

# THE CRESTON REVIEW

VOL. XVIII.

CRESTON, B. C., FRIDAY, NOVEMBER 26, 1926

No. 41

## Wynndel

P. Andestad was a Nelson visitor this week, leaving on Sunday and getting back on Tuesday.

Mr. and Mrs. H. J. Irving, for quite a long time residents here, have moved to Creston, where they are now residing. Harry is on the Kitchener bridge crew at present.

Mrs. A. Gregory returned from the prairie on Sunday.

C. Gregory, who has been working at Willow Point for some weeks past, got back on Tuesday.

Frank Piggot, who has been at Claresholm, Alberta, for some time past, returned to Wynndel on Thursday last.

Our younger sportsmen are having all the luck with the gun this season. Already this week Paul Ofner, jr., has taken two deer, and Charlie Pen son has one.

Miss M. Severn and Miss H. Andestad spent the weekend at the formers home at Proctor.

Miss Florence Wood was a weekend visitor with Creston friends.

Monrad Wigen got back on Friday from a business trip to Nelson and Kootenay Lake points.

Mrs. J. Wittman was a visitor with Nelson friends a few days during the week.

A very pleasant evening was spent at the home of Mr. and Mrs. R. Uri on Saturday. All the young people were in attendance, and all report a very fine time.

Hagen appears to be having the best luck of the bird hunters. In his string brought in one day this week was a nine pound goose.

Martin Carlson was a Wynndel caller this week, a guest of his brother, "Babe" Carlson for a few days.

Cranbrook Courier: Jas. A. Iyo of Wynndel, who was brought in to Cranbrook hospital for treatment ten days ago, passed away on Tuesday evening. He is said to hold valuable mineral claims near Wynndel. The funeral will take place on Friday morning from St. Mary's Church.

## Kitchener

Mrs. Ted Strong and young daughter, of Canyon, are here at present on a short visit with Mr. and Mrs. Wm. Strong.

Mr. and Mrs. J. Nolan have taken over the Tourist restaurant, which is again open for business.

Mrs. G. Johnson of Moyie arrived on Monday from Creston, and will make a short visit with Mr. and Mrs. B. Johnson.

Hunting appears to be good here at present. Four deer were killed on Sunday.

Charles Leamy, who is employed with the Sash & Door Company, sustained an injury to his foot one day last week, and is at his home in Creston whilst recovering.

Misses Clara Hunt and Mildred Andeen and Clara Hunt of Creston spent the weekend at their home here.

Misses Mary Haptonstall and Vera McGonegal spent the weekend with friends at Cranbrook, guests of Mr. and Mrs. Fred Belanger.

There was a good crowd out for the dance on Saturday night at Hunt's Hall at which Mrs. Lister's orchestra supplied the music. The next dance will be on Saturday, December 4th, with the same music.

R. Maxwell and J. Smith of Creston were business visitors here, Monday.

Chas. O'Reilly of Vancouver was a business visitor here on Tuesday.

Dr. Henderson and provincial police H. McLaren of Creston, made professional calls here on Wednesday last.

Fred and S. L. O'Neill of Yahl were business visitors on Wednesday last.

Erie Craigie of Creston was a business visitor on Friday.

Alex. Ellis of Nelson was here on

Wednesday last renewing acquaintances, leaving again on Friday.

School inspector V. Z. Manning, of Cranbrook, made his year-end inspection of Kitchener school on Monday, leaving the same day.

C. E. Paulson of Spokane was here on business at the end of the week.

## Sirdar

T. Rogers left on Monday for Spokane, where he expects to spend the week on a combined business and pleasure trip.

Gus Omen was a visitor at Creston on Monday. He has just had the good luck to hold a winning ticket on a sack of flour raffled at a church bazaar at Cranbrook last week.

Mrs. Wilson and Mrs. Heap were Bonners Ferry visitors last weekend, making the trip by auto in company with Mr. Beeson, the Dominion water rights branch engineer.

Sirdar got its first snow on Sunday, which is somewhat early for this part of Kootenay.

Sid McCabe and E. J. Brawn of the former's B & B crew, were home for the weekend from Kimberley, where the crew is at work just now.

Geo. Jansen of Kuskanook is a Spokane visitor this month, leaving a few days ago for that city where he is having some optical and dental work attended to.

Due to the inclement weather and late arrival of the train the church service on Sunday night was canceled and Mr. Newby had the good fortune to catch an eastbound freight back to Creston the same evening.

Mrs. North was a between trains visitor with Creston friends, Monday.

Miss Muriel Knott, a former teacher at Sirdar, is a visitor here from Canyon this week, and is the guest of Mrs. E. J. Brawn.

Although the season is late and the travelling none too good, there is a car or two a day on or off the boat at Kuskanook.

Sirdar's dance music will be improved from now on as John Tolerico has just received a set of drums, which, with the piano-acordeon manipulated by Mr. Carl will give us a fine 2-piece orchestra.

## Women's Institute

The November session of Creston and District Women's Institute, on the 12th, was largely given over to routine business. The president, Mrs. R. Stevens, was in charge, and twenty five members were in attendance.

The committee in charge of the Armistice night whist and dance reported a gross intake of \$98, and were accorded a vote of thanks for their splendid effort. The matter of having a social evening once a month for members and their husbands will be decided at the December meeting. The date for the annual meeting was definitely set for the second Friday in January. Mrs. Boyd, Mrs. Walters and Mrs. J. P. Johnston were asked to form a committee to visit all the new families that have moved into the village.

It was agreed that the members should carry on a number of teas during the winter, but it was left to the discretion of each of the ladies who will entertain to decide what form each of the affairs will take—afternoon tea, social evening or card party—with guests to be made up of those in or out of the Institute. A small charge will be made to each. Tea hostesses of the afternoon were Mrs. Mallandaine, Mrs. D. O'Neill and Mrs. Ferguson.

T. Williams, L. T. Leveque, A. Muir, W. Hendy and Vic. and George Mawson got back on Saturday from a four-day duck shot at their cabin down the Kootenay. They state the cold wave at the end of last week brought down the foreign geese, but with so much flood water on the flats duck hunting is not as easy as in other years.

## Alice Siding

The Armistice week sale of poppies at Alice Siding amounted to \$5.50.

J. Kelly, who has been working at Kimberley for some time past, arrived home at the end of the week.

Henry Vaness left on Tuesday for Armstrong, where he will join his mother, Mrs. J. W. Vaness.

Hector Stewart was the lucky hunter of the party made up of Bob Miller, Ron. Stewart and himself which was in the hills last week. He got a six point buck that weighs about 200 pounds.

Mrs. H. Reed, who has been a patient at the Nelson hospital the past ten days, has recovered sufficiently to leave that institution on Tuesday and is on a visit with friends.

## Canyon City

BIRTH—At the home of Mr. and Mrs. A. D. Pochin, on November 16, to Mr. and Mrs. B. A. Byer, a son.

Norman Strong, who has been working in the Spokane country the past few months, arrived back last week, and will likely occupy the Clark place for the winter.

Geo. Hendren has had his bridge crew at work the past few days making needed repairs on the bridge at the Niblow ranch.

Practices have commenced already for the community tree and entertainment which will be held a few nights before Christmas. It promises to be the best ever.

Rev. H. Harcourt, a returned missionary from India, was here on Friday afternoon and spoke to a fairly large crowd at the United Church. Rev. J. Herdman accompanied him.

Alf. Nelson was home for a few days last week from Pincher Creek, Alberta, where he is wholesaling and re-tailing fruit this season. He intends to go extensively into his greenhouse business this winter.

Hilton Young left on Sunday for Kamloops, where he is delegate to the Conservative convention, and will visit at Vancouver before returning.

A great injustice was done Mr. and Mrs. Kamo, our Jap. citizens, who are the proud parents of the boy twins, not Mr. and Mrs. Hook, as stated in our last issue.

John Murrell and Mr. Oakley of Creston were here on Saturday in company with the Cubs football team handled by the former. Canyon was too much for them, winning a great game 3 to 1. The return match will be played at Creston on December 4th.

Wednesday, December 1st, is the date set for the annual bazaar of the Ladies' Community Club which will be held at the Community Hall from 3 to 5.30 p.m. There will be the usual sale of fancy and useful articles of every sort during the afternoon.

## LETTERS TO THE EDITOR

### Reply to Citizen, Jr.

#### EDITOR REVIEW:

SIR.—Citizen Jr. letter was interesting in some ways. If you must have a party on hallowe'en why not get together all the juveniles, and beg the loan of someone's patching shed—but don't stop on the way to lift off a few gates. Citizen Jr. says if you give us a party, or candy, we will be good, but I doubt it. Besides, why not earn a reward first.

I do not wish to give anyone the impression that that the children attending school now are any worse than their older brothers and sisters. In fact they are a better lot in some ways, though far from angelic.

Like father, like son, Citizen Jr.

claims. Yes. If dad has no respect for other's property, and no sense, one cannot expect his child to have any gumption.

As for a community hall me thinks some folks would receive the same kind of treatment as George Davie of Canyon got. Oh, my, sure, we would all be welcomed at the building of it, and so would be our contributions, but once it was up would we have any say in the running of it? Not any to worry over. Not that I want to be elected to fill any position; I get more fun watching a few stars wanting to shine in the limelight.

A word about Mr. Jents, school principal. His way of handling the guilty culprits is to be commended, and I sincerely hope the trustees will keep him on the job.

Discipline is what is badly needed. Never mind about foolish entertainments at Christmas time. If there is none this year it will give our ears a rest at least. Better far to study their lessons more with less cramming of rubbish into their heads. Too; more attention to studies, too, lessens the strain on the teachers' brain. Its a wonder some of the teachers do not suffer from prostration.

## Local and Personal

C. B. Twigg, resident horticulturist, has just been advised by the department that the usual pruning schools will be held this year. In order to have one in this district eight pupils must come forward with the customary fee, and application should be made to Mr. Twigg.

Creston had a touch of real winter on Friday and Saturday last. On the 19th Foster hit it right when he guessed a storm wave as a biting cold wind blew all day out of the north, though only seven degrees of frost were recorded. Saturday morning the mercury hit as low as 13 above zero.

