

THE CRESTON REVIEW

VOL. XI.

CRESTON, B. C., FRIDAY, AUGUST 29, 1919

No. 29

Soldiers Like Land at Creston

Victoria, Aug. 28.—Splendid progress is being made in connection with the Provincial Government's plan for co-operative soldier settlement, according to a statement made by Hon. E. D. Barrow, minister of agriculture, this morning. The new settlement near Creston is rapidly filling up and seventy returned soldiers are now engaged there in land clearing. Camp Lister, named in honor of Colonel Fred Lister, C.M.G., D.S.O., M.C., superintendent in charge, is already a flourishing colony. Ten of the veterans are settled in temporary homes and there are twenty children in the settlement.

A mess-house, seating sixty men, is in use. This is being enlarged to accommodate ninety. One large and several small bunk-houses provide sleeping quarters, while another bunk-house will be completed this week. The veterans already in the camp have thirty-six children, and Inspector F. G. Calvert is arranging for school accommodations for the opening of the fall term.

According to plans outlined by M. H. Nelems, chairman of the Provincial Land Settlement Board, the farms at Camp Lister will average twenty acres in extent. Five acres on each farm are being cleared and the total area included in the project is 7000 acres in extent. Part of this acreage has already been completely taken over, while the balance will be secured next year.

The veterans are paid \$4 per day wages for an eight-hour day. They pay \$1.20 per day for board and themselves state that there are no better fed workers in the province. They have a new co-operative store with prices lower than those of the coast cities, and every assistance is given them in bringing in their families and household furniture.

The lands will be utilized for fruit growing and mixed farming. Irrigation is not needed in the district, although better results are secured where irrigation has been undertaken.

Sirdar

Geo. Brown of Cranbrook is here in charge of the B. & B. Crew in the absence of an eastern trip of Sid McCabe. Mrs. Brown accompanies him, and is much taken with Sirdar as a summer home.

Mr. Roy of the yard engine crew is spending a few days with his family at Cranbrook, his place being taken by Mr. Russell.

Mr. and Mrs. Heap of Lethbridge, Alta., are visitors here for a few days with the latter's sister, Mrs. Grundy, at the boarding house.

Miss Violet Chambers, who has been at Proctor for some weeks, is a guest of Mrs. Cum for a few days, en route to Cranbrook.

Mrs. Jones of Kuskanook was through on Saturday on a trip to Creston for the lay permit necessary before laying out can be started this year.

Sirdar appreciates a Sunday evening service. Rev. J. S. Mahood was here for church on Sunday night, and was favored with the largest congregation Sirdar has seen in years.

Miss Barnes of Michel, who with a couple of nieces has been a guest of Mrs. Grundy, returned home last week.

Erickson is about three days late to

have any claim on early tomato shipping this year. They had a couple of crates out on July 28th, whereas the Arthur North ranch had a shipment almost a dozen crates as early as July 25th.

Bob Skinner was a Creston caller between trains on Friday, and reports an exciting couple of hours sojourn at the metropolis.

Mrs. Tuohy made the trip to Cranbrook on Saturday to bring home the two children, who had been holidaying there while Mr. and Mrs. Tuohy were on a two weeks trip to coast points.

The annual school meeting was held on Saturday night, with George Cam presiding, and a fairly good turnout present. Mr. Cam was elected to the trustee board, with W. D. Tuohy selected as secretary, and P. Lombardo as auditor.

W. H. Morris is still on vacation, which he is enjoying in the company of his friend Leonard Burton. On his tour he has had a look over the big smelting works at Trail.

Mayor Daly is quite the busiest man in our city these days. Between his labor preparing the address of welcome to the Prince of Wales, and conferences with Mayor Cameron of Cranbrook as to the correct department on such occasions, etc., Mr. Daly has little time even to discuss the new Liberal leader and the equally new party platform.

Alice Siding

Messrs. Ambrose and Wright of Pincher Creek, Alta., were visitors here this week, with Morgan Long. They are looking up Valley ranchers in an effort to purchase a few carloads of apples this year.

R. Stewart got back on Wednesday from a couple of days business visit at Nelson.

John Barraclough is enjoying the high life at Creston for a couple of weeks—assisting at the butcher shop while Manager Johnson is on vacation.

Dr. Henderson had a hurried call here about midnight, Wednesday, to attend Mrs. Matthews, who was taken suddenly and seriously ill, but was resting easier on Thursday morning.

School is due to re-open on Tuesday but so far the trustees have not been able to secure a man teacher to take charge.

Haying operations occupy the attention of local ranchers these days. A little of that blazing hot weather of early August would be, in part, welcome just now to cure the hay more rapidly.

Mr. and Mrs. Heap, who have been holidaying at Nelson, are back with Mr. and Mrs. Simister, and will return to Lethbridge the latter part of the week.

Guy Constable had his motor launch in commission this week on a tow of lumber down the Kootenay to a point at Duck Creek. The building material will be used by Huscroft brothers who have a hay-cutting contract with the Stockbreeders Association on the meadows there.

Morgan Pease left last week for Duck Creek, where he has tackled the job of firing the two boilers in the Winlaw mill.

Congratulations are extended Mr. and Mrs. Plass (nee Jean Smith), of Sibbald, Alta., on the arrival of a daughter on August 26th.

Teenie, the young daughter of Mr. and Mrs. Bohlke, met with a very painful accident on Friday afternoon last. While sitting in the rig which was standing in the Stace Smith orchard, the horse suddenly bolted and in its mad race through the orchard the girl was hurled from the buggy, sustaining three broken bones of the right arm, as well as being badly cut about the face and shaken internally. When picked up her body seemed lifeless. Dr. Henderson was immediately summoned and at present the patient is coming along as well as could be expected.

In framing the Fruit Marks Act no provision was made that makes it inoperative during dry seasons.

The fact that during ordinary seasons practically every apple reaches marketable size appears to be leading people to think that everything grown should be shipped regardless of size.

It will be most unfortunate if some grower or growers have to appear in court for an infringement of the Act before we realize that there are some apples in the district this season that are not going to grow out of the cull class.

Leaving two or three pounds of worthless stuff out of each box will greatly increase the value of the package and avoid all risk of trouble without causing any material loss to the grower.

CRESTON FRUIT GROWERS UNION, LTD.

Local and Personal

Up to yesterday morning 122 permits have been issued to cut hay on the flats this year, representing a total tonnage of almost 2300 tons. The applications to cut hay show the whites to be the owners of almost 2000 head of cattle, almost 400 horses, and nearly 300 sheep.

Haying operations commenced on the flats on Monday morning. So far the weather has not been exactly ideal. While there has been no rain the heavy pall of smoke that overhangs the Valley is not giving the sun its usual good chance to cure the hay as rapidly as in other years.

Christ Church congregation combined the annual Sunday school picnic with a reception to the several newcomers to town who are of Angliean persuasion on Wednesday afternoon last, at the spacious grounds at the Chas Moore residence. A thoroughly social afternoon was spent by all.

The Creston-Erickson baseball team was at Porthill on Sunday for the third of a series of matches and were again victorious, this time by the most exciting score of the lot, 16 to 10. The Porthill team has been considerably strengthened and will possibly be here on fair day for a match with the locals.

Engineer Hodsdon, who has been on the Creston-Arrow Creek irrigation system survey for the past month, finished the work at the end of the week, returning to Nelson on Saturday. It is expected a full report on the project, including cost of putting the water on an area of 2000 acres, will be available before the first of the year.

