THE CRESTON REVIEW

VOL. XV. CRESTON, B. C., FRIDAY, AUGUST 24, 1923 No. 30

Lister

Mr. and Mrs. A. P. Lye and family left on Monday for Cardston, Alberta, where they will visit for two weeks with relatives, and will attend the official opening of the new Mormon temple.

J. W. Robertson, provincial horticulturist, Victoria, and E. C. Hunt, Kootenay horticulturist, Nelson, along with C. B. Twigg of Creston, were official visitors to Lister on Friday. Mr. Robertson expressed himself as well pleased with the showing of the young orchards in the Lister section.

At a meeting of Lister School board on Monday it was stated that the department of education had granted an additional $50 to meet incidental expenses for the coming school year. This will enable the trustees to carry on quite efficiently. Miss Doris Yerbury was appointed janitor.

Miss Johnson, an Alberta visitor at Creston, took the morning service at Lister on Sunday, and was greeted with a room packed full of worshippers.

Mrs. A. W. Brain and family left on Saturday for Cranbrook, where they will reside in future.

The old settlement sawmill is now denuded of lumber, the last lot having been disposed of to three local purchasers.

Mrs. A. Halstead of Winnipeg, Man., arrived on Wednesday last, for an extended stay with her daughter, Mrs. E. L. Langston.

Alice Siding

R. Stewart was a business visitor at Kitchener a couple of days last week.

Mrs. Parkin, who has been visiting with friends at Michel, returned home the latter part of the week.

T. M. Anderson was here for a few days last week from Klockmann, looking after his ranch, returning again on Monday.

Olaf Payne left on Wednesday last for soutnern Alberta, where he will help with harvest operations.

Mrs. Corner, who has been a visitor at the Parkin ranch, has returned to her home in Michel.

Mr. and Mrs. R. M. Beazer are visitors at the old home at Cardston, Alberta, at present, and are remaining for the formal ceremonies in connection with the opening of the new Mormon temple.

Alice Siding now has the accommodation afforded by a blacksmith shop W. H. Watcher having re-opened at his old stand early this month, and appears to be getting considerable business.

This week saw the start at putting down the first coat of rock for the new road. Pending the completion of the roadbed through to almost Creston the rock is being placed at a point alongside the Rose ranch.

Canyon City

Norman Strong is home from Wasa, the sawmill there in which he was working having completed the season's cut.

Miss Johnson, a prairie visitor at Creston, took the Methodist service here on Sunday afternoon in most acceptable fashion. At Lister there was an exceptionally large turnout to hear her.

C. Blair is commencing the season's cut of hay at the Reclamation farm this week, and expects to be putting up as much feed as last year.

Ted Strong has gone to Kitchener, where he has taken a job with one of the lumber firms operating there.

Mr. and Mrs. Earl Browell and family of Yellow Grass, Sask., have been visiting here with his uncle, "Dad" Browell, for a short time, returning east on Wednesday last.

Harry Lee of Sunderland, England, arrived at Canyon at the end of the week on a visit to his cousin, Hilton Young. He is a seaman by trade and after a short stay here will go on to Vancouver in quest of work.

Canyon orchards supplied quite a number of boxes in the first car of 1923 apples which was shipped from Erickson about a week ago.

Mrs. Kolthammer got back early in the month from near Moosejaw, Sask., where she had spent several weeks on a visit to her parents.

Jim Turner is here from the Brittania Mines, near Vancouver, and will remain to help out with fall work on the ranch.

Mrs. and Miss Edna Hickey are home, after a month's visit with the former's parents at Claresholm, Alta.

The Ladies' Community Club will have the drawing for the quilt on Saturday night, September 1st, at a cafeteria tea and concert they are to have that night. There are a few tickets left yet but the lot will be disposed of before the drawing takes place.

Geo. Davie is reported to have purchased the ten acres alongside the Huygens & VanAckeran ranch from the Land Settlement Board. His new lot will give him a convenient supply of pasture.

Wynndel

Bob Foxall and Oscar Ofner have gone to Cranbrook, where they expect to work for some time.

J. P. Brooke has gone to Nelson, and expects to be away from Wynndel for the winter.

Mr. and Mrs. Davidge and party of friends were at Creston between trains on Sunday last for the christening of their infant son at Christ Church.

The M. Wigen box factory was in operation last week, getting out a supply of boxes to meet the orders already in hand.

Mrs. PittBrooke and Mrs. F. Williams have moved into the H. Bathie Jr., house, Mr. Brooke having sold his house on the Butterfield ranch to Douglas Butterfield.

The home of Mr. and Mrs. Matt. Hagen was the scene of a quiet house wedding on Wednesday afternoon, when their second daughter Marie, was united in marriage with Douglas Butterfield also of Wynndel. The ceremony was performed by Rev. J. S. Mahood, with the bride's sister, Miss Agnes, as bridesmaid, and August Benadetti supporting the groom, the bride being married in her travelling costume of blue. After the ceremony the young couple left on the westbound train for a short honeymoon trip to Nelson and lake points, and on their return will make their home here. Both Mr. and Mrs. Butterfield are popular members of the Valley's younger set and a host of friends extend hearty congratulations.

Tennis Tourney Under Way

The first round in the 1923 tennis tourney was played on the grass court at R. J. Long's on Saturday afternoon, when the B. class talent played down to the semi-finals. In two very closely contested matches G. M. Argue won from R. Meldrum, and H. Benadetti of Wynndel was the winner in his contest with W. R. Long. The next round will be played Saturday afternoon, August 25th, at the Charles Moore courts and all who are interested in tennis are cordially invited to come along and witness all the games.

The first of the mixed doubles was played at the Long court on Wednesday. C. S. Hester and Miss Long vs. Mr. Benadetti and Miss Florence Bathie. Both sides showed symptoms of nervousness at the start but soon settled down to some fine tennis. After a hard-fought game the result was a win for Miss Bathie and Mr. Benadettie, 6—1, 6—3.

In the Men's Singles, A Class, Corp. Smith beat Hester, 6—1 6—3. Owing to lateness the contest between C. Moore and Joe Wigen was undecided each player taking one set, 6—3, 5—7, and the third set will have to be played later.

NO PAPER NEXT WEEK

Following our usual custom of taking a week's holidays each year there will be no issue of The Review next week, August 31st.

Board of Trade Has Busy Session

The handling of a large and varied budget of correspondence occupied the major portion of the August session of Creston Board of Trade on Tuesday night, Aug. 14th, which was in charge of Vice President C. B. Garland—President C. G. Bennett being absent on his usual August vacation.

To the board's fire protection committee was entrusted a letter from Herchmer & Mitchell of Ferdie, advising the board that an injunction was being issued restraining the sale or loan of certain fire-fighting equipment at Hosmer to Creston or any other town, and that in any deal that might be made no harm could come of advising Creston of the legal status of the Hosmer fire brigade apparatus.

The letter from the Co-Operative Fruit Growers Association asking the board of trade to assist with an effort to induce some party or firm to locate a jam factory or canning plant somewhere in Creston Valley was favorably received. All were agreed of the necessity of such an industry, and the matter will be handled by a committee of C. F. Hayes, S. A. Speers and C. W. Allen. The committee are taking steps immediately to ascertain just what the Co-Operative Fruit Growers have in mind as a suitable plant, and just what financial assistance might be looked for in case it will be necessary to interest local capital in such an enterprise.

J. J. Underwood, managing director of the Leadville Mining Company, which is developing the old Scott Price group of silver-lead claims above Kitchener, wrote asking that the board back up the company's effort to get in the district mining engineer to examine the property as soon as an expected showing of high grade ore is struck. Before the end of the month Mr. Underwood believes he will have a showing that will warrant such a visit, which will be followed by a formal request from the company for the usual departmental assistance for the building of a wagon road to bring out the ore for shipment. Mr. Underwood will be advised that the board will lend every possible legitimate assistance in the matter.

Nelson board of trade was heard from pointing out the desirability of having a tourist camp site put in by the forestry department in the Kuskanook section. The whole matter was investigated last week by Norman Moore, district forester, and Nelson board will be advised that Mr. Moore has promised to favorably present the case to the department and as soon as Victoria authorizes construction he will start work on the camp ground.

Guy Constable, chairman of the Reclamation committee, reported at some length on the present position of the big drainage project, stating that it was his opinion that apparently, all the engineering data has been assembled, nothing further could oventuate until the province and the Dominion had come to some agreement as to just how far and in what direction each were directly interested in the project, and liable as to cost and consent to proceed with the work. With this determined as between Canada and British Columbia negotiations with the U.S. authorities could take definite shape. The matter was disposed of by a motion authorizing Mr. Constable to wire Premier Oliver, who is at Ottawa, to make arrangements for such a Canadian conference, and the following wire has been despatched:

Hon. John Oliver,
Ottawa.

Creston Board of Trade requests when in Ottawa you will endeavor arrange with Dominion water power branch, department public works, and navigation department, external affairs, for a conference with your government whereby the true interests of Canada in reclamation of Kootenay Flats may be determined. Understand no agreement for international co operation possible until Dominion and provincial interests in power development and navigation on Kootenay waterways and agricultural development of Kootenay Flats have been determined.

