THE CRESTON REVIEW

VOL. XXIV. CRESTON, B. C., FRIDAY, JULY 15, 1932 No. 17

Ratepayers Adopt School Estimates

Expenditure of $8,800 Authorized for 1932-1933 School Year—Savings on Various Items But Mainly on Salaries.

Estimates for the fiscal school year 1932-33 totaling $8,800 were adopted unanimously at the regular meeting of Creston school district last Saturday night. This figure shows a reduction from the actual expenditures for the 1931-32 year of $946.93. Expenditures for the past year, according to the auditor's report were $9,746.93.

It is possible that the disbursements for the ensuing year, however, may run slightly beyond $8,800. The trustees presented a supplementary estimate of $200 for leveling grounds and $275 for a board walk; such additional expenditure was left to the discretion of the board, with the understanding that if the work suggested was carried out, it was to be done with as little outlay as possible, replacing the present board walk with a cinder path if a saving could be effected by so doing and providing the work would be satisfactory.

Estimates provided for a lowering of all teachers' salaries. In this connection Chairman Cook explained that it was necessary to add another class to the high school, and as Mr. Levirs would look after that, it would save the addition of a fourth teacher to the high school staff.

Details of estimates of expenditures for the current year are:

Teachers	$4,274.00
Janitor	900.00
Sec.-Treasurer	125.00
Loan repayment	400.00
Int. on $1200 at 7 per cent	84.00
Insurance	200.00
Coal and wood	500.00
Water	85.00
Repairs on school	250.00
Supplies	1200.00
Equipment for laboratory and class rooms	450.00
New Floors, etc	207.00
Sundries	125.00
Total	$8,800.00

In explaining the estimates, Secretary Nickel stated the fact had to be taken into consideration that there was some uncertainty with regard to government grant; that no reduction in the janitor's wages had been made, as he would have an extra room to look after. Some readjustment of insurance rates was in prospect, assuring some saving on that item.

With regard to the estimate of $200 for leveling playgrounds and $275 for new board walk, Mr. Nickel explained that the latter was something that should be attended to in any event as a matter of safety first, the condition of the present walk becoming such that damage suits might possibly result from accident and the board felt it would be a saving in the long run to forestall this possibility.

The supplementary estimate provoked more discussion than any other item in the budget, the idea being held by a few that this expenditure could be dispensed with. A motion to provide for this work out of funds on hand was lost upon being put to the vote; eventually the board was empowered to have it done, Chairman Cook pointing out that ground leveling was necessary for the benefit of the younger children particularly. The majority felt that asatisfactory and less costly walk construction would be accomplished by making a cinder path. In any event, it was left to the board's judgement.

Estimates of teachers' salaries are as follows:

HIGH SCHOOL—	
F. Levirs	$1,900
O. Sostad	1,400
M. Smith	1,300
PUBLIC SCHOOL—	
E. Marriott	1,500
H. Meldrum	1,100
M. Wade	1,200
M. Learmonth	1,000
H. Hobden	1,000
E. Holmes	1,000

A highly satisfactory financial condition was disclosed in the auditor's report. This showed a balance on hand of $1,675.20 as compared with $1,334.98 a year ago. Auditor's report for 1931-32 as presented was:

RECEIPTS—	
Bal. on hand	$ 1,334.98
Amt. reported	8,850.00
Govt. grant, lab., classroom	226.95
Tuifion fees	1,010 00
Total	$11,421.93
DISBURSEMENTS—	
Teachers' salaries	$4,687.40
Secreta y-Treasurer	125.00
Janitor	900 00
Supplies	1,222.82
Furniture and fixtures	200.05
Renewals and repairs	353.15
Library books	30.95
Laboratory fittings	388.65
Advertising, etc	7.90
Part loan repaid	400.00
Interest on loans	115 75
Convention expense	60.00
Donations	35.00
Insurance	273.70
Coal and wood	527.56
Water	85.00
New class room	285.00
Sundries	33.05
Act. McCreath overpayment	15.73
Total	$9,746.93

The secretary-treasurer touched briefly in explanation of some details in the financial statement, pointing out that the item of $1,222.82 for supplies included $182 for blackboards, reducing the actual supply cost by that amount.

