No. 28

## Many Compete Wynnndel Fair

600 Entries Made—Great Show Fruit, Vegetables, Cooking and Needlework—Medal Presentation Pleasant Feature.

Fall fairs have been described as the show windows of the district in which they are held, and this being the case Wynnndel has every reason to be well pleased with the fine impression created on visitors and home folk alike with the third annual fall fair under Women's Institute auspices in the community hall on Wednesday, September 21st.

Everything connected with the fair seemed to be made to order. The weather was ideal, the hall was just the right size to house the exhibits, which accounted for almost 600 entries, and to permit of ample space to set the show off to good advantage and permit the large number of visitors to view the displays in comfort, while the stage and annex were convenient for the musical programme and the serving of refreshments. Along with all this the committee in charge had all the details of the fair so well in hand that everything went off well and on schedule.

The opening exercises were in charge of Col. Fred Lister, M.P.P., who delivered an address appropriate for the occasion, complimenting all on the excellence of the goods displayed and the all around success of the show. He expressed the hope that the government would yet see the necessity of making the usual grants to the smaller fairs, as in the past.

The most pleasing feature to the opening ceremonies was the presentation of the lieutenant-governor's bronze medal to June Wigen, who had the distinction of taking the third highest standing of all pupils in B.C. writing on the entrance to high school examinations last June. Rev. A. Walker spoke in graceful terms of the honor this young student had secured for herself as well as the district, and accorded a full measure credit for this very fine standing to Mr. and Mrs. McGregor, teachers at the Wynnndel school.

The awards in the fruit, vegetables and flowers were placed by C. B. Twigg, district horticulturist. The exhibits were confined to plates, the most noticeable of which were the peaches in which J. G. Abbott and Mrs. C. Ogilvie were winners, and the grapes, in which the prizes went to Mrs. M. Wigen and Mrs. Ringheim. Sam Moon showed his well known skill as an exhibitor by taking first in collection of fruit, while A. Rudd made a double win in the collection of five kinds of vegetables and two plates of fruit. The show of flowers was limited, and the beauty of the cut

flowers was marred somewhat by poor arrangement, exhibitors paying more attention to quantity rather than attractiveness.

Mrs. M. J. Boyd and Mrs. C. F. Hayes of Creston were in charge of the judging in the cooking, canning and needlework classes in most of which sections there was a uniformly heavy entry. In cooking the show of pies was prominent, with the red tickets in lemon and apple pies going to Miss Phyllis Foxall and Mrs. Joy. Another notable section was the Purity flour bread, with first prize going to Mrs. Chas. Leamy. Tea biscuits was another heavily-entered class, and the three prizes went to Mrs. M. Hagen, Mrs. R. Eakin and Mrs. Joy.

In needlework the rugs and house dresses were notable. In the latter the honors went to Mrs. C. Hindley and Miss Foxall. In braided rug Mrs. Hackett won first prize with Mrs. Dalbom second, and in hooked rug the honors went to Miss Ethel Towson and Mrs. Hackett. W. S. McAlpine, of Creston, judged the poultry, which had a rather light entry.

The afternoon was brightened up with musical numbers with Mrs. Wall, Mrs. R. Eakin, Mrs. McGregor, Mrs. Hulme, Mrs. Stevens and Mrs. W. Cooper lending a helping hand. Mrs. Davidge had a busy afternoon at the fortune telling booth, and the ladies in charge of the tea tables report excellent patronage. The candy and hot dog stands were sold out quite early in the afternoon.

In handling the fair members of the Institute entered whole heartedly into the task of making the exhibition still bigger and better, and it was due to this commendable co-operative spirit that the fair went over so successfully. Mention is due Messrs. Sam Moon, J. Hulme, W. Cooper and O. Davidge in whose care was the hall management and arranging the exhibits, and who were ably supported by the institute officers, Mrs. F. C. Robinson, president; Mr. O. Davidge, secretary; Mrs. E. E. Eri and Miss F. Wood, directors.

The hooked rug donated by Mrs. Dalbom, which was raffled, was won by Mrs. W. J. Cooper.

Two items worthy of mention, but not in for competition, were a wool rug made by Mrs. Kinakin and a lace table cloth by Mrs. Steiner. Mrs. Kinakin's rug was made from wool washed, dyed and got ready for work all by herself.

For the children there was a program of races, etc., which were in charge of A. E. Towson and G. Hulme. A complete list of sports and prize winners will be found on page five.

### Lister

Otto Dirsch of Nelson is a visitor here this week, a guest of Mr. and Mrs. A. Domke.

N. W. Burdett of Kimberley was a Lister visitor the past week, a guest of Col. Lister.

The trustees have made the necessary application to the minister of education to give the school children a half holiday on fall fair day.

The flowers and vegetables were badly cut down by a heavy frost Wednesday morning last, when ten degrees of frost was recorded.

Several of the Legion members from Lister were at Creston on Sunday morning for the service at Christ Church, when chaplain, Rev. T. Scott, took his final service.

Lister school, which won the shield at last year's Creston fall fair for the best school display, will be represented again this year, work having already commenced to assemble the necessary display products.

Jas. Huseroft has his hay baler at work in the area and already has baled the alfalfa crops at the Beard, Stevens and Domke ranches.

F. B. McConnell, representative of the Canada Colonization Company, is here from Vancouver on his semi-annual inspection visit.

J. W. Smith, inspector of lands, and C. E. Hooper, secretary of the Land Settlement Board, Victoria, are here this week, and are making a report on the condition of all the farms in the area that the L.S.B. is interested in.

## Present Student Purse and Bible

Byron Willis Honor Guest at Reception Prior to Going Out as Presbyterian Student Mission Worker—Many Present.

About 85 of the members and adherents of St. Stephen's Presbyterian Church were out on Friday evening for a farewell social in honor of Byron Willis, who leaves in the near future to take up his work as mission student in connection with the work of the Presbyterian Church in Canada. He has been a resident in this district for the past eight years and during that time has attended Creston high school, where he was a keen student and made all grades with high standing, as well as taking private lessons in extra languages, and by private study for fourth year high school work. By continual study he has equipped himself for the work in which he now enters.

The evening was pleasantly spent, all present taking part in a programme consisting of music, games and contests, which were ably handled by Geo. H. Kelly. Mrs. Rose and Mrs. Kelly delighted the company with their splendidly rendered solos, while Lloyd McLaren's violin solo was a real treat. The accompanists for the evening were Mrs. Beninger and Miss Merle McCaslin.

(Rev.) N. G. Smith was called upon for an address and in a few well chosen words expressed the appreciation of the Sunday school for the splendid work of Mr. Willis in this department of church work, as he has been a faithful worker for seven years. As a slight token of this appreciation, on behalf of the Sunday school, Mr. Smith presented Mr. Willis with a handsome bible.

Dr. Hendersen spoke for the congregation and in his remarks said that Mr. Willis had chosen the most noble profession that man could be called to, and he had much pleasure to present to him, on behalf of the congregation, a well filled purse. Mr. Willis suitably acknowledged both presentations. W. H. Watcher, representing the session, also spoke in very high terms of Mr. Willis, and of his splendid work he has done.

After refreshments were served the very pleasant evening was brought to a close with all present singing old favorites, with Mrs. Rose presiding at the organ.

### Canyon City

Mr. and Mrs. C. Walde and children of Fernie spent a few days here last week, with the latter's parents, Mr. and Mrs. Wearmouth, after a short vacation with Nelson friends.

Mrs. Staples, a former resident of Canyon, but now at Red Deer, Alberta, is renewing acquaintances here at present, a guest of her daughter, Mrs. Leslie Clark.

Canyon Ladies' Hospital Auxillary had a dance at the community hall on Friday night, with music by Creston Commanders orchestra.

Mrs. Grover Kifer and young daughter are here on a visit at the home of her father, A. G. Samuelson.

Campbell Blair left a few days ago for Winnipeg, Manitoba, where he will spend a few days prior to returning with his daughter, Eleanor, who has been in England for the past year.

The meeting of the United Front organization at the hall on Wednesday evening was quite well attended, with Vic. Olson occupying the chair and T. Mountford of Wynnndel acting as secretary. The United Front came into being following the meeting of the Workers Unity league a couple of weeks ago, which was addressed by Messrs. Evans and Purvis, at which a committee was named to draft resolutions in connection with relief, and these were submitted and passed at the meeting on the 28th. They are to be presented to the relief officer at Creston on Monday afternoon, and those selected to submit the

requests were O. M. Samuelson of Canyon, H. Yerbury of Lister, T. Mountford of Wynnndel, and Mr. Simpson of Kitchener, who invited as many as could find it convenient to accompany them.

A Consolidated Mining & Smelting Company plane circled over this section on Sunday and littered the place with literature telling of the merits of the firm's well known brand of fertilizer.

The end of the week will see the McIntosh Red apple crop pretty well cleaned up. Orchardists are working at top speed during the present spell of Indian summer weather.

Local ranchers have cut the third crop of alfalfa. It is light as to yield but has been put up in superb condition.

Miss Goodwin reports an enrollment of 37 pupils in the junior room at Canyon school, which is just about a record for the past few years.

### Erickson

Mrs. J. S. Peck, who has been staying with her mother, Mrs. George Cartwright, left for her home in Calgary, on Friday.

Miss Buelah Penson, nurse-in-training at Cranbrook hospital, was home for the weekend on account of the illness of her father, A. E. Penson, who is at present a patient in Creston hospital.

H. Campbell, who has been at Edmonton, Alberta, for the past six weeks, returned on Sunday.

Milton Fraser, Sidney Scott and Lloyd Leadbetter were at Kimberley over the weekend.

Miss Stella Speaker has arrived from Nelson and is on the packing staff of the Scott Fruit Company.

Miss Betty Kemp was a visitor at Bonners Ferry Saturday last.

Miss Walker returned last week from her home at Fanny Bay and has taken charge of the junior room at Erickson school.

Jack Hall, who has been visiting his parents, Mr. and Mrs. John Hall, has returned to Vancouver.

Miss Godwin of the Okanagan is here at present supervising the packers at the Scott Fruit Company packing shed.

Mr. Greene of Wycliffe spent a few days here last week, a guest of Mr. and Mrs. W. H. Kemp.

Those interested in baseball and other sports should attend a meeting at the school house on Friday evening at 7.30. The business to be taken up is consideration of buying a suitable site for an athletic field.

### Kitchener

The Peter Pan show and dance held on Thursday evening was fairly well attended, some of the crowd coming from Canyon and Creston.