A hearty invitation was read from the Commercial Club at Bonners Ferry, for a delegation from the board as well as all others interested to attend the Reclamation picnic at Bonners Ferry on the 24th. The club are sending personal invitations to citizens of Creston Valley and a representative attendance from here is hoped for. A special committee of E. C. Gibbs, R. S. Bevan and Geo. Johnson are making arrangements for the Creston contingent that will attend.

A letter from W. T. H. Smith complaining that the road cutoff at Charles Huscroft's to give a better road for tourists entering B.C. desired by the board was not in the best interests of the community. Mr. Smith's letter has been forwarded Mr. Graham, the customs inspector at Calgary, Alta., and Mr. Smith suitably replied to.

Haymakers, Attention!

HAYING SEASON OPENS on WEDNESDAY, AUG. 29th.

HAYING PERMITS WILL BE ISSUED by the Secretary at CRESTON on dates AUG. 25, 28, 29. DUCK CREEK, Aug. 27th (afternoon).

J. A. TIDGATE, Secy.
C.V. Stockbreeders Assn.

Erickson

BIRTH—On August 17th, to Mr. and Mrs. Frank V. Staples, a daughter.

Mrs. Topliss of Winlaw arrived on Tuesday for a visit with friends here, and is the guest of Mrs. James Maxwell.

Melt Beam was a Kaslo visitor on Wednesday, where he was competing in a trap shooting tournament in that town.

Miss Edna Holmes, teacher of Division II. of the Erickson school, arrived home at the end of the week after spending about six weeks at the summer school at Victoria.

The school baseball team is keeping in shape to take a hand in the junior baseball tournament which will probably be a feature of the school sports in connection with this year's Creston fair.

Eric Wood, who is working in Cranbrook, was a week end guest at his home here.

A. Lindley of Lethbridge, Alberta, and formerly in the fruit business at Creston, spent a few days here this week interviewing growers regarding the selling of their crop this year.

The first round in the Valley tennis tournament was played off at the court of the R. J. Long ranch on Saturdry afternoon, a number from town motoring out to witness the games, which were quite closely contested.

E. W. Klingensmith, who has been working at Birchbank, got back a few days ago to look after fall operations on the ranch.

Word has just been received here of the death at her home at the coast of Miss Vaughan, who had charge of the school until Christmas time, from blood poisoning which followed a mosquito bite on the neck. She was popular alike with both pupils and parents and news of her passing is heard with great regret at Erickson.

MILCH COW FOR SALE

Good milch cow for sale, three part Jersey, and bred to Jersey bull, $70. T. W. Davies, Wynndel.

Kitchener

Mr. Johnson and two daughters of Vernon are here on a visit to Mrs. Fransen.

Mrs. E. W. Payne of Creston was a visitor here over the weekend with Mrs. McGonegal.

There have been quite a few men fighting fire around Kitchener for Paulson-Mason Company.

Fred Belanger and family have moved out to Kid Creek, where he has a large contract.

Mrs. R. J. Long and Master Bobby, of Erickson, and Mrs. Heise and family of Cranbrook, have been visiting with Mrs. Hunt.

G. A. Hunt was a business visitor at Creston on Tuesday.

J. D. Moore of Kaslo, general road foreman for this district, was here on an official visit at the first of the week. He is quite confident the new road will be ready for traffic by the end of September.

Charles Moore of Creston was here a few days last week, doing some survey work of new timber lands that have just been acquired by the Paulson-Mason Company.

Sirdar

Mr. and Mrs. J. S. Kirkham and three children, of Lethbridge, Alberta, arrived in Sirdar on Friday, for a visit with Mr. and Mrs. Loasby. The Kirkhams have been motoring over the Banff-Windermere highway. They left for Lethbridge on Tuesday.

With the number of cars travelling through Kootenay thesedays considerable surprise is expressed by motorists that there is not some accommodation in the nature of a tourist camp at Kuskanook. As quite a few cars arrive after the boat has gone that necessitates a 24-hour lay over at that point, and no camp or place to stay.

The switch crew started night duty on Thursday last, with one work train at work on the Landing fill.

Mr. and Mrs. Rumsey passed through on Sunday's train, en route to Cranbrook, after their camping trip of ten days at Cultus Creek.

Mrs. C. M. Goodman, Mrs. Manahan and Miss Goodman of Cranbrook, were weekend visitors here, returning on Tuesday.

Mrs. Morrison and two children, who have been holidaying here, left for their home in Cowley, Tuesday.

Mrs. Tanner and children, who have spent the past six weeks here, returned to their home in Calgary, Alberta, on Monday.

Mr. and Mrs. Simister of Creston were Monday and Tuesday visitors here with Mr. and Mrs. Whitesides.

Sid McCabe was a week-end visitor with his family here, returning to Crowsnest on Sunday.

Miss Dorothy Bradley, who has a visitor with Mrs. T. Rogers, returned to her home in Cranbrook on Thursday.

Mrs. C. M. Loasby and her visitors, Mr. and Mrs. J. S. Kirkham, of Lethbridge, spent Sunday in Nelson.

B. J. Whitesides has returned to Sirdar and is in charge of the engine on work train. Jack Morrow is in charge of the work train gang, while Conductor Briggs is in charge of the train crew.

In connection with the trans-provincial highway, Mr. Kirkham of Lethbridge, an Alberta-born Lethbridge resident, admits that this section of B.C. is a beauty spot and eye balm to the tourist, with the trip on the boat a delightful change and rest after wrestling a touring car over the route between Yahk and Creston. He claims Alberta is suffering somewhat from the criticism of the road through the Crows Nest Pass, but he believes they are considerably better than the present road from Creston to Yahk. Numbers of Albertans would travel through Creston to the lake, but have been warned of the almost impassable condition of the roads around Kitchener.

Straight Talk On Danger Of Colds

Let your cold gain headway, and you can't keep it from running into Catarrh.

Catarrh never stays in the same place—it travels down into the lungs—then it's Consumption.

Drive colds and Catarrh right out of your system while you have the chance.

Easily done by inhaling CATARRHOZONE, which instantly reaches the true source of the trouble and gets right where the living germ of Catarrh is working.

CATARRHOZONE is full of healing balsams and essences, and is able to patch up the sore spots and remove that tender, sensitive feeling from the nose and throat.

Hawking and spitting cease, because the discharge is stopped. The nostrils are cleared, headache is relieved, breath is purified. Every trace of Catarrh, bronchial and throat weakness is permanently removed.

Get CATARRHOZONE today; months' treatment $1.00; small size 50c. Sold by all druggists, or by mail from The Catarrhozone Co., Montreal.

Canadian Rights Arranged With Publishers, F. D. Goodchild Co., 266 King St. West, Toronto.

(Continued)

"So far as I have been informed, Wade is confined at Coyote Springs, somewhere in the mountains," he said bluntly. "That's all I know of the matter. I hope you will find him all right there. He ought to be very proud of you."

Dorothy caught her hands to her breast in a little gesture of exultation, and the expression on her face was a wonderful thing to see.

"You'll go?"

"In the morning," Senator Rexhill answered.

Eager as Dorothy was to reach the big pine with her message, she could not leave without giving Helen such a glance of triumph as made her wince.

Then, hurrying to her pony, she rode rapidly out of town into the black night which cloaked the trail leading to the pine. She knew that her mother would miss her and be anxious, but the minutes were too precious now to be wasted even on her mother. She did not know what peril Gordon might be in, and her first duty was to him. She was almost wild with anxiety lest the courier should not be at his post, but he was there when she dashed up to the pine.

"Take me to Mr. Trowbridge. Quick!" she panted.

"He's somewhere between Bald Knob and Hatchet Hill," the man explained, knocking the ashes from his pipe. "It's some dark, too, miss, for ridin' in this country. Can't you wait until morning?"

"I can't wait one second. I have found out where Mr. Wade is, and I mean to be with you all when you find him."

"You have, eh?" The man, who was one of Trowbridge's punchers, swung into his saddle. "That bein' so, we'd get there if this here night was liquid coal." z

BACK ACHED TERRIBLY

Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do." —Mrs. J. E. McMAHON, 143 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." C

CHAPTER XVIII.

A Rescue and a Vigilance Committee

At the end of an hour, or so, the lion withdrew and Wade thought he had seen the last of it. He began to pace up and down the fissure once more, for now that his thin shirt was damp with perspiration, set flowing by the nervous strain he had been under, he began to get chilly again. He had just begun to warm up, when he heard the animal returning. He crouched back against the cavern wall, but the lion had evidently lost the zest for such impossible prey. It walked about and sniffed at the edges of the fissure for some minutes; then it sneaked off into the timber with a catlike whimper.

The exhausted ranchman kept his feet as long as he could, but when the first rays of the morning sun cast purple shadows into the depths of the hole, he could no longer keep awake. With his hands, he drifted the loose sand about him, as travelers do when exposed to a snow-blizzard, and slept until Goat Neale aroused him, in broad daylight. The Texan performed this service by deftly dropping a small stone upon the sleeping man's face.

"I just stepped over to inquire what you-all'd like for breakfast this mornin'," he said with a grin. "Not that it matters much, 'cause the dumbwaiter down to where you be ain't waitin' to-day, but it's manner, kinder, to ask."

