THE CRESTON REVIEW

VOL. XXII. CRESTON, B. C., FRIDAY, MARCH 6, 1931 No. 50

Trinity United Annual Dinner

Rev. N. R. Matheson of Kimberley and Miss Foster, a West China Missionary are Guest Speakers—Go-Getters Serve.

The third annual banquet of the Creston United Church circuits was held in the basement of Trinity Church on Thursday evening last. Notwithstanding the poor roads, which prevented those fr m Wynndel and Lister attending, some 80 members and adherents were present. W. J. Craig acted as chairman.

The tables were decorated with red, white and blue streamers, and a profusion of silken Union Jacks. During the supper a large number of candles supplied the light. A bountiful spread of good things to eat was provided, and the members of the Go Getters, in attractive costumes acted as waitresses.

After the toast to the King, and the singing of the national anthem, J. W. Robinson proposed "Our Country" which was responded to by Miss Muriel Knott. This was followed by "O Canada. Mr. and Mrs. Kolthammer rendered a duett, "Abide With Us."

In a very humorous vein Manfred Samuelson proposed the "Ladies," to which Mrs. Kernaghan made a witty response. Miss Violet Morrow and Miss Kirk sang a duett, which was well received.

Miss Foster, a missionary of the church on furlough from West China, captured per audience with a simple but interesting talk on her work. The pastor, Rev. R. E. Cribb, was then called upon by the chairman to introduce Rev. R. N. Matheson of Kimberley, whose subject was the "Vision of the Church." Mr. Cribb referred to the happy results of union which, in some respects, were far greater than hoped for.

Rev. Mr. Matheson, by means of a map of the world, traced the extent of the Canadian contribution of religion to the people's of the earth. The amalgating bodies in the union had brought in missions with the result that the sun never set on Canadian work abroad. The home mission work is conducted in 27 languages, which showed the unifying influence of the church on national life

Mr. Matheson referred briefly to the 90 hospitals, 20 schools and colleges with an enrollment of 7000, 8 redemptive homes, the 1795 home missionaries in districts not able to support a miuister. Since union church membership had increased by 10,000 per year, and the givings to church work by 20 per cent.

Members of the Go Getters who served Misses Rita Phillips, Evelyn Rogers, Margaret and Elizabeth Armitage, Mildred Kingzett, Phyllis MacDonald and Dorothy Palmer.

Wynndel

Mrs. Botts of Nelson was a between trains visitor on Monday.

Mrs. Eric Wood of Kimberley is here on a visit with her mother, Mrs. Ringheim, this week.

Mrs. R. Dalbom was a patient in Creston hospital a couple of days last week.

Mrs. Foxall, who has been residing at Creston for the winter, returned home last week

Frank Hagen is at present carrying his right arm in a sling, having injured his collar bone in a fall.

E. Foxall, who has been employed on the dredge, returned home on Sunday.

Mrs. R. Price, with Stanley and Bernice, left Tuesday for Winnipeg, Man., en route to North Bay, Ontario, where they will make their home in future.

A very enjoyable time was spent on Monday evening at the home of Mrs. M. Hagen, being a surprise party on Mrs R. Price ou the eve of her departure for Winnipeg, Man., where her marriage to Mr. Barry of Ontario, will take place. Games and dancing were the order of the evening, and a dainty lunch was served at midnight. Good wishes were tendered Mrs. Price, and all joined in showing her popularity by singing "She's a Jolly Good Fellow." The evening was brought to a close by joining hands and giving n hearty rendering to Auld Lang Syne.

There was a splendid turnout at the K.K. Klub last week, and the entertainment programme was good. The wheelbarrow race caused much excitement and was won by Miss Josephine Pedersen and N. Crane Dressmaking was won by Ad. Hagen with Mrs R. Price as model Thread and needle race was won by Ad. Hagen and Miss Alice LaBelle, while the cinderella dance prizes went to Mrs. R. Price and Jim Hulme. The winners of this dance were the lady and gent ready for dancing after the gent had found the correct shoe for his partner. Minute stump speeches and a very enjoyable sketch, "A Pain in the Side," by Mrs. R. Andestad as Jane; Mrs. R. Price as Mary, and Murray Hackett as Uncle, brought the programme to a close. The usual good lunch was provided.

Canyon City

T. Hickey, who has been employed with General Construction Company on work on the Kuskanook road for the past few months, arrived home at the end of the week.

Principal Kolthammer of the Huscroft school is laid up with the flu at his home here and school is closed this week.

The Ladies' Aid are having a supper and entertainment at the hall on Saturday evening.

L. Olsen and John Nygaard, wh: have been working at pole making at the McInnis camp at Wynndel all winter, are home at present.

W. Harrison of Fernie, manager of Scott Fruit Company, Limited, in company with G. E. VanAckeran, have been calling on orchardists in this district this week looking for additional fruit to handle for 1931, and prospects are good for them greatly increasing their output this year.

The hospital benefit dance put on by Canyon Hall Association at the hall on Friday night last was largely attended, and after paying all expenses there will be a fine surplus to donate Creston hospital. Music was by Al. Fredericks' orchestra. Chas. Davis of Rykerts did the drawing for the quilt raffled by the Ladies' Community Club for hospital benefit, and the winning ticket was held by R M. Maxwell of Creston.

Canyon Hall Association had their annual meeting on Monday night which was well attended and reports sub mitted showed that 1930 had been favorable one for hall operation. Officers for this year are: President, Jas. Bateman; vice-president, Miss Muriel Knott; secretary, M. Somuelson; treasurer, A. Spencer. Considerable improvement was made in the hall the past year, including shingling the exterior.

Are You a Mason?

Whether you are a Mason or not will not prevent you from enjoying the hilarious humor of this comedy. This popular play will be presented early in April, under the auspices of the steward's board of the United Church. O. Sostad with Miss Meldrum play the leading parts as Mr. and Mrs. Perry. Mrs. W. Fraser acts as Perry's dominant mother-in-law, as Mrs. Bloodgood. Ted Staples is the somewhat abused and harassed Mr. Bloodgood, with a weakness for Masonry of a sort. E. Whitfield as Morrison, and F. Levirs as Fisher become enamoured with Mr. Perry's fair sisters, Misses Hazel Hobden and Marguerite Crawford respectively as Annie and Lulu B oodgood. The maid Miss Violet Morrow, a disbeliever in Masonry, is a gift of the mother-in-law to watch over the Perrys. Mr. and Mrs. Halton, acted by Rev. R. E. Cribb dnd Mrs A. L. Palmer, add to the complexity of the plot. Miss Eva Holmes plays the little French milliner, and a mythical but, at times, potent character, Angeline. Fisher, however, assumes her role, to the embarassment of Mr. Bloodgood. E. Marriott as Mr. Travers, depicts a down at the heel actor. W. J. Truscott appears as policeman.

Erickson

Mr. Harrison of Fernie, manager of the Scott Fruit Company, spent the past week calling on the orchardists in this district and getting things lined up for a bigger trade than last year.

Mr. and Mrs. W. Booey of the Arrow Creek district, who have spent several months in California, arrived back at the middle of the week.

Miss Theo. Tompkins of Creston spent the weekend here, a guest of Miss Helen Dodds.

B. Borril of Fernie, arrived on Saturday on a visit with Erickson friends.

The Erickson Ladies' Guild of Christ Church had their March meeting on Tuesday at the home of Mrs. Murphy.

W. G. Littlejohn got away on Monday on a combined business and pleasure trip to Victoria.

Erickson people will have two annual meetings on their hands next week. East Creston Irrigation District meeting is on the 11th, and on the 14th Creston Valley Co-Operative Association shareholders will be in annual session.

Alice Siding

Mr. and Mrs. Krygsveld and family, who have been on the Rose ranch for the past year, are moving this week on to the Lamont place on Goat River bottom, just east of Creston.

Mr. and Mrs. John Parkin of Lethbridge, Alberta, are here on a visit with the former's parents, Mr. and Mrs. J W. Parkin.

Meadowlarks have made their appearance already and certainly all the other signs indicate an early spring.

Mr. and Mrs. Chernoff have vacated the Brubacher ranch to take possession of their new place at Erickson, and Mr. nd Mrs. Edison of Erickson have arrived to replace them.

Last week's surprise party was on Mr. and Mrs. Krygsveld on Friday evening when about 50 of the local residents, mostly of the younger set, took possession of the home and had a very merry time of it, wi h a dance to the strains of the accordeon in the hands of Tom Marshall with Bob Marshall handling the drums. There was the usual substantial lunch at midnight.

Residents from all points in the Valley were here on Wednesday afternoon for the sale of the farm stock and equipment of the ranch of the late J. F. Rose. Jas. Compton made his debut as an auctionerr and made a very satisfactory job of it. Taken all around prices realized were quite satisfactory.

AT THE HOSPITAL

Miss Eileen Hendy underwent an operation for appendicitis Tuesday morning and is getting on very well.

Cameron MacDonald is still a patient. His hand is making very satisfactory progress but it will be some time before it has healed.

"Bud" Rogers is getting on very well. He has been such a good patient that the entire hospital staff will be sorry when the time comes for him to be discharged.

Joe Heller of Wynndel has been admitted for treatment for his ear.

Mr. Pascuzzo of Sirdar will probably be discharged in a day or so.

GRAND THEATRE
FRI.-SAT., Mar. 5 - 6

Comedy. Metrotone News

Sirdar

M. Talerico is home after a few weeks spent in Trail.

Mrs. Heap was a weekend visitor with friends in Nelson.

Miss Annie Pascuzzo, who is at school at Yahk, was home for the weekend.

S. Pascuzzo arrived home on Tuesday from Creston hospital, where he was taking treatment for blood poisoning. His healte is much improved.

Ray Treen left on Tuesday for Tadanac.

Mr. Pederson of Wynndel has purchased the C.P.R. boarding house, and with some helpers is busy dismantling the structure.

Mrs. Barragon of Kimberley was a Sirdar visitor last week.

