

THE CRESTON REVIEW

VOL. XI.

CRESTON, B. C., FRIDAY, SEPTEMBER 5, 1919

No. 30

Fall Fair Building Fund Gets \$120

Creston Women's Institute have rounded up all the bills in connection with their lawn party at Mrs. Geo. Cartwright's on Wednesday night last, and when the total of these expense items are deducted from the intake from all sources, the ladies have \$120, which has been turned over to the treasurer of the Agricultural Association.

The balance sheet below will be of interest. The gate receipts of almost \$28 would indicate that nearly 300 people were present, and that the children were not absent is indicated in the sale of 400 ice-creams cones. The financial statement follows:

RECEIPTS	
Admissions.....	\$27 40
Chicken raffle.....	15 25
Duck raffle.....	21 50
Dance.....	13 25
Tea.....	37 00
Ice cream.....	24 35
Ice cream cones.....	20 00
	\$159.35
EXPENSE	
Ice cream.....	\$ 26 00
Cones.....	4 20
Meat.....	65
Meat.....	7 00
Printing.....	1 50
Paid Agricultural Assn.	120 00
	\$159.35

During the afternoon there were a number of races for the young sters, in which the prizes were won by the following:

Girls under seven years—Lyda Christie and Evelyn Blair.
Girls under ten—Mollie Kemp and Eva Christie.
Boys under ten—Fred Christie, Charlie Cotterill, Clarence Staples.
Girls potato race—Molly Kemp, Ruth Porter, Louise Romano.
Boys three-legged race—Ivan Staples and Canute Anderson 1st. Ralph Swanson and Dean Pearce 2nd; Ralph Christie and Aubrey Kemp.

Considering the very busy season of the year the net profit on the affair is indeed creditable, and with such a fine showing most people will be at a loss to know why the Institute is looking for ideas to make money. If they can accomplish this for the fall fair, surely with the same co-operation from the fall fair directors for a similar function for Institute benefit the financial returns will be even more creditable.

Canyon City

School resumed operations on Tuesday morning with an attendance of 40 pupils, which is all the building will accommodate at present, and we hear at least four or five had to be refused admission on account of a shortage of room. Miss Crawford is the new teacher, and is making her home with Mr. and Mrs. Strong.

Rev. D. Scott of New Denver conducted Methodist service here on Sunday afternoon—the first church we have had in almost four months. Rev. Mr. Hamilton, the new pastor, is expected to inaugurate church regularly, commencing this Sunday afternoon.

F. W. Speaker, who has been at Jaffray for several months, has moved back to take his old job as yard foreman at the mill. He is taking out a shooting license, and the deer and bear in these parts had best take cover on Sunday and holidays from now on.

William & Benson have completed the work of putting the new floor in the school basement, but the material not being available the re-flooring of the schoolroom will have to wait a few weeks. Geo. Strong completed the painting of the building on Monday, and has made such a good job of it that he has been hired to repaint the Leach and Young residences.

The nucleus for a mixed and better

Canyon City orchestra is in the offing. Norman Strong has just purchased a new violin and his nightly practices demonstrate the fact that he will very shortly be able assistant to Guy Brown.

Quite a number from here are hay-making at Creston, and report the crop of this feed excellent, due in a large measure to the stringent rules that have been enforced regarding pasturage.

The Company started a second truck on the log haul this week. The new conveyance is a Kelly 5-ton truck, and by working it and the Duplex night and day enough logs are hauled to keep the mill running steadily.

Ernest Ennerson has gone to Creston, where he is second assistant at the C.P.R. depot, handling the telegram delivery end of the work at present.

Huscroft school this term will be in charge of Miss Olstad of Trail, who arrived on Sunday to take charge.

Start Greenhouse 1000 Feet Glass

The sale this week of the Fred Little two acre town ranch to F. H. Mayled of Calgary Alta., has all the remarks of being one of the most important sales of Valley property that have been made lately. For several years citizens have been wondering why some one has not embarked in the greenhouse business here which, in addition to supplying the healthy demand for plants for spring planting, could also produce a supply of early vegetables for an already extensive market at points both east and west.

This is the particular industry that Mr. Mayled proposes to launch into, and as he has had almost eighteen years experience in this line both in Canada as well as the Old Country, his success would seem assured, particularly as he has ample capital to carry on in the modest way he has plans laid at present.

Talking the matter over with THE REVIEW on Wednesday, just prior his departure for Calgary to bring Mrs. Mayled and the family here to reside, he informed that for the present he will put up two greenhouses which will cover a total area of 1000 feet, arrangements having already been made for the glass and other equipment. In these quarters he will produce cabbage, cauliflower, pepper and tomato plants for sale to Valley growers, while under canvass covering an area two lengths of the orchard he will go in for the real early lettuce, radishes and other vegetables.

Mr. Mayled's experience covers three years with the Bunyards of Kent, England, one of the largest of English fruit growers, along with three years in the market gardens near London, and six years that he was head gardener in Oxford. In Canada he has almost six years experience with florists and gardeners at Moose Jaw, Medicine Hat and Calgary.

He will tackle beekeeping and poultry on the side as it were, and will introduce the single comb Buff Leghorns, among his importations in this line being several prize-winning birds at Alberta fairs.

Mr. Mayled was associated with the 175th Battalion, which was recruited at Medicine Hat, Alta., and his undertakings here are being financed under the loan policies of the Soldier Land Settlement Board.

Moving Pictures About Sept. 22

If everything goes through as per schedule it now seems certain that the Peekin theatre, Creston's first moving picture house, will be open for business about Sept. 22nd.

This is the information Manager Floyd Rodgers gives out after his return on Thursday last from Spokane, when he purchased the picture machine and electric power and lighting equipment last week, and also arranged for the coming of an expert to install the outfit immediately it arrives—which is expected to be at the end of the week.

In equipping the Peekin Messrs. Rodgers & Foreman have spared no expense in getting the best of everything. The picture machine is what is known as the Motograph DeLuxe. That it is the best on the market is indicated in the fact that houses are discarding other makes in order to replace them with the Motograph. The Peekin machine is electrically operated, and its capacity is 2000 feet of film, thus obviating many unnecessary waits while films are being changed. It will be operated by a Fairbanks-Morse 6 h.p. throttle governed engine which is guaranteed to give steady power and light and screen pictures perfectly a distance of 150 feet.

The old Auditorium, which has been re-named the Peekin, is being fitted up in keeping with the equipment secured. The interior will be lighted with six 100 candle power lights which can be dimmed to any light required. The operating room is 6 x 8 x 7 feet high, absolutely fireproof, being of three-inch wood construction and asbestos and 24 gauge tin lined. Two additional exits have been provided as well as a pit for the orchestra, and a seating capacity for at least 200 is being provided.

While in Spokane Manager Rodgers made the initial booking of films, and has secured the well-known Pathe as well as the Universal, with some of the Charlie Chaplin and a sprinkling of western stuff by such well known stars as William Hart and others.

For a starter there will be three shows a week, with a complete change of films each night, thus giving three entirely different shows weekly, with Saturday night a permanent fixture, but the other two as yet undecided. Popular prices of admission will prevail, but these must of necessity fluctuate according to the quality of the films.

Already the theatre orchestra has been formed under the leadership of Mrs. Foreman, and on other than show nights the musicians will be available for other engagements at Valley or outside points. Floyd Rodgers is business manager for the orchestra and is arranging to keep them supplied with the newest music as fast as it appears.

Funerals

BURIAL—On August 28th, to Mr. and Mrs. Frank V. Staples, a daughter.

The sugar famine at prairie points, which is necessitating buying of fruits in small quantities, keeps the express shipping here away above normal. At present well over 200 packages a day are being handled, with Tuesday particularly heavy—the slowing being just over 300.

School re-opened on Tuesday morning with Miss Jeanne Palmer again in charge, and an attendance of 22 pupils. From present appearances the number attending this term will be fully equal to last year.

Miss Melva Cartwright returned to Cranbrook on Monday to re-join the public school teaching staff in that city.

F. J. Klingensmith, who is in charge of the McLaren Lumber Co. sawmill at Blairmore, Alta., was a week-end visitor at the ranch here.

Billy Long got back on Monday from Calgary, Alta., where he had been attending a Western Canada College old boys re-union, as well as seeing the stampede.

Miss Ruby Palmer left the latter part of the week for Regina, Sask., where she is teaching this year.

Jos. Stinson, who is also employed at Blairmore spent a few days this week with his family here.

Cranbrook Courier: "Janet of Kootenay" by Mrs. Evah McKowan of this city, has appeared at the bookstands in the city. The novel is one of the cleanest, and also one of the most entertaining of recent fiction. The story deals with life in the Kootenay Valley, and is a realistic picture of events in the open, free and joy-of-living in the famous valley. Mrs. McKowan is to be congratulated on her literary production. The plot is intensely interesting to Cranbrook people, many of the characters being well known throughout the Kootenay country. The publication should be in every home in this section. It is replete with descriptive matter of this country and tells us the prettiest story ever written of the interior of British Columbia. It is a remarkable achievement, a gem in the literary world, which will shine for a long time to come.

Sirdar

Mrs. McKinley of San Jose, Calif., who has been Mrs. Jones' guest at Kuskanook for the past three months, left for home on Friday, Mrs. Jones accompanying her as far as Creston.

Creston callers have not been num-out of late. Mayor Daly favored with a call on Tuesday, while Mrs. Aspey was there on Friday.

C. M. Lonsby is a Vancouver visitor this week, where he is attending the Royal Northwest Mounted Police annual convention.

