Liberals and Socialists Lose Deposits; Only One Opposition Member Gains a Seat

Although he returns have not been fully made from all the districts, yesterdays elections resulted in a landslide for the Conservative Candidates for the Provincial Parliament Every Conservative was elected except the candidate in Nansimo where the Socialist, J. Place, was elected by a small-maj ority. James H. Schofield, Ymir's Conservative candidate was returned to the Parliment by a goodly majority over R F. Pettipiece, his opponent and in Nelson, W. R. Maclean carried everything before him with Harry Wright the independent candidate far in the rear.

Not a single Liberal was elected. Out of a house of 42, Premier McBride will have 41 supporters, sincluding of course himself. Most of the defeated Liberals in the count. ry districts lost their deposits. Only one opposition sea will be occupied by a lone Socialist in the next legislature. All along it has been con seded that the Conservatives would win, and no less than hine followers of Premier McBride were recurred by acclamation.

MABRIDE SEES MORE GENERAL PROSPERITY FOR FUTURE

In a dispatch sent out from Victoria last evening, Premier McBride discusses the result and the future policy of his government as follows:

"The government will more than ever realize its respon sibility to the people of the province. The victory which the Conservative party has achieved it a victory for the future of the province, for the government will henceforth go ou with those larger issues that are now but dimly dreamt of in regard to development and general prosperity. In the past we have laboreb with many handicaps and we have so far been enormously successful. That we will as a government continue to measure up to general expectations is my firm hope in view of the magnificent attitude of the people as shown at the polls. From now on British Columbia will forge ahead as she has never done before. Faith in the country's potentialities has been splendedly vindicated tonight. With that great warrant to back us, the government of the province hopes to inspire the same confidence in the investing world that the people themselves have so plainly exhibited."

The prosperity which the Province has enjoyed under the McBride government had a telling effect on the vote and a majority of the districts gave the Conservative pandidates larger majorities than ever before. Parker Williams, Social ist of Newcastle; who had a cent in the lest Parliament was beaten this year by four votes by R. B. Dier the Conservative-The vote was 393 to 389. The Hon. W. R. Ross won out in Fernie riding over the Socialist Davidson by a vote of 1112 to 789. In the Slocan district where the Socialists were confident that they would elect Andy Shilland, William Hunter, Conservative, won by a vote of 308 to 173. The The vote in Nanaimo where the only Socialist was elected was close being 521 for Place and 578 for A. E. Planta Con nervative.

BIO CITIES DO SOLID FOR CONSERVATIVE CANDIDATE

The Solid Five were elected in Vancouver. Liberal Brewster of Victoria who was one of two of that party to gain seats at the last election was beaten out this year by a good majority. He headed the Liberal ticker but could not approach his Conservative opponents. Fromier Wiebride and Dominion galore expansions on the Spring Hatz from \$9.50 to \$9.50. S. A.

CHAPTER XVII A Fair Day's Sport.

At Mirst Park there was not very much for Fielden to do. The horses he had brought with him were a mostud-groom, there was not a racer amongst them. With his intimate I mean." knowledge of horse-flesh Fielden wondered why Copely had kept such an panion. indifferent stable and where he got his animals. They were even worse than the ordinary run of equine rub- body. But then, well, you are Harry myself fort nate if I can steal a day bish usually foisted on the new milli- Fielden, and I have known you all off occasionally to get down to a subonaire whose ambition it is to figure my life. If you didn't care for me urban tracecourse Let me present as a patron of the turf. Perhaps the quite as much as you do if I had you to my daughter. My dear Afice whole thing was a blind. Perhaps not cared for you—but, there, we need the stud at Seton Manor was merely not to into that. It is my father who intended to cover Copely's rascality has worried me. It is extraordinary in another direction. At any rate, what a change has come over him Fielden watched the first two races dately. He used to be so kind to me, with mingled feelings of contempt and amusement. He had seen his em- even when we were so poor that we ployer's horse figure in both in the didn't know where to turn for money sorriest fashion, and till the four pleased.

It was stratue to move about the paddock, by the weighing-room and is almost eager that I should do so. on the stand, rubbing shoulders with a score of men whom he knew well. The course was familiar to him, too. Were the past two years but a dream, Were the past two years but a dream, his teeth and hit it flercely. A year and had he never left the scene of his or two ago he would have smiled at former, recreations? But no one recognized him. He strolled about listening to the roar of the betting-ring and the cries of the multitude, or threaded his way in and out among the horses. He even spoke to one or two jockeys whom he had once

Despite the crowd and the horses. the ladies on the stand and the members in the enclosure, however, it was a lonely business, and his face lightened as he caught sight of May Haredale seated by herself on one of the stands. He made his way cagerly to her side. She turned and smiled upon him. There was a healthy flush on her face. Her eyes were sparkling, and yet there was a suspicion of anxiety about her which Fielden had noticed more than once

"Why are you alone?" he asked Oh, it has only been the last few minutes." May explained. "We have a colt running in this race, and my father has gone to give instructions to his jockey. By the way, how badly your horses have cut up to-day. No. this race, and I haven't so much as | man, of course a pair of gloves on it."

Then what do you say to a stroll?" Fielden suggested. "It is cold and I would not have spoken unless I had we look like having another fall of been bound to. That man is not fit snow. I couldn't see the three o'clock to go into any respectable house. the faintest notion what had won till because the secret is not altogether I saw the numbers go up. Let us mine. But this much I tell you. Had walk across the course to the start- there been no such person as Raying-point and back. We shall have mond Copely I should be a rich man plenty of time."

