VOL. XXV. CRESTON, B. C., FRIDAY, OCTOBER 13, 1922 No. 36

Lister

Mrs. A. W. Atkins left at the end of the week for Vancouver, where she will probably spend the winter. Mr. Atkins is at present employed at the Continental mine at Porthill.

E. Thompson and family are now resident at Porthill, where he is working on a logging contract with Clem. Gorsline.

Gus Charleson has returned to Lumberton, after a week's visit with his family here.

Miss Nellie Chalmers was a weekend visitor at the Clark home at Erickson.

Peter McKay is laid up at his home here with about four fractured ribs, the injury having been sustained by a fall from a ladder while picking apples at the Jackson ranch, Creston.

A. R. Webb has just secured a flock of 40 White Leghorn hens and intends specializing in the production of hatching eggs and day old chicks next season. The birds are coast stock, the male being from the pen that headed the list at egg-laying in the provincial egg-production contest a year ago.

The bachelors of Lister were hosts hosts at a farewell dance to Miss Nellie Chalmers at the schoolhouse on Saturday night. There was a large turnout and a splendid time was spent by all, the player piano dispensing the music.

At the United Farmers' meeting on Friday night, with President Powers in the chair, F. N. Thompson was elected secretary to succeed J. W. Head, who is wintering at Porthill. The necessary $2 was voted to pay the prize to the youngster who headed the list of gopher killers this spring.

Ship Jumbo Car of Apples

The biggest carload of apples ever shipped out of B.C. rolled east at the first of the week, destined for Magrath, Alberta, the buyers being Messrs. Wurz and Whiffl, representing the Mennonite colony at that place, the sale being put through by Staples Fruit Company, Ltd. There were 1500 boxes in the car, 50-50 to Wagners and Jonathan, and the fruit was loaded loose like grain or coal, the Frank Putnam and R B. Staples ranch supplying the apples. It will be recalled that a year ago these same gentlemen purchased a slightly small er quantity of these same varieties, and shipped them in the same jumble fashion. Mr. Wurz states that the 1921 shipment arrived and was unloaded with practically no waste, due somewhat to the fact that the buyers sorted over the fruit every couple of weeks and first made use of the apples that were showing signs of going bad, while many of the Wagners were kept in prime shape until well along in June. The popularity and excellence of the Erickson apple is revealed in this year's purchase for although the Doukhobors at Grand Forks offered the Mennonites these same varieties at a lower price so well satisfied were the buyers with last year's stuff that they readily took the Valley fruit at the higher price.

Kitchener

Mr. and Mrs. Ernest Geroux are here on a visit to his parents, Mr. and Mrs. Z. Geroux.

Mr. and Mrs. Robillard were visitors at the Kitchener Hotel on Sunday.

Mr. and Mrs. Bundy, Mrs. Dow and Mr. McLeod were visitors with Mrs. Hunt between trains on Sunday.

Mr. and Mrs. McGonegal and family were visitors at Creston fair on Wednesday last. B. Johnson and family also motored down for the exhibition.

Kitchener Timber Company have a crew busy loading poles this week.

Mr. and Mrs. Hunt and Miss Hunter were week-end visitors at Erickson.

Wynndel Ranchers in Court

Magistrate Mallandaine disposed of seven of the eleven cases arising out of that number of Wynndel ranchers burning off their strawberries in July without first securing a permit from the district forester. The case against O. J. Wigen was dismissed, and the charges against Ron. and E. Uri and E Penson were withdrawn, while judgment was reserved in the Peter Andestad case. On Tuesday the court will sit again when Messrs. Carl Wigen, Carl Carlson and Paul Ofner are due to appear. While the Forest Act is quite clear that burning shall not be done, according to the Noxious Weeds Act the farmer is compelled to do burning of this sort. Matt. Hagen and Monrad Wigen are convicted and fined $10 and costs. It now seems certain that no matter what decisions the local magistrate gives the cases will be appealed. C. B. Garland appears on behalf of the ranchers, while Norman Moore, district forester of Cranbrook, is conducting his own prosecutions.

FALL FAIR CUP WINNERS

Speers' Cup—Five boxes of apples—P. R. Truscott.

Canyon City Lumber Company, Ltd., Cup—Three boxes of apples—W. J. Truscott.

Hayes' Cup—Best box of apples in show—W J. Truscott.

Mawson Bros. Cup—Box of pears—M. B. Archibald.

Geo. Johnson Cup—General Purpose team—J. P. Cook.

Bank of Commerce Cup—Dairy Cow—W. H. Crawford.

Col. Lister Cup—Utility pen poultry—Jas. Adlard.

W. V. Jackson Cup—Best male bird in show—Mrs. Fred Powers.

Board of Trade Cup—Collection of vegetables—E. Simmons.

Chicken Supper at Canyon

The Ladies' Aid of Canyon City will hold a chicken supper and entertainment on Friday, October 27th. Supper will be served at 7 p.m. prompt, and concert to start at 9. Admission to supper and entertainment 75 cents to adults, and 25 cents to children of school age. Children under school age, free. Proceeds in aid of church building.

Both the Union and Staples packing houses are running considerable overtime at present in order to keep up with the rush of winter apples now coming in at both warehouses.

1922 Fall Show — Biggest and Best

Now that the list of prize-winners has been compiled some idea of the extent and excellence of Creston's 1922 fall fair can be gleaned from the fact that of the 249 sections in the prize list everyone of them with the exception of about twenty had one or more entries, the books showing a total entry of almost 1200—an average of at least five for each section.

The lightest showing, of course, was in the outdoor classes, the wet weather of Wednesday preventing the bringing in of livestock. In spite of the downpour, however, there was a splendid show of poultry, with the honors in this class going to W. S. McAlpine, who took home firsts on his Barred rock hen, cock and cockerel, as well as guinea fowl, and a second on the utility pen. Mrs. Fred Powers of Lister captured President Jackson's cup for the best male bird in the show with her White Wyandotte cock, while Jas. Adlard captured the red ticket on the utility pen, with F. J. Harbinson, a Cranbrook fancier, taking the prize for the breeding pen with Leghorns.

Goats were a new feature of the outdoor show with P. G. Ebbutt taking first on milch goats and E. W. Harrison winning both prizes on kid under one year.

In the fruit section E. E. Goodwin was the most prominent winner, although the cups did not fall to his share. P. R. Truscott captured the Speers' Cup for the five box lot, while W. J. Truscott took the Canyon City Lumber Company Cup for the three box lot, and the Review silverware for the best box of apples in the show, the feature to the cup winnings being that almost without exception the Delicious figured exclusively in all the cup competitions.

Mr. Goodwin's winnings included the two box lot of McIntosh Red, first and second in Delicious and the best colored box in the show. Mrs. J. W Hamilton scored firsts and seconds in the Wagner and Ontario. M. B. Archibald took home the Mawson Cup for box of pears, while Sam Moon was the big winner in plums as well as peaches.

The juvenile section was the biggest in a number of years, with a preference for cooking. Tilly Nickel with firsts on lemon pie and buns, and Lily Wilson with the same showing on nut loaf and underskirt were the most prominent.

