THE CRESTON REVIEW

VOL. XIII. CRESTON, B. C., FRIDAY, MAY 13, 1921 No. 15

West Creston

Chas. Meakin, who recently sold his ranch to McCreight & Newberry, is on a visit to old friends at Coleman, Alta. before moving to the coast to make his future home.

Mrs. Frank Tompkins got back on Wednesday last from a visit with her sister at Bonners Ferry, Idaho.

Road work commenced in this section last week on a bad piece of highway between twin bridges. The repair work was badly needed and the crew is making a good job of it.

F. K. Hurry is getting an acre on the old Dan English ranch ready to plant out to strawberries. He plans to jam the fruit and ship it to Nelson for manufacture.

Messrs. Beazer and Olsen of Creston were business visitors here last week, looking over the Callander, Fass, Wilson, and other places for a stand of timber from which to cut a supply of poles.

Matt. Moores is expected home any day now from Coleman, Alta., where he successfully underwent an operation for appendicitus last month.

Mrs. French and Master Johnny left the latter part of the week for Grand Forks, where they will visit with friends for a few days.

Frank Tompkins is not taking the high water theory real seriously. Last week he was getting things in shape to plant a considerable acreage to potatoes in the neighborhood of the Davis sheds.

Jack Stephens, who arrived last week from Nicola, says he will make extensive improvements on his ranch here, and will be remaining until early fall. Mrs. Stephens will join him next month.

Alice Siding

Mrs. H. G. Cockle, who purchased seven acres of Dr. Wells ranch property here just about two years ago, disposed of her property last week to John Johnson, sr., of Wynndel, who, we understand, will take possession almost immediately. Mrs. Cockle is at present a resident at Wynndel, and contemplates buying an unimproved place in that neighborhood.

Manager Loveday of the Fruit Growers Union successfully tried out the K.V. abandoned right of way as an auto road, making the trip from town to Victor Carr's on Sunday quite successfully.

Mrs. Ash continues to make a nice recovery at the Cranbrook hospital, and from reports will likely be home before the end of the month.

Mrs. Morgan Long, who some few years ago made Alice Siding historic at successful poultry raising, who is now at Oakville, Wash., is doing similar good work over there, a couple of this year's cluckers producing 14 chicks from the same number of eggs.

Dandelion wine in both quantity and quality should be in evidence in most Alice Siding households, judging by the raids that have been made on local dandelion patches.

In the school children's gopher killing contest Everard Constable and Reg Smith are in the lead, the week-end slaughter of these animals being particularly heavy at present.

Mrs. Hester (nee Franklin) whom moderately oldtimers will remember, arrived the latter part of the week, and is a visitor with Mr. and Mrs. McMurtrie, with whom she resided up till her marriage at Cranbrook in 1915.

Lister

Mrs. Finlay of Cranbrook is a visitor with her daughter, Mrs. Vinc. Liddicoatt here at present.

Word has just been received here of the safe arrival in England on Friday last of Mrs. Norman Stones, who left here on April 21st.

Mr. and Mrs. F. A. Butler and baby are holidaymakers this week on a trip to Nelson. F. Powers was also a Nelson visitor this week, spending the week-end in that city.

C. H. Phillips is changing the appearance of the landscape this week by stumping another four acres of his ranch. Sperry S. Phillips, who has been taking the agriculture course at the B.C. University, Vancouver, has returned to spend the summer on the farm.

The main road between the school and the Webb ranch is much improved since the road crew graded it and put in about five new culverts to replace the old log fills.

Mill superintendent Finlay is certainly working the plant to capacity these days, and it is estimated there is now about a quarter million feet piled in the yard. Three teams are kept busy hauling to the different ranches.

Everyone should be at the dance at the schoolhouse on Saturday night, under Ladies' Auxiliary auspiees, the proceeds to go to a fund to give the children a picnic on May 24th. An admission of 75c. will be charged, and swell music will be furnished by Mesdames Lister and H. Christensen.

Settlers are having quite a busy time of it getting acquainted with their new outfits of implements. A large quantity of apple trees are already set out and more of them going in every day. There will also be a considerable area planted to potatoes this year. Col. Lister's place certainly has them all beaten for outdoor appearance at present, a five-acre field of fall rye setting it off to perfection.

There was a fairly good turnout for the May meeting of the United Farmers on Friday night, which was in charge of President Fred Powers. The feature of the session was an address by Hon. President Col. Fred Lister, M.P.P., on the position of agriculture in the development of the province. His talk was a thoroughly practical one and was appreciated by all. Messrs. Mitchell and Langston reported on the recent meeting at Erickson at which the co-operative association was launched. Before adjournment President Powers fully explained the government's new policy of supplying powder on the rebate principle.

Miss Austed, principal of Lister school, issues the following report for Division I. for April. Proficiency: Senior Fourth—Frank Alexander. Junior Fourth—Muriel Millington, Jennie Chalmers, Ernest Stevens. Junior Third—Frances Malthouse, Doris Millington, Cora Frampton. Second Reader—Dorothy Weston, Alex. Mitchell, John Malthouse. Perfect attendance—Jennie Chalmers, Harold Baechler, Cora Frampton, Jack Jory, Frances Malthouse, Doris Millington, Muriel Millington, Dorothy Weston.

For Division II. Miss Holmes reports as follows: Proficiency: A Class—Fred Weston, Charlie Malthouse, Jack Bird. B Class—Doreen Butler, George Frampton, Fred Yerbury. C Class—Margaret Chalmers, Lucy Lye, Albert Weston. First Reader—Peter McKay, George Chudley. Perfect attendance—Jack Bird, Margaret Chalmers, Agnes Sinclair.

Kitchener

Mrs. Driffill of Creston was a between trains visitor here on Sunday with Mrs. Hunt.

Mr. Crowe of the Kitchener Timber Co., Ltd., left Friday for Vancouver.

Miss Alice Lidgate motored up from Yahk on Sunday and was calling on old Kitchener friends, and was Mrs. Hunt's guest during her stay.

Miss Schmidt, principal of the school returned on Sunday from Creston, where she had spent a couple of days with friends.

Mrs. E. McGonegal was a week-end visitor at Creston.

The Musical Mysties show was put on at the Kitchener Hotel on Saturday night, and was followed by a dance which attracted a large attendance.

Owing to the high water part of the dam at the new Paulson mill has been washed away, which will delay operations for some time.

Mrs. M. J. Boyd of Creston spent Tuesday and Wednesday here, the guest of Mrs. Hunt.

Mr. McDanlles, millwright for the Kitchener Timber Co., arrived from Vancouver on Friday.

B. Booth and Miss Clara Little, both of Lister, were visitors here between trains on Sunday.

Percy Watson got back on Sunday from his usual week-end trip to his home at Creston.

G. A. Hunt made a trip to Erickson on Sunday. Mrs. Hunt was also at Creston for the week-end the guest of

Miss L. Pendry of Creston spent a few days with Kitchener friends last week.

Few New Roads Built This Year

Widening and otherwise putting in first-class shape existing highways will largely be the effort of the public works department in the country between Kuskanook and Goatfell this year according to the district engineer, Wm. Ramsay, who spent yesterday and today at this end of the Kaslo riding, inspecting operations already under way, and laying out future work.

In company with road superintendent Moore, Mr. Ramsay has covered the entire stretch of territory between Goatfell and the new wharf at Kuskanook this week, and including a new stretch of about a mile and a half at Arrow Creek, to connect on to the diversion put in last year at the Goat River hill, and another piece of about equal length between Wynndel and Sirdar, Mr. Ramsay estimates that a sum of approximately $60,000 will be required to provide a first-class highway between the two points aforementioned.

It is confidently expected that the Dominion government will provide 40 per cent. of the cost of these two pieces of new road, and on the Wynndel-Sirdar stretch plans and all other information has already been sent to Ottawa, and it is hoped assurance will be received from Ottawa in good time to get that bit of work done this year. In the meantime some very badly needed repairs have been made at points on the old road to Sirdar, so that by the end of the week autoists can get through to Kuskanook on fairly good travelling. Shortly Ottawa will also have all the data it requires on the new road at Arrow Creek and if the federal department takes reasonably speedy action there is no reason why both pieces of badly needed new highway should not be at least under construction this year.

On his trip over the territory Mr. Ramsay found a great improvement on the road between here and Goat River crossing, and it is the intention this year to make heavy expenditures in widening and otherwise improving the road from Goat River bridge to Goatfell, which is really the worst stretch of road the autoists encounters on the journey from the prairie through the Kootenays.

While here on Tuesday work was started on the hard surfacing of the road through town out toward Alice Siding, and after that stretch is complete a start will be made at where operations ceased last fall at Crawford's hill, and the good roads will be built through to Erickson. An appropriation sufficient to operate for five months is available, and it is expected this will be sufficient time to put down a permanent road between town and Erickson.

Mr. Ramsay stated that the plans for the new Kootenay River ferry are complete and are in the hands of the departmental official at Victoria, and it is expected tenders for the construction of the new scow will be called for before the end of the month, so that its construction can be proceeded with an installation be made as soon as the high water is past. Before placing the scow a thorough investigation will be made of several new sites and if feasible the ferry will be moved to a better location, possibly at a point opposite the Goat river bridge, which, if feasible, would shorten the round trip to West Creston and points beyond the Kootenay almost two miles. Now that almost half the flats hay cut has to be brought from areas beyond the ferry this saving of distance would be largely appreciated. While no definite announcement is made it is expected the new ferry will be power-operated, and will be at least [illegible] ferry barge.

