Provincial Library APR 27

THE CRESTON REVIEW

VOL. XVIII. CRESTON, B. C., FRIDAY, NOVEMBER 12, 1926 No. 39

Canyon City

M. Hurl, who was taken to Cranbrook hospital a few days ago, where he underwent an operation for appendicitis, is reported making a very satisfactory recovery.

Manford and Arvid Samuelson, who have deen employed at Moyie and Kimberley respectively, are home again, and have taken a log sawing contract with Putnam, Palmer & Staples.

The Ladies' Aid are looking fof a big turnout at the Thanksgiving supper and concert tonight.

Mrs. J. W. Wood, another of our citizens who has beeh a hospital patient at Cranbrook, is making a fine recovery, and is expected home by the middle of the month.

Principal Kolthammer spent the Thanksgiving holidays moving into the new house on his ranch—the old Charlie Johnson place.

W. Ridd left a few days ago for Buck Lake, Alberta, where he will be employed for some months.

Mr. and Mrs. VanAckeran entertained quite a gathering of frienps on Sunday night to hear Aimee Semple McPherson, the renowed Los Angeles, Calif., evangelist, over the radio.

Rev. S. Newby had a fine turnout for the Church of England service on Sunday afternoon, and at night there was a good turnout to hear Fred Lewis, who took the United Church service in Pastor Herdman's absence.

Wynndel

On Monday afternoon a meeting was held in the old schoolhouse to make some preliminary arrangements for a community Christmas tree for the children. Ways and means were discussed and Mrs. E. Urf, Mrs. Wood, Miss Gladys Wood and Mrs. Davis were named to canvass the district for funds.

Misses Penson and Benedetti, who have been on the apple packing staff at Boswell, returned on Tuesday.

Miss Phyllis Foxall, who has been working at the apple packing at Willow Point, got back on Wednesday.

The prairie people are coming back by ones and twos, and the Wednesday train brought in H. A. Bathie, Mr. and Mrs. A. Towson and Stewart Benedetti.

On Thursday last Elmer Ringheim got back from Alberta, where he has been working at the harvest and threshing for several weeks.

Ole Ringheim; jr., is another prairie harvester who is just home, and with him is T. Sulem and Mr. Pederson. They made the trip by auto, arriving Friday.

Clarence Wilson, who has been absent 5or a month or so, returned on Friday, and has the distinction of being Wynndel's newest car owner, coming back from the prairie in a McLaughlin.

Charlie Penson is home from Claresholm, Alberta, returning on Saturday in time for the dance.

T. Dunseath of Yahk was a Thanksgiving weekend visitor with his family here.

There was a large crowd from Sirdar at the Saturday night dance, and the proceeds, after all expenses are met, go to the Christmas tree fund.

The November report of Divisin 1 of Wynndel school has just been issued and the principal, Miss Cherrington, gives the following standing: Grade 9—Gweedo Benedetti, Dorothy Payette, Crawford Irving. Grade 8—D vid Taylor, Marguerite Joy, Lewis Abbott. Grade 7 — Alice Davis, Whitfield Abbott, Grade 6—Andy Hagen, Melvin Hagen, Mary Abbott. Grade 5—Billy Wood, Ellen Hagen, Ruth Joy.

Perfect attendance—Lewis Hbbott, Mary Abbott, Whitfield Abbott, Gweedo Benedetti, Rodolpho Benedetti, Alice Davis, Ellen Hagen, Andy Hagen, Melvin Hagen, Manuel Irving, Dorothy Moon, Freddie Wilson, Allan Wood, Billy Wood.

Miss Severn gives out the following standings in Divison 2: Grade 4—George Hulme, Lawrence Davis, Clara Schmidt. Grade 3—Hilda Hagen, Bertha Gelette, Jimmy Wood. Grade 2—Elmer Davis, Clara Wittman, Kenneth Watson. Grade 1—Allan Cooper, Leah Abbott, Elmer Hagen.

Perfect attendance—Allan Cooper, Elmer Davis, Bertha Gelette, Jimmy Gelette, Leonard Gelette, Elmer Hagen, Hilda Hagen, Alvin Hageu, Margaret Irving, Herman Ofner, Kenneth Packman, Clara Wittman, Esther Wittman, Inith Wood.

Sirdar

An extra gang of Chinese is here in their sidedoor pullmans this week doing a stretch of new tie work.

Miss Dorothy Cam, who has been on the apple packing staff at Boswell for some weeks past, is home again.

Mrs North was a between trains visitor with Creston friends Saturday.

Due to an outbreak of chickenpox in this section the weekly teas of the Church Guild have had to be cancelled for the present.

The Scott McDonald crew that has been at work here has been disbanded for the year ann some of the men have joined up with Sid McCabe, while the rest have gone in to Cranbrook on carpenter work.

Mrs. Whiteside left this week on a short trip east, and will visit with friends at Cranbrook and Saskatoon Sask., while away.

Mrs Geo. Cam was a visitor with Boswell friends a few days last week, leaving on Wednesday.

Rev. S. Newby had a slim turnout at Sunday morning services due to the chickenpox outbreak. He will have his children's service on the evening of ohe 31st.

The McCabe B & B crew have finished operations at this point are to leave on Thursday for Kimberley.

Lister

Mrs. Knott is a Creston visitor this week, a guest of Mrs, C. H. Hare.

Gordon Hurry has annexed the job as cook at the Winlaw logging camp in the Alexander timber.

Bill Demchuk is away at present laying out his line of traps in the country between the Goat River crossing and Kitchener.

Miss Euphemia Fisher of Creston was here for the weekend with Mrs. Andy Sinclair.

Mr. Langon of Nelson, the Kootenay-Boundary poultry inspector, was here on an official call at the end of the week, and was much taken with the flock of White Wyandottes at the Fred Power ranch. Mrs. Powers is wintering almost 200 birds.

Sandy Philip has gone to Kimberley, where he has caught on as a bricklayer on the addition that is being put to the concentrator building.

C. H. Phillips of Kimberley, with Mr. and Mrs. M. A. Beale and Mrs. (Judge) Thompson of Cranbrook, spent the Thanksgiving weekend at the former's place at Lister.

Harry Yerbury and partner, Bob Dodds of Erickson, pulled out on Tuesday for Cultus Creek country, where the latter is intending to operate a trap line this winter.

Lister Trading & Supply Company, Limited, is this week taking into stock a carload of the famed Ogilvie flour and feed. Manager John Bird states that the store dispose of almost three cars of the Ogilvie goods each year.

Geo. Beard of London, England, is a visitor here this week with his brother, W. K. Beard. The visitor is a professor in languages and mathematics in an Old Country university, and is making a four months' tour of Canada and the United States.

Erickson

The Whirlwind Club is having its opening whist and dance at the Littlejohn backing shed on Friday night, November 26th, with cards to start at 8.30 prompt.

Mrs. P. Heric and Mrs. Markle were Yahk visitors a few days last week, guests of the former's son, Lee Heric.

R. Dodds pulled out at the first of the week for Cultus Creek where he is laying out a trap line for this winter's operating.

Mrs. W. V. Jackson ssent a few days with friends in Spokane this week.

Mr. and Mrs. Henry Brownrigg are Calgary, Alberta, visitors at present. Henry will interview Manager Erickson of Chautuaqua to make sure the Calagary Youngsters are the opening attraction at the 1927 Chautuaqua.

Mr. and Mrs. F. J. Klingensmith and Miss Ruth left on Wednesday for Vancouver, where they will spend the next few months.

W. R. Long was a weekend visitor with friends at Cranbrook and Kimberley.

At a well attended meeting on Wednesday night the Erickson Whirlwind Club was re-organized for the season, and arrangements made for the season's operations. Miss Jane Long is the new president; Mrs. Roy Telford, vice president, and Miss Beth Putnam, secretary.

Alice Siding

Frank Martin, who has been working at harvest and threshing at Staveley, arrived home at the first of the week.

An unusally large amount of fall ploughing is being done in this section this season.

Unless we get a freezeup pretty soon cattle owners in the Alice Siding section will be short of feed. So much water on the flats makes it impossible to get out to haul in hay.

Anthony Anderson of Victoria, was a visitor here for a few days at the end of the month, a guest of his son, Tom.

Messrs. Martin and Marrhall were very busy at the weekend installing the new Waterbury heating system at Alice Siding school.

Mrs. McMurtrie left a few days ago on a visit with friends at Winnipeg, Manitoba.

Principal Moore of the public school is supervising the sale of poppies in this section for the G.W.V.A. at Creston.

Bob Marshall, who has been at Sirdar for about ten days, is home again.

Local hunters complain that ducks and geese are rather scarce and that they have a liking for the feeding grounds on the other side of the river.

It is more than likely the children will have the usual community Christmas treat and entertainment at the school during Christmas week.

Clifford Seaver was a visitor here again at the weekend, and has taken the three Seaver children, who have been with their grandparents, Mr. and Mrs. R. Stewart for the past year, to Spokane.

Bob and Lucy Marshall, Mrs, Hester. Ron. Smith and Mrs. Constable were at Kitchener on Saturday night, where the latter assisted with the music at the dance. The orchestra is so popular that they had to play two hours extra to satisfy the demands of the dancing enthusiasts.

CHRIST CHURCH
CRESTON

Creston and Erickson Sunday Schools will present a

BUMPER PROGRAMME

at EIGHT p.m.

Friday, Nov. 19

in the PARISH HALL.

