THE CRESTON REVIEW

VOL. XIV. CRESTON, B. C., FRIDAY, SEPTEMBER 29, 1922 No. 34

Heavy Entry List Impeial Fruit Fair

Creston Valley's orchard product will be shown at the Imperial Fruit Show, which opens in the Crystal Palace, London, England, the latter part of October, on a very large scale, and it now seems certain that the fruit from Creston Valley will be the only British Columbia fruit that will be seen at the big Old Country exposition this year.

In 1921 it will be recalled Valley growers carried off both first and second for Cox Orange in the Overseas section of the big fair, as well as capturing seconds on both Snow and McIntosh Red, whilst Robert Stark's twenty boxes of Cox were adjudged the second best in the competition open to the whole British Empire. Wealthys were the only variety in which Valley exhibitors failed to gain a prize.

This year Robert Stark will again compete with his 20 boxes of Cox in the British Empire section, for the premier award in the dessert apple class, and may possibly show 20 boxes of Winter Bananas in the culinary apple class.

In the Overseas department in which competition is open to every one of the British Dominions, Mr. Stark will have six boxes each of Cox Orange, Winter Banana and Delicious apples, as well as half a dozen boxes each of Clergue, Comice and Beurre d'Anjou pears.

W. G. Littlejohn of Erickson is also going heavier, and this year will have 20 boxes of Cox in the British Empire competition, and six boxes each of McIntosh Red, Snow, and Cox Orange in the Overseas department.

An added competitor this year is J. W. Hamilton, who will enter the Empire competition with 20 boxes of Northwest Greenings for the honors for the best culinary apples.

The packing of this fruit is now well under way, and arrangements are for it to leave Creston about October 5th, which will get it to Montreal in time to catch a steamer sailing on the 11th direct to London. The fruit will go forward in a ventilated express baggage car, and at Medicine Hat will be attached to the Imperial Limited to assure its on-time arrival at the ocean trans-shipping point.

The looking after and staging of the Valley exhibit will be in good hands again this year as arrangements have been made with H. B. Downs, who is sailing for the Old Country about October 2nd, to take full charge of this work, and Mr. Downs' well known ability at effort of this kind assures that the Valley fruit will be exhibited to the very best possible advantage, assisted as he will be by the staff of B.C.'s agent general at London, and the big fruit auction firm of Poupart's, who have been in constant communication with Creston Fruit Growers' Union to assure a display of Creston Valley fruit being made.

In connection with the Valley's extensive showing in London this year hearty commendation is due the Canadian Pacific Railway for the conceding of such ideal transportation arrangements at such a nominal cost, and a good worn is also due Manager Constable of the Fruit Growers Union for his persistence in pursuing the matter until it reached Vice-President Coleman at Winnipeg, and upon whose instructions the Dominion Express Company at last assured that they would not only provide such fast transit and delivery to ocean steamer but also are carrying the fruit by a special express car at the usual freight rate. Had this not been given exhibiting would have been out of the question as the nominal express rate on a box of apples—with much slower transshipping at Montreal—would have been at least $10 a box.

Don't fail to be there!

Canyon City

Mr. Hummel of Cranbrook, who a couple of weeks ago purchased the Lamont ten acres back of the Pochin ranch, already has his temporary 18 x 24 ft. bungalow well along toward completion.

Alfred Speaker and son, Alf, are again residents of Canyon City, returning early last week from Spokane, where the latter has just completed a course in motor repair school. Mr. Speaker is again on the payroll of Canyon City Lumber Company.

Jas. Johnston has his crew at work this week on the bridge near the Wearmouth place, and although this was only put in ten years ago it will take considerable work and material to put it good shape again.

The Fruit Growers Union loaded out its third car of fruit at the end of the week, which was loaded to plums and Wealthys, the Pochin ranch supplying the bulk of the apple content.

Mr Witherhead of Yahk was week-end visitor at his home here. He predicts that logging operations in that section will be heavier than ever this winter.

Tom Harris has a small gang of men at work putting the new Fort Macleod road in good shape for traffic. It has just been recently stumped by Frank and Slim Lewis of Creston.

P.O. Inspector Hale of Calgary was here the latter part of the week investigating the matter of opening a postoffice at Canyon and, we understand, assurance has been given that the office will be established early in October.

The Union packing shed at the siding is quite a hive of industry at present, with a Mr. Sterling from Salmon Arm in charge, and with the Wagners about due to move the staff will have to still further increase.

Farewell Tea for Mrs. Downs

Mrs. Bennett and Mrs. F. H. Jackson were joint hostesses at an afternoon at the home of the latter in honor of Mrs. H. B. Downs, who is leaving early in October to reside permanently in England. The tea table was decorated with sweet peas and was presided over by Mrs. Small, while Misses Vera Lister and Phyllis Small assisted the hostess in serving. During the afternoon the guest of honor favored with some vocal numbers in her well known and pleasing style, while Mrs. Ebbutt contributed some instrumental numbers. Mrs. Downs has been a prominent figure in Creston's social life for the past eight years and her departure will be regretted by a wide circle of friends.

Lister

Gus Charleson of Lumberton is spending a few days with his family here this week.

Mr. and Mrs. Jas. Adlard were Sunday visitors at the Langston ranch. W. G. Littlejohn of Erickson was another Sabbath caller here.

Fred Weston and family, wno left some time ago for Wenatchee, Wash., returned to Lister a few days ago, and will probably make their home here permanently.

Capt. Hale of the postoffice inspector's office, Calgary, was here at the end of the week on an official visit.

C. H. Phillips was an eastbound passenger on Saturday, en route to Cranbrook.

Chas. Burgess and Albert Mitchell are working at Erickson at present in the Fruit Growers Union packing shed.

The road repair crew is now operating on the stretch of highway between the Bird ranch and Porthill and are certainly making the travelling better wherever they operate.

Lister school is amply supplied with fuel as a result of a well attended bee on Friday at which the Bird & Thompson team as well as the Land Settlement Board team and drag saw co-operated to advantage with the manuel efforts of J. W. Head, Harry Brown, F. Powers, F. Thompson, John Bird, Ed. Langston, A. H. Rowbury, Jas. Jory and John Malthouse.

Local and Personal

FOR SALE—Child's coat of heavy admiralty serge, will fit child of five or six years, $5. Also Aladdin hanging lamp in good condition $4. Apply Mrs. C. G. Bennett.

J. D. Moore of Kaslo, road superintendent, was here on an official visit a couple of days the latter part of the week, making an inspection of the new roadmaking P. Andestad has under contract at Wynndel, as well as the bridge repair work east of here. During his stay he placed the order for the necessary timber to re-plank the bridge at Arrow Creek.

R. S. Bevan's advt. this week shows another price cut on Ford cars, reducing the cost of these a matter of about $40. This has been quite a good Ford year in the Valley the Bevan garage having disposed of new ones to A. Speaker and Leslie McInnes of Canyon City; Harry Irwin of Wynndel, Dr. Henderson and Floyd Rodgers, Creston, as well as a few re-build Fords.

There will be two shows at the Grand on Fair day—4 and 8 p.m., at which Wesley Barry will be seen in a widely popular picture, "The Country Fair." There is no advance in prices. That evening there will be a dance in the Grand ballroom with Creston orchestra music.

Mrs. S. A. Speers received the unwelcome intelligence on Saturday morning that her mother, Mrs. McMahon, had died the previous evening at the home of her sister at Sydenham, Ontario, where she was on a visit, previous to taking up residence in her new home at Ottawa. Deceased was a resident here for a number of years, selling their ranch about ten years ago to J. W. Hamilton, and moving to Fort William, Ont., to reside.

All the baseball talent is asked to be out for a practice game on Sunday afternoon to get in shape for the match with Bonners Ferry on fair day. The battery for that day will be Mitchell and Argue, with infield made up of McKelvey, Atkinson, Kimberley and Long. The outfield will be recruited from Romano, Botterill, Telford, Maxwell, McGovern and possibly Skiffington. Mitchell, it will be recalled, is the Wardner hurler, who all but pitched shutout ball the game Bonners played here in July.

CRESTON CAFE

Fair Day

Special arrangements to supply Meals and Teas.

Dinner or Supper, 40c.

Tea or Coffee Lunches 15 to 25c.

The place for Home Cooking and Home-Made Candies.

Have YOU Done Your Duty to Yourself and Your Family!

Join the Creston and District Fifteen Hundred Club!

Send application to Secretary, Creston, B.C.

Erickson

W. J. Boyd of Crawford Bay was a business visitor here between trains on Monday.

Mrs. C. Penson, who has been a guest of Mr. and Mrs. A. E. Penson the past month, has returned home, accompanied by Mrs. Truscott, sr.

The Harrison ranch added three more males last week to their herd of goats, bringing the total up to eight. The newcomers are Saamen, and were acquired from a well known breeder at Port Kells.

Shipping still continues heavy and steady, with the latter part of the week likely to show a slowing up until the Wagners start moving. Up till Monday noon 40 straight cars had been shipped east.

M. R. Palmer got back on Sunday from Nelson, where he had been a visitor for a few days with Mr. and Mrs. Whimster.

Erickson is quite the biggest payroll town in the Valley just at present. Both the Union and Staples packing houses are employing quite large staffs—about thirty men, boys and girls between them.

A number of the young people from here were Friday night revellers at Arrow Creek, where an oldtime mulligan was the particular attraction—the first in at least half a dozen years.

The Littlejohn ranch will have about thirty eight boxes of apples in competition at the big Imperial Fruit Show in London, England, next month, the fruit now being packed. 20 boxes of Cox Orange will be shown in the class open to the whole British Empire, as well as six boxes each in the Snow, McIntosh Red and Cox Orange sections of the Overseas division. A year ago the Littlejohn ranch scored second on all these varieties in the Overseas section.

