Gibsons size tripled

Population now 1,850

Order-in-council dates expansion as of June 17

Gibsons, a village of 290 acres, has grown to one of 1,100 acres and its population has jumped from 1,600 to 1,850.

This was revealed as the result of an Order-in-Council from Victoria which was presented to Acting Mayor Walter Peterson at Tuesday night's council meeting by Clerk David Johnston.

Council has been working on the expansion of the municipality for the last two years. Acting Mayor Peterson extended a hearty welcome to the new people who petitioned to join the village more than two years ago. It was too bad, he added, that Mayor Fred Feeney was not present (now in Prince George on an assignment for B.C. Telephones) as he worked hard to get the legalities concluded. Acting Mayor Peterson hoped that the added population would join in and be just like other Gibsonites.

About 40 years ago, Gibsons was incorporated as a village and the date of incorporation was March 4. Some 20 years later after a considerable amount of argument the Headlands area was added. That made Gibsons a village with an area of 290 acres. With the expanded territory added it will be 1,100 acres in extent.

The area taken into the village extends from Granthams at Reid Road, along the south side of Reid Road as far as Park Road, down both sides of Park Road to the Sunshine Coast highway and from there it jogs through undeveloped land down to the water in vicinity of Gospel Rock on Gower Point Road.

Population figures for Gibsons will be raised from 1,600 to 1,850 which will have the effect of increasing government grants to the municipality on a population basis. Taxable assessment in the expanded village will show an increase of approximately $614,000 which would swell the present assessment figure of $2,457,000 to $3,071,000.

The acreage of the village before expansion was 290. With the new territory added the village will cover 1,100 acres, almost three times its previous size. Going back to the original Gibsons as established in 1929. present day Gibsons is five times its original size. Detail on this will be found in a story on an inside page headed How Gibsons Grew Greater.

Brno choir in Gibsons July 4

The Brnensky Detsky Sbor (Brno Children's Choir) from Czechoslovakia, according to a letter recently received from the conductor, Dr. Frantisek Lysek, is eagerly waiting for the departure of their plane which will bring them to Vancouver on July 1. They will be met by chartered bus carrying a welcome committee which will escort them to Gibsons. They are scheduled for their first Canadian concert on July 3, at 8 p.m. at Elphinstone Secondary School Gibsons.

It is not hard to imagine the intense excitement of the choir as they anticipate such a long journey, their first to the western hemisphere. Although they are seasoned travellers, having toured Western Europe, Central and Eastern Europe, this new adventure to the western world most assuredly will have a marked effect upon their lives. Children and parents and all the various fraternal, civic and business groups supporting this tour are equally excited about the choir's visit.

Particularly worthy of mention is the splendid co-operation of the members of the Kiwanis club of Gibsons and all those who have assisted them on the Sunshine Coast. Not only will the concert be a thrilling experience for all who attend, but also the many recreational plans for the choir will surely be most enjoyable to the choir themselves.

The program they are presenting on July 3 is in five parts, consisting of: Part I — liturgical music, 16th to 18th century; Part II — a triptych in cantata form entitled Peace. This work was composed by H. Klyne Headley in fulfillment of a commission given by the Brnensky Detsky Sbor for the 50th anniversary celebration of the independence of Czechoslovakia. The poetry was written by Claudia Jean Headley, Parts I and III, and Elizabeth J. Mackay, Part II, daughter of Mr. and Mrs. A. M. Mackay of Gibsons.

Although the Russian occupation during August, 1968, changed plans for their anniversary celebration, the choir nevertheless presented this work many times in concert and radio broad cast. Mr. Syd Potter will read the complete poem for each part at the performance on July 3. In addition to the choral works being presented, Erika Kocianova, piano soloist, will play the well known composition of the celebrated Czech composer, Smetena, entitled Furiant (from the Czech Dances for Piano). Mrs. Kocianova is a member of the piano faculty of the Brno University.

Part IV will consist of popular Czech folk songs. One of the choir members, a young girl, will play part of a flute concerto by the Czech composer, Blodek. The program will conclude with a group of works by Smetena, Dvorak, Janacek, Novak, Blazek and Brahms.

Although there are only 20 boys and girls from the 75-member choir coming to Canada, this group has earned great distinction for its recording, radio broadcasts and special concerts. The public is urged to purchase tickets early. Look for the posters on display where tickets are being sold.

Mr. H. Klyne Headley and Mr. E. Burritt will be on Channel 12 TV at 11:20 a.m. June 30.

Also the choir will give a program on Channel 6 and 8 TV on July 7 between 6 and 7 pm.

Accident proves fatal

A coroner's inquiry is being held into the death of Eric Rosen of Roberts Creek who was injured in a car accident May 31 resulting in his death on June 18. The mishap occurred at the highway and Flume road corner The funeral was held June 21 at the Harvey Funeral Home Family Chapel with Rev. W. M. Cameron officiating. Burial was made in Seaview Cemetery.

Eric Emmanuel Rosen was born in Sweden Aug. 8, 1890. When two years old the family moved to Alberta where his father homesteaded. As a young man he worked at various jobs until 1921 when he settled in Stringfield, Sask., where he farmed until 1947.

Moving to B.C. he secured employment with the forestry service in the parks department. During the 13 years there he bought property on Beach road, Roberts Creek, and he built a house which was his summer home until 1960 when he retired.

During the following years he showed a keen interest in church activity and community affairs. For the last five years he was treasurer of Gibsons Old Age Pensioners association, a member of the board of Sechelt's Senior Citizens association and interviewed those who applied for residence in the Senior Citizens Housing project, and in 1968 he was president of the Sechelt Credit Union. He also served as a member of Roberts Creek Water Board.

He was predeceased by his wife Josephine in June, 1941. He leaves a brother Walter of Barrier, B.C., and two sisters, Mrs. John (Mary) Carlson of Barrier; Mrs. Ernst (Agda) Schmidt of Vancouver, B.C.; three daughters, Mrs. Wallace (Thelma) Dekarch of Whitecourt Alberta; Mrs. George (Edith) Tucker of Bladworth, Sask., and Mrs. Charles (Dorothy) Linka of Broadview, Sask. There are 11 grandchildren and six great-grandchildren.

DONATIONS HELP

Editor: Mayor DeVito has passed to me the envelopes containing cash for the Trail Disaster Fund from the Old Age Pensioners who wish to remain anonymous. Please convey through your paper our sincere thanks to them. It gives us a warm feeling to know that these fine people are willing to share in the troubles of those who lost homes and personal effects during the flood.

—P. Halliwell,
Deputy Mayor and Treasurer.

TO CHECK ROOMS

Architects will take a look at the ventilation system at Gibsons Elementary school. There have been complaints about too much heat on warm days.

A cold welcome!

Delta Community Band, invited to play in Gibsons and Sechelt by the Sunshine Coast Community Arts Council did not play a note in Gibsons Saturday afternoon.

On arrival at Elphinstone school shortly before 1:30 p.m. to give an hour's free open-air concert. the band leaders found nothing had been prepared for them. Knocking at the school rear door a janitor appeared and informed the bandsmen he knew nothing about arrangements.

Eric Dunning, spokesman for the band said it had been arrang ed that chairs and music stands would be supplied. The janitor said they could have chairs if they wanted to get them out but he knew nothing about music stands.

