THE CRESTON REVIEW

VOL XXI. CRESTON, B. C., FRIDAY, FEBRUARY 7, 1930 No. 49

Trinity United Church Annual

1929 Witnesses Better Attendance Contributions Increase S.S. Average Attendance is 64 —Ladies' Aid Wire Church.

A debt-free church and a self-supporting congregation at 1938 is the objective of Trinity United Church, which had a splendid and an enthusiastic turnout at the annual congregational meeting on Jauuary 22nd, which was presided over by Rev. R. E. Cribb, with J. W. Craig taking down the minutes.

Financially 1929 was quite satisfactory. Contributions to the minister's salary had been the largest on record, and the same also holds true of the givings to the Maintenance and Missionary fund, while some reduction had been made on the church debt, which now stands at a little over $1200. There is a considerable demand for the church hall with rentals for the year running close to $100.

Church attendances were higher than during 1928, as were the attendances at the qnarterly communion services. The choir has increased and shows decided improvement, but in this connection regret is expressed that the choirmaster, T Goodwin, has been forced to give up that position due to throat trouble. A motion expressing regret at his being forced to retire was carried, coupled with which is the hope that the ailment will be only temporary. He is succeeded by Mrs Kernaghan.

The pastor reported that during the year he had solemnized four marriages conducted five baptisms and four funerals. He also voiced sincere appreciation of the extended holiday given him by the congregation last year.

The report of the Sunday school, in charge of W. J. Truscott, showed average attendance of 64 and a teaching staff of eight. Collections for the year were $107. 26 are enrolled in the bible class and the average attendance has been 13.

Mrs. Truscott submitted the report of the Ladies' Aid which had a cash intake of $641 last year, and of this cloce to $200 had been spent in wiring the church and basement for electric light. $150 had been donated to reduce the church dept. About $60 spent on improve to the manse.

The W.M.S. has met regularly, and contributed $65 to the hospital and deaconess work of the church. The society has ten members and one life member. In September a junior branch, known as the Olive Branch Mission Band had been organized with 26 members, and this work is in charge of Mrs. Frank Bunt. The Go Getter Club is another 1929 addition to the church young people's activities that had been helpful in solving the congregation's financial problems.

The board of stewards for 1930 was named as follows: Vic. Mawson, W. J. Truscott, Frank Bunt, Herb Gobbett, Harry Smith, R. C. Phillips and W. J. Craig. Miss Edna Holmes was named auditor of the church accounts. Before adjournment the usual vote of thanks was carried in appreciation of the splendid work of all the societies and all who had helped in any way to make 1929 the successful year it has proven.

Alice Siding

The first meadowlarks of the season were seen on the flats on Friday by Bob Parkin; who reports two or three of them at their hay corrall.

Mrs. McDougall, who has been on a visit with her parents, Mr. and Mrs. Kelly, has returned to Yahk.

Robert Willis had to be taken to Cranbrook by auto on Sunday, where he underwent an operation for appendicitis in the hospital in that town the same evening. Latest word is that he is making a satisfactory recovery.

Alice Siding has another wedding to its credit, this week's being Miss Vera May Rhodes, who was united in marriage with R. B. Henley of Erickson on Sunday evening by Rev. R. E. Cribb, at the manse, Creston.

At their annual dinner on Friday night Creston Board of Trade dined off an Alice Siding turkey from the J. C. Martin ranch. The bird was the biggest seen in that town the past season, weighing just a little over twenty pounds.

The Whist Club members were guests of Mrs. Pease at the weekly meeting on Friday night at which the prize scores were made by Miss Elsa Willis and Mr. Bourne. This week the club will be entertained by Mrs. J. H. Webster.

Sirdar

Mr. and Mrs. Gillie were renewing acquaintances in Creston on Tuesday.

Miss Lillian Wilson left on Saturday to spend a few days with friends in Nelson.

Charlie Wilson, who has been working with a C.P.R. survey outfit in northern Saskatchewan, returned home Saturday.

Ollie Harris of Kaslo, a former assistant road foreman at Creston, was renewing acquaintances here at the first of the week.

Miss Eileen Heap, who underwent an operation in Nelson hospital about three weeks ago, returned home on Sunday.

Mrs. Maxwell of Cranbrook was a weekend visitor with Sirdar friends.

J. Simpson of Lethbridge, Alberta, was a visitor here last week, a guest of Mr. and Mrs. Heap.

Wynndel

Birth—On January 28th, to Mr. and Mrs. George Huscroft, a daughter, Muriel Joyce.

Mrs. Crane and Misses J. and A. Crane were Nelson visitors a few days last week.

Mrs. Pedersen was a Spokane visitor last week, a guest of her daughter. Josephine.

Miss A. Hook of Spokane was here for a weekend visit with her grandparents, Mr. and Mrs. J. J. Grady.

A. Spencer of Canyon spent a few days here last week on work in connection with the Co-Operative Fruit Growers Association.

Father Choinel of Cranbrook was here last week, and during his stay had Roman Catholic Church service.

The February meeting of the Woman's Auxiliary on Wednesday, February 12th, at 2.30 p.m.

Erickson

Miss Clara Hunt of Kitchener was a weekend guest of Miss Marcella Sanford.

Miss Walker returned from Vancouver on Sunday and on Monday was back in charge of the junior room of the Erickson school.

Lloyd Cartwright of Goatfell was a weekend visitor at his home here. He reports plenty of snow at that point.

Latest reports from the Cranbrook hospital are to the effect that all three of the Erickson patients, Marion and Anita Heric and David Cowley, are coming along nicely.

Erickson's rink, under skip T. W. Bundy have considerable reason to be proud of their 1930 showing. To date they have won two of the cups offered in competition at Cres on curling rink.

A very enjoyable time was spent on Saturday afternoon when about 20 young friends gathered at the home of John Tompkins to help celebrate the eighth birthday of Stella Tompkins. A great variety of games were played and a splendid lunch finished off an afternoon that all very much appreciated.

Erickson branch of Christ Church Ladies' Guild are having a St. Valentine tea and sale of home cooking at Mrs. Putnam's on Wednesday afternoon, February 12th, from 3 to 5.30. There will be a musical programme. All are invited.

W. R. Long returned on Sunday from Vancouver, where he attended the convention of the B.C. Fruitgrowers Association. He states that the delegation from Creston and a number of the independent shippers put up a great fight to prevent the adoption of the resolution asking for a provincial pool.

Board of Trade Annual Meeting

Col. Mallandaine is Reelected President—Farmers Get Place on Executive—Discuss Many Activities for 1930 Action.

If any considerable portion of the plans aid at the annual meeting of Creston Board of Trade on Friday night are realized that organization is due to have about the best year in its history during 1930. Annual meeting proceedings were in charge of President Col. Mallandaine, and were preceded by a dinner at the King George Hotel.

The presidential address, which in addition to reviewing the year's activities in the district, also included the usual statement of the year's shipments of fruit, vegetables and forest products. In fruit the outgo proved larger than was anticipated due to the very dry season. For the first time on record Creston was last year shipping cherries in carload lots. There was a shrinkage in the shipments of strawberries as compared with 1928, and during the year four carloads of potatoes were imported. All points in the Valley still continue to import large quantities of hay, grain and millfeeds.

Amongst the year's development features the president referred to the start on the East Creston Irrigation District, the putting in of a domestic water system at Lister, the cropping of 800 acres of wheat on the old Reclamation Farm and the shipping of nine carloads of wheat. The president also referred to the establishment of an aviation school at Creston by the Consolidated Mining & Smelting Company of Canada, Limited, also submitting figures showing the amount of money spent on roads, bridges, forest fire fighting, as well as figures on the auto tourist traffic and customs intake at Rykerts. The following officers were unanimously chosen for 1930:

President—Col. Mallandaine.
Vice-President—R. J. Forbes.
Secretary— C. F. Hayes.
Executive—Frank Putnam, W. J. Truscott, Geo. H. Kelly, S. A. Speers, C. O. Rodgers, Geo. Johnson.

An informal discussion as to the year's activities followed the president's address, and amongst many original ideas submitted all present agreed that a get-together banquet should have careful consideration. Everything possible shoud be done to secure an airport. Publicity and highways will have the usual serious consideration, and insofar as possible the baseball club will get full support. The need of a hospital at Creston was concurred in by all present and it is expected a strong committee will be named to present a detailed report in this matter.

Messrs. Putnam and Truscott were in reminiscent mood an recalled about 1912 when it was considered too optimistic to predict Valley shipments of 20,000 boxes of apples, and yet the 1929 presidential address indicated that considerably more than 120,000 boxes had been shipped in a short crop year. Both were agreed that with the advent of plenty of water and new orchards coming in the Creston Valley was almost in sight of a $500,000 fruit crop.

The balance sheet shows the board to have a cash balance of $62 with all accounts paid. The usual votes of thanks were tendered the retiring officers. A special vote of thanks was tendered Mrs. Bell for the excellent dinner at such a modest price. The menu was indeed excellent and the service all that could be desired. Given a few more weeks to get squared away in her new location Mrs. Bell will be in capital shape to handle such occasions, and assured that she would be only too happy to help out in this line.