Winch-Huscroft Nuptials

Rev. G. Knox officiated at a very pretty home wedding on Thursday morning, at which he united in marriage Miss Doris May, eldest daughter of Mr. and Mrs Morris Winch of Park Road, to George Huscroft, of Wynndel, the ceremony being performed in the presence of a small company which included only the immediate friends of the contracting parties. The bride was gowned in white satin, and was attended by her sister, Miss Florence Maud Winch, as matron of honor, whose costume was of white silk. After the ceremony the company sat down to a sumptuous wedding dinner, Mr. and Mrs. Huscroft leaving in the afternoon for their home at Wynndel. The groom has been a resident of the Valley for quite a number of years and is widely known, while the bride in good measure, enjoys equal popularity, and the best wishes of a wide circle of friends is extended the happy couple for a long, happy and prosperous wedded life.

May 24th at Cranbrook

Preparations for the big celebration at Cranbrook on the 24th of May, under the auspices of the G.W.V.A., have been practically concluded. The various events and attractions lined up for the day's entertainment indicate that this celebration will be the best that it has been the good fortune of the people of the district to enjoy.

The big events of the day will be the horseracing at the fair grounds. Between fifteen and twenty of the best harness horses are being shipped in from Calgary and Spokane, for three races. Several runners are coming from Calgary, and in addition a big string of horses from the Tijuana race tracks, in Mexico, are stopping over en route to the prairie circuits to take part in the running dashes. Altogether somewhere around $1500. in purses is being hung up, which is a sufficient guarantee that the spectators will get their moneys worth in entertainment.

In addition to the racing there is to be a baseball tournament between Fernie, Wardner and Cranbrook, football, and track sports.

The day commences with a big parade in which most of the three hundred and more motor vehicles in the district are expected to take part. The best music in the district has been engaged for the day to keep the folks in good cheer.

The day's entertainment will wind up with two big dances. All in all it looks like the biggest day of the year, and no one will want to miss being in Cranbrook on the 24th May.

Wynndel

C. W. Allan, manager of the Imperial Bank at Creston, was a business visitor here on Monday.

Monrad Wigen is having his motor boat repainted and put in good running order now that the water has started to rise.

Several fine catches of char have been made here this week in the Goat River channel. The creek has also given up some fine specimens.

The baseball team had a fine practice match last Sunday and figure that with a few more such workouts they will be able to give Creston a better game very soon. All ballplayers are asked to put in an appearance on Thursday nights and Sunday afternoons.

L. C. Payette is the latest purchaser of a ranch, having bought a 20 acre lot from Mr. Cory right behind the E. Uri place. Clem. figures it pays to have a place of your own and thus avoid frequent moves and attendant fixing up.

J. D. Moore, road superintendent, was a business visitor here on Sunday looking over the various roads, and finding out exactly what really needs doing.

Warm weather and rain combined has started the snow melting pretty fast. Duck Creek has more water in it right now than the old timers remember seeing for months.

Sunday, May 15th, the United Farmers are holding their first picnic of the year. Everyone is requested to meet at the depot at 9.30, so as to be ready for the start to the picnic grounds at 10 a.m. sharp. Ladies are again asked to bring a liberal supply of refreshments as it has been decided to stay out all day and well into the evening.

Saturday night, May 14, the Athletic Club will have their last dance of season in the Clubhouse, starting at 8.30 prompt. The dance will be in the form of a bow and weight dance. Every lady is requested to wear a colored ribbon bow somewhere on her waist, and to bring an exact copy of the one she wears placed in a sealed envelope which is to be given to the floor manager. Before supper these bows will be distributed to the gentlemen who will then find the lady wearing the bow to match the one he has. He then has the lady weighed and pays for her at the rate of one-half cent per pound. Special music has been arranged for and an extra large crowd is anticipated. Ladies are requested to bring lunch.

FOR SALE—Extending dining table, shown in Eaton's catalogue, page 304. No. 28 M08. Also washing machine, Eaton catalogue, page 309, No. 28 X 3001. Perfect condition. Box 10. Wynndel, B.C.

CRESTON BRANCH

The Swing of the Pendulum

The enormous demand for products and goods of all kinds during the war, and the consequent rapid rise in prices not only for such products and goods but for all materials and labor entering into their production for use, created problems in finance and economics which taxed the best brains in all countries. Phenomenal increases in prices of all commodities inevitably forced increased wages paid to workers in order that they might be able to maintain themselves and their families. And increased wages could have no other effect than to give still another boost to the costs of production, and, as a natural result, another advance in prices. Another call for an increase in wages followed, and so the world travelled in a circle.

With the conclusion of the war came a sudden cessation in demand for those articles which were required in enormous quantities during the struggle. Coupled with this cessation in demand, was the return of millions of men from the armies back to civilian life and the necessity of absorbing them once again into the industrial and productive work of the country. Under the conditions it did not take long to make good the shortage of goods in practically all lines which had been created during the war while the energies of all people were devoted to the making of war materials and equipment.

Now the world of finance and business and labor faces the problems of decreased demand and falling prices. Difficult as were the problems created by unprecedented demand, shortage of materials and labor, and steadily rising prices, they were simple compared to the difficulties now confronting everybody because of decreased demand, and consequent unemployment, resulting in a lessened buying power by the public and an inevitable fall in prices of commodities. Yet this new and much more difficult problem must be faced and solved, and all classes must contribute their fair share to the solution.

The chief present difficulty seems to lie in the fact that the workingman remains insistent that the high scale of wages reached during the war period of inflation shall be maintained. Those high wages were the outcome of unusual conditions, and any intelligent and observant person must realize that with the passing of those exceptional conditions, wages, like everything else, must return to a normal level.

In order to stimulate buying on the part of people generally, there must be a decrease in prices: If there is not such a drop in prices, and, as a consequence, increased buying, there must inevitably be a curtailment in production. A dropping off in industrial production means unemployment for the workers, not merely at prevailing high wages but at any wages at all. Any increase in the number of the unemployed means a further lowering of the buying power of the people, and a still further increase in unemployment, or a substantial reduction in the hours of employment—factories running half-time instead of full time. In other words, the world is in danger of again travelling in an economic circle, even more vicious and containing greater possibilities of disaster than the one travelled during the war years.

The unfortunate fact is that, to an appalling extent, people today are being guided in their actions by untried theories instead of by the actual experience of the past. Workers everywhere seem to be demanding the settlement of present problms in conomics on a basis which totally disregards fundamental principles which underlie all business and finance. During the war the pendulum swung to the extreme limit one way, and everybody had to swing with it; it must swing to the other extreme before an equilibrium is reached, and once again everybody is affected. Not by the efforts on any one class alone, but only through the combined efforts and cooperation of all can a normal level be successfully reached.

One of the fallacies, which, however, finds ready acceptance in some quarters, is that any given industry can fix its own prices, hours of labor, scale of wages, etc., without having regard to other lines of industry. For example, that railway executives and railway employees can get together and decide upon hours of labor and scale of wages, and by setting these forth in an agreement ratified and signed by both parties, settle the problem so far as they are concerned. But not so. If as the result of the schedules agreed upon an undue burden is placed on other lines of commercial activity and the public as a whole, then there will be such a falling off in business that the railway companies will be sufferers and the necessity be enforced upon them of laying off countless numbers of their employees. It would be merely a modern application of the old fable of killing the goose that laid the golden egg.

And what would be true in the case cited, would prove equally true in relation to any other industry. There are other aspects of this very complex problem, and it is important at this time that people should not dwell too much on theories, but face actualities, fundamental principles, and the concrete facts of the situation.

Northern Inland Fisheries.

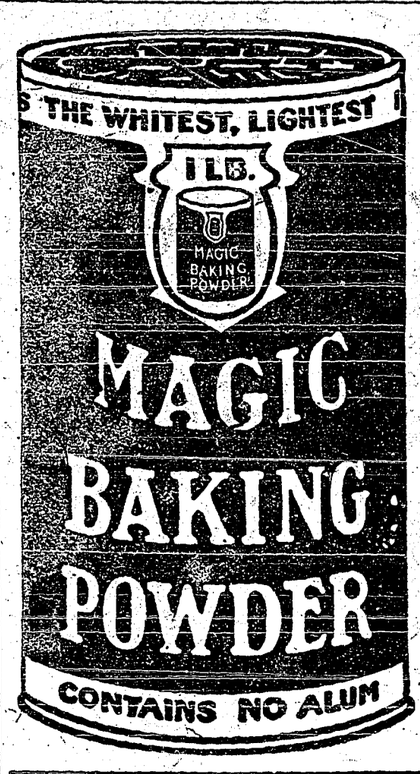
The Northern Inland Fisheries have had a very successful season, and the Alberta Fish Company and the McInnis Fish Company, together with the Saskatchewan fish companies, have shipped about two million pounds of fish The greatest source of production was Buffalo Lake. More than 600,000 pounds of the catch was marketed throughout the west, and a large quantity shipped to Chicago for distribution.

Iron, according to Aristole, was once extensively employed as currency.

Wireless for Northern Manitoba.

To put Northern Manitoba into direct communication with civilization, Dr. R. C. Wallace, commissioner for the north country, has recommended the immediate installation of twelve wireless stations, costing $55,000, in the north. Dr. Wallace stated that there is already built at the Pas one big station, and he asks that another be built at Piquiconl with ten smaller ones erected at intermediate points.

New York City has more than eleven thousand miles of paved streets and sidewalks.



Canadian Structural Materials in Demand

Value of This Production Increased to a New Maximum.

During the war, building activity was reduced to a minimum, and the total value of the production of cement, clay and quarry products which had reached a maximum of $30,809,752 in 1913 and fallen to $17,467,186 in 1916, increasing to $27,421,510 in 1919. In 1920 the value of this production had increased to a new maximum of $38,184,848. While higher prices have played an important part in this increase of over 39 per cent. in value the actual quantities of cement, brick, lime and stone produced has been considerably increased in 1920 over the 1919 production.