R. H. Ross, who has been a patient at the hospital at New Westminster for almost three months, was here a couple of days last week on his way to Cranbrook, where he expects to go to work shortly.

Mrs. Grundy was hostess at an at home on Friday night in honor of her guests, Mr. and Mrs. Heap of Lethbridge. Cards were the feature of the gathering, followed by refreshments, the guests all reporting a thoroughly enjoyable evening.

At time of writing no teachers had arrived for Sirdar school, but the seat of learning will be in operation in a few days. This year's trustee board is C. M. Lonsby, W. D. Touhey, and R. Dennes.

While making a coupling that had failed to hold on the yard engine load on Friday morning, Geo. Cam met with a mishap that necessitated amputating the third and fourth fingers of his right hand, as well as having the second finger badly jammed. The yard engine was immediately requisitioned for the run to Creston, where Dr. Henderson did the surgical work, and at writing the patient is coming along quite nicely.

Cranbrook Herald: W. H. Morris of Sirdar and Leonard Burton, returned to Cranbrook last week from a long hike. They walked from Proctor to Trail, returning to Nelson through Columbia Gardens, Salmo, etc., by Great Northern track, walking in all about 130 miles. They say they enjoyed every mile of their walk, had good weather, wonderful scenery, lots of good grub, and came back feeling fine. They are finishing up the vacation by an auto trip to Sinclair Springs.

1919's Fall Fair Shaping up Right

Everything is shaping up well for the 1919 fall fair of the Creston Valley Agricultural Association, which will be held on Saturday, Sept. 27th, with the entries due to close a week earlier.

The new main building is now almost ready for the roof and will be available in good time for this year's show. In all departments the sort of enthusiasm that spells out success for an exhibition is already manifest, particularly in the cattle and poultry classes, while the departments that are under the control of the ladies are also getting a full share of attention from prospective exhibitors.

The prize list and entry forms will be available to-morrow. Prizes will be awarded this year on considerably more sections than a year ago, practically all the classes being enlarged.

The rains of the week will help materially in improving the show of fruit, as the wetness is not only sizing up varieties, but is also giving the needed color.

The directors are anxious that the 1919 fair should be worthy of Creston Valley, especially in view of the fact that a big delegation of Nelson business men are coming down to look the Valley and flats over, as well as to see the fair, and there is nothing like a large and first-class display of our products to convince visitors that Creston is the garden of the Kootenays—and in all lines of horticulture and agriculture.

Alice Siding

A. L. Matthews arrived home from Birchbank on Sunday, and will be spending a couple of weeks at the ranch here.

Misses Margaret and Louise Webster of Calgary and Canmore, Alta., who have been holidaying with their parents here, left on Sunday to resume their positions in these towns.

Morgan Long had another Pincher Creek visitor last week in D. Langlan. He is a tailor by trade and was looking Creston over with a view to getting a few acres of property for a sideline as a tailor shop which he might open in town.

Haying continues in full swing on the flats. By now local ranchers have at least half their tonnage cut, but Sunday's rain has necessitated turning over all of it that had not been stacked.

Mrs. Matthews continues to make very satisfactory progress and will shortly be around as well as ever. They have leased their ranch to Geo. Marshall and will shortly move to Nelson to reside.

Alice Siding school opened on Tuesday with a Mr. McLean of Calgary in charge, and an opening attendance of about a dozen scholars.

The pick of Wealthy apples started the latter part of the week. The crop of these in this section is fine this year and the fruit of good size, while Sunday's rain was just what was required to start them coloring up.

Friends of Arthur Pendey, who had a close call from a serious accident while at work in the Trail smelter a couple of weeks ago, will be glad to hear he is coming along nicely, the most serious effect being on his eye, which he is having treated by a Spokane specialist. The mishap was due to the premature turning on of the power giving a very severe electric shock.

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

Canada's Present Task

With the Peace Treaty formally approved by the parliaments of Great Britain and Germany, and in process of ratification in other countries; with Canada's parliament about to meet to signify its approval of the Treaty and with the Canadian army officially declared demobilized, the people of this Dominion are called upon to set themselves sternly to the task of fully restoring their country to a peace basis. In doing so they are confronted with many problems and burdens which are left to them as a legacy of the Great War, and these problems must be faced and solved and these burdens carried under entirely new social and industrial conditions which have been born in the minds and spirits of men during the period of the great upheaval through which we have passed.

Great as were the problems connected with the vigorous and successful prosecution of the war, they pale into insignificance when contrasted with the multitude of problems which peace, under these new world conditions, force upon us. The lofty patriotism and spirit of self-sacrifice which animated the people of Canada during the war must continue with them in these even more difficult days of peace if Canada is not now to lose all that she so valiantly defended on the battlefields of Europe.

It was comparatively easy to save for Canada, sacrifice for Canada, serve Canada in the dark days of war; it is going to be infinitely harder to do so now that the incentive to victory is removed. But it is just as vitally necessary to our national welfare and future now as then, even more necessary.

With a national debt of \$2,000,000,000 upon which to pay interest and gradually liquidate with millions required annually for pensions, with other great national obligations to carry all the expenses of the public service, the state and provision made for the social undertakings required for the development for use of the country, the people of Canada are faced with a task which is the most difficult and the most important in the history of the Dominion, and each citizen must do his part to see that the country is not lost to the future of the living.

We can't blame a man who leads a dog's life if he grows.

which is necessary to pay off the remainder of the Dominion's war bills and to enable the national government to carry on the business of the country in these still unsettled times. It will probably be the last of these war loans, because Canada cannot go on borrowing indefinitely. The time is fast approaching when, not by way of loans to the Government, but in the payment of taxes the people of Canada will have to meet all national expenses, as well as provide a certain amount annually wherewith to reduce the national debt.

Canadians must face that necessity, and it is well that they should begin to prepare for it now. Canada as a nation can only meet its obligations to its own people and to the world by becoming a nation of producers in a larger way than ever before attempted. The natural resources of this country, vast and rich as they are known to be, but as yet largely undeveloped, must be developed for use. By their development alone can the necessary wealth be produced which will enable Canada to "carry on" successfully and prosper.

It is incumbent, therefore, on all Canadians to set themselves seriously to the task of ascertaining where and how they can best employ their abilities and energies in the work of production. On the farm, in the mine and forest, in the fisheries and in the factory, Canadians must display industry and energy. Taxes they must pay, heavier than in the past, and unless they produce something which will add to their own and the nation's wealth they will be in no position to pay. Canadian boys paid for Canada's independence and well-being with their life's blood during the past five years; all other Canadians must pay for Canada's honor, well-being and future prosperity and greatness by the full use of brain and brawn in the years of peace we are now to enjoy.

As the Montreal Star said in a recent editorial on "The Need of Canada," Canadians must go forward with a new, a better, a larger outlook. "Surely," says The Star, "with the immense legacy of debt that the war has bequeathed to us we would be wise to put away childish things, forget old quarrels which belong to the political nursery and face with courage and dignity the things that make for our peace, our strength and our security. There is no solution in the creed of destruction and no hope for men or nations save in industry, sanity, confidence and co-operation. Canada needs People, Production and Development. If we would concentrate upon these vital problems a multitude of lesser problems would settle themselves and we would begin to prove ourselves worthy of the great inheritance we possess. There was resource and dignity in Canada when we achieved Confederation. So, too, when we set all our energies to the Great War. A world in anguish and travail reveals too clearly that like unity, courage and devotion to vital things are needed to hold the civilization that we thought was saved on the red fields of Europe. Let us not relapse into a state of tribal warfare and spend ourselves in the paltry partisan quarrels and ignoble controversies which fill too many pages of the political history of Canada. I had fainted unless I had believed in the goodness of the Lord in the land of the living."

Minard's Liniment Cures Colds, Etc.

The man who sits down and waits to be appreciated will find himself amongst the uncalled-for baggage after the limited express has gone by.

SUMMER COMPLAINT IS A SERIOUS BOWEL TROUBLE

Very few people escape an attack of Summer Complaint. It may be slight, or it may be severe, but nearly every one is liable to it.

You can't tell, when it seizes on you, how it may end. Allow the profuse diarrhoea, the vomiting and purging to continue for a day or two and you will become weak and prostrated.

Just as soon as the bowels become loosened up, get a bottle of Dr. Fowler's Extract of Wild Strawberry and check these unnatural movements, and thus prevent the system from becoming weakened.

Mrs. L. J. Alteen, wife of the well known wholesale and retail Fish Dealer, 44 Hill St., Amherst, N.S., writes: "I have four children, the oldest being eight years old. Every summer they were troubled with Summer Complaint. Doctors' prescriptions did not seem to help them any. One day a friend asked me to use Dr. Fowler's Extract of Wild Strawberry. I at once got a bottle, and to my surprise and wonder, I soon saw a change in them. I now keep a bottle of it in the house all the time, and will recommend it to any mother."

"Dr. Fowler's" is 35c. a bottle. Get the original which has been put up for the past 74 years by The T. Milburn Co., Limited, Toronto, Ont.

A few months ago it was necessary to limit the use of gasoline because some people were using more than they auto.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Our new coins don't look as though they would buy as much as the old ones did, and they won't.

No surgical operation is necessary in removing corns if Holloway's Corn Cure be used.

Nature is said to be infallible, yet she gave the rooster a comb but no hair.

Minard's Liniment Cures Colds, Etc.

The man who sits down and waits to be appreciated will find himself amongst the uncalled-for baggage after the limited express has gone by.

A DIVORCE GRANTED

After many years of patient suffering you can be divorced from corns by applying Putnam's Corn Extractor, which acts in 24 hours without pain. Refuse a substitute because "Putnam's" is the remedy that is safe and painless, 25c. per bottle at all dealers.