Mrs. Mead's Reception

The home of Mrs. G. Davidson Mead was thronged with callers Thursday afternoon, the occasion being the first reception since her marriage. Mrs. Mead, sr., assisted in receiving the guests, the hostess wearing her wedding dress of white satin with pearl trimming. Tea was poured by Mrs. Lyne, assisted by Misses Amy Ebbutt, Jane Long and Phyllis Small, asters and tulle being most effectively used to give color to the dainty tea table. A house guest for the occasion was Mrs. (Dr.) Asseltine of Fernie, who was accompanied by her little daughter, Mona.

220-Box British Fruit Fair Display

Creston Valley's initial effort to commercially introduce our apples on the British market will be made this fall by Creston Fruit Growers Union Ltd., in connection with the Imperial Fruit Show which will be held in London the latter part of October.

When definite announcement was made that the big exposition would be held again this year the big fruit auction firm of Poupart's immediately got on touch with the Union with the request that Creston Valley furnish them with at least 200 boxes of stated varieties that will be on exhibition as a non competitive display, and will afterwards be sold as show fruit in the regular way on the London fruit auction market. These non-competitive displays will be a big feature of the fair as the Poupart's are making similar arrangements with the other fruit-producing provinces, and, doubtless, their competitors are also following the same line of action.

On receiving the request Manager Constable immediately cabled acceptance, and in assembling the 220 boxes which will be shipped great care has been taken to send only such varieties as are in demand overseas and to limit these to fruit that is this year showing the best possible quality for variety.

This special showing will comprise nine varieties, as follows: Winter Banana, Cox Orange Pippin, Snow, McIntosh Red, Jonathan, Delicious, Northwest Greening, Spitzenberg, Blenheim Orange and Ribston Pippin. This fruit is now going through the graders at the new Union warehouse, and will receive the necessary special attention that will ensure its arrival in the best possible shape.

This fruit will go along with the exhibition stuff leaving by ventilated car on October 5th, and will go at the same favorable rates conceded the Imperial show fruit, and on arrival at London will be looked after by representatives of the firm of Poupart whom the Union is assured have been alloted particularly central space in the big fair building.

Under these circumstances and remembering that the Creston fruit will be the only British Columbia orchard product at the big exhibition there can be no doubt of it attracting special attention, and giving the Valley an immense amount of the highest class of advertising.

In addition to some attention Mr. Downs will give this display the government at Victoria are spending $1000.00 in looking after the fruit from this province shown at the Crystal Palace. With the Creston exhibit the only one from B.C. certainly the local apples should present the best possible appearance provided no misfortune befalls them in transit.

GRAND THEATRE Wednesday, OCTOBER 4

Fall Fair Day Special Feature

WESLEY BARRY

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal-oil).

The inventor, T. V. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

MY CANADA

— BY —

ELINOR MARSDEN ELIOT

Published by Special Arrangement with the Author

(Continued)

When I awoke this morning my annoyance seemed childish in the extreme, so I went down to breakfast determined to act as if I would rather be made fun of than not. I half expected to see Lee in a dress-suit—but Mr. Livingstone is not so crude in his methods as to do the thing that is expected of him.

The disturber of my peace was on his best behaviour, and I immediately jumped to the conclusion that he, too, had decided to turn over a new leaf. At the breakfast table he devoted himself to Sunny. I like to watch him when he is with her; he has the uncommon gift of being able to talk to children without talking down to them, and Sunny adores him.

So when he asked me, as we rose from the table, if I would go for a ride with him, I accepted most graciously, and hurried upstairs to get into the disapproved riding-habit.

Sunny came up with me, and it was lucky that she did so, for I wasted ten minutes looking for one of my boots, and was just on the point of borrowing Mrs. Bingham's when Sunny had an inspiration.

"Why, Auntie Elinor, I remember! Me and Thomas were playing puss-in-boots yesterday, and I just took one of your boots 'cause Mother's weren't high enough—Thomas fell right out of them."

"Where is the boot now?" I asked as calmly as I could.

"I'll go and see," announced the culprit, not in the least disconcerted, and in a minute she returned with the missing boot.

"It was in Uncle Don's room under a chair," she explained confidentially. "Thomas runned away from me and went in there, and I runned in after him and I must have dropped your boot."

Comment seemed useless.

Following this, everything I touched delayed me. The hooks and eyes on my skirt all seemed to be misfits, and I ran a pin into my finger and put blood-stains on the dressing-table cover. So when I finally went downstairs Mr. Livingstone was waiting at the door with the horses.

"You'd better hurry up," cautioned Sunny; "Uncle Don doesn't like to wait. He says that a lady never keeps a gentleman waiting."

All former injuries were forgotten when I saw Mr. Livingstone. From head to foot he was clad in irreproachable evening-dress! And of course every man on the place "just happened" to be close enough to see us.

My first impulse was to go back to my room and take off my riding-clothes, but instantly I realized that this was exactly the course that Mr. Livingstone would expect me to follow, so—not very gracefully, I fear, for I did not wait for his assistance—I pulled myself into the saddle—and gave Cupid his head.

I was around the base of a hill and out of sight of the house before Mr. Livingstone caught up with me. I glanced out of the corner of my eye at him and was overjoyed to see that he did not seem to be enjoying the joke as much as he had anticipated—and also to see that one pair of pearl-grey kid gloves and one pair of patent leather pumps were on a fair way to destruction.

You may be sure I let him speak first.

"I say, Miss Eliot," he said, not so very humbly, "I hope I haven't offended you. I only meant this in fun, you know."

"Of course I am not offended," I said as sarcastically as I could; "I enjoy nothing more than to be made the laughing-stock of the ranch. I must say that you Canadians have a peculiar sense of humour—one which I am powerless to appreciate."

"We'll leave Canadians in general out of this, if you please," he interrupted hotly. "I did not intend to make you the laughing-stock of the ranch, and when I try to apologize you might at least pretend to believe that I am sincere in what I say."

"What about all the men who were standing around?" I asked. "I suppose they are fairly in ecstasies over your latest joke on the English girl?"

"Our men are fairly decent," he answered. "And in all probability they are enjoying the clever way in which you turned the joke on me. I am sure I look absolutely idiotic in these togs—I wish Mother had licked the teasing out of me when I was a kid!"

But my injured dignity was not to be appeased so easily, and we rode for half an hour without speaking again. Then we turned to come home, and as we neared the house Mr. Livingstone said, in a dangerously smooth voice, "You will not accept my apology, then?"

"No," I replied, against my better judgment.

"Very well," he blazed. (He has a temper, evidently.) "I shall certainly not trouble you with it again!"

And that is how matters stand. I don't suppose he will ask me to ride with him until I make the first move, and I have vowed a solemn vow to be even with him if the endeavour fills the rest of my days.

XVII.

Bar B Ranch,

August 24th, 19—.

The past ten days have been very quiet and uneventful, but on Monday Mrs. Bingham and Sunny and I are going to Carbon City to do some shopping. Perhaps something worth while recording will happen there.

Mr. Livingstone and I are still at daggers drawn. We are painfully polite when we have to speak to each other, but that is not very often, for he is much busier than he was formerly. I scarcely see him except during meals, and on some days not even then. He has not so much as mentioned riding since the day of our quarrel—neither have I, and I am determined that he shall speak first, even if I were partly in the wrong. It does not hurt a man of his type to discipline him occasionally.

Mrs. Bingham and I ride nearly every day, so I have not been without exercise. Mr. Paget joined us one day last week. His riding-clothes are quite as correct in cut as the dress-suit which so aroused Mr. Bingham's ire. But why will men wear brown, men of his type especially? It always seems to me that a brown suit throws into high relief all there is to a man of "the world, the flesh, and the devil." I would rather see Mr. Paget at the piano than on horseback. I wonder when he looks after [illegible] in town? In the intervals between [illegible] clothes, I suppose.

I have just had a very amusing letter from Mother, in reply to the last one I wrote to her before leaving Winnipeg. Poor dear Mother, she is so anxious about her duck eiderdown! She advises me to buy a small revolver—not as she has a distinctly feminine horror of firearms—learn to use it, and carry it with me night and day. The general impression she has gained from my letter seems to be that Southern Alberta is inhabited wholly by bad men and wild, very wild, indeed. I [illegible] I should not have mentioned the Reserve), and she wonders that a person of Mrs. Bingham's evident refinement can content herself in such a place. I think my first letter from the ranch would reassure her, and I am sure that my description of Mr. Paget would.

Mother also tells me that in the same mail with my "amazing" letter was one for Father from Mr. Hartford, and that Father is highly gratified by the renewal of their acquaintance. And her letter ends with a lengthy explanation of the way in which Mr. Hartford is connected with several "very good families."

(To be continued)

Indoor Life

Spending more time indoors makes women far more subject to constipation than men.

The liver becomes sluggish and torpid, the bowels constipated and the system poisoned by impurities.

If you would get away from the myriads of ills which result from constipation, it is only necessary to use Dr. Chase's Kidney-Liver Pills.

The benefits from their use are as lasting as they are prompt and certain.

Mrs. John Barry, 16 St. Amable Street, Quebec, Que., writes:

"This is to certify that I was troubled for years with constipation and tried all kinds of medicines without relief. At last my husband suggested that I try Dr. Chase's Kidney-Liver Pills. I did so and must say that they have given me more relief than all the medicine I have taken during the last fifteen years. I may also add that I have used Dr. Chase's Ointment for piles with excellent results."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

IS YOUR NOSE PLUGGED? HAVE YOU CATARRH?

If Subject to Colds, Here is Real Good Advice

Don't load your stomach with cough syrups. Send healing medication through the nostrils—send it into the passages that are subject to colds and Catarrh. Easy to do this with CATARRHOZONE, which helps a cold in ten minutes. Even to the lungs goes the healing vapor of Catarrhozone—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrhozone follow. You'll not have colds, nor will you suffer from sniffles, bronchitis, or throat trouble if Catarrhozone is used. Get it today but beware of dangerous substitutes meant to deceive you for genuine Catarrhozone. Large size, two months treatment, costs $1.00, small size 50c, sample size 25c, all dealers or the Catarrhozone Co., Montreal.

