THE CRESTON REVIEW

VOL XXI. CRESTON, B. C., FRIDAY, JANUARY 10, 1930 No. 45

Lister

Rev. Carl Basse of Creston was here for Lutheran Church service at the schoolhouse on New Year's morning.

Ernest Stevens, who has been visiting at his home here, returned to Trail at the end of the week.

The annual meeting of Lister-Huscroft Farmers' Institute will be held at the schoolhonse on January 14th.

Miss Hazel Hobden returned on Sunday from a week's holiday visit with her sister, Mrs. Whittaker, at Cranbrook.

Miss Curtis, principal of Lister school, returned on Sunday from her home at Slocan City, and school re-opened on Monday morning with an a tendance of 29.

Mr. and Mrs. Geo. Davie and family of Canyon are now residents of Lister, and are occupying the Jock Duncan resinece at present.

S. R. Bowell, Dominion egg inspector will be here on the evening of January 14th and will give a talk and demonstration on grading and candling eggs

Water was turned into the new domestic water supply pipes on Friday and part of the area is now getting its supply of the wet goods from he new system. The work of digging the ditches will be completed this week.

1930 was welcomed in appropriate fashion at the home of Mr. and Mrs. H. Langston, who entertained a number of friends that evening at bridge and other amusments. The winners at cards were Mrs. Bundy and L. Littlejohn, while the consolation honors went to Mrs. Bird and E. Langston. Refreshments were served at the close of play.

The Christmas celebration for the Lister children was staged at the schoolhouse on Friday last. when a great variety of games were provided, along with a supper and every youngster in the area was remembered with a gift from the Christmas tree provided by the Commuity Society, and the Sunday school scholars were each given a bobk. In the evening there was a dance to music supplied by Mrs. Lister and during proceedings the drawing took place on the raffle conducted by the Community Society at at which the lucky winners were Mrs. A W. Sinclair, who won the dressed chicken. F. Dodgson had the winning ticket on the sack of wheat, and Jock Osborne won the pair of bath towels.

Canyon City

Miss Kathleen Clayton was a New Year weekend visitor from Nelson, a guest of her parents, Mr. and Mrs. Matt. Clayton.

Mr. and Mrs. Tom Hickey got back on Monday from a week's visit with relatives and friends in Nelson.

A. A. Bond, who has been working on plastering contracts at Calgary, Alberta, since July, arrived home at the first of the year.

Mr. and Mrs. Lythgoe, Crecton's newest newlyweds, were visitors with Mr. and Mrs. Knott for New Years.

Miss Mary Nouguier left last week for Wenatchee, Wash., where she is commencing a three-year's training course as nurse in the hospital there Her sister, Helen, has just completed one year in the same institution.

Misses Muriel and Frances Knott left on Saturday to resume charge of their schools at Silverton and Sandon respectively.

The Canyon Farmers Institute are starting off the 1930 social season with a dance in the community hall on Friday night, January 24th.

Principal Stephens returned from Cranbrook on Sunday and school re-opened on Monday morning with a full attendance of pupils.

Mr. and Mrs. Geo. Davie and family moved at the end of the week to the Lister area, where they will reside for at least the next three months. Mr. Davie recently sold his ranch here to Huygens & VanAckeran.

Mr. and Mrs. R. Cross of Winnipeg, Man., were New Year week guests of the former's mother, Mrs. A. Cross at Canyon.

Helge Anderson's Radio Trio orchestra is putting on a dance at the community hall next Friday January 17th.

Work has been resumnd at widening out the rock cut at the high level bridge. Operations were halted for a week or ten days as the original appropriation for this work was found insfficient. More funds have now been made available.

Standfast Club Officers

The Standfast Club of Creston Presbyterian Church had an enthusiastic annual meeting on Thursday evening last when the following officers were chosen for 1930:

President—Bert Morrow.
Vice-President—Charlie Taylor.
Secretary—Jack Johnston
Treasurer—Allan Speers.

Mrs. J. W. Dow was again chosen supervisor, and plans are being laid to make this year the best in the club's quite long history. From voluntary saving by mite boxe the club was able to make a nice contribution to the mission fund of the church as well as send a Christmas parcel o the Presbyterian Chinese Mission in Vancouver.

Trinity W.M.S. Officers

The Women's Missionary Society of Trinity United Church met in annual session on Monday afternoon, when the following officers were chosen for 1930:

President—Mrs. J. W. Robinson
Vice-President—Mrs. Fred Lewis.
Rec. Secy.—Mrs. W. Kernaghan.
Supply Secy.—Mrs. J. W. Craig
Strangers Secy.—Mrs. R. Phillips.
Literature Secy.—Mrs. T. M. Edmondson.
Christian Stewardship—Mrs. W. J. Truscott.
Home Associates—Mrs. Lewis.

The secretary's report showed that the monthly meetings had been well attended and a substantial amount raised for missionary purposes.

Maple Leaf M.B. Active

The Maple Leaf Mission Band of Creston Presbyterian Church had their annual meeting last waek and reports submitted on the year's activities indicated that 1929 has been an active one with the junior missionary organization of St. Stephen's congregation. The new officers are:

President—Fay Tompkins.
Vice-President—Lucille Davis.
Secretary—Margaret Henderson.
Treasurer—Jane Ross.

The band comprises twelve members who were able to contribute a total of $32 to the missionary schemes of the church, and at Christmas time donated a quilt and parcel to the Chinese Mission Home at Vancouver. Mrs. John Sherwood has again been chosen as supervisor of the Leafs for 1930.

CARD OF THANKS

Mr. and Mr. John Garfield and family take this means of expressing their deep appreciation of the many floral remembrances and the many kindnesses and sympathy shown them in their recent bereavement.

Sirdar

Miss. Margaret Backus, nurse-in-training at the Sacred Heart hospital, Spokane, was a visitor with her uncle, Norman Backus, last week, retnrning to Spokane on Saturday.

Miss Gwen. Wilson returned to Cranbrook on Sunday.

Quite a number of Sirdar people were at Creston for the New Year eve ball in the Grand theatr ballroom.

Sydney Rogers left on Sunday for Vancouver, where he is attending college.

Mr. and Mrs. S. Bysouth were in from Kuskanook for a New Year day visit with Mr. and Mrs. Jas. Pascuzzo.

Principal Moore of Sirdar school, who spent the holidays at his home in Creston, returned on Saturday.

Mrs. Cam and daughter, Lily, spent New Years with friends in Creston.

Kitchener

Miss Sarah McNeil of Ladysmith succeeds Miss McDonald as principal of Kitchener school, and commenced her duties on Monday morning.

Miss Beatrice Molander has returned to Cranbrook after spending the holidays with her parents in Kitchener.

Miss Laura Andeen is spending the week in Cranbrook with her sister, Miss Mildred Andeen.

Misses Vera and Hazel McGonegal were at Creston last week, where they were guests of Mrs. Payne.

Miss Ester Nelson was a weekend visitor with her parents here.

Mr. and Mrs. Rogotte who have been visiting with Kitchener friends for some days, have returned to Kasio.

Willard Blair was at Creston for a few days, a guest of Dennis Bush.

Richard Molander, who has been on a visit with his sister at Cranbrook, has returned home.

Mrs. Simpson of Calgary, Alberta, is here on a visit with her daughter, Mrs. Knowlen.

Wynndel

Joe Firoentino of Cranbrook was a visitor at Wynndel last week, returning on Saturday with Mrs. Firoentino to their home in the divisional city.

Chas. Moore of Creston was a business visitor at Wynndel last week.

Regular meeting of the Women's Institute on Thursday, January 16th, at the old schoolhouse, at 2.30 p.m.

Helge Anderson's Radio Trio orchestra will be here for a novelty dance in the old schoolhouse on Thursday next, January 16th

Quite an enjoyable evening was spent at the old schoolhouse on New Year's eve, when the Women's Institute staged a basket social. Games and dancing were indulged in, and there was a piano solo by Miss E Hook. Mrs. H. Bathie also favored with a solo, "The Man in Overalls." Just before 12 p.m., Mrs. Bathie, dressed as Old Man 1929, appeared and spoke a few appropriate words and after the midnight hour Margaret Bathie appeared as "The Spirit of 1930" and wished the best New Year wishes, all present joined hands and sang Auld Lang Syne. The cash intake was $15.

The home of Mrs. R. Andestad was the scene of a jolly party on Friday, when the members of the Anglican school were guests of their teachers, Mrs. Andestad and Miss Towson, to bring to a close Christmas festivities. Games and music were the order of the evening. Dainty refreshments were served by the hostesses, with candies and nuts. A large illuminated Christmas tree completed decorations, and the affair was much enjoyed by all. A feature of interest at the close was closed box with streamers and tags protruding and each child took hold of a tag with name on, and when the lid was lifted each pulled and received a dainty gift attached to end of the streamer, these being donated by the W.A. The guests were D Moon W. Moon, H. Hagen, Lulu Butterfield, M. Bathie, Rolf Hindley, Sid Davidge, M. Moon and David Hindley. Assisting the hostesses were Mrs. Towson and Mrs. Hindley.