Wade looked up at him grimly, but said nothing. Just awake as he was, his healthy stomach clamored for food, but since none would be given him, he knew that he might as well try to be patient.

"Mebbe you'd like to step over to our hotel an' take your meals, eh?" The Texan went on, after a short pause. "I've got a pot of coffee bilin' an' a mess o' bacon fryin'. No?" He grinned sardonically. "How'd you like me to give you some o' this here carbareet stuff, while you're waitin'? I ain't no great shucks as a entertainer, but I'll do what I can. Mebbe, you'd like to know how I happened to catch you that clump on the head yesterday. Huh?

"I was up in the low branches of a thick pine where you was moseyin' along. You was that busy watchin' the ground, you never thought to raise them eyes o' yourn. I just reached down and lammed you good with a piece of stick, an' here you be, safe an' sound as a beetle in a log. Here you'll stay, too, likely, onless you get some sense, and I don't know when that there dumbwaiter'll get to runnin'. It's a shame, too, if you ask me, 'cause a man needs his three or four squares a day in this here climate."

"How much do you want to give me a hand out of here, Neale?" the cattleman demanded abruptly, tired of listening to the fellow's monotonous drawl; and after all the chance was worth taking.

The eyes of the Texan glittered.

"Got the money on you?"

"You'd get the money all right."

"Sure, son, I know that—if you had it! I'd just hold my gun on you, an' you'd toss the roll up here, without puttin' me to the trouble o' givin' you no hand." He chuckled in appreciation of his own humor. "But I know you ain't got it on you—we frisked you down yonder in the timber—an' I don't deal in no promises. This here is a cash game. If I thought tha . . ."

He whirled about suddenly, looking behind him and seemed to listen for an instant; then his hand dropped to the gun at his hip. He never drew the weapon, however, for with a horrible facial grimace, as his body contorted under the impact of a bullet, he threw his arms into the air and reeled over the edge of the hole. A second afterward the report of a rifle came to Wade's ears.

"Hello!" the rancher shouted, springing from under the Texan's falling body. The instant it struck the sand, Wade snatched Neale's revolver from its holster and waited for him to try to rise; but he did not move. A bloody froth stained the lips, while a heavier stain on his shirt, just under the heart, told where the bullet had struck. The man was dead.

"Hello! Hello!" Wade shouted repeatedly, and discharged the revolver into the sand. He realized that, although a friend must have fired the rifle, there was nothing to show where he was. "Hello!"

"Hello!" The hail was answered by the newcomer, who, thus guided, approached the spot until his voice was near at hand. "Hello!"

"Hello! Come on!" The prisoner threw his hat up out of the hole. "Here I am!"

The next moment Bill Santry, with tears streaming down his weather-beaten cheeks, was bending over the edge of the fissure with down-stretched hands. Beneath his self-control the old man was soft-hearted as a woman, and in his delight he now made no attempt to restrain himself.

"Thank Gawd for this minute!" he exclaimed. "Give me your hands, boy. I can just reach 'em if I stretch a little an' you jump." Wade did so and was drawn up out of the hole. "Thank Gawd! Thank Gawd!" the old fellow kept exclaiming, patting his employer on the back. "Didn't hurt you none, did they?"

Before Wade could answer, a patter of hoofs caused him to turn, as Dorothy slipped from Gypsy's bare back and ran toward him. She stumbled when she had almost reached him, and he caught her in his arms.

"Are you all right? Oh, your head! It's hurt—see, the blood?" She clung to him and searched his face with her eyes, while he tried to soothe her

"It's nothing, just a bad bruise, but how—?" He checked the question upon his lips. "We mustn't stay here. Moran may have . . ."

"There ain't nobody here. I wish to Gawd he was here. I'd . . ." Santry's face was twisted with rage. "'Cause," he added, "I knew it was him, so'd Lem Trowbridge. But we come right smack through their camp, and there was nobody there. This here skunk that I plugged, he must be the only one. I got him, I reckon."

"Yes," Wade answered simply, as he watched three men from the Trowbridge ranch ride up to them. "Where's Lem?"

Dorothy explained that she had set out to find him in company with the man she had met at the big pine; but on the way they had met Santry and the three cowboys. One of the men had then ridden on to Bald Knob after Trowbridge, while the rest had come straight to Coyote Springs. She tried to speak quietly, but she could not keep the song of happiness out of her voice, or the love out of her eyes.

"Then you did this, too?" Wade wrung her hands and looked at her proudly. "But how— I don't understand?"

"I'll tell you, when we're in the saddle," she said shyly. "There's so much to tell."

"Santry!" The ranch owner threw his arm fondly across the shoulders of his foreman. "You, too, and Lem. I've got all my friends to thank. Say, dig a grave for this fellow, Neale. There was a lion around here last night, and I'd hate to have him get Neale, bad as he was. Then—" His voice became crisp with determination. "Hunt up Trowbridge and ask him to pass the word for everybody to meet at the ranch, as soon as possible. There's going to be open war here in the valley from now on." He turned again to Dorothy. "Dorothy, I'm going to take you right on home with me."

"Oh, but . . ." The gleam in his eyes made her pause. She was too glad to have found him safe, besides, to wish to cross him in whatever might be his purpose.

"No buts about it. I'll send for your mother, too, of course. Town won't be any place for either of you until this business is settled. George!" he called to one of the three cowmen, who rode over to him. "I suppose it'll be all right for you to take orders from me?"

"I reckon so."

"I want you to ride into Crawling Water. Get a buckboard there and bring Mrs. Purnell out to my place. Tell her that her daughter is there, and she'll come. Come now, little girl." He caught Dorothy in his arms and lifted her on to Gypsy's back. "All right, boys, and much obliged." He waved the little cavalcade on its way, and swung into the saddle on the extra horse, which Santry had provided.

On the way down through the timber, Dorothy modestly told him of the part she had played, with the help of Lem Trowbridge. He listened with amazement to the story of her generalship, and was relieved to hear that the Rexhills were probably already out of Crawling Water, for that left him a free hand to act against Moran. This time the agent must suffer the penalty of his misdeeds, but greater even than his pleasure at that thought, was Wade's gratitude to Dorothy for all she had done for him. He was filled with a wonderful tenderness for her, which made him see in the play of her facial expression; the shy lowering of her lashes; the color which ebbed and flowed in her cheeks; the free use which she made of her red lips, a greater fascination than she had ever before exerted over him. There, in the fissure, he had expected never to be at her side again, and now that he was so, and knew what she had come to mean to him, the old friendship between them seemed no longer possible; certainly not from his side. He felt, in its place, all the confusion of a lover, anxious to speak and yet struck dumb with clumsiness and the fear, never absent no matter what the degree of encouragement, that his suit might not find favor with the lady when put into words.

"You're a wonderful girl," he burst out, at last, with a heartiness that, in bringing a flush to her cheeks, made the old phrase seem new to her ears.

"I'm not at all," she denied shyly. "I just had to do it, that was all. People always do what they have to do."

"They do not. Lots of them can't, but you—you're always capable; that's what makes you so wonderful, Dorothy!" He pulled his horse closer to hers, meaning to put his arm around her, but he dared not attempt it, when her dress brushed his sleeves.

"Yes?" She was trembling now far more than when she had faced the Rexhills. "What is it?"

His arm dropped to his side, and he suddenly became acutely conscious of his appearance, what with his blood-matted hair; his blood-stained and soiled face; his generally woe-begone and desperate state. At least, before he risked his future on such a question, he ought to make himself as presentable as he could.

(To be continued

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

The English language is spoken by more than 150,000,000 people.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Too many men are unable to recognize their obligations when they meet them.

The Yellow Peril

Claims Every Ninth Child Born In B.C. Now Is An Oriental

Quoting statistics to show that every ninth child born in British Columbia is an Oriental and declaring the Japanese did not hesitate to say they were destined to be a dominant race, Mrs. V. S. MacLachlan, British Columbia Secretary of Women's Institutes and national convener of the Child Welfare, appealed to members of women's institutes to use their influence for relief from Oriental occupation in an address before the tenth annual convention of the Quebec Women's Institutes in Montreal.

Homesteads In Northern Alberta

That Northern Alberta still has a lure for the homesteader is evidenced by the increased business which is being handled by the Edmonton Dominion Land Office. During May, 83 homesteads were filed upon, and in addition 13 soldiers' grants were also made. Patents applied for numbered fifty-one.

A MOTHER'S HEALTH NEEDS GREAT CARE

Care of Home and Children Often Causes a Breakdown

The woman at home, deep in household duties and the care of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. Mrs. W. T. Riley, R.R. No. 1, Apple Hill, Ont., has proved the great value of Dr. Williams' Pink Pills to mothers, and tells her story as follows:—"Two years ago, after the birth of my boy, I became very weak and run down. Gradually I lost weight and energy until I was unable to do my housework. I could not sleep, my nerves would twitch and jump so that I arose in the morning with heavy aching limbs and head. Indigestion helped to make the misery worse, and my heart would palpitate terribly. I doctored steadily for a year without getting better, but just dragged along feeling that I would never be well again. But one lucky day, on the advice of a friend, I began treatment with Dr. Williams' Pink Pills. I have taken only six boxes, but I wish you could see the difference. I am now able to do my work, go about and enjoy myself. I feel so entirely like a new woman that I advise every weak or ailing woman to try Dr. Williams' Pink Pills and I know they will get beneficial results."