Wynndel Women's Institute

Wynndel Women's Institute had a very successful as well as sociable March meeting on Thursday last at the home of Mrs. J. J. Grady. It is quite evident that spring is here by the display of tulips and carnations that decorated the tea tables. The afternoon's business included arrangements for the Institute dance to be held this evening in the Recreation Company hall, and the donation of a baby quilt. It wa- unanimously agreed to co-operate with the Woman's Auxiliary on any community work they may undertake. Fall fair plans were completed and notices in this connection will be out at a later date. There was a full attendance of members at the meeting and others wishing to join. A delightful lunch was served by the hostesses, Mrs. W. Greig and Mrs. Geo. Huscroft. The Crippled Children's fund collection was the largest ever, and the afternoon was brought to a close with all feeling that in every way and every day the meetings are getting better and better. The March meeting is to be at the home of Mrs. W. Greig, on Thursday, 19th, at 2.30 p.m., and al are welcome.

Local and Personal

Mr. Graham and Mr. Eaton of Carlyle, Sask., are visitors in the district this week, guests of Sam Steenstrup. They are in quest of orchard property to purchase.

Commencing today Creston Valley Co-Operative Association announces that flour, feed, hay and grain will be sold strictly for cash and competitive prices will be met every time.

The new town bell has been placed in the new tower on the town hall and is available for fire alarm purposes. The impression is abroad that the council proposes to enact a curfew law.

The village council has its March session on Monday night. Auditor A. Spencer has completed the audit of the 1930 accounts and the balance sheet will be up for adoption at this meeting.

Mrs. W. K. Brown, who has been holidaying in Georgia and other points in the south for the past ten weeks, arrived home on Saturday, and is much improved in health as a result of the holiday

With the prophets almost unanimous that an early spring is assured and trappers who have been in from the hills reporting hardly more than four feet of snow where fourteen feet was in evidence a year ago, there would seem to be tittle to fear from high water this season.

Audit Village Books Complete

1930 Revenue Drops $790 Due Decreased Grant from Liquor Profits—Street Lighting Costs $700—$1000 Owed on Park.

Village auditor A. Spencer has just completed his audit of the 1930 business operations of the municipality, and the end of the year finds the village with practically all the year's accounts paid and a cash balance of $2629, as compared with a 1929 surplus of $1559. Accounts unpaid are shown under the liabilities as $131.

Receipts from all sources last year were $7583 as compared with $8202 in 1929, but the decrease is wholly attributable to the falling of in the grant on account of liquor profits which shrunk just a little over $700. For the two years the Motor License grant is up $2, but the grant from the pari mutuel race track betting fell away $40.

Tax collections were not quite as good as the year previous, the 1930 intake from this source running to $3050, whereas in 1929 a total of $3203 was realized from ordinary taxation. 1930 witnessed a rise on trade licenses from $730 a year ago to $794 in 1930, but there was a drop in poll tax collected, from $196 to $142. The dog population has been well maintained judging by the intake from licenses issued for village canines. In 1929 there was an ingathering of $37 from this quarter, and in 1930 the grand total was $38.

From liquor profits, motor license and pari mutuel the 1929 intake was $3917, whereas in 1930 these grants fell away to $3222. The drop in liquor revenues is partly attributable to the fact that the government has recently cut the share paid the municipalitie by about 10 per cent. Total income for 1930, including the balance carried from 1929, was $9,144.

On the expenditure side the past year went light on highway expenses, maintenance and gravelling in 1930 costing $2002, whereas 1929 had an outlay in this respect of $4483. Better work was done, however in new sidewalks which cost $381 in 1930, as compared with $104, in 1929.

Donations for 1930 were $227, the council showing consideration for the newly-formed tennis club to the extent of $35, while Creston was assisted in the matter of introducing international league baseball to the amount of $50. The fall fair got its usual quota of $100, and there was $20 for the Salvation Army, and $9.80 for the hospital. In 1929 donations totalled $204.

For salaries the expenditure for the two years is precisely the same, $476, but there is new entry in this year's accounts to take care of street lighting which totalled $711. Clean up week garbage collection cost was cut from $55 in 1929 to $28 in 1930. Municipal hall maintenance is placed at $147 for 1929, and at $136 for 1930. Advertising, printing and supplies cost $163 in 1930, as against $135 in 1929. Under the head of general administration there is a raise of about $250 in 1930

The village assets are placed at $10,218 made up of $2629 surplus, tax arrears $795, town hall $1200, fire fighting equipment $1050, and real estate to a total of $3628, in which is reckoned the fall fair building and grounds at $2500, on which $1000 is owing.

The surplus of assets over liabilities $9086. There is still $1000 owing on the fall fair grounds, and there are vouchers payable of $131. In a letter to the council the auditor explains that this latter amou..t is due the hospital, and would have been paid in 1930 had the hospital board account reached the council prior to December 31st.

In the usual statement by the auditor that he balance sheet "correctly portrays the position of the accounts of the village as shown by the books and records," the auditor goes on to say, "I have received all the explanations and information that I have required, and I beg to express my appreciation of the courtesy of your officers during the audit."

Thrift --- Waste

At the present time people in all walks of life, individuals, corporations, governments, are deeply concerned over the prevailing business depression, unemployment, loss of purchasing power, accumulation of debts. Everywhere people are seeking to learn the primary cause with a view to applying a cure; they are anxious not only to overcome existing conditions, but to ascertain the cause with a view to preventing a recurrence of such conditions.

Some talk learnedly of the world's supply and distribution of gold, which is the basic standard of all international business. Others complain of over-production, although the more generally accepted view now is that the world suffers not so much from over-production as under-consumption. Enormous war debts imposing heavy taxation on all, are held by some to be the underlying cause. Restrictive tariffs, shutting off nations and interfering with the free flow of trade, are blamed by others. Faulty and unduly expensive methods of distribution from primary producer and manufacturer to the ultimate consumer are responsible, so others contend.

But when all these, and a multitude of other things are considered and given their due weight, does not the basic cause lie much nearer home for the average individual? Is it not because of a lack of thrift, the indulgence in habits of waste, that many persons find themselves in financial difficulties?

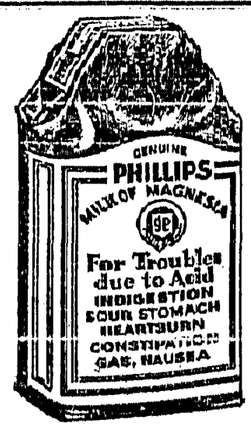
The writer can well imagine the reader saying to himself that the present is not the time to talk about thrift, when people have little or nothing to save and cannot indulge in waste because they have nothing to waste. But, the writer contends, this is, therefore, the most opportune of all times to advocate thrift and condemn waste. It would be a mistake to remain silent until times are booming again, because people then are in no mood to listen. It is when a dollar looms up big, big as ten dollars when times are good and business brisk, that people are more willing to give heed to the benefits of thrift. When money comes easily, it usually goes just as easily, but when it is hard to get we are the more inclined to hold on to it.

In his autobiography, the late Edward Bok, the famous editor of "The Ladies' Home Journal," tells how, when he came to America as a lad of six from his native land (the Netherlands), the most wonderful lesson for him was the necessity of thrift. He had already been taught that thrift was one of the fundamentals in a successful life; his family had come from a land noted for its thrift; but, he says, "we had been in the United States only a few days before the realization came home strongly to my father and mother that they had brought their children to a land of waste." Where, says Mr. Bok, the Dutchman saved, the American wasted. There was waste, and the most prodigal waste, on every hand. It was, he says, an easy calculation that what was thrown away in a week's time from Brooklyn homes would feed the poor of the Netherlands.

Continuing, Mr. Bok says: "At school, I quickly learned that to 'save money' was to be 'stingy'; as a young man, I soon found that the American disliked the word 'economy,' and on every hand as plenty grew spending grew. There was literally nothing in American life to teach me thrift or economy; everything to teach me to spend and to waste. I saw men who had earned good salaries in their prime, reach the years of incapacity as dependents. I saw families on every hand either living quite up to their means or beyond them; rarely within them. The more a man earned, the more he—or his wife—spent. I saw fathers and mothers and their children dressed beyond their incomes. The proportion of families who ran into debt was far greater than those who saved. When a panic came, the families 'pulled in,' when the panic was over, they 'let out.' But the end of one year found them precisely where they were at the close of the previous year, unless they were deeper in debt."

Is it not true, we ask the question advisedly,—that many of us are in financial difficulty today because, instead of exercising thrift when times were good, and putting aside a little against the day when times might not be good, we spent to the limit of our earnings, possibly beyond, in the belief that times would always be good, and now we are in trouble with no reserve to fall back upon? Is it not true that we were wasteful, perhaps not in big things, but in numerous little ways, carelessly expending a dollar here and a dollar there which, if saved, would be a veritable godsend now? In these days of world depression, France has been quoted over and over again as the nation least affected and with less unemployment than any other great nation. Why? Because the French people are notoriously frugal; they save their pennies; they waste little.

But we in this new world, with far greater natural wealth and wider opportunity, are wasteful, extravagant, spendthrift. And the result, when depression comes and with no reserves, we suffer. Is not, perhaps, the real, the underlying cause of much of our present difficulty to be found in this unfortunate trait in our people? Think it over, each for himself or herself.



Too much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms, such as headaches, gas, heartburn, etc., will disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine, prescribed by doctors for conditions due to excess acid. It is always a liquid; it cannot be made in tablet form. Look for the name Phillips' and the word *genuine* in red.

(Made in Canada)

Taking the Census

Army Of 15,000 To Be Engaged In Huge Undertaking

Three times as many persons will be needed to complete Canada's decennial census this summer as Wolfe had when he stormed the Quebec citadel to annex the country to the British Empire, states R. H. Coats, Dominion statistician. On June 1 next a veritable army of 15,000 men and women will begin enumerating the population of the country, gathering eugenic and racial information and social and economic records.

It will be the seventh census since Confederation and will be unique in that unemployment figures will be gathered and information regarding hospitals, asylums and child welfare institutions.

As head of the enumeration and compilation staff, Mr. Coats sought the co-operation of all Canadians, asking that they furnish accurate information when interrogated and expedite proceedings as much as possible.