The members of Christ Church vestry were at home at cards and dancing in the Parish Hall on Tuesday night, at which the winners at whist were Miss Lyda Johnson and Mrs. Mallandaine, and Jas. Cook and Jock Osborne. A lunch was served and Mrs. Lister's orchestra provided the music for the dance.

Rev. A. and Mrs. Appelt and family left on Wednesday for Wetaskiwin, Alberta, where the former will have charge of a Lutheran church in that town. Although of a decidedly retiring disposition Mr. Appelt made many lasting friendships during his year's work here and takes with him the good wishes of all for a successful pastorate on the prairie.

With the trout fishing season ended Vic. Mawson announces that Andy Abrahamson is the winner of the \$8 cane rod the former gave as a prize for the biggest trout caught on Mawson tackle. The winner hooked a two pounds eight ounce rainbow in Goat River. Lester Johnson gets the \$8 fishing basket given for the biggest bass taken, his sample weighing four pounds eight ounces—the biggest bass ever caught locally.

Trinity United Church Tuxis Square had an executive meeting at the home of W. J. Truscott on Tuesday night at which the activities for the winter months were planned with special designs on capturing the badges given by the square. Doble MacDonald and Allister Ross have just been initiated, bringing the membership to 14. Mr. Craig has been selected as coach for the dialogue the Square will put on at the Christmas concert.

Jas. Adlard arrived back from Vancouver on Wednesday, and is arranging a sale of his household effects preparatory to taking up permanent residence at the coast, where he has

## Lister

Col. Fred Lister, M.P.P., left on Sunday for Kamloops, where he is in attendance at the Conservative convention this week.

Mrs. Cannady and family of Creston are again occupying the house on their ranch near Camp 2, on the Canyon-Porthill road.

Rev. J. Herdman was here on Sunday morning last for United Church service, and had quite a good turnout. Rev. S. Newby will conduct Anglican worship this Sunday afternoon at 3.15.

Andy Sinclair is wintering at Arrow Creek where he is again in the employ of C. O. Rodgers.

H. Yerbury and and R. Dodds, who were home for a few days last week, pulled out again for the trapping at Summit Lake. They are operating in a small way at Cultus Creek.

J. L. Whitford, the Rawligh products man, from Cranbrook, was working this district on Saturday.

Jack Jory of Creston was here for the weekend, the guest of his grandfather, John Finlay.

George Hurry is still another of the Listerites to join up with the Winlaw bush crew operating in the timber on the Alexander limits.

D. J. McKee of Kitchener spent a few days at the first of the week at the Yerbury home.

Mrs. Bamford, of Nelson, was a Thursday to Sunday visitor with Mr. and Mrs. John Bird.

Friends of Miss Dorothy Yerbury will be glad to hear she is making a satisfactory recovery from an operation she underwent in Nelson hospital on Friday last.

## Erickson

W. V. Jackson was a business visit, or in Nelson a few days the early part of the week.

The report is again current that a beer parlor is to be opened at Erickson in the former McCarthy building. As this point voted "dry" it will be necessary to take another vote before a license is issued.

L. Leveque got back at the end of the week from a four-day duck and goose hunt with a Creston contingent at Summit Creek. He had the best luck of the lot, bringing back a fifteen pound sample of the Canada goose.

Sam Fraser is the latest to install a radio, having just put in a five-tube General Electric Radiola that is giving splendid satisfaction these nights.

J. M. Craigie appears to be the first at Erickson to get a deer. He bagged a nice 200 pounder while hunting along Rolfe mountain on Sunday.

The Whirlwind Club announce that the whist and dance tonight will be at the schoolhouse, with cards due to start at 8 o'clock prompt, and the admission is 50 cents.

Mrs. Kelsay is just in receipt of a letter of thanks from the secretary of the Imperial War Graves Commission thanking her for sending a photo of the Creston memorial which was desired by the Imperial War Museum.

Monday was delivery day for the foxes purchased by Frank Putnam and Mrs. Harrison, each of whom have received two pairs of the silver black variety and have them at home in the newly constructed pens. At the Putnam place a double guard space has been provided. The outer is 60 x 60 feet, while the kennel is set up within an enclosure 8 x 20 feet. Both buyers got the parent stock from the Parkhill Silver Black Fox Company at Calgary, Alberta.

bought some improved acreage at Burnaby. His intention is to go into the poultry line as well as work at his trade, his property being within 20 minutes drive of the centre of Vancouver city. He is offering his town property for sale, but under no consideration will he dispose of his ten-acre ranch.

teacher. Further pursuing his studies and teaching, he managed to save up enough money to put him thru medical college. After the Civil War, he began the practice of medicine in the new oil section of Pa., and often rode horse-back thru the woods to reach and relieve those who were seriously ill. He was a student of nature, knew and could easily recognize most of the medicinal plants growing in the woods.

Later, he moved to Buffalo, N.Y., where he launched his favorite remedies, and, in a short time, they were sold by every druggist in the land. Today, the name of this man, Dr. R. V. Pierce, is known throughout the world. His Golden Medical Discovery is the best known blood medicine and tonic. More than fifty million bottles have been sold. If your druggist does not sell the "Discovery," in liquid form, you can obtain a trial pack of the tablets by sending a 3-cent stamp to Dr. Pierce's Branch at Bradford, Pa.

Strange, Romantic Love Adventures of the Flapper you know!

## CHAPTER XV.—Continued

When he was satisfied of his observations, which occupied hardly more than a brief hesitation, Lord Teddy moved closer on the cushioned divan—only the knee, which was crossed and pointed his way halted him. His voice, when he spoke, was little above a murmur.

"Please," he pleaded, "don't let us pretend. It's much nicer not to, really. You do it splendidly but you couldn't be wholly successful. When a woman has had so much experience, old enough, you know, so that a man knows there's nothing new under either the sun or the moon for her, then she has to pretend that she hasn't yet learned that everything is what it is and not what's in copy books. If she didn't she'd be too forbidding, so we know she's serious about it. But when a lovely girl makes believe she doesn't understand everything and everybody we know she's just kidding. Because she thinks she does, anyway. Don't you?"

Joanna regarded him elaborately, frankly imitating his own examination of her a moment before. "Yes," she said, her inscrutable smile playing upon him. "Then you have a way with you—as a teacher. I suppose you've a diploma, or some good references, or things like that?" His ready laughter bubbled through his mask of seriousness.

"Only experience, my lovely Joanna," he said, finding her hand among the cushions and taking possession of it with both of his own. "My experience will have to be your guide, and yours my ambition." When he had finished he gave her limp, fragile fingers a confidential pressure, and looked into her own shining eyes with a deep smoulder in his. She seemed to be unconcerned about her hand. She even moved her knee, a little, to help him out down the space between them. She said, then:

"We seem to be making a bargain of some sort. When you happen to think about it, tell me what it is won't you? The best I can get out of it is that you want to be a guide and you've ambitions of some kind. I like ambitions tremendously. It's so much fun flattening them out!"

"Yes," he admitted. "You'd flatten out almost anybody, I should imagine. You wouldn't be afraid of missing anything. That's why I'd like it awfully if—" She nodded at him. "I know," she finished for him. "If I'd give you my other hand, too, and let you fill up the rest of the distance between us. Then you could tell me just how pretty you think I am, and how you've always been crazy about hair like mine and you'd like to run your fingers through it, and maybe you'd have something new along that line that I'd never heard before and then you'd end up by saying I was just made for somebody to love a lot and you're somebody. Have I forgotten anything?"

"Not a thing," he declared. "When do we begin?"

This time they laughed together buoyantly. Joanna decided she was going to enjoy this fair haired, brilliant young man whose chief aim in life, according to Yvonne, was consoling neglected wives. He was amazingly handsome, as easily read—to her—as an open book, and she was convinced utterly harmless. Yvonne's picture of

him puzzled her. She concluded he would be easily in his thirties, but, already she was becoming accustomed to older men than her "dancing boys" had been. John always had appeared older to her than any of the other chaps she knew, although he wasn't in years. She was astonished, secretly, at her own ability to be interesting to men who must have served many apprenticeships at more dazzling shrines than her's.

She was still disturbed by that ready supposition of his at their sudden meeting earlier in the afternoon. She reminded him of it again, and declared that she wouldn't be satisfied with him until he had made satisfactory explanation. He was not abashed.

"You were such a surprise," he assured her. "Not at all like the usual girl one sees about, in places. I'm fearfully fed up, you know, on girls, most girls, I mean. They've lost their enthusiasms. You're enthusiastic. Sort of caught me up sharply with it. And you haven't been spoiled. The girls one meets nowadays seem to be spoiled; that is, too many of them. The kind I know. They're the daughters of the crowd that have chow dogs, you know. Funny, but it has always struck me that when a woman gets a chow dog her daughter goes to the devil. Really, doesn't go to the devil you know, but tries to act like she had been to him and found him too old-fashioned to be amusing. Now you're different. As soon as I saw you I was sure there were no chows in your family. Are there?"

"My friends," she called to them. "I'm in a darling mood tonight."

"Not having any family, there aren't any," she said, quietly.

"Right! There's a reference for you. You see I'm always right about women. You're a flapper without a chow background. There's a heap of difference. If I were a literary chap now, I'd put that in a book, or something. As it is you'll have to figure it out yourself. It's deeper than I usually go. I thought you must be something different, and I couldn't think of anything but singing girls and dancing girls. As a rule they've got sense, anyway. The debutantes that imitate them haven't—by the same rule. Now am I forgiven?"

"I never forgive a man anything," she declared promptly. "It always makes him dangerous."

"That's your difference," he discovered eagerly. "The kind of girl I don't like, the kind that isn't near so daring as you are, is the one who's always trying to forgive. They say it adds to excitement."

Yvonne's voice interrupted. She dropped into a chair and surveyed the pair on the divan. "You two seem to be hitting it off quite satisfactorily," she commented. "No entangling confidences, I hope." Of Joanna, she asked: "He's relieved himself of his own admissions for his pun at Doris and Pen, I suppose?"