The band decided as there were no greeters, no chairs and no music stands it would be best if they moved on to Powell River. Some citizens showing up for the concert left disappointed.

CEDARS INN BREAKIN

Police are holding a juvenile in connection with a breaking and entering of Cedars Inn. Removed from the premises were 7 bottles of hard liquor, two cases of beer, cigars, gum and $25 in cash. A citizen noting two youths drunk reported them to the RCMP who on investigating unearthed the breakin. The stolen goods were found hidden in a tree stump.

HOVERCRAFT MOVIE

B.C. Hovercraft, aided by Gibsons and District Chamber of Commerce plans to show a movie on hovercraft Monday night starting at 8 p.m. in Cedars Inn. The public is invited to attend.

Old Folks week!

Hon. Isabel P. Dawson, minister without portfolio, has urged full support by citizens of British Columbia, for Pioneer and Elderly Citizens' Week, June 29 to July 5.

"Our senior citizens are the people who have contributed greatly to the state of well-being in our province today," Mrs. Dawson said, "and the government of British Columbia has proclaimed June 29 to July 5 as Pioneer and Elderly Citizens' Week in recognition of their great accomplishments and abilities."

Mrs. Dawson explained that about nine percent of British Columbia's population is over 65 years of age, and that the government would spend $7½ million this year to ensure that British Columbia's citizens continue to enjoy life in this province.

Sunshine Coast Scouts organized

At a special district executive meeting for the new Boy Scout Sunshine Coast District executive at Camp Byng on June 16, the following completed organization chart was approved by the membership.

Honorary president, Edgar C. Sherman, Port Mellon; president Robert Janis, Sechelt; executive vice-president, Jim Janiewick, Sechelt; vice-presidents, Cpl. Lou Biggeman and Vince Prewer, Gibsons, and Terry Booth, Sechelt; secretary, Mrs. Joan Quarry, Gibsons, and treasurer, Kurt Hoehne, Gibsons.

Chairmen for the district council operating committees include Adult training, George Ruggles, Gibsons; camping, Peter Benjafield, Garden Bay; health and safety, R. Keeley, Wilson Creek; public relations, Miss E. Harrold, Roberts Creek; program resources, David McElhoes, Gibsons; quartermaster, Cliff Beeman, Roberts Creek, and growth development, Rev. Barry Jenks, Sechelt.

The position of District Ladies Auxiliary has been left open and it is hoped to have this vacancy filled for the fall season.

Dave Wilson, Sechelt, has agreed to become an assistant district commissioner to assist the uniform Scouters of Wilson Creek and Sechelt. A district commissioner and one more assistant district commissioner are to be appointed at a later date.

Attending the executive meeting at Camp Byng were Bob Janis, Excutive Vice-president Jim Janiewick, Vice-presidents Vince Prewer and Terry Booth; Secretary Mrs. Joan Quarry; treasurer Kurt Hoehne; Growth Development chairman Rev. B. Jenks, and regional liaison representative from Vancouver Bob Simmons, regional field executive, Vancouver, Jack Adair and guest Geoff Harrop, just recently discharged from RCAF, Cold Lake, Alberta.

A growing community

On May 23, 1886, George Gibson and his two sons were travelling by boat from Nanaimo to Vancouver when a strong southeast wind blew them across towards Howe Sound. They sheltered overnight at a sandy spot on Keats Island, opposite what is now Georgia Heights.

Next morning the Gibsons ventured across the narrow channel into what is now Gibsons harbor and George Gibson, liking what he saw decided here was where he wanted to settle. He claimed District Lot 686 and his son claimed District Lot 685. Thus the foundation of Gibsons Landing started.

In 1929 it was large enough to be incorporated as a municipality. In 1950 the area generally described as the Headlands was added. Now ,with its expansion, Gibsons is close to five times its original size.

Any observer can note there is little bragging about Gibsons growth. It is accepted as an indisputable fact. As the late Bob Burns, Gibsons village clerk, in commenting in his history of Gibsons people, wrote there are many, too many to list, who carried a full load according to the opportunities of the moment. There would still be all those who he did not know about. It was his observation that men and women who really do things never talk about it, and are seldom heard of; one only learns of it accidentally.

There are quite a few names that should appear on a commemorative tablet marking the growth of Gibsons. Perhaps it is better that their good deeds are revealed in the natural expansion of Gibsons. Maybe we should keep it that way.

A satisfying appointment

The appointment of Mr. Prentice to the chairmanship of the Canada Council will probably prove to be mutually satisfying to both the appointee and to the Council.

I met Mr. Prentice twice. Once when he was making a tour of the mill at Port Mellon and once when he addressed the local Kimanis club. All who met or heard him were impressed by his kindly demeanour and obvious good sense.

Mr. Prentice was one of a group of Austrian and Czechoslovakian industrialists who left their homelands ahead of the Hitler invasion. To British Columbia's benefit several of the widely experienced, educated and cultured men settled here and successfully entered the business community, particularly in our forest industries.

From the very beginning of their life in their new homeland they took a serious interest in the educational and cultural activities of this province; its universities, its theatre, its opera, its symphony and other musical organizations. Their interest was never superficial or dictated by social ambitions but came naturally from their cultural background, from their legacy of the age-old culture of their native lands.

Canadian Forest Products must be very proud of this appointment. I think that the citizens of British Columbia will be pleased that Secretary of State Gerard Pelletier and the cabinet appointed Mr. Prentice to this sensitive and important post. He will fill it with wisdom, grace and competence. — **Jules A. Mainil.**

COAST NEWS

5-10-20 YEARS AGO

FIVE YEARS AGO

Sixty-four attended a joint hospital auxiliaries tea in St. Hilda's Hall, Sechelt. Five auxiliaries, Pender Harbor, Halfmoon Bay, Roberts Creek, Gibsons and Sechelt were represented.

The school board faced a problem of having too many grade five pupils to take care of for the next school season. There were 62 for Gibsons and 20 for Sechelt.

The 1963 financial statement of the school board showed expenditures at $851,585 including an almost $14,000 over-expenditure.

Mrs. Agnes John, grand matriarch of the Sechelt tribe died in St. Mary's hospital at the age of 90.

10 YEARS AGO

The Port Mellon Community church basement has been poured and is now ready for the superstructure to be built.

Starting with six members 12 years ago, Roberts Creek Legion now has 42 members. More than 70 persons turned up for the gay party to celebrate the birthday anniversary.

Land with a 251 foot frontage which could be turned into four lots was offered for sale at $3,000 in Hopkins Landing area.

The school board has chosen Trail Bay High school to be the name of a proposed school for Sechelt. (This high school still has to be built).

20 YEARS AGO

After 28 years with the department of education V. Z. Manning said farewell to teachers of Sechelt school district at a dinner in Sechelt Inn. He retires as district superintendent.

Chief engineer of the public works department will look into the proposal of a Halfmoon Bay cutoff road as requested by residents.

H. W. Aggett is heading a petition to the minister of education protesting the method of polling carried out during the referendum last month.

Ken Whittaker was the unanimous choice as president of Sechelt's Board of Trade at the annual meeting. Jack Mayne remained as secretary.

Some light summer reading!

By A. R. BUCKLEY

Plant Research Institute, Ottawa

PLANTING A WINDOW BOX.