Mrs. Manuel of Creston was a weekend visitor at the home of Mrs. C. Senesael.

The government bridge over Russell creek, in town, is now completed, and surely makes a great improvement.

Miss Olga Nelson, who has been away on a two weeks' vacation at Spokane and Kellogg, Idaho, returned on Saturday by bus.

Miss Hazel McGonagal, who is at high school in Creston, spent the weekend at her home here.

Wm. Moore, C.P.R. tie inspector, Grand Forks, was here on a business visit at the end of the week.

Miss June Browell of Canyon was a weekend guest of Miss Beatrice Molander.

The Kitchener baseball nine will play the Frothblowers at Creston on fall fair day, October 5th.

Mrs. G. Young of Creston spent the weekend, a guest of her sister, Mrs. Drifill.

Rudolph Nelson, who has been on a visit here for some time, returned to his home in Nelson on Sunday.

The Rackoteer softball team was at Yahlk on Sunday afternoon, where they

## Ready for Fair Wednesday, 5th

Opening at 10 a.m.—Showing of Vegetables and Fruit Should be Good Due Excellent Season—Four Baseball Games.

The opening features in connection with Creston's 1932 fall fair are announced for 10 a.m., Wednesday, October 5th, and coincident with the main building being thrown open for inspection, the outdoor attractions will commence, with Canyon meeting Wynnndel in a baseball tournament that will provide four games.

A bigger and better fair can be confidently predicted. The season has been a great one for outdoor crops of all kinds, and great improvement is looked for in the display of garden vegetables and field roots, and with the fair coming early in October all the later varieties of apples should be at their best for color as well as size. With specially attractive prizes offered in McIntosh Red, Wagener, Delicious and Jonathan, the show of these should be the best ever.

The success of the school fair is already assured by the splendid entry already to hand. Visitors to the fair will find in this feature something of special interest, particularly in the pupils' assembling of flowers, leaves, cones, etc., as well as the class work.

In the poultry section past fairs have had representative showings in the Rocks, Leghorns and Rhode Island Reds and with local White Wyandottes now making a name for themselves in outside competitions it is expected the showing of this variety will be better than previously.

E. C. Hunt of Nelson will place the awards in fruit and vegetable classes, and Mrs. Hennessey of Cranbrook will have charge of the judging in the ladies classes. An orchestra will brighten up things in the main building with music throughout the afternoon, and will also play for the dance fall fair night.

Five teams are entered in the baseball tournament, Creston, Canyon, Kitchener, Porthill and Wynnndel, with games set for 10 a. m. and 12 noon. At 10 o'clock Canyon meets Wynnndel, and at noon Porthill and Kitchener meet. The winners in these rounds will then draw and the loser will play Creston, to decide the entrants for the final clash.

Refreshment booths will be doing business all day, and a line of games of chance and other features of the sort have been arranged for the day. For 1932 the admission will be 25 cents, which includes entrance to grounds as well as the main building.

played the Dumb Dons, and were trimmed by a score of 18-16. This is the last game of the season.

Miss Jessie White, principal of the public school, spent the weekend on a visit with Creston friends.

A number from here took in the Unity League dance at Wynnndel on Saturday evening. The fruit cake that was raffled was won by Mrs. Jack Henkey.

Try Lydia E. Pinkham's Vegetable Compound

**Too "Worn-Out" to go**  
Another date broken . . . Couldn't stay on her feet a minute longer! Lydia E. Pinkham's Vegetable Compound always relieves cramps. Try it next month.

**WORLD HAPPENINGS BRIEFLY TOLD**

Sir Ronald Ross, noted authority on tropical diseases, is dead, aged 75.

The adventurous whaling industry may be revived to prosperity on the British Columbia coast as a result of a rise in oil prices of 30 per cent.

Rolling an automobile tire before him, Emery Cross took off from Weland, Ont., on a seven-year jaunt around the world.

The city of Tarsus, home of Saint Paul, was swept by fire. The flames destroyed 144 houses with the loss of \$100,000.

The admiralty ordered the keel to be laid on October 1 for Germany's third "pocket battleship," to be known for the present as "armored ship C."

For lack of funds Berlin streets have for years been so badly neglected that a number of important thoroughfares have now been closed for heavy trucks.

Mrs. W. Thrift, of Sidcup, England, whose husband was reported missing during the World War, has just been notified that he was killed near Cambrai.

A number of Alberta areas face a potato shortage because of two months of hot weather without rain this summer, according to Calgary merchants.

Sweden is motorized. Of every 100 vehicles one meets on its roads, only 11 are horse-drawn, the annual Swedish Road Congress at Gothenburg, Sweden, was told.

Sir Henry Simson, the physician who was in attendance at the birth of Princess Elizabeth and Princess Margaret Rose, children of the Duke of York, died suddenly of a heart attack. He was 60 years old.

**Big Fur Shipment**

**Furs To Value Of Half a Million Arrive From H.B. Region**

A ton and a half of fur from the northern barren lands, principally from along the west coast of Hudson Bay, passed through The Pas, Man., recently, on the way to the markets of the world. The shipment is valued at roughly half a million dollars.

The fur—fox, mink, marten—was caught during the past year by Eskimos, Indians, and white trappers in the sub-Arctic wastes. Only the richest and most choice fur was brought down.

From Chesterfield Inlet and other points it was flown to Churchill by the three Junkers' planes of the Canadian Airways, and then loaded on to the famous muskeg train that plies between the northern port and The Pas, Manitoba.

The fur will go by Canadian National Railways to the Revillon Freres Company in Canada and the Hudson Bay Company in London, England.

**A Mark Of Distinction**

**Ability To Keep Ears Open and Mouth Shut**

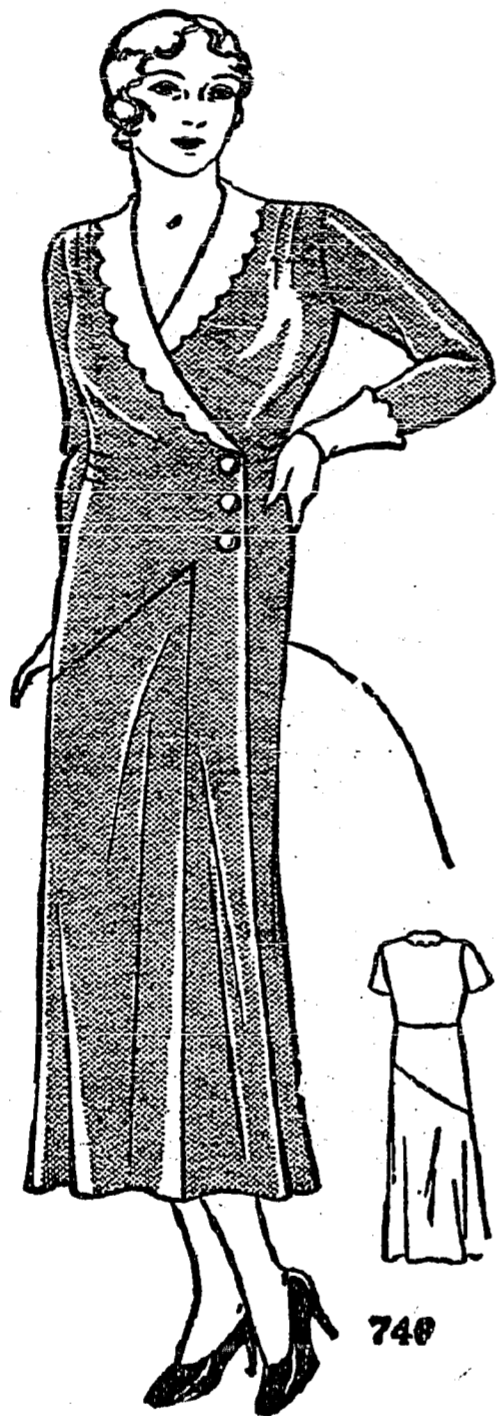

A man seeking a job advertises in this way in a New York newspaper: "I have just enough brains to keep my mouth shut, my ears open and present a good executive appearance. Do you need a front for your business?"

We suspect the gentleman is not being quite frank with his public. Probably he is a very shrewd, capable person who thinks an air of humility, of self-depreciation, an original line of approach, may achieve the results likely to be denied a more orthodox recital of his good qualities.

The fact is, of course, that ability to keep the mouth shut and the ears open is a mark of considerable distinction and a virtue commonly denied to a great many persons. The "front" of "good executive appearance" and nothing to back it up is much more apt to keep his mouth open and his ears shut. If he knows enough to reverse the process he is more than just a front.—Ottawa Journal.

(By Ruth Rogers)

**A WRAP-AROUND MODEL FOR YOU IF YOU'RE A WEE BIT HEAVY**

Still another smart and flattering style for matrons.

And it's cut on the wrap-over lines so becoming and liked. There's a slenderizing bias line at the front and at the back that reduces the hip bulk. The shawl collar is very becoming. And don't you like the shaped sleeve cuff?

So many charming materials can be used for this slim-line model.

The original was rhum-brown wool crepe with white pique trim.

It's perfectly stunning in black crepe satin with a canton-faille back. Use the dull back surface for the collar and cuffs.

Style No. 746 is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust. Size 36 requires 3 3/4 yards of 39-inch material with 7/8 yard of 39-inch contrasting.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

**Veteran Doctor Honored**

**Kansas People Pay Tribute To Traditions He Represented**

When nearly one thousand persons assembled at Mulvana, Kansas, recently to honor the veteran physician who had ushered them into the world, they paid tribute not only to an individual but also to the traditions he represented.

The old-fashioned country physician was one of the heroes of his profession. Scientific names now dignify the shrewd psychology he administered along with his pills and powders. Under conditions that would be considered impossible today, he performed many feats of surgery. No mud was too deep and no blizzard was too blinding to keep him from answering a call to duty. The midnight beat of hoofs along the pike usually meant that he had sacrificed another night's rest in order to relieve some one's suffering.

The old-time country doctor is passing. As with the circuit rider and the colporteur, his type will eventually become extinct. But the recent assemblage in Kansas shows that modern medicine can well afford to honor the traditions of courage and duty that thousands of country doctors left behind them.—New York Evening Post.

**Altitude Records**

**Two British Pilots Make Claims To New High Records**

British pilots, flying at opposite ends of the Empire, have advanced claims to two new aviation altitude records.

