THE CRESTON REVIEW

VOL. XII. CRESTON, B. C., FRIDAY, NOVEMBER 12, 1920 No. 36

Lister

C. H. Phillips was a Cranbrook visitor the latter part of the week, attending a memorial service in connection with the observation of Armistic Day.

Jos. W. Bell is a visitor at Nelson this week. Col. Lister is still at the north end of the riding, and reports reaching here are to the effect that he is meeting with encouraging receptions at all points.

An amateur burglar is operating in the camp, but from all accounts is not getting rich on the job. A couple of residences haye been unsuccessfully visited.

Friends of Roy Burness are living high just at present, due to the fact that he shot a couple of deer while out hunting on Saturday—one of which went 130 pounds dressed. Bert Yerbury is the only other resident to have secured ysnison previously.

Clarence Embree is busy on the erection of a new house on the permanent lotation of W. Hurl. The Hurl shack was transported to the owner's new location via the caterpillar engine process.

At the meeting of the Literary. Debating and Dramatic Society on Wednesday night last President Harry Brown tendered his resignation as head of the organization in favor of Principgl Lewis, who has consented to take full charge for the coming three months.

The annual meeting of the Ladies' Auxiliary of the G.W.V.A. was held on Saturday afternoon, when the following officers were elected for the ensuing term: President, Mrs. V. L. Liddicoatt; Vice-President, Mrs. F. A. Butler; Secretary-treasurer, Mrs. A. R. Webb; Executive—Mrs. Jess Filmer, Mrs. John Bird, Mrs. W. Mitchell. The ladies have had quite a successful year of it, and great headway has beed made in paying off the debt on the piano.

The latest of the list of raffles is that of a driving horse on which tickets can be had at $1 apiece, the funds realized are to go toward the piano debt.

Wynndel

Mr. and Mrs, Joy who have been visitors at the coast, returned home the latter part of the week.

D. and E. S. Butterfield arrived back unexpectedly from the prairie on Thursday last. There is already five or six inches of snow in Alberta, and still coming.

Mrs. Cockle was hostess at a card party and dance at the boarding house on Saturday night, and all present report a most enjoyable time.

Mr. and Mrs. Pitt Brooke left on Friday on a v;sit to friends at Balfour and Nelson.

Pat Dow was a "flying" visitor this week. He passed through on the eastbound freight.

The newly-wed section of Wynndel is being provided, by the government, with a road, to facilitate their journeyings up and down the mountain side.

J. McGee of Lifter is due here on Saturday night for a United Farmers meeting at the school at 8:30, when he will speak on behalf of the candidature of Col. Lister. Conservative candidate in the pending provincial election.

District Health Nurse at Work

Miss McCluhan of Edmonton has taken up the work of district nurse for Creston Valley. Miss McCluhan is a post graduate nurse with three years experience in district nursing and is a regestered nurse in Albtrta and B.C. That the district needs a nurse goes without argument; in fact some people would go to the extent of saying that for a district the size of ours to be without competent nurses amounts almost to criminal negligence. Miss McCluhan is capable of making the work a success and for the time being will be supported largely by Red Cross and Government aid. This aid will be forthcoming only during the time that the work is in the experimental stage, and it is just as well for everyone to understand at the outset that if Creston is to haye a permanent nurse the district itself will have to furnish the necessary funds. This we are quite capable of doing and it seems quite certain that after Miss McCluhan has been here for a few months the work will seem so essential that everyone will be eager to have it continued and willing to shoulder the financial end of the burden.

Until permanent quarters are secured Miss McCluhan will be at the home of Mrs. S, A. Speers and may be called by messanger or telephone at any time. It is desirable that all cases of illness requiring the nurse's attention should be reported and such a report may be sent in by anyone who has knowledge of the case requiring attention.

For the present transportation will have to be arranged for out of town calls but in the very near future a car will be furnished for the nurse's use, making it possible for her to attend country cases promptly. Hours are from 8.30 to 5; night calls will be responded to after 6 but only for confinment and emergency cases, and an additional charge will be made for night calls; calls will necessarily be limited in time from twenty minutes to one hour, according to the urgency of the case, but where necassary more than one will be made each day.

In a district like Creston, there is no need for charity nursing, and a charge will be made for all calls. This charge will not be a fixed one and in no case will it exceed the ability of the home to make the paymrnt. A maximum fee of $1.00 has been set; children will have free attention.