The art of planting a window box lies in the selection of plants that harmonize both among themselves and with the color of your home. By careful selection you can produce an agreeable color effect by using cultivars of either one kind of plant or a few distinct kinds. You can also get diversities of foliage texture and color that will blend together.

From a multitude of plants you can also select types that will suit every aspect your window box is likely to be given. Right now is the time to plant your window box while plants are still available in large quantities and in great assortment.

The average garden soil is just not good enough for plants growing in confined areas such as boxes or pots. If it is on the heavy side it becomes soggy and is easily compacted; if it is sandy it dries out quickly and contains little nutritious substance.

To overcome this, make up a compost of one part of loamy garden soil to one part of peat moss and one part of builder's sand. If your soil is sandy you should include two parts of soil to one of peat and one of sand. To one bushel of either mixture add a level tablespoonful of a complete fertilizer.

Before putting in the soil mixture place a 2-inch layer of broken bricks, crocks or stones at the bottom for drainage. On top of this put some partly decayed leaves, straw or rough peat moss, and then add soil to the box to within two inches of the top.

A box 10 inches wide may have three rows of plants: tall kinds 12 to 15 inches high at the back, medium ones not over eight to 12 inches high for planting in the middle, and overhanging or drooping plants such as cascade petunias or the trailing lobelias, which will conceal the box itself, in the front.

You must also consider the color of your house. A white frame house, for instance, will be enhanced by the bright blue of ageratum and lobelia, the yellow and orange of dwarf marigolds and white alyssum trailing over the edge. Red brick walls are particularly hard to harmonize. Here white or light-colored flowers and those that have massive green foliage are good.

Before ordering plants look at a garden catalogue and work out the combination for yourself by making careful notes of colors and heights of the annuals.

You might like these selections: salmon geraniums for the back, silver santolinas for the middle and dark-blue balcony or cascade petunias as the overhanging plants; white geraniums, scarlet annual phlox, and white balcony or cascade petunias at the front; orange marigolds, blue ageratum and variegated periwinkle, and blue lobelia drooping down over the front of the box; Blue Magic or Capri petunia , Harmony marigolds and blue balcony petunias in the front.

For a very hot, sunny position you may well use succulent plants such as cactus, aloes, trailing ceropegias, and little pickles. (Othonna).

For shady locations the tuberous begonias or ever-blooming fibrous begonias will grow very well. So will the new Elfin Treasure and Imp series of patience plants which are more dwarf and extremely floriferous. In the shade, too, plant foliage plants such as bright coleus or dark purple perilla with variegated ivy as the trailing plant.

The cascade petunias come in red, white ,and pink. They make splendid window box plants when either one color or a mixture is used.

Supplementary to the window box it is interesting to have small trellises on each side. Annual vines such as the cup-and-saucer vine, morning glory, climbing nasturtium or black-eyed Susan vine may be used.

It isn't necessary, of course, to use flowers at all. For those who like salads and vegetables, such plants as tomatoes, dwarf beans, chives, swiss chard and parsley might be grown. Good vines to go with these are the scarlet runner bean and the tall-growing tomato.

During the summer, feed the window box every two weeks with a 20-20-20 soluble fertilizer. Keep all weeds from the boxes and pick off each faded bloom so as to prolong the flowering season.

Those who would like to continue using their window box after the first frost should plant outdoor chrysanthemums in a vacant place in the garden. Dig these up when they're in bud and plant them in the window box to replace the annuals that have then become rather straggly.

Znotin memorial planned

An Alex Znotin Memorial Fund has been started to provide an annual Bursary for a senior art student in the Sechelt School District, and it has been suggested that his many friends might like to contribute to the Memorial Fund. The Association for the Support of Progressive Education has been asked to organize the fund. It is hoped to establish a trust fund, by bond or other suitable investment, the annual interest to be used for the bursary. A committee representing the association, the school trustees and the art teachers would be formed to assess the applicants and award the bursary annually. Neither Elphinstone nor Pender Harbour Secondary Schools have any scholarships or bursaries for art students at present.

An account has been opened at the Bank of Montreal, Gibsons, with a donation from the Children's Art Workshop where Alex taught carving. Courtesy of the Bank of Montreal, donations will be accepted at the Madeira Park and Sechelt branches also. Donations should be to the order of the Alex Znotin Memorial Fund and may be paid directly to the bank or to Mr. Ed Burritt, secretary of the Association for the Support of Progressive Education.

NATIONAL NURSE WEEK

John Munro, national health and welfare minister has drawn attention to an international event in Montreal this week. Some 12,000 nurses from more than 70 countries are in Montreal to attend the 14th Quadrennial Congress of the International Council of Nurses, June 22 to 28, National Nurse Week.

DUCK DOWN

Eiderdown is collected from the nests of the eider duck. It is not plucked from the bodies of dead birds. The bird itself plucks the down from its breast and uses it to line the nest and to cover the eggs when it is temporarily vacated.

BIRDS OF A FEATHER

Don't always flock together, that is. In the forest, for instance, each pair of nesting birds selects and defends enough territory to support its family. But this defense is exerted only against members of its own species, while nests of other, non-competing species might be tolerated in the same tree.

CYSTOCELE CAN CAUSE PYELONEPHRITIS

Cystocele (pronounced SIS-toe-seal) means that the bladder has sagged somewhat and instead of emptying completely while urinating, some of the urine is retained. This provides an environment in which germs can flourish and the infection moves up into the kidneys. Pyelonephritis, the most common of all kidney troubles, can develop.

Sometimes surgical correction, which is not difficult, is necessary to cure a Cystocele. If you have any constantly recurring problem in that area, you should consult a physician. We stock the antibiotics and anti-infectives usually prescribed for treatment.

Your doctor can phone us when you need a medicine. We will constantly endeavor to keep abreast of the expanding activities in the field of pharmacy — in this era of great change. We pledge at all times to be in the position to offer the finest of pharmaceutical services.

Cable ship for big Hydro job

A cable-laying ship from France is due in British Columbia July 4 to work on B.C. Hydro's high-voltage direct current interconnection between the Lower Mainland and Vancouver Island. The 4,500-ton vessel, Marcel Bayand, is 387 feet long and 51 feet wide and has a draft of 21 feet 6 inches. It will be in British Columbia for about three weeks for the Hydro job.

Nearly 19 miles of the intertie route lie under water, between Tsawwassen and Galiano Island and between Parker and Saltspring Islands. The Marcel Bayard will place three direct current cables in these portions of the route. Two of the cables will constitute the submarine sections of the new DC circuit and the third will be a spare. The remaining 23 miles of the route will be spanned by conventional aerial conductor.

KELLY COMMENDED

Gibsons council at its last meeting commended Bob Kelly, garbage collector for Gibsons and area for his work on Gibsons cleanup day last month when he volunteered his services and employed a helper. Several tons of garbage was removed under sponsorship of council and the Chamber of Commerce. Kelly's total bill was $17 for his helper.

HARBOR DEVELOPMENT

The big Greenlees pile driver in Gibsons harbor last week was there for the purpose of driving test piles to discover information relative to harbor development. The job cost Gibsons council $400, money which had already been approved for this exploration work.

Swimming, lazing on sandy beaches, watching salmon spawning, boating, hydroplaning, fishing, rockhunting, skiing, skidooing, hunting, hiking, mountain climbing, horseback riding, and browsing through ghost towns. Name it and it's in British Columbia.