An inquiry regarding the number of outside pupils elicited the information that their number was 19 and tnat at the moment there was $210 outstanding in tuition fees all of which would be paid within a short time.

Mr. Cook explained that high school pupils from outside would continue to be taken care of as heretofore.

A brief discussion arose as to the power to fix teachers' salaries, it apparently being the opinion of one or two that such action was in the hands of the ratepayers. Mr. Cook explained that the government paid 62 per cent; that a readjustment may be made later. The board, he said, under Section 20, was authorized to set salaries of teachers. He stated they had taken the matter up with Capt. Manning. They had found the new schedule would not be effective until March, and until then the district would have to be governed by the existing arrangement. When the new schedule became effective they would have to be governed by it. It might then be found necessary to either reduce or increase salaries.

The chairman presented an excellent detailed report covering all features of the school year. This was unanimously adopted, as was the auditor's report.

G. Nickel was unanimously re-elected secretary-treasurer, succeeding himself for a three-year term. C. Allen was re-elected auditor unanimously. F. Lewis was chairman of the meeting, which was well attended. Reports were so comprehensive and well prepared that the entire proceedings occupied less than an hour.

At the conclusion of the meeting Mrs. Mallandaine moved a hearty vote of thanks to the school board for the splendid work done during the year. This was seconded by F. Jackson, who took occasion to express high appreciation of the board's efforts. The motion was carried unanimously.

Municipal Tax Receipts Good

Uncollected Taxes on 1932 Levy Less than a Year Ago Shown by Financial Report Presented at July Council Meeting.

A highly satisfactory state of tax collections was indicated by a report presented at the July meeting of the village council on Monday evening. This showed tax collections for the current year of $2,471.36 up to the end of June. The figure compares with $2,397.37 collected for the same period in the preceding year.

The levy this year is $3,430.28; for last year it was $3,381.03. Taxes for 1932 unpaid as at June 30, totalled $958.92. This compares with $883.66 unpaid on June 30, 1931.

The sum of $50 was donated to the Fall Fair, a letter from the Creston Valley Agricultural Association requesting the usual municipal contribution. The sum of $100 had been donated the year before, but in view of the fact that the Association would this year have free use of the community hall and piano the commissioners felt that $50 was sufficient.

Commissioner Jackson presented an able and comprehensive report as delegate to the recent convention of B. C. Municipalities in Nelson, dealing more particularly with Creston's participation in the convention as a municipality interested in the water and power situation. In conclusion he pointed out that all municipalities with the exception of Vancouver presented a united front on matters of this kind, and stated that in his opinion, from that standpoint alone, membership of Creston in the Union was of very great value to the entire community.

Current accounts, totalling $275.95 were passed and ordered paid.

Upon motion and in response to a request signed by a large number of citizens, Wednesday, July 27, Boswell regatta day, was declared a full public holiday.

A communicatian from the Creston board of trade asking that signs be put up along the highway entrance to town requesting motorists to slow down to 12 miles per hour while going through brought forth the information that 15-mile per hour limit signs had been tried before; that the highway was under provincial jurisdiction and the municipality could therefore not fix a limit, motor vehicle drivers being subject to the law as to driving to the common danger.

Commissioner Jackson stated he had been down to the Community hall a short time before the meeting and found evidences of attempts being made to force entrance to interior of the main building. No. success had been achieved by those seeking to get in, but some minor damage had been done. He believed that as a mat er of p otection to the recently acquired piano, something should be done in the way of locking it up so that there would be no possibility of the instrument being tampered with when not in use.

Discussion revealed that a very satisfactory purchase had been made with regard to the piano, which had been bought for $100; tuning the instrument cost $10, and cartage $3, making the total outlay by the municipality $113.

Chairman McFarland, reporting for the works department, stated that in his opinion something should be done with regard to mproving the approach to town on the road to Port Hill, near the bridge close to the Comfort place. A marked change, he thought, could be made in bettering the grade, which at one point necessitates a very heavy pull. Mr. Strobel had offered to do the work required for $175, and would take the chance on any rock work being involved, though tests indicated that as unlikely. The matter of undertaking this improvement was left in his hands with power to act.