THAT DRY COUGH IS BRONCHITIS

If neglected, it will weaken the throat and perhaps reach the lungs. Nothing surer to help you quickly than the healing soothing vapor of Catarrhozone. Its action is magical, every congested spot is healed, irritation is soothed away, phlegm and secretion are cleaned out, all symptoms of weak throat, Catarrh, Bronchitis disappears. Catarrhozone is a genuine, scientific preparation. Sold everywhere in three sizes, 25c, 50c and one dollar for a complete two months treatment. Prepared by the Catarrhozone Co., Montreal.

Lumber From Peace River.

Arrangements are being made to ship 37,000,000 feet of timber from limits near Sawridge, on the Edmonton, Dunvegan and British Columbia Railway, which penetrates the Peace River district, to the mills of the North-Western Lumber Company, Edmonton.

PAIN IN THE LOINS

Driven Out Quickly

That dragging, wearying sort of pain makes life a misery to many people. This pain is due to a passive inflammation of the adjacent tissue. Because every drop rubs in, because it penetrates so deeply, Nerviline gives a wonderful result. More powerful because five times stronger, more penetrating because it strikes through soft tissue, more healing to pain, Nerviline Liniment should be always on hand. Sold everywhere in large 35 cent bottles.

A Protest Long Delayed

Isn't it about time that the stationers manage to lay in some lead pencils which are worth buying? Ever since the war began we have been putting up with substitutes for burned matches and paying from five to eight cents each for them, too. Now our patience is becoming exhausted, and we are looking for a pencil with thick, soft lead and one which can be sharpened without the lead breaking. We bought two pencils during the last 48 hours, and paid six cents for one and seven for the other, and neither of them was worth a darn. We haven't had a good pencil in three years.—York, Pa., Gazette.

Every workman in Japan wears on his cap an inscription stating his business and his employer's name.

Minard's Liniment for Sale Everywhere

Calgary Offered Herd of Buffalo

Dominion Park's Department May Turn Over From Ten to Twenty Animals.

If the citizens of Calgary will promise to assume responsibility for a herd of buffalo to be placed on the Sarcee Reserve for the benefit of the public and visitors generally, the Dominion Park's Department may turn over from ten to twenty animals. But before anything is done by the department, the citizens must state the amount of land they are prepared to fence, the kind of fencing to be used, the grazing conditions on the reserve and the water supply.

Elk For London Zoo.

Three elk were shipped from Vancouver, B.C., recently, consigned to the Zoological Gardens, London, England.

SPRING WEATHER HARD ON BABY

The Canadian spring weather—one day mild and bright; the next raw and blustery is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is so often over-heated and badly ventilated. He catches cold; his little stomach and bowels become disordered and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing or banishing colds, simple fevers, colic or any other of the many minor ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

German Crimes in Belgium

Some 7,473 Belgians Died as Result of Occupation.

According to official figures just made public, 7,473 Belgian civilians died as the result of the German occupation of their country. Of these 4,939 civilians were shot by German troops or executed by order of the German military authorities, 1,331 died in prison, in which they were confined by Germans, and 1,228 died in the course of the enforced deportations to Germany and the French front.

Asthma Overcome. The triumph over asthma has assuredly come, Dr. J. D. Kellogg's Asthma Remedy has proved a positive blessing to the victim of asthmatic attacks. Letters received from many who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it to-day from your dealer.

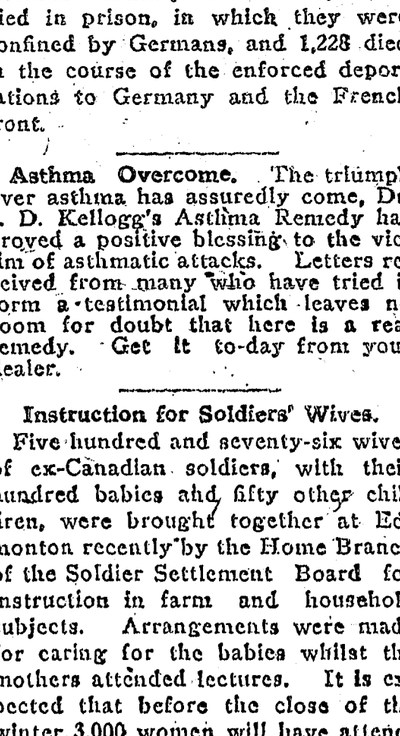
Instruction for Soldiers' Wives.

Five hundred and seventy-six wives of ex-Canadian soldiers, with their hundred babies and fifty other children, were brought together at Edmonton recently by the Home Branch of the Soldier Settlement Board for instruction in farm and household subjects. Arrangements were made for caring for the babies whilst the mothers attended lectures. It is expected that before the close of the winter 3,000 women will have attended these short courses, and more than 1,000 soldiers' wives have already benefitted by the instructive classes.

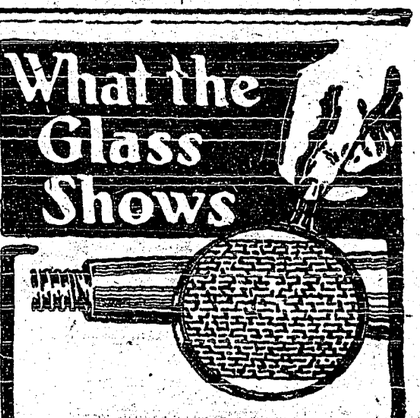
Minard's Liniment For Burns, Etc.

American Buys Farm.

Elmer Woodcock, of Joliette, Illinois, has purchased a fully improved section of farm land near Sperling, Manitoba. He paid $50,000 for this section, which is the equivalent to about $78 per acre, as a section measures 640 acres.



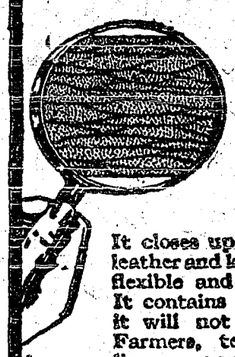
What the Glass Shows



The smoothest looking axle is rough and pitted under the microscope. The powdered mica in Imperial Mica Axle Grease *fills in* this roughness and makes every rubbing surface smooth. Grease can then lubricate properly and will last twice as long as it ordinarily would.

Imperial Mica Axle Grease is the best and most economical grease you can buy for your wagons and trucks.

Leather is honeycombed with pores—thousands of them to every square inch. To prevent these tiny openings from absorbing dust, sweat and moisture use Imperial Eureka Harness Oil.



It closes up the pores of leather and keeps it strong, flexible and new-looking. It contains no acids and it will not turn rancid. Farmers, teamsters and liverymen use and recommend it.

Sold in convenient sizes by dealers everywhere.

World Happenings Briefly Told

Italy's redeemed territories celebrated their formal annexation with great enthusiasm.

Sir Algernon West, secretary to Wm. E. Gladstone when the latter was British Prime Minister, has died.

Influenza in epidemic form has broken out among soldiers belonging to the United States occupation army at Coblenz.

R. M. Lewis, of the fourth class of the Ontario Agricultural College, has been appointed an agricultural missionary in the West China University.

About 20 per cent. of U.S. school children are not properly nourished according to Mary G. McCormick, New York state school supervisor of nutrition.

By virtue of the new treaty between Turkey and Russia both parties undertake to recognize no international act relating to one party which is not recognized by the other.

The case of a man's heart ceasing to beat for 14 hours and then resuming work is reported from Berne, Switzerland, where a pastor of that city, after being officially declared dead, suddenly awoke.

Hundreds of medals, decorations and citations, intended for American veterans of the war, but undelivered, are in the hands of the Adjutant-General of the U.S. army, who has appealed to the American Legion to assist in finding their owners.

Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they afford lasting relief for indigestion and overcome the many annoying symptoms.

Dr. Chase's Kidney-Liver Pills

W. N. U. 1351

Women Engineers

Many Branches of Profession For Which Women Are Suitable.

There are many branches of the engineering profession for which women are eminently suitable. Proof of this is to be found in the remarkable success of Miss Griff, the first woman to become an associate member of the Institute of Automobile Engineers of Great Britain. Starting as a motor engineer, Miss Griff ultimately acquired such a knowledge of lighting installation, pumping plants, gas and oil engines, from machinery, plow and tractors, that she was able to establish herself as a successful consulting engineer. In England other pioneer women engineers are engaged in electrical engineering, civil engineering, draughtsmanship, patient office work, and the mechanical side of X-ray work.

If Tormented With Corns Use Good Old "Putnams"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

Life would not be so complicated if there were not so many self-appointed leaders who don't know where they are going.—Birmingham Age-Herald.

What One of the Best Known Travellers in Canada Says

"Now I am going to give you an unsolicited testimonial, as they say in the patent medicine advertising. Heretofore I have had a profound contempt for patent medicines, particularly so-called liniments. Perhaps this is due to the reason that I have been blessed with a sturdy constitution, and have never been ill a day in my life. One day last fall after a hard day's tramp in the slush of Montreal, I developed a severe pain in my legs and, of course, like a man who has never had anything wrong with him physically, I complained rather boisterously. The good little wife says: "I will rub them with some liniment I have. Go ahead," I said, just to humor her. "Well, in she comes with a bottle of MINARD'S LINIMENT and gets busy. Believe me the pain disappeared a few minutes after, and you can tell the world I said so."

(Signed) FRANK E. JOHNS, Montreal.

Easy to Get and Safe to Use.

Cold water and flour mixed will at once relieve the pain caused by burns.

Itch Cured In 30 Minutes.

