VOL. XXII. CRESTON, B. C., FRIDAY, MARCH 14, 1930 No. 2

12 Mills Village 1930 Tax Rate

Council has After-Midnight Session in Effort to Dispose of Great Variety of Business—Warning re Dog Licenses.

The hands of the town clock were considerably ayont the twal before the regulation motion to adjourn was reached at the March session of the village council Monday evening. The chairman, F. H. Jackson, presided, with Commissioners Dr. Henderson and T. M. Edmondson in atteneance.

A considerable part part of the lengthy session was taken up with consideration of correspondence, which dealt with a great variety of subjects including one from A. E. French asking for an amendment to the Hours of Closing By-Law, which would close barber shops at 6 p.m. except Saturday evenings. Mr. French and Mr. Winchcombe, who operate the local tonsoral parlors, will be asked to attend the April council meeting to fully discuss the matter.

W. G. Hendy, secretary of the reorgans ized fire brigade, wrote stating the brigade of ten members is made up of Matt. York, chief; Ardrey Wilson, vice-chief; W. G. Hendy secretary. and M. R. Joyce S. Steenstrup, A. H. McKay, Albert Davies, jr., M. J. Boyd, J. P. Johnston and E. Winchcombe. The clerk will inform the brigade that the council is prepared to confer with the fire fighters provided all the gentlemen mentioned have agreed to serve as firemen.

C. O. Rodgers wrote notifying that he would look the council to reimburse him for all expense he is put to in connection with the flooding of the lot at the rear of the theatre, said flooding being due to the removal and filling in of a culvert that formerly carried off the surplus water at that point. Cousideration will be given the request of the agricultural association for a grant of $250 to carry on the 1930 exhibition.

To open proceedings the commissioners had visits from two delegations. Mrs. J. W. Hamilton and W. J. Truscott appeared in the interests of the public library, asking for a cash grant to enable the library to carry on. Messrs. Frank Putnam, Roy Telford and M. R. Joyce appeared in the interests of the baseball club asking that the commissioners make some needed improvements on the fair grounds to put the diamond and outfield in good shape, as well as work on the grandstand to make it safer for occupancy by spectators.

The baseball delegation were promised consideration, and during the evening the commissioners disposed of the library by deciding to build shelving to store books; to give a cash grant when deemed neces ury, and providing the membership warrants it.

The necessary by-law was given the required three readings fixing the 1930 tax rate at 12 mills. Mrs. Fransen will be paid $70 for a 10-foot strip of land to complete the upper end of Vancouver street, and the commissioners will interview Axel Anderson in effort to purchase an extra ten feet frontage on Vancouver street so as to be able to make that street a uniform width its full length.

The clerk will write the makers of the fire siren to secure the price on one of larger size than the one now in use, and to see if an exchange can be arranged. A notice is to be placed in the Review notifying dog owners that the license fee is now overdue and that legal steps will be taken to collect if fees are not immediately paid.

The accounts for February were but $134, of which $57 was for electric street lights. Clean up day was set for April 9th. 200 feet of corregated culvert will be ordered for 1930 uee. The clerk is to write C.P.R. divisional superintendent. T. R. Flett, asking for a conference in reference to needed improvements to the railway crossing at Third Street.

Sirdar

George Cam, who has been on quite an extended visit in England arrived home on Friday, and reports a most enjoyable visit.

Miss Beul h Hill of Cranbrook was a weekend visitor with Miss Eileen Heap.

Mr. Horwood left on Sunday on a visit with Cranbrook friends.

Miss Lillian Wilson is spending a few days with Creston friends this week.

F. Kunst of Boswell was a business visitor on Monday.

Jas. Wilson and R. Heap were business visitors at Creston on Monday. Mesdams Martin, Dibley, Dennes and Rogers were between trains callers at Creston on Saturday. Mrs. Cam and Mrs. Cameron were at the metropolis on Monday.

Mr. and Mrs. Sutcliffe and Mr. and Mrs. Constable, well known residents of Alice Siding, were Sirdar visitors on Sunday.

Several Sirdar residents received air mail letters carried on the first official flight west from Winnipeg, Man., last week.

Erickson

Mr. and Mrs. T. Quinn, who have been on the Maxwell ranch the past two years, left earlier in the month for Vancouver, where they expect to reside in future.

F. Celli of Coleman, Alberta, spent a few days at the ranch last week. We understadd it is his intention to again return to handle the place, and will turn over his business at Coleman to his son Floyd.

E. Cuming, who has been visiting at the ranch with his father the past few months, left for Kimberley at the end of the week.

There was quite a large turnout at Creston on Wednesday last for the annual meeing of the Irrigation District property owners. J. M. Craigie was elected trustee in place of C. O. Rodgers.

Mrs. R. Dodds was a Creston visitor this week, a guest of Mrs. Frank Tomrkins.

Lee Heric was here from Yahk for the weekend at the ranch.

Mrs. Fralick of Creston has been a visitor here this week, a guest of Mrs. Vic. Mawson.

A large turnout is looked for at the pussywillow tea at Mrs. Geo. Cartwright's on Wednesday afternoon, 19th, from 2 to 5 p.m. The tea is in aid of Trinity United Church Ladies' Aid.

Mr. Cowley left on Monday for Cranbrook, called there due to the death of his son, David, who passed away at St. Eugene hospital in that city on Sunday, in his tenth year. Burial took place at Cranbrook on Wednesday. In addition to his parents he leaves three brothers to mourn his lamented death.

Oregon Farmers Have Arrived

Will Cultivate Every Possible Acre Old Reclamation Farm—Draglines and Dredge Start at Once Puttingg Dyke in Shape.

The advance guard of some fifteen families that will be here to cultivate the entire area of the Reclamation Farm this year, have arrived this week, some of whom have taken up residence in the Reclamation Farm house and the others are being compelled to take whatever houses are at present available. Mr. Holben, who operated on the farm last year is in the party and Mr. Bishop, who was also on the farm in 1929, have been instrumental in securing quite a sprinkling of the newcomers, who will be operating about 600 acres each. Considerable of the farming equipment has already arrived and the balance is on the way. Coincident with the arrival of the farmers announcement is made that a dragline, steam shovel and dredge will commence work immediately rebuilding the dyke on the Reclamation Farm to a height that will make the area safe from flooding in the high water that may be in evidence this year. The men going on the land are all practical farmers, most of them coming from the Umatilla county country, in Oregon.

Alice Siding

Mrs. Mathews has returned to Nelson after a couple of weeks' visit with friends here, where she was a guest of Mrs. J. R. Miller.

Mrs. J. C. Martin got away on Sunday for Shephard, Alberta, and Mr. Martin leaves at the end of the week. They will be in partnership with their son, Frank, in farming near that town.

