# 2-day Camp Byng celebration extols 50 years of Scouting

A bit of unwanted moisture over the weekend failed to dampen the enthusiasm of the 350 Cubs and Scouts who with their leaders, Scout officials and 125 visitors celebrated the 50th Golden Jubilee anniversary of the founding of Camp Byng, the beautifully treed 201-acre campsite of the Vancouver-Coast Region, Boy Scouts of Canada, located along the Lower Road in Roberts Creek area.

On Saturday, the official opening of the re-routed and enlarged ecology trail, one of the earliest set up in Canada, in 1929 by Allen R. Wootton, was observed by Mrs. Edith Wootton, his widow. Improvements to the ¾ mile nature trail were undertaken by Norman Butterfield and Wilf Wootton, assisted by Lyn Kinsey and Michael Kitson, Bill Smith Philip Butterfield and the 52nd Kerrisdale troop.

Guides for the visitors were provided by 1st Gibsons Scouts in charge of Maxwell Hammersmyth who is also warden at Camp Byng.

Sunday afternoon was given over to the impressive Scouts' Own, a service in commemoration of the camp's Golden Jubilee, held in the Retallack Memorial outdoor chapel and conducted by Assistant Provincial Commissioner of Venturers, Rev. H. P. (Peter) Collins, minister of the Marpole United Church, Haney, a long time Scouter and many-time camper from the earlier days of Camp Byng. He was introduced by C. E. Juul-Hansen, chairman of the Camp Byng Jubilee celebration committee.

The chairman emphasized all Scouts were members of the world family and by way of pointing this up, read a message from a group of Scouts in Durham, England, also celebrating their 50th anniversary.

Scout leader Collins, in his address, quickly struck a note of nostalgia, born of many happy returns to Camp Byng over the past half century, "mountain top memories that centred around such camp characters as Andy Ferris with his thing for the singing on every and any occasion of Who Put the Overalls in Mrs. Murphy's Chowder? of Smitty, the cook and his never-to-be-forgotten raisin (?) buns, also Don Barnes, John Stevenson, Rex Retallack and his wife, for whom the Chapel received its name.

"To this day," said Peter Collins, "the boys and their leaders are still building memories for their own tomorrows.

# Church starts on 2nd decade

Gibsons United Church 10th anniversary celebration drew a considerable number of visitors including two former ministers, Rev. David Donaldson and Rev. W. Murray Cameron. Both took part in the events along with Rev. D. G. Laird of the Metropolitan Council of the United Church and Jon Jessiman, presbytery chairman.

The Sunday morning service drew members of the church from other points and there was hardly a vacant seat available. The service, conducted by Rev. Jim Williamson, was broken into three parts, first the regular morning service followed by luncheon in the church hall when the congregation and visitors mingled over refreshments. A communion service followed.

The choir under the direction of Ev Vernon supplied special anthems, the Lorenz The Church's One Foundation; the Bennett God is a Spirit and for the communion service Sarah Crane's The Master's Table. The junior choir, numbering eight was supported by the senior choir of 28 in Myles B. Foster's I Love to Hear the Story.

Rev. Mr. Cameron for his sermon depicted the benefits of a church anniversary describing some of the earlier anniversaries he had attended elsewhere.

Greetings from the Metropolitan Council were delivered by Rev Laird and presbytery greetings by Mr. Jessiman.

Before the close of the service a presentation of $100 was donated to the church by members of the Low C group with Cindy Myslicki making the presentation.

# Premier to arrive on Saturday

Premier Bennett is expected in Gibsons about 11 a.m .Saturday to officiate at the opening of Elphinstone Pioneer Museum in its enlarged quarters beneath the Public Library in the Municipal hall building.

All that is needed for Saturday, June 17, is a rainless day in Sechelt when at the invitation of Mayor Ben Lang, Premier W. A. C. Bennett will attend Sechelt's strawberry festival.

The premier is expected at 12:30 and his official duty, th only one, will be the dedication of Library Centennial improvements.

The premier will be accompanied by Hon. Isabel Dawson, the MLA for the constituency. There will be music provided by Elphinstone School band members as well as some bagpipers the mayor has lined up from Gibsons. The fine elementary school choir will be on hand to provide vocal selections.

In the event of rain the festival will be moved to the Legion Hall. If the weather is good there will be a kiosk in Hackett Park where the strawberry event will take place.

### FIRE IN HOSPITAL

A patient, violating no smoking rules caused a small fire at 5:45 a.m. Tuesday in St. Mary's Hospital second floor section. Quick action of the staff and the prompt response by Sechelt's firemen kept damage down to a minimum. The patient, a woman, suffered burns.

### BEAR MEAT WARNING

Hon. Ralph R. Loffmark has issued a warning to hunters and others who might come into possession of bear meat that many bears in British Columbia are infected with trichinosis. He stated that all bear meat must be very thoroughly cooked in order to avoid the spread of this disease to persons eating the meat. There have been a number of outbreaks of trichinosis in Canada

### $100 FOR BAND

A generous gift of $100 was given by Mr. Iain Stewart of Gibsons to Mr. Mel Campbell, bandmaster of the Elphinstone School Band. Mr. Stewart, an old age pensioner, was inspired because he heard the outdoor concert Friday, June 2, and felt the efforts of the students should be encouraged.

# Soames Pt. resident asks details

Editor: As a home-owner and resident of Soames Point, I take exception to Mr. Horry Harris' letter to you of last week. I take exception because we, for one, were never contacted by him in his protest (and there were many more who weren't either), yet he seemed to be writing for all Soames Pointers. How dare he!

While it may or may not be true that in this land swap there is some real estate profit going to be made; wouldn't it be nice to have a Provincial Green Belt on the lower part of this vast recreational area? My idea of a provincial park, which I read this is supposed to be, is a park which is wholly developed and maintained by our government funds and employees. Garbage disposal units already service the other government-run facilities on the coast - such as ferries and campsites. Therefore, if this is so, it would seem to me that this would be a well kept landscaped and cared for Provincial Park. I can't see property values diminishing because of this.