Money For Everybody

New Labor Programme Has Unique Scheme

London.—The latest thing in the labor programme of social reform is provision for a minimum income for every man, woman and child.

Under the scheme, which is fathered by Arthur Henderson, secretary of the labor party, and G. A. H. Cole, attached to the research department, twenty per cent. of all incomes would be nationalized at the source and paid in a pool which would be devoted solely to the provision of a permanent weekly income of \$2.25 a week to everybody. In this way, the sponsors of the plan say, it is hoped to liberate the country from the future payment of old-age pensions, but of most, if not all, of the national and private agencies for the distribution of relief.

Many a man who is going to get the world on fire finds that someone has suddenly turned the hose on him.

For Benefit Of Farmers

Merchants' Bank Establishes Rural Service Department in Western Provinces

As an evidence of the forward movement being taken by the banks in lending assistance to the farmers may be cited the fact that the Merchants' Bank of Canada has recently established a Rural Service Department for the western provinces. One of the efforts of this department will be to assist specifically in alleviating conditions due to the feed shortage.

It is now announced that Mr. James L. Clarke, formerly manager of the bank's branches at Sedgewick, Alta., Oak Lake, Man., and Grenfell, Sask., has been appointed manager

JAMES L. CLARKE

for the western provinces with headquarters at Regina.

Mr. Clarke is well qualified for his new position, having had extended experience both as a banker and farmer. For many years he conducted the Lyledale Stock Farm at Sedgewick, where he acquired practical knowledge of mixed farming. Mr. Clarke will now devote his time and energies to the study of western conditions, and more particularly to problems vital to the farmer and rancher. Farmers and stockmen may feel free to consult with Mr. Clarke either by letter or by a personal interview. His office is located at 1825 Scarth Street, Regina.

Many a man who toots his own horn imagines he is the whole band.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

With the exception of one or two of the Balkan states, Russia is the most illiterate country in Europe, over 60 per cent. of the inhabitants being unable to read or write. Yet the capital has the largest university in the world, one building of which has a frontage of nearly a quarter of a mile.

Minard's Liniment Cures Diphtheria.

But we are inclined to believe that actions do not speak louder than words at the meetings of a sewing society.

Ladies A Word With You About Your Skin

WHY not make Cuticura Soap your every-day toilet soap, assisted by Cuticura Ointment and Cuticura Talcum, now and then as needed, and have in most cases a clear fresh complexion, a clean scalp free from dandruff and irritation, good hair, soft white hands and a wholesome skin free from blemish, without resorting to tiresome, expensive "beauty" fads? Cuticura costs little and does much. Sample each free by mail of "Cuticura, Dept. N, Boston, U. S. A." Sold by dealers throughout the world.

Cuticura Talcum Powder

Do not fail to test the fascinating fragrance of this exquisitely scented face, baby, dusting and skin perfuming powder, delicate, delightful, distinct, it imparts to the person a charm incomparable and peculiar to itself.

Horses Versus Elephant

Tests made to determine the respective pulling power of horses, men and elephants showed that two horses weighing 1,600 pounds each, together pulled 3,750 pounds, or 350 pounds more than their combined weight. One elephant weighing 12,000 pounds pulled 8,750 pounds, or 3,250 pounds less than its weight. Fifty men, aggregating 7,500 pounds, pulled 3,750 pounds, or just as much as the single elephant, but, like the horses, they pulled more than their own weight. One hundred men pulled twelve thousand pounds.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shrivelled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

The Kaiser is not likely to recover from his serious operation. He had his expectations removed.

Relief for the Depressed.—Physical and mental depression usually have their origin in a disordered state of the stomach and liver, as when these organs are deranged in their action the whole system is affected. Try Parnee's Vegetable Pills. They revive the digestive processes, act beneficially on the nerves and restore the spirits as no other pills will. They are cheap, simple and sure, and the effects are lasting.

Portugal to Get 21 German Ships

Lisbon, Portugal.—It is announced that twenty-one German ships now in English ports will be handed over to Portugal.

The Sweet Nut-like Flavor

of Grape-Nuts is due to the combination of wheat and malted barley, developed by twenty hours baking.

Grape-Nuts

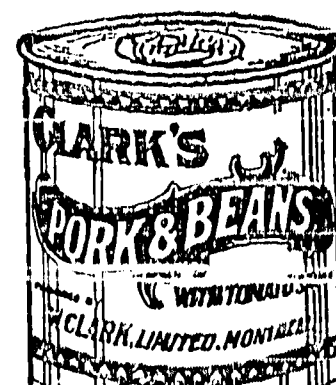

Ready to Eat

No Waste

Every bean in the "Clark" can is perfectly cooked and the Government legend guarantees absolute purity.

With Tomato, Chili or Plain Sauce.

CLARK'S PORK & BEANS

AND OTHER GOOD THINGS

Why Britain Sets Low Wheat Price

Winnipeg.—In an interview on the price of \$1.80 set by Great Britain for Canadian wheat, W. Sanford Evans, who represented the millers at recent conferences at Ottawa, said: "The situation is quite simple. This price of \$1.80, mentioned in the cable, has, unquestionably, to my mind, nothing to do with the price at which the British Government will buy wheat, but the price at which it will resell, in conformity with its policy to ensure the ninepenny loaf. "Great Britain absorbs the difference between the purchase price and the price necessary to allow for the turning out of the four-pound loaf for ninepence. Canadian wheat, grading No. 1 northern, cannot be made into bread for ninepence a loaf. "Last year it cost Great Britain \$235,000,000, the difference between the price it had paid for wheat and the price at which it had to be sold to allow for the ninepenny loaf. It had to charge prices for wheat which were less than the purchase price.

"This \$1.80 mentioned in the cable is the resale price. The cable, in my judgment, has nothing to do with the purchase price. The British government will purchase at whatever price it can get the wheat, and then sell at a resale price of \$1.80 in England.

"It has been doing it before. It has in the past spread the difference over wheat and flour. Now the cut is all placed on the wheat. The government decided to subsidize the loaf and placed it all on the wheat, which will represent the ninepenny loaf."

Bolsheviki Cut Off From Base

London.—Military authorities here point out that the occupation by General Denikine of the town of Cherkasy, on the Dnieper river, below Kiev, cuts the last remaining line of communication of the Bolsheviki with Odessa.

The evacuation of Cherkasy has not yet been confirmed, but it is regarded here as probable that the Bolsheviki have left it.

Harvesters Create Disturbances

Pillage Town, Fire Depot and Stone Passenger Trains en Route

Riviere du Loup, Que.—A trainload of young men, numbering between 800 and 900, belonging to different parts of the district, and who were leaving for the West to work on the farms during the harvest, created a serious disturbance on the train, also robbing and pillaging in this town, one shop being relieved of \$300. At St. Andre de Kiamouraska they set fire to the station, which was got under control before serious damage occurred. Other offences were committed at other places along the road, among them being the stoning of passenger trains. Detectives were finally placed aboard and the train proceeded to its destination, no arrests being made.

"Away With Erzberger"

Berlin.—Under the slogan "Away with Erzberger," the National Liberals staged a noisy meeting of protest, in which the speakers subjected the Minister of Finance to a vicious verbal grilling. Erzberger's activities from the time he conducted the armistice negotiations down to the present enactment of radical measures of taxation were made the subject of attacks from the floor rostrum. "Traitor," "Scoundrel," "Camouflaged Corruptionist," and similar epithets were heard. Some of the speakers demanded that Erzberger be strung up on the nearest lamp post.

At the meeting a resolution was adopted demanding Erzberger's retirement.

Strike in Miramichi Mills

Newcastle, N.B.—Practically every mill on the Miramichi has been tied up by a strike among the workers. Men employed loading the steamers have struck for a nine-hour day and 65 cents per hour.

Increased Wages For Telegraph Operators

Reduction in Working Time and an Advance of \$10 and \$12 Are Granted By Board

Montreal.—Substantial increases in wages are accorded the operators of the C.P.R. telegraphs by an award handed down by the Canadian railway war board, adjustment number one. An increase of \$10 a month is given to Morse operators, "all outside points," and \$12 a month to the percentage groups of the percentage offices. Included in the latter are Montreal, Ottawa, Winnipeg, Moose Jaw, Calgary and Vancouver.

The wages in these three percentage groups will now be \$133.25, \$129.60 and \$122, with a minimum over the entire system of \$100 a month, with the exception of city branch offices (send only) where the minimum will be \$75 a month, and also at one or two specified points.

An eight-hour day will be worked in all outside large centre offices, a reduction of one hour. The increase is to date back to June 1, and in future the clerks are to be included in the wage schedule.

In the present arrangement, however, the amount of wages of the clerks was not decided, but will be dealt with on September 16.

Austrians And Their Treaty

Are Wanting to Take it Back to Vienna

Paris.—The Austrian delegation told the supreme council that it would be necessary for them to take the complete text of the treaty to Vienna and to submit it to the assembly for approval before he delegates can sign it.

This suggestion brought expressions of surprise from members of the council, as it had been thought the Austrian delegation had full powers. The council is urging the Austrians to make some arrangements to sign the treaty without taking it to Vienna.

The signing of the treaty, as a result of this unexpected development, it was said, may be postponed until well into September.

Citizens Would Prosecute Prince

Berlin.—At a meeting of the citizens of Teltow, a suburb of Berlin, there was a discussion of the conduct of Prince Friederich Leopold, cousin of former Emperor William, who, unlike Count Hohenzollern, remained there instead of leaving the country. It was alleged that he had engaged in illicit trading on a large scale and had hoarded large quantities of food. Local authorities recently searched his castle, confiscating great supplies of food, which were distributed among hospitals, but when they attempted to bring action against the prince they were told from authoritative quarters that he was immune, being a member of the royal family.