Captain Cyril Unwins claimed a new record for land planes, with a flight to 45,000 feet at Bristol. The official record is 43,154.9 feet, held by Lieutenant Apollo Coucek, United States Navy.

At Port Darwin, Australia, an amphibian attached to the British navy's ship, "Albatross," was reported as claiming a new altitude record for that type of ship, with a flight to 23,000 feet.

It was also claimed that a balloon released from the "Albatross" (without passengers) reached a height of 70,000 feet, or more than 13 miles. This was set up as a record. There are no official records for passenger balloons. Professor Auguste Piccard rose nearly 11 miles over Italy in his latest stratospheric ascension.

**Epitaph Was Fitting**

Tombstone Dealer (after several futile suggestions): "How would just a simple 'Gone Home' do for an inscription?"

The Widow: "I guess that will be all right. It was always the last place he ever thought of going."

**SUNDAY SCHOOL LESSON**

OCTOBER 2

**CHRISTIAN STANDARDS OF LIFE — THE CHRISTIAN'S DEVOTIONAL LIFE**

Golden Text: "Grow in the grace and knowledge of our Lord and Saviour Jesus Christ."—2 Peter 3:18.

Lesson: Psalms 1:1-6; 119:9-16; Daniel 6:10; Matthew 6:5-15; Timothy 3:14-17.

Devotional Reading: Psalm 122.

**Explanations and Comments**

**Prayer In the Christian's Devotional Life, Matthew 6:5-15.**— It was the appearance of righteousness that the hypocrites coveted, not the righteousness itself, and Jesus bade His disciples not to pray as they do—standing in conspicuous places to be seen of men. They have received their reward, said Jesus; they have been seen of men and this was what they desired; they have no claim whatsoever to any further reward.

"After this manner therefore pray ye": thus the Lord's Prayer is prefaced in Matthew's Gospel. It does not mean that the prayer which follows is the only one to be offered. Rather does it counsel us to let our prayers be constituted like this Model Prayer, to let them deal with divine and human interests, with spiritual and physical wants. It reminds us of many things which we are prone to forget when we commune with God. Too many think of prayer as petition for personal needs or desires, whereas this prayer is for others as well as for self, and is concerned chiefly with God's interests and our spiritual needs.

The prayer naturally divides into two parts: first, the things of God; second, the things of man. "Our Father," is the address with which the prayer begins. God is powerful—v.G.B; prayer begins. God is never so addressed in the Old Testament, but Jesus Himself always addressed Him as Father.

"Prayer is communion with God, not as the Supreme Governor who controls the universe, but as the Father who advises, strengthens, and forgives His children in answer to their cry of need."—Kirsopp Lake.

Our Father, who art in Heaven. "This is more, shall I say, than God's postal address. Our Father is in the place of supreme dominion, love rules the universe."—J. D. Jones.

Hallowed be Thy name. The name of God stands for God Himself, His revealed nature. Hallowed means treated as holy, revered, rightly worshipped. In this petition we pray that we may honor the Father in thought and life.

There are many ways in which we may fail to hallow God's name. Swearing is profaning God. Irreverent worship is profaning Him. Harboring unworthy ideas of His Nature, thinking Him cruel, unkind, is profaning Him. Deeds profane the name of God more than words can.

Thy Kingdom come. Let Thy sovereignty be realized, and it will be when the words of the next petition become true: when every one's will is in as perfect accord with God's will as was the will of Jesus.

**"The prettiest dress at the picnic" everybody said**

"I must tell you about going to a big, all-day picnic," writes a woman from Ontario. "I thought I couldn't go because I had nothing fit to wear and couldn't afford a new dress. The day before, the druggist showed me a wonderful new tint powder made by the people who make Diamond Dyes, which I have often used in dyeing dark colors. These new Diamond Tints, he explained, are the same high quality as Diamond Dyes. The difference is they are for light shades and don't require boiling. I had a dress, left from last year, which faded and was so streaked and ugly I was ashamed to wear it. I decided to try Diamond Tints on it. I loved it! I got to the picnic in the rinse water, and the dress came out the loveliest green! I got to the picnic after all and everybody said my dress was the prettiest one there, thanks to these new Diamond Tints."

**DIAMOND TINTS**  
AT ALL DRUG STORES

**Many Veterans Employed**

England has completed arrangements for the retention permanently in the government employ of more than 13,000 ex-service clerks, who had been given temporary employment. They will be engaged on a pensionable basis. In addition more than 2,000 temporary women clerks and stenographers are to be given pensionable employment.

Rice was brought to this country by a sea captain, returning from a voyage to Madagascar, in 1694.

**DEFINITE HELP FOR DWELLERS IN APARTMENTS**

**Odorless way found to cook fish, cauliflower and cabbage**

**CANAPAR IS A PRODUCT OF HAMILTON FIRM**

Lives there a woman, in apartment, duplex or home, who has not at some time or other reluctantly foregone fish, cabbage, and cauliflower because of the odors they give off when being cooked? Or who has not suffered from other people close by who cooked these foods regardless?

Canapar entirely does away with this annoyance. More than that, it actually improves flavor and food value. Cooking in Canapar parallels the famous French method of simmering and confining food and its flavours to the closed casserole.

Canapar comes in large sheets, in a handy-size package. When boiling vegetables you simply wet the sheet of Canapar and make a bag similar to a pudding bag. If you are steaming them you line your steamer with Canapar, arrange food and seasoning, and fold back corners of the Canapar to prevent steam from dripping back.

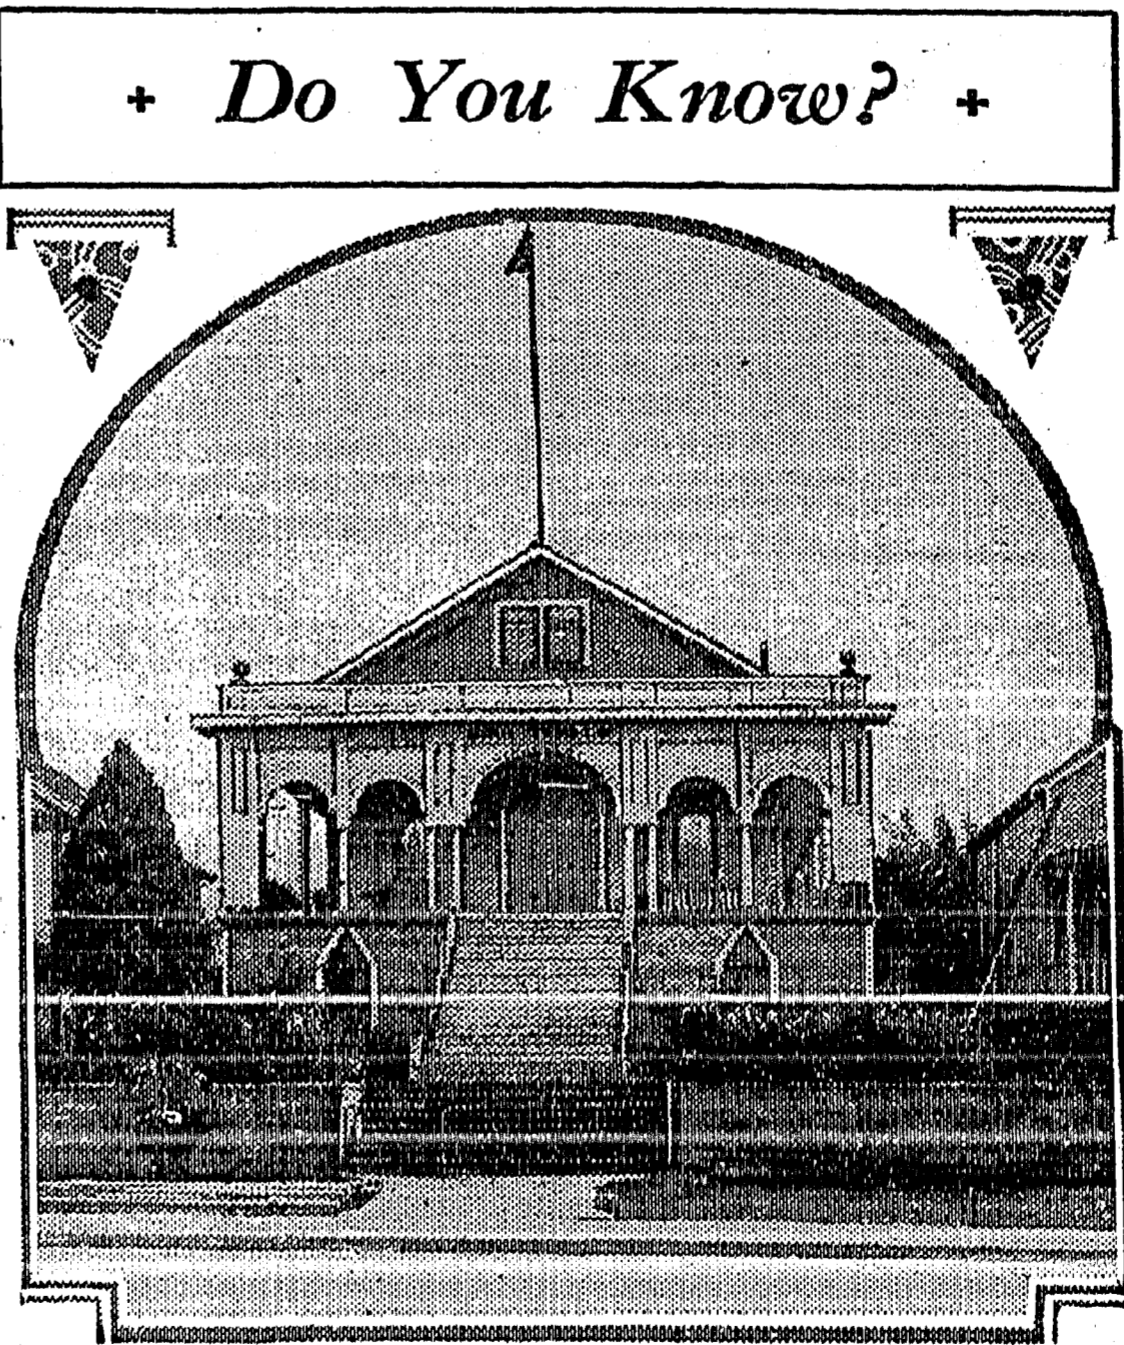

Boiled or steamed fish is particularly delicious done this way. No fishy odor in the kitchen, no gummy kettle to clean. When roasting meat, line the pan with Canapar. It prevents the fats and juices from burning, and eliminates scouring of the pan afterwards.