P. Argyle, who has been on the old Beazer place, is taking the Mathews' ranch just vacated by the Martins. He will also look after the Martin ranch, which is partly planted to cherries.

On Tuesday night last Mr. and Mrs. T. Trevelyan were favored with a surprise visit from the young people of the district, who took full possession of the home and had a most enjoyable evening at dancing, with music by Mr. Trevelyan on the accordeon, and Bob Marshall, drums; The visitors brought the "eats" with them, which were an important feature of the affair.

On Wednesday night the home of Mrs. Marshall was invaded by a squad of almost 50, who took the hostess completly by surprise and had another fine night of it, principally at dancing with music by a five-piece orchestra made up of John Ringheim, piano; Tom Lacey, banjo; Chas. Cotterill, saxaphone; and Bob Marshall, drums. The invadors provided an excellent lunch for midnight, and then kept up the dancing until an early hour.

Mr. and Mrs. J. C. Martin, who are leaving this week to reside temporarily at least, in Alberta, entertained the Whist Club on Friday night at which the high scores were made by Mrs. Willis and W. A. Pease, and announcement made that this week's gathering will be at J. W. Parkins. Before lunch was served Mr. and Mrs. Martin were suitably remembered in being presented with a case of cutlery. W. A. Pease made the presenaation address in suitable terms. Alice Siding loses two mighty fine citizens in the departure of the Martin's who have had a prominent part in community life ever since coming here about six years ago.

Canyon City

Mrs. Walsh left a few days ago for Trail where she will be remaining for some time.

Mrs. Knott is on a visit with her daughter, Mrs. Barnhardt, at Glenlilly.

Mrs. Stephens and young son arrived home from Cranbrook the latter part of the week.

George Foreman was in charge of this district in connection with the Bible Society work, and reports a catisfactory response.

Provincial police Hassard of Creston in company with officer King of the R.C. M.P., Penticton, were here on an official visit one day last week.

The initial order for stumping powder placed by the Farmers' Institute is one of the largest in recent years and indicates that quite a lot of land clearing is contemplated.

Mrs. Halstead and Mrs. Barnes were amongst the Canyon residents to get air mail letters when the service was inaugurated from Winnipeg, Man., and cities west of there last week.

At the annual meeting of Creston Valley Co-Operative Associasion at Creston on Saturday, T. R. Mawson was again elected a director, which position he has held since the co-op was started in 1921. Percy Boffey of Creston was chosen to succeed former Principal Kolthammer, whose term had two years to run. The other directors are F. Knott, H. Young, L. T. Leveque. E. Haskins and J. M. Craigie.

Canyon citizens, who receive mail through the local postoffice were quite disturbed a few days ago on receiving a magazine, published in Quebec, entitled "Canadian Republic," which could safely be classed as seditious propaganda. Whether it was timed to reach Canyon during the week in which "Red Thursday" is included is not clear. Perhaps the senders had in mind that Canyon was one of the weak links in our empire structure. In any event the opposite has resulted judging by the indignation created. Copies have been mailed to Lord Willingdon, W. K. Esling, London Daily Mail, Orange Sentinel. One of the chief features—much to the merriment of local Scots, is the reference made to English as being "mongrels."

Valley Publicity Feature Effort

To Issue Well Illustrated Pamphlet—If Dates Satisfactorp to Have Splendid Fruit Exhibits at Southern Alberta Fall Fairs

Ways and means of effectively advertising Creston and district and its fruit products occupied much of the time of the March meeting of Creston Board of Trade Tuesday evening. The gathering was in charge of the president, Col. Mallandaine, with a representative turnout of members.

As a result of the drive for membership seven new members were enrolled. They are R. M. Telford, E. Cartwright, H. W. McLaren, J. S. Clowes, R. A. Palfreyman, L. C. McFarland, and Kootenay Garage. At least as many mone prospects are to be signed up and pending the full enrollment the makeup of the standing committees are deferred until next meeting,

The proposed advertising campaign has two features: 1. The issuing of an up-to-date illustrated pamphlet; 2. Making of worth while exhibits of fruit at fall fairs at Southern Alberta points. In connection with the latter no move can be made until the dates of the Alberta fairs have been fixed and the superintendent of fairs in that province has promised to forward the schedule just as soon as it is issurd.

A definite move was made in connection with the pamphlet in naming the President and C. F. Hayes a committee of two to rough draft the contents of the booklet which will be submitted to a special meeting of the board for final approval.

Photos of local orchard scenes and pictures of all sorts relating to the fruit industry are asked for. Also photos in connection with fishing, hunting, and everything else for which the Valley is noted. In order to secure a full range of these the board will pay one dollar for every picture it uses and guarantees safe return of all photos submitted. Every one who has photos are asked to submit them to the secretary.

In connection with the proposed hospital full information has been secured as to the help given by the provincial department of health in erecting and maintaining a hospital, as well as the aid given for maintainance by the municipality. Places of similar size to Creston in which hospit ls are located are being commun icated with to ascertain just about what size building is required and what operation costs are. In connection with the government aid it can be stated that it is quite generous, and latitude is allowed for still greater generosity where a new hospital is being erected. In connection with the hospital the secretary was instructed to write the Women's Institute soliciting their full co-operation.

Correspondence was to hand from the education department concerning school ground beautification.

Canada and War

Canadians unquestionably are deeply interested in the Five Power naval parley now in progress in London. They are really anxious that it should have a successful outcome, and that as a result there shall be not only further reduction in naval armaments, but a new and better understanding established between the great naval powers.

Canada, considering its size, geographical position, population and wealth, spends less on defence or preparation for war than any other country in the world. To all intents and purposes, Canada is and has been disarmed. If other nations maintained armies and navies proportionate to population and wealth reduced to the Canadian scale, the whole world could be said to be disarmed.

Yet Canada knows what war means. During the years 1914-1918, the people of this Dominion learned the bitter lesson of war's tragedies, and each succeeding year, since 1918, has only served to emphasize that lesson. Canada paid in the loss of its young manhood, in its army of wounded, many maimed and crippled for life or permanently undermined in health. Canada paid then, is paying now, and will continue to pay for many years to come, in dollars and cents for the huge cost of war and war's destruction.

Even so, it is doubtful if the average Canadian realizes what war, even preparation for war, actually means to this old world. As already stated, Canada's annual expenditure for war purposes,—that is, aside from the burden imposed by the Great War for which our people were in no sense responsibile, but participation in which was a duty forced upon us,—is slight, almost negligible, a very small percentage of our total annual expenditure as a nation. But this is not true of all other great nations, and most of the small and minor nations.