And the bonus is the scenery, mountains searching for the sky, alpine meadows ablaze with spring flowers, smoky autumnal valleys stretching miles away, lakes blue as the summer skies and dotted with sails, and sage brush plains and flatlands beside green rivers ablaze with fruit blooms. Kathleen Lake, above, is a sample of scenery within B.C.

Accurate centre costs sought

Rapid progress is being made on the proposed Recreation Centre. Selection of the Roberts Creek site has gained widespread approval, and the Regional Board gave the Recreation Committee encouragement to proceed.

The committee has been instructed to provide accurate costs on the building and operation of the centre. It is feasible to go to referendum by this December. In order to establish cost estimates, the Recreation Committee has engaged the services of an architectural firm and their engineers to design the centre. This firm has designed similar centres in other areas.

The cost of this initial work must be borne by the committee, and they have now begun a drive to raise the necessary $2,500. Many organizations have expressed an interest in the centre, and now is the time that financial help is necessary. The Sunshine Coast Lions club has donated another $250, and hopefully other clubs will support the project as well.

Another source of revenue will be the membership drive. All people planning to use the Recreation Centre are urgently requested to pay $5 toward their first year's dues. They will receive a membership card. Please send your money to Recreation Centre Committee, Box 638, Sechelt or Box 430, Gibsons. The committee hopes that popular support shown to date will produce some money. If the centre means something to you and your family, please support it now.

FASHION NEWS

Thanks to the updating of an ancient craft, you can now be a designing woman and have handsome wall hangings to show for it.

For a fascinating hobby, try your hand at batik-painting — a method of putting designs on cotton fabrics with the use of wax and dye. Originated centuries ago in Java, the process produces distinctive prints with a rich, marbleized look.

Batiking is an ideal home craft for all ages, reports the Canadian Cotton Council. Materials are inexpensive and the whole process can be done in the kitchen. All you need is a piece of cotton fabric, a few boxes of home dye, paraffin, and a brush.

A batik design is made by brushing melted paraffin or wax on certain portions of the fabric and dipping it into a dye bath. The dye colors only the unwaxed areas.

After the fabrics dries, apply wax to the dyed portion. Then dip the fabric into a second dye bath. The process of waxing and dyeing is repeated for each color in the design.

The intricate, marbleized effect — so typical of batik prints — is created when the wax cracks and dyes seep in.

For your first endeavor, choose a cotton fabric like batiste or muslin. Cottons produce the most effective batiks because of their natural ability to absorb and retain dyes. It is best to start with a simple design. Sketch your design or copy a painting with simple lines and no more than three colors.

With practice, you will soon be ready to move on to more complex compositions. It is easier than you think to capture on cloth the simple lines of a Braque painting or the textured look of a Van Gogh.

(Continued Next Week)

You don't have to be old to apply for your old age security pension.

Just 65.

Starting in January, 1970, the Old Age Security pension is payable one year earlier . . . at age 65.

If you are 65 or will be 65 before January, 1970, you should apply now. You will then receive your first payment in January. If you will be 65 in 1970, you should apply six months before your 65th birthday.

An application form for your Old Age Security pension is available at your local Post Office, or you can write to the Regional Director of Old Age Security in your Provincial capital. Along with your application form you will receive a pamphlet giving you full information about the Old Age Security Pension program.

Guaranteed income supplement

As soon as your Old Age Security pension is approved, we'll send you information about the Guaranteed Income Supplement and an application form. You may be entitled to a supplement which, together with your Old Age Security pension, will guarantee you a monthly income of at least $109.20.

THE DEPARTMENT OF NATIONAL HEALTH AND WELFARE
THE HON. JOHN MUNRO, MINISTER

BASEBALL

MEN'S SOFTBALL LEAGUE

	W	L	T	Pt.
Port Meloln	10	2	0	20
Sechelt	10	3	0	20
Pen Hotel	10	4	0	20
R.C.M.P.	10	4	0	20
Wilson Creek	7	7	0	14
Hydro	4	8	1	9
Firemen	3	9	1	7
Shakers	3	11	0	6
Roberts Creek	2	11	0	4

Sechelt 3
Pen Hotel 15
W.P., F. Reynolds
L.P., C. Kohuch

Freeman Reynolds got off to a shaky start giving up three hits in the first inning. After that he pitched no hit ball. Ben Jack led the Hotel team with 3 for 4 including a tremendous triple. Carl Kohuch walked 12 battens and struck out 4. Ross Joe came on in the 6th inning.

Wilson Creek 3
Port Mellon 9
W.P., D. Carroll.
L.P., J. Hall
H.R., B. Legh (4)

Port Mellon won their game in the sixth inning by scoring 1 run and then wrapped it up in the 7th with four more runs. D. Carroll struck out 12 batters.

R.C.M.P. 12
Roberts Creek 4
W.P., H. Wiebe
LP., D. Middlemiss.
H.R, D. Underhill (2)

H. Burki came on in the 4th inning in relief for the R.C.M.P. Barry Roth went 3 for 4 at the plate.

Hydro 7
Wilson Creek 6
W.P., W. Page.
L.P., C. Salahub

Jim Hall came on the 6th for Wilson Creek Grant Hubbs went 4 for 4 for Hydro and scored the winning run when he led off the 7th inning with a triple.

R.C.M.P. 8
Pen Hotel 5
W.P., H. Wiebe.
L.P., F. Reynolds
H.R., F. Reynolds (2), Pen Hotel. O. Underhill (3) RCMP

Henry Wiebe struck out nine while giving up six hits. F. Reynolds gave up 10 hits.

Sechelt 19
Firemen 2

Hydro 7
Shakers 17
W.P., W. Skinner
L.P., R. Page.
H.R., D. Clark.

Wilson Creek 4
R.C.M.P. 6
W.P., H. Wiebe.
L.P., J. Hall

Each pitcher gave up 8 hits but Henry Wiebe struck out 12. Orv Underhill and Henry Wiebe each went 2 for 3 at the plate.

Port Mellon 2
Pen Hotel 0
W.P., L. McGee.
L.P., F. Reynolds

Lee McGee came out the winner in one of the best games of the year. Lee gave up only 3 hits while loser Freeman gave up 4. Bill Nimmo was the hero for Port Mellon, driving in both runs with a single after three successive batters had reached base on infield errors.

Games this Week:

Thurs., June 26:
Sechelt vs. Wilson Creek.
Pen Hotel vs. Roberts Creek.
Port Mellon vs. Hydro.

Sunday, June 29:
Sechelt vs. R.C.M.P.
Wilson Creek vs. Firemen.
Roberts Creek vs Hydro

SUCCESSFUL DRIVE

For the successful Cubs and Scouts bottle drive on Sat., June 14, a sincere thank you goes to all parents who drove the boys and to Super-Valu for the use of their lot. A thank you also to John Clement and Ruben Stroshein for their co-operation.

Flower show at Sechelt

With 25 members plus four new members the Sechelt Garden Club at its June 5 meeting at the home of Mr. and Mrs. V. Shuttleworth discussed the flower show for June 28 in St. Hilda's Anglican church from 2 to 8 p.m. Tickets are 50 cents for adults and 25 cents for children.

