No. 45

Christ Church Annual Meeting

All Organizations Report Satisfactory Year Elect Two New Wardens—Ladies Have Place on Management Committee.

The annual congregational meeting of Christ Church, Creston, held in the Parish Hall on January 14th, was well attended. It was in charge of the rector, Rev. T. Scott, with L. Littlejohn acting as vestry clerk.

As the parish was without a minister for two or three months just prior to midsummer, the reports submitted were not quite as encouraging as in past years, but since the arrival of the new rector all branches of the church work have been resumed with the oldtime vigor.

The treasurer's report was submitted by J. W. Hamilton, and showed all the 1931 obligations met, and a small credit balance to the good. The Parish Hall account was also presented but the figures did not indicate that the hall had been the revenue producer that had been expected.

Miss Marjorie Crosby reported for the Sunday school; Miss Kate Payne for the Junior W.A.; Mrs. Thurston for the Woman's Auxiliary, and Mrs. W. H. Kemp for the Erickson Ladies' Guild. All these societies have met their allocation in full and the three latter had credit balances. The officers chosen for 1932 are:

Rector's Warden—F. H. Jackson. People's Warden—Geo. Murrell. Treasurer—J. W. Hamilton. Vestry—Mr. Crosby, Col. Mallandaine, E. Haskins, John Hall, E. W. Payne, A. A. J. Collis, Jeffrey Collis, Mrs. Thurston, Mrs. Payne. Delegates to Synod—Col. Mallandaine, J. W. Hamilton.

The rector very briefly sketched the activities of the parish, which includes, Yakh, Lister and Wynndel, and the usual votes of thanks were tendered the retiring officers, the organist and all the societies. At the conclusion of the meeting the W.A. ladies served refreshments.

Wynndel

O. Ofner was a visitor at Nelson a few days last week.

Mr. Clark, who has been visiting with his sister, Mrs. Moon, and brothers, Ray and Jack, left for Vancouver last week.

Miss A. Hook of Spokane spent the weekend with her grandparents, Mr. and Mrs. J. J. Grady.

Rev. T. Scott will be here for Anglican Church service on Sunday at 3 p.m.

Ladies' and Gents Basketball teams have been formed under the direction of G. McIntyre. Play will commence when screens, etc., are completed at the Hall.

John Wigen and J. G. Abbott were re-

elected as the Wynndel representatives on the Creston Valley Hospital Association executive at the annual meeting at Creston on Monday night

The January meeting of the Women's Institute was held in the hall on Thursday last, with Mrs. Robinson in the chair. Convenors for various institute work were appointed and until warmer weather it was decided to meet in member's homes. Invitations from Mrs. R. C. Eakin was accepted to hold the February meeting at her home. Seven new members were enrolled.

Sirdar

J. Pakol left last Sunday for Bellvue. Joe. Lombardo arrived home on Wednesday last, on a brief visit with his father, P. Lombardo.

Mesdames R. Heap, R. Dennes, D. Blumaneaur and Lundy, were visitors at Creston last Saturday.

H. Gillie left on Wednesday evening for Grand Forks, where he is employed.

Mr. and Mrs. R. Heap entertained a few friends at bridge on Friday evening. A most enjoyable time was had by all.

Constable Hassard, and J. McDonald to the forestry department were here on business last Tuesday

Tom Laycock of Cranbrook was a guest at the home of Mr. and Mrs. J. S. Wilson on Monday.

Mrs. C. Neil of Kuskanook and Mrs J. S. Wilson of Athara were overnight visitors at the home of Mrs. T. Rogers on Friday, attending the tea at the latter's home that afternoon.

Dominic Pascuzzo is one of the first to start pruning work commencing last Friday.

The water gauge at Slough bridge stands at 0.50. This is a drop of 0.47 for the week.

Miss Eileen Heap, who has spent the past month in Nelson, visiting friends, arrived home on Monday.

Mr. Muir of Kuskanook is busy getting in a supply of ice for the year, in anticipation of a large tourist trade at Kuskanook. This is the first time ice has been cut in the vicinity.

Messrs Percy and Gerald Timmons are spending considerable time on their mine, between Sanca and Kuskanook. From all reports they are meeting with encouraging signs.

A party consisting of seventeen of the younger folk enjoyed a sleigh outing to Kuskanook on Wednesday evening, where they were entertained to a sing-song by Mrs. S. Bysouth. A pleasant time was reported by all.

One of the most successful meetings of the season was held at the home of Mrs. T. Rogers on Friday afternoon with the largest turnout that has been yet, to work at the quilt and mat. A dainty tea was served by the hostess and music was enjoyed.

Frank Gordon of the B. & B. crew, stationed at Kootenay Landing, was hurried to Nelson on Friday's train in consequence of an accident sustained while working on the piers for the new bridge. He fell from the bridge between two cut pilings ripping his side. Those who witnessed the accident expressed the opinion that he was lucky to get off with his life.

Numerous covies of pheasants have been observed at Kootenay Landing, Boulder Creek and Athara for the first time. The birds seem to be in the pink of condition, which indicate a plentiful supply of food. With a little protection these should greatly increase over this ideal game territory. Since the New Year several bunches of the game little Hungarian partridge have been noted in the vicinity of Athara.

What might have been a serious accident was narrowly averted by the skillful driving of both the bus driver and that of an on-coming truck on Saturday afternoon, when meeting at a bad corner west of Sirdar. The truck was able to proceed under its own power, while a car was requisitioned from Creston to take the passengers of the bus to Nelson. No one was hurt which was extremely fortunate considering the icy condition and the narrowness of the road at this point.

McFarland, Jackson and Henderson

Elected Village Commissioners Yesterday's Voting—Vote is Heaviest Ever—McFarland's Showing Considerable Surprise

McFARLAND, L. C.122
JACKSON, F. H.76
HENDERSON, Dr.74
Mawson, Vic.66
Steenstrup Sam.48
Edmondson, T. M.35

Above is the standing in yesterday's voting for Creston's 1932-34 village council, and indicates that Messrs. McFarland, Jackson and Henderson will be in charge of civic affairs for the next two years.

The vote was the heaviest ever polled. A total of 171 ballots out of some 195 available were cast, included in which were three spoiled ballots.

The biggest surprise of the day was the splendid vote for McFarland who has only been a resident of Creston for about two years. The neck-and-neck race of Jackson and Henderson was looked for. The smallness of the Edmondson vote came as a disappointment but the ex-councillor is partly to blame for this in that he had allowed the impression to get abroad that he would not seek re-election.

Erickson

Miss Ruth Cartwright, who has spent the past month on a visit with friends in Natal, returned home last week.

The sincerest sympathy of all is extended Mrs. J. Murphy who has just received word of the death of her father at Red Deer, Alberta.

Mrs. Hilton and daughter, Dorothy, of Creston spent a few days last week, guests of Mrs. Kemp.

Mrs. F. Clark was a visitor at Canyon a few days last week with her daughter, Mrs. Norman Strong.

Birth—At St. Eugene Hospital, Cranbrook, on January 11th, to Mr. and Mrs. J. Cowley of Arrow Creek, a son.

A. Legrand, who has spent some months at Fernie, arrived back at Erickson last week.

Helen Dodds was a weekend visitor at Creston, a guest of Mr. and Mrs. Frank Tompkins.

The Erickson branch of Christ Church Ladies' Guild are having their St. Valentine tea and sale of cooking at

AUTOS at CRESTON Postoffice Corner at 2.30 p.m.

Everybody Welcome!

Mrs. Putnam's on Wednesday, February 10th.

Miss Joan Kemp is back from a short holiday visit with friends at Nelson and Trail.

The three Doukhebor families that have resided at Erickson for some years, loaded out a car of effects at the end of the week, and are leaving this week for Castlegar, where they intend to remain.

At the annual meeting of Creston Valley public hospital on Monday night, John Hall and Frank Putnam were re-elected Erickson directors.

At the annual meeting of the B.C. Fruit Growers' Association at Vernon last week, W. G. Littlejohn was re-appointed Creston Valley representative on the executive of the association.

Canyon City

Albin and Gunner Nelson are busy with the erection of a log house, which they intend to occupy, on part of the Pipe property.

At the annual meeting of Creston Valley Public Hospital at Creston on Monday night H. Young and W.H. Kolthammer were elected to the executive as representing this area.

The Canyon concert orchestra of twelve pieces have been practising steadily under the leadership of L. W. Stephens, and are planning to put on a concert in the hall on February 12th.

The young people especially appreciate the efforts of those who have provided excellent skating on an open air rink on the Bothamley ranch, where a sheet of ice 40 x 60 feet has been available all winter.

A. D. Pochin has returned to Nelson after spending a couple of weeks here at pruning operations on the ranch.

Joe Turner is the latest to install a radio in his home and reports fine reception from a great variety of stations. Other radio purchasers this winter are L. W. Stephens, W. H. Kolthammer and N. Larson.

The annual meeting of Canyon Farmers' Institute on Friday night was largely attended and officers chosen are: President, F. Knott; vice-president, A. A. Bond; secretary-treasurer, O. M. Samuelson; executive, John Nygaard and L. Moberg. It was decided that the Institute would have a social evening once a month during the season. The hat debate in which nine took part, was an interesting feature.

Canyon Hall Association had its annual meeting on Saturday night at which the officers for 1932 were chosen as follows: President, Roy Browell; secretary, Mrs. T. Hickey; treasurer A. Spencer; executive, G. Niblow, Mrs. Browell, Mrs. Cras, Mrs. Spencer, Mrs. Niblow. A letter of condolence will be sent D. Rogers in the death of his wife Mr. Bothamley is to be engaged to at once time and put the piano in good shape. Hearty votes of thanks were tendered the retiring officers.

Lister

T. Sakata is a Cranbrook visitor this week.

Birth—At Trail on January 16th, to Mr. and Mrs. Goldsberry (nee Ivy Hurry) a daughter.