The show of roots and vegetables was almost double that of a year ago and the winnings were quite evenly divided. E. Simons again captured the Board of Trade cup for the best collection of vegetables, while Louis Littlejohn, who was second on collection was prominent with watermelon, citron and cucumbers, on all of which he scored firsts. John Huscrott was another prominent vegetable exhibitor and landed on top on potatoes, cabbage and field beets. F. B. Pearce took home four red tickets with his pickling onions, turnips and parsnips, while Mrs. R. S. Smith and T. M. Edmondson had two first each on mangolds and white carrots, and marrows and celery respectively.

The flower show was the biggest ever, and due to too little table room could not be seen to advantage at all. Mrs. C. O. Rodgers won the premier event, the silver vase, for collection of house plants, and another prominent exhibitor was Mrs. R. S. Smith whose gladiolia and pansies were the best in the show.

In the canned goods Mrs. E. Payne and Mrs. W. V. Jackson were the most prominent. Mrs. Payne led in the collection of canned goods and jam, while Mrs. Jackson's best was the collections of canned vegetables and canned fruit. Mrs. Mallandaine proved herself the best one-pound print buttermaker, and also was awarded the medal for jelly.

In cooking Mrs. Stocks was first in both Royal Household and Our Best flour bread. Mrs. Geo. Johnson's fruit and sultana cakes were adjudged the best in the show, Mrs. Hayes had the best cookies, nut loaf and devil food cake, Mrs. Benninger the best pumpkin pie and doughnuts, while Mrs. Henderson's iced cake and pan of biscuits was the first choice of the judges.

The show of needlework, like that of cooking, was the biggest in the history of the fair, and the judges assuredly had their troubles making their final awards. In plain needlework Mrs Botterill was to the fore with firsts on men's and boys' shirts as well as housedress. Mrs. G. Cartwright got the prize for the collection. Mrs. Dalbom scored on rugs, while Miss Pearl McKinnon was possibly the biggest winner of all, her embroidery being much admired. In a large entry Mrs. Varley was first on pin cushion, and Mrs. Beninger on baby bonnet.

In the ladies' classes, particularly, the judging gave the best satisfaction yet experienced, while the awards as a whole have been exceptionally well received, there being only two protests entered against the large number of awards made.

While a full measure of praise is due the directors individually and collectively for their successful work, everyone is agreed that special praise is due Secretary R. Walmsley for his efficiency in the many details of the secretarial effort. In every respect he combined ability with uniform courtesy, and is certainly deserving of the many complimentary things that are being said of him and his work by exhibitors and general public alike.

Praise is also due Mrs. H. Christie, who had charge of the hall decoration. Her arrangements of the flags, bunting, etc., supplemented by numerous potted plants, and the cut flowers supplied by the floral committee produced an instantly pleasing appearance for the spacious main building throughout.

That the fair scored at least an even break is indicated in the fact that as early as Saturday afternoon the secretary was paying out the prize money, and a directors meeting will be held in a few days to wind up the 1922 fall fair affairs.

Canyon City

W. G. Wearmouth was a visitor with Fernie friends last week.

Inspector Manning was here at the end of the week on an official visit to the local school, and turned in a fine report on both teachers' work.

O. Blair was home for a few days last week harvesting his apple crop, and has now returned to the Reclamation Farm where hay baling operations are in progress.

Otto and John Johnson are home Kitchener where they have completed the first instalment of their pole hauling contract.

Tom Harris and crew have finished roadmaking operations on the Macleod road, and travelling on that highway is now of the best.

Manford Samuelson is confined to the house at present, having given his foot a bad gash with the axe while at work a few days ago.

Ted Mawson of Creston has just delivered the traction engine of the Mallandaine plant to the portable mill of Canyon City Lumber Company at the Lyon ranch, where it is now in use.

The rain on Wednesday last followed by the bright sunshine, is putting excellent color on the unpicked apples.

The United Farmers had a large turnout at the meeting on Saturday night at which the feature was the discussion on the advisability of purchasing a moving picture machine. Mrs. Pochin and Mrs. Witherhead were added to the committee to devise ways and means of securing one, and it is likely a demonstration will be arranged at an early date.

Stops Bronchitis Quickly, Helps Irritable Throat, Ends Sneezing, Coughing

Relief comes at once when you breathe in the soothing vapor of Catarrhozone. Once its healing, piney essences strike the bronchial tubes, you realize that a powerful treatment is at work. Irritation can't live in the throat of a person inhaling Catarrhozone. It is so soothing, so warming, so full of concentrated healing power that you get results at once. Catarrhozone strengthens the weak throat, stops the cough, removes that hacking irritating necessity to clear the throat, makes even the chronic sufferer realize that at last he has discovered a real friend. For coughs, colds, catarrh and winter ills, nothing in the family could be better than the complete dollar outfit, small size 50c, trial size 25c; all dealers or the Catarrhozone Co., Montreal.

Bar B Ranch,

September 4, 19—.

Since making my last entry I have had two new experiences.

Number one: I forded the Banshee River.

Number two: I dined, chaperoned of course, in a bachelor establishment of the most bachelorish sort.

While we were having luncheon on Friday Mr. Bingham told us that he was going to the Paget ranch during the afternoon, and that we, Mrs. Bingham, Sunny, and I might go with him if we wished. You will notice that he did not ask us to go, but merely intimated that he would tolerate our company. But we went. Even so indifferent an invitation is not enough to discourage Mrs. Bingham in her search after something to break the monotony of ranch life. And I, too, am learning to separate Mr. Bingham's manner from his motive.

My only hesitation was due to a fear that Mr. Paget might not care to have us drop in on him unexpectedly, but Mrs. Bingham soon reassured me on this point. Mr. Paget had often asked us to return some of his numerous calls, but I find it very hard to become used to the informality of Canadian social life, and it seemed very strange to come down on him like a wolf on the fold. Of course we should stay for dinner after going such a distance, and suppose he did not have enough to go around? Even the best of housekeepers are sometimes embarrassed by unbidden guests, and a mere man—words fail me to picture his probable confusion as my imagination pictured it!

Mr. Paget's ranch is on the west side of the river, and the crossing of the ford was an ordeal, I must confess. I hope I am not a coward—but when the horses seemed to be making no headway against the stream, and the water splashed into the wagon-box, it took all my courage to enable me to appear unconcerned. We crossed the river diagonally, and the rush of the water gave me an uncanny feeling, as if we were being carried down-stream. Either because he was used to an exhibition of "nerves" on the part of women crossing the ford for the first time, or because he noticed that I was not speaking, Mr. Bingham stopped in mid-stream and turned around in his seat long enough to say to me, "Don't watch the water, Miss Eliot; look at the horses' heads, or at some point on the far bank of the river." I followed his advice, and found that it was good; the sinking, floating sensation left me—but not the fear of what would happen should we miss the ford. I was sincerely glad to feel the good old solid earth under me again when we reached the shore.

Sunny and I heaved sighs of relief in concert as soon as we were out of the water. "I do wish Uncle Don would build a bridge like they have in Winnipeg," said Sunny. "I've asked him, and asked him, and asked him, but he never does. That nasty old ford makes me feel like when I'm dreadfully hungry, and when Mary took me down in the elevator at Eaton's I felt exactly the same way."

Sunny has her sensations more carefully classified than I. The three feelings are very much alike, but until she mentioned it the likeness had not occurred to me.