Whist and Dancing

ADMISSION:
Adults 50c. Children 25c.

Support the Children!

Local and Personal

In the 12-months' egg laying contest that closed at the experimental farm at Agassiz on November 1st the pen of ten White Leghorns entered by Don. Bradley stood fifth in egg production with a total of 2599. There were 34 competitors in the Leghorn class.

FOR SALE—Double bed, wire mattress; 2 rabbits' hutch and ½ sack of oats; rocker. Kitchen cabinet, heater, for wood; best quality pipes, coal oil lamps, toilet set, six pieces; Congoleum square, 100 feet 3-ply rubber hose and fixtures, 5-gallon gasoline can. Rev. A. Appelt, Creston.

C. O. Rodgers, who got back on Saturday from Calgary, Alberta, and who was a guest at the board of trade luncheon in that city on Thursday, stater that he was surprised at the number of enquiries he had about how work was proceeding on the dyking of Kootenay Flats at Creston.

A. L. McCulloch, the well known Nelson engineer, has been here since Tuesday making the necessary survey and plans that will accompany the application of Creston Reclamation Company, Limited, for permission to divert the Goat River into the Kootenay at a point just beyond what is known as the crooked bridge.

R. B. Staples is here from Vernon for a few days on Creston Growers business. He states that there is still a considerabll quantity of McIntosh Red apples still to move from Okanagan points, and that in Kelowna and that in Kelowna and north the frost damage to fruit appears to be just as extensive as in Creston Valley.

Favored with not too bad weather on Thursday there was a representative attendance at the Armistice Day exercises at the monument at 11 o'clock. A company of some thirty returned men paraded in charge of Staff Sergt. S. M. Watson, headed by Piper Ross, and the public and high school pipils were also in attendance. An appropriate address was given by Rev. S. Newby addressed the gathering and led in special prayer, with hymns, placing of wreaths and flowers, and the Last Post by Bugler Geo. Davie.

The young people of the village and district had a gala night of it at Trinity Church basement when the United Church young people were hosts and hostesses at a hallowe'en masquerade frolic on Friday which was attended by almost 80 young people from all the churches. There was an endless variety of games and contests, and a very fine midnight lunch. Mrs. R. Walters, Rev. S. Newby and Principal Kelly were the judges of the costumes, and awarded the prizes as follows: Best dressed lady, Winnie Palfreyman, Turkish lady. Best gent's costume, Isobel Burnett, Mexicad. Ladies' comic, W. J. Craig, old woman. Gents comic, Agnes Andrew, coon.

At Vernon tax payments this year have been very disappointing. The amount received has been only about 75 per cent. of what might reasonably be expected.

A religious census has just been completed at Cranbrook, and indicates that the town has some folks that are not attached to any of the known Canadian religious denominations.

Kitchener

Miss Laura Andeen, who is attending business college at Nelson, was home for thanksgiving, accompanied by her friend, Miss Esther Nordman. They returned on Monday.

Messrs. McInnes, Malcolm Brogan and Frank Anslem of Yahk, spent the weekend with Kitchener friends.

Joe McLaughlin, who has been away for some time at prairie prints, returned last week, and resumed work with the Sash & Door Company.

L. B. Hollister of Spokane, and Clarence L. Wickstrom of Seattle, Wash., were visitors to the Leadville mine toward the end of October, making a four day stay.

Ed. Merritt of Duck Creek spent the weekend in town visiting friends.

K. McKenzie of Spokane, checker for the Naugle Pole & Tie Company, is here at present getting out poles at Mileage 60.

Miss Myrtle Wickholm of Canyon spent the weekend with Kitchener friends, and was a guest at the Saturday night dance, leaving for home on

B. Johnson and son, Robert, and Chas. Erickson motored to Moyie on Tuesday, and will be away for a couple of days.

D. T. Scrimgeour, manager of the Bank of Commerce, Creston, was here on butiness, Monday.

Mr. and Mrs. N. P. Molander were motor visitors to Yahk on Monday, where they spent the day with relatives and friends.

Miss Rophina Androsoff of Creston spent the weekend here at the home of Mr. and Mrs. Fred Andrasoff, visiting with Miss Poliy, and while here took in the dance.

E. J. West came up from Lewiston, Idaho, on a short business visit, accompanied by A. J. Barker of Spokane, both leaving on the 4th, after a visit to the mine at Leadville.

Misses Mildred Andeen and Clara Hunt, who are attending high school at Creston, were home for the Thanksgiving weekend.

Misses Alice and Beatrice Molander entertained a few of their friends on on Sunday afternoon at their home here. A very dainty lunch was served. The invited were: Laura and Mildren Andeen, Edith Geroux, Ester Nordman of Nelson, Claaa Hunt and Ester Nelson.

Glen Miles of Porthill, D. Stover of Seattle, and Joe Vernon of Bonners Ferry were here on business on Thursday.

Miss Crawford, teacher of Division 2 of Kitchener school, spent Thanksgiving with her parents in Creston.

Bob Crawsord and Charlie Botterill of Creston were here on Sunday visiting friends. Provincial police officer McLaren of Creston was a Friday caller.

Mr. and Mrs. N. P. Molander and son, Richard, and Ed. Hanson, motored to Creston on Sunday.

Dan McDonald, who is working at Yahk, was home for the weekend.

Mr. and Mrs. Andy Wickhom of Canyon were motor visitors here one day last week, taking their son, Will, with them, as he is through working on the last section. The crew has been cut down for the winter months.

Miss Ellen Andeen arrived on Monday from Kimberley and Cranbrook, where she has been for the past three months. She expects to spend a short vacation at her home here.

Page & Hill Cedar Company of Spokane, who bought poles from the Continental Lumber & Pole Company, Limited, are through shipping poles for the present, and Edson Senft, pole checker of Sandpoint, Idaho, left on Saturday.

There was a good crowd here on Saturday night from Porthill, Creston, Erickson, Canyon and Yahk, and everyone reported having a good time. The next dance will be held on November 20th, with Mrs. Lister's orchestra again supplying the music.

RED ROSE TEA
"is good tea"
People who want the very best use Red Rose Orange Pekoe Tea.
75.

Full Steam Ahead

Within a few days of the writing of this article the electors of Canada will journey to the polls in order to select their representatives in a new House of Commons and thereby also determine the political complexion of the Government. Before this article appears in print the verdict of the ballots will have been rendered.

Whatever that verdict may be, and at the time of writing it is very decidedly in doubt, it is to be hoped that it will be sufficiently decisive one way or the other to give the successful party a fair working majority in the next Parliament. It is in the interests of Canada that stable government be re-established and unquestionably the great majority of the people wish it.

Economic conditions throughout the Dominion are very satisfactory at the present time, business is good and promises to be better, industry in all its branches is active, trade is rapidly expanding, and increased prosperity is everywhere apparent. What Canada now requires to not only maintain but to further advance these conditions, is a removal of the era of doubt and indecision in government which has existed as a result of the stalemate in Parliament.

A young country like Canada can ill afford to "drift" at any time, but at no time is such a policy, or rather lack of policy, quite so dangerous as during those periods when decision and vigorous aggressive action are necessary to take full advantage of the flowing tide.

Quite apart from all partizan considerations, or whether Mackenzie King or Arthur Meighen head the Government, there are certain policies which the present and future welfare of Canada demand should be adhered to and further developed. They may well constitute fundamental planks in the programme of all Canadian Governments, and it is to be earnestly hoped that a Government will be placed in office sufficiently strong to carry them out. Failing the creation of such a Government, both parties might well unite to give effect to them.

In the first place, the policy which has been developed during the past few years, and for which Hon. Mr. Robb certainly deserves great credit, of negotiating trade arrangements with various countries should be persevered in. The present activity in Canada's manufacturing industries is the direct outcome of this policy which has resulted in opening doors and creating wider markets abroad for Canadian goods. It is not a protective tariff designed to shut foreign-made goods out of Canada that has brought present prosperity to manufacturers and the Labor they employ, but the development of an export trade far exceeding anything hitherto known, and building up a favorable balance of trade mounting up into the hundreds of millions of dollars. Last year, for the first time in Canada's history, more manufactured goods were exported from Canada than were imported. This record should be maintained, and the favorable margin steadily increased. It can be done through the development of foreign markets, and the making of mutually advantageous trade agreements whereby such markets will be opened to Canada.

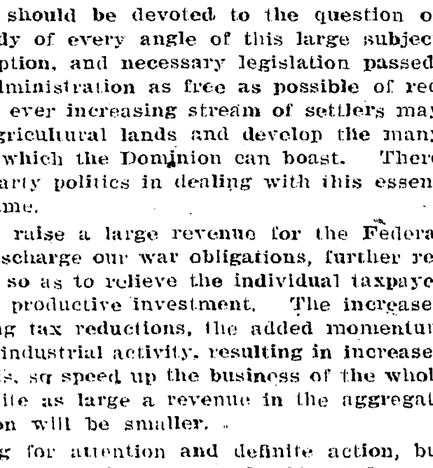
Secondly, unremitting attention should be devoted to the question of immigration. Close and expert study of every angle of this large subject should continue without any interruption, and necessary legislation passed, appropriations made, and efficient administration as free as possible of red tape provided, all to the end that an ever increasing stream of settlers may be located here to till the fertile agricultural lands and develop the many other resources of natural wealth of which the Dominion can boast. There is no room for, and no reason for, party politics in dealing with this essentially great nation-building programme.