For example, the United States, removed from the dangers and complexities of European entanglements, and largely occupying a position of isolation, spends on its armament budget a larger sum annually than any other country in the world, although the percentage of its total income so expended is smaller than in other countries. And it is a startling fact that the amount so expended is increasing. In the four years before the Great War the average annual expenditure of the United States on armaments was $460 000,000. Ten years later it had risen to $879,000,000. If Canada followed the example of European nations, we, too, would be spending a crushing amount merely because our next door neighbor is doing so.

In 1913, before the war, Great Britain's armament expenditure was just under $460,000,000. Last year it was $575,000,000. . Every one of the Great Powers, except Germany, which was compulsorily disarmed, is spending much more today on armaments than was spent before the Great War. And this despite the League of Nations, the Kellogg Peace Pact, and treaties galore pledging the nations not to engage in offensive warfare.

Great Britain spent $50,000 000,000 on its part in the colossal tragedy of the Great War. It left Great Britain with a war debt of over $35,000,000,000. Interest on that sum calls for $1,720,000,000 a year. For debt purposes alone Great Britain has to raise by taxation $5,000,000 a day, or $3,000 every minute. It takes the whole time labor of 2,000,000 workers year in and year out to pay the annual cost of the debt burden. Add to this the $575,000,000 spent annually an armaments, and $280,000,000 for pensions, and a total of $2,600,000,000, or $5,000 a minute has to be raised by taxation, or three-quarters of the whole amount of all Government expenditures. Is it any wonder there is business depression and unemployment in the British Isles!

If the London Naval Conference is successful in part only, namely, the matter of what are termed "Capital" ships, the saving to three countries alone, Great Britain, United States and Japan, will amount to $1,000,000,000, or twice the total annual expenditure of the Government of Canada for all purposes. Or put it another way, if Manitoba could take into the treasury of the Province the sum saved when construction of but one 10,000 ton cruiser is cancelled, not only would all Manitoba's bills be paid for an entire year, but a surplus or $3,000,000 would remain on hand.

Apart from all humanitarian, Christian reasons for disarmament, the above figures indicate the economic dollars-and-cents aspect of this great problem.

Canada paid, and is paying for war; let us pay and pay generously and ungrudgingly for peace by supporting the League of Nations with all our power. Every individual Canadian, man, woman and child, should be a peace advocate, an unqualified supporter of the League, and full Canadian participation in the League. They should unitedly pray for the success of the London conference.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

May Use Pulverized Coal

B.C. Department Of Mines Investigating Its Advantages

The British Columbia Department of Mines, fully aware of the difficulty which the coal industry has been facing, has been making investigations into the uses and advantages of pulverized coal, and has secured the assistance of the fuel research laboratory at Ottawa. In an address before the Vancouver Chamber of Mines, J. D. Galloway, provincial mineralogist, expressed the opinion that if pulverized coal were used properly there would be no excuse for the importation from California into British Columbia of a single barrel of fuel oil. British Columbia produced 2,313,900 tons of coal last year. Of this, about 140,000 tons were used in pulverized form in various industries. The Vancouver Province says it seems highly probable that if the uses and advantages of pulverized coal and the facilities for using it were brought more forcibly to the attention of the people of the province, a better day might dawn for one of British Columbia's important industries.

WAS RUN DOWN AND VERY WEAK

Too Little Blood the Trouble and Tonic Treatment Restored Health

"I am writing to tell you," says Mrs. James A. Haughn, Bridgewater, N.S., "the great health benefit I received through the use of Dr. Williams' Pink Pills. I had become badly run down and very weak; so much so that I could only with difficulty do my housework. I suffered from headaches, and had very little desire for meals. The trouble affected my nerves, and as a result I did not sleep well at night; and would often awake with a choking sensation, and would have to sit up in bed. I was taking treatment, but it did not help me and I was losing courage, when I saw an advertisement of a case which seemed much like my own, which had been relieved by the use of Dr. Williams' Pink Pills. I decided to give this medicine a trial and got two boxes. Before these were all gone there was an improvement in my appetite, which seemed a hopeful sign. I procured a further supply of the pills and found a steady improvement in my health. I could eat well, sleep soundly at night, and my housework was no longer a task beyond my strength. From my own experience I would advise weak, run-down people to give Dr. Williams' Pink Pills a fair trial, feeling that what they have done for me, they will just as readily do in other similar cases."

If you will send your name and address to the Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you prepaid. This little book contains many useful health hints.

You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

B.C. Lumber Industry

World's Poultry Congress

At the World's Poultry Congress, to be held in the Crystal Palace, London, England, next July, Canada will be a conspicuous participant. The Canadian exhibit of live birds will total about 1,000. The last World's Poultry Congress was held in Ottawa, in 1927.

Internal parasites in the shape of worms in the stomach and bowels of child on sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

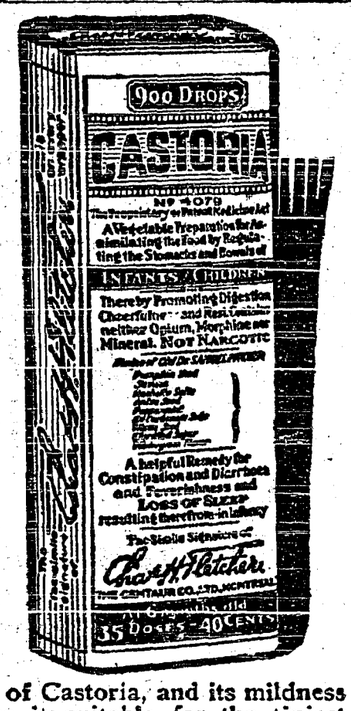
If Baby has COLIC



A cry in the night may be the first warning that Baby has colic. No cause for alarm if Castoria is handy! This pure vegetable preparation brings quick comfort, and can never do the slightest harm. Always keep a bottle in the house. It is the safe and sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it suitable for the tiniest infant, and for frequent use.

And a more liberal dose of Castoria is always better for growing children than some needlessly strong medicine meant only for adult use. Genuine Castoria always has Chas. H. Fletcher's signature on the wrapper. Prescribed by doctors!

Two Valuable Recipes

CREAM RICE PUDDING

4 tablespoons rice.
⅓ cup sugar.
½ teaspoon salt.
2½ cups Borden's St. Charles Milk.
1¾ cups water.
Nutmeg.

Wash the rice thoroughly, then add with the sugar and salt to the milk diluted with water. Pour into a buttered baking dish and add a sprinkling of nutmeg. Set the dish in a pan of hot water and bake three hours in a slow oven (300 degrees Fahrenheit), stirring several times the first hour to prevent the rice from setting to the bottom. Serve hot or cold.

CREAM OF TOMATO SOUP

2½ cups canned or fresh cooked tomatoes.
½ small onion, sliced.
1 stalk celery, minced.
1 tablespoon minced parsley.
½ bay leaf.
2 whole cloves.
1 teaspoon salt.
⅛ teaspoon pepper.
1 teaspoon sugar.
¼ teaspoon soda.
2 tablespoons butter.
2 tablespoons flour.
1¼ cups Borden's St. Charles Milk.
1½ cups water.