As the crow flies it cannot be more than three or four miles from the Bar B to Paget Park. But it is ten miles by the road, which follows the winding of the river all the way, and it was after four o'clock when we reached our destination.

Mr. Paget, in white ducks, met us at the door and conducted Mrs. Bingham and me to the drawing-room, I suppose I should call it, and then went with Mr. Bingham to put up the horses.

The house is a good-sized one, but most of it is shut up. No one lives in it but Mr. Paget and a greasy Chinese servant, as different in appearance from our Lee as day is from night. And the house gives ample evidence of how far he is behind Lee in skill and cleanliness.

I wish Mother could see that drawing-room! It was as dusty and untidy as a room could well be, the window-curtains were soiled and wrinkled, and papers and books were scattered everywhere—we had to empty our chairs before we sat down. The dining-table, which occupied the centre of the room, was still covered with the cloth from luncheon—from a good many luncheons, to judge by the stains. An old and exceedingly shabby couch, whose succession of hills and hollows reminded me of the road between Carbon City and the Bar B, was placed across one corner, and was adorned with a saddle and a pair of riding-boots. A broom and a dust-pan were leaning against the wall behind the couch, to be well out of the way of temptation, I presume. And in the opposite corner was the piano, a very fine baby grand, on which the most critical of housekeepers could not have discovered a speck of dust—the poor thing looked sadly out of its element! An upholstered arm-chair, evidently suffering from senile decay, was filled with music of all kinds—good, bad and indifferent—to suit the catholic taste of its owner.

"How nigh is grandeur to our dust," quoted Mrs. Bingham lightly, as I stood amazed. "Not quite what you expected, is it? White muslin draperies and blue ribbons would seem to be more appropriate for our Beau Brummell, would they not?"

"It is simply dreadful!" I exclaimed. "What would his people at home say if they could see how he lives!"

Mrs. Bingham shrugged her shoulders. "I've seen it much more than this. And when you've lived in Canada for a while, you will cease to wonder at the way in which a well-bred man will live when he has no women to look after him."

"But Mr. Paget has money, hasn't he? Surely he could hire someone to keep the place presentable," I objected. "Anyway, one can be reasonably clean without spending a great deal of either time or money."

"So long as he has his tub and lots of clean clothes he is satisfied to let Sing neglect everything else about the place," Mrs. Bingham replied. "That heathen Chinee wastes enough in the housekeeping to run a summer hotel, and still he never prepares a good meal. But he is an excellent 'washwoman,' so Mr. Paget will not let him go. If you ever want to hire a Chinese servant, Miss Eliot, choose as carefully as you would choose a husband."

At this point the men came back. Our host was apparently delighted to see us, and very insistent that we should stay to dinner. He was not at all put out by his surroundings, so I soon forgot them too. After chatting for a few minutes he took Mr. Bingham away to "the library"—what sort of a place is it, I wonder? and there they remained until Sing slouched in to lay the table for dinner.

Lee wears his pigtail in a neat coronet braid, but Sing's hangs down his back, and flops in a most improbable manner when he walks.

"Put a clean cloth on, Sing," ordered Mr. Paget.

"All light," replied Sing with well-bred indifference.

"Where's the cream?" was the next suggestion.

"Cleam all gone—cat dlink it."

"Oh, by Jove, that's too bad! But there's no use crying over spilt cream, is there, Miss Eliot? Open a tin of condensed milk, Sing. The tin-opener is in the carriage shed."

For dinner we had tinned tomato soup, not quite warm, delicious mutton chops, tinned pork and beans, bread and butter, tinned plum pudding, tinned coffee with condensed milk and ginger ale.

Why can't the brick-throwing suffragettes realize that in Western Canada they would find an excellent outlet for their energy? I think seriously of writing to Lloyd George with the suggestion that he should confine the leaders of the militants in insane asylums and ship the rank and file to Canada. Given a hundred and sixty acres of land and a man to look after, they would soon see the folly of brick-throwing—and the first thing they knew the franchise would be handed to them, wrapped in white tissue paper and tied with gold cord!

We started for home in the early evening, and so reached the Bar B before dark. The evenings are very much longer here than in England.

I am sorry that it was not dark as we drove home, for just as we left Paget Park I had a glimpse of the seamy side of ranch life. A small herd of thoroughbred Durhams were standing near the trail, and Mr. Bingham stopped the horses so that we might admire them. Of course I had know for years that cattle were branded with hot iron, and since coming here I had found it very interesting to decipher the various brands on the horses and cattle and to speculate upon their former history. But until I saw the poor little calves in this herd I had never realized just what the branding meant to the cattle. Each calf carried on its side an ugly raw burn, bleeding in some cases, and sore-looking in all. And the flies—I cannot write about it, it is too shocking. I wonder if Mr. Livingstone ever branded a calf?

Sunny and I raided the kitchen when we reached home. Lee had just taken a baking of bread out of the oven, so we had hot bread and butter, marmalade, and tea with "cleam" in it. Lee looked on with interest. "Sing velly bad Chinaman, heap bad cook," he volunteered sympathetically.

Toronto Woman Gives Credit to Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I suffered with irregular periods, was weak and run down, could not eat and had headaches. The worst symptoms were dragging-down pains, so bad I sometimes thought I would go crazy, and I seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends and if these facts will help some poor woman, use them as you please."—Mrs. J. F. Peasey, 387 King St., West, Toronto, Ontario.

Various forms of female weakness many times make work almost impossible. Lydia E. Pinkham's Vegetable Compound has helped thousands of women over these troubles.

Safety Vault Defies Burglars

Great Storehouse in London, England, Is Wonderfully Constructed

One of the most wonderful storehouses of treasured possessions is in London, England, and is known as the Chancery Lane Safe Deposit.

For a fee of from a guinea upwards anyone can store his or her belongings in the Deposit, which is so constructed and guarded that no burglar, however clever he may me, could ever hope to break into it.

The 10,000 safes which the Deposit contains are protected more elaborately even than the Crown Jewels or the bullion at the Bank of England.

The basement of the building is divided into a series of strong-rooms, each of which holds 500 safes. No safe can be opened except in the presence of the depositor and an official of the Deposit.

The strong-rooms weigh 500 tons apiece, and their locks are set to open only at a given hour in the day.

Each strong-room is detached from its neighbors, so that an armed patrol can walk below, above and around it, mirrors reflecting every movement in the vicinity.

In addition to these precautions, the whole of the outer shell of the Deposit is specially reinforced with armour-plating. A pretty tough proposition!

Some of the safes contain incredible sums, runing into millions. The diamond merchants of Hatton Garden nearby deposit millions of pounds worth of precious gems in the course of a year.

Probably $125,000,000 is not too high an estimate of the value of the contents of the building at the present time.

Captures Mountain Goat

New Addition is Made to the Geological Collection at Calgary

Calgary is believed to be the only city on the American continent where additions to the civic zoo come right into town and deliver themselves. From time to time deer, lynx, coyotes and other denizens of the mountains, prairies and forests, including an American eagle, which was captured by a Calgary dog, have paid visits to the city and lost their freedom. The most recent addition to the zoo to arrive unheralded was a young mountain goat, one of the least approachable of wild animals which was captured in a local back yard, and is now installed at the zoo.

