Canyon Observes St. George's Day

Times of England's Patron Saint Recalled in Song and Story—Col. Mallandaine's Impressive Talk on the Day We Celebrate

Bigger and better in every way was the second annual observance of St. George's Day ot Canyon City, on Saturday evening, the affair being sponsored by Canyon Farmers' Institute and staged in the spacious community hall with F. Knott occupying the chair.

Proceedings opened at 7 p.m. with a splendid dinner which was directed by a committee composed of Mrs. Taplin, Mrs. Bond Mrs. Moberg and Mrs. Brett, with the following young ladies lending able assistance: Helen and Agnes Johnson, Annie Gartland, June Browell, Grace Bond, Sarah Brett and Dolly Tedford. All the items on the menu were English and were done full justice to by a turnout of almost 100, quite a number of whom were from Creston, Erickson and other valley points.

After supper had been disposed of chairman Knott welcomed the guests and in a short address shed considerable new light on the early history of England's patron saint, whose birthday the occasion commemorated. Then followed a variety programme that was enthusiastically received, with T. R. Mawson, repeating his former day successes with his rendition of "Johnny with His Big Boots On.". The programme follows:

Banjo and violin—L. Moberg and T. Mawson.
Cockney songs—W. H. Kolthammer, A. Bond.
Solo—"Nancy Lee," Miss Frances Knott.
Solo—"Queen of Earth," J. Bateman.
Recitation—Mrs. J. Nygaard.
Solo—"Beautiful Picture," A. Bond.
Duett—"Drink to me Only with Thine Eyes," Mrs. Kolthammer and Miss F. Knott.
Recitation—"Thou Shalt Not Steal," O. M. Samuelson.
Solo—"Johnny with the Big Boots On," T. Mawson.
Solo—"Sweet Geniveve," Mrs. A. Bond.
Duett—"Larboard Watch Ahoy," A. Bond and W. H. Kolthammer.
Recitation—"Devil May Care," J. B. Holder.
Piano solo—T Goodwin.
Duett—W. and P. Truscott.

Following this feature there were a couple of toasts, "The Visitors" was introduced by O. M. Samuelson, and in a humorous strain replied to by Rev. A. Walker, who just couldn't digest so much English eulogy, in song and story, as well as eats, without reminding that there were other outstanding saints, notably St. Andrew and St Patrick.

The other toast was the "British Nation," which W. H. Kolthammer proposed, and the reply was by Col E. Mallandaine, who was at his best in recounting Britain's past supremacy and its unquestioned beneficial effects on the world at large, and prophesying that she would continue to play the same prominent and helpful part all down through future ages.

The gathering closed with the national anthem. The evening was in charge of a committee composed of Messrs Kolthammer, Bond, Knott and O. M. Samuelson who were complimented on all hands on the splendid all round success that had attended their efforts

Lister

Mr. and Mrs. W. Ramm and family left a few days ago for Arrow Creek, where they have taken a lease on the former Eby place for three years.

Mr. and Mrs. Mert McCulloch and family, who have been living at the Lewis place opposite Sirdar for the past few months, have returned to occupy the Hopkins place at Huscroft.

H. Langston has just been notified that he has been officially gazetted as a notary public and commissioner for taking affidavits.

Word from Kimberley notifies that J. W. Bell has just been elected president of the Kimberley Sullivan Mine football club, which this year will play in the Crows Nest league if there is an opening for another team.

Rev. T. Scott of Creston will be here on Sunday for 11 a.m. Church of England service at the schoolhouse.

Mr. and Mrs. A. W. Sinclair were Saturday night's hosts at bridge, with four tables in play and the high score prizes going to Mrs. H. Langston and Harry Helme During the evening musical numbers were in evidence and there was a delightful lunch at the close of proceedings.

A number from here were at Creston on Sunday morning for the Ypres Day Church parade of the Creston Valley Post Canadian Legion.

Canyon City

An attendance of about 40 was recorded at the meeting of the Workingmen's Club at the hall on Friday evening, which was presided over by the president, Matt. York of Creston. The chief business had to do with adopting the by-laws and regulations of the club.

Mrs. Grover Kifer and young daughter, Canal Flats, are here on a visit at the home of her father, A. G. Samuelson.

Mr. and Mrs. R. DeWolf left at the end of the week for Lafleche, Sask., making the trip by auto.

The newly-organized Ladies' Hospital Auxiliary are having a whist and bridge drive at the Community Hall on Friday evening, May 6th, with an admission of 35 cents Cards at 8 o'clock prompt.

Mr. and Mrs. W. Ridd, who have spent the past year at Antross, Alberta, returned to Canyon on Thursday last, and will be making a few weeks' stay at the ranch. Their son, Will, is still in attendance at the technical school at Edmonton, Alberta.

Mr. and Mrs. J. E. VanAckeran were at home on Friday night to the members of Canyon Dramatic Club. Four tables were in play and the ladies' high scores were made by Mrs. L. W. Stephens and Mrs. Roy Browell, and much satisfattion was felt that high honors to gents went to "J. P. Deuteronomy Jones" (L Rowe), and the redoubtable "Deacon Dubbs" (Roy Browell), of Sorghum Centre, Sorghum County, State of West Virginny. Incidents of the play, both grave and gay, were recalled and altogether the evening had few dull moments, closing with an excellent lunch shortly after midnight.

At a well attended meeting of Canyon ladies at the hall on Monday afternoon it was decided to organize a Ladies' Auxiliary of Creston Valley Public Hospital, and after all angles of such an organazation's activities were discussed the following officers were elected: President, Mrs. T. Hickey; vice-president, Mrs. E. Humble; secretary-treasurer, Mrs. L. W. Stephens; executive, Mrs. C. Blair, Mrs. Roy Browell. The auxilary will specialize on effort to assist building fund of the new hospital and in this connection are havidg a bridge next Friday evening.

Prairie Jobbers Quite Optimistic

Representatives Long, Allan & Long Back from Business Visit Prairie Centres—Farmer Satisfied 1932 Show Improvement

W. R. Long and C. W. Allan of the fruit shipping firm of Long, Allan & Long, Limited, have recently returned from a trip to prairie centres, which they made by auto. During the trip they visited the most important points in southern Alberta, winding up with a meeting of fruit wholesalers at Calgary, at which satisfactory arrangements were concluded for the disposal of this season's crop.

With the commencement of the shipping season only six weeks off this firm are putting the finishing touches to its arrangements for the handling of the crop insofar, at least, as soft fruits are concerned, and as usual will conduct shipping operations at the five important berry points in the Valley, Wynndel, Reed & Mather siding, Alice Siding, Creston and Erickson, thus assuring growers of the best possible service.

While on the prairie Messrs. Allan and Long took particular pains to ascertain, so far as was possible, the true state of conditions. In this connection it is generally conceded that while the purchasing power of the people is not all that could be desired, the wheat producer has now readjuusted his overhead to meet present prices, and the feeling is that if a reasonably good crop is harvested this fall and marketed, even at present prices, the result will be reflected in a general improvement in business in which, of course, the fruit producer will participate.

School Field Day Saturday, May 14

Some Additional Events This Year—Junior Events and Senior Heats in Morning—Presentation of Prizes to Close Day

At a meeting of the track committee on Saturday last, final arrangements were made for the meet. The date decided on was May 14th, one week before the Kootenay-Boundary meet at Kimberley.

Besides the Camp Lister trophy for rural schools, the C.V. Teachers' trophy for senior girls', and the Masonic trophy for senior boys' aggregate, all donated last year, there will be a number of new cups in competition. The Knights of Pythias again donated two cups for the intermediate aggregates, the Canadian Legion and the High School Athletic Society have given trophies for the 100 yards' in the senior events, while the valley teachers are giving cups for the 100 yards in the intermediate division.

Two new events have been added to the programme, a 50-yard dash each for boys and girls under nine. Due to the length of the programme it has been decided to run off the junior events and the heats for the senior events in the morning, thus preventing too long an afternoon.

Competitors in each event have been limited in number to two from each school. All entries must be handed in to Mr. Marriott before May 7. Individual numbers will then be assigned, to avoid the confusion of last year. Awards will be made the same day, probably at 5 p.m.

It has been decided that the committee itself will operate the refreshment concession this year, so that those competors taking part in the morning events will be enabled to have some refreshments without charge.

It is hoped that the meet will receive the hearty co-operation of Valley residents. The aim of the committee is to inculcate the highest ideals of sportmanship in the youth of the district and to develop any at letic ability amongst the school pupils by affording them suitably supervised and organized competitive sport.

Leland Nowlin arrived on Wednesday from Claresholm, Alberta, to which town he went some days ago to attend the funeral of his mother.

Mrs. Manuel of Vancouver, arrived on Saturday on a visit at the home of Mr. and Mrs. C. Senesael, leaving again on Sunday to visit friends at Creston.

Miss Kate Payne of Creston arrived on Friday on a visit with Misses Verg and Hazel McGonegal, returning on Sunday. While here she attended the Athletic Club dance in Hunt's Hall, Friday evening.

A rather small crowd attended the Athletic Club dance on Friday night, the weather being anything but favorable. A nice lunch was served, and the music by Creston Commander orchestra was good. A novelty dish was raffled, and was won by Mrs. C. Senesael.

Miss Jessie White, public school principal, was a Creston visitor on Saturday

E. Driffil, C.P.R. tie inspector, was here from Cranbrook on a visit Sunday.

At present the government road is being graded, which greatly improves the travelling in this district.

Wynndel

J. B. Rudd left last week for a visit with his daughter at Bellvue, Alberta.

Clarence Rudd of Lewiston, Idaho, is here on a visit with his father, A. F. Rudd.

Miss L. Benedetti was a Cranbrook visitor last week, a guest of her sister, Mrs. Firentino.

Miss Z. Rudd, who has been a patient in Cranbrook hospital, arrived home on Sunday, and is making a very nice recovery.

Miss Ena Christie of Creston was a weekend visitor here, a guest of Mrs. Chas. Leamy.

The meeting of the Ladies' Aid will be held at the home of Mrs. M Hagen on Thursday, May 5th, at 2.30 p.m.