Sentenced to Death. No Appeal Possible

The death warrant is passed out every time a corn is treated with Putnam's Corn Extractor. It means the end of the corn. Putnam's lifts out corns, root and branch, and never fails. Refuse any substitute for Putnam's. 25c everywhere.

Dye Stockings Or Sweater In Diamond Dyes

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

From the thirteenth century the Poles became the most warlike people in Europe.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Some day the world may learn with astonishment that the solution of its problems is contained in the writings of four obscure men—Matthew, Mark, Luke and John.

Giant Airplane Engines

British Government Has Ordered Six Of 1,000 Horsepower

A big development in the use of airplanes is predicted as a result of the giant engines which are being ordered by the British Government. These engines, six of which have been ordered, are of 1,000 horsepower and capable of 1,800 revolutions a minute.

The statement is made that the new airplanes will have a range of 2,500 to 3,000 miles, but the Air Ministry explains the range depends in great measure on the type of machine to which the engine is fitted and on the purpose for which the machine is intended. The new engine was designed and built by the Messrs. Napier and was the outcome of several years' experiment and research. It has sixteen cylinders and has run satisfactorily for thirty consecutive hours on a bench. Its weight is about three pounds per horsepower.

Colic, Cramps, Stomach Pains, Need a Quick Relief

Security against these sudden ills consists in always keeping handy a bottle or two of Nerviline. No family should ever go to bed unless Nerviline is in the house. It fulfills so perfectly every service as a pain remedy that once used, you'll never again be without it. Money can't buy much greater assurance against the many small ills that constantly arise in every family than you get in a 35c bottle of Nerviline. Sold everywhere.

Timber Lost Through Fires

No Railway Can Long Withstand the Loss of Forests

"Every forest fire that broke out within fifty miles of the Canadian National lines this summer stole away some of the immediate or potential traffic and delayed to that degree the financial buoyancy of the public-owned system," stated C. Price Green, Chief Commissioner of Industries and Resources of the Canadian National Railways in an interview.

"A large mileage of the Canadian National runs through natural timber growing lands which can never produce any other marketable crop than timber. At the same time, these wooded regions are generators of tourist traffic and account for the rapidly expanding number of visitors from the United States travelling on our lines, as well as for the great volume of recreational travel on the part of Canadians. The security of the forests, therefore is absolutely vital to the solvency of any railway system in this Dominion.

"The destruction of forests by fire this year was not the work of the railways, as Government reports will prove, but of fishermen, campers, settlers and woods' travellers generally. It is the careless citizen, himself a shareholder in the Canadian National, who can wreck or maintain these forest resources so essential to our national prosperity and the successful operation of the public-owned railway system."

Minard's Liniment used by Physicians

Pneumonia Treated by Wireless

Although suffering from pneumonia in another ship 600 miles away, a patient was successfully treated by wireless for four days by Dr. William Irwin, of the American liner President Harding.

THE EXPLANATION

Nature placed the growth-promoting "vitamins" in the oil of the cod-fish—this explains why

Scott's Emulsion

is so definite in its help to a child of any age. Latter-day science reveals that the "vitamins" are needful for normal growth.—

Scott's Emulsion will help any child grow.

Scott & Bowne, Toronto, Ont. 19-2

Securing a Patent in Canada

Useful Advice Is Given For Benefit of Intending Applicants

Applications for patents in Canada should be addressed to the Commissioner of Patents, Ottawa, Ont. The term for duration of a patent is limited to eighteen years. The fee for a patent for the full term of eighteen years is thirty-five dollars, of which fifteen dollars is payable on filing the application and twenty dollars on the grant of the patent. Any intending applicant for a patent who has not yet finished his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far, with or without plans, when the Commissioner, on payment of a fee of $5, causes the document, which is called a caveat, to be preserved in secrecy; but the secrecy of the document ceases when the applicant obtains a patent for his invention.

"DR. FOWLER'S" Saved The Lives Of Four Children

Diarrhoea, dysentery, cholera, infantum and summer complaint are responsible for more deaths, especially among children, during the summer months than any other form of disease. According to statistics, in the City of Toronto alone, in the past five years out of 1,008 deaths of children, from diarrhoea, 757 died during the four summer months. It therefore behooves every mother to look after her children on the first sign of any looseness of the bowels by using Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has been proven to be the best there is.

Mrs. Harold Sellers, Pennfield, N.B., writes:—"Dr. Fowler's Extract of Wild Strawberry saved the lives of four of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea with which they were troubled. I will always recommend it, and now always have a bottle on hand in case of emergency."

Price, 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Germany's Printing Presses

People have been looking unnecessarily far afield for an explanation of the rapid slump of the German mark. This fall was due in part to the fact that notes to the value of £700,000,000 were put in circulation in a single week, and in part to the fear that still more would be printed in the immediate future. Compared with these factors, the political factors are almost negligible.—London Sunday Pictorial.

A French baker once walked on stilts from Paris to Moscow, a distance of 1,500 miles, in fifty-eight days.

Mabel.—Clara's last photograph was lovely.

Edith.—Yes. I had to ask her who it was.

IN THE SHADOW OF POOR HEALTH

In This Condition Relief Comes Through Dr. Williams' Pink Pills

When the shadow of poor health falls upon you; when hope fades and life itself seems scarcely worth living, then is the time you should remember that thousands just as hopeless as you feel, have been restored to the sunshine of health through the use of Dr. Williams' Pink Pills. The rich red blood which these pills actually make, strengthens the whole system. The nerves are strengthened, headaches vanish, the appetite improves, and once again there is joy in life. Among the thousands benefitted by the use of this medicine is Mrs. Jos. Robinson, Oshawa, who says:—"Some time ago I was in an anaemic condition and so weak I would faint away at times. I had no appetite, could not do my housework; in fact life seemed scarcely worth living. I was exceedingly pale and tried doctor's medicine with no good result. Then one day I saw Dr. Williams' Pink Pills recommended for a similar condition and I got a supply. I continued taking the pills until I had used about a dozen boxes, and they have made me a well woman. I can now do a good day's work about the house, have no more fainting spells and can go about more actively than I did before. I believe these pills just the thing for pale, weak girls and women, and if given a fair trial will do for them what they have done for me."

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Peat In Canada

There are estimated to be about 37,000 square miles of peat bogs in Canada. Forty-six bogs have been surveyed in Ontario, with a total area of 132,321 acres containing approximately 110,109,000 short tons of peat fuel and 518,000 tons of peat litter. A total of 105 bogs have been surveyed in Canada, with an aggregate of approximately 224,131 acres. These contain 190,330,170 tons of fuel and 20,588,110 tons of litter.

Prince Has Heavy Mail

Three Secretaries Attend to Letters Delivered to York House

The Prince of Wales normally receives about seven hundred letters a day, though there have been occasions when the contents of the mail delivered to York House in the day contained well over fifteen hundred letters.

A couple of weeks before the Prince started on his Indian tour, 2,000 letters a day were delivered to his Royal Highness. The comptroller of the Prince's establishment, assisted by three secretary, attends to the Prince's letters, the comptroller bringing under the Prince's notice communications which he thinks require the personal attention of his Royal Highness.—Tit-Bits.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

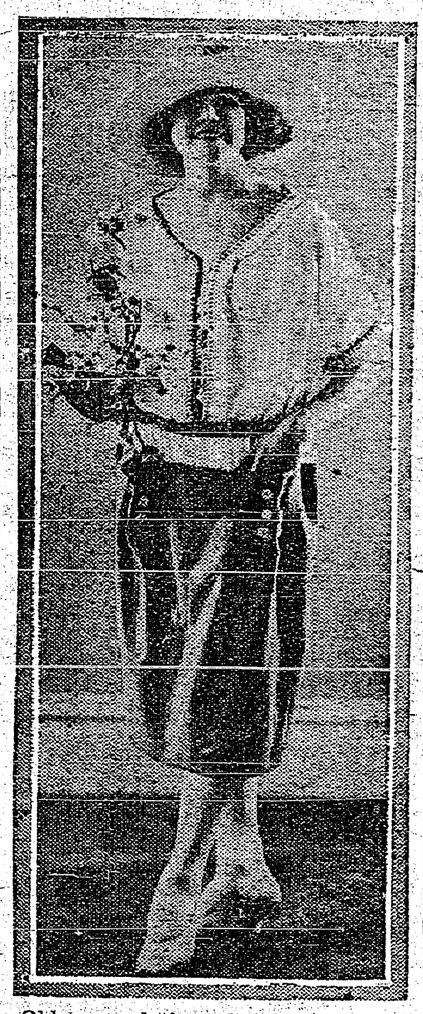
Halifax Films

"Halifax Films" has been organized to produce Canadian motion pictures from the works of Canadian writers. The Board of Directors includes the Minister of Public Works and Mines, President of the Board of Trade, Director of the Halifax Herald, President of the Commercial Club, Ernest Shipman and others. The first production will be Frederick William Wallace's "Viking Blood."

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Eclectric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

The Coliseum at Rome held 100,000 spectators, of whom 87,000 were seated.

A Combination of Two Materials and the Result Is Chic



Old rose cloth and white crepe de chine combine to make this attractive little frock, of which the distinguishing feature is the pleating, attached with the buttonhole stitch of rose wool. A model like this would be equally effective in contrasting colors, such as tan and brown or black and gray, etc.

Teacher.—The word "grand" is used in the sense of 'splendid, sublime, noble,' and the like. Can you give an example of such use?

Little Bobby.—Yes'm. Grand dukes and grand larceny.

CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Canadian Bacon In Britain

Canadian Product Is Rapidly Gaining Favor In the Old Land

In connection with the controversy regarding the alleged poor quality of Canadian bacon and produce, John Louden and Company, one of the largest importers of Canadian bacon products in England, made this comment: "Our existence depends on the sale of Canadian bacon, and we can sell every ounce of it that Canada can ship. It is quite true that Denmark is a competitor, but it will never drive Canada from the British market. Our actual imports this year will be greater than last year, we confidently predict, and Canadian bacon is growing in favor from month to month."