Best Bowel Laxative When Bilious, Constipated

To clean out your bowels without cramping or overacting, take Cascarets. Sick headache, biliousness, gases indigestion, sour, upset stomach and all such distress gone by morning. Nicest physic on earth for grown-ups and children. 10c a box. Taste like candy.

Cure For Temper

A novel cure for temper was mentioned by Richard G. Lovell in a lecture in London on "Color as Applied to Personal Attire." He said that civilization seemed to have dwarfed appreciation of color, and the ordinary woman was rarely found who had taken the trouble to cultivate color.

Mr. Lovell added that a test for color was to get into a temper and go into a room of various colors. In the red or green room temper would last, but in a blue or mauve room it would soon be lost.

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

A hundred years ago the proposal to use gas for street lighting was opposed in New England on the ground that artificial lumination was an attempt to interfere with the divine scheme of things which had ordained that it should be dark at night.

Subway For Tokio

Transportation Made Difficult By Congestion Near Capital

Tokio soon will have an underground electric railroad similar to that of other world capitals if plans now under way reach fruition. Japan is experiencing a growing congestion of population in and near the capital which makes transportation a difficult matter. Her evolution from a strictly agricultural people to a nation largely industrial has brought increased numbers of people into her cities, and the jam in Tokio is getting to be serious.

MOTHER!

Move Child's Bowels with "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Liver Pains

Pains under the shoulder blades tell of liver derangements.

Other indications are sallow complexion, indigestion, constipation, biliousness and bilious headaches.

The quickest way to arouse the liver to healthful action is by use of Dr. Chase's Kidney-Liver Pills. Continued use will insure lasting relief, correct the whole digestive system and purify the blood.

Mrs. Wm. Barten, Hanover, Ont., writes:

"For some time I suffered from liver trouble. There was a hard, bearing-down feeling in my back which I could not get rid of. Some one advised me to try Dr. Chase's Kidney-Liver Pills. I did so, and found them excellent. The dragging feeling in my back disappeared and I felt much benefitted generally. I have great confidence in Dr. Chase's Kidney-Liver Pills, and always keep them on hand for general use."

WORLD HAPPENINGS BRIEFLY TOLD

It is possible that the Crown Prince of Japan may visit Canada and the United States in the near future.

Between 1,300 and 1,400 men are expected to be employed by The Pas Lumber Company, which contemplates carrying on logging operations on an extensive scale next winter.

Five workmen, employed by the Raleigh-Wyoming Coal Company at Glenrogers, W.Va., were killed when a hoisting bucket loaded with stone fell down a 700-foot shaft, crushing them to death.

The Washington Cabinet has decided to restrict prohibition enforcement operations within the three-mile limit at sea except in cases where ships beyond that limit are in communication with shore through their own crews and small boats.

The Prussian Minister of Commerce granted the Krupp Company permission to issue emergency currency to the amount of 400,000,000 marks. The note issue was limited to sixty days, the bills to be in denominations up to 500 marks.

Earl Spencer, one of the largest land owners in Great Britain, died Sept. 26. Last year he created considerable stir by the announcement that he was about to give up one of his homes on account of poverty and the high cost of living.

What is claimed to be the longest train of livestock ever received in Toronto from the West reached the Union Stock Yards, Toronto. The train was made up of 72 cars of cattle and made the trip to Toronto in 75 hours. Since August the movement of livestock from Western Canada to the eastern markets has been unusually heavy.

The Chinese Debt

The Chinese are optimistic; they believe they are going to get their present difficulties straightened out. Their total debt is considerably less than five dollars per capita for the population of four hundred millions, a position that compares favorably with that of most other nations.

A Corrector of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Eclectric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Wireless and Weather

The most attractive theory as to the cause of weather in the North Temperate Zone attributes the birth of cyclones to a constant struggle between cold polar air and warm currents coming up from the south. Professor V. Bjerknes, the Norwegian propounder of this view, has insisted on the need of a complete chain of stations round the globe. The stations are now in existence, and are being linked by "wireless." We may be on the brink of a remarkable extension of scientific knowledge and of its practical applications.—London Times.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions.

What Picnic Means

Word Originated From Custom Dating Back to 1802

Most people know what it is to enjoy a picnic, not all can tell how the name of this form of entertainment originated. The explanation, according to one derivation, is simple. When a picnic was being arranged it was the custom for those who were to be present to promise to supply food and drink. A list of the things necessary was drawn up and passed round, each person picking out the articles he or she would supply. The name of the article was "nicked" on the list—that is to say, a mark was placed against it. The open-air entertainment thus came to be known as "Pick and nick." The custom is said to date from 1802.

SAVED BABY'S LIFE

Mrs. Alfred Tranchemontagne, St. Michel des Saints, Que., writes:—"Baby's Own Tablets are an excellent medicine. They saved my baby's life and I can highly recommend them to all mothers." Mrs. Trachemontagne's experience is that of thousands of other mothers who have tested the worth of Baby's Own Tablets. The Tablets are a sure and safe medicine for little ones and never fail to regulate the bowels and stomach, thus relieving all the minor ills from which children suffer. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canada's Methods Are Sound

Speaking of the Canadian dollar returning to par, the New York Herald, after specifying various reasons for this consummation, thus concludes: "Canada is prosperous because her finances and her business conditions and methods are sound. This naturally greatly enhances whatever value there may be in contiguity to a well-to-do and friendly neighbor."

Why risk your health?

THE path of the tea or coffee drinker is beset with dangers to health and comfort. These dangers lurk in the irritant, Caffeine, which is the active principle of both tea and coffee.

For those who enjoy a well-made cup of tea or coffee, but find that it makes them nervous, wakeful and irritable, there's satisfaction and freedom from discomfort in delicious Instant Postum—the table beverage of no regrets.

Its fragrant aroma and rich, full-bodied flavor are delightful. Instant Postum is made from roasted wheat and contains no Caffeine, nor any other harmful ingredient whatsoever.

U.S. Tariff Will Prove To Be a Boomerang

Canada's Trade Will Be With Motherland Now, Instead of United States

Canada has paid very little attention to the new United States tariff, for the reason, as was pointed out by the Deputy Minister of Agriculture for the Dominion, that the bill passed a year ago made the exportation of many of our Canadian products practically prohibitive, and that any additional duties levied could not have any further effect.

It was pointed out by the Deputy Minister that the United States has not the power to injure our wheat exports, as we have a ready market overseas. On the contrary, the immediate effect of the emergency bill passed a year ago, has been that Great Britain has taken the place of the U.S. as the best customer of Canada. We must look more than ever to the Motherland for a future market for our Canadian products.

THE ORIGIN OF GALL STONES

They are simply dried bile made up of Crystalline constituents of that fluid. Very common is this disease among merchants, clergymen, shop girls and those of sedentary habits. Prevention consists in maintaining correct action of the liver and bowels, and this is speedily accomplished by using Dr. Hamilton's Pills. No person using Dr. Hamilton's Pills will be subject to bilious fits. Sound digestion, good appetite, a clear color will evidence the health giving properties of Dr. Hamilton's Pills which are safest and best for general family use. When a laxative is needed, when you feel out of sorts, that's the time to use Dr. Hamilton's Pills of Mandrake and Butternut, 25c all dealers or The Catarrhozone Co., Montreal.