While Canada must continue to raise a large revenue for the Federal Government in order to meet and discharge our war obligations, further reductions in taxation should be made so as to relieve the individual taxpayer and release money for profitable and productive investment. The increased buying power of the people following tax reductions, the added momentum given to business and in all lines of industrial activity, resulting in increased employment, will, in the final analysis, so speed up the business of the whole that the Government will receive quite as large a revenue in the aggregate although each individual contribution will be smaller.

There are other matters calling for attention and definite action, but these three outstanding subjects of national importance should not be neglected no matter what the complexion of the next Parliament and Government may be. Furthermore, the Government should be called upon to carry these policies into early effect. Lastly, the Government, whether under Mr. King or Mr. Meighen, should be accorded support by the people as a whole in a united endeavor to give stability in government, sound administration, and vigorous action along broad lines of Canadian advancement.

CHILDREN CRY FOR

Fletcher's CASTORIA



MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

Believes Leprosy Is Curable

Medical Secretary to Leper Mission Optimistic About New Treatment

Dr. Robert G. Cochrane, who is not yet 30, has just returned to England after a 40,000 miles tour of the world's principal leper stations.

In his capacity as medical secretary to the Mission for Lepers, he has recently visited every centre in Burmah, India, Siam, Borneo and the Philippines.

For four months Dr. Cochrane lived among lepers at one of the stations, spending his time attending to them and investigating their cases. He is very optimistic about future work.

"If you can get them early on in their trouble," he said, "many patients can be treated as outpatients. In all these early cases there is a great deal of hope. Medical advancement in treatment of the disease has been considerable in the past six years. It is necessary to recognize the disease early, then with efficient treatment and the segregation of old causes, the scourge will be got under control.

Once victims realize that with early treatment the disease can be arrested there will be no difficulty in getting them to come forward to the stations. By the end of this century leprosy should, with the help of right measures, be considerably reduced."

For Aches, Pains, The Safe Home Remedy
NERVILINE

When sudden sickness comes, when the kiddies come in with colds, their little chests and throats sore from coughing, quick results always follow a vigorous rubbing with good old Nerviline. If it's Cramps, Colic, Diarrhoea, Nerviline is a wonderful friend; it brings ease and comfort so quickly. For young and old, to overcome the minor ills that constantly arise in the home, nothing compares with "Nerviline."—35 cents at all dealers.

A train of sixty-five freight cars will be required to transport the bedding for the world's largest hotel, now building in Chicago.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

A charitable feeling causes some men when they see a fellow-man in distress to wish some other man would come along and relieve him.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

A dead man is of as much use in the world as a lazy one—and he takes up less room.

Minard's Liniment relieves stiffness

Discovered High Explosive

Lloyd George Says Few Helped Britain In Great War

Former Premier David Lloyd George, at the summer school of the Inter-Jewish Federation at Bangor, revealed that Dr. Chaim Weizmann, Zionist leader, helped to save the nation during the war by his discovery of an essential ingredient of high explosives.

"When I asked what honor I could recommend him for he replied: 'I want no honor, but I would like you to do something for my people,'" Lloyd George said.

Lloyd George paid a tribute to Jewish war service, saying that no class responded more readily to the call than the Jewish people in every country. He declared the Jews are true to the country in which they dwell and that it was a great mistake to imagine that a race which was international could not be national too.

Minard's Liniment for toothache

for all Meats—
Of course you enjoy Keen's Mustard with cold meats. Try its appetizing flavour with hot meats, too—roast beef, lamb, pork, bacon, sausages, etc.
Keen's Mustard aids digestion

The Poisons We Love

Every healthy man, woman and child looks forward to the pleasure of appetizing breakfasts, tasty lunches and abundantly provided dinners without giving a thought to the time when such table delights will, for them, no longer hold attraction. If the reader will recall the many popular gourmets with whom he was acquainted, who no longer continue to meet him at the festive board, he cannot fail to be struck by the fact that almost every one of such friends were fatally stricken when they should have been in the prime of their lives. And if the actual cause of their decease be investigated, the fact that the cancer scourge laid them low should give the reader food for candidly personal self-examination.

The refined foods, rich sauces, meats, denatured vegetables and fruits, white sugar and white flour from all of which the last trace of health-giving potassium and other salts have been deliberately or thoughtlessly extracted, unite in creating more acids in the body than any human liver can either neutralize or dispose of economically. The consequent state of acidosis is the precursor of the now practically universal complaint of constipation and, as Dr. Robert Bell, the eminent English authority, published to the world: "Constipation is the forerunner of Cancer."

The reason why cancer strikes civilized rich and poor in an impartial way is because civilivation generally is suffering from an unrecognized potassium starvation. This peculiar form of starvation is essential to the establishment of cancer in the human body and, as the late Dr. F. W. Forbes Ross stated in 1912, if the potassium deficiency be remedied, cancer, even in advanced stages, will retrograde. Upon the profound experience and knowledge of the last quoted English authority has been built the unique success of The Cantassium Treatment for cancer and other diseases arising from similar cause. A book explaining this treatment of the deadly self-inflicted blood disease of cancer will be mailed to all interested in fighting the scourge if application is made to Charles Walter, 51 Brunswick Avenue, Toronto, 4, Ontario, Canada. Sole Canadian and American representative for The Cantassium Co., of England.

Mice and conclusions are not synonymous, yet women jump at both.

Poverty is one of the crimes for which a man is sentenced to hard labor for an indefinite term of years.

ARE YOU AFRAID OF YOUR MEALS?

Proof That the Stomach is Weak and Needs Toning Up

Are you one of the many sufferers who dread meal time? Hungry, and yet afraid to eat, because of the pains and discomforts that follow. When the stomach is out of order the whole system suffers, and as the blood becomes thin and watery it becomes increasingly difficult to correct the digestive disorder. There is no tonic for the stomach that is not a tonic for the whole body; thus a blood-building tonic such as Dr. Williams' Pink Pills, not only relieves indigestion, but adds to the general strength. Mr. D. J. Shaw, Selkirk Road, P.E.I., has proved the value of Dr. William's Pink Pills in a severe case of indigestion and relates his experience for the benefit of other sufferers. He says:—"I suffered from indigestion for a number of years. My case was so bad that words fail to describe it. My appetite was gone, constipation was present, and my nerves were all on edge. I could not sleep well at night, and the world was a dark spot for me. I tried a number of remedies, but without any benefit. Then Dr. Williams' Pink Pills were recommended, but without much faith, after so many failures, I decided to try them. After taking three boxes I noticed a change for the better. Then I got three boxes more and found I had a genuine remedy. I continued the treatmen, took moderate exercise, could take plain food without suffreing as formerly, and proved that these pills make good blood, and that this good blood will restore the stomach and nerves. Anyone suffering from stomach or nerve troubles will make no mistake in giving D. Williamrs' Pink Pills a fair trial."

Dr. Williams' Pink Pills are sold by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont. Write today for a copy of the free booklet "What to Eat and How to Eat."

A man who appeared in a Toronto court charged with stealing a drum didn't get a chance to beat it.

Also bottles of 24 and 100—Druggists.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Canadian Grown Seeds Enjoy A High Reputation Under The Canadian Standardization System

"Northern-grown" seeds are much discussed by farmers and gardeners who do not live in the north. The term has come to imply unimpaired vigor, early maturity and productiveness. Canadian-grown seeds enjoy a high reputation because of these qualities and because there has been established in Canada a system for standardizing seeds under grade names designated in the Seeds Act. The inspectors of the seed branch of the department of agriculture inspect seed crops for purity of variety at a cost of fifteen cents per acre to the farmer. The threshed and cleaned seed is again inspected by the same officers, and if of superior quality is graded, registered, and sealed in the sack for commerce.

The quantity of registered, extra No. 1, and No. 1 grades of inspected seed grain produced in Canada is much in excess of domestic requirements, and large amounts of seed oats, barley, wheat and rye are offered for export under seed inspection certificates. Because of having so large a quantity available in the domestic market the cereal crops in Canada during the past fifteen years have become greatly improved, with fewer varieties and the general use of seed that is true to a desirable variety.

Alsike grass grown in Canada controls the world's prices for that commodity. The rich, moist, clay loam soils of Canada produce alsike seed of a quality unequalled by any other place in the world. The world's greatest centre of alsike seed production is probably Victoria county in the province of Ontario.

Under the seed branch service of field crop and seed inspection, alfalfa seed production has increased in twenty-five years from nothing to more than one hundred thousand bushels. Our exports from last year's alfalfa seed crop amounted to approximately seventy-five thousand bushels. The Ontario Variegated and the Alberta Grimm varieties of alfalfa seed are sought after in many countries because of their proven winter hardiness and superior quality for forage crop purposes.

Grass seed production includes many kinds: Timothy, western rye grass, brome grass, and, in recent years, that finest of turf grass, brown-top. Twenty-five thousand pounds of seed of this latter grass was produced last year on Prince Edward Island from inspected seed crops, and it is anticipated that this amount may be increased this year to sixty thousand pounds. Seed of No. 1 grade will yield approximately a dollar per pound. The No. 3 grade and other inferior qualities equal or superior to the imported stocks of the same species will be sold in competition with them at prices commensurate with the quality.

From the brome grass seed crop five hundred thousand pounds were inspected and sealed in the sack for export at a cost for seed testing and sealing of one-fifth of a cent per pound. Trading on the basis of an inspection certificate, as distinguished from a type sample certificate, would seem to be highly satisfactory to seed merchants.