The usual quantity of routine correspondence and replies covering varions matters of minor interest, was read. Commissioners Jackson, Henderson and Chairman McFarland, and the secretary were in attendance.

Canyon City

A. D. Pochin of Nelson was here on a business visit from Wednesday to Friday, a guest of Mr. and Mrs. C. Blair.

Mr. and Mrs. Clifford Boyce of Calgary, Alberta, are visitors here at present, guests of the latter's parents, Mr. and Mrs. C Taplin. They are accompanied by their family.

Mr. and Mrs. W. T. Jones and family of Calgary, Alberta, have just arrived on a holiday visit with Mr. and Mrs. Jim Bateman.

Mr. and Mrs. Messenger, former residents of Canyon City, but now of Prince Albert, Sask., spent a few days here last week, en route to Tacoma, Wash. It is stated that the Messengers will be returning in the fall to become permanent residents.

On their trip to Tacoma the Messenger's were accompanied by Miss Frances Knott, who will visit with her brother, Jeff., at Snoqualme. Wash., for a few weeks.

It is announced that Miss Mary Goodwin has been appointed to the schoal teaching staff to replace Miss Vera Lister. Miss Goodwin comes wel recommended and the trustees have made an excellent choice in filling the vacancy.

At the annual school meeting on Saturday night A. A. Bond was named trustee to succeed J. E. VanAckeran, whose term has expired, and H. Young replaces Mr. Bond as auditor. The trustees cut the amount to be voted down to $1400, a slash of a total of $300 on salaries helping in this direction. The estimates provide for the repainting of the school building.

The popularity of Miss Vera Lister, the retiring teacher in division 2 was in evidence on Friday afternoon when she was guest at a miscellaneous shower in her honor which was given at the hall. The afternoon passed pleasantly with informal sociability and the serving of refreshments, just prior to the latter feature Miss Lister being "showered" with a splendid lot of presents, in view of her approaching marriage. The committee in charge of this interesting affair was Mrs. Hickey, Mrs. VanAckeran, and Misses Thelma Vance, Kathleen and Elsie Clayton.

Miss Margery Speirs, of the staff of the government office, Kaslo, passed through Creston Monday, en route to Spokane for a vacation trip.

Several tons of finely sifted Palouse dust blew up from Washington on a strong northbound wind Sunday. This is the second duster to head this direction during the summer This brand of weather is particularly annoying to housewives, who find a miniature housecleaning is necessary after such visitations. They are something Uncle Sam should be induced to keep on his own side of the line.

Sports Program Boswell Regatta

Full List of Aquatic and Other Events Highly Attractive—All Indications Point to a Very Successful and Enjoyable Day.

Posters are out giving a complete list of sporting events at the forthcoming Boswell regatta. The date, Wednesday, July 27th, has officially been declared a public holiday in Creston and unquestionably there will be an almost unanimous exodus of local residents on that day to the lake point.

The committee feels that some additional information regarding program numbers will be of help to those wishing to do a little practicing beforehand.

Races, diving and jumps are self-explanatory. Events requiring explanation are:

The omnibus race—This is contested by teams of eight mounted on rafts, which they are required to paddle with their hands over a given distance.

The push-ball race—Commences with a plunge from the wharf. Half way between start and finish line floats a rubber ball. The objective of each contestant is to be the one who pushes the ball across the finishing line.

Greasy pole walk—This amusing event requires considerable skill. Entrants have to walk out along a greased pole extending over the water, pick up a flag from the end of the pole and return with it to the end of the wharf.

Tilting from rafts—Contestants enter in teams of two, one team to each raft. While one party paddles and guides the raft, the other with a long pole carrying a buffer on the end, attempts to dislodge the other warriors from their rafts.

In the undressing race, contestants are required to jump into the water, remove shirt and trousers, which are worn over the bathing suit; they then swim to shore, bringing their clothing with them.

In the motor launch bang-and-go race, each boat carries an

CORPORATION OF THE VILLAGE OF CRESTON

NOTICE !

In accordance with popular demand as evidenced by a petition signed by leading businiess and professional men of the Municipality, a resolution was passed at the meeting of the Board of Village Commissioners held on Monday, July 11, proclaiming Wednesday, July 27, 1932, Boswell Regatta Day, a full Public Holiday within the limits of the Village of Creston.