J. C. Helme arrived from Corra Linn at the end of the week on a visit with his brother, Harry, at the ranch here.

Lister farmers report a good demand for alfalfa right now and it is safe to say all the local crop will be sold to good advantage.

The Community Society are entertaining with a dance on Saturday night at the schoolhouse, with music by Canyon orchestra, and admission of 50 cents to gents, and 25 cents to ladies.

Ben Beyor was at Macleod, Alberta, last week, where he was a witness at a court action in which the well known Alf. Nelson, formerly of Canyon, was suing to recover damages from an auto driver who side swiped Nelson while he was transporting a truckload of the Byer furniture last fall.

The children at the Lister school are getting some appreciated instruction in

Board of Trade Annual Meeting

R. J. Forbes is New President—Dr. McKenzie is Secretary—1931 Trade Statement Shows Fruit Shipments Lighter.

In addition to the members there was a good turnout of businessmen for the dinner and annual meeting of Creston Board of Trade at the King George Hotel on January 15th. The retiring president, Col. Mallandaine, was in the chair.

After all had done justice to an excellent dinner the president submitted his address, the feature of which was a statement covering the fruit and vegetable shipments, as well as the outgo of forest products during 1931, in addition to which some considerable attention was paid to a review of 1931 activities generally in Creston Valley.

In presenting the fruit shipping figures Col. Mallandaine called attention to the fact that it was difficult to get exact information on the fruit output due to the operation of so many trucks by residents of Alberta, who make a trip or two during the season, and whose number and tonnage handled it is impossible to compute.

The figures indicated that in apples and soft fruits the 1931 crop had been lighter than that of 1930, but in the line of vegetables, notably tomatoes, there was an increase shown. The outgo of poles has been up to 1930 standard, but in lumber the production was not on a par with other years, taking the Valley as a whole. The officers for 1932 are:

President—R. J. Forbes. Vice-President—J. S. Clowes. Secretary—Dr. McKenzie. Executive—F. Putnam, Geo. Johnson, C. O. Rodgers, E. Walmsley, Col. Mallandaine, F. H. Jackson.

The outstanding achievement of the year for the board was the holding of the annual convention of the Associated Boards of Trade of Eastern B.C. at Creston in May.

music commencing this month. The instructor is Miss Vera Lister who takes the children in hand each Friday afternoon after school has closed for the day.

The Powers pen of White Wyandottes are now in third place for total production at the egg laying contest at the experimental farm at Brandon Manitoba. For the past five weeks their weekly egg production has been highest of all competing.

The older residents at Lister will hear with regret of the death at Vancouver on the 14th of Ronald Brain, the 23-year old son of Mrs. Brain, who resided here from 1919 to 1924, the deceased's father passing away at Lister in 1922. Since moving to the coast Mrs. Brain has remarried and is now Mrs. W. E. Barker.

Over 50 tons of express and 34,892 pounds of mail were carried on the north route between Edmonton and Aklavik, by planes of a commercial aviation company during the season of 1931.

War's Lessons

Canadians Have Deep Interest In Situation In Manchuria

"We have not forgotten the lesson which we learned in 1914 of what an obscure crime in a Balkan state can mean," said Hon. Vincent Massey, former Canadian Minister to Washington, in addressing the Empire Club on Manchurian problems at Toronto. "Canada needs no argument to show the situation in Manchuria is one to command her active interest."

He referred to the treaty of Washington in 1922, and the Paris peace pact, and said Canada, with the full obligation of nationhood, would have to decide for herself whether either treaty had been infringed or violated. Any trade advantage accruing to Canada through China's boycott of Japan would be more than offset by loss of trade with Japan.

India exported 55,000,000 pounds of tea in a recent month.

Heavy Fur Catch

Catch This Year Promises To Be Best In Past Decade

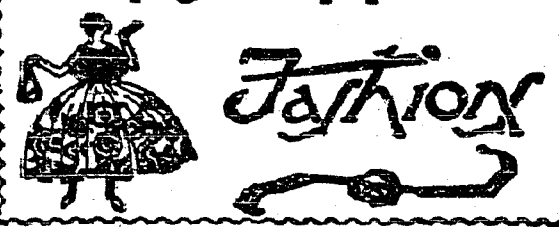

The fur catch in the north country this year promises to be one of the best in the past decade. From early reports received from the far north trappers will bring down heavy shipments of furs this spring.

The quality of the furs, a factor that varies from year to year, promises to be high, north trappers claim, because of the climatic conditions that have prevailed in the sub-Arctic regions this year.

While the catch in the more civilized portions of the province will be only average, north of Churchill and in the southern Indian Lake area the catch nears the spectacular. Prices for pelts this year are only average, dealers advise, and the royalty and heavy cost of bringing them into the United States will prove a handicap to disposal this spring it is feared.

The huge Junkers plane purchased this year by the Canadian Airways will probably bring the furs down from many of the isolated posts in the far north to Winnipeg.

OH! FOR THE FRESH CHARM OF SPORTS CLOTHES THAT PARIS ADORES

Here's a delightfully smart model that is carried out in tweed-like woollen in deep bright blue mixture, now so modish.

It gives the impression of suit styling. The collar is white pique. The bindings are in navy blue. The belt is navy blue suede.

It has so much dash. It's such a splendid type for office or college wear.

Style No. 815 may be had in sizes 14, 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Size 36 requires 3 1/2 yards of 39-inch material with 3/4 yard of 39-inch contrasting, 5 1/2 yards of binding and 1/2 yard of 1 1/4-inch ribbon.

Jersey is a favourite this season and adapts itself perfectly to this model.

It may also be made of cantonfaillie crepe silk.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Delightful Cruises

Cunard and Anchor Line Steamers Furnish Sea Voyages For Those On Holiday Bent

That the world and his wife are going to sea for their holidays more than ever before is evident in the fact that no less than fifty-six cruises have been arranged for Cunard and Anchor Lines steamers during the remainder of this winter, spring, and summer. This does not include the departure this week from New York of the "Franconia" on her annual five-month cruise of the world.

The Maritimes and the St. Lawrence will get a good share of this cruise tourist business, for twelve cruises will call at Canadian ports which will form their main attraction for thousands of New Englanders expected on these short trips from New York. Last summer the "Transylvania" made three experimental voyages to Quebec and Halifax from New York, with a 60-mile cruise up the Saguenay River. She is the largest vessel ever to navigate this famous waterway, and on each voyage she was booked to capacity. This summer and fall there will be six such 12 1/2-day cruises, by this steamer and her sister ship the "California" which will then make her first appearance on the St. Lawrence. Other cruises in which Canadian ports will be featured are three six-day cruises from New York to Halifax and Bermuda on the express "Mauretania," during the summer. The Anchor liner "Caledonia" will make a 9-day cruise to Halifax, on August 27th, and on October 20th, a 10-day voyage will be made to the same port by the "Transylvania."

Several short summer cruises on express Cunarders and two Labor Day week-end cruises by the "Transylvania," and the "Berengaria," largest Cunarder, are also scheduled to call at Halifax. Elaborate arrangements for seeing Acadia are being made for these passengers.

Short, inexpensive trips to the West Indies continue to be popular, their success being indicative of the price trends of today. A call at Miami has been introduced into the itinerary of eight 9-day cruises to Havana and Nassau by the "Caledonia," the visit to the Florida playgrounds of the wealthy proving a great attraction.

More leisurely visits to the West Indies will be made on three voyages of the "California," and two on the "Scythia," ranging from 12 to 23 days and visiting all the high spots in the islands as well as calls at Panama and the South American mainland.

Bermuda retains its hold on the imagination of the cruise tourist public, the "California" and "Samaria," one of the 20,000-ton Cunarders, being listed to make Easter cruises from New York of 9 and 8 days respectively.

This Independence

A farm laborer in England who had been out of work for many months and had been living on the dole, remarked to his physician one day: "Doctor, do you know I had an offer to work some days ago which would have given me five shillings more a week than I am getting from the dole, but after thinking it over carefully, I preferred to remain independent."

Bilious For Days

At Time Until She Took Vegetable Pills

Gratefully, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed."

Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Headaches, Poor Complexion and Indigestion. 25c. & 75c. red plgs. everywhere. Ask for Carter's by NAME.

SUNDAY SCHOOL LESSON

JANUARY 31

JESUS FEEDS THE MULTITUDE

Golden Text: "Jesus said unto them, I am the bread of life; he that cometh to Me shall not hunger, and he that believeth on Me shall never thirst."—John 6:35.

Lesson: John 6:1-71.

Devotional Reading: Psalm 34:3-11.

Explanations and Comments

Jesus and the Multitude, verses 1-4.—With His disciples Jesus crossed to the eastern side of the Sea of Galilee (or the Sea of Tiberias, as it was also called from the City of Tiberias which Herod Antipas had built on the western shore of the lake in honour of the Emperor Tiberias) and, climbing the hillside sat down for a quiet conference with them.

The Testing Of Philip, verses 5-7.—When Jesus saw the crowd He turned to Philip and asked him where they were to buy bread for them. Philip was a practical man of affairs and he made a hasty calculation. Two hundred shillings' worth of bread would not supply even a little for each one.

The Evangelist adds, "This He said to prove him; for He Himself knew what He would do." The difficulty of the task tested Philip's faith. The one thing necessary was that he should turn the problem over to his Master with full faith that He could solve it, and should offer to help as the humble instrument by whom the people could be served.

The Lord's Supply, verses 8, 9.—Andrew, Peter's brother, then said that there was a lad among them who had five barley loaves and two fishes, "but what are these among so many?" he exclaimed. The emphasis is on the word "but." Andrew saw the poverty of the visible supply; he failed to see the richness of the invisible Power.