Thus far the greater part of Canadian requirements of field root and garden vegetable seeds have been imported. Fifteen years ago a start was made by the seed branch to encourage the home production of these seeds. The work so undertaken was attended with success but was disrupted during the war. About thirty-five farmers and gardeners who have made a specialty of growing seed of one or more kinds of these crops have continued throughout, and during the last few years these have steadily increased in number. The province of British Columbia offers numerous local climates, and under ideal soil and moisture conditions the best quality of field root and garden seeds in the world may be economically produced in quantity for commerce.

The development of this industry will necessarily continue to be slow because it requires many years of special training on the part of the seed grower. Horticultural plant breeders at the various experimental stations in Canada have undertaken to provide Elite stock seed specially bred and selected to fit into Canadian climatic conditions. It is to the multiplication of this stock seed that the growers in British Columbia and other parts of Canada will devote their attention. The steady development of this special industry is reasonably assured because the quality of the seed produced excels that of any other seed, and is particularly suitable for Canadian use.

W. N. U. 1646

Discoveries By Plant Wizards

Important Results Obtained By Experiments in Plant Breeding

Since Dr. Charles Saunders originated Marquis wheat, which for 15 years has won the world's wheat prize at the International Show at Chicago and is the most popular spring wheat among American-Canadian farmers, several other important discoveries in agriculture and horticulture have been made by the plant wizards or practical scientists at the 27 Canadian Government experimental farms. The discovery of Marquis wheat, which is regarded as one of the most notable in agriculture, was made at the Central Farm at Ottawa.

It was at the same farm that L. P. Newman, Canadian Government cerealist, originated Garnet wheat, a variety of spring wheat that matures from seven to ten days earlier than Marquis, stands dry weather and excessive moisture better, is more immune from the danger of rust than any other wheat and because of its earlier ripening advantages will extend the wheat growing area of Canada 100 miles further northward and open up for wheat growing an area of over 40,000,000 acres.

Important work in plant breeding, in fruits, vegetables and flowers is now being carried on. In recent years 200 varieties of apples have been originated at these experimental farms. Most of the old varieties grown in North America originated in Britain or Europe, but many were proved unsatisfactory in the colder provinces; and in order to obtain greater hardiness the best Russian apples were crossed with well-known American varieties, but the quality was poor. At one of the experimental farms in Quebec 76 different strains of tomatoes are being tried out.

The outdoor rose of highest excellence, the Agnes, according to the American Rose Society, is also another product of the Canadian Government Farm at Ottawa. This rose was recently awarded the Walter Van Fleet gold medal, the most coveted award of the A.R.S.

In addition to experimental work the experimental farm system is concerned with the control of fungous and other plant diseases, and laboratories have been established at various points with this end in view.

Expect As Big Crop As Last Year

Returns Would Indicate Above Average Crop For Western Canada

In the latest crop report, issued by the Manitoba Free Press, based on information received from over 300 correspondents throughout the provinces of Manitoba, Saskatchewan and Alberta it states that "taking into consideration the increased acreage in the western provinces, the outlook would appear to be for a yield as big as last year."

The question asked the correspondents included one as to the estimated yield, and commenting on the answers to this question, the report says: "We believe these will put aside the ideas of a poor crop in Canada this year." Last year's wheat crop in Canada totalled 411,375,700 bushels from 21,972,732 acres of which 382,959,000 bushels were grown in the three prairie provinces—Manitoba, Saskatchewan and Alberta. The average yield of wheat for the Dominion in 1925 was 18.7 bushels per acre.

The total production of oats in Canada last year was 513,384,000 bushels from 14,672,320 acres, an average yield of 35 bushels to the acre. Barley yielded 112,668,300 bushels from 4,075,995 acres, an average of 27.6 bushels per acre.

Last year's wheat yield was the second largest on record in Canada, the previous highest total being 474,199,000 bushels in 1923. Other high yields were 399,786,400 bushels in 1922, 300,858,100 bushels in 1921 and 393,542,600 bushels in 1915.

British Settlers Leave For Bolivia

Former Service Officers Will Form Settlement on Paraguay River

A party of British former sevice officers have sailed on a 666-ton river steamer for Bolivia, where they propose to form a new settlement and grow cotton and market timber. The Bolivian Government, to encourage the settlement, has re-opened Port Gaiba on the Paraguay River, which will afford water transport to Buenos Aires, giving Bolivia, for the first time, convenient access to the Atlantic Ocean, 1,500 miles away.

All members of the British expedition are said to be experienced in tropical work.

Lethbridge Irrigation Tract

Crop This Year Is Expected To Be Worth $2,000,000

The Lethbridge Northern Irrigation tract, opened for settlement a couple of years back, is, according to the Provincial Government report, proving prosperous to the farmers operating there. In 1925 the total production of the tract was valued at less than $400,000. This year it is expected to reach $2,000,000. New towns are growing up following the extension of the railway and fine homes are being built.

If a man amounts to anything in a small town he soon begins to think that he would amount to more in a large town.

American Tourists Will Spend $190,000,000 In Visiting Canadian Points This Year

Unofficial estimates prepared by authorities of the United States department of commerce forecast an expenditure this year closely approaching $500,000,000 by American tourists in Europe. To this they add $190,000,000 as the amount that probably will be spent by Americans visiting Canada, bringing the total of this item, classified as an "invisible export," to $690,000,000.

The amount spent in Europe, Canada and other foreign countries by American tourists this year may reach a much higher figure, as foreign travel this summer increased in volume, due in large part to lower rates for certain classes of steamship accommodations.

It is too early to determine, officials said, whether the alleged mistreatment of American tourists in Paris, and the criticism heard in France and England arising out of the inter-allied debt situation, have seriously affected the outward movement of Americans. Department of commerce officials were inclined to believe, they said, that the troubles experienced by American tourists in France have not discouraged other Americans who plan to take their vacations abroad.

It was pointed out that whereas England in 1925, paid only $187,000,000 in principal and interest on its debts to the United States, American tourists that year spent there at least $440,000,000, according to figures prepared at the department of commerce.

"The expenditures of American tourists to Canada as reported from official and semi-official sources showed roughly a $40,000,000 increase over 1924. Approximately 2,000,000 motor cars carrying 5,000,000 people entered Canada from the United States in 1925. These tourists probably spent $145,000,000 in addition to $45,000,000 estimated to have been spent by American tourists arriving by rail and steamer.

"The total spent by American tourists in Europe, Canada and elsewhere comes to $630,000,000. To this may be added $30,000,000 for expenditures of American residents abroad more or less permanently"

Reward Wheat

New Variety of Wheat Being Tested Out At Ottawa

A new hard spring wheat which gives promise of being even better than either Marquis or Garnet, is being tested at the Canadian Government experimental farm at Ottawa.

The name of this new variety, it was learned is "Reward" which, according to tests made in recent years and are still being carried on, will ripen ten days earlier than Marquis. It is also believed "Reward" will have equally as good milling qualities and will give even heavier yields, because of the heavier weight. Measured bushels of "Reward" which have been grown in Ottawa weigh as high as 66 pounds.

Cerealists believe that if successive tests measure up as well as those of recent years have done, the "Reward" variety will supersede Marquis, the wheat that for 15 years has won the world's wheat prize at the International Grain and Hay Show at Chicago, and even Garnet, a new wonder wheat, which also ripens ten days earlier than Marquis, but which does not mill as white.

Free Homestead Lands

Still Available In the Three Prairie Provinces

In July of this year a total of 658 homestead entries were registered by the Canadian Government department of interior compared with 403 in July, 1925. Of the 658 entries 100 were made by settlers from the United States, the largest total of any nationality. The Edmonton district received the greatest number of entries with a total of 193. The Prince Albert district came next with 185 and Moose Jaw third with 113.

Homestead lands in free grants of 160 acres are available to settlers in the provinces of Manitoba, Saskatchewan and Alberta and in the Peace River block and the railway belt of British Columbia, on payment of a registration fee of $10. If a settler is no British subject he must declare his intention to become one on filing on a homestead. These homestead lands owned by the Canadian Government are now a considerable distance from the railways and markets, but there are millions of acres of good farm lands in Western Canada near to railways that can be purchased from $15 to $20 an acre.

Delicate Woman

Policeman.—"It seems to be your fault, mister. It's a wonder you weren't killed! Why didn't you put on your brakes?"

Motorist.—"My wife wouldn't let me! They squeak and make her nervous."

Wonders Of Plant Life

Believes Plants Have Their Own Hours of Sleep

Plants not only have their vices, vanities and regular hours of sleep, but some possess a sixth sense, as well, according to Sir Jagadis Rose, one of Britain's greatest scientists and authorities on plant life.

The sixth sense possessed by certain species is a mysterious force which permits them to detect minute changes in the intensity of light, changes that go unnoticed by the human eye.

The mimosa plant spends its life in a leisurely way. It wakes gradually between 8 and 9 o'clock and noon, remaining alert until evening and falling fully asleep only in the early hours of the morning.

Sir Jagadis has perfected a marvellous piece of apparatus which gives plants under observation a questioning shock every hour of the day and night and records the answers.

Indians' Prayer Answered

Members of Hopi Tribe Stage Annual Dance For Rain

Washes that seemed but harmless sand depressions in the desert, as throngs of visitors hastened toward the weird ceremonial of the Hopi Indians' snake dance at Flagstaff, Arizona, became raging torrents of muddy water within two hours after this year's prayers to the gods for rain were concluded.