Messrs. Hendren and J. P. Johnston have about completed the transfer of the McPeak store from Rice Ave. to its new location on the lot between the Bank of Commerce and Bevan's garage. Considerable mystery surrounds the purpose for which it is utilized, as well as to who are the owners. So far as we can learn a hardware and furniture store will be opened out in it as soon as it is fitted up properly.

Word has just been received that Alex. Smith, who was vice-principal of the Creston school last term, has just been selected to take charge of West Vancouver public school, at an initial salary of \$1000 a year. His host of friends here congratulate him on such an excellent appointment at such a satisfactory stipend. He has disposed of his household effects here to Mr. Coop, who occupies his residence.

Another of the local veterans, accompanied by his overseas bride, returned the latter part of the week. The couple are Sgt. Stanley Watson and wife. Sgt. Watson saw about the hardest campaigning of all the Valley soldiers, having joined up in November, 1914, and save for the time he was off duty on account of wounds he was in the fighting well into 1918. They are with his parents, Mr. and Mrs. W. S. Watson, and will probably make their permanent home in Creston.

The home of Mr. and Mrs. Thos.

Baines was the scene of a very pretty wedding on Monday afternoon, when their daughter (Mrs.) Mary Ross was united in marriage with James A. Crabbe of Trail, Rey. J. S. Mahood officiating, the happy event being witnessed by a small company of friends of the contracting parties. The couple were unattended, the bride's costume being of white voile, and carrying a shower bouquet of white asters. A buffet luncheon was served after the ceremony, Mr. and Mrs. Crabbe leaving the following day for their future home at Trail. The popularity of the bride was splendidly evidenced in the many useful presents received, and the best wishes that are extended for long and happy wedded life.

Canyon City

Mr. and Mrs. Guy Browell, who have at Nanton, Alta., for the past few months, have returned to Canyon and expect to remain for the winter.

Mrs. Rice, wife of Lieut. Rice, who is in charge of the surveying at the soldier settlement area, left this week to spend a holiday with friends at Vancouver.

Land clearing on a large scale will shortly be under way at the soldier settlement. A car of stumping powder arrived at the siding for the Land Settlement Board last week.

Residents will be pleased to hear that Methodist Church services are to be resumed here on Sunday afternoon Sept. 7th, at the usual hour. It is almost five months since worship was conducted at Canyon.

A phone has just been installed at the residence of A. D. Pochin, which will expedite matters in connection with the auto livery business he is now into.

C. Blair recruited his haying crew the latter part of the week and is now busy at cutting operations at the Reclamation Farm. Mrs. Blair will join him in a few days.

The local telephone line is now extended over to Camp Lister, where we understand three telephones are being installed at different points of operation.

With quite heavy incoming freight shipments for the soldier work and a heavy export of lumber from the mill, the need of a resident station agent at Canyon is becoming more and more urgent. Both the government and the company are pushing the matter with the C.P.R. and the locating of a permanent station master may be looked for very shortly.

A Noted Visitor

Rev. R. G. MacBeth of St. Paul's Presbyterian Church, Vancouver, was a visitor to Creston on Friday last, and was shown over the Valley by auto by board of trade members covering the territory from Canyon to Wynndel. Mr. MacBeth is widely known, not only as a preacher and lecturer, but as a writer of books, and for the press. He has been all his life closely identified with the West, and his latest book, "The Romance of Western Canada," being a first-hand history of the West from the earliest days to the present, is looked upon by educationalists and others as the best book published on the subject. Mr. MacBeth has generally employed his church vacations in travel and writing on various parts of the country. About three years ago he travelled through the Peace River country and wrote a booklet on the subject which was distributed throughout the country and attracted many settlers. His present tour is to gather material for a booklet on British Columbia as a field for the soldier on the land. It has already been ordered by thousands for distribution on this continent and overseas. Mr. MacBeth was a lawyer before entering the ministry and when a student saw active service as a soldier. Born and brought up on a farm he knows by experience and travel the needs of the settlers, and he writes independently for their guidance.

W.I. Lawn Social Will Net \$125

The lawn social given at the home of Mrs. Geo. Cartwright, Erickson, on Wednesday night by Creston Women's Institute was a decided financial as well as social success, the attendance from Erickson as well as Creston being large, the crowd from Creston having easy access to the grounds due to a free auto service, which was available both ways afternoon and evening, thanks to the generosity of members of the Auto Association who placed their cars at the ladies' disposal for the event. There was a good line of amusements throughout, while the recently reorganized Creston band supplied music during the evening. W. H. Crawford was the winner of a pair of ducks, and Dr. Henderson captured the pair of chickens, both of which were raffled during the night, netting the institute in the neighborhood of \$40. In addition to throwing the grounds open the house was also available for dancing, a feature of the affair which the young people thoroughly appreciated. After paying all expenses it is expected that at least \$125 will be left, and the total net proceeds will be turned over to the building fund of the fall fair association. No better spot in the Valley could be found for a function of this nature, and the generosity of Mr. and Mrs. Cartwright in allowing the use of the house and grounds, to say nothing of the work the social imposed on them at this busy season, is fully appreciated by all.

Erickson

H. Brownrigg has been admitted to the select circle of auto owners in the Erickson district. His car is a Ford, which he brought in from Cranbrook a few days ago.

Mrs. E. Cartwright spent a few days with Cranbrook friends the fore part of the week.

The union Sunday school had their first annual picnic at the bathing beach at bridge on Wednesday of last week. There was a good turnout of both scholars and parents, and a most enjoyable time was had.

Truscott Bros. last week unloaded the grading machine that they are using this year in their apple packing operations. So far they have contracted to handle the output of a number of orchards in this section.

The surplus of apples at the Attwood ranch will not go to waste this year. Mr. Attwood having last week purchased a cider making machine that will readily turn them into a high grade thirst quencher.

E. A. Penson has this week had the telephone installed in his residence at the ranch here.

Mrs. Boffey, who has been rather seriously sick since the early part of the month, is now on the highway to her former good health, and will shortly be around again in usual.

J. M. Craigie last week closed the deal for the purchase of ten acres of what is known as the old orchard on the Duperre ranch. In addition to enlarging his apple production the area will provide him with an entrance to his place from both roads.

The lawn party at the grounds of G. Cartwright on Wednesday night again demonstrated that Erickson is the spot for affairs of that sort. The entertainment was under Women's Institute auspices for the benefit of the fall fair and attracted a very large crowd, the gross intake being in the neighborhood of \$125.

MAGIC BAKING POWDER

Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

Lord Grey Likely.

London. — Viscount Grey of Fal-loden, who retired as head of the British foreign office in 1916, it is understood, is likely to accept the post of British ambassador to the United States.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Some women marry for love, some for a home and a few to spite the other woman.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infestation are removed, and satisfactory growth is assured.

All That Is Necessary.

Prices of food have fallen 50 per cent. in Germany. You can buy a ham for \$1.25 if you have the money and want it.

It is usually the best and make the most of it, and get some relief in the case of Hollister's Corn Cure.

It is usually the best and make the most of it, and get some relief in the case of Hollister's Corn Cure.

German Trade Disappointing

Unsafe To Dispatch Merchandise Without Payment in Cash.

London. — The wireless press Copenhagen correspondent writes that great hopes have been entertained in many quarters in Denmark since the armistice of a new period of enrichment through the resumption of trade with Germany, but that it is becoming evident that these hopes must be disappointing.

It is now realized that owing to Germany's critical financial position, it is highly unsafe to dispatch large quantities of merchandise to that country without payment in cash, and as this condition is rarely complied with very little business is being done. Meanwhile great satisfaction is expressed in Danish newspapers with the reported intention to establish a French Chamber of Commerce at Copenhagen.