May consented and soon they were beyond the enclosure, and passed the would be blood on that man's hands. white posts and rails; towards the patch of gorse across the Downs, where the starter was already fidgeting about on his coh. Away from the noise and excitement of the ring the. flush faded from May's face and her eyes seemed inexpressibly sad. *

'What's the matter?" Fielden asked anxiously. "We all change as we grow older. I suppose I am different like to see you so quief. It is so foreign to your nature, May. There was a time when you were all laughter and sunshine. Oh, dear, what a fool I have been, to be sure. How different things might have been if I had only had a little common sense. You don't know how I blame myself." "Were you altogether to blame?" May asked. "I don't think so. You

And now he Fielden made no reply for a moment. A wave of indignation came over him. He caught his lip between the suggestion that Sir George would

encourage a match between his daughter and a man like Copely. But during the hard and bitter months of his wanderings he had learnt some amount of cynical wisdom. He was no longer inclined, as he had been known, but none seemed to identify in the old days to take every man at his face valuation. And, no doubt, when the test came. Sir George was like the rest. He would speak loudly enough of his willingness to give up the old house, and live in humble lodgings rather than have any slur cast upon his honour. But it would be different whom this pretty theory came to be put to the test. Fielden forgot all about the racecourse. He

> veyed nothing to his eye. "I want you to be candid with me," "Is Sir George putting pressure upon you to marry that black-

heard nothing of the shouting crowd.

The horses streaming to the post con-

guard?" There was something so vehement in Fielden's speech that May looked at him in astonishment.

"Surely you are going too far," she I am not particularly interested in said. "Mr. Copely is not a gentle ties.

"I tell you, he is a scoundrel." Fielden interrupted "Believe me, May. race"for the snow. Positively I hadn't | cannot say more than that at present, at the present moment. I know that, but for the merest accident there You must not marry him, May. You must not give him the slightest encouragement. When I think of you associating with that rascal my blood hoils. And if the worst comes to the worst, I must tell Sir George what I know myself. It is with the greatest reluctance I entered Copely's employment; indeed, I only did so because there are certain things I want to from what I used to be. But I don't find out, and this seemed to provide a favourable opportunity. Otherwise,

father really insists on this?" A rush of lears filled May's eyes. "That is what it comes to," she rejoined. "It is only the last two days that I have noticed such an extraordinary change in my father. Harry, had no one to look after you from do you think it is as had as he says the time you were at school till your lit is? He tells me that unless I consent to marry Mr. Copely we shall be ruined and be turned out of the house without so much as a penny. It seems incredible. I can't understand a man with an atom of self- and summer. The very best medi respect who would compel a girl to allment is Dr. J. D. Kellogg's Dysenmarry him against her will. Telephoning From England to Switzerland

The completion of a new submarine cable between England and France has resulted in the successful telephonic transmission of messages between Great Britain and Switzerland. Satisfactory commercial conversations are now carried on between England and Genova, via Paris and Lyons, and with Basel, via Paris and

"Does your flances know your age,. "Well-partly"

Cotton can only be grown in tropieal or semi-tropical countries; but wool is mainly a product of temperato regións.

The Union of South Africa has a. total area of 470,000 square miles, with a population approaching 6,000,-

Ninety-nine miles is the total length of the Sucz Canal," and the width is just over 121ft,

NO ONE STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disordors of the stomach were the most prolific source of human ailments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body * * * * ." He continues, " so we may he said to live (through) the atomach." He goes on to show that the atomach is the vital center of the body. For weak stomachs and the consequent indigestion or dyspepsis, and the multitude of various diseases which result therefrom, no modicine can be better suited as a curative agent than

Dr. Pierce's Golden Medical Discovery. "Several months ago I suffered from a severe pain right; under the broant-bone," writes Mns. G. M. Munken, of Corons, Calif. "Had suffered from it, off and on, for several years. I also suffered from heart-burn, did not know

W. N. U. No. 891,

Zam-Buk is made from fine herbal extracts, and is free from any harm ful poisonoun coloring matter. Like the grasses and the flowers, nature has colored it green. It is nature's own healer!

Most ointments and salves have, as their foundation, various animal oils and fats. Zam-Buk does not contain one atom of animal substance. Most ointments and salves are too coarse to be absorbed by the tender delicate skin of a baby, and remain on the skin an irritating mass. Just put & little Zam-Ruk on baby's skin, and see how soon it is absorbed, showing conclusively that the pores of the skin are greedy for it.

Use nothing but Zam-Buk for baby's Brin troubles and wash with Zam-Buk Soap.

Zam-Buk should also be used for cuts, burns, scalds, eczems, piles, ulcers, etc. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price, Refuse harmful substitutes and imita-

The Tell-Tale Thumb.

The thumb confesses the man; Do man is clever enough to deceive it. It has been divided into three parts, typifying the three qualities that master the world-will, logic, and love. The first, or nall phalange, signifies will; the second logic, the third. which is the boundary of the Mount of Venus, love.

When the thumb is unequally developed and the first phalange is extremely long, it is neither love nor logic that governs the individual, but merely sheer will. If the middle phalange be much longer than the first. reason predominates; yet the man may not have the power to will himself to do that which his reason dic-

When the third phalange is long and the thumb is short, man is revealed as the slave of the senses, guided neither by will nor reason.

If the thumb is supple-jointed, the individual is easy-going, spendthrift, careless of time, money, energy, opportunity and all things.