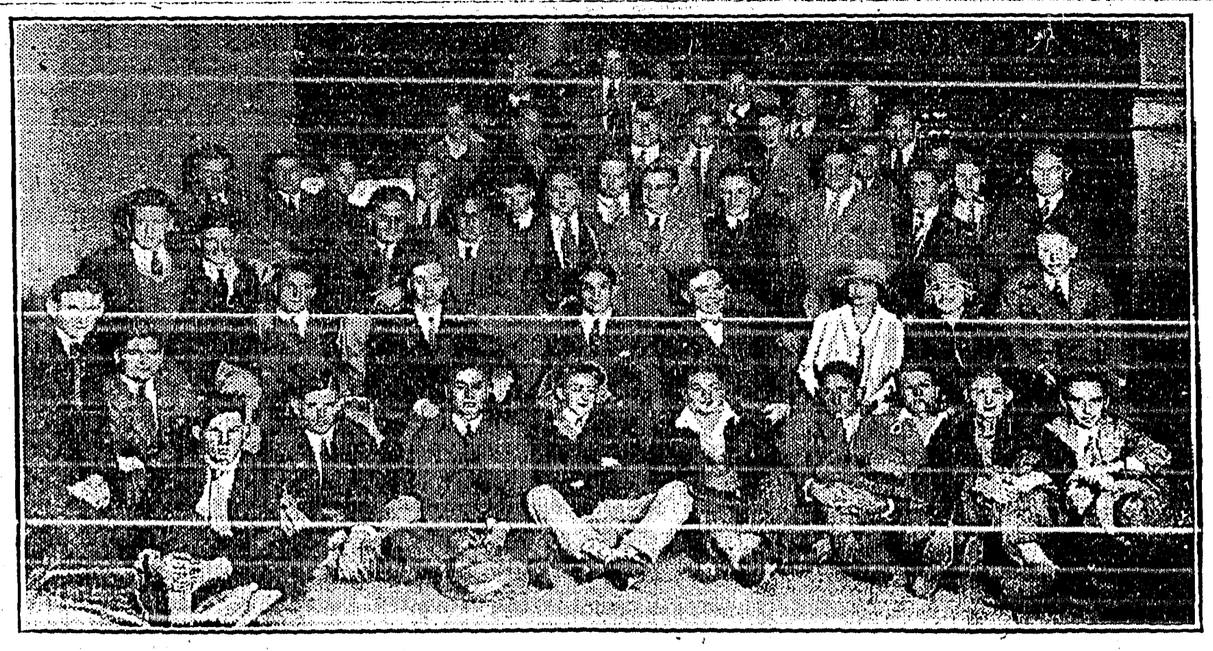
The dance comes annually after eight days of preparation.

Last year also rain followed the dance and several motor cars were wrecked.

"Harold, my father doesn't like you very well."

"That's nothing; my whole family objects to you."

A non-rusting wheat has been developed at Winnipeg. Now for a burgless potato.



College Students With Harvesting Outfits

Here is a group of over 40 husky lads from the Wye Agricultural College, Kent, England, and from Oxford University, photographed at the Canadian Pacific Railway station at Winnipeg, where they arrived from England recently to do harvesting in the prairie provinces. The boys have been placed by the Woman's British Emigration League, two of whose representatives are here photographed with the group. The young men came from all parts of the Mother Country, and are members of prominent families there. The arrival of such a group is only another indication of the type of men who are scattered throughout the west on harvesting outfits. Besides affording them the opportunity of building up physically, these young men realize that in no better way could they become conversant with agricultural conditions in the Canadian west. They will return to their school in England at the end of October.

TENDERS FOR KALSOMINING

Sealed tenders will be receiuen by the undersigned up to Wednesday, December 15th, 1926, for kalsomining six rooms at Creston Public and High School. Work to be done during the Christmas New Year vacation. Lowest or any tender not necessarily accepted. For all other informatton apply GEO. NICKEL, Secretary School Board, Creston.

WATER NOTICE

TAKE NOTICE that Creston Reclamation Company, Limited, whose address is Creston, B.C., will apply for a license to divert the Goat River for the purpose of lowering the flood water level of a portion of the Kootenay Flats.

The depth it is proposed to lower the level of the water is a maximum of twenty feet.

The point at which the Goat River will be diverted from the Flats is located at the south-east quarter of Section 4, Township 8, Kootenay District, and the water so diverted into the Kootenay River by an artificial waterway.

The reason for the proposed diversion and lowering the flood water level is the reclamation of a portion of the Kootenay Flats.

This notice was posted on the ground on the 10th day of November, 1926. A copy of this notice and an application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder at Nelson, B.C.

Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Date of the first publiention of this notice is November 12, 1926.

CRESTON RECLAMATION COMPANY, Limited, Applicant.
By A. L. McCULLOCH, Agent.

Notice of Application for the Approval of Reclamation of a Portion of the Kootenay Flats.

TAKE NOTICE that Creston Reclamation Company, Limited, will apply to the Minister of Lands for the approval of the plans of the works to be constructea for the reclamation of a portion of the Kootenay Flats.

The plans and specifications of the said works will be fyled in the office of the Comptroller of Water Rights at Victoria, and cup cates of such plans and specifications will be open to inspection in the office of the Water Recorder at Nelson on or about the 1st day of December, 1926.

Objections addressed to the Minister may be fyled with the Comptroller at any time prior to the expiration of thirty days after the first publication of this notice.

Date of the first publication of this notice is November 12, 1926.

CRESTON RECLAMATION COMPANY, Limited, Applicant.
By A. L. McCULLOCH, Agent.

GOVERNMENT LIQUOR ACT

Notice of Application for Beer License

Notice is hereby given that on or after the Third day of December next the undersigned intends to apply to the Liquor Control Board for a license in respect of premises to be known as Pinehurst Inn, at South Slocan, Lot 2, Block B of Lot 303, Group 1, Kootenay District, Nelson Land Registration District, in the Province of British Columbia, for the sale of beer by the glass or by open bottle for consumption on the premises.

Dated this 9th kay of November, 1926.

KENNETH CAMPBELL, Applicant.

MINERAL ACT
FORM F

Certificate of Improvements

NOTICE OF APPLICATION

Jolly Boy, Bobcat and Bon Ton Mineral Claims, situate in the Nelson Mining Division of West Kootenay.

Where located: On Iron Mountain, northwesterly from Kitchener, B.C. Lawful holder: Charles Plummer Hill, of Victoria, B.C. Number of the holder's Free Miner's Certificate: No. 2809-D.

TAKE NOTICE that I, G. A. M. Young Free Mider's Certificate No. 69084-C, acting as agent for the said Charles Plumner Hill, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under Section 85 of the Mineral Act, must be commenced before the issuance of such Certificates of Improvements.

Dated this 21st day of October, A.D. 1926.

MINERAL ACT
FORM F

Certificate of Improvements

NOTICE OF APPLICATION

Vermilion, Kootenay Warrior, and Old Chief Mineral Claims, situate in the Nelson Mining Division of West Kootenay.

Where located: On Iron Mountain, northwesterly from Kitchener, B.C. Lawful holder: Charles Plummer Hill of Victoria, B.C. Number of the holder's Free Miner's Certi cate: No. 2809-D.

TAKE NOTICE that I, G. A. M. Young, Free Miner's Certificate No. 69084-C, acting as agent for the said Charles Plummer Hill, intend sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under Section 85 of the Mineral Act, must be commenced before the issuance of such Certificate of Improvements.

Dated this 21st day of October, A.D. 1926.

Form No. 13
(Section 39.)

LAND ACT

NOTICE OF INTENTION TO APPLY TO PURCHASE LAND

In Kootenay Land Recording District of Nelson District, and situate directly north of Sublot No. 18, Lot No. 4505, on Duck Creek, in the Kootenay District.

Take notice That Arthur Glasier of Sirdar, B.C., occupation, farmer, intends to apply for permission to purchase the following described lands: Commencing at a post planted at northeast corner of Sublot No. 12 of District Lot 4505 on Duck Creek; thence 40 chains west; thence 40 chains north; thence 40 chains east; thence 40 chains south, and containing eighty acres, more or less.

ARTHUR GLASIER, Applicant.

Dated Sept. 1, 1926.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, NOV. 12

Domestic Pack

Creston and district appears to hold the tax collector in high esteem. In the sale of lands delinquent for takes at Nelson on the 10th there was mighty little acreage in this section up for sale, whilst in the village clerk and treasurer W. O. Taylor has less than $200 of 1626 taxes outstanding.

—

Review advertising gets results. Last issue two different parties with cows for sale notified the world to that effect, and within less than 24 hours after the appearance of the paper both bovines were sold—and to cash buyers, too. Folks who need things, and who have the money to pay for them, all read the Review, and publicity in its columns always pays.

—

According to horticultural statistician at the B.C. University Canadians are only eating on an averege half an apple per day per head of population. With consu ption doubled the industry would be on easy street, and this ought not to be impossible of accomplishment with judicious and persistent advertising. The increased demand for oranges is directly traceable to the endless publicity that fruit has got of late years.

—

According to W. H. Robertson, provincial horticulturist. 1926 will be the first year in history that British Columbia has led all the provinces in the production of apples. According to Mr. Robertson B.C.'s apple crop this year will total 3,500,000 boxes. In the past Nova Scotia usually has been Canad's heaviest apple producer, with Ontario second, and British Columbia third. The value of Canada's apple crop is placed at $27,000,000.00.