If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Another way to get on your feet is to use them on the sidewalk, instead of on the clutch and brake pedals.—San Francisco Chronicle.

Water Power Development

Big Saving of Coal is Effected Through Water Power in Canada

The water power now developed in Canada represents an investment of over $620,000,000, according to a report of the Water Powers Branch of the Department of the Interior. In 1940, should the rate of growth in installation during the past fifteen years be continued, this investment will have grown to over $1,100,000,000. The present development represents an annual equivalent of 26,700,000 tons of coal, which valued at $10 per ton, represents $267,000,000. In the year 1940 these annual figures, with the foregoing assumption, will have become 50,000,000 tons in quantity and $500,000,000 in value.

Headaches Disappear— Stomach Gains Strength

Whole System Braces Up, Vigor Returns, Appetite Increases

DR. HAMILTON'S PILLS

No Regulating Medicine Brings Results So Quickly

Half sick men and women who scarcely know what ails them, will be given a new lease of life with Dr. Hamilton's Pills. Depressed spirits disappear, headaches are forgotten, appetite increases, blood is purified and enriched, pains at the base of the spine are stopped, the nerves are toned up, ambition to work is increased, and day by day the old-time health and vigor return. 25c at all dealers.

Household Hints

Valuable Recipes For the Busy Housewife

Times Raisin Pie

1 cup Sun-Maid seeded raisins.
3 tablespoons butter.
2 egg yolks.
¼ cup dried currants,
2 tablespoons lemon juice.
1 pint apricot juice.
Sugar to taste.

Stew the raisins and currants in the apricot juice. Add the butter, egg yolks, lemon juice and sugar to taste. Put in a shell that has been previously baked, cover with a meringue made with the whites of the eggs and four tablespoons of sugar.

Cream of Raisins

1 tablespoon gelatin, ¼ cup milk.
2 tablespoons cold water, ½ cup sugar.
½ cup chopped Sun-Maid seeded raisins.
¼ cup finely chopped nuts.
1 cup hot water, 2 stiffly beaten egg whites.
1 cup whipped cream.

Soften gelatin in cold water. Cook raisins and hot water slowly 10 minutes. Heat milk and add sugar and gelatin. Stir until dissolved and add raisin mixture. Chill. When mixture begins to thicken add nuts and egg whites and fold in cream. Mix thoroughly and pour into molds. Serve with yellow sauce.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Eclectric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

When Canada Had Slavery

Until 1793 Importation of Slaves Was Not Forbidden

The following advertisement appeared in a Montreal paper of June 3, 1778: "Ran away on the 14th inst., a slave belonging to the widow Duffy Desaulniers aged about 35 years, dressed in striped calico of the ordinary cut, of tolerable stoutness. Whoever will bring her back will receive a reward of $6 and will be repaid any costs. The importation of slaves into Canada was forbidden in 1793. In 1805 there were 142 slaves in the Montreal district. In 1811 the slave trade was forbidden under the Union Jack. In 1833 the last slavery was abolished when the British Government voted $150,000,000 to buy the slaves in the British West Indies after seven years further apprenticeship. Gladstone made his first speech in Parliament on this bill, defending the treatment of slaves on his father's West Indian plantation. He favored gradual emancipation.

CAKE OR LIQUID

Twin Evils

Disease and Poverty Appear to Go Hand in Hand

Disease and poverty are so closely related that the prevention of disease and sickness would mean the practical elimination of poverty, according to Bailey B. Burritt, General Director of the New York Association for Improving the Condition of the Poor.

"Most poverty," said Mr. Burritt, addressing a general session of the National Conference of Social Work, "now being dealt with by family welfare organizations is inextricably related to families in which illness is a permanent factor. A six months' report of the association indicates that in 3,785 families under care the visitors and nurses listed 5,613 separate health problems which they had to deal with, including tuberculosis in 539 families, cardiac problems in 163 families, mental or nervous disease or mental defectiveness in 299 families, rickets in 236 families, etc., in a decreasing miscellaneous group."

Disease and poverty are twin evils. Intelligent direction of effort will lessen, if not eradicate, them.—Buffalo Express.

CHOLERA INFANTUM A FATAL DISEASE OF CHILDREN

Cholera Infantum or summer complaint of children is one of the most dangerous bowel complaints during the summer months.

It begins with a profuse diarrhoea, the stomach becomes irritated, very often accompanied by vomiting and purging and the matter excreted from the stomach has a bilious appearance. The child rapidly loses flesh, is soon reduced to languor and prostration, and in a great many cases death ensues.

Mothers, if any of your children become sick with cholera infantum do not endanger their health, perhaps their life, by experimenting with some new and untried remedy; get one that has stood the test of time; one that will quickly offset the vomiting, purging and the diarrhoea. This you will find in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 78 years.

Mrs. W. A. Harrison, 10 Elevator Court, Halifax, N.S., writes:—"Dr. Fowler's Extract of Wild Strawberry saved the lives of three of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea with which they were troubled. I always keep a bottle of it in hand in case of emergency."

"Dr. Fowler's" is 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

B.C. Eggs For Glasgow

A carload of 500 cases of eggs have been shipped by the British Columbia Co-operative Poultrymen's Association to Glasgow. This marks the first attempt of the British Columbia shippers to enter the Scottish markets from which a permanent trade is hoped.

Cuticura Heals Rashes

Bathe with plenty of Cuticura Soap and hot water to cleanse and purify. Dry lightly and apply Cuticura Ointment to soothe and heal.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, 344 St. Paul St., W., Montreal. Cuticura Soap shaves without mug.

WORLD HAPPENINGS BRIEFLY TOLD

According to the News of the World, Lloyd George will probably visit America at the beginning of October.

The Inter-Parliamentary Association will hold its 21st annual session in Copenhagen early in August.

F. J. Dixon, leader of the Labor group in the Manitoba Legislature, and one of Winnipeg's ten members, has resigned his seat in the House.

The United States Government closed its books for the fiscal year 1923 with a surplus of approximately $310,000,000.

By the bloodless capture of Gen. Pepilaiey and his staff of 100 officers, the last resistance of the "Whites" to the Soviet regime has been overcome.

J. W. Broatch, of Moose Jaw, captured premier honors for Marquis wheat, hard spring wheat, white oats, fall rye and flax at the provincial fair at Brandon.

Great Britain offers an unrestricted market for Canadian cattle of the feeder type, in the opinion of Hon. Duncan Marshall, Commissioner of Agriculture, who has just returned from some four months study of the overseas situation.

Ladies Remove Their Corns In A Very Simple Way

No pain, no trouble, costs only a quarter. It is a very simple thing to paint on a small application of good old "Putnam's" night and morning. To remove corns, to get entirely free from them, use Putnam's Corn & Wart Extractor. It is guaranteed, 25c at all dealers. Refuse a substitute.

Where He Is Great

"Brown is a great thinker, isn't he?"

"Yes; he thinks he knows it all."

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

One Of Life's Mysteries

We wonder how many of those who put the Bible among their ten favorite boks ever open its covers?—Detroit Free Press.

Catarrhal Conditions

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood upon the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE gives the patient strength by improving the general health and assists Nature in doing its work.

All Druggists. Circulars free.
F. J. Cheney & Co., Toledo, Ohio.

The first English theatre was begun in 1576; previous to that plays had been given on temporary platforms erected on the courtyards of inns.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

The Hope of the World

Necessity For Friendly Relations Between U.S. and Britain

The world is better off because America and the British commonwealths are in good relations. It is far better off, because there is a United States of America, and because there are states such as England-Scotland-Wales, the Irish Free State, Canada, Australia, New Zealand, with which Americans can trade and visit in all amity. Those who would fawn on Britain are as contemptible as those who cringe for social favor or money or political aid. But those who would, needlessly and for petty ends, put our good relations in jeopardy, play with such fire as that which lights world wars and wrecks civilizations. For when America and the British commonwealths come to blows, the hope of western civilization and our modern white man institutions will flicker low in its socket.—New Orleans Times-Picayune.

Keep Minard's Liniment in the house

OFFICER COULD HARDLY STAND UP

Arthur Tache, 424 Rachel St., East, Montreal, a well-known policeman on a busy traffic thoroughfare, is another who upholds the merits of Tanlac with his personal endorsement.

"My experience with Tanlac has been of such great satisfaction," said Officer Tache, "that I am glad to give out the facts in my case for what they may be worth to others.

"I suffered from rheumatism in my legs during a period of six months, and was in such bad shape that I could hardly stand on my feet.

"A friend told me about Tanlac and besides I saw statements from so many people praising it that I determined to try the medicine myself. It's a fact, the treatment has rid me of rheumatism completely and has me feeling perfectly well in every way now. Yes, Tanlac has been so convincing in my case I am glad to give it my highest endorsement."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

Will Erect Oil Refinery

Faith in the ultimate discovery of a commercial oil flow in Southern Alberta is further indicated in the selection of a site at Lethbridge for an oil refinery which is to be established to handle Montana crude oil until there are Southern Alberta producing wells.