I strongly agree to the "spirit of this small community". It was my impression that all of us are involved, concerned and interested in what happens to it. We all work hard for our money to live comfortably and make our homes attractive. But obviously, not all Soames Pointers are considered part of this community. Who can say we would never picnic at the park with our family and guests?

I for one would like to know much more about this idea or plan from the persons involved before it goes too far. I think our whole community should. Question - who can tell us how or what form of commercial venture could be made of a provincial park? The provincial government, to my knowledge, does not engage in marinas or the like. And, could this be prevented? I maintain and respectfully suggest that the whole community of Soames Point should be involved in and contacted and a community decision made after a proper hearing with all the people concerned in this proposal - and before something is written and submitted on behalf of all residents.

All Soames Point residents were not contacted, nor do they concur with Mr. Harris' assay. Many feel very strongly that a Provincial Recreational Park in this area would be a very progressive step for the youth of the community who after all, will be the beneficiaries of such an oasis both now and "decades" from now.

Shirley Macey

### JR. FISH DERBY

Gibsons Wildlife Club is sponsoring a free fish derby for children, July 2, from 9:30 a.m. to 12:30 p.m. off Gibsons wharf.

There will be free pop and prizes for the ugliest fish, the largest and smallest shiner, hidden prizes and many more.

For further information contact Steve Holland. 886-2673.

# Mayor's answer to 'procrastination'

Editor: Thank you very much for your editorial "How About It, Mr. Mayor?" and for your offer of space for my comments in your newspaper.

I always look forward to just criticism because, if it were not for this sort of commentary, how would we know public feeling regarding what we, the Village Council, are trying to do for our community? I say "we" because I think of us as a council of the whole and not as an individual to whom you are, seemingly, directing your attacks. "I" do not decide any matter; the Council decides.

If Mr. Mike Blaney is using the Village and the Chamber of Commecre in an attempt to gain favor in the public eye for his proposed political career, and if you are supporting such devious methods in the expectation of increased circulation, then I think that you should feel as guilty as Mr. Blaney should.

When I judge a person or an organization, it is not by promises, but by past performances. Within the past five years, we, the Village of Gibsons, have: 1) upgraded our entire water system; 2) nearly completed a secondary treatment sewage system (might I add, in spite of costly delays caused by unwarranted objections); 3) just completed an overall development plan and new zoning bylaw; 4) upgraded our fire protection to one of the best for comparable population in British Columbia; 5) just purchased a new dump truck and backhoe for our public works, so that we can install our own water lines; 6) supplied public floats for swimming classes; 7) improved our boat-launching ramp; 8) just completed a new Library and Museum; and 9) within the last year, completed two park projects.

Now, these are just a few of the things we are working on every day. So, if you, Mr. Editor, or if Mr. Blaney can come forward and show the public that either of you is doing likewise, I will take my hat off to both of you.

It would seem to me that there is a lot of energy being used which, if it were harnessed to pull together, there could be unlimited goals that we could accomplish to beautify and fully enjoy this great country that we have been blessed with.

WALTER PETERSON
Mayor, Village of Gibsons.

Editor's note: The news item concerned, also the editorial involved dwelt largely on present procrastination in affairs at the Municipal Hall, and not council's actions in the past.

# Political aims denied

Editor: In an effort to discredit what was in the unanimous opinion of the Gibsons and District Chamber of Commerce justified criticism of Gibsons Council, interested persons are citing the incident as a manoeuvre by the chairman to curry political favor. I vehemently deny that and hasten to point out that whatever was said by anyone at the meeting was fully endorsed by the membership present.

True, there was serious criticism of council's reticence in some matters, but it was meant as constructive criticism from a highly responsible body. It was also a criticism of the council as a body, not of any one member.

The Chamber of Commerce is not a sounding board for budding politicians and would not stoop to personalizing public criticisms.

The Village Council surely appreciates the responsible nature of the chamber and respects its obligations to speak out when it feels the public's best interest is not being met.

It would not be to our community's best interest if this issue were allowed to become clouded with personal invectives. Such an action would be most reprehensible and could only be interpreted as a ploy to shift attention from some legitimate concerns.

I'm confident the public responsibility of our elected officials will not allow this to happen and accept the criticism in the manner in which it was given.

—MIKE BLANEY,
President, Chamber of Commerce.

# Sechelt ramp to be paved

Sechelt Chamber of Commerce plans to pave the Porpoise Bay launching ramp which Sechelt's council under Mayor Ben Lang thought was an excellent idea as the ramp is a great asset to the area.

The chamber requires about $1,500 for the job and is rounding up donatinos to which council added $100. The chamber reported it had all the necessary approvals from federal and provincial officials to go ahead with the paving job.

A shortage of cedar logs is blocking the efforts of individuals involved in the Opportunities for Youth program who set out to provide benches for the area. Council will advise them to contact the Forestry department to see if it can help them. The grant for this work totalled $4,000.

The provincial parks department has decided the application by Sechelt council for the park lands adjacent to the village contained minimal outline of what they planned to do with the park. The department prefers something more substantial so council will have to come up with better ideas.

Mayor Lang noted the public was becoming more aware of the fact council had obtained the land if they could provide sufficient reason for holding it. Mayor Lang said he would like to see something in the nature of a 25 year plan devised.

He wanted to be able to present a program that would be something to be proud of 100 years from now. A simple objective for the time being would be the blazing of trails. However if the public have ideas council would welcome them.

It was reported that Sechelt Band council had arranged to meet Dayton and Knight, professional engineers in a joint meeting with the Regional board, the Sechelt Band and council of Sechelt in the Indian council hall.

Approval for subdividing the land north of Hackett Park into 13 lots obtained approval. Clerk Ted Rayner reported that $2,425 last year's overdue water taxes will now go on tax notices.

