THE CRESTON REVIEW

VOL. XVIII. CRESTON, B. C., FRIDAY, APRIL 16, 1926 No. 9

Institute's Bulb Show, April 24

Creston and District Women's Institute had another big turnout at the April session on Friday afternoon in Trinity United Church basement, 33 members and a number of visitors being present, with the president, Mrs. R. Stevens, occupying the chair.

The feature of the session was a carefully prepared paper on potato culture, given by the secretary, Mrs. Cherrington, who went to no end of trouble assembling facts and figures relative to the humble spud and how to grow them in quantity and of quality.

Saturday, April 24th, was decided upon as the date for the 1926 bulb show, which will be held in Trinity Church basement, and along with which will be a sale of home cooking and afternoon tea.

With the exception of Wynndel all the school districts as well as the village collectors have reported on the intake on tag day for the Queen Alexandra Hospital for Crippled Children. $94.70 has been turned in, of which amount about $37 was collected at outside points, as follows:

Kitchener, per Miss Randall	$ 5.15
Erickson, per Miss Trembath	7.95
Canyon, per Miss Lister	3.50
Huscroft, per Miss Hobden	1.60
Lister, per Mr. Jenks	1.50
Alice Siding, per Mr. Lallamand	2.25
Sirdar, per Miss E. Heap	15.00

The teachers and others who helped with the tagging were remembered with a hearty vote of thanks, and another $3.50 was added to the fund, the freewill offering from the after meeting tea, at which Mesdames G. Cartwright, Hayes, Bayle and Cook were hostesses.

Kitchener

Mr. Midlin of Calgary, Alberta, is a business visitor here, making the trip by auto, and is a guest of Mr. and Mrs. Walter Walby.

Mrs. E. McGonegal and daughters, Vera and Hazel, went to Creston on Friday, on a visit with friends.

Joe McLaughlin, who has been away to the prairies, is back and is expecting to start work shortly.

Alex. Ellis, who has been a patient of St. Eugene hospital Cranbrook returned on Friday and has resumed work.

The planer mill of Continental Lumber & Pole Company, Limited, is running now, and quite a few men are employed.

Mr. and Mrs. William Strong motored to Cranbrook on Tuesday on business, getting back on Thursday.

Ernest and Omer Geroux returned from Nelson one day last week, coming in by auto.

A dance was held in Hunt's Hall on Saturday, under the auspices of the baseball club, and everyone reports having a good time. The music was furnished by Alice Siding orchestra, and amongst the crowd were noted representatives from Canyon, Erickson and Sirdar.

Bill Spence and Wm. McDonald, who have spent the Easter holidays here at the Sash & Door Company, Limited, returned to their homes in Cranbrook on Sunday.

Misses Vera Lister and Jane Long, Bill Long and Ernest Paul were motor visitors here from Creston on Sunday.

Pastor Harback motored here from Canyon on Monday to hold service in the school. The musical features were brightened up by the able assistance of J. Chorlton, G. Lawrie and George Wickholm.

Miss Esther Nelson, Myrtle Wickholm, Elmo Walby and Canute Anderson of Creston went through on Sunday on a motor trip to Yahk.

Miss Marjorie and Grace Strong went to Canyon for the weekend on a visit with friends.

Miss Grace Randall and Miss L. Bevan have returned from their homes at Nelson and Creston respectively, and started teaching again on Monday.

W. Genghis of Nelson came up on Saturday on a business visit.

Mrs. Dan McDonald went to Creston on Friday on a visit with her mother, Mrs. Lytle, getting back on Sunday.

Mrs. W. Walby and Alex. Mennie were business visitors at Canyon on Friday. They made the trip by motor.

Miss Annie Yerbury of Lister, arrived on Tuesday on a visit with her sister, Mrs. McKee.

Miss L. Lytle of Creston came up on Sunday to spend the Easter holidays with her sister, Mrs. Dan McDonald, returning on Friday.

A. Ragotte, who is in charge of government road work, has started work on the highways and has a good crew of men at grading and repair work. It is expected that in a short time the cars will have no trouble going through from Goatfell to Goat River bridge.

Alf. Speaker of Erickson has started work at the Continental Lumber & Pole Company mill.

Cranbrook Sash & Door Company, Limited, have a few orders to fill, and have the sawmill running for a time, with a pretty fair sized crew at work for the present, at any rate.

Under the able and energetic superintendence of Elmer Blair work on the Hathaway land development scheme is making great headway. The fence posts around the first unit of 400 acres have already been placed. The wire is expected very soon and will not take long to complete the fencing. 10 acres are cleared and on this Elmer intends setting out one thousand trees of various kinds, including apples, pears, plums, apricots, walnuts, filberts, etc. He is also putting out cabbage, tomatoes, beets, strawberries and raspberries, so that in a few years he will know the varieties best suited for the land and climate. This is a good idea as the purchasers of the land will have the benefit of his experience. Mr. Blair has quite a gang working and during the recent local slump has helped to relieve the unemployment situation somewhat. Fred Dorey, who has secured a position across the lake, is the latest recruit to the rancher's ranks. He has purchased ten acres on the Hathaway development. We are glad to see this and wish him, and everyone connected with the project, every success, and hope that within a year or so it will not be necessary to go outside for fruit and vegetables.

Instead of boulevarding Baker street Cranbrook board of trade would have the council at Cranbrook put in cluster lights on that thoroughfare.

To take care of the greatly increased dyked acreage on the Kootenay Flats at Bonners Ferry fifteen tractors have already been sold this season.

Sirdar

Mrs. Geo. Cam spent the weekend with Cranbrook friends. All will be glad to hear Miss Dorothy Cam continues to improve, and will be leaving the hospital in a few days, we hear.

School re-opened on Monday after the Easter week vacation, which Principal Hunter spent in Sirdar.

Auto traffic continues to increase. Four cars were unloaded at Kuskanook on Wednesday.

Rev. S. Newby will take Church of England service here on Sunday night, at 7.30, and it is expected Easter music will be a feature.

Mesdames North, Brawn, Rogers and Mr. and Mrs. Lonsby were Sirdar's representatives at the tea and musicale in the Parish Hall at Creston on Thursday afternoon last.

McCabe's B & B crew pulled out on Wednesday for Canyon where they are to transfer the station to the other side of the track. With this job done they move on to Kimberley for a more lengthy stay.

Alice Siding

Jack Smith left at the end of the week for Kitchener, where he expects to be employed for the next couple of months.

E. W. Payne got back on Friday from Kellogg, Idaho, where he has been employed for almost the past year.

Mrs. M. Churchill is making a farewell visit with Wynndel friends this week, where she is the guest of Mrs. A. W. Mason.

I. N. Rhodes, who has been working with the White Spruce Company in East Kootenay, arrived home at the end of the week.

J. Kelly is busy this week setting out another acre of strawberries on the Hummingbird ranch. Van Sans are his favorite variety.

Misses Jennie Marshall and Vera Rhodes made a successful canvass of the residents last week, and have secured enough funds to purchase an organ for use at the community Sunday school.

Mrs. Matthews of Nelson, a former resident here, was a visitor with Mr. and Mrs. Martin, who are occupying the Matthews ranch at present.

Everyone is glad to see W. A. Pease back amongst us, and will have the pleasure of welcoming Mrs. Pease, who is due to join him in a few days. Since leaving here they have resided mostly at Cloverdale, but the ex-mayor states the Kootenay climate is the more preferable.

All roads led to Alice Siding on Saturday last for the auction sale of the household effects and ranch equipment of M. Churchill. J. F. Rose was at top form and got exceptionally fine prices on most everything.

Lister

Mrs. Jory and son, Jack, who have been Nelson visitors for the past two weeks, returned on Sunday.

Mr. and Mrs. C. H. Hare of Creston were Sunday guests of Mr. and Mrs. Geo. Jacks.

C. H. Phillips has returned to Kimberley, after several days stay on his ranch here.

Miss Helen Pochin of Canyon has been a Lister visitor the past week, the guest of Mrs. Fred Thompson.

Miss Annie Yerbury was a holiday visitor at Kitchener last week, and was the guest of her sister, Mrs. D. J. McKie.

Ed. Smith and Geo. Jacks have gone back to work at Klockmann after a few weeks' stay on their places at Lister.

Geo. Chudley arrived from Klockmann at the end of the week, and will be remaining with his family for a couple of weeks.

Miss Carol Helme, who has been a guest of her brother, Harry, for almost the past month, left a few days ago for her home in Vancouver.

Mrs. Bird, who was an Easter week visitor with Nelson friends arrived home the latter part of the week.

Proof positive that Lister area is ideally adapted for bee keeping is furnished in the fact that John Blinco, the Valley's best known apiarist, has just placed fifteen hives of bees on the F. N. Thompson ranch, and is confident the honey output here will exceed that in his Creston hives.

We are certainly growing older. When Principal Jenks opened school after the Easter vacation on Monday, he had three new scholars to enroll in Fred Thompson, Randall Smith and Kirk Beard—the two latter having been born in the area, which was established in the summer of 1919.

Erickson

Mr. and Mrs. Criger of Spokane, were visitors here this week, guests of the latter's parents, Mr. and Mrs. M. R. Palmer.

BIRTH—On April 10th, to Mr. and Mrs. James Carr, a son.

Misses Dorothy and Mabel Penson of Wynndel have been visiting here this week, guests of the Misses Craigie.

The juvenile residents had a great night's entertainment on Thursday last when Ruth and Lloyd Cartwright were at home to their young friends. There was a great variety of games, music and dancing and a very fine lunch to round off an occasion that all will long remember.

F. J. Klingensmith is busy this week loading out a car of potatoes which, we understand, have been sold to a firm in Spokane.