Serious Fires in Northern Idaho

Missoula, Mont.—The general fire situation in forestry district number one, Montana and Northern Idaho, has never in the history of the west been so serious as it is today, according to forestry officials. New fires are breaking out, old blazes are entirely out of control, and it is reported incendiaries in the woods not only have set fires in isolated spots, but have in several instances severed connections between the fire fighting crews and the outside world, with serious results.

Supply the Home Market First

Sydney, N.S.—Instructions have been issued to the refiners by the Canadian trade commission that all local demands for sugar must be looked after before this article is exported. Such was the gist of a telegram received by F. C. Kimber, secretary of the Sydney board of trade, in reply to a wire sent to the government.

Consumers to Fight Profiteers

Paris.—Citizens and housewives of the Montmartre district have formed the "consumers' league of France" to combat the high cost of foodstuffs. It is the intention of the founders to enlarge the league into the national buyers' federation, with members throughout the country.

U. S. Government Brings Down Prices

Fixed Price Of Wheat

If World Market Price Realizes More, Producer to Get the Benefit

Ottawa.—Telegrams and communications received by the government, as well as comments made by brokers and others interested in the wheat trade, indicate that the government's action in fixing an initial price for wheat to be paid to the farmers by the wheat control board is still misunderstood in many quarters. It is assumed by many apparently that the initial price of \$2.15 announced by the government is a fixed price and that no matter what the price of wheat may be the farmers will not receive more than that figure. On behalf of the government it was pointed out to a representative of the Canadian Press, Limited, that in the case of the Canadian farmer, he gets what the market of the world will give him. If the price of wheat should go to \$2.30, \$2.40 or \$2.50, the farmer will get the benefit.

On the other hand, in the United States, where a price has been definitely fixed, the farmer will simply get the fixed price.

The object of the government, it was further explained, was not to limit to any price or estimate the price that the farmer should obtain but rather to make sure that he should speedily sell his crop and that he should receive the highest possible safe initial payment upon the crop. The government through the Canadian wheat board undertakes to sell the surplus crop, not at a fixed price, but at the best world price available, and to turn back to the farmer free from all speculative and profiteering charges the balance of the price received for his grain over and above the initial payment of \$2.15.

It was further pointed out that the United States price was fixed before he war was over, on the assumption that the world conflict would continue. Had that not been done it is not regarded as probable that the United States would have made a fixed price, but as it is, the United States farmer gets the fixed price and no more.

Why Shoes Are High

Boston, Mass.—Enquiry into the high cost of shoes by the Suffolk county grand jury developed that some shoe workers have been earning \$120 a week. These instances were said to be few, but it was testified that many made \$60 a week, while the average was about \$40. Unskilled help, formerly paid at \$12 to \$15 a week, have profited most, last boys getting as much as \$30 a week. It was said that a pair of shoes sold by a manufacturer for \$5.50 was displayed in a store four hundred yards from the factory marked at \$12.

Inheritance Tax Bill Passed

Weimar, Germany. The assembly has passed the inheritance tax bill. The members of the Right voted against the bill. They particularly opposed the paragraph inserted in committee, under which the tax on fortunes exceeding 150,000 marks is greatly increased and in some cases doubled.

Greeks Ask for Protection

London.—Saloniki representatives of 35,000 Greeks in the Ardskhan district of the Caucasus have telegraphed the peace conference requesting protection against Turkish soldier brigades, who, with Erzerum as a base, are holding massacres of the Greeks there, accompanied by much pillage.

Miners Talk of Five-Day Week

Sydney, N.S.—The five-day week, a demand for a 25 per cent. increase in wages and several other matters of prime importance to the coalfields, the miners and the province in general will be taken up at the Mining convention which is to meet in Sydney this week.

Italian Troops Enter Hungary

Paris. Italian troops are on their way into Hungary, according to reports received here. No details of the movement are given.

Washington. — Attorney-General Palmer said there was evidence that the government campaign to reduce the cost of living already was bearing fruit. A prominent vegetable packer of Maryland wrote Mr. Palmer that prices in many lines were beginning to ease off, as it became evident the department of justice meant business in announcing that criminal prosecutions against hoarders and profiteers would be instituted where the laws were violated.

The attorney-general and Judge Ames, his assistant, drew distinctions which they said the public should recognize between hoarded food and stored food. The former is held out of the market in greater quantities than required for the owners' business for the purpose of forcing up the market.

The latter is surplus, being hoarded from the harvest to the lean season.

Reports to the attorney-general from state food administrators indicated that fair price boards rapidly were being set up in many states and were proceeding to get pledges from dealers to abide by the prices promulgated for the guidance of the public.

The department of justice announced that eleven cases had been brought under the Food Control act for seizure of food in Columbus, Ga., St. Louis, Detroit, Chattanooga and Kansas City.

Employment For Returned Men

There Should Be No Such Thing as the Soldier Problem

Ottawa.—The returned soldier problem, said Gen. Currie, during an address, had been brought to his notice since his return. He thought there was no such problem and urged the business men of Canada to give the men a chance on their return.

He thought that instead of the returned soldiers creating any problem that was being done by the men who stayed at home getting four or five times as much money as soldiers, and then became afraid their big money might fall off during the reconstruction period.

"Before the war," he said, Canada was able to absorb 500,000 immigrants yearly; surely we can absorb 500,000 returned men who are your own brothers. Before the war they were an asset to Canada, surely they are an asset on their return. Not a returned soldier should go unemployed."

Railways and Daylight Saving

Ottawa.—The action of the United States congress in killing daylight saving over the President's veto is taken here to mean the simultaneous death of the system in Canada. Whenever the United States sets back the clocks the Canadian railways will have to do likewise. The same argument that was used by them in adopting daylight saving last spring will apply to reverting to the old system at the same time as the Americans do it.

Commr. C. Sowton to Go to Sweden

Toronto.—Commissioner Charles Sowton, of the Salvation Army, who has been in charge of the Western Canada territory with headquarters at Winnipeg, has been selected by General Bramwell Booth to take charge of Salvation Army work in Sweden, according to an announcement made here by Col. John McMillan, chief secretary for the Toronto district.