Carding bee will be held at the home of Mrs. Towson, Wednesday, May 4th, to prepare wool for W.A. quilt

The April meeting of the Women's Institute was held in the hall on Thursday last, with the president, Mrs Robinson, in the chair. The report of the sick visiting committee was read. Resignation of secretary was also read, but not accepted, she being asked to reconsider the matter. The Otha Scott endowment guarantee has now been fully paid up. Miss Lena Benedett and Mrs. Davidge were added to the sick visiting committee

Basketball 1932 Season Closed

High School 'A' Team Champions Both Leagues—Complete Season Unbeaten—Individual Scoring Honor is 44 Tie.

The basketball season came to an end Friday, with High School A winning the final game of the play-off series from the Chums by a score of 22-10 In preliminary games, the Pals defeated High School B by 17-9 and the Centipedes (Seniors) defeated the Millionaires (Intermediates) 36-11.

In the semi finals of the play-offs on Thursday evening the Chms defeated Public School by a score of 21-14.

For the first season, the basketball league feels that it has attained considerable success. Due to the kindness of the village commissioners, Park Pavilion has been made a true community centre. The league has had the use of the hall rent-free, paying light and fuel bills, and installing its own equipment. Two leagues have operated for the ladies, while the men have also made use of the facilities offered. Two teams of ladies, one of men, three high school girls' teams and one high school boy's team financed the undertaking. As well as these, two public school teams, boys' and girls', and one team of the unemployed young men have had the use of the hall without any expense, the league carrying their costs. In this way well over one hundred individuals have had a healthful and clean winter's sport.

The following statistics in league standings may be of interest to the supporters of the game, the Town League figures coming first:

	Played	Won	Lost	Points Score	Points Against	Standing
High School A	6	6	0	139	37	12
Chums	6	4	2	102	80	8
Pals	6	1	5	52	109	2
High School B	6	1	5	40	107	2
SCHOOL LEAGUE						
High School A	6	6	0	129	58	12
Public School	6	2	4	76	81	4
High School B	6	2	4	48	107	4
High School C	6	2	4	52	59	4

HIGH SCORERS, TOWN LEAGUE—Marjorie Levirs (Chums) 44; Nell Payne (High A) 43; Elizabeth Armitage (High A) 26; Betty Speers (High A) 23: Irene Bourdon (High A), Nora Payne (Chums), Alice LaBelle (Chums) 17; Irene LaBelle (Pals) 14; Reetha Phillips (High B), Margaret Armitage (High B), Jo Pederson (Chums), Marion MacDonald (Pals) 13.

SCHOOL LEAGUE—Neil Payne (High A) 44: Elizabeth Armitage (High A) 37; Margaret Armitage (High B) 21; Phyllis MacDonald (Public) 19; Yvonne LaBelle (Public), Dorothy Palmer (High C) 18; Olive Connatty (Public) 16; Theo Tompkins (Public) 15; Helen Browell (High C), Molly Moore (High A) 14.

ALL WELCOME!

PUT HIM OFF HIS PIPE

Indigestion and Acidity

"A few months ago, I had an attack of indigestion, heartburn and acidity, and had no appetite for meals, especially breakfast. I am a pipe smoker, and for several days I felt so ill I could not even look at my pipe. I decided to try Kruschen Salts. A few days afterwards I found that the heartburn and acidity had gone, and for the last five or six weeks I have been in my usual good health. I can now enjoy my pipe-smoking, and in fact feel about 10 years younger."—R. P.

When your digestive juices fail to flow freely your food lies in the system and ferments, thus causing the distress of indigestion. The "little daily dose" of Kruschen first stimulates the flow of the gastric juices, and then ensures complete, regular and unfailing elimination of all waste matter every day.

WORLD HAPPENINGS BRIEFLY TOLD

Pure diamonds have been created artificially in the laboratory of Columbia University.

Germany's unemployed at the end of March numbered 6,031,000, a decrease of 98,000 in two weeks.

Dr. Hartley Travers Farrar, geologist, who accompanied Captain Scott on his expedition to the South Pole in 1901-04, is dead.

Dr. John Stanley Plaskett, astronomer, will receive an honorary degree from McGill University at the 1932 spring convocation.

Samuel McKay, noted Indian fighter and buffalo hunter, died at Wild Horse, Alberta, recently. He was born in Winnipeg in December, 1852.

It was learned on good authority that Turkey was ready to become a member of the League of Nations and an invitation probably will be issued this year.

Lord Irwin, former viceroy of India, sailed on the "Empress of Australia" for a lecture tour in Canada under the auspices of the Massey Foundation.

An ambulance hut has been opened at T[illegible]not's Corner, near Southend, Engl[illegible]on the London-Southend Road, where 364 accidents have occurred in the last 12 months.

Rear-Admiral Sir Godfrey Paine, who died at the age of 60, was buried at sea off the Isle of Wight, after a service in the dockyard church, Portsmouth, England.

Canada's export of wheat during the eight months of the present crop year ended in March was 124,269,429, bushels. Of that amount 71,505,107 bushels went to the United Kingdom.

Canada Steamship Lines

Veteran St. Lawrence River Captain Is Appointed Skipper of the S.S. "Tadoussac"

Beginning his 42nd year as Captain on the St. Lawrence River, Wilfrid Gagne is again named skipper of the s.s. "Tadoussac" in passenger fleet appointments announced by the Canada Steamship Lines.

Born in Point Au Pic, Quebec, a short distance from the Manoir Richelieu, Captain Gagne has spent almost his entire life on the St. Lawrence and Saguenay Rivers and is said to know every turn by heart. During the war Captain Gagne's knowledge of the river was put to good effect as he was given the unique and valuable work of piloting submarines from Quebec to Murray Bay, on their way to the sea. The father of eleven children, Captain Gagne is one of the best known residents of Point Au Pic.

Another veteran's appointment is also included in the announcement recently as Captain Peter McKay, skipper of the s.s. "Noronic," flagship of the Canada Steamship Lines Northern Fleet, again takes charge of the largest upper lakes liner. Captain McKay last year piloted the "Noronic" when she made her historic cruise through the New Welland Ship Canal, and became the largest passenger steamer ever to have entered Lake Ontario.

Not New To Him

The announcement of a new "bumpometer" or road meter, which registers every bump or dip in a paved highway surface, leads one motorist to remark that he frequently has carried three such devices—with vocal attachments—in the back seat.

W. N. U. 1939

Was Noted Indian Fighter

Death Announced Of Early Pioneer and Buffalo Hunter

Samuel McKay, noted Indian fighter and buffalo hunter, died at Wild Horse, Alberta, recently. He was 80 years of age, born in Winnipeg in December, 1852, and educated in St. John's College, one of his school chums being Rev. Archbishop Matheson, former Anglican primate of Canada.

He entered the employ of the Hudson's Bay Company at an early age, being placed in charge of the Vermilion Hills post when 18 and resigning later to become a free trader and hunter. He was credited with killing the last buffalo on Alberta plains, and as a trader, trapper, and intermediary with Indians he was said to have had few equals.

Sitting Bull was one of McKay's Indian friends and Louis Riel was well known to the daring hunter and trader.

Concluding his adventurous career, the veteran of the plainsmen married and settled down at Medicine Hat in 1882 and watched the trans-Canada railroad push its way to that point. He later moved to Wild Horse. Five sons survive McKay, while W. E. McKay of Kamloops, B.C., is a brother.

ISAAC AND HIS WELLS

Golden Text: "A soft answer turneth away wrath; but a grievous word stirreth up anger."—Proverbs 15.1.

Lesson: Genesis 26.12-25.

Devotional Reading: Matthew 5.1-12.

Explanations and Comments

Isaac's Prosperity and Its Result, verses 12-17.—A hundredfold was the yield which Isaac obtained from his sowing, and so great were his possessions in flocks and herds, and so great was his household, that the Philistines envied him. Their envy led them to fill up the wells which Abraham his father had dug, and Abimelech, their king, ordered Isaac to leave. Without wells Isaac could not support his livestock, and although, as his enemies admitted, he was stronger than they, he would not contend with them but moved on and erected his camp in the Valley of Gerar.

"It used to be a mark of a gentleman that he would instantly resent an encroachment on his rights, and pick a quarrel at a moment's notice. Today that would be a mark of ill-breeding. Where education and Christian culture have done their fullest work, there is most patience and gentleness."

Trouble At Gerar, verses 18-21. — Isaac re-dug the wells made by Abraham which the Philistines had stopped up, and called them by the original names. In digging for a new well in the valley he found "a well of springing water," for the underground stream was tapped which flows below the rock through the valley past Hebron and Gerar and Beersheba. Trouble then arose, for the herdsmen of Gerar claimed it. Isaac called that well "Esek," which means "Contention," and patiently dug another one. For that the others contended also, and Isaac called it "Sitnah," which means "Hatred." It is our ignorance of patriarchal life which makes us think it unaccountable to hear, in those early days, of so many contests about wells: for on nearer inspection we should find that in their arid regions a well of springing water was a possession of inestimable value. Hence we later find Moses, in magnifying the Divine bounty to the children of Israel, among other parts of the inventory, reckoning up not only 'great and goodly cities which they builded not,' but 'wells which they digged not'."

Peace At Last, verse 22.—Once more Isaac moved on and dug another well. This one he called "Rehoboth," which means "Room," for there he had no further trouble. "Now Jehovah hath made room for us, and we shall be fruitful in the land," he declared. Rehoboth was about fourteen miles southwest of Beersheba. Remains of wells are still in existence there.

The Blessing At Beersheba, verses 23-25.—Isaac went on to Beersheba and there in a vision at night he heard that he should be blessed for Abraham's sake. "Fear not, for I am with thee." "The waves which lash the surface of the sea are only on the surface; below, the deeps are calm, and Isaac, quietly leaving place after place, felt the deeps of his soul untouched. What was the loss of a well, or ten wells, to him with whom God was, for his portion, his exceeding and long-suffering, great reward." —F. W. Robertson.

At Beersheba Isaac built an altar and established his home, and also dug a well. This is the order in which his activities are recorded, and the order is not without its significance—God came first in his thoughts.

"Many people of our time, despite their high civilization, are far behind the humble Hebrew patriarch in the true ordering of their lives. Most of them see only their tent—the circle of their own interests; they have no place for either altar or well. They forget God who should be first in life, and the people of tomorrow who ought to benefit by their sojourn here. Others dig the well, thus providing a social blessing, but they have no place for an altar. The only true life is that which combines, and in the right order—altar, tent, and well."