Clementine Marshall Buried

The funeral of the late Clementine Marshall, who died on New Year's Day, after a brief illness, took place on Friday morning from Trinity United Church, with Rev. R. E. Cribb officiating at the church and grave and Percy Robinson, Dobie McDonald, Eric Martin, Douglas Speirs, Earl Christie and Harold Beninger as pallbearers. Many were out to pay their last tribute of respect and the numerous floral rememberances also bespoke the merited high esteem in which deceased was held.

24-Hour Telephone Service

Creston is now enjoying a 24-hour telephone service, which became effective on New Year's Day. The regnlar two operators are in charge from 8 a.m. to 11 p.m., and from the latter hour until 8 a.m. all calls are taken care of by the new emergency service which is giving the same excellent satisfaction as in evidence at the regular hours. The company are preparing a directory of the Creston system which will be delivered to subscribers in a few days, and when it comes to hand it is requested that all calls be made by number. During December the line through to Alice Siding was completely rebuilt and next week a start will be made at giving the line to Erickson and Canyon the same systematic overhaul.

Receive First Seals

A review of the activities of the Ellen Dow Auxiliary of the W.M.S. of the Presbytersan Church very plainly indicates that this intermediate missionary organization is taking a very practical interest in its work, 1929 recording a contribution by the Auxiliary's eight members of $43 to missionary schemes of the church, as well as forwarding a bale of Christmas gifts to the Carolina McDonald factory girls school in Tokio, Japan. Mrs. J. W. Dow has been prevailed upon to continue as sepervisor for another year, and the other 1930 officers are:

President—Marion McDonald.
Vice-President—Mary Rentz.
Secretary—Jean McCreath.
Treasurer—Jean Henderson.

The year terminated with a social evening at the home of Mrs. M. J. Boyd on New Year's eve, during which five members, Marion McDonald, Letty Couling, Jean Henderson, Jean McCreath and Betty Speers, were presented with first seals towards life membership in the Women's Missionary Society.

For better eyesight see Murdoch McLeod, registered optometrist. Phone F. J. Klingensmith.

RADIO FOR SALE—Five-tube Atwater-Kent sadio, in good working order, going at a bargain. E. G. Timmons, at Creston Motors.

Alice Siding

R. Alderson, who has spent the past two weeks with his family at the ranch, returned to Turner Valley on Friday.

Miss Helen and Robert Moore, who are teaching school at Flagstone and Sirdar respecitvely, returned to their school duties on Sunday.

Mr. and Mrs. H. MacDonald of Calgary, Alberta, who have been guests of the latter's parents, Mr. and Mrs. J. H. Webster, the past two weeks, returned home at the middle of the week.

Principal Lukas got back from Fernie on Sunday and school resumed on Monday, with an enrollment of 32 pupils.

Jack McDonald, who has been visiting with his wife at the Kelly ranch for the past two weeks, returned to Princeton yesterday,

Orchard pruning commenced in this section at the first of the week. The first on the job is the Alderson ranch, where Bert Boffey is handling the shears.

Miss Gladys Webster left on Sunday for Michel where she is on the consolidated school staff.

Erickson

Mr. and Mrs. Fred Klingensmith of Nakusp, who spent the holidays with Mr. and Mrs. E. W. Klingensmith, returned home on Friday.

Ray McKelvey is a Cranbrook visitor this week, leaving on Tuesday.

Mr. and Mrs. Murdoch McLeod of Trail, who spent the past two weeks with Mr. and Mrs. F. J. Klingensmith, left for home on Friday.

Misses Margaret and Dahlia Speaker returned to Cranbrook on Thursday. They were home for the funeral of their father, the late Fred Speaker

Miss Madeline Putnam left on Saturday for Vancouver to resume her studies at the B.C. University. All three pupils from Erickson at the univtrsity were successful in passing the Christmas examinations.

Miss Molly Kemp, who spent the holidays with her father, W. H. Kemp, returned to Winnipeg on Saturday,

Mr. and Mrs. R. J. Long left last week on a visit with their son, Walter, at Wenatchee, and before returning will take a few weeks' vacation at coast cities.

Frank Putnam left on Thursday for Beaverdell, where he will probably spend the month at the mine.

Richard Thurston, jr., who is with the Canadian Mercantile Marine, arrived home from Vancouver on Thursday last for a short holiday.

Frank Staples got back at the first of the week from Seattle where he purchased a sawmill plant which he intends operating in the Windermere country this year.

Mr. and Mrs. W. R. Long left last week for Vancouver, where they will visit at the home of the latter's parents this month. Late in January Bill will attend the annual convention of the B.C.F.G.A.

'Fresh from the gardens'

Western Canada's Air Mail

Early in this new year of 1930 there will be inaugurated Canada's first all night air mail route, thus marking another advance in the Dominion's postal service. Western Canada enjoys the distinction of being the scene of this great undertaking which will at the outset embrace all three of the prairie provinces.

This night air mail will have Winnipeg as its eastern terminus, and Calgary as the western terminus, while Regina will be the central divisional point where the 'planes will meet and transfer mails, passengers, and air express. From Regina also, at a later date, will start the night air mail for Edmonton via Saskatoon and North Battleford, and at the Saskatchewan capital the Edmonton 'planes will make connections with those from the east and west.

Citizens of Regina are fully alive to the importance of this development, and at the recent municipal elections overwhelmingly approved of a money bylaw providing for the expenditure of $100,000 on the municipal air harbor. This is by far the largest sum yet appropriated by any western city for the establishment of terminals for the latest of all transportation systems, but, whatever the people of other centres may think about it, the citizens of Regina are convinced of the future of air transportation.

The municipal airport at Regina is being laid out on a big scale and in a comprehensive way under the direction and advice of experts. A large block of land has been set aside for the purpose, streets running through it closed, runways for the taking off and landing of 'planes from various points of the compass constructed, airdromes built, workshops and filling stations are being provided, telephone connections established, a continual weather report service arranged for, and the whole field brilliantly lighted. Motor taxi services from the airport to the railway station, post office and city hotels will be in operation.

At Regina 'planes will arrive from Winnipeg, Calgary and Edmonton nightly, and from Regina other 'planes will take off for all three cities. Already efforts are being put forth to secure the establishment of a fourth service from Regina to the nearest point in the United States on Uncle Sam's air mail routes, so as to provide for rapid communication with all United States points in the Western and Pacific coast states.

In order to make night flying safe and successful, the air routes to be followed must be illuminated, and the post office department has erected beacons at intervals of twenty-five miles all the way from Winnipeg to Calgary, and in a few months similar beacons will stretch from Regina to Saskatoon and on to Edmonton. A writer in an Eastern paper thus describes what a passenger on a night air mail 'plane will experience, starting from Winnipeg.

"As you leave behind the lights of the Winnipeg airport, then the blazing highways of the city, you see below darkness, broken here and there by the glimmer of small settlements and suburbs of the city. As the 'plane climbs higher, you become aware of crawling animals below, their two small eyes classify them as automobiles, and you know that below lies one of the provincial highways. A few minutes out of the lighted district and far ahead a peculiar light blinks. You watch it carefully, draw nearer to it, and see that it is a revolving light, a beacon, turned upwards. Somewhere below it in the darkness another colored light winks at you. That is the marking on the beacon. It tells the pilot where he is on the course. You pass the light, look back and see that it goes on winking. Then a little later another light blinks at you. If you ask the pilot he will tell you that these are the first light beacons on a Canadian airway, that they are of two million beam candle power and revolve six times a minute. They are the aerial lighthouses.

"Towns pass below, their lights marking them, and with the aid of the map which the pilot has given you, it is not difficult, if you are watchful, to know your whereabouts. The pilot explains the marking signals on the beacons and you can follow the course yourself."

And so on, passing over the Parliament Buildings to land at Regina's modern airport, where a scene of activity will be found to prevail as passengers alight, mails are unloaded or transferred for Calgary or Edmonton and intermediate points, the 'planes are refuelled, and with but a short delay are zooming their way to their several destinations.

Undoubtedly, the inauguration of this all night air mail service in Western Canada, and the enormous saving in time effected in the delivery of important mail matter, will be one of the outstanding events of 1930, the forerunner of night flying air mail 'planes all over the Dominion.

From 40 to 50 feet a day is rated as a fair distance in digging a tunnel through a mountain.

A man is sane morally, at thirty, rich mentally at forty, wise spiritually at fifty, or never.

It is estimated that on the average 23 new buildings are completed and six torn down every day in New York City.

Glasgow, Scotland, is the second largest city in Great Britain.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggistore.

To Hold Reunion

Ex-Students Of Manitoba Agricultural College Will Meet At Regina

Ex-students and graduates of Manitoba Agricultural College now residing in Saskatchewan are planning to hold a reunion in Regina about the end of February, probably at the end of the week, during which the meetings of the Western Canada Livestock Union takes place. Details in connection with the reunion are in the hands of an executive consisting of M. J. McPhail, chairman, Isabell Robson, Ruby Creelock, Cliff, Dempsey and W. W. Thomson. It is hoped that a large number of M.A.C. ex-students will make it convenient to attend the Regina reunion which has developed into an annual event. Write M. J. McPhail, care of Livestock Branch, Department of Agriculture, Regina, for details.