Important Industry In Greece

Country Produces One-Sixth of World's Olive Oil Supply

In recent years Greece has become one of the most important olive oil producers in the world. Its production in 1921 was one-sixth that of all countries (final estimates placed the total world production of olive oil at 1,100,000 metric tons), about one-third that of Spain and Italy combined, and a little more than 85,000 metric tons larger than that of Tunis, Portugal and France put together.

One of the best known guides in Nova Scotia gives this testimonial of MINARD'S LINIMENT:

Have used Minard's Liniment in my home, hunting and lumber camps for years, and consider it the best white liniment on the market. I find that it gives quick relief to minor ailments, such as sprains, bruises and all kinds of wounds. Also, it is a great remedy for coughs, colds, etc., which one is liable to catch when log driving and cruising during the winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly.

Ignition of Coal Dust

Coal Dust Suspended in the Air Can Be Exploded By Electric Arcs

The extensive use of pulverized coal for fuel in industrial plants gives interest to tests recently made by the United States Bureau of Mines, which proved that coal dust suspended in the air can be exploded by electric arcs under conditions that might prevail in a pulverized coal plant or in a coal mine. If there is electric machinery in places where coal dust is apt to collect in quantities capable of producing a dust cloud, such electrical machinery should be housed in compartments designed especially for use in dusty atmosphere. — Engineering (London).

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 55 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).

The inventor, T. V. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

Britain Building Aerial Cruiser

The Race Between Nations in the Development of Aircraft

The Daily Chronicle's Aviation Correspondent, writing on the race between nations in the development of aircraft, refers to a British winged aerial cruiser now being completed by the Fairy Aviation Company.

Many features of it are official secrets. It is constructed of metal, develops not far short of 3,000 horsepower, and will be capable of long overseas flights without alighting for fuel. The weight is 15 tons.

Another leviathan of the British Air Service, says the correspondent is a great winged troop transport with a hull of steel tubing, capable of carrying 25 soldiers with their full equipment for long distances.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

T. Slingsby an son, Howard, spent a few days in Nelson last week on business, returning on Sunday.

C. B. Garland of Creston was a business visitor here on Friday afternoon, in connection with the summonses to local ranchers for burning off their strawberries without permit.

Matt. Hagen left on Monday for Nelson on a business visit.

Ken. Dewar left on Sunday for Bellvue, Alta., where he expects to spend the winter.

D. J. Dewar got away on Sunday to Hutton's Mills, B.C., where he will teach school until Christmas.

E. F. Post of Cranbrook spent the week-end here, returning to the divisional city on Monday.

Cecil Moore was called to Nelson on business on Monday, but expects to be back before the end of the week.

Miss C. Rosindale was a visitor at Kitchener a few days this week, looking up old friends.

The Co-Operative Fruit Growers are loading out another car of apples this week.

Too late for last week.

Mrs. A. C. Hook and family spent the week-end here with the former's mother, Mrs. J. J. Grady, returning to their home at Spokane on Sunday.

H. A. Bathie, jr., is a business visitor at Spokane this week.

Considerable of a surprise was created here a few days ago when Provincial police McLaren served summonses on about a dozen of the ranchers to appear in court on the charge of burning off their strawberries without a permit. The case was heard the following Monday and was adjourned for one week.

John Bathie is a business visitor at Nelson this week.

We were well represented at the fall fair this year, the following being some of those who are competing in the various classes: Sam Moon, A. Cooper, J. E. Johnson, Carl Wigen, Matt. Hagen, Mrs. Nathorst, Mrs. Dalbom and others.

Monrad Wigen has just unloaded another car of lumber, but even with the box factory working full time he is hardly able to keep up with his orders.

Mr. LaBarge was a week-end visitor with his sister, Mrs. H. Irving, returning to Wycliffe on Sunday.

Peter Andestad is busy on his contract to clear the right of way for the new road from the schoolhouse past the G. Huscroft place—between the A. Jov and Huscroft lines—to connect with the road at the west end of sublot 279 of T. A. Cory's block.

ECZEMA IN RASH CUTICURA HEALS

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that we were told was eczema. Her cheeks got sore and she rubbed causing loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching.

"This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was healed." (Signed) Mrs. H. Stares, Blenheim Rd., Galt, Ont.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses.

Soap 25c, Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal.

Cuticura Soap shaves without mug.

World Happenings Briefly Told

Rats are doing damage to Richmond dykes on Lulu Islands, B.C., by working under and through them.

According to information received in Calgary, a small flow of oil has been struck at Walsh, Alta., just east of Medicine Hat.

The loss of a nickel cost the life of 13-year-old John Martin, of New York. He opened a subway grating to recover it, and fell to the tracks underneath in the path of a train.

Information gathered by the Northwest Grain Dealers' Association was that farmers in the three western provinces have 31 million bushels of wheat left to market.

Jerome Napoleon Bonaparte, great-great-nephew of the famous Napoleon, declared in New York that he was not giving serious consideration to an invitation to ascend the throne of Albania.

Announcement was made by the Provincial Government that Colin Groff, a member of the staff of the Calgary Albertan, has been appointed publicity commissioner for the province of Alberta in succession to the late James McCaig, whose death took place some time ago.

Word was received by the Canadian Government Merchant Marine of the arrival at Novoroossk, Russia, of the steamer Canadian Seigneur with the first consignment of the 500 tank cars, manufactured for the Russian Soviet Government by the Canadian Car and Foundry Company, of Montreal.

A well-defined earthquake was registered at Gonzales Observatory, Victoria, on Dec. 18th, commencing at 7.40 a.m., the maximum vibration being registered at 7.51 a.m., and the vibration lasting two hours. The distance is estimated at 1,200 miles, or in Northern Mexico.

A Whistling Mouse

Only One Known That Can Mimic Birds

The town of Ocie in Ozark County, Mo., makes a bid for fame with a whistling mouse, the first of its kind.

Whether this mouse has been imbibing too freely of Ozark "corn licker," or whether it thinks it is a mocking bird, is not clear.

It was discovered in the home of W. H. Hampton, a merchant at Ocie, and apparently had wandered in from the woods for the winter.

The mouse can mimic a quail, mocking bird or any other bird, according to the Rev. Walter E. Fish, missionary for the American Sunday School Union of Springfield, who vouches for the authenticity of the story. It keeps up a continuous whistle and chatter all day and night, ceasing only when it hears strange voices in the building. Fortunately, the Hamptons are not superstitious, and attach no significance to the mouse's performance.

The Newspapers Win

Results Show There Is No Better Advertising Medium

Value of newspapers for advertising has once more been demonstrated by an extensive survey made by United States army officers of all means of publicity used last summer to secure candidates for the citizens' military training camp at Plattsburg. Each candidate who attended the camp was asked how he learned of the camp and the responses from these answers have been carefully checked. In the drive for candidates every possible means of publicity was used, including show cards, addresses in public gatherings and personal solicitation. The survey of results of these means of publicity shows that newspapers informed nearly 50 per cent. of all candidates.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Alfred Naud, Natagan River, Que., writes:—"I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Naud says thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Attack of Liver Complaint

The telephone rang and the bookkeeper answered it, as the Boston Transcript tells it. "Yes, madam, this is Wilkins' market." "This is Mrs. Blank. I want you to know that the liver you sent me is most unsatisfactory. It is not calf's liver at all; calf's liver is tender and—" "Just a moment, madam, and I'll call the proprietor." "What is it?" Wilkins asked. The bookkeeper surrendered the phone. "Mrs. Blank," he said. "Liver complaint."