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Soviet Reward for Science

Professor Who Discovered Process of Dyeing Receives Bounty

Professor Turkin, of Moscow, who discovered a process of dyeing fabrics, was deemed by the Commissariat of Social Economy deserving of a bounty. He was accordingly granted 80,000,000,000 rubles.

The professor received at once 2,000,000,000 paper rubles. In lieu of the rest he is offered a villa in the Crimea, to be chosen by himself. So there are for sale in the Crimea small 78,000,000,000-ruble villas—five rooms and all the comforts of home.

With his 2,000,000,000 rubles the professor can pay his living expenses for one season.—New York Tribune.

Whole System Is Benefited By Tanlac

Thousands of frail, nervous people and convalescents everywhere have testified to the remarkable power of Tanlac in bringing back their health, strength, and working efficiency. It seems to quickly invigorate the constitution and is a powerful tonic of weakness. Mrs. John Hatrick, 901 Notre Dame Ave., Winnipeg, Man., says:

"Five years ago I had a nervous breakdown. I couldn't even hold a glass of water without shaking it out. My head ached so I thought it would split and I got so dizzy that several times I fell and hurt myself so bad the scars are on me yet. Six bottles of Tanlac actually made me feel like a different person. All my troubles are now gone."

There is not a single portion of the body that is not benefitted by the helpful action of Tanlac. It enables the stomach to turn the food into healthy blood, bone and muscle, purifies the system and helps you back to normal weight. Get a bottle today at any good druggist.

Road Building In Canton

Chinese Adding Miles of Modern Streets to Highway System

While road building in Canton, China, is not proceeding with the same rapidity as in this country, its programme is quite progressive, when it is considered that prior to 1920 there were only six miles of road which a motor car could make any progress without broken axles and injured spines. Eighteen months later, however, these progressive people, after years of inactivity, had added nine miles of modern streets to their highway system and seven and one-half miles were under construction.

ECZEMA You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. 60c. a box; all dealers or Edmanson, Bates & Co., Limited, Toronto.

Fall Fair, Oct. 4 Will Be Best Yet

Given two days of regulation early October weather there need be no hesitation in saying that the 1922 fall fair on Wednesday, Oct. 4th, will eclipse all its predecessors in every department.

Never before have entries been so numerous so early as is the case this year, and Secretary Walmsley state that the entries are pretty evenly spread over the various classes, fruit, of course, being the heaviest. From appearances there will be more outside birds in evidence in the poultry class, as well as a heavier showing by Valley fanciers.

The list of judges is now complete and every one of those who will place the prize tickets are outsiders, the agriculture department furnishing them all, as follows:

Fruits and Vegetables—P. C. Black Grand Forks; E. C. Hunt, Nelson.

Horses and Cattle—A. L. Hay, Kamloops.

Poultry—C. W. Traves, Grand Forks.

Needlework—Mrs. J. S. Whitman, Sandwick.

Cooking and Canned Goods—Mrs. J. A. Hennessey, Cranbrook.

Exhibitors as well as those who attend the fair will be pleased to know that the town water has been connected up with the building and that sprinkling will be resorted to this year to abate the dust nuisance, which was much in evidence last year.

Judging will start on Tuesday afternoon, and will be completed in ample time for the doors to be opened promptly after dinner, with the formal opening ceremonies scheduled for 2 p.m., with L. W. Humphrey, M.P. for West Kootenay, delivering the opening address, assisted by Col. Fred Lister, M.P.P., and possibly Hon. E. D. Barrow, minister of agriculture.

Proceedings throughout the afternoon will be enlivened by music from Creston brass band. Bandmaster Hendy is preparing a particularly attractive list of numbers.

An added attraction of this year's fair will be put on under the direction of Jimmy Lockhead, and will include fancy roping, bucking contest and some other wild west features. Lockhead's ability in this line is well known, and for several weeks past he has been training a number of Indian riders and horses for this feature, which is sure to be exciting.

The big outdoor feature will be the championship baseball match between Bonners Ferry, Idaho, and Creston. In July Creston beat the crack Idaho team by a 10-4 margin in the fastest baseball ever seen here, and the game on fair day will be equally fast. Manager Staples is getting together the strongest possible aggregation and a win by the locals may be confidently looked for.

Attention of those exhibiting in the fruit class is called to the fact that the prizes for the sweepstakes (most prizes in fruit) will be first prize, $3; second prize, $2, both of which are donated by L. W. Humphrey, M.P.

It is specially asked that exhibitors make their entries as early as possible. These must all be in the hands of the secretary before 10 o'clock Saturday night, Sept. 30th, but to expedite his work it will be appreciated if these come in as far ahead of that hour as is possible. And to help out the ladies and gentlemen who have the placing of the exhibits in the various classes in the main building exhibitors can do much by getting in as much before noon on Tuesday as is convenient. Horses, cattle and poultry, of course, are received up till 10 a.m. of fair day.

Omitted from Prize List

Class 1, Section 56—Plate of pears (5).
Class 4, Section 93—Barred Rock Pullet.

In Class 1, Section 68, this should read basket or plate of fruit for table decoration.

CRESTON, B.C., FRIDAY, SEPT. 29

LETTERS TO THE EDITOR

Creston-Kuskanook Road

EDITOR REVIEW:

SIR,—Every so often we see by your excellent paper that quite elaborate work is being done to improve the roads in the Creston and Erickson sections, and if many of these reports are correct it would seem to me that the east end of the district is being favored very much to the detriment of the west portions.

Take, for instance, the road between Sirdar and Creston. Thisis, in rather too many placcs, in a deplorable state, and in view of the tourist trade that every town is trying to develop surely this is one road that should have a little special supervision. Almost, without exception, tourists passing through complain about it, and from personal experience I can testify as to the amount of damage one does to a car on a trip to Creston in the way of punctured tires, broken springs, etc. Even in a run of only a few months this expense bill runs to a surprisingly large total.

The road just east of the Cooper ranch, which is bad enough due to its narrowness, is rendered many times worse on account of the ruts, prevalance of boulders in the running course, to say nothing at all of the running water encountered at several spots.

A few months ago we were quite authoritatively assured that the road was to be diverted around the Ringheim ranch, or what is more familiarly known as "the Jungles." As yet there is neither sign of the diversion being undertaken, nor has that bit of highway had a fair share of attention.

When the higher license fees were put in effect we were told that the extra revenue collected would be spent on the roads. When is Creston Valley to have its share? Between these high licenses and repair bills caused by bad roads running an auto has certainly become an expensive luxury, and unless some real effort is made to give us the roads our license money and taxes entitle us to I for one will put my car in the garage and leave it there until such time as the Creston-Kuskanook road is made safe for travel. In such a case might I enquire whether the government will refund me the unused share of the present license?

Last Sunday evening threre was a Washington, U.S., car at Kuskanook and I was there also. This man had a punctured tire and two broken springs—done about six miles east of Kuskanook so he told me. This man went back to Creston and had the necessary repairs made, and if Engineer Ramsay could have heard this man talk of what he thought of this part of B.C. roads it would greatly surprise him. Get Harris and his gang back on the road. Ollie will soon make it what it should be if given the money. C. M. LOASBY.

Women's Institute Status

EDITOR REVIEW:

SIR.—Fearing that the editorial in your issue of Sept. 18th, headed "Will Operate Independently," may give rise a misunderstanding concerning Federation of Women's Institutes, I shall be much obliged if you will print the following:

The Women's Institute will work in this way: I. The local, individual institute, such as Creston W I., electing its own directors and managing its own local affairs. 2. The district Institutes, consisting of delegates chosen by the district individual local Institutes, to meet in conference at some given place, these delegates elect their own directors, finance the district conference, and arrange all Institute matters pertaining generally to the district. 3. The Provincial Institute, consisting of delegates elected by all the individual Institutes to meet in conference at some given place; these delegates elect their directors, who arrange all matters that concern the Institutes generally all over the province, and their relations to the department of agriculture will be that of the present advisory board; the government will finance this provincial Institute conference.

The plan was first discussed at the advisory board meeting at Victoria, in May, 1921. From the minutes of that meeting I take the following statements: 1. The individual Institute remains as now in receipt of per capita grant and maintains the same relationship to the department of agriculture. 2. The relation of the directors of the Provincial Institute to the department of agriculture shall be that of the present advisory board. In this reply to this plan, when laid before him, Hon. E. D. Barrow, minister of agriculture, says: "I endorse the system provided it can be carried out without what may be considered a material increase over and above the expenditures under the present system." We also have to carry on our meetings and work by the regulations issued by the department of agriculture, Nov. 2, 1920.

If, therefore, we receive per capita grant from and have officers working in touch with the agriculture department, and are under rules drawn up by the same, we cannot be said to have no more government control but are in the same relationship to the agriculture department as heretofore.

The plan for Federation was laid before the Kootenay-Boundary Institutes at Crawford Bay, September 1921, and accepted by them in the recent conference at Nelson. The measure for Federation now have to be laid before the legislature and if accepted by them will be put into effect. Until this is done the Institutes stand in a state of transition as is proved by the fact that I was re elected advisory board member for the Kootenay-Boundary district for the present year, an office that will cease when the measure for Federation passes the legislature.

The only practical difference in the working of the Institutes at present is that instead of the agriculture department paying a large share of the expenses of the District Institute the Kootenay-Boundary individual Institutes will have to do it themselves. There is no idea at present of more frequent district Institute meetings. M. E. LYNE, Advisior Board Kootenay W.I.

TENDERS FOR CORDWOOD

Sealed tenders will be received by the undersigned up till Monday, October 2, 1922, for thirty cords of 4 foot dry cordwood, to be delivered to the Creston Public school. CRESTON MERCANTILE COMPANY
LIMITED

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 5th August, 1922.