RHEUMATIC VICTIMS

Can Find Relief Through Building Up the Blood

Pain is the symptom of rheumatism that every victim recognizes, and he generally attributes the trouble to cold, damp or changeable weather. But doctors know that thin blood is a marked characteristic of the trouble. Trying to cure rheumatism while the blood remains thin and poor, is an impossible task because there is nothing to build on. A tonic like Dr. Williams' Pink Pills that enriches the blood and frees it from poisonous impurities soon banishes rheumatism from the system. So long as the blood is maintained in a healthy condition the trouble will not return. This is not theory. It has been proved in hundreds of cases; here is one:—Mr. J. W. Rose, R.R. 2, Albany, P.E.I., says:—"For some years I was a great sufferer from rheumatism and although I tried a great many remedies, I did not get any permanent relief until after I took Dr. Williams' Pink Pills. The trouble was located mostly in my shoulders, and at times was so bad that my right arm was almost useless. Of course I suffered much pain and great inconvenience. My attention was directed to Dr. Williams' Pink Pills through an advertisement in our newspaper, and I decided to try them. I took the pills according to directions with the result that the rheumatism has left me, and I have never had a twinge of it since. If this meets the eye of any rheumatic sufferer my advice is try Dr. Williams' Pink Pills at once."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Subscribe To Memorial

German Sub Engineer Promises Aid For Welland Project

Many touching incidents have been recorded in the drive for funds in the Welland-Crowland War Memorial campaign, but none as sincere as the promise of support from Fred Zalud, who conducts a small hardware business in the market line, at Welland, Ont. Mr. Zalud served as submarine engineer with the German navy during the entire period of the world war on the North Sea and Atlantic Ocean, and is wholeheartedly behind the memorial project.

Persian Balm promotes daintiness, charm and beauty. It is unrivalled in its magical effect on the skin. Swiftly absorbed by the tissues, it leaves never a vestige of stickiness. Delightfully cool to the skin. Stimulating and invigorating. Softens and makes the hands flawlessly white. Subtly fragrant. Imparts youth and loveliness to the complexion. Persian Balm is the inevitable choice of the woman who cares.

North American Fish

U.S. Bureau Of Fisheries Ships Nineteen Varieties Of Fish For Breeding Purposes

The North American continent, says the National Geographic Society, Washington, has four times as many varieties of fish than Europe. In the last five years the United States Bureau of Fisheries has shipped breeding stock of 19 varieties to foreign countries, some of them having been found to thrive even better in their new element than in their native waters. From Argentina came word that "American trout and bass have thrived so well that there are too many of them."

Scotland and Belgium are the two European countries in which the accordion, which celebrated its centenary this year, are most popular.

Minard's Wards Off Grippe.

W. N. U. 1819

Canadian Doctor Acclaimed By U.S.

Child Mind Concern Of Dr. W. E. Blatz, Mental Hygienist

In at least one department of Mental Hygiene, Canada is admittedly leader on this continent.

Very quietly, during the past few days, leaders in child study in the United States gathered in Toronto to investigate the methods of Dr. W. E. Blatz, professor of psychology, of the University of Toronto, whose study of the mental hygiene of children has in the words of a well-known psychiatrist, "taken him out of the laboratory and into the home and school."

Representatives of such outstanding organizations as the Laura Spelman Memorial Fund, the Julius Rosenwald and McCormack Funds, of Chicago, and the University of Chicago, conferred here with Dr. Blatz, carefully examined his methods, expressed unqualified approval and stated their intentions of encouraging the adoption of those methods in American cities.

The superiority of Dr. Blatz's methods lies in the fact that he works with living material, rather than with theories. For six years he has catalogued and cross-indexed the seemingly insignificant vagaries of pupils at a certain public school in Toronto, and plans to follow these pupils through high school and the University, into the workaday world, gathering material as they go, which may be of value to students of the mind.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

New Technical School

To Be Erected In Saskatoon At a Cost Of $500 000

Saskatoon's new technical school, to be erected at a cost of approximately $500,000, will be built on Spadina Crescent, in the central part of the city, the high school board decided at a recent meeting. Necessary property, west of the Armories, will be acquired for approximately $66,000.

The cost of the technical school is to be divided between the city, provincial and federal governments. The city's share is $250,000, approved in a recent bylaw, and the two governments will contribute $125,000 each.

Minard's for the Ideal Rubdown.

Shipment Of Live Mink

The largest shipment of live mink ever sent from St. John, N.B.,—and perhaps from any other Canadaian port—to Europe left on the S.S. Montcalm, for Germany, December 12th. There were 240 animals in all, two-thirds of which were males. Ninety-six silver foxes from Prince Edward Island also were conveyed on the same vessel.

Additions To Canadian Navy

Royal Canadian Navy Strength To Be Increased By Two New Destroyers

The expenses of the Royal Canadian navy ran to $1,836,487.65 during the fiscal year ending March 31, 1929, according to figures published in the annual report issued by the Deparment of National Defence.

The total strength of the navy during the year was 94 officers and 616 men. The strength of the Royal Canadian Navy volunteer reserve, at the end of the fiscad year had a strength of 62 officers and 795 men.

The placing of contracts for the construction of two new destroyers also makes a definite advance as heretofore no new ships have been commissioned for service in the Royal Canadian navy.

The report mentions elsewhere, that the cost of these two new ships the Saguenay and the Skeena, which are to be delivered in 1931, will be $3,350,000, including armament.

Drives Asthma Before It. The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relief-giving remedy shows how actual and positive is the succor it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

Girls who work in Japanese mills receive, on an average, the equivalent of $15 a month in wages.

A Good Idea

is, to treat all sore throats, bronchitis, croup, bronchitis cough, whooping-cough and tonsil ills with "Mrs. Sybilla Spahr's Tonsilitis," good results or money back. you can't lose, try it. $1.50 post paid. Agencies wanted.

GENERAL SMUTS HAS FAITH IN THE WORK OF LEAGUE

Ottawa.—The League of Nations and its astounding development along lines never contemplated by those responsible for its establishment furnished the theme of an interview accorded by General Jan Christian Smuts, former prime minister of South Africa, to newspapermen who called upon him at the home of Sir Robert Borden, war-time premier of Canada. The distiguished South African reached Ottawa on his first visit to Canada, and will be Sir Robert's guest during his stay.

Soldier, statesman and scholar, General Smuts is one of the romantic figures of empire history. In arms against Great Britain thirty years ago, he is now one of the bulwarks of British authority and one of the strongest protagonists of the British connection. General Smuts recalled the Boer War to the newspapermen somewhat whimsically. According them permission to smoke, he himself refused the offer of a cigar, asserting his own non-smoking disposition.

"I haven't smoked for 30 years," he said with a smile. "Not since you Canadians and the British made tobacco so expensive and so hard to get during the Boer War."

"How do you square your conscience with that attitude and the general desire of South Africa to boost its tobacco products?" asked one of the reporters.

"My conscience doesn't trouble me on that score," replied General Smuts.

During the late war General Smuts served with Van Deventer in German South Africa and was later transferred to East Africa to command the British in succession to General Sir Horace Smith Dorrien. This campaign he successfully prosecuted. Recalling this phase of his distinguished career, he declared that his recent meeting in London with his old enemy and friend, General Von Lettow-Vorbeck, who had commanded the German forces in East Africa, was one of the greatest things he had ever experienced.

"I believe a reunion of that character will do a great deal of good, for it will indicate more than anything else the changed mentality of the world."

"I am here under the auspices of the League of Nations primarily," said General Smuts, in answer to another question. "But I welcomed the opportunity to visit Canada and the United States for the reason that I have not been on this continent before."

He will visit Montreal, Toronto, New York, Boston, Philadelphia, Washington and Cincinnati.

"The League of Nations," he said, "has developed along lines that were totally unforeseen by those who established it ten years ago. It is like a tree. You plant a seed, but you have no indication just in what fashion that seed will grow. So with the league. We did not foresee ten years ago just the form it has taken today. But its greatest value has lain in the fact that it provides a forum in which the representatives of the nations can sit around the table and discuss their problems. More than that, it makes this practice habitual. And once you get people talking out their troubles around the table, then the war mentality disappears.

Cannot Purchase Seed Oats

Department Of Agriculture In Saskatchewan Reaches Limit Of Authority

Saskatoon. — "The Saskatchewan Department of Agriculture has reached the limit of its authority to purchase seed oats," says a letter received by the United Farmers of Canada from the field crops at Regina.

"If, however," says the letter, "any of your members wish to submit their holdings with a view to any possible subsequent purchases, they should submit a full quart sample to the office of the field crops branch and at the same time send a sample to the Dominion Seed Branch, at Saskatoon, for a germination test.

W. N. U. 1819

A New Year's Tragedy

Seventy Children Perish In Moving Picture Theatre Fire, In Scotland

Paisley, Scotland.—With 70 of its children dead, 11 fighting for their lives, and 25 others in hospital, this drab factory town faced the New Year with a broken heart.

