. L. Andrews, Mrs. M. Wise, Mrs. J. Reid, Mrs. H. Critchell and Mrs. E. Parsons.

Guests from Vancouver, other than the president and her marshal were: Mrs. V. Worsley, Mrs. H. Pickering, Mrs. A. Walker and Mrs. M. M. McCubbin, the last three ladies receiving a standing ovation as members of over 50 years standing.

## SOS draws attendance

The SOS sent out to members of the Credit Union to attend the annual meeting in sufficient numbers to make up a quorum, was met with good response on April 7, when 50 members turned out. The original meeting set for March 24 had to adjourn for lack of attendance.

Mr. E. E. Rosen, president, gave his informative report, followed by the financial report of the treasurer, Mrs. R. C. Johnson. They showed the Credit Union to be in a very satisfactory state, financially speaking.

Referring to the schools' savings clubs, Mrs. Johnson gave credit to the collectors, Mrs. Zueff, Mrs. L. Flumerfelt, Miss E. Tawse, Mrs. H. Pearson, Mrs. J. Gray, Mrs. F. Jeffries, Mrs. J. Jeffries and their assistants. Savings of school children in Gibsons, Roberts Creek, Davis Bay, Sechelt and Egmont amount to in excess of \$5,000.

The supervisors and credit committee reports were read by Mrs. J. Forbes and Ed Kullander.

A resolution to have the credit committee consist of five instead of four members, amending Rule 57 of the C. U. Act, was voted on and passed.

Ron McSavaney was re-elected to the board of directors. Harry

Almond, C. O. Lucken and Cliff Connor were elected to the credit committee, and Mrs. Forbes to the supervisory committee. A three percent dividend on savings was declared.

Mr. George Charman gave a brief talk on what the credit union means to him and to the community. He paralleled it with the old-time barn raising practice

when each man helped his neighbor. The credit union, in his opinion, helped each member to help himself, and in turn, his neighbor also.

A vote of thanks was proposed to the members of the committees by Mr. V. Bracewell. A door prize was won by Harry Sawyer. Refreshments were served when the meeting adjourned.

## IN MEMORIAM

**LUOMA** — In unfading memory of a dear wonderful son and brother, Richard, who left us April 13, 1960.

A quiet prayer, a secret tear, Keeps his memory ever dear. Time takes away the edge of grief, But memory turns back every leaf. Sadly missed by his Mom, Dad and all the family.

## CARD OF THANKS

Thanking all our friends for their kind expressions of sympathy on the passing away of my beloved wife Nance. F. Blowers.

To our good friends on the Peninsula. Sorry for not saying goodbye. By now, everyone will understand, and we hope, will accept our apologies. We are both very happy, and much wiser, and hope someday we can all meet again. Good luck always. Roy and Marlene.

Thanks to the many friends who sent gifts, flowers and cards during my recent stay in hospital. Winifred A. Ross.

## Dog problem is unchanged

Dogs have been with us for a long time. Take for instance back in 1865 when the New Westminster British Columbian newspaper reported that prowling dogs were a hazard to pedestrians in the city. They had just torn apart a pig on the street.

Last Wednesday night Sechelt's municipal councilors heard Mrs. C. Johnston, chairman suggest that a revision of the dog license bylaw has become necessary. Some people have blamed dogs from the Indian Reserve but Councillor Joe Benner reported they have cleaned up their situation and that dog-owners now must have a permit to breed dogs on the reserve. The reserve also issues its own dog licenses. It was reported to council that Mrs. A. French was willing to look after a small pound in which dogs could be kept until turned over to the SPCA.

## Sub-station for Gibsons

Mr. F. H. Norminton, district manager, advises that increased demands for electrical power in the Gibsons area has resulted in B.C. Hydro's decision to build a new sub-station to serve the Gibsons and Rural areas.