OPPORTUNITIES IN THE VETERINARY PROFESSION

If you desire to enter a profession you should consider what the new field of Veterinary Science has to offer. Graduates have splendid opportunities for a successful career. You should inquire.

SESSION BEGINS OCTOBER 2nd, 1922

Write for Bulletin and Calendar to C. D. McGilvray, M.D.V., Principal

ONTARIO VETERINARY COLLEGE

Affiliated with University of Toronto — GUELPH, ONTARIO — Under the Ontario Dept. of Agriculture

Birthday Of The Dominion

The fifty-fifth anniversary of Confederation on July 1 finds Canada enjoying fairly robust national health and, when studied in comparison with other countries, in pretty good shape financially, and its people contented and happy.

Of course, in these early after-war years, conditions in Canada, as in all countries, must be viewed in the light cast by that great world upheavel. It is impossible to fairly contrast conditions in the years before the war with those which now prevail, because the standard of comparison has in so many important respects been completely altered. When considering present-day conditions in Canada the comparison should rather be made with conditions as they are found to exist in other countries.

Applying this test to Canada on the occasion of its fifty-fifth birthday our people have good reason for satisfaction. Probably no country has suffered less during the past year from industrial turmoil and labor troubles than has the Dominion. No great national disaster occurred. While there was much unemployment during the past winter, even in this respect the Dominion presented a more favorable aspect than most countries. The returns from agriculture were not all that had been hoped for and expected, but the adverse conditions of last year have operated in certain respects to improve the outlook this year.

The operations of the past year have resulted in the Canadian dollar again reaching almost par on the United States money markets, while the credit of the Dominion has not only remained sound and strong but has improved. The deficit on the National Railways has been substantially reduced, and although there is still a long road to travel before earnings will overtake all costs of operation, maintenance and interest charges, gratifying progress towards that goal has been recorded.

As a national birthday gift, too, comes the definite assurance of a substantial reduction in freight rates, a reduction which will certainly give an impetus to business generally and which will, we confidently predict, prove advantageous to the railways themselves.

At this anniversary time, however, while rejoicing because of the many blessings which the people of Canada enjoy, every patriotic citizen should also give serious heed and thought to the needs of their Dominion, the dangers which confront it, and the duty of the individual in the circumstances.

It would be foolish to seek to disguise the fact that the national debt of over two and a quarter billions of dollars, not to speak of Provincial, Municipal and School debts, is a heavy load for less than eight million people to carry. Not only must the interest charges on that studendous sum of money be met, but an effort must be made to reduce the principal sum from year to year until it is brought to a level where it can be carried without constituting a burden and an ever present obstacle to the inauguration of enterprises essential to the continued betterment and progress of the country.

There is only one way in which this burden of debt can be carried and removed, and that is through taxation, and the people of Canada must, therefore, be prepared to pay heavy taxes for many years to come. It is their contribution to the peace and personal liberty they enjoy; it is one of the duties of citizenship which they must ungrudgingly discharge. And heavy though these taxes may bear, they are light in Canada when placed in comparison with what the people of most countries throughout the world today are called upon to pay.

But there is only one way in which taxes can be paid; and that is through the industry and labor of the people—not a portion of the population, but all the people. Wealth is not produced through the process of printing bank bills. If it were, Russia would be the richest country in the world today, instead of being in a state of poverty and internationally bankrupt. Finely engraved bank bills are merely the outward evidence of wealth created through labor, and represented by these bills for convenience in transacting the business of the world. It is through labor, and labor alone, that wealth is produced, and it is vitally important for Canada, and for each and every Canadian citizen to become thoroughly seized of that fact and conduct themselves accordingly.

On this anniversary of Confederation, each citizen of Canada might well resolve to make their country a birthday present, and no present could be more acceptable, or more far-reaching in its beneficial results not only to the Dominion as a whole but to each individual calling Canada "home," than a determination, expressed or unexpected, on the part of all citizens to make Canada's new year one of hard, conscientious productive work. Nothing will more surely start all the wheels of business and national activity revolving more rapidly, nothing will more quickly bring about a new era of prosperity, and nothing less will suffice to relieve Canada of its greatest danger—its unduly large national debt.

WARNING! Say "Bayer" when you buy Aspirin.

Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A Fatal Temperature

Soldier's Scheme to Stay in Hospital Did Not Work

A convalescent soldier, who was so comfortable in the hospital he hated the idea of leaving it, thought of a plan to prolong his stay. While his nurse's back was turned he removed the clinical thermometer she had placed in his mouth and held it for a few moments against the register. The nurse, returning to him, looked at the thermometer, but never blinked an eye. She merely murmured, "Poor fellow!" and went off to make her report.

Later she came back and announced that the patient was leaving that day.

"But nurse," he protested, "my temperature was away up this morning."

"I know," she replied calmly, "up to 140. That's why they're moving you—you're dead."—The Veteran.

YOUNG LADIES, READ THIS

If you are bothered with pimples, rashes and ugly blotches on your face, if your complexion is sallow, it's an evidence that you require Dr. Hamilton's Pills to tone up the blood. One of these splendid regulating pills makes a complexion like peach bloom—cheeks soon become rosy, eyes brighten, you again look the picture of health, look and feel well because you use Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers or The Catarrhozone Co., Montreal.

Exports to Belgium

During the past fiscal year Canada exported to Belgium commodities to the value of $40,000,000. Of this sum about seven-eighths represents the value of wheat exported; $2,000,000 cheese; $2,000,000 asbestos; $270,000 flax; $200,00 canned fish; and the balance barley, concentrated milk, rye, etc. According to the Canadian Trade Commissioner in Belgium there is a good market in that country for Canadian cattle on the hoof, flour, pulp and furs.

Judge.—Pat, the evidence shows that you hit this man twice."

Pat.—"I did not, y'r Honor. The first time I hit him I missed him."

WORDS OF PRAISE FOR BABY'S OWN TABLETS

No medicine receives such great praise from thankful mothers as do Baby's Own Tablets. Once a mother has used them for her little ones she will use nothing else. The Tablets are a mild but thorough laxative. They regulate the bowels and stomach; drive out constipation and indigestion; relieve colds and simple fevers; promote healthful sleep and make teething easy. Concerning them Mrs. Omer LeBleu, Maddington Falls, Que., writes:—"I am well satisfied with Baby's Own Tablets and will always use them for my little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville Ont.

To Help Farmers

Manitoba Government Raising Additional Funds for Loans to Farmers

Announcement has been made by Hon. Edward Brown, Provincial Treasurer of Manitoba, that arrangements have been made by the Govern-000 for the Manitoba Farm Loans Asment for raising an additional $1,000,sociation. Lachlan MacNeil, chairman of the Farm Loans Board, informed Mr. Brown that there was an overdraft of $465,000 for loans already made and approved applications amounting to $430,000 from farmers of the province needing immediate assistance. The treasurer called a meeting of the provincial cabinet and arranged the flotation of a $1,000,000, three-year, five per cent. province of Manitoba loan, which was sold to the Dominion Securities Corporation for 98.70. The same firm purchased $2,034,000 worth of Manitoba three-year, five per cent. bonds at the same price.

Services to Bermuda

A passenger and freight service between Montreal, Canada, and Hamilton, Bermuda, with a sailing from Montreal every three weeks is to be inaugurated at once by the Canadian Government Merchant Marine, Limited. The first ship to leave on this service will be the Canadian Fisher, which will be followed by the Canadian Forester.

Minard's Liniment for sale everywhere

Animals Seek Place to Die

Prospector Explains Why Remains Are Found in Underground Caves

Harry Wigg, a prospector well known in the Transvaal and Rhodesia, offers a remarkable explanation of the finding of the remains of wild animals in underground caves.

He maintains that the same call that sets wild life migrating sends these creatures to a known goal when they know their time has come to die.

Mr. Wigg recalls an interesting experience he had in Southern Rhodesia, when a vast sepulchre of wild life was shown him by the Chief Nog of Southern Rhodesia.

They passed down a valley in which there were neither trees nor birds nor any life whatsoever. Utter stillness reigned.

The end of the valley was closed by a jagged, weather-worn curtain of conglomerate and on a ledge some ten feet above the floor on the valley was the entrance to a cave, the centre of which was cleft by a big fissure.

Huge boulders of conglomerate disintegrated from the softer sandstone formed niches and minor caves and galleries.

Every inch of the ledges was covered by the remains of animals, while a pit was filled high with thousands of skeletons of all the big buck and elephant, rhino and buffalo in all stages of "dry" decay.

Mr. Wigg had apparently found "the place where elephants die," of which much of a legendary nature has been said and written.

A Divorce Granted

After many years of patient suffering, you can be divorced from corns, you can get rid of them completely by applying Putnam's Corn Extractor. This wonderful old remedy acts in 24 hours and never fails. Refuse a substitute and remember "Putnam's" is the only Painless remedy. 25c everywhere.

Arabs Discovered Alcohol

Alcohol was first distilled by the Arabians, and when we talk about coffee and alcohol we are using Arabian words.

For Frost Bites and Chilblains.—Chilblains come from undue exposure to slush and cold and frost bite from the icy winds of winter. In the treatment of either an excellent preparation is Dr. Thomas' Eclectric Oil, and relieves the pain. The action of and relevles the pain. The action of the oil is prompt and its application is extremely simple.

Worth Noting

A gift of $3 in Roumanian money was recently received from children of a village near Bucharest, sent to "aid the children of families made destitute by the destruction of the Knickerbocker Theatre, Washington, D.C." To children with their limited outlook, the Knickerbocker disaster appeared something which affected the whole American people, and since they had been helped by American children they wanted, out of their limited means, to give help in return. —Christian Science Monitor.

More Digestible

Natives of the countries in which bananas grow always scrape off the mealy coating before eating the fruit. Physicians say bananas are much more digestible this way.

