THE CRESTON REVIEW

VOL. XIII. CRESTON, B. C., FRIDAY, OCTOBER 7, 1921 No. 36

Creston's Sept. School Report

DIVITION I.—G. P. Smith, Principal.

Highest standing: Entrance Class—Edith Davis, Donald Young, Dean Pearrs. Fourth Reader—Ben Crawford, James Cherrington, Helen Moore.

Perfect Attendance—William Asher, Ivin Compton, Cllie Christie, James Cherrington, Ben Crawford, Edith Davis, Marion Learmonth, Herbert Manuel, Helen Moore, Dean Pearrs, Alva Quist, Alister Ross, Ralph Swanson, Arthur Stark, Albert Sherwood, Harry Webster, George Winch, Donald Young, Clara Tose.

DIVISION II.—F. B. Pearce, Teacher.

Highest standing: Third Reader (Class A)—Ina Fisher, Annie Smith, Mary Haptonstall. (Class B)—Ted Bush, Eileen Hendy, Charlie Cotterill. Junior Third—Will Bush, Marion Collis, Clarence Staples.

Perfect Attendance—Lily Wilson, Elva Kelly, Ted Bush, Canute Anderson, Ray Oatway, Ethel Pearrs, Fred Christie, Harvey Gobbett, Mabel West, James Leamy, Ruth Asher, Ruth Kennedy, Edna Nickels, Harold Speers, William Bush, William Mannel.

DIVISION III.—Miss F. Irvine, Teacher

Senior Second—Muriel Oatway, Arthur Couling. Junior Second—Lillian Thompson, Laura Holmes.

Perfect Attendance—Ropulna Androsow, John Blinco, Eva Bolton, Roary Bolton, Ena Christie, Arthur Couling, Letty Couling, Frank Crawford, Lionel Downes, Catherine Embree, Norman Finlayson, Euphemis Fisher, Laura Holmes, Jean Henderson, Ada Lewis, Charles Moore, Jack Norris, Muriel Oatway, Verne Olsen, Gatus Schade, Elsie Spiers, Dora Spratt, Lillian Thompson, Wallace Thompson, Arthur Webster, Margaret Walker.

DIVISION IV.—Miss K. Moore, Teacher.

Highest Standing: First Reader—Cecil Tose, Betty Speers, Evelyn Linn. Second Primer—Hilda Payne, Kathleen Mawson, William Bayle. First Reader—Robert Dunn, Lillian Trevelyan, Mary Sutcliffe.

Perfect Attendance—Fred Alderson, William Bayle, Joyce Burkhart, Tom Crosthwaite, Hazel Hopwood, Edith Lewis, Kathleen Mawson, Beryl Nichols, Jack O'Neil, Betty Speers, Lillian Trevelyan, Beth West, Paul Asher, Harold Beninger, Jean Fisher, Mary Goodwin, Frances Lewis, Evelyn Linn, Frances Moore, Mervyn Oatway, Dorothy Smith, Aileen Spratt, Gwen Webster.

DIVISION V.—Mrs. McLeod, Teacher.

Perfect Attendance—Dong Bang, Lynn Beazer, Eric Bennet, Mary Bennett, Irwin Crosthwait, Herbert Dodd Dorothy Dunn, Eileen Foster, James Johnston, Marjorie Learmonth, Francis Lewis, Mary Malone, Jean Oatway, Lloyd Olsen, Arthur Speers, Douglas Spiers, Doris Venns, Hubert West, Albert Hendy, Ronald Gibbs, Jackie Gibbs.

Wynndel

Miss Cane arrived from Trail on Sunday to take charge of the second room of Wynndel school, which opened on Monday in the temporary quarters at Winlawville.

The new temporary school quarters were given a thorough housewarming on Saturday night, when the young people moved the piano up from the schoolhouse and with the assistance of a couple of violins a most enjoyable evening was spent.

Mrs. Pitt Brooks leaves on Wednesday for Medicine Hat, Alta., to join her husband, and in which city they will reside in future.

Wynndel will certainly be destitute of young people on Wednesday—fair night—the attraction being the opening dance at the Grand dance hall at Creston.

With the exception of C. Hiscroft, who is operating almost down to Sirdar, haymaking is complete, and everything in sight has certainly been cut. The increased acreage in berries has resulted in a record cut of rushes.

Wynndel Box Factory is still running full time each day, and orders on hand will keep it operating until at least the middle of the month.

Messrs. Packman and Wall, along with Mrs. Packman, are at Alice Siding, helping with the apple harvest at the Compton ranch.

H. A. Bathie, sr. and jr., and J. D. Dewar are co-operating on the installation of an irrigation system. About a mile of ditch and pipe will be required to bring the wetness from the creek to these ranches.

Sirdar

Rev. H. Varley will be here for service in the schoolhouse at 10.30 a.m. Sunday.

The Social Club opened the season's activities with a well attended dance in the schoolhouse on Saturday night.

Mrs. Jones of Kuskanook was a visitor here the latter part of the week, en route home after spending a few days with Nelson friends.

Mrs. Cam was a between-train's visitor at Creston on Monday.

Santo Pascuzzo was a business visitor at Creston on Tuesday. He states that his crop of apples this year will be fully 25 per cent. larger than the early season estimates.

Conductor Greaves is back on the run after a two months' vacation, during which he renewed old acquaintances as far east as New Brunswick.

Mr. and Mrs. Lusby are away on a trip to Vancouver, leaving on Wednesday last, immediately after their return from Winnipeg and Edmonton, where they spent most of September.

Sirdar is a hive of industry night and day, commencing on Tuesday. Three work trains are running by day on the fill of the slip at the Landing, and will probably be busy for six weeks, while the yard crew are now handling trains to and from the barges at night. The fill material is hauled in steel ore cars from a point just east of the Canyon bridge.

Lister

Chas. Burgess and Jess Filmer are in town this week, where they are apple picking on the Truscott Bros. ranch.

Jos. Bell was a business visitor at Nelson a couple of days the fore part of the week.

Mrs. Henry Christensen and young son left on Friday on an indefinite visit to her home in England. Mr. Christensen accompanied her as far as Cranbrook.

Members of the United Farmers are notified of the October meeting of the Lister local, which will be held to night Oct 7th.

Carpenter operations this week are at the D. Chalmers ranch, where a pantry and verandah addition is being put to the house. A new 16 x 20 barn has gone up on the W. McLeod place, on which the owner and D. Fraser did both the carpenter work and painting.

Mrs. G. Jacks and her mother, Mrs. Knott, left the latter part of the week on a visit to Nelson and Creston friends.

Mesdames Liddicoatt and Johnston and Harry Brown convenors of the public school concert have selected Saturday, Oct. 22nd, as the date for the entertainment. A fine program of instrumental and vocal solos, duetts and quartettes are being arranged, along with the usual lot of high class literary numbers. Fuller particulars later.

Announcements are up calling the annual meeting of the Literary, Musical and Dramatic Society for Wednesday, evening, Oct. 12th, and if those who will be in charge this year are as successful as the 1920 officials the camp is assured one night's real fun each week at the schoolhouse.

Meighen Party Ready for Fray

The Valley's newest political organization—the Creston Valley National Liberal Conservative Association—was launched on Saturday night at a meeting of the supporters of the Meighen Government in Mercantile Hall, C. B. Garland occupying the chair, and J. W. Hamilton taking down the minutes.

The chairman, after calling the meeting to order, very briefly outlined the reasons for summoning the gathering, after which the whole situation was informally discussed and the motion submitted and carried unanimously that organization be proceeded with.

There were no frills to the selection of officers, the usual list of honorary presidents, patrons and vice-presidents being overlooked, and the following named to handle association affairs for the coming year:

President—C. B. Garland.
1st Vice President—E. Mallandaine.
2nd Vice-President—Jas. Compton.
Secretary—J. W. Hamilton.
Treasurer—F. H. Jackson.
Executive—Col Lister, M.P.P., W. W. Hall, H. Young, Mrs. F. H. Jackson, Mrs. C. B. Garland.