Clearing of the site has already begun in preparation for construction, which is to begin in early summer. The new sub-station will ensure that adequate power is available to meet industrial and residential growth in Gibsons and its surrounding area. It will also serve to ease the load on Hydro distribution facilities at Sechelt and Roberts Creek, present source of Gibsons' power.

Site of the new facility will be approximately one mile north of Gibsons on North road, at a point half-way between the village and Hydro's 138,000-volt transmission line from Cheekye to Powell River.

Included in the building program is a one-mile-long connection which will feed power

from the transmission line to the sub-station. In the new sub-station, transformers will step down the 138,000-volt power to 12,000 volts before being passed on to distribution lines carrying the power to consumers. The project is scheduled for completion by the fall of 1965.

## Recount bill

A bill for \$69 covering fees connected with the ballot recount in a Sechelt election result of last December was presented to Sechelt council by Earl Dawe, barrister and solicitor.

Because it was thought that council was responsible only for court costs and not lawyer's costs, it was held over. Mr. Dawe appeared on behalf of Joseph Benner in the recount which resulted in Mr. Benner winning the council seat by one vote.

## SAVE OLD HOSIERY

Do not throw away worn-out hosiery. Save them up. Drop them in at the Coast News office where United Church women will pick them up, package them and send them on to Korean women who unravel them and make wearable clothing from the strands.

## A DESECRATION FINE

On April 1, 1965 the B.C. colonial government passed a bill setting a fine of £100 for anyone desecrating Indian burial grounds. Whites had been accused earlier of stealing possessions of the deceased.

## Deathtrap doors

If you have an old refrigerator around your premises or property and you want to have the door removed so children will not be able to lock themselves inside, telephone John Hind-Smith at 886-2231 or 9949 and he will see that it will not become a death trap.

The summer months appear to be the menacing time for such accidents and the average age of refrigerator victims has been five years. Boys outnumber girls in getting themselves locked in such death traps, Mr. Hind-Smith reports.

### TIPS ON ROD-HANDLING

PUT ROD TOGETHER BY LINING UP GUIDES ON THE TIP AND HANDLE SECTIONS, PRESS MALE FERRULE INTO FEMALE FERRULE. BEFORE SETTING THE TWO SECTIONS TOGETHER CHECK FOR DIRT OR NICKS. APPLY A LITTLE GREASE, WIPE OFF MOST OF THE LUBE.

WHEN A FISH IS ON LOWER ROD TIP LET LINE PASS THROUGH ROD TIP AS SHOWN IN DRAWING NO. 1.

RAISE ROD GENTLY, DO NOT LET OUT ANY LINE. WHEN ROD IS AT THE ANGLE SHOWN IN DRAWING NO. 2, LOWER ROD AND START FEELING IN SLACK LINE. WHEN ROD IS IN SAME POSITION AS NO. 1, REPEAT THE OPERATION.

USING YOUR ROD TO BRING THE FISH TO NET, THE RIGHT WAY IS SHOWN ABOVE.

WHEN YOU ARE THROUGH FISHING AND READY TO TAKE THE ROD APART, PUT ROD BEHIND YOUR KNEES, AS SHOWN ABOVE. THE PRESSURE YOU USE AS YOU SPREAD YOUR LEGS WILL FREE THE FERRULE.

## POWER OUTAGE

B.C. HYDRO & POWER AUTHORITY, Sechelt

Power interruption of April 20, 1965, from 9 a.m. to approximately 11:30 a.m.

### AREA AFFECTED

From Annex Elementary, Secondary School on School Road to Fletcher Road; Fletcher Road, from School Road to Tennis courts; Abbs Road, Sargent Road; also Gower Point Road from Fletcher Road to Glassford Road.

The Service Interruption is necessary due to Hydro pole relocation on School Road as requested by the Gibsons Village Council.

Signed, E. HENSCH, Acting Sub-District Manager

# Bargaining rights teacher issue

Delegates of the Sechelt Teachers' Association to the 46th annual convention of the B.C. Teachers Federation will be Mr. Malcolm MacTavish of Sechelt Elementary School, and Mr. John Ferrari of Gibsons Elementary School. Several other teachers from this district will also attend.