"We'd just started on them when we cut all preliminaries and got down

## Take a REAL HOLIDAY this FALL!

Go to Europe! It's your slack season here in Canada, but in England, the social season, with all its life and amusements, is just getting into its stride. The lights of London are beckoning—the theatres and shops offer a diversity of interests and pleasures.

Plan now to make the crossing on a Cunard Anchor-Donaldson Canadian Service Cabin Class Steamer. You will find the trip itself a most enjoyable experience. Sailing from Montreal means a thousand miles of sheltered river travel before you come to the open sea which is crossed in a few delightful days.

Ask your steamship agent about the St. Lawrence route to Europe, or write—

THE CUNARD STEAMSHIP CO., LIMITED,  
270 Main Street,  
Winnipeg, Man.  
**CUNARD**  
**ANCHOR-DONALDSON**  
CANADIAN SERVICE 186

to ourselves," Teddy informed her ingenuously. "We've made progress. I shall be here tomorrow promptly at four continue matters."

"You will not!" Yvonne corrected him. "Miss Manners—by the way have you made it 'Joanna' yet? I see that you have!—Well then, Joanna has a day mapped out. There's some important things to attend to. And you can run along now, Teddy if you will. You may fix yourself a drink on your way out."

When he was gone Yvonne and Joanna took up the 'important' matters of the morrow; the automobile, its chauffeur—"I'll find you one," Yvonne agreed—and a descent upon a famous jewelry house.

"There'll be a crowd here tomorrow night," Yvonne explained. "That's what Teddy was referring to. I'm making it a big crowd in your honor. I'd already planned a night of it, but I've elaborated for you. You'll meet everyone and they'll meet you. I'll have an unmarried senator and two married ones, without their wives; a few exiled Russian princes, and a smattering of their princesses. You'll like the Russian girls. Some South Americans who will make you think, always, of sapphires or black diamonds, and everybody who's in love with me or wants to be. That'll make a representative party I'm keen to know how you'll like it—the crowd I mean. Between Brandon and Roddy, to say nothing of Teddy, you'll be well presented. I fancy you'll be properly admired."

Joanna looked up sharply at the mention of Brandon and Kenilworth. She detected a change in Yvonne's tone as she pronounced the names. She wanted to ask her about these two, for she knew Yvonne shared with Brandon, at least, some intrigue concerning her. But she thought better of the impulse. Her thoughts went back to John.

"Have him come to you here, by all means," Yvonne insisted, shrewdly.

### TEETHING BABIES Thousands of Them DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth. On the first sign of any looseness of the bowels the mother should give a few doses of

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps save the baby's life.

Put up only by The T. Millman Co., Limited, Toronto, Ont.

ly: "I fancy he is a young man who will require handling, if you continue to be concerned about him. Shall you—be much concerned about him?"

The suddenness of the challenge caught Joanna off her guard. She dropped her eyes. All at once she was conscious that her lips were quivering, and that she was concerned. It wasn't quite straight in her mind, but she had put away something Teddy Dominster had said for later consideration, and it came back to her, now a little confusedly. "She was enthusiastic. But a flapper without a chow dog background. And you haven't been spoiled."

She wondered why John had not understood as well as Teddy Dominster. She decided she'd find out, soon!

"I shan't be so much concerned," she said to Yvonne, "that I'll go around hunting sad music!"

(To be continued)

#### Handling Charges for Pool Wheat

According to agreement between Line Elevator Companies and the Pool, following are the handling charges on "Pool Wheat" at the Line elevators:— "On street wheat Nos. 1, 2 and 3—5 cents per bushel. On all other grades of street wheat 6 cents per bushel. On car-lots, special bin and stored to grade—these regular handling charge, plus a service charge of 3/4 cent per bushel."

### WHEN YOUNG GIRLS GROW PALE AND THIN

#### Dr. Williams' Pink Pills Should be Taken to Enrich the Blood.

When girls grow weak, pale and thin, parents should not neglect these symptoms; to do so means danger. The girl in her teens cannot develop into robust womanhood without an abundant supply of rich, red blood in her veins. It is the lack of this that is the great trouble with nine girls out of ten. Dr. Williams' Pink Pills have achieved world-wide fame for their remarkable blood-making properties. In these pills there is vigorous health, with glowing cheeks and sparkling eyes for every weak, pale girl. The value of the pills in cases of this kind is shown by the statement of Mrs. Winifred Rutty, Barton street west, Hamilton, Ont., who says:—"About two years ago my eldest girl got into very bad health. I took her to a doctor who advised having her tonsils removed, saying this was the seat of the trouble. We had them removed, but it did not help her, and she seemed to have absorbed so much poison from the trouble that she did not pick up at all. She could neither eat nor sleep, and what food she did take did not digest. Then she developed a cough that kept her awake at night, and went down in weight to 95 pounds. A neighbor said to me, 'You have tried so many things why not try Dr. Williams' Pink Pills?' I got some and before she finished the second box she began to show improvement. She continued the use of the pills for some time and is now in the pink of condition, able to work and play, and eat and sleep with all her old-time vigor. These statements can be verified by neighbors who watched her restored from ill health to perfect health."

If your medicine dealer does not keep these pills you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Little Helps For This Week

The Lord thy God shall bless thee in all thy works, and in all that thou puttest thine hand unto.—Deut. xv., 10.

What is our duty here? To tend From good to better, thence to best; Grateful to drink life's cup; then bend

Unmurmuring to our bed of rest; To pluck the flowers that round us blow,

Scattering our fragrance as we go. —Sir J. Bowring.

To make some nook of God's creation a little fruitfuller, better, more worthy of God, to make some human hearts a little wiser, manfuller, happier, more blessed, less accursed—it is a work for a god.—Thomas Carlyle.

#### Keep Minard's Liniment in the house

##### Many Join Wheat Pool

Since June 11th, 1926, just four thousand farmers have signed up the following acreage in Saskatchewan:—Wheat, 535,550 acres; oats, 19,117 acres; barley, 14,460 acres; flax, 17,829 acres; rye, 12,745 acres; making a total of 625,141 acres in three months.

A woman may be as old as she looks but she is seldom as young as she acts.

For all pains—Minard's Liniment

### Saves \$24 A Year

Cooking experts figure that the SMP Enamelled Ware Roaster will save the average Canadian family fully \$24.00 a year in meat bills. The secret is, it roasts the meat with very little shrinkage. Also, it makes cheap cuts taste like the best ones.

You place the roast in the roaster, put on the cover; the roaster does the rest. No basting required. Every roast is perfectly cooked.

The cover fits close, so that cooking odors cannot escape. Grease can't spatter out, which means a sweet clean oven. Prices range from 85c. to \$3.50 each, depending on size and finish—and don't forget the saving of \$24.00 yearly.

## SMP Enamelled Ware ROASTERS

#### Western Canada Wheat

"The Wheat of Western Canada is unsurpassed anywhere in the world" writes the "Free Press" editorially, and adds: "In the marketing of Western wheat the outstanding development of recent years, of course, has been the creation of the Pools—the most ambitious undertaking which has resulted from the co-operative movement of the Western farmers."

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

The celebrated pianist had played a difficult classical piece. As he finished the small daughter of his hostess came up to him and squeezed his arm. "I can't play that either," she said sympathetically.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

"Sir, I have courted your daughter for six weeks."

"Well, what do you want?"

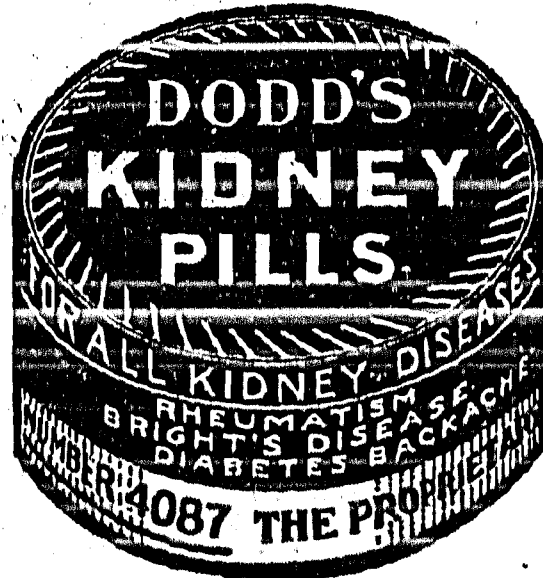

"To marry her, of course."

"Good, I thought you wanted a pension or something."—Ideas.

## CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Minesing, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I feel I owe my life and strength to it."—Mrs. NEAL BOWSER, R.R. 1, Minesing, Ontario. Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and it is taken regularly and persistently will relieve this condition.

W. N. U. 1618

## EFFICIENCY IN TUNING

It takes years of careful training, then more years of hard work satisfactorily performed before the words "experience" and "ability" take on their full meaning, and I have qualified on both these points.

Coming strongly endorsed by the best authorities in Canada—piano manufacturers who are positively particular where they put their signature as follows: Dominion Piano Co., Newcombe, Piano Co., Fletcher Bros., Gerhard Heintzman, House (Vancouver), Mason & Risch Co. (Vancouver), David Ross, teacher of vocal, Vancouver, and others of highest authority.

The above fine letters, and 16 years of success in this field mean the finest possible results on your piano in tuning and action, regulating, cleaning and positively proper pitch.

### Alvin E. Perkins

Will be in Creston in December or January, and will make his regular calls.

## WATER NOTICE

TAKE NOTICE that Creston Reclamation Company, Limited, whose address is Creston, B.C., will apply for a license to divert the Goat River for the purpose of lowering the flood water level of a portion of the Kootenay Flats.

The depth it is proposed to lower the level of the water is a maximum of twenty feet. The point at which the Goat River will be diverted from the Flat is located at the southeast corner of Section 4, Township 8, Kootenay District, and the water so diverted into the Kootenay River by an artificial waterway.