As there was no definite information available as to the exact number of delegates this end of the riding would be entitled to send to the nominating convention at Nelson on the 6th, it was derided that from amongst the officers and executive a full quota of representatives be selected to attend at Nelson on Thursday.

West Creston

With the exception of a Mr. Bliss, a newcomer to the Valley, who is still cutting on the Reclamation Farm, haying is complete, and the biggest cut ever put on this side of the river is now in stack.

The Bartlett geological survey outfit was camped on the flats over the week-end, completing the survey of the flats, and are this week in the Corn Creek section finishing their work there.

Joe. Stevens, who is looking after the orchard on the Smith ranch, has lost most of his apple crop this year, due to the depradation of the bears.

Chas. French has the fresh meat section of the larder amply supplied, having taken a two year old brown bear on Thursday. Along with a couple of older brutes the animals have done considerable damage to the French orchard, as well as eating up a liberal crop of pears and apples.

R. Sinclair Smith has just taken delivery of a power wood sawing outfit, which he is getting in shape to operate.

Pete Nelson, the Canyon City butcher, is a regular visitor here each week. He is buying his supplies of beef from the local Indians, and butchers it generally on the spot of purchase.

Major Mallandaine and Capt. Crompton finished out the grouse hunting season on Saturday in this section. Grouse have not been exceptionally numerous from all accounts, and so far ducks appear to be more scarce than usual.

Canyon City

Exceptional interest is being taken in the Creston fair this year and if all who are talking about make entries really do so Canyon City should figure prominently in the list of prize winners.

Creston Fruit Growers Union are utilizing the shed on the Pochin ranch for the local central pack of apples, with Mr. and Mrs. VanAckeran in charge. The wrapped product will be shipped direct from the siding.

Now that no permits are required burning is in evidence on many Canyon ranches, slashing having been carried on this season much more extensively than for some time.

Word from Cranbrook hospital concerning John Vance is to the effect that he continues to improve. He has been there about three weeks for treatment for the effects of sunstroke.

John McRobb is getting his money's worth out of his big game license. Although the season is only open two weeks he has already bagged two deer.

John Anderson, Clifford Vance and Jeff Knott were Porthill visitors on Sunday, accompanying Mr. Asher of Creston, who held service there.

"Shorty" Adams is busy again at slashing operations, and has three or four more acres ready for firing.

Mr. and Mrs. Blair are still resident at the Reclamation Farm and, we hear, may spend the winter there.

Canyon United Farmers held the regular October meeting on Saturday night but owing to rival attractions at Creston in the way of Liberal and Conservative association sessions the U.F. gathering did not get its usual good attendance.

Miss Irwin, principal of the public school, Canyon City, was a week-end visitor at her home in Nelson.

Erickson

Mrs. Celli and family have returned to Coleman, Alta., where they will remain for some time, the eldest daughter being in attendance at the high school in that town.

Members of the United Farmers are reminded of the adjourned October meeting, which will be held in the schoolhouse on Tuesday night, October 11th.

The biggest carload of apples that has ever been shipped out of B.C. left here on Thursday last for Magrath, Alta. The fruit was shipped loose in the car, and there were approximately 1000 boxes in the lot—all Jonathans and Wagners, from the Putnam and R. B. Staples ranches respectively.

In addition to quantity the car of apples shipped to Magrath also evidenced the superior quality of the fruit grown at Erickson. Messrs. Kleinsausser and Whip, the buyers, looked the whole Valley over before finally deciding to buy the Staples and Putnam stuff—at a slightly higher price per box than they were offered the same apples at ranches at other Valley points.

Still another triumph is scored for the Erickson section in that despite heavy frost touches elsewhere the Fraser and Young & Clements ranches were still shipping ripe tomatoes the early part of the week.

J. J. Handley is a business visitor at Blairmore, Coleman and other Crow line points.

Miss Connie McCarthy of the nursing staff of St. Eugene hospital, Cranbrook, is home for a couple of weeks' vacation.

For the first time in history Creston Valley apples will be sold on the American market this season and, of course, it is the Erickson growers that are putting the orchard product on the North American fruit map. Staples Fruit Co., Ltd., are this week loading out three cars of Wagners—one each of which will go to New York, Detroit and Chicago.

Traffic is heavy along the C.P.R. line through here just now. On Tuesday the work trains commenced operations on the big fill at Kootenay Landing, with two trains on the haul of fill material, which a steam shovel used excavating at the cut this side of the Canyon bridge. It is stated that the excavating will enable the C.P.R. to considerably straigten the approach to the bridge.

A grand total of 40 carloads of fruit and vegetables went out by freight from Erickson during September. Of this lot 22 were straight carlots of apples, 15 cars of mixed fruit and vegetables, and a total of just under 2000 boxes that went way freight. And to this must be added the express shipping which was just a little short of 4000 crates and boxes.

Fall Fair Entries Break all Records

As the Review goes to press this (Tuesday) evening there is no need for hesitation in saying that if old probs. will dispense the same brand of indian summer weather as has been in evidence since Saturday the 1921 Creston fair will prove by far the most satisfactory exhibition of four so far held.

The display in the main building excels the expectations of the most optimistic director on the board. This is outstandingly true in the fruit section, where Secretary Walmsley's records show an entry list of just about 230 boxes of apples, and an entry of 283 plates of the same fruit, to say nothing at all of the boxes and plates of other varieties of orchard product. In the five-box lot, which carries with it the Speers' Cup, there are an even dozen competitors, while for the honors on three boxes, which includes the Canyon City Lumber Cup, there are seventeen entrants, while for the W. K. Brown special for the best two boxes of McIntosh Reds there are half a dozen after the prize money. In pears, which other years have not received the attention due them, there are eight entries. Another notable feature to the fruit section is the appearance of a number of Roswell ranchers with many excellent plate displays.

The cooking class also shows an increase over last year. In the four bread classes there are over two dozen competitors, and in the pies the judges will have the pleasure of making selections from no less than forty in three sections. There are 18 entries for pumpkin pie alone—the silver pie plate undoubtedly being the magnet that attracted this noble effort.

While in some sections of needlework the show is lighter than a year ago, on the whole the class is well up to 1920 standard, while the same observation holds good in the juvenile section. The show of poultry is about the best ever, fanciers from Cranbrook and Nelson both helping to augment the showing of birds by Valley poultrymen.

While the display of vegetables is below last year's standard it is a most creditable one in view of the rather dry season, coupled with the frost touch that put most of the garden stuff out of business almost three weeks ago. These same conditions militated against the exhibit of outdoor grown flowers, though the floral section was quite well maintained due to a good entry of house plants.

Up till Tuesday night everything has gone off smoothly. Secretary Walmsley states that the entries, which total almost 1100, were all made quite early Saturday evening, and that he was thus able to get on with the making up of the entry tickets and books and had this feature of the work completed before Sunday night. In addition he has prepared a statement showing the number of entries in each of the 280 sections and with this to guide them those in charge at a meeting at the main building had no trouble figuring just how much space they would require in each class, and with the area apportioned each class the staging of the individual exhibits was considerably simplified.

In addition to the bigger display the interior of the hall has been improved in some details and these combined with better attention to decoration produced a hall show that for all round appearance has never been equalled here previously.

The wisdom of the directorate in having the exhibits all at the hall by noon on Tuesday has been amply justified. Under this year's arrangement the judges got to work on Tuesday afternoon and will have the tickets all placed before the opening, which is scheduled for 1 p.m. Wednesday. Without this Tuesday afternoon start it would have been physically impossible to have done justice to the fruit judging—unless those making the awards were to have done their work long after the opening hour.