Mrs. Isobel Cull of Vancouver, BCTF president, will preside over the sessions to be held in Vancouver from April 19 to April 22.

The keynote address will be given by Dr. J. F. K. English, B.C. deputy minister and superintendent of education.

Mr. W. R. Long of Kitimat will speak on The African Project — a program financed by an annual grant of \$15,000 from the B.C. Teachers' Federation to permit B.C. teachers to visit African countries to conduct summer schools for African teachers.

Twenty-four subject sections of the BCTF will meet in separate meetings to consider teaching techniques and all phases of the school curriculum. These sessions will feature lectures, demonstrations, work-shop sessions and panel discussions. Program participants include Mrs. W. S. Beachner, curriculum consultant, Richmond, Washington; G. E. Bolton, director of personnel and industrial relations, Air Canada; Dr. W. G. Hardy, University of Alberta; Miss Marian Angus, educational representative, Pitman Publishing Co.; Dr. Tom Miller, child psychiatrist, Vancouver; Dr. C. L. Kraft, the Boeing Co., Seattle; Mr. W. O. Mitchell, noted Canadian author; Mr. J. R. Meredith, director of curriculum, B.C. department of education; Dr. Ivan Avakumovic, department of political science, UBC; Prof. Jan Solecki, department of Asian studies, UBC; Dr. David

Niederauer, department of romance studies, UBC.

Delegates will receive reports from 19 federation committees and will consider 48 resolutions submitted by teachers' associations throughout the province. One resolution asks for a royal commission on educational financing in B.C. Another directs that the BCTF support an equitable distribution of qualified and experienced teachers throughout B.C.

One resolution urges the department of education and school boards to make adequate clerical help available in schools. Another instructs the federation to press for a reduction in the amount of paperwork and routine unskilled assistance required of schools by the public health department.

Other resolutions request that kindergarten classes be limited to no more than 25 pupils per teacher per session; that the length of the school day and school year be returned to those in effect prior to the 1961-62 school year; that the Christmas

vacation be of at least two weeks duration; that the federation strike a committee to study the feasibility of instituting a quarterly system in the schools of the province.

Among other resolutions is one submitted by the Alpha Teachers' Association asking that (a) the BCTF take immediate steps to safeguard and improve the collective bargaining rights of teachers in all aspects of working agreements, (b) the BCTF examine present weaknesses in the

BCTF local bargaining procedures and obtain new legal advice with a view to obtaining for teachers full bargaining rights equal to those of boards of school trustees.

This resolution from Sechelt Teachers' Association is proposed to encourage other districts in the province to set a policy of negotiating agreements under conditions as pleasant as those enjoyed by the Sechelt teachers this year.

## Sports Day on May 14

Sports Day was one of the topics discussed at the Parents' Auxiliary meeting at Robert's Creek School on April 5. Mr. A. A. Merling, principal, has set the date for the event at May 14. The Parents' Auxiliary, with Mrs. L. Fluemerfelt as convenor, has agreed to dispense hot dogs and other refreshments at the affair. Parents may also be asked to assist with races.

Mr. Merling displayed the new plaque which he purchased, courtesy of the auxiliary. It is to hang in the school hall and will bear the name of the pupil or House, winning the most points in the sports department. As there is room for 16 names the plaque will last for that many years.

Mrs. R. Blomgren, who was in charge of the chicken dinner raffle, reported that the sum of \$50.50 was realized. The drawing took place at the end of the meeting and was won by Miss T. Rolter, of Vancouver, who will be visiting on the Peninsula at the weekend.

Mrs. H. Galliford gave a brief talk on Italic writing which is now being taught in the school. Using the overhead projector she showed work books of her grades 2 and 3 pupils to demonstrate the effectiveness of the new style writing. She explained that, although Italic writing may be new to us, actually it stemmed from the Italian renaissance period of 500 years ago. It is easily mastered by the children, takes up less space and is quicker to write.