If it be firm-jointed he is cautious, watchful, keen, diplomatic, tireless in planning, confident and sure of success, self- possessed and self-control-

The Ventriloquy of Birds

Whence and why is the power of ventriloguy that many birds possess: (asks a writer in the Nation.) The meadow-pipit, or the cornbrake, can sit in one place and make its voice seem to come from many alternate spots. It may be a trick impressed by the ages as a means for bewildering one's enemies, for comrade call and danger call seem, to our blunt ears at any rate, to be the same in these species. The cornbrake must be of an artistically playful disposition, for he calls like that, now near and far, when he is, undoubtedly calling his mate.

Dickens And Miss Weller.

Dickens himself was once embarrassed by one of his names. This was when he was presented to a Miss Weller, whose beauty and talent delighted him. He described to a friend his mixed feelings at finding the name he had made grotesque borne by so gracious a lady. He afterwards in troduced a friend, and a marriage followed in time. On the morning after that first meeting Dickens sent to this unforeseen kind of Weller some verses in which he protested his re gret that he could not hope to change her name for he was 'married and "Pickwick" was published.

Not That Kind of Sinner

A story is told of a certain clergy man who was fond of making sharp remarks. One day, after a fall of snow he was wending his way along a country road in company with a parishion er. His companion suddenly stopped upon a hidden slide, and came down with a thud.

Looking gravely down at him, the pastor solemnly said:-"Ah, my friend, sinners stand on

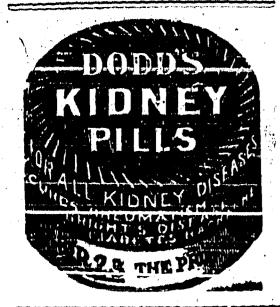

slippery places.' "Yes, I see they do, but I can't,' was the indignant rejoinder of the fallen member of his flock.

"Times is flerce," declared Susan Brott. "Half the managers on Broadway owe me money

"Back salary or alimony?" politely queried Yorlek Hamm .-- Courier Jour-

A beggar in Dublin had been long besteging an old, gouty, tosty, limping gentleman, who refused his mite with much irritability, on which the mendicant said:-

"Ah, please your honor's honor. I wish your heart was as tender as your toes."

King George at Home.

When King George entered his pr. dian visit he found a mass of correspondence arranged for his examination that made him smile. "Enough work here for a month, I suppose," he | men were killed and 214 injured. remarked to Lord Stamfordham. It was plain that he was only too anxlous to get to work. His quick, alert manner, of moving about, glancing past month was the premature explowith pleasure at various objects in sion of dynamite on construction his apartments, pausing every now and then to make some brief reference to matters that immediately interested him, was gratifying to behold, since it indicated better than anything else could have done the downright joy that he felt at being back in his London "home," while it equally conclusively demonstrated that his health had not been impaired by the fatigues of the last few months.

When Colds Hang On

You Can Be Sure the .Vitality of The System is Running Low.

Fortify Yourself Against Pneumonia And Consumption by Using.

DR. CHASE'S NERVE FOOL

You catch cold easily. One cold is not gone till the next one comes. You are unable to shake yourself free, and as a result your system is grad-

ually becoming weaker and weaker. This is the way to pneumonia or lacks the richness which is required to fight off the disease germs.

Dr. Chase's Syrup of Linseed and Turpentine will free you of the cold, but you must build up the system by using Dr. Chase's Nerve Food or you leave yourself open to renewed attack.

Colds do not bother the person whose blood is pure and rich and whose nervous system is filled with energy and vigor. You can fortify yourself against colds and you can ward off such frightful diseases as pneumonia and consumption by using Dr. Chase's Nerve Food.

By a few weeks' use of this great food cure you can build up a reserve force which will enable you to fight off disease and to better accomplish restore snap, vigor and energy to mind and body 50 cents a box, 6 boxes for \$2.50, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

Bullet Proof Shield.

Lieut. Bisbini of the Thirty-second Infantry, who is now at Tripoli, has invented a bullet proof shield which inches wide and 16 inches long, shap they are appropriate and tasteful. ed like a spade. When fitted to one hole, which is large enough to admit all your pleasures and recreations. the barrel of the rifle. The shield can the purpose of a regular shield. On the march the shield, which is very light is hung over the knapsack. The erior to her, Bisbini shield has been experimented with successfully and found bullet proof at 100 yards, so that very probably it will be adopted as an essential part of the equipment of infantry soldiers.

Minarda Liniment for sale everywhere.

Recret of Long Life.

The true secret of health and long life lies in very simple things. Don't worry. Don't overeat. Don't starve. Fresh air day and night. Sloop and rest abundantly. Spend less nervous energy each day than you make. Be cheorful. "Work like a man, but don't be worked to death." Avoid passion and excitement. Associate with healthy people. Health is contagious as well as disease. Don't carry the whole world on your shoulders, far less the universe. Never despair. "Lost hope is a fatal disease."

Agent (sadly): "That industrial Accidents.

According to the record of industvate room on his return from his in rial accidents kept by the Department of Labour, 61 persons were killed and 178 injured during February, 1912. This record compares very favourably with that of January, when 86 work-Compared wit: February, 1911, the record is still more favourable, as 93 were killed and 197 injured in that month. The worst disaster of the work near Fort Frances, Ont., on the line of the Canadian Northern Railway, by which 13 construction hands were killed and six others seriously injured.

Two-year-old Harry had never seen a live lamb, his only knowledge of that animal being derived from a toy one on wheels. While visiting grandpa on the farm he was taken to the sheep pen to see the lambs. After looking at them for a few minutes, he looked up at grandpa with a puzzled expression, and asked, "Where's the wheels?"