All fees paid to the nurse will be turned in to the local Health Committee and these fees, together with the voluntary contributions of the district, will go towards paying the nurse's salary and any x drugs, dressings, etc, which she has to procure tion is not paying expenses the big corporation loses no time in closing it until such time as they are compelled to reopen. Up till a month ago things were going swimmingly but only last week one of the officials were here checking up things and it is safe to say that if the volume of trade is not increased it will not be many weeks till there will be no agent at Erickson. Everyone appreciates the convenience of having the station open, and certainly no agent could be more accommodating than Mr. Bundy. If all who find Erickson sheir most convenient shipping centre will do every bit of C.P.R. business they have there there will be no occasion to worry; unless they do turn all their railway trade Erickson way be warned in time that the agent will be transferred to some other point. All together now, Erickson boosters. SHIPPER.

Erickson

Mr. and Mrs. F. J. Klingensmith, who haye been making tneir home at Biairmore, Alta., for the past six months, got back on Thursday for the winter.

Mr. Schonnert of Kitchener was through here on Saturday on an apple purchasing trip. He seems favorably impressed with Erickson as it was only a few weeks since he made the local rounds buying cattle.

Milt Beam is the first of the hunters to land a deer this season. He got quite a nice sample of venison in the Kitchener country on Friday.

Intentionally or otherwise a dog-poisoner is at work in this section, and already a couple of likely canines have disappeared. If no scraps are left lying around to attract hungry dogs no one need worry about dogs annoying them.

Mr. and Mrs. Thompson and two children of Medicine Hat, Alta., were visitors with Mr. and Mrs. Henry Hamilton last week. They are hoping to get work in the Valley for the winter, possibly at Kitcnener.

Annie Botterill is coming around nicely after having had the bad luck to break a leg while playing around the ranch about a week ago.

The C.P.R. auditor paid station agent Bundy an official yisit last week, checking up the volume of trade to date. Things are very quiet around the depot at present. If the station is be kept open all the year round Erickson people will haye to see to it that all their shipping, etc., is done through here. With the C P.R. dividends come first; public convenience is a matter of secondary consideration.

Canyon City

Matt. Clayton put a considerable dint in the high cost of living on Saturday when he had the good fortune to bring down a fine buck deer which dressed 200 pounds. This is about the finest sample of deer meat taken in this section for years.

John Wood, who has been in charge of the Deschamps mill at Birchbank for the past six months, got home the latter part of the week for the winter.

The school trustees are not anticipating a winter out of the ordinary. Their call for tenders for wood is only for ten cords.

The United Farmers have decided to develop the trading side of the organization, and are this week placing an order for a carload of hay.

Axel Bergren, who has been working at Blairmore all season, got back last week, accompanied by his family. Since leaying Axel has purchased a Ford car, which he bronght with him. They are occupying the Gilbert house at present.

The United Farmers had their November meeting on Monday night and at which it was decided to change the night of meeting for the next few months to the first and third Fridays. At the next meeting the representative of the new Creston library will be here to explain matters in connection with the library, and a musical and literary programme will also be a feature of the Dec. 3rd meeti ng.

Agreement is Adjusted

VICTORIA, Nov. 12—All clauses in land settlement board agreements by which improvements made by the soldier settlers might be forfeited to the board if the settlers were ejected by the board for non-performance, were ordered deleted today by Premier Oliver.

"Such clauses should never have been in any of the board's agreements," said the Premier. "The matter was first brought to my attention on my recent visit to Creston when requests were made that the clauses should be amended. The clauses were put in by officials of the board.

"But after going into the matter we have decided to strike them out altogether and they are to be struck out in all agreements with soldier settlers in all areas."

The Premier sent this telegram to the superintendent of the settlement board at Camp Lister, Creston.

"The objectionable clauses of the proposed soldiers' settlement agreement are deleted by the settlement board at my request."

Scarcely Credible

To be able to get a Ladies' 14-kt. gold Wrist Watch on a neat silk ribbon with a gold fastener, ana to know that in its timekeeping it is the equal of many watches four times its cost, is to feel that $45 is very easy money.

Yet it is true—our No. 830081 is a marvel of watch-making in the precision, adjustment, appearance and durability.

And it is "Guaranteed, of Course."