Minard's Liniment Cures Diphtheria.

Montreal As A Port

Handles Ocean Traffic Greater Than Any American City Except New York.

It may surprise some readers to learn that for the seven months or so during which it is open the port of Montreal handles ocean traffic greater than that of any American city except New York. Its tonnage is also steadily increasing and better methods of ice breaking have extended its season. It has strategic advantages similar to our own in being a railroad terminus and central distributing point for trade converging from a vast territory.

And Canada is alive to its great importance. The Dominion government co-operates liberally with local enterprise. Recently \$28,000,000 has been spent on terminals, dredging, docks and other things necessary to security. The department of marine is at work deepening the St. Lawrence to thirty-five feet to the sea, and the channel should be complete in a short time.

They not only talk about things, but do them, and do them well. It is another example for our congressmen to ponder, as well as an incentive to our own activity.—New York Sun.

Wireless to Bermuda.

Ottawa. — The department of the naval service announces the inauguration of a commercial wireless service between Canada and Bermuda. It has been established between the Canadian radio telegraph station at Barrington Passage, N.S., and the British government station at Bermuda, and is open for public service.

Proverbs are but the offspring of practical experience.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying the best of remedies—Mother Graves' Worm Expeller.

General Byng for Canada

Now that the Duke of Devonshire's tenure of office as Governor-General of Canada is coming to a close, Canadians are turning their thoughts to the selection of a successor. There is a growing feeling, I hear, that the choice should fall on General Sir Julian Byng, who as Commander of the Canadian Corps endeared himself to all Canadians. London Evening Standard.

Chinese Boycott Japanese Goods

Evidently Giving Japan Cause For Pretty Serious Thought.

One of the very interesting things happening just now in the world is the indignant boycott of Japanese goods by the Chinese people, a form of protest which is evidently giving Japan cause for pretty serious thought. So long as the wisdom of China maintains a peaceful boycott there is, seemingly, little that Japan can do but meditate on the fact that about 75 per cent. of her exports go normally to China, and wonder how long China will stick. Meantime the Chinese newspapers counsel the public against any action that can be construed as a departure from this peaceful procedure, and in nearly all the advertisements of Chinese merchants appears the phrase, "We sell no Japanese goods." A peaceful boycott might be called a cautious kind of revolution, and, as once said Confucius, "The cautious seldom err."—Christian Science Monitor.

Nothing Like It For Bronchitis And Weak Throat

Remarkable Cures in the Worst Cases Reported Daily.

Cures Without Using Drugs.

Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach dosing is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks. This soothing vapor is full of germ-destroying substances, and at the same time is a powerful healing agent. It is sent to the bronchial tubes and lungs through a skillfully devised inhaler that can be carried in the vest pocket. Simplicity itself is the keynote of this splendid treatment.

CATARRHOZONE is the name of this wonderful invention that is daily curing chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs, it can't fail to cure because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. Catarrhozone is a direct breathable scientific cure.

There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Catarrhozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and cost \$1.00 and is guaranteed; small size 50c, sample size 25c, all storekeepers and druggists, or the Catarrhozone Co., Kingston, Canada.

Poverty is no disgrace, but it's a mighty good excuse for heading off a borrower.

If a man is your friend he doesn't have to tell you so.

MURDERED.

Put right out of business, a whole family of corns by Putnam's Corn Extractor, which cures corns and warts in one day. No pain or sore if "Putnam's" is used. Refuse substitutes, 25c. per bottle at all dealers.

Independence Is Real

South Africa Gains Advantage Through Being of British Empire.

London. — The Times' Capetown correspondent quotes the Cape Times' comment on Lord Milner's Oxford speech when his lordship emphasized the position of independence of the dominions within the league of nations.

"The independence which South Africa has gained," says the Cape Times, "is a real and tangible thing and it owes its being to the existence of the link with the British Empire. The independence for which some very liberal and intangible and can never be severed from the realizable world and South Africa short of the capacity to develop and ruinously handicapped in the struggles ahead."

A man thinks that there is only one man in the world whose whistling is not a nuisance.

Cool Comfort

It's Sunday morning—blazing hot, and pretty near a whole day before you for rest and recreation.

First, then—a shave. Whether you are going for a spin in the car, taking the family to church or visiting a neighbour, you cannot go with a day's growth of beard on your chin.

The thought of shaving won't be irksome if you own a Gillette Safety Razor—rather, you think of five minutes' cool comfort with the highest type of shaving edge ever developed. No man in the world can command a keener blade than the one you slip into your Gillette.

And if Gillette shaving gives you an added joy to your Sunday, why not take five minutes every morning for a clean shave as the start for a better day's work.

For \$5.00—the price of the Gillette Safety Razor—you have your choice of the Standard Gillette sets, the Pocket Edition sets (just as perfect, but more compact), and the Bulldog Gillette with the stocky grip. Ask to see them TODAY at the jewellers', druggists' or hardware dealers.

War Saving Stamps Are Selling Well

Campaign in Canada Is Progressing Most Favorably.

That the War Savings Stamp Campaign in Canada is progressing most favorably is shown by comparing the per capita sales for the month of May, against those for the same period in the United States. In Canada during the month of May the per capita sales amounted to .054 while in the United States they were .06.

Considering that in the United States the War Savings Stamp Campaign commenced one year in advance of the campaign in Canada and that our American cousins had the stimulus of war propaganda for about a year to introduce the Thrift Stamps, the comparison is very favorable to this country.

Minard's Liniment Cures Colds, Etc.

To Him Who Waits.

Stranger: Can I get a drink in this town?

Stranger: About how long?

Native: Why, until Congress changes the Constitution again.

Shah Gets Out of Persia.

Paris. — The Shah of Persia with a suite of twenty, will leave Teheran for Switzerland, it is learned here. Forouz Kahn has been appointed minister of foreign affairs of Persia, succeeding Mochafer El Mulk, who has been named minister at Rome.

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

While the fool takes things as they come, the wise guy goes after what he wants.

Farmers Give Opinion Before Wheat Board

Winnipeg. — The Canadian wheat board says it hopes to be in a position to make public the plans and regulations for the handling of the 1919 wheat crop some time this week.

"In the meantime," the board says in its statement, "in order to obviate undue hardship to the producer, the Canadian wheat board suggests that, temporarily, farmers should deliver their wheat to the elevators and obtain storage tickets therefor. The elevator companies or banks will undoubtedly make satisfactory advances against these storage tickets. When later the regulations and methods in connection with the pooling system are known, the farmers can convert the storage tickets issued by the elevator companies into cash tickets and secure the initial payment, as fixed by the board, and receipts enabling them to obtain participation certificates at a later date."

What might be construed as a veiled threat on the part of the farmers to go on strike if the government fixes the initial price of wheat at anything less than the \$2.26 guaranteed by the United States to its producers, was made by J. K. McLennan, representing the United Farmers of Ontario, at the open session of the Canadian Wheat board in the Winnipeg Grain Exchange.

"We are facing a short crop," he said. "If the \$1.75 initial price rules, we may find the crop returns still shorter. Strikes are popular and the farmers might be inclined to catch on. The farmers are cross already."

The board room was packed to the doors with the representatives of various interests, including millers, bakers, consumers, farmers, grain growers and board officials. James Stewart, chairman of the board, presided. The meeting was called for the purpose of ascertaining the will of those interested in the handling

and marketing of the 1919 grain crop of Canada, as well as that of the general public.

Other outstanding features of the meeting were:

An emphatic denial from the chairman that the initial price had been fixed by the government at \$1.75; he declared that such a price had not even been considered.