## Gold and U.S. debts

The average reader is usually confused over matters monetary, including that of the effect of gold on the money market and the economy generally. Back in April, 1967, Charles D. Robbins, president of the Agassiz Mines Limited, prepared a paper in which he put a great deal of research.

Believing Mr. Robbins to be right in his views, the editor preserved this paper in the hope it would be of use later. That eventuality has presented itself. How correct Mr. Robbins has been can be judged by the reader. The explanation of Mr. Robbins does not make difficult reading. In fact its clarity is obvious. Here is the main part of what he wrote:

"I most firmly believe that we will see an increase in the price of gold, possibly to $105 per ounce and that this will come relatively soon, that is within another two years.

"All of the arguments against such an increase are vapid, are not based on any fact whatsoever in the matter, and are reduced to the final, simple and undeserved faith that the United States will never make such a move.

"We have recently seen th U.S. policy on silver (which can be very closely compared to its policy on gold) fade and disappear by practical application of the laws of supply and demand.

"We have recently heen the U.S. policy on silver (which can move on gold, and will do and say everything, and anything to avoid it, just as they did in the recent silver crisis — but they will be forced into it. All this verbal hysteria about never devaluating the dollar is not to be heeded, the dollar has already been devalued in terms of purchasing power, domestically and internationally, to 37c. Gold hasn't been allowed to catch up with the deteriorating dollar and will not, until either the U.S. runs out of gold, or stops selling it at the fictitious price of $35 per ounce. Either event could come sooner than many think.

"Gold has been accepted throughout the world as a medium of monetary exchange for six thousand years, and in my humble opinion the protestations of the present government of the United States are not going to change this. During this six thousand years two metals have been the accepted monetary metals, gold and silver; and during this period there has been a ratio between the prices of gold and silver. For example, in 1934 when the price of gold was raised to $35 per ounce, the price of silver was 45c per ounce. The price of silver is now $1.80 per ounce and appears to be headed higher. Gold is still pegged at the 1934 price of $35 per ounce, and the demand for the metal exceeds the supply by a wide margin. This basic rule of supply and demand is the reason that the U.S. is losing its gold, and will continue to lose its gold until the price is raised.

"Except in brief periods of international speculation, the price of gold has never declined for the past 600 years in the free world markets. It has always increased, and even when the price has been fixed by government action, all changes in the price have been upward. Prior to 1933 and as far back as 1816 Great Britain fixed the price of gold through the Bank of England. On January 31st, 1934 the President of the United States arbitrarily raised the price to $35 per ounce. This price and this policy have remained in effect ever since, regardless of the serious erosion of the purchasing power of the U.S. dollar to approximately one-third of its 1934 value. Based on the 1934 dollar's present value, gold is selling at the equivalent of less than $15 per ounce. In 1934 you could buy a new automobile for $600; the same make and style automobile today [1967] would cost $3,600 — the same applies to most of our daily needs. Why should it not apply to gold? Based on the dollar's present purchasing power, gold should sell at from three to six times the 1934 price.

"The U.S. raised the price of gold during the depths of the depression years because it was critically short of the gold then needed to help finance the United States out of the depression.

"Did world finance collapse as a result of that 70% increase? Was it followed by rampant inflation? History has the answer — and it shows that contrary to predictions of disaster, the United States led the world out of its slump into a period of expansion, which save for cyclical corrections, has continued ever since.

"For those who foolishly believe that the value of gold is dependent on the dollar, rather than the dollar's value being dependent on gold, I ask one simple question. If this is true, why then does the United States insist on fixing the market at $35 and why does the rest of the world continue to drain the U.S. stockpile at $35? The demand is obviously outstripping the supply at this price. If the United States doesn't really care about gold, why doesn't it allow the metal to seek its own level in a free market? The answer is that in a free market, gold would fluctuate wildly in times of crisis, and so would the values of world currencies, including U.S. dollars. Gold is, therefore, the internationally accepted stabilizer of paper money. It has outlasted the paper currency of every civilization, and it will outlive the almighty dollar."

# Coastguard rescue facilities expanded

Steps to improve the Coast Guard's search and rescue capability on the west coast have been taken with the acquisition of three outboard-powered inflatable boats, David Groos, MP (Victoria, B.C.) announced on behalf of Transport Minister Don Jamieson.

The fast inshore rescue boats which will undergo trials for operational evaluation, are to be manned, under the supervision of regular Coast Guard officers, by selected university students who will be given on-the-job training.

With a speed in the 20 knot range, the 15 ft. vessels are known throughout the world for their stability and seakeeping qualities. With flexible rubber sides, they are able to go alongside other craft without sustaining damage and can pick people out of the water with a minimum of difficulty and without inflicting injury. They are expected to provide immediate support to the search and rescue capability on the west coast, particularly in areas of high pleasure craft concentration during the summer months.

Initially, each vessel will be based at a different location to provide as wide a variety of operational conditions as possible. One boat will be based in the Mayne Island area close to the important Active Pass route and surrounding waters. A second will be deployed at Long Beach for ocean and beach area trials. The third boat will be based at Victoria to test its value in a busy harbour and its approaches.

Each boat will be commanded by a regular Coast Guard officer. Six students will provide the complement for each boat, with three students on duty at a time. A total number of 18 students are now being recruited from western universities.

They will undergo a period of intensive training in small-boat familiarization and handling, navigation and search and rescue operations.

During the trial period the boats will be restricted to daylight operations as they do not carry radar. Should the program prove successful, it is planned to gradually extend use of the vessels in waters across the country.

The total cost of the program, including equipment and salaries to students, will be about $60,000.

# How dock was raised

Twelve weeks after the sinking of one of the three 60 ft. cement float mooring in Gibsons harbor that dragged two companion 76 ton counterparts to the bottom, wharfinger Slim Thorburn reports all three sections are again top side and in operation, in time for the summer tourist boat traffic.