Mrs. J. Warn's subject — A Word in Time — dealt with questions of a biologic nature which might be, and are, asked by the grade 4 or 5 child, and how best to answer them.

Fifty dollars was voted toward a scholarship and bursary fund. Mr. Merling asked assistance in providing a distinguishing set of colored bands for games participants, for easier refereeing. The mothers agreed to do the required sewing.

Refreshments were served at 10 p.m. by Mrs. R. Blomgren. The refreshment convenor, Mrs. D. Macklam, was absent. She is convalescing at home following recent surgery.

by Marian Martin

Bloused-top sheath boasts a jewel-inviting scoop or high neckline. YOU look sleek, cool, ready to go anywhere in this soft shaping. Choose flower-showered print, solid.

Printed Pattern 9133: Misses' Sizes 10, 12, 14, 16, 18. Size 16 takes 3 yards 35-inch.

FIFTY CENTS (50c) in coins

(no stamps please) for this pattern. Print plainly SIZE, NAME, ADDRESS and STYLE NUMBER. Send order to MARIAN MARTIN, care of the Coast News, Pattern Dept., 60 Front St. West, Toronto, Ont.

## ROBERTS CREEK

(By MADGE NEWMAN)

Tommy Godber, grade 7 student, is in St. Mary's Hospital with a broken arm. When his bicycle hit an obstacle in the road he was somersaulted into the air and landed on his arm and face.

Mrs. K. B. Linton celebrated her birthday last week by coming from North Vancouver with Mr. Linton to spend a few days at Lyncrest.

## Flag raised

A flag-raising ceremony took place at the Roberts Creek Elementary School on the afternoon of April 8. The 140 pupils and their teachers, Mr. A. A. Merling, Mrs. J. Warn, Mrs. H. Gallford and Mrs. A. Peterson participated.

When the flag had been raised, by David Bland, the children sang O Canada after which Mr. Merling made an address. He told the children it would likely be the only occasion in their life time that they would witness a country's new flag being raised, and that it was an event which they would never forget.

## GOOD FISHING

The British Columbian reported May 22, 1865 that a fisherman named Portuguese Joe took 20 cwt. of sturgeon from the Fraser River in one evening, the largest weighing 400 pounds. Using one net and a helper he also brought in 19 salmon weighing 20 to 35 pounds each.

## Tenders

SCHOOL DISTRICT No. 46 (SECHLT)

Sealed Tenders addressed to the Secretary-Treasurer, School District No. 46 (Sechelt), Box 220, Gibsons, B.C., and marked "Tenders for Site Development," will be received until 12:30 p.m., April 26th, 1965.

Tender documents for the following may be obtained from the School Board Office, Gibsons, B.C.

1. West Sechelt Site—clearing
2. Halfmoon Bay Site—levelling, fill, new approach road
3. Gibsons Elementary Site—fill and levelling, cutting and grading
4. Davis Bay Site—levelling
5. Elphinstone Secondary Site—levelling, filling, drainage, top soil

Tenders must be submitted on forms supplied by the School Board but may be for all projects, any one, or any group. The lowest or any Tender not necessarily accepted.

PETER C. WILSON,  
Secretary-Treasurer

CALLING  
JUNIOR ROCKHOUNDS

## Rock books at Library

(By MRS. M. WEST)

If you enjoyed Kate Seredy's story The Good Master, you will be pleased to know that she has written a sequel, The Singing Tree, as well as several other stories all illustrated with her beautiful drawings. Ask the librarian to put them on the list of new books.

During the summer you'll be spending a lot of time at the beach, and bringing home shells and some of those fascinating rocks, red or green or sparkling with crystals. In the Library are several books which will help you to find out more about these rocks and how they come to be piled up or scattered along our beaches.

Among the Rocks by Terry Shannon would be good to start with, it is simply written, has many clear pictures and not too much print. Tells you about hard and soft rocks and how to test them, what you need to take on a field trip. The most usual igneous, sedimentary and metamorphic rocks are described, and the commonest crystals found in our granites, feldspar, quartz, mica and hornblende.