New members were Mesdames Gladys Thompson, Mary McKeen, Kay Leguime and Vivian Parker with Mrs. Phyllis Lehmann as an added guest from Monrovia, California.

At the flower show will be refreshments and a door prize a planted patio planter from Dave Doig of Sechelt's Garden shop.

A children's dish garden will be open to all children, members or not and for the first time there will be a floating cup in this category donated by Mrs Kay Lemieux.

There will be plants and bulbs for sale, a popular section in previous years, so to get the best be there early.

The meeting saw colored slides shown by Roy Olsen and narrated by Mrs. Lorene Yates and they showed Death Valley, and Palm Springs deserts in California. Also shown were slides of Mrs. Janet Allen's garden taken in the spring showing some of the 100 varieties of narcissus and many other spring flowers. Refreshments were served by the hostess.

A BALL OF FINS

The marine spiny lumpsucker, a fish on display at the Vancouver Public Aquarium, looks like a ball of fins. Living off British Columbia, it comes inshore to spawn every fall.

$1 admission includes skates

No Saturday afternoon skating till fall

An important message for B.C. TEL EMPLOYEES

The announced intention of the Federation of Telephone Workers of B.C. to conduct rotation strikes against B.C. TEL has made it necessary for management to prepare for sudden work stoppages at any given location throughout the Company's province-wide system.

Many supervisors have been deployed to assure that personnel will be available in each location to maintain customer services in event of any work stoppage by classified employees. The uncertainty of the situation means supervisors will have to cover these posts until a new contract is signed.

Certain work functions may have to cease because of the removal of supervisors from regular assignments, but it is not the Company's intention to deny re-employment to employees who lose employment because of work stoppages caused by the labor dispute.

All employees willing to return to their jobs when picketing ceases in each instance will be assigned as quickly as circumstances permit. Because of the internal disruption work stoppages cause, however, it will be impossible to assign all employees to work immediately when picketing has ceased.

B.C. TEL employees should listen to their local radio stations for information about when to return to work. Specific instructions will be broadcast for traffic operators, service representatives and other commercial business office staff. Other classifications will be called individually and advised when to report for work.

B.C. TEL
BRITISH COLUMBIA TELEPHONE COMPANY

Birthday party

Roberts Creek Legion annual birthday party on Saturday, June 14, drew a large turn out. Millie Thyer, president of the auxiliary for her fifth term, presented Geoff Thatcher, past president a cheque for $200, to be used on the furnace project which is now being undertaken. Mr. Thatcher presented gifts on behalf of the branch to Mrs. Thyer, Mrs. B. Clark and Mrs. Cope.

A summer driving spree raffle is now on to aid the furnace expenses. After the supper a dance followed.

FIRST VISIT

Mrs. Grace Barnes of Wellingborough North Hampton, England is visiting Mr. and Mrs. S. Spiers of Gibsons for two months. It is her first visit to Canada.

Weddings

SIM — MORRISON

High noon on June 16, at Gibsons United Church was the time and place chosen by Wilma Katherine Morrison for her marriage to Mr. Albert Sim. Rev. M. Cameron officiated and Miss Pam Boyes was soloist.

The bride chose a pink satin and lace gown with white corsage and accessories. The maid of honor, Katherine Morrison, was gowned in lime green with a pink corsage.

Mr. Ron Sim was best man and Mr. Rich Sim and Mr. Jerry Morrison were the ushers.

A reception was held at the home of the bride.

For going away the bride chose a blue matching coat and skirt with print blouse to match.

After a honeymoon in Tahiti, Mr. and Mrs. Sim will live at Langdale.

Among out of town guests were Mr. and Mrs. Bill New, and Heather; Robert, Kathy and Lisa Hensley, Louise and Mary Bell, Mr. and Mrs. O. H. New, Mary Hensley Sr., Ralph McKenna, Norman Hensley, Mr. and Mrs. Jim Dunn, Gail and Lisa Dunn and Ellen R. Harper.

Mary Woods' art displayed

Mary Woods is well known locally for the attractive West Coast Indian designs with which she has decorated Wakefield Inn during the three years she has lived here. The Sunshine Coast Arts Council Gallery is happy to have the opportunity to display some of her work.

As so many of Mary's paintings are part of the decor at Wakefield she is sharing her display with her brother Don Hammond who lives in Vancouver.

The paintings are representative of their wide interest in pastels, including an excellent likeness of Chief Dan George of Capilano. Mary has great admiration for the beautiful designs of the West Coast Indians. Her brother who works at City Hall and often spends his lunch hours sketching, has a delightful series of watercolors for which False Creek is the background

These paintings will be displayed until July 5 and the Gallery is open Tuesday through Saturday, 10 - 4 p.m. The next showing at the Gallery will be paintings by Jo Michie.

Plan canoe race

Gibsons Sea Cavalcade committee, under the chairmanship of Bill Scott, would like to know if there is enough interest in the area to organize a canoe race from Keats Island to Gibsons. This would be held in conjunction with the Cavalcade on August 22, 23 and 24. Anyone interested in participating should contact Peter Finlayson at 886-9660. If enough interest is shown the event will be scheduled.

The committee would also appreciate receiving donations of salmon for the windup barbecue to be held on the Sunday night. Anyone wanting to donate salmon should get in touch with Frank Hay at the Co-Op store, Gibsons.

The next committee meeting will be held Monday, July 7 at 8 p.m. in the Legion Hall and anyone interested in helping to organize the Cavalcade is welcome to attend.

In Court

Davil Riches of Gibsons was fined $50 for following too close behind another car with the result that he locked bumpers.

Ronald DeWilde, Gibsons area was fined $50 for consuming liquor in a public place. Edgar Martin Iverson was also fined $50 for a similar offence and David Neil MacKay a minor in possession of liquor was also fined $50.

LANDS 32 lb. SPRING

Mrs. Ada Kern of Vancouver, fishing in Shoal Channel or the gap as some people know it, at about 4 p.m. Saturday tangled with a 32 lb. spring salmon and landed it. It was her first large fish. She is an aunt of Danny Bergnach.

TUESDAY'S FIRE ALARM

Tuesday evening's fire call was from a Pratt Road home close to the Hough Dairy farm. Cause was an overheated oil stove. Damage was slight.

Use hovercraft

Vancouver Kiwanians attending an inter-club meeting with the local Sunshine Coast Kiwanis club at Gibsons Thursday have chartered a hovercraft from Pacific Hovercraft Ltd. to make the first commercial trip for this type of craft to these parts.

A full complement of 33 Kiwanians will make the crossing. The remainder of the Kiwanians will make the trip on the ferry.

The hovercraft is scheduled to leave Vancouver at about 6 p.m. arriving at Gibsons about 6:20 p.m. allowing for a 20 minute crossing.

Point of law

(By a Practicing Lawyer)
Copyright applied for

Law for the layman: There is no reason why the businessman or the housewife should hesitate to delve into our law when the occasion arises, or general interest prompts them. A good book store will have a choice of several texts that are written for the general public. The law is not an esoteric technical incomprehensible subject. It is, in fact, mostly common sense and very practical. It is well suited for the needs of our business community and our society in general.

The law is not however, an exact science, as are mathematics and physics. It is not all contained in text books or in statutes passed by the federal parliament or the provincial legislature. The statutes have to be interpreted according to the facts in each particular set of circumstances, as individual cases come before the courts for decision.