Next week we will have ample space and will have a more detailed account of the fair generally, as well as publishing a list of the prize winners.

Stomach Treatment Futile For Catarrhal Trouble

Impossible to properly treat Catarrh in the nose or throat by dosing the stomach. To rid the system of Catarrh, send the healing vapor of Catarrhozone after the germs, and you accomplish real results. When you inhale the rich piney essence of Catarrhozone and get its healing balsams circulating all through the breathing organs, the cough is eased, sneezing stops, the nostrils are cleared, the throat is healed and freed from discharge. If you want permanent relief from Catarrh, irritable throat, Bronchitis, use Catarrhozone several times every day. Safe and sure. Two months treatment One Dollar, small size 50c, all dealers or The Catarrhozone Co., Montreal.

CHAPTER VIII.

Into The Night.

Harris and Allan drove straight to the engine, never looking back to see what became of the hired man. On the way the farmer explained to his son what had taken place; that words had passed between them, but no blows had been struck, until Allan appeared on the scene.

"Well, if that's the way of it, I'm sorry I hit him," said the young man, frankly, "and when I see him I'll tell him so. I plugged him a good one, didn't I?—though, to be honest, he was hardly on his feet. But he sure landed me a stem-winder on the chin," he continued, ruefully rubbing that member, "so I guess we're about even."

"He might 've broke your neck," said Harris. "You're too hot-headed, both of you. . . . I can't make out what got into Jim, that he wouldn't answer a civil question. Jim was a good man, too." Perhaps the disturbing suggestion entered Harris's mind that the question had been none too civil, and he was really beginning to feel that after all Jim might be the aggrieved party. But he crushed down such mental sedition promptly. "It don't matter how good a man he was," he declared, "as long as I pay the piper I'm goin' to call the tune."

"It puts us up against it for a water-man, though," says Allan, thoughtfully.

"So it does," admitted Harris, who up to that moment had not reflected that his hasty action in dismissing Travers would result in much more delay than anything else that had occurred. "Well, we'll have to get somebody else. We'll manage till noon, and then you better ride over to Grant's or Morrison's. They'll be able to lend a man or one of the boys for a day or two." It was significant that although Harris was planning a considerable venture with Riles, when he wanted a favour his thought instinctively turned to his other neighbours, Grant and Morrison.

At noon Jim's chair was vacant, and the family sat down to dinner amid a depressing silence. No mention was made of the morning's incident until the meal was well advanced, when Harris, feeling that he ought in some way to introduce the subject, said: "Is Jim gone?"

"Yes, he's gone," blazed Beulah. "You didn't expect he'd wait to kiss you good-bye, did you?"

"One in the family is enough for that treatment," put in Allan, whose swollen chin and stiff neck biassed him against Travers.

"He didn't, either. And if he did it's none of your business, you big ——"; she looked her brother straight in the face, her swollen eyes telling their own story, and repeated deliberately, "you big coward."

Allan bit his lip.

"You're about the only person, Beulah, that could say that and get off with whole skin. I suppose he told you I hit him before he was on his feet."

"Well, he didn't. He didn't say you hit him at all, but he couldn't deny it, so we knew the truth. And we knew you must have taken some mean advantage, or you'd never have got near enough to leave a mark on him."

"Jim's quite a hero, all right. It's too bad he's gone."

"It's a good job he's gone," said Harris. "By the way Beulah talks things have gone far enough. I don't want my daughter marrying a farmer."

"Her grandmother's daughter did," said Mary Harris.

"Yes, I know, but things are different now. I look for something better for Beulah."

It was characteristic of Harris, as of thousands of others, that, although a farmer himself, he looked for "something better" for his daughter. He was resigned to Allan being a farmer; his intimate, daily realtionship with his son shrank from any possibility of separation. But for his daughter—no. He had mapped out no career for her; she might marry a doctor, lawyer, merchant, tradesman, even a minister, but not a farmer. It is a peculiarity of the agriculturist that, among all professions, he holds his own in the worst repute. As a class he has educated himself to believe that everybody else makes an easy living off the farmer, and, much as he may revile the present generation for doing so, he is anxious that his children should join in the good picking. In later years has come a gradually broadening conception that farming, after all, calls for brains as well as muscle, and that the man who can wrestle a successful living from Nature has as much right to hold up his head in the world as the experimenter in medicine or the lawyer playing hide-and-seek with Justice through the cracks in the Criminal Code. Herein is a germ of the city-ward migration: the farmer himself is looking for "something better" for his children.

"Jim was a good man," persisted his wife. "Don't you think you were—well, perhaps, a little hasty with him?"

Harris sat back. It was his wife's business to agree. For twenty years and more she had been faithful in the discharge of that duty. That she should suggest an opinion out of harmony with his indicated a lack of discipline, not very serious, perhaps, but a seed which, if permtited to flourish, might develop to dangerous proportions.

"So you're goin' to take his part, too? It's a strange thing if I can't handle my hired help without advice from the house."

Mary flushed at the remark. Any open quarrel with her husband, especially before the children—for she still thought of the man and woman to her left and right as "the children"—was more painful to her than any submission could have been. It would be so much easier to change the subject, to follow the line of least resistence, and forget the incident as quickly as possible. That had been her constant policy after the first few years of their married life. At first there had been troubles and difficulties, but she had gradually adjusted herself to her niche, and their lives had run smoothly together because she never interrupted the current of his. But of late the conviction had been coming home to her that some time, somewhere, she must make a stand. It was all very well meekly to fall in line as long as only her own happiness was concerned, but if the future of her children should be at stake, or if the justice of their dealings with others should be the issue, then she would have to fight, and fight it out to a finish. And, quite unbidden, a strange surge of defiance welled in her when her husband so frankly told her to mind her own business.

"I was under the impression we were managing this farm together, you and I, John," she said, very calmly, but with a strange ring in her voice. "When we came West I understood it was to build our home. I didn't know it was just to be your home."

The look of surprise with which Harris greeted her words was absolutely genuine. A hot, stinging retort sprang to his lips, but by a sudden effort he suppressed it. His wife's challenge, quiet, unruffled, but with evidence of unbending character behind it, in some way conjured something out of the past, and he saw her again, the greying locks restored to their youthful glory and the careworn cheek abloom with the colour of young maidenhood, as they had been in the gathering shadows that night when they swore to build their own home, and live their own lives, and love each other, always, only, for ever and ever. . . . . And yet, to let her defiance go unchecked, to have his authority challenged before his own children—it would be the beginning of dissolution, the first crumblings of collapse.

"We will talk about that some other time, Mary," he said. "If Jim had answered my question fairly, as he had a right to, instead of beatin' around the bush, I might 've let him off. But when I wanted to know what kept him he simply parried me, makin' a fool of me and rubbin' it in with that infernal smile of his."

"So that's what started it!" exclaimed Beulah. "Well, I'll tell you what kept him, if he wouldn't. The cattle got into the oats through a break in the fence, and I couldn't get them out, and the dog went ki-yi-ing over the prairie after a rabbit, and just as I was beginning to—to condense over it Jim came up and saved the situation. What if he did keep your old engine waiting? There are more important things than ploughing."

"Aha!" said Harris, knowingly. "Well, I guess it's just as well it happened as it did. Jim was gettin' altogether too good at runnin' at your heels."

"That's all the thanks he gets for working late and early, like no other hired man in the district. All right. You and Allan can milk the cows tonight, for I won't—see?"