The Miracle, verses 10-15.—At the direction of Jesus the people sat down on the grass, about five thousand men besides the women and children, Matthew 14:21. They sat in companies of fifty, that the distribution might be quickly made. Taking the five barley loaves in His hands, Jesus offered thanks, probably repeating the customary words, "Blessed art Thou, Jehovah our God, King of the earth, who causeth bread to come forth of the earth."

Then Jesus distributed the loaves and fish till all were abundantly satisfied.

When all were satisfied Jesus bade His disciples gather up the broken pieces that were undistributed, that nothing be lost. Those fragments filled twelve baskets. Probably each of the Twelve had a provision basket with him. The scantiness of the source, five barley loaves, is again mentioned to emphasize the greatness of the miracle.

Cleaning Units Needed

To Ensure Distribution Of Clean Seed To Farmers

In order to cope with the cleaning of seed grain for distribution to needy farmers this spring between 400 and 500 travelling seed cleaning machines will probably be necessary.

In addition to this, it is believed by grain men that every privately owned seed cleaning machine will have to be utilized if seed grain is to be properly cleaned in preparation for coming spring work.

Over 6,000,000 bushels seed wheat and at least 2,000,000 bushels of seed oats will be required for distribution before spring, entailing an expenditure of approximately \$9,000,000.

According to C. B. Dantel, manager of the Saskatchewan Relief Commission, the seed grain relief plan in Saskatchewan is a gigantic problem and it is essential that a plan be put into effect as soon as possible.

Definite steps toward adopting a scheme whereby clean seed can be supplied to the farmers of Saskatchewan through the Saskatchewan Relief Commission are being formulated, it is learned unofficially, Thursday, Jan. 14.

Across Africa By Train

Important Event That Was Calmly Accepted By the World

The first railway train to cross Africa from ocean to ocean started July 1, last year on its journey from Lobito Bay to Beira, a distance of 2,940 miles. The event was a vastly important one and the engineering achievement was worthy of note, but it was calmly accepted by the world. Yet when David Livingstone, the first white man to cross Africa, made the journey in two years, there was hardly anyone throughout all the world who didn't thrill to his grand adventure, and hardly a home where it was not a topic of burning interest.—Wall Street Journal.

SAFE, SPEEDY PROVEN!

Safe—Buckley's contains no narcotics—absolutely safe for children and adults.
Speedy—Acts like a flash—a single slip proves it.
Proven—Thousands of testimonials and the largest sale of any cough remedy in Canada are convincing evidence of its merit. R-13

To Assist Agriculture

Quota System Between Canada and Great Britain For Canadian Wheat

Establishment of a quota system between Canada and Great Britain for Canadian wheat, was visualized as one of the great hopes for Saskatchewan agriculture in 1932 by J. D. MacFarlane, president of the Saskatchewan Agricultural Societies Association, who presented his annual report to an executive meeting of that association at the University of Saskatchewan.

Mr. MacFarlane also said a change in the styles of obtaining credit by the countries of the world was essential to economic recovery, and he believed cancellation of war debts, to enable world buying power to improve, was necessary if 1932 was to be a better year than the past year.

Even adoption of these changes did not offer much hope for the present year, Mr. MacFarlane believed, but he thought they would tend to make next year more normal and would restore agriculture to a place more nearly approaching its old position.

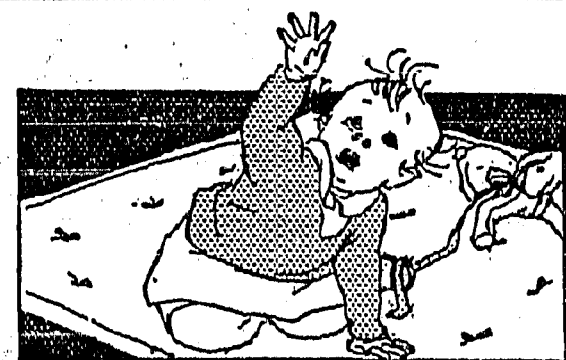

Dispensing of the high rates of interest paid by one country to another would materially assist, he thought. He believed an international banking committee could render help in the situation, functioning similarly to the League of Nations, but dealing with the financial obligations and requirements of the countries of the world. Each country, under this system, would issue its own currency, instead of borrowing in New York or London, England.

A New Explosive

Drives Bullet Five Times Faster Than Sound Travels

The modern rifle bullet has a muzzle velocity of 3,000 feet a second. It strikes a tremendous blow, measured in hundreds of pounds. Now a German named Verlich has invented an explosive that will speed the bullet more than a mile a second faster, and will triple its striking power. That is more than five times faster than sound travels.

It is said that 500 different kinds of material are used for the manufacture of shoes.

BABY FRETFUL, RESTLESS?

Look to this cause

When your baby fusses, tosses and seems unable to sleep restfully, look for one common cause, doctors say. Constipation. To get rid quickly of the accumulated wastes which cause restlessness and discomfort, give a cleansing dose of Castoria. Castoria, you know, is made specially for children's delicate needs. It is a pure vegetable preparation; contains no harsh drugs, no narcotics. It is so mild and gentle you can give it to a young infant to relieve colic. Yet it is as effective for older children. Castoria's regulative help will bring relaxed comfort and restful sleep to your baby. Keep a bottle on hand. Genuine Castoria always has the name—

CHAPTER XI.—Continued.

Jean, glancing enquiringly across at Mrs. Craig, was startled at the sudden change in her face produced by Lady Anne's simple announcement. The sallow skin seemed to pale—almost wither, like a cut flower that needs water—and the lips that had been parted in a smile stiffened slowly into their accustomed straight line.

"Of course"—Mrs. Craig's voice sounded flat and she swallowed once or twice before she spoke—"that must be it. I—knew your father, Miss Peterson."

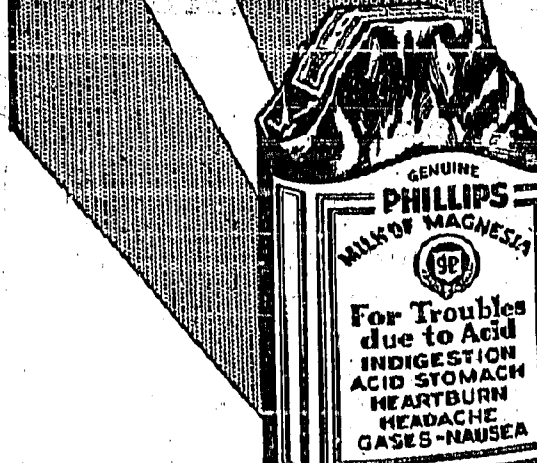

To Jean, always sensitive to the emotional quality of the atmosphere, it seemed as though some current of hostility, of malevolence, leapt at her through the innocent-sounding speech. "I knew your father." It was quite ridiculous, of course, but the words sounded almost like a threat.

She had no answer ready, and a brief silence followed. Then Lady Anne bridged the awkward moment with some commonplace, adroitly steering the conversation into smoother waters, and a few minutes later Mrs. Craig rose to go.

"I'll see you across the park, Judith," volunteered Nick, and he and his mother accompanied her out of the room.

In the hall, Lady Anne detained her visitor an instant with a light hand on her arm, while Nick foraged for his own particular headgear amongst the family assortment of hats and caps.

"Jean is a dear girl, Judith," she said earnestly. "I want you to be friends with her. Don't"—pleadingly

PHILLIPS' MILK OF MAGNESIA

GENUINE
MILK OF MAGNESIA
(P.P.)

For Troubles due to ACID
INDIGESTION
ACID STOMACH
HEARTBURN
HEADACHE
GAS & NAUSEA

When PAIN Comes

WHAT many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia.

One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go, get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 50c a bottle—any drug store. (Made in Canada.)

"visit the sins of the fathers on the children."

"Why, no, I shouldn't," replied Mrs. Craig, with apparent frankness. "It was only that, for the moment, it was rather a shock to learn that she was—that woman's—child."

"Of course it was," acquiesced Lady Anne. "Goodbye, dear Judith."

But notwithstanding Mrs. Craig's assurances, a troubled look lingered in Lady Anne's grey eyes long after her guest's departure.

**CHAPTER XII.
A Sense Of Duty**

Jean was immensely puzzled at the abrupt change which had occurred in Mrs. Craig's manner immediately upon hearing that she was the daughter of Glyn Peterson, and, as soon as the visitor had taken her departure, she sought an explanation.

"What on earth made Mrs. Craig freeze up the instant my father's name was mentioned? Did she hate him for any reason?"

Tormarin looked across at her. "No," he answered quietly. "She didn't hate him. She loved him."

Jean stared at him in frank astonishment. She had never dreamed that there had been any other woman than Jacqueline in Glyn's life.

"Mrs. Craig—and my father?" she exclaimed incredulously.

"She wasn't Mrs. Craig in those days. She was Judith Burke."

"Well, but—" persisted Jean, determined to get to the bottom of the mystery. "I still don't see why."

"Why what?"—unwillingly.

"Why she looked as if she loathed the very sight of me. That's not"—drily—"quite the effect you would expect love to produce!"

There was a curiously abstracted look in Tormarin's eyes as he made answer.

"Love is productive of very curious effects on occasion. More particularly when it is without hope of fulfilment," he added in a lower tone.

"Well, I suppose my father couldn't help not falling in love with Mrs. Craig," protested Jean with some warmth. "Nor could he have prevented her caring for him. And it's certainly illogical of her to feel any resentment towards me on that score. I had nothing to do with it."

"Love and logic have precious little to say to each other, as a rule," replied Tormarin grimly. "To Judith, you're the child of the woman who stole her lover away from her, so you can hardly expect her to feel an overwhelming affection for you."

"The woman who stole her lover away from her?" repeated Jean slowly. "I don't understand. What do you mean, Blaise?"

He glanced at her in some surprise. "Surely—Don't you know the circumstances?"

She shook her head.

"No, I simply don't know in the least what you are talking about. Please tell me."

Tormarin made no response for a moment. He was standing with his back to the light, but as he lit a cigarette the flare of the match revealed a worried expression on his face, as though he deprecated the turn the conversation was taking.