—

Speaking to the New Westminster Kiwans Club the other day Prof. Barss of the department of agriculture, University of British Columbia, stated the average consumption of apples of Canadians was low, being half an apple per day. Prof. Barss further states that there has been a decrease of 50 per cent. in the consumption of apples by Canadains, while on the other hand the importation of oranges and grapefruit has increased from 16 to 30 per cent.

—

Evidence of the steady and satisfactory development that is taking place in the Valley is this year shown at West Creston where, on November 1st, that section's first ever public school was opened with an enrollmont of nine pupils. During the season that area has received well deserved attention in the matter of highway construction and dyking of Kootenay Flats now all but assured the district across the Kootenay looks as if was about due to come into its own.

—

What can be accomplished in the poultry business with a combination of intelligence and considerable hard work is strikingly demonstrated by Don. Bradley, whose pen of ten White Leghorns stands fifth for production in the twelve months' egg laying competition just closed at the experiment al farm at Agassiz. Mr. Bradley has been in the business less than three yeaas, and to make this showing in a field of 34 competitors is something both he and Creston district may well be proud.

—

Work is about to start on a new bridge over Goat River west of Kitchener that will cost about $15,000. At the first of the season a like amount was expended on the road diversion at Arrow Creek, and at least another $10,000 must have been spent on general road repair work and settlers' roads, giving an outlay for the season in the Creston district of not less than $40,000. In that same area it is extremely doubtful if the government collects $15,000 in provincial taxes. Creston district should certainly be the last to complain about the extravagance of the Oliver government.

—

British Columbia apples practically swept the boards at the Imperial Fruit Show in London last week, recent despatches stating that the Associated Growers of B.C. had won the twelve box dessert apple championship of the Empire for the third time in succession with McIntosh Reds, thus taking permanent possession of the agent general's silver cup. The same B.C. organization won second place in the dessert championship with Jonathans, the Occidental Fruit Company of Kelowna being third, also with Jonathans. The Associated Crowers captured first place for the best cooking apples in the Empire with Rome Beauty and second place with Northwest Greening.

—

When one recalls that at midsummer community effort at Fernie provided the place with a $12,000 swimming pool, and last month another $1500 was gathered in to buy a church building for a community centre; when we read that at Nakusp the board of trade has arranged for that unorganized centre to have electric street light; Invermere ladies round up $525 at a bazaar to help finance the local local hospital, and supposed to be-down-and-out Greenwood digs up the funds and provides labor to rebuild an old theatre into a community badminton and basketball arena, don't youthink there's some thing wrong with Creston—or, rather, with the people of the village. If the place is ever going to start a justified development its about time folks woke up and shut the door; Creston will kill itself some of these days if it keeps on walking in its sleep much longer.

LETTERS TO THE EDITOR

Hallowe'en Celebrations

EDITOR REVIEW:

SIR,—I was quite taken with Citizen's letter in your iss e of Novemeber 5th, in which he (or she) in practical terms insists that it is time something was done to tame down the observation of hallow-e'en the Erickson district particularly, but I am not in accord with idea that the best remedy is to be found in police court proceedings or some form of corporal punishment.

When I recall the hallowe'en doings in the days when the parents of today were themselves the boys of 'teen age ar even younger, it seems to me that the happenings of Saturday night were just about what one might expect—with the exception of the depredotions at the schoolhouse. Like father like son. And if a change is desired why not try something along more humane lines than recoure to law or strap.

According to the Daily News at Grand Forks, this year, the right idea prevailed. A community hallowe'en celebration was staged at the school grouns at which the children and grownups combined their talents in entertaining themselves, in many unique ways, and when the sun was over (about midnight) all hands went home, and the town had an hallowe'en observance that maintained all the hostoric traditions of the occasion, and no annoyance or inconvenience to anyone.

Erickson has sufficient public spirited parents to successfully put over something of this sort, and if it is got at with the same enthusiasm as is displayed at Christmas entertainments the outcome cannot help but be all that could be wished for. And with a little comingling in matters of this sort surly the day should not be far distant when action will be taken to give us a very much needed community hall.

CITIZEN, Jr.

Erickson, Nov. 8.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Snow in the Hills
and Cooler Weather makes you think of Warmer Clothing

MAY WE SUGGEST

PENMAN'S HOSIERY for Men, Women and Children

in All Wool and Silk and Wool in great variety of shades and colorings. These goods were purchased from Penman's factory and are reliable and stylish.

For Underwear we recommend Watson's and Penman's for fit and comfort in all weights

We are agents for the celebrated JAEGER lines of FINE ALL WOOL GOODS and carry same in stock. Prices and quality right.

PURE BEER

The Friendly Beverage

Pure beer adds to your well being and your enjoyment of life. Order it by the case from any Government Store—have it always on hand for your table and for the entertainment of your guests. *British Columbia beers are healthful and invigorating*

BEERS, such as are made by the Amalgamated Breweries of British Columbia and distributed to the people by the bottle at the Government stores and by the glass in Licensed Premises, contain only enough alcohol—4½ per cent.—to stimulate the digestion, while their content of vitamins and valuable vegetable extracts and mineral salts are of the highest worth in fortifying against the dangers of low vitality and illness. Drink pure beer in the Winter months, when heavy foods and too much "indoors" lower vitality.

Amalgamated Breweries of British Columbia, in which are associated Vancouver Breweries Ltd., Rainier Brewing Co. of Canada Ltd., Westminster Brewery Ltd., Silver Spring Brewery Ltd., Victoria Phoenix Brewing Co. Ltd.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

Creston is Oversupplied with Dairy Butter!

Some of it is good, some of it is bad, and a lot of it is indifferent.

But all of it is sold in wrappers marked "Choice Dairy Butter."

Buyers have no way of telling who made the particulat pound they happen to buy—be it good, indifferent, or poor stuff.

And worse still—for the good buttermaker—so long as this haphazard way of putting butter before the public continues the demand for Dairy Butter will fall off.

If you are one of at least a few who make *really good butter* why not let folks know *your* butter by using PRINTED BUTTER WRAPS—*showing your name.*

They cost very little more than the readymade sort you use now—to your own disadvantage.

By way of inducing you to use the printed sort—with your name printed on them—we will supply you with FIVE HUNDRED Wrappers at the popular price of $3.00.

It's a pleasure to show samples.

THE CRESTON REVIEW

COMMERCIAL PRINTING DEPT.

NEWS OF KOOTENAYS

Moyie now boasts of having a bakery.

Kimberley has more than a few cases of German measles.

The Okanagan will this year market close to 650,000 boxes of McIntosh Red apples.

Vernon packing houses are closed, with 20,000 boxes of apples still to be wrapped.

About 40 cars of apples—mostly Jonathans—are rolling out of the Okanagan at present.

B.C. Spruce Company will employ 400 men at woods work this winter in the Lumberton district.

The News says little damage and not much annoyance was experienced at Nakusp on hallowe'en.

Mr. Billings, a Bonners Ferry farmer has just threshed two tons of alfalfa seed from a ten acre crop.

$225 was collected at a tag day at Kimberley for funds to equip the town's children's playground.

Even with the mild winter that it was Revelstoke's community skating rink cleared $720 last season.

At its sale of city property in arrears for taxes Revelstoke council disposed of seven of the 46 properties offered.

Grand Forks residents had full bloom buttercups for table decoration for the thanksgiving dinner this week.

At their bazaar, with a number of raffles to help out, the ladies at Invermere made $525 for the hospital at that town.

Penticton growers have just received an advance payment of ten cents a box on the season's shipments of apples and pears.

Nakusp board of trade is making arrangements with the electric light company there to provide that town with street lights.

Fernie community workers have been successful in raising $1500 to fit up the former Methodist church as a community centre.

A gale at the north end of the Okanagan Valley on October 16th is reported to have blown down almost 75,000 boxes of apples.

McIntosh Red apples from a Penticton orchard won the prize for the best ten box lot of fruit in this year's British Empire Fruit Show.

L. Resuick of Kaslo has the best kept section foreman's garden on the Nelson division of the C.P.R. this year, winning a $10 cash prize.

Greenwood citizens have just provided the needed funds and labor to remodel the old Star theatre into quarters for basketball and badminton.

Anticipating a big growth in population the English Church committee at Nakusp is buying more property to be in readiness for the expected expansion.

A chapter of the Order of the Eastern Star has just been instituted at Kimberley, The new ladies' Masonic lodge starts off with a membership of forty.

Magistrate McCallum at Grand Forks has just been specially commissioned to preside over a juvenile court for the trial of children who violate the law.

All fruit packing warehouses at Penticton shut down at the end of the week, although there is still about 60,000 boxes to wrap. All the available storage in the town is being utilized.

WORLD HAPPENINGS BRIEFLY TOLD

Official statistics show that 3,274 persons have already been killed this year in 66 United States cities as the result of motor accidents.

After having been in Brazil for several weeks giving lectures and in other cities, Mme. Curie, co-discoverer of radium, sailed for her home in Europe.

What was apparently a meteor startled the north midland counties of England when a mysterious explosion was followed by a sudden blaze of light.

At their home in Ottawa, Right Hon. W. S. Fielding and Mrs. Fielding recently celebrated their golden wedding anniversary. A large number of congratulatory messages were received.

Mrs. Annie Clarke, aged 90, is receiving the plaudits of all Donegal. She completed the mowing, tying and stacking of an acre of oats, the bulk of it six feet high, completing the task in a week.