Gone was any feeling in festivties. Not even a message of sympathy from the King and Queen could help much. There was a promise of three investigations into the recent tragedy, in which so many children came to grief during a fire panic at the Glen Cinema, but this could not put joy in bereft homes.

A movement was started here and in London for a relief fund.

Relentless rain beat down all day upon Paisley. It began last night while yet frantic parents fought to enter the mortuary and identify their dead. It beat down on Paisley Square, where at midnght, true to Scot traditions, a little group of men and women gathered to sing "Auld Lang Syne" as the clock struck 12. The voices broke and ended with sobs trailing off in the rain.

It was the tragedy of "door that jammed." The actual cause of the panic is now said to have been the inability of the assistant operator to open a side door when running away with the burning film. Before the door could be opened fumes spread through the building and terrified the children scrambling for the exit.

Firemen and helpers found children on the stage, in the orchestra pit, everywhere, some in their terror tried to climb the moving picture screen. "The scene on the stairway," says Deputy Firemaster Wilson, "made even seasoned firemen shudder. For ten children were packed tightly together in every imaginable position, like a wall of cement bags."

It is considered doubtful if some of the rescued children will ever fully recover from their experience. One little boy was found in a corner with bodies piled above his waist. When firemen reached him he was looking upwards, gesticulating, as if trying to push some horror back with his hands. He still thought he was fighting for his life.

India Nationalist Congress

Serious Split Occurs In Ranks Of Followers At Gathering, At Lahore

Lahore, India. — A serious split arose in the ranks of the all-India Nationalist Congress as the gathering concluded amidst cries of "bandematram" (hail the Motherland).

Under the leadership of Srinivasa Aiyengar and Subash Bose, 30 members of the Congress walked out and, in a protest meeting, formed a "Democratic" party within the congress.

The minority had demanded representation on the new working committee and when the congress adopted the list as a whole, the disgruntled members walked out, one delegate remarking that the committee could scarcely complain, since the congress had sanctioned such walkouts from the legislative councils.

The dissentient group announced that the work of the congress would be carried on by them in principle.

The congress, however, elected the list as proposed by Mahatma Ghandi, Nationalist leader, omitting the names of Srinivasa Aiyengar and Subash Bose. Ghandi, in the congress, had urged the new working committee should include only those who were entirely sympathetic toward the congressional parliament.

In his final address to the congress, President Jawaharlal Nehru precipitated the "hail the motherland" cry from 15 000 throats when he declared that India's cry for independence has already resounded throughout the world, and that Indians beyond the borders of their country are now enabled to hold their heads high.

Soviets Abolish New Years

Moscow.—Business as usual was the order for this New Year's Day, which has been consigned to the limbo of "abolished" days together with other holidays and Sundays in the Soviet Union. The New Year's tradition though is too deeply rooted to be wiped out by a legal edict. In thousands of Russian homes the advent of 1930 was hailed amidst merry-making greatly stimulated by the effects of Vodka.

YOUNGEST SON OF KING AND QUEEN

Prince George, youngest son of the King and Queen, who received on December 20, congratulations from his many friends upon his 27th birthday, which marks an encouraging improvement in his health. He recently had been suffering from an indisposition.

Japan Wants Adequate Navy

But Is Not Seeking Equal Parity With U.S. and Britain

Ottawa.—The views of the Japanese Government on the disarmament conference, to be held this month, were expressed by Hon. I. M. Tokugawa, Japanese minister to Canada, in an interview here. in a succinct manner, Mr. Tokugawa, who recently returned to Washington, outlined the views of his government in the following manner:

"The motto expressing Japan's requirements is adequate for defence; inadequate for aggression," he said.

Japan does not seek equal parity with British or the United States navy. The national conviction of Japan is that her minimum defence strength expressed in terms of ratio is 70 per cent. of the strength to be maintained by the strongest navy.

Japan is opposed to the abolition of submarines, the minister declared. In the first place, submarines are a type of warship necessary for the defence of a nation having an inferior naval strength.

Japan is willing to abandon the existing program for having more submarines than at present, but deems it necessary to retain practically the same strength as she actually possesses.

Carloads Of Farm Ttractors

North Portal, Sask.—A solid train of 35 cars of farm tractors in the C.P.R. yards here attracted considerable attention. The big shipment totalling 140, four to a flat car, was shipped from Charles City, Iowa, by the Iowa Oliver Farm Equipment Co., and destined to farm implement agencies in Calgary, Lethbridge and 30 Albertan towns. A second train load will follow the middle of January.

Sixteen Executed Last Year

Ottawa.—According to official figures just made public, 16 people were executed in Canada last year—seven in Quebec, four in Ontario, three in Saskatchewan, one in Alberta, and one in British Columbia.

Will Discuss Many Subjects

Private Members Of Federal Parliament To Take Active Part In Next Session

Ottawa.—Parliament at its coming session faces an unprecedented variety of subjects for discussion. The speech from the throne, the tariff, the budget and estimates—all milestones in the progress of each session of Canadian parliaments—will naturally be debated. But in the millions of words which are uttered between the time parliament convenes and prorogues, private members purpose at the approaching session to play a considerable and diversified part in discussions.

Nationalization of the supply of radium; increased subsidies to the maritime provinces; establishment of chairs of international peace and interantional scholarships in Canadian universities; continuation of Dominion assistance to technical education and to highways; Dominion grants for provincial health units; early development of the St. Lawrence waterway by treaty between Canada and the United States; curtailment of assistance to immigrants; proposal that estimates be considered by special standing committees before submission to committee of the whole and interim credits for agriculture—all these are scheduled for discussion on the floor of the House of Commons at the session to open in February.

The Canadian Conscience

Dominion Exchequer In Receipt Of Money From Anonymous Senders

Ottawa, Ont.—The Canadian conscience is improving. The year 1929 will mark payment into the Dominion exchequer of more than $500 in conscience money. Two dollars is the usual amount gnawing at the conscience of the sender.

From east, west, north and south, with only the post office stamp indicating the place origin, envelopes containing "conscience money" have been reaching the department of finance. The sender takes little or no chance of his identity being disclosed. Government officials never seek to find out.

Bills are usually wrapped in blank note paper. Seldom, if ever, is the nature of the indebtedness revealed by the sender. But, occasionally, a terse note with the words customs on smuggled goods or income tax accompanies the money.

New Year's, Christmas and Easter are the greatest "revenue" periods for Canada from this source.

Finds New Territory

Australian Explorer Discovers Unknown Land In Antarctic

Montevideo, Uruguay.—The government radio service has announced receipt of a message saying that Sir Hubert Wilkins, Australian explorer, had discovered territories previously unknown in his last flight over the southern Polar ice cap. Details of the new lands were not given.

The message came from the steamer "Melville" which carried the explorer to Deception Island, which he uses as his base.

POSTPONED HONEYMOON

Grahame Longley, mechanic of the leading MacAlpine rescue 'plane, is one man who kept his bride-to-be waiting and got away with it. The wedding had to be postponed twice while the groom searched the frozen North for the lost adventurers. He is shown with his bride, the former Irene Kenchington, of Winnipeg, about to board the special train from Montreal en route to England by the Canadian Pacific Liner, "Duchess of Richmond."

TRANS-CANADA AIR MAIL SERVICE MAY SOON COME

Ottawa.—Canada is rolling her map northward. The cry to go West is giving way to the call of the north. And, in pushing back the frontier — with untold millions in riches of the Canadian northland as the magnet — the Dominion's air mail service is playing a leading role. More than 1,000,000 miles have been traversed in the closing year of 1929 by Canada's air mail planes. Nearly another million miles in air mail service will be added for 1930 at the opening on February 1, of the Winnipeg-Regina-Calgary air mail route with offshoots to Saskatoon, North Battleford and Edmonton.

To 300 miles within the Arctic circle, Canadian mail 'planes travel. Oil, gold, silver, copper, nickel and fur-trapping centres in Ontario, Quebec and Western Canada today are being served by these aerial mail carriers, making more habitable the bleak wood districts with little or no road. In Ontario's northland, the Red Lake and Narrow Lake mining centres have their regular deliveries of mail by air.

Today, twelve air mail routes are in operation: Montreal-Detroit; Montreal-Albany; Toronto-Buffalo; Montreal-Ottawa; Montreal - Rimouski; Quebec-Seven Islands; Quebec-Anticosti; Moncton-Magdalene Islands; Leamington-Pelee Islands; Narrow Lake-Sioux Lookout; Lac Du Bonnet-Bissette; Fort McMurray-Aklavik; Montreal-Saint John, and Oskelange-Chibougamau.

Two great connecting links which would complete a trans-Canada air-mail service are mooted for the near future, one from Montreal to Winnipeg; the other from Calgary, Lethbridge or Edmonton to Vancouver. Early in the new year Canadian air officials contemplate making a survey to determine the best route from Alberta to the Pacific Coast. This fact lends color to the probability that parliament may be asked at the next session to make the necessary appropriations for these new routes. An air mail service of one business day and two nights from Montreal to Vancouver is the goal.