Canapar saves fuel. You can cook three vegetables simultaneously in the same saucepan with it, without intermingling of flavors. And it is very economical. Just rinse the sheet after using it, hang it on the towel rack to dry. Use it over and over again.

Lots of women use Canapar for a dish cloth—it is so silky and satisfactory and does not spread lint. This is a particularly good use if you happen to pierce the sheet of Canapar while testing the food during the cooking of it. Canapar is made by the makers of PARA-SANI the famous heavy waxed paper in the Green box.

**Special Offer.**

Most grocers, druggists and department stores sell Canapar. If yours doesn't, send the coupon direct and we'll give you a new and unique book entitled "Leftovers" containing one hundred recipes as a bonus for your trouble.

## THE HOUSE OF DREAMS-COME-TRUE

— BY — MARGARET PEDLER  
Author of "The Splendid Folly," "The Hermit of Far End,"  
Hodder & Stoughton, Ltd., London.

CHAPTER XXXII.—Continued.

"Rest?" she said. "Rest? Do you realize that I shall have all the remainder of life to—rest in? There'll be nothing else to do."

She released herself very gently from Tormarin's arms and, crossing the room to the window, stood looking out.

"How funny!" she said in a rather high-pitched uncertain voice. "It all looks just the same—although everything in the world is changed."

He came and stood by her side. "No," he said quietly. "Nothing is changed, dear. Our love is the same as it was before. Always remember that."

"But we can't ever marry now."  
"No. We can't marry—now. You'll never have the Tormarin temper to bear with, after all!"

She laid her hand swiftly across his lips.

"Oh, it was dreadful!" she said, recalling the terrible scene which she had interrupted. "It—it hardly seemed—you, Blaise."

"For the moment it wasn't. It was the Tormarin devil—the curse of every generation. But I think that Varigny woman could turn a saint into a devil if she tried! She said something about you—and I couldn't stand it."

"Was that it? Then I suppose I shall have to forgive you—with a pale little attempt at a smile."

But the half-hearted smile faded again almost instantly.

"Oh, Blaise, what would your temper matter if we could still be together?" she cried passionately. "Nothing in the wide world would matter then."

Presently she spoke again. "But it's worse for you than for me—I wish it were more equal."

"How worse for me? I don't understand. Unless—with a brief, sad smile—"you love me less?"

"Ah, you know I don't mean that! But I've only the separation to face. I'm not tied to somebody I don't love. You've got Nesta to consider."

"Nesta?" He gave a short, grim laugh. "Nesta can go back to where she came from."

There was a long silence. At last Jean broke it.

"Blaise, you can't do that—you can't send her away again," she said in quick, low tones. "She's your wife."

"My wife! She seems to have been

oblivious of the fact—and to have wished me to be equally oblivious of it—for the last few years."

"Yes, of course she's been wrong, wickedly wrong. But that doesn't alter the fact that she's your responsibility, Blaise. You must take her back."

"Take her back?"—violently. "I'll be shot if I do. She's chosen to live her life without me for the last few years—she can continue to do so."

Jean laid her hand on his arm. She was smiling wistfully.

"Dear, you'll have to take her back," she persisted gently. "Don't you see—she's not wholly to blame? You've admitted that. You've blamed yourself in a large measure for her running away. It's up to you now to put things straight, to—give her the chance she didn't have before."

"You're discounting these last few years," he returned gravely. "These years in which she has lived a lie, allowing me to believe her dead—cheating and deceiving me as no man was ever cheated before. She's cheated me out of my happiness—heavily—"taken you from me!"

"Yes, I know." Jean's voice quivered, but she steadied it again. "But even in that, she was not solely to blame. You've told me how—how weak she is and easily led away. And she's very young. What chance would Nesta have of asserting her will against her sister's, even had she wished to return to you? She ran away from Staple in a fit of temper and because you had frightened her. After that—you can see for yourself—Madame de Varigny is responsible for everything that has happened since."

Tormarin remained silent. The quiet justice of Jean's summing up of the situation struck at him hard.

She waited a moment, then added quietly:

"You must take her back, Blaise."

He wheeled round on her violently. "And you?" he exclaimed. "You? Did you ever love me, Jean, that you can talk so coolly about turning me over to another woman?"

She whitened at the bitter accusation in his tones, but she did not flinch.

"It's just because I love you, Blaise, that I want you to do this thing—to do the only thing that is worthy of you. Oh, my dear, my dear"—her hands went out to him in sudden helpless pleading—"do you think it's easy for me to ask it?"

The desolate cry pierced him. He caught her in his arms, kissing her fiercely, adoringly.

"Sweetheart! Forgive me! I'm half mad, I think. Beloved, say that you forgive me!"

She leaned against him, glad to feel the straining clasp of his arms about her—to rest once more in her place against his heart.

"Dearest of all," she said tremulously, "there is no question of forgiveness between us two. There never will be. We're just—both of us—struggling in the dark, and there's only duty"—brokenly—"only duty—to hold to."

They stood together in silence, comforted just a little by the mere human touch of each other in this communion of sorrow which had so suddenly come upon them, yet knowing in their hearts that this was the very comfort that must for ever be denied them in the lonely future.

At last Jean raised her head from its resting-place and her eyes searched Blaise's face, asking the question she could no longer bring herself to put in words. He met their gaze.

"Jean, is it your wish I do this thing—take Nesta back?"

He felt a shudder run through her frame. Twice she tried ineffectually to answer. At last she forced her dry lips to utter an affirmative.

"So be it."

His answer sounded in her ears like the knell to the whole meaning of life. The future was settled. Henceforth their lives must lie apart.

"So be it," said Blaise. "She shall come back and take her place again at Staple."

Jean clung to him a little closer.

"Blaise, beloved—I know the harder part will be yours. But mine won't be easy, dear. I shall go to Charnwood to be with Claire at once—tomorrow—and it won't be easy, when I see in an evening the lights twinkle up at Staple, to know that you two are within, shut in from the world together, while I'm outside—always outside your life and your love."

# Flush away those ugly

## Yellow Stains...

Gillett's Lye cleans closet bowls without scrubbing. Banishes odors, kills germs, frees drains...

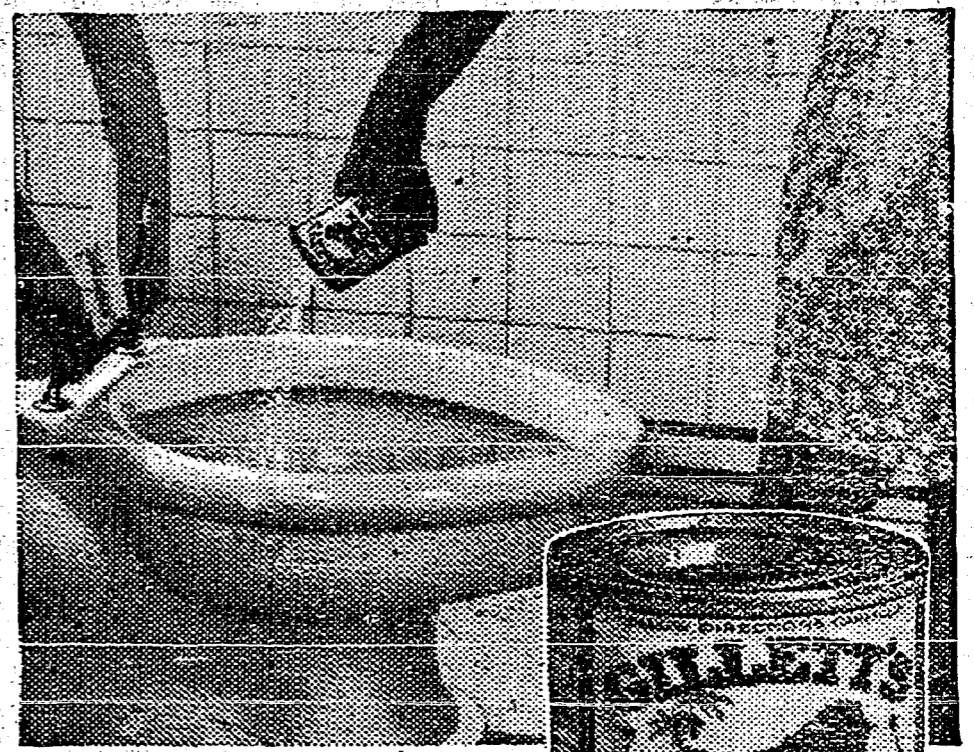

WHAT woman doesn't want to get rid of it! The most unpleasant part of house-cleaning. Scrubbing toilet bowls.

Thanks to Gillett's Pure Flake Lye... this annoying job has been made easy.

Just sprinkle Gillett's Lye—full strength—into the water. Off come all stains...without scrubbing. Germs are killed...odors banished.

And more important, Gillett's Pure Flake Lye will not eat away enamel, or destroy the finish of sinks and bathtubs.

REMEMBER—this powerful cleanser and disinfectant makes all your household cleaning easier. Ask for Gillett's Pure Flake Lye.

FREE BOOKLET: The Gillett's Lye Booklet shows you dozens of ways to avoid back-breaking work. Gives instructions for soap making, tree spraying, disinfecting on the farm. Write to Standard Brands Limited, Fraser Ave. and Liberty St., Toronto, Ont.

Never dissolve lye in hot water. The reaction of the lye itself heats the water.

## GILLETT'S LYE EATS DIRT

"You'll never be outside my love," he said swiftly. "That's yours, now and forever. And no other woman shall rob you of one jot or tittle of it, were she my wife twenty times over. I will bring Nesta back to Staple, and she shall bear my name and live as my wife in the eyes of the world. But my love—that is yours, utterly and entirely. Yours and no other's."

She lifted her face to his, and their lips met in a kiss that was a seal of love and all love's faithfulness.

"So is mine yours," she said. "Now and forever, in this world and the next. Oh, Blaise—beloved!"—she clung to him in a passion of love and anguish and straining belief—"Some day, surely, in that other world, God will give us freedom to take our happiness!"

### CHAPTER XXXIII. The Returning Tide

Two months had elapsed since Fate's dividing sword had fallen, for ever separating Jean from the man she loved, and the subsequent march of events, with the many changes involved and the bitter loneliness of soul entailed, had made the two months seem to her more like two years.