Valentine Tea

and

Sale of Cooking

Under the auspices of the Erickson Branch of Christ Church Ladies' Guild at

Mrs. F. Putnam's, Erickson

WED., FEB. 12

3 to 5.30 p.m.

TEA
Sale of Home Cooking.
Short Musical Program.

EVERYBODY WELCOME

Lister

Tom Yerbury returned to Kimberley last week, after a stay of about three months at his home here.

Harold Langston left this week for the Washout Creek section, where he will be employed on the government road work for some time to come.

Mr. Bollinger and son are motor visitors to Canal Flats this week.

Notices are up for Lutheran Church service at the sc oolhouse on Sunday afternoon at 3 o'clock.

Alf. Wellspring has just arrived home from Kellogg. Idaho, where he has been working for the past six months.

Alf. Letoille returned from Calgary, Alberta, at the end of the week, where he spent a few days on a business visit.

Rev. A. Garlick was here on Sunday morning from Creston for the usual monthly Church of England service, which was well attended.

Considering the very severe weather that prevailed, students at Lister school have remarkably fine attendance showig of 96 per cent., according to the report just given out by the principal, Miss Curtis. Those making highest standings were: Grade 6—Douglas McKee, Frank Yerbury. Grade 5—Clara Domke. Grade 4—Douglas Sinclair, Ruby Ross, Kirk Beard. Grade 3—Gladys McCulloch, Cyril Bird, Manning Powers, Raymond McKee. Grade 2—Margaret Dent, Alice Wellspring, Frank McCulloch. Grade 1a—Millie Beard, Margaret Sinclair, Eric Jacks. Grade 1b—Gilbert McCulloch, Raymond McCulloch. Perfect attendance—Cyril Bird, Kate Davie, George Davie, Margaret Dent, Manning Powers, Douglas Sinclair, Margaret Sinclair.

Canyon City

Miss Thelma Vance left few days ago for Lumberton where she has secured a position and will be remaining for some time.

Otto Johnson, L. Olson and Martin Nelson have returned from Kitchener having completed their pole making contract with C. R. Paulson.

Tom Hickey and Jock McRobb are working at Washout Creek on the road widening operations between that point and Kuskanook.

Rev. R. E. Cribb is due to address the Young People's Society on Wednesday evening next. His topic is "Evolution."

The better sleighing that obtained at the first of the w ek was taken full advantage of to get h me the fall cut of hay from the flats at Creston.

Mrs. Wearmouth is home again from a visit with her daughter Mrs. Walde, at Fernie.

At a meeting of the directors of the Farmers' Institute on Saturday, F. Knott was re-elected president; H. Young, vice-president, and O. M. Samuelson, secretary-treasurer.

The Ladies' Aid of the United Church have chosen a new set of officers for this year. Mrs. McRobb is president, Mrs. D. Rogers is vice-president, and Mrs. Niblow, secretary. Last year these offices were filled by Mrs. Halstead, Mrs. Searle and Miss E. Samuelson respectively.

Would Reclaim 25,000 Acres

Messrs. Amon and Constable at Victoria to Discuss Project of Reclaiming Balance of Flats Area Estimated at 23,000 Acres

[Victoria Colonist]

The Kootenay Flat, on the Kootenay River, near Creston, under the energetic policy followed by the company which has been reclaiming that area, has made a good showing. Already 6,800 acres of land have been brought under cultivation, divided into farms varying from about five hundred to about seven or eight hundred acres.

Mr. Howard Amon and Mr. Guy Constable, who are representing the syndicate, are in the city now for the purpose of consulting with the Government with respect to future operations in the matter.

The policy of this syndicate has been to make the reclamation with the option of purchase of the land following the completion of work. The reselling of the areas so reclaimed is carried out by the organization without any assistance from the Government.

The land is of rich bottom quality which only required the protection of it from the flooding of the river to convert it into the very best of agricultural land. There are 23,000 acres more requiring to be similarly treated, and with this the representatives of the syndicate are ready to proceed if the arrangements can be entered into with the local Government for acquiring the area.

These areas have been taken by large farmers who have had practical knowledge of the industry, and are bringing on the land large investment. They are for the most part from the other side of the line.

In spite of the fact that it was late last year before the reclamation was carried out, so that the cultivation of the lands could be proceeded with, the crop of wheat yielded from thirty-six bushels up. The syndicate of owners brought the first combine into the province, cutting the wheat and threshing it at one operation as it moved along. They brought in tractors in numbers and thus handled the breaking of the land and the other farming operations on a large scale.

It is pointed out by Mr. Amon and Mr. Constable that the farmers in the Kootenay Flat received from their wheat $1.40 a bushel, being graded No. 1 hard.

In addition to the growing of the grain the future of this valley in the matter of shipping is absolutely assured. The Midland Pacific Elevator Company has given an understanding that it will erect an elevator by the river for every 1,500 acres of land brought under cultivation for the growing of wheat. The river is navigable for car-carrying ferries, which would pass along, taking the grain from the elevators by the simple act of spouting it into the cars. In turn these cars would be transferred to the C.P.R. line at Kootenay Lake.

A New Hope For The World

The five-power naval conference is in session in London, England, as this article is written. It is a momentous gathering, fraught with great possibilities for the good of all mankind. Assembled around the conference table are leading statesmen of Great Britain, United States, France, Italy and Japan, the five greatest naval powers in the world. The British delegation also includes representatives of the self-governing Dominions and India.

The problem confronting these eminent statesmen is to find some basis of agreement whereby a stop can be put to further competitive building of ships for warlike purposes, and, if possible, to provide for a substantial reduction in the number of existing ships by scrapping some now in commission and providing that there shall not be replacement of others when they become old and obsolete.

So worded, the average man would be inclined to say that it should not be a very difficult matter to reach an agreement, but the problem is by no means so simple as it seems to the layman. One country places greater reliance on huge battleships than does another country, others desire many fast cruisers of moderate tonnage, others feel their necessities call for larger cruisers, some want a great number of submarines, while others are prepared to outlaw them altogether. Great Britain is ready to abolish both submarines and the huge battleships, and rely on cruisers of moderate tonnage. The United States is agreeable to the outlawing of the submarine, but still feels the necessity of the big ship. France is opposed to abolishing submarines. And so it goes.

And there is something to be said for each contention. Great Britain has colonies and coaling stations, oil and supply depots all over the world. The moderately sized cruiser will, therefore, fit into her requirements for defence of her great shipping and commerce. But other countries, lacking such re-fueling and supply depots, feel the need of larger ships, carrying greater quantities of fuel and supplies, so as not to be forced back to home ports too frequently. France is convinced that the submarine is her great arm of naval defence inasmuch as she cannot hope to compete with Britain and the United States in the building and maintenance of large battleships and cruisers.

However, the conference is a hopeful sign of the desire of the nations to lessen the burden of armaments and consequently to decrease the possibility of war. One thing is certain, and that is that the people in all countries are extremely anxious that their leaders should succeed in reaching some unanimous conclusions. They are the ones who have to bear the burden of taxation imposed for these huge armaments; it is their sons who are withdrawn from productive employment to man the navies, and undergo intensive training for possible future slaughter.

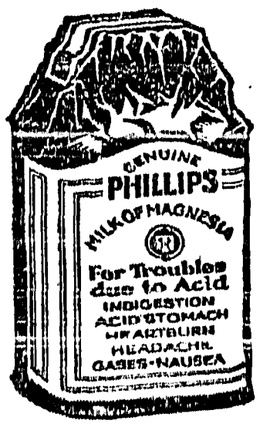
The most hopeful feature of the present conference is that it has been preceded by conferences between the nations at which efforts have been made to find common ground, to iron out old differences, to allay old suspicions. The conference may not achieve all that might be hoped for and desired, but if it marks a further advance on the work of the Washington Conference of some years ago, much will be gained, and the way be paved for further reductions and understandings in another few years. Thus step by step will progress be made.

An example of this willingness to consider and appreciate the other fellow's viewpoint and position, instead of ignoring or misrepresenting them, is found in a recent issue of the Philadelphia Evening Bulletin. It states some home truths for its United States readers. To quote in part:

"The salt water, I believe, is freest of all, in peace, within that jurisdiction—the British—where it was formerly (in centuries past) least free. Britain accords the peaceful world, so far as her writs run, complete maritime freedom and equality, even within her own ports and coastal waters. Her port charges are the same to others as to British. Foreign ships may take part in her coastwise trade.

"Her broad theory is that maritime commerce, under whatever flag it may move, holds out some hope of profit to the greatest contemporaneous seafaring peoples. No other nation is of like mind—not the Italian, not the French, not the Japanese, not the American. Our coastwise trade, for example, is reserved rigidly for vessels of American registry, and none other may ply between our home ports and those of our overseas territories."

Recognition of this broad liberty accorded to the shipping of all nations by Britain, as contrasted with the narrower policy adhered to by all other great naval powers, thus openly presented to the readers of a great United States paper, is an indication of that better and more cordial feeling towards Britain now so evident in the neighboring republic. It is because such better feelings do exist, and are growing stronger, that hopes for the success of the present naval conference are so high.



When Food Sours.