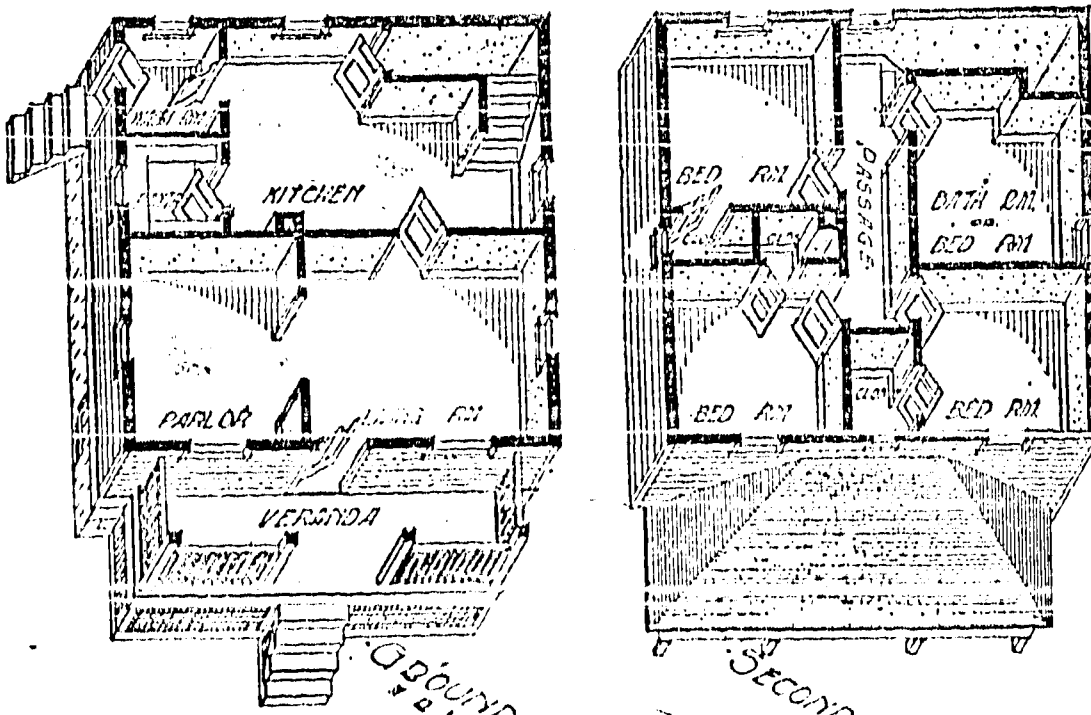

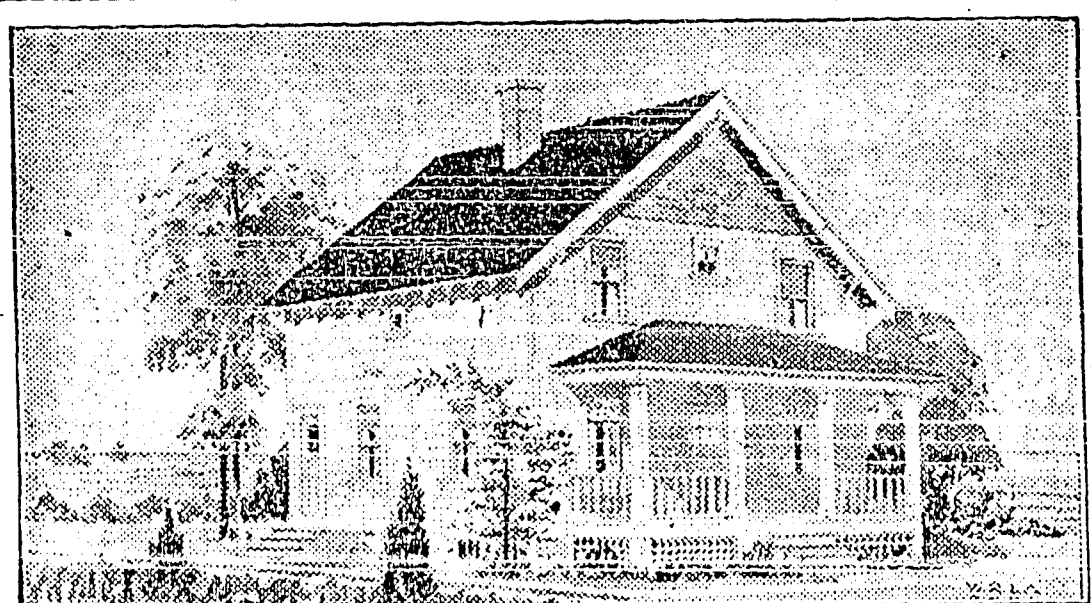

Ask Intercession for Absentees

Quebec.—At a meeting of the national trades and labor council it was decided to ask His Royal Highness the Prince of Wales to intercede to obtain a general amnesty for absentees from the army.

Helmreich May Be Prosecuted

Berlin. The Ministry of Justice has received instructions to examine the evidence obtained against the German agent Helmreich, who is reported to have been in contact with the British government during the war.

No Waste Space

"This attractive six-room house has no waste space and is at the same time an economical house to build for one who does not care to spend very much money in a house and at the same time have considerable room. It is intended that there be a veranda for the front door extending out on to the veranda; this is not shown on this plan. The two front rooms can be made into one large room, which would extend across the whole front of the house, making the living room do for a dining room on occasion. Many families eat in the kitchen, ordinarily, so that this front room gives a chance to carry out many forms of decoration and arrangement which cannot be done in the usual living room. The upstairs has three bedrooms and bath, with ample closet room. This house has side entrance which can be changed room, which would extend across the

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, SEPT. 5

Creston Valley of Yesterday

By MRS. J. W. DOW

(Continued from last week.)

On the whole we found the Indians rather ungrateful for the first few years. Mrs. Arrowsmith would give medicine when their children were sick, and they were continually coming to both our places for medicine, and we fed them every time they came, yet if you wanted a fish, or game, or be ferried across the river you always had to pay.

We thought once we were going to have trouble with them. They caused some excitement at Ockanook. This Indian was not quite right in his mind and went into the store and started ripping the sacks of rolled oats and scattering the contents all over the floor. Of course the constable was called and between the whites and Indians it ended in some of the Indian boys being shot very badly, and one died. The Indian who caused the trouble was taken to jail at Bonners Ferry. The Indians were up in arms at some of them being shot, and were going to clean up all the whites in the valley. The matter was looked into by the proper authorities and the Indians told that if any trouble arose they would bring in the red coats and and soon settle them, so they let the matter drop, but were sulky for a long time after. One Indian, Antonia, was a very good friend to me. He used often come over when I was alone to see if I was alright, or needed anything.

During the winter of '92 and '93 we had a very heavy snowfall. In '92 a sleigh road was built from Bonners Ferry to the head of the lake and hundreds of people travelled over the road that winter to get into the Kusko and Slocan country, this making a big boom in the mining industry in that country. Mr. and Mrs. William Huscroft and family came into the country the year the sleigh road was open. They had a ranch across the river.

June 1st, 1894, was a Sunday never to be forgotten. A terrible storm came up. We could see the trees on the bank of the Goat River being mowed down by the wind. The waves on the river were white capped. The thunder and lightning would strike terror into you. It just seemed as if Goat Mountain was tumbling down after a big crash of thunder. The water at that time was rising from 18 inches to two feet every day till June 11th. It flooded all the smaller towns and farms along the river and you could see houses, haystacks and other buildings coming down the river. The Indians made some great hauls, finding machinery, etc., hung up in the trees.

The water was so high that you could almost see the larger trees on the flats, a year or so after they had started the dyke, the reclaiming being done by an English syndicate. After they had dyked several thousand acres they turned it into a farm, and the Reclamation Farm of those days was a place of beauty. They spent an enormous amount of money on this scheme and worked several summers at it, but the pressure of water being too great in '98 the dyke broke, and the water was several feet above the dyke. One of the head men of the scheme, from London, came out and went up Goat Mountain looking over the Valley, called it the promised land. It is to be hoped some scheme will be available that it may in time be reclaimed, and then it will be the greatest producing valley in western Canada.

There was great excitement the year the survey was made, and the wagon road built from the head of the lake to carry the supplies to the different camps. Men had to be pretty tough to stand the hard trips of trail-roading and leading the life they did during the building of the Crows Nest line. The camps were not properly equipped, the road was very rough, and on the men died twelve miles from here at Goat River. Crossing a great many of the men were buried. It is hardly to be wondered at when one saw the type of men that came to work on the railroad.

Across the valley from our house is Goat River Landing, where they unloaded the men off the steamer, and it was a long flight to see a couple of hundred men coming across the meads.

ows. This particular afternoon I have in mind a number of men coming across the flats, some clerks out of stores, tailors, and men not fit for hard labor; some had violins, and some in tailormade suits and hard hats. One man had a bird cage. As our house happened to be to the first they passed they would come and enquire for the B.C. Southern Railroad. Of course we said you mean the Crows Nest line. They said, no, B.C.S. We finally found out that the Crows Nest R.R. had such a hard name that it had to be changed in order to get men to come and work on it.

It was in February, 1899, that the first telegraph wires were put in the station, a little car building, just across from the present Union warehouse. We had a train every other day for awhile. The first name our town got was Seventh Siding. Then the C.P.R. called it Fisher, but Mr. Little thought as he was good enough to let them have his property for a townsit he should have the naming of it. He said it should be called Creston, which is a much nicer name. For the first few months Mr. Firth was station agent, and he was succeeded by Mr. Rose, in the winter of 1899.

The town was very lively in those days. It was built at the foot of the hill, consisting of several hotels, three general stores, Fass & Crawford being the principal one, and the other two being Grain & Co. and Coleman & Co. R. S. Bevan had a candy and fruit store, and Geo. Munro a tinsmith shop. Messrs Little and Mullanaine having the townsit office. Mr. Mullanaine coming in with the survey of the Nelson and Bedlington Railway a couple of years before, and holding the first postoffice in the early days. During the building of the Nelson & Bedlington Railway the town was booming.

The first schoolhouse was built twenty years ago this last July; the building Alex. Matheson now occupies being utilized. We managed to gather ten pupils consisting of the Arrowsmiths, Hood, Huscroft and Dow families, with Miss Dally as our first teacher. The first church service being held in the same schoolhouse twenty years ago by Mr. Rhodes from Nelson, the mosquitoes being so bad he could hardly conduct the service. The first sawmill located in the valley was where Mr. Gobbett lives, and was run by Geo. Byslow, an old timer of Nelson, in 1898.

A greater change came in the next five years when a new school was built (the present police station), the Record office, the new C.P.R. station, the police station—the late Jos. Wilson being our first constable. The Canadian Bank of Commerce opened up in the old Munro building and later moved to the Mercantile building. The Methodist was the first church built in Creston. Real estate offices were opened and people began to flock in to secure fruit lands. Mr. Little, Mr. Arrowsmith and ourselves having the first orchards, although Mr. Little planted the first orchard in Creston.

The next five years saw even a greater change. A new school was built, the Presbyterian church, and several other buildings, and the sound of blasting and blowing stumps could be heard all over the valley. A still greater change has taken place the last six or seven years and I fully believe in time our valley will be one of the greatest fruit countries in British Columbia, because our shipping facilities give us quick access to the prairie provinces, and in time, if we have canning factories established, will no doubt have the best district in all B.C.

We have lost two of our real, old pioneers in the last year, in Mrs. J. C. Rykert, who lived in the valley for over thirty-five years, and Mrs. William Huscroft, who came to settle with her family over twenty-seven years ago. I must not forget to mention Mr. J. C. Rykert, the customs officer, our pioneer friend of the early days. The real old timers know how to appreciate his many kindness in the early days, and they were certainly appreciated.

NEWS OF KOOTENAYS

Pentiction council has just ordered \$4000 of copper wire for its electric system extensions.

Water is so scarce at Vernon that the council has prohibited even lawn or garden sprinkling.

Fernie has only one moving picture theatre now. The Grand closed its doors a couple of weeks ago.

J. H. Schofield, M.P.P., is Trails newest auto owner. He has acquired a seven-passenger Studebaker.

Trail Baptists don't believe in being poor and looking poor. They are having their church nicely re-painted.

Trail is becoming so dry that lawn sprinkling and garden irrigating is limited to half an hour each day.

Waldo and Wyoliffe baseball teams clashed at Fernie on Labor Day for a \$400 purse, with a side bet of \$1000.

The District Ledger, which has been published at Fernie for a little over a year, is being moved to Calgary, Alta.

A branch of the G.W.V.A. has just been formed at Kaslo with 25 members—and another 25 of them in prospect.

It is estimated that it will cost \$2000 to remodel Nelson's half dozen street cars so that one-man can operate them.