"Oh, well," he said at last, evading the point at issue, "it's all ancient history now. Let it go. There's never anything gained by digging up the dry bones of the past."

Jean's mouth set itself in a mutinous line of determination.

"Please tell me, Blaise," she reiterated. "As it is something which concerns my father and a woman I shall probably be meeting fairly often in the future, I think I have a right to know about it."

He shrugged his shoulders resignedly.

"Very well—if you insist. But I don't think you'll be any happier for knowing." He paused. "Still inflexible?"

She bent her head.

"Quite"—firmly—"whatever it is, I'd rather know it."

"On your own head be it, then."

He seemed trying to infuse a lighter element into the conversation, as though hoping to minimise the effect of what he had to tell her. "It was just like this—that your father and Judith Burke were engaged to be married at the time he met your mother, and that—well, to make a long story short, he ran away with Miss Mavory on the day fixed for his wedding with Judith."

A dead silence followed the dis-

COULDN'T COMB HAIR
Crippled by Rheumatism

"I had been suffering with rheumatism for about 2 years, and about this time last year was laid up for 10 weeks. My hands and arms and knees were the worst affected. I could not get about at all. I could not wash my face or comb my hair. All this had to be done for me. At the beginning of this year I started taking Kruschen Salts every morning and I am pleased to say I am quite well now and able to see to my home and can go out in all kinds of weather without it affecting me."—Mrs. P. K.

Rheumatism is associated with an excess of Uric Acid in the system. Two of the ingredients of Kruschen Salts have the power of dissolving uric acid so as to render it capable of being easily washed out of the system. Other ingredients of Kruschen assist Nature to flush out this dissolved uric acid through the bowels and the kidneys. Other ingredients still, prevent food fermentation taking place in the intestine, and thereby check the formation not only of uric acid but of other impurities which poison the blood and pave the way to ill-health.

closure. Then Jean uttered a low cry of dismay.

"My father did that? Are you sure?"

"Quite sure."

Tormarin could see that the story had distressed her. Her eyes showed hurt and bewildered like those of a child who has met with a totally unexpected rebuff.

"Don't take it like that!" he urged hastily. "After all, it was nothing so terrible. You look as though he had broken every one of the ten commandments!"—smiling.

Jean smiled back rather wanly.

"I don't know that I should worry very much if he had—in some circumstances. But—don't you see?—it was so cruel, so horribly selfish!"

"You've got to remember two things in justification—"

"Justification?"—expressively.

"There wasn't any. There couldn't be."

"Well, excuse then, if you like. One thing is that Jacqueline Mavory was one of the most beautiful of women, and the other, that your father's engagement to Judith had really been more or less engineered by their respective parents—adjoining properties, friends of long standing, and so on. It was no love-match—on his side."

"But on her wedding-day!"—piti-fully. "Oh! Poor Judith!"

Tormarin smiled a trifle cynically.

"That was the root of the trouble. It was Judith's pride that was hurt—as well as her heart. She married Major Craig not long after, and I believe they were really fond of one another and comparatively happy. But she has never forgiven Peterson from that day to this. And you, being Jacqueline Mavory's daughter, will come in for the residue of her bitterness. Unless"—ironically—"you can make friends with her."

"I shall try to," said Jean simply. "Is Major Craig living now?"

"No. He died out in India, and after his death Judith came back to England. She has lived at Willow Ferry with her brother, Geoffrey Burke, ever since."

There was a long silence, while Jean tried to fit in the new facts she had learned with her knowledge of her father's character. She was a little afraid that Tormarin might misunderstand her impulsive outburst of indignation.

"Don't think that I am sitting in judgment on my father," she said at last. "In a way, I can—even understand his doing such a thing. You know, for the last two years of my mother's life I was with them both constantly, and anyone living with them could understand their doing all kinds of things that ordinary people wouldn't do." She paused, as though seeking words that might make her meaning clearer. "They would never really mean to hurt anyone, but they were just like a couple of children together—gloriously irresponsible and happy. I always felt years older than either of them. Glyn used to say I was 'cursed with a damnable sense of duty'"—laughing rather ruefully. "I suppose I am. Probably I inherit it from our old Puritan ancestors on the Peterson side. I know I couldn't have cheerfully run off and taken my happiness at the cost of someone else's prior right."

A look of extreme bitterness crossed Tormarin's face.

(To Be Continued.)

Uniform Monetary System
Proposed That Effective Measures Be Taken By The British Empire

A memorandum strongly advocating the introduction of a uniform monetary system for the British Commonwealth of Nations was adopted by the Federated Chambers of Commerce of the British Empire.

The memorandum declares since most empire countries are now off the gold standard the struggle to attract and retain gold has ceased. But, in order to remain competitive in the world's markets, the nations are obliged to force down prices by currency contraction which has led to similar contractions by other nations, neutralizing the first advantage and depressing prices below the cost of production.

This, the memorandum says, has reduced the purchasing power of 91 per cent. of the world's population. So-called over-production, it continues, is really under consumption, owing to restricted purchasing power. No one nation can prevent this deflation, the memorandum contends, and the only group strong enough to take effective measures is the British Empire, within which members would insulate themselves from external competition while re-expanding their currencies, action which would make possible the establishment of sane co-operation.

In all infantile complaints that are the result of the depredations of worms in the stomach and intestines Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

New Treatment For Anaemia

Scientists Claim Extract Injection Will Combat This Trouble

A new and simplified treatment for pernicious anaemia eliminating many of the uncertainties and difficulties of present treatments, has been perfected by research scientists at University of Michigan.

The new treatment involves intravenous injection of concentrated liver extract and obviates the necessity of frequent doses of liver extract or substitutes administered by mouth against which patients rebel.

Four to six injections of the new extract into the veins of a pernicious anaemia sufferer have restored the blood to normal. After the blood has been replenished with red corpuscles, it is possible to maintain this state by single injections at intervals of from four to six weeks.

When You CAN'T QUIT

Fatigue is the signal to rest. Obey it if you can. When you can't, keep cool and carry-on in comfort.

Aspirin was meant for just such times, for it insures your comfort. Freedom from those pains that nag at nerves and wear you down. One tablet will block that threatening headache while it is still just a threat. Take two or three tablets when you've caught a cold, and that's usually the end of it.

Carry Aspirin tablets when you travel. Have some at home and keep some at the office. Like an efficient secretary, they will often "save the day" and spare you many uncomfortable, unproductive hours. Aspirin is harmless, so keep it handy, keep it in mind, and use it. No man of affairs can afford to ignore the score and more of uses explained in the proven directions. From a grumbling tooth to those rheumatic pains which seem almost to bend the bones, Aspirin tablets are ready with quick relief—and always work. Neuralgia, Neuritis. Any nagging, needless pain.

Tablets Aspirin

GENUINE

You're Worried

When your child is sick you're terribly worried. Of course you can't always avoid sickness, but you can remedy and often prevent children's ailments with Baby's Own Tablets. They are the ideal laxative for children. Doctors prescribe them.

Baby's Own Tablets reduce fever, allay colic, prevent constipation, sweeten the stomach, and help to clear up colds. 25 cents a package at any druggist's.

BABY'S OWN TABLETS
(Dr. Williams') 175

Little Helps For This Week

"That the Lord thy God may bless thee in all the work of thine hand which thou doest."—Deuteronomy xiv. 29.

No earnest work of any honest creature, howbeit weak, imperfect, ill-adapted, falls so much. It is not gathered, as a grain of sand, To enlarge the sum of human action used.

For carrying out God's plan. —Elizabeth Barrett Browning.

Our life is but a little holding, lent To do a mighty labor. We are one With Heaven and the stars when it is spent To serve God's aim.

—George Merridith.

"Find your niche, and fill it. If it be ever so little, if it is only to be hewer of wood or drawer of water, do something in this great battle for God and truth."—Spurgeon.

Britain and War Debts

So far as this country is concerned there is certainly a widespread belief that general cancellation of reparations and war debts would facilitate economic recovery and, therefore, be generally beneficial; but the British taxpayer would not lightly entertain the idea of cancelling reparations while retaining the burden imposed by war debts.—London Times, England.

Get the genuine tablets, stamped with the Bayer cross. They are of perfect purity, absolute uniformity, and have the same action every time. Why experiment with imitations costing a few cents less? The saving is too little. There is too much at stake. But there is economy in the purchase of genuine Aspirin tablets in the large bottles. Made in Canada.

Trans-Canada telephone line is now open

You can talk across Canada, from coast to coast, by all-Canadian telephone circuits now.

The new trans-Canada telephone line, the joint accomplishments of seven of the Dominion's principal telephone systems, including the B.C. Telephone Company, was opened for service on Monday, January 25.

In the past telephone calls between western and eastern Canada had to be routed through the United States. Now your words can speed to the east over an all-Canadian voice highway.

Make a trip across Canada by Telephone.

LETTERS TO THE EDITOR

The Vanishing Dollar

Editor Review:

Sir,—To apply a remedy for this depression one must understand the cause, of which I gave an outline in my previous letter, titled "The Vanishing Dollar." If you have not read it you should get a copy of the Review, and read it, as it will give you a better understanding of the remedy. For to give a remedy one should know the cause.

To stop depression we must stop money from being taken out of circulation. To do this it is absolutely necessary to abolish interest charges on money. Then it will become a permanent factor among the people. But in order that money will not become monopolized again we must go further than merely stopping interest charged on it. We must also abolish gold from our monetary system. Silver should remain, as it is necessary for change.

But before I go farther with this situation let us see what money really is. Let's shove it

under a microscope and look it over. We will find it nothing less than stored energy, for it would be of no use if there were nothing produced, and to produce requires energy. So in order that we can trade our energy for some other energy—produce—we must have a go-between, medium of exchange, money. It is similar to a battery in your car which takes up the surplus energy when there is an over supply, and discharges when there is a heavier drain than what is supplied, keeping the energy more or less constant, so with these facts in mind one can see money is only a credit slip, which has no direct bearing on the value of gold. So in order to hold prosperity we must eliminate gold as the backing for our paper money, for if this is not done gold can again be monopolized by a few, and again make the public pay interest to get it back into circulation.