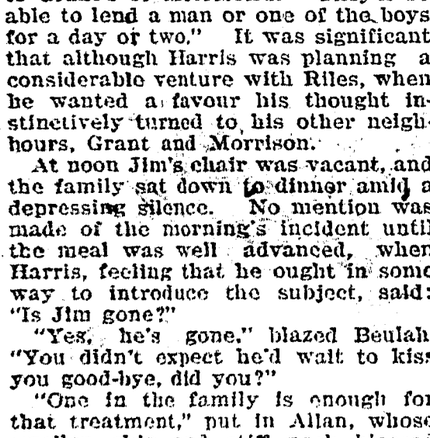
Harris was accustomed to his daughter's frankness, and as a rule paid little regard to it. He was willing enough to be flayed, in moderation, by her keen tongue; in fact, he took a secret delight in her unrestrained sallies, but that was different from defiance. He could, and did, submit to any amount of cutting repartee, and felt a sort of pride in her vigour and recklessness, but he had no notion of countenancing open mutiny, even from Beulah.

"We'll talk about that some other time, too," he said. "And you'll milk the cows to-night, as usual."

Beulah opened her lips as though to answer, but closed them again, arose, and walked out of the kitchen. For her the controversy was over; the die was cast. Her nature admitted of any amount of disputation up to a certain point, but when the irresistible force crashed into the immovable object she wasted no wind on words. With her war was over.

(To be continued)

It pays to patronize home industry. Buy from the merchants in your own town.

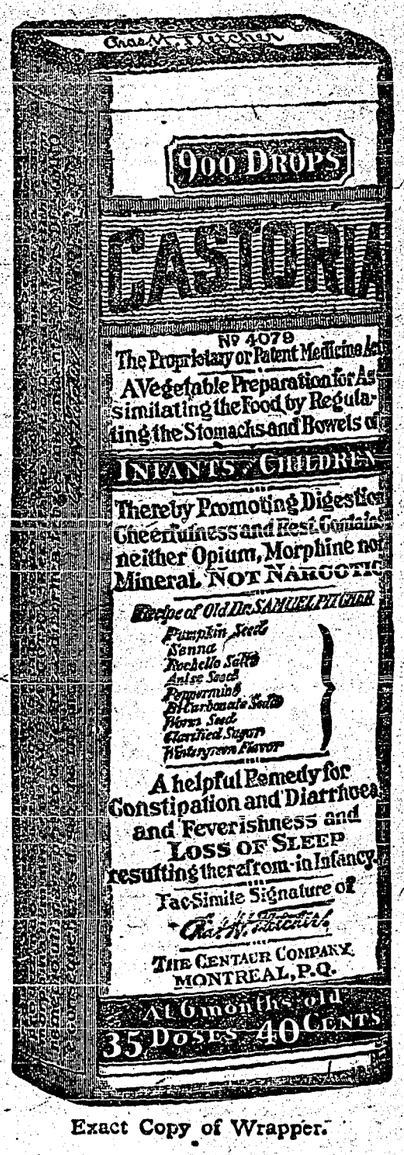


Honest Advertising.

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Fletcher's Castoria is strictly a remedy for Infants and Children. Honestly advertised as such, without a claim for more than its over 30 years of use have amply proven. A Baby's remedy for Babies. And not an adult's remedy for all the family and all the ails that human flesh is heir to.



Exact Copy of Wrapper.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

Planting Sockeye Eggs

Will Aid In Restoring Run of Fraser River.

Planting sockeye eggs, much as one plants potatoes or any other seed, is one of the new methods in use in connection with the artificial propagation of the king of salmon. The eggs are planted under gravel. This is akin to the conditions under which the fish are hatched by natural means and is expected to yield better results than were possible before. It is anticipated that this method will greatly aid in restoring the sockeye run of the Fraser River to a sound basis.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Proves Value of Irrigation.

Patricia, Alberta, is a standing testimony to the value of irrigation in Southern Alberta. Two years ago its site was unbroken prairie and its surrounding land virgin to the horizon. To-day there are twenty thousand acres under cultivation in the district directly tributary to the thriving settlement which has most civic improvements and advantages.

Takes Electricity From Air

New Generator Consists of Wire, Iron and Minerals.

Demonstrations have been made on the streets of Denver of a new electric generator that is claimed by the inventors to take electricity from the air.

The inventors are J. E. Ammann, of Denver, and his brother, C. E. Ammann, of Spokane, Wash.

To demonstrate, the brothers borrowed an old electric auto, took out the batteries and after roping their new "atmospheric generator" fast, they got in and rode off at a high speed.

"There is nothing inside the drum that moves; the contents consist only of iron, wire and minerals," says C. E. Ammann.

"It can be used to drive any electrical apparatus and can be made in any size."

The brothers are closely guarding their secret, and even take their "brain-child" when it is not in use, to their room in the Argonaut Hotel. So far the brothers have not offered to sell their proposition.

Electrical men in Denver are waiting "to be shown," but they grant the thing works.

ADVICE FOR BACKACHE

When stooping hurts, when lifting and bending causes distress that's the time to rub in lots of "Nerviline." Usually a couple of applications brings grateful relief. No liniment more soothing, more certain to kill muscular rheumatic, or sciatica pains. Thousands of homes rely on good old Nerviline for cramps, colic, dysentery and external muscular pains. Large 35 cent bottle for sale everywhere.

The Impediment.

The clergyman was solemnizing the marriage of an elderly couple the other day in the fens of Lincolnshire. All went well until he required and charged them both that if they knew of any impediment why they might not be lawfully joined together in matrimony they were to confess it. "I'm all right, mister," said the bridegroom, "but Martha, she lisps a bit!"

Otherwise, No!

"I see by the paper that a woman can live on nine cents a day."

"Nine cents when it's her own money, they mean."—New York Sun.

Corns, Warts, Bunions Painlessly Removed

Don't limp any longer, don't suffer another hour from corns. The oldest remedy and the best, the one that for fifty years has proved a true success, will lift out your corns in a hurry. Putnam's Painless Corn and Wart Extractor is the one remedy to use. Refuse a substitute, 25c everywhere.

Boot Factory For Calgary

Financed by British Interests Would Employ Over 300 Men.

If the City Council approves of tentative offers made by the commissioners, Calgary will have a boot factory in a short time, employing more than 300 men. The concern which may go there is financed by British interests and the city commissioners have recommended that a 99-year lease, on easy terms, be granted.

New Lamp Burns 94% Air

Beats Electric Or Gas.

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 100 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common keresene (coal-oil).

The inventor, T. V. Johnson, 595 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $200 to $500 per month.

A deputy game warden of Centreville, Md., arrested his 14-year-old son for shooting a raccoon in violation of the game law.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

A Saving Clause.

"Pa, why is a wife called the better half?"

"In order, my son, that she may not get the impression that she's the whole thing."—Boston Transcript.

Minard's Liniment used by Physicians

Canadian Fish For Chicago Market.

In less than one week twenty carloads of Alberta white fish from Lesser Slave Lake and Lac La Biche passed through Edmonton en route to the Chicago market. It is estimated that there are still eighty carlohds before this season's catch in Lesser Slave Lake will all be marketed.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merit through years of service. A trial will surely convince you.

The first woman to be presented with the Freedom of the City of London was the Baroness Burdett-Coutts, in 1872.

One of the mysteries connected with sunspots is their appearance in larger numbers than usual every eleven years or so.

Ask for Minard's and take no other.

Lace Trimmed Nightgown Of Crepe de Chine

By Marie Belmont

The tendencies in dress are often reflected in other realms of apparel. The nightgown illustrated is fashioned from a rich quality of flesh-colored crepe de chine. It repeats the style tendency of the frock in the sashes that are tied at its side. These are made of double faced ribbons which show pale blue on one side and flesh on the other. The square cut decolletage is outlined with fine val lace and insertion and partly hidden under the fine mesh of the lace appears the narrow ribbon which is tied in a dainty bow in the centre front.

Mrs. Lilian Taylor Tells How Cuticura Healed Her Baby

"Our baby was two weeks old when his face became very red and terribly itchy, and he was fairly crazy rubbing and scratching till the skin broke and bled. He could not sleep, and did nothing but cry. His face looked as though he might be disfigured for life.