E. H. Leaman of Cranbrook has a small flock of White Wyandottes less than six months old that have already started producing eggs.

The Star hears that the C.P.R. is going to put on a coast-to-coast aerial service next year, and that Golden will be one of the spots where the bird men will alight.

Nelson will have a baby show in connection with the fall fair in that city next month. An aviator with a real up-to-date flying machine will also be among the special features.

On the Northern slopes of the hills at Rossland the huckleberry crop is good this year, but where the berries were formerly found in the dry section there are none at all this year.

When times were so dull at Fernie due to the recent strike, Rev. F. Yelland, the English Church parson, took a job as temporary rector of a Vancouver church for a matter of six weeks.

Is there any Meat in the House?

There are worse places than Greenwood. C. P. Fenner, the Phoenix barber, is moving his works to the former city. Recently, the Ledge informs, five Phoenix families moved to Greenwood to reside.

The demand for lumber is so good that Bonners Ferry mill is putting on a night shift to run the planer side of the plant, and will run night and day throughout the winter if cars are available.

At Nelson the Nelson Transfer Co. has about completed the erection of a two-story-and-basement garage. They claim to employ a staff of seven mechanics, and will have tankage for 400 gallons of gasoline.

At Penticton so much water is being used at nights for lawn sprinkling that there is hardly enough available at the power plant to keep the big Diesel engine properly cooled, and there is a danger of inefficient electric light service in consequence.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stampage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS

The scope of this Act is enlarged to include all persons joining an army with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for land under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase timber or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Penson & Willson

Builders & Contractors

We wish to inform the people of the district that we will be pleased to figure on all kinds of building and carpenterwork. Address: Erickson, B.C.

WATER NOTICE

DIVERSION AND USE.

Take notice that the Canyon Water Users Association, whose address is Erickson, B.C., will apply for a license to take and use 25 C.F.S. of water out of Association Creek, which flows westerly and drains into Goat River on Lot 274. The water will be diverted from the stream at a point about a quarter mile due east from S.E. corner S.Q. 142, Blk. 812, and will be used for irrigation and domestic purpose upon the land described as Blk. 812 (northerly portion)—see plan. This notice was posted on the ground on the 8th day of August, 1919. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Nelson. Objection to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within fifty days after the first appearance of this notice in a local newspaper.

For the Association:

JOHN WOOD (Pres.) Applicant.

A. D. POCHIN (Secy.), Agent.

The date of the first publication of this notice is August 15, 1919.

WATER NOTICE

DIVERSION AND USE

Take notice that K. W. Smith (Free Miners Certificate No. 14643C), whose address is Porthill, Idaho, will apply for a license to take and use 15 second cubic feet of water out of Priest River which flows in a southerly direction and drains into Munk Creek about 1.1 miles south. The water will be diverted from the stream at a point about 40 yards from the Government trail crossing, and next to the line of timber limit No. 8449 on the west, and will be used for mining power purpose on the Government land described as Crown land between timber limit No. 8436 and 8449.

This notice was posted on the ground on the 1st day of August, 1919, and a copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Nelson, B.C. Objections to the application may be filed with the Water Recorder or the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after appearance of this notice in a local newspaper. The date of the first publication of this notice is August 15th, 1919.

K. W. SMITH, Applicant.

WATER NOTICE

DIVERSION AND USE

Take notice that I, Robert Leslie Thomas Galbraith, Indian Agent, whose address is Fort Steele, B.C., will apply for a license to take and use for irrigation purposes 25 Mines inches of water out of China Cup Creek, which rises in Block 24, S.T.L. 20562, running through the Lower Kootenay Reserve, and about one and a half miles south of the Indian village. The water will be diverted from the stream about 300 feet east of the Reserve boundary, and will be used for irrigation purposes on the Reserve. This notice was posted on the ground on the 14th day of June, 1919, and a copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Nelson, B.C. Objections to the application may be filed with the Water Recorder or the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the appearance of this notice in a local newspaper. The date of the first publication of this notice is August 8th, 1919.

R. L. T. GALBRAITH, Indian Agent.

Indian Agent.

FARMING

The Farmer, quite as much as the Merchant and Manufacturer, should conduct his affairs in a business-like manner if he is to succeed and prosper.

Farmers should avail themselves of the aid of this Bank in transacting their business.

Do not hesitate to discuss your problems with us. You will be assured of sympathetic consideration.

THE CANADIAN BANK OF COMMERCE

Creston Branch, C. G. Bennett, Manager

WORKING AFTER SIXTY?

You surely must if you don't save when you are young. An Excelsior Endowment is the best way.

THE EXCELSIOR LIFE INSURANCE CO.
WINNIPEG SASKATOON EDMONTON VANCOUVER

Australia Bars Enemy Aliens.

Melbourne. — An amendment to the Commonwealth Immigration act has been introduced into the house of representatives, providing that no persons of former enemy parentage or nationality shall be admitted to the commonwealth for five years.

THE MAN WHO WINS

Is Always Full of Life and Energy — Failures Are Weak and Bloodless.

Some men seem to have all the luck. If there are any good things going these men seem to get them. They make other people do their will — they are leaders. If they are business men they are successful; if they are workmen they get the foreman's job. They have the power of influencing people.

The same thing is true of women. Some have the charm that makes men seek them out; others are always neglected. But this is not luck. It is due to a personal gift — vitality. Men and women of this sort are never weak, puny invalids. They may not be big, but they are full of life and energy. The whole thing is a matter of good blood, good nerves and good health. Everyone would wish to be like this and the qualities that make for vitality and energy are purely a matter of health. By building up the blood and nerves, weakness of the back, stooping shoulders, headaches and the ineffectual sort of presence which really comes from weakness can all be got rid of. Dr. Williams' Pink Pills have made many weak, tired men vigorous and healthy, and many pale, dejected girls and women plump, rosy and attractive, by improving their blood and toning up their nerves. If you are weak, ailing, low-spirited or unhealthy, begin to cure yourself today by the use of Dr. Williams' Pink Pills.

You can get these Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

It's dead easy for a woman to beat a man in an argument; all she has to do is to turn on the briny flow.

Time Has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of thirty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. It has no equal in the whole list of liniments. If it were double the price it would be a cheap liniment.

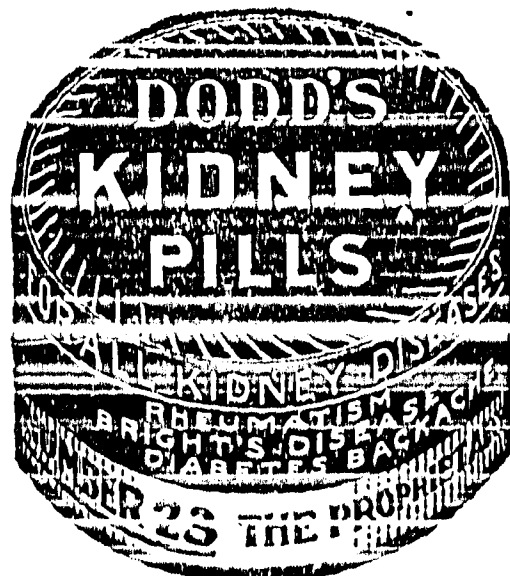

Will Drill For Oil

Imperial Oil Company Make Another Attempt in Alberta

Lethbridge, Alta. — Announcement was made here by Charles E. Taylor, chief geologist for the Imperial Oil company in Alberta, that as a result of a geological survey made by 12 crews who have been working the foothills section of Alberta, all spring and summer, the company will start drilling southwest of Lethbridge as soon as a rig can be put in the ground. The site of the drilling operations already has been chosen.

The company is determined to make a final test of Alberta for oil, and their campaign plans for the drilling a series of test holes in the first anticline east of the mountains all the way from the international boundary to the McKenzie River basin.

If a fat woman could see a moving-picture of herself running to catch a street-car, she would wait for the next car.

No Protectorate Over Persia

Is Contemplated Between Great Britain and That Country

London.—Nothing in the nature of a protectorate over Persia is contemplated by the agreement between Great Britain and that country, Cecil B. Harmsworth, under-secretary of state for foreign affairs, told the Commons.

"The policy of His Majesty's government," Mr. Harmsworth said, "is to assist Persia to re-establish herself on a sound basis."

"There is not the slightest foundation for a suspicion that the government proposed or that the Persian government would have considered the creation anything in the nature of a protectorate."

"The Persian government turned to Great Britain as her most powerful friendly neighbor and this government would have departed from its traditional policy of warm interest in the Persian government had it declined to respond to her appeal."

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safeguarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhaling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

Germans For Argentine.

Buenos Aires. — Baron von Dembowski Haddenhausen, former German minister to Argentina, who arrived here early this month, represents a German colonization syndicate, which is buying land to accommodate Germans who are coming to Argentina, the newspaper Eldiario says.

The newspaper asserts that the baron and his fellow agents have already bought 12,000 hectares (29,640 acres) and are actively exchanging cablegrams with Berlin.

Minard's Liniment Cures Distemper.

The Japanese Royal Family may be photographed when driving in a carriage, but not on horseback or walking. This is a great concession to democracy as when the coronation took place in 1915 photographs of the emperor and empress shown in shop windows had the faces of their majesties obscured by pieces of paper.

I bought a horse with a supposedly incurable ringbone for \$30.00. Cured him with \$1.00 worth of MINARD'S LINIMENT and sold him for \$85.00. Profit on Liniment, \$54. MOISE DEROSCE, Hotel Keeper, St. Philippe, Que.