German Water Flare Found In England

Picked Up In Woods And Sent To Air Ministry

A German water flare has been found in Mar Forest, Deeside. Flares of this type were dropped by Zeppelins to enable the commander to ascertain whether he was flying over land or water.

This particular flare, which was found by a ghillie and handed by him to the Prince of Wales, who sent it on to the air ministry, was no doubt dropped by the ill-fated Zeppelin L-20, which left Germany with nine other airships on the mornings of May 2, 1916. The L-20 crossed the coast of Scotland at Lunan Bay and flew on past Montrose, where it turned inland, and flew past Brechin over the Forest of Mar and within 15 miles of Balmoral. It crossed the Monadhliath Mountains and the Caledonian Canal. It then altered its course and flew east by north and dropped four bombs in the north of Aberdeenshire, they re-crossed the coast near Cruden Bay.

Over the North Sea the L-20 met heavy winds and was driven against high land at Handhaes in Norway, on the morning of May 3. The airship was badly injured and fell into a fjord and sank. Her commander was Captain-Lieutenant Stabert.

Lace and Chiffon Grace the Tea Hour

By Marie Belmont

The tea-time hour can find no more charmingly feminine garment than this creation of rose chiffon and gray lace, trimmed in wide bands of Australian opossum. The warm rose tone of the chiffon gives just enough color to the neutral gray, while the flying side panels add their finishing touch of smartness. Speaking of panels, it seems that the straight-line frock will never again relinquish these added bits of extra length, now they have annexed them. Indefinite hemlines, too, remain at the height of the mode, as bespoken in the bit of gray lace which finishes the rose chiffon skirt. For the wearer who desires striking effects rather than softer tones, the same gown is suggested in black lace over white satin, with monkey fur fringe instead of the wide fur bands.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Eclectric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflamamtion. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

You're Constipated! Take "Cascarets" For Liver, Bowels

Sick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver and delayed, fermenting food in the bowels. Cascarets work while you sleep. They immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels. Get a 10-cent box now and let "Cascarets" straighten you out by morning.

Mother, Quick! Give California Fig Syrup For Child's Bowels

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

HALIFAX EXPLOSION WRECKED HER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N.S., Harbor and one of the munition ships was blown up, causing great loss of life and laying a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Winfield Dill, now of Windsor, N.S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells I would be under the doctor's care.

I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so much I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the entire nervous system and strengthen the weakened organs. Milburn's Heart and Nerve Pills are the original heart and nerve food having been on the market for the past 27 years. Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Swiss Have Joint Dairies

Switzerland has many co-operative cattle associations, besides joint stock dairies in every village.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Eclectric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

A "balanced diet" may sound confusing to many people

The facts, as explained here, are simple.

The secret of a "balanced diet" is to have food containing all the elements needed for proper nutrition. These elements are protein, to nourish the tissues; starch and sugar to furnish energy; fat to supply heat; and mineral salts to provide the material necessary for building nerves, brain, and tooth and bone structure.

Grape-Nuts, the nourishing cereal made of whole wheat flour and malted barley, served with cream or milk, is a complete food for young and old alike.

Go to your grocer today and get a package of Grape-Nuts. Eat it with milk or cream for breakfast; or with stewed fruit, jelly or jam, as a delicious dessert for lunch or dinner.

Every member of the family will relish this palatable and nourishing food—

Canada's Interest In Europe

For many generations back the people of Canada and the United States with but few exceptions held the view that they were but little concerned in the affairs of Europe and that what nations and people there might or might not do was of little importance to the residents of North America. Of course, men of affairs and those engaged in international trade and finance were better informed, but the great mass of people gave little heed to European quarrels and economics, except as matters of news appearing in the papers.

The Great War breaking with startling suddeness in 1914 was a rude awakening, and the humblest and most remote home on this continent was made to realize that the human family was one after all, and that what deeply affected the people in Europe was the immediate concern of all. Not merely during the war years but since the Armistice that lesson has been painfully impressed upon our people. True, a certain school of political thought in the United States still seeks to maintain the old traditional policy of American aloofness from all participation in European politics and affairs, and they were powerful enough politically to keep the United States out of the League of Nations, and also strong enough to foist upon the big Republic a renewed declaration and tariff policy calculated to shut out as far as possible all foreign goods.

The more observant, far-seeing, and best informed people realize, however, that in these modern times of instantaneous communication and means of rapid transportation, no nation can live solely unto itself. In matters of trade, for example, it is now recognized that not only must production and consumption be fairly balanced in a country in order to maintain a condition of prosperity, but that there must be an economic equilibrium maintained throughout the world. Production and consumption must go together if the balance is to be kept right.

Business goes well when the various productive elements are properly balanced, and when different kinds of things are produced in right proportions. A great producing country is also a great consuming country if its equilibrium is maintained, but the substantial over-development or serious injury of any great industry throws the whole thing out of gear, and then depression and demoralization follow.

The world is suffering from such a situation today, because, on the whole, less is being produced than before the war, but there is a relative over-production of farm products and raw materials. This is due, not to conditions in America, but because of the fact that Europe, the world's great manufacturing centre before the war, and the world's great market for farm products and raw materials, has partially withdrawn from her pre-war position. She is turning out very much less of manufactured goods than before the war. She is consequently unable to buy raw materials and farm products in normal volume from the United States and Canada. As a result there is depression not only in Europe but on this continent. We are, therefore, vitally interested in a revival of normal conditions in Europe and in everything that helps or retards it.

It is reasonable to expect improvement in Canada, even without improvement in Europe. This country, with its diversified industries, its wealth of resources, its great producing and consuming power, with its sound credit system, and its highly intelligent people, must forge ahead, and there is, therefore, no occasion for pessimism or lack of courage. None the less, we cannot have really satisfactory business or anything approaching real prosperity until Europe is decidedly on the mend. We are part and parcel of a great world economic system, and distress anywhere reacts on us.

Under these conditions there are those in Canada, as the enactment of the recent high tariff demonstrates there are many in the United States, who believe that a remedy is partly to be found in tariff enactments designed to protect ourselves. Statements made recently by a leading economist before the Missouri Bankers Association, have a bearing on this subject and are worthy of being quoted as emphasizing how vitally interested Canadians ought to be in the rehabilitation of Europe. Warning United States' farmers not to be misled into thinking that a protective tariff is going to benefit them, this student of economics said:

"Prices of wheat and cotton and hogs and other articles are determined, not in the domestic market, but in the great world market. Canadian wheat competes with American wheat quite as effectively at Livrpool as it does at Chicago, and with Chicago and Liverpol in cable communication a delivery of Canadian wheat at Liverpool will break the price at Chicago quite as effectively as if it came directly to Chicago. It does no good to keep Argentine wheat out of New York if that Argentine wheat can come to Liverpool and so limit the market for American wheat in Liverpool."