New telephones have been installed here this month at the Crisler garage and the Jas. Carr residence.

The C.P.R. has an extra gang at the Canyon this week putting in some new track on the area that has been made available by the digging out of fill used at the Landing.

Mrs. H. M. Whimster has returned to Nelson after a week's holiday with her parents, Mr. and Mrs. Palmer.

Mrs. Patnaude of Yahk has been visiting with her parents, Mr. and Mrs. Heric this week.

Friends of Elmer Dew, who left here in 1916 to reside at Priest River, Idaho, and who joined the ranks of the benedicts about two years ago, will congratulate him on the arrival of a son and heir.

Mrs. D. H. Linn and daughter, Evelyn, left a few days ago for Lethbridge, Alberta. Mr. Linn is still here but will be leaving to join the family in the near future. They have been good citizens and all are sorry to see them go.

G. McMaster, who is occupying the Harrison place, is making great improvements thereon with the erection of a new barn, putting in a private road, and extensive tree planting. Now irrigation is assured people are not hesitating to make improvements.

Mrs. Irving of Port Hammond is visiting Erickson friends this week, and is a guest of Miss Trembath.

The Whirlwind Club had a bang up crowd for the last of the season's whists and dances at the Long packing shed on Friday night. The honors at cards went to Mrs. H. McLaren and Keith Littlejohn, whilst the low scores were made by Miss Hardy and Dick Penson. After lunch Mrs. Lister violin; Miss Jeanne Hall, piano, and Geo. Davie, drums, provided excellent music for the dance, which lasted long after midnight. The cash intake was close to $50.

A blue grouse flew into a hardware store window at Grand Forks one night last week, doing two hundred dollars damage.

L. Hanna of Kaslo is indulging in the luxury of a ten thousand dollar suit for slander against his fellow townsman, F. Apey.

April Session of Village Council

The village commissioners had a very busy April session at the municipal building on Monday night. Commissioner F. H. Jackson is back from the coast and all members were in attendance.

Authority was given Chairman McCreath to purchase the necessary material for a new sidewalk from the Grand Theatre up Barton Avenue to M. York's blacksmith shop. A new walk will also be put down from S. M. Watson's residence on Hillside Road to the corner at Jas. Cook's residence and thence along School street to the Devine and Foster homes. "Happy" Eastlake has the contract for digging the pipe line for the water connection at the municipal building and has about completed the work. Creston Sheet Metal Works will make the installation.

Tenders are to be called for the painting of the exterior and interior of the municipal building. The outside will be of white with green trimmings, and the inside white with light blue ceiling. Bids are to be in by the 26th. It was also decided to erect a tower on the firehall for drying hose, and on top of this will go the town flagstaff.

Permission was given R. Sinclair Smith to use the highway for the removal of his residence next the Bevan garage to a new location opposite the Church of England. Mr. Smith must not drag timbers along, nor dig holes in the hard surface road in the removal operations, and will be held liable for all damage done.

Commissioners Jackson and Johnson were named a committee to sign the agreement with M. J. Beninger of the Creston Hotel, who has secured permission from the waterworks company to pipe the seepage from the system east of the hotel, and which he proposes to use for irrigation on the hotel lawn and garden. The village is agreeable to the undertaking provided village property is not interfered with.

Bylaw No. 10 was given its several readings and passed. It aims at regulating village billiard halls and enacts as follows: No youth under 18 years is to be employed, and none under this age are to be permitted to remain in, or to play pool, or any other game therein. Poolrooms are to close at 11 p.m. town time, and be kept closed until 6 a.m., as well as Sunday. All blinds and shutters are to be open, so that a full view may be had of the premises from the street. Dice shaking and all gambling games are prohibited, as well as slot machines. In case of prosecution in all cases the owner of the poolroom will be held liable along with any employee who may transgress the provisions of the by law. In case of conviction the fine shall not exceed $50.

WORLD HAPPENINGS - BRIEFLY TOLD

New York's snow removal bill this winter has reached the unprecedented total for February of $5,400,000.

Charles McLeod, one of the oldest members of the Massey Harris Company's organization, died recently at his residence in Toronto, aged 85.

The department of overseas trade is considering the probability of promoting the production of raw silk within the British empire.

That the board of grain commissioners has decided to instal an appeal board in the city of Edmonton, is the information received by the board of trade from the secretary of that body.

It is stated in London, though there is no official announcement to the effect, that the Prince of Wales is shortly to commence regular work at Buckingham Palace assisting the King in the daily business of government.

The inhabitants of the Christian village of Maruneh near Damascus, totalling about 40, were massacred by a native band, described as composed of brigands. Maruneh is 55 miles northwest of Damascus.

More than 250 persons are seriously ill with influenza and twenty deaths from the malady have been reported in Dallas, Tex., statistics showed. Thousands are suffering from a mild form of the disease.

Canadian trade contniues to go ahead. In the ten months ending January, according to returns from the customs department, total trade was $1,881,000,000, an increase of $316,000,000 over the corresponding ten months of the previous fiscal year.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Eclectric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Banff Tourist Trade

Over 91,000 tourists passed over the Banff road, at Banff, during the past season, according to figures compiled by the superintendent of the Banff National Park, which was an increase of about 30,000 over the previous season.

Reginald Frank Stone

—Ratcliffe Studio

St. Catharines, Ont.—"During my first expectant period I was in very poor health, was very nervous, suffered from morning sickness, had backache and abdominal pains. I was as miserable as could be. Thru a friend I learned of Dr. Pierce's Favorite Prescription, and after I began taking it I got along fine; it relieved me of the morning sickness, pains and distress thru my back and sides and I grew well and strong. Was able to do my own work the remainder of the time. I experienced very little suffering and had a fine healthy baby, who has never had a day's sickness except slight colds. I was very glad to know of a medicine so valuable as the 'Prescription' proved to be."—Mrs. Reginald Stone, 66 Haynes Ave. All dealers.

Send 10 cents to Dr. Pierce's Laboratory, Bridgeburg, Ont., if you wish a trial package of tablets.

Woman Is Veterinary Surgeon

Irish Girl Only One Practising Profession In United Kingdom

It is strange to hear of a profession that is not overcrowded; it is stranger still to be told that there is only one woman veterinary surgeon in the kingdom. This is Miss Aleen Cust, daughter of the late Sir Leopold Cust, who began practising in Ireland and soon had such a big practise that she required four horses to cover her country. She has now settled on the borders of the New Forest.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. For the minor pains and ills that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuralgia and Colds. 35 cents at all dealers.

ECLIPSE FASHIONS

Exclusive Patterns by H. Cecil Beyne

Molded and Flared Lines Dominant

Fashion cuts her collar high and her sleeves long, and both will lend charm and distinction to your frock. The simple severity of the erect collar is youthful and imparts chic to this frock, the upper part of which is fashioned on princess lines, closing at the left shoulder under a row of tiny buttons. There is plenty of movement, as Lelong would have it, in the cut of the circular skirt. The model pictured here emphasizes the vogue for color and fabric contrast, the bodice being developed in satin or metal cloth and the skirt in velvet. Wide ribbon in a rich brocaded design is tightly drawn about the hips before being tied in a loose bow at the left side. No. 1254 is in sizes 16, 18 and 20 years (or 34, 36 and 38 inches bust only). Size 18 years (36 bust) requires 4¾ yards 36-inch, or 3¼ yards 54-inch material. The sash requires 2¾ yards ribbon 5 inches wide. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

What Is Doing In the World of Radio

A good record for daylight reception was made by R. T. St. James in Chicago when he heard KFI of Los Angeles broadcasting a football game. The broadcasts of the game began at 12.30 in the afternoon.

R. H. Skinner, of New York, set up his radio receiving apparatus at the base of the Sphinx in Egypt and heard his wife talking in Pittsburg, according to the Westinghouse Manufacturing Company.

A 30-kilowatt transmitter is being installed at Ft. Leavenworth, to make this the key to the entire radio communication system of the United States Government. It is one of the most powerful stations in the country.

An important investigation just completed under the direction of George K. Burgess, director of the United States bureau of standards, shows less harmful effects from high power broadcasting stations than had been expected by this bureau.

A new record for amateur radio communication is believed to have been established by a Vancouver amateur, Earl Chang, when he was in communication with a ship lying in Discovery Inlet, Antarctic Ocean, more than 10,000 miles away, for more than fifty minutes.

In 1923 there were 2,500 radios on farms. In 1925 the number increased to 550,000. Furthermore, the farmer is not a buyer of cheap sets. In 1923 the average price paid was $175. In 1925 the high price sets were still the best sellers to farmers, says Good Hardware. Sets selling from $125 to $400 were better sellers than the $100 sets.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Eclectric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds and various inflammatory pains its record is beyond reproach.

Millions of Years

The human race has millions of years before it on this earth, according to Sir Oliver Lodge in a recent lecture on evolution. He indicated his opinion that mortals are constantly in communion with an unseen world.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

Was In Siege Of Lucknow

Mrs. William Moss, of Great Yarmouth, Eng., who just celebrated the 65rd anniversary of her wedding, is one of the few living survivors of the siege of Lucknow by the Indian mutineers in 1857. She was only seven years old at that time.

She Could Never Do The Things Other Girls Did

Miss I. J. Ross, Scollard, Alta., writes:—"I am only twenty years old, but have suffered from heart palpitation and nervo trouble for several years.

I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work.