Itch, Mange, and all contagious scratches on human or animal, cured in 30 minutes by Wolford's Sanitary Lotion. At Druggists.

Big Steel Plant for Coast.

Establishment of a large steel plant on the coast probably will be begun early in the summer, according to J. H. Falconer, president of the British Columbia Manufacturers' Association. He states that five representatives of the largest steel operators in the world had looked over the ground and returned to England to report.

The Many-Purpose Oil—Both in the house and stable there are scores of uses for Dr. Thomas' Eclectric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

"Trans-Canada" Limited To Commence May 22

Fast Schedule Which Has Proved So Popular Will Be Maintained This Year.

The "Trans-Canada" service will be inaugurated on Sunday, May 22nd, when the summer timetable becomes effective, the first trains leaving Montreal, Toronto and Vancouver on that day.

The "Trans-Canada" Limited will be an exclusive sleeping car train with all steel equipment, which has been specially designed and built for this service at the Company's Angus Shops, Montreal, and mark the highest degree of excellence and travel comfort.

The fast schedule which proved so popular with the travelling public last summer will be maintained this year.

Trains 13 and 14 "Soo-Pacific Express," will commence operation between St. Paul and Vancouver effective Sunday, June 5th. This will make four trains which the Canadian Pacific will operate to and from the Coast daily during the summer months.

Minard's Liniment For Dandruff

The Liver Is the Road to Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish, clogged up liver and relieve constipation, stomach trouble, inactive bowels, loss of appetite, sick headache and dizziness. You need them.

CARTER'S LITTLE LIVER PILLS

Purely vegetable.

Small Pill—Small Dose—Small Price

A Frock of Cotton Homespun

By Marie Belmont.

Cotton homespun is a delightful shade of green is the material chosen for the fashioning of this attractive dress for the early days of spring. It shows the long-waisted effect that is so much in style. The skirt is divided into several panels that partly conceal the straight underskirt. These are ornamented with openwork rosettes that are piped with pink taffeta. The Buster Brown collar is set off by a pink silk tie. The sleeves are long and wide-mouthed. This feature is accentuated by the slash that extends almost to the elbow. Decorative motifs enhance their appearance.

Jews May Have Mercantile Marine.

It is possible that in the near future the Jews will possess their own mercantile marine. The first ship to fly the blue and white flag of Zion was the "Hecolutz," which sailed from Jaffa recently. She was owned and manned by Jews.

COULDN'T DO HOUSEWORK

HEART SO BAD

Many women become run down and worn out by their household cares and duties never ending and sooner or later find themselves with weak hearts and shattered nerves.

When the heart becomes weak and the nerves unstrung, it is impossible for a woman to look after her household or social duties. The least little exertion or excitement leaves her in an exhausted condition, and not fit to do anything.

On the first sign of any weakness of the heart or nerves, you will be wise if you take a course of Milburn's Heart and Nerve Pills.

Mrs. Daniel Bezanson, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me.

My heart was so bad at night I could not sleep; I would take smothering spells, and I was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try Milburn's Heart and Nerve Pills. I have used six boxes, and I am completely relieved. I think they are the best medicine for heart trouble there is."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Cost of the British Monarchy

British Monarchs Receive Through Parliament Whatever Amount Nation Cares to Vote Them.

No country gets its Emperor, King or President at a more economical cost than does Great Britain, or to speak more correctly the British Empire. Its monarchs during the centuries had acquired by hereditary rights, by inter-marriages and by Acts of Parliament vast fortunes and immense incomes. William IV. of his own free will gave up all these rights and incomes, and accepted instead a greatly smaller sum to be voted by Parliament. Queen Victoria, King Edward and King George did the same, and now receive just what their people, through Parliament, care to vote them. The country receives from the sums ceded very much more than it pays. So that the Empire is actually making money out of its Sovereigns.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

It is estimated that nine thousand five hundred acres of forest are being cut down every day of the year to supply pulp for paper manufacture.

GLAD HE TRIED THE TONIC TREATMENT

Through Its Use Strength and Vigor Was Restored.

To be tired after exertion is natural. Rest and food restore the body to normal after such fatigue. But to be tired all the time is a symptom of an anaemic condition that will not be corrected until the blood is built up.

Such an anaemic condition is so gradual in its approach and generally so lacking in actue pains that it is often difficult to persuade the sufferer to do anything for it. But it is not a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerves will be undernourished and neuralgia pains will follow. Digestive disturbances often result from thin blood, sleep is disturbed and a general breakdown may occur.

Mr. Wilson Johnson, Nineveh, N.S., says: "A few years ago my system was in a badly run down condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so sleepless at night that when morning came I felt as tired as when I went to bed. I was taking medicine all the time, but it was doing me no good. Then I read the testimonial of a man whose condition had been similar to mine, and who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial, and when I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can only say I am glad I did so, as I am now enjoying the best of health, and I advise all men who feel run down to give these pills a good trial."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Dairying in Alberta

Edmonton the Largest Creamery Butter Manufacturing Centre in Canada.

There are unlimited opportunities for engaging in dairy farming in the prairie provinces of Alberta, Saskatchewan and Manitoba. The production of creamery butter has increased from 14,000,000 pounds in 1915 to about 27,000,000 pounds in 1919. The city of Edmonton, Alberta, is the largest creamery butter manufacturing centre in Canada. All the provinces have well organized dairy departments which give every possible assistance to the industry, and as a result of their efforts the manufacture of butter has been standardized to a high degree.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callosity comes out without injury to the flesh.

To Offer Rich Fruit Lands.

It is announced that the British Columbia Government will put 22,000 acres of land in the irrigated district at Osoyoos, Okanagan Valley, one of the richest fruit growing areas in the world, on the market early in the spring.

Million Fire Loss In Alberta.

Complete returns of fires and fire losses for the year throughout Alberta show that 870 fires did damage amounting to $1,054,191.

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Eclectric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

The signature of William Shakespeare written on the wall of Hampton Court Palace, and dated 1606, has been pronounced authentic.

"Cold in the Head"

is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the Blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System.

All Druggists 75c. Testimonials free.

100.00 for any case of catarrh that HALL'S $100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure.

F. J. Cheney & Co., Toledo, Ohio.

Eagles have been known to fly to a height of 6,000 feet. A lark will rise to the same height, and so will crows. As a rule, it is said, birds do not fly at a greater height than 1,000 feet.

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

There are 12,004,325 telephone subscribers in the United States, giving an average of one telephone to about 10 persons.

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Owen Sound, Ont.—"I suffered for ten years with female organic trouble, neuralgia and indigestion, and was weak and had such bad pains I could hardly walk or stand up at times. When I would sweep I would have to go and lie down. I could not sleep at night, and would wander around the house half the time. I tried everything but nothing did me any good, and the last doctor I had told me he never expected me to be on my feet again or able to do a day's work. One day one of your little books was left at my door and my husband said I should try a bottle of Lydia E. Pinkham's Vegetable Compound. I thank God I did, for it relieved me, and I am now well and strong. I think there is no remedy like the Vegetable Compound for anyone who has my troubles, and have recommended it to my neighbors. You can publish my letter for the benefit of those I can't reach." —Mrs. HENRY A. MITCHELL, 1767 7th Ave., East, Owen Sound, Ont.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY MAY 13

Motor-Carrying Tariff

In connection with the highway which has been constructed through Crowsnest, terminating at Kuskanook on Kootenay Lake, the passenger department of the Canadian Pacific Railway have issued a tariff covering the transportation of automobiles and motor cycles on the steamers between Kuskanook and Nelson.

The charge for automobiles is from $5.00 to $7.50 according to size of car, and on motor cycles $1.00, and with side seat $2.00.

Insurance may be had on payment of 10 per cent. of the rate applicable to the automobile or motor cycle for each $100.00 of declared value over $100.00

Automobiles and motor cycles must be loaded and unloaded by the passenger who will assume full responsibility for same. The company will not be responsible for articles or attatchments left in automobiles or motor cycles.

League Red Cross Societies

In December, 1918, with the approval and indorsement of the governments of the five great powers —Great Britain, France, Italy, Japan, and the United States, a committee of their Red Cross Societies was constituted "to formulate and propose to the Red Cross Societies of the world, an extended program of Red Cross activities in the interests of humanity.

As a result a League of Red Cross Societies is today organized, and in addition to the five powers already mentioned, it now includes in its membership, 26 of the other civilized powers of the world.

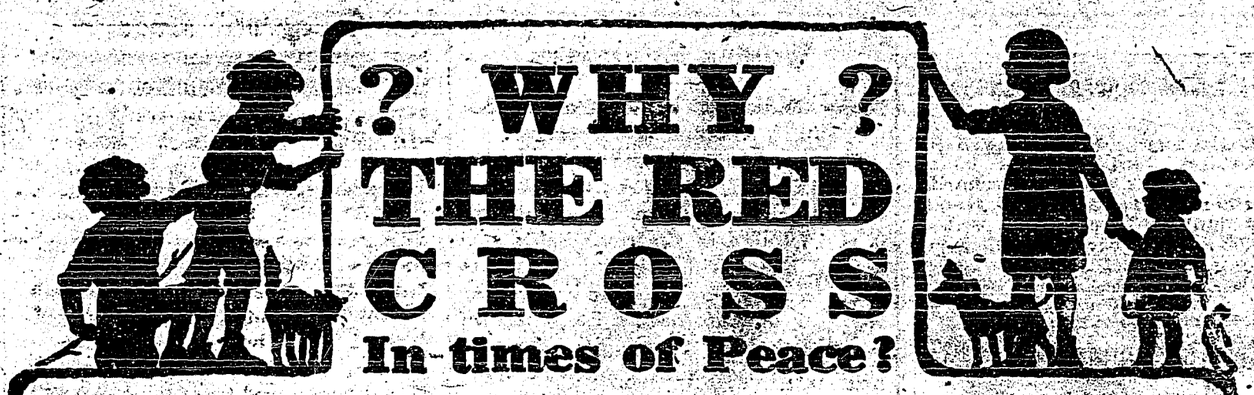
This League of Red Cross Societies was created to: Organize and stimulate throughout the world Red Cross peace activities; establish close co operation between all Red Cross Societies; fight disease and spread health; develop existing Red Cross Societies and build up new ones; serve as universal clearing house for Red Cross work in peace time.