They Soothe Excited Nerves .-- Nervous affections are usually attributable to defective digestion, as the stomach dominates the nerve centres. A course of Parmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action relieve the neryes from irritation. There is no sedative like them and in the correction of irregularities of the digestive processes, no preparation has done so effective work, as can be testified to by thousands.

A Yukon Bonanza. one of the best since the days of the Klondike discovery in 1898 was made here last week, about seventy miles from the mouth of Sixtymile River 120 miles southwest of Dawson and A new gold discovery, regarded as twenty-five miles from the Alaska consumption. Colds only hang on line. The find is said to average when the system is in a weakened or about \$1 to the square foot of bedrun-down condition, and the blood rock. Some two hundred men have already gone from here on a stampede to stake claims, notwithstanding a temperature of 30 degrees below zero and snow on the ground fifteen inches deep. A very reliable miner, who has been engaged in mining here since the gold rush in 1908, was the discoverer. He reports the formations in sinking a shaft 19 1-2 t to bedrock as follows: Six inch es of muck; 6 feet of gravel containing gold, 3 cents to the pan; 6 feet of muck and 7 feet of gravel to bedrock where the gold is found. In cleaning up the surface of the bed rock a space of 5 by 8 feet, he obtained \$40 worth of high grade gold. as shown by the gold commissioner's scales here. He reports the valley in which the discovery was made to be 20 miles long and 2,000 feet wide, with your work in life. Rich, red blood good working gravel quite similar to is the greatest of germicides, and that of the famous Bonanza Creek of there is nothing like Dr. Chase's the Klondike, and frozen solid from Wilen Your Eyes Reed Care. Nerve Food to form new blood and the surface to bedrock, making a safe roof for mining.

> There may be other corn cures, but Holloway's Corn Cure stand at the head of the list so far as results are concerned.

CONSERVATIVES SWEEP PROVINCE: MAKE RECORD

(Continued from Page 1)

and all his colleagues were returned to the legislature. Mr McBride polled 3228 votes or 700 more than his nearest Conservative colleague and 1200 more than any Liberal. The election just passed over marks the turning of a new page in Canadian politics, there never having been such a complete victory for any one party.

The Nelson results came as a surprise to a number of people although not to the Conservative workers. Harry Wright upon whom even a few Creston people had placed their bets, was badly beaten, narrowly missing being pushed into third place in the running by A. Harrod, the Socialist candida'e. According to the unofficial returns, the vote was Maclean, 528; Wright, 190 and Harrod, 177,

Both Wright and Harrod lost their deposits. Mr Maclean's majority over his nearest opponent was 04 votes greater than the previous record established by Mr Wright in the provincial election of 1909.

It was a landshide in favour of the Conservative nominee. The polling in spite of the unfavourable weather was higher than expected by the campaign workers and was taken as evidence of the determination of the citizens of Nelson of all parties that Mr Maclean should go down to Victoria with a record majority. It was the greatest majority ever secured in any election in Nelson.

SCHOFIELD CARRIES YMIR WITH EASE

James H. Schofield was an easy winner over his Socialist opponent, R. P. Pettipiece, in this riding. While here Mr. Pettipiece predicted that he would break even with Mr Schofield in his home city, Trail. The figures sent out from that place last evening give Schofield 230 to 66 for the Socialist candidate.

Schofield ran far ahead of his opponent. The Creston pollwas 135 to 24, a number of the Liberals throwing their votes to Schofield. In the last Provincial election held two and a half years ago, Mr. Schofield polled 97 votes as against 37 for his Liberal opponent. In the Dominion election last year the vote was 95 Conservative to 47 Liberal. The gain the year in figures is most marked.

The vote at Erickson was light there being only 8 votes cast, 6 for Schofield and 2 for Pettipiece. At Sirdar, the vote was: Schofield, 20; Pettipiece, 9: at Kitchener, Schofield 10, Pettipiece, 2 and at Rykert, Schofield, 3 and Pettipiece, 1.

Candidate Pettipiece lost his deposit as a result of the mood showing of Mr Schofield. The returns from outside the Valley for 11 polling plabes give Mr Schofield 559 votes to 186 for Pettipiece. Fair view which had been feared by some of the Conservatives gave a vote of 108 for Schofield and 60 for Pettipiece. Ymir gave 22 to Schofield and 26 to populate. Proctor gave a vote of 52 to 1 in favour of Schofield and Salmo 42 to 22. Waneta gave 24 to 1 for Schofield.

Cannot Learn Poultry-Raising From a Book

There is only one right way to learn how to raise poultry, and make it pay from the start; and that is to learn from experts who have been

This is exactly the kind of instruction the International Correspondence Schools offer you. This is NOT a book scheme, but a home Course

ence Schools offer you. This is NOT a book scheme, but a home Course of practical lessons, representing the lifelong experience of the most successful poultry raisers in the world.

The Course includes everything pertaining to successful poultry raising: How to select most profitable breeds; feeding; marketing eggs and poultry for profit; natural and artificial incubation; laying hens; combination plant; poultry appliances; enemies of poultry; diseases of poultry; poultry houses and management; turkeys; water fowls; squabs; etc., etc.

What makes the Course particularly valuable is the fact that the I. C. S. is associated with the largest poultry farm in the world—the celebrated Rancocas Farm, at Brown's Mills, In-the-Pines, N. J., famous for its fine Rancocas Leghorns and DAY-OLD-CHIX, and where 30,000 eggs are marketed every week.

eggs are marketed every week.

The I.C.S. has spent thousands of dollars in preparing this Course-the only one of its kind—a Course that you can master and apply in your own home, whother you live in the city, suburbs, or country, and that equips you to handle a few hers or manage a large poultry farm. This Course will help you just as the

Why Should I Use Cuticura Soap?