Which only goes to show how interdependent all countries are, whether of Europe or America. Instead of fearing an inflow of goods from Europe to America, this economist declares it wuld be the most welcome thing that could come about, because a revival of manufacturing industry in Europe would immediately create a demand for the raw materials of all other countries, resulting in a revival, not in one country alone but in all agricultural and raw material producing countries. With such a revival their capacity to absorb manufactured goods would increase.

THE WAY TO BE WELL

Good Health Maintained Through Rich, Red Blood

There are many men and women who, every few weeks, have spells of weakness, during which time they are little better than invalids; yet at other times they feel very well. Why does their health fluctuate so?

In the case of men worry and overstrained nerves are usually responsible for this state of unfitness and inability to face the anxieties of daily life.

As for women, her back aches, she is dizzy with sick headaches, and often has stabbing pains in the side. The only real health is all-the-year-round health; and the secret of it is good, red blood, and plenty of it. One way to keep the blood in good condition is to take Dr. Williams' Pink Pills. There is scarcely a nook or corner in Canada where someone will not be found who will tell you the benefit they have had through the use of these pills. And the reason is that through the improved condition of the blood they strengthen and tone up the nerves of worried, enfeebled men and women, and at the same time have given new vigor to pale, delicate girls and thin weedy boys. The value of these pills in all run-down conditions is shown by the statement of Mrs. Lawrence Brown, Walton, N.S., who says:—"When I began taking Dr. Williams' Pink Pills I was in a weak, bloodless and nervous condition suffering from all the depressing symptoms that accompany this run-down state of health. I had taken much medicine but it did not do me any good, and as I had a family of small children, I was much discouraged. Then reading about Dr. Williams' Pink Pills I decided to try them, and I can honestly say that I feel these pills have saved me from prolonged misery. My health is now good, and we now keep the pills in the house for use as a family medicine."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Several Forms of Sugar

Many varieties of sugars exist; cane sugar, maple and beet. Failing these we have corn sugar under the name of glucose or dextrose, and the same in vegetables, fruits and honey. In a brownish powder we find it on prunes or raisins.

Lactose or milk sugar is another principal sugar, although it will never fill an important place in commerce. It exists in cow's milk, and plays an important part in nutrition.

It has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Eclectric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions: It is a medicine chest in itself.

From Past Experience

"If you go first," said the wife, "you'll wait for me on the other shore, won't you?"

"I suppose so, dear," he sighed. "I've never gone anywhere yet where I didn't have to wait for you."

Whales Found on English Farm

May Have Ascended Small Stream With Outlet to the Sea

Farm hands digging celery on a farm near Peterborough, England, recently came upon the skeletons of two whales, dating back, it is supposed, 10,000 to 12,000 years. The whales were lying side by side under the peat, and just embedded in the clay. It is conjectured that many thousand years ago these whales, and perhaps others, swam up a creek, when the wash came further inland; and got caught at the top of a spring tide in a place where they were unable to turn. Another theory has been advanced, though it is rather far-fetched: Some years ago a prehistoric boat was dug up in the same field, and the suggestion has been made that the crew of the boat was hunting the whales at that particular period.

Says She Hasn't Felt So Well In Years

Mrs. Margaret Winton, highly esteemed resident of 719 Tenth Ave., West, Calgary, Alberta, pays glowing tribute to Tanlac for the wonderful appetite, perfect digestion and splendid health she now enjoys.

"I just can't say or do enough," she stated recently, "to show my appreciation of Tanlac for what it has done for me. Almost a year ago my appetite failed and my stomach became so disordered that nothing agreed with me. After every meal I would have severe pains in the pit of my stomach and bloat so badly I could scarcely draw a good breath. I ate so little and had digestion so bad that nearly all my strength and energy left me. My nerves were a wreck, too, and I could never get a good night's sleep.

"When I began taking Tanlac I was so run-down that I simply had to drag myself through the day and my housework was a dreadful burden to me. I also suffered with dull headaches and felt unfit for anything. But since taking Tanlac everything is different. I have a wonderful appetite, perfect digestion, and am enjoying splendid health. In fact, I have not felt so strong and well in years as I do now. Tanlac has won my life-long praise."

Tanlac is sold by all good druggists.

Tragedy of Loneliness

One of the great absurdities of civilization is the fact that on every hand men and women are slowly dying of the cancer of the soul known as loneliness. There is something awesome but magnificent about the loneliness of mid-ocean. There is something terrible but inspiring in the loneliness of a mountain top. But loneliness in the midst of a crowd is one of the most dreadful tragedies to which humanity is heir.—London Daily Express.

Turkish Nationalists To Accept Principle Of Neutrality Of Straits

Constantinople.—The Turkish Nationalists will accept in principle the neutrality of the Straits of the Dardanelles, pending an armistice conference to be participated in by British and Kemalist Generals.

Possible war between Great Britain and Turkey is at least temporarily averted by the declaration of the Kemalists. The declaration relieves the situation, which even the British had admitted was critical.

In a message to Kemal Pasha at Smyrna, General Harrington urged an early meeting of the British and Kemalist Generals at Mudania or Ismid as the most effective way of reaching an amicable understanding in the present difficult situation created by the Kemalist advance in the Dardanelles.

The message, which was most conciliatory in tone, declared it would be a pity at the present juncture to allow local occupations on the straits to jeopardize peace. Prior to announcement that the Kemalists would respect the neutrality of the straits, Hamid Bey, the Angora representative, said to the correspondent:

"The Kemalists naturally will come across the so-called neutral zones, but they have not the slightest intention of firing upon the British occupying those zones. If, however, the British move against us we will be forced to reply."

General Harrington replied to Kemal Pasha, thanking him for the declaration that he would respect the neutrality of the straits and that he wished to avoid a conflict. The British commander added that the destruction of which Kemal complained was prompted by military necessity and declared that no shots had been fired against Turks in anger nor would be except under his orders. He concluded by expressing readiness to meet Kemal at any convenient place to discuss an understanding.

Feed Sheep On Screenings

10,000 Sheep Will Be Fed At Fort William

Winnipeg.—Ten thousand sheep will be fed on screenings this year at Fort William and Westport by R. C. Harvey, of Lethbridge, the well-known sheep rancher, who was in Winnipeg recently, after completing arrangements for the care of his large flock.

He fed 7,000 at this point last year and found what had been regarded as a drug in the market could be profitably turned into prime mutton. Of this lot 4,000 were sold for shipment to New York and the remainder found a ready sale on the Toronto market.

Bermuda Struck by Hurricane

West Indies Island Sustains Heavy Damage in Storm

Halifax.—Damage, variously estimated at between £200,000 and £250,000 was caused by the hurricane which swept Bermuda on the morning of September 21, according to advices to the Halifax and Bermuda Cable Company here.

Hundreds of houses were wholly or partially unroofed, wharves were washed away and roads gutted by a phenomenal tide. In exposed places stone buildings collapsed like houses of cards. It flooded the market square to a depth of three feet. St. George Hotel roof was blown in half. Many small craft were destroyed. There was no shipping at Hampton when the hurricane struck; but wide damage was done to small boats.

British Capital For Canada

Earl of Stafford Is Impressed With Opportunities in this Country

Saskatoon.—"The visit of the British parliamentary party to Canada will probably have a great effect on the sending of British capital to Canada in the near future," said the Earl of Stafford, who visited here with the Montreal Board of Trade party.