The Result Of Isaac's Policy Of Non-Resistance, verses 26-33.—Abimelech sought out Isaac at Beersheba to make with him a treaty of peace, for, he said, "We saw certainly that the Lord is with thee." Thus Isaac's patience won the friendship of his enemies.

A soft answer turneth away wrath. Patience is not weakness. He who bears injuries without resentment triumphs in the end. "Blessed are the meek, for they shall inherit the earth."

Valuable Muskegs Of Western Canada

New Resource That Is Now Creating Widespread Interest

Western Canada, in common with some other places, is waking up to the existence of a new and valuable natural resource in its muskegs. Recent investigations by the Industrial Development Board of Manitoba, with the aid of Mr. A. Anrep, peat specialist of the Ottawa Department of Mines, have brought to light many facts regarding the new resource that are occasioning widespread interest, and have revealed peat deposits of considerable extent and value in the bogs near Whitemouth.

"Muskeg," according to one authority, is probably the most useful word in the Cree language, and no other language seems to possess a word so comprehensive. It denotes either any kind of bog, or the material contained in a boggy deposit. Previously, people in Western Canada attached no great value to this resource, regarding it as merely a troublesome impediment to transportation, or else as productive only of an inferior sort of fuel. But the studies of the Industrial Development Board, which have taken cognizance of the remarkable exploitation of bogs and moors in European countries, are developing an entirely new attitude toward Western muskegs, until today some authorities regard peat as a resource taking precedence in the industrial scheme to petroleum, rubber and cotton.

We may pause here to set out in brief some of the uses of sphagnum moss, peat, peat mull, peat board, etc. They include: Insulating material; bedding; agricultural and horticultural purposes; packing for preserving fruit, vegetables, fish and meats; surgical dressings; fuel; litter for stables; wall board; deodorant; wall plaster, etc., etc.

Mr. Anrep, who comes of a family of peat specialists, makes the following note regarding it: "On account of its high absorptive powers, from 7 to 14 times its own weight in moisture (while straw absorbs only three times its weight) and of its acid qualities, it acts as a natural scavenger, as an antiseptic and germ-destroying factor, and because of this we consider it a great gift of nature, for the use of the people at large."

Very strong claims are made for it as an insulator of heat. It is urged that if peat insulation were used in the rural and urban dwellings of Western Canada, it would save vast sums in fuel.

"We use 116 per cent. more fuel than is necessary," declares Mr. D. C. McArthur, "which is one of the tributes we pay to ignorance."

And Mr. McArthur says further: "In searching the rather voluminous records of European bog technique and trade figures, there are no records of great private fortunes amassed, but the effects in national well-being are everywhere in evidence."

Peat moss is undoubtedly valuable as stable litter and bedding for horses, cattle, and pigs. It prevents hoof and mouth diseases, keeps the animals healthy and strong, clears hides and fur of dandruff, keeps air in the stables clean and sweet, absolutely frees barns of bacteria and flies. The moss is non-combustible. If fired, it will smoulder, and is easily detected and put out, being therefore much safer than straw.

Poultry-keepers will be particularly impressed with the remarkable cleanliness of peat moss when used as litter in coops. In pens where straw is used, the atmosphere is invariably foul and heavy; with peat it is pure and wholesome, the hens are healthier and cleaner, lay more eggs, and are free of insects and vermin. A single bedding of proper depth will last over six months.

While peat moss is not in itself a fertilizer, it is nevertheless valuable in sandy soils for retaining the humus. Five parts peat litter with one part bone meal or other fertilizer, makes a good mixture. In the case of heavy clay, such a mixture worked into it makes it workable and porous. To rhododendrons, azaleas, cyclamen, coniferous trees and other plants, peat mull is beneficial on account of its acidity. On account of its insulating quality, it also makes an excellent protective covering in storing bulbs, tubers, or roots for the winter. Carrots and beets have been kept packed and in excellent preservation for over a year in peat mull containing 40 to 45 per cent. moisture. Florists also find it useful in the packing and shipping of flowers. A fish firm in Northumberland ships fish in long sphagnum plants and has found that after two weeks the fish remain as fresh as when caught from the sea.

An extremely interesting use of sphagnum moss is for surgical dressings. During the Great War, Sir Lauder Brunton, famous English physician, made extensive use of dressings of this sort. In Scotland, Ireland and Canada, vast numbers of sphagnum plants for this purpose were collected. Dr. John Bonsall Porter, Department of Mining and Engineering, McGill University, superintended the collections here. The moss is a strong disinfectant and deodorizer, antiseptic, and a non-germ carrier. Its absorptive qualities are remarkable. During the last three years of the war, more than 5,000,000 bandages were used.

This valuable resource, peat moss, is spread practically throughout Canada. In Western Canada, one of the finest deposits occurs about 45 miles east of Winnipeg, near Whitemouth, Manitoba. Here a vast bog system extends for 18 townships. In quantities of millions of tons, every variety of bog material is available. There are moss-bogs and grass-bogs, litter and peat deposits, muck and humus, high acid content and high nitrogen content. The bog system is traversed by three railways and three highways. It is estimated that the Whitemouth system contains in an area of 500,000 acres more than 325 million tons of organic material, at the accepted stage of commercial dryness. Along the Hudson Bay Railway, in Northern Manitoba, there are still larger bogs.

Wanton burning and unnecessary drainage are doing away with many valuable peat bogs in Canada. Recently very powerful arguments were made against draining off the natural waters of the West, by experts discussing the drought conditions and lack of rainfall on the prairies. People are now learning that these muskegs are valuable, not only for their peat resources, but as humidifiers of the air.

A vast amount of information on this subject has been assembled by the Industrial Development Board of Manitoba, and efforts are now underway to have the Whitemouth peat resources properly developed.

"YEARS CAN BRING YOU ADDED CHARM!"

SAYS JACK HOLT

JACK HOLT

"Audible Light" Created

Phonograph Produces Music As Beam From Lamp Hits It

By means of a photo-electric cell, John Bellamy Taylor, consulting engineer for the General Electric Company, demonstrated the creation of "audible light" before a group of scientists at Detroit. He used a silent phonograph and sensitive incandescent lamp to produce what he termed "one of the newest developments in electro-physical research."

In his demonstration, Mr. Taylor brought the music of a stringed orchestra from the phonograph and then silenced it by placing his hand between the lamp and electric cell.

Mrs. Dow Says Dr. Williams' Pink Pills Restored Daughter to Health.

Never Misses Day From School.

"My daughter was rundown in health, took weak spells and could not go to school," writes Mrs. Asa Dow, Port Daniel West, Quebec. "While visiting her aunt, a friend told her about a little girl in similar condition who had been completely restored to health by Dr. Williams' Pink Pills. My daughter has since been taking the Pills, and they have certainly made her stronger. She has lost that tired, sluggish feeling and has never missed one day's school since September. The Pills also gave her a good appetite; her nerves are better and she has more pep. I recommend Dr. Williams' Pink Pills to mothers of daughters with similar troubles."

Don't let anaemia rob your growing daughter of health and vigor. Give her Dr. Williams' Pink Pills. They are no temporary relief. They banish the condition by creating new blood which imparts health, vigor and vitality. Equally good for all rundown or nervous conditions. At your druggist's, 50c. 274

THE HOUSE OF DREAMS-COME-TRUE

— BY —

MARGARET PEDLER

Author Of "The Splendid Folly." "The Hermit Of Far End."

Hodder & Stoughton, Ltd., London.

CHAPTER XIX.—Continued.

"The skunk!" muttered Nick wrathfully.

"What's that?"

Claire drew suddenly closer to him, her face blanching. A sound—the light crunching of gravel beneath a footstep—had come to her strained ears.

"Nick! Did you hear?" she breathed.

A look of keen anxiety overspread his face. For himself, he did not care; Adrian Latimer could not hurt him. But Claire—his "golden narcissus"—what might he not inflict on her as punishment if he discovered them together?

The next moment it was all he could do to repress a shout of relief. The steps had quickened, rounded the corner of the alley, and revealed — Jean.

"We're mighty glad to see you," remarked Nick, as she joined them. "We thought you were—the devil himself"—with a grin.

"Oh, he's safe for half an hour yet," Jean reassured them. "I asked Tucker"—the Latimer's butler, who worshipped the ground Claire walked on —"and his solicitor is still with him. Otherwise I wouldn't have risked looking for you"—smiling. "I knew Nick was over here, and Sir Adrian might have followed me."

"You're sure he hasn't?" asked Claire nervously. "He is so cunning—so stealthy."

"Even if he had, you're doing nothing wrong," maintained Jean stoutly.

"Everything I do is wrong—in his eyes," returned Claire bitterly. "That's what makes the misery of it. If I were really wicked, really unfaithful, I should feel I deserved anything I got. But it's enough if I'm just happy for a few minutes with a friend for him to want to punish me, to—to suspect me of any evil. Sometimes I feel as if I couldn't bear it any longer!"

She flung out her arms in a piteous gesture of abandonment. There was something infinitely touching and forlorn about her as she stood there, as though appealing against the hideous injustice of it all, and, with a little cry Jean caught her outstretched hands and drew her into her embrace, folding her closely in her warm young arms.

Nick had turned aside abruptly, his face rather white, his mouth working. His powerlessness to help the woman he loved half maddened him.

Meanwhile Jean was crooning little, inarticulate, caressing sounds above Claire's bowed head, until at last the latter raised a rather white face from her shoulder and smiled the small, plucky smile with which she usually managed to confront outrageous fortune.

"Thank you so much," she said with a glint of humour in her tones. "You've been dears, both of you. It's awfully nice to—to let go, sometimes. But I'm quite all right again, now."

"Then, if you are," replied Jean cheerfully, "perhaps you can bear up against the shock of too much joy. We want you to have 'a day out'."

"'A day out'?" repeated Claire. "What do you mean?"

"I mean we're organizing a picnic to Dartmoor, and we want to fix it so that you can come too. Didn't you tell me that Sir Adrian was going to be away one day this week? Going away, and not returning till the next day?"

Claire nodded, her eyes dancing with excitement.

"Yes—oh, yes! He has to go up to London on business."

"Then that's the day we'll choose. Heaven send it be fine!"—piously.

"Oh, how I'd love it!" exclaimed Claire. "I haven't been on the Moor for such a long time."