"I thought I would give Cuticura Soap and Ointment a trial. I found the free sample so good that I bought more and two cakes of Cuticura Soap and a fifty cent box of Cuticura Ointment healed him." (Signed) Mrs. Lilian M. Taylor, Box 99, Bracebridge, Muskoka, Ont., Dec. 30, '18.

Cuticura Soap to cleanse and purify, Cuticura Ointment to soften and soothe and Cuticura Talcum to powder and perfume are ideal for daily toilet purposes.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal.
Cuticura Soap shaves without mug.

Cook's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

MONEY ORDERS

Remit by Dominion Express Money Order. If lost or stolen, you get your money back.

NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three years' Course of Training to young women, having the required education, and desirous of becoming nurses. This Hospital has adopted the eight-hour system. The pupils receive uniforms of the School, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent.

Homestead Entries Increase.

Homestead entries in Saskatoon district for the month of August total 73 as against 12 for the same month last year. Land sales revenues increased from $112 to $707.

The Perils of Neglect

Digestive ailments are frequently neglected. People say "It's only a touch of indigestion—it will go away." What begins as simple discomfort is allowed to become a serious—chronic ailment. Never neglect the treatment of digestive derangement. To relieve disorders of stomach, liver, kidneys and bowels, Beecham's Pills act promptly and usually overcome the difficulty. Take

Health First
POSTUM
"There's a Reason"

This is the start of a better day

There's satisfying comfort and cheer in a breakfast cup of Postum, and there's no disturbing element to irritate nerves or digestion and leave mental energy lagging before the day is done.

Thousands of former tea and coffee users have found that Postum meets every demand for a delicious table beverage, and brings steadier nerves, clearer mind—better health.

As many cups as you like with any meal—no after-regrets.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

"There's a Reason" for Postum

Sold by all grocers

Saves Mother Work & Father Money

CLARK'S Corned Beef

A good nourishing food, ready to serve and inexpensive. Try it cold or heat in slices and serve with fried eggs instead of ham.
No bone, no gristle, no waste and every can with the Government guarantee of purity.
Clark's Good Things are made from Canadian Farm Produce and sold everywhere in Canada.

CRESTON, B.C., FRIDAY, OCT. 7

LETTERS TO THE EDITOR

Mr. Leveque Replies

EDITOR REVIEW:

SIR,—I notice by Mr. Edmondson's letter in your last issue that he makes considerable of the fact that I stated that 32 gallons was just a little over one half barrel, and quotes high authority to prove that 32 gallons equals one barrel of wine, and 36 gallons one barrel of beer. The fact of the matter is that this class of container is very scarce in this district just at present, and I had reference to the kerosene or oil barrels more commonly seen in use, and reputed to hold from 50 to 60 gallons. However, this does not make 32 gallons per acre look any larger, nor does it make his scheme more efficient.

For Mr. Edmondson's information I might add to the above that 231 cubic inches equal one wine gallon, while the imperial gallon, generally used to measure water equals 277.274 cubic inches, and English standard weights and measures state that wine measures are for the measuring of wines and spirituous liquors only, and he wishes to use this table to measure the liquid in Dow's slough. This sounds interesting. Now I have never tasted the contents of Dow's slough, but I always understood that it was water—and poor stuff at that—but if it does really contain the proper elements for Mr. Edmondson's table of measurements I can safely predict a bright and prosperous future for his project.

Mr. Edmondson also states that the truthful school boy says that it is just two miles from Haskins corner to Creston. Quite correct. But I understood him to say that he intended pumping water from Dow's slough; not Bevan's garage. By the time he locates his engine where it can lift the water from the slough he will find that it is very nearly three miles from Haskins corner.

In your issue of August 26th Mr. Edmondson, referring to the Goat River scheme, estimated the distance from the canyon to Haskins corner as two miles, and "through foreign territory, so to speak." The fact is, that in a straight line between these points the distance is a little over one mile. About half of this distance is through fertile, cultivated land; not a bit more "foreign" than any other part of the Valley.

Mr. Edmondson states that I tried to make capital of his statements and try to mislead the people. I have no capital to make. I am not boosting a project of my own, and I do not wish to mislead anyone in any way whatever. Mr. Edmondson gave figures, 36,000 gallons, 36,000 tomato plants, etc., that sounded pretty big, so I figured this thing out for myself, with the results as stated in my last letter, and incidentally found that his figures were very misleading.

Mr. Edmondson then proceeds to show what he could do with $3000; the amount he figures the Arrow Creek scheme would cost each 40 acre ranch, and which he thinks so terrible. He would buy an engine for $1400—very good. This, he states, would leave $1600 for pipe. Let's see. What about a concrete base for engine, house for same, reservoir for intake—likely of concrete, and properly screened to prevent vegetation and dirt being sucked up and plugging the pump valves—foot valve for intake pipe, check valves above engine and at various distances along discharge pipe, hauling of pipe, ditching and reservoir at top for discharge; all these things would be necessary.

Mr. Leveque Replies

[Continued from Page 4

and when they are supplied and paid for it will not alter the fact that it will take this engine over thirteen days to pump water sufficient to supply one inch of moisture over 40 acres of land, so the dozen neighbors will have to be very small users indeed.

Also with this kind of an outfit it is usual to have a man in charge both day and night. This, together with fuel, oil and upkeep, would soon eat up that tax of $300—wherever he gets this from.

Next, Mr. Edmondson states that $5000 will buy sufficient eight-inch pipe to cover one mile. In his proposed scheme, if this size pipe could be used, approximately three miles would be required to reach a reservoir at Haskins' corner, together with an engine, pump, housing for same, intake reservoir, various valves, mechanics, fuel oil, etc. On the other hand the distance from projected head on Arrow Creek to Haskins' corner is, according to survey, four miles, and in this case pipe only would be required, and once installed there would be practically no upkeep; water would flow by gravity and in considerable larger quantity that could be forced up hill with an engine.

I quite understand that in this last scheme the pipe would be laid for a considerable distance through an area as yet unsettled, but if the pipe is laid I have no doubt that a considerable acreage on both sides of the pipe would soon be cleared and put under profitable cultivation.

In Mr. Edmondson's scheme the pipe would run through an area already settled, but I am of the opinion that if laterals are run from the main discharge pipe the results will be far from satisfactory to the water users. For the whole length of this pipe the water would jump to every pulsation of the pump, and if large quanties of water were removed as necessarily have to be, the engine would be working against a constantly varying pressure and would be in ruins in a very short while. Besides, the users on this line would have water only when the engine is pumping; check valves would have to be used in this pipe, and any water that reached the reservoir could not return by the same pipe.

Mr. Edmondson then attempts to draw a comparison between what could be done by a fleet of such engines as he suggests and the flow of Arrow Creek. It is absurd and ridiculous, to say the least. He takes the maximum amount, which he claims the Arrow Creek project would cost, and spends it all to buy 155 engines. He leaves nothing to provide for installation and housing, main pipe, laterals, ditching, etc,; just 155 engines, and proceeds to tell us what these could do, and he carefully refrains from telling us what this fleet of gadgets would cost for upkeep, not counting the small army of mechanics, and fuel by the carload.

By the time this fleet of engines were housed I have an idea that a considerable section of the "panorama of incomparable magnificence and eye-enticing scenes" which incited Mr. Edmondson to plunge into a rhapsody a short time ago would be very badly disfigured.

The Arrow Creek project, on the other hand, provides for everything—main pipe, laterals and the water delivered to each individual ranch. Also in his last letter Mr. Edmondson advocates the use of chlorine and alum to make the waters of Dow's slough fit for domestic use. I have a very good recollection of having to put up with this kind of dope over in France and not so very long ago. I know that horses will not drink it until almost dying from thirst, and we were the same. And as for making tea or cooking with it; horrors, I would prefer to haul my supply from Goat River, and with a teaspoon if necessary.