It has directed and developed anti-typhus campaigns in Eastern Europe; organized membership campaigns for Red Cross Societies; instituted nursing services; created public health scholarships; sent out missions to study means of relief.

It is organizing a world campaign against communicable disease; promoting child welfare; training public health nurses for service where most needed; building up in both hemispheres the Junior Red Cross; spreading public health propaganda through publication, films, lectures, etc.

It will enlarge the field of Red Cross work, mobilize relief workers in case of national calamities; keep Red Cross Societies in close touch with one another; ensure the universality of the Red Cross; create a new sense of fellowship.

For the first time in its history, therefore, civilized humanity, as a whole, is declaring relentless warfare against disease, famine, and the other devastating forces which are working for its downfall. In this fight the League of Red Cross Societies serves as general headquarters to direct the campaign.



Despite the world-wide activities of the Red Cross since the close of the war, and the incalculable amount of good which it has accomplished in the intervening period, there are still many persons, uninformed, who somewhat wonderingly ask, "Why the Red Cross in times of peace?"

The mission of the Red Cross, as it is evidenced throughout the world today, is a twofold one: Post-war work and peacetime work. Briefly summarized, their activities, as applied to the British Columbia Division, are as follows:

Post War Work

1. To continue and complete war work amongst soldiers still in hospital.

2. To maintain the existing workshop for disabled soldiers, and to increase the number of these workshops.

Peace Time Work

1. To train and maintain Red Cross public health nurses for service in the rural districts, as well as in the sparsely-settled pioneer sections of British Columbia.

2. To provide emergency service and outfits throughout the Province for dispatch to and service at the scene of accident or disaster.

3. To relieve sickness among the needy everywhere and anywhere in British Columbia.

4. To promote Red Cross principles and practice amongst the youth of British Columbia—to enlist their sympathies and help, and to enroll them in the Junior Red Cross.

Canyon City

"The best ever," is practically the unanimous opinion of the concert in the schoolhouse on Friday night given almost entirely by the Swedish residents for the U.F. piano fund benefit, before a crowd that completely filled the building, and which netted in the neighborhood of $40—including a $10 contribution from one of the residents. There were twenty-two numbers on the programme, which was nicely balanced as to vocal and instrumental musical selections as well as literary numbers. A. R. Swanson, president of the Creston U.F. local, presided, and got the affair off to a good start by his few brief but practical opening remarks, and the numbers that followed caught on equally well. The applause that greeted each of the literary selections was so uniformly vigorous that it would be hard to pick the best performer but certainly special mention is due Miss Minnie Strong's effort in the "Prairie Hero," and John Johnson's interpretation of "Yon Yonson, Yanitor." The other elocutionists were Robert Burn, Emma Samuelson, who was a favorite in "Tillie Olsen's Romance"; Otto Johnson, Arvid and Manfred Samuelson. Misses Signe and Helga Nelson had two duetts, and Miss Edith Cook of Creston a solo that were well received, while the applause that greeted T. R. Mawson's comic song almost raised the roof. Given a little bit of bur-r-r-r to his voice and Mr. Mawson would not need to take off his hat to Harry Lauder with a Canyon audience. Instrumental solos were given by Andy Wickholm on the accordeon, Albert Wesling on the mandolin, L. Moberg on the guitar, and T. R. Mawson, violin, all of which were well chosen and equally well rendered and received. A noval feature was the contest of cans by three boys and three girls, while just as popular was the chorous by the children, and the Swedish polka by Myrtle and Willie Wickholm. Otto and John Johnson and L. Moberg contributed a trio in good style, while the musical part of the evening was much enhanced by the good work of a five piece orchestra consisting of Miss Annie Samuelson, A. Wickholm, T. R. Mawson, L. Moberg and A. Wesling. The affair was brought to fitting close by the rendering of the Swedish national anthem followed immediately by God Save the King—the latter getting an exceptionally hearty rendering. After the concert a few hours dancing was indulged in, and a tasty lunch served. The Swedish flag decorated the lapel of the coats of many in attendance and certainly it was a night all of Swedish descent might well be proud in every way, the only incident that detracted from the affair, as compared with the Scotch night out on Jantiary 25th, was that provincial police Vachon was on the spot to collect the amusement tax, whereas with the Scotians he trusted to their honesty and levied on their concert proceeds the following day.

Road boss T. Harris has a crew of about ten men and a couple of teams at road improvements, and is also using the Federal motor truck for the haul of gravel which is being put in the low spots on the upper end of the main road.

The mill recommenced sawing on Monday, after being shut down for a couple of months. There is a good supply of logs in the yard, and the trucks are hustling them in from the skids every day.

Andy Wickholm and Axel Bergren have gone to Wynndel, where they have taken a lumber piling contract with the Winlaw mill, which has just commenced operations.

The red oak memorial trees in the school grounds, which failed to grow after being planted a year ago, are now replaced by a couple of sycamores which are admirably recommended for this section.

W. Searle was at Creston on Thursday last for the annual meeting of the Methodist parishes on the Creston circuit. He reported for the Sunday school, and the figures show 67 pupils enrolled, and an average attendance of 44. The youngsters contributed a total of $56 for S.S. purposes.

Alfred Speaker, jr., is initiating Pete Nelson into the mysteries of operating the Chevrolet car Pete lately bought from Mr. Gross, and which he has designs on using in his butcher delivery trade.

Methodists Close Successful Year

By long odds the most satisfactory annual meeting in the history of Creston Valley Methodist Church work was the 1921 session, which was held at the parsonage on Thursday night, which was presided over by Rev. G. Knox, with an adjournment to the church, where refreshments were served, and the business of the evening concluded.

At the parsonage the business was solely in connection with the Creston appointment. The financial statement submitted showed that all the congregational obligations have been met in full, and that for the year ended May 1st the congregation had paid almost 50 per cent. more than in previous years toward the minister's stipend. The Ladies' Aid Society shows a membership of 22, and during the year the ladies in one way and another had raised a total of $396, and of this $100 had been used in the reduction of the church debt.

The Sunday School report was equally encouraging, and was presented by Supt. Adlard and Miss Kate Kate Boffey, secretary, showing 82 scholars enrolled, an average attendance of 60, while the scholars' contributions for the year were in the neighborhood of $185.

From all sources from all points in the Valley the Methodists for the year just closed contributed almost $2300.

The election of stewards for the current year resulted in the choice of Messrs. Linn, Fred Smith and Herb Gobbett, Mrs. Goodwin, Mrs. Martin (Erickson), Mr. Knott (Canyon), with Mr. Linn selected as recording steward, and Mrs. Knott and Fred Smith named to attend the district meeting with the pastor at Cranbrook this week. At Sunday night service Mrs. Edmondson and E. N. Holmes were added to the board as the society representatives.

Although Rev. Mr. Knox has only been in charge here since July—and came to take o vacancy caused by the conference-appointed pastor declining the appointment—his work has been eminently satisfactory and he was given a hearty invitation to remain for another year. Since July 22 new members have been added, and due to removals eight names were taken from the roll. During the same ten months the pastor reported conducting five wedding ceremonies and taking three burial services.

The Lister delegates to the circuit meeting were Mr. Langston, who reported fully on church effort at the camp; and John Bird, the superintendent, who presented the Sunday school statement. Lister enjoys a union Sunday school with an enrollment of 44 pupils, and an average attendance of 15, and during the year the scholars have contributed $71.

For Canyon City F. Knott reviewed the church work at that point for the year, which showed a good fortnightly attendance and quite generous financial support of the schemes of the schemes of the church. Canyon also has a union Sunday school and Wm. Searle, the superintendent, presented figures which showed an average attendance of 44 out of an enrollment of 67, with total collections of $56.

Erickson, too, has a union Sunday school, and Miss Clark, who presented the report, stated the enrollment was 49 pupils, with an average attendance of 25, and contributions totalled $82. Kingsgate, which gets a fortnightly service by Pastor Knox, submitted a Sunday school report showing an enrollment of 37, and the average attendance is 24.

All the reports were adopted as read, and the utmost enthusiasm prevails as to the year just entered equalling year now closed, particularly in the matter of increased local financial contributions. Interspersed with the purely business features were a couple of duetts by Misses Muriel and Frances Knott, and a solo by Mr. Asher, all three numbers being greatly appreciated, while the lunch served by the ladies was equally deserving of honorable mention.

(Section 24)

In the matter of an undivided half interest in Sub Lot 3, Block 4, of Lot 801, Group 1, Map 771, Kootenay District.

Proof having been filed in my office of the loss of Certificate of Title No. 10055A, to the above mentioned lands in the name of William O. Taylor, and bearing date the 9th January, 1909, I hereby give notice of my intention at the expiration of one calendar month from the first publication hereof to issue to the said William O. Taylor a fresh Certificate of Title in lieu of such lost Certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned. Dated at the Land Registry Office, Nelson, B.C., this 5th day of April, A.D. 1921.

E. S. STOKES,
District Registrar of Titles.

Date of first publication April 15, 1921.

What is a Recommendation Worth?