Preparations are being made at Tokio's great cat and dog cemetery, wherein repose the bodies of more than 20,000 pets, for the annual animal ceremony at which Buddhist prayers are said for their spirits.

United States' citizens settling in Canada in the last 12 years brought with them cash and effects to the value of $163,470,553, according to the department of immigration and colonization.

The government is now investigating the reindeer industry in Alaska, with the object of introducing this animal into the northern part of the Mackenzie district, which is the home of a considerable portion of Canadian Eskimo population.

Four hundred Mennonites are expected to reach the west before the snow flies, according to Bishop David Toews, chairman of the Mennonite colonization board and land settlement board. Most of the newcomers will be placed on the land immediately on arrival.

A Famous Man

The originator of Dr. Pierce's Golden Medical Discovery for the blood, as well as the "Favorite Prescription" for women, was Dr. Ray V. Pierce, a practising physician in Western Pennsylvania. He early moved to Buffalo, N. Y., and established The Invalids' Hotel, then he put up his home remedies in the World's Dispensary, where they were carefully prepared from roots, barks and herbs, and placed them with druggists all over the U. S. and Canada.

For over half a century, Dr. Pierce's Discovery, for the blood, has been sold in larger quantities by druggists than any other medicine. It is a tonic in its effect on the stomach and digestive apparatus; an alterative in its action on the blood, liver and skin. It increases the appetite, stimulates the digestion, enriches the blood, clears the skin of eruptions and blemishes, and makes both men and women feel as they did when they were young and care free.

Ask your nearest druggist for Doctor Pierce's family medicines, in tablet or liquid form, or send 10 cents for a trial package of tablets to Doctor Pierce's Laboratory in Bridgeburg, Ont.

"IDEAL Fashions"

by Jean Belle Hamilton

1409

A Smart All-Day Frock

The combination of materials offers alluring possibilities for the semi-tailored model pictured here. The blouse, which has both sides of the front buttoned onto a narrow vestee, ends in points, and has a simple convertible collar and kimono-sleeve shoulders. The skirt is plain at the back and gathered in front between the points of the bodice. The long full sleeves are gathered into narrow wrist bands. No. 1409 is for misses and small women, and is in sizes 16, 18 and 20 years. Size 18 years (36 bust) requires 3 yards 39-inch figured material, and ⅞ yard plain contrasting; or 3¾ yards if made all of one material. 20 cents.

Our new Fall Fashion Book, illustrating styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

A De Luxe Street Car

London Street Cars Are To Be Like Limousines

Their utility having been brought into doubt, London's street cars may will be saved by luxury.

By way of experiment the London council recently put a de luxe street car in operation along the Thames embankment. It contained seats as comfortable as those of a limousine. Special attention was paid to the [illegible] so as to enable passengers to read their newspapers without straining their eyes.

So popular has the car proved with passengers that the council has decided to order 100 more of the same kind.

Rub your scalp with Minard's Liniment

The "Dead Point" In Canadian Progress

By C. W. Peterson

The Great War and its aftermath of economic misery in Europe demonstrated the dire social effect of over-population in highly developed countries. Nature, however, has a way of effectively compensating for such conditions, and we are now witnessing the operation of this corrective process in the rapidly falling birth rate of the more advanced countries of the world. It is, however, an open question whether such over-population brings in its train greater economic evils than under-population in an undeveloped country of such enormous extent as Canada.

A young country of vast natural resources obviously faces difficult problems of administration. Such resources lie dormant until the magic touch of man and capital render them available. And until they are made available and contribute to the national wealth they cannot be taken seriously as an asset. All this involves the opening up of the country with the concomitant in terms of great expenditure on transportation facilities of various kinds and for providing such amenities as will attract the homebuilder and capital. Governments and municipalities are consequently faced with perpetual demands on their credit and resources, all of which add to the burden of taxation. If this, in turn, becomes too high, it acts as a serious deterrent to capital and immigration.

New countries, therefore, normally gravitate "between the devil and the deep, blue sea," until they successfully overcome the "dead point" in the revolution of progress through reaching a population and general development approximately sufficient to absorb the abnormal overhead inseparable from the earlier stages of pioneering conditions. Canada just now is drifting about in the doldrums of this difficult period, laboriously carrying the burden, public, private and corporate, of every sort of modern facility, to accommodate a population at least four or five millions greater than what it is today. So the outstanding problem in Canadian public policy just now is how to augment rapidly our insufficient agricultural population. Compared with this, all other issues are insignificant.

There has always been a deplorable tendency on the part of Canada to follow blindly in the administrative footsteps of the United States. This was never more apparent than when, laboring under wartime emotionalism, we adopted drastic exclusion regulations following the imposition of the quota law south of the line. We never stopped to consider that the United States carefully refrained from any such measures until her population exceeded a round hundred millions and she was on the verge of heavy importation of foodstuffs. We cannot possibly escape the conclusion that the United States is a great, prosperous nation, whose citizens enjoy a standard of living far above that of any other, except perhaps Canada. In the eyes of almost the entire world that country easily represents the modern El Dorado. All this has been accomplished largely through the "open door" policy. If we in Canada could attain the same degree of material success within a similar period, we would apparently have reason to be amply satisfied with ourselves. That we can accomplish this through immigration policies proceeding in the opposite direction to those that made the U. S. great is, however, open to serious doubt.

Corns are painful growths. Holloway's Corn Remover will remove them.

Experimental telephone lines between the engines and cabooses of long freight trains have proved effective time-savers in operation of the trains, according to officials of an eastern railway.

A Valuable Invention

New Camera Film May Be Used To Photograph Robbers at Work

A new camera film developed for use by the air service, having the power to penetrate the land haze which has curtailed the possibility of obtaining detail in aerial photographs, may be used also in a newly-developed camera designed to photograph burglars and holdup men.

The camera, which is the invention of John E. Seebold, of La Salle, Ills., may be concealed anywhere in a bank, house or office building, for the purpose of photographing holdup men by day or during the burglar's operations at night. In daytime the camera may be worked by the pressure of one or more buttons conveniently located. At night it operates automatically when intruders come in contact with triggers attached to door knobs, case dials, drawers or other means of reaching stored property or money.

The camera built into a steel case and hidden away in the wall, desk, filing cabinet or any other place desired, employs a flashlight for night work. Once the intruders touch the concealed trigger the steel case opens to permit functioning of the lens, the flashlight is fired and the picture of the intruders is recorded on a film.

The camera withdraws into its steel case and concealment out of sight and out of the way of destructive tools.

The device is manufactured by a Rochester firm and experiments are being made to adapt it to motion picture use.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Eclectric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Growth of Wheat Pool

The capacity of pool terminals in 1924 was 870,000 bushels; in 1925, 2,370,000 bushels; and today 17,450,000 bushels—not including leased terminal space on the Pacific coast. For the week ending August 31st, 500 farmers in Saskatchewan decided to pool their wheat and signed up 76,187 acres. In addition, 135 new coarse grain contracts were received, covering 9,612 acres.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

As A Special Favor

Prince Talks Over Radio

Address At Oxford Interesting From Point of Pronunciation

It was interesting to listen to the Prince of Wales' address at Oxford over the radio from the point of view of the pronunciation controversy. His Royal Highness pronounces the t in often. He says "die-rection" and "acoostics," and stresses the first syllable of "illustrate" and "pursuit." In the Prince's English, "laboratory" is still an uncertain word, for he pronounced it first with the accent on the lab, and then with the accent on the or. The royal jest that was best appreciated was the remark about the collar which came home "with an edge like a circular saw." It was an unexpected revelation; one had imagined that princes of the Blood were immune from these misadventures of lesser mortals.

Joanna

by H. L. GATES

Copyright 1925 by H.L.GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XIV.—Continued.

She talked on, saying things that were meaningless to Joanna, the obvious things that had to do with the beginnings of a new friendship, and the prospects of a "jolly" time for the girl in a new life. A trim, lace-aproned and white head-dressed maid answered Yvonne's summons and replied to her mistress's questions that Miss Manners' apartment was in order.

"I've a little bedroom and a cozy sitting room for you, not too far from my own," Yvonne explained. "I hope you will be no end comfortable."

At a finger touch a gold panel in the wall of the reception hall slid back, disclosing a tiny gilt elevator of the kind that is automatic. The maid followed them into the lift and pushed the buttons that sent it climbing to an upper floor. Joanna was strangely tremulous. She wanted to say bright things to the older woman who was ushering her into these new and luxurious surroundings, but her mind was in an uneasy turmoil. "Why was everything happening as it was? So naturally, so swiftly, so smoothly? Should she trust herself to Yvonne Coutant?" She stole a glance at the woman who stood so close to her, and comprehended her extraordinary fascination, the hair that was as black as vulcanite, the magnolia-white face contrasting sharply with the two luminous black eyes, and the lips that were full and red without the exaggerations of lip stick contours. The fear that vibrated through her at times with Brandon, the indubitable fear that seemed so unreasonable, gripped her for a second. Then her thoughts flashed to what Teddy Dorminster had said in the room downstairs: "A singer, or a dancer, or something like

Yvonne swept the girl's face with a quick glance. "What do you know about me?"

that?" What was there wrong about her? She had put on her grey tailleur and the mink coat. And her smart, grey cloche hat was from a famous Avenue shop. Did she still remind one of the silk counter? And if she did, what of it? Weren't the imitations of the silk counter all right? Certainly there had been no girl in her merry go-as-fast-as-you-can - without - skidding crowd, who could profess to cause men's wives to need consolation because of them. But, of course, Yvonne had not been serious! It was just a manner of talk; the small talk she would have to learn.