A resolution from grain growers of Little Souris strongly condemning and denouncing the scheme as impracticable and unsound economics and demanding that if the government is determined to handle the 1919 wheat crop that the same price as last year be set.

A violent attack on ocean freight rates by J. K. McLennan. He declared it now costs 60 cents to get a bushel of wheat across the Atlantic, in comparison with six cents for previous years. Eighteen cents was the highest figure justifiable, he declared.

A further statement was made by Mr. McLennan that "there are heavy millers, big grain men and freight men in this country who are taking advantage of their positions to rake in big sums of money."

An insistent demand was made by almost all speakers that if an open market is denied the farmers and the government plan of handling the wheat is carried out, that the initial price be not made less than that of \$2.26, now ruling in the United States.

J. R. Murray, of the United Grain Growers, thought the only way to arrive at a fair price for the farmers was to give them the prices obtaining on the open world market. Otherwise nothing less than the \$2.26 of the United States should be set. If the consumer must have cheap bread, he added, in fairness let it come through a government bonus rather than at the expense of the farmers.

Taking Some Action In U. S.

Grocer Fined \$500 For Selling Sugar At 15 Cents Per Pound.

Washington. — Important new developments in the government's fight to reduce the high cost of living have now been made public.

One of the most interesting was the announcement by Attorney-General Palmer that the first federal conviction for profiteering had been obtained. District Attorney Lucey telegraphed from Binghamton, N.Y., that a retail grocer had been fined \$500 for selling sugar at 15 cents a pound. No details were given and the law under which the case was brought was not known here.

"A few good cases of profiteering in each state will settle that trouble," Mr. Palmer remarked. In order to bring to book persons guilty of raising prices exorbitantly or hoarding food to advance prices, Mr. Palmer submitted to the agricultural committees of congress the draft of an amendment to the Food Control act extending its provisions to clothing and containers of foods and feeds, and providing a penalty of \$5,000 fine or two years' imprisonment or both for violation of the law.

To Prosecute Bela Kun.

Copenhagen. — The Hungarian public prosecutor has issued an announcement that proceedings will be begun against all individuals charged with crimes during the Bela Kun dictatorship, and that steps have already been taken for their arrest and extradition, according to advices from Budapest.

Another announcement says that it is intended to prosecute Bela Kun and his associates for murder, robbery and forgery.

To Combat High Cost of Living.

Winnipeg. — Concerted action by all military and labor organizations in a fight for the reduction of the high cost of living was suggested in a letter from the Order of Railway Conductors, division 604, considered at a meeting of the Army and Navy Veterans' association executive. The suggestion was unanimously adopted, and a committee was appointed to operate.

Must Leave Dominion

Schoppelrei Ordered Deported By the Immigration Board of Inquiry.

Winnipeg. — Oscar Schoppelrei, branded as an undesirable alien, and ordered deported by the immigration board of inquiry, must leave Canada. The Manitoba court of appeal refused to grant an application made by counsel in Schoppelrei's behalf that the deportation order be annulled and all proceedings quashed.

The high court in its written judgment found that the order for Schoppelrei's deportation was based on two grounds: first, that he had come into the country by misrepresentation; and secondly, that he had refused to answer certain questions put to him by officials. Their lordships pointed out that under section 23 of the immigration act they had no jurisdiction to interfere.

Six Months On Ice Floe.

Edmonton. — Six months adrift on an ice floe in the Arctic sea, cut off from all civilisation by miles of deep water, such was the experience of Storker T. Storkersen who arrived in the city last night from the great northern wastes. Observations of great scientific value were made while the party was on the ice floe, but these will not be fully discussed until Storkersen meets his chief, Steffanssen in Banff next Saturday and prepares his full report.

Conference of Brewers.

Atlantic City, N. J. — Believing that a revulsion of feeling against prohibition can be concentrated for the repeal of the liquor statutes, the brewers of the nation have called a big conference here for September 28. The meeting will continue a week.

On a Little Visit.

Berlin. — With the permission of the Dutch government, the former German crown prince has just spent several days with his wife and children at Soden, Prussia, and accompanied them part of the way back to Potsdam, according to the Lokal Anzeiger. The newspaper adds that Frederick William has now returned to Holland.

Allied Success In North Russia

Good News of Contest With the Bolsheviks on Russian Front.

London. — Six Bolshevik battalions were destroyed in a successful Anglo-Russian attack on the Dvina river on August 10, the war office has announced. More than 1,000 prisoners, 12 field guns and many machine guns were captured. The Anglo-Russian front on the Dvina was pushed forward 12 miles. The official statement reads:

"In North Russia, Anglo-Russian troops, on August 10, attacked the Bolshevik forces on the Dvina with great success. All the objectives were gained. Six enemy battalions were destroyed, the troops being either killed, captured or dispersed. More than 1,000 prisoners, 12 field guns and many machine guns were captured. Our line on the Dvina was advanced 12 miles to Thadema and Borok."

Curb Profiteering In Britain

Amendment Passed British House Empowering the Board of Trade To Fix Prices.

London. — The house of commons, after heated debate, adopted an amendment to the profiteering bill, empowering the board of trade, after an investigation, to fix wholesale and retail prices. The vote was 132 to 95.

The amendment was denounced, among others, by Lord Robert Cecil, former minister of war trade, who expressed amazement that the government should accept an amendment destroying the whole basis of the bill and revolutionizing the trade of the country. Sir Donald Maclean, a Liberal member, also denounced the amendment, characterizing it as "rank socialism of the most muddled kind."

In the course of the discussion on the bill, Sir Auckland Geddes, minister for national service and reconstruction, indicated that the bill would empower the board of trade to fix prices in a case where the community was likely to be bled by any combination, national or international, for the purpose of increasing prices. An amendment seeking to include profiteering in rentals within the scope of the bill was rejected.

Ferdinand's Millions

Seizure of Securities Will Not Altogether Ruin the Ex-Monarch.

Geneva. — The seizure in England of securities belonging to former King Ferdinand of Bulgaria, valued at \$2,000,000, will not altogether ruin the ex-monarch, according to reliable information obtained here.

It is said that Ferdinand toward the end of 1914 took the precaution of placing his fortune abroad, mostly in neutral countries, Swiss banks, for instance, are said to hold stocks and bonds belonging to Ferdinand, valued at nearly a million pounds sterling.

Large sums were also placed in Hungary where Ferdinand is now a fugitive with his family.

Prince's Visit to U. S. Is Uncertain.

Ottawa. — Nothing is known as yet at the capital as to when the Prince of Wales is likely to visit the United States or the duration of his stay in that country. No decision will be reached in regard to the matter until later, but it is certain that the prince cannot leave Canada until the conclusion of his Canadian tour.

"Bavarian Free State."

Copenhagen. — A despatch from Bamberg, under date of Tuesday, says that the Bavarian diet has adopted a constitution for the "Bavarian free state." There were three dissenting votes. A Socialist amendment to the constitution, abolishing all titles of nobility, was rejected.

Deserting One Big Union.

Vancouver, B.C. — Important desertions from the local ranks of the One Big Union took place here when the local unions of the international longshoremen, the ship workers and the pressmen and press feeders voted to resign from the One Big Union.

Board To Deal With High Cost Of Living

Ottawa. — The Canadian board of commerce has been officially constituted, with Judge H. A. Robson, of Winnipeg, as chairman, and W. F. O'Connor, K.C., former cost of living commissioner, as second member, and these two gentlemen have had a conference with the government and have already started work. Judge Robson has arrived in Ottawa and shortly afterward met members of the government. The third member of the board, it is expected, will be named within a couple of days.