Add seasoning to tomatoes and simmer fifteen minutes, strain.

Melt butter in saucepan, stir in flour. Dilute milk with water, pour slowly into butter and flour, stirring until it thickens. Continue to cook five minutes. Just before serving, add soda to tomatoes, gradually add tomatoes to white sauce, stirring constantly, serve immediately.

All or any of the vegetable seasonings may be omitted, but their addition gives a smooth, well-blended flavor to the soup.

Two New Words

Two new words, "enplane" and "deplane," are to be included in the forthcoming edition of the American New Standard Dictionary. The rating of the two words is impeccable, it is added, according to the editor of the dictionary, who says that their use in air transport is synonymous to that of "entrain" and "detrain" in railway service.

NEW HOPE FOR THE CAUSE OF DISARMAMENT

London, England.—New hope for the cause of disarmament at a time when criticisms of the London naval conference are growing because of delays, was contained in a statement issued by Colonel Henry L. Stimson.

The informal statement by the head of the American delegation declared that not only naval limitation but a reduction of at least 220,000 tons in the United States fleet, and an even greater cut in the British fleet could be achieved at the London conference.

The statement, issued in response to many appeals from the United States as to what the conference is doing follows:

"There seems to be an impression that the work of the American delegation at this conference is likely to result in an increase instead of a reduction in tonnage of the navies of the world.

"The surest way to answer that is to give such results as seem to be within reach up to date. A plan which in its essentials appears to be acceptable to America and Great Britain provides for net reduction in tonnage of the American fleet in capital ships, cruisers, destroyers and submarines — built, building or appropriated for — of over 200,000 tons and an even larger reduction on the part of the British fleet.

"If vessels authorized but not commenced were concluded in existing fleets, the amount of reduction would be much greater. Of course, these reductions are contingent upon some reduction being made in the fleets of other powers."

The Stimson statement came unexpectedly at the close of a day of meetings and conferences, from which came only the same reports of uncertain progress that have featured proceedings since the French political crisis arose.

Prison Keeper Killed

Official Of Auburn Prison Stabbed To Death By Inmate

Auburn, N.Y.—Edward L. Beckwith, prison principal keeper, was stabbed to death in the mess hall of the institution by Anthony Mortellito, an inmate, and became the third in succession in that office to lose his life at the hands of a convict.

The news of the fatal stabbing came at the height of the trial of Max Becker, gunman and gangster of Brooklyn, and a convict, charged with the murder of the man Beckwith succeeded — George A. Durnford. Supreme Court Justice Benjamin B. Cunningham immediately recessed court.

Durnford was killed in the second prison riot at Auburn within five months in 1929, that of December 11. About two years ago James B. Burman, whose place Durnford took, was cut down by a stabber. The stabber was seized.

Beckwith was stabbed near the heart. Troopers said there was excitement but no disorder in the hall. Many of the convicts jumped to their feet to see what was happening, but sat down immediately at order from their guards.

Beckwith was born in Canada on November 14, 1874, but the city of his birth was not known at the prison. His wife, critically ill at her home here, was informed that her husband had been taken ill.

Mounties Find Body Of German Scientist

Mystery Surrounding Disappearance Of Dr. Kurt Faber Is Solved

Edmonton.—Believed to have fallen victim to a northland blizzard and his body torn and disfigured by wolves, the remains of Dr. Kurt Faber, noted German journalist and scientist of Berlin, was found Saturday, March 1, by a Royal Canadian Mounted Police patrol, 15 miles above Lower Hay River post in the Northwest Territories, according to information reaching here.

Only the most meagre details were contained in a brief wire received at R.C.M.P. headquarters, which told of the finding of the body of the missing northern traveller, who left Edmonton in September of last year, intending to proceed from Peace River to Fort Vermilion, down Hay River to the lower post on Great Slave Lake and then continuing to Fort Resolution and Fort Smith to Fort McMurray. The greater part of the journey was to have been made on foot.

Enquiries have been broadcast throughout the north for any information as to Faber's whereabouts since last December at which time Dr. K. Martin, German consul of Winnipeg, had been asked to notify him of the death of his mother in Berlin. Since January both Alberta Provincial and Royal Canadian Mounted Police patrols have been on the lookout for the body.

Dr. Faber was a free lance correspondent for the well known Scheri syndicate of German newspapers and had travelled in many parts of the globe in his profession.

Promise Highway To Saskatchewan Border

Road From The Pas Is, However, Subject To Conditions

The Pas, Man.—Citizens of The Pas, have been definitely promised a highway from here to the Manitoba-Saskatchewan border if the Saskatchewan Government would build a road to connect with the proposed highway from Hudson Bay Junction, north of Prince Albert, Sask. Premier John Bracken, of Manitoba, told a meeting of the citizens that a road from The Pas to the border would be built under this stipulation.

The Premier said his government was now engaged in completing its program of main trunk road extensions, and nothing would be added until that program was completed. He added, however, that in the next road program the road from The Pas to the Saskatchewan border would be the first construction undertaken.

Premier Bracken indicated that the Manitoba Legislature would shortly pass a resolution urging construction of the Mafeking railway cutoff. He hoped this would receive favorable consideration from the Canadian National Railways.

In concluding the Premier intimated that the support of his government would be extended to the Imperial government if it displayed interest in the reclamation of the Carrot River triangle as an area for settlement of British agriculturists.

Fourteen Killed By Landslide

Rock Crashes Down Cliff On Gay Carnival Crowd

Funchal, Maderia.—Sweeping down from a high rock hanging over the sea, a great landslide killed at least 14 persons, including several children. Directly underneath the cliff a carnival was in progress.

Scores of children were playing on the beach when the tons of rock slid down the cliff with a terrific roar and crashed upon the beach in the sea.

The scene of gaiety quickly gave place to cries of mothers, who fainted as the bodies were brought out of the earth and rocks.

Will Resume Hunt

London, England.—Prince of Wales has recovered so rapidly from the sub-terian malaria, that he will resume his hunting immediately. A despatch to The Daily Mail from Nairobi, Kenya colony, said he probably would go to Entebe, Uganda, on Lake Victoria, and use a lake steamer as a base for his expedition. No more bulletins on the prince's condition will be issued at Nairobi.

Brydges Wins Dog Derby

Finished Race Twelve Minutes Ahead Of St. Godard

The Pas, Man.—Battling obstacles which for the past few years have thwarted him in his efforts to win major dog races, Earl Brydes, 22-year-old Northern Manitoba musher, has captured his first 200-mile The Pas dog derby.