Acids In Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist some Bisurated Magnesia and take in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Wagner Festival

Toscanini Will Conduct Performances Of Tannhauser At Bayreuth

Toscanini, Furtwaengler and Elmendorff will be conductors at this year's Wagner Festival to be held at Bayreuth. This will be the second year in succession that this honour has bone to Toscanini.

Born in Parma, Italy, in 1867, Arturo Toscanini has had a brilliant musical career. He received his early training at Milan Conservatory and in the year 1908 was appointed to the conductorship of the Metropolitan Opera House in New York, which position he retained until 1931.

To the thousands who attended the festival last year his conducting was a revelation and completely vindicated the faith of those responsible for the breaking of the tradition that only a German was capable of interpreting Wagner.

Boris Hambourg, of that famous Canadian quartette known as the Hart House Quartette, all of whom attended the festival, described the conducting of Toscanini as being nothing short of marvellous. In all his interviews on his arrival at Montreal on the Cunard liner "Ascania," after the festival, Hambourg had nothing but the highest praise for the Italian conductor.

Arturo Toscanini will, this year, conduct all performances of Tannhauser on July 21st and August 1st, 5th, 8th and 17th. He will also conduct "Parsifal" on July 22nd and August 6th, 9th and 19th. It was originally intended that Dr. Muck would conduct "Parsifal," but owing to a very serious illness has been compelled to withdraw. Dr. Muck is a musician who has been brought up in an atmosphere literally steeped in the Wagner tradition, and it was with great regret that he has had to discontinue his Bayreuth activities.

This year Herr Furtwaengler will be musical director-general of the Bayreuth Festival Plays, and will conduct "Tristan" himself. Carl Elmendorff will again be the conductor of the "Ring of the Nibelung."

Convenient sailings can be arranged via the Cunard Line for those wishing to attend the festival and each Friday during July and August there will be two Cunard-Anchor-Donaldson liners sailing from Montreal for Great Britain and the Continent.

London now has 20,000 men on its police force.

Dead and Run-Down RADIO "A" AND AUTO Batteries Instantly Charged

"SELF-CHARGE" will charge Radio "A" and all Auto Batteries instantly. Batteries that are Dead—Run Down—Lifeless—even batteries discarded as worthless—are filled with Pep—Power—Long Life, easily and in a few minutes' time, reducing your former battery troubles and charging expenses to a minimum. Makes new batteries last for years. So simple, anyone can use it. "SELF-CHARGE" preserves and lengthens the life of any battery. Works equally well in winter or summer.

The Battery Charging Wonder

Agents!

Make $10.00 to $30.00 Daily

"SELF-CHARGE" sells itself to over 90 per cent. of the battery owners on first demonstration. Why! Because the results are so thoroughly convincing that there is no room for doubt. Be the first in your district. Secure exclusive and protected territory now.

MAIL COUPON TODAY

Stronger Spark

Better Reception

Write To-day for Territory

To introduce "SELF-CHARGE"—if there is no agent in your territory—and prove to you that it will do all we claim for it, we will send you prepaid $6.00 worth of this wonder-worker for $1.50 so as you can treat your own radio or auto battery and convince yourself. This introductory offer applies to one shipment only, and will be withdrawn as agents are appointed.

Write for the exclusive agency for your district and more particulars regarding how you can make big money.

SINCLAIRE INDUSTRIES,
363 Hargrave St., Winnipeg, Man.

Dear Sirs,— "100"

Enclosed find money order for $1.50 for which please send me two boxes of "SELF-CHARGE." One box for my own battery and one I can sell at the regular price of $3.00 per box.

Aviation In Alberta

Alberta Flyers Have An Enviable Record Of Performance

Alberta fliers, fewer in number than those of the majority of the provinces in Canada, are among the most active, to judge from the latest figures from the Department of Civil Aviation, which show that during the year 14,950 flights, during which about 500,000 miles were covered, were undertaken. Alberta fliers during the year spent 6,415 hours in the air, the average flight lasting for 25 minutes. The 'planes carried 12,169 passengers.

Distemper responds quickly to Douglas' Egyptian Liniment. Keep a bottle handy in the stable.

The Roman Coliseum seated more people than the Yale Bowl, the former accommodating 87,000 people.

Awarded Trophy

The French section of the International League of Aviators voted the 1930 trophy for outstanding aeronautic accomplishment to Dieudonne Coste and Maurice Bellonte, for their Paris-to-New York flight. A medal of honor was awarded Jean Mermoz, French pilot, who flew to Brazil.

HUNTER-MARTIN & CO., REGINA, SASK.

SEA HARBOR FOR PRAIRIES TO OPEN SOON

Winnipeg, Man.—In a few weeks workmen will toil again at Churchill. They will start the last six-month lap on a job that is to give the northern harbor a 2,500,000-bushel grain elevator with the second largest warehouse in the world.

Storage will mean but little to the sprawling bins ranged along the south shore of the rock-girt harbor at the end of the Hudson Bay Railway. But ability to handle grain — to dump cars, to clean, weigh and separate the grain, to run it out to waiting ships—will be a paramount necessity for the elevator at the port with a winter-shortened season.

More than 500,000 bushels daily may pour through the varied processes of the Churchill elevator's warehouse when work is completed in the middle of next September. Only the great Pool Elevator Number Seven, at Port Arthur, will be able to handle grain more rapidly than the terminal "north of 58." If the Churchill plant is ever pressed to capacity the route will be a success.

About 750,000 bushels of wheat will be rushed overseas this fall between the time the elevator is ready September 15 and the close of navigation on the Bay, according to the promise of Dominion authorities. Some organizations in the west are pressing for a shipment of as much as 5,000,000 bushels this fall, but it is understood from reilable sources that such a flow of grain in the brief available time would tie up dock work in progress and threaten the efficiency of elevator and dock facilities.

At the present moment, groundwork on the elevator is completed to the first floor. In late March it is expected construction of the power house will commence alongside the elevator. In May, concrete pouring begins on the elevator and the warehouse, from the ground floor upward. Work on shipping galleries, too, must be hurried in order to have them ready for the restricted shipping of this fall.

Across the harbor from the historic Fort Prince of Wales, the new elevator will reach out 500 feet along the shore line and tower 200 feet against the north's grey sky. Close by are the terminal yards of the Hudson Bay road, which rolls northward over 500 miles of muskeg country from The Pas, itself on Manitoba's frontier.

All Canada will be watching when the mechanism of Churchill's port moves into real action this fall — more than 300 years after the Dane, Jans Munck, first eased his boat into the mouth of the Churchill River to spend the tragic winter that cost the lives of all but three of his 64-man expedition. This fall comes the test of Canada's greatest experiment for many a year—the building of a sea harbor for the prairies.

Seeking Pensions For Blind

Manitoba Asking Federal Government To Finance Scheme

Winnipeg, Man.—Dominion parliament is called upon to implement a pension scheme for blind persons in a resolution adopted in the Manitoba Legislature.

The resolution was sponsored by William Ivens, Labor member for Winnipeg. The pensions for the blind would be financed in whole or in part by the federal government.

Well Supplies Boiling Water

Vimy, Alberta.—Leo Chaput, farmer of this district, is taking things easy these days. Not for him is the worry of boiling water with which to brew his favorite cup of tea, for shaving water or the long-deferred ablution. He recently tapped a well that supplies him with ready boiled water all the time. Mr. Chaput has sent two bottle of the water to the University of Alberta for analysis.

W. N. U. 1879

Women Mushers Staging Race For Championship

One Of Feature Attractions At The Pas Dog Derby —

Winnipeg, Man.—A duel over the snow-swept trails of Northern Manitoba to settle the title of woman dog mushing champion of the world, with a side bet of $1,000, promises to be one of the feature attractions of dog derby week at The Pas as a result of developments, announced by A. E. Warren, vice-president Canadian National Railways, patron of the northern classic. Early this winter Miss Thula Geelan, girl musher from McCall, Idaho, recognized as the leading musher in the western states, challenged Mrs. E. P. Ricker, of Poland Springs, Maine, to a 25-mile dog-race for the mushing championship of the fair sex. She asked for a side bet of $1,000 to be posted before the race. The contest would take place over a course here selected by the dog derby committee.

The dog derby committee of The Pas has received a wire from Mrs. Ricker accepting the challenge. Both women are expected to take part in the 200-mile dog race from The Pas to Flin Flon and return starting March 20. Miss Ida Carriere, another woman entry, is also training over northern trails for the long race.

Three of the northland's most fearless mushers, St. Godard, Earl Brydges and "Shorty" Russick, left Winnipeg via Canadian National Railways for The Pas, Man., where they will whip their dogs into shape for the gruelling 200-mile race.

Important Ruling By Alberta Supreme Court

Collection Of Fees Under Dominion Charter Is Illegal

Calgary, Alberta.—Fees assessed by the Lieutenant-Governor-in-Council on companies with a Dominion charter cannot be collected, according to judgment of the appellate division of the Supreme Court of Alberta.

The question arose in an action taken by the attorney-general of Alberta against the Royalite Oil Company for collection of a fee imposed by the provincial government through the Lieutenant-Governor-in-Council and under the Alberta Companies Act.

Unemployed Make Trouble

Girl and Two Policemen Injured In Toronto

Toronto, Ont.—Two policemen, a ten-year-old girl and a woman were injured when at least 2,000 of Toronto's unemployed gathered at the corner of Spadina Avenue and Dundas Street, in the downtown section, where a proposed unemployment demonstration was to be held.

Seven demonstrators were arrested when stones, bricks, and other missiles were directed at the police, who retaliated by a charge along the thoroughfare.

Win Cavalry Cup

Manitoba Mounted Rifles, Portage la Prairie, Awarded Honor

Ottawa, Ont.—Manitoba Mounted Rifles, Portage la Prairie, won the Canadian Cavalry Association's signaller-challenge cup with a score of 5,536 points out of a possible 5,743, it was announced here recently. Eighth Princess Louise Hussars, New Brunswick, came second with 4,246 points.