The reason for the proposed diversion and lowering the flood water level is the reclamation of a portion of the Kootenay Flats. This notice was posted on the ground on the 10th day of November, 1923. A copy of this notice and an application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder at Nelson, B.C. Objections to the application may be filed with the said Water Recorder, or with the Commissioner of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Date of the first publication of this notice is November 12, 1923.

CRESTON RECLAMATION COMPANY, Limited, Applicant.

By A. L. McCulloch, Agent.

### Notice of Application for the Approval of Reclamation of a Portion of the Kootenay Flats.

TAKE NOTICE that Creston Reclamation Company, Limited, will apply to the Minister of Lands for the approval of the plans of the works to be constructed for the reclamation of a portion of the Kootenay Flats.

The plans and specifications of the said works will be filed in the office of the Commissioner of Water Rights at Victoria, and duplicates of such plans and specifications will be open to inspection in the office of the Water Recorder at Nelson on or about the 1st day of December, 1923.

Objections addressed to the Minister may be filed with the Commissioner at any time prior to the expiration of thirty days after the first publication of this notice.

Date of the first publication of this notice is November 12, 1923.

CRESTON RECLAMATION COMPANY, Limited, Applicant.

By A. L. McCulloch, Agent.

## GOVERNMENT LIQUOR ACT

### Notice of Application for Beer License

Notice is hereby given that on or after the third day of December next the undersigned intends to apply to the Liquor Control Board for a license in respect of premises to be known as Pinehurst Inn, at South Slokan, Lot 2, Block B of Lot 303, Group 1, Kootenay District, Nelson Land Registration District, in the Province of British Columbia, for the sale of beer by the glass or by open bottle for consumption on the premises.

Dated this 9th day of November, 1923.

KENNETH CAMPBELL, Applicant.

## MINERAL ACT FORM F

### Certificate of Improvements

### NOTICE OF APPLICATION

**Jolly Boy, Babcat and Ban Ton Mineral Claims, situate in the Nelson Mining Division of West Kootenay.**

Where located: On Iron Mountain, north-western corner of Kitchener, B.C. Legal holder: Charles Plummer Hill, of Victoria, B.C. Number of the holder's Free Miner's Certificate: No. 2461-D.

TAKE NOTICE that I, G. A. M. Young, Free Miner's Certificate No. 4004-C, acting as agent for the said Charles Plummer Hill, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under Section 45 of the Mineral Act, must be commenced before the issuance of such Certificates of Improvements.

Dated this 21st day of October, A.D. 1924.

## 10 Years' Progress in This Province

Address by Premier Oliver at Victoria Chamber of Commerce Luncheon

"This toast," he said, "opens up a very wide subject. If you will take a map of the province and attempt to locate thereon the population you will find that this population occupies a very small fraction of the total area of the province. I might say that British Columbia is only populated in spots. We often speak of the wealth of the natural resources of the province. We think of its timber, we attempt to visualize its saw mills from such huge establishments as that of the Fraser River Mills or the Victoria Lumber company at Chemainus, down to the modest, portable machine cutting railway ties or box shooks. We think of its magnitude of wood working plants in the different sections of the province. We think of the large paper manufacturing plants, such as that at Powell River, and all together we feel a personal satisfaction when we contemplate the timber wealth of the province.

Probably our next thought will be as to the mineral wealth of the province which for the year past amounted to approximately \$60,000,000. We think of the Consolidated Mining and Smelting company's plants at Trail and its mines at Kimberley and other places. We think of the mineral wealth of the district surrounding the town of Stewart and of the Premier mine with its immense production of gold and precious ores. We think of the coal mines at Fernie, Michel, Coalmont, Merritt and Nanaimo and other places. We think of the undeveloped coal fields in the Bulkley, Queen Charlotte Islands, the Groundhog country and Peace River and other points.

We turn in passing to consider the fishery wealth of the province which produces nearly one-half of the total fishery products of Canada. We think of the canned salmon and frozen halibut, of the herrings and smelts, the lake and sea and mountain trout, of our shell fish and even of the whales which inhabit the Pacific ocean. We think of the production of fish oils and fertilizers.

We next turn our eyes to the product of the soil, to the livestock and dairy industry with its butter and cheese and milk, to the production of pork, beef, mutton and poultry, to the production of fruits large and small, to the production of vegetables and almost every kind of produce adapted to a temperate climate.

We think of the vast expansion which is possible in connection with all these great natural resources and we wonder why we progress so slowly, and yet after all if we turn to the statistics of production we find that our progress has not been so very slow after all. We find that the value of our agricultural products increased from \$37,000,000 in 1917 to \$65,000,000 in 1925, an increase for the eight years of over \$27,000,000. We turn to our fisheries and we find that production for 1921 approximated \$14,000,000, whilst the production for 1925 exceeded \$22,000,000.

We turn to our industries and we find that the number of manufacturing plants in 1917 was 1,772 and in 1924 it was 3,556, an increase of over 100 per cent. We turn to the number of employees and we find in 1917 they were approximately 40,000 and in 1924 they were approximately 73,000, an increase for the seven years of 82 per cent. We turn to the industrial payrolls of the province and we find that in 1917 they were approximately \$32,000,000, whilst in 1924 they exceeded \$107,000,000, an increase of 234 per cent for the seven years.

We turn to the statistics in regard to education. In 1915-16 the departmental expenditure amounted to \$1,740,000, whilst in 1924-25 it amounted to \$3,223,000, an increase for the nine years of \$1,483,000. We turn to the number of pupils enrolled and we find that in 1915-16 they were 84,570 and in 1924-25 they were 97,964, an increase of over 51 per cent.

If we look at progress from the standpoint of opportunity we may say that it is slow; if we look at it from a comparison of conditions today with that of a few years ago we find that our progress has really been rapid.

I now turn to matters of a more local nature. The Saanich Peninsula is noted for its production of small fruits, the market for which is chiefly in the prairie provinces. These fruits

nearly all move in refrigerator cars and under express rates. You will agree with me that the question of transportation of small fruits is something very important to the growers of this district. We turn to the express tariffs and we find that Canada has been divided into rate zones, that the zone between the Atlantic coast and Fort William carries a first-class express rate of \$6.20 per 100 pounds for 1,000 miles, that the prairie rate is \$7.55 and the rate in British Columbia \$3.90 or nearly 50 per cent in advance of the eastern express rate. We find another peculiarity in regard to these rates and that is if a shipment is made from any part of British Columbia to any part in the eastern zone that shipment pays the high British Columbia rate right through to the point of destination. Again we find that an express consignment from Eastern Canada to British Columbia also carries the high British Columbia rate all the way across the continent. I do not think any argument is required to show that these rates work out an injustice to the fruit grower in the Saanich district. You will probably say or think 'This man is getting back to his old hobby of transportation rates.' But I can assure you that I am not going to pursue this matter farther tonight than to say that the government is endeavoring to have this grievance removed.

I want now to refer to a local industry, that of the manufacture of loganberry wine. I think it was about 1922 or 1923 that the loganberry growers from this district appealed to the government for financial aid to enable them to take care of their production. In 1923 a company was formed, consisting of Saanich fruit growers, for the purpose of manufacturing wine from the surplus loganberries of the district, and if my memory serves me aright the government assisted in the formative period of this industry by a loan of money, and without government assistance I very much doubt whether this industry would have been established. In 1925 it produced 7,500 gallons of wine, in 1924 25,000 gallons, in 1925 65,000 gallons and in 1926 110,000 gallons were produced in Victoria and 100,000 gallons in Vancouver, so that you will see that in three years the production of loganberry wine has increased from 7,500 to 210,000 gallons. I am advised that for the produce of the present year \$48,000 was distributed amongst the Saanich fruit growers as a result of this industry. The industry may now be said to have reached the point of saturation—that is that the quantity produced is sufficient or more than sufficient to meet all the local requirements and a market for the surplus must be sought for outside of British Columbia. When this product leaves the province it has to meet in competition the production of Ontario and of other countries which import into Canada, and when any production has

to be marketed in competition the cost and transportation must be within the limit which competition forces upon the industry. It is questionable whether this industry can be extended into the field of competitive marketing and the present prices for fruit and the cost of production be maintained. To my mind this is a question which the loganberry grower ought to ask himself very seriously, that is, can he produce berries for the purpose of being manufactured into wine at a price which will enable the manufacturer to meet competition in markets outside the province. I am not competent to pass an opinion or to frame an answer to such a question.

There is another matter that I would like to touch upon, and that is the wastage of fruit in this province. It is common in the fruit growing areas to see the ground under the trees covered with dropped fruit which I think should be converted into an edible product. I have never advised that large quantities of fruit which have been picked and taken to the packing houses are rejected for various causes, and that in the past this fruit or a very large portion of it has been wasted. Economy would indicate that this fruit could and should be utilized. I have positive knowledge that the juice can be extracted from the apples and converted into either sweet or hard cider. I know that rejected apples could be dehydrated, and I know that a considerable quantity of fruit which now goes to waste could be converted into jams and jellies. It is not necessary for me to dwell farther on the subject.

There is one other asset of the province which to my mind is more important than all these I have mentioned, and that is the human asset. I think you will agree with me that it is a matter of history that while natural resources are of great importance no nation on earth has attained a position of pre-eminence unless the people of that country were as individuals of a superior class or type. To my mind there are at least four traits of character which are necessary to the upbuilding of a nation. There must be intelligence, industry, thrift and adaptability to conditions. There is no royal road to success. This morning on the beautiful grounds in front of the parliament buildings there was held a public service in commemoration of Trafalgar Day, a very impressive ceremony. The signal that Nelson flashed to his fleet that England expected every man to do his duty, has come to us unimpaired in its force through the years which have elapsed. There is the same necessity for both men and women doing their duty today, each in their sphere of activity, as there was for the members of the British fleet on the day of which this is the anniversary. Without the performance of that duty Canada cannot attain to the eminence to which her resources entitle her;

and I cannot more fittingly close than by expressing the earnest desire that each and everyone of us shall perform his duty to British Columbia, to Canada and to the Empire, just as was done in that great battle of Trafalgar, one of the outstanding events in the history of the British nation.