There is advice on labelling and displaying your collection. Ever thought of a sand collection? There are other interesting ideas too.

All About our Changing Rocks by Anne Terry White is a little more detailed, more print and fewer pictures but still easy reading for a beginning geologist.

There will be a collection of rocks found on local beaches on display in the Library.

## Mardi Gras draws crowd

Saturday, April 3, turned out to be a day of fun and excitement for all those who attended Elphinstone Secondary School's second annual Mardi Gras at Gibsons School Hall. The sunny skies and warm weather brought out a large crowd of adults and children from Sechelt to Port Mellon, all of whom seemed to enjoy themselves, playing bingo, fishing in the fishpond or trying their skill in the various games. That evening a crowd of approximately 200 people finished off this gala affair by dancing away the evening.

Financially the Mardi Gras was also successful. An approximate profit of \$386 was realized with close to \$730 taken in altogether the latter figure including the raffle, Friday's basketball game and sock-hop and the Mardi Gras itself. Through the generous donations of the Sechelt and Gibsons merchants of prizes towards the raffle and bingo much money was saved. Deep appreciation is

extended to the following stores: Sechelt: Kruse Drug Stores Ltd., Richter's TV & Radio Ltd., Shop Easy No. 5, Redman's Red & White Market, Gilmore Variety, Parker's Hardware Ltd., C & S Sales & Service and Sechelt Motor Transport.

Gibsons: Gibsons Hardware Ltd., D. G. Douglas Variety and Paints, Kruse Drug Stores Ltd., Walt Nygren Sales, Earl's Agency, Kenmac Parts, Shell Service Station, Sunnycrest Motors and Super Valu.

Six happy people were winners of the following raffle prizes: Rod and reel, life jacket, Mrs. Wilson, Port Mellon; pop-up toaster, Shirley Fiedler, Gibsons; Two return bus tickets from Sechelt to Vancouver, Mr. A. Merling, Roberts Creek; food hamper Roy Christiansen, Gibsons; set of dishes, Mrs. A. Spencer, Sechelt, and Northrite pen, Mrs. Beryl Bennett, Granthams.

Profits from the events will go towards school books for Kenyan

students and a youth project in this area.

A vote of thanks was recorded for teacher sponsors of the Mardi Gras which included Mrs. Rankin, Mr. Richardson, Mr. Bennie, Mr. Smith and Mr. Yablonski, commerce department and the home economics department.

## IOLANTHE ON TV

Gilbert and Sullivan's Iolanthe will be seen on CBC-TV's Festival, Wed., April 28, in a production by Norman Campbell featuring Eric House, Irene Byatt, Howell Glynn, Len Birman, Diane Stapley and others.

You keep the cost of family vacation trips down, when you fill up regularly at the sign of the Chevron.

For over a generation continual advances in the quality of Chevron Gasolines have had a single aim: to provide your engine with the smoothest, most dependable power available and to give you more miles per gallon.

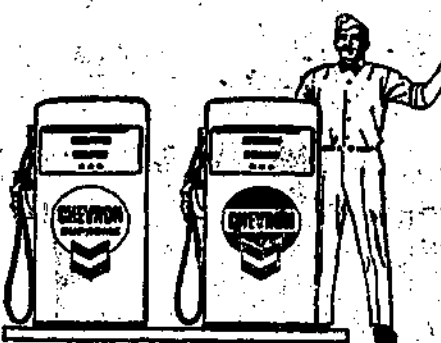

In 1960, for example, Chevron led the whole industry by introducing Methyl—the biggest breakthrough in anti-knock additives since Ethyl, 36 years earlier. Other big leaps forward have included a special additive to banish carburetor-icing; Chevron's famous Detergent-Action formula which keeps your carburetor

as clean as the day it was installed; improved refining processes to assure the best possible octane values for new and older engines alike.