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Canada's Cabinet Ministers

Oldest Is Hon. W. R. Motherwell, and Youngest Hon. C. A. Dunning

Hon. W. R. Motherwell, Minister of Agriculture, who has just celebrated his seventieth birthday, is the oldest member of the Dominion Cabinet. The youngest is Hon. C. A. Dunning, who at 45 is Minister of Finance. The others are: Postmaster-general Veniot, 66; Minister of Interior, Stewart, 61; Minister of Health, King, 57; Minister of Public Works, Elliott, 57; Prime Minister King, 55; Minister of Labor, Heenan, 54; Minister of Customs, Euler, 54; Minister of Justice, Lapointe, 53; Minister of Railways, Crerar, 53; Minister of Marine, Cardin, 50; Minister of Trade and Commerce, Malcom, 49; Minister of National Defense, Ralston, 48; Secretary of State, Rinfret, 46; Solicitor-General, Canon, 42; Minister of Immigration, Forke, who has just resigned, was 69. Including the last named, this makes an average of about 55 for the seventeen, a figure which for that class of work affords the vigorous age classification.

University Of Alberta

Debaters Win a Three To One Verdict Over Manitoba In Inter-University Contest

Piling up a conclusive argument which completely controverted that of their opponents, University of Alberta debaters recently defeated the University of Manitoba by a three-to-one verdict of the judges for the McGoun Cup.

Alberta speakers upheld the affirmative of the subject, "Resolved that total disarmament is essential to world peace."

The debaters for Alberta were David Sigler and F. E. L. Priestley, and for Manitoba, Ronald M. MacDonnell and R. Gerald Riddell.

CAN YOU WITHSTAND RIGORS OF WINTER?

Or Are You Subject To the Many Ills Of This Trying Season?

The rigors of winter sap the vitality of even the strongest. Lack of exercise, overheated rooms and a restricted diet will gradually impoverish the blood and impair the health. That is why you are susceptible to colds—why you find such difficulty in throwing them off.

To be proof against cold, flu or other winter ailments the body must be nourished by rich, red, health-giving blood. A tonic medicine must be taken to build up this rich, red blood. Such a tonic is Dr. Williams' Pink Pills—thousands recommend them as a remarkable blood-builder and winter tonic.

Concerning them Mrs. Jackson Jenkins, Owen Sound, Ont., writes: "After a severe attack of flu I found myself very much run-down. I was advised to try Dr. Williams' Pink Pills and they fully restored my health and strength. I can heartily recommend these Pills to anyone whose blood is in an impoverished condition."

Start taking Dr. Williams' Pink Pills today and see how soon you feel the benefit. They are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Discover Cancer Serum

Two San Francisco Surgeons May Make Important Contribution To Medical Science

Discovery by two San Francisco surgeons of what they call a "cancer killing serum," was disclosed when it became known that medical agencies of the University of California have decided to co-operate in further experiments with the substance.

The originators, Dr. Walter Bernard Coffey, chief surgeon of the Southern Pacific Hospital, and Dr. John D. Humber, his colleague, specified that the serum was not to be regarded as a cancer cure, but asserted that it was able to kill cancerous tissues.

The serum is derived from the cuteclye of the adrenal glands of sheep.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

A British printer has discovered a method of producing luminous ink in various colours, for reading in the dark.

Grandmother Knew—She Used Minard's.

Don't be a martyr to unnecessary pain.

Lots of suffering is, indeed, quite needless.

Headaches, for example. They come without warning, but one can always be prepared. Aspirin tablets bring prompt relief. Keep a bottle of them at the office. Carry the small tin in your pocket. Then you won't have to hunt a drugstore, or wait till you get home.

And do not think that Aspirin is only good for headaches, sore throats, and colds! Read the proven directions for relieving neuralgic, neuritic, rheumatic, and other aches and pains. Remembering, of course, that the quick comfort from these tablets is not a cure; for any continued pain, see a doctor.

Purchase genuine Aspirin. Protect yourself by looking for that name. Always the same. Always safe. Never hurts the heart.

BAYER ASPIRIN

Good Speakers Nervous

Would Get Out Of Addressing Crowds If It Were Possible

Right Hon. Jan Christian Smuts, war hero and leading stateman, during a memorable address in Toronto, said: "I have never learned in a long political life to shake off a certain nervous trepidation when I have to face my fellow-men in mass formation. And I am not sure that the political mass formation is not more terrifying than the military formation." No doubt many other public men could tell of similar feelings. The Hon. William Paterson, one of the best known campaign speakers in Canada, told a friend with whom he was discussing his political career, that despite his lengthy experience in addressing public gatherings, if at any meeting just before he arose, somebody had opened a door behind him he would have bolted through the portal.

Canadian Steamships

New Canadian Government Ship-Building Deal Is Rumored

The London Sunday News states that a large shipbuilding contract for a new Canadian Government line of passenger and cargo steamers may shortly be placed in Liverpool.

The newspaper stated contracts had already been invited for construction of a fleet of ships to run between Montreal and Cape Town and India.

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

MAY EFFECT BIG REDUCTION IN NAVAL STRENGTH

London, Eng.—Rt. Hon. A. V. Alexander, first lord of the admiralty, told the House of Commons that Great Britain's cruiser strength in naval estimates for the next ten years would depend on the results of the Five Power Naval conferences.

Asked what increase or decrease for the next two five-year periods of the naval estimates would result from fixing the number of cruisers at fifty, he replied: "There are at present 54 British cruisers built, and four others in an advanced stage of construction.

"The effect on the British estimates of fixing the total at fifty cruisers depends on the size of the cruisers laid down and the type of the cruisers built to replace those that become obsolete.

"The decision on these questions depends on the conclusions of the naval conference."

According to figures that Mr. Alexander gave to another questioner, the saving in the British naval estimates for the next six years would aggregate more than £52,000,000, if replacements of battleships as provided in article 20 of the Washington Treaty were deferred until 1936.

Mr. Alexander also told a questioner that decision as to proceeding with the three submarines remaining on the British 1929 naval program would be taken after the London conference had been concluded. The program originally provided for six submarines but three of these were later cut out.

The recent cancellation of two British cruisers was of no material significance, Mr. Alexander told a questioner who asked the reason for the abandonment and the effect of the decision on the unemployment situation.

"The suspension of work on these ships," he said, "was decided uopn by the Government on July 1st, for reasons of high policy fully set out in a statement the prmie minister made in the House of Commons, Jan. 14. As very little work had been done on these ships on that date the recent decision to regard them as cancelled is of no material significance and was taken in connection with the framing of the navy estimates."

The first lord of the admiralty said it had not been necessary to reduce dockyard employment in consequence of stopping work on these and other ships.

Endurance Test a Success

British Dirigible In Air For Fifty-Three Hours

Cardington, Eng.—The dirigible R-100 returned to her home port after a successful endurance flight lasting 53 hours.

The giant airship during that time flew a zigzag course over the southern part of England; crossed the channel to the Scilly Islands, flew back over Plymouth, the Isle of Wight, Dover, the Southeastern coast ports and once again over London.

She started in misty weather and arrived home in a mist.

Suggests Help For Byrd

New York, N.Y.—Dr. Howard T. Barnes, of McGill University, has suggested that chemicals might be used to hasten the break-up of the South Polar ice pack if Admiral Byrd desired it. The work would be done, Prof. Barnes said, by forcing one vital break in the pack at the key point and the manoeuvring an actual shifting of the ice mass.

B.C. Honors Pioneer Women

Victoria.—The legislature of British Columbia, in its opening ceremonies paid tribute to the pioneer women of the province, who had helped lay the foundations of Canada on the Pacific. A dozen pioneer women occupied seats on the floor of the House, and received tributes on behalf of those they represented, the government and opposition.

The Belgian Congo has coal deposits of more than 1,000,000,000 tons.

W. N. U. 1823

Great Future For Canada

Sir Esmo Howard Refers To Dominion's Enviable Position

Ottawa.—A suggestion whereby Canadian trade may be enlarged with the West Indies, a tribute to Hon. Vincent Massey, Canadian minister at Washington, and an expression of confidence in the future of this country were the features of an address delivered before the Canadian Club here by Sir Esmo Howard, British ambassador to the United States.

With regard to the Canadian minister at Washington, the British ambassador said that from the day Mr. Massey was appointed to this there had never been a shadow of any sort between them.

"We have discussed matters of common interest and matters of all kinds so freely that we have become friends and almost as brothers. But I should like to say this, that the establishment of the Canadian legation at Washington, so far from creating difficulties for the conduct of the affairs of our British Commonwealth, as some persons supposed, has on the contrary been a real help and assistance in the conduct of those affairs in the United States."

Expanding his theme on Anglo-American relations, Sir Esme pointed to Canada's enviable position in having on its frontiers no hostile neighbor.

"Some think that the north geographical situation of Canada is a drawback," he said. "But I don't feel so sure about that because it ensures you for ever from the danger of the problem of mixed races, which is a most serious one in southern countries; and it ensures you also from the relaxation of mind and muscle which often is the result of too constant contact with the sun god. You are endowed with thousands and thousands of square miles of fertile plains, with millions of horsepower of electricity waiting to be harnessed, with lumber and wood pulp almost incalculable, and lastly with a wealth of mineral deposits which have yet only just been scratched. You have all this and you have also the unspeakable blessing of political security without fear from attack from without.