The difficult job of salvaging the three floats was undertaken by Don Hauka, his brother Ed, Larry Whitty, diver and Jim Sawyer. Due to the lack of detail plans of the compartments, it took 10 days to accomplish the salvaging operation, relying mainly on Larry Whitty to relay construction and damage to the surface crew.

The first job was to cut the tension cables attached to both ends of the first and third floats. These had to be separated individually by a cable cutter. The openings six inches from the top of each of the three 8 ft. 6 inch wide, three ft. deep and 60 foot long floats had to be sealed off along with the three hatch covers and removal of galvanized roller pipes in the piling wells.

The three floats when sealed were pumped out by compressed air. This was a delicate operation as the air had to be carefully bled into each float by a regulator to bring them to the surface. On the first attempt, a straight haul was tried, when the 12 inch belt sling broke and the 27 ton burden plummeted to the floor of the harbor.

It was then compressed air supplied by a rig on Hauka's work boat accomplished the frustrating job after ten days of hard labor.

# Santa Bennett attacked

The leader of the B.C. Liberal party has called for immediate removal of the education tax on real property for people aged 65 and over. Mr. Anderson argued that this should be the first step in a plan of gradual removal of all education tax on real property.

Anderson was critical of the Social Credit government's recently announced Kelowna Charter as being stunting designed with publicity in mind and not the general public. The people of this province are tired of the santa claus approach to government. They are frustrated by a government that treats yesterday's problems as though they were tomorrow's problems he said.

Problems of the out-of-work, of the senior citizens or of the young family man are not the sort that go away by themselves, he continued, and Premier Bennett seems to have forgotten this in his 20 year term of office. He said no amount of last minute stunting is going to help these people - nor will it help the ones that are closer to Mr. Bennett's heart, the Socred candidates on election day.

Anderson repeated Liberal demands for a special session of the legislature to deal with immediate issues and to make good on some of the promises that the socred cabinet has made on its high-speed tour of interior B.C. Making reference to Mr. Bennett's farewell tour of the province, the liberal leader asked the Premier to return to the legislature once again to begin to deal with the day-to-day and long term management of the province's affairs.

# 5-10-20 years ago

### FIVE YEARS AGO

May rainfall amounted to 1.84 inches, less than half of normal. High temperature was 72 and the low 38.

Pender Harbor Secondary school modified its freedom with responsibility experiment among the students.

The school district starts registration for children who are old enough to attend kindergarten.

### 10 YEARS AGO

The June, 1961 census figures released from Ottawa shows a population of 7,661 with more than half of them at the Gibsons end.

One hour parking has been established by Gibsons council for parking in the village business centre.

The first Do-it-Yourself dry cleaning plant opened in Sunnycrest Plaza.

### 15 YEARS AGO

The early June federal election vote result was Liberal 949, Socred 744, Cons. 507 and CCF 500. Hon. James Sinclair retained his seat.

SMT bus stops in Gibsons following the ferry change to Langdale were set opposite the Bal block to Vancouver and opposite the real estate office at Bal's Lane from Vancouver.

I.D. Birse, Black Ball ferries official announced the Langdale terminal opening for June 19.

### 20 YEARS AGO

Caustic remarks were heard at Gibsons council meeting when ratepayers protested sprinkling regulations.

# Letters to Editor

Editor: There have appeared in your newspaper advertisements for Agricultural Advisory Farm. Soon there shall be a press release concerning this, however, we feel that an explanatory letter is now in order.

Agricultural Advisory Farm is a non-profit organization situated in Roberts Creek. It employs seven people to manage and to work several acres of berries and vegetables. The idea is to grow a variety of vegetables in a variety of ways for demonstrative reasons, and to grow good organic food which will be for sale. The money generated from the sale of our produce will be donated to the Sunshine Coast Senior Citizens Housing Society ,and to the Sunshine Coast Senior Citizens Association.

The advisory aspect of the farm is in two parts, the first being that on Saturdays, between 11 a.m. and 4 p.m. the farm is open to the public. For each Saturday, we will have an advertised demonstration of various gardening techniques which people may be interested in. However, any help that we can give on any gardening subject will be available. The public is welcome to just come and look around if that is their interest. Secondly, we are offering a service where, if one has a problem which requires us to come to their residence, then, with willingness, we shall come and advise as we are able.

Although the farm is open only on Saturdays, the produce will be for sale daily, starting very soon with strawberries. We hope that you will come and see us.

Yours for Agricultural Advisory Farm,

—JEREMY YOUNG.

## ENGAGEMENT

Mrs. Dorothy Szabo of Gibsons B.C. is happy to announce the engagement of her daughter Beverly Grace to Mr. Lewis Frank Harvey, son of Mr. and Mrs. Fern Colleaux, of Estevan, Saskatchewan. The wedding will take place July 8 in St. David's United Church, West Vancouver and the reception at Frank Baker's Capilano Gardens.

## MARRIAGES

The wedding is announced of Karen Anita, daughter of Mrs. W. McPhedran and the late Mr. W. McPhedran, Gibsons, to Mr. Roy Terje Larsen, son of Mrs. Gudrun and the late Johan Larsen, of Alesund, Norway. The wedding will take place at Camp Elphinstone on Sunday, June 18, 1972.

## CARD OF THANKS

Thank you, dear friends for your kind donations of flowers, letters and cards while in Lions Gate Hospital.
Sincerely,
Mrs. A. Davies, Gibsons

Sincere appreciation to the many friends and relatives for the visits, kind thoughts, cards and flowers during my recent stay in hospital. A very special thanks to Dr. Paetkau and Dr. Hobson, and the nursing staff of St. Mary's Hospiatl.
—Bea Skellett.

Thank you to all friends and co-workers, for flowers, cards and expressions of sympathy during the loss of Ruben. Special thanks to Dr. Inglis, St. Mary's Hospital and pall bearers.
—Muriel and Kelvin Wilcox.