SAYS SHE FEELS IT IS HER DUTY TO TELL FACTS

Winnipeg Resident Gains 12 Pounds and Hasn't a Trace Of Indigestion and Nervousness Left---Says Tanlac Will Help Anybody.

"It is wonderful what Tanlac did for me and I feel it my duty to tell about it for the benefit of others trying to find a medicine for their troubles," said Mrs. C. Clifford, 625 Langside Ave., Winnipeg, Man.

"Five years ago I had a nervous breakdown and since then I have suffered terribly from dyspepsia and constipation and was in a general run-down condition. My head hurt so bad at times it seemed it would split open and I never ate a meal without having awful pains and bloating of gas that kept me perfectly miserable for hours. I could scarcely eat anything, lost weight, and was so nervous I never could get a good night's sleep.

"Tanlac made me gain twelve pounds, I never have indigestion any more and my nerves are in fine condition. I believe Tanlac will help anyone suffering like I was, and I shall always recommend it."

Tanlac is sold by all good druggists.

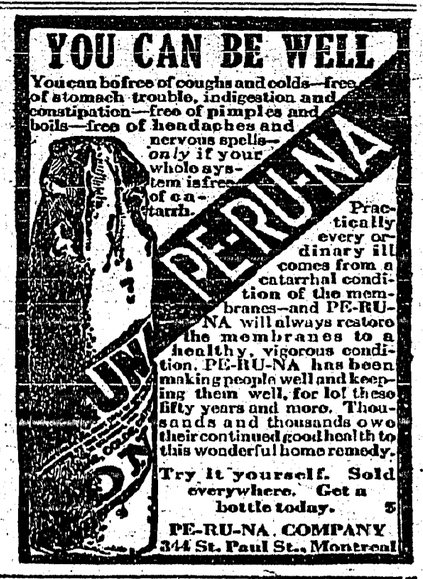
More Peril on Ground

Statistics Show More Infantry Officers Killed Than Airmen

There was less danger of death in the late war to officers who fought in the air than to those who combatted on the earth. French statistics show that 29 per cent. of infantry officers were killed, while only 21 per cent. of aviation officers lost their lives.

The fatalities among officers in general as compared to enlisted men in all branches were nearly equal, being 19 per cent. for the former and 18.5 per cent. for the latter.

The percentage of losses by age show that the 20-year-old soldiers, both officers and men, suffered the most. Here the death list was 29.2 per cent., while men from 45 to 50 years old lost in killed between 3 per cent. and 5 per cent. of their numbers.



Sirdar

Mrs. Cam was a Cranbrook visitor on Wednesday, returning on Friday afternoon.

Mrs. North was tea hostesses at the fortnightly meeting of the sewing circle on Saturday last.

Mrs. C. M. Goodman was a visitor with Cranbrook relatives and friends a few days last week.

Richard Dennes is acting car foreman at present, Mr. Tuohey being away on a short vacation.

B. J. Whitesides was here for a couple of days' visit with his family this week. Ben now has a run out of Cranbrook.

Is there any Meat in the House?

This is the first question that presents itself to the housewife if an unexpected visitor drops in for a meal. But why worry?

Shamrock Brand Hams and Bacon Finest Quality Cooked Ham Lunch Meat Bologna, &c.

are always to be had here. In meats nothing quite equals 'Shamrock' products.

P. BURNS & CO., Ltd.

The peach crop at the Mannerino ranch was on the move last week, and those who have seen his plums and peaches declare them the best ever shipped out of Sirdar.

Mrs. Joe Lombardo of Proctor is here for a couple of weeks' visit with Mr. and Mrs. Peter Lombardo.

District roadmaster Renoux and master mechonic McFadden of Cranbrook were here on an official visit on Thursday last.

Now that the work trains have completed operations the yard crew is working day shift once more.

Ed. Weston of Creston, who has done some fine work at chimney building on resideedces at Sirdar, has just completed another on the residence of C. M. Loasby.

Mr. Dennes, sr., is here for a few weeks from Spokane, on a visit to his son, Dick.

Peter Lombardo has the lumber on the ground for quite an extensive addition to his residence. We hear E. W. Payne of Creston has the contract and will start work at once.

The steamer Kuskanook unloaded six auto cars at Kuskanook on its eastbound trip on Thursday last. These were mostly all tourists and is about the biggest day's business this season.

Hans Hage of Kuskanook is now working under car foreman Dennes in the car department, while Mr. Tuohey is away.

Jas. Wilson was a Cranbrook visitor for a couple of days this week, returning Thursday, accompanied by Mrs. Wilson, who has been a patient in St. Eugene hospital for the past two weeks. She is much improved in h alth.

The Sid McCabe bridge crew returned to Sirdar on Thursday and will most likely spend the winter here making repairs and removing timbers on bridge. The Doukhobor extra gang that has been at the Landing for the past three weeks, fixing up after the work trains left, pulled out Friday night for Lumberton. There were about 35 men in the outfit.

FOR SALE—Mare, 7 years old, gentle, good driver and also good for light work, weighs 1000 lbs. With harness $65. Without harness $50. J. Penson, Wynndel.

H. R. TOWNSEND,
Provincial Collector.

In a great many homes in Western Canada RED ROSE TEA has been the only tea used for over 20 years.

RED ROSE TEA "is good tea" 17

Booril makes you feel splendid

National Land Settlement

To all new countries immigration is a matter of vital national importance, just as emigration becomes a matter of individual and national necessity in older countries with teeming populations and a restricted land area.

For a century the United States was the mecca of the hard-pressed European emigrant, and the present population of more than one hundred million which the United States can boast is the direct result of the enormous influx of people to that new land. Within the comparatively brief period of four or five generations, the United States has grown from a sparsely settled pioneer country into one of the most populous, highly organized and wealthiest nations in the world. It no longer offers great inducements to the poor man and his family in Europe who is forced by stress of circumstances at home to seek a new land.

This fact was fairly generally recognized some years before the Great War, and in the ten or fifteen years prior to the war the stream of European emigration was increasingly being diverted to the unsettled land areas of Canada. The population of Western Canada increased by leaps and bounds, millions of acres of homestead lands were taken up, great colonization companies actively assisted in directing tens of thousands of settlers to this country, villages grew into towns, and towns into cities almost overnight, production increased amazingly, thousands of miles of railway were built, and the whole industrial life of the Dominion largely developed and made prosperous.

The outbreak of the Great War put an abrupt and complete stop to all European emigration, while the exhaustion of free homestead lands and the final disposal of those large blocks of lands controlled by colonization companies operated to shut off immigration of agricultural settlers from the United States. Since 1914, therefore, Canadian immigration has been at low ebb, notwithstanding the great need of this Dominion in the matter of population to develop its great wealth of virgin natural resources.

Since the Armistice there has been a steadily growing opinion that Canada must wake up and endeavor to revive the stream of immigration which was bringing life and prosperity to this country before the war. At the same time it was realized that after-the-war problems calling for solution made it imperative that such immigrants as were admitted to Canada must be of a type which would help the Dominion and not add to the problems with which the country was confronted.

The situation now is that the population of Great Britain is growing more rapidly than can be provided with means of livelihood there. Emigration on a large scale must take place. On the other hand, the vacant spaces of the world where white people can live and prosper are largely to be found in the British Dominions of Canada, Australia, New Zealand and South Africa. It is agreed that it is the part of Empire statesmanship to scientifically direct the emigrating Englishman or Scotchman to these outlying parts of the Empire, thus keeping him under his own flag, and at the same time adding to the economic strength of the Motherland and the Dominions.

Therefore, the British Government has created what is known as the Overseas Settlement Board and placed at its disposal some hundreds of millions of dollars to assist settlement of people from the British Isles in the Overseas British Dominions. Each of the Dominions was invited to develop its own plan of immigration and land settlement and work in co-operation with the Overseas Settlement Board in London, to the end that the maximum number of sturdy British settlers may be settled in the Dominions under conditions guaranteeing reasonable prospects of making a success in life.

Some time ago Australia announced their scheme, and for some months past the stream of British emigration has been largely directed to our sister Dominion. In the meantime, and for some months past, the Dominion Government has been studying the whole problem of immigration in its relation to Canada's needs and its best interests. A special committee of the Federal cabinet has been in consultation with the several Provincial Governments, railways, and companies and individuals vitally interested in, and informed in regard to, the subject of immigration and land settlement.

The result of this intensive and expert study of the problem is found in the announcement made this month by Hon. Charles Stewart, Minister of Immigration and Colonization, of the immigration policy of the Government, and to which immediate effect is to be given.

Inasmuch as the carrying out of a successful immigration and land settlement policy is of the utmost importance to every Canadian, and practically so to every resident of Western Canada, and furthermore as the assistance of every individual citizn is of prime importance in order to achieve the best results, some attention to the plan evolved will be given in a subsequent article.

Mystery Is Solved

Chinese Laundry Ticket Is Nothing But a Number

The Chinese laundry ticket is a simple thing when one understands the system. According to the very polite boss of some sixteen younger and huskier Chinese, a business man who has practically retired from heavy labor and now gets a little exercise on lady's waists and dresses which he likes to iron, the Oriental ideograph which is torn in two is no description of the person who has left laundry or any other interesting thing. He says that in his establishment nothing but a number is written in Chinese.—New York Sun.

Keep Minard's Liniment in the house

In the Island of Jersey it is unlawful for a married woman to start a bank account without obtaining her husband's permission in writing.

Minard's Liniment Lumberman's Friend

Passenger Men to Gather in West

Important Meeting of Passenger Agents in Canadian Pacific Rockies

One of the most important of the many conventions being held in Canada this year will be that of the American Association of Travelling Passenger Agents which will take place in the Canadian Pacific Rockies this month. American interest in this country has been growing by leaps and bounds since the war and this is being shown by the steadily increasing number of Americans who are visiting this country. In the Canadian Pacific Rockies and in the unequalled summer resorts of Ontario, Quebec and the Maritime Provinces are found endless attractions for visitors from the United States, and some of the conventions that have come across the line have been of tremendous importance in that they have enabled thousands of America's business leaders to become acquainted with this country and have thus greatly encouraged the development of trade mutually profitable to Canada and their native land.