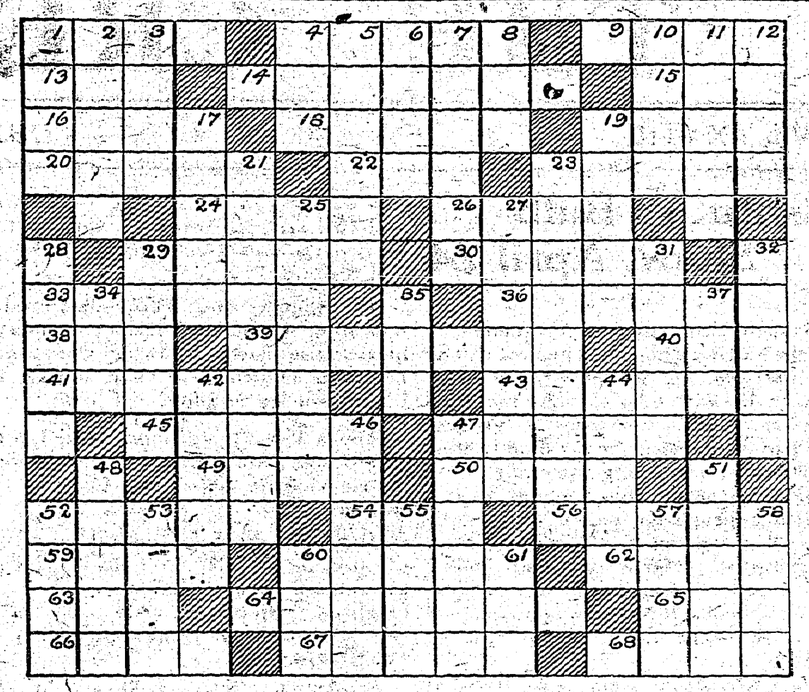
About six months ago I began taking

MILBURN'S HEART AND NERVE PILLS

and am just twice the girl I was, and can enjoy everything in general life so much more. I am very grateful for what your Pills have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

OUR CROSSWORD PUZZLE



Horizontal

1—Heavenly body.
4—Kind of tree.
9—Actual money.
13—Unctuous fluid.
14—Some way.
15—Fishes' eggs.
16—Girl's name.
18—Magician.
19—Relate.
20—Nuisances.
22—Bow the head.
23—A Hollandish flat-bottomed boat.
24—Pig's fat.
26—One of the Great Lakes.
29—Peels.
30—Women.
33—Failure.
36—Neatly.
38—Lid.
39—A lid-like organ (biology).
40—Weapon.
41—Make possible.
43—Blue dye.
45—Part of the body between lower rib and hip-bone (pl.).
47—Till.
49—Instant (abbr.).
50—One of the furs.
52—To wire.
54—Emmet.
56—Fastens tightly.
59—Exclamation of despair.
60—Mouth of a kettle.
62—Slit in a box.
63—To spoil.
64—Tinted.
65—Unit.
66—Man's nickname.
67—A plant.
68—Appear.

Vertical

1—Walk.
2—Domesticated.
3—Weapons.
4—Timber.
5—Adds to.
6—City in Nevada.
7—Scolded.
8—Farming implement.
10—Superficial contents.
11—Pertaining to the heavenly bodies.
12—Steering apparatus.
17—Collection of maps.
19—Up a tree.
21—Flesh-colored.
23—The pepper plant.
25—Opens again.
27—Rope used as rungs of ship's ladder.
28—Many times.
29—Pertaining to the pope.
31—A seal (arch.).
32—An ecclesiastical council.
34—Product of electrolysis.
35—Wrath.
37—To drag.
42—Cooks.
44—Eats.
46—Main factor.
47—Upset.
48—Dis hof lettuce.
51—Solitary.
52—Arrived.
53—Poet.
55—Twelve o'clock.
57—A plant.
58—Stalk of a plant.
60—Distress signal.
61—A beverage.

Traffic Rules In Berlin

Pedestrians Who Cross Street Outside Lines Are Fined

In Berlin the white line rule applies to pedestrians as well as to vehicles, and, according to "Safety First," the traffic police have now to report to headquarters every pedestrian who crosses the street outside the line.

The police corrects the offender on the spot. He gently leads him back to his starting-point, and makes him repeat the crossing, this time under the guidance of the law, and doubtless to the grinning delight of the onlookers.

People who resent such tender care find it pays to be quiet. Giving "back-chat" to a policeman is, in Berlin, even a worse offence than transgressing the line.

Small Farms In France

Owners of Few Acres Are Exempt From Taxation

The French agricultural department has found that nearly four million of the 5,702,752 landowners in France possess less than 25 acres of ground each. Only 30,280 have more than 250 acres and less than 5,000 have more than 750 acres.

The small parcels into which French land has been cut up is given as one explanation of the statement that farmers pay little or no taxes. The small landowner profits from exemptions the same as owners of small businesses.

Double Bodyguard For Prince

The personal bodyguard of the Prince of Wales has been doubled, and now consists of six picked men.

The authorities give no reasons for insuring such complete protection for the Prince, whose new guard is stronger and more imposing than that of any other of the royal family.

The men are under instructions to remain close to the Prince at all times when he is in public.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

A process for rolling metal foils so thin that they are transparent yet retain their elasticity has been invented by a German scientist.

Would Lower Duties

Reduction In Duty On Automobiles Is Believed Certain

Conference between Liberal and Progressive members regarding the 1926 budget has been inaugurated and it is understood that already there is some agreement on some features. It is believed as practically certain that there will be a reduction in the duty on automobiles and that this will constitute the principal change in the tariff schedules.

In addition, it is learned, the Progressives have asked for reductions in other commodities, including pumps and pump pipes, lubricating oils and farm tools.

Self-Poisoning Takes Huge Toll

Many Fail in Life Through Sheer Neglect of Fundamental Rule of Health

Thousands of men and women are to-day victims of their own neglect. Grouchy, listless, quickly tiring, suffering from headaches and biliousness, they spend enormous sums in medicines without avail. They would give much to regain their old vitality.

Can it be done? Yes! How? Simply by recognizing the importance of one fundamental rule of health—the proper elimination of the bowel contents. Poisons that are allowed to remain in the system quickly lower the stamina, weaken the nerves and thus pave the way to ill-health. Stop this self-poisoning by taking *Nujol*—the scientific lubricant that completes the work of Nature's lubricant when, through modern living conditions, the natural supply fails.

Nujol can be taken indefinitely without injury to the system. Try *Nujol* to-day. Ask for it at your nearest drug store, but remember there is only one *Nujol*. Watch for the name "*Nujol*" in red on the label and package.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's digestions are easily upset by too much "dosing." Vicks VapoRub being externally applied, does not upset little stomachs.

At the first sign of croup, sore throat, or any other cold trouble, apply Vicks freely. There is nothing to swallow—you just "rub it on."

VICKS VAPORUB

OVER 21 MILLION JARS USED YEARLY

Favor Direct Taxation

Manitoba Farmers Ask For a Reduction of Protective Duties

Reduction of protective duties now in force on imports, before other taxes are cut, is sought in a resolution passed at an executive meeting of the United Farmers of Manitoba.

"In the interests of justice and sound policy," the resolution states, "the United Farmers of Manitoba reaffirm their demand that so long as indirect taxes are levied, the sales tax is preferable to protective duties on imports, since a much larger proportion of the increased price induced by it, passes into the national exchequer. The revenue ought to be derived from direct taxes rather than from indirect taxes, which are grossly inequitable in their incidence."

CHAPTER XXVII.—Continued.

The fierceness of his snarl did not disturb Bush McTaggart now. He saw how utterly the other was at his mercy, and with an exultant laugh he leaned his rifle against a tree, pulled off his mittens, and began loading his pipe. This was the triumph he had looked forward to, the torture he had waited for. In his soul there was a hatred as deadly as Baree's, the hatred that a man might have for a man. He had expected to send a bullet through the dog. But this was better—to watch him dying by inches, to taunt him as he would have taunted a human, to walk about him so that he could hear the clank of the traps and see the fresh blood drip as Baree twisted his tortured legs and body to keep facing him. It was a splendid vengeance. He was so engrossed in it that he did not hear the approach of snowshoes behind him. It was a voice—a man's voice—that turned him round suddenly.

The man was a stranger, and he was younger than McTaggart by ten years. At least he looked no more than thirty-five or six, even with the short growth of blond beard he wore. He was of that sort that the average man would like at a glance; boyish, and yet a man; with clear eyes that looked out frankly from under the rim of his fur cap, a form lithe as an Indian's, and a face altogether that did not bear the hard lines of the wilderness. Yet McTaggart knew before he had spoken that this man was of the wilderness, that he was heart and soul a part of it. His cap was fisherskin. He wore a windproof coat of softly tanned caribou skin, belted at the waist with a long sash, and Indian fringed. The inside of the coat was furred. He was travelling on the long, slender bush-country snowshoe; his pack, strapped over the shoulders, was small and compact; he was carrying his rifle in a cloth jacket. And from cap to snowshoe he was travel-worn. McTaggart, at a guess, would have said he had travelled a thousand miles in the last few weeks. It was not this thought that sent the strange and chilling fear up his back, but the sudden fear that in some way a whisper of the truth might have found its day down into the south—the truth of what had happened on the Gray Loon—and that this traver-worn stranger wore under his caribou-skin coat the badge of the Royal Northwest Mounted Police. For that instant it was almost a terror that possessed him, and he stood mute.

The stranger had uttered only an amazed exclamation before. Now he said, with his eyes on Baree:

"God save us, but you've got the poor devil in a right proper mess, haven't you?"

There was something in the voice that reassured McTaggart. It was not a suspicious voice, and he saw that the stranger was more interested in the captured animal than in himself. He drew a deep breath.

"A trap robber," he said.

The stranger was staring still more closely at Baree. He thrust his gun stock downward in the snow and drew nearer to him.

"God save us again—a dog!" he exclaimed.

From behind, McTaggart was watching the man with the eyes of a ferret.