Gold is a very beautiful metal and can be made useful both in art and service, so why lock it behind great steel doors like some criminal; surely we have more respect for its beauty than that. Of course, if only one country adopted this system it would be quite necessary to use gold as a medium of exchange between nations, and to buy back our money that was spent in foreign countries.

With our money free from the gold it should leave enough gold that is stored in the banks to pay off most of our international debts, and if there is not enough we could dig some more, and it would give employment.

There should be no taxation, as its rather a pest at these times. The government does not need taxes to carry on business and pay her employees. To free a country from taxation it would be absolutely necessary for the government to take over the banking system and chase the money hoarders out into the world to make an honest living. Allow no interest to be charged on money, not even the government. Abolish gold from our monetary system, and use it only as a commerce of exchange with foreign nations. Cancel all debts due the banks on mortgage and all other interest-bearing debts.

That would clean the house of parliament pretty well of all its hideous looking monsters and would leave the members free to walk about a bit without falling over one of them. With the government taking over the banks, and allowing no private banks to be operated, the government could then put its own money in circulation by doing

public improvements such as building roads, bigger and better schools, etc.

Buying up or leaving on deposit all the money now in circulation among the people, with the government having full control of the banks, there would be no bank failures giving the people full confidence to deposit their money in them, and do most of their business through the checking system, the same as is done today.

With this in mind I will try to outline how the government can keep up its debts without taxation. Take for example, you are employed by the bank, or any other government job. The bank could give you a cheque for wages, we'll say \$100. You will either deposit it to your account at the bank or purchase something with it and the man you purchase it from will deposit it in the bank, so the bank has paid its debt, and still retains its money, for as a rule money is never out of the bank for local business more than three or four days, and outside business, very seldom more than a month, so the government would never be short of money to meet her debts.

Of course the government would be using the public money, for in reality the government or banks would own very little money, for the most of it would be owned by the public. But as the public does all, or nearly all of its business through the banks, the government could be using the money at the same time as the public, and would not need to tax the people to do so, as there wouldn't be very much money out at one time, as most of the business would be done by cheques, and would leave the banks plenty of cash to meet emergencies.

And in case anyone would try to monopolize the money again by drawing it out of the banks and hoarding it, the banks could make a call on the money, and issue new, and those who were hoarding great quantities would soon be found, or what they had would be of no value.

And so it would be with no interest on money once in circulation, there it would remain among the people, never to be taken out by money lenders, and there would be continuous prosperity. I hope I have made it clear how the government can be run without taxation, and why it is so all important to do away with interest charged on money.

Before another winter there will be thousands of people, through taxation and interest on money, lose their homes, and will be turned out into the cold, and if they are fed at all it will surely come from the few taxpayers that are left, and those taxpayers that have failed to pay their taxes will increase the taxes on the ones that do.

Here is something that is facing the people of Canada. The dominion government in her taxes last year was about one hundred million dollars in default. Figuring this year's default will be the same it will mean that the taxpayer will have two hundred million to make up above last year's tax, and if it is not made up this year it will be higher when it is made up as the default is drawing interest.
FRANK BUNCE.

executive is made up of Principal Levirs, Mrs. W. A. McMurtrie, Mrs. J. W. Hamilton, W. J. Truscott and Mrs. Young.

Miss Ruby Palmer of Nelson is a visitor here this week, a guest of her brother, A. L. Palmer.

Give your daughter a chance to earn a living in different ways, by taking a course in Designing, Pattern Drafting and Dressmaking. Instructions are individual, and include drafting patterns, cutting out materials, fitting and making up of any desired garment. For particulars write Miss Lillian Lewis, Nelson, B.C.

At the annual meeting of Creston Valley Hospital Association on Monday night only two changes were made in the directorate. K. Wallace of Roswell replaces J. S. Wilson of Sirdar, as the Sirdar-Boswell board representative, and at Creston Rev. T. Scott replaces C. F. Hayes, who declined re-election.

W.M.S. Elects Officers

The annual meeting of the Presbyterian Women's Missionary Society was held at the home of Mrs. S. A. Speers. The reports of the heads of the various departments showed a very satisfactory year's work. The life membership intended for Mrs. Fleetwood, whose death is greatly regretted by the society, was conferred on Miss Fleetwood as a token of appreciation of the faithful services of the deceased. Officers elected for 1932 are as follows:

President—Mrs. H. H. Taylor.
Vice-President—Mrs. W. K. Brown.
Secy. Treas.—Mrs. M. J. Boyd.
Supply Secretary—Mrs. McCreath.
Home Helpers Secretary—Mrs. Dow.
Glad Tidings Secretary—Mrs. Brown.

Mrs. Boyd was named delegate to the United Church W.M.S. Presbytery to be held in Creston this week. Mrs. Taylor was chosen to represent Creston at the Kootenay Presbyterial of the Presbyterian W.M.S. which meets in Trail on February 2nd.

Wynndel W.I. Meeting

The first regular 1932 meeting of the Wynndel Women's Institute was held in the hall on Thursday last with the new president, Mrs. Robinson, in the chair.

The following officers and committees will act during the year: President, Mrs. C. Robinson; vice-president, Mrs. O. Davidge; secretary-treasurer, Mrs. A. Martell; directors, Mrs. E. Uri, Miss F. Wood.

Legislation Committee—Mrs. C. Robinson.

Public Health and Child Welfare—Mrs. A. E. Towson Mrs. C. Hindley, Mrs. A. Martell.

Community Betterment—Mrs. M. Wigen, Mrs. V. Johnson, Mrs. R. Eakin. Publicity—Miss D. Payette.

Education and Better Schools—Mrs. C. Wigen, Mrs. C. Ogilvie.

Home Industries—Mrs. A. Joy, Mrs. H. Packman, Mrs. J. Wittman.

Institute Work and Methods—Mrs. E. Wall, Miss L. Benedetti.

Ways and Means—Mrs. T. Watson, Mrs. E. Uri, Mrs. M. Hagen.

Auditors—Mrs. J. G. Abbott, Mrs. O. Davidge.

After the meeting adjourned Mrs. O. Davidge read an interesting paper on the raising of turkeys. It was practical and educational, and was appreciated by all.

While 1931 was a successful year, considering the depression, judging from the line up of new officers, and the fact that over thirty-five members have been enrolled, 1932 should be a banner year.

Kitchener

Miss Elsie Clayton of Canyon arrived Monday last on a visit with Mrs. D. Weston, returning on Monday of this week.

Miss Jessie White, principal of the public school, was a visitor with Creston friends at the weekend.

A. C. Yoder of Spokane, pole inspector for the Naugle Pole & Tie Company, spent last week here on business, returning on Tuesday.

Miss M. Sproule, high school teacher, spent the weekend in Cranbrook, making the trip by motor with a party from Creston.

The Naugle Pole & Tie Company shipped out three carloads of poles last week from their yard at Kitchener.

A surprise party was staged on Mr. and Mrs. Clifford Foley at their home on Saturday evening. There were 38 in attendance and the main feature of the evening was bridge and dancing, with music by an orchestra composed of Lewis Simpson, violin; Chas. Harmer and Denis Bush, banjos, while Jack Hunky called off some good oldtime square dances. As this is leap year every second dance was ladies' choice, and a dainty lunch was served at mid-

night. The gathering dispersed in the early hours, all present reporting a very fine time.

LAND FOR SALE

Two 10-acre lots for sale or rent, mostly all cleared, with water and buildings. E. NOUGUIER, Canyon, B. C.

In the matter of the Estate of GEORGE COTTERILL (Deceased) Intestate.

All persons having claims against the estate of George Cotterill (deceased), intestate, late of Creston, B.C., are hereby required to send the same, duly verified, to R. A. Palfreyman, Creston, B.C., on or before the 30th day of January, A.D., 1932, after which date the said estate will be distributed, having regard only to the claims then received.

Dated at Creston, B.C., this 19th day of January, 1932.
R. A. PALFREYMAN, Administrator.

WATER NOTICE
DIVERSION AND USE

TAKE NOTICE that Wynndel Improvement District, whose address is Wynndel, B.C., will apply for a license to take and use 6.0 c.f.s. for power purposes, 800 acre feet for irrigation, 50,000 gals. per day for domestic purposes, of water out of Duck Creek, which flows southerly and drains into Kootenay Flats about Wynndel. The water will be diverted from the stream at a point about 2000 feet north-easterly from the north-east corner of SubLot 12 of Lot 4595, and will be used for power purposes, irrigation purposes and domestic supply upon the lands described as Lots 191, 279, and parts of SubLots 43, 63, and 12 of Lot 4595, and parts of Lots 134, 135 of Lot 9592 and parts of Lots 147, 150, Lot 9551, the area to be known as Wynndel Improvement District. This notice was posted on the ground on the 19th day of January, 1932. A copy of this notice and an application pursuant thereto and to the Water Act will be filed in the office of the Water Recorder at Nelson, B.C. Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

WYNDEL IMPROVEMENT DISTRICT, Applicant.
By R. C. EAKIN, Agent.

Date of first publication of this notice is January 22, 1932.

In Times Like These

In the course of the more or less extensive reading in which every man in newspaper work must engage, our attention was attracted by a magazine article bearing the title "In Times Like These," written by former U.S. President Calvin Coolidge. Coming from the pen of such a noteworthy man we felt assured that it would be a worthwhile article. We were not disappointed, and have decided to pass on to the circle of readers of this weekly column some of the thoughts expressed by the only living ex-President of the United States, in the hope and expectation that they may be found helpful and provide encouragement to others.