## SYNOPSIS OF LAND ACT AMENDMENTS

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 3,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free or partially free permits are available for settlers, campers and travellers, up to ten head.

## What Mean Ye By This Service

Armistice Day Address at Creston by  
Rev. S. Newby

Armistice Day is a day of thanksgiving—a thanksgiving for deliverance. Many of the children present have no conception of the horrors from which humanity was delivered. They ask the elders what is meant by all the activities

of Armistice Day, and we narrate the deliverance. Just as the children of Israel were delivered under the blood-sprinkled door from the destroying angel, and as they were commanded to tell their children of the deliverance, so should we tell the generations to come of the deliverance from tyranny—the spirit that threatened to rule the world had the Allies succumbed.

The call of the bugle "Cease Fire," meant a sudden change from destruction to construction.

The bugle called men to new activities.

We Give Thanks For Movements Towards World Reconstruction

One of the greatest and epoch-making events since the war, has been the formation of the League of Nations, and of more recent date, the entry of our past enemy into the League. Men would call us never to forgive, but the Christian nations have operated the call of Christ 'Forgive your enemies.' Only in such a way can Germany recover herself.

Another movement, little valued by the masses, but of supreme importance, is the world movement of Christian churches towards greater unity. Shortly there will meet the world conference of Faith and Order (1927 in Switzerland; there has been formed a World Alliance for promoting International friendship through the churches. The Anglican Communion issued from the last Lambeth conference the appeal to all Christian people—an appeal for unity. The work of that appeal has led to greater conferences of all churches throughout the world; the seed has been sown; the plant is developing. We have had the union of some of the churches in our own land, with the hope of still further and more spiritual union. The present union is a step in that direction.

The industrial world has seen new movements since the war. The New World, being built on new conceptions of social life, has not the difficulties confronting the peoples of the Old World. The great strike in the Old Land need not create pessimism; the old order is changing for a better conception of social life.

### What of The Future?

We don't want war, but wars will continue until the peoples make war against themselves. Bishop Nicolai of Serbia, writing two years ago of 'After the War in Serbia,' said: 'The war within ourselves will rid the world of war.' Christ stands for bloodless revolution; the revolution against one's self. The world wants unity, and the way of unity for the world is the way of the Cross—'Via Unis Via Unitatis'.

The progress of the unity can be accomplished if we THINK INTERNATIONALLY. Nationalism puts Christ into the background. Even the Imperialism of the Empire is temporary; it will be superseded by a greater commonwealth of nations.

We must PRESERVE THE HOME LIFE. There are dangers of the disruption of the home life.

Russia practically obliterated marriage, and the proportion of dissolved marriages in one state across the line is one in four. The danger is an international one. The ministers of Christ stand to proclaim the sanctity and unity of the home life.

We must PRESERVE OUR RELIGION. Not merely preserve the name, but the reality. The reverence of God means the salvation of a nation.

**A. Mirabelli**  
Shoe and Harness Repairing

We must PRESERVE OUR LIBERTY. Our boys died for that end, for liberty to do right. Movements are on foot to prohibit men doing that which cannot be proved immoral. Before we legislate we must prove what we attack to be immoral, or we must find other methods of dealing with an evil. If the legislation proves a failure does it not suggest our methods are wrong. There is no liberty in coercion.

**Loyal Orange Lodge, No. 2095**

Meets **THIRD THURSDAY** of each month at Mercantile Hall. Visiting brethren cordially invited.

## Creston is Oversupplied with Dairy Butter!

Some of it is good, some of it is bad, and a lot of it is indifferent.

But all of it is sold in wrappers marked "Choice Dairy Butter."

Buyers have no way of telling who made the particular pound they happen to buy—be it good, indifferent, or poor stuff.

And worse still—for the good buttermaker—so long as this haphazard way of putting butter before the public continues the demand for Dairy Butter will fall off.

If you are one of at least a few who make really good butter why not let folks know your butter by using PRINTED BUTTER WRAPS—showing your name.

They cost very little more than the readymade sort you use now—to your own disadvantage.

By way of inducing you to use the printed sort—with your name printed on them—we will supply you with FIVE HUNDRED Wrappers at the popular price of \$3.00.

It's a pleasure to show samples.

## Immigration, Work and Prosperity

Notwithstanding that one of Canada's greatest needs is a larger population, the amazing fact is that whenever immigration shows a substantial increase, and it becomes apparent that the tide of settlement is setting in strongly Canada-wards, an outcry is raised in labor circles and influences are brought to bear to discourage immigration. Nor is organized labor alone in voicing objections and offering opposition. Frequently church bodies, and sometimes national societies, adopt the same attitude.

This opposition to immigration sometimes finds expression in an attempt to induce the Government and other agencies interested in immigration to discontinue, or greatly curtail, their efforts to induce immigration to Canada. At other times it is revealed by a campaign of the most mischievous, misleading and, not infrequently, absolutely false statements regarding Canadian conditions, a most unpatriotic proceeding.

Most of this opposition is the result of ignorance or the acceptance of half-baked theories on the part of those who seek to prevent or restrict immigration. Some people object to anybody being allowed to enter Canada unless they speak the same language, dress in the same fashion, and worship at the same altar as they themselves do. These timid souls are fearful that they may be swamped, and they insist on Canada being regarded as a special preserve for themselves set aside in the world by an all-wise Providence with "No admittance" signs against people from other lands. They refuse to recognize the fact that all the great national groups of today, including the British, are the result of a fusion, an assimilation, of races.

Organized labor, on the other hand, opposes immigration because a majority of labor union members entertain the mistaken idea that by maintaining a scarcity of labor, the opportunities for employment of those already in the country are enhanced, and that higher wages will likewise prevail. The economic and industrial history of the world proves otherwise.

A Melbourne, Australia, man writing in the London Daily Mail declares that progress and development in Australia are both being stifled and held back by the excessive cost of labor. One of the crying needs of Australia to bring about permanent prosperity is the carrying out of irrigation schemes on a huge scale. The recent drought has once again emphasized the old lesson, and it is known that under the benign skies of Australia simple methods of irrigation like those practised by the peasants of Lombardy would produce astonishing results. But the problem of Australian irrigation is said to be like a hundred other problems there. It is easy to point out what might be done and what should be done, but much more difficult to get it done. The high cost of labor makes it impossible. As a result the farmer and his family struggles along as best they can with rude skill and appliances, but with low efficiency, postponed improvements, and backwardness of agricultural development.

The Labor Unionist looks on immigration as threatening his employment and as a menace to the established standard of wages. He refuses to see that a still greater menace lies in the retarded development of his country, but which development would bring increased employment and good wages for all. He overlooks the fact that immigration, upon a scale which Australia will almost certainly never experience, had little or no effect upon the standard of employment and wages in the United States; rather did it maintain that standard by incessant expansion. The one thing to keep up, or augment, wages in Australia, or in Canada for that matter, would be great area of development. Compared with what it might be the rate of present development is slow.

The most prosperous period in Canada in the experience of the present generation was during those years following the introduction of an aggressive immigration policy under Clifford Sifton, and when immigrants were pouring into the country. Following the depression of the after-the-war years Canada is once again experiencing better times and an increasing measure of industrial activity and prosperity, with employment plentiful and wages good, and at the same time immigration is heavier than at any time since the outbreak of the war, with an increase of 68 per cent over last year.

And because of this increase immigration, once again the cry is raised to put a stop to it. Canadians as a whole are asked by one section of the population, and for purely selfish and utterly mistaken reasons, to kill the goose that is laying the golden eggs for the Dominion of the present day, while at the same time being productive of a greater development and more prosperous future.

### Cobra Deaf to Sound

The cobra is deaf to all sounds, its hearing apparatus consisting of a delicate membrane which receives only ground vibrations. Indian charmers, knowing this, tap the box or basket in which the reptile is kept, partly stimulating the creature by the force of the vibrations. It is thus rendered tractable so it can be handled.

### Will Not Eliminate Fools

Perhaps the effort to invent a "fool proof" airplane will be successful. There is no reason to doubt that aviation will become safer as human ingenuity develops new devices. But "fool proof" is a large claim. Older means of transportation are not that. And the supply of fools is not likely to be exhausted.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER: Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Wm. A. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

### Peace River Coal

Millions of Tons Superior to Highest Grade American Coal

There are millions of tons of very high grade bituminous coal in the Peace River district of Alberta, of a quality superior to the highest grade of American coal, according to D. H. McDougall, former general manager of the Dominion Iron and Steel Company and vice-president of the Empire Steel Corporation, who is in Halifax after a visit to the Alberta coal deposits, about which he has prepared a report.

Mr. McDougall said he did not think the development of these coal fields would affect the coal industry in Eastern Canada, as Alberta coal would always find a ready market along the Pacific coast of the United States.

He described the Peace River district deposits as being the "greatest in Canada" and said they were available for mining at the lowest operating costs.

### Meet Success on Canadian Farms

Britishers Train in Old Country to Learn Conditions in Canada

So successful on Canadian farms have been young bachelors who, prior to residence in this country were students in agriculture at the Hadleigh Salvation Army Schools in Essex, England, that the Army will shortly receive into those institutions their first classes of married men destined for farm lands in the Dominion. The course will be given during six months, and will mean a thorough training in branches of agriculture, particularly adapted to conditions in Canada.

### Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oil preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35 cent bottle from your dealer to-day.

### Vancouver a Busy Port

According to statistics prepared by the Vancouver Merchants' Exchange, the foreign trade export of the port has increased 400 per cent in the past five years, while the import trade has increased 51 per cent.

### A HAPPY CHILDHOOD A MATTER OF HEALTH

Let Baby's Own Tablets Keep Your Children Well

Little children very quickly get out of sorts. By prompt treatment they can usually just as quickly be set right again. Most of their troubles arise in the first place from the stomach or bowels; that is why a good cleaning-out is the first thing prescribed by the doctor. Formerly castor oil was the means used to bring this about; now-a-days Baby's Own Tablets do the same work, but without trouble to the parent or discomfort to the little one. Children take Baby's Own Tablets happily because there is no nasty taste and because no gripping after-pains follow their use.