Today, this compound progress towards ultimate perfection has put Chevron Gasolines in a class by themselves. They represent the sum total of every element known to date that goes to make a truly superb gasoline.

Compound progress adds up to COMPOUND POWER. And with COMPOUND POWER the miles cost you less. Drive into your nearest Standard Station or Chevron Dealer this week and try a tankful for yourself...

**2 projects for ARDA**  
Approval of two ARDA projects to rehabilitate irrigation systems in British Columbia has been announced by federal Forestry Minister Maurice Sauve and B.C. Agriculture Minister Frank Richter.  
Cost of the two projects is estimated at slightly more than \$3,000,000, of which the federal government will contribute \$1,099,334. Balance of the cost will be shared by the provincial government and municipal administrations concerned.  
One project, known as the Penitction City Irrigation System Rehabilitation, will replace works that have operated for 50 years, depending on gravity feed for water supply. When rehabilitated, this system will provide 2,200 acre-feet of water irrigating 1,873 acres of agricultural land, and supply domestic water to 100 farm homes.  
The second project — the South Okanagan Lands Irrigation District — will rehabilitate, over a six-year period, an irrigation system initiated in 1920 by the provincial government under the Soldiers Land Act. Primary purpose of the project is to maintain and increase agricultural production in the area served.

**Million dollar mission**  
A man with a million dollar mission, Hon. Mr. Justice Mervyn Woods, spoke in Vancouver recently to 315 executive members of the Royal Canadian Legion.  
At a dinner meeting at Branch 16 Mr. Justice Woods gave details of the million dollar Centennial Fund to be set up by Legion members to perpetuate its aims and objects when the last members can no longer answer the roll call.  
An enthusiastic audience with service ranging from the South African War, Hong Kong Vets and recently returned service men from Vietnam, heard proposals of a new basis for membership under study — the difference between Legion and Service Clubs regarding regulations for admission. What will happen 30 years from now?  
Each provincial command has been given a quota. B.C. will be expected to raise \$192,000 as its share, and W. E. Martin has been named chairman.  
Mr. Woods, who returns this week to the Saskatchewan appeal court, said "it works out at about \$4 a head — at those rates we all should be happy to continue the good works of the Legion."

**AIRPORT LEGALITY**  
To legalize the status of the Sechelt-Gibsons Municipal Airport in Wilson Creek area, Sechelt council at its last meeting signed a document which transfers the holding of the property from the Crown to the municipalities. It is expected that the same will be done by Gibsons council.

**4 books by Cramond**  
Mike Cramond presents the first of a series of four books to be published on fishing and hunting.  
His first title, Game Fishing in the West, has been described as a unique journal in the world of fishing for its wealth of information and know-how for the angler, outdoorsman and naturalist.  
Here is a happy fisherman's vivid account of his experiences game fishing, giving in simple terms his encounters with numerous types of fresh water fish and salt water salmon. The illustration in the book are so biologically correct that even the amateur can identify the fish for himself and his tips on rod and lure give valuable advice to the fisherman on the correct equipment to use.  
As outdoor editor of the Vancouver Province, Mike Cramond is well qualified to make this contribution to the art and craft of taking fish. He won the Sports Writing Award in Canadian journalism in 1962 and in 1963, an honorable mention award for excellence in English by the Outdoors Writers of Canada.  
It is a book that should be in every sport fisherman's library, a field book, a how-to-do-it book, a book that's just plain enjoyable to read. — Mitchell Press Limited, Vancouver, 176 pp illustrated. \$5.95.