Mr. Coolidge expresses the opinion that one of the serious results that come from the experience through which the world has been passing for the past two years is "loss of faith," and he proceeds to show that if a man but keeps his faith, regardless of anything and everything that may happen, there is still a bright future before him.

The difficulty is that because some have put their trust in things which they have found do not always endure, they draw the hasty and unwarranted conclusion that it is useless to have faith in anything. Furthermore, there is a tendency, and it is easy, to conclude that whatever disasters may have overtaken an individual for him to conclude that they have arisen through no fault of his own; rather that it is the fault of someone, and he is inclined to blame something he loosely calls society.

It is true that some have lost through the dishonesty of others. Many more have lost because they were tempted to take large risks in the hope of making large gains. Some did make large profits, but many more suffered heavy losses. Frankly, it must be said that those who trust to chance must abide by the results of chance. They have nobody to blame but themselves.

In Western Canada, however, probably the larger number of losers are to be found in Mr. Coolidge's third group, those who have sustained losses notwithstanding the exercise of their best judgment and through causes beyond their own individual control. But this simply means what everyone should know: that even when surrounded by all the safeguards and all the integrity which is possible to secure, the ownership of property involves a risk. The man who has nothing runs no risk; it is the man who has property who is liable to suffer. Nevertheless no sane person prefers to be the former rather than the latter.

The man who owns a house may lose it by fire, by flood, by a devastating storm. A man's livestock may sicken and die. A man may lose his crops by drouth, or hail, or insect pests. World conditions may force prices to a below-cost-of-production basis. He cannot help these things, but that does not excuse him from making the most of what he has. The great fact of life is uncertainty, as Mr. Coolidge points out. The only thing we can do is to recognize the uncertainty and govern ourselves accordingly.

It might be a great personal comfort if we could lay all the blame for our misfortune upon some source outside ourselves. That is why it is easy to convince some of us that we have not failed, but society has failed. But while there is a relationship of all of us, which we term society, that differs from each of us, just as a house differs from the individual bricks in it, yet people are not bricks, and moral responsibility cannot be shifted to others. If we are to be free to make our own choices in life, we must take the risk of being responsible for the results.

If we could lay the blame for present conditions in the world on society at large, against whom is the blame to be assessed? It is impossible to point out any general moral lapse, any widespread dishonesty. We may say it is the result of greed and selfishness. But what body is to be specifically charged with that? Were the wage earners too greedy in getting all they could for their work? Were the managers of enterprise, big and little, too greedy in trying to operate at a profit? Were the farmers too greedy in their production or in co-operating to get higher prices for their products.

No, the most we can say is that there has been a general lack of judgment so widespread as to involve practically the whole world. Each and every one of us must assume our full share of responsibility for that lack. We have found out that we were not so big as we thought we were. We were riding too high. We shall have to keep nearer the ground. We may not feel so elated but we shall be much safer.

We must realize that the best recipe for financial security is to live within our means. That is our ancient faith. We have found nothing better.

We must re-learn the old Biblical admonition: "Thine own right hand can save thee." We must realize that Governments are not all-powerful, that present relief measures are but a crutch to help us for a moment when we cannot otherwise help ourselves, but that our salvation, our whole future, rests with us as individuals.

There is no power that can absolutely guarantee us economic security. We think we want relief from toil and worry, forgetful that our real satisfactions are in our achievements. If we will but make the effort to develop them, if we will apply ourselves faithfully to our tasks, we shall all find we have powers we did not know we possessed.

The total value of building and construction awarded in Canada during 1931, as compiled by MacLean Building Reports, Limited, amounted to \$315,482,000. Ontario led all the provinces with \$125,452,800, or 39.8 per cent. of the Dominion total. Quebec comes next with \$106,125,700 or 33.6 per cent.

It has been estimated that Colombia's waterfalls could be harnessed to produce more than 4,000,000 horsepower.

The total expenditure by the different Provinces of Canada on main provincial highways during the year 1930 was \$34,502,759.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Storms, R.R. 5, Platon, Ont., writes:—"I was troubled with palpitation of the heart; couldn't sleep, day or night, and was so weak I could hardly get around."

After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks.

My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful builder."

Astrologer Makes Some Unpleasant Predictions

Says 1932 Hard Year For Cattle and Married People

Prof. Gustave Meyer, of Hoboken, New York, who describes himself as "the nation's counsellor and American scientific astrologer" cast his eyes heavenward, added up several rows of figures and predicted that 1932 is going to be a tough year for cattle and married people.

In scanning the planets for his annual first-of-the-year forecast, Professor Meyer considers that Japan and China are going to have much trouble, and that Japan will get the best of it in the long run. He feels that prohibition is going to have "a terrible time" during 1932, that prosperity is coming back to stay, that Colonel Lindbergh and Henry Ford had better watch their step in February and that next Fall there will be plenty of rain, snow, hail, thunder and lightning, floods, earthquakes, bank failures, broken legs and stomach trouble.

Among those who will suffer during the year, according to the professor's charts, are theatrical people, hotel and restaurant people, steamship people, bull traders, naval officers and cabinet members.

Those who will enjoy good luck include literary people, scientific people, astrologers, mining men, real estate agents, President Hoover, soldiers, diplomats and all the unemployed.

Stockmen Elect Officers

Meeting Of Canadian Livestock Co-Operatives Held At Saskatoon

W. A. Amos, of Palmerston, Ontario, was elected president of the Canadian Livestock Co-Operatives at a meeting of the directors held at Saskatoon. He succeeds W. D. Mackay of Saskatoon. Roy McPhail, Brandon, was elected vice-president of the organization.

Directors for the provinces are: Alberta—J. E. Evanson, Taber; Saskatchewan—W. D. MacKay, Saskatoon; Manitoba—Roy McPhail, Brandon; Ontario—W. A. Amos, Palmerston; Quebec—J. T. Desmarais, Montreal; Maritimes—J. McClellan, Prince Edward Island.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates complexions of exquisite charm. Adds a subtle finish to the daintiest woman. Invaluable for softening the hands and making them flawlessly white. Cool and refreshing. Daintily fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Real Benefit To Farmers

Shipping Club In Quebec Markets Produce To Advantage

A fine example of the real benefit to farmers in getting together to market their products is afforded by the results obtained by the Campbell's Bay Shipping Club, of Pontiac County, Quebec. This year to date the club has marketed 250 head of cattle, 250 calves, 1,150 lambs, and over 12,000 pounds of dressed poultry, representing cash returns to the farmers of that district of well over \$15,000. The Federal and Provincial Departments of Agriculture have co-operated effectively in making the scheme the a success.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Cannot Hoard Gold
Viennese who have taken to hoarding gold in their mouths in the form of fillings, crowns and bridgework have bitten off more than they can chew. Firms which cast gold bridges and similar material for dentists, have been doing a good business lately. The National Bank, which now has the sole right to sell gold, says temporary fillings will have to do until the gold crisis is past.

New Ideas For Cars

Many Advanced Methods Will Feature Automobiles Of Future

The automobile industry, in its quest for new features to intrigue the buying public, spends millions of dollars annually in experimentation on advanced methods of automobile construction. Many of the ideas which result from the extensive research of the industry's engineers seem radical at first glance, but are a forecast of what may be expected for future automotive transportation. Among the many possible developments discussed in engineering circles is such a startling suggestion as a gasolineless, waterless car, propelled by radiated electricity. Another unusual proposal calls for the use of an airplane type of construction for cars, with large fenders and a combined roof and wing structure lifting a considerable amount of weight from the road, and with propulsion furnished by a propeller.

Drop In Living Costs

Reduction Of Fifteen Per Cent. During Last Two Years

Cost of living has dropped by over 15 per cent. during the past two years, the Dominion Bureau of Statistics reports. This is the second largest decrease among the leading nations, the United States leading with a drop of 16.5 per cent.

Germany ranks third with a 12.9 per cent. drop, Great Britain fourth with 9.6, and France fifth with 8.9 per cent. One of the reasons Canada, United States and France rank so high is the extensive agricultural developments of these countries.

Toothache and neuralgia are instantly relieved with Douglas' Egyptian Liniment. A quick, sure remedy. Also recommended for burns, sprains, sores and inflammation.

Land and Water Ferry

Hotel guests at Devonshire, England, now use a ferry that travels on land or sea. It is equipped with tractor wheels for land, and a propeller is driven off the tractor motor to drive the ferry through water.

In 1807, the first rafts of pine cut in the Ottawa Valley reached the City of Quebec.

Man Without a Country

Pitiable Plight Of Negro Who Was Deported From Canada

Chained to a grating in the hold of a ship in port, where he has remained for more than a month, is another man without a country.

He is Cecil Jafes Scott, 29-year-old negro deported from Canada and unwanted in his alleged homeland of Bermuda. He was put aboard the steamer "Borsund" at Halifax, and when permission was refused to land him at Bermuda or Demerara where the authorities had no information concerning him, the only alternative was to bring him back to Canada. Having previously been deported from the Dominion, he was refused admission when the "Borsund" arrived at St. John, and now the captain and immigration officials are wondering what they shall do with the passenger.

The steamer's owners are liable to a \$1,000 fine if the deportee escapes. So "down below," in an improvised cell formed by a grating, is the "man without a country," his right wrist fastened to the steelwork and a blanket serving for a bed.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Ship Fox Skins

Seven Thousand Pelts Leave Quebec For London Market

During recent days 7,000 fox skins have been shipped from Quebec to be placed on the London fur market, according to information given out at the office of the Co-Operative Fur Animals Raisers of the province of Quebec. This shipment of skins, the largest ever sent out from here, is valued at \$200,000 and consists only of skins of the best quality.

In the face of orders on hand at present, Co-Operative officials say, it is probable that an additional 13,000 skins will be placed on foreign markets in the very near future.