Oxford Rifles, Woodstock, Ontario, won the Infantry Signallers' competition with 5,656 points.

May Amend Mining Act

Ontario Introductory Bill To Bar Speculators In Townsites

Toronto, Ont.—Speculators who rush into mining areas and avail themselves of the privilege of filing on claims which they hope to develop into townsites, hot-dog stands, or barber shops will be frustrated in future under the provisions of the bill to amend the Mining Act, introduced into the Ontario legislature by Hon. Charles McCrae. All claims must be developed as mines and not as real estate speculations under the amendments planned.

NOTABLE STATESMAN

Sir Laming Worthington Evans, 62, secretary of war in the last Conservative government of Great Britain, who died February 13, had a distinguished political career and was one of the mainstays in the high councils of the Conservative party. As a great lawyer he will be remembered by Canadians principally as the London solicitor appointed by the English courts to realize assets of the British America Company, the London Globe, and other Whittaker Wright concerns after the great financial smash in 1801.

Sign Wheat Agreement

Sixteen European Nations Sign On Disposal Of Wheat Stocks

Paris, France.—At the French foreign office, 16 European nations signed the final act for the disposal of the wheat stocks of the central and European states. Russia was not invited to the conference. Russian wheat, therefore, was not included.

The signatory states are Germany, Austria, Bulgaria, Esthonia, Finland, France, Greece, Hungary, Italy, Latvia, Poland, Lithunania, Rumania, Switzerland, Czechoslovakia, and Yugo-Slavia. Seven persons did not sign. They are Britain, the Irish Free State, Belgium, Denmark, Spain, the Netherlands, and Sweden.

Report Is Denied

Ottawa, Ont.—"No fixed discount from list prices has so far been placed for duty purposes on books imported into Canada from the United States for sale." This was the statement made at the Department of National Revenue in referring to a report that a fixed discount of 49 per cent. was to be applied generally on books imported from the United States, effective April 1.

Northern Trade Route

Insurance Rates To Be Lower Than Expected Out Of Hudson Bay

Ottawa, Ont.—Within the past three weeks there has been a sudden and in many ways completely unexpected interest on the part of Canadian, British and foreign shipping companies in the Hudson Bay route.

Hon. Dr. R. J. Manion, Minister of Railways and Canals, declined to discuss these recent developments. He will make a detail statement in parliament, by which time it seems certain that definite plans and commitments will have been reached which will assure Fort Churchill a striking opening, and ensure the future success of the new trade route.

It is learned authoritatively that several large steamship companies have come forward and declared their intention of placing ships on the new route. This applies to British and foreign shipping. There has been a most remarkable reaction among Canadian ship operators, who see tremendous possibilities in the development of inter-provincial trade. Maritime provinces companies are going to try to develop trade direct with the prairie provinces. British Columbia companies already have completed plans for a trade in lumber, with cargoes of wheat outgoing from Churchill to foreign ports, and a return cargo from foreign ports to Vancouver.

These shipping interests have taken a firm hand in matters of insurance and cargo rates. Lloyd's, of London, England, have been stirred up and it may be announced definitely that the insurance rates out of Churchill will be much lower than hitherto has been expected.

To Oblige the Prince

Revolt In Peru Is Held Off Until Departure Of His Royal Highness

Vina Del Mar, Chile.—Reliable persons reaching here from Peru declared that the revolt in that country was ready to start at the time the Prince of Wales visited Peru only a few days ago, but was held off until the British party had safely left.

The persons who gave the information followed the Prince of Wales' party through Peru and Bolivia. They said that while the Prince of Wales was in Peru a number of officers, who said a revolution was impending, went to the Prince and told him that they would hold it off until he had completed his visit.

Air passages and mail routes in Europe now cover 72,084 miles.

ROYAL BROTHERS AT GOLF

The Prince of Wales and his brother, Prince George, are here seen on the golf links at Panama, C.Z., during a round when they made a short stay at the Canal Zone city on their way south to the Argentine exposition. Note the Prince of Wales' double-decker hat which he uses as guard against the sun.

RUSSIA WOULD TRADE COAL FOR FARM MACHINERY

Montreal.—If Canada will accept $3,350,000 worth of Russian coal in part payment, Russia is willing to purchase her agricultural machinery, the total value of which will amount to $10,000,000, according to a plan which Lieut.-Colonel Herbert J. Mackie, former Conservative member of parliament, stated he had laid before the government at Ottawa, on behalf of the Soviet Government. The balance of the debt would be settled in gold, and the Soviet Government is understood to have expressed its willingness to hold a conference with Canada at which a plan would be formulated for marketing of wheat without dumping.

In the opinion of Col. Mackie some understanding with Russia about the marketing of wheat is expedient. Anticipating the success of the five-year plan and casting an eye on Russia's success in wheat growing up to this time, he seemed impressed with the strength of her position. He feared that unless some agreement were reached with Russia she would undersell Canadians in every market of the world.

As for the opposition against importing Russian coal, Col. Mackie believed that the strongest propaganda had been emanating from American competitors of the Soviet. Russia's purpose is to export anthracite in domestic sizes, a product which could not possibly compete with coal from Nova Scotia. The Russian coal would be in direct competition with the imported American product, Col. Mackie said.

"Canada and Russia must get together on wheat — we must have a conference," said Lt.-Col. Mackie.

"As things are, we bid fair to provoke Russia. At a conference in London, England, with a Canadian trade representative, Saul Bron, the chief Soviet trade delegate to the British Empire, reiterated this plea, and this warning: "Do not put Russia on the defensive." He said it again and again, earnestly, pleadingly.

"I know the seriousness of Bron's statement, possibly better than any other Canadian, for I have made 17 visits to Russia since the revolution, and I know Russia's power to help or hurt my country," to wage economic war or peace.

"High Russian officials have approached Canada through me, asking for a conference. The idea receives the support of the Argentina and Australian government representatives in London, England. Only a few days ago Chairman Legge, of the U.S. Farm Board, said that he could see value, with nothing to lose, in such a conference with Russia.

Well-Known Geologist Dead

Dr. Robert Stewart, Of Toronto, Had Stirring Career

Toronto, Ont.—Dr. Robert Stewart, well-known geologist and medical practitioner, and an authority on mining in the Hudson Bay district, died here last week.

While associated with the Hudson Bay Company and the Ontario Bureau of Mines, Dr. Stewart had a stirring career, being twice shipwrecked on Hudson Bay boats, once in the Bay of Ungava, in 1925, and once off the coast of Labrador, in 1927. His last trip to the North was made in 1928. Dr. Stewart was born in Lucknow, Ontario.

Increase In Autos

Ottawa, Ont.—Canada had a motor vehicle for every eight persons in 1930, as compared with one motor vehicle for every 11 people in 1929, according to a report issued by the Dominion Bureau of Statistics recently. The number of motor cars registered in 1930 was 1,239,880, an increase of 44,295 over the previous year.

An electric light that can be turned on or off by a puff of one's breath was recently exhibited in New York.

Yes, the correspondence problem is solved!

"I'm going to answer—someday." Of course you intend to write that long-promised letter to a far-away friend or relative, but you keep putting it off until "tomorrow," and, somehow tomorrow never comes.

The fact is, you just don's like writing letters. If you could only speak, instead of writing, it would be different. Well, you can—by using the long-distance telephone.

The telephone is the solution to your correspondence problem. Instead of putting off writing until tomorrow, telephone today.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, MAR. 6

The Tree Census

Last week's article on the 1930 tree census in Creston Valley has attracted considerable local attention judging from the requests we have had to publish a statement showing exactly how many trees in each variety the Valley now possesses. Here are the figures:

APPLES	1930	1925
Wagener	11,915	14,401
McIntosh Red	28,206	19,326
Delicious	18,544	14,067
Wealthy	9,666	12,938
Jonathan	3,789	6,082
Northern Spy	2,147	3,375
Rome Beauty	5,387	3,269
Gravenstein	870	862
Spitzenberg	1,303	1,670
Ontario	272	..
King	896	1,147
Cox Orange	442	660
Yellow Newton	230	..
Winter Banana	1,440	1,401
Snow	204	..
Stayman Winesap	1,554	..
Yellow Transparent	298	..
Duchess	608	443
Grimes Golden	489	330
Greening	639	738
Winesap	119	691
Astrachan	171	
Other Varieties	1,479	6,176
Crabapples	800	1,075
PEARS	**1930**	**1925**
Bartletts	2,384	1,801
Flemish Beauty	2,207	1,194
D'Anjou	1,625	529
Other Varieties	2,136	6,515
PLUMS	**1930**	**1925**
Italian Prunes	1,004	482
Peach Plums	358	..
Bradshaw	440	..
Other Plums	779	2,140
CHERRIES	**1930**	**1925**
Lambert	2,775	..
Bing	3,170	..
Royal Anne	433	..
Other Sweet Varieties	587	4,780
Sour	338	533

The figures make interesting reading in that while for the most part the increases are in the "wanted" varieties. there is still a tendency to have a few of the real early sorts as indicated in the gains in such varieties as Astrachan and Yellow Transparents.

How the Ladies Can Help

The Review is frequently asked if there is not some way in which the ladies of the village and the i mediate surrounding district could get together to work as a unit for Creston public hospital.

This is a matter that has had the careful consideration of the hospital directors and their conclusion was that while a Ladies' Hospital Auxiliary could do a wonderfully helpful work, it probably would be unwise to launch such an organization due the fact that the Valley already has almost an oversupply of societies of one sort and another who from time to time make appeals for people's support and to add still another, even for such an excellent cause as a hospital, would be to overwork a generally responsive public.

Ever since its inception the hospital has had splendid backing from the local Women's Institute whose expenditures on furnishing a hospital room and in cash donations already total $120, in addition to which they have rendered equally valuable service in other directions.

From time to time the Institute will be undertaking special efforts to assist the hospital board and, for the present, at any rate, ladies who are anxious to help along the hospital will make no mistake in associating themselves with the Institute.