"Who are your neighobrs? On one side the North Pole, whose bears are not likely to prove a danger to th's estate; and on the other side a great and friendly country, wtih whom you have had for over a century an arrangement by which armaments were laid aside and the frontier line was left almost as free from defences as those between one state and another of the United States."

Manitoba Beekeepers Meet In Winnipeg

Delegates Discuss Betterment Of Conditions Which Are Already Excellent

Winnipeg.—Manitoba bee keepers in the 23rd annual convention at the Royal Alexandra Hotel, discussed ways and means of bettering the already excellent conditions under which this province holds a three-year record in the Dominion for first grade granulated and extracted honey. The report of the secretary, L. T. Floyd, gives Manitoba's entire crop estimate at 6,899,339 pounds of honey, with an average of 144 pounds per colony. There are 2,856 apiaries and the spring and fall count of colonies rates at 47,595 and 42,726 respectively. W. D. Wright, of Souris, Manitoba, representing the district west and south of Brandon, from whence the finest grades come, was congratulated upon winning Dominion sweepstakes this year with practically all the prizes in the classes mentioned during the last three years.

Roy Mullen, of Myrtle, was another outstanding bookeeper, having obtained 26,000 pounds from 100 colonies of bees.

Pictures Are Proof

Toronto.—Helge Borup, a young Dane, who in three years became a successful farmer in Northern Ontario, has left to spend a holiday in the land of his birth, and in his baggage will be 5,000 feet of film which he will show in many parts of Denmark as pictorial proof that splendid opportunities exist for those who are not afraid to play the part of pioneer.

WILL LEAD PROGRESSIVE GROUP

H. C. Nixon, who has been selected to lead the Progressive group in the Ontario House during the coming session.

Authorities Firm On Mennonite Question

Canada Will Not Permit Entry During Winter Months

Ottawa, Ont.—The attitude of the Canadian authorities wtih regard to the admission into Canada of the 6,000 distressed Mennonites in Germany is unaltered, and no permission will be given to bring them to this country during the winter months. This was stated by officers of the immigration department here. In the spring the department will give consideration to the case of these Mennonites, but no special privileges will be extended to them. Any action taken will be in conformity with the immigration laws and will be governed by the agricultural requirements of Canada then.

World Grain Show

Manitoba Agricultural Societies Urged To Take An Interest In Big Event

Winnipeg, Man.—An appeal to all societies to arrange at once for representation at the World Grain Show, at Regina, in 1932, was made by J. H. Evans, deputy minister of agriculture for Manitoba, in an address before the agricultural societies convention recently.

Every society in Manitoba should be represented at the show, said Mr. Evans. He rejoiced at the interest manifested by junior seed growers in the production of better seed.

Motorist Was Rewarded

Ottawa, Ont. — Wilfrid Lebelle, young Ottawa motorist, brought a party of skiers home from the Gatineau Hills when their car broke down on Sunday. He was surprised when members of the party asked to be dropped off at Government House. He went home and forgot about it until he received a letter of thanks from Her Excellency Viscountess Willingdon, accompanied by a handsome bouquet.

Canadian Scouts Contingent

Governor-General Willingdon Thanks All those Who Helped To Make Jamboree a Success

Ottawa, Ont.—Success of the Canadian Scouts' contingent who took part in last year's jamboree, in England, was due in large measure to the generous aid of Canadians, said the chief scout for Canada, His Excellency the Governor-General.

"To the generous subscribers in all parts of Canada to the special fund I personally raised for this purpose," said Viscount Willingdon, "I wish to express very grateful thanks, and also to the various individuals who subscribed sums for individual boys, which largely increased the numbers of our contingent. I wish to thank, too, all members of the executive of the association here at headquarters, for their loyal, devoted work, very particularly the members of the jamboree committee, who, under the chairmanship of Colonel Snow, made all the arrangements for this undertaking.

Copy Was Clever Forgery

Expert Investigated So-Called Draft Of U.S. Declaration Of Independence

Toronto.—Faint pencil marks discovered by a hand-writing expert left no doubt that the so-called draft copy of the United States Declaration of Independence, now in Toronto, was a hoax, says the Mail and Empire in a news story.

"One of the cleverest forgeries ever committed," said the expert when he had completed his investigation. A powerful magnifying glass brought into evidence lead pencil markings about the strokes of the writing, says the paper. These markings indicated, the expert said, that the signature had been carefully drawn then inked in.

Farm Home Destroyed

Father and Daughter Die From Burns Received In Fire

Kerrobert, Sask.—Burned terribly from neck to knees on both the front and the back of his body, through his heroic efforts to save his children, Lester Matters, Tramping Lake farmer, died in the Kerrobert hospital. He had been there for 24 hours, in intense pain.

His injuries were received when fire practically destroyed his house following an early morning kerosene explosion, nine miles west of Tramping Lake. He and three children sustained burns in the explosion, one little girl, Nellie, aged 14 years, having succumbed to her injuries shortly after admittance to the hospital.

Prince Studying South Africa

Cape Town, South Africa.—Notwithstanding the fact that during his stay in Cape Town, the Prince of Wales is spending the nearest thing to complete holiday that he has enjoyed in years, he is devoting considerable time to increasing his knowledge of South Africa, her main interest and problems.

"JAMAICA SUGAR"

They say that little girls are made of sugar and spice and all that's nice. This can truly be said of this little piccaninny because she belongs to the West Indies, where spice and sugar grow. Perhaps she is a little shy because the lady who took such a fancy to her was a very distinguished visitor to her home island. Both, Her Excellency Lady Willingdon, and the Viscount Willingdon, Governor-General of Canada, were highly delighted with their cruise through the Spanish Main. This photograph was taken on board the Canadian National Steamship "Lady Somers."—Canadian National Railways Photograph.

UNEMPLOYMENT ASSOCIATED WITH POOL POLICY

Winnipeg, Man. — The Canadian wheat pool's policy of holding wheat for higher prices has helped to create the serious unemployment situation as it exists in Canada, Mayor Ralph H. Webb, of Winnipeg, stated recently. His comment made at the western conference on unemployment from the presiding chair, drew pronounced opposition from several delegates.

"I have not attacked the wheat pool in any shape or form," contended Mr. Webb in answer to criticism of his stand. "I am commenting only on the pool's present policy which the pool has a perfect right to practice. I hope it proves to be right.

"Hundreds of thousands of men have been laid off by the railways as a result of the pool's holding policy," estimated the Winnipeg mayor in his first resume of the unemployment situation. He mentioned that the facts that the 1928 crop was not yet paid for, and payments on the 1929 crop were yet to come, as additional items tending to cause unemployment.

Canada should turn an eye to the United States, where "holding policies" have been directed in vain against Great Britain, Mr. Webb believed. He mentioned futile efforts of the United States to hold up Britain on beef, oil, cotton, rubber and tobacco, and resultant British moves to develop other resources.

Australia and the Argentine have quadrupled their wheat yields within nine and seven years respectively, the mayor held; Manchuria was producing 24,000,000 bushels where no wheat was grown six years ago; India had doubled her wheat yield in six years. Italy and France, the former never a wheat-producing country, "were now meeting almost all domestic requirements, he said, "and Germany—ever an importer, was now exporting wheat to Britain."

Subsidized grain-growing, with 4,000,000 or 5,000,000 acres, put into new production in Britain, would be the result of bucking the British, Mr. Webb forecast.

"We may find that the government has had a lot to do with the present policy," stated Mr. Webb, referring to the wheat pool's stand, "and that may not bear very close investigation."

Mayor John W. Hair, of Saskatoon, immediately disassociated himself from the "attack on the wheat pool made by Mayor Webb." He mentioned that Saskatoon is proud of being the centre of Cnaada's greatest pool province and mentioned that he considered the wheat pool had done far more to create employment than to cause unemployment.

Strong protest against Mayor Webb's statements came from Ben Lewis, of Stonewall, Man., a director of the United Farmers of Manitoba. "These co-operative organizations came into existence through necessity," stated Mr. Lewis. "The farmers refused to produce grain at a loss, and insisted on a living wage. It is because agriculture is in such a low state that the whole country is suffering. Politicians come out into the west, talking of prosperity, while the very causes of the prosperity — the farmers — are almost poverty stricken.

Almost unanimously, at the opening of a western "jobless parley" called in Winnipeg, they stressed the gravity of present conditions, forecast early aggravation of the situation, and opined that the Dominion Government should aid in unemployment relief.

To Speak Over Radio

London, England. — Lady Astor, Conservative member of the House of Commons, will broadcast over radio to Canada and the United States within about a week. Her address will be designed primarily for women and will urge them to continue their efforts for world peace.

Another Royal Wedding

Vienna.—Dispatches from Bucharest say that the wedding of Princess Ileana, daughter of Dowager Queen Marie, to Count Alexander, of Pless, has been fixed for the second half of February.

Long-distance call saves family from flames

A long-distance telephone call from Indianapolis, Indiana, to Los Angeles, Calif., is credited with saving four lives. A man in Indianapolis put in a call very early in the morning—forgetting the difference in time, two hours—to a friend at Los Angeles. The latter, his wife and two children were asleep.