Emil St. Godard, the champion and the favorite, finished twelve minutes behind Brydges. Brydges crossed the finish line at the north end of the town here at 12:19 o'clock to the cheers of hundreds of spectators.

He was carrying one dog of his nine dog team, on the sleigh. Emil's team, visibly tired, finished at 12:31 o'clock, he was carrying three dogs on his sled, but Toby, the famous leader, was still in the key position at the last.

In capturing the derby Brydges wins the first prize of $1,200 cash as well as the Grant Rice-Walter Goyne trophy.

Equal Franchise Bill Rejected

Quebec Legislative Assembly Opposed To Votes For Women

Quebec.—By a vote of 44 to 24 the legislative assembly defeated the measure introduced by Irenee Vautrin, Liberal, St. James, to give women the right to vote in provincial elections.

While the vote was adverse to the feminine cause, adherents were gained, and in speeches made by Hon. A. R. McMaster, provincial secretary, it was laid down with emphasis that sooner or later the cause of women would win. The vote was not a party one, the cabinet splitting. Premier Taschereau voted against the bill.

Air Mail Popular

Ottawa.—Total of 430,636 pounds of mail was carried over Canada's 20 air mail routes during 1929 at a cost to the country of $474,071. Heaviest route was between Narrow Lake and Sioux Lookout, Ont., where 83,406 pounds were carried.

Immigration Policy Changes

Federal Deputy Minister To Interview Provincial Governments

Winnipeg, Man.—Changes in the immigration policy of Canada decided upon by the Dominion cabinet, were laid before Hon. Albert Prefontaine, Minister of Agriculture, and Hon. R. A. Hoey, Minister of Education and acting premier, by W. J. Egan, Federal Deputy Minister of Immigration.

Following the conference the two Manitoba officials made a formal statement in which they declared that "they are glad to advise that the general policy laid down in connection with provincial co-operation is, in their opinion, workable, but they are not prepared to discuss details until they have a further conference towards the end of the month."

Mr. Egan said that he had nothing to say about the Dominion government plans. He would interview every provincial government from coast to coast, he declared, before any official announcement would be made.

Questioned about the term "general policy," Mr. Prefontaine replied this meant the plans outlined by the Federal Government. The Minister of Immigration, he said, had made tentative arrangements which would be subject to change.

High Cost Of Burial

Funeral and Undertaking Charges To Be Investigated By Alberta Government

Edmonton.—Funeral cost and undertaking charges in general will be investigated by the Alberta Government as a result of a motion adopted unanimously by the House and introduced by W. W. Prevey, Liberal, Edmonton, reading as follows:

"That in the opinion of this assembly the government should give early consideration to the whole subject of undertaking and particularly to the prevailing charges and costs thereof and if necessary to introduce legislation regarding the same."

Ex-Service Men Represented

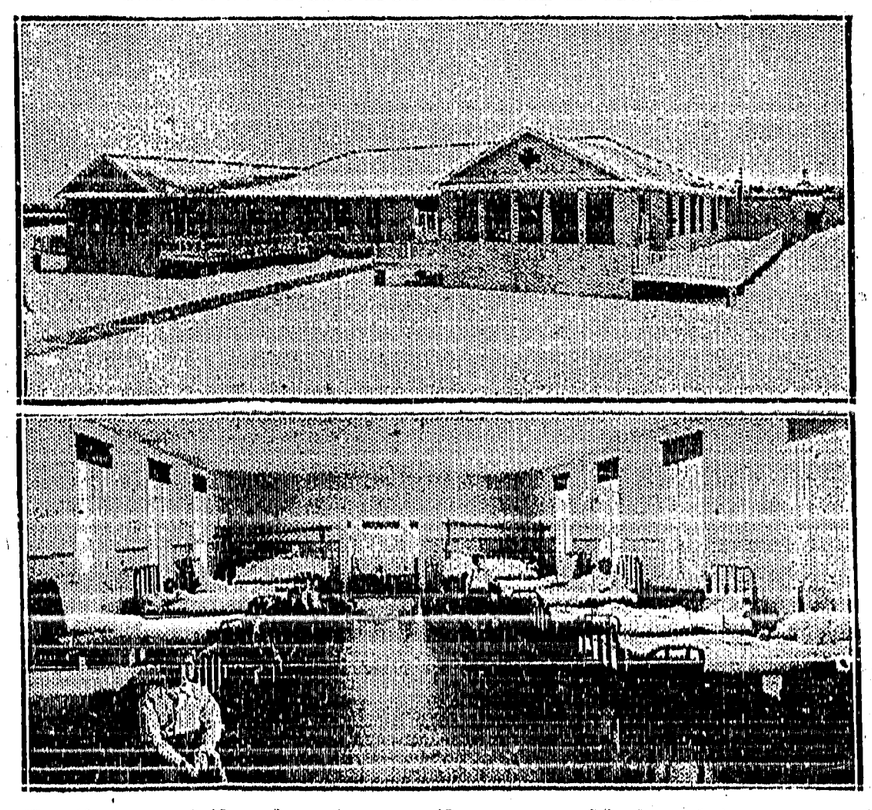
Eleven War Veterans On Committee Probing Soldiers' Problems

Ottawa, Ont.—In the composition of the special parliamentary committee on pensions and returned soldiers' problems, the prime minister has carried out his promise to have that body so constituted that ex-service men of all parties would have adequate representation. Of the 19 members of the committee, 11 are war veterans, of whom six are Conservatives and five are Liberals, and of the remainder, several had sons who were overseas.

Makes Altitude Record

New York, N.Y.—Driving his twin motored Sikorsky to an apparent altitude of 19,500 feet, Capt. Boris Serglevsky, late of the Imperial Russian Air Corps, brought back to his adopted country the altitude record for seaplanes carrying a useful load of 3,000 kilograms (4,409.34 lbs.). The old record, held by France, was 15,837 feet.

NEW RED CROSS HOSPITAL AT EDMONTON



For the second time in a few months we are able to print pictures of a new Junior Red Cross Crippled Childrens' Hospital in Alberta. Above is shown the exterior and one of the wards in the new hospital at Edmonton, opened in January. It has a capacity of 35 beds.

TARDIEU CABINET EMERGES WITH GOOD MAJORITY

Paris.—Andre Tardieu's second cabinet ran the gauntlet of the Chamber of Deputies and, although roundly thumped by the parties of the Left, it emerged with a favorable majority of 53. The rectified ballot was announced as 316 to 263.

The appearance of the second Tardieu cabinet before the chamber with its ministerial declaration was the signal for one of the bitterest parliamentary battles the chamber has ever witnessed, the sessions being suspended at one point.

The premier's declaration was interrupted by a tumult from the Socialist and Radical benches.