Should Have Building

The 1931 estimates, which will be brought down at Victoria this week, will be awaited with interest locally. This year curiosity in this connection has two features. Everyone is hoping for a generous appropriation for highway maintenance and new highway construction, while in the village hope is entertained for the providing of $10,000 or $12,000 to erect a much needed building to house the various government services centralized at Creston.

10At the present time the provincial administration has half a dozen branches of its activities here, all quartered in different premises, and on three of which a total rental is paid that would yield a pretty fair rate of interest on the expenditure required to provide a central building that would give a very much better service in some cases, and equally good satisfaction with all the others.

The most pressing need at present is for better quarters for the administration of justice and the carrying on of provincial police branch work generally. The present police quarters in addition to being cramped for the work it is called upon to take care of, is not at all advantageously situated and its sanitary appointments are certainly not of the best.

For a branch of the provincial service yielding close to $11,000 per annum in revenue, and certainly costing little more than $2000 a year for salaries and all running expenses, the provincial police quarters at Creston are little short of disgraceful and the prevailing business depression furnishes no possible excuse for a continuance of the present inadequate and anything but desirable accommodatiou, the remedy for which is the looked-for central government building. If total relief from existing unsatisfactory conditions in connection with police work is not forthcoming, at least new living quarters for the officer in charge should be provided forthwith.

Bulk Apple Shipping

Considerable speculation is taking place just now as to what portion of the 1931 apple crop will move in bulk. The Review knows of one orchardist, who follows marketing closely from year to year, who predicts that this year will see 90 per cent. of the crop going out loose in cars.

With none too much optimism prevalent as to the prairie experiencing a return of normal times, a 90 per cent. bulk tonnage for 1931, while on the high side, does not appear altogether impossible, provided weather conditions next winter are on a par with those encountered this year.

The old adage has it that lightning does not strike twice in the same place, and it is hardly probable that we will see another winter season so favorable for the shipping of apples in bulk as this has been.

In connection with bulk shipping, market reports indicate that this winter has demonstrated that certain varieties of apples can be very attractive to the consumer in bulk. It appears to be quite an ideal method of shipping Jonathans, Wageners and Rome Beauty particularly.

Recent advices from Calgary indicate that shippers who stored Wageners at prairie points will have this forcibly brought to their attention when returns for stored Wageners are received. Every lot of this variety carried over shows shrinkage, some as heavy as 60 per cent.

There is a slightly optimitic tone to market reports which state that consumption of green vegetables is notably on the increase! and hard times do not seem to deter people from buying these high priced commodities.

FOR SALE - Baled straw; hay, baled and loose; 2 C.W. oats for feed or seed Also potatpes. E. Nouguier, Canyon.

When Economy is a Prime Consideration

NATURALLY, economy is an important thing to consider in deciding what car the family should buy. And from this standpoint, the Chevrolet Six is a very practical and satisfying choice. New low prices make Chevrolet's six-cylinder smcothness and 50-horsepower performance available to new thousands of motor car buyers. And due to its low cost for gasoline and oil, its long life and freedom from repairs — the Chevrolet Six will serve you economically for tens of thousands of miles.

PRICED FROM
$610
at Factory, Oshawa
Taxes extra

Chevrolet's policy has always been one of service to the public . . . The GMAC plan of deferred payments offers the lowest financing charges available . . . and the General Motors Owner Service Policy pledges lasting satisfaction.

February Public School Report

219 Pupils Enrolled—Division 3 Leads with 43—With 33 on Roll Division 1 Has Monthly Average Attendance of 32.13.

Division 1—E Marriott, Principal.
Attendance during month, 33.
Average daily attendance, 32.13.
Proficiency: Grade 8—Doris Crosby, Clifford York, Daisy Trevelyan. Grade 7—Charlie Taylor, Eleanor Spratt, Dorothy Collis.
Perfect attendance—E. Armitage, M. Armitage, I. Bourdon, D. Collis, O. Connatty, D. Crosby, R. Dickson, J. Downes, H. Johnson, M. Moore, B. Morrow, P. MacDonald, H. McLaren, L. McLaren, D. Palmer, N. Payne, E. Spratt, C. Taylor, D. Trevelyan, C. York, B. Ferguson, E. Nastasi.

Division 2—Miss Meldrum, teacher.
Number in class, 35.
Average attendance, 33.85.
Per cent. attendance, 96.7.
Proficiency: Grade 7—Godfrey Vigne. George Dodd, Ruth Hare. Grade 6—Irving Ferguson, Theo Tompkins, Clara Schmidt and Bill Bourdon equal.
Perfect attendance—Bill Bourdon, Jean Donaldson, Clarence Embree, Irving Ferguson, Stuart Hilton, August Morabito, Frank North, Rachel Morrow, Norman Nickel, Gerald Phillips, Clara Schmidt, Theo Tompkins, Margaret Torchia, Treasa Torchia, Robert Willis, Raymond Bevan, Arthur, Dodd, George Dodd, Nila Hintz, Emmett Johnson, Bud Perdue, Mary Prentice, Godfrey Vigne, Arthur Nastasi, Sam Nastasi.

Division 3—Miss Wade, teacher.
Pupils attending, 43.
Average daily attendance, 39.3.
Proficiency: Grade 5a—Leona Schmidt, Ruth Davis, Billy Craig. Grade 5a—Campbell York, Charlie French, Francis Bourdon.
Perfect attendance—Irene Brady, Francis Bourdon, Ruth Davis, Maisie Ferguson, Charlie French, Russell Gabelhei, Willie Krygsveld, Wilfred LaBelle, Helen McCreath, Irwin Nickel, Eva Phillips, Mary Ross, Billy Weir, Campbell York, David Armitage, Doris Beninger, Billy Craig, Doris Ferguson, Iona Hills, Tom Lewis, Clara, Paulson, Norman Phillips, Leona Schmidt, Richard Trevelyan, Edra Walkey, Paulson Klein.

Division 4—Miss Learmoth, teacher.
Enrollment, 38.
Per cent. attendance, 92.48.
Proficiency: Grade 4 Junior A—Lottie Klein, James Bourdon, Georgina Paulson Grade 4 Junior B—Elsa Foerster, Mary Watson, Marguerite Grant. Grade 3 Senior A—Vernon Donaldson, Ethel Morrow, Elena Androsoff. Grade 3 Senior B—Walter Hills, Emma Hedstrom, George Cartwright.
Perfect attendance—James Bourdon, George Cartwright, Lorna Donaldson, Vernon Donaldson, Corinne Doneau, Elsa Foerster, Marguerite Grant, Walter Hills, Tinus Krygsveld, Ethel Morrow, Georgina Paulson, Ariel Schade Bill Vigne, Robert Vigne, Mary Watson, Ardrey Wier, Edith Johnston. Lottie Klien, Elena Androsoff, Evelyn Nastasi.

Division 2—Miss Hobden, teacher.
Enrollment 36.
Average daily attendance, 29.4.
Proficiency: Grade 3b—Arthena LaBelle, Holmer Bailey, Bert Macfarland. Grade 2a—Charlotte Wilks, Ellen Morabito, Vera Watson. Grade 2b—Dorothy Schmidt, Eileen Pendry, Helmut Patalla.
Perfect attendance—George Bourdon, William Edwards, James Edwards, Kenneth French, Arthena LaBelle, David Macfarland, Maud Ross, Dorothy Schmidt, Vera Watson, Helmut Patalla.

Division 6—Miss Holmes, teacher,
Enrollment, 34.
Average daily attendance, 26.57.
Proficiency: Grade 1a—Jean Bailey, Helen Dzvigola, Wilma Donaldson. Grade 1b—Louis Johnston, Spencer Schinnour, Harley Brady.
Perfect attendance—Jean Bailey, Russell Biccum, Helen Dzvigola, Kurt Patalla, Katherine Rentz, Willie Rodgers, Betty Ross, Bruce Ross, Katheryne Timmons, Leslie Tooze, Spencer Schinnour.

Lister

The landowners of the area were out in large numbers at the schoolhouse on Monday evening at a meeting to discuss matters connected with the waterworks district. Frank Baker occupied the chair, with A. R. Bernard as secretary. The situation was very thoroughly discussed and a resolution carried to name a committee of nine who will write the Land Settlement Board to secure certain information, especially as to the acreage taxable, amount held on agreement of sale, and amount held by the Land Settlement Board. Also to ascertain just what the present charges cover. It is expected this information will be readily obtainable and as soon as it comes to hand another general meeting will be called. The annual meeting of the Waterworks District is set for March 14th.

Rev. A. Garlick took his final Church of England service at Lister on Sunday morning which was followed by Holy Communion, and was favored with a large turnout. He is leaving very shortly on his return to England.

Mrs. R. Dodds of Erickson has been a visitor here the past week with a number of Lister friends.

School commenced operations on the summer schedule on Monday morning, opening at 9 o'clock.

Principal Kolthammer of the Huscroft school has been on the sick list this week, and the children have had holidays in consequence.

Land clearing and ploughing is general throughout the area. Every available five-acre tract will be under cultivation this year.

The construction work on the new highway to the Idaho boundary was closed down at the end of the week. A shutdown has also taken place at Washout Creek, and Messrs. H. Sommerfield and Julius Ginter, who have been working there, have arrived home.

School report for February shows an average attendance of 94 per cent., with the following making highest standings:
Grade 7—Erwin Meyer, Douglas McKee.
Grade 6—Clara Domke, Frank Yerbury.
Grade 5—Douglas Sinclair, Clara Meyer.
Grade 4—Erika Meyer, Cyril Bird.
Grade 3—Alice Wellspring, Margaret Dent. Grade 2—Margaret Sinclair, Eric Jacks. Grade 1a—Elsie Ramm, Rosemary Wolfrum. Grade 1b—Tonia Riemer, Herbert Stieb.
Perfect attendance—Clara Domke, Martha Domke, Daniel Domke, Helen Gustafson, Erwin Meyer, Erika Meyer, Elsie Ramm, Douglas Sinclair, Margaret Sinclair, Hugh Sommerfeld, Alice Wellspring, Rosemary Wolfrum.