WHAT OTHER PAPERS SAY

This is Encouraging

Some encouragement can be taken from the opening prices asked by the Northwestern Fruit Exchange for Extra Fancy apples. An f.o.b. price of $2.75 per box for Delicious, $2.00 for Winesaps and $1.75 for Jonathans is an augury of better conditions.

It may well be that the opening prices will by no means be sustained throughout the apple shipping season, but at all events they provide reason for a little more optimism than has existed. Such prices as quoted above would mean net figures to the growers ranging from well over a dollar for Jonathans up to over two dollars for Delicious. But even if the growers get an average of 75c. per box for all varieties, they will do very well for this season.—Penticton Herald.

Parents are Careless

Apparently the average Nelson parent has great faith either in his neighbors or in the local police force. Or so one would judge from the number of children of tender age who are allowed to run at large these days. There must be some truth after all in the observation that children are sent to school to get rid of them.

Frequently of late, there has been complaint that children are about the streets and accidents are narrowly averted. It is not unusual to find small children at the park without parents or an older child, sufficiently responsible to look after them. It may be the modern parents' way of teaching them to take care of themselves, but it has become a terrible anxiety to bachelors, maiden ladies and childless couples, who often have occasion to father them or mother them or rescue them from being run down by motor cars. After all it is a privilege to have the care of the future citizens of the country, and the responsibility is being too lightly considered these days to provide the virile and healthy race this country needs.—Kootenay Times.

Civil Service Comparisons

Answering charges of extravagance on the part of the Oliver government made by Mr. W. J. Bowser, Hon. J. D. MacLean acting premier, has issued a statement. The minister maintains that instead of increasing administrative expenditures, the government has economized. His statement shows that for 1915 16 the Conservative government paid in salaries $1,555,000. Other salaries which should have been included in the civil service list, and are now so included amounted to $620,000 or $2,175,000 in all for the last full year of the Bowser-McBride administration.

Hon. Dr. MacLean states that the increased cost of living necessitated the payment of $870,000 more in salaries. New departments cost $156,000. Totalling these items, he claims the Conservatives would have spent $3,201,000, while the present government for 1920 21 paid out $2,800,000, a saving of $401,000.

Regarding travelling expenses, the acting premier states that in 1912-13 the McBride-Bowser government employees spent $563,000, while for the year 1922 23 the administration expended $428,000. The old government spent $47,000 per month and the present government $35,000. In addition the minister claims that travelling expenses are one-third higher today than in 1913 14.

Dr. MacLean also issued a statement showing the number of persons employed in various ways by the Conservative government during their last year of office and the present government during the year 1921. In each instance a reduction is shown, the following table giving first the employees of the old government and secondly the number of persons employed by the present administration: Legislative employees, 37 and 29; land registry, 149 and 115; court registry, 52 and 45; police and game, 253 and 183; printing office, 75 and 65; museum, 8 and 5; library 15 and 11; legislative buildings and grounds, 61 and 41.—Vancouver Daily Province.

There is a considerable controversy waging at Penticton because the co-operative concern bought its apple boxes out of town, at a saving of about one cent per box.

The Herald has it figured out that the tourists trade will be worth $50,000 to Penticton this year.

Almost $5,000,000 has been spent on the new concentrator at Kimberley, which is now ready for operation.

Grand Forks council has bought the old Granby smelter buildings and land near that town for $5000, and has just sold one of the steel structures for $1500, to be shipped to Burke, Idaho

At Penticton a Mr. Mutch is asking compensation from the town council because of damage done his orchard due to seepage from too much irrigation applied by a ranch owner higher up on the sidehill.

Growers, Advertise!

DO YOUR PART

You can rescue your industry from disaster and bring prosperity to every home in this District if you and the friends of the Fruit Grower will

Write Three Friends

living in Western or Eastern Canada or the United Kingdom and get them to buy a box of apples packed by the Associated Growers of British Columbia and in turn ask them to write to three of their friends, suggesting that they help with their purchasing power to bring prosperity to your District

A little individual but united earnest effort and the luxury of prosperity is ours. Let us all get busy—Copy the following letter—Spend nine cents and BOOST FOR BETTER TIMES—THEY ARE COMING.

Associated Growers of B.C., Limited

DEAR FRIEND:

If you would keep the Doctor away—Eat an apple a day and copy this letter, sending it to three of your friends whose largeness of heart will catch the spirit of the effort and act on the suggestion to buy a box of one or all of the following:

Transcendant Crabs ***Duchess Apples***

These will be available in the stores of Western Canada, August 15th to 31st.

McIntosh Apples

Available in the stores of Western Canada after September 20th and in Eastern Canada after October 1st., and in the United Kingdom after October 15th.

Available in the stores of Western Canada after October 1st.,

Jonathan Apples

Eastern Canada after October 10th., and in the United Kingdom after November 1st.

If you do this and do not break this chain of letters LUCK will surely follow you as it most certainly will the Fruit Growers of British Columbia. But may YOU be as unlucky as will be my friend who is growing fruit if you buy apples that are not packed and shipped by the Associated Growers of B.C. Ltd.

DO IT NOW—Place your order with your Grocer and send the counter slip to the Associated Growers, Vernon B.C., giving them the information as to grade and price you paid; this will at once stimulate courage and optimism in an industry where Growers have and are experiencing very difficult times.

Yours sincerely,

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 3 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the completion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Campsd at Boundary Lake

Boundary Lake, which is reached by a five-mile trail detour from the main road to Klockmann, Idaho, has no equal for camping purposes according to every one of the party who got back on Monday from a week's stay at the lake, and during their outing were shown all through the workings of the big Continental silver-lead mine where about 130 men are now employed. With the exception of the trail leading to the lake the party made the trip by motor truck. The lake, which is about three-quarters of a mile long by a quarter mile wide is just as nature created it, being densely wooded on three sides, a furnished cabin at the lake helping out the party, which was in charge of Mrs. H. West, who had in charge Misses Lucille McMillan, Ethel and Thelma West and Florence and Hazel Cannaday, and Messrs. Murrel Death, Ed. Gardner, Vic. Mawson and Sherman Cannaday.

NEWS OF KOOTENAYS

Trail school will have a manual training teacher this year at a salary of $1750.

June was not the month of brides at Nakusp. For that month the town had neither births, marriages nor deaths.

99 per cent. of the ranchers in the Penticton district are electric light users. This includes an area over 11 miles square.

Hungry dogs did away with 58 Rhode Island Red pullets belonging to police chief Clark at Vernon in the early hours of morning one day last week.

St. Joseph's Academy at Nelson has been enlarged and can now accommodate 150 pupils.

Rossland is coming back. A brand new restaurant opened for business in that town last week.

The Courier puts forward the name ex-conductor Joe Jackson of Cranbrook for the vacancy in the Dominion Railway Commission.

1080 catalogues was Vernon post-office's quota of the fall and winter catalogue just sent out by a well known mail order house.

There were nine entries in the baby show at Kaslo last week, four of the youngsters being adjudged 100 per cent. efficient, whilst four others tallied 95 per cent.

Both the Methodist and Anglican clergy at Nakusp have just been force to retire from that town. On account of poor health and the other transferred.

The pomoters of the tourist and children's park at Rossland are needing about $600 to clear the undertaking of debt. The original cost was about $1500.

At Midway and Rock Creek the citizens are now enjoying the luxury of a one-day-a-week barber shop service given them by a tonsorial artist from Greenwood.

In connection with the prospective provincial redistribution The Herald will not stand for the suggested shift of Penticton from Similameen to the South Okanagan riding.

Kaslo cherrie were so tremdous as to girth this year that the Kootenaian solemnly affirms that in some cases it took only ten of them laid alongside each other to cover a foot space.

Here and There

A discovery of excellent ochre (raw sienna) was recently made near Elliershouse Station on the Dominion Atlantic Railway. The color is uniform throughout, with very little gritty matter in the main body. The material can be burnt to produce a variety of colors from reddish brown to black. Prospecting is still going on.

Canadian Pacific S.S. "Metagama" westbound from Glasgow via Belfast, recently docked at Montreal and Quebec with the record number of 382 cabin and 1,078 third class passengers. This constituted a record only for ships of the size and type of the "Metagama," the Canadian Pacific Empress liners often having a far larger list.

Canadian Pacific Railway officials estimated that 61,000 men would be required to harvest the western crops this year. They expected to supply only 9,000 from the prairie provinces and British Columbia and made arrangements to carry over 50,000 from Ontario, Quebec and the east.

United States factories turn out chewing gum to the value of $41,000,000 annually. The extent to which this product is used in this country can be appreciated when it is known that at the Canadian Pacific Windsor station, Montreal, a man is continually employed in removing gum stains from the marble floor.

Despite the fact that the new Basilica at Ste. Anne de Beaupre is still in course of construction, many thousands more have visited the shrine this year than in former years, and at frequent intervals the Canadian Pacific Railway has been called upon to add special equipment to its regular trains to accommodate the pilgrims. The Redemptorist Fathers are investigating a large number of cures claimed to be miraculous.

E. L. Richardson, manager of the Calgary Stampede of 1923, held under the patronage of the Prince of Wales and Governor-General Byng, announces that, owing to the enormous success of the great rodeo July 9-14 it will be staged annually instead of at intervals of several years, as heretofore. The recent Stampede was attended by 137,800 people.