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin. troubles." True, it is for skin troubles, but its great mission is to prevent skin troubles. For more than a generation its delicate emollient and prophylactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of toilet soaps. It is also invaluable in keeping the hands soft and white, the hair live and glossy; and the scalp free from dandruff and irritation.

While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. 7M, Boston, U.S.A., for a liberal sample cake, together with a thirty-two page book on the skin and hair.

All interested.

Why does quicksliver run away

Quicksilver is not sliver, but it has a slivery appearance. The strict chemical name for it means watersilver, says the Children's Encyclopedia, but the name by which it is generally known is mercury. Quicksilver is not a kind of silver, nor a mixture of water and silver, nor anything else but itself. It belongs to the group of the metals, like gold and cilver, lead, from and so on, but it is

unlike all other metals in being liquid

at ordinary temperatures. Quicksil-

ver is very heavy, so that even iron

The tiny particles of quicksilver have a great attraction for each other. The reason we cannot pick up quick allyer is that it is liquid. Being a liquid, it runs, as water does, and touched. Quicksliver was discovered more than 2,000 years ago.

doveloped. Facts contained in the declared. At the German consulate it was stated that the departure of Germans from Montreal for the Home Land had nothing whatever to do with the possibilities of war with Britain. It was emphatically denied that any Germans now residing in Montreal had been recalled by the Home Govcrnment.

FEDERAL SUBSIDIES

From a Half Million to be Spent by Government in Aiding Agriculture Ottawa.-The first federal subsidy to the provinces under the Burrell aid to agriculture bill, will it is expected reach the half million mark. The apthe fishing had been done outside the limit. The supreme court of Briportionment of this sum allowed provinces on basis of population will it is believed provide enough for beginning and will prepare way for larger expenditures next year under a more clearly defined system. It is for the purpose of working out a scheme ed word that the sale had brought the which will be a permanent basis for future dederal helps to agriculture in the several provinces that C. C. James enters Dominion service,

The liaif million to be spent this year will give Ontario about \$170,000. Island Anticosti since 1820. The chart shows the south coast to be Quebec, \$130,000; British Columbia, \$27,000; Saskatchewan, \$33,000; and closely fringed with wrecks the north other provinces in proportion.

FENIAN RAID GRANTS

Dominion Government Proposes to Give \$100 to Each Veteran.

Ottawa:-The government proposes to give a grant of \$100 per head to there will grow up a strong sentiment voterans of the Fenian raids. The announcement is in the following resolution of which notice has been given by .on. Sam Hughes, minister of millica.

"That it is expedient to provide for the payment of \$100 to every person residing in Canada on the date of the passing of an act based upon this St. John, Neld.—The outlook for the for active service in the year 1866 opened is decidedly unfavorable thus | Scotia or New Brunswick, or in the far. Several of the steamers have year 1870 by the government of Canless despatches, and the whole fleet talions of riflemen formed for service in the northwest:"

Will Push Construction

Edmonton.-The announcement was Ollawa.—The new Government's made here by J. D. McArthur, presidont of the Edmonton, Dunvegan and THE JAPANESE MENACE

Subject of Address Before Royal Colonial Institute by F. B. Vrooman.

London.—At a well attended meeting of the Royal Colonial Institute, F. B. Vrooman read a paper on "British Columbia and the Imperial Outlook," in the course of which he said: "The most vital world issue of today is the Japanese programme of Asiatic imperialism. It is impossible to over-estimate the momentous nature of this issue to British Columbia and to Canada, which Japan is coolly occupying unbidden and unwelcome. Canada is a prey to the disloyalty of a few unpatriotic manufacturers and corporations which will have cheap labor at the price of Canadian homeogenity. Japan is pursuing an unreasonable programme and plainly one we cannot accept. Not satisfied with having absorbed the whole of the western civilization she now crosses the Pacific and demands on our shores what she denies us on her own. She is working feverishly towards a policy of pan-Asiatic imperialism and exclusion while she is laying claims to equal rights with the white man in his own white world.

"There is no nation in the world which resents more quickly any sweeping influx of foreigners into her land and in spite of this she continues to pour cheap labor into the western hemisphere and proceeds to raise a hue and cry if we object.

"The time has come for the whole empire to co-operate in the imperial naval programme. It is with grief I say that Canada is not doing her share. So far our efforts have been a travesty. Some of us are ashamed. but we have our little Canadians also who are not empire builders, but disentregos. We want the British navy on the Pacific coast, and it must be the imperial navy and not the colon-

"Our doing anything alone until strong enough to defend ourselves is folly, which approaches a quality of madness. The whole matter of the defense of any part of the empire must be considered an imperial question."

A telegram was received during the meeting from Lord Charles Beresford expressing his regret at not being able to attend and also his agreement with Mr. Vrooman's views on the naval

MORMONS STAYING

Report That Colony Was To Move Is Denied at Magrath.

Magrath, Alta,-Considerable excitement was aroused here by a report printed in the press that the Mormon colony was to leave Alberta and settle in Nevada so that the church could control the politics of that state. Prominent officials at Magrath, which is one of the largest Mormon towns They are emphatic in their statements that the Mormons are here to remain and they have faith in Alberta as the best country in the world to make a home in. "The church is not in politics," said an influential church-"Our leaders are opposed to any union between church and state because it would result in trouble and become a menace. The report is false. There is no ta vestige of truth in it. The Mormon is as free as the Methodist or any other church adherent. We are in Alberta to stay. We aim to obey the law and be true Canadian citizens. Our people have no political aspirations in Alberta—all ve want is a home."