The opposition, smarting under its failure to regain power with the Chautemps cabinet, taunted the deputies on the left who had accepted portfolios in the new ministry, and drowned the premier's voice.

Tardieu merely smiled at the demonstration and finished reading his declaration.

The winning margin of confidence was almost twice as great as political forecasters had been ready to grant the cabinet in advance of the voting. Most of them agreed that a margin of 30 votes would be a sign of strength for Tardieu, and as the bitter debate on the ministerial declaration of policy progressed, some of the prognosticators began to believe that the cabinet would be lucky to win at all.

As a consequence the government will go back to the London naval conference and will face the chamber on the question of ratifying the Young plan, revising taxes and passing a budget with enhanced prestige.

The new naval delegation consists of Premier Tardieu, Aristide Briand, foreign minister, J. L. Dumesnil, minister of marine, Francois Pietri, minister of colonies, Ambassador De Fleuriau and Senator Gustave De Kerguezec. Of these, Tardieu, Briand, Pietri and De Fleuriau were members of the original delegation.

The naval conference has been proceeding without the French officially represented, but its progress has necessarily been slow, and the reappearance of the French will be the signal for resuming the negotiations at full speed.

Air Mail Benefits Coast

Eastern Cities Are Brought Two Days Closer Through Prairie Service

Vancouver, B.C. — Vancouver, once an outpost and even yet a little isolated from the East by the height of mountains, was brought 24 hours closer to the prairie, and 48 hours closer to Atlantic cities, with arrival of the first all-Canadian air mail from Winnipeg.

Several thousand letters, posted in Winnipeg, Monday night, were carried as far as Calgary by aeroplane, and arrived here by train at 9:30 o'clock on Wednesday. They were being delivered to city residents an hour and a half later.

With this new service, a whole day is cut from the communication time to prairie cities lying east of Moose Jaw, and two whole days to Hamilton, Toronto, Halifax and various nearby United States and Canadian cities.

Morphine Seized At New York

New York, N.Y.—Morphine valued at about $500,000 was seized on pier 57, North River, leased by the French line, in two large trunks apparently owned by a first-class passenger on the "Ile de France," who had left the vessel a few minutes before, it was learned.

Report Is Denied

Ottawa. — Reports that a large number of Mennonites had been entering Canada recently, were brought to the attention of the House of Commons by Hon. R. J. Manion, (Cons., Fort William) and denied by Hon. Charles Stewart, acting minister of immigration.

Death Of Viscount Gladstone

London, England.—The Rt. Hon. Viscount Herbert John Gladstone, youngest son of William E. Gladstone, of Victoria era fame, died from an illness which began with an attack or bronchitis in January. He was in his 76th year.

He didn't want to talk to anyone else

On numerous occasions members of a Vancouver family answered the telephone only to find that no one was on the line. This went on for some time, and finally a complaint was lodged.

Telephone men investigated and made the following discovery: The family had a Chinese cook. A friend (another Chinese) was in the habit of telephoning to him frequently. If the cook answered the telephone a conversation between the pair would ensue; but if the telephone was answered by a member of the family, the caller would simply hang up without saying a word. Therefore the mysterious calls.

SCIENCE AND RELIGION

Contributed

Prof. Chas. Ellwood, possibly the greatest living social scientist, has recently issued a book of wide circulation entitled "Man's Social Destiny in the Light of Science." The chapter on religion is particularly significant for these times.

Prof. Ellwood pleads for a religion based upon "tested knowledge," or as is commonly said, scientific knowledge. He maintains that science means simply that some theory has been propounded based upon facts that have been thoroughly tested.

To many, the terms 'science' and 'religion,' seem appositive and contradictory. Indeed, in another recent book, Prof. Wallace in his, "The Scientific World View" declares that "Religion and Science are mutually exclusive;" he makes one of t ose attacks upon religion such as religion has experienced since the dawn of human thinking.

To ban religion, would be to ban all human ideals, all sense of right and wrong, all our hopes fears of immortality and, in short, the greater part of human life. This would be rather unscientific in itself. In one sense, religion and science are mutually exclusive; just as geometry and chemistry are eqclusive, or geology and psychology are exclusive, but to argue that the goelogist should declare pyschology false because it does not come within his purview is rather unpardonable logic.

On the other hand Prof. Ellwood points out that science is "tested knowledge" of any branch of human thinking and action. Science takes facts and after careful analysis deduces certain theories and beliefs.

Religion has every right to be scientific in this respect, it deals with the facts of human experience, and from these facts it deduces its conclusions a d doctrines.

The Bible is in this sense a scientific book. It is a compendium of practical human experiences, taken not from any particular age, nor avocation, nor social conditions, but from all sorts and conditions of men.

These men were not much concerned with biology, nor geology, nor even history, but they were intensely and passionately devoted to the science of "daily living." Thus we have in the Bible an array of fact covering 2000 years of human experience; not of one or two people in a particular age, but all its heroes, soldiers, statemen, prophets, kings, shepherds, priests, who from their experiences of life have concluded that this is a moral world and that there is a Supreme Being.

Unfortunately for the race, many of the helpful scientific facts with their theories, are completely ignored, but an even greater tragedy is the fact that the lofty and holy teaching of the Bible is pushed aside for theories of life long shown to be destructive and false.

It is one of the disappointing things about life that mankind has so seldom profited by the experience of the past. Nature, we know, destroys the animal that does not attain to a certain standard of perfection, Moral forces cause the downfall of nations and empires that fail to reach the demand of social survival; are we uot justified to still hold the bebelief that the individual who fails to rise to the urge for better and holier living, will olso die?

In the Bible we have the practical experiences of men interpreted in the light of the Divine Will; should we not avail ourselves of these experiences? In the Bible we read of men who were weak-willed and sinful finding a marvelous strength, enabling them to conquer sin and find a calm, conscious peace with God; we read of those bearing grievous burdens and suffering heart-rending experiences, and we also are told how these found a wonderful relief in one who makes the burdens light and who heals the torn heart.

Whatever your experience may be you will find it all in the Bible, and you will also find the solution for your needs. Yes, even when we walk "down into the valley of the shadow of death", we need "fear no evil, for thon art with me, Thy rod and Thy staff, they comfort me."

Retains Lead In Passenger Traffic

Cunard and Associated Lines' Atlantic Bookings In 1929 Were 265,734

For the seventh consecutive year the Cunard and Associated Lines carried, during 1929, a larger number of passengers across the Atlantic than any other steamship line or group or lines, according to a statement made by Arthur Randles, general passenger manager for Canada of the Cunard and Anchor-Donaldson lines.

Statistics of the passenger traffic for last year revealed the fact that Cunard and its Associated Lines carried a total of 265,734 passengers on their regular transatlantic sailings.