## PAIN relieved instantly

Aspirin will dispel any pain. No doubt about that. One tablet will prove it. Swallow it. The pain is gone. Relief is as simple as that.

No harmful after-effects from Aspirin. It never depresses the heart, and you need never hesitate to make use of these tablets.

So it is needless to suffer from headache, toothache or neuralgia. The pains of sciatica, lumbago, rheumatism or neuritis can be banished completely in a few moments. Periodical suffering of women can be soothed away; the discomfort of colds can be avoided.

Aspirin tablets have other important uses—all described by the proven directions in each box. Look for that name Aspirin on the box—every time you buy these tablets—and be safe. Don't accept substitutes. "Aspirin" is a trade-mark registered in Canada.

She had left Staple for Charnwood on the day following that of Madame de Varigny's visit. It was no longer possible for her to remain under the same roof with Blaise, where the enforced strain of meeting each other daily, and of endeavouring to behave as though nothing more than mere commonplace friendship linked them together, would have been too great for either of them to endure even for the few remaining days which still intervened before the date originally planned for her departure.

Lady Anne, with her usual sympathetic insight, had made no effort to dissuade her, reluctant though she had been to part with her. For herself, the fact that Nesta was alive had come upon her in the light of an almost overwhelming blow. She had never liked the girl, whereas she had grown to look upon Jean as a beloved daughter, and no one had rejoiced more sincerely than his mother when Blaise had confided to her the news of his engagement. At last she would see that grey page in his life turned down for ever and the beginning of a newer, fairer page, illuminated with happiness! And instead, like a tide that has receded far out and then rushes in again with redoubled energy, the whole misery and sorrow of the past had returned upon him, a thousand times accentuated by reason of his love for Jean.

It was with a heavy heart, therefore, that Lady Anne, together with Nick, quitted Staple and established herself for the second time at the Dower House, retiring thither in favour of Nesta who was now installed once more at the Manor. And the thought of how gladly she would have effected the same change, had it been Jean whom Blaise was bringing home as his bride, added but a keener pang to her sorrow.

She watched with anxious eyes the progress of events at Staple. At the commencement of the new regime Nesta had appeared genuinely repentant and ashamed of her conduct in the past, and there was something disarming in the little, half-apologetic air with which she had at first reassumed her position of chatelaine of Staple, deferring eagerly to Blaise on every point and trying her utmost to please him and conform to his wishes. It held something of the appeal of a forgiven child who tries to atone for former naughtiness, by an almost alarming access of virtue.

She accepted with meek docility Blaise's decision regarding the purely formal relations upon which their married life was henceforth to be based, apparently humbly thankful to be reinstated as his wife on any terms whatsoever that he chose to dictate. "I know I have been bad—bad," she declared, "to run away and leave you like that, I can't"—forlornly—"hope for you to love me again."

And Tormarin had replied with unmistakable decision:

"No, you can't hope for that. And I'm glad you understand and recognize the fact. Still, we can try to be good friends, Nesta, at least."

But this tranquil state of things only lasted for a comparatively short time. Very soon, as the novelty and satisfaction of her reinstatement began to wear off, Nesta became more self-assured and, apparently, considerably less frequently visited by spasms of repentance and remorse.

Her butterfly nature could retain no very deep impression for any length of time, and gradually the characteristics of the old Nesta—the pettish, self-willed, pleasure-loving woman of former times—began to reassert themselves.

Blaise tried hard to exercise forbearance with her and to treat her, at least with justice and with a certain meed of kindness. But she did not second his efforts. Instead, she became more exigent and difficult as time passed on.

She was no longer satisfied by the fact that she was once more installed as the mistress of Staple. She demanded a husband who would surround her with all the little observances that only love itself can dictate, whom she could alternately scold and cajole as the fancy took her, but who would always come back to her, after a tiff, ready anew to play the adoring lover.

(To Be Continued.)

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum. Dr. Thomas' Eclectric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Before they were married she couldn't bear to let him out of her sight. She loved him so well. After they were married she couldn't bear to let him out of her sight. She knew him so well.

The teacher of a gliding school in Germany has trained falcons to fly within a limited area so that he can study their soaring flights with the aid of a motion picture camera.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, SEPT. 30

### Let's Make the Fair "As Good as it Used to Be!"

"The fall fair isn't as good as it used to be," says you? And why?

There are more people in the district than there "used to be." Products are in greater volume and variety than they "used to be."

The need for the fall fair is certainly just as great as it "used to be."

And the good use the prizes and prize money can be put to is certainly no less than it "use to be."

Every good reason there "used to be" for having a successful fair exists to-day.

What is wrong is that folks who "used to" take a real interest in the fall fair have eased off or quit entirely with their effort to make the fair a success. To these in particular, and everyone else in general, an urgent appeal is made to do their bit to bring the fair back to what it "used to be."

The only way to do this is to become an exhibitor—and make all the entries in every class that you possibly can.

This has been a great year for vegetables. For size and color fruit was never better, and the prize list has been specially adapted to facilitate the effort of the fruit exhibitor.

With the ladies the showing of cooking has been greatly facilitated by extending the time for bringing in the culinary product up to 8 p.m., and thus entirely eliminating the rush that was inevitable when exhibits had to be placed by 12 o'clock noon.

In times like these every pantry in the valley must have shelves sagging with a winter's supply of canned goods, jams, jellies, pickles, etc., and now that most everyone is back more closely to the simple life there must be fancy work of a prize winning sort that can be readily shown.

To make the fair even better than "it used to be" all that is required is the giving of the necessary time to arrange the exhibits and to get them in, and if time's decrease in value is on a par with all other commodities, it might be in order to suggest that possibly it is not now too valuable to expend a little to make the 1932 fall fair the biggest and best ever.

Prize lists and entry forms are to be had at all places of business throughout the valley. Get one to day. Look it over carefully and you will be surprised at the

number of classes you can enter with little or no special effort. Make this year's fair better than it used to be.

### Hints to Exhibitors

The mere sight of prize fruit, vegetables, dairy and household products has been proven to have an educational value not easily to be overestimated. Show only the best work; one exhibit well done will attract a crowd. It is the privilege of every farm to contribute to the show. The purpose of the "exhibition" is to enable farming folk to realize and enjoy the beauties of their magnificent and vitally necessary profession!

**Apples and Pears (single boxes)**—Wrap all apples and pears except the top now, which should be packed unwrapped. The bulge must slope gently to both ends, at which fruit must be only 1/4 inch above each end. At centre the total bulge top and bottom is 1 1/2 to 1 3/4 inches for apples. Pears, because of heavy shrinkage require a total bulge from 2 to 2 1/2 inches. The pack must be firm, and full weight for the package is expected.

**Commercial Potatoes**—The tubers should be from 8 to 12 oz. in weight. (This is a correction from last week).

**Tomatoes**—Size varies with the variety, but should be about 3 inches in diameter. Stems removed.

**Carrots**—Intermediate variety, length not over 7 inches; Short variety, length not over 3 inches. Diameter at top 2 to 2 1/2 inches. Tops should be removed.

**Vegetable Marrow**—Both green and cream varieties should be 16 to 20 inches long, uniform, firm, free from all blemishes and with stem attached.

**Eggs**—Exhibits will be candled this year, so do not select eggs laid by one hen. Choose about four dozen new laid eggs and select from these the best twelve for uniformity of size, shape, color, and shell texture. The crate contest (Class 66) calls for six dozen 2 oz. or over eggs and offers a large prize. Poultrymen make a good fight for it!

**Flowers**—The frost which has damaged most gardens will reduce the number of entries in this section. It is hoped the exhibitors will do their best under the circumstances. The management will also be gratified for gifts of flowers to be used in decorating the School Fair.

### Local and Personal

An appeal is made for Clothing, Children's Shoes and Stockings, Bedding, and Cash donations, to be utilized for relief purposes during the coming winter. Parcels will be received at the Village Hall on Saturday, October 8th, and on Monday, October 7th, from 2 to 4 o'clock.

C. O. Rodgers and C. F. Hayes were at Bonners Ferry on Friday assembling some figures on production and dyke maintenance costs on the reclaimed lands on the Idaho side, which has been asked for by the Indian department, in connection with the dyking of the lands owned by Creston Reclamation Company.

Since olden times in the oldest countries it has been man's great delight to seek and to find some new perfection. Now is the time and the fall fair is the place. Show! Show! Show! Entries close October 3rd. Don't delay. Get a copy of the prize list from local stores or extra entry forms from E. W. Payne, secretary, Creston.

Rev. N. A. Harkness, district secretary of the B.C. Auxiliary of the Bible Society, will deliver an address on "The Romance of the Bible," illustrated by lantern slides, in the Presbyterian Church on Wedne day, October 6th, 8 p.m. Everyone interested in the work of the society will encourage this work by attending the lecture.

Miss Marguerite Ferguson, whose marriage takes place next month was guest of honor at a miscellaneous shower at the home of Mrs. Millon on Wednesday evening, attended by many of the girl friends of the bride-elect. Bridge was played with high score honors going to Misses Eileen Hendy and Nora Payne, and the consolation winner was Miss Donna Tillotson. Many useful gifts for the new home were "showered" upon the evening's guest, and delightful lunch was served.

The Farmers Institute grading station has been asked by the fall fair directors to have an exhibit showing the work that is being done to keep the reputation of Creston eggs at its present high

standard in the local markets. A stand has been erected on the south side of the exhibition building and the Dominion egg inspector, S. R. Howell and grader Argyle will be in attendance to explain to anyone interested why the modern housewife likes graded eggs and how eggs should be handled to bring the best returns to the producer.

### Alice Siding

Birth—On September 15th, to Mr. and Mrs. Cecil Hamilton, a daughter.

Mrs. Dick Smith is away on a short visit with her brother, William Smith, at Lumberton, who has been a visitor at the Smith home here the past few days.

Mr. and Mrs. Andy Miller of Wasa were visiting here last week, guests of their daughters, Mrs. Hector Stewart and Mrs. Jack Miller, and the latter returned to Wasa with them for a short holiday.

Mr. and Mrs. Jonah Brubacher of Ashcroft arrived at the end of the week to spend a few days looking after their property interests here.

Cattle were turned loose at all points on the meadow at the first of the week, which would indicate that haying is through for the year.

Miss Hazel Miller was taken to Cranbrook hospital hurriedly on Tuesday morning and almost immediately underwent an operation for appendicitis. Her parents, Mr. and Mrs. John R. Miller and brother, Jack, accompanied her. Reports to hand indicate she is making a satisfactory recovery.