The holding of the annual convention of the passenger agents in Canada this year is a matter of first-rate importance to this country, and particularly so to those places which will be visited during the tour of the country, that takes place in connection with the convention. These agents are all the time in touch with travellers, and they are in a position to divert much traffic along lines that they believe to be desirable. Thus it is important that they should be well acquainted with Canada, its larger cities, its points of scenic interest and the opportunities which the country affords.

The Association is made up of passenger representatives of railway and steamship lines on the North American continent and has as honorary members many passenger traffic managers and general passenger agents.

At the convention held at Salt Lake City in September, 1921, an invitation was extended by the Canadian Pacific Railway for the Association to hold their 1922 convention along the lines of the Canadian Pacific. This invitation was enthusiastically and unanimously accepted and from the interest being shown by the members there is no doubt of a record breaking attendance this year.

Corns are painful growths. Holloway's Corn Remover will remove them.

Britain's Faith in Big Ships

Great Britain's faith in the capital ship is unshaken. In the House of Commons, Colonel Charles Amery, Financial Secretary to the Admiralty, declared that, so far as the British Admiralty was aware, there was not in the Royal Navy nor in the navy of any other country, an airplane capable of sinking one of England's dreadnoughts by either bomb or torpedo.

German Sea Trade

Statistics of Port of Hamburg Show Great Revival

The extent of the revival in German sea trade is reflected in the statistics of the Port of Hamburg. In May of 1913, a banner year, 1,143 vessels, totalling 1,243,000 net registered tons, arrived at Hamburg. The arrivals of May, 1922, were 1,242 vessels, totalling 1,193,000 net registered tons. In May, 1913, the departures from the port showed 1,469 vessels, totalling 1,325,000 net registered tons. In May, 1922, 1,963 vessels, totalling 1,254,000 tons, departed.

Rural Route No. 1, Mascouche, Que.
The Minard's Liniment People,
Sirs.—I feel that I should be doing a wrong if I neglected to write you. I have had four tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago, but they grew again till about three months ago I had one as large and shaped like a lady's thimble on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your liniment for another purpose and saw on the label good for tumors. Well I tried it and kept it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.
(Signed) FRED C. ROBINSON,
P.S.—I am a farmer and intend using Minard's Liniment on a mare for a strained tendon, and am hoping for some results.
FRED C. R.

It pays to patronize home industry. Buy from the merchants in your own town.

Cocaine Cultivated in Java

Cocaine first obtained recognition as a valuable medicinal drug about thirty-five years ago, and the commercial supply was derived from leaves of the wild coca plant native to Peru. Now, however, the shrub is cultivated on an extensive scale in Java, which will export this year about 4,500,000 pounds of the leaves.

CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild but thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Concerning them Mrs. Alcide Lepage, Ste. Beatrix, Que., writes:—"Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

No Traveller

First Yokel.—They say that professional chap what lives atop o' the hill has written a book about Mars.

Second ditto.—Mars? Wot's he, know about Mars? Why, to my knowledge he ain't been out of this town for five years.

Never Mind What Granny Did—Remember—You're *You!*

MANY people refuse to believe that tea or coffee can possibly harm them, because they have used these table beverages ever since they outgrew the health rules relating to children.

"Nonsense!" they say, "Why, Granny has been drinking tea or coffee all her life."

It's true that some folks drink tea and coffee without apparent harm. These are the exceptions. But to most people there comes a day of reckoning.

If you are free from headaches, nervousness and indigestion, if you never lie awake at night, if you *know* that your health is unimpaired—then, perhaps, *you* are an exception, too.

BUT—it's well to know that, when you *do* find something the matter with your nerves and digestion, there's a happy, healthful, table beverage made from roasted wheat. Its name is Instant Postum. It has a fragrant aroma and a rich, full-bodied flavor that charm and satisfy without risk to your health and comfort.

Sold by grocers everywhere

Instant Postum FOR HEALTH
"There's a Reason"

A generous sample tin of Instant Postum sent, postpaid, for 4c in stamps. Write: Canadian Postum Cereal Co., Ltd., 45 Front St. E., Toronto. Factory: Windsor, Ontario

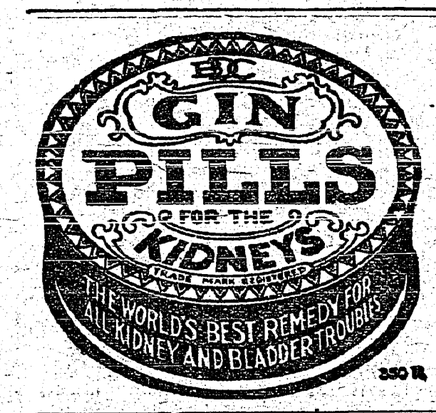
No Immediate Action Will Be Taken By Disarmament Committee

Geneva.—A race between France and Great Britain to prove which of their methods to obtain a reduction in armaments will yield the most results is in prospect in consequence of a decision of the disarmament committee of the assembly. The committee incorporated the suggestions of both M. de Jouvenel, of France, and Lord Robert Cecil, of England, into a resolution which will be transmitted to the assembly.

The Great Lakes treaty between the United States and Canada was again cited before the committee by H. A. L. Fisher, representing Great Britain, as an example of what a regional agreement ought to be. This document of a hundred years ago, he said, might well be taken as a model, as well as proof of what such an understanding may accomplish. Mr. Fisher's arguments and those of other supporters of regional agreements prevailed.

The resolution to be submitted to the assembly charged the temporary mixed committee on disarmament with the task of making a further study of the question, and requested it to prepare the text of a treaty for a regional agreement, as well as other agreements to be submitted to the various governments, which will be asked to give their views on them so that the next assembly may act.

The decision of the committee means that there will be no possible action by this assembly on the plans for the reduction of armaments, but that the work of investigation already begun will continue.



Sustained Right To Transfer Insurance

Beneficiary Can Be Changed If So Stipulated on Policy

Montreal.—The right of an insured person to transfer the benefit of a life insurance policy to some other person other than that originally designated, provided that stipulation has been made on the face of the policy reserving that right, was sustained in a judgment handed down at Three Rivers by Judge Dupliss. The Metropolitan Insurance Company was the defendant in the action which was for $2,000. The company had paid that sum to Mrs. Moise Charbonneau, who had been named beneficiary of her deceased husband after the original benefit was consigned to J. E. Munier, son-in-law. After the company paid the $2,000, Munier claimed a like amount in addition.

Dutch Farmers May Come to Canada

Government Scheme to Assist Experienced Men to Emigrate

Ottawa.—An influx of experienced agriculturists from Holland to Canada is likely, according to Baron J. C. C. Sandberg, who left Ottawa for Toronto after interviewing Hon. Charles Stewart, Minister of the Interior, and other members of the Government. Baron Sandberg was in Ottawa representing the Government of Holland, which purposes a scheme of assisted emigration of farmers and agricultural laborers and their families.

Embargo Delays Canadian Shipments

New York.—Freight shipments from Canada through the western states to the east are being delayed by reason of the embargo on freight, except for foodstuffs and other necessities, by the New York Central, Lackawanna, Lehigh Valley and Erie Railroads. The embargo was placed to facilitate the movement of coal to relieve the threatened shortage resulting from the coal strike.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

EVERY WOMAN IN POOR HEALTH

Has an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her one desire is for more strength and better health. What sickly worn out women need is a cleansing, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine clears out the wastes from the system, regulates the bowels, helps the blood. To look your best, to feel fit and fine all day, to be free from lassitude and headache, use Dr. Hamilton's Pills regularly, 25c at all dealers or The Catarrhozone Co., Montreal.

Trip Was Successful

Explorer Plans to Return to Arctic Next July

Wiscasset, Maine.—Donald B. MacMillan, explorer, plans to return to the Arctic in July next year, sailing from this port in the Bowdoin. He said that his recent trip had been successful, and that another would be undertaken.

The most important discovery made on his exploration trip to Baffin Land, he added, was that it is a narrow peninsula and not a great land as mapped.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Saskatchewan Sells Debentures

Dominion Securities Corporation of Toronto Were Buyers For Syndicate

Regina, Sask.—At a net cost of 5.19 per cent. to the province, the Dominion Securities Corporation, of Toronto, representing a syndicate comprising themselves and Dillon, Read and Company, of New York, purchased $2,638,000 Saskatchewan twenty-year five per cent. debentures, their price being 97.652. There were nine tenderers.

Bidders were asked to quote on four different bases for fifteen and twenty-year debentures bearing interest at 5 and 5½ per cent.

Soldier Author's Gift to Red Cross

Toronto.—The Canadian Red Cross Society has received the sum of $1,538.25 from Col. A. E. Scott, of Quebec City, to be expended on behalf of tubercular soldiers in such way as the Red Cross may deem advisable. The money represents the royalty proceeds of Colonel Scott's book, "The War As I Saw It."

Australia Maintains Universal Service

London.—Replying to a deputation representing Labor, Socialist and other organizations, the Australian Minister of Defense, said there was no hope of abolishing the compulsory provisions of the Defense Act, says a Reuter despatch from Melbourne.

Low Record For Ruble

Moscow.—Seven million Soviet rubles to the dollar is the new rate set by the government stock exchange commission, which has just begun operations. This is the lowest point the ruble has yet reached.

U.S. Shopmen Will Sign Separate Agreements With Individual Roads

Chicago.—The policy committee of the striking railway shops crafts have authorized B. M. Jewell, strike leader, to sign a separate peace agreement with individual roads.

This action, it was stated, would end the strike on from 30 to 32 of the 202 class one railways of the country which entered into direct negotiations with Mr. Jewell recently at Baltimore, and on any others who cared to accept the peace terms.