Only once in the history of Canada was the gold production record set in 1922 exceeded, and that was in 1900, when the Yukon placers reached the peak of their yield. During 1922, 1,268,864 ounces of gold were mined in the Dominion. The value is set at $26,116,050, an increase of 36% over the previous year's figures. In 1900, 1,350,087 ounces of gold were mined and the value was $27,908,158.

Canada's trade is climbing ahead. Total trade in the three months ending June was $462,544,438, an increase of $110,841,056 over the corresponding three months of last year. For June alone total trade was $179,720,516, an increase of $44,944,732 over last year. Domestic exports in the three months increased approximately $50,000,000 and imports approximately $61,000,000.

The Senate

Periodically the Senate of Canada places its veto on important legislation which has received the approval of the elected representatives of the people sitting in the House of Commons. The exercise of this power of veto only occurs when the political complexion of the majority in the Senate is different to that of the majority in the Commons—a significant fact which would seem to indicate that the majority of Senators are more inclined to play party politics than they are to adopt that high and impartial attitude which the Fathers of Confederation designed the Senate should assume as a proper and necessary safeguard to hasty, ill-considered and partizan action of the Commons.

As a rule, the exercise of the veto power by the Senate is followed by an outburst of indignation throughout the country, and a fillip is given to the never quite dead demand for reform of the constitution of the Senate, and by extremists for its abolition. People in the mass are, however, long suffering, and these waves of indignation usually die down with nothing in the direction of reform being attempted.

Is it too much to hope that the recent action of the Senate in rejecting the whole programme of the Canadian National Railways for branch lines construction will not be so easily and quickly forgotten, but that, on the contrary, a definite, energetic and persistent public demand for reform of the Senate will be inaugurated and carried to a successful conclusion?

The Senate of Canada as at present constituted is about the most useless governmental and legislative body in the world. It is a wholly irresponsible body, absolutely undemocratic, yet possessed of great power which it does not hesitate on occasion to wield in the most senseless and autocratic manner. Its reform is not a matter of partizan politics, but of national politics in the broadest meaning of that term.

When endeavoring to meet the many objections and solve the great difficulties which stood in the way of Confederation more than half a century ago, the Senate was devised in order to provide the smaller and less populous Provinces which some safeguard against unwise and unjust action by the Commons controlled by representatives elected on a basis of population by the larger Provinces. It was therefore provided that, regardless of population, Ontario should have 24 Senators, Quebec 24, and the Maritime Provinces 24, that these Senators must be possessed of certain property qualifications to assure that they be men of substance and standing in their respective Provinces, and that they be appointed for life in order to remove them from the influence of partizan considerations. And for more than fifty years the constitution of the Senate has remained unchanged except that, with the creation of new Provinces in the West, the territory from and including Manitoba to the Pacific coast was constituted a fourth Senatorial area, each of the four Western Provinces being accorded six Senators.

Despite changing conditions and the growth of democratic government the world over, and notwithstanding that the original reason for so constituting the Senate has passed, nothing has been done to bring the Senate into conformity with present-day sentiment and needs. The powers of the British House of Lords have been restricted in keeping with the march of progress, but not so the Senate of Canada. The Provinces of Canada do not need a Senate today to protect them; rather the Provinces now require the introduction of reforms to protect them from an irresponsible and autocratic Senate.

Apart altogether from the issues involved in the recent action of the Senate on the C.N.R. branch lines construction policy, and its treatment of legislation arising out of the report of the Ralston Commission which investigated the grievances of returned soldiers—important as they unquestionably are—there remains the great principle and the vital national interest to be settled as to whether a body over which the people have absolutely no control shall be continued to defy the expressed wishes and desires of the Canadian electorate.

The question might just as well be faced and settled now before any further damage to Canada's continued progress and welfare is done rather than to again defer it. While admittedly population of a Province should not be the determining factor in Senate representation, it is nevertheless inconceivable that practically one-half of the Dominion, extending from the Great Lakes to the Pacific is going to be content for all time to a representation only equal to that accorded the restricted area of the three small Maritime Provinces, and conferred upon each of the individual Provinces of Ontario and Quebec.

Without assuming to call in question the wisdom of the constitution as drafted in 1867, which probably was wise and necessary at that time, there can be no hesitation in declaring that in this day it is antiquated, obsolete and even dangerous. It should be amended without delay if Canada is to avoid the development of a situation wherein it may be found extremely difficult to find a satisfactory solution without endangering Confederation itself.

After observing the antics of some folks the theory that man descended from the monkey seems less ridiculous.

Sometimes a bachelor lives long enough to feel sorry for the man who won the girl with whom he was in love.

"I Had Terrible Backache From Kidney Disease"

Mrs. M. A. McNeill, Canaan Sta., N.B., writes:

"I was troubled for years with terrible backache, resulting from kidney disease. At times in each month I remained in bed, the pain was more than I could stand, and to walk was almost impossible. I used about $50.00 worth of other medicines, but with little results. Now I am completely better, after using only five boxes of Dr. Chase's Kidney-Liver Pills.

Giant Parachute Invented

New Safety Device Will Lessen Danger For Airplanes

Attention is being directed again to the carrying of parachutes in aeroplanes. It has been stated that if the occupants of the air express which crashed in France recently had had parachutes, the lives of some of them would have been saved, writes an air correspondent.

Types of parachutes are being tested by the Air Ministry, and every new war 'plane now being produced has provision for parachutes.

Parachutes tested have shown themselves more than 90 per cent. efficient, but the tests are directed to finding a "100 per cent. efficient" parachute.

A new safety idea is being investigated in regard to big commercial air expresses, etc.

Instead of issuing a parachute to each individual traveller it is suggested that in the event of a mishap the passenger saloon should be capable of immediate detachment from the structure of the aeroplane and left to the support of a specially designed parachute of exceptionally large size.

Mr. E. R. Calthrop, the inventor, has produced and submitted to the authorities a device by which, within less than four seconds from the moment when the pilot pulls a lever, the cabin containing its passengers is freed from the machine and is parachute-borne in safety to the earth.

Sour Stomach Risings Quickly Relieved

The wonderful comfort and relief you get from even twenty drops of Nerviline will surprise you. Take it in sweetened water; it's not unpleasant. Almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and at the same time relieves that distressed feeling in the stomach. When colic or cramps strike you at night, when nausea or upset stomach overcome you, then it is that you'll find Nerviline a sure relief. For general use in the family, for emergent ills, always keep Nerviline handy on the shelf. Get a 35c bottle today.

Don't Mention It

"I beg your pardon," said the convict as the governor passed his cell.

RED HOT JULY DAYS HARD ON THE BABY

July—the month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentry, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SUMMER EXCURSION FARES EAST

ROUND TRIP FARES TO POINTS IN EASTERN CANADA VIA C.P.R.

The Canadian Pacific Railway have now on sale, round trip summer excursion fares to points in Eastern Canada. These fares bear a limit until October 31, 1923, with stopover enroute, and are applicable all rail or via the Canadian Pacific Great Lakes steamers from Fort William, Port Arthur to Port McNicoll or Owen Sound on payment of additional charge to cover meals and berth while on the boat.

The trip East via the lakes is delightful to say the least, offering all the comforts of ocean travel with none of its discomforts, the fresh lake breezes will sharpen your appetite to that of your boyhood days, and permit full justice being done to the appetising meals.

To those preferring travel by train, the Canadian Pacific offer three trains daily, including the fast All Steeping Car Train the Trans-Canada Limited.

Ask the Canadian Pacific Agent for illustrated Great Lakes and Trans-Canada literature, and plan your trip now. 14-23

Columbia University President Gives An Interesting Interview On Anglo-U. S. Relations

Shortly after his arrival in England to deliver the Watson Chair lectures at British universities, Dr. Nicholas Murray Butler, President of Columbia University, gave The London Times the following interview:

In my judgment, it is far wiser and more helpful to take satisfactory and even intimate relations between the United States and Great Britain for granted than to be constantly debating them in public and acting as if something particular had to be done to improve them. As a matter of fact, there is always in the United States an element sharply critical to England. This goes back to the eighteenth century and in particular to the sharp differences that grew up in the United States over the French Revolution and the respective policies and influences of England and France at that time. Every one knows what instances there have been in the interval which have added some fuel to this flame; but if one will take pains to read the volume in which the late Professor William A Dunning traced the relations between England and America for the hundred years following the Treaty of Ghent, he will see how slight a part, after all, these influences making for friction and for antagonism have played.

Deep down in the American heart there is profound respect for the civilization and the ideal of English policy. When something cross or disagreable is said it is almost always due either to the temperament of some individual or to some passing event which has been given an emphasis out of all relation to its real importance.

The settlement of the Irish question removed the one real basis of anti-English agitation in the United States. Today almost every important American of Irish descent is open and emphatic in his expression of satisfaction with the erection of the Irish Free State. It will not be possible again to stir any anti-English feeling in America on the basis of the wrongs of Ireland.