Rev. A. Garlick of Creston was a Thursday and Friday visitor with Mr. and Mrs. John Bird. On Thursday afternoon he held a baptisimal service at the schoolhouse when two children of Mr. and Mrs. Tedford and one of Mr. and Mrs. Millner were christened.

WORLD HAPPENINGS BRIEFLY TOLD

Mrs. George Dewey, widow of the hero of Manila Bay, died at her residence in Washington.

The British Columbia Government favors federal rather than provincial control of radio in Canada, is its reply to a query from Ottawa.

Sir Robert Burnett, 79, who wos physician to the Marquis of Lorne, when he was Canada's governor-general, is dead.

Appointment of John A. Stiles as chief executive officer of the Boy Scouts Association in Canada, has been announced by the executive committee of that body.

The 18th amendment has been sustained as valid by the Supreme Court. Under the decision the government will continue its efforts to enforce the Volstead law.

Walter Lindrum, the famous Australian billiard player, was summoned to Buckingham Palace to give a demonstration of his skill before the King and Queen.

The conferment by the King of an earldom upon Viscount Willingdon, former governor-general of Canada and viceroy-elect of India, is announced in the Official Gazette.

Sir Alexander Gibb, noted British port authority, has been invited to investigate the technical and business features of the ports of Halifax, St. John, Quebec, Montreal and Vancouver.

"Big Bill" Thompson, invincible as ever, won his fourth mayoral nomination in the Republic primary election in Chicago, defeating by a plurality estimated at 45,000 Judge Joe H. Lyle.

MacMillan's Equipment Will Include 'Planes

Arctic Explorer Outlines Plans For Trip Into Baffin Land

Donald B. MacMillan, Arctic explorer outlined plans for an expedition into Baffin Land and the North Polar region next summer. The expedition, he said, would be in three sections—the first sailing from Wiscaset, Maine, June 20, to be followed by Dr. Alexander Forbes, of Boston, and Sir Wilfred Grenfell, of London. Three aeroplanes will be included in the equipment.

One of the principal objectives, he said, would be the study of glaciers to determine the possibility of the formation of another "glacier age."

Persian Balm promotes daintiness, charm and beauty. It is unrivalled in its magical effect on the skin. Swiftly absorbed by the tissues, it leaves never a vestige of stickiness. Delightfully cool to the skin. Stimulating and invigorating. Softens and makes the hands flawlessly white. Subtly fragrant. Imparts youth and loveliness to the complexion. Persian Balm is the inevitable choice of the woman who cares.

Discover New Land

New land has been discovered in the Antarctic by the Norwegian whaler, Torlyn, the whaler reported in a wireless message. The new land, the message said, is a continuation of Mt. Robertson Land, which Sir Douglas Mawson discovered last year.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

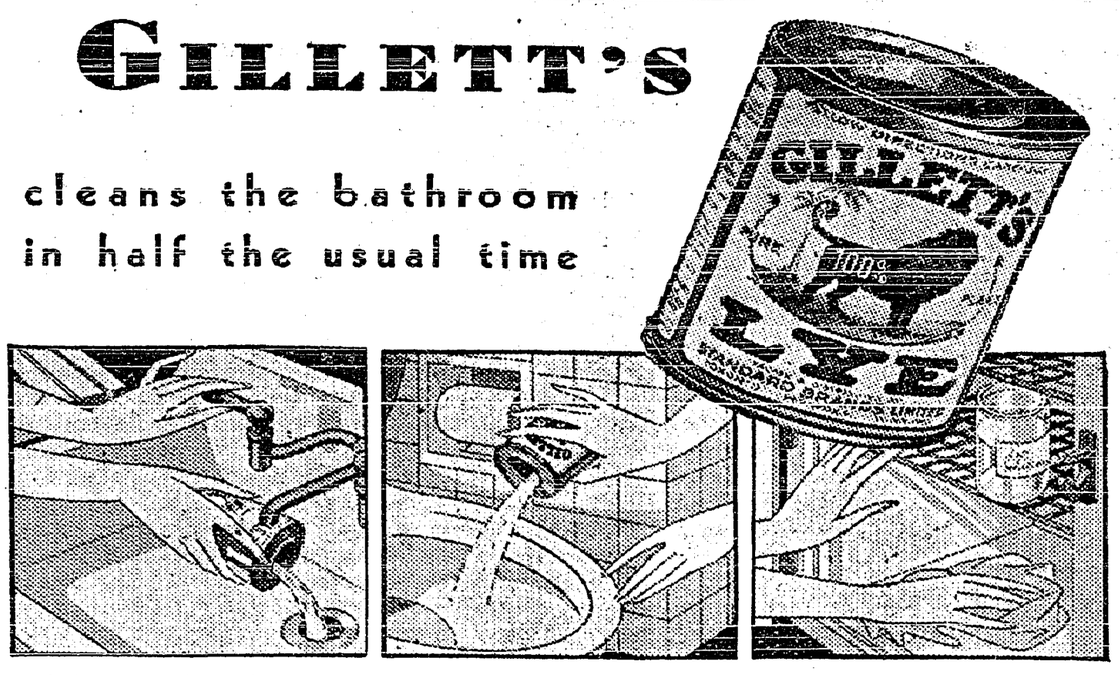
GILLETT'S Flake Lye

cleans the bathroom in half the usual time



■ Full strength for Sink Drains ■ Full strength for the toilet bowl ■ In solution for general cleaning

GILLETT'S Lye "Eats Dirt"

* Lye should never be dissolved in hot water.

ONE tablespoonful of Gillett's Lye dissolved in a gallon of cold* water provides an ideal, safe solution that quickly cleans everything in the bathroom.
Use it to wash walls, the floor, in the sink and bathtub . . . and remember, when you use Gillett's Lye, each is disinfected as well as cleaned with the one operation.
Once each week, pour full strength Gillett's Lye down the closet bowl and it will always be clean and free-running.

• • •

Gillett's Lye has dozens of other handy household uses. Send for the new FREE Gillett's Lye booklet describing the many ways it will help you with all your cleaning.

British Air Ministry Has Difficult Task

Every Day Amount Of Sunlight Penetrating City Is Measured

One of the most difficult tasks in London is carried out daily at the Air Ministry offices, where the amount of sunshine penetrating the city is measured. The measuring apparatus consists of a small glass ball through which the heat of the sun passes to burn a special paper placed beneath it, the mark on the paper being used to compute the amount of sunlight passing through.

She Couldn't Be Hoodwinked.

Miss E. Thomson, of Clapham, writes:—"I find that Carter's Little Liver Pills will do more to keep the complexion clear, and the skin free from blemishes, than all the face creams I have used. I found the real cause of face blemishes was usually due to liver and stomach troubles. My druggist recommended them as a specific for stimulating the liver and expelling the constipation poisons from the system."
Take Carter's Little Liver Pills for sick headache and indigestion. All druggists 25¢ and 75¢ red pkgs.

Work For Russian Women

Soviet Government May Employ Women To Overcome Labor Shortage

Employment of hundreds of thousands of women in industries to overcome the present serious shortage of labor, is being considered by the government of the Soviet Union.

With thousands of jobs for which there are no takers, the country today has the greatest shortage of labor in its history. With millions of women inactive it is believed the problem could be solved by pressing them into service. The children would be cared for by the state while their mothers are working.

Time Has Tested It.—Dr. Thomas' Eclectric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

A Worth While Achievement

American tourists returning from Europe report that beards are coming back into style. It is doubtful if they will ever again attain great popularity in America. But if some superscientist would advise a way to transpose the ever abundant facial hairs of the male to the uppermost portion of his cranium—ah, there would be an achievement.

Government and private steel works in Japan may be merged.

Test Was Convincing

New Fool-Proof 'Plane Will Land Itself Safely

A fool-proof aeroplane which its inventor claims will neither stall, spin or dive and will land itself, is the latest contribution to safety in the air.

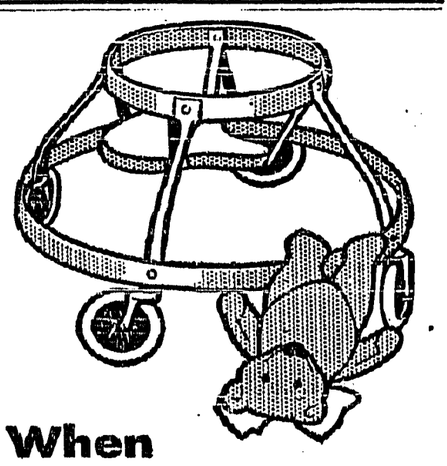
While more than an hundred aeronautical experts and financiers watched the 'plane was successfully tested at Glenn H. Curtiss airport, New York. Piloted by Henry White, it made a half dozen short flights, and came to a near-perfect landing each time with the pilot's hands high above his head.

The designer is A. A. Merrill, of White Plains, N.Y., formerly in charge of aeronautical research at the California Institute of Technology, and a contemporary of the Wright Brothers, Octave Chanute and Langley. He has been working on the 'plane since 1913, and at one time was forced to mortgage his life insurance to continue.

Movable wings which can be adjusted over an arc of 14 degrees are the secret of the 'plane's stability. In flight these restricted flying surfaces prevent a pilot from unwittingly going into a stall or a dive. In landing, they merchanically level off at the proper distance from the ground and assume the proper gliding angle.

Alberta-B.C. Boundary

Legislation has been brought down in the British Columbia legislature by Hon. N. S. Lougheed, Minister of Lands, approving the Alberta-British Columbia boundary as surveyed by a joint commission between 1913 and 1924.



When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Fletcher's CASTORIA

SUNDAY SCHOOL LESSON

MARCH 8

THE GOOD SAMARITAN

Golden Text: "Thou shalt love thy neighbor as thyself."—Leviticus 19. 18.

Lesson: Luke 10.25-37.

Devotional Reading: Matthew 5. 38-48.