"Yes, a dog," he answered. "A wild dog, half wolf at least. He's robbed me of a thousand dollars' worth of fur this winter."

The stranger squatted himself before Baree, with his mittened hands resting on his knees, and his white teeth gleaming in a half smile.

"You poor devil!" he said sympathetically. "So you're a trap robber, eh? An outlaw? And—the Police have got you! And—God save us once more—they haven't played you a very square game!"

He rose and faced McTaggart.

"I had to set a lot of traps like that," the Factor apologized, his face reddening slightly under the steady gaze of the stranger's blue eyes. Suddenly his animus rose. "And he's going to die there, inch by inch. I'm going to let him starve, and rot in the traps, to pay for all he's done." He picked up his gun, and added, with his eyes on the stranger and his finger ready at the trigger, "I'm Bush McTaggart, the Factor at Lac Bain. Are you bound that way, M'sieu?"

"A few miles. I'm bound up country—beyond the Barrens."

McTaggart felt again the strange thrill.

"Government?" he asked.

The stranger nodded.

"The—Police, perhaps?" persisted McTaggart.

"Why, yes—of course—the Police," said the stranger, looking straight into the Factor's eyes. "And now, M'sieu, as a very great courtesy to the law I'm going to ask you to send a bullet through that beast's head before we go on. Will you? Or shall I?"

"It's the law of the line," said McTaggart, "to let a trap robber rot in the traps. And that beast was a devil. Listen——"

Swiftly, and yet leaving out none of the fine detail, he told of the weeks and months of strife between himself and Baree; of the maddening futility of all his tricks and schemes and the still more maddening cleverness of the beast he had at last succeeded in trapping.

"He was a devil—that clever," he cried fiercely when he had finished. "And now—would you shoot him, or let him lie there and die by inches, as the devil should?"

The stranger was looking at Baree. His face turned away from McTaggart. He said:

"I guess you are right. Let the devil rot. If you're heading for Lac Bain, M'sieu, I'll travel a short distance with you now. It will take a couple of miles to straighten out the line of my compass."

He picked up his gun. McTaggart led the way. At the end of half an hour the stranger stooped, and pointed north.

"Straight up there—a good five hundred miles," he said, speaking lightly as though he would reach home that night. "I'll leave you here."

He made no offer to shake hands. But in going, he said:

"You might report that John Madison has passed this way."

After that he travelled straight northward for half a mile through the deep forest. Then he swung westward for two miles, turned at a sharp angle into the south, and an hour after he had left McTaggart he was once more squatted on his heels almost within arms' reach of Baree.

And he was saying, as though speaking to a human companion:

"So that's what you've been, old boy. A trap robber, eh? An outlaw? And you beat him at the game for two months! And for that, because you're a better beast than he is, he wants to let you die here as slow as you can. An outlaw!" His voice broke into a pleasant laugh, the sort of laugh that warms one, even a beast. "That's funny. We ought to shake hands, Boy, by George, we had! You're a wild one, he says. Well so am I. Told him my name was John Madison. It ain't. I'm Jim Carvel. And, oh Lord—all I said was 'Police.' And that was right. It ain't a lie. I'm wanted by the whole corporation—by every danged policeman between Hudson's Bay and the Mackenzie River. Shake, old man. We're in the same boat, an' I'm glad to meet you!"

CHAPTER XXVIII.

Jim Carvel held out his hand, and the snarl that was in Baree's throat died away. The man rose to his feet. He stood there, looking in the direction taken by Bush McTaggart, and chuckled in a curious, exultant sort of way. There was friendliness even in that chuckle. There was friendliness in his eyes and in the shine of his teeth as he looked again at Baree. About him there was something that seemed to make the gray day brighter, that seemed to warm the chill air—a strange something that radiated cheer and hope and comradeship just as a hot stove sends out the glow of heat. Baree felt it. For the first time since the two men had come, his trap-torn body lost its tenseness; his back sagged; his teeth clicked as he shivered in his agony. To this man he betrayed his weakness. In his bloodshot eyes there was a hungering look as he watched Carvel—the self-confessed outlaw. And Jim Carvel again held out his hand—much nearer this time.

"You poor devil," he said, the smile going out of hi sface. "You poor devil!"

There was no fear in the way he put forth his hand. It was the confidence of a great sincerity and a great compassion. It touched Baree's head and patted it in a brotherly fashion, and then—slowly and with a bit more caution—it went to the trap fastened to Baree's forepaw. In his half-crazed brain Baree was fighting to understand things, and the truth came finally when he felt the steel jaws of the trap open and he drew forth his maimed foot. He did then what he had done to no other creature but Nepeese. Just once his hot tongue shot out and licked Carvel's hand. The man laughed. With his powerful hands he opened the other traps, and Baree was free.

"Screw up your nerve, old chap," he encouraged. "No bones broke. Just a little stiff. Mebby we'd better—get out."

He turned his face in the direction of Lac Bain. The suspicion was in his mind that McTaggart might turn back. Perhaps that same suspicion was impressed upon Baree, for when Carvel looked at him again he was on his feet, staggering a bit as he gained his equilibrium. In another moment the outlaw had swung the pack-sack from his shoulders and was opening it. He thrust in his hand and drew out a chunk of raw red meat.

"Killed it this morning," he explained to Baree. "Yearling bull, tender as partridge—and that's as fine a sweetbread as ever came out from under a backbone. Try it!"

He tossed the flesh to Baree. There was no equivocation in the manner of its acceptance. Baree was famished—and the meat was flung to him by a friend. He buried his teeth in it. His jaws crunched it. New fire leaped into his blood as he feasted, but not for an instant did his reddened eyes leave the other's face. Carvel replaced his pack. He rose to his feet, took up his rifle, slipped on his snowshoes, and fronted the north.

"Come on, Boy," he said. "We've got to travel."

It was a matter-of-fact invitation, as though the two had been travelling companions for a long time. It was, perhaps, not only an invitation but partly a command. It puzzled Baree. For a full half-minute he stood motionless in his tracks gazing at Carvel as he strode into the north. A sudden convulsive twitching shot through Baree; he swung his head toward Lac Bain; he looked again at Carvel, and a whine that was scarcely more than a breath came out of his throat. The man was just about to disappear into the thick spruce. He paused, and looked back.

"Coming, Boy?"

(To be continued)

STRATFORD WOMAN

Restored to Health by Lydia E. Pinkham's Vegetable Compound

Stratford, Ontario. — "After my first baby was born I started to work on the tenth day and did a big washing on the twelfth day. Being so young (I was married at 19) I did not know what was the matter, so let it go until I was all run-down, weak and nervous, and had a bad displacement. For nearly two years I could not sleep and I would always complain of having 'not a head-ache, but a brain-ache.' My mother is taking Lydia E. Pinkham's Vegetable Compound during the Change of Life and she recommended it to me. After taking two bottles I began to get a little sleep and to feel better and I have never left off since then, except for about three months. I can safely say I have taken thirty bottles since my second baby was born. I think it makes child-birth easier as I had terrible pains with my first three children and very few with my fourth as I was so much stronger. I am now able to do my work alone, but I am still taking the Vegetable Compound as I am nursing baby."—Mrs. OMER PAUL, 49 Cherry Street, Stratford, Ontario.

If you are suffering from any weakness which causes such symptoms as pains in the side and back and nervous feelings, give Lydia E. Pinkham's Vegetable Compound a trial now. C

Says Man Like A Bicycle

Keeps Running As Long As He Stays Active

Congratulated by a London Evening News man on reaching his 81st year, Lord Phillimore said his secret of long life, health and happiness lay in hard work, plenty of fresh air and domestic happiness.

"As long as a bicycle keeps running," he said, "it stays upright. It is the same in human life. To live long one must keep active. Idleness is fatal."

FIGHTING FOR BABY'S HEALTH

Is the Constant Care of Every Young Mother

The young mother has a constant care in looking after the welfare of her little ones. Childhood ailments come on so suddenly—sometimes without a minute's warning—the mother may have a very sick baby on her hands before help can be obtained. That is unless she has a remedy in the house which she can safely give the baby for any of the many minor ailments of babyhood and childhood.

Such a remedy is found in Baby's Own Tablets. Thousands of mothers throughout the country always keep a box of the Tablets on hand and they proclaim them to be without an equal for sweetening baby's stomach; regulating his bowels, and thus driving out constipation and indigestion, colds and simple fevers, and making the dreaded teething period easy.

Baby's Own Tablets are an absolutely safe remedy. They are guaranteed to be free from opiates or any other narcotic drug which are so harmful to the future welfare of the baby. Mothers, if you value the life of your little ones give him Baby's Own Tablets when he is ill, or, better still, give him an occasional dose of the Tablets to ward off illness. The Tablets are sold by medicine dealers or will be sent to any address, post paid, at 25 cents a box by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

Whitewashing a man's character doesn't wash it white.

CRESTON, B.C., FRIDAY, APR. 16

LETTERS TO THE EDITOR

EDITOR REVIEW:

SIR,—Wynndel Tennis Club now has two courts in excellent shape for play. The members are extremely keen and would like to try the mettle of other players.

The club is anxious to get in touch with tennis players in Creston and district with the view to arranging a series of matches.

If the Creston tennis fans would like to meet us I would be pleased to hear from their representative so that we could decide the details and fix a date.

BOB FOXALL
Secretary Wynndel Tennis Club.

Local and Personal

E. J. Chambers of Vernon, president of the Associated Growers of B.C., and W. Vance, manager of the Creston Nelson sub-centre, were business visitors here yesterday.

The bishop of Kootenay announces that he will be here on Wednesday, April 28th, to install and induct Rev. S. Newby as rector of Christ Church, and will also confirm a class of candidates that is now being prepared.