Lace Machines for France
London, England. — Nottingham lace operatives are taking steps to bring to the notice of parliament the proposed transfer from Nottingham to France of lace machines to replace those destroyed by the Germans. The lace operatives raise no objection to the acquisition by French manufacturers of new machinery if obtainable, but urge that the disposal of existing machinery will lead to a great deal of unemployment in Nottingham. They propose that the Germans should be made to give up their machines to France.

Bolshevik Driven From Odessa
London.—The Bolshevik have been driven from Odessa, the most important port in the Black Sea, by the populace of the city, according to reports received by the British war office. It is reported also that the Soviet forces are evacuating Kiev and the entire Ukraine.

Are Old Folks Good Spellers

Schools of Years Ago Were More Efficient Than the Schools of Today

They had an old-fashioned spelling bee at the New York Chatauqua the other day, and the casualties were so heavy that the list had to be given out in instalments. Among the victims were professors and teachers, ministers, lawyers and doctors.

The younger men and women gradually dropped out, and the last ten belonged to a previous age in American education. The very last two were white-haired women, old enough to be grandmothers of some of the contestants.

Some will say this shows that the schools of years ago were more efficient than the schools of today, or at any rate taught spelling more efficiently. But is it not possible that many old people are good spellers simply because they are old? Nearly all of us improve as spellers as we grow older.

There Is Only One Genuine Aspirin

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, Refuse Them—They Are Not Aspirin at All

Your druggist gladly will give you the genuine "Bayer Tablets of Aspirin" because genuine Aspirin now is made by Canadians and owned by a Canadian company.

There is not a cent's worth of German interest in Aspirin, all rights being purchased from the U.S. Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. But now you can get genuine Aspirin, plainly stamped with the safety "Bayer Cross." Aspirin proved safe by millions for Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Neuritis, and Pain generally.

Handy tin boxes of 12 tablets, also larger "Bayer" packages.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

Will Restore Shantung to China.

Tokio. — Restitution to China by Japan of those parts of Shantung province, including Kiaochow, now occupied by Japanese forces, will be made without unnecessary delay, but the time required will be dependent upon the attitude of China, said Takashi Hara, Japanese premier, in answer to a question as to when actual restoration would take place.

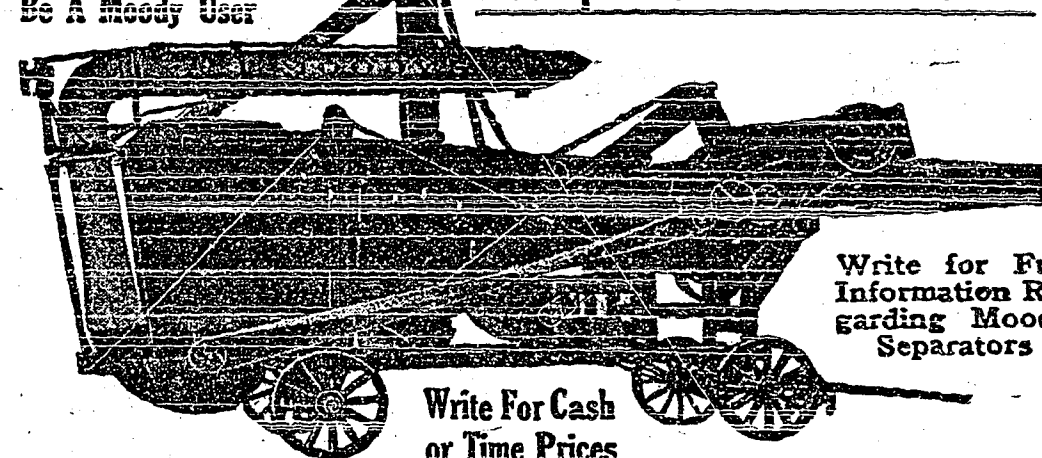

Minard's Liniment Cures Garget in Cows.

Ex-Kaiser Buys Estate

Utrecht, Holland. — Former Emperor William, who has been living at Amerongen since his arrival in Holland, has purchased the estate and house of Doorn, in the village of Doorn, near Utrecht, according to the Dagblad. The estate was bought from Baroness de Beaufort. It is about five miles north of Amerongen in the direction of Utrecht.

New Model, 1919, No. 2-30-38, with Moody Self-Feeder and Blower, requires 16-18 H.P. Engine. If you do not have an engine, secure prices on our 10 and 14 H.P. Victor Engine, made for Moody Separators, or our Parrett Tractors. If you have a Fordson Tractor or a 10-20 Tractor, you have just the right power.

The New Home Machinery Company, Limited, Camrose and Edmonton, Saskatchewan, Sask. Francoeur Bros., Mitchell Hardware Company, Limited, Brandon, Man. Alberta

Honor For General Currie

Is Made Full General, Inspector General for Canada, and Military Councillor to Government

Ottawa.—At a dinner given in Sir Arthur Currie's honor at the Country Club, Major-Gen. S. C. Mewburn, Minister of Militia, announced that the corps commander had been elevated to the rank of full general for the whole of Canada, and made military councillor, a position that means he will be chief military advisor to the Minister of Militia.

These promotions have been approved by the cabinet council, and merely have to be finally ratified by the governor-general in council, announced General Mewburn, who said that they were a slight expression of the appreciation of the services rendered by General Currie to Canada and the British Empire. This means that the commander of the Canadian corps has the distinction of being the first military officer in Canada and the only one at the present time to hold the full rank of general.

Each season has its specialty, and the hand that was blistered by the lawn mower now looks forward to the callouses of the coal shovel.

Catarrhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed for ever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

In spite of the fact that there are always so many people looking for trouble and so many people finding it, there seems to be always enough trouble to keep everybody who desires it supplied.

Death has evidently traded his pale horse for an automobile.

Germans Suspect Imperial Plot

Frankfort-on-the-Main, Germany. — It is the opinion of the press and public in Germany that the new coup in Hungary will result in the starting of a monarchist counter-revolution inspired and led by the imperialist entente, not only in Hungary, but in Europe generally. That the entente allied itself with the Hapsburg house to overthrow a moderate Socialist government at the very moment when this government was making every effort to lead Hungary back to democracy is inspiring the German monarchist counter-revolutionists.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

A human riddle is any man or woman you happen to know—including yourself.

Make a noise like a dollar and the world will give you the glad hand.

BENSON'S CORN STARCH

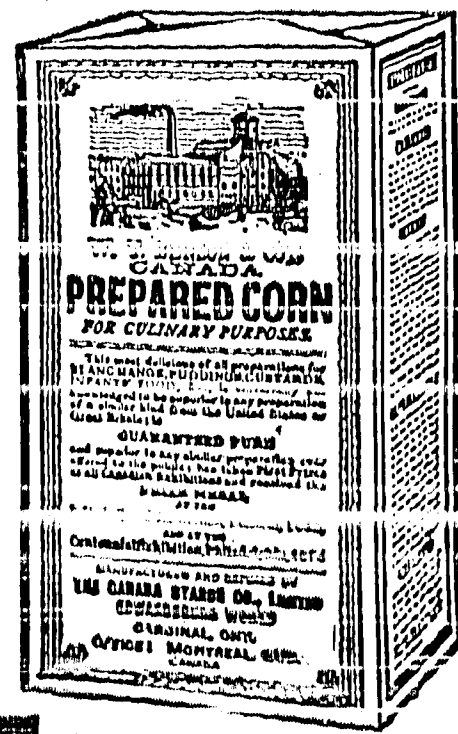

Desserts—Rolls
Sauces

BENSON'S is pure prepared corn starch, delicate and nourishing, unexcelled for all cooking purposes.

It improves the texture of bread, biscuits and rolls if one-third of the flour is substituted with Benson's Corn Starch. It makes pie crusts light and flakey.

There is a recipe for the most delicious Blanc Manger on the package, together with a dozen other uses. Benson's is the best corn starch for making sauces and gravies smooth and creamy.

Contains No Alum—Leaves No Bitter Taste

Local and Personal

FOR SALE—Good family cow, bargain for cash. Enquire REVIEW.

FOR SALE—McCormick mower, 5-foot cut, \$45. Monrad Wigen, Wynndel.

The September meeting of Creston G.W.V.A. will not be held on Saturday night.

FOR SALE—Cream separator, American, in first-class shape, \$12. C. Olson, Creston.

WHITE LEGHORN COCKERELS for sale, from heavy laying strain. Mrs. J. Stinson, Erickson.

Victor Mawson was a business visitor at Nelson a couple of days the fore part of the week.

The Best Ammunition

The bird and deer season opens to-morrow, with grouse takable for only two weeks.

With such a short bird season, and not much time to spare for hunting, it is important that you use the very best Shells and Cartridges.

This year we are handling the best to be had in these lines, and specially recommend the favorably-known Dominion goons. In these we have

Regal and Canuck

12 and 16 gauge Shot Shells, as well as a complete line of Rifle Cartridges.

Come in and see these goods, and let me explain the all-round advantages of the Canuck acknowledged by all sportsmen to be perfection in shells.

MAWSON

Service BROTHERS Prices

FOR SALE—Registered Jersey heifer, Jas. Cook, Creston.

W. K. Brown left on Tuesday for Spokane, where he is spending a few days visiting friends.

HORSES FOR SALE—Heavy horses for sale or trade for farm products. C. R. Paulson, Kitchener.

BICYCLE FOR SALE—A Rambler bicycle, in good condition, cheap for cash, at Bevan's garage, Creston.

The Cranbrook Courier announces the arrival of another son to Rev. R. E. and Mrs. Pew, on August 28th.

FOR SALE—Delivery wagon for one or two horses, practically new. Apply William Morrow, blacksmith, Creston.