"We have had an opportunity to see your wonderful country for ourselves, and we are delighted with it," he said. "Although I am not able to make any statement as to the financial condition of the country, my impression is that things are looking up in Canada and that there is little reason to fear."

BANDITS MAKE BIG HAUL

ROB SAFES OF BANKS AT MOOSOMIN AND CEYLON, SECURING CONSIDERABLE BOOTY

Regina.—A gang of bandits blew the safes of the Union Bank at Moosomin and the Bank of Montreal at Ceylon, making a clean getaway with $14,700 cash, and $16,000 in securities. The securities and $7,000 in cash were taken from the bank at Ceylon and $7,700 in cash in the Moosomin robbery. The robberies were carefully planned, the bandits placing sentries at points of vantage to stop any possible interference while the operators were at work with nitro glycerine on the vaults and safes.

Moosomin is 138 miles east of Regina on the C.P.R. main line, and Ceylon is about three miles west and 68 miles south of the city on the Radville-Bengough branch of the C.N.R.

Both bank buildings were damaged, over $5,000 being the loss to the building and equipment at Moosomin, and over $2,000 at Ceylon.

The bandits cut every telephone and telegraph cable leading into both of the towns, and at Moosomin bound John McDonald, C.P.R. night operator, taking him to the bank so that he would not be able to give any alarm. No other person was molested during the raids.

Three C.P.R. trains were stalled for some time at Moosomin during the night, while McDonald was held by the bandits. After they had left the bank he walked to the station, and there a commercial travellers and the night clerk of the Queen's Hotel freed him by cutting the ropes. McDonald then dispatched the trains.

Constantine Succeeded By Crown Prince George To Throne Of Greece

Athens.—King Constantine, bowing to the will of the army and navy, has abdicated, and Crown Prince George, who married Princess Elizabeth of Roumania, becomes King of Greece.

A street demonstration by prominent citizens acclaimed Venizelos and a republic. There was some rioting and former Minister of Agriculture Sideris was wounded.

Constantine twice occupied the throne of Greece. His first reign began March 18, 1913, with the assassination of his father, George I., and continued until June, 1917, when he was forced by the demands of Great Britain, France and Russia to abdicate because of his pro-German sympathies.

He was succeeded by his second son, Alexander, who was nominated by the deposed monarch, and who had promised to carry out Constantine's policies, despite Allied demands to the contrary. For three stormy years Alexander reigned in name only. Then his tragic death in 1920, due to the bite of a pet monkey, again turned the spotlight on Constantine, who had spent the intervening three years in exile with his large family.

A plebiscite had shown that the Greek nation was insistent upon the return of Constantine to the throne, and while the Allied Governments continued to exert every pressure at their command to prevent his re-ascension, the former King marched triumphantly into Athens and was crowned in December, 1920, amid scenes of the wildest enthusiasm.

Italian Settlers for Canada

Montreal.—Twenty thousand Italians will arrive in Canada early next spring, according to announcement made by the Italian shipping agent here. Many are returning after spending a couple of years in Italy following war years. The western provinces will get twenty-five per cent. of the newcomers.

Six thousand Rumanians are planning to come to Canada and start farming in the west.

Canadian Ship Requisitioned

London.—The British Government requisitioned the British India steamer Manora, and the Canadian Pacific steamer Corsican as troopships to convey military details to the Near East.

CONFERENCE IN DECEMBER TO SETTLE QUESTION OF FUTURE PAYMENTS

Paris.—The Allied Reparations Commission approved the German treasury notes for 96,000,000 gold marks delivered to the commission in payment of the August and September allotments due to Belgium. The notes were then forwarded to Brussels. The action of the commission formally disposes of cash reparation payments for the remainder of this year.

The question of payments for 1923-24 is expected to be settled at the forthcoming Brussels conference on reparations and inter-Allied debts, it is planned to hold early in December.

No Cause For Worry WHEN CHILDREN HAVE Summer Complaints

There is not a summer passes but that thousands of men, women and children are attacked by summer complaints such as diarrhoea, dysentry, colic, cramps and pains in the stomach, cholera, cholera morbus, cholera infantum, etc.

In looking for relief you should not delay in getting a bottle of Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has stood the test of time.

Mrs. Geo. Chapman, Sudbury, Ont., writes:—"I am the mother of five children and I must say they are seldom sick or in need of medicine. They are, however, sometimes troubled with summer complaint, diarrhoea, and such like, but I always find there is no cause for worry as I just give them two or three doses, no more, of Dr. Fowler's Extract of Wild Strawberry, and the trouble soon disappears. It is a remedy that all mothers should keep in the home for the children."

"Dr. Fowler's" is 50c a bottle; put up only by The T. Milburn Co. Limited, Toronto, Ont.

War Upon Drugs

Authorities Want All to Co-operate to Stamp Out Evil

Ottawa—Co-operation between municipal, provincial and federal police forces; the formation of special "dope" squads in larger cities, and eternal vigilance are necessary to stamp out the drug traffic in Canada, according to federal officials charged with enforcing the Opium and Narcotic Drug Act.

The act provides stiff punishment for dope traffickers and deportation is already provided. Canada has a careful system of checking legitimate imports and the distribution of the drug once it leaves the hands of the importers. But, according to federal officials, a certain amount of lethargy and lack of co-operation between the different forces is a handicap to the effectual stamping out of the scourge.

Montreal is at present the worst centre of illicit drug traffic in Canada, according to F. W. Cowan, who is chief of the branch of the health department enforcing the laws.

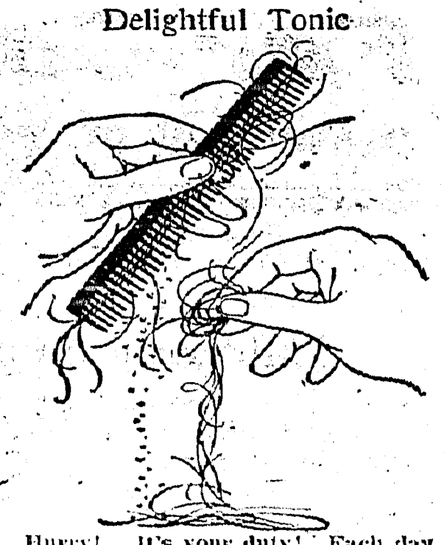
A SIN TO LET HAIR FALL OUT

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic



Hurry! It's your duty! Each day you see a little more hair falling out and you are making no effort to avoid baldness. What a pity. Falling hair means your hair is weak, sick—possibly dandruff is strangling it, or the hair root pores in the scalp are not firm and tight, thus wasting the hair-growing oils.

Danderine almost instantly stops falling hair of men or women and cleans every particle of dandruff away, then the hair takes on new life, vigor and strength to grow strong, thick and long.

Danderine is delightful—not sticky or greasy. Go to any drug store now and get a bottle. Use it. Have healthy, heavy, beautiful hair and lots of it.

"Say—That's Some Cake! Who Made It?"

And then mother speaks up with well deserved pride and says, "I did," and tomorrow she will get out her Dr. Price's Cook Book and the can of Dr. Price's Cream Baking Powder and bake another masterpiece just for the sake of true appreciation.

Words of praise always follow the use of Dr. Price's.

For perfect results in baking always use—