All Anglican young people are reminded of the meeting on Wednesday night next, April 21st, in the Parish Hall, at 8 o'clock. Business: Completion of organization of the young people's work. All welcome.

Over the weekend the trout championship honors were transferred to A. Abrahamson who on the 10th brought one in to Vic Mawson that weighed even 2 pounds 8 ounces. It was 20¼ inches long, and had 10 inch girth.

Miss Jerome, who had charge of Division II. of the public school until Christmas, but who is now at Kimberley, was a Saturday-Sunday visitor with Mrs. A. L. Cameron, after spending the Easter week at her home in Nelson.

F. M. McPherson, manager of the Hanson garage at Cranbrook, was a visitor here on Wednesday. He states that auto sales in the divisional city this year are well up to the standard of other seasons. Up to the middle of the month his firm has sold 60 cars.

Bob Hetherington, who has been attending the University of British Columbia, Vancouver, the past term, arrived home on Sunday for the vacation period. He is taking the course in civil engineering and has completed a very successful first year.

Alex. McKay, an Arrow Creek woodsman, was in the police court on Tuesday when Magistrate Mallandaine inflicted a fine of $5 and costs for driving an auto without a driver's license, and assessed him another $25 for driving in excess of the village speed limit.

Mrs. Applewaite of Willow Point, a prominent official of the Women's Auxiliary addressed quite a well attended meeting of the Anglican ladies in the Parish Hall on Wednesday afternoon, in the interests of the church's forward movement work amongst the women of Canada.

FOR QUICK SALE—Grade Jersey heifer, freshend first calf February 1st. Grade Ayrshire cow, 6 years old, due to freshen early July. Horse, 900 1000 lbs., sound, good to ride, drive, pack or for light farm work. All above stock in first-class condition. Percy H. Watson, Alice Mine Trail, Creston.

CORPORATION OF THE

Village of Creston

TENDERS for PAINTING

Sealed tenders will be received by the undersigned up to and including Monday, April 26th, 1926, for painting the interior and exterior of Municipal Building. Specifications and all other information may be had at the Clerk's Office. Lowest or any tender not necessarily accepted. W. O. TAYLOR, Clerk.

Premier Oliver was a Wednesday-Thursday visitor at Creston and Lister, spending most of his time at the latter place interviewing the soldier farmers in connection with the revaluation of their farms. On Thursday morning President Mallandaine and delegation from the board of trade were in conference with the visitor, who left at noon on a trip to Ottawa.

Creston lost quite an old time citizen on Thursday when J. A. Lidgate left to make his future home at Vancouver, and was accompanied by Miss Ruth and son, Keith. For years Mr. Lidgate was at the head of the trading department of the old Farmers' Institute which was taken over by the Creston Fruit Growers Union in 1918.

There was quite a good turnout for the tea and musicale under Christ Church Ladies' Guild auspices on Thursday afternoon at the Parish Hall. Rev. and Mrs. Newby and their guest, Mrs. Ballard of Robson, favored with several vocal numbers, and Mrs. Mallandaine contributed a reading. Mrs. J. W. Hamilton was accompaniste. The proceeds amounted to about $15.

Due to a mishap W. Hendy is a few days late in inaugurating the village garbage removal service, which will start on Monday, 19th. Clean up day of the week previous was fairly well observed, the village setting a fine example by removing all the stones and refuse from the streets at the beginning of the month, the highways now presenting the best possible appearance.

Cranbrook Courier: Mickey J. Argue, well known here and who still looks upon Cranbrook as his home town, who left Creston to fill a more important position in Nelson some time ago, has been appointed manager of the Canada Drug and Book Company with headquarters in the city on the lake. His many old friends here rejoice that Mickey has found well-deserved promotion.

There was a good turnout of the young people at the meeting at the Parish Hall on Friday night to discuss plans for the young people's work this year. Several likely looking plans were discussed at length, and these were referred to a committee consisting of Misses Joan Kemp and Phyllis Hamilton, and Messrs. John Murell and Ted Bush, who will report at another meeting to be held this week.

The biggest Saturday night crowd the Grand has had this year was out for "The Sea Hawk" on the 10th, and at regular prices the patrons got great value for their money. Other feature films that are booked for the Grand within the next four months are Douglas Fairbanks in "The Thief of Bagdad"; Mary Pickford in "Annie Rooney"; Charlie Chaplin in "The Gold Rush," and a Zane Grey super special.

Provincial police H. McLaren and Dr. Henderson had a hurried call to the Putnam, Palmer & Staples, Ltd., sawmill camps near the Goat River bridge on Thursday last, to attend Albert Berry, an out-of work, who had drifted in there the night previous and had attempted suicide the next morning by cutting his throat. The doctor put in half a dozen stitches and the unfortunate, who is 67 years of age, spent until Sunday at the lockup, when he was taken to Nelson.

D. T. Scringeour presided at the meeting on Tuesday night last at which members of the curling club discussed outdoor sports in general and a committee consisting of Messrs. Gibbs, Fraser and Moore was named to investigate the possibilities of a combined bowling and tennis club, and Messrs. Allan, Speers and R. B. Staples were deputed to look over suitable sites and report as to the possibilities of golf. There will be another meeting to hear committee reports tonight, 16th.

At Christ Church committee meeting on Sunday night a committee was named to look after the erection of a drive shed at the rear of the church for the accommodation of parishoners who drive in to worship. A hearty vote of appreciation was tendered Percy H. Watson, people's warden, who has resigned, due to his leaving Creston almost immediately. He has been warden for the past three terms previous to which he was a member of the vestry, and his work in this connection is fully appreciated by the congregation.

A real treat in the musical line was furnished with the "Sea Hawk" film at the Grand on Saturday night, when Geo. H. Kelly of the Creston Drug & Book Store, gave an extended demonstration of the Victor Orthophonic Phonograph, for which he is exclusive agent. The Orthophonic presents so many improvements over the talking machines of former days that it is almost a new creation, reproducing the human voice or instrumental music without any buzz or bur-r-r or othe discordant sounds, and so true to th' original that when he heard it John Philip Sousa, the well known composer, remarked of its reproduction of a march, "I have really heard a band on a talking machine." On Saturday night the Orthophonic could be heard in any part of the Grand to splendid advantage, and the machine is so constructed that its music is equally pleasing whether heard in a hall or in the home.

Canyon City

The report is current here this week that Ed. Smith of the Lister area, has just purchased ten acres from Chas. Pipe, which is located alongside the Filmer ranch, which Mr. Niblow, also of Lister acquired about a year ago.

Mrs. C. H. Robinson is a patient in the hospital at Cranbrook, leaving to take treatment there at the end of last week.

School reopened on Monday morning which practically a full attendance, which would indicate that Canyon is clear of its epidemic of flu and colds.

W. H. McQueen is busy this month with the erection of an addition to his ranch residence.

The Ladies' Community Club are having the first of a series of dances on Friday night, 16th, in the community hall.

Grover Kifer, who returned from Yahk a few weeks ago, is now busy clearing up a couple of acres of land on his place next the "Shorty" Adams ranch.

Geo. Davie had a busy weekend of it handling the drums for the Creston orchestra at the Whirlwind Club dance at Erickson on Friday night, and on Saturday lending the same helping hand with the Alice Siding musicians who played at Kitchener. George has acquired all the accessories for dance drumming and his work on this line is the best ever heard locally.

Work started early in the month putting in the ditch for the main pipe line for the Coldstream district irrigation system, which will supply water for eight or nine places that were not included in the Canyon Water Users system a few years ago. With this system completed the greater part of Canyon will be supplied with both irrigation and domestic water.

MILK GOATS FOR SALE—Fresh in few days. Also young stock. Prices right More room needed. P. G. Ebbutt, Creston.

A children's masquerade party will be held on Friday, April 23rd, from 6.30 to 9.30 p.m., at the Parish Hall. Prizes for the best costumes. Admission 25 cents. Everybody welcome.

Kuskanook

Kuskanook recently heralded the arrival of the contracting firm of Miller, Romano & Company, Unlimited, which, no doubt, will bolster up the activities of this locality to a great extent. While the incorporation of this firm has as yet not been publicly given out, it is stated that amalgamation will shortly take place. This company specializes in logology, and an inspection at the scene of their activities soon convinces one that logology as visualized by one, Mr. Scribbner, is, to say the least, very ancient. The personnel of this firm is: President, F. Miles; manager, F. Romano; woods superintendent, Rex Miller; transportation specialist, R. Lalonde. Directors, Bunce brothers. The enlarged concern will likely be known as the Kuskanook Logging Company, Ltd.

F. Miles, Rex Miller and employees of the K. L. Company went on a fishing expedition on Sunday, but owing to atmospheric conditions and fluctuation of the Ham exchange they returned without reducing to any great extent the fish colonies of the Kootenay. However, Mr. Lalonde, a former prospector, and resident guest of the Kitchener Hotel, is now fully equipped with the fundamental necessities of a big lake fisherman and it is expected; no to be hoped, that the larder will soon see quite a change.

Rex Miller spent several hours tuning up a new Swedish guitar, and it was noticed, at times, a far away look came over his countenance. No doubt he was thinking of the time he was engaged at similar work at Kitchener when, if deductions be correct, the task was very enticing.

F. Romano and F. Bunce were at Creston for the weekend. Urgent business affairs made the trip unavoidable. On April 5th a very enjoyable siesta was indulged in at Sirdar by employees of the K.L. Company. A rare evening was spent by one and all

Quite a number of fishing enthusiasts and holiday seekers were seen here on Sunday, having motored here from surrounding towns.