"And I've never been there at all," supplemented Jean.

"Nick! Nick!" Claire turned to him excitedly. "Did you know of this plan? And why didn't you tell me about it before?"

He looked at her, a slow smile curving his lips.

"Why, I never thought of it," he admitted. "You see'—explanatorily—"when I'm with you, I can't think of anything else."

"Nick, I won't have you making barefaced love to a married woman under my very nose," protested Jean equably. And the shadow of tragedy that had lowered above them a few minutes earlier broke into a spray of cheery fun and banter.

"You seem very gay today."

The cold, sneering tones fell suddenly across the gay exchange of jokes and laughter that ensued, and the trio looked up to see the tall, lean, black-clad figure of Sir Adrian standing at the end of the path, awaiting their approach.

To Jean, as to Claire, occurred the analogy of a malevolent spider on the watch. Even the man's physical appearance seemed in some way to convey an unpleasant suggestion of resemblance—his long, thin, sharply-jointed arms and legs, his putty-coloured face, a livid mask lit only by a pair of snapping, venomous black eyes, half hidden between pouched lids that were hardly more than hanging folds of wrinkled skin, his long-lipped, predatory mouth with its slow, malicious smile. Jean repressed a little shudder of disgust as she responded to his sneering comment.

"We are—quite gay, Sir Adrian. It's a fine day, for one thing, and the sun's shining, and we're young. What more do we want?"

"What more, indeed? Except" — bowing mockingly—"the beauty with which a good Providence has already endowed you. You are a lucky woman, Miss Peterson; your cup is full. My wife is not, perhaps"—regarding her appraisingly—"quite so beneficently dowered by Providence, so it

He paused, and as the black, pinpoint eyes beneath the flabby lids detected the slight stiffening of Claire's slender figure, his long, thin lips widened into a sardonic smile.

"Yes, to the brim," he repeated with satisfaction. "That's a husband's duty, isn't it, Mr. Brennan?"—addressing Nick with startling suddenness.

"You should know better than I, Sir Adrian," retorted Nick, "seeing that you have experience of matrimony, while I have none."

"But you have hopes—aspirations, isn't it so?" pursued Latimer suavely. There was an undercurrent of disagreeable suggestion in his tones.

Nick was acutely conscious that his keenest aspiration at the moment was to knock the creature down and jump on him.

"We must find you a wife, eh, Claire? Eh, Miss Peterson?" continued Sir Adrian, rubbing the palm of one bony hand slowly up and down over the back of the other. "I'm sure, Claire, you would like to see so—intimate—a friend as M. Brennan happily married, wouldn't you?"

"I should like to see him happy," answered Claire with tight lips.

"Just so—just so," agreed her husband in a queer cackling tone as though inwardly amused. "Well, get him a wife, my dear. You are such friends that you should know precisely the type of woman which appeals to him."

He nodded and turned to go, gliding away with an odd shuffling gait, and muttering to himself as he went: "Precisely the type—precisely."

As he disappeared from view down one of the branching paths of the shrubbery, an odious little laugh, half chuckle, half snigger, came to the ears of the three listeners.

Claire's face set itself in lines that made her look years older than her age.

"You'd better go," she whispered unevenly. "We shan't be able to talk any more now that he knows you are here. He'll be hovering round—somewhere."

Jean nodded.

"Yes, we'd better be going. Come along, Nick. And let us know, Claire" as soon as you have found out for certain what day he goes away. You can telephone down to us, can't you?"

"Yes, I'll ring up when he's out of the house some time," she answered. "Or send a message. Anyway, I'll manage to let you know somehow. Oh!"—stretching out her arms ecstatically—"imagine a day of utter freedom! A whole day!"

(To Be Continued.)

A pliable rubberized material, resembling leather but not greatly affected by moisture, has entered the field as a competitor of leather.

Be natural, borrowed garments seldom fit well.

Do each vegetable up in its own bag of Canapar Cookery Parchment.

There won't be any odor, not even from cauliflower. *All* the food value and flavor will be retained. And you use only *one* burner *turned low* for cooking. The flavors will not mix!

Do the same with boiled or steamed fish. You'll be delighted with the results. No fishy odor in the kitchen. No saucepan or kettle to clean up. When roasting meat, line your pan with Canapar. Fats and juices won't burn. No more scraping or scouring of the pan afterwards.

You can use Canapar repeatedly by simply rinsing it off and hanging up to dry. It doesn't absorb odors. Makes a perfect dish cloth. Silky, strong, and doesn't spread lint. Made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box.

Special Offer

Most grocers, druggists and department stores have Canapar on sale, but if yours hasn't, send this coupon direct to the makers and we'll give you a new and unique booklet entitled "Leftovers", containing one hundred recipes as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one full size package of *Canapar Cookery Parchment* and your 100 recipes for "Leftovers".

Non-Stop Flight Across Canada

Vancouver Sun To Sponsor Flight From Montreal To Vancouver

The Vancouver Sun has announced that it is sponsoring a projected non-stop flight across Canada from Montreal to Vancouver on June 21 next by two Vancouver aviators, R. E. Storer and B. R. Ronald. Refueling contacts are planned at Winnipeg and Calgary.

If successful the flight would be the first non-stop across Canada and the first attempt at refuelling in the air for a long-distance hop in the Dominion.

Storer and Ronald plan to leave Vancouver early in May and fly to Montreal by easy stages.

They expect to leave Montreal at 3 o'clock in the morning of June 21, taking advantage of the long daylight hours, to make the flight from dawn to dusk. Flying westward with the sun they hope to make the distance in 21 hours and land here around 6 o'clock in the evening, Pacific Standard Time.

An additional advantage in flying westward is in avoiding the necessity of taking off at sea level with a heavy load of gasoline to make the long climb over the Rockies.

The air-line distance from Montreal to Vancouver is 2,300 miles. The first stage to Winnipeg is 1,100 miles, where the first refueling would be made around 11 a.m. The next stage, Winnipeg to Calgary, should be completed late in the afternoon, with a final refuelling for the hop over the Rockies.

The stated purpose of the flight is "to demonstrate the practicability of a 24-hour mail service across the Dominion."

The 'plane to be used is a taper-wing Wacco, three-place bi-plane, powered with a 220 horse-power Wright Whirlwind nine-cylinder radial engine with a cruising speed of 125 miles per hour. Extra gasoline tanks are being added to the 'plane. It will be named "The Vancouver Sun."

The Friend Of All Sufferers.—Dr. Thomas' Eclectric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

Britain's Income Tax

One of the amazing features of the British statement is that which discloses the sum which Britons paid in income tax. It amounts to well over $1,000,000,000. One billion dollars for forty million people! Canada's taxes are high. But last year the total of taxation taken from the British people exceeded $3,500,000,000.

Try COFFEE . . . . this Way!

ST. C. 18

ONCE YOU start having Borden's St. Charles Milk in your coffee, you will never again be without it in the house. It blends in smoothly, turning the coffee to a rich golden brown, and has a rich tastiness that makes one come back for more.

Borden's ST. CHARLES MILK UNSWEETENED EVAPORATED

Little Helps For This Week

"For none of us liveth to himself."
—Romans xiv. 7.

Nor knowest thou what argument
Thy life to thy neighbour's creed has lent.
—Ralph Waldo Emerson.

There is no sort of wrong deed of which a man can bear the punishment alone; you can't isolate yourself, and say that the evil which is in you shall not spread. Men's lives are as thoroughly blended with each other as the air they breathe; evil spreads as necessarily as disease. Every sin causes suffering to others besides those who commit it.
—George Elliot.

Persian Balm promotes daintiness, charm and beauty. It is unrivalled in its magical effect on the skin. Swiftly absorbed by the tissues, it leaves never a vestige of stickiness. Delightfully cool to the skin. Stimulating and invigorating. Softens and makes the hands flawlessly white. Subtly fragrant. Imparts youth and loveliness to the complexion. Persian Balm is the inevitable choice of the woman who cares.

National Marketing Board

Matter Is Under Consideration By Department Of Agriculture

A national marketing board is being considered by the Department of Agriculture to stimulate the prices of agricultural produce and increase exports to Great Britain.

The proposal is the outcome of discussions between the Dominion and Ontario governments, the National Dairy Council and the bacon and free trade. Activities of the proposed board would be to encourage the sale of bacon, beef and dairy products as well as grain.

A hard day at the office, and a headache homeward bound. All for the want of two little tablets of Aspirin! Don't be helpless when you suddenly get a headache; carry Aspirin with you. The pocket tin doesn't take up any room, but what a comfort when it's needed!

Fatigue will frequently bring on a headache. It lowers the vitality and invites a cold. Take Aspirin and throw it off! Don't wait until you are miserable. There is nothing in Aspirin to hurt the heart or upset the stomach or harm the system in any way. Your doctor will tell you that! But, get Aspirin—not a substitute!

Follow the proven directions to be found inside each package. They cover colds, sore throat, headache, toothache, neuritis, neuralgia, sciatica, lumbago or rheumatism, muscular pains, and other pains and aches for which these tablets are a positive antidote. Keep your pocket tin filled from the bottle of 100 tablets. Every drug store has Aspirin in bottles, as well as the familiar little box.

Aspirin is made in Canada.

Sharp Pains In His Heart Nerves In Bad Condition

Mr. Fred J. Chase, Thomson Station, N.S., writes:—"I have used Milburn's Heart and Nerve Pills with wonderful results.

My heart would beat so fast I would have to sit down when at work chopping in the woods.

I had sharp pains in my heart when I would lie down at night.

My nerves were also in a very bad condition, but after using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Fruit Exchange Annual Meeting

Jas. Carr New Member Directorate—Financial Standing Excellent—President Associated Growers Discusses Marketing

There was a fair turnout of orchardists on Wednesday afternoon for the annual meeting of Creston Co-Operative Fruit Exchange, which was run more or less on the open house plan in order to afford growers an opportunity to hear E. J. Chambers, president of the Associated Growers, who spoke in practical fashion on marketing conditions, after the Exchange business had been disposed of.

The chair was occupied by Jas. Compton, president of the Exchange, and the chief item of business was the balance sheet, presented and explained by J. W. Hamilton, and was adopted with little discussion. The figures submitted indicated that the Exchange is in a very favorable financial condition, and with another successful season's operations would be in a position to tackle storage, according to the remarks of W. Vance, Associated central manager at Creston two years ago, who was also present and spoke.