That depends very much upon who gives it. For instance we recommend Ames Holden "Auto-Shoes" as the cheapest mileage you can buy.

And we know a lot about tires. We have to in our business.

Hence our recommendation should carry some weight, apart from the fact that we are benefiting to some extent by your custom.

We know that if you buy once, you will buy again—because you will find that our recommendation saves you money on mileage.

We will give you a guarantee with Ames Holden "Auto-Shoes" too—a guarantee that protects you against any defect in material or workmanship which may arise at any time in the life of the tire. And we will get you an adjustment on that basis should necessity arise, without quibble or red-tape. Drop in and let us show you Ames Holden "Auto-Shoes" to-day if you can.

WANTED—To buy or rent, sewing machine. Mrs. Jensen, Frickson.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers up to ten head.

The Swing of the Pendulum

The enormous demand for products and goods of all kinds during the war, and the consequent rapid rise in prices not only for such products and goods but for all materials and labor entering into their production for use, created problems in finance and economics which taxed the best brains in all countries. Phenomenal increases in prices of all commodities inevitably forced increased wages paid to workers in order that they might be able to maintain themselves and their families. And increased wages could have no other effect than to give still another boost to the costs of production, and, as a natural result, another advance in prices. Another call for an increase in wages followed, and so the world travelled in a circle.

With the conclusion of the war came a sudden cessation in demand for those articles which were required in enormous quantities during the struggle. Coupled with this cessation in demand, was the return of millions of men from the armies back to civilian life and the necessity of absorbing them once again into the industrial and productive work of the country. Under the conditions it did not take long to make good the shortage of goods in practically all lines which had been created during the war while the energies of all people were devoted to the making of war materials and equipment.

Now the world of finance and business and labor faces the problems of decreased demand and falling prices. Difficult as were the problems created by unprecedented demand, shortage of materials and labor, and steadily rising prices, they were simple compared to the difficulties now confronting everybody because of decreased demand, and consequent unemployment, resulting in a lessened buying power by the public and an inevitable fall in prices of commodities. Yet this new and much more difficult problem must be faced and solved, and all classes must contribute their fair share to the solution.

The chief present difficulty seems to lie in the fact that the workingman remains insistent that the high scale of wages reached during the war period of inflation shall be maintained. Those high wages were the outcome of unusual conditions, and any intelligent and observant person must realize that with the passing of those exceptional conditions, wages, like everything else, must return to a normal level.

In order to stimulate buying on the part of people generally, there must be a decrease in prices: If there is not such a drop in prices, and, as a consequence, increased buying, there must inevitably be a curtailment in production. A dropping off in industrial production means unemployment for the workers, not merely at prevailing high wages but at any wages at all. Any increase in the number of the unemployed means a further lowering of the buying power of the people, and a still further increase in unemployment, or a substantial reduction in the hours of employment—factories running half-time instead of full time. In other words, the world is in danger of again travelling in an economic circle, even more vicious and containing greater possibilities of disaster than the one travelled during the war years.

The unfortunate fact is that, to an appalling extent, people today are being guided in their actions by untried theories instead of by the actual experience of the past. Workers everywhere seem to be demanding the settlement of present problms in conomics on a basis which totally disregards fundamental principles which underlie all business and finance. During the war the pendulum swung to the extreme limit one way, and everybody had to swing with it; it must swing to the other extreme before an equilibrium is reached, and once again everybody is affected. Not by the efforts on any one class alone, but only through the combined efforts and cooperation of all can a normal level be successfully reached.

One of the fallacies, which, however, finds ready acceptance in some quarters, is that any given industry can fix its own prices, hours of labor, scale of wages, etc., without having regard to other lines of industry. For example, that railway executives and railway employees can get together and decide upon hours of labor and scale of wages, and by setting these forth in an agreement ratified and signed by both parties, settle the problem so far as they are concerned. But not so. If as the result of the schedules agreed upon an undue burden is placed on other lines of commercial activity and the public as a whole, then there will be such a falling off in business that the railway companies will be sufferers and the necessity be enforced upon them of laying off countless numbers of their employees. It would be merely a modern application of the old fable of killing the goose that laid the golden egg.

And what would be true in the case cited, would prove equally true in relation to any other industry. There are other aspects of this very complex problem, and it is important at this time that people should not dwell too much on theories, but face actualities, fundamental principles, and the concrete facts of the situation.

Northern Inland Fisheries.

The Northern Inland Fisheries have had a very successful season, and the Alberta Fish Company and the McInnis Fish Company, together with the Saskatchewan fish companies, have shipped about two million pounds of fish The greatest source of production was Buffalo Lake. More than 600,000 pounds of the catch was marketed throughout the west, and a large quantity shipped to Chicago for distribution.

Iron, according to Aristole, was once extensively employed as currency.

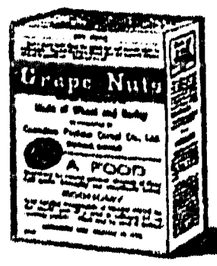
Wireless for Northern Manitoba.

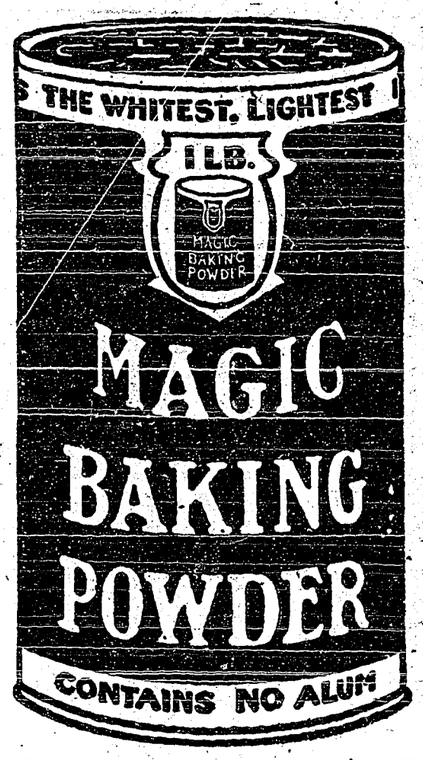
To put Northern Manitoba into direct communication with civilization, Dr. R. C. Wallace, commissioner for the north country, has recommended the immediate installation of twelve wireless stations, costing $55,000, in the north. Dr. Wallace stated that there is already built at the Pas one big station, and he asks that another be built at Piquiconi with ten smaller ones erected at intermediate points.

New York City has more than eleven thousand miles of paved streets and sidewalks.

It's Really Amazing
the amount of nourishment you'll find in a small dish of
Grape-Nuts
with cream or good milk added

Sweet with its own sugar, developed from the grains in the making, this sturdy blend of wheat and malted barley contains, in compact form and at low cost, the nutritive and mineral elements needed to build health and strength.





Canadian Structural Materials in Demand

Value of This Production Increased to a New Maximum.

During the war, building activity was reduced to a minimum, and the total value of the production of cement, clay and quarry products which had reached a maximum of $30,809,752 in 1913 and fallen to $17,467,186 in 1916, increasing to $27,421,510 in 1919. In 1920 the value of this production had increased to a new maximum of $38,184,848. While higher prices have played an important part in this increase of over 39 per cent. in value the actual quantities of cement, brick, lime and stone produced has been considerably increased in 1920 over the 1919 production.

THAT DRY COUGH IS BRONCHITIS

If neglected, it will weaken the throat and perhaps reach the lungs. Nothing surer to help you quickly than the healing soothing vapor of Catarrhozone. Its action is magical, every congested spot is healed, irritation is soothed away, phlegm and secretion are cleaned out, all symptoms of weak throat, Catarrh, Bronchitis disappears. Catarrhozone is a genuine, scientific preparation. Sold everywhere in three sizes, 25c, 50c and one dollar for a complete two months treatment. Prepared by the Catarrhozone Co., Montreal.

Lumber From Peace River.

Arrangements are being made to ship 37,000,000 feet of timber from limits near Sawridge, on the Edmonton, Dunvegan and British Columbia Railway, which penetrates the Peace River district, to the mills of the North-Western Lumber Company, Edmonton.

PAIN IN THE LOINS

Driven Out Quickly

That dragging, wearying sort of pain makes life a misery to many people. This pain is due to a passive inflammation of the adjacent tissue. Because every drop rubs in, because it penetrates so deeply, Nerviline gives a wonderful result. More powerful because five times stronger, more penetrating because it strikes through soft tissue, more healing to pain, Nerviline Liniment should be always on hand. Sold everywhere in large 35 cent bottles.

A Protest Long Delayed

Isn't it about time that the stationers manage to lay in some lead pencils which are worth buying? Ever since the war began we have been putting up with substitutes for burned matches and paying from five to eight cents each for them, too. Now our patience is becoming exhausted, and we are looking for a pencil with thick, soft lead and one which can be sharpened without the lead breaking. We bought two pencils during the last 48 hours, and paid six cents for one and seven for the other, and neither of them was worth a darn. We haven't had a good pencil in three years.—York, Pa., Gazette.

Every workman in Japan wears on his cap an inscription stating his business and his employer's name.

Minard's Liniment for Sale Everywhere

Calgary Offered Herd of Buffalo

Dominion Park's Department May Turn Over From Ten to Twenty Animals.

If the citizens of Calgary will promise to assume responsibility for a herd of buffalo to be placed on the Sarcee Reserve for the benefit of the public and visitors generally, the Dominion Park's Department may turn over from ten to twenty animals. But before anything is done by the department, the citizens must state the amount of land they are prepared to fence, the kind of fencing to be used, the grazing conditions on the reserve and the water supply.

Elk For London Zoo.