The essence of discussions in this locality seems to centres on friends, etc., who were left behind in Kitchener, or way points, by members of this Pine Salvaging department. It is believed, however, that with an increase in the Alpine festivities together with Old Sol's invigorating rays, this affliction will be decemin-ated. And, as some people remind us "It is just what we expected."

Place your orders now for Tomatoes, Cabbage, Cauliflower and other plants, including flowers, with Cook's Greenhouse, Creston.

Penticton is not looking for as large an apple crop as in 1925, but a bigger soft fruit crop will equalize things somewhat the Herald states.

The News thinks it is mighty near time Nakusp was organizing a wild flower preservation society, or see to it that it is taught in school.

NEWS OF KOOTENAYS

Despite the very mild season the rink operators at Cranbrook made a profit of $89 last winter.

Trail council figures to spend $45,000 this year to give that town an adequate water supply.

Starting this month the post-office at Grand Forks is taking the usual Wednesday half holiday.

The tax rate at Fernie this year is 38 mills on the dollar. 22 mills is required to finance the schools.

Kimberley had a school population of seven pupils in 1913. To day almost 400 children are enrolled.

The Vernon News believes paint, power and payroll are the three essentials to make Vernon prosperous.

Jimmy McCool asserts that he employed 53 men all winter cutting posts and mine props in the Fernie area.

At Fernie the expectation is that the coal company will very shortly fire up another battery of coke ovens.

Kimberley board of trade is still too timid to take on the work of getting the place incorporated as a village.

Two more men have been added to the fire brigade at Fernie making it a chief, a driver, and seven firemen.

It will cost $68,613 to operate Grand Forks this year. About a third of this amount is required for school purposes.

Now that dyking work is under way on the flats near the town there is quite a demand for town lots at Porthill.

A gasoline excavating shovel is now used by the public works department at road making in the Cranbrook district.

It will require almost $100,000 to finance Cranbrook this year, almost half of which is spent on the schools of the place.

Bill House of Porthill was showing Bonners Ferry his ten months' old timber wolf which he has tamed as gentle as any dog.

Vernon golf club has a membership of 125 and will engage a professional to teach the members the fine points of the game.

Kaslo has commenced making plans for the cherry carnival late in July, which will be one of the attractions to the opening of the Queens Bay-Ainsworth road.

The Consolidated will increase its concentrator capacity at Kimberley from 3000 to 4000 tons daily. When the change is completed 1000 men will be employed.

THE WATER ACT

The Proposed Arrow Creek Irrigation District

Notice is hereby given that a petition has been filed with the Comptroller of Water Rights for presentation to the Lieutenant-Governor-in-Council praying for the incorporation of the tract of land described hereunder into an improvement district under the name of "Arrow Creek Irrigation District" pursuant to the provisions of Part VI. of the Water Act.

The said tract of land may be described as follows: Commencing at the North West corner of Block 16, Registered Plan 698, thence South along the Westerly boundaries of Blocks 16, 15 and 14 of said Registered Plan 698 to the intersection of the said Westerly boundary of said Block 14 with the northerly boundary of the right-of-way of the Canadian Pacific Railway Company thence following the said northerly boundary of the said right-of-way to its intersection with the Southerly bounadry of Lot 3364 thence East along the said southerly boundary of said Lot 3364 to the westerly channel of Goat River, thence North and East along she said Westerly channel of Goat River to the Southerly boundary of Block 27, Registered Plan 730A thence West along the southerly boundaries of Block 27 and 26 of said Registered Plan 730A to the South West corner of the said Block 26 thence North along the Westerly boundaries of said Block 26 and Block 25 said Registered Plan 730A to the North West corner of said Block 25 thence West along the Northerly boundaries of Blocks 22, 21, 16 and 15, Registered Plan 730A to the Nosth West corner of said Block 15, thence South along the Westerly boundary of said Block 15 to the North East corner of Block 2, Registered Plan 730A, thence West along the Northerly boundary of said Block 2 to the North West corner thereof thence North along the Easterly boundary of Block 30, Registered Plan 698, to the North East corner thereof thence West along the Northerly boundaries of Blocks 30, 21 and 16, Registered Plan 698, to the point of commencement. And in addition Blocks 2, 3, 4, 5, 7, 8 and 9, 10, 11, 12 and 13, Registered Plan 943. All the said Registered Plans being plans deposited in the Land Registry Office for the Nelson Land Registration District.

The objects of the said improvement district are the acquisition and construction of works and licenses for the storage, carriage and delivery of water for irrigation, waterworks, power and such incidental purposes as are authorized by the licenses the district may acquire and the acquisition and operation of works for the improvement and development of lands by drainage and incidental means.

Objections and suggestions relative to the incorporation of the said improvement district which are submitted in writing to the Comptroller of Water Rights, Victoria, B.C., on or before the Tenth day of May, 1926, will be considered by the undersigned before the said petition is presented to the Lieutenant-Governor-in-Council.

Dated at Victoria, B.C., this 8th day of April, 1926.

T. D. PATTULLO,
Minister of Lands.

PROVINCIAL ELECTIONS ACT

Creston Electoral District

NOTICE is hereby given that I shall, on Monday, the 17th day of May, 1926, at the hour of 10 o'clock in the forenoon, at the Court House, Creston, hold a sitting of the Court of Revision for the purpose of revising the list of voters for the said electoral district, and of hearing and determining any and all objections to the retention of any name on the said list, or to the registration as a voter of any applicant for registration; and for the other purposes set forth in the "Provincial Elections Act."

Dated at Creston, B.C., this 13th day of April, 1926.

C. F. HAYES
Registrar of Voters,
Creston Electoral District.

MINERAL ACT

(FORM F.)

Certificate of Improvements

NOTICE!

Lucky Boy and Lucky Boy Fractional Mineral Claims, situated in the Nelson Mining Division of Kootenay District. Where located: On Sheep about six miles from Salmo.

TAKE NOTICE that I, A. H. Green, acting as agent for August Schivinke, Free Miner's Certificate No. 694650 intend, sixty days from the date hereof to apply to the Mining Recorder for a Certificate of Improvements far the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under Section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 6th day of April, 1926.

A. H. GREEN.

WATER NOTICE

DIVERSION AND USE

Take notice that Henry Olver, whose address is Nelson, will apply for a license to take and use 1 c.f.s. of water out of Gold Cup Creek, which flows southwest and drains into Salmon River, one mile south of Porto Rico. The water will be diverted from the stream at a point 100 yards above line between north and south half of Lot 1242, and will be used for fluming purpose upon the land described as Lot 1242 G. 1, Kootenay District. This notice was posted on the ground on the 1st day of April, 1926. A copy of this notice and an application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder at Nelson. Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

H. OLVER, Applicant.

The date of the first publication of this notice is April 9, 1926.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Canada's "Inferiority Complex"

A prominent Canadian, addressing a meeting in New York recently, deplored the "inferiority complex" of the people of the Dominion—in other words, the national tendency to detract from the progress and achievements of Canada, to belittle its growth, and question its possibilities. Too many people in Canada are found who constantly compare a given set of conditions, or services, in this country with the much more populous and wealthy United States, or the older established countries of Europe. It is no doubt well that Canada should set a high standard of comparison for their country, rather than a low one, but it is hardly fair to place in contrast a country of ten million people with one of one hundred and ten million people.

Canadians are declared to be "slow but sure and reliable." We believe that the people of this Dominion have justly established for themselves the reputation of reliability. We may lack the dash, the enthusiasms, the boastfulness of our neighbors to the south, and no doubt it would be to our advantage if some of their enthusiasm and energy were injected into our national make-up. Our southern neighbors would probably be better off with a little less of such national characteristics just as Canadians would be better off with a little more.

The year of 1926 would appear to be an excellent one in which to develop more of the spirit of national self-confidence in Canada. Following the splendid crop returns of last Fall, the new year opened with expanding business in almost every direction, and the making of plans for large and important advancements in practically every branch of industrial and commercial activity during the year. The financial health of the Dominion is better than at any period since before the war, unemployment is less, and an optimistic tone prevails. This should be the normal state of affairs in this country, and it can be maintained if the people of Canada unitedly determine that it shall be maintained.

Canada's wheat crop last year was the second largest in its history and more than 150,000,000 bushels greater than in 1924; the oats crop was greater by more than 100,000,000 bushels; barley by 25,000,000 bushels. The ports of Montreal and Vancouver established new high records for the export of grain. Butter production in the three prairie provinces, which was below 6,000,000 pounds fifteen years ago, exceeded 50,000,000 pounds last year. Foreign trade is expanding rapidly, and the favorable balance of exports over imports now reaches to almost $300,000,000.

In the face of such official figures, why should any Canadian feel called upon to apologize for his country, or to doubt its future? There has been talk of hard times in Canada, and unquestionably some recent years have been trying and difficult, but such conditions have existed in most countries. Not long ago that student of world affairs, Sir Clifford Sifton, stated with absolute conviction that man for man no country in the world was better off than Canada, and in no country did there exist better opportunities for the man or woman willing and eager to work.

The year is yet young, but already in different sections of the country contracts for more new building have been let than is usually the case by mid-summer, and announcement of new and large undertakings is now the order of the day. Only recently one of the big railway groups in England announced the placing of an order in Canada for 26,000,000 feet of British Columbia Douglas fir for railway ties, an order which exceeds in quantity the whole of British Columbia's export to the United Kingdom two years ago. The Admiralty has decided to use Douglas fir for the decks and bulkheads of future battleships, and the British Board of Trade will use the same material for its motor boats and lifeboats. In two years British Columbia's export of timber has risen from 16,000,000 feet to 66,000,000 feet in 1925.