L. C. McFARLAND,
Chairman of the Board.

NOTICE !

SEALED TENDERS marked "Tender for Federal Truck REF. No. S-33" will be received by the undersigned up to July 23rd for the purchase of Federal Truck REF. No. S-33, stored in the Public Works Department's garage in Creston.

The highest or any tender not necessarily accepted.

WM. RAMSAY,
Public Works Engineer,
Nelson, B. C.

WORLD HAPPENINGS BRIEFLY TOLD

The United States celebrated the 156th anniversary of Independence Day at a cost of more than 240 lives.

The $2,100,000,000 compromise unemployment relief bill was finally approved by the United States House representatives and senate conferees.

Limited sockeye salmon packs for 1932 in British Columbia waters are estimated in an advance report prepared for Hon. S. L. Howe, Provincial Fisheries Commissioner.

A shepherd and several hundred sheep were frozen to death on Mount Olympus, near Bursa, Turkey, during a terrific snowstorm which followed a recent heat wave.

By means of X-ray doctors of the Canadian Medical Association were able to read lead type upside down with their eyes closed in an experiment.

Ontario and Manitoba joined hands in an unique Dominion Day celebration. The natal day of the Dominion of Canada was chosen for the formal opening of the first highway to connect the two provinces.

After several months of investigation, F. A. McGregor, registrar under the Combines Act, has reported the existence of a price-fixing combine among the fruit basket manufacturers of Ontario.

Mrs. Katharine Medill McCormick, widow of the diplomat, Robert S. McCormick, died of a heart attack in Versailles, France. She was 79. She was the mother of Col. Robert R. McCormick, editor and publisher of the Chicago Tribune.

Pirate treasure—$60,000,000 in pieces of eight, gold and silver bars, and church relics—has been discovered on Cocos Isle by an expedition which left Vancouver, B.C., last February, Capt. R. D. Adams, a member of the party, reported.

Gold that led Jack Hornby and two young Englishmen to death by starvation in the Thelon River country in 1927 is beckoning to other prospectors. This summer a party will go into the barren wastes in search of Hornby's secret strike.

A difficult operation was reported at the homeopathic hospital, Montreal, where an eight-year-old boy was taken with a punctured heart. Dr. J. Harry Condon successfully sewed the right ventricle of the heart. The boy, Robert Shepherd, fell upon his penknife while running, the blade penetrating the heart.

Old Roman Coins

Roman coins dated A.D. 320 to A.D. 324 were unearthed at the riverside home on the Thames of Viscount Craigavon, premier of Northern Ireland. The coins were found by a workman digging on what is believed to be the site of an old Roman road.

Shall Our Monetary System Be Changed

(Continued)

An Analysis Of Several Of the Proposals Made

(By Major Strange)

(6) That Central Banks should exercise a greater control over credit so that in times of prosperity credit would be curtailed in order to prevent over-speculation and over-expansion of buying and production, and so that in periods of adversity credits would be more freely available.

(NOTE.—Some critics consider consider that this suggestion involves an over-straining of the workings of the quantity theory of money. (In a subsequent article a brief explanation of the quantity theory of money will be attempted.) Other critics ask, who would be wise enough to decide when a period of over-expansion had arrived? and when prices are declining, and persons are fearful of making financial commitments for a future which they cannot foresee—who, it is asked, would be brave enough to borrow and use the credit even though it were available?).

(7) That the Canadian paper dollar shall be based upon "units of labour" instead of gold. This is exactly the proposal made by Karl Marx in 1848, although Marx saw clearly that there would be difficulty in deciding how the "socially necessary" unit of labour should be computed.

(NOTE.—Many socialists and Communists advocate this today. No competent economist, as far as we are aware, however, is willing to regard such a system of price determination as even remotely workable or possible).

(8) That the purchasing power of the Canadian paper dollar shall be based upon an index number of wholesale commodities instead of upon gold, and that debts should be repayable with dollars of the same purchasing power that they had when the debts were incurred. Which authority's index number would be chosen, and which commodities should be included in the make-up of the average, and how compensations of price would be made to correct over-production or deficiency in any one commodity, or how a surplus of any one commodity would be governed, is not clearly explained.