Dr. Lillie, dentist, of Blaimore, is here on a professional visit this week, and is quartered over the Mercantile store.

WANTED—For the month of October, a helper to pick and pack apples, woman preferred. Apply H. Lyne, Creston.

Miss Jennie Nicholls left on Sunday for Flagstone, where she will again be in charge of the school at that point for another term.

FOR SALE—Girl's dark navy blue cloth coat with brown beaver collar, \$8; also girl's gray cloth skirt, \$1.75. Enquire REVIEW office.

W. V. Jackson announces the sale of a limited quantity of No. 1 preserving pears at \$2.25 per 40-pound box. Phone your orders direct to the ranch.

E. Bainbridge, who recently sold his ranch on the K.V. to Dayis, the sheep man, has purchased a property at Boswell, and is moving there to reside.

Prize lists and entry forms for the fall fair will be available on Saturday. As fair day is but three weeks away all are asked to get their copy early.

Mr. and Mrs. F. Belanger were Nelson visitors the fore part of the week, going in with their daughter, Jennie, who is to attend the convent in that city this year.

The Valley's vital statistics for August show three births, two marriages, and no deaths. In the newcomers the girls predominate, there being but one boy in the lot.

The tennis court on the Presbyterian church grounds, which Roy, T. McCord has been busy fitting up, is now ready for use, and was used for the first time Tuesday night.

Tuesday proved the biggest day this year for express shipments from Creston. Almost 400 packages of fruit and vegetables were loaded here that day, with another 300 from Erickson.

Final returns are now in on the W. V. Jackson pear sale. After paying all expenses the ladies have \$120 to turn over to the fall fair building fund.

Chas. Linn of Creston has joined up as junior on the staff of the local branch of the Imperial Bank. Mr. Linn, who has been here since the bank opened, has gone to Cranbrook.

Grouse and deer shooting seasons open to-morrow. So far there has been

no particular rush for shooting licenses, provincial police Vachon reporting only about sixty of them issued to date.

The new high school building is not yet completed, and the trustees have rented the Parish Hall at \$40 a month for a temporary high school purposes, the classes starting there on Wednesday morning.

The usual Methodist services at Creston and Canyon on Sunday will be taken by Rev. C. S. Eby, D.D., whom many will recall as having supplied the local pulpit for a time, about eight years ago.

The September meeting of the Women's Institute is called for Friday afternoon next, and a full attendance is requested as this gathering will have to arrange for the serving of refreshments fair day.

A special meeting of all the members of Creston Valley Red Cross Society is called for Tuesday afternoon at 3 o'clock in Speers' Hall. It is specially urged that all officers and members of the executive committee be in attendance.

S. Coop, accountant for the soldier settlement at Lister, who has been in the Coulter cottage on Victoria Ave., moved out to his new home at Lister the latter part of the week, and Mr. and Mrs. Garland now occupy the residence he vacated.

The picture machine and necessary electrical equipment for the Peekin theatre is expected by the end of the week, and along with it an expert to do the installing. If this arrives on schedule it is likely the theatre will be ready for business by the 22nd.

The Valley was favored with a pocket edition of an old-time thunderstorm on Sunday, during which about a third of an inch of rain fell. The wet goods will help late vegetables, as well as put some additional size on the winter apples, and color on all varieties.

According to the government returns the Valley enjoyed an August rainfall of 1.35 inches, with the hottest day on the 18th when the mercury got up to 93 in the shade, and the coolest on Thursday of last week when it registered as low as 42.

The best dance of the year is the way most of those in attendance describes the Labor Day evening "hop" in the Peekin theatre, for which the newly organized Peekin theatre orchestra furnished the music, and Roy Telford officiated as master of ceremonies.

PHOTOS—Wadds, the photographer, will make his annual visit to Creston this week, staying until Tuesday, Sept. 9th. If you appreciate good photographic work think over your requirements, and take advantage of this opportunity. All kinds of photographic work done.

Lloyd Couling is not numbered amongst those attending public school as yet. Whilst enjoying himself at a picnic on the flats on Friday last he had the misfortune to sustain a fall which resulted in a broken collar bone. However, he is now on the highway to recovery.

Friends of Hon. John Keen, the local M.P.P., will hear with satisfaction that he has successfully underwent a couple of serious operations in a Hamilton, Ont., hospital, and is now considered out of danger. He is hoping to be in Creston at the end of the month for the fall fair.

While Sunday's rain necessitated some extra handling of hay that had been cut but was not stacked, the rain has helped to clear the smoke-laden air and the sun is now curing the cut in old-time style. By the end of this week at least half of the anticipated 2500-ton cut will be mown, and most of it in stack.

Creston public school opened for the fall term on Tuesday morning, with an opening day attendance considerably in excess of last year, and a brand new staff of teachers in charge. G. P. Smith is the new principal, with G. Pezzer as first assistant, and Misses Roy and Hunt in charge of the two lower rooms—the latter the primary.

The deal was closed this week whereby the residential property of Fred J. Little was sold to F. H. Mayled, a returned veteran, who proposes keeping the growing vegetables under glass. This is a two-acre property, nicely adapted to Mr. Mayled's undertaking. The mayor will move into the old Atherton cottage on Fourth street.

Rev. D. S. Scott of New Denver was renewing old acquaintances here over the week-end, and took service in the Methodist church on Sunday night. He was the first permanent Methodist pastor here, and has the distinction of

having built the present house of worship used by that denomination. His pastorate extended from 1907 to 1910.

In connection with the opening of the moving picture theatre has come the organization of the Peekin orchestra, with Mrs. Foreman as leader; Mr. Cumling, violin; Alex. Lidgate, drums; and Mr. Woods, trombone. The organization is under business management of Floyd Rodgers, and furnished music for Monday night's dance in fine style.

The Board of Trade room should bulge with the attendance at the September meeting on Tuesday night. E. T. Drake, the Dominion superintendent of reclamation, is to be here about the 15th to go over Kootenay Flats, while on the 27th Nelson business men are here, and the help of every board member will be required, especially on the handling of the latter.

Dr. C. S. Eby of Vancouver arrived here the latter part of the week, and is investigating the Eby properties at Arrow Creek, with the intention of residing there and developing them to fruit and vegetables. He will have the Rev. M. E. Eby orchard tract which was planted out about six years ago. All told the Eby holdings account for about 120 acres, and one of the boys is expected shortly to inaugurate clearing and cultivating operations.

E. T. Drake, who is in charge of the reclamation and drainage work of the department of the interior at Ottawa, is expected to visit Creston on or about the 17th, to officially investigate the Kootenay Flats drainage problem. The Board of Trade had hoped to have Hon. Arthur Meighen, the minister himself, here last week, but owing to parliament opening on the 1st Mr. Meighen could get no further west than Lethbridge. However, he has done the next best thing in sending his deputy, Mr. Drake.

The Conservatives had a fairly good turnout for their re-organization meeting on Saturday night, over which John Blincoe presided. After some discussion it was decided to reform the association along the lines existing before the Unionist party came into existence, and the following officers were chosen:

President—E. Mullanaine.
Vice-President—F. H. Jackson.
Secy.-Treas.—Guy Constable.
Executive—Messrs. F. H. Jackson, H. B. Downs, R. J. Long, and Messrs. John Blincoe, C. O. Rodgers and R. J. Long.

For the Provincial convention the latter part of the month, at Vancouver, the following were named delegates: Mrs. Long, E. Mullanaine, G. A. Hunt, W. W. Hall and R. J. Long.

Wynndel

Messrs. Douglas Butterfield and E. Pitt-Brooke, who have been holidaying at Nelson, returned to Wynndel, the latter part of the week.

Mrs. Packman arrived from Calgary, Alta., on Friday, to join her husband, who lately purchased ten acres from J. J. Grady, near the school.

Quite a number from here were at Creston for the dance on Monday night, and say it was about the best affair of the sort the town has had this year.

Haymaking is the order of the day here and the town is deserted pretty much in consequence. John Huscroft has put in a camp here and is erecting hay sheds, having a contract for 300 tons from the livestock association.

Postmaster Butterfield is leaving this week for Proctor, on his annual week's vacation. He thinks Proctor the ideal resort for rest and recreation.

Monrad Wigen unloaded a couple of cars of rough pine lumber which he shipped in from Copeland, Idaho, the latter part of the week. He is using it for the ends of apple boxes.

Former school principal Dewar and son were here this week and are reported to have bought the upper half of the late Bob Dixon's ranch, which they will proceed to get ready for cultivation. Mr. Dewar may locate definitely in the real estate and insurance line at Creston.

Bank manager Lafferty has just grown nineteen peaches that fill a basket, at Rossland, which accomplishment tempts the Miner to remark that as a fruit growing country the Rossland territory is hard to beat.

Preserving

PEARS

\$2.25 per Box

These are the favorite Bartlett's; they are wrapped, and are in every respect equal to No. 1's except that they show the effect of limb-rub slightly. The quantity is limited, so phone orders early direct to the ranch.

W. V. Jackson - Creston

The end of the 1918 Apple season, owing to certain conditions, saw Growers and Shippers taking considerable losses on Apples.

We are always up against the probability of car shortage, and liable to have to face conditions similar to 1918 at any time.

Much of last season's losses would have been avoided if all our Winter Apples had been wrapped, for the reason that buyers were afraid to chance shipping unwrapped stuff in cold weather.

It is the best kind of price insurance to wrap Winter Apples. To help Growers to do this we are selling MacIntosh and Wealthy apples Orchard Run—these to be put up what is known as "face and fill," and must not have one's packed out.