LETTERS TO THE EDITOR

A Dog Poisoner

EDITOR REVIEW:

SIR,—Might another Erickison subscriber remark that Cananians also consider a man worse than a coward who will keep a pail of scraps at his back door to entice the neighboys' dogs to go there. Then he sets traps to catch them. Of course he lets them go again; but they donit go far, and are found dead next morning. And he says he is sorry; it was the other neighbor's dog he was after.

FAIR PLAY.

Erickson Station

EDITOR REVIEW:

SIR,—Knowing that your excellent paper goes into practically every home in the Erickson and Canyon districts I would like a little space to direct the attention of all residents in these districts to the fact that all will have to turn every bit of business they have—either in freight, express, telegrams, railway tickets—or we are apt to haye the station at Erickson closed again. With the C.P.R. business is business, and any time a sta-

The Candidates

At this particular time when it is the duty of every citizen who has the interests of the province at heart to consider carefully the effect of his ballot at the forthcoming election upon the destinies of the province for the next four years, it is well to remember that in the last analysis the success or failure of the administration by any government must depend upon the ability, integrity and administrative capacity of its individual members.

The action of the Conservative party in selecting Colonel Fred Lister, C.M.G., D.S.O., M.C., as a candidate to represent this riding in the provincial legislature, is a singularly happy one, as during the whole of his career, except during the war when he was with Canada's sons in France in the service of our country, he has been engaged in agriculture and lumbering, two of the main industries of our riding, and should therefore, have a better knowledge and grasp of the needs and requirements of the farmers and lumbermen in it. He is also fully alive to the great importance and value of the mineral wealth and mining activities of the district and to the necessity of building roads and trails for the purpose of opening up the country.

Colonel Lister needs no introduction to Kootenay residents, as he has lived and worked in the Kootenays since coming from the prairies, where he was engaged in farming, in 1907; and immediately upon his return from France purchased land near Lister, which is named after him, which he is clearihg and making his permanent home.

The active interest and unsparing effort which Colonel Lister has shown in the interests of the returned soldiers and toward their successful re-establishment has made him immensely popular not only with the returned soldiers of the riding, but also with all those who have their interests at heart; snd if he is elected to represent this district the electors can feel sure that their every interest will have that thorough and careful consideration and aggressive support which characterises Colonel Lister's undertakings.

The appeal of John Keen, the Liberal candidate, for re-election can safely be based on his own record of beneficial service rendered his constituents, coupled with the progressive legislation enacted by the Oliver government in the interests of the province generally.

So far as Creston Valley goes no fair minded person can deny that Mr. Keen has been an exceptionally useful representative along practically every line that this community depends upon the provincial government for co-operative or direct assistance.

In the matter of our roads the Valley has fared equally as well as any part of B.C. This year a quite substantial start has been made in providing a permanent road on the heavily-travelled highway from town to Erickson, and this work will be continued to a much larger extent next year.

In providing for better means of communication into East Kootenay points and thus encouraging a greater volume of tourist traffic a tremenduous improvement has been made at Goat River crossing where a hill with a 27 per cent. grade has been entirely eliminated by a cutoff that reduces the grade to about 7 per cent. At Arrow Creek work of similarly beneficial nature has been undertaken.

To connect East and West Kootenay work is now under way on the Sirdar-Kuskanook road and improvements to the road between Wynndel and Sirdar are also included in the appropriation made available for the highway to Kuskanook. Canyon City section is now provided with its long desired high level bridge, the advantage of which there is no need to recount here.

With so much attention to and the bulk of the expenditure on new roads the past two years, of necessity the existing highways have not received quite the attention due them, but 1921 will see a policy inaugurated of putting the existing highways in the best possible shape so far as appropriations will permit.

In the very important matter of irrigation Mr. Keen has been successful in having an exhaustive survey made of Arrow Creek with a view to utilizing it for a Valley irrigation supply, and a preliminary investigation has been made of Goat River for the same purpose. Still more tangible evidence of his usefulness is evidenced in the loan the Erickson Water Community secured for irrigation, and the same worth while consideration that seems assured for a similar undertaking at Canyon City, as well as the East Creston project.

On the drainage of Kootenay flats the government, at Mr. Keen's constant urging, has got the scheme along to the point where Canadian and U.S. authorities are in communication endeavoring to adjust all preliminary details so that when both countries decide to jointly put engineers at work there need be no delay in getting at the actual work that will decide whether the scheme is practicable or not.