As a specific for childhood indigestion, vomiting, constipation, colic, colds, teething pains, etc., there is nothing to equal Baby's Own Tablets. They never do harm and always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Carry Fish by Airplane

Dr. Chalmers Mitchell, secretary to the Zoological Society of London, flew from Paris to London recently in a Handley Page Napier air liner of the Imperial Airways, belonging in two tanks 400 sea horses, caught the previous night in the Bay of Biscay, to replenish the tanks at the London Zoo aquarium.

Worms in children. If they be not attended to, cause convulsions and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

The meaning of the three balls in front of the pawnbroker's shop is that it is three to one the proprietor wins.

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acetic acid of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### Clergymen Live Longest

Live Longer Than Any Other Class of Men in England

What is the healthiest job in England? Clergymen live longer than any other class of men, the government statisticians of Somerset House show. Gamekeepers on the great estates, printers, gardeners and makers of candles and glue, closely followed the preachers in the longevity records.

It has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

### University to Receive Grant

The University of Saskatchewan, which for the past two years has been conducting special courses for field men for lending institutions, is to receive a grant of \$1,000 from the Dominion Mortgage and Investments Association, in recognition of the value of this work, to financial institutions.

It is common knowledge to Arctic and Antarctic explorers that sea-ice more than a year old is entirely free from salt, although new ice contains the same amount of salt as sea water.

### Coal In Sardinia

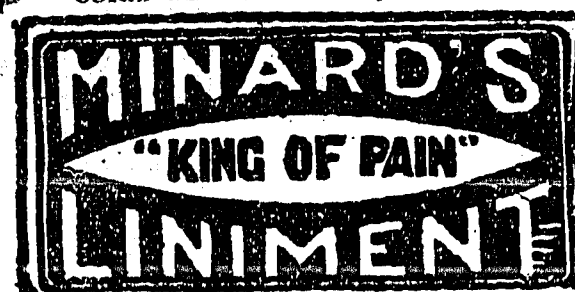

Vast coal and iron fields have been discovered at Perdusdefogu, in the province of Cagliari, Sardinia. The coal, estimated to total 30,000,000 tons, is said to belong to the same class as English anthracite.

When Asthma Comes do not despair. Turn at once to the help effective—Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the aid you need so sorely. Coughing ceases, breathing becomes natural and without effort. Others, thousands of them, have suffered as you suffer, but have wisely turned to this famous remedy and ceased to suffer. Get a package this very day.

It might be possible for a man to write a sensible love letter, but he seldom does.

### HUNTERS

Pack a bottle of Minard's in your kit. Best remedy for sprains, bruises, flesh wounds, colds and sore feet.

### It's The Lace Effect In A Tiffany Bread Wrap

That Makes It Suggest A Superior Quality Loaf

If you make good bread, a Tiffany Bread Wrap will become it admirably. For the lace design in the wax appeals to a woman's fancy—and makes good bread look its best.

Besides, the lace design hides folds and creases in the paper—keeps the loaf fresh-looking.

Bakers are enthusiastic about this wrapper because it is selling lots more bread for them. Customers instinctively prefer the quality loaf in the lace design Tiffany Wrapper. Write for samples and prices today.

## Seed Treatment Of Wheat To Control Smut And Other Diseases Gives Larger Yield

That crop losses caused by parasitic organisms such as fungi and bacteria, amount to many millions of dollars annually is the statement made by the Natural Resources Intelligence Service of the Department of the Interior at Ottawa. The remedy is seed disinfection.

Dr. Clayton Roberts Orton, Professor of Plant Pathology at Pennsylvania State College is engaged in research along this line and has been able to trace the spread of plant diseases through seed distribution in many cases. Through the sale and distribution of infected seed, parasites have been widely distributed throughout the production areas of the world. Some parasites, such as the cereal smuts, are known to be distributed wherever these crops are grown.

Seed treatment of wheat, oats, barley, etc., will control smuts and other diseases and result in a yield increase valued greatly in excess of the expense involved. For seed disinfection, formaldehyde, copper and corrosive sublimate have been generally considered standard, but each has its limitations. More recently organic mercuries have come to the attention of scientists studying the problem of seed disinfection. These appear to be superior to any material previously used, giving as wide a range of toxicity to parasites and a much wider margin of safety.

Seedsmen are beginning to evince interest in seed treatment and it is predicted, that in a few years only disinfected seed will be sold or seed produced under such conditions as to be relatively free from seed-borne parasites.

### Tankage for Nursing Sows

Provides a Useful Part of the Ration, As Shown by Tests

Tankage has been proved at the Brandon Experimental Farm to provide a useful part of the ration for sows raising litters. A test was made with three sows with litters of twenty-seven pigs, and three with litters of twenty-eight all approximately of the same age. The meal ration fed one group was made up of oat chop two parts, barley chop one part, bran one part, and shorts one part, with three per cent oil cake meal added. The second group was fed a similar ration but included two per cent of tankage. Seven pounds of meal per sow per day were fed in each case. The extra cost of feeding the sows with tankage for twenty-five days was .63 cents. The sows receiving the tankage lost 29½ pounds less than those in the other lot, while the litters of tankage-fed lot gained 12½ pounds more than those in the check lot. This test is reported in the Brandon Experimental Farm report for 1925, available at the Publications Branch of the Department of Agriculture, Ottawa.

### Okanagan Fruit Crop

Estimated That Apple Crop Will be Heavier This Year

It is estimated by the Horticultural Department of the Provincial Government that the apple crop of the Okanagan district will reach a total of 3,217,000 boxes, as compared with the total crop last year of 2,553,449 boxes. The crab apple estimate is for 117,850 boxes, as compared with 115,623 boxes last year; pears 100,900 boxes, compared with 16,484; plums and prunes, 215,350 boxes, as against 77,766 boxes last year.

### European Wheat Crop Less

The wheat crop of Yugoslavia is officially estimated at 77,970,000 bushels as compared with 78,646,000 last year, according to a cable received by the Department of Agriculture at Ottawa. The total wheat production of nineteen European countries is 960,694,000 bushels against 1,023,823,000 last year, a decrease of 63,000,000 bushels.

A two weeks' vacation goes about as quickly as the days to pay the monthly rent come round.

When it comes to securing the earth a detective often can give a scrub-woman a few pointers.

W. N. T. 1926

### Electricity and Steam

Electrification of Railways Now Beyond the Experimental Stage

Electrification of railways is well beyond the experimental stage in London and in several of the large provincial cities, such as Liverpool. It gives greater speed, a more frequent service of trains, and a pleasant immunity from the smoke and dirt inseparable from steam locomotion. Technical authorities incline to the opinion that the big towns will be girdled by gradually widening circles, but that steam will, at least for many years, hold its own for long distance haulage. The progress already recorded is so satisfactory that we can afford to possess ourselves in patience and await future developments.

### Northern Alberta Crops

Oats Will Yield Sixty to Seventy Bushels to the Acre

Thirty bushel wheat crops will be common in the northern agricultural districts this year, according to estimates given by agents along the lines of the Edmonton, Dunvegan and British Columbia Railway. From every district—except one—indications are that a bumper crop will be harvested in the Northland. In the majority of districts oats will yield sixty to seventy bushels per acre, with barley running in the neighborhood of forty bushels per acre.

Farmer (to chemist): Now be sure and mark plain on them bottles which is for my wife and which is for the cow. I don't want nothin' to happen to that Jersey cow."

### Succulent Annual Pastures

Palatable and Profitable Green Feed for Livestock

There are three succulent annual pastures particularly grown in this country. These are rape, kale and cabbage. The last named is not often referred to as regards its quality as a forage plant, but as stated in a recently issued pamphlet by the Forage Crop division of the Central Experimental Farm at Ottawa, the Savoy (wrinkled leaf) and Drumhead (smooth-leaf) types make a succulent, palatable and profitable addition to our annual pastures. Experiments in the cultivation of these crops have been conducted for several years at the Central and branch farms and stations throughout Canada. High moisture makes them difficult to cure, but also is responsible for their giving satisfactory results when pastured or fed green.

In the pamphlet, which is available at the Publications Branch of the Department of Agriculture, Ottawa, is given a table of results from tests at the Central Experimental Farm and also quotations from reports received from different branch farms and stations in all the provinces, showing the suitability of these fleshy annual crops for a wide range of soil and climatic conditions. In Prince Edward Island rape has proved good pasture in the fall for steers. In Nova Scotia it has proven the same for hogs. Brandon, Manitoba, results indicate that rape has an important place as a quick pasture for cattle, sheep and hogs. It recovers quickly from frost. Rape is generally known throughout the west as affording good pasture for lambs, brood sows and growing pigs.

Kale is grown extensively in the Fraser Valley and on Vancouver Island and has proven one of the best available green foods for poultry and for milch cows.

## Homestead Entries In West To Date Are Reported Greater Than For The Entire Year 1925

### B.C. Honey Yield

A Wide Variety of Flavors in Coast Province Product

British Columbia, apparently, is the only province where the honey yield is expected to approach normal, and even in this case the crop is described as spotty. However, as high as 25 cents per pound is being bid for the product from the Pacific Coast, and despatches indicate there will be no difficulty in disposing of any surplus over home requirements in the Prairie Provinces.

While there is a wide variety in flavor of honey in any section, because bees gather the nectar from many different sources, that made in British Columbia, on account of the great range in climate, seems to be distinct from any other in the Dominion. The honey coming from apiaries located in the mountains has a particularly pleasing flavor in most cases, but just what plant is responsible for this is not altogether known. Bees may in a few minutes reach a spot on the mountain side that is almost inaccessible to man. Prospectors have reported seeing bees working over a plant, locally known as false Heather which grows on high, rocky ledges.

### Alberta Wheat Pool

Four hundred thousand additional acres in the province have been signed up during the present year, according to an announcement made by officials of the Alberta Wheat Pool. The Alberta Pool expects to handle sixty per cent of this year's crop.

Too many men try to adjust their religion to fit their business.