A just cause of complaint on the part of England was the unfortunate character of some of the passages that used to be found in school textbooks on American history. Some authors had thought it necessary to illustrate their patriotism by casting upon England slurs that were both unfair and historically untrue. Matters of this sort are being steadily corrected, and the history of the United States is year by year being presented to the rising generation in a more scientific, a more broad-minded and a fairer spirit than ever before. After making all due allowance for the exuberance of patriotism, it is really not necessary for the school children of one country to be taught to dislike those of another simply because their respective Governments have had sharp differences in the past.

Every American who is familiar with the facts is intensely proud of the way in which England has faced her post-war social, economic and financial problems. We well know the tremendous sufferings and losses of England in the war and we find it little short of amazing that she is able to bear the heavy burden of taxation necessary to meet her obligations and to begin the reduction of her colossal public debt. This seems to us a triumph, not only of sound statesmanship, but of sound public opinion.

Some Comparisons

Senator Copeland, of New York, says that it takes 63 dozen eggs to pay a New York plasterer's wage for eight hours' work, that 17 bushels of corn are required for a bricklayer's day. The painter gets the equivalent of 25 chickens, the plumber gets the equivalent of 42 pounds of butter, or the output of 14 cows. After eight months of feeding a hog will pay a carpenter one day's wage. These comparisons show that something is wrong in the constitution of industry and agriculture.—Toronto Mail and Empire.

"This weather doesn't agree with me."

"That's not surprising; it doesn't even agree with the weather man."—Judge.

W. N. U. 1490

Important Experiments

Solar Cameras to Photograph the Sun's Eclipse

In the hope of determining whether there is motion within the corona during an eclipse of the sun, a party of American scientists, under the direction of Dr. John A. Miller, of Swarthmore College, is preparing to conduct a series of important experiments from the top of a high mountain in Central Mexico next September.

A year or more has been required to complete the arrangements, and th actual working time of the scientists will be only 189 seconds, the duration of the eclipse. If the day should be cloudy, all the labor and expense of preparation will have gone for naught.

The largest photographic instruments ever made for solar observation will be placed in position.

There are two cameras, in order that two pictures may be taken at the time for checking purposes. The apperture of each is 6.5 inches and the focal length is 15 feet. The impressions will be made on the finest plate glass, each plate being 18x18 inches, specially prepared for this work by experts. It is probable that not more than two photographs can be taken owing to the brief period when the face of the sun will be obscured. A dozen or more plates will be taken along, however, in order that every emergency may be met.

The Premier At Harvard

Hon. Mackenzie King Gets Honorary Degree From American University

The bestowal of the honorary degree of LL.D. upon the Right Hon. Mackenzie King by Harvard University is a signal tribute to the Prime Minister and an honor to Canada as well. Harvard, the oldest and, in many respects, the foremost of American universities, does not confer its degrees with such liberality as to cheapen their value, and in recognizing the attainments and position of the head of the Canadian Government, it has done so for solid and sufficient reasons. However Canadians may differ from Mr. King in politics and may be disposed to question his direction of public affairs, they acknowledge his earnestness and industry as a student of social and economic questions and the brilliance of his scholastic career. His university training was exceptionally broad and extensive, and he holds degrees from the Universities of Toronto, Chicago and Harvard, apart from that which is now added to an imposing list. Harvard, in honoring the Prime Minister of Canada, extends at the same time appropriate recognition to the work of one of its own collegiate sons, one who has played no inconsiderable part in national and international affairs, who holds the leadership of a great political party and has risen to the highest office in the gift of his country. The honor conferred is, in these circumstances, no empty one and is no less a deserved tribute than an expression of personal and international courtesy.—The Montreal Gazette.

Predict Lower Cost For Insulin

Says Drug Can Be Obtained From Vegetables

Some of the components of insulin, a recently-developed drug, which were obtained heretofore only from animal and fish pancreas, may be obtained from long grass ,onion tops and other vegetable matter, Dr. J. B. Collip, of the University of Alberta, Canada, one of the discoverers of the drug, told the convention of the American Medical Asosciation at San Francisco.

Other speakers expressed the opinion that this enlargement of the insulin field would mean its increased production, and at a lower cost to the practitioner and patient, for its use in combatting diabetes.

Earth Thrives On Light

It is said that if the earth's atmosphere should be suddenly increased in thickness to 700 miles, the sun could not penetrate it and the earth would soon be wrapped in ice.

H. Paul, Editor and Proprietor of The Journal, Carstairs, Alberta.

The Poor Of New York

Tenement Dwellers Reveal Hopelessness of City Life

I never ride out of New York in the direction of the 125th Street station that I do not suffer a bit of depression. From a train window one may see the hopelessness of city life. Harlem streets filled with spindly legged, anaemic children fairly gasping for a bit of the great outdoors. I saw a group of them chasing an ice wagon just for a sliver of cracked ice to parch their thirst. Tenement buildings are packed to suffocation and windows are filled with tired men and women who stand there—just looking and looking. Areaways are flapping with wet wash. Fire escapes are cluttered up with bedding, but always on the window sill is a tiny potted plant of some sort. That symbolizes the hope for freedom. —New York Correspondent.

Fisheries Treaty

British Government Deems Fisheries Pact Domestic Issue Only

British Government officials consider the fisheries treaty signed between the United States and Canada as an affair between these two governments and as not requiring ratification by the other British dominions, it was stated in authoritative quarters.

The signatures of Ernest Lapointe, Canadian Minister of Marine and Fisheries, and of Secretary of State Hughes for the United States, are regarded as giving the document entire legal sufficiency, inasmuch as the interests of the other dominions seemingly are not involved by the agreement.

This entire question, it was said, was settled last March when Mr. Lapointe advised Secretary Hughes that the British Government recognized Canada's right to absolute freedom in the diplomatic field.

Big Lumber Cut

A substantial increase, amounting to well over 63,000,000 feet, was produced in the lumber mills in the Ottawa Valley last year, when for the first time since 1918, the lumber production of the mills in the district exceeded 300,000,000 feet.

Ottawa is one of the principal lumbering centres in Canada. Large quantities of pulp and paper are also made in the mills on the banks of the Ottawa River.

Civic Motor Camp

With a greatly increased motor tourist traffic to Brandon this year, improvements are being made to the civic motor camp, electric lights being installed, firewood being made available and other additions being affected for the comfort of visitors. The increasing popularity of the district to motor travellers has resulted in a programme of $70,000 expenditure on local roads.

Export Surplus Butter

The Saskatchewan Co-operative Creameries, Limited, has just completed arrangements whereby all of its exportable butter output during the summer months will be shipped to Great Britain. This will involve shipping between two and three million pounds of butter.

Production from Irrigated Lands

According to statistics recently compiled it is estimated that $26 per acre will be the revenue from the farm lands in the Bow River irrigation tract produced in the present year.

Corn And Sunflowers Grown To Advantage As A Substitute For Bare Fallow

When considered from the standpoints of relative productive, cost and suitability for winter feed, the growing of corn and sunflowers can be undertaken to advantage over a much wider area than is the case at the present time. Such crops work in well, especially in systems of farming where provision must be made for cleaning the land. In the western provinces it has been found necessary to summerfallow. This practice aids in the destruction of weeds and tends to conserve soil moisture. As a substitute for part of the bare fallow such intertilled crops as these have distinct possibilities in many districts.

Experiments show that wheat requires nearly twice as much water to produce a pound of dry matter as corn; hence its value as a corp in districts of low rainfall as a substitute for summerfallow. Sunflowers draw somewhat more heavily on soil moisture than does corn. Each of these crops possess characteristics which establish the preference for either in a district. It has been found that sunflowers will withstand more frost than corn; thus they can be planted earlier and harvested later, in case the crop has not matured sufficiently to make a good quality of silage. Both crops have extensive root systems, they feed deeply and require a liberal supply of moisture to make maximum growth. Corn and sunflowers utilize moisture throughout the entire summer, the former crop being able to withstand periods of continued drought better than sunflowers. While the moisture supply is a decidedly important factor and contributes greatly to the satisfactory growth of these crops, the yield of corn and sunflowers are not in proportion to the rainfall. It must, therefore, be borne in mind that climatic conditions and cultural practices exert a controlling influence on crop yields.

When growing corn and sunflowers on the Illustration Stations in Alberta and Saskatchewan, which for the most part are in the southern part of the provinces, the land is fall-plowed, or spring-plowed and packed prior to planting. If manure is available, apply it at the rate of ten tons per acre in order to cover as much of the land as possible. As corn requires a warm, moist seed bed, sunflowers can be planted earlier as they do not suffer so severely from slight frost. On the stations last spring corn planting was general from May 26 to 31. Sunflowers may be planted two weeks earlier. When planting, the grain drill is used, blocking the necessary drills to render the rows the desired distance apart. While from thirty-six to forty-two inches is found a satisfactory distance between the rows, this distance should be regulated somewhat by the cultivator one has on hand. By removing some of the cultivator teeth and by having the rows adjusted properly it is often possible to do the work without additional outlay for machinery. The Giant Russian sunflowers and North Western Dent corn are the varieties planted on the stations. Difficulty is often experienced in keeping weeds out of the rows. If the land is harrowed crosswise with the drag harrows once before the crop comes up, and frequently afterwards, a great many weeds will be destroyed. This harrowing may be done until the crop is six inches high. After this it will be necessary to cultivate between the rows at such intervals as will keep down weed growth. If weeds are allowed to grow, the value of growing such crops, as a substitute for summerfallow, will not be realized. As corn makes a shallow, latteral root growth, at first, care must be taken not to cultivate too deeply close to the plants, as these feeders will be cut off and growth delayed. Corn should be put into the silo before the first frost and sunflowers when the seeds are in the milk stage.