## IN MEMORIAM

ROBINSON — In loving memory of our Mother and Father, Charles and Eva Robinson.

# Your Horoscope

**Horoscope for the next week**

**By TRENT VARRO**

**ARIES - March 21 to April 20**
Everything is most active in Aries right now, but perception may be dulled by seemingly unimportant events. Coworkers might not appear to understand your point of view.

**TAURUS - April 21 to May 20**
Astrologically, it would be wise for Taurus individuals to be EXTREMELY cautious in aquatic activities such as swimming, boating, fishing or water skiing etc. In fact it might be better to steer clear of these activities entirely this week.

**GEMINI - May 21 to June 20**
A great deal of "rushing around" in many spheres is indicated for Gemini persons at this time. You have everything "going" for you now, just don't become bewildered.

**CANCER - June 21 to July 21**
Things haven't changed much in your horoscope from what they were last week. Major decisions and sudden changes are still to the fore. Best to wait this thing out, it won't take long.

**LEO - July 22 to August 21**
Quite a romantic interlude is creeping into the sign of Leo, aiding the lucky transit that is already in effect. The 'romance' will tend to fade, but the "luck" is here for some time.

**VIRGO - August 22 to Sept. 21**
The coming week may see some sort of "major achievement" take place in your life. Treat others with respect and courtesy. They will admire you for it.

**LIBRA - Sept. 22 to Oct. 22**
As in the horoscope charts for Cancer and Capricorn, aspects in the zodiac are still pretty much the same as they have been for the past week, except perhaps, that Libra is enjoying the beneficial conjunction of Venus and Jupiter.

**SCORPIO - Oct. 23 to Nov. 21**
By the middle of next month, you are liable to encounter some big "change" in your living conditions. Make plans now to be sure the "change" is for the better.

**SAGITTARIUS Nov. 22 Dec 20**
You should read this week's chart for Leo as it applies even more so to you. Legal matters of all description are most highly aspected. BUT, if you find yourself involved in a legal matter, see a GOOD lawyer!

**CAPRICORN Dec. 21 Jan. 19**
Read the charts for Libra and Capricorn this week, and apply them to yourself, they apply to you also, except for the "romantic" bit. There is a strong "tie-in" now, between these three signs.

**AQUARIUS - Jan. 20 - Feb. 18**
Common sense thinking and planning will pay off handsomely for you right now. Be objective, and do not be swayed by emotional prejudice. Be fair in your judgements!

**PISCES - Feb. 19 to Mar. 20**
Here again, the aspects in the zodiac haven't changed much for you in the last couple of weeks. Intuitions and plans for the future are VERY keen! You should do well!

# In Court

Mario LaLande of Sechelt, B.C. appeared, charged Driving a Motor Vehicle without Insurance and for having more than .08% alcohol in his blood. On the first charge he was fined $250 and on the second charge $300.

Larry Stanley Dobbs, no fixed address was charged with vagrancy and was fined: $100 Dobbs was arrested after a com plaint was received from a citizen on Gower Point Road near the Tennis court to the effect that a male person had just walked into her house. Dobbs was under the influence of drugs and did not know what he was doing.

Kenneth Nadon of Gibsons, charged with possession of an offensive weapon. He was placed on probation for three years and prohibited from consuming any alcohol.

There has been an increasing number of incidents involving persons consuming liquor in public places, Gibsons wharf, public beaches and ball parks. The minimum fine for this type of offence, upon conviction is $50: Warnings have been given and persons will now be charged.

The following two articles have been turned into the police office.

(1) Projector Screen (Da-Lite Vidio A) Name Rev. Maureen Galgardi, book called The Path of Dust.

(2) B.R.C. JAGUAR girls bicycle- Purple in colour, chrome fenders.

On the June 4 a search of a private residence on Pratt Road was made for drugs. A quantity of marihuana and marihuana plants was seized. Two persons will be appearing in court on charges under the Narcotics Control Act.

Three persons were fined under the Small Vessels Regulations for offences involving safety regulations.

# Municipal bond drive sale soon

Direct sale of local government bonds to the general public was endorsed by Municipal Finance Authority Trustees at a meeting in Vancouver

MFA Chairman, Mayor Ron Andrews of North Vancouver District, said it is proposed to sell the issue over the counter at municipal halls, and regional district offices, throughout British Columbia.

The Finance Authority borrows funds for sewer, water and pollution control abatement facilities on behalf of regional districts and municipalities in B.C.

Mayor Andrews said the pro gram for direct sale to the public including the amount of the issue and the type of bond to be sold - will be prepared in time for presentation to the September meeting of the Authority's full board. There are 31 members on the board, including the seven trustees who in effect are the Authority's executive. The full board will be asked to approve the plan to sell bonds directly to the publc.

Trustee Hugh Curtis, Mayor of Saanich, said over the counter sale of an MFA issue could be very successful, pointing out that Saanich recently sold a $600,000 issue at its Municipal Hall. The entire issue was sold in three days.

if you think you can't afford a home...

new westwood suburban homes may change your mind

Westwood Homes "Suburban Series" were designed to beat inflation and give you more for your building dollar. Skillful floor planning cuts out waste and duplication. Built by the component system, these homes save you time and money, yet provide ample privacy, space for entertainment and room for future expansion. Get the facts today. Most families can finance a Westwood home at a price comparable with rent.

new low cost suburban homes

"The Shannon", shown above, is one of 17 Westwood Suburban homes designed to bring home ownership within the reach of the average family. It has a floor area of 1240 sq. ft., 3 bedrooms and a ground floor reserved for future expansion. See us today. We can put you in your own Westwood home this spring.

FINANCING AVAILABLE

You can have a Westwood home built, or you can build it yourself to any stage of completion. Either way, you can finance it through our versatile mortgage program. Funds available for any area.