Canada Exporting More Manufactured Goods

Review Shows Great Increase For Year Just Closed

Ottawa.—Canada is exporting more manufactured and semi-manufactured goods now than ever before. At the same time, largely because of the stoppage in the selling of wheat, there has been a marked decrease in the total volume of exports of raw materials. Annual reviews, setting forth the trade situation have been prepared by Hon. James Malcolm, Minister of Trade and Commerce.

The review points out that industrial activity, measured by exports, was at a record high level in the year just closed. Industrial employment was at a generally higher level than in 1928; construction contracts were at a higher peak than ever before; the aggregate value of cheques passed through chartered banks was the highest in the history of Canada; a new high record of money was invested by the public in life insurance policies and production in basic industries such as iron and steel. Newsprint, coal and coke, mining, automobiles and electric energy all showed substantial increase over previous years.

The minister announces further that while the department of trade and commerce has already done much to supply necessary channels for Canadian manufactures and producers to export their wares, namely, a trade commissioners' service, further extensions in the direction are being planned for the immediate future.

There's a wild streak in Capt. Orlebar who flew the British 'plane 363 miles an hour. He is a croquet addict.

California's orange crop would fill a train of box cars extending from Boston to New York, and six miles beyond.

A curtain was caught in the receiver hook

With service on the six telephone party line suspended, apparently because a receiver was off its hook, a repairman set out from the Hammond telephone office to remedy the trouble. He drove five miles into the country visiting each home on the party line in turn, and as luck would have it, did not find the source of the trouble until he reached the sixth and last house. He found the receiver in its place alright, but a curtain blown from a nearby window was caught in the hook.

CRESTON, B.C., FRIDAY, JAN 10

Dislikes Winter Gravelling

Editor Review:

Sir,—There are some questions I would like to ask throngh the medium of your valuable paper: Why grade frozen streets, and put gravel on the snow to work in the mud or wash away with the spring break-up, Gravel should be put on in summer and pack down so that it does not interfere with the traffic in winter.

Why bring in ranch teams to haul gravel when there are men in town with trucks, paying taxes, who would do the work for half the money.

Why put gravel on the streets and then grade it off, wasting money. To the ratepayers of Creston I would say, by all means put in new commissioners. Thanking you for space.

JUSTICE.

Orchard Run Pack

Editor Review:

Sir,—The compensation of a reporter rests in the knowledge that he is the ears and eyes of a waiting, wider public ever hungry for news. May we add our congratulations for the excellent manner in which you placed the discussion of the B.C.F.G.A. meeting before the farmers of Creston Valley.

In regard to the Oretard Run pack, about which no constructive suggestions were adopted there has developed a considerabls volume of comment. On account of this growing interest we wish to reopen the discussion.

There are are two, outstanding reasons why the Orchard Run pack should be reestablished. 1. The insistent demand for the pack from large prairie buyers—they say it is very acceptable to the prairie farmer, and a car sells readily when there is one price for each variety. 2. A first-class Orchard Run pack has been available to them from U.S. points.

To be satisfactory we suggest the new grade should comply with the following requirements: Description—Should be a box of good apples, permitting a minimum of packing costs, but should not be so good as to compete with Fancy grade. Price—Should be a package of equal value to C Grade.

Mr. Twigg has kindly offered the following resolution as an alternative to the one rejected at the meeting:

Whereas, at present under the regulations of the Fruit Act boxed apples for shipment have to be properly packed in either Extra Fancy, Fancy or Cee gradcs, and

Whereas, there exists in the prairie provinces at country points an increasing demand for boxed, non-graded, unwrapped apples, which shall comprise all the above three marketable grades, and

Whereas, the demand at present can not be suppied by growers of this province under present regulations, and

Whereas, the demand is suppiied by importations from other fruit growing centres, from either Eastern Canada or the Western States across the boundary; Therefor be it

Resolved, that the Orchard Rnn Grade be re-estabiished with the following specifications to govern: Not less than 33 per cent. of the contents shall be Extra Fancy Grade and there shall be no culls. The minimum size shall be 2½inches and the tollerance of this size shall not be more than 10 per cent., and optionai to face; and further that a new grade be established to be called the Jumble Pack which shall consist of 50 per cent. Fancy grade, and there shall be no culls. The minimum size shall be 2¼ inches, and the tollerance of this size shall not be more than 10 per cent.

Constructive criticism is now in order. FRUIT COMMITTEE.
Crestion Farmers' Institute.

Telephone Troubles

Sweeping southern British Columbia on Christmas eve and early Christmas morning a terrific windstorm caused the most extensive tie-up of long-distance telephone service in the B.C. Telephone Company's history. Seventy-five per cent. of the long-distance circuits were put out of order.

Every available outside maintenance man worked all day Christmas restoring the lines to order, and had all of the principal circuit back in service the following morning, Most of the trouble occurred in thickly wooded sections and was directly due to trees being blown down on wires.

All circuits on Vancouver Island and beyond New Westminster on the lower mainland were put out of order. Victoria was telephonically isolated, and Vancouver was cut off from all main points except New Westminster and Nanaimo. All of the most important lines on the Island and on the mainland, between Vancouver and Hope, were restored to service before nightfall, Christmas Day. Circuits to Calgary. Kamloops, Penticton and Nelson, which continued to be in trouble because of snowslides in the Coquihalla Pass, were back in service at 10 o'clock on the morning of December 26. Intermittent trouble on various lines continued throughout that day, bnt the worst of it had been conquered

A Challenge to Canadian Food Producers . . .

Trade Commissioners' Offices in Great Britain

LONDON:
Harrison Watson, Canadian Building, Trafalgar Square, S.W. 1, London, England.
J. Forsyth Smith, Fruit Trade Commissioner, Walter House, Bedford Street, Strand, W.C.2, London, England.

LIVERPOOL:
Harry A. Scott, Trade Commissioner, Century Buildings, 31 North John Street, Liverpool, England.

BRISTOL:
Douglas S. Cole, Sun Building, Clare Street, Bristol, England.

GLASGOW:
Gordon B. Johnson, 200 St. Vincent Street, Glasgow, Scotland.

GREAT BRITAIN wants more Canadian foodstuffs. The plain fact is that the increase in trade in some of our food exports to the old country is not keeping pace with the growth of demand.

Britain's markets are wide open to Canada. Because of the exhibitions of Canadian products, the activity of our Trade Commissioners, and the effects of our advertising, the British consumer is more familiar with these products than ever before, and consequently more inclined to buy. Good will in Great Britain towards Canadian products never has been at a higher point than now. All the facilities of transportation for all classes of products from Canada to Great Britain have been provided.

Shall we Canadians overlook or neglect the opportunities for increased export trade which are thus laid before us?

Just because domestic markets are good, shall we as producers be so short sighted as to fail to satisfy so large a market which is more favourably inclined towards our products than ever before?

Not yet is there among our producers an adequate realization of the opportunities for increased production which present conditions in the British markets afford.

If you are a producer or dealer in foodstuffs, you can assist to your own profit in gaining a larger share of this market. Almost every community in this country stands to benefit. The result can be attained by:

1. Producing more of the kind of products the British consumer wants.
2. Keeping up a constant supply.
3. Maintaining quality standards.

Through its Commercial Intelligence Service, this Department will render valuable assistance to any exporter. Our Trade Commissioners' Offices in Britain are especially well-equipped and strategically placed to handle any export problem on behalf of Canadian exporters. Enquiries regarding British Trade receive prompt attention. Write to the Commercial Intelligence Service, Ottawa.

RADIO FOR SALE—Five-tube Atwater-Kent radio, in good working order, going at a bargain. E. G. Timmons, at Creston Motors.

As will be seen by official notice elsewhere in this issue the court of revision on the 1930 village voters list will be held at the town hall on January 20th, commencing at 10 a.m. Anyone who has paid trade license, poll tax or any other tax to the extent of $5 during 1929 is entitled to have his or her names on the voters list.

For better eyesight see Murdoch McLeod, registered optometrist. Phone F. J. Klingensmith.

Trinity United Church Ladies' Aid had the annual meeting Thursday last, when Mrs. Geo, Cartwright was re-elected president, with Mrs. W. G. Hendy, vice-president. Mrs. W.H Crawford was re-elected secretary, and the new treasurer is Mrs. D. A. MacDonald. During 1929 the Aid made substantial contributions toward reducing the church debt, and also paid for wiring the church for electric light.

The cheque from the provincial treasurer for the village share of the second half of the year's liquor profits as well as the share of the 1929 pari mutuel revenue reached the village treasurer last week but was something over $500 short of the amount expended. This latter amount had been retained to pay the village's 25 per cent. of the cost of improvements on Main street in 1928.

The mild spell that has prevailed for at least two weeks came to an end on Sunday evening when the tail end of an Alberta blizzard prevailed all night and most of Monday morning cooling off the weather noticeably. Another gale was in evidence Wednesday night, and one below zero was recorded Thursday.