When the call was put through the Los Angeles man was awakened to find his home in flames. He rescued his family and turned in the alarm. He was burned on the hands and arms, but the telephone call saved his family and himself from a worse fate.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C Subscription: $2.50 a year in advance: $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, FEB 7

Facts and Fiction

Usually when an election is over the Review says, "Well, that's that," and proceeds to forget the incident. At the ratepayers meeting on January 29th, however, some doubt may exist as to just who was stating facts and who was talking fiction in the tilt the writer had with Commissioner Jackson and Cherrington when the latter two could not recall Mr. Amon's statement t at he was selling the franchise to a Vancouver party at $185,000.

In the same argument the two commissioners also denied that former Commissioner Comfort had asked that a penalty clause be placed in the agreement so that in case Mr. Amon failed to deliver "juice" at September 1st, 1929, the village could take the pole line, or realize on a bond, or cash a previously-given marked cheque for $5000, or some such security.

At the conference at which the terms of the proposed agreement were discussed a shorthand report was taken of the whole session, and from this report we quote:

"MR. AMON: I have them so that they have signed up for $185,000."

"MR. COMFORT tried to begin a discussion regarding a penalty if lights were not brought in, as he felt the village should have some security before signing themselves up for such a period, but he was interrupted so often, and unable to get his point discussed that he finally gave up, discouraged."

Here are some other passages at the conference in question:

"MR. CONSTABLE: The way to look at it is this is a beginning of a very big development in this valley and it is discouraging at the start."

"MR. CHERRINGTON: The only thing we really are not guaranteed is when this juice is brought down. We are like holding a bag."

"MR. COMFORT: We have not ing. If we had had the lights last year we would have been ahead to-day."

"MR. CHERRINGTON: We would not have had this unpleasantness."

"MR. CONSTABLE: They will be available by September 1st."

"MR. COMFORT: What Mr. Cherrington is trying to get at is that we will have nothing if they drop us out."

"MR. JACKSON: You think we should have a deposit?"

From the above it will be evident that the Review at least had its facts in black and white as actually taken down at the commissioners' conference with Mr. Amon, and we should be entitled to the benefit of the doubt (if any). particularly where the two commissioners were speaking from memory of an interview that was almost eight months old.

Our other claim that Commissioner Jackson had got poor value for about $80 spent on a midsummer trip to Victoria to see the minister of lands in which he failed to see that gentleman in person, was equally emphatically denied by the commissioner who led the audience to believe that he had actually interviewed the minister in question.

Our authority for claiming no interview was had is the minister himself, who reached Creston three days after Commissioner Jackson had returned here, and in an interview with the three trustees of East Creston Irrigation District in the plainest of English, stated he had not seen the commissioner. The comptroller of water rights, who was here at the same time, also said the same thing. Two, if not three of the irrigation commissioner are prepared to make an affidavit to that effect. As all these gentlemen are Conservatives, surely the Review can again claim the benefit of the doubt (if any).

Frances Handley Dead

Just as we go to press this (Thursday) noon word has come of the death of Frances Handley, daughter of Mr. and Mrs. J. W. Handley of Erickson. Deceased was in her sixteenth year,

Funeral of Thos. Harris

There was a large turnout of friends for the funeral of the late Thomas Harris, which took place on Friday last from St. Stephen's Presbyterian Church. Rev P, McNabb officiated. while the burial service was taken by Wild Rose Lodge Knights of Pythias, of which deceased was a long time member. The service was read by Rev. A. Garlick, acting chancellor commander; assisted by R. M. Telford, acting vice-chancellor, and W. J. Truscott, prelate. Members of the lodge were pallbearers, Dr. Henderson, A. E French, R. M. Telford, F. Putnam W. V. Jackson and Col. Mallandaine. The esteem in which deceased was held was evidenced in numerous floral tributes. The late Thomas Harris was a native of Waterdown, Ontario, near Hamilton, where he was born in 1858, and in 1887 he came west to locate for a time at Coeur d'Alene, Idaho. In 1893 he moved to Kaslo, and in 1902 came to Creston where he has since r sided. Up to the time of becoming local road foreman in 1917 deceased had spent much time in prospecting in the Kaslo and Kootenay Lake districts. His wife predeceased him in 1925, and left to mourn his passing is one daughter, Mrs. A. T. Garland of Kaslo, and two sons, William of Victoria, and Oliver, also of Kaslo.

WHY A STOCK EXCHANGE?

MARKETS are older than civilization. From the dawn of history markets have served to facilitate exchange of cattle, money and merchandise. Through the ages a babel of shouting voices resounded in Babylon, Pekin, Nischni Novgorod, Calcutta, Carthage, Rome, Berlin, Paris, London, New York.

Organization of joint stock companies more than 150 years ago as a means of raising capital for business enterprises created a necessity for a market for stocks. The first exchange was organized in London in 1773. It steadily evolved through cumbersome methods to an efficient system. This experience stands behind trading systems now practiced in exchanges like London, New York, Montreal, Toronto and Vancouver.

Every method is practiced to insure fairness to investors and prevent unethical manipulation of prices. The system of trading is recognized as fair and equitable throughout the world. The Vancouver Exchange operates under a Charter passed and approved by the Provincial Parliament on April 25, 1907.

A market place for the buying and selling of stocks, the Vancouver Stock Exchange is essential to commerce. If foreign capital is to flow freely in developing Western Canadian resources, the prestige of this institution must be maintained. The Exchange brings buyer and seller in contact with each other, sets a recognized current price for listed stocks and is a barometer of the success of individual enterprises.

An Exchange is a disinterested party in transactions between selling and buying interests of the public. Fluctuations take their course in accordance with buying and selling orders. When the public gives buying support to certain stocks, prices rise. When support is withdrawn, prices fall. Predictions as to possible values is a matter the client alone can decide for himself.

And as a piece of business machinery, the Stock Exchange attracts capital to mining undertakings or industrial enterprises which otherwise might never come into being. An Exchange is a Public Institution performing an age-old service of great value to Western Canada.

This advertisement is published by Members of the Vancouver Stock Exchange in order to disseminate information concerning the functions of a Stock Exchange and the Business of Buying and Selling Securities.

DILIGENTIA ET CANDORE

V.S.E. 3-6-30

Miss Louise McAllister of Vancouver has been secured by the trustees to take charge of Kitchener school for the next five months. She commenced her duties on Monday.

To the Electors of the Village of Creston

Place yonr orders with F. K. Smith for summer delivery of ice.

Mrs. W. Belanger of Jaffray is a visitor here this week with her parents, Mr. and Mrs. Geo. Johnson, arriving for the masquerade dance Friday last.

Mr. and Mrs. Frank Romano, sr., left on Wednesday on a visit with their daughter, Mrs. DeLucca, at Michel, and with friends at Cranbrook.

Remember the Rod and Gun Club bridge at the Parish Hall on Friday night, February 14th, with cards to start at 8.15 prompt. Admission is 50 cents.

Mrs. Frank Bunt and Mrs. J. W. Robinson were at Nelson at the middle of the week for a conference of W.M.S. workers of the United Churches of the Kootenays.

Creston Board of Trade meets in February session on Tuesday night at which standing committees for 1930 will be struck and definite plan of campaign for 1930 arranged.

Residents of the north end of town were treated to an unusual sight about 11 a.m. Sunday when a fawn deer made the trip through town at a leisurely pace, headed for Alice Siding.

Mr. and Mrs. M. Brown arrived on Friday for quite an extended stay in Creston. They are at the former W. S. Watson ranch, which Mr. Brown purchased about a year ago.

The February meeting of Creston and District Women's Institute is scheduled for Friday afternoon next, 14th, at which the feature will be the striking of the standing committees for 1930.

Mr. and Mrs. Ted Winchcombe left at the first of the week on a visit with with friends in Portland and other Oregon points. In his absence a barber from Spokane is in charge of the shop.

An excellent chance to buy household furniture, etc., is provided in the auction sale of the household effects of R. G. Harris at his ranch (back of the Blinco place) on Tuesday, February 11th, commencing at 2 p.m. Terms are cash.

Announcement is just made of the marriage at Christ Church Cathedral, Vancouver, on February 15th, of Miss Frances Lyne, a former resident of Creston, and Mr. Samuel Hobart of Silverton, Oregon. About five years ago the bride's sister, Phyllis, was married to the groom's brother, Alvin Hobart.

Mr. McPhee, one of the instructors in charge of the Consolidated flying school at Creston, in company with a friend, spent the weeknd at the former's home in Kaslo making the trip in the Archibald Gypsy Moth plane. They made a safe landing on the golf course and this was the first airplane ever to land in that town.

Mr. and Mrs. R. G. Harris arrived on Sunday from Lethbridge, Alberta, and are having an auction sale of their furniture, etc., on Tuesday, February 11th, after which they will return to Lethbridge to reside permanently. Mr. Harris has sold his ten-acre (Keddell) ranch to Geo. Murrell, who a couple of years ago bought the Wm. Stark ranch in the same locality.