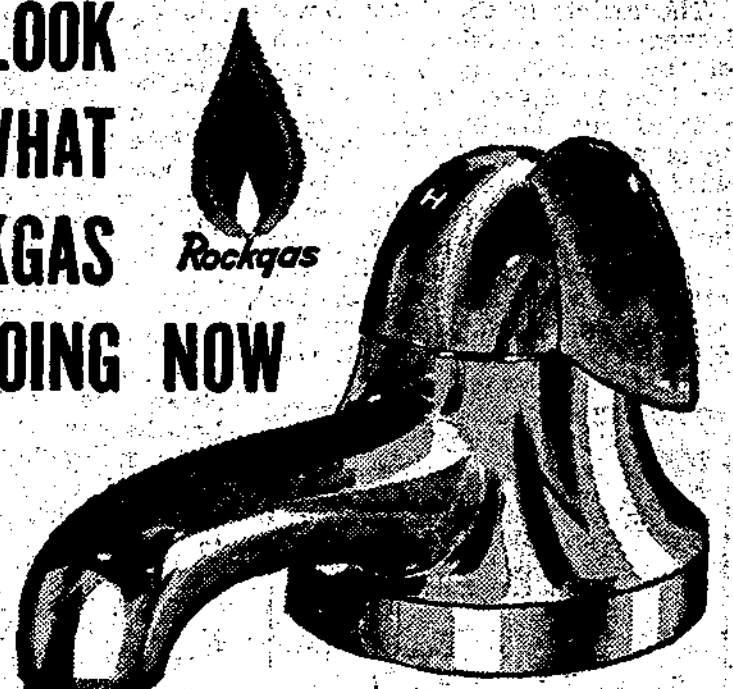

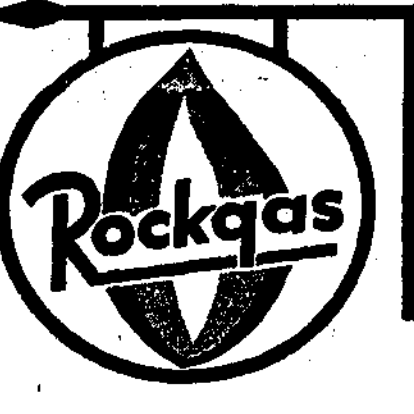

**Late ferries are ruled out**  
Sechelt council was informed at last Wednesday night's meeting that the Ferry authority cannot see its way clear to adding late ferries on to its schedule to accommodate late travelers to the Sunshine Coast.  
The matter was raised by Sechelt's Chamber of Commerce and supported by letter from the municipal council. The letter in reply stated that the Ferry Authority could not see enough traffic available for late ferries.

**Know Canada**  
Which Maritimes port was a haven for privateers?  
In the late 18th and early 19th centuries, when privateering flourished, and was considered thoroughly respectable, Liverpool, N.S., was a haven for these doughty sea dogs. The history of Liverpool goes back to the earliest days. Known to the Indians as Ogumkiqueok, the site was christened Port Rossignol by Sieur de Monts, in 1603. When settlers from New England arrived in 1759-60, the community was given its present name in honor of the English metropolis.  
Major General Clement Moody, who had retired to England after commanding the Royal Engineers and serving as Commissioner of Lands and Works for the colony of British Columbia, died at Bournemouth, April 28, 1887.

## CofC

(Continued from page 1)

The department of highways has asked us to be certain that senior personnel in Powell River be on hand.

Surely you will agree that our number of 100 will have shrunk substantially by the time all the visitors are taken care of and, quite frankly, we know right now that we are bound to have some hard feelings right here in Powell River because there will be many who feel they are entitled to attend but plans simply won't permit it.

I would suggest that the number of 20 people for the Sechelt Peninsula will be the greatest number per capita of any of the areas represented.

In case you wonder why the number of hosts on the mainland is set at 100, it is strictly a case of economics. When the committee met in Courtenay, it was agreed that a budget of \$1,200 maximum be set up for the affair. If we are to exceed this, then each area is simply going to have to be assessed more than present plans call for.

The article in the Coast News leaves the impression that much of the planning is being done by Powell River. It should be pointed out that the entire contents of our March 18 letter were nothing more or less than a report of the committee meeting held in Courtenay. We were present but so were all the other areas involved and the Sechelt Peninsula had been invited to send a representative.