RADICAL CHANGE IN MONETARY SYSTEM IS URGED

Edmonton, Alberta.—In a smashing frontal attack on the existing financial system the United Farmers of Alberta, in convention here, condemned the gold standard, called for the complete nationalization of the monetary system and the extension of credit to industry on a basis of cost, not of profit.

The farmers, refused, however, to declare themselves in favor of nationalization of all the banks. They thought, with a national credit system, the banks would either not be needed or would have to render as good service as the national system.

The resolution passed was "Resolved that we, the delegates of the U.F.A., in convention, do endorse the complete nationalization of the monetary system to advance credit on a basis of cost, not on a basis of profit."

Coincident with the demand for a national credit system came a proposal for intensified political action to bring this about. A resolution call for this was defeated only on the ground that the United Farmer members in the Federal Parliament had done all possible.

Complaint was made that the United Farmer Government of Alberta and the farmer members of the legislature had not taken the strong stand on the question which had been taken by the Federal members. The convention called on the Provincial Government and all officers and members of the association to proclaim publicly their belief that monetary reform was the only way out of the depression and so give moral support to the members at Ottawa.

This implied a censure on the Provincial Government, said William Irvine, M.P., of Wetaskiwin. The matter was one for the Dominion Government alone and the Provincial Government had to work under the present system and borrow money from the banks.

"It will soon be apparent that every provincial government in Canada is at the beck and call of the financial interests in Wall Street," said Mr. Irvine. This, he thought, might be good propaganda for the cause of monetary reform.

Farmers should unite with industrial workers to secure political power and so change the system, said Karl Axelson. There was nothing wrong with the Bank Act except it was in the hands of the wrong people. The producing classes should wrest control from the vested financial powers.

As the convention passed a resolution calling for the abandonment of the gold standard, Henry Spencer, member of parliament for Battle River, said Canada had already gone off the gold standard although the government did not admit it.

Deflation of currency was also favored as a means of increasing the sale of farm products. The suggestion that instead of borrowing money and paying interest "to the great financial powers" for unemployment relief works, the government should issue new paper money, was endorsed.

Amendment of the Bank Act to provide a penalty for any bank or bank official charging higher interest than seven per cent. was asked. This was a reiteration of the demand made in the House of Commons last year by Mr. Spencer.

Another resolution passed called upon the government to make wheat certificates legal tender. It would enable a farmer to take the receipts for wheat delivered to an elevator and use them to make purchases.

The Canadian tariff system was denounced and a resolution declared the time had come for an "all round reduction in our customs duties" to the intent that within a period of not less than five years every feature of this barbaric economic superstition be eliminated from the fiscal policy of our country.

It is now possible to select certain sounds for transmission by wireless while other noises from the same sources are suppressed.

'Plane Makes First Trip

Giant Liner Inaugurates Weekly Airmail Service To Cape Town

London, Eng.—Promptly on schedule time, the giant Imperial Airways' liner "Helena" took off from Croydon aerodrome Jan. 20, inaugurating a weekly airmail service to Cape Town.

The plane carried 20,000 letters and 160 parcels, including a large box of eggs. The passengers were Air Vice-Marshal Sir Vyell Vyvyan, Lady Vyvyan and F. G. L. Bertram, Deputy Minister of Civil Aviation.

The London-Cape Town route follows established routes as far as Egypt and then plunges south down the "dark continent," travelling a route worked out first by machines of the Royal Air Force, which did the pioneer work only a few years ago.

Offered Fellowship

Fellowship In Royal Geographical Society Awarded To Western Aviator

Edmonton, Alberta.—A fellowship in the Royal Geographical Society has been awarded to Pilot Walter E. Gilbert, Canadian Airways, Limited, according to word received in the city. Such an award to an aviator is believed to be unusual.

Pilot Gilbert flies Canadian Airways, Limited, machines from Edmonton to the Arctic Coast, and was associated with Major Burwash on the latter's trip to King William Land and the north magnetic pole in the fall of 1920. He piloted the aeroplane G-CASK on that occasion. This machine, known for steady service and which has been flown steadily by Gilbert for more than a year, is almost as well known as its master.

Scholarships For Argentina Students

Will Provide Same Facilities As Given Rhodes Scholars

London, England.—The Prince of Wales announced the establishment of a scholarship for Argentina students at Oxford University at a dinner of the Argentina Chamber of Commerce here.

The prince said the scholarship would provide the same facilities as were given to Rhodes scholars from the United States. It would be extended to two students from the University of Buenos Aires annually for at least three years. Each student would stay at Oxford for two years.

More Air Mail Business

Post Office Officials Report Increase In Prairie Provinces

Ottawa, Ont.—Air mail business in the prairie provinces has increased, post office officials declared, commenting on a despatch from Edmonton, Alberta, which said the U.F.A. convention had passed a resolution urging the abandonment of unprofitable services.

Departmental officials are busy on the estimates for next fiscal year, and the air mail will receive attention among other branches of post office activity. It could not be learned whether the appropriation for this will be increased or cut.

Value Overestimated

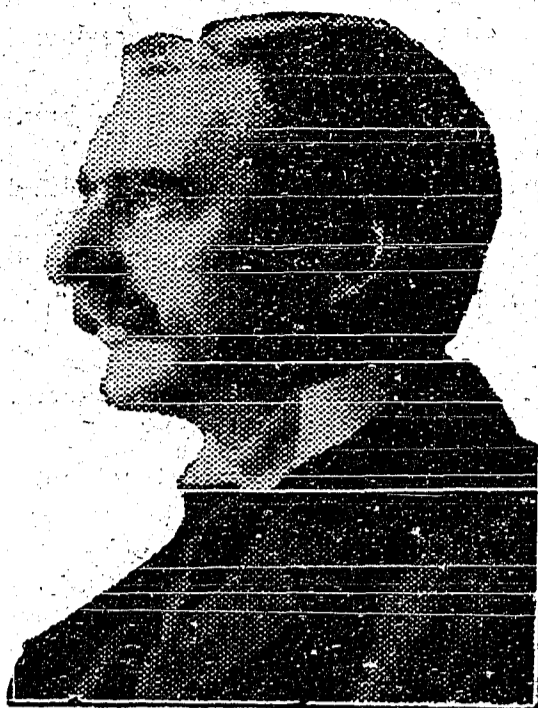

Furs On Baychimo Not Worth Over Thirty Thousand

Winnipeg, Man.—"Ridiculous" was the expression voiced by officials of the Hudson Bay Company in regard to report that the missing fur-trade vessel "Baychimo," lost in the Arctic Circle carried fur pelts valued at \$1,500,000. Officials stated that the total value of pelts on board would not exceed \$30,000. A quantity of pelts had been saved before the vessel disappeared they said.

Don Graham, 35, Alaska air mail pilot, is reported flying to find the ship and seize the furs under salvage laws.

The salmon pack in British Columbia reached a record figure of 2,221,310 cases last year, exceeding the previous record attained in 1920 by 150,020 cases.

WAR DEBT ADJUSTMENT

Right Hon. Neville Chamberlain, Chancellor of the Exchequer, who will attend Reparations Conference.

Aviators Stranded In China

Fliers From Canada and U.S. Cannot Get Jobs

Shanghai, China.—Five Canadian aviators and five from United States, who came to China expecting to be given jobs at \$1,000 a month piloting Chinese military aeroplanes, found themselves stranded here.

The aviators said they were promised by Chinese organizations in Canada and the United States the aviation bureau of the Chinese Ministry of War was seeking pilots and would pay the salary mentioned for competent men.

The aviators landed here with practically no money only to be told the government bureau is not looking for pilots at all.

The five pilots from the United States said posters appeared at numerous Pacific coast airports advertising for pilots.

Dr. Philip Chu, Chinese physician at Vancouver, the Canadians said, is president of the Chinese society there and was directing the enlistment of Canadian flyers.

The aviators said they understood more Canadian and United States pilots are coming to China as a result of the promises. The trade commissioners communicated with their respective governments, hoping to forestall the coming of others.

No Franchise For Women

Bill Introduced In Quebec Legislature Is Defeated

Quebec, Que.—Attempt of the women of the province of Quebec to secure votes in provincial elections failed again in the legislative assembly.

The Women's Franchise Bill, sponsored by Dr. Anatole Plante (Lib., Mercier), went down to defeat by a vote of 52 to 23 on an amendment moved by Arthur Belanger (Lib., Levis), seconded by J. P. Giguere (Lib., Dorchester), giving the bill a six-months hoist.

President Of U.F.A.

Robert Gardiner Unanimously Chosen To Lead Organization For Second Term

Edmonton, Alberta.—Robert Gardiner was unanimously chosen president of the United Farmers of Alberta for a second term at the annual convention here.

The veteran farm leader, who represents Acadia in the House of Commons and is also leader of the United Farmers of Alberta group in Dominion politics, was given an ovation when no other nominations were offered.

Mr. Gardiner notified the members they had better look around for another president for 1933. He said he found the burden of carrying the two posts of leader of the group in the House of Commons and president of the association too heavy.

Norman F. Priestly, Calgary, was re-elected vice-president by acclamation. A. F. Aiken, Battle River, was also nominated, but withdrew in favor of a renewal of Mr. Priestly's term of office.

Railways and Truck Competition

Suggestion Made That Railways Must Eventually Co-Operate With Bus Operators

Toronto, Ont.—Further co-operation of railways with bus and truck operators was urged by Hon. Leopold Macaulay, Ontario Minister of Highways, here. Co-operation of provincial and Dominion Governments to this end is essential, he said.

"Railways themselves are partly to blame," said Mr. Macaulay, "if truck and bus traffic is making inroads upon the business of the steam transportation systems." Advisability of co-ordinating the two Canadian railway systems and all phases of transportation would become increasingly evident as time went on, he believed.

"I am looking forward to some suggestions from the royal commission on transportation as to means whereby the railways may co-ordinate truck and bus traffic with their own operations," he declared.