(NOTE.—This is the method advocated by some termed "managed currency." Whether any set of human beings have had sufficient experience with the management of money, or sufficient wisdom, to control either inflation or deflation of money without any solid metal as an anchor, is questioned by many students).

(9) That bimetallism shall be instituted, using gold and silver as alternatives, which shall be exchangeable one for the other, or for paper currency, at a ratio set by law.

(NOTE.—Every attempt in history that has been made to set up bimetallism has ended in failure. Gresham's law seems inevitably to function, resulting in the most prized metal of the two being driven out of circulation and hoarded, so that eventually only one of the two metals is left to serve as a standard and medium of exchange).

(10) That symmetalism should be set up, which means that both gold and silver, not as alternates as in bimetallism, but tied together in definite proportions in metal bars, shall be used as the standard and that paper currency shall be exchangeable for neither gold nor silver, but only for bars of the metal unit of the two. This was first suggested by the eminent economist, Professor Marshall. It is felt that the workings of the quantity theory of money would bring about an increased commodity price level if increasing quantities of monetary metal as a base could be put into use.

(NOTE.—The objection to this scheme again is that it would be difficult for nations owning various amounts of gold to decide on the relative proportions of gold and silver to be used. Also the fear is expressed that the bars might be melted down by individuals or nations and the most prized metal of the two would be hoarded).

(11) That the silver coins in use throughout the world should contain a greater percentage of silver. Also that silver bars might be used as a base for paper money of small denominations, but of generous amounts, which would be exchangeable for silver only and not for gold. This, it is claimed, would raise the price of silver and so help the buying power of Eastern countries on a silver standard. It is argued, however, by critics that any enhancement of the price of silver would seriously harm producers and debtors in these Eastern countries, and that even the benefits to Western people might not be as tangible as assumed by some.

(12) That the issuing of all currency and credit shall be nationalized and that all finance and banking shall be operated and managed by Government instead of by private institutions.

(NOTE.—In criticizing this proposal, note is made that no Government of any country so far has ever shown much capacity for successfully managing any large matters of finance or business, and that efforts to distribute credit "at cost" by Governments to the people usually end in high cost and in disastrous losses which have to be borne by the taxpayers).

(13) That the monetary system and other financial and banking methods with gold as a basis, should be left as they are without interference for claim proponents of this, the so-called crisis of money and the falling of prices has been the result of and not the cause of the present depression, which, these claim, have been brought about by other factors, many of which may not even be understood, but as in the past all originating in the War and its aftermath of prejudice, hates and extreme nationalism.

These orthodox supporters of the gold standard suggest that if international arrangements can be made that will restore confidence between one nation and another, so that some of the high tariff walls might be lowered, which would result in a freer exchange of goods and commodities, and if reparations and War debts can either be modified or be paid mainly in goods and not in gold, that substantial world-wide economic improvement would soon take place, and that it would be found that there is sufficient gold in the world for all practical purposes and to support at least the pre-war level of all prices. Nations are rapidly learning, it is pointed out, the simple financial principle, long known to and practiced by Great Britain, that creditor countries must either lend their surplus gold abroad, buy foreign goods at home, or take their gold and spend it in foreign countries.

These economists draw attention also to the fact that as commodities become cheaper, gold becomes dearer, which allows of the working of lower grade gold ore bodies, which will increase the production of gold. Dearer gold will also bring out much that has been hoarded for centuries. These increases in the amount of gold will automatically, according to the quantity theory of money, result in a higher price level of goods and commodities. At the very worst, state these people, deflation will continue until all goods, commodities, interest on money, and all things, have an equitable exchange value. Debts that cannot be paid will either be cancelled or written down, taxes will have to be reduced, and so practically a new start will be made, but on a lower general price level which will require, of course, much less gold to support it.

In the consideration of all these suggestions for monetary reform, two important facts must be borne in mind. One is that Canada is bound by contract to pay each year in gold about $200,000,000 in interest and in repayments of debts. No inflation of the Canadian dollar will reduce this one iota. The other is that Canada is an exporting nation; that the goods and commodities she sells for export are paid for in foreign currencies. No amount of inflation of the Canadian dollar will ever increase by one cent the amount of money received from abroad for these exported products.