PICTURE SHOWS AID CHARITY

London Has Plan to Devote Part of Proceeds for Destitute.

London.-What charity gains by opening of cinematograph shows on Sundays has now been ascertained by a statement issued by the London County Council. The scheme by which such places may be opened on condition that the profits are devoted to charity, has been in operation for six months, during which period the sum of \$31,960 has been handed over in the way of profit to charities.

There are 198 picture palaces open under this arrangement. The gross receipts were \$278,010, which indicates that the people spend about \$10,000 every Sunday ir this form of Sunday amusement. The total expenditure was \$246,045, of which \$60,395 went

DOCKING HORSES IS BARBAROUS So Says Duke of Connaught at Meet-

ing of Ottawa Humane Society Ottawa.—"I think the docking of horses' tails is a relic of barbarism. The dealers may not agree with methe horses sell better, when they are docked. I think it is a shame to deprive this dumb animal of the tail which God has given it." This was the declaration of the Duke of Connaught at the annual meeting of the Ottawa Humane Society to-day.

royal highnéss also spoke strongly against reckless driving and overloading which the humane pociety is fighting in this city. "I hope against reckless driving and overloading," he continued.

Made in Canada.

Toronto.—The itinerary of the 'made in Canada exhibition train." which is to acquaint the new citizens of Western Canada with the quality and variety of Canada goods has been resolution, who was regularly calisted definitely decided upon. This tour and served with the militia called out will commence at Montreal on May for active service in the year 1866 15, and after spending a day each in by the government of Canada, Nova Ottawa, Toronto, Fort William and Port Arthur, the train will proceed to Winnipeg. Leaving there on May 23 met with mishaps, according to wire- ada with the exception of certain bat- it will call at one hundred of the principal cities and towns in the provinces of Manitoba, Saskatchewan and Alberta, reaching Winnipog or the return journey about June 23 and Toronto about two days later.

EFFECTS OF THE SIRIKE

MINERS SUFFER THE LEAST FROM THE CRISIS

Distress Throughout the Industrial Districts of Great Britain Has Become Extremely Serious-Government Issues a Circular to Local Boards of Guardians to Render Assistance.

London.-Distress throughout the ndustrial districts of the United Kingdom because of the national coal strike which has thrown 1,000,000 miners and over 1,500,000 other workmen out of employment, is acute.

While delegates of miners and mine owners are discussing with politicians the Minimum Wage Bill, women, children and workers themselves in many places are suffering extreme poverty, and appeals are constantly reaching London, which appears to be the least effected of the large cities, for assistance.

The Earl of Horrowby, who has just toured the pottery districts in Stafordshire, is asking for funds, and says that thousands of children in the district are being fed from charitable

In this region alone, twenty thousand miners are on strike and lack of coal has thrown out of work 60,000 potters, to whose number must be added thousands of general laborers, porters, railroad men and barge men. whose livelihood depends on the output of the potteries.

Prevailing conditions in the Erwash Valley, that great hive of industry stretching from Nottingham to Ches terfield, serve as an example of conditions elsewhere. Here 75 per cent. of the workers in all trades are idle. and unlike the miners, these men have no strike pay; their families are thrown onto charity.

The mayor of likeston, the largest town in the valley, received applications from no fewer than 400 families for aid, and in one of the elementary schools out of six hundred pupils, 400 are being tended.

Wales is suffering equally with England. Only three tin plate mills are working in the whole country. and every other industry is affected. The cotton mills are closing gradually throughout Lancashire, and the last cargo of coal has now been shipped from Newcastle to the south of England. What railway traffic returns are available, for the past week, show a decline of receipts amounting to \$810,000 in addition to \$2,500,000 for the previous week.

The government has issued a circular to all local boards of guardians suggesting co-operation with all authorities and agencies able to assist in the exceptional distress arising through the coal strike and empowering the guardians to find work for the unemployed.

become extremely serious. Nothing like it has been suffered since the strike of 1890. At Cardiff, 20,000 men are idle. At Swansea and other ports and towns the mayors and councils are overwhelmed with appeals for re-

RECORD GRADES IN ROCKIES

Canadian Northern Engineers Obtair Almost Dead Level on The Western Slope.

Vancouver, B.C.-Across the Rockies at Yellowhead Pass and over Albreada Summit, separating the watersheds of the south fork of the Fraser river and the North Thompson, the Canadian Northern railroad has secured lower grades than those possessed by any other trans-continental railway in Canada or the United Stat-

This is the main feature contained in a report submitted to T. H. White, chief engineer of the Mackenzie-Mann system, by W. I. Bassett, who was in charge of the engineering party engaged on permanent location in that region during the past nine months. Mr. Bassett reached the city after a roundabout trip via Edmonton.

According to the report of Mr. Bassett, the line west from Yellow Head Pass down the western slope of the Rockies to Cranberry Lake, a distance of 50 miles, will have a maximum grade of 7-10 of 1 per cent.

. These grades for practical purposes virtually constitute a dead level and will enable the railway, company to operate loaded trains of 50 or 60 cars by one locomotive in either direction over the summits. This will mean economy of fitel and reduce general operating charges to the basis that obtains on the prairie divisions.