The press is giving considerable space just at present giving records of big families, and in this connection Mrs. T. Dickson and Mrs. E. Cartwright have distinction of belonging to the Jas. Arthurs family which numbered sixteen of whom thirteen are still living. Mr. and Mrs. Arthurs were married in 1864, and the mother is still living at the old home near Harriston, Ontario. The total ages of the family still living is 759 years. There are 42 grandchildren, and 22 great grandchildren, the eldest of the latter being 18 years of age.

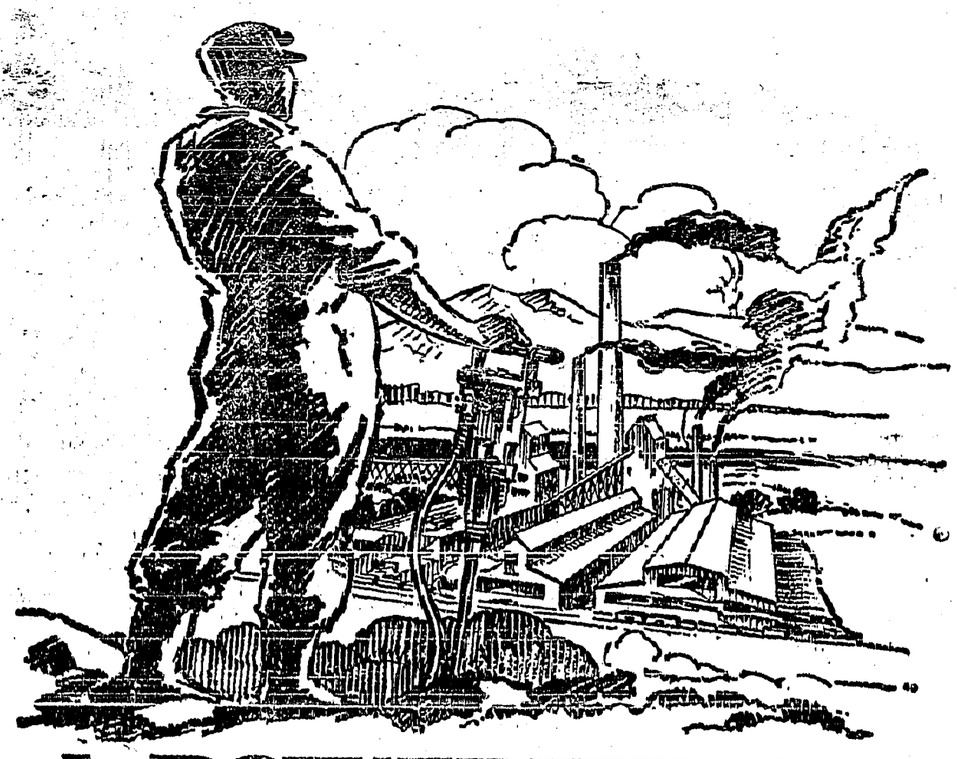
CHAS. O. RODGERS



A POWERFUL AID *to* PAYROLL BUILDING

THE Vancouver Stock Exchange is the machinery which converts capital into mining, oil and industrial enterprises employing Western Canada labor. When investors buy listed stocks, their purchases represent machinery, shafts, roads and camps, smelters, factories, payrolls. The result of such activity is the development of natural resources, the creation of new wealth, thriving wholesale houses, retail stores, farms, prosperous workmen.

The mining industry in this province alone pays annually in wages 30,000,000 and employs 18,000 workmen.

What part does the Vancouver Stock Exchange play in this activity, this enlarging of our payrolls?

The Exchange provides a ready market for securities of value. This encourages the investor to participate in those meritorious enterprises that have contributed to the development of British Columbia, her industries and payrolls.

If no such market were available, investors would be reluctant to place funds in securities which would remain "frozen." The activity of this market represents the public's desire to buy and sell securities and keeps every investor posted as to the cash value of his holdings and the success of the industries those holdings represent.

The Stock Exchange requires that every stock listed on the Exchange be scrutinized as to capitalization, directors, soundness of the enterprise.

Through members of the Exchange, British Columbia's investment opportunities are advertised, world-wide interest of capital aroused.

The Vancouver Stock Exchange thus plays its part in creating confidence and in diverting capital to British Columbia enterprises. The Exchange is a powerful force in increasing your prosperity, in building payrolls.

V.S.E. 1-2-30

This advertisement is published by Members of the Vancouver Stock Exchange in order to disseminate information concerning the functions of a Stock Exchange and the Business of Buying and Selling Securities.

3075

The deep pointed effect of hipline is outstandingly smart in all-day dress of printed Rayon crepe in reddahl'a tones, so charmingly youthful.

The collar and cuffs are of white crepe de chine daintily embroidered in dahlia shade around edge, a new note of Paris. They are also very smart made of white piquc.

The narrow shoulders have pin inverted tucks. The molded bodice assures desired sleekness to wearer. The skirt starts to flare well below the hips, with graceful fluttering fulness at hem.

Style No. 3075 can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It makes up attractively in sheer woollens in tweed in new bright coloring covert cloth in plain or self-checked pattern, wool crepe, and kashmir printed wool jersey.

It also adapts itself lovely to the supple silks in flat crepe, crepe de chine and faille silk crepe.

In black crepe satin it suits every demands for the socially busy woman. The collar and cuffs may be made of the dull side of the crepe or of contrasting shade as jade green, chartreuse, lemon-yellow or white.

Printed sheer velvet with canton crepe collar and cuffs is smart.

In plain transparent velvet with collar and cuffs of lace or metal cloth is luxuriously smart, either in black, bottle green or Independence blue.

Pattern price 25 cents.

Deaf Hear Again Through New Aid

Earpiece No Bigger Than Dime Wins Enthusiastic Following Ten-Day Free Trial Offer

After twenty-five years devoted exclusively to the manufacture of scientific hearing-aids, the Canadian Acousticon Ltd., Dept. 204c, 45 Richmond St. West, Toronto, Ont., has just perfected a new model Acousticon that represents the greatest advance yet made in the re-creation of hearing for the deaf. This latest Acousticon is featured by a tiny earpiece no bigger than a dime. Through this device, sounds are clearly and distinctly transmitted to subnormal ears with wonderful benefit to hearing and health alike. The makers offer an absolutely free trial for 10 days to any one person who may be interested, and a letter will bring one of these remarkable aids to your home for a thorough and convincing test. Send them your name and address today.

British Nobility Farmers

About Fifteen Thousand Acres Of Alberta Farm Land Held By British Nobility

About 15,000 acres of farm lands in Alberta are now owned by titled members of the British nobility. Of these, the Duke of Sutherland carries the largest holdings. The Duke of Sutherland and the Sutherland Land Company owns 9,202 acres.

Earl Minto is the second largest holder, with 1,908 acres. He is closely followed by the Prince of Wales, whose famous E.P. ranch consists of 1,655 acres. In adition to this, however, the Prince leases another 1,440 acres, so that his total holdings are 3,005 acres, which brings him, actually, into second place.

Lord Cheylesmore has 1,380 acres to his name in Alberta, and Lord Rodney, 618 acres. The Earl of Egmont still holds 320 acres near Priddis, in Southern Alberta.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Eclectric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Eclectric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Ideal Air Port

City Of Moose Jaw Claims To Have One Of the Ideal Airports Of the World

The Moose Jaw Board of Trade claims for its city the possession of one of the ideal airports of the world. It points out that the soil of the field is black loam with gravel subsoil, therefore free from the conditions which invariably obtain after heavy rains. The field has a natural drainage, is virgin prairie, absolutely even, and is an ideal, all-weather site. No quagmires are possible and large, heavily loaded machines experience no difficulty in taking off at any season.

Devotional Reading: Psalm 32.1-7.

Explanations and Comments

The Baptism Of Jesus, 3.13-17. — After the return from Egypt, Jesus lived thirty years in Nazareth. Then, when John was baptizing, He came from Galilee to the Jordan to be baptized by him. In great surprise John exclaimed, "I have need to be baptized of Thee, and comest Thou to me?" But Jesus answered that it was fitting for them to fulfill all righteousness. John's baptism was "of repentance unto the remission of sins"; why then did the sinless Jesus submit to the rite? His baptism was (1) a public endorsement of John as a messenger of God; (2) the baptism was of God (Matthew 21.25), hence He submitted to the righteous ordinance; (3) it was a rite which He later enjoined on his followers and therefore He would, Himself, submit to it; and (4) it was for Him a formal setting apart, a consecration, for His great mission.

As Jesus was baptized and went up from the water the heavens were opened unto Him. The open sky was a revelation to Jesus of spiritual forces that lay within His reach. "It was just as when Newton discovered the law of gravitation—heaven was opened to him; so Jesus saw the heavens open.—F. B. Meyer. And He saw the spirit of God descending as a dove, and coming upon Him: by these words we are told that He was filled with the spirit of God, and consecrated to His ministry. And He heard a voice out of the heavens, saying, "This is my beloved Son, in whom I am well pleased": in greater measure than before Jesus realized now His divine Sonship and His Father's pleasure. In the words of Dr. G. A. J. Ross, the self-consecration of Jesus was rewarded as is ours today by a clearer vision of the purposes of God, by a quiet consciousness of endowment with God-given capacity for His work, and by a vivid sense of holy and filial intimacy with the Divine Being Himself. The Gospel records and our own reflection assures us that Jesus must have learned who He was little by little. The statement that He increased in wisdom is certification of this. And now the moment is one of crisis. A great new, marvellous truth has entered into His life, and He is saying over and over to Himself, trying to understand it in the fullness of its infinite meaning, 'I am the Messiah! I am the Christ! I am He for whom society has all along been looking for and waiting! I am come in answer to the prayers of the ages! I am the Servant of the Highest, the Ambasador for Heaven, the Son of God, the Saviour of the world!'"