### Wynndel

Geo. McInnis was a Nelson visitor last week.

Mrs. M. Rounq of Creston was a Wynndel visitor last week, taking in the fall fair on the 21st.

Mrs. Maud Ross of Creston was another fair week visitor, a guest of Mrs. C. Ogilvie.

B. Murgatroyd was home for the weekend, returning to Revelstoke on Sunday.

Mr. and Mrs. Cuell of Calgary Alta., who has been visiting here, returned to their home on Monday.

The first snow of the season was visible on the hills last week.

The Anglican Church harvest festival on Sunday afternoon was quite well attended. Rev. T. Scott preached his final sermon. The edifice was tastefully decorated with flowers, fruit and vegetables, which were later sent to Creston Valley public hospital.

Both financially as well as in exhibits Wynndel's 1932 fall fair under Women's Institute auspices was a record breaker. There were about 600 entries, which is reported to be as many as at Creston in 1931. The number from Creston taking in the fair was much larger than formerly.

### Egg Markets

Owing to a slight falling off in production the prices of eggs on local markets are improving slowly. Prices in Nelson and Trail have advanced in

### POUND DISTRICT ACT

### Notice of Sale

Notice is hereby given that I will, on the 5th day of October, 1932, at 2 p.m., sell by public auction at the Pound kept by me at East Creston, in the Province of British Columbia, the following impounded animals namely: 1 red heifer, horns cut off, and 1 red and white heifer, horns cut off, branded R-1.

Dated this 28th day of September, 1932.  
VICTOR BRIXA, Poundkeeper.

### Reduced Fares

### Thanksgiving Day

between all stations in Canada.

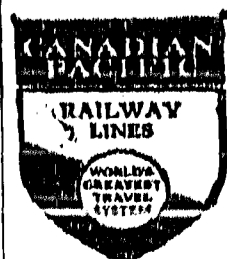

### 1/4 Fare FOR ROUND TRIP

Good going from NOON, Oct. 7 to NOON, Oct. 10

OCT. 11

Ask the Ticket Agent

sympathy with coast prices. Shipment of winter supplies to the Yukon has caused a shortage in the higher grades but now that these shipments have ceased the market has steadied down again. Producers shipping to Trail and Nelson are advised that the current prices are: Extras, 35c; Firsts, 33c; Pullets 31c, f.o.b. Nelson or Trail. The market in the Crow is still feeling the influence of cheap Alberta eggs and there is a difference of 6 cents per dozen on all grades. Prices are: Extras, 27c; Firsts, 25c; Pullets 22c; f.o.b. Creston. To obtain these prices it is necessary to maintain quality as Alberta extras were being sold last week in Kimberley at 2 dozen for 49 cents. The grading station has no surplus and with the increase in price it will certainly pay members to maintain production at the highest possible point.

### Funeral of August Klein

The funeral of the late August Klein,

who passed away on September 21st, took place on Thursday last at Creston cemetery, Rev. Carl Baase officiating, and L. Johnson, E. Sommerfeld, V. Brix, E. Gadske, J. Weaburg and J. Rentz acting as pallbearers. Many friends of deceased were out to pay their last tribute of respect, and the esteem in which he was held was shown in the beautiful floral tributes. The late Mr. Klein was a native of Russia, and came to Saskatchewan about four years ago, and a year later took up a farm at Camp Lister, where he remained until November, 1930, at which time he purchased the former L. N. Leamy acreage at East Creston, and has resided there ever since. He is survived by his widow and four daughters, Mrs. Archer and Mrs. Brunner of Kamloops; Bertha, of Nelson, and Erma; Lottie and Pauline at home, as well as two sons, August of Kamloops, and Henry at home. Miss Bertha was the only out of town member of the family who was here for the funeral. The sympathy of all goes out to Mrs. Klein and the family in their great bereavement.

## Eveready Radio Batteries

Now is the time to get those new Radio Batteries for your radio set. Battery prices are down this season. I have placed in stock a good supply of fresh stock. Prices are:

Eveready Layerbilt, No. 486, 45 volt.....	\$3.95
Eveready Roundcell, No. 870, 45 volt.....	2.95
Eveready Layerbilt, No. 285, 22 1/2 volt.....	2.00

## Farms and Farm Mortgages

In these days when so much is heard of the burden of mortgage indebtedness carried by the farmers of the Dominion, and more especially of Western Canada, the official figures contained in the bulletin recently issued by the Dominion Bureau of Statistics at Ottawa, and which are based on information compiled in the census taking of last year, are of more than passing interest. Furthermore, they are important and encouraging in that they dissipate the prevailing impression that, with but few exceptions, the farms of Western Canada are under heavy mortgage. The fact is that two out of every three farms in Canada have no mortgage debt, and while the number of mortgaged farms is naturally higher in a more recently settled country like the three prairie provinces, even in these provinces less than one-half of the farms are mortgaged. This is quite different from the oft-repeated assertions that 80 to 90 per cent. of all Western farms are mortgaged.

This census bulletin is replete with interesting and valuable information, but space will permit mention of only a few of the highlights of the report. Of the 728,664 farms in Canada in 1931, full owners of farms numbered 586,299, part owners and part tenants 67,942, and tenants only 74,382, with 41 unclassified in the Yukon.

While the number of "full owners" decreased by 23,842 in the ten years elapsing since 1921, the number of part owners and part tenants increased by 27,978 and tenants only by 18,437. In the three prairie provinces fully owned farms comprise 77,064,201 acres, and rented farms 32,718,401 acres. Of the partly owned and partly rented farms in these three provinces, 16,078,801 acres are owned and 15,773,536 acres rented.

The average size of all farms in Canada is 224.48 acres, the average size in Ontario being 118.86 acres and in Quebec 130.53 acres, but in the West the average is much larger, it being 279.19 acres in Manitoba, 400.15 acres in Alberta, and 407.95 acres in Saskatchewan.

The value of land in farms in Canada is stated to be \$2,704,760,300, Saskatchewan ranking first with \$781,124,800, Ontario second with \$577,437,900, Alberta third with \$525,272,800, Quebec fourth with \$422,100,400, and Manitoba fifth with \$200,279,300.

The value of buildings on farms in Canada totals \$1,341,463,000, Ontario coming first with \$487,009,300, Quebec second with \$256,178,200, Saskatchewan third with \$223,944,900, Alberta fourth with \$137,333,900, and Manitoba fifth with \$88,389,200.

Combining land and buildings values, Ontario is first, Saskatchewan second, Quebec third, Alberta fourth, and Manitoba fifth.

Coming back to the subject mentioned in the opening paragraph of this article, "Mortgages," it is to be noted that at the census of 1931 every farm owner in Canada was asked, for the first time, to state the total mortgage on his farm. The mortgage debt reported under this inquiry included not only the debt secured by an instrument called a "mortgage" but also debts protected by deeds of trust, judgments, or by other legal instrument that partakes of the nature of a mortgage and which has the same legal effect. The answer to this question did not include debts covered by crop liens, nor debts secured by liens on implements, machinery or live stock. Nor did the inquiry apply to farms or parts of farms rented.

The tabulated results show that 244,201 farms out of the total of 728,664 farms in Canada, or 33 1/2 per cent. were mortgaged to the aggregate amount of \$677,564,100, or 16 1/2 per cent. of the value of all farms, and approximately 50 per cent. of the value of owned farms to which the inquiry was restricted.

Out of a total of 192,174 farms in Ontario, 71,604 reported mortgages amounting in all to \$201,751,900, or 37.26 per cent. of the total. The average mortgage in Ontario was \$2,818, and the ratio of mortgage to the value of all farms 18.95 per cent. The figures for Quebec and the Maritime Provinces are considerably lower.

Contrasting Ontario with the three prairie provinces we find: Manitoba—54,199 farms; 18,949, or 34.96 per cent. of the total, reporting mortgages amounting to \$60,070,100; average mortgage \$3,170; ratio of mortgage to value of farms 20.31 per cent.

Saskatchewan—136,472 farms; 56,587, or 41.46 per cent. of the total, reporting mortgages amounting to \$177,620,800; average mortgage \$3,139; ratio of mortgage to value of farms 17.67 per cent.

Alberta—97,408 farms; 34,305, or 35.22 per cent. of the total, reporting mortgages amounting to \$108,463,700; average mortgage \$3,162; ratio of mortgage to value of farms 16.37 per cent.

It will be seen, therefore, that in these newer provinces the percentage of farms mortgaged is not much higher than in old settled Ontario; that the average mortgage is not much larger; and that the ratio of mortgages to the value of the farms is lower in Alberta and Saskatchewan and only slightly higher in the case of Manitoba,—a truly remarkable showing for this newer country, much of it still in the pioneering stage of development, and a showing that should be full of encouragement for the future.

Visitors to the library of the British Museum number more than 1,200,000 every year. There are over 4,000,000 volumes on the sixty miles of shelving.

Stranger: "I've come out here to make an honest living."  
Native: "Well, there's no competition."

Barrister—What possible excuse did you fellows have for acquitting that murderer?

Juryman—Insanity.  
"Really! The whole twelve of you?"

An instrument has been devised by which the applause in an audience can be measured as to its intensity and duration.

## Troubled With Her Children Having Summer Complaint

Mrs. L. E. Montgomery, Ave. K. South, Saskatoon, Sask., writes:—"I am the mother of two children and have a great deal of trouble with them having summer complaint, in fact, several times every summer they were subject to attacks.

"I have found Dr. Fowler's Extract of Wild Strawberry to be the most effective remedy and keep it always handy and give it immediately on the first sign of any bowel complaint.

"Thanks to 'Dr. Fowler's' I no longer dread the summer months."

## The Latest Invention

### Mail Carrier Demonstrates Wireless Telephone Without Any Tubes

What is believed to be the first wireless telephone communication without tubes in transmission and reception was accomplished recently when Walter Beans, proprietor of a roadside restaurant along the Lackawanna Trail, demonstrated his invention to a group of witnesses.

Beans talked over his home-made tubeless and wireless telephone for 30 minutes over a distance of more than 100 feet. A head-set and mouth-piece was set in one building and a similar apparatus in another some distance away. Beans' set was operated on a six-volt battery, and practically all the parts were made by the inventor, who has been experimenting for some time.

Beans, who was formerly a mail carrier at Doylestown, Pennsylvania, said that the time is near when wireless, tubeless telephone systems can be installed, with a central exchange operated in the same manner as at the present time. Development and establishment of this science will save an enormous operating cost, he believes.