Two directors had to be chosen, and Mr. Compton was re-elected along with Jas. Carr for a three-year term. These with H. A. Dodd, L. T. Leveque, E. W. Klingensmith, John Hall and J. M. Craigie complete the board of management.

Mr. Vance's talk was brief but businesslike. He took occasion to present prices obtained by the Associated last year on bulk apples as compared with published prices paid by one of the Creston selling agencies, He gave some information on apple box prices for 1932, which will be slightly lower than 1931 but there might also be sales tax to pay this year, which was not the case last season. He made it quite plain that if the Exchange and Associated were linked up this year plans had already been laid to operate more economically than in past years.

Mr. Chambers assured that in any comparison of prices received in 1931 the Associated returns showed up very favorably. He said estimates made this month indicated the B.C. apple crop will be one million boxes heavier than in 1931, and that meant that a market outside western Canada had to be found for an additional 1000 carloads.

He explained that the present British preference of about 30 cents a box expired in November, but it was anticipated the Imperial trade conference at Ottawa in July would result in it being extended, and were the preference increased to 50 cents a box the apple marketing problem would be solved. 1931 had been a profitable one on the Old Country market, particularly with Jonathans, but due to the crop producing much large size fruit the export trade, which runs to smaller sizes, had been harder than usual to handle. Mr. Chambers pointed out that the Associated believed in an aggressive campaign to secure new markets and in 1931 had sold 36 carloads in Egypt. He also stressed the value of a brand. The OK label has always been on boxed fruit of top quality and in consequence it was getting the preference against newer brands.

He looked for a slow but sure comeback to better prices, urged serious consideration of providing storage facilities so as to avoid as far as possible bulk shipments. He stated that the Associated still had about 70 carloads of 1931 apples unsold, but with quite a brisk movement of Delicious at present to New York. McIntosh Reds were now all sold.

Erickson

J. White of Calgary, Alberta, is a visitor this week with Mr. and Mrs. H. Clements.

Rev. T. Scott of Creston will have Church of England service at the schoolhouse on Sunday afternoon at 3 o'clock.

Peach trees in this section are commencing to come into bloom, and the prospect is for a heavy crop.

W. R. Long and C. W. Allan, of Long, Allan & Long, Limited, got back on Wednesday last from a business visit at Calgary and Lethbridge, Alberta.

Roy Penson and Bill and John Chernoff were motor visitors to Cranbrook at the end of the week.

The residence on the Angus Cameron ranch is receiving a new coat of paint which groatly improves appearances.

Mrs. W. H. Kemp was at Alice Siding last week, a guest of Mrs. McMurtrie.

W. Stewart and two sons are business visitors at Yahk this week.

Miss Madeline Putnam who is in second year arts student at B.C. University, Vancouver arrived on Wednesday for a holiday visit with her parents, Mr. and Mrs. F. Putnam.

OUR K.B.O. BROADCAST

The tax rate at Grand Forks this year is 35 mills.

For the first time in its history Bonners Ferry has a tennis club this year.

Cranbrook brewery willoperate its steam plant with sawdust fuel this year.

One of the new R.C.M.P. constables at Fernie is named Wildgoose.

Cranbrook's 1932 tax rate will be 51 mills. Of this 22 mills are for school purposes.

This year Kaslo will have a 40 mill tax rate. 17 mills is required to finance the schools.

At Bonners Ferry pinochle is giving bridge a close run for popularity at social functions.

The first of the Okanagan crop estimates induces the Penticton Herald to predict a 600,000 box apple crop in that section this year, a gain of 10 per cent. over 1931.

Postmaster Kane is erecting quite a large cement water lily pond at his residence at Kaslo.

Cranbrook council operated the auto tourist park in that town at a profit of $690 last year.

At Rossland the movie picture theatre has cut the evening price of admission to 35 and 15 cents.

Egg week at Penticton public school realized 139 dozen of hen fruit for the hospital in that town.

To attract a bigger membership Kelowna rod and gun club has cut the membership fee to 50 cents.

Penticton council has refused to consider cutting the pay of man and team from $8 and $7 per day.

Kaslo Rod and Gun Club favors the closing of the fish hatchery at Gerrard for three or five years.

To be ready for the Safeway competition Lloyd Crowe is opening a cash and carry grocery at Kimberley.

Due to the cut in grants from the government Cranbrook has been forced to raise its 1932 tax rate 4 mills.

Filings for county offices at Bonners Ferry closed Saturday. There are seven aspirants for the position of sheriff.

At Armstrong consolidated school the trustees have made a reduction of $10,000 in teachers salaries for this year.

The Courier estimates that 200 carloads of fertilixer from the Trail smelter have passed through Cranbrook this month.

The Miner is sore because the Rossland council does not do something to prevent cattle pasturing in the cemetery in that town.

Vernon district had four degrees of frost on April 20th but the News is optimistic enough to imagine no damage was sustained.

The management of Kimberley's professional hockey team has had to borrow $500 to cover the loss sustained on last winter's schedule of games.

Frank T. Abey is quitting Nakusp and will re-open in the drug store business at Rossland. He is hauling his effects by truck to his new location.

Penticton district is thankful for a late spring. Six degrees of frost were recorded on April 20th, but does not appear to have damaged even the apricots.

PROVINCIAL ELECTIONS ACT

Creston Electoral District

NOTICE IS HEREBY GIVEN that I shall, on Monday, the 16th day of May, 1932, at the hour of 10 o'clock in the forenoon, at my office, Hillside Road, Creston, hold a sitting of the Court of Revision for the purpose of revising the list of voters for the Creston Electoral District, and of hearing and determining any and all objections to the retention of any name on the said list, or to the registration as a voter of any applicant for registration; and for the purposes set forth in the Provincial Elections Act.

Dated at Creston, B.C., this 14th day of April, 1932.

F. H. JACKSON,
Registrar of Voters, Creston Electoral District.

LAND REGISTRY ACT
[Section 160]

IN THE MATTER of Lot 3, Block 7, of Block 14, of Lot 891, Group 1 Map 912, Kootenay District.

Proof having been filed in my office of the loss of Certificate of Title No. 22169-A to the above-mentioned lands in the name of LOTTIE MEAD and bearing date the 18th July, 1917, I HEREBY GIVE NOTICE of my intention, at the expiration of one calendar month from the first publication hereof to issue to the said LOTTIE MEAD a Provisional Certificate of Title in lieu of such lost Certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

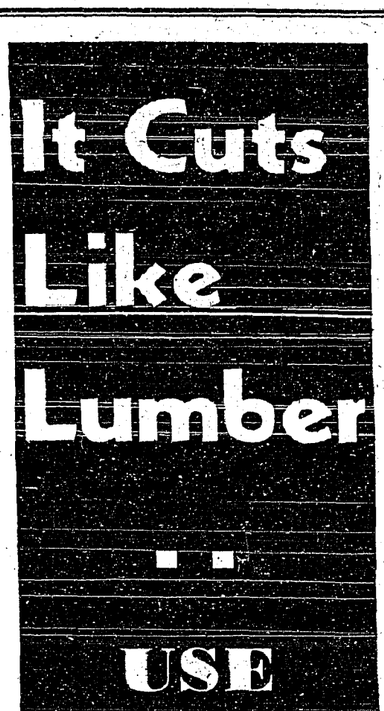
Dated at Nelson, B.C., this 31st day of March, 1932.

A. W. IDENS, Registrar.

Date of first publication April 15, 1932.

For the first four months of this year building permits at Vernon are $17,000 in excess of the same period a year ago. The grand total for 1932 is close to $25,000.

At the next meeting of Cranbrook city council a motion will be introduced asking that a by-law be submitted to borrow $150,000 to install a city owned power plant.



AND nails like lumber. Its light weight makes it easy to handle. It requires no expensive decoration, in fact none at all, when panelled.

Use it for obtaining fire-safe walls, ceilings and partitions throughout your home.

It has structural strength, insulation value, is draught and vermin-proof, easy to install, saves time in new construction and is an excellent base for Gyptex or Alabastine.

Gyproc may be easily identified by the name on the board and the Green stripe along the edge.

The fall fair directors have issued a pamphlet giving the list of awards in the needlework section at the 1932 exhibition, and these can be had at the Farmers' Institute, Burns & Co., drugstore, Co-Op., Mercantile, Speers, or "Your" Cash Store.

E. J. Chambers of Vernon, president of the Associated Growers of B.C., was a visitor here on Wednesday for the annual meeting of Creston Co-Operative Fruit Exchange. He estimates the 1932 apple crop will be a million boxes in excess of 1931.

C. W. Allan got back on Thursday last from a business visit at Lethbridge and Calgary, Alberta. He reports prospects excellent at this date for an average crop and that business circles are quite optimistic that prosperity is slowly but surely on the way back.

FREIGHT FOR NELSON—I have established a freig t truck service between Creston and Nelson, leaving here Mondays, Wednesdays and Fridays at 8.30 a.m. Depot at Creston Motors. Satisfactory service guaranteed. O. Ringheim, Creston.

The May meeting of Creston Valley Post Canadian Legion will be held at the schoolhouse at Camp Lister on Tuesda evening at 8 o'clock. A large turnout is asked for as committees will be struck to handle the annual visit of the Idaho Legion on the reunion visit, June 4th.

Citizens made a creditable showing in connection with the annual cleanup day, which was set for Wednesday last, and many loads of garbage found their way to the village dump. The contract for hauling was let to Chas. Long, whose bid was $19.75 The only other tender was $25.

The district has all sorts of weather the past week. Friday and Saturday were two of the wettest days of the month, and on Monday and Tuesday we had a share of a small sized blizzard that blew at prairie points at the first of the week. Wednesday saw the advent of good old summertime.

Considerabe improvement has been made in the landscape in the neighborhood of the burned down Creston Hotel. The owner, Dong Barney, showed the right spirit when he offered to clear off the debris if the council would haul the stuff away, which they agreed to—and at a cost of only $3 to the town.

In connection with the East Kootenay musical festival held in Cranbrook last week, an essay writing contest was held, at which four prizes were awarded. The subject was "Advantages f a musical festival to a community," and the third prize was awarded Iris Taylor, a Grade 11 student at Creston high school.