On the ascent to Yellowhead Pass from the Alberta foothills unother Canadian Northern engineering party was successful in obtaining maximum grades of 5-10 of 1 per cent or an elevation of about 22 feet per mile. These results surpass those achieved by the engineers of the Grand Trunk Pacific which has hitherto enjoyed the record of having the lowest grades across the Rockies. For a distance of 18 miles down the western slope of the backbone of the continent the Grand Trunk Pacific has a maximum grade of 1 per cent, due to the fact that there is a long and gradual rise from the south fork of the Fraser river at Tete Jame Cache. Near that point the route of the rival railway is located several hundred feet up the side hills in order to make allowance for the ascent southward to Albreada Sammit.

U.S. invites Canada to Discussion. London,-Information has been officially received here from Washington that the American government has inquired of Canada whether the latter is disposed to discuss a co-ordination of banking laws. The Do- passing through Duluth. A new low minion, Government is consulting Imperial opinion here.

For Alberta Missions

Toronto,-The Rev. Dr. Buchanan. the form of railway and bridge aub Brillsh Columbia railroad, that one of the drage value of \$1500 each, making being sunk in the waters of the Guit sides was brought down and it hundred men will be put to work the contract for the new teams of last week has succeeded in securing miliounts to \$22,024,200, subsidies pro- opening up a line to the great Peace government bank notes, postage over 30 young students to volunteer | the C.N.R. handed 195 cars of settlers' suns of the way vessels serving for

GRAIN ORDER IS SERIOUS

Drastic Ruling Creates New Difficulty in Handling of Wheat

Winnipeg.-It is very difficult to say anything new as to the situation in wheat. The markets have been holding very steady with pretty fair export demand. When all difficulties in the way are considered it seems as if the crop of 1911 was fated to develop new and surprising situations. The latest difficulty in the Handling of it is the ruling made by the chief grain inspector that no cars of dried wheat can receive straight grade. This is a matter entirely in the hands of the inspector and the effect of it is very widespread indeed. There seems to be little doubt that

dried wheat is quite equal to straight grade of the same quality: in fact in the present year it is probably a little better, as even grain which is receiving straight grade contains more than the usual percentage of moisture and will have to be more or less dried before being willed. The value of thoroughly understood by Canadian millers, but it is a new proposition to from a month to six weeks to establish a basis of buying. The west had a practical illustration

of this last fall when the Survey Board, late in the season, saw fit to make a change in the grade of wheat. Quite six weeks' time was lost in getting this matter adjusted with the British millers. At a time when even hours count, it is not difficult to imagine how serious this order about dried grain is to those who have large quantities of dried grain for sale. The only way in which the driers at either Port Arthur or Duluth have been kept going is for dried wheat to be moved eastward as rapidly as it was dried. Now it will not be possible to do this and, in the course of a very few days at least, the drying plants at both Port Arthur and Duluth will be completely tied up and will have to cease operations unless some fresh adjustment is made.

The inspector has put himself on record for saying he does not consider dried wheat as good as straight grade. This is a matter of opinion and the chief grain inspector is entitled to his opinion, and he exercises that right at a time when the expression of an opinion is a very serious matter to all concerned.

GERMAN PRESS ON CHURCHILL

Is First Lord "Trying to Gold Brick Germany?" Asks Post.

Berlin.-If Winston Churchill hoped by his speech in the British House of Commons to induce Germany to abandon the proposed strengthening Lesson VI.—The boy Jesus in the of her navy, he will be disappointed temple (Luke ii. 40-52). Golden Text, by the comment of the German pa-pers. Not a single paper considered sought Me? Knew ye not that I must A few ultra-natriotic organs induged in the usual abusive Christ, our passover, at His first reply, but comment generally was restrained though firm.

The sixty per cent. standard constituting the British ratio of new construction above that of Germany, proposed by Mr. Churchill, has a surprisingly wide acceptance, but it is repeatedly pointed out that Mr. Churchill's figures are deceptive, and would work out in realty to less than

The "Post" referring to this says:-Mr. Churchill is attempting to gold brick Germany."

This, though more politely, seems to be the attitude of the Admiralty.

TO STOP RUSH TO CANADA

Belated Efforts of Congress to Prevent Americans Moving North Washington. - The efforts of the department of commerce under President Taft's direction, to stop the emigration from the United States to Sanada are soon to be supplemented by important action by congress. The committee on public lands has made a favorable report upon the Borah hill which makes the homestead faws of this country more liberal for the settler than are the laws of Canada, This bill has already passed the senate, Its enactment into law is a matter of a few weeks. Close students of the question, however, think this belated effort will not be very effective,

Discover Ancient Ruins.

Naples.-Highly, interested discoveries have been made in connection with the excavations in the ruins of Pompeli. A street leading to the Forum, which was closed at both ends by stone pillars for the purpose of excluding carriages, now proves to have been one of the chief thoroughfares of the city. It is lined with shops, the walls of which show inscriptions and marble tablets which are well preserved. A great quantity of archaeologica! treasures of great historic value have been found and the investigators have gathered up a quantity of petrified fruit and meat, In one shop a large terro cotta kitchen range was discovered on the top of which rested an oval copper boller in perfect condition containing water which the scientists say has been there since the time of the eruption, nearly 2,000 years ago.

To Move Grain Crop.

Ottawa. - The Hon. W. T. White has decided to extend the time the banks are allowed to issue emergency circulation by one month. This new clause in the Bank Act is designed to help in moving the Western grain crop in the fall.

Immigrants For The West.

Winnipeg.-The American Bottlers' rush is daily increasing and the C.N. R. report about 30 settlers per day rate of \$9.30 from Duluth as far west as Canora has gone into effect and the rush, therefore, is much heavier. Settlers' effects also show heavy increases and fifty cars a day are ontering Canada from the south over of many of her gallant sailors, were superintendent of the mission fields the C.N.R. These cars have an av. carried out here, the old battleship

THE SUNDAY SCHOOL

LESSON XIII. FIRST QUARTER, FOR MARCH 31, 1912.