Explanations and Comments

The Law Of Love To God and Man, verses 25-28.—One time a scribe, an expert student and expounder of Hebrew law, sought to test Jesus by asking him a hard question. "What shall I do to inherit eternal life?" he queried, and by this he meant What acts, such as fasts and prayers and sacrifices, would have special merit and would therefore be rewarded by life eternal? "What is written in the law? How readest thou?" thus Jesus bade him answer his own question. The scribe then quoted Deuteronomy 6.5 and Leviticus 19.18: "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind (i.e., with all thy powers); and thy neighbor as thyself. That Jesus united the two, love for God and love for one's neighbor, is not surprising, but that the Scribe does so causes one to surmise that it was brought about by some remark of Jesus which is not recorded. "Thou hast answered right: this do, and thou shalt live," said Jesus.

"Oh, runs not thus the lesson thou hast taught?
When life's all love, 'tis life; aught else, 'tis naught."—Lanier.

What it means to love man, the parable that follows explains, but what does it mean to love God? Dr. Frederick W. Robertson says that it can mean only one thing; God is Character, and to love God is to love character. For instance, God is Purity, and to be pure is to love God. God is Love, and to love men is to love God. God is Truth, and to live a brave, true, real life, that is to love God. So Whittier, in one of his letters wrote: "I have no consciousness of loving God as a Person, or Power, apart from His attributes. I have no experience or ecstatic emotions, but I know that I love goodness and mercy, charity and peace; that my soul longs for harmony and moral symmetry; that I would sooner wrong myself than my neighbor; and, at times, the sweet sense of an Infinite love overwhelms me and fills me with gratitude and thanksgiving."

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

Japs Angry At Soviets

Feeling against Soviet Russia is rising rapidly in Japan at the report that the Soviet Union has threatened to cancel the Japanese fishery concessions in Siberian waters because of a default by Japan in payment of royalties which were over due.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Young Wife: "I learnt to cook while my husband was abroad."

Mother: "Well, and what did he say when he returned?"

Young Wife: "He went abroad again."

Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Jenkinson, Box 14, Thomloe, Ontario.

Lydia E. Pinkham's Vegetable Compound

DIZZINESS

Caused by Blood pressure

Doctor ordered Kruschen

"Five years ago this month I had a serious attack of blood pressure, and my medical man ordered me to take Kruschen Salts daily. Evidently I am a stubborn subject, because I use every morning a small teaspoonful and a half in a glass of hot water, and this acts splendidly and keeps my head right. If I don't have the action mentioned, I feel cold, stupid and liable to fall from dizziness. Therefore I can't do without my Kruschen on any account. Some time ago I tried some other salts which were cheaper, but they pained me so much that I had to stop them. There is no pain with Kruschen. I have told hundreds of my little wonder-working bottle."—(E. C. Fergusson.)

Dizziness is a symptom of a deeper-seated disorder. It is one of Nature's danger signals—her urgent warning of an impure blood-stream which, if not attended to in time, may wreck the entire health with some dangerous, indeed lifelong, disease. The six salts in Kruschen keep the blood-stream pure and vigorous by ensuring the complete elimination of poisonous waste matter from the system every day.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claim for yourself. Ask your druggist for the new "GIANT" 75c. package.

This consists of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorised to return your 75c. immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Hughes, Ltd., Manchester, Eng. (Estab. 1756). Importers: McGillivray Bros., Ltd., Toronto.

CHAPTER XII.

I'll tell you about it now, Gay, if you'll listen."

It was three weeks later. Nick, dressed for the first time, lay in a lounging chair on the porch, while Gay sat beside him, her usually busy hands idle in her lap—her eyes on the babies at play in the sand pile beneath the trees.

"Sure you feel like talking?" she questioned.

"I'll explode if I don't talk! The way you've bullied me into keeping my mouth shut when there's so much to say, and you must have been thinking such abominable things of me . . . ."

Gay laughed.

"I never thought anything abominable at all—that is," she added honestly, "after the first minute when Julie told me that you and Mrs. Halliday had gone alone."

"What did you think then, Gay?"

She reached for his hand, as if in atonement for her disloyalty.

"For just a second, Nick, I wondered if you'd deceived me. And then I was ashamed, horribly ashamed to have had such a thought. I knew almost at once that there was some mistake—something you'd explain when you got home. Even when the whole night passed without you, I didn't distrust you again. I told Mr. Halliday that no harm would come to his wife through you."

Nick kissed her hand. His voice was husky when he said: "I wonder how many wives would give a man the benefit of the doubt at such a time."

"But there was no doubt, Nick, after that first moment. Would you have doubted me?"

He smiled.

"My dear, I wouldn't doubt you if you were gone a week! But that's different. Look here! I want to tell you everything. Of course I didn't misrepresent things, Gay. It was just as I said over the phone. Halilday went to Boston Friday morning, and that afternoon his wife called me up at the bank and asked if I'd dine there. She didn't say he was away, but I suppose I'd have gone in any case. The idea of needing a chaperone didn't strike me. It doesn't yet. If Halliday were alone and you asked him to dine some night when I was out, do you suppose I'd mind? Her asking me was just a neighborly thing to do.

"After dinner she sang, and I tell you, Gay, it was some treat! She sang a lot of the old songs my mother used to sing — Schubert, and Mendelssohn, and some Irish ballads; and ended with that Gypsy thing she sang the night you cried. Do you remember?"

Gay nodded. Would she ever forget? And Nick went on: "We talked a while after that, and she asked about the road to Mason's Falls — said she expected friends for the weekend, and wanted to take them on a good trip. I wondered a little that she should have company at such a time. For all my Gypsy instincts, dear, I'm a Puritan in certain ways. I think she felt my disapproval, for she made a sort of explanation."

Nick paused a moment, then went on quietly: "Gay, I'm sorry for that little woman. Evidently her husband's people don't like her. I gathered that the mother-in-law especially had, well, made her uncomfortable. She said she couldn't bring herself to go to the funeral, and that Halliday understood, and would prefer that she shouldn't mope round all day and be unhappy. I thought it was rather plucky of her to try and forget things. I could see she was all cut up."

Gay drew a sudden breath.

"Nick, I don't wish to seem uncharitable, but Julie told me that she heard Mr. Halliday beg his wife to go with him."

"Well, she must have heard wrong then. Mrs. Halliday said distinctly that he didn't want her to. That's not our affair anyway; but——Did you speak, Gay?"

"No," said Gay quietly. "Go on."

"She got out a road map and I showed her the route, and warned her about those hills above Anton Bay. She said that she was a bit nervous about driving, and wished she could find someone for a chauffeur. I suggested Sam Hilton, but she thought they'd have a better time without a stranger along; and then the idea popped into her head to ask me. She said she didn't see why it hadn't occurred to her in the first place."

Gay said, as he paused again: "Aren't you talking too long, dear?"

"No, Madam, I'm not." He smiled. "I want to get it off my chest. I hesitated about accepting, of course, because my plans were all made to go to you; but as I looked at those maps, Gay, I—well, I was crazy to go! I don't mean that I didn't want you and the boys, too, but——"

"But you wanted the broad highway more?" Gay questioned as he hesitated. "I'll admit, Nick, that the broad highway, with a woman as pretty as Mrs. Halliday thrown in, would weigh rather heavily in the balance against a tired-out wife and ——"

"Gay!"

His voice was reproachful, and she laughed, though the laugh was tremulous.

"I was only teasing you, Nick."

"The pretty woman had nothing whatever to do with it," he affirmed sternly. "I'm not adamant before those eyes, no fellow with any red blood in his veins would be; but I knew another pair of eyes—well—I've told you all about those hundreds of times. They're the most beautiful eyes in the world. Now are you satisfied? It was the road that called me, Gay. I suppose it always will. And I remembered your making me promise to tell you if ever I wanted more freedom. It didn't seem a lot to ask when you were coming Wednesday anyway. I don't believe, honestly, dear, I don't believe if I hadn't known you were coming so soon, that the road would have called at all, compared with the call of my precious family. But you were coming, and it seemed a chance to satisfy my craving for a change, and to do a kindness to a neighbor at the same time. So—I telephoned."

"I was terribly disappointed," Gay admitted.

"I knew you were. It made me feel like a slacker—while you were talking; and yet, I didn't think I was unreasonable."

"You weren't, of course. I'm just too silly about you, Nick."

He smiled and said: "Keep on that way, my dear."

"Have you forgotten your story?" she reminded him after a minute.

"I had, for the time being. When, after putting up with his shortcomings for four long years, a man's wife confesses that she's silly about him, it goes to his head. And I suppose all this time you're wondering about those guests of Mrs. Halliday's. The truth is, they disappointed her. I didn't see her again till Sunday. I was at the Maxwell's Saturday. Janey called up at noon—said she heard I wasn't going to State Line, and asked if I'd hike with her up Ragged Mountain, and go back to supper there. She was just home and wanted news of you and the kiddies. I had a bully time, and stayed till nearly eleven."

"But—how did you happen to go Mason's Falls if Mrs. Halliday's friends didn't come? I thought she was taking the trip on their account."

"She was, but she had everything ready, lunch and all, when the message came, I could see she was disappointed, and so was I. When she asked if it would bore me to go with her alone—and if you'd disapprove, well, I suppose I jumped at the chance. I thought we'd be back by five at the very latest, and I knew that you'd be the last one to object. It never occurred to me that Halliday would mind—I mean, mind her going alone with me; and it did seem foolish to give up the trip at that hour; so we went." His face sobered suddenly. "I wish to God we hadn't."

Gay sat still for a moment; then said: "Nick do you remember stopping at a railroad crossing while a freight went by?"

His eyes widened with surprise.

"Why—how did you know? I remember because it was there we ran into a funeral, a rather lonely affair with only one shabby hack. For a moment I feared it would bring things back to Mrs. Halliday and make her sad; but it didn't. She thought it rather a joke on us to run into a hearse when we were off a-pleasuring."

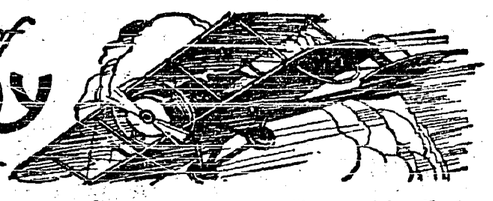
(To Be Continued).