The terms of the agreement are those offered at New York with a slight change made necessary to mollify the opposition in the unions' ranks. With these terms as a basis, system federations on roads not now parties to the agreement are authorized to enter peace negotiations with proper railroad officials. Until these employees are returned to work, they will be assisted financially by those who are employed.

Present employees and the strikers will be retained by the railroads signing the Jewell-Willard agreement; the old employees to return to their former positions at the present rates of pay, not later than 30 days after the agreement is signed. All strikers, with the exception of those found guilty of acts of violence, are to be on the railroads' payroll at the end of the 30-day period. Men will be called back to work in the order of their standing.

Might Declare a Moratorium

Saskatchewan Premier Issues Warning to Conference of Creditor Classes

Regina.—A warning that the Government may have to face the question of exercising its power to declare a moratorium in Saskatchewan was uttered by Premier Chas. Dunning. The Government's decision, he said, would be guided by two factors: the continuance or otherwise of the policy of piling up expenses against debtors by the use of court procedure for the enforcement of collections, and the price of wheat.

Mr. Dunning's announcement was made towards the close of an all-day conference of creditor classes called by the Government to consider ways and means of preventing the necessity of farmers throwing their wheat on the market immediately after threshing, thus forcing the price down below the cost of production.

The conference did not crystallize its sentiments with respect to moratorium legislation by the passage of any resolution.

With the exception of the banks, practically all the large creditor groups were represented, including the loan companies, implement companies, lumber companies, retail merchants, wholesalers, the rural municipalities, in addition to the Saskatchewan Stockgrowers' Association, the Saskatchewan Co-operative Elevator Company, and the Board of Trade. Many of the members of the legislature were also present, as well as members of the Government.

Want Eastern Investors

B.C. Anxious to Prevent States Getting Influence Over Commercial Affairs

Revelstoke, B.C.—British Columbia's first welcome to the delegation from the British House of Commons and Montreal Board of Trade which is touring Canada, was presented by Horace Manning, of the Revelstoke Board of Trade here.

The delegation, consisting of 127 men, was entertained by officials of the city and district. One of the points urged by Mr. Manning in his address to the visitors was the desire of citizens of British Columbia that investors of Eastern Canada should do their part to prevent those of the United States getting an ascendancy in influence over commercial affairs in the province.

Would Regulate Export Of Canadian Cattle

Agricultural Council Anxious to Keep Quality Up to Standard

Winnipeg.—Restrictions as to the quality of cattle exported to Great Britain when the embargo is removed, and regulation to approximate the demand at the several seasons of the year, are being sought by the Canadian Council of Agriculture.

The council is appealing to the Dominion Government, through the ministers of agriculture and trade and commerce, in order that the British market may not be flooded with Canadian cattle at inopportune times, and that the quality may be kept up to the standard required by the British buyers.

Hit By Trolley Standard

Saskatoon.—While looking backward out of the door of the fast moving street car he was driving, Albert Clemens was struck on the head by a trolley standard. Following a skull operation his recovery is expected.

Every dollar spent in your home town is a boost for the community.

Irresistible Eyes

Two Men Killed In Dust Explosion

Plant of American Hominy Co., Indiana, Was Destroyed

Terre Haute, Ind.—Two men are known to be dead, and damage estimated at $3,000,000 done as the result of the fire caused by a dust explosion which destroyed the plant of the American Hominy Co. here. Fred Stevens and a man whose identity was not learned, are known to be dead, and it is feared other persons may have been trapped.

Sixty persons were working in the plant when an explosion, followed by the fire, occurred.

Reform Dutch Cabinet

The Hague.—The Dutch Cabinet which resigned July 22, has been reconstructed under the same premiership, that of C. J. M. Ruysde Beerenbrouck.

SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn in Bed. Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped."—Mrs. G. RICHARDSON, 4640 Orcas St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after "trying everything any one told me" had failed.

If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

FIGS FOR SALE—Eight weeks old, $6. Also older pigs at right prices. G. Davie, Canyon.

Mrs. Elmer Thompson of Wardner is a visitor here at present with her mother, Mrs. Repsomer.

Dr. Asseltine of Fernie arrived on Saturday for a short visit at the home of Mr. and Mrs. G. Davidson Mead.

FOR SALE—Hand power washing machine and wringer, good as new, $12. Mrs. G. Cartwright, Erickson.

Dr. Lillie, dentist will make a two weeks' stay on his next visit to Creston. He will be here from the 1st to 14th October.

Mrs. Bruce, formerly in the millinery business here, but now located at Trail, was a business visitor here the latter part of the week.

Announcement is made that the annual harvest thanksgiving services at Christ Church will be held on Sunday morning and evening, Oct. 8.

Mrs. Young and Mrs. Varley will be hostesses at a silver tea at Christ Church vicarage on Saturday afternoon from 2.30 to 5.30 o'clock in aid of the Ladies Guild.

Vic. Mawson got back on Saturday from Nelson where he spent a couple of days on business, as well as taking in the annual fruit fair. Billy Taylor accompanied him.

John Blinco was a visitor at Nelson the latter part of the week, where he attended the annual get-together of the Kootenay Beekeepers' Association, of which he is a director.

From present appearances the show in the ladies' classes at Creston's 1922 exhibition will be the heaviest on record, particularly in the matter of cooking and canned goods.

Rev. G. Knox was at Cranbrook on Sunday, where he took both services in the Methodist Church in that city. C. O. Quist occupied the pulpit of Creston Methodist Church on Sunday evening.

Something at least out of the ordinary in the way of luxuriant dahlia production is in evidence in the flower garden at the C. O. Rodgers residence, where one plant shows 89 perfectly formed blooms.

Miss Agnes Hobden, who has been an appendicitus patient at the Nelson hospital the past three weeks, returned on Sunday, her sister, Hazel, going to Nelson to accompany her on the trip to Creston.

Mr. Pierson, mechanic at the Bevan garage, who has been occupying the Crompton house during their absence, has moved into the Bob McLeod residence at the corner of Hillside Road and Victoria Avenue

FOR SALE—3240 Winchester repeating rifle, carbine, new, $30. 35 calibre Stevens repeater, used very little, $25. 32 Winchester Special repeater, slightly used, $25. 32 Marlin repeater, good condition, $20. Mawson Bros.

Cranbrook Courier: Previous to her departure Wednesday for her home in Creston, the staff of the provincial government office presented Mrs. A. E. Atkinson, nee Miss Grace Doris, with two beautiful pieces of cut glass.

Mrs. R. B. Staples, A. N. Winlaw, C. F. Hayes, S. A. Speers and Alex. Lidgate comprise the Valley's full quota of delegates to the big Provincial Liberal convention which opened at Nelson on Thursday morning and will conclude Friday night.

According to an order-in-council appearing in the last issue of the B.C. Gazette the trapping of muskrats is prohibited the coming winter and spring. This class of furbearing animal is quite scarce in this section according to Rod and Gun Club officials.

Official announcement is made that Thanksgiving Day this year will be observed on Monday, November 6th. The following Saturday will also be a partial holiday in town for the soldiers' memorial unveiling which is scheduled for Armistice Day, Nov. 11th.

The way entries are already coming in to Secretary Walmsley it looks assured that this year's fall fair will produce the best all round display in every department ever seen at an exhibition in Creston. Exhibitors are reminded that entries close on Saturday night.

Floyd Rodgers was a visitor at Cranbrook on Friday having accompanied the Canyon City Lumber Co. mill foreman, Mr. Neal, to the hospital in that city, where he successfully underwent an appendicitus operation the following morning, and is now recovering nicely.

Capt. Hale of the postoffice inspector's staff, Calgary, Alta., was an official visitor nere at the end of the week, and as result of his look over the Canyon City area it is now asserted that a postoffice will be opened there before the end of October, at a location near the schoolhouse.

Just at present there is a temporary lull in apple shipping as the McIntosh are just about all moved, but a start will not be made at the Wagners until the first of the week. At least fifty men, boys and girls are on the payroll at the packing houses at Creston, Erickson and Canyon.

Capt. and Mrs. J. A. P. Crompton returned on Friday from a six months holiday visit to the captain's old home in England as well as visits at various other points in the British isles. The captain states that conditions overseas while far from being normal, are really better than one would gather from reading the newspapers.

Still another week of Indian summer weather has prevailed and if the haymakers have taken full advantage of the ideal climatic conditions certainly the biggest hay cut ever should now be in stack. The big supply of feed will be most welcome as from present appearances timothy will be selling at not less than $35 a ton this winter.

The Valley's display for the Imperial Fruit Show in London, England, will leave here on Thursday next. The exhibit this year will be three times as extensive as a year ago, while the Union is sending along 220 boxes for a non-competitive display. The Creston Valley product will be the only B.C apples shown this year.

Wm. Ramsay, Nelson, public works department engineer, was here on Thursday and Friday, looking the district over before turning in his estimates of the money required for roads and bridges in the Valley next year. He had a good look over the West Creston section, in which it is hoped considerable work will be done in 1923.

Miss Mavis Kane, who had charge of Division III. of Creston school about three years ago, was married at her home in Kaslo on Wednesday to Norman A. R. Link, C.P.R. inspector of bridges, Mr. and Mrs. Link going through on Thursday on a trip east. The bride was very popular here both as a teacher as well as in the social circle, and a host of Creston friends extend heartiest congratulations and best wishes for the future.

A Shampoo that Removes Dandruff

Germicidal Soap not only cleanses the hair and scalp, but removes dandruff and destroys the tiny parasites that cause it.

Merely shampoo with Germicidal Soap. Rub the lather well into the scalp with the ends of the fingers. Continue the massage from two to ten minutes. Then rinse with warm water.

Germicidal Soap is the ideal shampoo. It leaves the hair soft, fluffy, clean and free from excess oil and dandruff. It keeps the scalp healthy. Price 25 cents. Get a cake today!