Three elk were shipped from Vancouver, B.C., recently, consigned to the Zoological Gardens, London, England.

SPRING WEATHER HARD ON BABY

The Canadian spring weather—one day mild and bright; the next raw and blustery is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is so often over-heated and badly ventilated. He catches cold; his little stomach and bowels become disordered and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing or banishing colds, simple fevers, colic or any other of the many minor ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

German Crimes in Belgium

Some 7,473 Belgians Died as Result of Occupation.

According to official figures just made public, 7,473 Belgian civilians died as the result of the German occupation of their country. Of these 4,939 civilians were shot by German troops or executed by order of the German military authorities, 1,331 died in prison, in which they were confined by Germans, and 1,228 died in the course of the enforced deportations to Germany and the French front.

Asthma Overcome. The triumph over asthma has assuredly come, Dr. J. D. Kellogg's Asthma Remedy has proved a positive blessing to the victim of asthmatic attacks. Letters received from many who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it to-day from your dealer.

Instruction for Soldiers' Wives.

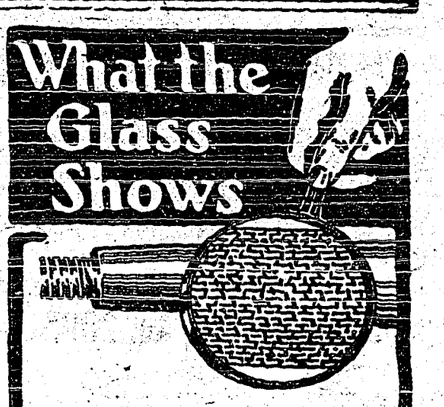
Five hundred and seventy-six wives of ex-Canadian soldiers, with their hundred babies and fifty other children, were brought together at Edmonton recently by the Home Branch of the Soldier Settlement Board for instruction in farm and household subjects. Arrangements were made for caring for the babies whilst the mothers attended lectures. It is expected that before the close of the winter 3,000 women will have attended these short courses, and more than 1,000 soldiers' wives have already benefitted by the instructive classes.

Minard's Liniment For Burns, Etc.

American Buys Farm.

Elmer Woodcock, of Joliette, Illinois, has purchased a fully improved section of farm land near Sperling, Manitoba. He paid $50,000 for this section, which is the equivalent to about $78 per acre, as a section measures 640 acres.

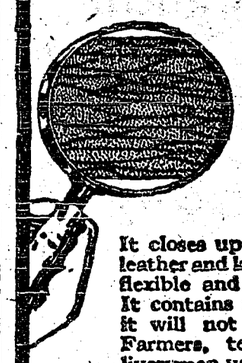
What the Glass Shows



The smoothest looking axle is rough and pitted under the microscope. The powdered mica in Imperial Mica Axle Grease *fills in* this roughness and makes every rubbing surface smooth. Grease can then lubricate properly and will last twice as long as it ordinarily would.

Imperial Mica Axle Grease is the best and most economical grease you can buy for your wagons and trucks.

Leather is honeycombed with pores—thousands of them to every square inch. To prevent *those tiny openings* from absorbing dust, sweat and moisture use Imperial Eureka Harness Oil.



It closes up the pores of leather and keeps it strong, flexible and new-looking. It contains no acids and it will not turn rancid. Farmers, teamsters and liverymen use and recommend it.

Sold in convenient sizes by dealers everywhere.

World Happenings Briefly Told.

Italy's redeemed territories celebrated their formal annexation with great enthusiasm.

Sir Algernon West, secretary to Wm. E. Gladstone when the latter was British Prime Minister, has died.

Influenza in epidemic form has broken out among soldiers belonging to the United States occupation army at Coblenz.

R. M. Lewis, of the fourth class of the Ontario Agricultural College, has been appointed an agricultural missionary in the West China University.

About 20 per cent. of U.S. school children are not properly nourished according to Mary G. McCormick, New York state school supervisor of nutrition.

By virtue of the new treaty between Turkey and Russia both parties undertake to recognize no international act relating to one party which is not recognized by the other.

The case of a man's heart ceasing to beat for 14 hours and then resuming work is reported from Berne, Switzerland, where a pastor of that city, after being officially declared dead, suddenly awoke.

Hundreds of medals, decorations and citations, intended for American veterans of the war, but undelivered, are in the hands of the Adjutant-General of the U.S. army, who has appealed to the American Legion to assist in finding their owners.

Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they afford lasting relief for indigestion and overcome the many annoying symptoms.

Dr. Chase's Kidney Liver Pills.

Women Engineers

Many Branches of Profession For Which Women Are Suitable.

There are many branches of the engineering profession for which women are eminently suitable. Proof of this is to be found in the remarkable success of Miss Griff, the first woman to become an associate member of the Institute of Automobile Engineers of Great Britain. Starting as a motor engineer, Miss Griff ultimately acquired such a knowledge of lighting installation, pumping plants, gas and oil engines, from machinery, plow and tractors, that she was able to establish herself as a successful consulting engineer. In England other pioneer women engineers are engaged in electrical engineering, civil engineering, draughtsmanship, patient office work, and the mechanical side of X-ray work.

If Tormented With Corns Use Good Old "Putnams"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Painless Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

Life would not be so complicated if there were not so many self-appointed leaders who don't know where they are going.—Birmingham Age-Herald.

What One of the Best Known Travellers in Canada Says

"Now I am going to give you an unsolicited testimonial, as they say in the patent medicine advertising. Heretofore I have had a profound contempt for patent medicines, particularly so-called liniments. Perhaps this is due to the reason that I have been blessed with a sturdy constitution, and have never been ill a day in my life. One day last fall after a hard day's tramp in the slush of Montreal, I developed a severe pain in my legs and, of course, like a man who has never had anything wrong with him physically, I complained rather boisterously. The good little wife says: "I will rub them with some liniment I have. Go ahead," I said, just to humor her. "Well, in she comes with a bottle of MINARD'S LINIMENT and gets busy. Believe me the pain disappeared a few minutes after, and you can tell the world I said so."

(Signed) FRANK E. JOHNS, Montreal.

Easy to Get and Safe to Use.

Cold water and flour mixed will at once relieve the pain caused by burns.

Itch Cured In 30 Minutes.

Itch, Mange, and all contagious scratches on human or animal, cured in 30 minutes by Wolford's Sanitary Lotion. At Druggists.

Big Steel Plant for Coast.

Establishment of a large steel plant on the coast probably will be begun early in the summer, according to J. H. Falconer, president of the British Columbia Manufacturers' Association. He states that five representatives of the largest steel operators in the world had looked over the ground and returned to England to report.

The Many-Purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Eclectric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

"Trans-Canada" Limited To Commence May 22

Fast Schedule Which Has Proved So Popular Will Be Maintained This Year.

The "Trans-Canada" service will be inaugurated on Sunday, May 22nd, when the summer timetable becomes effective, the first trains leaving Montreal, Toronto and Vancouver on that day.

The "Trans-Canada" Limited will be an exclusive sleeping car train with all steel equipment, which has been specially designed and built for this service at the Company's Angus Shops, Montreal, and mark the highest degree of excellence and travel comfort.

The fast schedule which proved so popular with the travelling public last summer will be maintained this year.

Trains 13 and 14 "Soo-Pacific Express," will commence operation between St. Paul and Vancouver effective Sunday, June 5th. This will make four trains which the Canadian Pacific will operate to and from the Coast daily during the summer months.

Minard's Liniment For Dandruff

The Liver Is the Road to Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish, clogged-up liver and relieve constipation, stomach trouble, inactive bowels, loss of appetite, sick headache and dizziness. Purely vegetable. You need them.

CARTER'S LITTLE LIVER PILLS

Small Pill—Small Dose—Small Price

A Frock of Cotton Homespun

By Marie Belmont.

Cotton homespun is a delightful shade of green is the material chosen for the fashioning of this attractive dress for the early days of spring. It shows the long-waisted effect that is so much in style. The skirt is divided into several panels that partly conceal the straight underskirt. These are ornamented with openwork rosettes that are piped with pink taffeta. The Buster Brown collar is set off by a pink silk tie. The sleeves are long and wide-mouthed. This feature is accentuated by the slash that extends almost to the elbow. Decorative motifs enhance their appearance.

Jews May Have Mercantile Marine.

It is possible that in the near future the Jews will possess their own mercantile marine. The first ship to fly the blue and white flag of Zion was the "Hecolutz," which sailed from Jaffa recently. She was owned and manned by Jews.

COULDN'T DO HOUSEWORK

HEART SO BAD

Many women become run down and worn out by their household cares and duties never ending and sooner or later find themselves with weak hearts and shattered nerves.

When the heart becomes weak and the nerves unstrung, it is impossible for a woman to look after her household or social duties. The least little exertion or excitement leaves her in an exhausted condition, and not fit to do anything.

On the first sign of any weakness of the heart or nerves, you will be wise if you take a course of Milburn's Heart and Nerve Pills.

Mrs. Daniel Bezanson, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me.

My heart was so bad at night I could not sleep; I would take smothering spells, and I was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try Milburn's Heart and Nerve Pills. I have used six boxes, and I am completely relieved. I think they are the best medicine for heart trouble there is."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Cost of the British Monarchy

British Monarchs Receive Through Parliament Whatever Amount Nation Cares to Vote Them.

No country gets its Emperor, King or President at a more economical cost than does Great Britain, or to speak more correctly the British Empire. Its monarchs during the centuries had acquired by hereditary rights, by inter-marriages and by Acts of Parliament vast fortunes and immense incomes William IV. of his own free will gave up all these rights and incomes, and accepted instead a greatly smaller sum to be voted by Parliament. Queen Victoria, King Edward and King George did the same, and now receive just what their people, through Parliament, care to vote them. The country receives from the sums ceded very much more than it pays. So that the Empire is actually making money out of its Sovereigns.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

It is estimated that nine thousand five hundred acres of forest are being cut down every day of the year to supply pulp for paper manufacture.