### Re: Hospital Administration

**Your Board of Trustees are in the process of obtaining applications for the position of Administrator which will become vacant June 23rd, 1972, and in this connection, they have appointed Mr J. E. Bragg, pro tem Administrator of St. Mary's Hospital, with Mrs. H. Gray as his Executive Assistant, to cover the interim period with efficient Administration during the time of advertising.**

**Mr. Bragg will bring to St. Mary's Hospital a wealth of academic and practical knowledge from his wide experience as Administrator of Lions Gate 640 bed hospital.**

**Your Board of Trustees feel his knowledge and ability can only enhance the reputation of your hospital.**

D. Douglas,
President,
Board of Trustees.

June 9th, 1972.

# Strawberries for auxiliary

Gibsons Auxiliary to St. Mary's Hospital monthly meeting in Gibsons Health Centre, June 7, with President Dooley Mason in the chair, was a strawberry tea convened by Joan Covey to which members brought guests interested in auxiliary volunteer work. Dooley Mason welcomed the guests and in her report from the Co-ordinating Council of St. Mary's Auxiliaries from Port Mellon to Pender Harbour she was able to inform the meeting of where monies were delegated to purchase expensive equipment for our hospital.

Mr. John Harvey of Flowerlaine Florists and Gifts donated a door prize for the tea and Terry Delong was the winner.

Amy Blain, treasurer, resigned early in May as she and her husband were moving to Victoria. Amy has been a very valuable auxiliary member and gave generously of her time and energy in many areas of volunteer work.

As a small token of appreciation the auxiliary have sent her an auxiliary spoon, and wish Amy and Lorne the very best in their new home. Marge Langdale has taken over as the new treasurer.

Gladdie Davis, bridge convenor, reported that Alf Winn had won the cup donated by Ken Strange for the highet total score at the end of the year. This will be presented to Alf on June 20 at a special bridge evening. A vote of thanks was given to Gladdie Davis and Alameda Whiting for their well-organized monthly bridges and also Ivy Richards for her help with the refreshments each evening.

Short reports were given on Sechelt Thrift Shop, Sunshine, and Volunteer Workers. A successful tea followed. The auxiliary welcome these new members: Winnifred Elrick, Isabel Fraser, Jean Calder, Rene Gray Trudy Singleton-Gates, Kay Page and Hilda Girard.

The next meeting will be on Sept. 6 at the Health Centre at 1:45 p.m.

# $16,000 towards new equipment

At the Co-ordinating Council of St. Mary's Hospital Auxiliaries regular meeting on May 30, a letter from the hospital administrator was read advising that equipment which the auxiliaries had agreed to purchase, had arrived and is now in use in the hospital.

The auxiliaries are contributing $16,000 toward the purchase of equipment.

Girls, 15 years of age or older, who would like to assist in the hospital can obtain further information by phoning the Director of Volunteers, Mrs. Peggy Connor at 885-9347.

# Mother, daughter in piano duet

The annual recital of the music students of Aletta Gilker was held June 9 in Bethel Baptist Church, Sechelt. A program of classical and modern music was presented. Playing piano solos were Dawne and David Atlee, Laurie and Vicki Beeman, Bonita and Raymond Dube, John, Joanne, Sharon and David Fromager, Gail Head, Ruth and Philip Madison, Sally McKinnon, Valerie Smith, and Julie and Michael Wagemakers.

A piano duet was given by Julie Wagemakers and her mother. Organ solos were played by Geraldine Fyles. Achievement awards for the year were presented to Julie Wagemakers and Valerie Smith, who each had an exceptionally fine record.

# New minister

Baptist Church services are now being conducted in Gibsons Calvary Baptist church and in Bethel Baptist in Sechelt by the interim pastor, Rev. J. E. Harris. Mr. Harris has served Baptist churches in Edmonton, Calgary, Lethbridge, Vancouver and White Rock. He also was principal of Vancouver Bible Institute for seven years.

Now in semi-retirement, he is serving here following the conclusion of Rev. R. Allaby's ministry, while the church seeks a full time minister. Next Sunday morning Mr. Harris will give a morning message entitled "I Gotta Be Me — Which Me?" At the evening service in Gibsons his topic is "Dust that Builds on Dust."

# Sakinaw Creek cleaned up

The weekend of June 10 and 11 was set aside by the Gibsons Wildlife club for the cleanup of Sakinaw Creek. Chairman Megan Moorcroft thanks on behalf of the membership, those people who gave up their weekend to turn out in the pouring rain to do a remarkable job.

Members from two Lower Mainland Regional Wildlife Association clubs, President Bob Oswald of Semiahmoo Fish and Game Club and his two children Debbie and Scott, and North Burnaby Fish and Game Club's John Burt and Jennifer Johnstone joined the group. Thanks go to these people who helped with the project as well as former loggers and choker boys Fred Holland, Norman Berdahl and Gary Berdahl and their families, Steve Holland, Don Head, Martin Henry, Bud Beeman, John Hind-Smith and Austin Moorcroft.

Jennifer, Debbie and Scott helped carry wood and feed the fires along with the rest and Steve Sleep, Kelly Hincks and Blair Head cut brush. Two important members were Mary and Herb Newman who kept the camp stove going and provided gallons of hot coffee and marvellous meals. George Hill, Ray Johnson and Walt Nygren loaned equipment

Not to forget the two instigators of the whole deal, who put in two full busy days, most of it in the water, Pat Mulligan, provincial fish and game conservation officer and federal fisheries officer Ray Kraft ,a thank you.

# Camp Byng

(Continued from Page 1)

all touched by the same spirit, that divinity of the outdoors, happy memories to share with succeeding generations of those yet to come to the healing atmosphere of the trees, woods, sea and sky all so much a part of Camp Byng." Rev. Collins concluded his remarks with the reading "Look to this day" taken from the writing in Sans krit. Scripture readings were given by Scouts John Oetter and Hugh McLellan of the 35th Capilano RCM Troop.