The board will act under the Combines and Fair Prices act and is given power to institute investigations on its own motion or at the request of ministers or other responsible persons bringing matters to the notice of the board.

When seen by the Canadian Press, limited, Judge Robson was emphatic in his statement that there would be no fuss and formalities attached to the working of the board. "This is to be a people's court," he declared, "and to be so it must be easy to approach. Any bona fide citizen who

has a just cause for complaint will find us ready to give him a hearing and we will get down to work just as soon as possible."

The chairman of the new board stated, however, that the board would of necessity investigate the facts behind a complaint before holding sittings at any point. This was necessary, he stated, because the board has jurisdiction from coast to coast, and a complaint might take them from Halifax to Vancouver on a wild goose chase if it were only made because of some man's theory.

The two members of the new body had a long conference and will be together most of the time during the next few days drawing up simple rules of procedure and getting together the necessary small staff and office organization for their work. Judge Robson expects to return to Winnipeg within a short time to finish his work as chairman of the royal commission investigating the recent strike disorders there, but will be back in Ottawa again within a very short time.

To Aid Admiral Kolchak

Material Is Being Rushed to Vladivostok By the United States.

Washington. — Material aid for Admiral Kolchak's retreating army in Siberia is being rushed to Vladivostok by the United States. It was said officially, that 45,000 rifles and several million rounds of ammunition already had been sent from San Francisco, and that additional equipment would go forward this week on an army transport.

The amount of material ordered to Siberia was not disclosed but was said to be "very large" and to include motor vehicles and medical supplies, as well as rifles and ammunition.

The original consignment was materially increased after the recent reverse of Kolchak's army, it was said.

Serbia A Country Of Orphans

Invasion Carried Half a Million Children From Parents.

Belgrade. — The war has made Serbia a country of orphans. There are 200,000 who lost both their parents, and 300,000 more who lost one parent, according to statistics compiled by Red Cross workers from records in the Serbian educational department. Some towns of 10,000 inhabitants have between 2,000 and 3,000 orphans.

The occupation of Serbia for three years by the enemy and the subsequent deportations, combined with the great retreat in 1915, which carried half a million children in its wake, separated numberless children from their parents.

Feeding 20,000 Children.

Paris. — The American relief administration began the task of feeding 20,000 children in Budapest as part of its plan to give food to the children of Central Europe, it was announced. It was said this did not involve a general relaxation of the food blockade against Hungary.

A Vienna despatch received from London announced the Allies had lifted the blockade against Hungary, but there has been no formal announcement of this by the supreme council.

Hungary Seeks Loan.

Berlin. — A group of Hungarian banks will attempt to negotiate a loan for the new government at Budapest, according to despatches received here, the government having been unable to borrow the 1,500,000 crowns sought from Austro-Hungarian banks.

Rome. — The Italian troops attached to the allied expeditionary force in northern Russia left Murmansk on August 9. The Italian military commission accompanied the troops.

British Ambassador To U. S.

Viscount Grey Has Accepted the New Post Temporarily.

London. — Viscount Grey, former British secretary of state for foreign affairs, has agreed to represent the British government at Washington, pending the appointment of a permanent ambassador.

Viscount Grey of Falloden (Sir Edward Grey) comes to the United States to represent the British government after a brilliant career as head of the British foreign office. For eleven years, momentous in the political affairs of Europe, he was secretary of state for foreign affairs, from December 11, 1905, to December 11, 1916. Owing to several occasions during that period, it was the initiative of Sir Edward Grey that caused the gathering clouds of war to disappear. It was he who made the last effort to prevent the great European war when he urged the ambassadors of the leading powers to meet and discuss the situation in an attempt to put off hostilities. His effort failed through the attitude of the German government and the German emperor.

Gladstone, under whom Sir Edward served in his younger days, described him thus:

"I never knew in a man such aptitude for political life and such disinclination for it."

Since his retirement from the foreign office, Viscount Grey has been living in retirement in Northumberland. The new ambassador's eyes began to trouble him in 1918 and at one time it was reported he was totally blind. This report was exaggerated, but the viscount has difficulty in reading, although his eye trouble has improved somewhat.

General Currie Is Defended

Officer Says Criticism for Canadian Losses at Passchendaele Not Warranted.

Kingston, Ont. — Speaking at the banquet tendered to the visiting delegates to the convention of Union of Canadian Municipalities, General Sir Archibald MacDonell, the new commandant of the Royal Military College, defended General Sir Arthur Currie from the criticism levelled at him because of the losses suffered by the Canadians at Passchendaele.

General MacDonell, "the man who took Hill 70," said he was present when Sir Douglas Haig told General Currie to take Passchendaele, and the Canadians took it, after the Australians, New Zealanders and Britishers had failed.

Referring to the Canadian casualties, the speaker said, according to figures recently published, the Canadians suffered the lowest percentage of losses and made the highest percentage of gains.

Another speaker was Mayor Hardie, Lethbridge, who declared for a middle course on the liquor question, neither too wet nor too dry.

CRESTON, B.C., FRIDAY, AUG. 29

Reclamation

Bonniers Ferry Times: There is a good deal of discussion of drainage prospects in certain quarters these days, and there is real reason for it. Those who realize that Kootenai valley land will grow from 50 to 60 bushels of wheat to the acre, see the possibilities of the production when drainage is accomplished, and those who have always held that the surplus water can never be controlled are beginning to understand that possibilities of complete drainage being accomplished are growing greater every day.

The Canadian end of the project is also receiving more and closer attention than heretofore, and the International Drainage committee is gaining attention both in Washington and Ottawa. But there is still another feature to which attention has been called recently and that is that the surplus water in the spring could very readily be taken out at some point above Kootenai Falls and turned into the Pend d'Oreille river, which would largely increase the volume of water which may be used for irrigation purposes in the Big Bend country and possibly reservoirs for use later in the season.

At first thought this plan would seem to be impossible, as Bonniers Ferry is lower in altitude than Spokane. But upon investigation it will be found that there is plenty of difference in the altitude of the two rivers, taking Albany Falls on the Pend d'Oreille as the outlet and some point above Kootenai Falls as the inlet.

These two propositions may be utilized to more fully protect the Kootenai valley than has ever yet been believed to be possible, and their use will greatly lessen the pumping period necessary along the foothill swamps to keep them dry.

It is not a far away plan, either, because there is great activity now on the Big Bend irrigation project and its feasibility has been passed on before this time. The combination of the two projects will make the Clarksfolk and the Kootenai valleys absolutely free from high water danger and their combined overflow will water many thousand acres of arid land in Washington. By the use of reservoirs, which is contemplated, this water may be held till later in the season than the freshest occurs, and thus advance the interests of both the mountain and the sagebrush countries.

LETTERS TO THE EDITOR

Memorial Site

EDITOR REVIEW:

SIR: In reply to many inquiries and to Mr. Pochin's letter in your last issue, as to the choice of a site for the Soldiers' Memorial, the committee would like to state that they have had under consideration several proposals offered and suggested, but have unanimously concluded that the one opposite the Bank of Commerce lends itself more readily to the requirements of the object in view than any other, and that it can be obtained free of cost, so that all the funds collected will be able to be devoted to the monument itself.

The site suggested by Mr. Pochin on examination proved to be near the C.P.R. right of way, and to include the possibility of its being used and as the adjacent main

vantage that it would be entirely overshadowed in the event of the C.P.R. ever extending their lines to their boundary. ROBT. STARK.