Beans also declared that he could show science the cause of the fluctuation of the magnetic needle as a result of extensive experiments which, he says, were successfully terminated on March 9, this year, leading to the wireless and tubeless telephone.

## A Big Undertaking

### Factory Moved With No Loss Of Working Time

A complete engineering factory has been removed from London to Chippenham, 94 miles away, without the loss of a single working hour.

At the end of every working day for three weeks a number of the machines were dismantled and removed to the new factory. They were immediately installed and were ready for work again the following morning.

Every employee, with his family and household effects, moved to Chippenham, during the time that the particular piece of machinery which it was his work to tend was being removed. Thus he finished work in London in the evening and started work at Chippenham the following morning.

Altogether, 750 tons of machinery, the furniture of 36 families, and more than 100 people were moved.

Help For Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

## Childrens' Roll Of Honor

### Many Names On Record In County Hall, London, England

In one of the corridors of the County Hall, London, England, on a Roll of Honor, there are the names of nearly 400 school children who have received Royal Humane Society awards for saving, or attempting to save, persons from drowning at great risk to themselves. This Roll is one of the most cherished possessions of the London Schools Swimming Association, which for 40 years has been doing splendid work among children. The ages of the brave children range from ten to 14 years.

Douglas' Egyptian Liniment makes the finest blister known. Invaluable for stock. Leaves the hair roots in natural and healthy condition. Hair comes back. No gear remains.

### Canada's Wood Pulp Exports

The total quantity of wood-pulp exported from Canada in 1930 according to the figures lately issued by the Dominion Bureau of Statistics, in co-operation with the forest service department of the interior, was 700,220 tons, valued at \$39,050,078. The average value was thus \$51.38 per ton.

A case containing cash and jewels worth \$3,000, which an American woman reported she had lost after landing at Plymouth, England, was found later in the boat train to London.

## Increase In Indian Population

### More Indians In Canada Now Than Ever Before

Department of Indian Affairs officials expressed the opinion there are more Indians in Canada now than when the first white man landed in this country. The 1931 census of the Dominion gives the total number of red men as 122,920, compared with the last department census total of 108,012.

United States has an Indian population of 332,297 according to the 1930 census. Canada's population is divided:

Ontario, 3,368; British Columbia, 24,599; Manitoba, 15,417; Saskatchewan, 15,268; Alberta, 15,253; Quebec, 12,312; North West Territories, 4,046; Nova Scotia, 2,191; New Brunswick, 1,685; Yukon, 1,543; Prince Edward Island, 233.

## Diet Requires Fats

### Fats Constitute a Protection Against Tuberculosis

A notable fact is that diet plays a most important part in combating tuberculosis. After the German occupation of Warsaw there was an alarming increase in tuberculosis, because the Germans removed as much fat of all kinds as they could with which to make high explosives. When the people of Warsaw were able to return to a diet containing sufficient fat, the tuberculosis declined rapidly. It is generally accepted that a diet rich in fats constitutes a definite protection against tuberculosis. Efforts made to reduce dust in factories are also cited as a contributory cause of the decline, as well as sanitation, water supply, and personal hygiene.—Montreal Star.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

## Monaco Faces Bankruptcy

### Financial Position Of World's Smallest Municipality Is Serious

Monaco, the world's smallest principality, in which is located Monte Carlo, famous gambling centre, has been hard hit by the world depression, and the consequent unemployment is causing grave alarm. M. Bouillon Lafont, vice-president of the French Chamber of Deputies, has been made minister of state for Monaco. Prince Louis himself has been conferring with the French ministry and from this it is evident that he regards the financial affairs of his country as serious. As a matter of fact, the principality is threatened with bankruptcy.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

## Rush Seems To Be Over

### People Are No More Crowding Into United States

Apparently the rush to America as a land of opportunity for people of all races has come to an end. Free land which is still available is not worth cultivating. Jobs are at a premium here as they are in every other part of the world. The American economic system has arrived at a period of maturity when phenomenal growth can no longer be expected. The waste places have filled up, and industry has grown to a point considerably beyond consumption needs. Henceforth the economic development of the United States should be slower and more steady.—Washington, D.C., Post.

## Where Aurora Is Clearest

Returning from his cosmic ray expedition along the northwest shore of Hudson Bay, Dr. Arthur H. Compton, Chicago scientist, was in Winnipeg on his way to his home in Michigan. The point of greatest intensity of "northern lights" is directly about Churchill, he declared. From where he was at Chesterfield Inlet, the lights were to be seen only by looking directly south.

## IN TEARS WITH PAIN OF RHEUMATISM

"For six weeks," a woman writes, "I had rheumatism, mostly in my feet and wrists. In fact, I have been in tears with the pain. Owing to stomach trouble, I could not take any kind of medicine, as it made me feel sick. So a lady said I should try Kruschen Salts. I am very thankful that I did so, for now I feel completely restored. I have not been taking anything else, so it must be Kruschen that has relieved me."—Mrs. C.

The six mineral salts of Kruschen have a direct effect upon the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order, and so prevent constipation, thereby checking the further formation of uric acid and other toxic poisons which undermine the health.

## Women Loggers Work At Vancouver Inlet

### Are Making Good and Not Avoiding Tough Spots

Logging has always been classed as work for men—and hard-muscled, brawny men at that. But over at Deep Cove, across the Inlet from Vancouver, husky young women are engaged in this industry. And they aren't avoiding the tough spots either.

One woman recently exhibited five cords of shingle bolt which represented her work for the week. "It's hard work all right," she admitted, "but it gets easier as you go along. At first it was heart-breaking and I felt that my back would snap in two, but my muscles are pretty hard now. It's healthy all right and I'd sooner be working here in the woods than somewhere down in the stuffy city."

The women loggers aren't all burly specimens of their sex. One woman is the mother of three children. She is only about five feet tall, and if there are muscles in her arms they are well concealed. But with the aid of a patient horse she managed to handle a prodigious amount of fallen timber during a day.

## Betrayed By Fingerprints

### Long-Wanted Robber Was Caught After Ten Years

Fingerprints that were ten years old recently caught up with Thomas McTyree. He had been arrested by Omaha police on a vagrancy charge. When his fingerprints were sent to Washington to be checked it was found that McTyree was wanted in Oregon, Mo., on a ten-year-old charge of robbing a box car. Sheriff O. H. Abbott of Oregon called for McTyree to serve a prison term.

Persian Balm creates and preserves lovely and youthful complexions. Tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Swiftly absorbed by the tissues, making the skin wonderfully soft-textured. Unrivalled as an aid to feminine elegance. Delightful to use. Imparts additional charm to the daintiest of women. Persian Balm is the one toilet requisite for the exacting woman. Fearless as a beautifier.

## Give No Autographs

The King of England and his son, the Prince of Wales, have turned thumbs down on autographing. George Bailey Beak, the British consul-general in Boston, announced that his majesty and his royal highness have laid down as a rule never to give their autographs, and that no exception to this rule can be made in any circumstances whatever.

## EARN \$20.00

and upwards weekly growing Mushroom for us, all fall and winter, in cellars or outbuildings. Begin now. Illustrated booklet free. Established 25 years.  
CANADIAN MUSHROOM CO.,  
Dept. 311, Toronto, 10.

## PREMIER ISSUES SUMMARY OF RAILWAY PROBE

Ottawa, Ont.—Complete revolution in control and regulation of all railways as well as in the control and management of the National system is directly implied by the official abstract of the report of the Duff transportation commission issued by Prime Minister Bennett.

Three recommendations open an unbridgeable chasm between railway administration in the past and railway administration in the future. They are:

1—Abolition of the present National Railway directorate and the substitution as the supreme body of control of a board of three trustees.

2—Provision for a joint committee composed of National Railway trustees and Canadian Pacific directors to formulate and put into operation joint economies, to remove duplication, to prevent unnecessary competition.

3—Creation of a super-control board, called an arbitral board, of three members to decide matters upon which the joint committee cannot agree.

This board, within a defined, but wide, field of jurisdiction, is to have authority over both railways as well as over the board of railway commissioners. From a decision of the arbitral board there is to be, really, no appeal.

These are the major recommendations, but there are others:

1—There is a thinly-veiled reference to the "inelasticity" of freight rates being one of the important contributing factors in the present problem. This can have reference only to the Crow's Nest Pass rates, enforced on the railways by statute in 1925. The complete report, when issued, seems likely to carry a recommendation that statutory or inelastic control of railways be withdrawn.

2—There is an intimation that an official plan for the National Railways will be found in the official text of the report, which indicates that the National's capital structure may be up for revision.

In the negative sense, the report is important because it strongly condemns any scheme of railway amalgamation or of the leasing of the National to the Canadian Pacific.

Accompanying the abstract of the report is a brief statement from Premier R. E. Bennett, in which he declares that legislation giving effect to the recommendations which the government decides are in the public interest, will be introduced shortly after parliament opens in October.

## Manitoba Marketing Bonds

Syndicate Is Handling The Four Million Dollar Issue

Winnipeg, Man.—Manitoba's new \$4,000,000 bond issue will be placed on the market at \$96.75 and will yield a little better than 5.95 per cent. interest, Hon. E. A. McPherson, provincial treasurer, announced. A syndicate of eight banking and investment houses is handling the issue.

All arrangements have been completed for offering the bonds to the public, Mr. McPherson said. They will bear interest at the rate of five and one-half per cent. on their face value, and will mature in 23 years. Principal and interest are payable in Canadian funds.

## Judge Of Supreme Court

Ottawa, Ont.—Mr. Justice Oswald S. Crocket, of the King's Bench Division of the Supreme Court of New Brunswick, has been appointed a judge of the Supreme Court of Canada. He fills the vacancy caused by the death late last fall of Mr. Justice E. L. Newcombe, a former member of the Nova Scotia Bar.

## Approve Distress Relief Fund

Stresa, Italy.—The Danubian Conference has approved in principle a draft convention recommending among other steps the creation of a stabilization fund of \$75,000,000 gold francs to relieve distress in central and southeastern Europe.

## Ask Aid For Bay Route

Regina Men Want Traffic Department To Solicit Shipments

Ottawa, Ont.—Establishment of an active traffic department by the government which would solicit shipments for the Hudson Bay Railway and the northern ocean port of Churchill has been urged on Hon. R. J. Manion, Minister of Railways and Canals. This step was advocated by C. B. McKee, past president of the Regina Board of Trade, and George A. Ewart, present commissioner of the board.