Attending the service were three of the original group that greeted Canada's Governor-General Lord Byng as he was rowed ashore from a destroyer of the Canadian Navy 50 years ago, Fred Parkinson, Bob Simmonds and Sid Leyland.

Among the Boy Scout officials at camp were Prov. Pres. Tom Wright; Prov. and Regional Field Executives Vancouver Coast District, Fred Huish, camp director, Ted Hathaway, Jack Adair; Sechelt Powell River Coast area, Bill Gage, Joe Landry; Pres. Seymour District Council; Hal Upham, District Commissioner, Seymour and his wife Francis.

# Rhubarb – ambrosial dessert

Rhubarb, our first fresh Canadian fruit of the year, is now in the stores and home gardens. It is popular in most areas of the country, not only because it is easily grown, but because of its rosy color and tart flavor.

It is usually considered a native of the Northern European and Scandinavian countries. Actually though the earliest records on the use of rhubarb date back to about 2700 B.C. in China where the root was used for medicinal purposes. It is believed that camel caravans crossing the deserts and mountains from the Far East carried this medicinal herb into Europe.

Like so many other plants, rhubarb crossed the Atlantic Ocean with the colonists. Now it is available in the late winter and early spring from hot houses and in late spring, fresh from the garden.

Rhubarb is best used as soon as possible after picking. Since it has a tendency to dry out, it should be kept in a plastic bag in the refrigerator if it can not be used immediately. It may be held for a day or two this way.

Rhubarb is a natural in pies but is equally good in shortcakes and upside-down cakes. The home economists, Agriculture Canada, Ottawa present two recipes to try this spring. They are sure to become family favorites!

**OLD—TIME RHUBARB SHORTCAKE**

4 cups rhubarb (about 1 lb.)
1 cup brown sugar
2 cups sifted all-purpose flour
½ teaspoon salt
4 teaspoons baking powder
3 tablespoons sugar
¼ cup butter
¾ cup milk
2 tablespoons softened butter
¾ cup whipping cream, whipped

To make rhubarb sauce, cut rhubarb in 1-inch pieces and mix with brown sugar. Allow to stand about 10 minutes. Cover and bake at 350 deg. until tender (about 30 minutes) Chill. Sift dry ingredients. Cut in ¼ cup butter until mixture is crumbly. Stir in milk to make soft dough. Turn out on floured board, and knead gently. Roll to fit an 8 or 9 inch layer cake pan. Bake at 450 deg.F until golden-brown (15 to 20 minutes). Split shortcake while hot; spread with butter. Spread half of chilled rhubarb between layers. Top with remaining rhubarb and whipped cream. Serve warm. 6 servings.

**RHUBARB UPSIDE—DOWN CAKE**

¼ cup butter
¾ cup brown sugar
1 tablespoon orange juice
6 cups rhubarb (about 1½ pounds)
2 cups sifted all-purpose flour
1 tablespoon baking powder
½ teaspoon salt
2 tablespoons sugar
1 teaspoon grated orange rind
⅓ cup butter
1 beaten egg
¾ cup milk

Melt ¼ cup butter in 9x9 inch cake pan. Stir in brown sugar and orange juice. Cut rhubarb in 2-inch pieces and arrange on top. Sift dry ingredients. Add orange rind. Cut in butter until mixture is crumbly Combine egg and milk. Add to flour mixture and stir until just combined. Spread batter over rhubarb. Bake at 350 deg. F until an inserted skewer comes out clean (35 to 40 minutes). Cool 5 minutes, and turn onto serving plate. Serve warm with cream. 6 servings

# Elphie Bombers strong winners

Top aggregate winners in Elphinstone Secondary School's annual sports meet were Dave McDonald and Steven Miles among the boys and Joan Blomgren and Margaret Finlayson among the girls.

Team scoring saw the Bombers lead with 366 points, Spitfires second with 318, Mustangs third with 288 and Sabres fourth with 240.

Records broken were by Marg Finlayson who beat the 14.2 mark with a 15 foot long jump and in the high jump she surpassed the old 4.2 mark with a four foot five inch mark. Robert Stevens in the triple jump surpassed the old mark of 33.2½ with a 33.4 foot effort. These records all fell in the junior bracket.

As there are three classes of participants in four groups there would appear to be an unusual number of firsts but with the possibility of there being 12 firsts the numbers do not appear out of line:

Shot: Leonard Beaudoin, Susan Dixon, Mike Scharf, Gail Blomgren, Lynn Tyson, Albert Saul.

3,000 metre: Brian Evans, Steve Miles, Nan Mackenzie, Joan Blomgren.

Long jump: Marg. Finlayson Petra Peterson, Susan Dixon Scott Rodway.

Javelin: Tanice Mullen, Gale Ono, Kerry Mahlman, Barry Johnson, Dave MacDonald.

Pole Vault: Marshall Pulman Paul Scott, Joan Blomgren, Dave MacDonald.

400 metre: Cheryl McNevin, Fred Allnut, Susan Charlesworth, Frank Havies, Petra Peterson.

100 metre: Julie Gallup, Marge Finlayson, Susanne Jorgenson, Wayne Smith.

Triple jump: Marshall Pulman, Evan Gray.

Hammer: Brad Norris, Leonard Beaudoin, Tony Betenach.

High jump: Shannon Crook, Marge Finlayson, Lynn Brackett, Dave MacDonald,

Discus: John Crosby, Kevin Prokopenko, Lynn Brackett, Isabel Martini, Pam Benner

800 metres: Steven Miles, Gail Blomgren, Harry Pierre.

200 metre: Cheryl McNevin Ron Girard, Cindy Kurucz, Susan Jorgenson, Wayne Smith

1,500 metres: Steven Miles, Barb Dew, Allen Edmonds, Joan Blomgren, Brian Mackenzie.