Baptism is a rite expressive of consecration. The baptism of infants expresses the parent's dedication of their children to God. The baptism of adults is their own expression of consecration of themselves to God. "If there is no consecration, the baptism is an empty, idle, unmeaning form; if there is consecration, the baptism is its fitting expression."

Logging In Northern Alberta Is Slack

Lumber Carried Over From Last Year Slows Up Work

Logging will be slack in northern Alberta this winter and there will not be the usual stir at the lumber camps. According to the manager of one lumber company, not more than 25 per cent. of the ordinary winter's logging will be done this coming season. The chief reason given for this is the enormous carry-over of lumber from last season.

This carry-over is due in large measure to the dry summer and consequent reduction in the wheat yield. The lumber business was dull all summer as a result of a drought affecting the farmers' building operations, many farmers having cancelled their plans for new buildings when the crops began to show the full effects of the dry summer.

Besides this there was a much smaller program of elevator-building in the country than in 1928, which was a record year. One big lumber firm states that its carry-over is 15,000,000 feet, the largest in the company's history.

Enough cars were produced in the first nine months of 1929 to lay all pedestrians end to end.

Opportunity knocks but once. That subsequent knocking you hear is done by your friends.

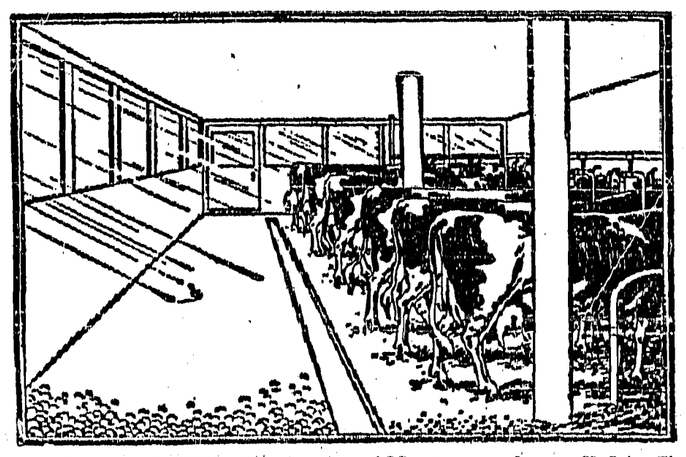
WINDOLITE *The Improved Glass Substitute*

MADE IN ENGLAND



COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold —will not crack or chip.—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price $1.50 Per Square Yard, f.o.b., Toronto.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, marries Molly Winton, a ballad singer, not knowing he is loved by Grace Farrel, a loyal little c'garette girl. After Al wins fame as a composer of popular songs, Molly elopes with John Perry, tak'ng her baby, Junior, as she sails for France. Al, broken by the loss of his son, becomes a derelict, but is saved by Grace Farrel. Molly obtains a Paris divorce from Al, but Perry deserts her. Junior is taken ill. In New York Al scores a success as a revue singer and plans to marry Grace. The couple arrive at the theatre one night happy because of the news of Molly's divorce.

CHAPTER XXIX.

They were both radiant as they approached the doorkeeper.

"How are you, Shakespeare?" called Al, clapp'ng the old man on the back. Then, quick as a wink, he snatched the chewed stub from the doorkeeper's mouth and replaced it with a four bit perfecto. The oldtimer smiled delightedly and saluted as Al and Grace went on into the theatre.

A group of chorus g'rls, hoofers and singers, who went on early, were already standing near the wings, gossip'ng and laughing. They turned to greet Al and Grace.

"Pretty soft for the little old blackface comedian, strolling in here at show time, and doesn't have to go on until nine," said a vivacious soubrette, smiling gaily.

"Soft is right," agreed Al, "You dont tnink I'd be in this revue if there was any hard work to do?"

The soubrette laughed. She and the others knew that Al was really the hardest worker in the show. He linked h's arm familiarly in that of the little singer, pretending to glance apprehensively toward Grace.

"Let's step out ton'ght—you and me!" he remarked, sotto voice, to the soubrette. "Supper — wine—music — eh? What do you say?"

Again he looked toward Grace, but she only stuck out her tongue at him ever so slightly and refused to become jealous.

Meanwhile, the soubrette had drawn away in mock hauteur. "Sir, I don't know you. Besides I've an engagement after the show w'th four great big oil-and-money men from the southwest."

"That's three too many," said Al l'ghtly and, slipping his arm around Grace, he strolled on toward his dressing room.

He was in good humor tonight, not only because he realized that he and Grace were soon to be married, but because he had at last persuaded Grace to leave Blackie Joe's. She had hung onto that job of hers at Black'e's like grim death, refusing to give it up until recently.

"I'd feel lost w'thout it, Al," she had said when he first broached the subject of her leaving. "Besides, I feel loyal to Blackie. He's looked after me and protected me."

"Yes," said Al, "but you've been there four years. That's long enough. Blackie will hate to lose you, but he'll be good about it. I want you to have some rest."

So Al had his way; just today Grace had said good-by to Black'e's and given up her tiny room in the Waverley Place lodging house to move uptown to more palatial quarters.

As they headed through the backstage corridors a page hurried up to Al.

"A lady wants you on the 'phone, Mr. Stone."

"A lady," repeated Al. "What is this strange power I have over women? Was it a blonde or a brunette voice?"

The page boy grinned while Al went off to answer the 'phone. Grace strolled slowly after him, wonder'ng who was calling. She saw him pick up the receiver and hear him say casually.

"Yes, th's is Mr. Stone speaking. who's this?"

Then Grace saw a pained, almost bitter expression pass across his features. His face went pa'e and he clapped h's hand over the transmitter and turned to whisper:

"It's Molly."

A stab of pain shot through Grace. Had her fear that Molly would turn up to make trouble come true? Al drew back from the 'phone as if he would hang up: then he reconsidered.

"What is it?" he asked coldly.

Grace saw him nod, then he hung up the receiver and turned to her again.

"Molly says to come to the Good Samaritan Hospital as fast as I can."

"Why?"

"She didn't say. Simply that, and hung up. I wonder if it's a trick of some kind?"

Grace's eyes narrowed; her heart was throbbing hard and fast. But she forced herself to say:

"You ought to go, Al."

"I suppose so. Yet every time Molly has come into my life it has meant misery."

Yes, but—" Grace paused. "Do you th'nk there's anything the matter with your boy?"

The suggestion electrified Al into act'on. "I'll go! And you wait here, Grace. I'll be right back." He ran toward the stage door. When Grace reached it he was already in his car and the motor was whirring. She saw him shoot down the alley and out toward the lights of Broadway.

It was the theatre hour — the streets were loaded with traffic. It seemed to Al that he would never be able to force h's way through the jam. But finally he did work out of the theatrical section and went speeding along a quieter street, then out the Avenue.

How d'd Molly happen to be in America so quickly after her divorce; why had she called him; was Junior ill? These questions and a swarm of other queries raced across Al's mind. He sat at the wheel, with grim face and fixed, tortured eyes. Sheer force of habit took him through the traffic unscathed.

He recalled Jun'or as he had seen him last on that memorable afternoon in the park, roly-poly and the picture of health. It seemed to himself impossible that anything trag'c could have happened to his beloved child. Surely Grace was wrong.

But Grace was right. In a tiny bed at the Good Samaritan lay Junior, his eyes l'stless, his face wasted and as white as the sheets, except for a tiny crimson spot on each cheek.

He roused himself, finally, and whispered to Molly, who hovered over him:

"Is Daddy coming? I want my Daddy?"

Molly had been standing by Junior's bedside, rigid with fear. As he spoke she leaned over qu'ckly and touched his tiny, thin fingers.

"Yes, darling, Daddy will be here soon. He's on h's way. Just a few moments and you'll see him."

Junior turned away from her with a sigh and his eyes closed, as if the strain of his question had taken h's fast-ebbing strength. He did not see the expression of agony on his mother's face and her tears that fell unchecked on the coverlet.

Now the doctor came forward and tapped Molly on the arm. She followed him from the l'ttle white room into the hallway, clasping her hands before her as she gazed beseechingly up into his eyes. Her face was aged by the terr'ble experiences she had lived through during the past few weeks.

"Is there any hope?"

"I'm afraid not," said the doctor gently. "The thing has made too much progress — his lungs are almost entirely gone. He hasn't the strength to fight the disease."