Cathedral Is Being Turned Into Museum

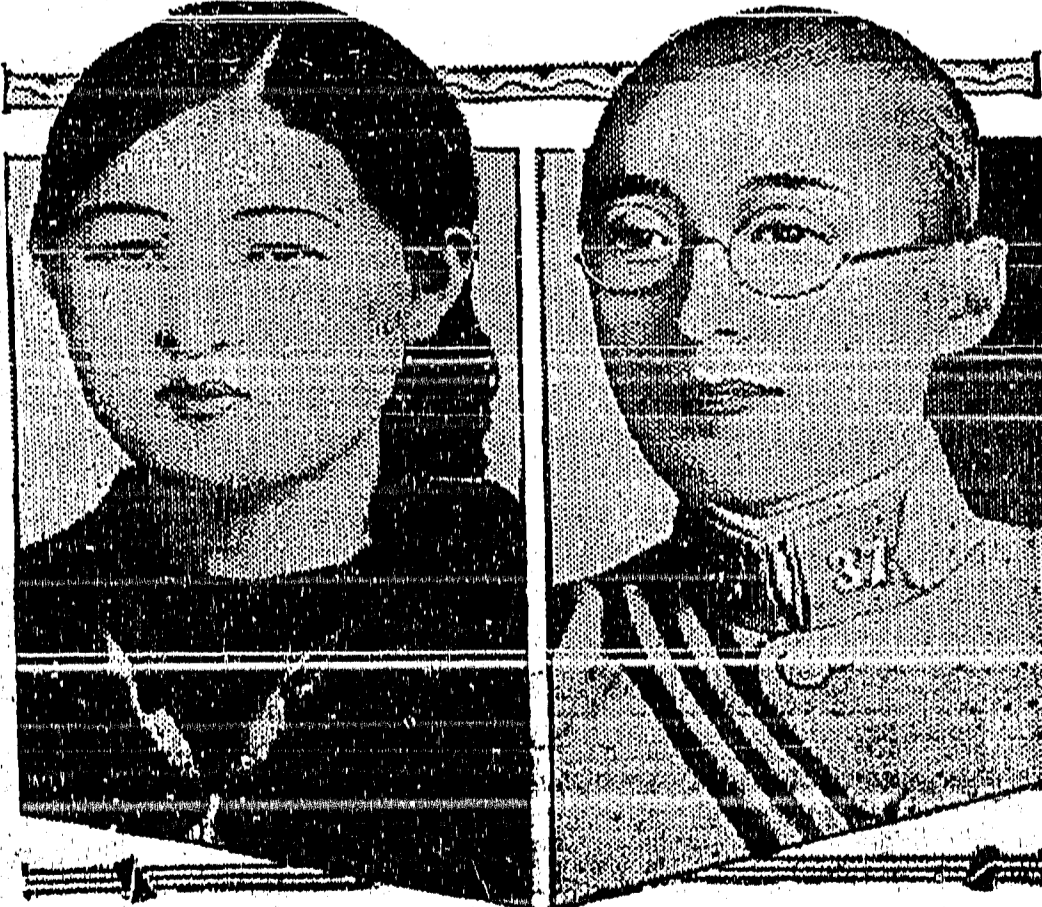

Soviets Will Use It For Anti-Religious Exhibits

Leningrad, U.S.S.R.—The Soviet government has announced that the Kazan cathedral here would be converted into the largest anti-religious museum in the Soviet Union.

When completed, the museum would contain exhibits of various objects of a religious nature, interpreted along the lines of the late Karl Marx's doctrine, adopted by Soviet Russia, that "religion is opium for the people."

The Kazan cathedral was started in 1801 and completed in 1811 at a cost of approximately \$2,000,000.

TRAGEDY OF SINO-JAPANESE WAR

Rather than be a source of worry to her soldier-husband as he departed for the battle-front in Manchuria, Mrs. Kiyochi Inoue (left), 21-year-old wife of Lieutenant Inoue (right), of the Japanese army, calmly attired herself in her best clothes and stabbed herself in the throat with a dagger her husband treasured. She left a note for her husband, in which she explained the reason for her suicide, and enclosed 40 yen (about \$20), with the request that he spend the money to make his soldiers happy. Her home was in Osaka, Japan.

BOYCOTT AGAINST BRITISH GOODS WEAPON IN INDIA

Bombay, India.—The merchants' organization, comprising representatives of markets and exchanges that have been closed for 16 days, laid plans for a mass meeting to protest the arrest of Mahatma Gandhi, Nationalist leader, and ordinances directed against the Nationalist civil disobedience campaign.

Statistics from "authoritative sources" were published purporting to reveal the effect of the Nationalist boycott against British goods. They show Japan has shipped nearly 15,000,000 yards of cloth to India in one month, compared with less than 3,000,000 yards shipped by concerns in Great Britain during the same period.

Two 16-year-old girl students from the University of Bengal went to trial before a special tribunal in Calcutta, charged with the murder of Magistrate C. G. B. Stevens who was shot to death a month ago. Both pleaded not guilty.

A British police sergeant was stabbed in the head at Dacca by an unidentified assailant who stole his revolver and fled. Two suspects were arrested. When a crowd attempted to seize several prisoners in Gorakhpur police fired two rounds of buckshot without wounding anyone.

Sen Gupta, former mayor of Calcutta and a prominent Nationalist, was arrested as he stepped off an Italian ship. No specific charge was lodged against him.

Rev. H. V. H. Elvin, a young missionary, who accused authorities in the northwest frontier provinces of oppression, cruelty and "things that ought to make an Englishman ashamed," said he had been arrested and deported from that area. He blamed special officers for the alleged outrages and paid tribute to the regular British police force, describing its members as real friends of the people.

Suggests Bonus For Buyer

Proposal Would Benefit Coal Purchaser Instead Of Mine Operator

Calgary, Alberta.—Any step towards improvement in the Canadian coal industry meets the approval of Alberta operators, it was declared by officials commenting on a proposal for a government bonus to the purchaser of coal instead of the mine operator, H. J. Kelly, manager of the Dominion Steel and Coal Corporation, in Sydney, N.S., suggested the government pay a bonus, not to the mine operator, but to the purchaser of Nova Scotia coal.

"At present the subvention from the government benefits the railways, not the purchaser," declared P. R. Shields, manager of Coal Sellers Company, Limited. "Any subvention should result in a lower price to the consumer in order to be of any advantage to the industry."

Claims Copyright Infringement

Damages Asked For Use Of Photograph Of Prince Of Wales On Two Dollar Bills

Toronto, Ont.—Damages for the use of copyrighted photograph of the Prince of Wales on Dominion of Canada two-dollar bills are being sought by George P. Freeland, local photographer, in an action started against the Canadian Bank Note company, Ottawa.

Mr. Freeland claims that during the visit of the Prince in 1919, he took a number of photographs of his royal highness and copyrighted them. The pictures, he says, were later used on a two-dollar bill.

Wheat Quota Workable

London, Eng.—The government's revised wheat quota scheme, giving domestic farmers a fixed proportion of the British market is, so far as it goes, more workable than the original proposals, the National Union of Farmers was told at the annual meeting recently by a member who had been one of the negotiators with the government over the plan.

The February meeting of the Presbyterian Ladies' Auxiliary will be held at the home of Mrs. Geo. Johnson, Friday, 5th, at 3 p.m.

FOR SALE—About 20 boxes Cox Orange apples at 45c. per box if box is returned, or 60c. with the box. K. E. Paulson, Creston.

The 1932 council will have its first meeting at 10 a.m., Monday, February 8th, when they will sit as an assessment court of revision at the town hall.

Notices of the 1932 village assessment have been received, and there has been practically no charge since the previous year, except in a few cases where a reduction has been made.

Posters are up for an old-time dance with old time music in the Park Pavilion on Friday evening, February 5th, with dancing at 9 o'clock. It is under the direction of the K.P. building committee and the admission is \$1 to gents, and 50 cents to ladies.

THE J. R. WATKINS COMPANY has an exceptionally fine opening in this locality for a live man to take over the sale and distribution of their products, serving and selling hundreds of satisfied customers. For further information apply 1350 Hornby Street, Vancouver, B.C.

Ministers, deaconesses and workers of the Pentecostal Assemblies (Kootenay Division) from Kimberley, Fernie, Crawford Bay and Creston were in special conference here on Tuesday, Wednesday and Thursday of last week, with the district superintendent, Rev. John E. Barnes, of Nelson, in charge. Morning, afternoon and evening sessions.

Great Herd of Buffalo

Thousands of Cattle and Horses

were held, and the open meetings were all largely attended.

This week representatives of the Woman's Missionary Societies of the United Church in Kootenay-Boundary are having the annual conference at Trinity United Church, opening with a banquet and lecture on Wednesday and scheduled to close Thursday evening. We hope to have a complete report of the gathering for next week.

This week will see all the cup play completed at the Creston curling rink. Up to the present the Joyce rink has annexed the Fraser cup, the Weir rink has won the Imperial Bank cup, and in a competition with the third man as skip the Craig rink has captured the Cranbrook Brewing Company silverware for the Fernie-Fort Steele Brewing Company trophy the Boyd rink looks like a sure winner.

The United Church basement was packed to capacity on Tuesday night for the annual ratepayers meeting at which the old council gave an account of the past two years, and all candidates seeking election were heard from as to their policies for the next two years. Jas. Cherrington was chairman of the meeting, and Chas. Murrell, secretary. On the whole the meeting passed off quieter than than was anticipated.

A night w' Burns at the home of Mr. and Mrs. W. Ferguson on Monday was enjoyed by everyone present. Stories and songs of Burns were the feature of the evening. Just before partaking of the homely fare of old Scotland Mr. Ferguson favored with a reading by Pte. McPhee on the haggis. Mr. Vigne and Mr. and Mrs. Ferguson sang many of the

old songs, and the hauns o' the clock were considerably ayont the twal before the happy gathering did Auld Laay Synn in traditional style.