Further to this, our report was given and discussed in full detail at the Sunshine Coast Tourist association meeting of March 14. As pointed out, those present were in complete agreement with the outline. The SCTA executive asked if we would make direct contact with you, Mrs. Johnson of Sechelt and the Pender Harbour Chamber of Commerce. It was upon this direction, therefore, that our letter of March 18th was written. We sincerely hope that after you have digested the contents of this letter you will be more sympathetic to our request.

The \$150 we have asked you for is based on population and is less per capita than either Powell River or Courtenay. Like all other things we would like to make it available to more people and at a lesser cost and keep everybody happy but this is not always possible.

We are trying to keep in mind that what is most important is to put the greatest advantage, some of us on the mainland side are going to have to forfeit our own pleasures. Our whole chamber executive, for instance, would like to attend and bring their wives but this simply cannot be. I would guess that we will have to settle for only five Chamber members and they will be stag and all will have their work cut out for them.

Since the results of your meeting were published on the front page of the Coast News and since Powell River's name is tied in directly with the article that described the affair as a shabby deal, we feel we have no choice other than to send copies of this letter to the Coast News, the Sechelt Council and Len Larsen of the SCTA.

We hope that upon reflection you will view the matter in a different perspective and decide to participate in the spirit of good will that is traditional of Gibsons and the Sechelt Peninsula.—Yours truly, Powell River Chamber of Commerce, R. Jolin

## Flower talk

Gibsons Hospital Auxiliary at its monthly meeting on April 8 in the Health Centre, enjoyed a scrumptious dessert party prepared by the executive. After the meeting, Mrs. W. Lissiman held everyone's attention with an informative talk on flower arranging. Members were impressed with the way Mrs. Lissiman artfully grouped fresh flowers into beautiful arrangements.

Mrs. E. Wiebe reported approximately \$115 was realized from the Spring Fashion Show. Candy sales netted \$44. The Auxiliary thanks Thriftie Dress Shop and Todd's Drygoods for their participation. Mrs. J. Mainil for her lilt piano accompaniment and the many other people who helped to make the evening a success.

Members are advised that the bulletin Have You Heard and meeting announcement cards have been discontinued. Meeting dates will be carried in the Coast News. The next regular meeting will be held May 13 at 8 p.m. in the Health Centre.

### FIRST CLASS HONORS

Debra Marsh, 11 year old daughter of Mr. and Mrs. Dick Marsh of Roberts Creek received word that she passed her Grade II Theory exam with first class honors, receiving the high mark of 97%. She is the pupil of Mrs. Betty Allen.

### BOTTLE DRIVE

There will be a bottle drive on April 17 by Scouts and Cubs of Gibsons area. Public co-operation is once again requested as this is one way to help the boys raise money for various oncoming projects.

## Success Car Sales Celebration

This is the chance you've been waiting for! There's never been a better time to buy!

Here's your dealer's way of saying, "Thank you."

Exciting selection of makes and models!

Extra generous trade-in allowances!

Savingest used car buys in town!

You'll be enthusiastic about the deals at your Pontiac-Buick dealer's. It's his way of showing appreciation for the sales popularity of all his 1965 models. The terrific deals he's giving will have you celebrating along with him.

Among your Pontiac-Buick dealer's great line-up for 1965 there's a model for every taste... from the economical Vauxhall Viva to the classically beautiful Buick Riviera. Nearly 100 different cars from which to choose.

Because your Pontiac-Buick dealer is anxious to keep up his stocks of good, clean, late model used cars, he will offer you a generous trade-in allowance on your present car. So, for a really outstanding trade, visit his showroom right away!

With new car sales reaching record levels, sales of used cars have followed right along. Because of this, your Pontiac-Buick dealer can offer you the kind of used car values you'll find very hard to turn down!

If it's value you're after, don't miss this great sales event at your Pontiac-Buick-Beaumont-Acadian-Vauxhall dealer's!

Be sure to watch "Telescope" and "The Rogues" now showing on television. Check local listings for time and channel. PX-6452