NEWS OF KOOTENAYS

Bread is up a cent a loaf at Bonners Ferry.

Revelstoke claims its monthly C.P.R. payroll is almost \$50,000.

The B. C. Telephone Co. is building a new 34 x 26-foot central at Trail.

One firm of milk dealers at Trail has just put a Ford motor truck on its delivery system.

The Imperial Oil Co. announces that it will make Trail a distributing point after October 1st.

Frache Bros. of Grand Forks have a Brown Minorca hen that sometimes lays a six-ounce egg.

The experts claim it will be at least 60 years more before the mines at Rossland are worked out.

Nelson will have a high school teaching staff of seven this term. An attendance of 200 pupils is expected.

The Courier states that tools belonging to government road gangs are being stolen the Cranbrook district.

J. A. Coleman, a Grand Forks grower, has sold 4500 boxes of apples to the T. Eaton Co. at Winnipeg, for which he hopes to get \$7000.

Dr. Vigneux was drowned at Nelson on Friday, after having just successfully rescued a nine year old girl from a watery grave.

The Continental mine at Porthill is now employing 130 men, and is using 12 motor trucks to haul the concentrates to the shipping point.

The G.W.V.A. co-operative store at Vernon has prospect of 300 customers for a starter. \$100,000 initial capital, however, is required to start it.

Chas. Burt, a Arrowhead shingle maker, is claiming the B.C. record, with a showing of over a million shingles for the month of July.

The Presbyterian church at Trail has just been presented with a pulpit bible that was first used in a U.P. church in Scotland as far back as 1874.

At Grand Forks the poundkeeper charges \$1 a head on all animals impounded, with an added charge for the feed the critters consume while impounded.

Penticton has had the hottest summer ever; so hot, in fact, that moving picture theatre has had to install a couple of electric fans to keep the patrons cool.

Cranbrook school board has purchased a Kaustine sanitary toilet, which will be installed forthwith, and will do away with the present array of outdoor closets.

The R.N.W.M.P. at Grand Forks have 35 head of horses in the stables. These will be shipped to other points as the force opens up its work in Kootenay and Boundary.

Cranbrook is on the fruit exporting list this month. Too many gooseberries were grown for local consumption, and the Nelson jam factory is getting the surplus.

The Provincial police at Greenwood last week shipped \$350 worth whiskey to the government vendor at Vancouver. The booze was taken in a raid on a local hotel a few days ago.

Grand Forks will pay its mayor a stipend of \$300 this year, and the aldermen will knock down \$175. Deductions are made if more than two council meetings are missed.

The Ledge points out that if the C.P.R. keeps up the work of dismantling things at Greenwood it will not be long before the town will count itself lucky not to be a flag station.

Kimberley miners are having a day of sports on Labor Day, with \$500 hung up in prizes.

Conservatives, Attention

An open meeting of the Conservatives of Creston Valley will be held in Mercantile Hall, Creston, on Saturday, Aug. 30th, at 8.30 p.m., for the purpose of electing delegates to attend the Provincial convention at Vancouver on Sept. 30th. and to reorganize the Valley Conservative Association.

WATER NOTICE

DIVERSION AND USE.

Take notice that the Canyon Water Users Association, whose address is Erickson, B.C., will apply for a license to take and use 2.5 C.F.S. of water out of Association Creek, which flows westerly and drains into Goat River on Lot 274. The water will be diverted from the stream at a point about a quarter mile due east from S.E. corner S.Q. 142, Blk. 812, and will be used for irrigation and domestic purpose upon the land described as Blk. 812 (northerly portion)—see plan. This notice was posted on the ground on the 9th day of August, 1919. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Nelson. Objection to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within fifty days after the first publication of this notice in a local newspaper.

Creston Valley of Yesterday

By MRS. J. W. DOW.

As daylight was breaking on the morning of March 27th, in the early 90's the steamer Nelson was making its way along the Kootenay River. The scenery on each side was beautiful. About 7 o'clock the captain gave a good, long whistle, and I knew my destination was reached. I was put off on the bank of the river with my luggage. The captain gave two more long whistles—which were to let my husband know that I was on the boat and had been put off.

I watched the boat steam away on her journey up the river to Bonners Ferry, and then discovered I was alone in a strange part of the country, and not a sound to break the stillness of the morning except the singing of the birds. Presently I heard a coo-hoo echoing through the woods, and I knew my husband was on his way down Goat River in a canoe to meet me. While I was waiting to discover what direction the voice came from I took a general survey of the country that was to be my future home.

The morning could hardly have been more ideal; not a cloud in the sky, and the air soft. I found I was in a valley between two ranges of mountains, the Kootenay River being in the centre of the valley at this spot. On the west side of the Kootenay is the Purcell range—part of the famous Selkirk range—and on the flat thousands of acres of grazing land. On the east side, within a few hundred feet of the Kootenay is the Goat River, and this point was called the lower Goat

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces.

Time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 20, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirectly, remitted from settlement to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes on sub-purchasers do not claim whole of original price, sub-purchaser and his heirs may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1913, for systematic development of livestock industry provides for grazing districts and range administration under C.M. Commission.

Annual grazing permits based on number and class of livestock for established owners. Stock-owners may form Associations for range management.

Provision for the issue of permits for hunters, campers or travellers, up to ten head.

River Landing—a well-known landing for prospectors coming in to work their claims on Goat Mountain and the Duck Creek hills.

There were quite a few horses feeding on the flats, and by this time several Indians had arrived to see what I looked like. One was a young fellow named Pascell. He had been married a few days before, his squaw being quite a fine looking young woman. In the distance I saw an Indian beating a horse unmercifully, but Pascell explained the horse had the staggers—a disease caused by eating frozen rushes or joint grass, and they lay down and die, and the Indian was evidently beating him to make the poor beast get up.

By this time my husband had arrived and we got in the canoe and paddled up Goat River to the upper landing. The river was very pretty in those days. The birch and cottonwood on either side were a tremendous height—a great many of them were destroyed in the big windstorm of 1894. Arriving at the upper landing we got out of the canoe, walked across the valley, and crossed the slough in a boat made out of a hollow log. We arrived at our log cabin—in a clearing of a couple of acres slashed ready for burning. The log cabin had a verandah in front, and a birch tree bending over it naturally. We had lots of wild game in those days. There was a dozen willow grouse hanging up under the verandah, and plenty of ducks and geese, and all kinds of fish. There was no lumber to be had, so they split cedar for the window frames, door jams and floor.

We brought all the furniture necessary with us, and that had to be very little because there was no transportation other than the boat I came on—Nelson; our nearest town, 80 miles away. If any of us were ill we had to get well as best we could, or wait till a steamer came along to take us to Nelson. We had to get our mail at Ockanook, an American village, which consisted of a store or two with post office, an hotel and a few houses. We got most of our supplies there. There were no roads in the country, so we had to use pack horses. It meant a day's journey to go there and back, and very often would have to cut the trail out after a windstorm. During high water the trip was made by boat or canoe.

If anyone came from the lake district here the captain would give three long whistles to let us know someone was put off or that supplies were left, and it was up to the people themselves if they got them or not. You might wonder how we came to know about this country. My husband came through the valley with a timber cruising party and liked the part so much that he located four ranches of 160 acres each; one where we have our present home; one for Mr. Little, who in time turned it into the present townsite of Creston; 160 acres back of the townsite for a man named Sullivan, who let it drop; and 160 acres back of our place for his brother, but he got tired of waiting for the railway which was to pass through the Valley at some point, and let it drop.

All four men were working at Pilot

Penson & Willson Builders & Contractors

We wish to inform the people of the district that we will be pleased to figure on all kinds of building and carpenter work. Address: Erickson, B.C.