Still another matter that has unmistakably demonstrated Mr. Keen's usefulness is the opening up in Creston Valley of one of the two active soldier settlement areas in B.C. Just what Camp Lister has already meant to the prosperity of this section is too well known to need any elaboration—and in the prospective colonization policy of the Oliver government undoubtedly this area will receive practical consideration.

While Mr. Keen numbers himself among the residents of Kaslo he has over shown a decidedly active personal interest in all matters affecting Creston Valley. Certainly the Creston fall fair has no warmer and practical supporter than Mr. Keen, and in the work of the United Farmers and Board of Trade committee on municipilization Mr. Keen has rendered valuable services.

Mr. Keen has been a resident of the Kootenay for at least a quarter of a century, and no other man is in a better position to know its needs or to make a practical and sympathetic effort in promoting legislation helpful to the section of the province in which his personal as well as legislative interests are

If the best recommend a successful business man can have is ability to deliver the goods, certainly John Keen can look forward with confidence to the electors of Creston Valley doing the squrre thing by him in the voting on December 1st.

Kaslo constituency is in a fortunate position in connection with the pending election, for no matter whether Col. Lister or John Keen is elected this riding will be well represented.

HEAVY HORSE FOR HIRE—9 year old, weighs 1400, in good shape, wil hire out for six months. Apply Dong Barney, Pacific Restaurant, next Mawson Bros. store.

'Mother's Favorite' Flour

Our customers will welcome the news that we are again stocking the old reliable "Mother's Favorite" Flour—equal to any and superior to many—at $6.35 for 98's.

For those who like a coarser grade we have a brand at $5.75 for 98's.

Also PRIDE OF ALBERTA, a high grade Flour, at $6.50 for 98's.

LIMITED

What the New Conservative Government Will Do if Elected to Office

1. They will gixe you an efficient and economical Administration.

2. Present Government cost of administration is one quarter of the Revenue. We will reduce this. But not in such a way as to effect the Public Service and at the same time pay reasonable salariee, considering the high cost of living, to those in the employ of the Government.

3. They will do everything possible to encourage and assist in developing natural resources.

4. They will try to establish, as they did in the past, more pulp mills in this Province.

5. They will restore our credit in the money markets where they left it in 1916.

6. They will follow out their original policy of 1914 in extending the Pacific Great Eastern Railway into the rich Peace River Country and touch the great grain growing area of Western Alberta.

7. They will encourage prospecting in both minerals and oil and will cancel the reserves which the Oliver Government has placed on coal, iron and oil in this Province.

8. They will go into the money markets and borrow money at the lowest possible rate of interest and re-loan it to farmers in loans from 10 to 40 years.

9. They will institute a proper and practical policy of encouraging soldiers to go on the land.

10. They will give assistance to the Municipalities by paying them a per capita grant from the Consolidated Revenue which will have the effect of reducing taxes.

11. They will encourage irrigation in the portions of the Province requiring it by assuming Government ownership and control of the water for irrigation purposes, construction of storage surveys and main canals as public utilities.

12. They will also assist the distribution of irrigation water by guaranteeing of bonds of water municipalities.

13. They will give consideration to further necessary irrigating facilities by means of assistance to hydro-electric projects.

14. They will introduce legislation and carry into effect the declared wishes of the people as expressed in the recent referendum on liquor; at the same time this Act must be a fair and reasonable one to that the Government will have absolute control of the traffic and that there will be no abuse in the uses of liquor but same to be used only in moderation. Heavy penalities will be included in the Act for all infractions and the Act will be strictly enforced. They will also use every effort with the Dominion Government, under whose jurisdiction the matter lies, to see that legislation is passed at Ottawa which will stop the importation of liquor into this Province by private parties so that all liquor purchased and sold in British Columbia will be absolutely under Government control.

15. The Conservative Government will also hand over to the Municipalities a share of the profits derived from the sale of liquor in the Government stores so that the burden of taxation in Municipalitis may be reduced by this contribution from the Government.

16. The above are only a few of the reforms which will be instituted by the Conservative Government should they be elected on the 1st of Debember, as they stand pledged to adopt a constructive business-like programme which will be administered by business men, looking forward to a more successful period in the next five years and with more results than we have seen under the Oliver Administration.

NEWS OF KOOTENAYS

Revelstoke is already resorting to a tag day to help finance the new public library.

Starting last month teamsters and other city labor at Trail will be paid at the rate of $4.55 per day.

The United Farmers have opened a store at Midway, which is open every Wednesday afternoon and all day Saturday.