Eleven of the Illustration Station operators filled trench silos this year and had excellent results from them. These silos varied in size between seven and eight feet deep, ten and fourteen feet wide and twenty and thirty-six feet long. The length varied with the quantity of crops available for silage purposes. These were opened out with a team and scraper at a cost of from twenty-five to thirty-two dollars each, depending on the size. On fifteen Dominion Illustration Stations in Alberta and Saskatchewan corn was produced for an average of $4.52 per ton, and on nine stations sunflowers were grown for $4.20 per ton, average. Results from the Brandon Experimental Station show that the yields of wheat on corn land have exceeded those on summerfallow by an average of 3.58 bushels per acre for six years. It would, therefore, seem that the growing of corn and sunflowers as a substitute for part of the bare fallow has distinct advantages and might be undertaken with profit by many grain farmers who keep a certain number of livestock.

When a spendthrift begins to worry about his debts his liver is out of order.

A pleasant, harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups, especially prepared for Infants from one month old to Children of all ages.

MOTHER! Fletcher's Castoria contains no narcotics. It has been in use for more than 30 years to safely relieve

SATURDAY and MONDAY SPECIAL

ThankYou

Our August Clearance Sale, which closed on Saturday night, has been the most successful merchandising event in the store's history.

To accomplish this in a year when financial conditions are anything but average is most gratifying to us and, we trust, has proven equally satisfactory to the large number of buyers, whose trade we were favored with.

We take this opportunity to thank you all, coupled with which is the assurance that trading here all year round will be found equally profitable, as the following week end specials eloquently testify:

Ginger Snaps . . 25c. lb.

Swift's Lard, 5-lb. pail $1.10

RICE . . . . . 10c. lb.

Rogers' Golden Syrup 5-lb. pail . . 65c

Pickling Spices . . 35c lb.

MAWSON BROTHERS

Better Service — Lower Prices

Local and Personal

FOR SALE—Cauliflower. Fred Lewis, Creston.

PIANO FOR SALE—Terms if desired. E. W. Ryckman, tinsmith, Creston.

FOR SALE—Light of Day steel range and child's cot. Mrs. C. Moore, Creston.

FOR RENT—4-room bungalow on Park Road. Apply Mrs. Arrowsmith, Creston.

Mrs. Bert Norris and two children are spending the week with friends in Spokane.

T. Mawson got back on Wednesday from a three nay business visit in Spokane.

Miss Rose Cherrington is a visitor with Cranbrook friends a few days this week.

Mrs. E. W. Payne was a weekend visitor with Mrs. McGonegal at Kitchener.

Mrs. Mead, who has been a visitor at Fernie for the past month, returned on Friday.

FOR SALE—Gentle Jersey cow and calf, fresh, $110. Apply to Mrs. O. Davidge, Wynndel.

HONEY AND BEES—New honey 25c. per pound; Bees $15 per hive. Apply T. Goodwin, Creston.

Mrs. R B. Staples and Master Allan are visiting with Mrs. Whimster in Nelson this week.

Mrs. Art Atkinson arrived home on Saturday after a month's visit with her parents in Cranbrook.

Ald. Jas. H. Cameron of Cranbrook was a weekend visitor with his paredts, Mr. and Mrs. A. L. Cameron.

A. McEachern of Fort William, Ontario, is a Creston visitor at present, the guest of Mr. and Mrs. S. A. Speers.

In the absence of Mr. McLaren the work of the provincial police office is being looked after by John Ryckman.

WANTED—Woman cook, plain. Apply Creston Hotel.

Olaf Payne left at the end of the week for Cardston, Alberta, where he will help with harvest operations this fall.

RUBBER STAMPS—Also supplies. New Grade stamp sets are now ready P. R. Truscott, agent for Dickinson stamps.

Members of the Rod and Gun Club are reminded of the August meeting in the Mallandaine block at 8 p.m., Monday.

FOR SALE—Holstein cow, due to freshen August 15th, quiet, in fine shape. Geo. Leach, Canyon, (Erickson P.O.)

WANTED—Spring chickens, roosters and ducks. Highest cash price paid. Dong Barney, at the Ding Laundry, Fourth Street.

LOST—At Kuskanook, on Sunday, August 12th, Eastman kodak. Reward to finder on leaving same at Review Office.

Mrs. Charles Faas and family are at present on a visit to Mr. Faas who has purchased a general store business at Morrin, Alberta.

C. B. Garland was a visitor with Boswell friends a few days this week. The fall fair at that point promises to be the best ever.

Misses Ethel and Thelma West and Florence and Hazel Cannaday are spending a few days with friends in Nelson this week.

FOR SALE—Two mares, about 2550, both five years old; one wagon and set of harness; the lot $220. John Davis, Camp Lister.

A. Lindley of Lethbridge, Alberta, formerly in the fruit shipping trade at Creston, was a business visitor in Creston during the week.

H Bell of the Star grocery, Nelson, spent a few days here on a fishing trip this week, and was the guest of Mr. and Mrs. E. W. Ryckman.

FOR SALE OR TO LEND—For winter, good horse, well broke, five years old, weighs 1000 lbs., can be had at once. H. W. McDonald, Creston.

Mrs. Norman Craigie has gone to Lumberton to join Norman, who is employed there, and where they will make their home for the present

POULTRY FOR SALE—Laying 1922 chickens, well bred; good laying strain, 35 of them, will sell the lot for $30. W. Ferguson, West Creston.

Miss Lucille McMillan of Beazer, Alberta, who has been a visitor with the Misses Cannady for the past month, left for her home on Tuesday.

The expected advance in the price of eggs took place at the end of the week, the real fresh product of the hen now retailing at 30 cents a dozen.

Copy for the fall fair prize list is now in the printer's hands, and the book of awards for the 1923 exhibition should be available at the first of the week.

Mrs. R. Emes and Miss Gladys Emes of Medicine Hat, Alberta, are visitors here this week with Mr. and Mrs. C. F. Hayes, en route home after holiday visits at Revelstoke and Nelson.

Provincial police H. McLaren got away on Sunday for his usual two weeks' vacation, which he will spend with Mrs. McLaren at Spokane, Salmo and Nelson, taking in the opening of the Ymir road on the 29th.

The increased passenger traffic eastbound is creating a demand for fruit that the station platform vendors are unable to adequately supply quite often, the preference for plums over apples being decidedly marked.

Miss Florence McDonald, who has spent the summer vacation with her parents, Mr. and Mrs. H. W. McDonald, left on Thursday last to take charge of her school near Irricana, Alberta, which opened on Monday.

W. J. E. Biker, provincial water rights branch engineer, Nelson, was here at the end of the week investigating complaints as to the excessive overflow at the C.P.R. tank, which he believes has been effectually remedied.

Col. Fred Lister, M.P.P., George Mawson and Melt Beam left on Tuesday for Kaslo, where they took quite a prominent part in the trap shooting events put on by the Kaslo Rod and Gun Club in that town on Wednesday.

There was a large turnout of growers at the meeting on Thursday night which was addressed by Mr. Howe, of Vernon, president of the Associated Growers of B.C., Limited, at which he very fully discussed matters in connection with the big new selling organization. A. M. Pratt, general manager of the Associated Growers, resigned last week, and is succeeded by the vice-president, B. G. Steuart of Kelowna.

Passenger traffic shows a decided increase this month and in order to accommodate the increased business in this line from the Arrow Lakes the C.P.R. is hauling an extra sleeper east every Tuesday, Thursday and Friday.

A representative specially trained in Dr. Scholl's method of foot comfort will be at S. A. Speers' store half day August 30th and half day August 31st. You are invited to have a free foot comfort demonstration during his visit.

M. J. Boyd got home on Thursday last from the Nelson hospital, where he has been a patient for over a month following an appendicitis operation. He is coming along nicely, but it will be a few weeks yet before he can resume work at his trade.

President Mallandaine and Directors Johnson and Allan of the fall fair were guests of honor at a local indian celebration on Monday afternoon near the Goat River bridge. The affair was part of a service the reds have each year to assure good weather for hay making and was attended by the fair officials in order to see the indians in costume, as it is more than likely indian games, etc., will be a feature of the second afternoon of the 1923 fair.

The quite long dry spell that has prevailed since last week in July was broken at the first of the week. Monday's rainfall being in the neighborhood of a quarter of an inch. A full inch of wetness would be most welcome this month to give size to the Wealthy and other varieties of apples.

H. White, customs collector at Cradbrook, was here on an official visit on Friday, and took back with him a Maxwell auto which had been taken by the R.C.M.P. from a Porthill resident who was apprehended entering Canada without reporting. The case was tried before J. C. Rykert a few days previous.

In the August bulletin the Dominion fruit commissioner reports "the apple crop in Creston district is reported as lighter than last year, but the average size should be larger as more moisture is available in the soil than has been the case for several seasons past. Considerable thinning has been done throughout the district."