GLAD HE TRIED THE TONIC TREATMENT

Through Its Use Strength and Vigor Was Restored.

To be tired after exertion is natural. Rest and food restore the body to normal after such fatigue. But to be tired all the time is a symptom of an anaemic condition that will not be corrected until the blood is built up.

Such an anaemic condition is so gradual in its approach and generally so lacking in actue pains that it is often difficult to persuade the sufferer to do anything for it. But it is not a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerves will be undernourished and neuralgia pains will follow. Digestive disturbances often result from thin blood, sleep is disturbed and a general breakdown may occur.

Mr. Wilson Johnson, Nineveh, N.S., says: "A few years ago my system was in a badly run down condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so sleepless at night that when morning came I felt as tired as when I went to bed. I was taking medicine all the time, but it was doing me no good. Then I read the testimonial of a man whose condition had been similar to mine, and who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial, and when I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can only say I am glad I did so, as I am now enjoying the best of health, and I advise all men who feel run down to give these pills a good trial."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Dairying in Alberta

Edmonton the Largest Creamery Butter Manufacturing Centre in Canada.

There are unlimited opportunities for engaging in dairy farming in the prairie provinces of Alberta, Saskatchewan and Manitoba. The production of creamery butter has increased from 14,000,000 pounds in 1915 to about 27,000,000 pounds in 1919. The city of Edmonton, Alberta, is the largest creamery butter manufacturing centre in Canada. All the provinces have well organized dairy departments which give every possible assistance to the industry, and as a result of their efforts the manufacture of butter has been standardized to a high degree.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callosity comes out without injury to the flesh.

To Offer Rich Fruit Lands.

It is announced that the British Columbia Government will put 22,000 acres of land in the irrigated district at Osoyoos, Okanagan Valley, one of the richest fruit growing areas in the world, on the market early in the spring.

Minard's Liniment Relieves Neuralgia

Cuticura Shampoos Mean Healthy Hair

Especially if preceded by touches of Cuticura Ointment to spots of dandruff, itching and irritation. This treatment does much to keep the scalp clean and healthy and to promote hair growth.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, 344 St. Paul St., W., Montreal. Cuticura Soap shaves without mug.

Million Fire Loss In Alberta.

Complete returns of fires and fire losses for the year throughout Alberta show that 870 fires did damage amounting to $1,054,191.

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Eclectric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

The signature of William Shakespeare written on the wall of Hampton Court Palace, and dated 1606, has been pronounced authentic.

"Cold in the Head"

is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the Blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System.

All Druggists 75c. Testimonials free.

$100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure.

F. J. Cheney & Co., Toledo, Ohio.

Eagles have been known to fly to a height of 6,000 feet. A lark will rise to the same height, and so will crows. As a rule, it is said, birds do not fly at a greater height than 1,000 feet.

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

There are 12,004,325 telephone subscribers in the United States, giving an average of one telephone to about 10 persons.

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Owen Sound, Ont.—"I suffered for ten years with female organic trouble, neuralgia and indigestion, and was weak and had such bad pains I could hardly walk or stand up at times. When I would sweep I would have to go and lie down. I could not sleep at night, and would wander around the house half the time. I tried everything but nothing did me any good, and the last doctor I had told me he never expected me to be on my feet again or able to do a day's work. One day one of your little books was left at my door and my husband said I should try a bottle of Lydia E. Pinkham's Vegetable Compound. I thank God I did, for it relieved me, and I am now well and strong. I think there is no remedy like the Vegetable Compound for anyone who has my troubles, and have recommended it to my neighbors. You can publish my letter for the benefit of those I can't reach." —Mrs. HENRY A. MITCHELL, 1767 7th Ave., East, Owen Sound, Ont.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

There will be three services at Christ Church on Sunday next. Celebration of Holy Communion at 8 a.m.; morning service and communion at 11, and evensong at 7.30 p.m.

An effort is being made to introduce ladies' baseball here, and about fifteen of them had their first try at the game on Tuesday night making quite a creditable showing for the initial effort.

Fred Smith was a visitor at Cranbrook on Wednesday for the final session of the East Kootenay district Methodists, at which all matters to be presented to the B.C. conference were arranged.

Father Bessette will be here for the usual services in Holy Cross church on Sunday next. The ladies of the congregation have re-organized the Sunday school, which recommenced operations last Sunday.

The intermediate class in nursing has shifted its meeting to Wednesday afternoons at 3.45. At last weeks session Miss McLuhan demonstrated on making linseed, mustard and starch poultices to a class of ten.

Miss McGregor, field secretary of the Presbyterian W.M.S., will be in Creston on Sunday next, May 22nd, and will deliver an address on the work in the Presbyterian church at 8 p.m., to which all interested are invited.

The King's Daughters are having a silver tea at the home of Mrs. S. A. Speers on Saturday afternoon, May 14, from 3 to 5 o'clock, to which all are invited. Musical numbers will be rendered throughout the afternoon.

Donald Young successfully underwent an operation for appendicitus at Cranbrook hospital on Thursday night His case was quite critical and the operation had to be performed within a few hours of his arrival at the hospital.

For the first time in a couple of years the monthly meeting of Creston Board of Trade had to go by default, there being too small a turnout of members to furnish a quorum. President was absent on a business trip to Sirdar.

The 1921 crop of dandelions promises to be fully equal to the best previous season. Notwithstanding the prospective easing off of restrictions in securing a supply of hard stuff there is quite a harvest of the yellow fellows for the usual make of dandelion wine.

Patrons of the library are reminded that in future the library will open at 4 o'clock instead of 3 every Tuesday and Saturday afternoon. The later opening hour was decided upon due to the fact that in the past few, if any, patrons put in an appearance before 4.

Len Mawson is a patient in Cranbrook hospital at present. He had been working there and one night last week while cranking up a Ford the engine back fired and as a result Len sustained a broken wrist. The injury, however, is mending as nicely as could be expected.

The provincial exchequer did not fatten up noticeably on the revenue gathered in via provincial police sources last month. Fines collected were only $25, and the amusement tax reached but $45. Motor license fees, however, helped save the day, being good for $315.

The annual meeting of Creston Valley Stockbreeder's Association is called for Saturday afternoon, May 21, at 2 p.m., in Mercantile Hall. As there is much important business to transact it is hoped every stockman will be in attendance. J. W. Dow is the retiring president.

Rev. G. Knox is leaving today for Victoria where he will attend the 1921 session of the B.C. Methodist conference, being one of the two representative from East Kootenay on the stationing committee. The local congregation have invited him to remain as pastor for another year and he has consented, subject to the approval of conference.

Harry Carey, in his very latest production, "The Freeze Out," will have a special showing at the Grand on Wednesday night, May 18th, at the regular prices of 25 and 50c. Along with it will be a side-splitting Century comedy which will start at 8.30. Manager Rodgers is planning to put out a couple of these special showings each month during the summer.

Hardly a dozen ratepayers turned out for the public meeting on Thursday last, at which the school board hoped to get a definite expression of opinion from the citizens as to what their preference is in the matter of increased school accommodation. Failing to get an expression from the ratepayers the trustees will play off their own bat and will most likely confine the extension to one room at present.

Arrangements are complete for the inauguration of trap shooting and the first round will be on Sunday morning at 10 o'clock, at the foot of the hill near Mallandaine's. The Rod and Gun Club will supply ammunition at the grounds to all marksman, non-members paying a slight advance on cost for their supply. All interested in marksmanship are welcome to participate whether club members or not.

The April report of Red Cross district health nurse McLuhan shows a total of 76 visits of which 42 were nursing and 34 instructional, the former embracing calls at Wynndel, Alice Siding, Erickson and Lister as well as Creston. Miss McLuhan also delivered five talks at the different schools and examined 83 scholars. Besides this her three classes a week in nursing and domestic science were held rsgularly.

Afternoon and night entertainment of a high order is planned by the Ladies' Guild of Christ Church for Tuesday, May 24th, at the Parish Hall. At 2.30 p.m. the Country Fair will be opened with the usual sale of cooking, afternoon tea, and other features to which the admission is free. At 8.30 there will be a concert programme, which will be followed by a dance and serving of lunch, and for the evening features an admission of 75 cents will be charged.

The annual meeting of the Ladies' Aid Society of Creston Methodist church was held on Thursday afternoon last, and the reports submitted showed about the best year the ladies have had in every way, the aid membership now being 22. The new officers are:

President—Mrs. Fralick.
Vice-President—Mrs. Fred Smith.
Secretary—Mrs. W. H. Crawford.
Treasurer—Mrs. T. E. Goodwin.

The total intake for the year was $396, and of this $100 was voted toward reducing the church debt.

After paying all expenses $95 will be available for the Chinese Famine Fund as a result of the Presbyterian Mission Band and King's Daughters concert on Friday night. The concert receipts were $82, and this was supplemented by a $10 contribution from a Creston friend, while another $10 was sent in from some interested parties at Boswell. "Mother Goose and her Missionaries" was very creditably presented by the mission band, while a group of seven of the King's Daughters were equally capable in their presentation of the "Mite Box Convention." The programme was augmented by a number of musical and literary numbers between acts by the younger members of the congregation, rounding out an evening that was greatly appreciated by all in attendance. Mesdames Dow, James and Boyd, who were largely responsible for the affair, are to be commended for the painstaking care devoted to the rehearsing of the children as well as the costuming of them—the latter detail adding much to the success of the function.