Miss Richards of the Full Gospel Mission left last week for Kimberley, where she is assisting Evangelist Rita Elliott, who is conducting a special evangelistic campaign at the full gospel tabernacle. Sunday night saw a capacity audience and great interest is being manifested during the week night services. We are expecting this talented young evangelist in Creston shortly.

The most successful at home the local Masonic lodge has yet staged was that of Wednesday evening when the officers members were at home at bridge to their wives and lady friends, and a number of visiting brethren. Fifteen tables were in play with the high score prizes going to Mrs. McLaren and W. Fraser, and second prizes to Mrs. H. Langston and S. A. Speers. Refreshments were served.

The Ladies' Guild of Christ Church had a large turnout for their masquerade dance on Friday night, although the number in costume was smaller than expected, particularly amongst the men, so few of whom were in evidence that no prize was given for the best dressed gedt. The best ladies' costume was that of Miss Edna Davis, "Buttarfly," and the most original was that of Nora Payne, "The window of the lace curtain." As a clown Mr. Myers captured the only comic prize awarded. The music was by Mrs. Lister's orchestra and the affair enjoyed a cash intake of about $75.

WORLD HAPPENINGS BRIEFLY TOLD

The department of national defence has ordered 16 new light aircraft for use in connection with training in the Royal Canadian Air Force, at a cost of $85,000.

Most of 7,000 women employed on the clerical staff of the British civil service voted "no" in a ballot on the question of whether women ought to retain their jobs after marriage.

Overcome by poison gas as his sons were pulling him up a 75-foot well on his farm, near Raymore, Sask., Mike Grymalaski fell down the shaft and was dead when extricated later in the day.

The total cost of pensions in Ontario this year will be in the neighborhood of $5,000,000, according to a statement made by Hon. Dr. Jamieson, chairman of the Old Age Pensions Board.

A total of 336,972 amateur radio receiving licenses were issued by the radio branch of the Department of Marine for the 1929-30 period up to the close of last year, according to figures made public. The total for the 1928-29 period was 296,926.

Formal request that the postmaster-general of Canada consider the early extension of the postal air mail service to Vancouver and other British Columbia points is contained in a resolution that has been unanimously adopted by the Vancouver city council.

Members of the Canadian Manufacturers' Association sailed from Halifax on the steamer "Lady Drake," to study the British West Indies regarding development of trade with Canada. The party will sail through the Indies as far as Demerara.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, deliciously cool to the skin, it always results in complexions delightfully young and lovely. Indispensable to every dainty woman. As a powder base for oily-textured skins or as a beautifying lotion, it is unrivalled. Tones and stimulates the skin. Recommended also to soften and make the hands flawlessly white.

Manitoba Fruit

Commercial Fruit Growing Now Placed On a Profitable Basis

Fruit growing on the plains of Manitoba is to be placed on a profitable basis, according to the marketing report tendered by Mrs. S. M. Loree, of Carman, Manitoba, at the annual convention of the United Farmers of Manitoba, recently. Prospective fruit growers will be afforded accurate statistics on the yields and hardiness of crops. Demonstration orchards in various parts of the province were established some time ago, said Mrs. Loree, but the reorganization work of the coming spring is expected to yield definite results. Apples, plums, strawberries, raspberries and currants are now produced commercially by about a dozen growers.

Corns INSTANT relief! PUTNAM'S Corn Extractor

Important Factor In Airplane Of Future

Manufacturers Turning Their Attention To Building Safer Machines

Much is expected of what has been popularly described as a "fool proof" aeroplane that has come into existence with an award of a prize of $100,000 following an exhaustive series of tests at Mitchel Field, outside New York City. The conclusion of these tests and the awarding of the prize is held to mark another forward step of great importance in aviation. Quantity production of high-speed machines was the natural consequence of the solo flight of Charles Lindbergh, from New York to Paris, and it is only within a comparatively recent period that aeroplane manufacturers have turned their attention to the element of safety as an outstandingly important factor in the aeroplane of the future.

There has been no divulgence of the details of the performance of the winning machine beyond the fact that it has a minimum gliding speed of 38 miles an hour. That a machine can loaf along at what is a medium road rate for a motor car indicates what amazing advances have been made in the safety of aeroplane operation. And it may be assumed that once the aeroplane is so made that its operation is approximately as safe as the motor car, people will take to the sky in much larger numbers thant at present.—Regina Daily Post.

Suggests Out-Door Museum

Would Be Attraction In Western Canada To Tourists

An out-door museum extending extending along the rights-of-way of railway lines in Western Canada in which concrete casts of the skeletons of dinosaurs, mammoths and mastedons would stand has been suggested by a member of the National Museum staff, Ottawa. The creation of such an out-door museum would serve as a monument to strange beasts which roamed parts of Canada millions of years ago, the official thinks and would, besides, be unique as an attraction to tourists travelling the railways.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Eclectric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

A Valuable Discovery

Carbon Monoxide Menace Can Be Eliminated Claims Professor Of Chemistry

The announcement from Johns Hopkins University that a means has been discovered to eliminate carbon monoxide from motor exhausts comes at a moment when the health department of nearly every large city is concentrating on this problem. Health officials of New York City recently began analyses of the air in the city's streets, seeking the carbon monoxide content, as a preliminary to some kind of a protective or remedial campaign.

Here and in other cities was the mounting record of hundreds of deaths annually, and authentic medical testimony that these accumulating poisons were fouling the air and endangering public health.

Dr. J. C. W. Frazer, Johns Hopkins professor of chemistry, discoverer of the method which makes a closed garage safe for democracy, has for many years been known as one of America's foremost authorities in the field of catalysis, and it was by the use of a catalyzer that he learned how to make carbon monoxide behave. A catalyzer, the chemists explain, is a manager and introducer which brings together aloof elements.

Carbon monoxide, issuing from a motor exhaust and occasionally killing somebody, needs just a touch of oxygen to become as harmless as a church warden. This oxygen was available in the air, but wasn't even on speaking terms with carbon monoxide.

Dr. Fraser's catalyzer lured an atom of oxygen from the air, teamed it up with the carbon monoxide and the resulting carbon dioxide was safe for breathing. One may close the garage doors, turn on the engine, go to sleep under the car and live to tell the tale.

The catalyzer—and Dr. Fraser does not tell what it is—is like the old time bartender who never took a drink. It sets up new chemical equations, but never takes any part in them.

"It's so good of you, doctor, to have come this far to see my husband."

"Not at all, madam, not at all. I have a patient next door and I thought I'd kill two birds with one stone."

SUNDAY SCHOOL LESSON

FEBRUARY 9

WARNING AND PROMISES

Golden Text: "Every tree that bringeth not forth good fruit is hewn down, and cast into the fire." — Matthew 7.19.

Lesson: Matthew 7.1-29.

Devotional Reading: Proverbs 2.1-8.

Explanations and Comments

The Golden Rule, verse 12.—All things therefore whatsoever ye would that men should do unto you, even so do ye also unto them. The context shows the meaning of the "therefore": since God is so good to us, we must be good to others. "With these words Jesus closes up the teaching of these chapters," said Martin Luther, "and ties them all up in a little bundle." For this is the law and the prophets—the two collections into which the Jewish writings were divided. "Perhaps to a certain extent this was a current phrase, equalled all that was necessary; but, no doubt, seriously meant; therefore it may help us to understand the statement in verse 17, 'I came not to destroy, but to fulfil.' The Golden Rule was Law and Prophets only in an ideal sense, and in the same sense only was Christ a Fulfiller.."

Distinguishing False From True Leaders, verses 15-23.—Beware of false prophets, warned the Master. They come to you in sheep's clothing, disguised as honest teachers, but inwardly they are ravening wolves, rapacious workers of evil. The lamb or sheep was the symbol of innocence or harmlessness; the wolf, of all sorts of evil. "It was a time of religious excitement; the force of custom broken, the deep fountains of the soul bursting forth; witness the crowds who followed John and Jesus, and the significant saying about the Kingdom of Heaven suffering violence (Matt. 11.12). Such times call forth true prophets and also spurious ones, in religious sympathy with prevalent enthusiasms, but bent on utilizing them for their own advantage in gain or influence, men of the Judas type.' — A. B. Bruce.

How shall the imposters be recognized? By their fruits, said Jesus. Character is revealed by conduct.

Thousands Pay Radio License

Prairie Provinces Are Well Up In Number Of Owners

For the first time since radio broadcasting commenced, more than 300,000 owners of receiving sets in Canada have paid the annual license fee of $1 this year. Of these just half are located in Ontario and over 40,000 are in Toronto. Not all the people who own radio sets pay the dollar, in fact, it is known thousands dodge the tax. By provinces the number of licensed receiving sets is now as follows: Ontario, 146,662; Quebec, 49,790; Prince Edward Island, 509; Nova Scotia, 8,893; New Brunswick, 6,141; Manitoba, 18,728; Saskatchewan, 22,467; Alberta, 14,382; British Columbia, 25,981.

OPEN SORES
HEAL IN QUICKEST TIME KNOWN
"Sores on leg, ulcers, for months. Doctors failed to heal. Then 'Scotha-Salve' healed them in few days." Jules Simard. "Scotha-Salve" heals sores, ulcers, boils, burns, scalds, eczema, like magic. All druggists.