Of this large number a total of 65,510 passengers were carried by the Canadian service liners, 20,097 on Anchor-Donaldson steamers, and 45,413 on Cunard Canadian service liners.

Of the total carried by our lines, the Cunard Line accounted for 208,185, and the Anchor Line, 45,311," said Mr. Randles. "Not included in these figures are 5,232 carried on Cunard Cruises, 11,264 in the Cunard's Havana service for 1929; also 1,959 on the Anchor Line cruises, and several smaller categories, which raise the grand total of all passengers carried to 286,197. This total incidentally represented an aggregate increase of 17,030 over the 269,167 carried in 1928."

"A survey of the travel prospects in our various departments, first-class, second-class, cabin, tourist third cabin and third-class, leads us to the conclusion that if the present rate of booking is maintained through spring and summer, the Cunard Line and its Associated Lines will experience a good year," Mr. Randles stated.

A Real Economy

New Yorkers pay $160,000,000 a year to ride in the city's 25,000 taxicabs, reports a writer in World's Work. But huge as that sum may seem, the taxicab is a real economy for the New Yorker of the class which would own its own cars in smaller cities. On account of high rentals, lack of parking space and traffic congestion, it is estimated that the cost of maintaining an automobile and chauffeur in the city is $5,000 annually.

Children's Calf Feeding Competition Is Attracting Much Interest

In order to give all children residing in farm homes an opportunity to become conversant with the many special classes put on for them at the Edmonton Spring Show, to be held from April 8 to 12, and particularly the special encouragement given to amateur exhibitors, letters and prize lists were sent to every school north of Red Deer. A number of teachers have written in that the children have been quite interested and excited, and it is expected that the many changes adopted with an eye to improving the 1930 Children's Calf Feeding competitions will result in a largely increased entry.

It has been felt by the directors for some time that when once a child has succeeded in feeding a calf to the point where it can win first prize in this competition, it is only fair that some one else should have an opportunity to win this prize the next year, in order that the benefits of the first prize might be distributed a little, and this year all those who have previously won first prizes are barred from again competing. The district prizes offered by the Edmonton Stock Yards have also been divided into three prizes for each district, instead of one, which will also give greater encouragement to the amateur exhibitors in those districts which have not the same high quality of livestock as some of the districts which have been settled for a longer time.

PARABLES OF THE KINGDOM

Golden Text: "The kingdom of God is not eating and drinking, but righteousness and peace and joy in the Holy Spirit."—Romans 14.17.

Lesson: Matthew 13.24-52.

Devotional Reading: Proverbs 3. 19-26.

Explanations and Comments

The Parable Of the Wheat and the Tares, verses 24-30.—When Mark Twain was a lad, he was sent by his mother to weed a flower-bed. He found more weeds than flowers and came back to ask his mother if instead of weeding the flower-bed he might not "flower the weed-bed." This parable is a warning against the danger of flowering a weed-bed.

The Parable Of the Mustard Seed, verses 31,32.—In this parable Jesus likens the Kingdom of Heaven to a grain of mustard seed which a man took and sowed in his field. This mustard seed was the smallest seed cultivated by the Jews and was popularly regarded as the smallest of all seeds. Although the seed is so small, mustard sometimes grows to a height of ten or twelve feet, and then the birds of the heavens come and lodge in the branches thereof. The parable teaches that the growth of the Kingdom is sure, that from a small beginning great results follow. The husbandman does his part in preparing the ground and sowing the seed, and then he leaves it in the care of the earth, depending upon it together with the action of the sun and air and rain to carry the germinating life through the stages of its growth. So man must trust to a Power that lies beyond him for results, for the extension of the Kingdom of God in the hearts of men depends not upon the agency of man alone but upon the power of God.

"Wondrous Man . . . . You had your dreams:
That John and Peter, James and Magdalene—
Dark Judas, too—should learn to know your God.
You had the faith to hail the Kingdom's gleams
In earth's embattled realm; and still your hope
Is undismayed, though men in darkness grope."

Jails To Spare

Huge Decrease In Crime In Great Britain Is Noted

Britain's criminals are one class which seems to be travelling on the road which leads to gradual extinction. While the criminal "dole," as the prisons' appropriations might be termed, is decreasing, the government today finds itself embarrassed by a superfluity of prisons and military barracks.

Maidstone jail, which is to be closed shortly, is the twenty-seventh institution of its kind to disappear since 1914. Since that year—memorable as the outbreak of the war—the prison population of the United Kingdom has declined by 70 per cent.

The surplus of military barracks arises partly from reduction of the forces and partly because the scheme of army organization today calls for the concentration of troops in definite training areas, rather than their housing in different parts of the country. It is doubtful if the great Sheffield barracks will ever be occupied again; that is, unless there should arise emergency conditions.

Like many similar institutions, the Sheffield barracks were built about the time when industrialism, still a new phase, was coming to its full strength in the north of England. Such barracks, for the most part are veritable fortresses, designed then with the idea of providing refuge in times of civil disturbance.

The suggestion has been made in parliament that London's two principal prisons—Wandsworth and Pentonville—should be razed and housing areas for the working class substituted.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect.

Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy.

CHAPTER IV.—Continued.

"You look elegant as well as prosperous," she added. "Lend me a helping hand, Jim, so I can descend gracefully."

Jim grinned, and stretched out the hand obligingly. "I came," he began, flushing a trifle as Charmian, on solid ground again, looked up at him, "to see if you were going to the strawberry festival tonight. If you are, I'll stop for you with the car as I go along."

A disconcerting smile curved the girl's lips as she replied: "That's thoughtful of you, Jimmy, but you needn't bother because I—"

"Bother!" he exploded. "Who said it was a bother?"

Charmian's smile broadened to a laugh.

"Well, you see, I promised Doctor Carter to let him tag along, so I won't need you. That's a stunning suit, Jimmy. You look like a — a bridegroom!"

Jim flushed again, angrily this time.

"Look here, Charmian," he began hotly, "if you're mad because I took Clara Darling to that sociable and the picnic at the Falls, why I don't mind saying—"

"Mad!" broke in Charmian. "Why on earth should I be mad, I'd like to ask?"

Jim's color was fast becoming apoplectic.

"Well, other times I—I've always taken you; but Clara was visiting here, and Mother . . . You see . . ."

"Yes, I see," said Charmian, coming to his rescue. "I see perfectly. Now run along, Jim, and let me get to work. Doctor Carter's going to use this for an office. Won't it be darling? Not darling like Clara, but—"

"Have you gone crazy?" Jim interrupted angrily. "And do you mean to say that able-bodied fellow is letting you clean this filthy place alone?"

"On the contrary," explained Charmian, moving suggestively toward the door, "he gave orders that I was not to touch it; but it's a hard job and I thought I'd make a start. However, if you keep me talking much longer—"

"Oh, I'll clear out," said Jim. "It's evident that I'm not wanted. And — and about tonight—I guess I won't go after all."