Text of the Lesson, a Comprehensive Quarterly Review-Golden Text, Matt. Iv. 16—Commentary Prepared by Rev. D. M. Steams.

Lesson I.—The birth of John the Bantist foretold (Luke_f, 5-23). Golden Text, Heb. xi, 6, "Without faith it is impossible to please Him." has been truly said that delay in answering prayer is not denial. time had not come until now to answer this prayer. "As for God, His way is perfect" (Ps. xviii, 30). Not 3 the affliction of Zacharias because as did not believe. Let us live in the presence of God, like Gabriel, and go forth from Him.

Lesson II.—The birth of John the Baptist (Luke i, 57-80). Golden Text, Luke i, 68, "Blessed be the Lord God of Israel, for He hath visited and rethis wheat for milling purposes is deemed His people." John the Baptist was to be filled with the Holy Spirit from his birth; Elizabeth was old country millers and it will take filled when Mary came to see her and spoke to her; Zacharias was filled after he had written that the child's name should be John (verses 15, 41, 67). The Spirit always honors God and Christ.

Lesson III.—The birth of Jesus (Luke ii, 1-20). Golden Text, Luke ii. 11, "For unto you is born this slaysing the city of David a Saviour, which is Christ the Lord." A world moved by a royal decree brought Mary to Beth lehem that Scripture might be fulfill ed. Earth cares not-I mean earth's great ones-but all heaven cares and a few lowly ones on the earth. The shepherds believed and acted accordingly and found as told them.

Lesson IV.—The presentation in the temple (Luke ii, 22-39).. Golden Text, Luke ii, 30, 31, R. V., "For mine eyes have seen Thy salvation, which Thou hast prepared before the face of all peoples." The son of a poor woman. so poor that she could bring only the offering appointed for the poorest, and yet recognized by Spirit filled Simeon as the salvation of Jehovah, a light for the nations and the glory of Is-

Lesson V.—The wise men led by the star (Matt. ii, 1-12). Golden Text, Isa. xlv, 22, "Look unto Me and be ye saved all the ends of the earth, for am God, and there is none else." They came to Jerusalem to find and to worship the King of the Jews, and having found Him, they opened their treasures to Him even though He was only a babe in Mary's arms. So all nations will come when He shall be King (Jer. iii, 17).

passover, and yet it was instituted by Him 1,400 years before and is yet to have its complete fulfillment in connection with Israel at His second. coming. We must not suppose, as Mary did, but know with certainty.

Lesson VII.—The ministry of John the Baptist (Luke iii, 7-20). Golden Text. Matt. iil, 2, "Repent ye, for the kingdom of henven is at hand." John was the herald of the Messiah foretold by Isaiah and Malachi, a man great in the sight of the Lord, no greater ever born of woman by ordinary generation, yet, although so faithful, how short his ministry, how strange his end! Let us, like him,

point all to Jesus. Lesson VIII.—The baptism and temptation of Jesus (Mark i 9-11: Matt. iv, 1-11). Golden Text, Heb. ii. 18. "For in that He Himself hath suffered being tempted He is able to succor them that are tempted." Note the submission of Jesus for our sakes, the opened heaven, the Father's voice, the Spirit as a dove. Then see Him conquering the devil by the sword of the Spirit, leaving us an example.

Lesson IX .- The call of the first disciples (Mark i, 14-28). Golden Text, Matt. ix, 37, 38, "The harvest truly is plenteous, but the laborers are few. Pray ye therefore." * * * Remember the six who were gathered unto Him in John i, 35-51. This is another call to four of the six and an lustance of His power over evil spirits. He is ever calling us nearer to Him for service and assuring us of His at power on our behalf.

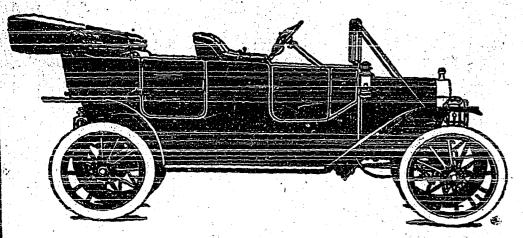

Lesson X .- Jesus the healer (Mark 29-45). Golden Text, Matt. viii, 17, "Himself took our infirmities and pare our sicknesses." The healing of fever and leprosy with a touch or a word and all manner of disease just as easily gives us an idea of the kingdom where the inhabitant shall not say, I am sick. This kingdom was at hand when Jesus Christ was here, but has been postponed till His return.

Lesson XI.—The paralytic forgiven and healed (Mark II, 1-12). Golden Text, Ps. cill, 2, 3, "Bless the Lord, O my soul, and forget not all His benefits who forgiveth, * * * eth." * *. * The faith of the four friends amply rewarded, the faultfinding Pharisees rebuked and the sick man healed in body and soul. See the main thing is to come to Josus; it does not matter how-through the roof or any other way.

Lesson XII.—Feasting and fasting (Mark il, 13-22). Golden Text, Mark ii, 17, "I came not to call the righte-ous, but sinners." Let it stand out in large letters that "this man receiveth sinners." Publicans and harlots are welcome if penitent; while solf righteous people cannot be received. There must be a new birth before there can be a new life; no patching up the old with a bit of the now, but new all through.

Final Chapter in Tragedy of Maine 'Havana.—Solema funeral rites.connected with the sinking of the battleship Maine and with the carrying to their last resting place of the bodies