These facts are cited, not in a spirit of boastfulness, but as concrete evidence, as substantial reasons, why Canadians should altogether abandon that "inferiority complex" for which they are criticized and which does act to retard the development of the Dominion and to create a lack of confidence, and a self-depreciation, which is inimical to the welfare of Canada. Let 1926 see this weakness in our national make-up buried forever.

Coals of Fire

People in the Maritimes are calling Sir Henry Thornton "a menace to Canada." And Sir Henry's response, observes the Kingston Whig, is a contract to purchase 182,000 tons of Nova Scotia coal for the C.N.R. That is his way of heaping coals of fire on the heads of his detractors.—Toronto Globe.

No Trouble to Catch Shark

Dr. S. S. Maxwell, head of the department of physiology at the University of California, had urgent need of a live shark with which to demonstrate certain principles of the law of equilibrium. He appealed to the student employment bureau and a junior, Arthur Cowell, produced one after a few hours' fishing.

Genuine
BAYER ASPIRIN
Proved safe by millions and prescribed by physicians for
Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism
DOES NOT AFFECT THE HEART
Safe
Accept only "Bayer" package which contains proven directions.
Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. (Acetylsalicylic Acid "A. S. A.") While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Record Baggage Handling

Checked Four Million Pieces of Luggage With Loss of Only Eleven Pieces

Handling 4,000,000 pieces of baggage in a year with a loss of only 11 pieces, is the record established by the baggage department of the Canadian Pacific Railway western lines in 1925. There was also a decrease in the amount of claims of twenty-five per cent. from those of 1924, bringing the actual amount paid out to less than 500 dollars.

"DIAMOND DYE" ANY GARMENT, DRAPERY
Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!
Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Will Produce Artificial Silk

Artificial silk to the extent of ten tons a day will be produced by a German firm of manufacturers. Erection of the factory which will operate according to the new process is being hurried forward.

HER IMPROVEMENT WAS REMARKABLE
Weak and Run-Down—Restored by Dr. Williams' Pink Pills
"Two years ago," says Mrs. L. Wright, Secretan, Sask., "I was very much run-down in health. I suffered from indigestion, sick headaches and sleepless nights. Faint spells would often come over me and I would have to lie down till the faintness passed away. I was so short of breath that I could not walk any distance or do anything that required much exertion, without feeling completely used up. As I was constantly growing weaker, I consulted a doctor who told me I was anaemic and needed building up. I took several bottles of tonic he gave me, but the help I got from it was only temporary. At this stage I decided to try Dr. Williams' Pink Pills, which I had used in girlhood with much benefit. It was not long after I began using them that I knew I had at last found the right medicine. I think I took altogether some fifteen boxes, and the improvement was remarkable as I was feeling as well as ever I had been, and my good health has continued to this day. I had also been troubled at times with rheumatism, and this as well as my other troubles disappeared. I have since recommended Dr. Williams' Pink Pills to neighbors who have used them with equally good results."
All weak, anaemic women and girls should follow the example of Mrs. Wright, and give these pills a fair trial. New health and new strength is sure to follow. You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Turkish Women Enter Industrial World

Over Twenty Thousand Have Found Employment in Last Four Years

There was not one Turkish woman among the industrial workers of Constantinople four years ago, but now there are more than 20,000. A Turkish tobacco concern, the Douhan Society, led women into industry when it opened a factory in 1921 with the employment of 850 Turkish girls.

Turkish women have proved so adept at the sorting and grading of tobacco leaves that now this society employs 6,000 women. Other companies have sprung up and increased female employment. Comfort and health of the workers has been insured.

Cattle Killed By Wolves

During the past year, 50,000 cows, horses and sheep were killed by wolves in the Akmolinsk district, entailing a loss of $250,000. Special detachments of local huntsmen and troops are trying to destroy the beasts.

Minard's Liniment used by Veterinaries

Alberta Oil Development

Royalite Company Now Producing Five Hundred Barrels Daily

After spending more than four million dollars in exploration work, the Imperial Oil Co., Ltd., has at last obtained a crude oil supply in Canada, it was reported by President C. O. Stillman at the recent annual meeting of the company in Toronto. In his address to the shareholders, Mr. Stillman said one well in Alberta operated by the Royalite Oil Company, a subsidiary of the Imperial, was now producing 500 barrels daily and showed no signs of diminishing. More wells, he said, were being drilled by the Royalite Company in Turner Valley, Alberta, in which district the company was hoping for greater success. The company was also delivering about 14,000,000 feet of gas daily to Calgary.

Where Liquor Money Goes

More Money Spent On Liquor In Alberta Last Year Went to Ottawa Than to Provincial Treasury

More money spent on liquor in Alberta last year went to Ottawa than remained for Alberta's own treasury, according to the report of the liquor board now submitted to the government. Over $2,128,000 was paid to the Dominion Government in 1925, representing customs and excise duties on liquor and spirits, taxes on beer, excise on malt, and sales taxes on the various products sold.

No reduction in the duty charged by the Dominion Government was made during the year, and there is little prospect, says the report of any material lowering of present retail prices until such reduction is given effect.

Canada's Trade Grows

Trade Within the Empire Shows Heavy Increase

Canada's active participation in trade and commerce within the empire is revealed in the trade statement for the year 1925, issued by the bureau of statistics. In both imports and exports, Canada has increased her business with the rest of the empire. The imports from other sections were $197,000,000 in 1923, $190,000,000 in 1924 and $204,000,00 in 1925. In the same three years exports to British possessions were $436,000,000 in 1923, $464,00,000 in 1924 and the new peak of $507,000,000 last year.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurrnig attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Donation From Indian Ruler

Impressed by the Armistice Day services, the Begum of Bhopal has sent her check for $25,000 to the British Legion appeal fund. Her two small grand-daughters also assisted the fund by selling poppies in the streets.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

Homes In Irrigation District

More than three hundred and seventy-five home units have been established in the Lethbridge Northern Irrigation Block in Southern Alberta since its inception a few years back.

Flax Planted In England in 1532

Flax was first planted in England in 1532, when it was directed to be grown in order that material might be provided for the making of fishing nets. In 1783 bounties were paid to growers of flax in order to encourage its cultivation.

The Family Remedy For Over Forty Years
So Says British Columbia Lady of Dodd's Kidney Pills
Mrs. E. Callier Suffered From Pains in her Back and is Now Completely Relieved.
Vancouver, B.C.—(Special).—"I can truthfully recommend Dodd's Kidney Pills," so states Mrs. E. Callier, 917 11th Avenue East, in an interview. "I was doubled up with pains in my back, but after taking Dodd's Kidney Pills I have not felt a pain in two years. My father always kept them in the house, as he was subject to lumbago. He always felt relieved after taking them. We have used Dodd's Kidney Pills in the family for over 40 years. I hope Dodd's Kidney Pills will do others as much good as they have done our family."
Statements like this have built up and maintained the reputation Dodd's Kidney Pills hold today.
You will find that Dodd's Kidney Pills will relieve Kidney trouble, no matter where or in what form it is found.

France Growing More Wheat

It is assumed that in a few years France will be producing enough wheat to take care of its requirements. At present the production is nearly 90,000,000 quintals more. A quintal is about 220 pounds. Most of the wheat grown in France, however, is of the soft variety, and it may have to import hard wheat for some time yet.

Greater Industrial Development Shown Within Recent Years In The Western Provinces

Of recent years, and evidenced most markedly in 1925, there has been pronounced activity in Western Canada in the direction of achieving a greater industrial development, principally through the exploitation and utilization of the wealth and variety of the natural resources the area possesses. This broad territory is commonly regarded as being purely agricultural, dependent entirely upon the east and other countries for its manufactures, and whilst it is true that the great bulk of its revenue is derived from farming, with manufacturing a relatively unimportant phase of its economic life, there is, at the same time, a steady industrial expansion evident, and Western Canada is consistently coming to manufacture a larger share of its fabricated requirements.

The prairie provinces being so essentially agricultural, the manufactures from farm products are naturally the ones which have been developed first and most actively. In all three provinces flour and grist mills constitute the greatest industrial activity. Slaughtering and meat packing occupies second place in Alberta and Manitoba, but in Saskatchewan butter and cheese manufacture has second place, whilst it is third in both sister provinces. In British Columbia, resources differ drastically, and the magnificent woods of the province have made lumber its first activity and pulp and paper its second, with fish, preserved, at third place with an almost equal importance. The other leading industries of the prairie provinces are cotton and jute bags, electric light and power, bread, biscuits and confectionery, coffee and spices, printing and publishing, sash, door and planing mills, malt liquors, aerated and mineral waters, and lumber, lath and shingles. British Columbia's fourth industry is electric light and power, followed by slaughtering and meat packing, fruit and vegetable canning, sheet metal products, sash, door and planing mills.

Vancouver has become the first industrial city of Western Canada with a production value of $71,221,905, followed closely by Winnipeg with a value of $70,647,027. These two cities are outstanding, and Calgary, which occupies third place, has an annual manufacturing production value of only $18,171,249. St. Boniface, Regina, Edmonton and Victoria have each a production in excess of $10,000,000, and Moose Jaw, Saskatoon, Medicine Hat and New Westminster in excess of $5,000,000. Other important manufacturing cities are Brandon, Portage la Prairie and The Pas in Manitoba, Prince Albert, North Battleford, Yorkton and Weyburn in Saskatchewan, Lethbridge and Redcliffe in Alberta, and Prince Rupert, Fernie, Merritt and Nanaimo in British Columbia.