H. Harrison, manager of Crestland Fruit Company, Limiped, was a business visitor here at the middle of the week from Vernon, and in company with the local superintendent, J. E. VanAckeran, were calling on the growers. The firm as secured a warehouse and will operate at Oliver as well as Erickson this season.

The Young Ladies' Auxiliary, under the presidency of Miss M. Smith, got off to a splendid start in their initial effort at raising funds for hospital effort. The cash intake at their tea and sale of daffodils in Trinity United Church hall on Saturday was about $35. A special feature was the teacup reading in charge of Miss Irene LaBelle which was a great attraction. The ladies are grateful to Mr. Tom Leaman who supplied them free with an abundance of daffodils that were on sale.

At a special meeting of Creston school board on Monday night it was decided to have the acre recently acquired for a high school site, put in shape for softball, and $25 was voted to help defray the expense in connection with the Valley schools' track meet on May 14th. The village council will be asked to do some needed grading on Princess Avenue.

Small Crowd Sees Comedy

On Tuesday evening the play "Aaron Slick of Pumkin Crick." was staged in the Parish Hall by the Yahk Entertainers, under C. H. Cooper. The plot centres around the sale of land in Oklahoma, where Aaron, not as green as he looks, turned the tables on Wilbur Merridew," a crooked lawyer from the city. All the members of the troupe were word perfect, and did their parts well. A cabaret scene with catchy songs, by H. Er kine, and dancing, added variety to the programme. G. Smith carried off well the difficult part of "Aaron Slick." His wisecracks raised many a laugh. Joe Brogan proved himself a finished actor in the role of poet and waiter. H. McGrath showed great talent in the part of "Sis Riggs," typical tomboy. H. McInnis portrayed Mrs. Berry with skill. The whole entertainment was enjoyed by a small but appreciative audience. After the performance the players and their friends were entertained at the home of Mr. and Mrs. H. A. Powell.

Music Pupils at Festival

Three piano pupils of Mrs. J. E. Johnston attended the East Kootenay musical festival at Cranbrook last week. Goldie Walker, playing in company with five contestants under ten years, made the highest marks but unfortunately as the wrong "Rondo in C" had been chosen Goldie had to forego the diploma to the next contest, a Kimberley child The adjudicator gave Goldie a splendid criticism, stating that she was a very musical child, her fingering neat and clean, scale passages well handled for so young a contestant, and working up to the climax right through the Rondo. Molly Moore played in the 16-year age, but as Molly was playing again t silver medallists from Lethbridge and Calgary, she had unusually hard competition. The adjudicator stated there was positive music talent in Molly's playing but the technical problems in "Purcell's Bouree's" were, at times, a little difficult for the contestant to handle. With careful study the technical difficulty would be overcome. Edith Johnston, playing with nine contestants 12 years old, ranked fourth, making 82 points, with the high marks 85. In elocution, under 14 years, Edith took second place, the highest marks being made by a Cranbrook contestant.

Sirdar

Mrs. H. Dibley of North Bend, who has been visitor in Sirdar for the past week, left for Cranbrook on Friday.

Potato planting is now to the fo e. Carl Lavazelli has commenced planting fruit trees on his place lately purchased from Mr. Cory.

The unemployment is somewhat relieved by the C.P.R section crew being put up to full strength.

T. Dunseath of Wynndel passed through by car on his way to work for the sawmill at Gray Creek.

James Mannarino and son, Joe, were visitors at Creston last Monday. Mrs. R. Bleumenaeur, Vincent Cherbo and John Audino were visitors at Creston on Saturday last.

H. Gillie returned the former part of last week after a few days spent at Fort William.

The seasonal rise in water is responsible for a considerable amount of driftwood collecting at the new span crossing Kootenay river.

Mrs. Lundy arrived home last Monday after spending the weekend with friends in Kimberley Mr. Lundy was a visitor at his home this weekend.

Miss Eileen Heap left for Nelson last Sunday and is the house guest of Miss Helen Vance.

G. Beeson, water engineer of Nelson, was a business visitor at Sirdar Monday.

W. E. Neff, inspector of the Manufactures Life Insurance Co., accompanied by Mr. Armstrong of the Armstrong Clothing Co. were business visitors at Sirdar and vicinity last week.

The water guage at Slough bridge stands at 6.04.

Miss Ruth Cummings and Ray, also Tom Kuntz of Boswell, were visitors at Sirdar on Saturday evening, taking in the social evening sponsored by Roy Johnson and S Lombardo.

On Saturday evening another social evening was sponsored by R. Johnson and S. Lombardo. Everyone reported a good time.

To accomodate the passengers from Nelson to Creston one day last week it was necessary to put on two buses.

At April 16th the Associated Growers had 112 cars of apples unsold. 31 of these were Delicious and 21 McIntosh Reds.

Of three carloads of fruit trees recently distributed in the Summerland area, 60 per cent. were peaches—mostly Rochesters and some Elbertas. The other 40 per cent. was pears, chiefly Bartletts.

Balanced Budgets

The news is flashed around the world that Great Britain which, only a few months ago, was in dire financial straits, has balanced its budget. It was accomplished by the adoption of rigid economies on the one hand and the imposition of heavier taxation on the other hand.

The United States with a current deficit of over two billions of dollars, is engaged in the task of trying to find a way to balance its budget. Here too, the imposition of new and heavier taxation is being considered as the only way out, with economies in administration receiving less attention than in Great Britain.

The Government of Canada, and the Governments of the various Provinces of Canada, are all engaged in the same work,—trying to balance their budgets and the same remedies are being applied, reductions in services to the people coupled with heavier taxation levies.

All municipal bodies and boards of school trustees are likewise employed, but, in the case of these minor governing bodies, more effort is being applied in the reduction of expenditures, and less recourse is being had to the imposition of new taxes; in fact, most municipal councils and schoolbodies are striving to reduce taxation.

But what of the individual citizen? He is in the same predicament as governments. He is confronted with greatly decreased income, or none at all, as a result of unemployment or failure of his business to produce the revenue formerly forthcoming and to which he and his family have been accustomed. But the individual does not possess the power to tax, and in these present days he cannot develop new sources of income. If, therefore, he is to balance his budget, and thus avoid bankruptcy, there is only one thing he can do,—that is, cut expenditures. Most people have already done so, some to the extreme limit that it is possible to go, others not quite so far. And the ability of the individual citizen to keep within his income is being made more and more difficult by reason of the steadily increasing taxes, which constitute a first charge upon his income.

Out of these financial difficulties, at least one good is developing. The individual citizen, who as a taxpayer is the final source of supply for all governments, is beginning to take a keener, more intelligent interest in the administration of his business by all governmental bodies. When times were fairly prosperous and taxes comparatively light,—at least in his more prosperous circumstances he was able to meet them without much trouble,—the average citizen gave little heed to where governmental policies and expenditures were leading. He kept on demanding more and more in the way of public services without fully realizing that, in the final analysis, he must pay for them. Now he finds that he must do the paying, and, further, that he must do without some of the services to which he has become accustomed, because he and his fellow taxpayers can no longer afford to maintain them.

Whatever may be said for or against the Russian experiment in government, at least this can be said for it, that in no country in the world, perhaps, have the masses of the people developed quite as alert an interest in their government, its policies, methods and acts. Every Russian today is almost forced to take an interest in the national policies and work of his government. He is being made to realize that he is a cog in that machine, small it may be, but important, and he must do his part.

If, as the outcome of the attempt to balance budgets throughout Canada, and elsewhere, people become more government-minded, more watchful of what their governments are doing, and, at election times, less easily swayed by appeals to petty local interests, racial prejudices and religious passions, then there will be great gain to the country as a result of the bitter experiences we are now undergoing. If the lesson is learned, and taken to heart, that as citizen-tax paying-voters we should apply that same hard business sense to making our decisions at the ballot box that we make in the ordinary everyday business transactions in which we engage, if, in a word, we balance our judgments as citizens and electors, as well as our budgets, then a great future and, it is to be hoped, lasting gain will result from our present difficulties and financial embarrassments.

Selected Difficult Work

Blind Man Is Successful Commercial Traveller In Australia

Of all the work possible for a blind person surely that of a commercial traveller has most difficulties.

Yet news comes from Australia of a man who, though he lost his sight at the age of four, now travels to every town in Western Australia as the representative of a large firm in Perth.

Before taking on this work Mr. Harold Ackland passed the matriculation at 19, and won a University Arts degree at 23. The Braille Society paid his fees, and its members made up for the lack of text books by copying out for him by hand, pages and pages in Braille, and also reading and dictating to him.

Mr. Ackland hoped to take up Law, but this was not possible, and he started his present work. Now he is known to every railway official on the line, has a cheery greeting for them all, and is one of the happiest and busiest men in Western Australia.

Choked For Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Must Be Canadian Made

The Moose Jaw Collegiate Board decided that in future all chalk and other supplies be purchased from firms handling "Made in Canada" goods. This motion was put by J. E. Chisholm. His inquiry revealed that the chalk used at the present time was made in the United States.

MINARD'S "KING OF PAIN" LINIMENT

Prominent Military Man Dead

General John Hughes Dies At Bowmanville, Ont., At Advanced Age

General John Hughes, long a prominent figure in military and agricultural circles, and son of an illustrious family, died at Bowmanville, Ont., recently, aged 82. His health had been failing for more than a year.

Brother of the late Sir Sam Hughes and Gen. W. St. Pierre Hughes, deceased saw valorous service with the Midland battalion in the Northwest Rebellion of 1885. He was present at the operations against the hardy band of Chief Big Bear, and was mentioned in despatches, being awarded a medal with clasp. Later he rose to the command of the 48th regiment.

General Hughes was appointed to command the Sixth Infantry Brigade in March, 1906. Two years later he was transferred to the command of the Fourth Brigade, Second Infantry Division.

In honor of his long connection with Canadian militia he was elected president of the Infantry Association of the Third Division in 1911.

General Hughes found time in later life to take a leading part in the agricultural, educational and commercial affairs of the community where he resided.

Treasure Trove

Party On Cocos Island Expect To Locate Fabulous Wealth

With 10 burly Costa Rica soldiers as guards a group of Pacific Northwest treasure hunters are on Cocos Island attempting to locate supposedly fabulous wealth buried there by buccaneers and pirate chieftains.

The party consists of 24 men, headed by Col. J. E. Leckie of Vancouver.