The law is a vast and very complex subject, as it covers every facet of life. It takes lawyers many years of study and practice to even make a start at learning it. No lawyer, law professor or judge, however eminent, can even begin to know it all, or all of any branch of the law. A lawyer should, therefore, be consulted for all but the simplest of legal problems.

These articles deal only with general problems and for every rule there are exceptions and every exception has exceptions to it, etc. Situations in legal problems, as in life itself, are infinitely variable.

As far as acquiring legal knowledge is concerned, no value should be placed on legal matters as depicted in movies, on television shows, novels and most magazine articles. These are designed for melodramatic appeal and are almost always grossly inaccurate.

Lastly, it should be understood that our law is constantly changing. New statutes are being passed. Existing statutes are constantly being repealed or amended. New law is coming into being everyday in the form of decisions in the courts. Old cases are falling into disuse. This is as it should be to keep pace with an ever changing society.

The businessman may find it helpful to have some statutes, pertaining to his particular field, in the office for example the mechanics lien act, the bill of sales act, the conditional sales act, etc. For a full list write the Queens Printer, Parliament Buildings, Victoria, B.C.

FISH!

Latest report

From the Federal Dept. of Fisheries, Vancouver

Period ending June 15

Salmon catches bounced back after a decline early in the week but tapered off again on the weekend. Still, a fair number of heavy fish were taken—most by regulars with a good knowledge of local waters.

Heaviest for the week was a 41 lb. Squamish River-bound white chinook boated off Coppermine, Bowen Island on a trolled herring strip back of a 16 oz. sinker. Other heavyweights last week included 25 and 17½ pounders taken at Gower Point, a 21 and a 22 at Cape Roger Curtis, 30, 25 and 21 pounders from Halkett Point and a 21 from Salmon Rock. Several other heavy fish were reported taken in the Gibsons Gap area.

Heavy flows from the Squamish system have clouded Howe Sound waters down to about Port Mellon. Both effort and catch remain light in the Upper Sound area.

Fair fishing weather saw a record turnout of anglers in the upper section of the Sunshine Coast and apparently most of them had no trouble locating fish.

The fishery officer's report mentions good coho success at Scotch Fir Point at the entrance to Jervis Inlet, at Mystery Reef below Savary Island and at the top end of Texada Island with limit and near-limit catches almost the rule. Flashtails, Tom Macks and Pearly Pink plugs were heavy favorites among lures.

In these areas as in other parts of the gulf the story goes that deep trolling was the ticket which means there must be substance to the theory that prolonged hot, dry weather coupled with light winds drives the cohoes deep.

Chinooks have also been taken in good numbers at such locations as the top end of Texada Island and waters off the Powell River Hulks. Last Sunday evening F. Roscovitch cruised up to the Westview Ramp with a 23½ pounder followed by D. Smith with a 22½ pounder taken at the Hulks, and R. Cofield with a 24½ pounder from the Texada Island Light. One of our fisheries lads on a holiday trip up here took 20 and 26 lb. white chinooks Friday on slow-trolled whole herring back of a flasher — one at the Hulks and the other off the Westview Dock. Out again on Sunday, he took two 7½s and an 8½ pounder with the same gear — two at the Hulks and one at the dock.

The overall picture for the lower section of the Sunshine Coast was fair to good fishing from Thursday through Saturday. Spotty fishing on Sunday.

17 LB. CRAB

Ever hear of a 17 lb. crab? Well, unlikely as it may seem, that's the story that came from Lions Bay June 15. It was caught by an unidentified woman while mooching in the vicinity, checked on the scales at the marina and duly witnessed. All present seemed sober and sincere enough but no one grasped the significance of the catch which might well have been something of a record for Pacific Coast waters, says the latest Sport Fish bulletin of the dept. of fisheries.

ATTENTION TELEPHONE CUSTOMERS

B.C. Tel will maintain service

DURING WORK STOPPAGES

The Federation of Telephone Workers of B.C. has begun calling rotation strikes against B.C. Tel, meaning work stoppages may occur suddenly and without advance notice in any given part of the Company's system.

Such work stoppages will cause some inconvenience for telephone users, but the Company will maintain telephone services to the best of its ability in each case of work stoppage.

Management employees have been assigned to essential tasks and these tasks will be covered by management until a contract is signed so that we can assure service is maintained.

As a telephone user, you will find it advantageous to note the following suggestions for use in event a work stoppage occurs in the part of the Company's system serving you:

Emergency Numbers

Keep telephone numbers for your safety agencies handy. Operator positions may be busy, but you'll be able to get through to police, fire, ambulance and other services in emergency when you have the numbers beside your telephone so you can dial directly to the service you require.

Directory Assistance

Use your telephone directory to find the telephone numbers you need. When you must call Directory Assistance, make note of the numbers you get for future reference. Our Directory Assistance switchboards are being staffed, but service will be better for all if maximum use is made of your directory.

Local Service

Most of the Company's business offices will remain open, but with limited staff. Installation orders will be accepted, but installations will have to be carried out on a priority basis with available staff being employed first to meet urgent requirements for safety agencies and other essential services.

Repair Service

Repair services will be carried out, but also on a priority basis. We'll do our best to keep all telephones working, but must give attention first to essential-service customers, such as doctors, hospitals, fire and police services and ambulance agencies.

Long Distance

Where Direct Distance Dialing service is available, dial your long distance calls directly. See your telephone directory for area codes and instructions on use of Direct Distance Dialing and follow those instructions to obtain telephone numbers in distant places by dialing directly.

Don't be surprised if a male voice answers when you dial "Operator."

Give the operator area code number together with the number of the distant party you are calling whenever possible and on out-of-province calls, provide the area code. This will speed service.

Garbage fee continues to be Sechelt topic

Sechelt's council has decided to meet Regional District garbage collectors and find out just what they would propose to do for Sechelt if they obtained a contract for such work.

This was decided at last Wednesday night's council meeting when Mayor William Swain and Ald. Norman Watson expressed feeling against garbage collection on an assessment basis. It was their contention the best system would be to hire a collector and make him responsible for his own fees. On a mill rate basis the collection would be done through usual taxation methods.

Aldermen decided they would like to look over the Regional District zoning bylaw to see how it affects them as regards the use of trailers as permanent homes. A request will be made that copies of that section of the bylaw be provided so they can scan it. Such homes would have to be placed on permanent foundations before they would be acceptable.

When discussion arose over the use of money granted for ambulance service for some other use temporarily, Clerk Ted Rayner informed council it would be preferable they left that fund alone until the Union of B.C. Municipalities had clarified the situation with Victoria. as there is a feeling the grant must not be used for any other purpose.

Ald. H. Nelson reported that it would take about $7,000 for the proper roads program this year for the village. It is quite likely the council will go ahead with such work because little has been done over the last couple of years. He also reported three street lights had fallen victim to local vandalism.

Also a deliberate attempt to damage the clubhouse in Hackett Park was reported. Someone aided by a two-by-four had battered their way through the block wall breaking through the cement blocks. Ald. Thompson said the building was a knotty problem and it could be shut down completely as the vandalism was becoming progressively worse.

Mayor Swain wanted sidewalk holes fixed up as quickly as possible before the village was faced with a lawsuit. He reported seeing one woman fall flat on her face when entangled in a hole.