Relay race: Spitfires, Sabres Bombers, Mustangs (2)

# Cancer notes

Radiation has played an increasingly important role in the diagnosis and treatment of cancer. Accessible cancers such as those of the skin, lip and mouth can be destroyed effectively by this method of treatment alone.

From atomic energy research have come substances, such as radioactive cobalt and caesium, which give off powerful x-rays.

Other types of physics research have resulted in the production of machines, such as the betatron, which may be used to bombard cancer cells with high energy particles.

Chemo therapy, or treatment with drugs, offers considerable hope for the future. As yet there is no known drug which will cure all forms of cancer. Even when one is found, it is probable that early diagnosis and treatment will remain as important as they are today.

Pamphlets and information about cancer can be obtained by writing to: B.C. and Yukon Division, Canadian Cancer Society, 968 West Eight Avenue, Vancouver 9, B.C.

# Point of Law

(By a Practicing Lawyer Copyright)

**Q.** I was involved in an automobile accident recently. I was not at fault. Both my wife and I were injured, the damage to the car will cost $1,250.00 to repair and I will lose about four months from work. Our car was not insured against collision. We are, however, covered by the B.C. Medical Plan. How should I recover my losses?

**A:** You can recover your losses by suing the person at fault in the accident. If in doubt, sue anyone who may have been at fault. You should claim the amount required to fix your car, your loss of wages your wife's loss of wages (if she was working) and for pain and suffering for both yourself and your wife. You should claim under the "No Fault" part of your own automobile insurance policy for the weekly benefit while you are off work, and your wife should do the same. However, if she was not employed at the time of the accident, she should claim for the $50.00 payable to spouses under the No Fault Section. You should also claim for any medical expenses not covered by your medical insurance. In view of the extent of your claim, you should consult a lawyer.

**Q:** I was in an auto accident the other day and my car was slightly damaged. The auto body shop estimated the cost of repair at $150.00. I phoned the insurance company of the person who hit me but they will not pay anything as they say from their investigation it is my fault. I feel that it was not my fault. What should I do? I don't want to go to a lawyer as there is not enough money involved.

**A:** You should go to the small claims division of the provincial court in the municipality where either the accident occured or the defendant (that is, the person you are suing) resides and sue both the owner and the driver of the car that hit you. If you do not know who the owner of the car is you should write to the Superintendent of Motor Vehicles to ascertain this as of the date of the accident. The amount of damages you will claim should be the amount required to repair your car. This is assuming, of course, that you were not insured in the accident and that you suffered no other economic loss.

**Q:** I was a passenger in a car that was in an accident. I have heard that in order for me to collect anything from the driver, I will have to show that he was grossly negligent. Is this true?

**A:** No. This was the case at one time, however, the statute governing this has been amended so that you merely have to show some negligence on the part of the driver of the car you were riding in. Contact a lawyer.

# Hodgson cited

The March-April issue of the B.C. Civil Defence bulletin, The Defencer, contained the following:

Wes Hodgson of Gibsons has retired after 22 years as Civil Defence Co-ordinator for the Sunshine Coast.

Russ Shaneman, Vancouver zone co-ordinator, says, "This must be a record." Provincial co-ordinator, John Erb, says, "It certainly is a fine example of loyalty and devoted service to his community, which Mr. Hodgson can well be proud of."

Both Wes and his wife Phyllis now reside in North Vancouver.

# School choir surprises

Sechelt Elementary school choir of 30 grades seven and eight pupils of which only three were boys intrigued school board members with their delightful singing Thursday night of last week.

The occasion was the first of a series of school board meetings away from its Gibsons office. This meeting was held in Sechelt's Elementary school. Present outside of the school board were the chorus and a few spectators.

The chorus proved to be a group of well disciplined bright youngsters who sang as though they really enjoyed what they were doing. The chorus, just about a year old, was directed by teacher Robyn Eriwata. At the piano was Mrs. R .R. Hanna.

The business session of the board heard members of the Retarded Children's Association on phases of the handicapped's problems with possible solutions and achievements. Trustee Mrs. Agnes Labonte will investigate the possibility of having the Coast-Garibaldi Health Unit co-ordinate services for the handicapped.

The planning committee decided that Gibsons Elementary school annex (the old frame construction school) will be closed down at the end of the year.

The cost of converting the open area classroom in Gibsons Elementary school will be referred to a committee which will visit Victoria to seek departmental approval for financing as promised during a visit of the minister and deputy last year.

# Old house afire

An old empty house on the highway, close to the Hopkins Landing exit and built sometime before 1919 by a Mr. and Mrs. Riley was been the object of destruction by fire which police believe was started by boys.

Gibsons firemen were called out to put out fires on three occasions, at 7:10 last Thursday evening, then later on the same evening. The third call occurred Friday at 6:30 p.m.

The fire at noon Friday occurred in the Bay road area when an oil stove became overheated.

# Red Shoes in public show

Squeal of delight and excitement greet each performance of the Red Shoes by Driftwood Players under sponsorship of the school board. It will be played to all elementary school audiences. Miss Colleen Johnson is director of the cast.

John Burnside plays Renaldo J .Snogg with great gusto. Robbie Ashby is Gemmo, his mute clown in a really funny performance, Els Zuidema, a winsome heroine as Karen, Teddy Hume is the hero Nels, the cobbler's apprentice who exudes virtue; Eileen MacKenzie, a lovable grandmother and Doug Honeybunn is an amply dignifed pompous burgomaster. During the closing scene pandemonium reigns.

This play will be presented publicly at 8 p.m. Friday in Gibsons Elementary school. Admission $1 for adults and 50c for students and children.

# Oops! Sorry!

In the fire Saturday, May 27 the Coast News in its May 31 issue referred to the occupants of the burned home at itinerants. This has turned out to be incorrect. The individuals involved were from families who have lived in this area for some time.

**For Mothers and Mothers-to-be, "The Cuddly," the best baby carrier ever made, is now available through Miss Bee's Card and Gift Shop, Wharf Rd., Sechelt.**