Information of the group's activities was received here by Ralph Lomen, president of the company which owns the "Silverwave," a small vessel used by the party in its voyage to the island, 300 miles west of Costa Rica.

The letter from Captain Eldred Tansen, skipper of the "Silverwave," said the Costa Rican soldiers were sent to see that their government gets a fair division of any treasure found, said to be one-third.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Memorial Scholarship

M. E. Manning Of University Of Alberta Will Go To Geneva

Award of the Elizabeth Imrie Memorial Scholarship to M. E. Manning, student at the University of Alberta, has been announced by Dr. R. C. Wallace, president of the university. The scholarship will permit Manning to spend the coming summer at the Geneva School of International Studies, and later in attendance at the assembly of the League of Nations as an observer.

It is given by Mr. and Mrs. John M. Imrie in order that a student may have the opportunity to study international political and economic affairs at first hand. The student selected has one more year to study before graduation in law. He is western vice-president of the Canadian Federation of University Students.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, quinsy, and croup. Invaluable for burns, sores, Barber's Itch and Ringworm.

Air Express Over Alps

The first air express from Croydon, England, to the aerodrome at Cannes, France, has just been inaugurated. It brings the Riviera within seven hours of London, instead of 36 hours by boat and train. The journey includes a flight over the Alps.

South America's cement production has increased 200 per cent. in five years.

COLIC

"Really, I think BABY'S OWN TABLETS are wonderful," writes Mrs. Allan P. MacDonald, Northfield, Ont. "My baby has no more colic pains." Don't let your baby suffer—give BABY'S OWN TABLETS. For colds, fever, upset stomach, constipation. Absolutely harmless. 25c 232

Dr. Williams'

BABY'S OWN TABLETS

Reductions In Ocean Travel

Cunard and Anchor Lines Announce Low Rates To Europe

The Cunard and Anchor Lines announce drastic reductions in rates for travel to Europe effective immediately. The reductions will be made in all classes of travel from First Class to Third Class. A reduction of 20 per cent. will be made on all First Class, Cabin and Tourist Class rates to Europe. In Third Class, the rates which are already extremely low, have been further reduced by 10 per cent. The reductions will apply to all services of the Cunard and Anchor Lines between the United States, Canada and Europe and to all their ships, including the three Express Liners, "Berengaria," "Aquitania," and "Mauretania."

In addition, the usual "Summer Season" increase has been dispensed with, the new low rates applying all year around. Thus, in effect passengers will be paying as much as 40% less than previously in the summer season. Some idea of the size of these reductions may be obtained from a comparison of the new minimum rates for various classes and steamers. The "Aquitania" and "Berengaria" formerly $725 First Class in the summer season is reduced to $200. The "Mauretania" formerly $258 is now $188. Cabin rates for such steamers as the "Franconia" and "Carinthia," formerly $155 to England and $160 to France, are down to $124 to England and $129 to France. For the "Laconia," "Scythia," "Samaria," the rates are now $122 to British ports and $127 to France.

Cabin steamers of "A" type, such as the "Aurania," "Alaunia," and "Ascania," formerly $135 to England and $140 to France, now take a rate of $108 one way, and $200 round trip to England, and $113 one way, and $210 round trip to France.

Tourist Class rates in the Aquitania," and "Berengaria," formerly $122.50 to England, and $132.50 to France, are now $98 to England, and $108 to France one way, and $173 to England, and $178 to France round trip. Tourist rates in cabin steamers are as low as $84 to England.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Canada's Poultry Wealth

A report recently issued by the Dominion Bureau of Statistics estimates the number and value of farm poultry throughout Canada for the year 1931 as follows:

Kind	Number	Value
Hens and chickens..	61,572,000	$36,908,000
Turkeys	2,232,000	4,198,000
Geese	904,000	1,335,000
Ducks	760,000	647,000

Plans Are Blocked

The bill to establish the Waterton-Glacier International Park on the border between Montana and Alberta to stand as a symbol of peace between Canada and the United States, has been temporarily blocked by groups interested in establishing an international peace garden in North Dakota on Turtle Mountain.

Sold everywhere in 25c and 75c red pkgs.

CARTER'S LITTLE LIVER PILLS

U.S. ATTACKS ON WHEAT POOL ARE REFUTED

Ottawa, Ont.—That the co-operative wheat pool movement in Canada has been selected by propagandists in the United States and improperly cited by them in their fight against the co-operative movement in that country is a matter of regret, and ought not to be allowed to pass without answer. This is the opinion of Hon. H. H. Stevens, Minister of Trade and Commerce, expressed in a statement made public here.

Referring to articles published in Chicago and elsewhere in the United States to the effect that Canadian wheat pools had accomplished the "ruin of Canadian wheat farmers" who were threatening to "strike against taxation" and talking "secession," Mr. Stevens declared that Canadian wheat pool members still had faith in their co-operative organization and were shipping a large portion of their grain through pool elevators. Furthermore, no losses have been sustained by farmer members of the wheat pools other than that they were disappointed at not obtaining further sums for their 1929 wheat sold through the pools owing to the sudden drop in prices.

"The profits of farmer-owned handling facilities have always been very large, and no doubt will rapidly repay the advances (made by the prairie governments) without any loss to the governments concerned," said the minister.

"The situation in respect to the wheat pools in the three prairie provinces," said Mr. Stevens, "is substantially as follows:

"Three pools, previously operating under a contract with their grower members, have released those members from the operation of that contract. The holdings of the wheat pools as pools are gradually being liquidated by the pools themselves as market opportunities afforded, being only assisted by the Dominion Government in their financing. Pools, however, are operating their subsidiary elevator companies independently which are still solvent and are in no danger of liquidation. Certain losses amounting to some $22,000,000 were sustained by the pool on the 1929 crop, the advance payment to their farmer members proving excessive in view of the slump in the market. These losses were guaranteed by the various provincial governments, according to the provincial interest, in approximately the following proportions: Alberta, $6,500,000; Saskatchewan, $13,000,000; Manitoba, $2,500,000. The provincial governments have made good these amounts to the banks and have negotiated agreements with the pools for the repayment, which will be done out of the earnings of the subsidiary elevator companies and other assets of the pools. To secure themselves, the various provincial governments have taken a first charge over the assets of the pools, namely elevators, terminals, etc., of an approximate value of some $30,000,000. No losses were sustained by the farmer members other than the disappointment of not obtaining further sums for their wheat sold through the pools. This, of course, is a contractural liability.

New Zealand Will Censor All Messages

To Prevent Alarmist Reports Being Cabled Overseas

Wellington, N.Z.—A censorship of messages sent abroad will be instituted by the government in order to prevent alarmist reports concerning possible recurrence of disorders in Auckland or elsewhere being cabled overseas. The government has decided to enforce the provisions of the postal regulation which gives this power.

Meanwhile both houses of parliament have passed the government's bill seeking emergency powers to deal with disturbances such as those at Auckland when mobs of unemployed got out of hand and did considerable property damage and looting.

W. N. U. 1939

Cattle Export Problems

Will Probably Come Before Imperial Economic Conference

Ottawa, Ont.—Senator Arthur Meighen, Government leader in the Upper House, announced that problems facing cattle exporters would be brought to the attention of the chairman of the committee arranging for the Imperial Economic Conference which meets in Ottawa in July.

Canadian cattle encountered many restrictions when entering the British market, said Senator D. E. Riley, introducing he subject. Nothing would help Canadian agriculture more than the improving of the live cattle trade.

Canadian cattle encountered less favorable conditions in the British market than Irish cattle, he said. A total of 26,000 cattle crossed the ocean last year but the trade could be developed to a greater extent than this, if restrictions were modified. The best opportunity to review the entire trade would be at the conference table.

Organization of the conference agenda was under the supervision of the cabinet said Senator Meighen. Memoranda were being prepared on tariffs, exchange, currency and other topics and he would undertake to bring to the attention of the government the important subject of the cattle trade.

Would Pool Railway Operations

Operating Board To Run the Two Systems Suggested By Conservative Members

Ottawa, Ont.—Pooling of the operations of the Canadian National and Canadian Pacific Railways, with a resultant saving of possibly $80,000,000 a year, was the suggestion thrown into the budget debate in the House of Commons. The appointment of an operating board to run the two systems as one, with consequent elimination of waste and duplication, was held up as a possible temporary solution of the serious transportation problem which Canada is faced. While operations would be pooled, the roads would remain as distinct entities. The properties would stay just as they are today.

J. T. Hackett (Conservative, Stanstead) made the suggestion. He declared parliament must "stem the gush of financial life of this country" by grasping any opportunity to solve the problem. His proposal, he asserted, was merely temporary, and he expressed hope that the transportation commission would have some beneficial remedies to offer.

Boost Gasoline Price

Toronto, Ont.—One cent per gallon increase in the price of gasoline, effective throughout the greater part of the Dominion, April 21st, was announced here by the Imperial Oil Company. The increase, said by the company to be necessary to offset in part a jump in crude oil prices, affects Ontario, most of Quebec provinces, and Manitoba, Saskatchewan, and Alberta.

Build Village For Athletes

Los Angeles, Calif.—Like the ghost towns of the old gold rush days in California, there has grown in the Beldwin Hills, near here a cluster of 550 houses in less than three weeks. It is the Olympic village, where some 2,000 of the world's picked athletes will live for a few weeks this summer. The last of the houses has been erected.

Ask Tax Removal

Ottawa, Ont.—A large delegation of ice cream manufacturers waited upon members of the government, with a request for removal of the six per cent. sales tax on their product, provided in the budget now before the House of Commons.

Drug Addicts In Canada

Ottawa, Ont.—Every effort had been made in Canada to restrict the drug traffic yet it was estimated there were 8,000 addicts in this country Rt. Hon. Arthur Meighen told the Senate.

The Southern Railway of England has ordered 44 electric motor coaches for its new electric lines.

Fishermen of Scotland will combine to control herring prices.

SOVIET PLOT VICTIM

Charging that Soviet Russia is out to ruin him and to destroy public confidence in his enterprises, Sir Henry Deterding, British oil magnate, recently told how Soviet agents by a two-year campaign of lies have attempted to depreciate the value of stock exchange shares. At various times these agents circulated rumors that Sir Henry had absconded, that he was dead, and that he was bankrupt, in order to secure his stocks.