A suggestion was made that a local citizen would construct cement flower boxes to line the main street provided merchants would take pains to look after them once in place. The matter will be looked into further.

Dr. E. J. Paetkau appeared on behalf of the regional community recreation project seeking council's moral support which he received when he assured the aldermen that no money from council was involved.

Enquiries were also made as to what had happened in the Ray Newman case involving building bylaw infractions. The Regional District board will be asked to inform council how the legal issues stood. Council granted the Tourist office opened by the Chamber of Commerce $250 towards rent expenses and $125 was granted this year's swim classes.

Human carelessness causes most forest fires.

How Gibsons grew greater

When and how did Gibsons become a village? If this is the second expansion of the village what was the first? These questions were answered by a man who knew more about Gibsons area than most people. Bob Burns, village clerk for many years wrote for the Coast News a series of articles on the history of Gibsons back in 1957 and from them the following was taken:

By the late 1920s the area close to the wharf had become fairly well built up; true, quite a number of the houses were of the summer shack category and many continued to be used principally as summer places but quite a number of permanent residents had also moved in, and the business centre was growing.

However, access roads continued to be perhaps merely a mark on the map, or at best a trail that might or might not be passable to a team or wagon or to that somewhat new vehicle that was beginning to be seen, a motor truck.

Water service was perhaps from a shallow well, which often was dry, or a small pipeline laid on the surface, supposed to supply water during the summer but usually failed to do so.

Clearly, something had to be done. Mr. W. W. (Daddy) Winn had been operating a store, also had become postmaster. Mr. Winn took the matter in hand. After considerable study of various avenues it was the opinion of Mr. Winn and his associates that the most feasible method would be to organize under the Village Municipalities act. Considerable opposition developed, apparently based on the fear that taxes would be increased.

Mr. Winn's original suggestion, I undedstood, was to in- tion, I understood, was to in- However the opposition was sufficiently forceful that in order to get action it finally became necessary to leave out much of the original plan and to cut down to a parcel of land being roughly the easterly 60 acres of Lot 686. After much work this was finalized and the organization of the Corporation of Gibsons Landing was gazetted April 29, 1929.

(Mr. Burns then relates how the King's Printer in preparing the official order for publication in the Official Gazette omitted the apostrophe before the final s in Gibsons, thus making legal the Gibsons minus an apostrophe. Later the board of trade arranged with postal officials that the Landing part of the name be dropped with Gibsons only remaining as the postal address.)

A provisional board of commissioners had been appointed composed of Mr. W. W. Winn, S. A. Holland and Miss Flora Jack who was clerk. They met and arranged for village elections to be held as soon as possible. This was done in May and the elected commissioners were W. W. Winn, Dr. F. Inglis and George Cooper, Rev. P. C. Parker being appointed clerk of council.

After several years discussion, a solution was found for the inclusion of the balance of Lot 686 and all of 685 in the village. It was then financially possible to install more adequate water mains. This amalgamation was effected in 1950, and thus after more than 20 years, bring about the fruition of the original proposals by Mr. Winn. Water service seems to have been the urgent need that sparked much of the work.

UIC news

Q. My wife would like to know if she can file for benefits as she was working when I was collecting. She is now unemployed. I never claimed her as a dependent?

A. If she has not made a claim for benefit before, she must have paid thirty contribution weeks in the hundred and four weeks immediately prior to her claim. Eight of these must have been in the fifty-two weeks immediately prior to her claim. If she fulfills these conditions and is available for and capable of work she would be eligible.

Q. I worked for two and a half weeks. Prior to this I was collecting unemployment insurance benefits. Do I have to reopen my claim?

A. You only have to serve a waiting period once during a benefit claim. If your claim has not terminated you may reopen it by applying at your closest Unemployment Insurance Commission area office.

MR. AND MRS. WILLIAM G. V. COPPING of Sechelt enjoy a cruise down the Rhine during a tour of Germany with 150 Volkswagen dealers from B.C. and Alberta. The couple visited VW headquarters at Wolfburg as well as Berlin and East Berlin.

Farewell party for Johnstons

The Catholic Church hall was the scene of a parish farewell for the Chris Johnson family, on June 15.

A prettily decorated cake, with Good Luck inscribed in the centre, and sandwiches, cakes and cookies were served by members of the C.W.L.

A set of wall plaques was presented as a gift to Mrs. Johnson Father Kenny remarked on the Johnson family's generosity, both financially and assisting in all parish activities.

Mr. Pete Fromager in his farewell address praised both Mr. and Mrs. Johnson for their devotion to church and community activities.

Mr. Johnson has been active in the local pulp mill union, holding various executive positions, and Mrs. Johnson has as a member of the Hospital Auxiliary and her church affiliations contributed well of her time and talents.

Their young family of five children have followed their parents' example and worked enthusiastically on church projects. Young Raymond many times acted as church organist. Mr. Johnson has left for Prince George, where he is employed by Canadian Forest Products, and Mrs. Johnson and children will leave at the end of the school term.

There are eight different species of Maple, native to Canada.

LETTERS TO THE EDITOR

The following letter to Mr. Gordon Shrum, B.C. Hydro has been sent also to Hon. Mrs. Isabel Dawson, Hon. J. Williston, minister of natural resources and Hon. K. Kiernan, minister of conservation and recreation.

Mr Shrum: Over the weekend of June 14 and 15 the peaceful quiet of the late evening and early morning was disturbed by the noise of a helicopter flying up and down the hydro right-of-way north of Gibsons spraying the trees and undergrowth with some foul smelling chemical with the object presumably of controlling growth.

I wonder just how long people will put up with this sort of thing. On the one hand the government tell us that pollution of all kinds is one of the major hazards of life today and that if the people themselves will not do something about it, then legislation will be passed to make them do something. On the other hand the government itself is apparently perfectly within its rights to spray this defoliant or whatever it is, killing off all the vegetation it touches, polluting the water supply and doing untold harm to the fauna of the area.

I do not think anyone is going to convince me that this spray has no adverse effect on the birds and wildlife with which it is bound to come in contact and even the residual effects will be evident for months to come. The animals will eat some of the vegetation affected by the spray and will be affected in one way or another by it. As this is the time when there are many young birds about, I am sure that the death rate must be incredibly high in that field alone.

The hydro right-of-way cuts right across the Gibsons watershed. Although there may be no pollution now, when the next rains come this stuff will be washed into the ground and find its way into our water system.

What an example for a government to set to its people. The popular motto Keep B.C. Green is to my way of thinking a very admirable one but it does not mean a thing when officialdom can come along and desecrate the countryside at will in this way.

Why not put the unemployed and the students to work? It may cost a little more but in the long run we would be better off. If we go on like this, Rachel Carson's predictions in her book Silent Spring will fast become a reality. Let's try to use a bit of common sense and preserve our natural resources for generations to come.—John Hind-Smith, Gibsons.