PILE PAIN

Ends Right Away

"The very first time I used 'Soothe-Salve' it ended the itch and pain of my piles right away. Stopped swelling and bleeding. Piles now gone."—L. T. Sears. Quickest relief known. All druggists.

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE



Well, boys and girls, so many queer things have happened to us while flying about the world during the last few months, that we just have to tell you the story of our adventures. Some day, perhaps you'll fly over strange countries, too; countries filled with savage tribes and wild animals, and a thousand interesting things one never dreams of while sitting at home.

Perhaps you'll fly above the clouds at times and look down on them billowing and rolling beneath the wings of your 'plane. just like a big sea of gold and silver in the sunrise; and away down below you'll see great fleets of warships in their harbors, so far down that they look like toy boats floating on the rim of a bathtub.

At other times you'll fly over black tropical forests and follow the white track of unknown rivers under the light of a huge bright moon—wonderful, dangerous forests where crocodiles lurk in the swamps and tigers and bears hunt through the livelong night, while blue faced monkeys swing and jabber in the trees.

You'll see these things, and a thousand more, and of course you'll want to tell the boys and girls you know all about your adventures, just like I am going to tell you mine.

Most of the boys and girls I know call me Captain Jimmy. While my real name is Captain James Harworth Newberry, only the grown-ups call me that. We fly a Vickers 'plane. By we, I mean Scottie and myself. Scottie is one of those plain whiskery dogs known as Scotch Terriers. He looks like an animated bath brush, and he has never won a blue ribbon or a prize; yet, for sheer personality, he's a dog show all by himself.

Scottie is the first mate and the crew—and what a crew he makes. Anyway, I found Scottie when he was only about six weeks old, and he and I just took to each other. You know how it is. Sometimes a dog just adopts you. You don't buy him; he picks you. Scottie just got used to riding around with me so I couldn't keep him out of the 'plane. From the day of my first ride he has gone everywhere with me—all over Canada, Europe and even Africa.

It was a fine bright morning when we pulled the old Vickers out of her hangar, at the Calgary flying field, and headed her out into the wind. Perhaps if we had known all the adventures we were going to meet we would never have made the trip at all. For you know, while it's lots of fun to read of adventures, actually having them sometimes is not all it's cracked up to be—and you often—yes, very often—wish that you were in some nice safe place instead.

We had the propeller humming like a giant bee — the even contented hum that is music to an airman — when the ground shot away from under us and we rose into the sky. We were probably going 70 or 80 miles an hour, but it didn't feel so fast as we got further away from the field.

Once in the air, a 'plane is not hard to drive. In front of the pilot's seat is the chief control lever known as the "stick." It is not a very hard name to remember, but it is a sure enough important piece of the 'plane. When I pull the stick toward me, it lifts the horizontal fins on the tail of the 'plane, and causes the nose to push up into the air. When I push the stick from me, it pulls the fins down, and of course pulls the 'plane down too. The foot levers work the rudders at the extreme tail of the 'plane. When I push the one to the right, the 'plane turns to the right—when I push to the left, the 'plane goes to the left. It's exactly like steering a car, only you do it with your feet instead. A round clock on the instrument board tells me how fast I am going—another tells me how high up I am in the air. So you see it's all easy enough when you get used to it — like lots of things that look hard at first.

Calgary soon looked like a model city as it faded away behind us, and we roared out toward the foothills with the wind whistling in the stays, and the Eagle climbing higher and higher. We had a good high ceiling and no clouds in the sky. We could see the horizon on every side, like the rim of a giant saucer. What a country!

As we flew over the foothills, the scenery became more beautiful. Wooded slopes, cool ravines, and here and there an open valley where the lonely cabin of some homesteader or prospector showed half in the cover of the woods. Then shadows began to make patches on the sunlit country below — the shadows of gathering clouds. Scottie seemed to sense something wrong and pawed at my flying suit—as dogs do when trying to draw your attention. Then suddenly "puff" a gust of wind struck us — then another and another. Then a rain squall hit us —and in a moment we were in the center of the meanest storm you ever saw, the old ship rocking and tossing like a boat in an angry sea — the sky growing darker every minute — and the rain coming down in sheets amid the blinding stab of blue lightning. Then the right wing dipped crazily and the 'plane began to slip sideways. . . . . .

To be continued next week.

February enrollment at Creston public school was 219.

The Premier Garage reports the sale of a new Ford coupe to Dr. Olivies last week.

Will Rogers is a business visitor at Kimberley this week, leaving on Wednesday.

HAY FOR SALE—Quantity of alfalfa, $20 per ton at stack. John S erwood, Creston.

FOR SALE—Jersey cow, freshens end of March, third calf. Apply P.O. Box 46, Creston.

Mrs. Archibald returned on Wednesday from a short visit with friends at Rossland and Trail.

The government road grader was put into operation at the first of the week.

FOR SALE—Ewes with lambs, prices according. J. Jauncey, W. ndel, B.C.

CAR FOR SALE—Tudor sedan, 1927 model, in good shape. a bargain, can be seen at Commercial Hotel.

Mel. Dallas of Cranbrook is here in charge of Shell Oil Company operations, in the absence of Manager Fortin.

Dr. Olivier was a weekend motor visitor to Blairmore, Alberta, for a short visit with his family in that town.

Vital statistices for February show nine birth s, two deaths and one marriage Of our new citizens five girls.

FOR SALE—Baby" crib, steel, with mattress and springs complete, good as new. Also wringer. Albert Stewart, Creston.

Birth—On February 27th, to Mr. and Mrs. E. G. Timmons, a daughter.

Birth—On February 23rd, to Mr. and Mrs. W. L. Macfarland, a daughter.

Mr. and Mrs. Harry Hewat of Kaslo are here on a visit with the latter's parents, Mr. and Mrs. LaBelle at the Creston Potel.

W. Brown, who is in charge of the crew doing the survey wore on the Goat River canyon development, spent the weekend in Nelson.

HATCHING EGGS—Purebred S.C. White Leghorns, 75c per setting, or 5 cents per egg for incubator setting. J. W. Robinson, Creston.

Geo. Young left on Thursday last for Calgary, Alberta, where he is consulting a specialist, his health having been rather precarious of late.

Creston Board of Trade meets in March session on Tuesday night, when highway matters will figure prominently in the evening's business.

A hurricane that at times developed the velocity of the disastrous blizzard of December, 1924, prevailed for a couple of hours on Tuesday afternoon.

HATCHING EGGS FOR SALE—Purebred S.C. White Leghorns, 75c. per setting of 15 eggs. Incubator setting at $5 per 100. V. Mawson, Creston.

March came in very mild and on Monday the mercury got up as high as 61 in the shade. The coldest recorded this winter has been eight above zero.

R. W. Maxwell was the holder of the lucky ticket on the quilt raffled by the Canyon Ladies' Community Club at the hospital benefit dance on Friday night.

COWS FOR SALE—Two Registered Jerseys, TB tested, just freshened. Also Jersey bull one year old, eligible for registration. G. Cartwright, Erickson.

The Hospital Association have fixed on the second Wednesday in each month for their regular meeting and will have the March session on the 11th.

G. H. Kelly announces that the drug store hours will be: Week days including Wednesday, 8 a.m. to 8 p.m. Saturdays 8 a.m. to 10 p m. Sundays and holidays 1 to 2 p.m.

Rev. R. N. Matheson of Kimberley was a guest of Rev. R. E. and Mrs. Cribb during his stay here the latter part of the week. He wa guest speaker at Trinity United Church annual banquet on Thursday night.

The Presbyterian Ladies' Auxiliary are having their usual St. Patrick's tea and sale of home cooking at the home f Mrs. H. S. McCreath, on Saturday, March 14th, from 3 to 5.30 p.m., to which all are invited.

R. P. Wilmot of Victoria, an auditor of the Liquor Control Board, made his official visit to the local vendor last week. Liquor sales for the past year will show a considerable drop from the $47,775 sales of 1929.

The K.K. Klub are having a St. Patrick's masquerade dance in the Wynndel community hall on Tuesday evening, March 17th. Prizes for both dress and dances. Gents, $1; ladies, 50 cents. Al. Fredericks' orchestra.

Seven bids were received for the clearing of the acre of ground ts be used as a high school site. The work was given John Strobel who tendered at $93, of which $75 was for clearing and $18 for ploughing. Some of the bids were as high as $175.

"The Stolen Prince," a folk story of the Chinese, which will be presented in costume, will be seen at Trinity Church on March 27th, under the joint auspices of the W.M.S. and Sunday School children, under the direction of Mrs. W. J. Craig.

The village balance sheet for 1930 has just been issued and amongst other things shows Creston has $795 arrears of taxes, and owns $3623 of real estate, in which latter is the fall fair grounds. Street lighting last year cost $711.

The March meeting of the Women's Institute will be held on Friday afternoon next, and after routine business has been disposed of there will be a musical programme. Institute membership this year promises to be well above the average of the past few years.

A sale of village property was completed last week when T. Mawsen disposed of a couple of lots on Edward Avenue, to Rev. A. Garlick, who has just had erected a storage building The lots were part of the one time Baptist Church site at the north end.

Mr. and Mrs. T. Goodwin, who have spent the past four months on a motor visit in the south as far down as Mexico, as well as at Victoria, arrived home on Sunday and report a very fine vacation. Both going and returning they spent a few days with their son, Harold, at Kellogg, Idaho.

If the early arrival of the summer birds is any indication of an early spring then winter must be at an end. During the past few days reports are to hand of the arrival of meadowlarks, blue birds and the red wing blackbirds Robins, are unusually numerous for so early in March.

Not only is it so still in the Antartic wastes that one can hear one's heart beat at all times but, in temperatures of 65 to 75 below zero, the breath can be heard freezing as it issues from the lungs Such is the land which the daring explorers of Admiral Richard E. Byrd's South Polar expedition braved to bring back a priceless record of conditions at the "bottom of the world." "With Byrd at the South Pole," the official moving picture record of the expedition, is replete with the deeds of daring and romantic adventure. At the Grand tonight and Saturday.