Now, about light. A good authority states that the quantity of water carried by a four-inch pipe discharged with reasonable fall on a turbine will generate nearly five horse power. A one foot pipe, about 45 horsepower. This size plant, with proper dynamo, would, I am quite sure, furnish all the electricity Creston could use and the town is admirably situated for the installation of such a plant. The initial cost would possibly be higher than with steam or gas, but the upkeep would be very much lower. There would be no fuel; just a little oil and one electrician—or at most two would be required. It is quite possible a smaller plant would do for present needs. In any event Arrow Creek would supply plenty of water in addition to what would be needed for irrigation, etc, to run any of the above mentioned plants.

I must apologize for encroaching so much on your valuable space, but I am of the opinion that irrigation is an absolute necessity in this Valley, and that whatever schemes are suggested should be thoroughly discussed pro and con; then which ever it deemed as the best available let us get busy and put it in. We have put it off long enough.

LEONARD T. LEVEQUE.

Girls working on the apple peeling lathes at the Vernon evaporator are making as high as $4 a day on a "piece work" basis. The evaporator is employing 130 people, and will run till about the end of December.

Does It Pay The Farmer To Hold His Wheat

The question which constitutes the heading of this article has been asked and debated thousands of times and it still remains a moot question in the minds of many people. Commissions have investigated the grain marketing problem in practically all the great wheat growing countries of the world, and in this connection due consideration has been given to the effect on prices of the early marketing of the bulk of the wheat crop immediately following harvest. The prevailing opinion in the minds of most people has undoubtedly been that those farmers who, from force of circumstances, were compelled to rush their wheat to market were the losers thereby, while the man who could afford to hold it and watch the market stood to gain.

Practical and experienced farmers have become not only critical but rather resentful of writers in newspapers who essay the task of advising them what to do and what not to do. Arm chair farmers, like arm chair military strategists, are not popular, nor do they carry much weight, and possibly rightly so when they attempt to deal with practical farming problems. But in the matter of the marketing of wheat, men who never plowed a furrow or sowed an acre in their lives, but who have studied the question of marketing, the fluctuations of prices, and the harvest seasons around the world, are well qualified to speak in reply to the question at the head of this article. They are certainly in just as good a position to express an opinion in regard to it as any practical farmer, and possibly in a much better position to do so intelligently.

Of course, no hard and fast rule can be laid down because conditions vary from one year to another and circumstances arise beyond the control of mere mortals which upset any and all calculations and defy previous experience. For example, the man who sold wheat immediately following the outbreak of war in 1914 was the loser by so doing. It is, therefore, only possible to arrive at an intelligent answer to the question whether it pays the farmer to hold his wheat after harvest by taking the average run of prices over a period of normal years.

The Federal Reserve Bank of Minneapolis has recently issued a set of most interesting charts, one of which seeks to throw some light on the question. One pair of charts shows the variations in prices on the Chicago and Minneapolis markets covering the 45-year period from 1876 to 1920; another shows the monthly range of cash wheat prices in Minneapolis during the last ten years, while a fourth chart, dealing with the normal pre-war years of 1903 to 1913, shows whether a farmer stood to gain or lose by holding or selling his wheat as indicated by the Chicago prices which prevailed from month to month throughout this ten-year period.

Taking the August price in each year as a basis, the chart in question shows the fluctuations in price above or below the August price in the succeeding months until August again came round. The chart reveals the amazing fact that in only 25 months out of the 120 in this ten-year period would it have paid the farmer to hold his wheat as compared with selling at the August price. In other words, in 95 months out of the 120 there was a loss by selling wheat at other than the August price. On the average every month showed a loss, and these losses vary from about five cents to fourteen cents a bushel. It is further pointed out that if September prices, instead of August, had been selected as the basis for making the comparison the conclusions would not be changed.

This highly interesting chart, based as it is on authoritative figures from official records, shows that by selling in September instead of August throughout these ten years the farmer would have sustained an average loss of 5.1 cents per bushel; selling in October instead of August his average loss would have been 7.2 cents per bushle; selling in November the loss would have been 12.3 cents; in December 13 cents; in January 13.8; in February 12.3 cents; in March 13.6 cents; in April 14.1 cents; in May 12.7 cents; in June 10.7 cents; and in July 9.1 cents.

In arriving at these figures allowance has, of course, been made for the cost of storage, shrinkage in weight, and interest charges, but a farmer holding his wheat must pay all these, and he cannot, therefore, merely compare actual market prices at the time of harvest with the price quoted three or six months later.

Selling promptly in the fall of every year appears, therefore, to yield the farmer the best average price, judging by the experience of these ten normal pre-war years. In some years, of course, he would gain by holding his wheat, but these are the exceptional years and not the rule. In fact, his chances of loss through holding instead of prompt selling in the fall appear to be about four to one.

Why does a corporation sometimes wait until there is nothing to receive before asking for a receiver?

WOMEN OF MIDDLE AGE

May Pass the Critical Period Safely and Comfortably by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask.—"I was going through Change of Life and suffered for two years with headache, nervousness, sleepless nights and general weakness. Some days I felt tired and unfit to do my work. I gave Lydia E. Pinkham's Vegetable Compound a trial and found good results, and I also find it a very helpful Spring tonic and useful for constipation from which I suffer much. I have recommended Vegetable Compound to several friends, and am willing you should publish this."—Mrs. MARTHA W. LINDSAY, 810 Robinson St., Regina, Sask.

If you have warning symptoms such as a sense of suffocation, hot flashes, headaches, backache, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, get a bottle of Lydia E. Pinkham's Vegetable Compound and begin taking the medicine at once. We know it will help you as it did Mrs. Lindsay.

Small Potato Crop.

The potato crop in the district round Hamilton, Ont., is reported by producers to have failed. Saskatchewan will have some potatoes for sale, and even at present freight rates could be sold for considerably less than $9 per bag, which some of the Hamilton producers anticipate will be the price before snow falls.

Dyed Her Wrap Blue And a Skirt Brown

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Unnecessary.

Hotel Clerk.—Would you like a room with a bath, sir?

Erza Dimbleby.—No, thanks. Jist a room. I took a good wash afore I left home last week.—Judge.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Every mature oyster produces about one million young each year, but the wastage is enormous. Out of that million it is estimated that, on the average, only one or two survive.

Originally March was the first month of the year.

Keep Minard's Liniment in the house

DO YOU FEEL LIKE THIS WHEN YOU WAKEN?

Do you feel blue, sickly, heavy, too tired to get up? If so, it's probably your liver which is slow and needs to be toned and stimulated by Dr. Hamilton's Pills. It's a wonderful change Dr. Hamilton's Pills will make in a few days. They relieve the system of poisonous wastes, they aid the stomach, improve digestion, increase your appetite. You'll feel like new all over after using this health bringing medicine. Thousands have proved it. Sold everywhere in 25c boxes, or The Catarrhozone Co., Montreal.

Elements of Peace.

England seems to have decided that it doesn't want to whip Ireland, and Ireland appears to have determined that it can't whip England. If that doesn't mean peace there is no hope.—Toledo Blade.

MUCH ILL-HEALTH DUE TO BAD BLOOD

If the Blood is Kept Rich and Red You Will Enjoy Health.