Saskatoon's Progress

All Evidences Point To Rapid Growth During Past Year

The City of Saskatoon made substantial progress during 1929. Its finances are in excellent shape. A larger proportion of current taxes have been paid than ever before, which includes taxes on forfeited properties, and the net outstanding taxes amount to $800,000, which is about $1,000,000 less than in 1925. There was an increase of about 800 pupils in the schools. The electrical output increased about 30 per cent.; the sale of city owned real estate amounted to $130,000 and passengers carried on the street railway showed a gain of 15 per cent.

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved.

Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion.

The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pkg. of Carter's Little Liver Pills.

ASTHMA

QUICK RELIEF obtained by thousands through use of Dr. J. H. Guild's Green Mountain Asthma Compound. Its pleasant smoke vapor soothes and relieves. Originated in 1869 by Dr. Guild, specialist in respiratory diseases. Also relieves catarrh. Standard remedy at druggists: 35 cents, 60 cents and $1.50, powder or cigarette form. Send for FREE TRIAL package of 6 cigarettes. Canadian Distributors, Lymans, Ltd., Dept. BR-1, 286 St. Paul St., West, Montreal, Canada.

Dr. Guild's GREEN MOUNTAIN ASTHMA COMPOUND

Don't Do It

operate tonsils, save them by treating with "Mrs. Sybilla Spahr's Tonsilitis," also sore throats, croup, cough, quinsy, catarrh, and all tonsil ills. You can't lose, it's guaranteed, try it. $1.50 post paid. Agencies wanted.

CHAPTER I.

Doctor Edward Howe, Wickfield's beloved and venerable physician, stopped his car before the old Davis house, while a girl who was vigorously polishing the sidelights by the wide front door turned from her perch on a low stepladder and waved a greeting. The doctor glanced at his watch, and deciding that there was time for a moment's relaxation, got slowly out, threw a smile to Grandma Davis who was at the window, and sat down on the porch below the girl.

"This big house makes you a sight of work, Charmian Davis."

Charmian turned, dropped her polishing cloth and took a seat on the stepladder.

"I suppose it does; but somehow I don't mind—it's such a beautiful house. I like to remember that my father and grandfather were born here, where I was born myself. This old house seems—well—perhaps you'll laugh at me, Doctor, but the house seems just as much a part of me as do my ancestors."

But the doctor didn't laugh. He looked up at the shining brass knocker on the door, put there three generations before by Luther Davis—to the beautiful fanlight above it, and at the small-paned windows of long ago. Then his glance strayed from the century-old elm at one corner of the house to the mammoth syringa bush (the pride of the village as well as of Grandma Davis), at the other, and he understood and sympathized with the girl's loyalty to the home of her forefathers.

Charmian was right. It was a beautiful old house. It stood a fair rod from the street, though it was built in the days when most Wickfield dwellings were set flush with the sidewalk. Charmian's great-great-grandfather had explained (when curious neighbors commented on this fact), that he was unwilling to sacrifice the young elm tree but most of his questioners suspected that the underlying reason for this unusual proceeding was because great-great-grandma Davis "hated dust."

This, at least, was the story that had come down to Charmian, who declared that if her great-great-grandmother could have foretold the dust of the present day with automobiles passing at forty miles an hour, she would have set her mansion in what was then the cow pasture!

"But if she had," commented Grandma Davis wisely, "it wouldn't have been near so handy for the shop."

Charmian smiled. The shop, which was once the honored parlor of the old Davis house, was an innovation against which Grandma had bitterly rebelled when it was first suggested by Charmian's widowed mother. At that time Charmian was but a little maid of six, yet she remembered vividly the battle that took place before Grandma Davis capitulated to her daughter-in-law's irrefutable argument that it was more honorable for a Davis to run a shop in the best room than to go into debt.

She remembered also the day when the fine imported carpet was removed, and the contents of the highboy taken "up attic" in order to make room for the rolls of calico—the spools of silk and cotton—the pins and needles—bright worsteds and other fascinating odds and ends which were to be paid for "by installment," whatever that was.

Wickfield was in sore need of a dry goods store, for Henry Oldham, who had run the general store for forty years, rarely replenished his stock, and one had to drive clear to Eastboro in order to match a skein of yarn!

Hence the neighbors, after a moment's shocked surprise, welcomed the thought of buying their fancy goods of Charmian's mother; and as Grandma grew older, the little shop, against which she had fought so valiantly, became her greatest source of entertainment.

Charmian was fifteen when her mother died, but she managed to finish high school, to go to the State Normal at Eastboro, and keep house for Grandma, while the old lady sat contentedly in the front window and waited on occasional customers, unless, as was usually the case, they waited on themselves. Indeed the Davis house would hardly have seemed natural without Grandma's face peering from behind that twenty-four-paned window. Once, stepping in upon an errand, Ezra Bascomb had offered to put a whole pane of glass in the lower sash, so she could see the passing better.

"I could do it easy enough some holiday," he urged; but the old lady shook her head.

"It's real kind of you, Ezra," she said gratefully, "but my husband's grandfather, Luther Davis, built this house, and I've never felt called to want it changed. Seems as if one pane of glass wouldn't exactly suit it, though I've no doubt Charmian would find it easier to clean. Charmian's terribly particular about windows. She says a soiled window can just spoil a nice, sunny morning; and I dunno but what she's right. Once when she was a little girl she gave me a wiper for my spectacles. It said on it: 'The world will never look quite right unless you keep your glasses bright,' and I presume the same thing applies to windows. No, Ezra, I'm just as obliged to you, but I guess we'll stick to Grandpa Davis's old windows, Charmian thinks the world and all of them."

"Well," responded Ezra, good-naturedly, "there's no accounting for taste. Now the first thing Emmy wanted when we was married, was for me to yank those small-paned windows out o' the old house, and put in new ones. She's kept at me ever since, and at last I've done it; and I will say, Grandma, that they look handsome. But that city feller, who's living down at Irving Plummer's, acted like I'd broke all ten commandments when I suggested changin' the windows along with the other improvements he's put in. No, there's no accounting for taste. He bought the place and furnishings as they stood, and he's give Hetty Plummre's golden oak extension table, the one she sent clear to Portland for, to his hired man, and he's usin' an old mahogany drop-leaf that Grandma Plummer kep' her preserves on in the cellar!"

"Do tell!"

"Yes, ma'am," replied Ezra, moving toward the door, "that's Gospel truth, or may I be struck dead where I stand."

He felt in his pocket for his cap, and drew out a scrap of bright blue silk.

"Glory! I clean forgot what I was here for. Emmy wants a spool o'silk to match this sample. She's makin' her new waist to wear to the strawberry festival."

"Let's see," said Grandma eagerly, stretching out a hand for the sample. "That's real pretty. Emmy always did look best in blue, even when she was a baby. You open the top drawer, Ezra, and find a spool to match."

"Emmy said," hesitated Ezra, like a well-trained husband, "that I was to let Charmian pick it out. She says I ain't got an eye for color."

Grandma chuckled.

"And I suppose she won't trust me, either. I donno as I blame her. My eyes are getting old along with the rest of me. Charmian's up attic. You whistle at the back stairs and she'll come down. There! she's coming now. "Dear'e," she called, "you come right here. Emmy Bascomb wants you should pick out a spool o' silk to match her waist. Seems to me I remember the blues are getting sort of low."

Yes, the little shop had been Grandma's unfailing source of entertainment for many years. Even when with the invasion of automobiles, Eastboro became more accessible, the neighbors did what shopping they could at Grandma's, not only to help her out, but to make an excuse for running in to chat during the long days when Charmian was away at school. If, nineteen years before, Wickfield had been shocked at the thought of a shop in Lawyer Davis's best room, it had long since become as accustomed to it as had Grandma herself; though at times the old lady wondered, with an inner chuckle, what her husband's father was thinking as he viewed the change from his mansion in the Eternal City.

For Roger Davis had been a lawyer—a man of education. His office, a small, one-story building, still stood across the drive that led to the big barn. He had been what in those days was called "a scholar and a gentleman," but, although he sent his son to college, "Grandpa Davis," after a year of reading law in his father's office, had "gone back to the land"; and being more of a dreamer than a worker, he left the old place rather worse off than when he fell heir to it. For he had found it pleasanter as well as easier, to let his horses rest when they should have been dragging the plow, while he feasted his beauty-loving eyes on the hills that surrounded Wickfield on every side, and composed "poetry."

Grandma was very proud of Grandpa's poems. Once one of them was printed in the Eastboro "Telegraph," and the minister read it from the pulpit. That was a proud day for Grandma Davis. She still kept a clipping of the poem between the pages of her Bible, and read it every night after she said her prayers. To her loyal heart it was a legacy more beautiful than gold or precious stones.

And now, though she and Charmian were left alone in the big house, it never occurred to them to leave it. To Grandma it was "home." To the girl it was not only home, but something that gave her a sense of satisfying pride. For was it not something to be proud of, to live in a house built by ones great-great- grandfather? This alone was compensation for the things she lacked—things that were, to many a girl of her age, the breath of life.

(To Be Continued.)

Check Falling Hair with Minard's.