All of these things flashed through the girl's agile mind while the tiny gold elevator lifted from the first floor to the third. When the car had stopped, and the maid had slid open the narrow grilled door and stepped out, Joanna had dispersed her doubts with a determined wave of confidence. The arrogance came back into her eyes and to her lips. "She'd get on, or she'd taken an awful wallop trying."

It was difficult for "Miss Twenty-seven" to understand, for a time, that the exquisite miniature drawing room, rose shaded and satin hung, with windows looking down upon an open garden, was to be exclusively her's. With John, through such evenings as she had consented to stay in with him, she had planned, or rather, listened to him plan, the house that he would some day build for themselves. They had endowed this dream house with many idle fancies, but in her visions there had been no such splendors as the "little" room, with its rose bedroom and canopied bed beyond the softly draped door, which Yvonne had prepared for her. And Yvonne was saying:

"You will want your own maid, of course. But I haven't engaged one. You will want to engage her yourself. I fancy Walker can send you a collection of them—he has a way of producing them when they're needed. I shall advise a French girl, or an English one. The first will be more skillful, the other more loyal."

Joanna couldn't stifle her laugh. "You'll have to tell me what to do with a maid," she explained. Then something like a phantom of tears hovered suddenly in the deep brown eyes. "You know, I feel terribly alone," she said, "and terribly afraid—of myself, I mean."

Yvonne swept the girl's face with a quick glance. She spoke quietly to the maid who fluttered about the room. The maid went out, closing the door behind her. To Joanna Yvonne said: "Come and sit down." She indicated the divan beside her. "If you'd like one there are cigarets in the box on the tabouret. I think I'll have one, too." Before she spoke again she drew a contemplative puff and allowed the smoke to curl slowly from her lips. Joanna watched her silently. Her first words were abrupt.

"There are a great many people who enjoy themselves talking about me," she said. "And some of them take an especial delight in talking in whispers. What do you know of me?"

These were tactics that would not disconcert Joanna. She was too accustomed to making sudden attacks herself, or defending them. "Only what everybody knows," she replied frankly. "We read about you, you know, and your pictures always are in the newspapers. I've thought more of you than I ever did of a motion picture star, and that's a lot."

"Why?"

This was more difficult. The girl hesitated, faltered. Again Yvonne's voice, clear, bell-like, clipped the one word:

"Why?"

"I think," Joanna ventured, "it's because you make people talk about you. Wherever you go, and whatever you do, people talk about it. It's being famous and, besides, being famous for yourself, not for what you do. And you have such a wonderful round of pleasure."

Yvonne contemplated her cigaret again, following the lazy drifting of its wraith of smoke. "No," she said, "that is not the reason you have been interested in me; and it is not the reason you were so willing to come to me when I invited you." A smile suddenly played at her mouth and she nodded at the girl on the divan beside her. "Is it?" she insisted.

Joanna smiled back at her. "No, I don't think it is, altogether," she agreed brightly, "but that is as close as I can put it into words. You see, all my life, that is, since I've been alone and making my own way, I've had to fight hard to keep up with the crowd. I've wanted things that cost money, and I've wanted things that you can't have, or enjoy, when you're skimped. The things you need to make a show. The best I could ever do was owe somebody installments on a dress or a wrap or my shoes, and keep my eyes open for runs in my stockings. I've looked all right, and I've laughed a lot, but things have always happened to make me cry, too."

Again that bell-like voice of the elder girl clipped off a question: "What, for example?"

Joanna studied a moment, her eyes looking out into the room. "They were just such little things," she protested; "things you wouldn't understand."

"I think I would understand," Yvonne persisted.

"But you wouldn't," Joanna argued. "One like you simply would not. I've cried my fool eyes out, often, because some man—some boy I liked, wouldn't stay square. And I've had nobody to talk anything over with. Mostly, people who are worth while to talk to make me tired—I mean, they don't know. When I cut my hair they thought I cut off my morals, and if I go off alone on a party they think I ought to be in a harem. When they tell me I don't act like the girls of yesterday I have to say who cares a hang about yesterday when there's so many todays and then I'm told I'm just plain bad. Once in a while I get so cut up about it that I have to have a cry." She thought she finished lamely. She smiled a little at the futility of her explanations. But Yvonne displayed no amusement. She said very quietly:

"And don't you think that I am cut up a bit now and then, when the people who are worth while, as you say of them, interpret me as both plain bad and fancy bad? Perhaps I am. There are different ways to view everything, but—well," she broke off, and was silent for a brief moment: "Well, you see that I do understand, after all," she added. And then: "You were glad to come to me because you think I am of today, and not yesterday; that I am the proof of all your little theories of what a woman ought to be today—isn't that it?"

(To be continued)

EXPECTANT MOTHERS

Read Mrs. Menard's Letter. Her Experience May Help

Chatham, Ontario.—"I want to tell you how much good your medicine has done me. Before my baby came I felt so weak and rundown that I could hardly do my work. My head ached continually and I was so discouraged that I could cry from morning till night. I had another baby just one year and a half old and it gave me a lot to do. So I thought I would try Lydia E. Pinkham's Vegetable Compound, as I had read so much about it in the little books. I found a difference right away as my head was relieved and my tired feelings gone. My sister had been doing my washing and she continues doing it, as she said it might set me back if I started to do it again. It sure did help me and I had taken just two bottles when my baby came. He is a fine big boy, now nearly five months old. I am taking your medicine again and I am able to do my work all by myself now. I always recommend the Vegetable Compound to women, and especially to expectant mothers, as I believe they need help at those times."—Mrs. OLIVER MENARD, 54 Center St., Chatham, Ontario. C

W. N. U. 1616

Canadian Industrial Development

Assisting Manufacturers and Others In Locating New Materials

In pursuance of its work of advancing Canadian industrial development through the further use of Canadian resources, of advertising opportunities for investment of capital in prospecting, mining and recovering the wide variety of economic minerals both metallic and non-metallic found in the Dominion, of assisting manufacturers and others in locating raw materials for their products, the development branch of the Canadian Pacific Railway Company's department of colonization and development publishes a very complete set of the synopses or leaflets descriptive of these resources located along its lines. The revised issue giving all the latest information available to the end of 1925 has just been distributed to the permanent mailing list.

The set comprises 57 leaflets each containing from two to six pages. They cover all the important minerals and resources of the Dominion, including the forestry situation. Over 300 complete sets and a large number of individual copies of the latest revision have just been mailed from the Montreal office of the company's development branch. The writer or compiler of each synopsis is a man selected for his outstanding knowledge of the subject dealt with. Figures and statistics are the latest procurable from the Dominion Government bureau of statistics and other authentic sources. Each subject is treated as fully as consistent with a concise, summarized presentation of the facts in the briefest possible form.

That business men, financial houses, mining interests, educational establishments and others find these publications of value is evidence by the fact that in the two years since the first distribution was made, over 77,000 copies have been furnished on request, and the demand is increasing. Apparently they fill the requirement of a brief survey of each situation from which the business man can obtain the salient facts he requires on the special subject of interest without search of voluminous reports or reference to books covering a variety of other irrelevant subjects.

An unprofitable apartment house is a flat failure.

CANCER.

The potassium treatment, introduced by the late Dr. F. W. Forbes Ross in England in 1912, having been scientifically perfected, has won the lasting gratitude of countless Canadian and American sufferers who have experienced its unrivalled success. By combining the two words "Cancer" and "Potassium" this home treatment for all diseases caused by the almost universal potassium starvation is legally protected by patent under the name of

THE

CANTASSIUM TREATMENT

Experience of many thousands confirms the great English authority's statement.

"Cancer is a Blood Disease Caused by Potassium Deficiency."

and, if such deficiency is remedied, even far advanced and apparently hopeless cases will retrograde without surgical operation, radium or X-Ray tortures and needless expense. Hundreds of thankful letters from restored cancer victims speak of AUTHENTICATED RESULTS which bring justified hope to those now stricken by the deadly scourge of civilization.

A deeply interesting book, which will be mailed YOU free of charge, explains THE CAUSE and the most rational method of avoiding Cancer, or treating it where it already exists.

Cancer claimed 150,000 victims on this continent last year.

Cancer strikes rich and poor alike without warning.

Protect yourself and dear ones without delay by sending for this FREE BOOK to

Little Helps For This Week

One only is the law-giver and judge, even He who is able to save and to destroy; but who art thou that judgest thy neighbor?—James iv., 12 (R.V.).

Thou alone
Keepest judgment for Thine own;
Only unto Thee is known.

What to pity, what to blame;
How the fierce temptation came;
What is honor, what is shame.

—Alice Carey.

God sees us altogether, not in separate feelings or actions as our fellowmen see us. We are always doing each other injustice, because we only hear separate feelings or actions; we don't see each other's whole nature.—George Eliot.

No man can justly censure or condemn another because, indeed, no man truly knows another.—Sir Thomas Browne.

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand, the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentry and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer the mothers' best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Isn't it queer that the things people usually want to know most are none of their business.

The Ideal Powder For Daily Use

This pure, delicately medicated, antiseptic powder does much to overcome excessive perspiration. It soothes and cools, is convenient and economical and is an ideal face, skin, baby and dusting powder.

Sample Each Free by Mail. Address Canadian Depot: "Potterbess, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

The B.C. Spruce Company sawmil at Lumberton closed down at the first of the month. It has 35 million feet of lumber in the yard.