More disturbances to health is caused by weak, watery blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders try building up the blood with Dr. Williams' Pink Pills. These pills have a special action on the blood and as it becomes enriched your health improves. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the experience of Mr. D. J. McDonald, North River Bridge, N.S., who says: "For some years I suffered severely with headaches, pains in the back and a run-down condition. At times the pain in my back would be so bad that I would sit up in bed all night. From time to time doctors were treating me, but did not give me more than temporary relief. And then one day, when I was suffering terribly a neighbor came to see me, and urged me to try Dr. Williams' Pink Pills. After taking two boxes I felt relief. I got five boxes more and before they were all gone I felt as though they were giving me new life, as in every way they built up and improved my health and strength. I am now working as a barker in a pulp mill, ten hours a day and feeling none the worse after my day's work. I say with pleasure that this condition is due to Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 5 cents a box, or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Boril prevents that sinking feeling

Says Germany Must Go To Reparations Limit

Munich.—"We must go to the limit of our capacity with regard to reparations," Dr. Walter Ratheneau, the German minister of reconstruction, declared before the congress of the Imperial Association of German Trades: "Complete fulfillment of the terms of the ultimatum will affect the world economically more severely than ourselves. Britain has three million and the United States six million unemployed. The more Germany must work the more the others cease working. What is needed is an international economic understanding."

The minister approved Winston Churchill's suggestion of co-operation as outlined in his Dundee speech and said with regard to France:

"We must give goods; the problem is to substitute products for gold. We are to have a further conference with France regarding arrangements for deliveries of gold marks to the amount of seven billion in the course of four and a half years."

Munich and Berlin Settle Dispute

Responsibility of Suppression of Newspapers Caused Contention.

Munich.—An agreement reached at Berlin on Sept. 24 between representatives of the Bavarian and the Central German Government has been adopted by the constitutional committee of the Bavarian Diet. This agreement is intended to effect an adjustment of the controversy which has been raging between Munich and Berlin for some time.

One of its provisions makes the authorities of individual German States responsible for the suspension, or suppression of newspapers. This was one of the principal causes of contention between the two Governments.

Refugees In Petrograd.

Riga.—Approximately 150,000 refugees from the famine districts of Russia now are in Petrograd, says a wireless message received here. Work has been found for only 5,000 of these refugees, the wireless adds.

CHOLERA INFANTUM

THE FATAL DISEASE

OF CHILDREN

Mothers should look well after their young ones during the hot summer months as this is the time of year when this summer complaint is most prevalent. It begins with a profuse diarrhoea, the stomach becomes irritated, vomiting and purging set in, and the matter ejected from the stomach has a bilious appearance; the child rapidly loses flesh and is soon reduced to great langour and prostration which in a great many cases terminates fatally.

To quickly offset the vomiting purging and diarrhoea

DR. FOWLER'S

EXTRACT OF

WILD STRAWBERRY

should be administered.

Mrs. Charles Kretlow, Wideview, Sask., writes:—"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaint. I think it saved my little girl's life one time as she was so bad I thought she was going to die. A friend advised me about "Dr. Fowler's," so I got a bottle and it helped her right away."

Don't endanger your child's health by accepting a substitute, but get the genuine "Dr. Fowler's," price 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1388

Plan To Attend Conference

Premier Briand Will Accompany French Delegation to Washington.

Paris.—Premier Briand, it was announced has decided to leave for the United States on the steamer Lafayette, sailing probably November 1, to attend the conference on Far Eastern questions and limitation of armaments. With him will go the entire French delegation to the conference and its staff.

Melbourne.—Premier Hughes, when asked regarding the possibility of unofficial Australian representation at the Washington conference on Far Eastern questions and limitation of armaments, said: "I think it would be like a man presenting himself at the gate of Heaven without a ticket of admission."

India Dissatisfied With Present Rule

Desires Measure of Autonomy Granted to Self-Government Dominions.

Toronto.—That the retention of India as an integral part of the British Empire can be secured only by ultimately granting to her that measure of autonomy already enjoyed by the self-government Dominions, is the opinion of Dr. S. E. Datta, a recognized leader of the moderate party in India, who addressed the Canadian Club here.

The address was a notable one in that it came from a native Indian who, although thoroughly in sympathy with the idealistic side of the Nationalist movement in India, has thrown the weight of his influence on the side of constitutional reform under the British Government.

Dr. Datta strenuously combatted the idea that the race now going on in India between constitutional reform one one side and revolution on the other was one that affected the other sections of the Empire merely as spectators. On the contrary, what the other sections of the Empire did, said and thought, was of vital consequence.

Japan Selects Delegates

Surprise Caused By Appointment of Prince Tokugawa.

Tokio.—The Japanese delegates to the Washington Conference on limitation of armaments, will be: Prince Iyesato Tokugawa, president of the House of Peers; Vice-Admiral Tomosaburo Kato, Minister of the Navy, and Baron Kijuro Shidehara, ambassador to the United States, it has been officially announced.

The delegation includes 18 others representing the foreign office, three representing the ministry of finance, twelve the ministry of the navy, and seven the army.

The appointment of Vice-Admiral Kato and that of Ambassador Shidehara had been expected, but the Asahi Shimbun in commenting upon the makeup of the delegation, emphasizes the fact that the appointment of Prince Tokugawa was a great surprise to the nation. It expresses the view that for one thing it embodies a move by Premier Hara to prepare the way for a Tokugawa ministry after the Washington Conference, when the present cabinet, it says, is likely to resign.

Patronize your local merchant and thereby help to build up your home town and community.

The Empire's Effort--- And Sacrifice

One Man in Every Ten Laid Down Life In Great War.

From a return lately printed for the House of Commons, and published in the official Parliamentary report of May 5, we are now fully able to realize the magnitude of the effort made by the British Empire during the European war and how heavy was the sacrifice demanded of those who helped by land and sea in gaining the victory at the end of the long struggle. The total numbers of our sea and land forces that served during the war amounted to the huge total of something over nine millions of men; of these nine millions—nine millions, be it remembered, of the very pick of the Empire—no fewer than one man out of every ten laid down his life, having been killed in action, died of wounds, or died from disease due in some measure to the war. One man in every four was wounded, and one man out of every three became a casualty in one way or another—whether by death in action, from wounds or from disease, or by being wounded or taken prisoner. This is surely a very terrible proportion, and shows how and to what a dreadful extent the modern wars of nations have increased the casualties among those taking part in them, while the sacrifice also falls most heavily upon the very pick of the manhood of the opposing peoples.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Lower Grain Rates From Montreal

Montreal.—At a meeting of the various shipping lines of Montreal it was decided to make a reduction of ten per cent. in the existing freight rates for grain being shipped from this port to points in the United Kingdom. This reduction comes, it is said, as the result of the scarcity of package freight.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Eclectric Oil will allay the inflammation and in consequence the cough will cease. Try it and you will be satisfied.

Give Aid To Russia.

Rome.—The Holy See has instructed the Bank of Rome to transmit 1,000 Italian lire to the papal nuncio in Berne, Switzerland, for the relief of the Russian famine sufferers.

C.P.R. Reduces Rates On Livestock Shipments To St. Paul & Chicago

Urges Aiding Austria

Hon. A. J. Balfour Appeals to All Countries For Help.

Geneva.—Speaking in the assembly of the League of Nations on a resolution expressing the regret of the assembly that the reconstruction of Austria's finances had been delayed for a reason it was hoped would shortly be removed, Right Hon. A. J. Balfour said the Allies had done all they could for the restoration of Austria. All of them had released their aliens to that end, he recalled, and he hoped that the Austrian people would not lose their courage. He appealed to all the countries, in the general interests of Europe and for the credit of civilization to do all they could to enable Austria to regain her feet.

World Record For Altitude

Airman Attained Official Height of 40,800 Feet.

Dayton, Ohio.—Lieut. John A. MacReady, test pilot at McCook Field, shattered the world's altitude record, attaining an official height of 40,800 feet in the same laperer biplane used by Major Rudolph C. Schroeder, who set a record of 38,180 feet on February 28, 1920.