Charmian laid a tempting hand upon his arm.

"Don't be an idiot, Jim. Of course you'll go. Tell me, is Miss Darling going to stay all summer?"

The young man ignored this question as he shook off her hand roughly and strode away. For a moment Charmian stood watching him, knowing, by the rigid set of his shoulders that he was "all riled up," as Grandma would put it.

"Dear old Jimmy," she sighed, as she mounted the ladder again and lifted a dusty volume, "I'm wicked to punish you just for being an obedient son. And you are a dear, most of the time. You're as dependable as the town clock, or would be if your mother would give you half a chance. You looked fine in that suit, too—really handsome. I wonder if Clara Darling made you buy it! I—Why, Jim! did—did you forget something?"

Jim was back in the doorway, looking up at her.

"Yep," he replied boyishly, "I forgot my manners." He took a step nearer and said, hesitating, "I—I just wanted to see if I couldn't help you. I've got a half day off, and this is no sort of work for you, Charmian, lifting those heavy books. Let me get up and hand 'em down to you."

His coat was off before Charmian could utter her touched surprise.

"You'll do no such thing! You'd simply ruin that new suit!"

"What's a suit—between friends?" asked Jim, looking around for a clean spot to lay his coat. He laughed, and was, suddenly, the old Jim who had been her life-long comrade. She said, genuine affection prompting the words: "Jim, you're a trump. I ought not to let you, but these books are heavy and—Here, put on this linen duster and roll up your sleeves. Hand me the top books first, and go slowly for I have to wipe them off. I'll admit that a man about the place is a great thing."

"If you want one — permanently," he began from the top of the ladder, when a step sounded on the sidewalk, and John Carter appeared in the wide doorway.

CHAPTER V.

Jim stopped in the middle of this important sentence, glared down upon the new doctor, while Charmian uttered a relieved: "Oh, it's you! I thought you'd gone with Doctor Howe."

"And I thought I told you not to touch this place: but I see you've secured help. That's fine. I—"

So he supposed she had hired Jim! This appalling thought swept through Charmian's brain. If Jim guessed he'd be furious, and a foe to John Carter for the rest of his natural life. With haste born of real consternation she interrupted: "Indeed, I have! Jim Bennett was good enough to offer his assistance in lifting down those heavy books. Have you two been properly introduced? Jim, this is Doctor Carter, our new boarder. Jim's an old chum of mine, Doctor. He used to carry my books to school for me and fight my battles. You ought to be friends."

The young man on the step ladder looked the reverse of friendly at just that moment, but he descended, and reluctantly gripped the hand which the doctor had extended.

"I was only giving Charmian a little help," he explained, somewhat breathlessly; and added, a belligerent note creeping into his voice, "this is no sort of work for a girl, it seems to me."

"You're right. Miss Davis will tell you that I told her not to touch it. I expected to go with Doctor Howe this morning, but when I told him of this scheme for an office he gave me the day off. He thought it a great idea, and I'll say I'm in luck! I'll get some old clothes and be back in a jiffy to pitch in."

"Well," began Jim, removing the duster and reaching for his neatly folded coat, "you won't need me now so I'll run along. I—Isuppose you see an awful lot of that fellow, Charmian?"

Charmian was obliged to conceal a smile of triumph at this evidence that Miss Darling was not omnipotent.

"I eat three meals a day with him," she answered. "Later on, if I get the school, he'll have his dinners at the hotel."

"It makes me hot—your cooking meals for him," confessed Jim, as he slipped into his coat.

"What nonsense!" laughed Charmian. "Can't a body take a boarder without making you look like a thunderstorm? Wipe that scowl off, Jim. It's not becoming. You're ever so much nicer when you smile. Say! if you've got time, run in and speak to Grandma, won't you? She gets lonesome sitting there so long; and why not step in tonight and go along to the festival with us, Jimmy? I'd like to have you, 'honest injun, cross my throat and hope to die,' as we used to say."

This was reward of merit for his offered help; but Jim answered, a sarcastic twist to his lips that was something new: "Seems to me I've heard somewhere that three's a crowd. Thanks, my dear, but I know enough not to butt in where I'm not wanted."

"As far as I'm concerned," began Charmian, knowing that down inside he was really hurt, but John Carter's untimely entrance interrupted what was intended for a soothing speech, and with a smothered "Damn," that wasn't really so smothered as it should have been, Jim took his departure.

The doctor gave vent to an expressive whistle as he watched the young man's muscular figure move stiffly across the gravel driveway.

"Your friend seems not to like me," he ventured ruefully.

"Give him time," smiled Charmian. "He's slightly irritated this morning because he'd planned to escort me to the strawberry festival tonight and you've cut him out!"

"He is, I take it, the man who has recently been enamored of a green hat?"

"The same," admitted Charmian, showing a bewitching dimple. "But now let's get to work. If you'll take Jim's place on the ladder we can accomplish wonders before I have to start dinner."

Meanwhile Jim Bennett had crossed the strip of lawn and walked in on Grandma, who was watching with interest the struggle of two small boys over a stick of candy, which drama was taking place on the opposite sidewalk.

"There!" she exclaimed, with a nod of welcome, "they've broken it all to bits, and serve 'em right for being piggish. I don't like that Eldridge boy. He's always picking on the younger ones. Well, Jim, you're quite a stranger. Sit down. How happens it you're loafing this morning? And you've got a new suit, too. Stand up and turn around. It certainly does set well. Did you see Charmian? She's cleaning Father Davis's office for the doctor. Well, what's the news?"

"News?" echoed Jim. "There never is any—in Wickfield."

"No news!" said Grandma indignantly. "There's a-plenty, if only you keep your eyes open. Not a day passes, Jimmy, but I see something interesting going on, right under this window. Seven times this fortnight I've seen a young man ride by in an automobile with the brightest green hat beside him that ever I laid eyes on. Lizzie Baker says it's sinful—the hat, I mean; but Charmian says it's becoming. What do you think about it, sonny?"

KEEP THEM HAPPY BY KEEPING THEM WELL

It is natural for children to be happy, active and full of fun. When they are fretful, fussy and disinclined to play you may be sure something is wrong. Almost invariably that something lies in the digestive tract.

It is to meet the need for an absolute safe corrective of childhood ailments that Baby's Own Tablets have been designed. They gently regulate the stomach and bowels and thus drive out constipation and indigestion; break up colds and simple fevers and allay teething pains. Concerning them Mrs. W. E. Forsyth, Dover, N.B., writes:—"I would not be without Baby's Own Tablets as I know of nothing to equal them for fretful, fussy babies who are troubled with colds or sour stomach."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