22 new telephones were installed at Trail in September, bringing the total of new installations since the first of the year up to 65.

The young men of Greenwood are after the city council for the free use of the old Star theatre, which they will fit up for basketball games.

Trail has absolutely no houses to let, and rooms to rent are becoming almost as scarce, much to the displeasure of the smelter management.

If sufficient interest is manifest Rossland trustees will start night school to give instruction in furniture construction and carpentry and joining.

Enormous quantities of green tomatoes were left on the vines this year. The weather was unfavorable for ripening, and there was no demand for green stuff from the Okanagan.

A BUSINESS GOVERNMENT

PROVED and APPROVED

When the Oliver Government assumed office four years ago the credit of British Columbia was so low that it was impossible to sell British Columbia bonds except at a sacrifice which no business administration could possibly consider.

The last Million Dollar Bond Issue of the Oliver Government

which was put on the market in October, 1920, brought a premium of over $33,000, making the low rate of interest of 4¾ per cent. per annum—a better price than that received by any other province for a similar loan.

MR. A. G. HASKELL, a banker from Seattle, Wash., said in an interview with the "Times." Oct. 16, 1920:

"We sold the whole $1,000,000 worth of the last lot in an hour. British Columbia securities are now regarded favorably by investors from Seattle to San Francisco, They realize that Hon. John Hart, your Minister of Finance, has put the Province back into a sound financial position. The Province, so far as outsiders who have money to invest can see it, is now in quite a different financial position from what it was in the past. Careful management has brought back its credit."

THE LIBERAL ADMINISTRATION

HAS PROVED ITSELF TO BE

A BUSINESS ADMINISTRATION

Continue a REAL BUSINESS Government at Victoria for the next five years by voting for Liberal Candidates on December 1st.

WATER NOTICE
DIVERSION AND USE

Take notice that Kitchener Timber Co., Ltd., whose address is Kitchener P.O., will apply for a license to take and use 25 cu. ft. per second of water out of Russel Creek, which flows north and drains into Goat River about the junction of Meadow Creek and Goat River. The water will be diverted from the stream at a point about 1¼ miles from mouth of creek, and will be used for fluming purposes upon the timber lands known as Nos. 9356, 9357, 9358, 9359, 9365. This notice was posted on the ground on the 28th day of October, 1920. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Nelson, B.C. Objections to the application may be filed with the Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within 30 days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is November 5, 1920.

One Continual Round of Value Extraordinary.

Mercantile Hall at whist and dancing, with cards due to start at 8.30 and dancing sharp at 11. The admission is 75 cents, which includes supper, and a welcome for all.

R. B. Staples was a business visitor at Grand Forks last week, getting back on Friday with a Dodge car, which the firm invested in this fall. It is the roadster type, and certainly the most stylish looking auto of its kind in the Valley.

For the closing day of the big sale at Speers' store to-morrow very special offerings in prints and ladies' hose are featured, along with generous cuts in prices on all other lines. It is expected wind up day will even exceed the opening day's trade.

Chorlton's orchestra made its first out-of-town appearance on Saturday night at Kitchener, where it furnished music for a housewarming dance that Mr. and Mrs. McGonegal gave in the new Paulson Mason warehouse, and which was very largely attended.

For their bazaar on December 1st, which also happens to be election day, the English Church ladies are making provision to serve refreshments for out of town people who are sure to come to Creston to hear the returns of the voting. The bazaar is being held in the Parish Hall.

The Women's Institute Armistice Day whist and dance in the Parish Hall last Thursday was well attended, there being about two dozen tables at cards and a still bigger crowd when dancing started, the evening's intake being in the neighborhood of $90. The winners at whist were Mrs. Cherrington and Miss Lyda Johnson, and Messrs. Harold Goodwin and Gerald Craigie.

H. Brody, the Imperial Oil Co. representative, Nelson, was a business visitor here the latter part of the week. The firm is already finding their storage capacity at Creston too small and the warehouse will be enlarged next spring. Within the past two months H. S. McCreath, who is in charge here, states that sales of coal oil alone in this territory have been around 2500 gallons a month.

UP-GRADES

aren't apt to worry the owner of a good car so much as the upkeep.

Sooner or later repairs are needed. Then it isn't so important to consider the first cost of the work done as it is to have the

Auto Repairing

done right. Durable materials used and the job done understandingly, to last and give satisfaction.

Our charges are fair, our work right. Try us.