Homesteading on Government land in Canada showed a large increase for the first seven months of the present year, says a Canadian Pacific bulletin. In this period a total of 3,830 homesteads were filed on in Western Canada, as compared with 2,086 in 1925, an increase of more than 8 per cent. Every province showed a substantial gain, the largest being in Manitoba, where the number was 683, as compared with 269 in 1925. Other filings were: Saskatchewan, 1,711, against 927; Alberta, 1,347, against 806; and British Columbia, 89, against 74.

The bulletin says that these filings accounted for the settlement of 612,300 acres of land, and that if only half of this acreage were seeded to wheat and produced the average yield of last year, it would have raised the production of western wheat by nearly 6,000,000 bushels. The bulletin continues:

"The homestead entries for the first seven months of 1926 are greater than for the entire year 1925, and approximately equal to the entire filings of the year 1924."

### Unemployment in Britain

Over One Million Persons in Receipt of Poor Relief

On one day in July of this year 1,080,948 persons were in receipt of poor relief in 31 selected areas of Great Britain. While this is 1.7 per cent less than the previous month, it is 53.9 per cent greater than in July, 1925. According to advices just received by Bankers Trust Company of New York from its British Information Service, 604 out of every 10,000 of the estimated population were in receipt of aid in July of this year compared with 614 in June and only 394 in July of last year.

Of the above total of 1,080,948, 909,045 were persons living in England or Wales, and of this total 114,784 received indoor relief and the balance, 794,261, received outdoor relief. In Scotland the total receiving aid was 171,903, of which 9,484 received indoor relief and 162,419 outdoor relief.

### New Feeder Purchase Policy

To Encourage Eastern Livestock Men to Purchase Feeders in the West

The new feeder purchase policy recently authorized by the Minister of Agriculture, will be in effect from September 1 to December 1. This is for the purpose of ensuring the success of the feeder shows to be held in Western Canada this fall, and to provide an opportunity to farmers in Eastern Canada to perfect a connection with Western ranchers for the securing of their annual supply of feeder cattle and feeder lambs. Under the terms of the policy, the Live Stock Branch will pay the reasonable travelling expenses of a farmer from Eastern Canada who purchases one or more carloads of stock at the Western sales to be brought back East for feeding purposes.

### An Old Irish Tune

The tune "Yankee Doodle" is not American at all but Irish, says Dr. Gratton Flood, an Irish authority on musical history. He asserts that "Yankee Doodle" was originally an Irish air known as "All the Way to Galway." Also "God Save the King," the British national anthem, Dr. Flood says, is an old Irish tune which originated about 1595.—London Despatch.

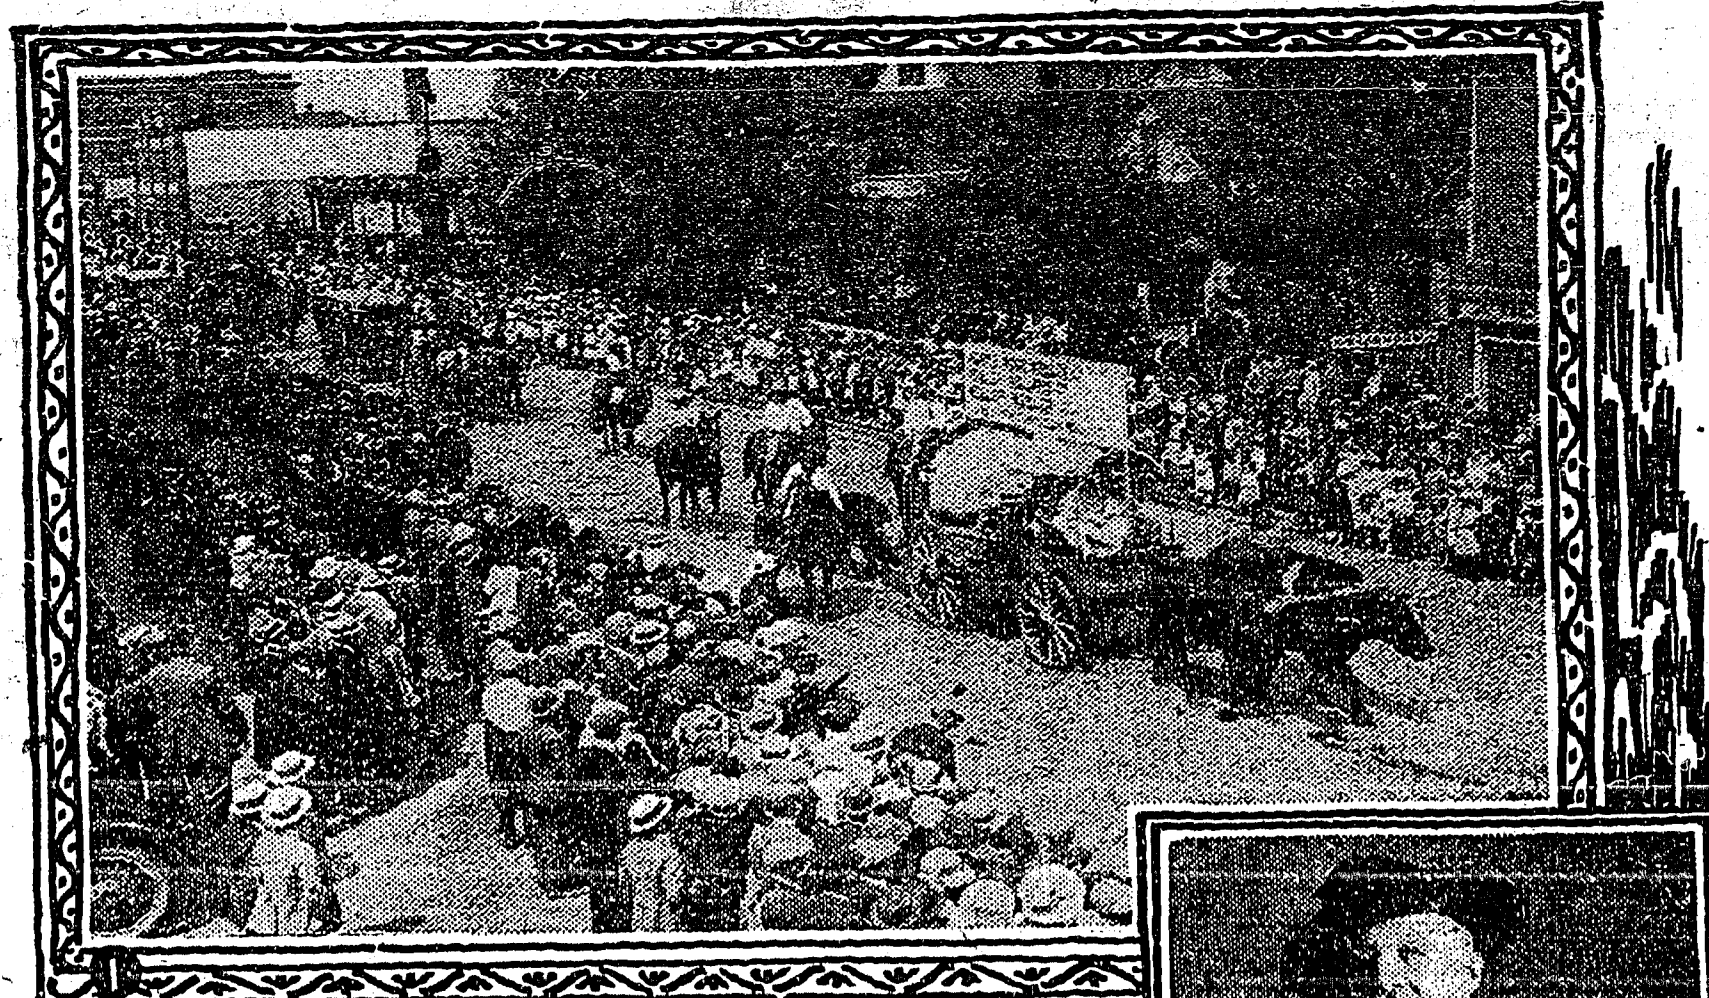

### Marconi Lives on Yacht

Signor Marconi practically lives on his yacht. His crew consists almost entirely of Italians, but every man is specially trained and everything goes like clockwork. Marconi is always making wireless experiments and he cruises incessantly from port to port round the coast of Britain, seldom sleeping on shore two nights in succession.

### New Motor Oil

Chemists, seeking a substitute for castor oil, which has to be imported, have found a way to secure the oil from grape seeds. This is said to be of very high quality and suitable for airplane engines. Seven or eight gallons of oil are taken from the seeds in a ton of grapes.

## "Daddy" Blair of the Wild and Woolly West

1. One of the stampedes Dad attended. 2. Blair dressed as Cowboy taking part in Hudson Bay Parade, 1923, at the age of 89.

A world-weary Old Timer, one of the pioneers of the Canadian West, died recently in Edmonton at the age of 94. He was known as "Daddy" Blair, but his real name was Telesphore Alexander Blais. As a scout, soldier and adventurer he carried the Hudson's Bay Company flag into the remote corners of the West for half a century, finally bowing his sturdy shoulders before the ravages of age. Since the inauguration of stampedes in various cities in the West, Daddy was always one of the first to attend no matter how much he felt the weight of his years. He made his last effort in 1920 when he attended the Hudson's Bay Parade in Edmonton at the age of 89.

Dad was only fourteen years of age when he left the old homestead near Montreal. The glamour, the excitement, the rush and uncertainty of circus life, the shouts of the performers, the tumultuous applause of happy pleasure-seekers, lured him. Even the dust bit into his blood and away went Dad around the world with Barnum's circus.

One day in London, Daddy was driving one of Barnum's eight-horse teams. A little red ran suddenly in-

to the street. There was a shout, a shriek from one of the spectators, and before anyone knew what was happening Daddy had wrenched the ponies almost completely around, saving the child's life by about two inches. In the mix-up Daddy fell into the muddy street, ruining his clothes. Her Majesty Queen Victoria, who happened to witness the scene, called the next day, shook hands with Daddy and had a suit of clothes sent to him.