Efforts towards industrial expansion in Western Canada have been very much more marked and become much wider in scope since the last survey was made by the government, and developments of a magnificent industrial nature have taken place. Beet sugar manufacture has been inaugurated in Alberta, and oil refining is steadily becoming a more important activity as the crude product is drawn from the Montana field, whilst more successful results are confidently awaited in Alberta and Saskatchewan. In the same province, the manufacture of cereal straw into paper pulp has almost reached the stage of actuality, and there would seem to be every probability that very soon the tar sands of the Athabasca will be variously utilized. Sodium sulphate deposits in Saskatchewan have been put on a commercial basis and the product is being shipped east and south, whilst ceaseless effort continues in the matter of utilizing the province's resources of lignite. Altogether there is evident in Western Canada a very marked determination to expand industrially through the exploitation and development of the great wealth and variety of the natural resources of that area.

Her Incentive

Clergyman (to 4-year-old Nellie): And what do you go to Sunday School for, my dear?

Nellie: To see Tommy Jones.

W. N. U. 1617

Market For Canadian Coal

Introduce Bill in House to Levy Duty On U. S. Coal

Agitation to hold Canadian markets for Canadian coal took a concrete form in the House of Commons when two bills were introduced asking that heavy duties be levied on all coal entering Canada from the United States.

With the tie-up in the American anthracite fields the manufacturers of the east have looked more and more to Alberta for fuel requirements, and it is predicted at Ottawa that the $7 rate for Alberta coal to Ontario will result in the complete capture of that market by the prairie mine owners.

Maritime members who have been disturbed over the unemployment in the coal fields of the east are also pressing for some action that will keep the Canadian market for Canadian mines and give work to Canadian workmen, and are supporting the proposed measures.

It is recognized, however, that the raising of a tariff barrier against the United States might have a serious effect on Canada owing to the balance of trade in favor of the United States, and there is a general disposition to go very carefully in regard to the bills introduced.

Saskatchewan Registered Seed

Seed Growers' Association Improving Facilities For Handling

"Improvement and expansion of the facilities for handling registered seed are included in the programme now being carried out by the Saskatchewan Registered Seed Growers' Association," states M. T. Tullis, manager of the organization. Last year the association marketed five times as much registered seeds as has been done in any given year prior to that time and for the 1925-26 season to date inquiries from farmers in the province and seed houses in the east and south indicate a 50 per cent. increase over the 1924-1925 seed season.

"You simply cannot find a maid who is honest," said Mrs. Smith. "The last one left suddenly with nine of my towels."

"What kind were they?"

"They were those hotel towels I brought back from my holiday."

Favorable Trade Returns

Canada's Exports Now Four Times Larger Than In 1910

Thirty-six times unfavorably and twenty-two times favorably, Canada's trade balance has annually stood since Confederation in 1867, according to W. McL. Clarke, director of the Canadian commercial intelligence service. Sales over purchases, when all is added together, however, represent a gain of exports over imports of almost one billion dollars. Physical expansion of Canadian exports is indicated in wheat exportations being four times larger in volume today than in 1910; flour, wood pulp, bacon, hams and whisky, three times larger; condensed milk and butter, seven times greater; oats, 13 times larger; barley, 15 times; rye, 50 times; automobiles, 200 times; and sugar 3,500 times.

Canada's total trade in 1925 was $2,161,000,000, or $295,000,000 more than in 1924. Imports last year were $890,000,000, an increase of $82,000,000. Exports (Canadian) in 1925 were $1,271,000,000, an increase of $213,000,000. Foreign merchandise exported from Canada last year amounted to approximately $12,000,000. The favorable trade balance of $393,000,000 for 1925, says the bureau of statistics, has only been exceeded on one occasion, viz., 1917, when it amounted to $587,000,000.

Trained Farmers Coming

Britishers Instructed in Elementary Farm Work to Migrate to Canada

Forty men, who have received six months training in elementary farm work under the auspices of the overseas settlement committee at a training centre near Ipswich, will emigrate to Canada about the middle of March, according to a dispatch received from London, England. This is the first batch of recruits that will migrate to Canada under the new scheme of the overseas settlement committee, under which inexperienced men are given training in the farm methods of the country to which they prefer to emigrate, before leaving England.

Wheat Shipments to Vancouver

Exports of wheat from Alberta to Vancouver are expected to reach 50,000,000 bushels in the 1925 crop shipping season. The Canadian Pacific Railway is moving about 2,000,000 bushels a week to the Pacific coast.

Heavy Wheat Yield

According to reports at Calgary, John Dewart, a farmer of the Jordan district, threshed 1,860 bushels of wheat from 30 acres, an average of 62 bushels to the acre.

Indications Point To More Attention Being Paid To The Poultry Industry In Canada

Where Hard Wheat Is Grown

Canada and Northern Europe Greatest Producers of Wheat

That Canada and Northern Europe are the great growers of wheat, and that the United States will never be able to equal their yield per acre, was the statement of Dr. F. E. Baer, director of the soils department, Ohio State University, speaking to the National Crushed Stone Association in Montreal recently. Although Canada's output of wheat is still far below that of the United States, it must be remembered that only a small percentage of the arable land in the Dominion is under cultivation, and when the acreage planted to wheat in Canada equals that of the United States, there is little doubt but that the Dominion's wheat yield will more than exceed that of the United States.

Canadian Farmer's Income

Average Income For 1925 Is Placed At $1,500

The average income of the Canadian farmer during 1925 was $1,500, according to Dr. J. H. Grisdale, federal deputy minister of agriculture, speaking at the New Brunswick Farmers' and Dairymen's Association, which he stated compared favorably with the average income of the Canadian in other trades and professions. This represented the distribution of the 1,500 million dollars valuation of the 1925 farm products among the million farmers of the Dominion.

Butter Exports

Heavy Increase Is Shown For 1925 Over Previous Year

Exports of butter from Canada during the twelve months' ended December 31, 1925, were 26,646,535 lbs., as against 22,343,939 lbs. for the previous twelve months, according to a report of the Dominion external trade branch. In addition 4,077,487 gallons of cream were shipped from the Dominion to the United States during the past year, as compared with 3,288,822 gallons in the calendar year of 1924.

Hewitt.—"He isn't much of a talker."

Jewett.—"No; compared with him an oyster is a linguist."

The baby chick industry in Canada, whilst still in its infancy, is advancing by leaps and bounds, according to the poultry division of the federal department of agriculture. During the past season many of the breeder hatcheries more than doubled their capacities, according to the same authority, and the prospects are that the same will take place within the coming year.

Ontario and British Columbia are the two provinces where the hatchery business is being carried on in a fairly large way. In the past the industry has suffered a great many trials incidental to a new industry getting on its feet and achieving its initial growth, but according to experts it is now more or less stabilized and standardized. One authority states that the hatchery business is a thousand times safer today than ten years ago. Shipping methods are highly satisfactory, hatching devices are perfected, and the public has been educated to the economic advantages of "ready-made" chicks. It is generally agreed that the hatchery industry is due for considerable growth and offers great possibility to the experienced.

That markedly greater attention is being paid to the poultry industry of the Dominion is evident in increasing population in nearly every province and outstanding in the cases of Ontario and British Columbia. The import of eggs would seem to be on the decrease, but there is still apparent considerable opportunity for the development of export trade. Whilst Canada has been purchasing eggs from the United Kingdom, United States, China and other countries, she has shipped heavily to the United Kingdom and to the United States and Newfoundland, whilst Canadian eggs have gone in smaller quantity to Bermuda, St. Pierre and Miquelon and other countries. There is evident opportunity to expand the Canadian poultry industry both to eliminate the import trade and to hold and further expand the export business already built up.

An example of what can really be achieved in the poultry industry is furnished by the province of Alberta, which in a few years changed from an importing to an exporting territory, and now claims second place among the provinces of the Dominion in poultry per farm with an average of 80 head. The province last year exported some 60,000 cases of eggs, the bulk going to England and Scotland. Live poultry handled by commercial houses in Alberta last year amounted in value to $3,120,000 and eggs marketed to $5,800,000. One method of encouraging the poultry industry has been the establishment of a provincial hatchery which last year shipped more than 14,000 baby chicks into every corner of the province.

Valuable Mineral Discovery

Only Known Deposit of Lithium Minerals in British Empire Are In Manitoba

The only known deposit of lithium minerals in the British empire having possible commercial value lies, according to Dr. J. F. Wright, of the geological survey, within the province of Manitoba. In July, 1924, an outcrop of massive lepidolite was discovered about one mile south of Winnipeg River and 10 miles east and a little north of Pointe du Bois. Within the last six months spodumene and montebrasite and a number of other rare minerals have also been identified in this locality. It is believed that future prospecting will uncover other similar deposits in Southeastern Manitoba and Western Ontario.

Many Settlers Coming

Five thousand settlers are in sight for Canada this year under the land settlement scheme, according to Major John Barnett, chairman of the soldier settlement board. "The majority will come from Great Britain and will be prepared to take root in Canadian soil, as whole families will come out together," Major Barnett said.

Woods Hutchinson has called the fly "the joy automobile of the germ," for as many as 6,000,000 germs have been found in the body of a single insect.

Empress of Scotland at Nice

Promenade des Anglais, Nice, France

World Cruise Mermaids Taking Sun Bath.

Governed by the sovereign princes of the House of Grimaldi, there is a tiny island in the famous Riveria called Monaco which has been the resort of all fashionable Europe for ages. Washed by the blue waters of the deep blue sea, perpetually bathed in glorious sunshine, the beautiful cities of the little principality are favorite health resorts in winter and bathing places in summer.

In Nice, there is the famous Promenade de Anglais, where, it is said, if one waits long enough under the shade of one of the lofty trees, one may meet almost every American in the world who must pass that way at one time or another. The Canadian Pacific liner Empress of Scotland, making a cruise around the world this year, recently dropped anchor in the bay opposite the Monte Carlo Casino. The passengers were taken to Nice by motor where they spent a happy day sightseeing.