Economic Conference

Parliament To Discuss Matters Pertaining To Important Event

Ottawa, Ont.—Parliament will probably hear a discussion on the Imperial Economic Conference shortly. When the vote of $250,000 to defray expenses of the Empire gathering comes before the Commons, Rt. Hon. R. B. Bennett is prepared to set aside a day for members who may wish to give their views, and may himself make a brief statement.

With definite assurances that all parts of the Empire will be represented by prominent delegates at the opening of the conference here on July 21, the "spade" work is being pushed forward. Committees, subcommittees and inter-departmental organizations are hard at work.

Under the supervision of the cabinet and a cabinet sub-committee, departmental committees are gathering essential information and making preparations.

The agenda itself has not been completed. When that stage has been reached, the question whether or not a completed agenda will be laid before the House will depend on what is thought desirable after consultation with all the governments concerned.

Delegates From Russia

Ottawa, Ont.—Extended an invitation to participate in the Fifth Pacific Science Congress, scheduled to meet in Canada in 1933, Russia has accepted and the Union of Soviet Socialist Republics will be represented by at least ten official delegates. The congress sessions will be held in Vancouver and Victoria, B.C.

Mine Shaft Extended Into Saskatchewan

Flin Flon Development Should Encourage Mining In Province

Regina, Sask.—The shaft of the huge Hudson Bay Mining and Smelting Company Mine at the Flin Flon now extends over the Saskatchewan border, according to Major J. Barnett, Deputy Minister of Natural Resources for the Province. Hitherto all the mining for copper, zinc and gold which has been done has been on the Manitoba side.

Major Barnett has returned from a visit to the northland and at the Hudson Bay Junction held conference with field men of the Department on forest fires and other work to be carried out in the north this season.

The extension of the shaft over the Saskatchewan border and the subsequent mining, should encourage smaller mines to start up in the opinion of Major Barnett. The presence of the $30,000,000 plant of the mining company will enable the small miner in Saskatchewan to use the facilities in processing the raw material.

The mine is now working the full 24 hour shift, and there is considerable activity at that point.

Police Watching Border

To Prevent Unemployed In States From Entering Canada

Ottawa, Ont.—Immigration and customs officials of the Dominion Government with members of the Royal Canadian Mounted Police are closely co-operating to prevent the unemployed of the United States from entering Canada.

Provisions of the Immigration and Labor acts will be applied in a strict manner to job seekers who attempt illegal entry into Canada. Some months ago an order-in-council, especially dealing with contract labor, was passed. These provisions, which will likewise be rigidly enforced, are aimed to prevent the entry of people who come to this country under a contract of employment or to negotiate for employment.

Hidden Explosives

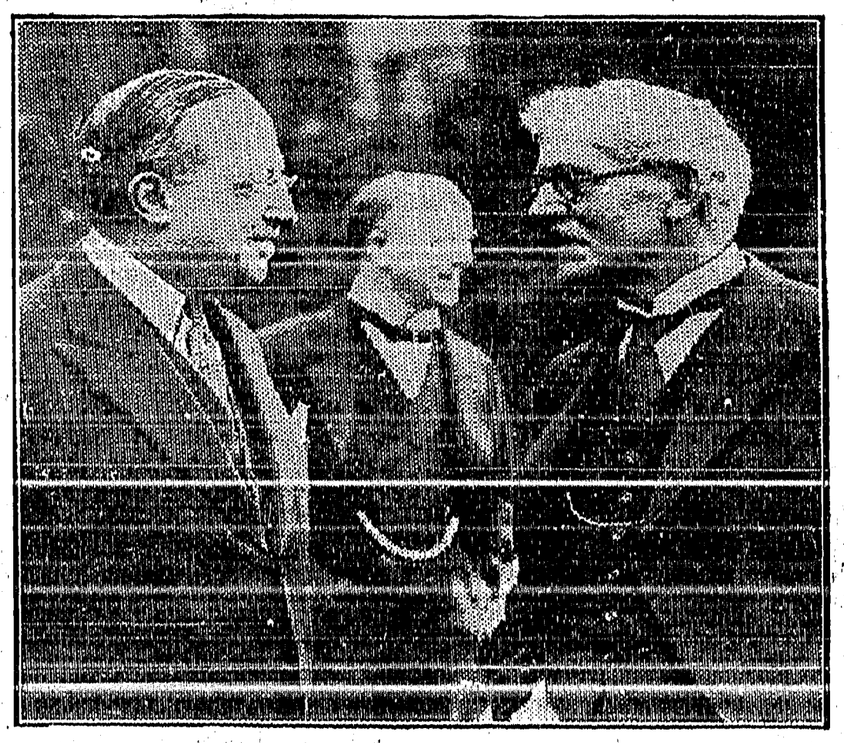
Moisture Saves Workmen From Death When Hammer Strikes Dynamite

Victoria, B.C.—Fifty sticks of dynamite, with a handful of detonators, have been taken from the middle of the new Mount Douglas road by Saanich workmen and destroyed.

Only the heavy downpour of rain which marked the week-end saved the men from being blown up when one of the workers drove his mattock through the sack of explosives.

The dynamite was buried six inches below the surface of the gravel pit at the crest of the hill. The condition of the sack indicated that the explosives had been hidden about eighteen months ago, at the time when Saanich was carying out extensive clearing operations on the roadway.

ANGLO FRENCH CONFERENCE AT 10 DOWNING STREET



M. Andre Tardieu (left), French Foreign Minister, and Premier Ramsay MacDonald, of Great Britain (right), are photographed in a happy mood as they met in the garden of the Prime Minister's residence at 10 Downing Street, London, England. In the background, between the two statesmen, can be seen Right Hon. Walter Runciman, one of the British delegates to the informal conference.

GIVE RESULTS OF RUST-RESISTANT WHEAT TESTS

Winnipeg, Man.—Varieties of rust-resistant wheat which have been tested so far for milling and baking qualities appear to be quite satisfactory in that respect, L. H. Newman, Dominion Cerealist, told members of the associate committee on field crop diseases of the National Research Council, at the second session here of their annual meeting.

The committee is considering the preparation of a statement following this meeting showing the results of tests of rust-resistant wheat developed by the various organizations co-operating in the effort to place such a wheat in farmers' hands. Thirteen varieties of this wheat used in the experiment described to the meeting by Dr. C. H. Goulden, of the Winnipeg rust laboratory, show good results in the length of its straw, in its weight, in its yield per acre, and in the number of days it takes to mature.

Dr. F. J. Greaney, also of the laboratory, reported it had been proved sulphur dust will protect grain from the attacks of rust, although it will not help a plant which has already been infected. He said efficient methods of spreading the sulphur dust had been developed, but they might not come into general practical use here because of economic conditions.

The accurate identification of fungi is an important step in rust research, and a difficult one, Prof. A. H. Buller, of the University of Manitoba, told the members. He suggested better library facilities here would greatly aid the work.

Dr. O. S. Aamodt, University of Alberta, outlined for the committee progress which has been made in testing certain varieties of drought-resisting wheat brought to this country from Russia in 1928. Emphasizing the importance of this branch of research in breeding, he urged further intensive study through practical field tests be conducted in the varieties which had already been brought down to the segregating generations, and said the cost of equipment for the work would not exceed $500.

B.C. Placer Mining

Would Put Unemployed To Work Panning Gold

Victoria, B.C.—Plans for putting unemployed men to work washing gold in the streams of British Columbia are being shaped at conferences here between the government and officials of the mines department.

Under a scheme discussed in a general way at the recent unemployment conference at Ottawa, it is proposed that unemployed men, who desire to do so, shall be given grubstakes which will enable them to carry on placer operations. They would repay the cost of their maintenance and keep any amounts which they made over and above that.

Mines department officials believe that in many parts of the province men working in small numbers could make enough to support themselves, and many, with luck, could make reasonable wages.

Perjury Charge Dismissed

Quebec, Que.—The charge of perjury preferred against Capt. J. E. Bernier, widely known Canadian explorer and navigator, following a complaint made by Raoul Harvey, a seaman, was dismissed by Magistrate Ferdinand Roy recently. Harvey claimed the captain perjured himself when called to testify before the Dominion wreck commissioner's inquiry into the sinking of the s.s. Guide, in 1926.

Trade Treaty With Cuba

Ottawa, Ont.—The Canadian Government is considering entering into a reciprocal trade treaty with Cuba with a view to creating a market for Canadian potatoes. This information was contained in an answer of the secretary of state in the House of Commons to a question of Oscar Boulanger (Liberal, Bellechasse). A request to institute the treaty was received from a group of farmers of New Brunswick.

JAMES DUNN
SALLY EILERS
and makes the triumphant return
of
MAE MARSH

Over the Hill

Will lift you out of yourself . . . make you forget your troubles . . . as you share the joys of others. Your eyes will grow misty with comedy and pathos.

Over the Hill

You will sigh from laughter . . . and with sympathy. Here is a picture that glorifies love of home and family . . . of mother . . . and of sweethearts.

Over the Hill

Has tenderness . . . suspense . . . humor . . . and dramatic action . . . woven together with that rare quality which makes immortal entertainment.

With the exception of M. Piper all operators on the Reclamation farm are back on the job, but due to the flooded condition of the area start of spring operations is still delayed.

According to the Kimberley Press nimrods from that town are invading Creston at the weekends to try out bass fishing here. With the river now on the rise catches have been small.

Creston's intermediate baseball team stacked up against a mixed senior intermediate aggregation at Porthill on Sunday afternoon, and suffered a 20-5 beating to start the season with.

All the baseball boosters should be out tonight for the bridge in the Parish Hall, under the auspices of the intermediate team, which will use the funds for the purchase of needed 1932 equipment.

Although the weather has been decidedly chilly every morning for the past ten days the coldest touch was on the 20th when 32 above zero was recorded. The same morning Okanagan points had from four to six degrees of frost.

According to those who observe the weather the season is almost two weeks later than 1931, and even with ideal weather it will be the middle of June before the first strawberries are moving.

C. B. Twigg, district horticulturist, Cranbrook, was here on an inspection trip at the middle of the week. He reports that present prospects are for a tree fruit crop much larger than 1931.

The basketball season was wound up with the playoffs at Park pavilion on Thursday night last. The High School A team won both the school and town league championships, going through the season undefeated.