Blair started for the Northwest in 1852, walking from Ottawa to Fort Garry. When the Canadian Pacific Railway was building into Winnipeg he was put to work on a gang under Tom Scott, who was later the first victim of the Riel Rebellion. It was Scott who changed Blais' name to Blair.

For over thirty years the Man Who Wanted Adventure went up and down the country. He served as a scout for General Strange; he was attached to the service of Lord Strathcona, then Donald Smith of the C.P.R., he carried mail for Hudson's Bay Company over the Crow's Nest Trail; and he narrowly escaped being burned to death by Indians. Daddy got the adventure he had thought he wanted

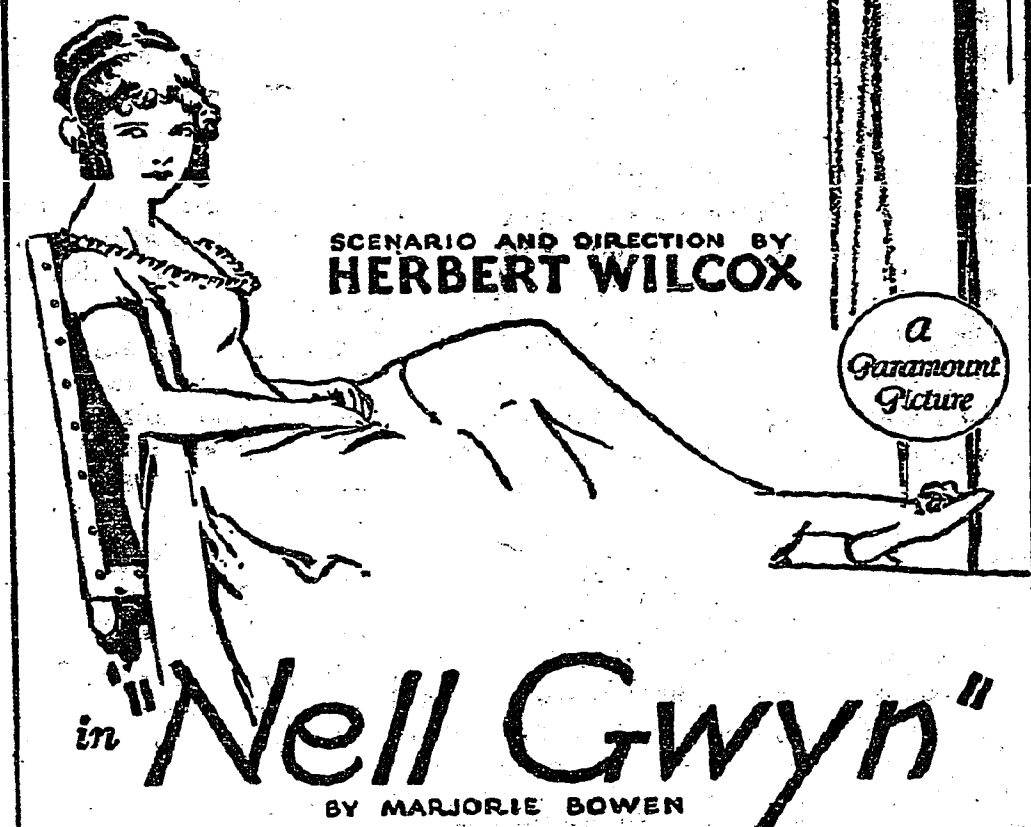

and he died more satisfied than many another man would have been.

For many years, in the sunset of his life, Daddy was a familiar figure on the streets of Edmonton with his silvery patrician mustache and soldierly bearing. But he ended up as a caretaker for buildings, and finally, when the old man could work no longer, he was taken care of by Miss Chatham of the Beulah Mission. Then Daddy's eyes began to grow dimmer. On sunny days he would ask piteously, "Why is it so dark. Doesn't the sun come out to play any more?" So it grew darker, the gaunt frame grew weaker and weaker, and the tired old feet which had carried their burden through a glorious, carefree life of adventure, turned towards the Happy Hunting Grounds where they will have to trudge over rough roads no more.

quire Review Office.

Ohas. Armstrong, assistant C.P.R.  
agent, spent the weekend in Nelson.

Miss Edith Couling is a visitor with  
Nelson friends this week, leaving on  
Sunday.

**FOR SALE**—No. 10 DeLaval cream  
separator, in good shape. Boffey  
Bros., Creston.

**FOR SALE**—Grey French wilton rug  
9 x 10½ feet, \$33. Apply Miss Scrim-  
geour, Creston.

**FOR SALE**—5-room house on two  
acres of land, in Barton Addition. J.  
Adlard, Creston.

A Christmas carol practice will be  
held after service at Christ Church on  
Sunday evening.

The address on Sunday next at  
Christ Church will be on the subject of  
"The Coming King."

Mrs. W. Fisher, Mrs. Burnett, and  
Miss Edith Davies were weekend visit-  
ors with Nelson friends.

**FOR SALE**—Light buggy, set double  
driving harness and set single harness.  
W. E. Kemp, Erickson.

Albert Sherwood, who has been  
employed at Trail for some time past,  
arrived home on Wednesday.

During Advent the addresses at  
Christ Church will be on the Collect,  
Epistle and Gospel for the day.

Miss Daisy Moull of Vancouver is a  
Creston visitor at present the guest of  
her sister, Mrs. Stanley Hendren.

Up to the middle of the month a  
total of 236 cars of apples had been  
shipped from points in Creston Valley.

The estimate now placed on the 1928  
apple crop is not less than 150,000  
boxes. A year ago the crop was only  
44,000 boxes.

**WOOD FOR SALE**—20 cords dry fir,  
cut any length desired, and delivered.  
Also 70 round tamarac fence posts.  
Boffey Bros., Creston.

**FOR SALE**—Wood heater, will take  
2-foot wood. \$6, including a quantity  
of stovepipes. See W. E. Barner,  
janitor at public school.

Remember the Presbyterian Ladies'  
Aid bazaar at the Parish Hall on Sat-  
urday afternoon, 27th, from 3 to 5:30  
o'clock. Afternoon tea served.

Capt. Oatts, the forestry official who  
has just recently located at Creston,  
has been a hospital patient at Cran-  
brook undergoing treatment on his  
face.

**APPLES WANTED**—Wagener, Cox  
Orange, McIntosh Red, Delicious and  
Spitz. State price on orchard run  
also. Finney, McKee & Coulter,  
Fernie.

**IRRIGATION PIPE**—I am now fully  
prepared to make sheet metal irriga-  
tion pipe, sizes from 1½ inch up. Prices  
moderate. J. A. Bell (Lindley Ranch),  
Creston.

**FOR SALE**—Four milch cows to  
choose from, all bred to the great sire  
Poplar Bay Master; two of them  
freshen early in January. E. Non-  
guler, Canyon.

Trout fishing season closed on Nov-  
ember 15th and December 15th in clos-  
ing day for deer shooting, though

ducks and geese may be taken until  
end of December.

An auction sale of the household  
effects of Jas. Adlard is announced for  
Wednesday next, December 1st, at  
2 p.m. Six months' credit given on  
all sums over \$10.

Creston had its first real snow of  
the season on Sunday, when about  
two inches fell in an all day fall.  
Rain and mild weather since has  
taken it off, however.

Misses Lily and Elizabeth Lewis  
were visitors at Nelson a few days the  
past week returning on Wednesday.  
The former was a Kootenay Lake hos-  
pital patient for a tonsils operation.

Word from Calgary is to the effect  
that Dr. Lillie, who is recovering from  
an operation at the General Hospital,  
is progressing nicely but it will be at  
least ten days before he will be able to  
leave that institution.

**BARGAINS**—Three S.C. Rhode Island  
Red cockerels, 309-egg pedigree, \$3.00  
each. White Leghorn March cocker-  
els, \$5 each. If you have any clean  
Alfalfa Leaves my price will interest  
you. Don. Bradley, Creston.

The cold spell on Friday and Satur-  
day saw Fred Waylett busy with the  
flooding of the fall fair building  
which will again be used for a skating  
rink. The mild weather since, how-  
ever, has taken the ice away.

Mrs. R. Stegens, who was the local  
representative at the Kootenay-  
Boundary Women's Institutes con-  
vention at Nelson last week, was fa-  
vored with the conensorship of the  
committee on community needs.

Up to the present but twenty dog  
licenses have been issued in the dis-  
tricts outside the village. The taking  
out of a license is compulsory and a  
whole lot of people are likely to get  
into trouble if they put off their tag  
buying longer.

There was quite a large crowd out  
for the variety concert, with cards  
and dancing, given by the Anglican  
Sunday school scholars of Creston and  
Erickson at the Parish Hall on Friday  
night, at which the cash intake was  
\$46.

Another sale of town property was  
closed this week when C. W. Allan ac-  
quired the four vacant lots on Barton  
Avenue, opposite the town hall. These  
formerly belonged to John Berg, who  
a few months' ago moved to Coeur  
d'Alene, Idaho.

Fred and Harry Smith left on Tues-  
day with logging equipment and will  
spend the winter on a bush lot Fred  
acquired some years ago on the Great  
Northern Railway at Fruitvale. He  
intends to take all the timber off this  
winter, if possible.

R. B. Staples arrived in from Vernon  
at the first of the week. He estimates  
the Okanagan apple crop has now all  
moved out with the exception of 700  
cars, which is a remarkably fine show-  
ing for the anything but favorable  
year for apple selling at prairie points.

John Tait, the expert on Howe  
truss bridge building, who is to have  
charge of the construction of the new

two-span bridge over Goat River on  
the Kitchener Road, arrived this week,  
and construction is now under way.  
The bridge is estimated to cost about  
\$15,000.

Miss Phyllis Hamilton, leaving today  
for Nelson to commence her three  
years course as nurse-in-training at  
Kootenay Lake General Hospital,  
was guest of honor at an evening of  
cards and dancing at the Parish Hall  
on Wednesday, given by the members  
of the A.Y.P.A., of which she has  
been vice-president since its organiza-  
tion. A very fine time is reported by  
all present.