WATER NOTICE

DIVERSION AND USE

Take notice that K. W. Smith (Free Miners Certificate No. 146130), whose address is Porthill, Idaho, will apply for a license to take and use 15 second cubic feet of water out of Priest River which flows in a southerly direction and drains into Munk Creek about 11 miles south. The water will be diverted from the stream at a point about 40 yards from the Government trail crossing and next to the line of timber limit No. 8143 on the west, and will be used for mining power purposes on the Government land described as Crown land between timber limit No. 8136 and 8143.

This notice was posted on the ground on the 1st day of August, 1919, and a copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Nelson, B.C. Objections to the application may be filed with the Water Recorder or the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after appearance of this notice in a local newspaper. The date of the first publication of this notice is August 15th, 1919.

K. W. SMITH, Applicant.

Bay. Mr. Little knew he was coming, to be superintendent of the dyke of the Kootenay Flats, so asked Mr. Dow to locate a ranch for him. The following spring they all came up and built the two log cabins that originally stood on the ranches. The first summer I spent my time out in the boat, and in the evenings used to watch the huge piles of logs burn. Wild fruit being very plentiful we used to go to the woods to gather it, and thought we were away in the wilds if we went as far as the site of the present school. Mosquitoes were our greatest pests.

I remember going to Spokane the summer of '93, and fortunately did not have to wait long for the steamer Idaho to come along. The woods and flats were covered with snakes and lizards, and the mosquitoes would drive you mad while waiting on the bank of the river. Often, if we wanted to go to Nelson it was nothing to go over to the bank of the river and wait all day for the steamer to come along. We never knew when it was coming until it whistled.

When my husband and I were coming home from Spokane in the fall of '93 we came on the old Alberta, and as we were nearing Goat River Landing a lady on the boat said to me, "What god forsaken place are you getting off at," and when we saw the bank of the river filled with Indians—men, women and children—and it pouring with rain, it certainly did not look inviting. I told her they had come to welcome me back and to see what my baby boy looked like.

I was very pleased to find when I got home again that Mr. and Mrs. Arrowsmith had moved over from the river to their ranch on this side of the valley. As I was very fond of children we had some good times together that winter coasting down the hills on the flat toboggans the men had made for us. Wild animals were plentiful; lots of coyotes and wildcats. On bright, moonlight nights in the fall and winter one coyote would start to howl and then another and so on till it got quite musical and it was called the "Kootenay band."

I was rather afraid of the Indians when we first came, but on the whole they were very good to us. Father Cocola came in from East Kootenay and converted them to the Roman Catholic faith. He did a great deal of good with them. At first they resented his coming and interfering with their freedom. They used to gamble a great deal. For instance one man might own a herd of horses or cattle one week, and by the next they would be gone. They threatened to kill Father Cocola at first. He stood his

GUARD AGAINST FIRE.

Carelessness Wields the Axe

ground and told them to go ahead and kill him. They were so surprised to think that any man would stand up to be killed they turned around and made a good friend of him. They fairly worshipped him before he left for other fields. He taught them to build houses and barns, to cultivate the land and take better care of the stock, and, above all, to be good to the white people in the valley.

Father Cocola was one of the finest men that ever came into a community. He was just and kind to everyone, and for a long time after he left you could see the effect of his work upon the Indians. The first time I noticed a change in them was when an Indian came and bought a new born calf from us for a dollar, and was to bring the money later when he had it. Some weeks later he came and I asked him for the money, he said, "Calf die." I did not believe him, so I told him he had to pay fifty cents for it, which he did, but just as he got out the gate he

turned back and came to me with the other half-dollar, saying, "Here, Mrs. Jack, fifty cents, me keep 'em calf; no man lose." He could not face Father Cocola with a lie on his mind.

[Concluded next week.]

Chollie: I sent her nineteen beautiful roses on her twenty-seventh birthday.

HER LITTLE GIRL HAD DYSENTERY

Bowels Moved as Many as 25 Times a Day.

Dysentery manifests itself with varying degrees of intensity, but in well marked cases the attack is commonly preceded by some amount of diarrhoea, which gradually increases in severity, and is accompanied with griping pains in the abdomen. The discharges from the bowels succeed each other with great frequency, and the matter passed from the bowels, which at first resemble those of ordinary diarrhoea soon change their character, becoming scanty, mucous or slimy, and subsequently mixed with, or consisting wholly of blood. Never neglect what at first appears to be a slight attack of diarrhoea or dysentery may set in.

Cure the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Jno. V. Tanton, R. R. No. 8, Watford, Ont., writes:—"My daughter was taken down, two years ago, with dysentery, and I could find no help for her until I got a bottle of Dr. Fowler's Extract of Wild Strawberry. She was only two years old, and ate something different to what she was used to. She had as many as twenty-five movements a day, and mostly blood. We had the doctor several times, but no relief came until we used 'Dr. Fowler's.' I would not be without it in the house for a good bit."

Be sure and get "Dr. Fowler's" when you ask for it. Price, 35c. a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

If a man is unable to stand properly he should sit down and enjoy it.

Minard's Liniment Cures Distemper.

One on Teacher.

Teacher: There is not anything that has three feet. Everything has either two or four feet.

Tommy: I know two things that's got three feet.

Teacher: What are they, Tommy?

Tommy: A yard and a three-legged stool.

War Lord's Gift

"The All-Highest War Lord" was by military law responsible for the atrocious policy followed by his troops in Belgium and Northern France, even if, to remove any doubt, he had not written in his famous letter to the late Francis Joseph: "My soul is rent, but everything must be put to fire and sword; men, women and children must be slaughtered." As for the monstrous doctrine that a murderer is inviolate in person if he is a sovereign, it has been obsolete in England since Stuart days.—London Daily Mail.

Costiveness and Its Cure.—When the excretory organs refuse to perform their functions properly the intestines become clogged. This is known as costiveness and if neglected gives rise to dangerous complications. Parkelee's Vegetable Pills will effect a speedy cure. At the first intimation of this ailment the sufferer should procure a packet of the pills and put himself under a course of treatment. The good effects of the pills will be almost immediately evident.

One little flower to a living man is worth more than a wagon load of floral emblems to a dead one.

Minard's Liniment Cures Garget in Cows.

Did you ever console yourself with the thought that some people look happy because ignorance is bliss.

Relieves Asthma at Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

Recover Gold From Mined Ship.

Buncrana, Ireland. — Gold ingots worth £1,000,000 sterling have been recovered by salvagers from the wreck of the former White-Star liner Laurentic, which was sunk January 28, 1917, off Fasad Light.

The Laurentic was acting as a British auxiliary cruiser when it struck a mine off the north coast of Ireland and sank. Of a personnel of 470 only 120 were saved.

British Labor

Will Not Act

District Branches Refused To Issue Ballots For Referendum.

London. — Direct action proposed by British Labor's triple alliance in the form of a referendum on political subjects, is said by the Evening News to have been killed by the refusal of the transport workers' federation to take part in it. The newspaper said the federation had decided to have nothing to do with the movement and that its district branches had refused to issue ballots for the referendum.

The triple alliance is composed of the railwaymen, transport workers and miners. The alliance on July 23 decided to take a vote of its members on Labor's political demands, including conscription, Russian intervention, the release of conscientious objectors and the use of the military in labor disputes.

DELICATE YOUNG GIRLS

Need New Red Blood to Give Them Health and Strength.

Does your daughter inherit a delicate organization from you? The anaemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient out-of-door exercise and not enough rest and sleep.

It comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes palpitation of the heart, headache, dizziness following a stooping position, frequent headaches and breathlessness. In a majority of cases constipation is present. There may be no great loss of flesh, but usually the complexion takes on a greenish-yellow pallor.

Cases of this kind, if neglected, become serious, but if taken in time there is no need to worry. The treatment is quite easy and simple. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. Though it is not noticeable, improvement actually begins with the first dose. As the blood is made rich and red, the color leaves the face, strength and activity gradually return and if the treatment is continued until the last symptom disappears, the danger of a relapse is very slight.

If any symptom of anaemia appears, prudence suggests that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will the trouble be overcome. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for 2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

So Tactless.

She: Would you be very miserable if I went away for a long holiday?

He: No, darling, certainly not.

She: Oh, you wouldn't, would you?

Well, then I won't go.

Lachute, Que., 25th Sept., 1908.

Minard's Liniment Co., Limited.

Gentlemen,—Ever since coming home from the Boer war I have been bothered with running fever sores on my legs. I tried many salves and liniments; also doctored continuously for the blood, but got no permanent relief, till last winter when my mother got me to try MINARD'S LINIMENT. The effect of which was almost magical. Two bottles completely cured me and I have worked every working day since.

Yours gratefully,

JOHN WALSH.

Controller Will Not Give Way.

London. — There is apparently going to be a fight to a finish in the strike of the 200,000 Yorkshire miners. The coal controller told the men's leaders it was impossible to concede their demands. To do so, he said, would mean a strike in every coal field in the country for similar concessions.

No further conference with a view of arriving at a settlement have been arranged. It is believed the strikers' funds will only last another fortnight. Already a quarter of a million pounds sterling have been spent in strike pay.

PILES

Dr. Chase's Ointment will relieve you at once and certainly cure you. 60c. a box; all dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

**100%
SANITARY**

Germs flourish in the seams and joints of ordinary milk-pails. No matter how carefully you scald and cleanse, you never can be quite sure that some crevice does not harbor a colony which will make trouble later on.

EDDY'S INDURATED FIBREWARE MILK PAILS

are 100 per cent sanitary, because there are no joints or seams to cleanse. They are made in one piece, from wood pulp, under tremendous hydraulic pressure. The hard, glazed surface is baked on at high temperature, and is absolutely impervious to liquids. Eddy's Milk Pails are practically indestructible. They cannot be dented and no cracks can develop on the surface. Rust cannot attack them and no ordinary accident will do them injury. They cost no more than ordinary milk pails. They will save you labor now, and in the long run they will save you money.

China At Peace With Germany.

Pekin. — Parliament passed a resolution authorizing the president to issue a mandate declaring that a state of war does not exist between China and Germany. It is considered doubtful whether the mandate will be published until delegates have discussed terms with German representatives.

Other Tablets Not

Aspirin At All

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, You Are Not Getting Aspirin — Only Acid Imitation

Genuine "Bayer Tablets of Aspirin" are now made in Canada by a Canadian Company.—No German interest whatever, all rights being purchased from the United States Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

Love may laugh at locksmiths, but it invariably frowns on the furniture instalment collector.

For Asthma and Catarrh. — It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from asthma and catarrh will find that the Oil when used according to directions will give immediate relief. Many sufferers from these ailments have found relief in the Oil and have sent testimonials.

Must Be "Republic of Austria."

Paris. — The supreme council of the peace conference, it was announced, has advised the Austrian delegation that the Allied and associated powers have decided that the new Austrian government must be called the "Republic of Austria." This decision was taken as a result of notes from the Austrian delegation in which they referred to their government as "German-Austrian."

These notes related to proposed changes in the Austrian peace treaty. In some cases the only alteration in the clauses was the change of the Austrian government's name to German-Austrian.

Cook's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, 2, 3; No. 2, 35c; No. 3, 50c per box. Sold by all druggists, or sent prepaid on receipt of note. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

MONEY ORDERS

The safe way to send money by mail is by Dominion Express Money Order.

Will Start Indians' Home

Port Arthur, Ont. — A supervised home for old destitute and sick Indians is being established by the Dominion government on the reserve at Grand Bay, south-west shore of Lake Nipigon. The home is the result of recommendations by Indian Agent Brown, who has found it a great necessity, especially since the influenza epidemic, on account of the inability of the Indians to care for themselves under attacks of tuberculosis.

Catarrhal Deafness Cannot Be Cured

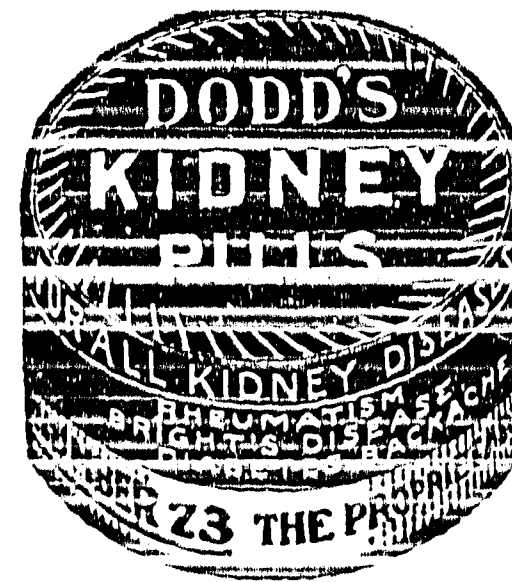

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed for ever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free.

F. J. Cheney & Co., Toledo, Ohio.

Seventy-Five Per Cent. Wheat Cut.

Regina. — Harvesting is well advanced, according to reports received by the department of agriculture. Some districts report 90 per cent. of the wheat crop cut, while others estimate a third. It is estimated that 75 per cent. of the wheat crop of the province is cut, with 25 per cent. of the early sown oats. Threshing will be general before the end of the month.

About Beans

Home-Cooked Baked Beans Are Delicious—

but how seldom the beans are cooked right. Sometimes hard, sometimes mushy, sometimes too wet—or perhaps done to a crisp.

And the hours of cooking they require and consequent waste of expensive fuel.

Next time get "Clark's" Pork and Beans. They are always ready—just heat and serve, and note: Every bean of uniform size—every bean whole yet every one cooked to perfection.

They are sold with three kinds of sauce: Tomato, Chili, Plain—Buy the kind you like best, they are all delicious.

"Clark's" will be appreciated by all the family, are most economical and save the housekeeper work and worry.

The Government legend on every can of "Clark's" Pork and Beans and other good things guarantees their absolute purity.

W. CLARK LIMITED.

MONTREAL.

Health Insurance

One of the distinctive qualities of food baked with Dr. Price's Cream Baking Powder is *wholesomeness*.

This is health insurance of such vital importance that millions of women bake at home just to be sure that Dr. Price's Baking Powder is used.

For healthful food and the best results in baking, prudent housekeepers always use

Fall Ploughing

In order to conserve moisture to the best advantage land must be fall ploughed, and the deeper the better. This work cannot be attended to too soon either.

Commencing July 15th I will be prepared to undertake the ploughing of small or large tracts with the new Cleveland tractor.

Two-furrow plough. All work done in the order it is booked. Charges made known on application.

W. V. Jackson - Creston

Owing to the Unusual Conditions

which prevail this year it is possible that all fruits will mature much earlier than in other seasons.

It will be to the mutual advantage of all shippers to keep us accurately informed as to the condition of all crops.

This is especially true of Plums and Pears, Ranchers will be inclined to leave these too long on the trees, hoping to increase size, with the result that there will be losses due to shipping overripe fruit.