Fish Freezing Plant

A plant for the cleaning, filleting and freezing of fish will be set up in Edmonton shortly, according to "The Journal," quoting A. S. Duclos, president of the Edmonton Cold Storage Company, and director of the Pacific Coast Terminals Cold Storage Company.

Falling Hair

Turn to a proven hair grower—Minard's of course. Will cleanse scalp of dandruff and promote a healthy, glossy growth. Rub into scalp four times weekly.

Whaling Up-To-Date

Airplanes Being Used As Scouts By Norwegian Fleet

A Norwegian whaling fleet now at work off the ice banks of the Antarctic is accompanied by two aeroplanes which are being used to scout for schools of whales. It has been found that in certain years the whales are much more difficult to find than in others; in fact, they seem practically to disappear, and it is hoped that the aeroplane with its greater mobility and wide range of vision will be able to help in solving the problem. The machines can be equipped with three sets of landing gear: wheels for landing on the deck of the "mother" vessel, pontoons for the water, and skis for the ice. A wireless "there she blows" will summon the fleet when the aeroplanes sight their quarry.

IF THERE IS A BABY IN YOUR HOME

There Also Should Be a Box Of Baby's Own Tablets

To keep her little ones well is the constant aim of every mother and to help her in this task she should always keep a box of Baby's Own Tablets in the home. These Tablets have saved many little lives when illness came on suddenly.

The majority of troubles which afflict little ones are those which arise from a disordered condition of the stomach and bowels. It is in quickly correcting these disorders that Baby's Own Tablets show their value. They banish constipation and indigestion; correct colic and diarrhoea; break up colds and simple fevers and allay teething pains. Concerning the Tablets Mrs. E. Roberts, Cap aus Os, Que., writes:—"I always keep Baby's Own Tablets in the house as I know of nothing to equal them for little ones."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Seven Hundred Mile Line

Length Of Surveyed Boundary Between Alberta and Saskatchewan

The boundary between Alberta and Saskatchewan is the Fourth Meridian of the Dominion Lands survey system, which coincides approximately with the 110th meridian of west longitude and under instructions from the Surveyor-General, Department of the Interior, has been surveyed from the International Boundary northerly to Lake Athabaska, a distance in a straight line of nearly seven hundred miles, constituting one of the longest surveyed straight lines in the world.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

A Remarkable Exhibit

Edmonton Has Fine Display Of Northern Grains and Grasses

Grown 300 miles north of Edmonton, as the crow flies, at the Dominion Experimental Farm, at Fort Vermillion, Alberta, on the Peace River, a most remarkable display of grains and grasses of last season's crop are on display at the Edmonton Chamber of Commerce.

Exhibits include thirteen varieties of wheat grown in experimental plots; eight of oats, five of barley, two of flax and two of rye. The wheat includes such well known varieties as Garnet, Red Fife, Marquis, etc., and the oats include Banner, Leader, Victory and two varieties of hull-less oats—Laurel and Liberty.

Twelve of the 13 varieties of wheat sown Apr'l 30, the other, Marqu's, May 8. Three of the varieties were cut August 15; significant that Marquis, sown eight days later than all the other varieties ripened as rapidly as two others sown eight days earlier—Kitchener and Red Fife.

All samples are of excellent quality, with strong root growth, sturdy stands and plump, well-filled heads, with heads ripened perfectly.

Calgary's Building Permits

Calgary's building permits for the year numbered 1 883 and had a recorded value of $11,417,194, compared with 484 in 1928, with a value of $6,302,142 for 1928.

Little Helps For This Week

"The Lord our God will we serve, and His voice will we obey." —Joshua xxiv. 24.

So nigh is grandeur to our dust,
So near is God to man,
When duty whispers low, "Thou Must,"
The youth replies, "I can."
—Ralph Waldo Emerson.

When in the crises of your duty the way of peace and right summons you with its sweet compulsion, it is the call of the Eternal Right making itself heard in your waking soul. It is the summons of God through the voice of duty. Not far away lie the sources of religious trust; not in the evidences of the stars, or seas, or ancient man, but here amid the inevitable experiences of our daily mistakes, and of our sincere repentances. The life of God and the life of man are all interwoven in the web of human experiences.—Francis G. Peabody.

Cost Of Translations

French and German Cheapest, and Finnish Is Dearest

Language experts should find something to interest them in the tariff of a translation firm I have just been looking over, writes "Looker On" in the London "Daily Chronicle." French and German, it seems, are the cheapest languages to translate. Italian and Spanish are a little dearer, and Dutch and the Scandinavian languages come next on the list of charges. Greek translations cost considerably more than Russian—they rank in cost with Rumanian, Hungarian, Serbian and Czech. Lithuanian comes next, while Finnish, "dearest" language of all, costs about eight times as much as French.

Exhausted From Asthma. Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will usually stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

Measured the Earth

The earth is not round after all. It is flattened at the poles, and has quite a pronounced heaviness about the middle. A. H. Miller, a Canadian scientist attached to the Dominion Observatory, in Ottawa, has completed measurements this year which show the diameter through the poles is 26 miles less than through the equator.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now." —Mrs. J. Malin, R. R. No. 5, Barton St. East, Hamilton, Ontario, Canada.

For January the Valley vital statistics show three births, two deaths and two marriage licenses issued. Of the new arrivals two were girls.

John Ryckman left on Sunday for Missoula, Montana, on a visit with his sister Mrs. Burge, and where he is expecting to secure employment.

LOST On Wednesday, January 29th, between skating rink and drugstore, white gold wrist watch. Finder please leave at Review Office and receive reward.

Due to two of the regular teachers being absent on sick leave the January school report in this issue covers only three divisions. Those failing to report are Divisions 3 and 5.

Sunday was groundhog day, and as the weather was quite cloudy it is presumed the bear was unable to see his shadow and has remained abroad in the land, indicating that winter is over.

Kootenay Presbytery of the United Church has its spring session in Nelson, commencing February 18th, and Trinity United Church will be represented by Rev. R. E. Cribb and Fred Smith

Creston's 1930 assessment totals very close to $400,000, of which $241,000 is on improvements, At last year's tax rate of 12 mills the 1930 tax income shows an increase of $207 over that of 1929.

At the annual meeting of the Woman's Auxiliary of Christ Church on Saturday, Mrs Stanley Watson was chosen presidenr; Mrs. John Ryckman, vice-president; and Mrs. Matt. York, secretary.

Wednesdayy, Februar 19th, is the sixty-sixth anniversary of the founding of the Knights of Pythias and the local lodge will celebrate the auspicious occasion with a social evening in the Parish Hall.

Five appeals have been entered against the village 1930 assessment as prepared by the assessor, Miss E. F. Arrowsmith. These will be heard at the Court of Revision at the town hall on Saturday morning at 10 o'clock.

The weather still continues mild, with Tuesday morning furnishing a 5 inch snowfall, most all of which has since disappeared. According to Foster the first half of the month is to supply above normal temperatures.

Miss McDonald of Kaslo and Mrs. W. R. Long are on the teaching staff of Creston public school this week substituting for Miss Brown and Miss Wade, respectively, both of whom are off duty under medical treatment.

S. Austin of Victoria, an auditor of the Liquor Control Board, made an official visit with vendor H. W McLaren at the end of the week. Since opening in June business at the local store has been quite up to expectations.

Miss Wade, teacher of Division 8 of the public school, who has been off duty since last Wednesday with a broken wrist, left on Wednesday for Cranbrook where the injured member is being X-rayed to expedite treatment.

According to ferryman J. V. Lockhead the ice on the Kootenay River is about the thickest any oldtimer can recall. It is 16 inches thick. On the flats, where the village supply is being harvested, it has a thickness of almost 25 inches.

The village council meets in February session on Monday night. Amongst the business will be the selection of a chairman of the board, and it is expected arrangements will be made for taking over the public library, which was favored in the plebiscite on January 30th.

At the annual meeting of Creston Board of Trade on Friday night, Col. Mallandaine was re-elected president; R. J. Fordes was promoted to vice-president, and C. F. Hayes is back on the job as secretary for another term.

The village commissioners will have their first statutory meeting on Saturday morning as an assessment court of revision, at which it is likely the permanent chairman will be named. It is likely F. H. Jackson will be again chosen.

The Farmers' Institute is now handling stumping powder and to obtain the reduced Institute rate it is necessary to order through this organization. Place orders soon so that as much as possible can be included in a single shipment.

The final curling game for the Fraser grand challenge cup was played on Friday night, when the silverware was won by the T. W. Bundy rink, who scored a win over the rink skipped by A. L. Palmer This is the second year in succession this cup has been won by the Bundy quartette.

Mr. and Mrs. W. M. Archibald are leaving this week for Johannesburg, South Africa, where Mr. Archibald will represent the Consolidated Mining & Smelting Company of Canada, at a world's mining congress to be held in that city. They will be away about three months on the trip.

The annual meeting of Creston Valley Agricultural Association is set for Thursday night next February 13th, at the town hall, and a turnout of everyone interested in the fair is asked. Chas. Murrell is the retiring president. Financially the 1929 fall fair was a great success Treasurer F. H. Jackson reporting a surplus of over $200.