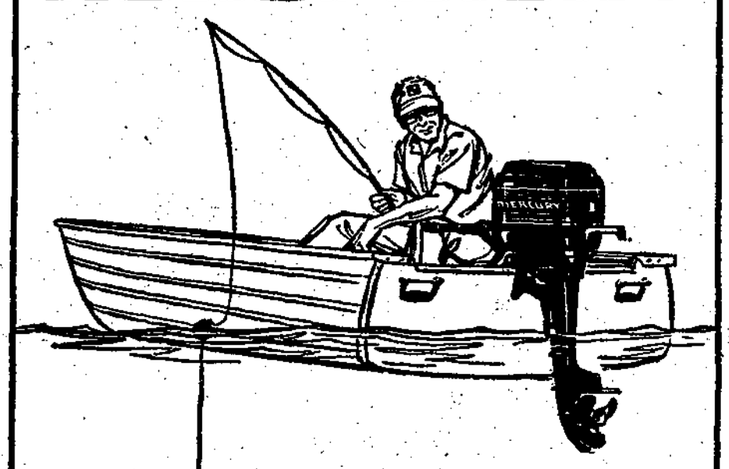
Who lays it on the line for fishermen?

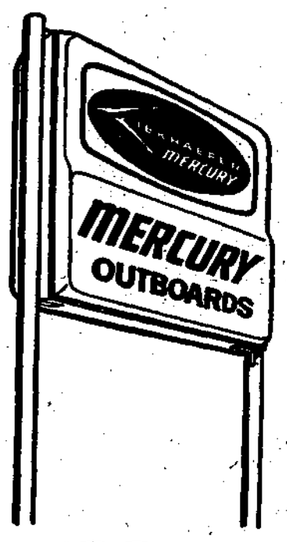


We do.

When you come in to talk fishing motors, we show you, feature for feature, what makes a '69 Mercury your best buy. Our Glide-Angle design, for example. The tilted powerhead prevents wet fuel from puddling in cylinders and intake ports, keeps the engine firing smoothly from slowest idle to top speed. And the angled lower unit glides over weeds and underwater obstructions.

Then there's our Shallow-Water Slant that locks the engine automatically in a tilt position so you scoot through the shallows safe and easy. And the full gearshift . . . shearproof drive . . . Jet-Prop exhaust to bury sound and fumes underwater . . . brand-new corrosion-resistant construction and 4-coat baked enamel finish.

Our new fishing Mercs . . . 4, 7½, 9.8, and 20 hp . . . have everything a fisherman could want. One of 'em is bound to fit the fishing you like to do. Drop in soon . . . let's talk.



MERCURY
125, 100, 80, 65, 50, 35, 20, 9.8, 7½, 4 HP.

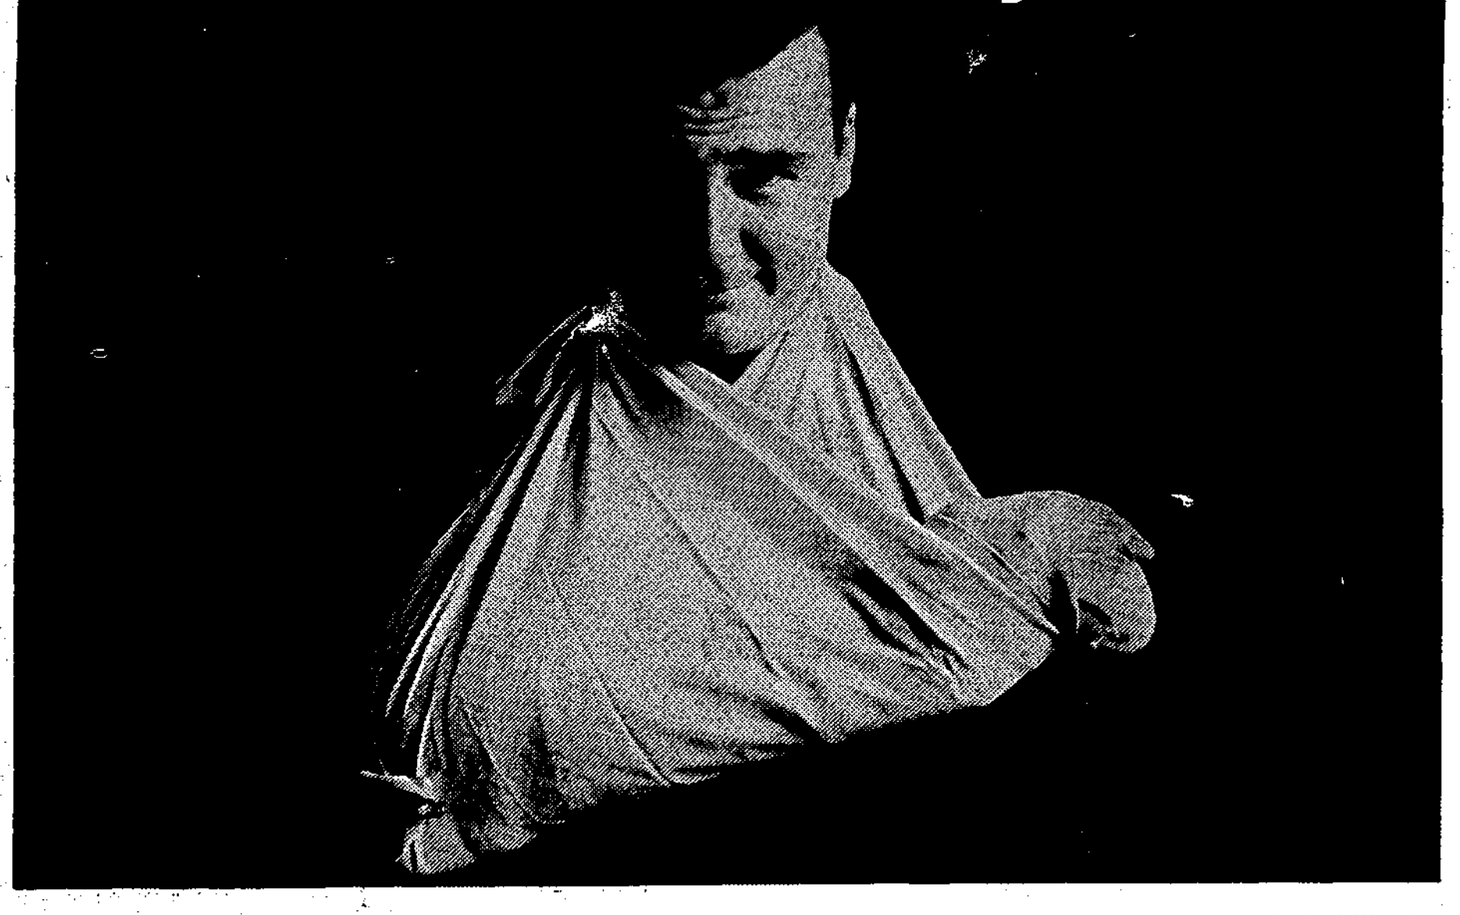
More than 100,000 persons received WCB benefits last year



It's a fact that in 1968, more than 100,000 persons received benefits from the WCB. These people included temporarily and permanently injured workmen, and widows and children of fatally injured workmen. Compensation amounted to more than $32 million. If you are disabled by a work-caused injury, you get 75% of your earnings up to a maximum of $412.50 a month (tax free) and complete medical and rehabilitation services. If you are permanently disabled you can receive benefits for life . . . all this at no cost to you. B.C.'s labour force is protected by a compensation plan second to none on the North American continent—financed entirely by employers. The WCB always strives to be fair and impartial in the settling of claims and in performing its other duties. The WCB is glad to help.