Molly turned away, sobbing convulsively. She didn't want to hear details if there was no hope. She realized only too well that her own neglect of Junior had started h'm toward this tragic condition. After Perry's desertion of her in France she had reclaimed her boy, but it was too late. She had seen him waste away before her eyes, in spite of all the French doctors could do. Finally, in a panic, she had raced to Cherbourg and taken a fast l'ner to America. Then another race to the hospital when they arrived in New York the night before. Not until the terrible fear seized her that Junior was really dying did she call Al.

She glanced out the hallway window to see a sport car swoop up the street to the curb and stop. Al jumped out and ran toward the hospital entrance. Molly met him.

(To Be Continued.)

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did." —Mrs. Milton McMullen, Vanessa, Ontario.

Canada and Air Traffic

All Air Highways Of Northern Hemisphere Will Pass Through Dominion

Addressing the Canadian Club, of Montreal, on expand'ng trade prospects in Canada, John W. Dafoe, managing editor of the Man'toba Free Press pointed out that, "all the air highways of the northern hemisphere pass through Canada, not the United States. The route from New York to the cities of Asia will pass, not through San Franc'sco or other ports of the Pacific states, but over the Canad'an border up to Toronto and then north to Nome. The route from the central states to Europe will go north to Winnipeg." He added that not certain sections of Canada but the whole of the Dominion would benefit by the air traffic in question.

Queer Animals In Zoo

In the "Aye-Ayes," the old London Zoo has a pair of the weirdest animals in the world. They have been referred to as the animal night mares. They are about the s'ze of a cat, have large, bushy ta'ls and a head resembling that of a bat. The body is covered with long, streaked fur. Its middle finger resembles that of a human. They are great egg eaters.

Falling Hair—Just try Minard's.

Drought-Resisting Animals

South African Sheep Manage In City Without Water For Three Years

A flock of 600 sheep on the South African Government farm at Graaff Reinet, have just had their first drink of water for three years, but many, having lost their taste for it, turned away disgusted.

These sheep have been the subjects of prolonged experiment as drought-resisting animals, and during the whole period they have been fed on oil cake and prickly pear only, without any form of liquid.

It has been found the prickly pear —which hitherto has been regarded as a grave menace to farmers in South Africa and Australia, where thousands of acres have been ru'ned by it —contain all the necessary moisture to sustain l'vestock indefinitely.

During the three years lambing and the wool yield have been perfectly normal.

DO NOT NEGLECT YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The ills of little ones come quickly and unless the mother is prompt in admin'stering treatment a precious little life may be snuffed out almost before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest as a safeguard against the sudden illness of her little ones. Thousands of mothers have found through experience, that there is no other med'cine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets on hand — why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concerning them, Mrs. Isaac Sonia, St. Eugene, Ont., wr'tes:—"I have been using Baby's Own Tablets ever since baby was a month old and have found that they reach the spot and do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Hurdy Gurdy Must Go

The picturesque hurdy-gurdy and its monkey are doomed on the streets of Havana, Cuba. The mayor has issued an edict barr'ng them from the city streets. It has been decided that the organ grinder and his monkey fall under the ordinance which prohibits unnecessary noises on the streets.

Little Helps For This Week

"Thy kingdom come." — Matthew vi. 10.

Thy kingdom come with power and grace
To every heart of man;
Thy peace, Thy joy, Thy righteousness,
In all our bosoms reign.
—Charles Wesley.

The kingdom of heaven is not come when God's will is our law; it is come when God's will is our will. While God's will is our law we are but a kind of noble slaves; when His will is our will we are free children.

Philamon had gone forth to see the world, and he had seen it; and he had learned that God's kingdom was not a k'ngdom of fanatics yelling for a doctrine, but of willing, loving obedient hearts.—Charles Kingsley.

Lake Winnipeg Whitefish

Research workers and biologists are interesting themselves in the whitefish shortage in Lake Winnipeg. They claim that this water can support 90,000,000 whitefish, whereas it has only approximately 6,000,000.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

A technicality often gets an innocent man in trouble and guilty one out.

Dragon flies eat mosquitoes.

Needless Pain!

Nowadays, people take Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Aspirin tablets are absolutely harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but you can always turn to an Aspirin tablet for relief.

Aspirin is always available, and it never fails to help. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

CORPORATION OF THE

Village of Creston

Voters List Revision

NOTICE is hereby given that a copy of the Voters List for the Village of Creston for the year 1930 will be posted at the Municipal Hall, on Monday, January 13, 1930, where it may be examined. And notice is further given that on Monday, January 20, 1930, at 10 o'clock a.m. Town Time, at the said Municipal Hall, a Court of Revision will be held for the purpose of finally revising the said Voters List for the current year. All persons interested are requested to take notice and govern themselves accordingly.

E. F. ARROWSMITH,
Municipal Clerk.

Creston, January 8, 1930.

T. W. Lytle, watch repair shop open. Play safe! Bring your repair work to me.

Col. Mallandaine was a business visitor at Nelson a couple of days this week.

FOR SALE—Baby puggy, in good condition. Mrs. W. B. Martin, Creston.

Creston skating rink opens for the season tonight. The ice is in splendid condition.

The annual meeting of Christ Church congregation is being held in the Parish hall this evening.

Special children's service at St. Stephen's Presbyterian Church on Sabbath, January 12th.

B. Morubito was combining business with pleasure on a viist to Nelson the fore part of the week.

COCKERELS FOR SALE—Six White Leghorn cockereis from R.O.P. stock. Mrs. Angus Cameron, Erickson.

Mrs. Issacs of Moosejaw, Sask., arrived at the end of the week on a visit with her daughter, Mrs. John Garfield.

The local Scotch were in conference on Monday night, and the oldtime Burns' night celebration is likely to be revived this year.

Miss Wade, teacher of Division 3 of the public school, who spent last week on a holiday visit at Cranbrook, got back on Saturday.

Now that the village collects its own trade licences the province's revenue from this source in this district is cut to $140 for 1929.

The annual meeting of the board of trade will be held at the town hall on Tuesday night. Col. Mallandaine is the retiring president.

The annual meeting of Creston Farmers' Institute is called for Tuesday night t the town hall. Don. Bradley is the retiring president.

Creston Motors have just completed excavations for an additional 500-gallon gasoline tank and in future will carry both makes of gas.

W. M. Vance of Nelson, a former manager of Creston sub-central of the Associated Growers, is renewing acquaintances in town this week.

$6650.40 was collected at Creston office of the provincial police for motor licences during 1929. A little over $2000 of this was paid in January last.

The afternoon of Saturday, February 15th, has been taken by the Presbyterian Ladies' Auxiliary for their usual St. Valentine tea and sale of cooking.

The village council meets in January session on Monday night, at which arrangements will be made for the election of new commissioners at the end of January.

Former chief provincial constable E. Gammon of Nelson was renewing acquaintances in Creston at the weekend. He was recently dismissed from the police service

$178.40 was collected in amusement tax by the local office of the provincial police for 1929. With no Chautauqua last year the total shows a considerable reduction.

Village auditor A. Spencer is at work preparing the village balance sheet which is to be issued early this year in view of there being an election of commissioners in 1930.

All the teachers out of town for vacatione returned on Sunday and the high and public schools opened for the long winter term on Monday morning with a full attendance.

Creston Valley Rod & Gun Club had a large turnout at the annual meeting on Monday night, at which Chas. Sutcliffe was re-elected president. A full report of the meeting will appear next week.

W. K. Brown is on the rounds of Valley points as representative of the well known Layritz Nursery Company, and can suppiy you with anything in the line of fruit trees, ornamental trees, shrubs, etc.

Creston Farmers' Institute annual meeting which takes place on Tuesday, January 14th, will be held in the village municipal hall, instead of the secretary's office as stated in the notices sent to members.

Rev. A. Garlick returned from Cranbrook on Friday to which town he had gone the day previous to conduct the funeral of one of his parishioners who died at Yahk and was buried in the divisional city.

Colder weather set in on Sunday evening and if the cold snap holds curling will be in full swing next week. Icemaker W. Muir has been working night and day to have the ice ready at the earliest possible date.

Most everyone in the village got a letter on Saturday, when the annual school tax notices came to hand. The tax rate this year for educational purposes is 12 mills, which levy is required to raise the $8500 requisitioned for school purposes.

The Presbyterian Ladies' Auxiliary had their annual meeting at the home of Mrs. Fransen on Friday afternoon; at which Mrs. J. W. Dow was re-elected president; Mrs. (Rev.) McNabb, vice-president; Mrs. M. J. Beninger, secretary; and Mrs. C. H. Hare, treasurer.

The Ladies' Guild of Christ Church are holding a masquerde ball in the Parish Hall on Friday evening, January 31st. Prizes for the best ladies' and gents' fancy costumes, and best ladies' and gents' comic costumes, also the most original costume. Costumes to be homemade. Admission 75 cents, which includes supper.

The long expected electric street lights were turned on for the first time on Sunday evening, and a 24-hour service is being maintained from the Deisel engine plant on Victoria Avenue. It is announced that the present street lights are only temporary and that very shortly the curved iron brackets and globes with shades will replace the present wooden fixture. 30 lights are in use and are evenly distributed in all parts of the village.