Lieut. MacReady was in the air one hour and forty-seven minutes, requiring all but a few minutes of the total flying time to reach his mark. At 39,000 feet, ice formed on his ozygen tank but he pressed on until the anti-meter registered 41,000 feet. At this point his engine coughed and died. He then glided safely to the ground.

Typhoon In Japan Kills Hundreds.

Tokio.—Several hundred persons have been killed by a typhoon in Central Japan, centring upon Nagoya, on the Island of Hondon, where a tidal wave destroyed crops and houses. Several steamers were sunk and many fishermen are missing.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Eclectric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Sixty-Three Days In Open Rowboat

American Ex-Soldier and Daughter Found By Police Launch.

Washington.—Sighted by Chesapeake Bay fishermen five miles off Norfolk, Va., in an open rowboat, in which they had been cruising the waters of the bay, and the Potomac River for sixty-three days, William A. Spencer, ex-soldier, and his ten-year-old daughter, Cora Eleanor, were later located by a police launch and brought to that port after a nation-wide search for weeks, following their mysterious disappearance from this city. Finding of the father and daughter was made known at police headquarters here after notification from the Norfolk authorities.

Our slogan for the coming year should be, "Buy at Home." Add to your own and your neighbor's prosperity by keeping the money circulating in our own district.

Winnipeg.—A reduction amounting to 20 per cent. on all rates over 50 cents per hundred pounds on livestock shipments from the prairie provinces to St. Paul and Chicago, has been announced here by the Canadian Pacific Railway. There is no reduction being made below 50 cents per hundred pounds. This new rate will become effective Oct. 8. The statement issued by the Canadian Pacific Railway says: In view of the fact that cattle are moving from the prairie provinces to St. Paul and Chicago, notwithstanding the Fordney tariff, it is reducing the rates on livestock in line with the reductions made by U.S. railways.

The following are quoted as samples of the new rate:

Moose Jaw to St. Paul 55 cents as against the present rate of 69 cents; to Chicago 77 cents against 96; Calgary and Edmonton to St. Paul, 70 1-2 against $8; to Chicago 92 as against $1.15.

Halifax To Improve Shipping Facilities

Board of Trade Looking for Large Cattle Shipments.

Halifax.—The Halifax Board of Trade have announced that they have taken steps toward the improvement of cattle shipping facilities at this port in anticipation of large animal shipments from Halifax to the Old Country during the coming winter.

The Board may ask the Government to have the large sheds at the new ocean terminals made ready for temporary use as cattle sheds, according to one suggestion. The first small shipment of cattle through Halifax has already been made.

French Policy Announced.

Paris.—Premier Briand will outline the position of the French Government relative to the conference on limitation of armaments in a speech at St. Nazaire on Oct. 9. On that occasion he purposes to make a declaration of ministerial policy concerning all questions of prime importance now before the country which will be laid before Parliament when it re-assembles on Oct. 18.

Forbidden to Drive Car.

Moose Jaw, Sask.—Andrew Casey, who was found guilty of driving a motor car in a manner dangerous to the public, was forbidden to operate a car for six months and fined $25 in the police court here.

ASPIRIN

Only "Bayer" is Genuine

say BAYER

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

FOR SALE—Good farm horse, ride or drive, quite gentle. Paul Ofner, Wynndel.

FOR RENT—The building occupied as a millinery store on Victoria Ave Apply to Mrs. Bruce.

WANTED—A few pullets or yearling hens, state breed and price. P. G. Ebbutt, Box 46, Creston.

LOST—Between Cranbrook Sash & Door Co. sawmill, Kitchener, and Erickson, black jewelery case containing a few watches, chains, etc. $25.00 reward. M. McLeod, Cranbrook.

Miss Amy Ebbutt, who has spent the past month at her home here, returned on Sunday to Lethbridge.

Mrs. Jones of Nelson, wife of acting manager Jones of the Imperial Bank, is a visitor to town for the fall fair.

Friday, Nov. 11, Armistice Day, will be celebrated here by a whist drive and dance under Women's Institute auspices.

The vital statistics for September show but four births—two each of boys and girls—with no marriage and no deaths.

FOR SALE—8 purebred White Leghorn cockerels, Palmer strain, Victoria, $3 each. W. C. Cleave (Canyon), Erickson P.O.

Mrs. E. H. Small and two children arrived from Vancouver on Thursday last to join Mr. Small, who has lately taken charge of the Creston Hotel.

FOR SALE—Team bay geldings, 7 and 8 years old. Double harness and Bain wagon. This is a snap of the season. Apply Creston Cafe, Creston.

Dave Dow, who has been assistant to the C.P.R. agent at Kingsgate for the past couple of months, is among those in town for the fair this week.

One Brahma rooster, purebred Shoemaker strain (from Illinois) two years old, splendid for breeding purposes, $10.00. Creston Cafe, ask for Mr. Poppel.

Mrs. Meagher of Nelson is among the out-of-town visitors here renewing acquaintances and seeing the Creston fair, and is the guest of Mrs. C. O. Rodgers.

Creston Board of Trade meets on Tuesday night, and a timely report from Chairman Garland of the municipal committee will be one of the features of the session.

H. Bailie of Vancouver, western inspector of branches of the Bank of Commerce, made an official call on Manager Bennett, a couple of days the latter part of the week.

During the absence of agent Swanson the C.P.R. depot is in charge of Sam Whittaker and Henry Chester—the latter handling the telegraphy—both former employees here.

At the National Liberal Conservative organization rally on Saturday night, C. B. Garland was chosen president of the new political organization with J. W. Hamilton secretary.

The October meeting of the Women's Institute is called for Friday afternoon next, Oct. 14th, and the directors are arranging for one of the most interesting sessions of the year.

C.P.R. agent A. R. Swanson is taking his usual fall vacation at present and left on Monday for coast points. While away he will attend a meeting of the executive of the B.C. United Farmers.

The Valley's total rainfall for September was just a little less than three-fourths of an inch. The hottest and coolest days came close together. On the 13th we had it 24 above zero, and on the 17th 74 in the shade was recorded.

Frank Ebbutt, who arrived home about two weeks ago from a summer spent on geological survey work in the Fort Norman area, left on Thursday last for Vancouver, where he has commenced his second year in the school mining.

In the neighborhood of 200 game licenses have been taken out at Creston up till the end of October. Of these three were trappers' permits, and nine were big game licenses. The provincial exchequer is $560 the richer on this business.

Mrs. (Rev.) Knox, who has been a visitor with Nelson friends for a couple of weeks, returned on Saturday. Mr. Knox, who is undergoing treatment is showing marked improvement. He returns every Saturday to take his pastoral work here.

The Banff Orchestra, which attracted such large crowds to their two dances in Creston earlier in the year, will be here again on Thursday evening, Oct. 13th, for another dance in Mercantile Hall. The admission is $1.35, which includes tax and supper.

Mr. and Mrs. Ginol of Boswell were among those from that town who were visitors at Creston fair this week. Owing to a mistake in the date they arrived on Tuesday, but were able to make a quite thorough inspection before the judging started that afternoon. They returned home the same day.

At the Liberal Association meeting on Saturday night Messrs. R. B. Staples, A. D. Pochin, C. F. Hayes, M. J. Boyd, S. A. Speers and Alex. Lidgate were named as Creston delegates to the West Kootenay nominating convention at Nelson on the 6th. Kitchener and Sirdar will furnish the other two delegates.

$41 was gathered in amusement tax at Creston for the month of September, and another interesting item of revenue was $14 which Provincial police McLaren received for liquor permits. Fines amounted to only $17.50—a couple of assault cases being all the business offering in Magistrate Crompton's department.

Business is brisk along the C.P.R. line, work starting on Monday on the big fill at the trestle at Kootenay Landing. There are two trains on the haul and the other at the unloading end. The material for the fill is coming from the cut this side of the Canyon bridge, where a steam shovel is at work. The job will take possibly six weeks.