"Mr. Manion received us very cordially and courteously," said Mr. McKee. They were assured the matter would be given consideration.

Both Regina men advanced the opinion the government, to crown its work in providing an outlet to the sea for the prairie provinces, should have an active traffic department in order that importers may route as large a portion of their goods as possible via the new trade channel.

"Through the Hudson Bay Railway, western Canada is brought 1,000 miles closer to the markets of the United Kingdom," said Mr. McKee. "When the insurance rates come down to a more equitable level, a material saving will be effected in export costs," he added.

Some 2,500,000 bushels of wheat would be exported to Great Britain this season over the northern route, and Mr. McKee stated the first shipment of 250,000 bushels had been carried out at a saving of approximately a cent a bushel.

## Indians Encamped On Ancient Reserve

Take Possession Of Land Near Selkirk, Manitoba

Winnipeg, Man.—Led by a militant chief a band of 35 families of the Saulteaux Indian tribe has defied orders of authorities and encamped on what they claim as their ancient reserve, 12 miles north of Selkirk, Man.

The Indians claim the move marks the climax of a dispute of 25 years' standing. In 1907 the band surrendered the reserve at St. Peter's and under the terms of an agreement were to get \$90 per head and a reserve at Fisher River. Chief Grey Eyes, head of the band, claims his people never received \$90 and have been unable to make a living on the Fisher River reserve.

Appeals to the courts and even to the governor-general proved fruitless, he claims, and now he is determined to get back the original reserve. Members of the band are preparing to erect houses for the winter at St. Peter's.

## All Canada's Gold Comes From Mines

No Swindle Here Such As Reported From Washington

Ottawa, Ont.—Practically all the gold which flows into the mint here comes from the mines; it was stated at the department of finance.

Despatches from Washington state that action has been taken there to keep swindlers from buying gold and jewelry at bargain prices on the pretence that they want the metal for the federal government. Later this gold is melted down and taken to the mint, there to be exchanged for currency.

Apparently no such swindle has gained any headway in Canada.

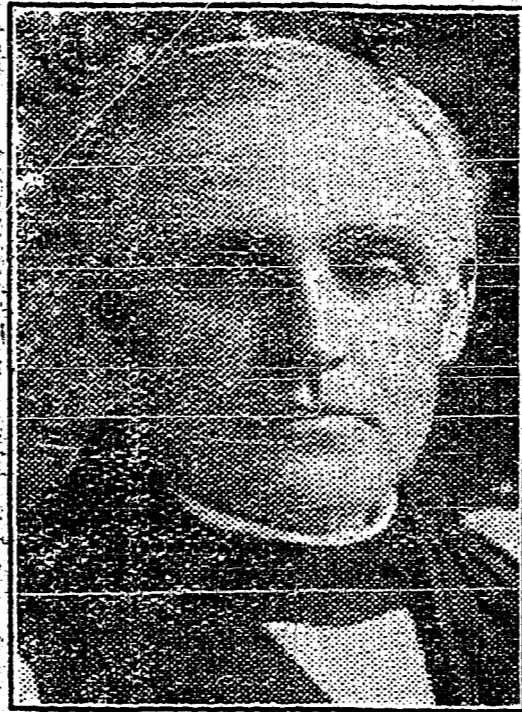

## Japan May Leave League

New York.—Hiroshi Salto, arriving in this country to be charge d'affaires at the Japanese embassy, during Ambassador Katsuki Dobauchi's leave of absence, declared his country "would not hesitate a minute" to withdraw from the League of Nations if it finds itself "compelled" to by the report compiled by the commission headed by Lord Lytton of the United Kingdom.

## Crew All Officers

Victoria, B.C.—Carrying a full complement of certificated officers, the first ship so manned to leave the port of Glasgow, the British steamer "Movera," Capt. J. L. McQueen, of the Donaldson line, is in Victoria after a passage of thirty days from the Clyde.

## MENTIONED FOR PROMINENT POST

Bishop Owen of Niagara, prominent Church of England dignitary who is mentioned for the post of Bishop of Toronto. The election takes place on October 24th when a successor to Archbishop Sweeney will be chosen by synod delegates.

## Plan Trip To Arctic

French Explorers May Undertake Journey Across Canada By Car

Montreal, Que.—French explorers who made expeditions into Africa and into Central Asia by caterpillar automobiles, may soon undertake a journey across Canada into the Arctic circle.

Jean Allouche, Parisian journalist, who described the previous explorations, is in Ottawa to discuss the possibilities with General J. H. McBrien, commissioner of the Royal Canadian Mounted Police, and to map out for himself an advance trip into the north country. The journalist reached here from France by the Cunarder "Aurania."

Allouche will proceed to Vancouver and thence to northerly ports of the Pacific. He will visit outposts of the Royal Canadian Mounted Police and missions of the Oblate Fathers in the land of Eskimos. From Dawson City, which he knows well and has visited before, he will travel by aeroplane to Aklavik.

## Saskatchewan May Have London Agent

Premier Anderson Intimated Appointment Was Being Considered

Saskatoon, Sask.—Speaking at a meeting here of the Kiwanis Club, Premier Anderson intimated his government was considering the appointment of a Saskatchewan agent in London, England.

He said one of the duties of such an official would be to see that all merchandise leaving Great Britain for the prairies was routed via Churchill and Hudson Bay. In addition, the agent would develop trade for Saskatchewan in British markets. He also declared the people of Saskatchewan, by insisting that goods be brought in by the Bay could greatly assist in developing the route.

## Court Rules Firm Bankrupt

Investment Firm Of Machray and Sharpe Out Of Business

Winnipeg, Man.—The second firm with which J. A. Machray, former bursar of the University of Manitoba, chancellor of Church of England and prominent Winnipeg lawyer was associated, has passed out of existence. The investment firm of Machray and Sharpe was declared bankrupt and last Saturday the legal firm of Machray, Sharpe, Parker, Crawley and Richardson, was dissolved.

Evidence revealed at the hearing of the bankruptcy petition is only a "small part of the tale that yet will have to be told," Mr. Justice Macdonald declared in granting the university's petition.

The hearing, which Mr. Justice Macdonald said had revealed "alarming disclosures," disclosed that books of the company were kept in a "slipshod manner," that all monies handled by the firm were kept in a single bank account, that the company books were audited by an accountant from the Manitoba government comptroller general's office, also engaged by Machray and Sharpe, that the firm had cash assets of only \$600, and that clients were notified periodically that all accounts were in order though some trust accounts had not even been totalled in the last 16 or 17 years.

## Chinese Won Case

Logic Of Orient Was Convincing For Toronto Magistrate

Toronto, Ont.—Unanswerable logic of the Orient won a case for Lee Hi in health court. Lee was accused of dumping rubbish over his back fence on to a piece of city property.

Arguing his own case Lee reasoned thus: The grass on the lot was nearly a foot high but where the rubbish lay there was no grass at all. Therefore, it had lain on the ground for a much longer period than two weeks. Lee moved in only two weeks ago.

Magistrate Arthur Tinker, speechless, dismissed the case with a wave of the hand.

## Lawyer Drowned At Coast

E. C. Saville Lost Life When Boat Was Upset

Salmon Arm, B.C.—Eustace Claude Saville, barrister and solicitor here for more than 20 years, was drowned while fishing off the Adams River, 35 miles from here on Shuswap Lake.

Saville was in a boat with Major H. W. Roberts when it overturned. Another fishing party went to their aid, rescuing Major Roberts, but Saville had evidently been drawn under by the strong current.

## Debate Is Delayed

Geneva, Switzerland.—The World Disarmament Conference Bureau, resuming its deliberations without a representative from Germany, postponed discussion of the German demand for arms equality so that the German government might have time to respond to a letter urging it to continue participation.

## HOME SECRETARY EXPLAINS ACTION ON TRADE PACTS

London, England.—Trade agreements reached at the Ottawa Imperial Economic Conference by the United Kingdom and the Dominions were condemned in a resolution adopted by the executive of the National Liberal Federation.

The resolution urges the government, parliament and all electors to "seriously consider the dangers and vicious principles inserted in the Ottawa agreements and oppose them by every means in their power." However, no call is made on Liberal ministers to resign from the National government.

Sir Herbert informed the meeting Sir Herbert Samuel, Home Secretary, attended the meeting.

The Marquis of Lothian par-ticularly the Ottawa proposals were discussed by the cabinet on August 28 immediately after the return of the United Kingdom delegates. Two days later he had sent to his Liberal colleagues in the government a memorandum in which "the situation which had arisen was reviewed and a definite course of action suggested."

## Hutchinson Says Route Was Safest Possible

Wrecking Of Trans-Atlantic Plane Just Bad Luck

Aberdeen, Scotland.—The Hutchinson family, who with their crew of four were rescued from the bleak Greenland coast after wrecking their trans-Atlantic plane recently, landed at Eriboll, Scotland, from the steam trawler, "Lord Talbot."

George Hutchinson, his wife and two small children were all well, although the two girls appeared to be tired. They are en route back to New York.

"If our radio had a little more range we would have been able to pick up our bearings and would have been all right," Hutchinson said describing the accident.

Hutchinson said he wanted it understood that the adventure of his "flying family" was not a "stunt flight."

"The children have always been with us in our flying," he said. "Our route was the safest possible and we were only 14 miles from safety when the accident happened. It was just a bit of bad luck."

## Britain Faces Milk Strike

Better Prices For Product Is Asked By Farmers

London, England.—Britain, Tuesday night, September 20, faced a country-wide hold-up of milk supplies as result of farmers' decision to inaugurate a "milk strike" October 1, following breakdown of negotiations between their representatives and representatives of the milk-distributing combines over contract for the forthcoming year.

A statement issued by the National Farmers' Union says the decision of the milk distributors to refuse farmers better prices for their product during the coming year renders inevitable a hold-up in the supply. Unless a last-minute step is taken, the "strike" will go into effect at the end of this month.

## No Holiday For Commons

Ottawa, Ont.—The House of Commons will sit on Thanksgiving Day, Monday, October 10. Inquiry made in highly informed official circles elicited the definite information that the Commons would proceed with the debate on the address on that day. Parliament opens the preceding Thursday.

## Claims Record

Kiel, Germany.—Lois Schoeter claimed the world's record for a woman's parachute jump, reporting she had dropped 7,300 metres (about 22,000 feet) in 28 minutes.

All Soviet railway officials who appear on duty without wearing uniforms will be punished.