(NOTE.—The Research Department of the Searle Grain Company has written two articles on Bimetallism and on the Gold Standard. These are available to any who may be interested).

Waiting Time Is Over

Prosperity Must Be Met Half Way Opinion Of Barnjum

Frank J. D. Barnjum, that Canadian optimist who confesses to having weathered three or four panics in his time, has no hesitation in saying that prosperity is now simply waiting for people to go out and meet it half way. "Don't keep on waiting; if both wait, we shall never meet," is the word he broadcasts in a communication to the press. "If all those who have money, and there are a sufficient number who have, would go out and buy freely as they did in 1929, the depression would soon be a thing of the past. Buy, build, repair and stock up now, and by so doing save thirty to fifty per cent., is the word from the man who has been recently buying forest tracts in this country in order to save them for posterity. "And then advertise," he adds.

A machine which makes griddle cakes has ousted fifty girls in Childs restaurants in New York.

Receipts of government railways in Japan last year were nearly $11,000,000.

Contract Bridge

By Hamlin B. Hatch, Cavendish Club, Toronto

The Limitations Of Distributional Valuations in Contract.—As previously stated, quantitative trick taking probabilities of any two combined hands in Contract are determined by three kinds of tricks, i.e. Honor tricks, long suit tricks and short suit or ruffing tricks. Valuing the combined twenty-six cards of any particular deal by the valuation table given in a previous article is, as a rule, very accurate up to a total of ten tricks. Beyond ten tricks, it is important that the player realizes that there may be a duplication of values in the hand. By this is meant that high card tricks and ruffing tricks as figured independently in the two hands, may overlap, and that, because of this overlapping, the distributional trick taking probabilities of the two hands may add up to anywhere from twelve to fifteen tricks when in the actual play only from ten to eleven tricks will be taken. The axiom follows then, that, in high contracts, it becomes necessary, as a rule, in order that the high contracts may be fulfilled, the combined hands be fairly strongly fortified with aces and kings. Therefore, in high contract bidding, it becomes important that the partnership endeavour to ascertain from each other's responses whether or not there is value duplication in the hands. Occasionally hands occur which will make twelve or thirteen tricks when there is only from two to four high honor cards present in the combined hands, but this is so only when value duplication is entirely absent.

High contract bidding carries any partnership into the realms of slams. There is one definite, never to be departed from, rule for slam bidding. The rule is, that it is definitely essential for the slam the combined hands have in case of little slam control of at least three suits, and in grand slams, control of all four suits. By control is meant the ability to take the first round trick of the suit controlled. So that in order to bid and make little slam the two hands must have either three aces, or two aces and a void suit, or one ace and two void suits. Generally it may be said that slams are most usually made in hands which are unbalanced and in which the unbalance does not involve value duplication. Balanced hands on account of the fact that there are few if any, long suit tricks and ruffing tricks, do not make for the success of high contracts and slams. The tricks taken in balanced hands, especially in hands of the 4, 4, 3, 2, and 4, 3, 3, 3, types are practically all honor card tricks. High contracts in balanced hands therefore, can only be made when the two hands are replete with aces and kings, queens and jacks. As a rule then, it is well for the contract player to realize, that slam contracts on balanced hands should only occasionally be contracted for and then only when the bidding used to arrive at the slam has definitely located enough high cards to make the success of the slam bid farily certain. On the other hand, slam contracts may be bid on unbalanced hands much more frequently, as the additional factors of long suit and short suit tricks probabilities make slams much more probable than in hands where these additional factors are lacking.

The hand following is given as an example of arriving at a high contract which is impossible of fulfillment on account of value duplication.

North
Spades Q. 10. x x
Hearts, none
Diamonds A. K. x x x

1 Spade	Pass	3 Diamonds	Pass
3 Hearts	Pass	4 Clubs	Pass
5 Clubs	Pass	6 Spades	Pass
Pass	Pass		

The combined hands figure fifteen taking tricks and in actual play will only take eleven tricks. The duplication comes in this case in two instances—First the void heart in the North Hand, and the Ace King of Hearts in the South Hand. The void Diamond in the South Hand, and the Ace King of Diamonds in the North Hand. The hand should not be bid slam as this duplication of values was shown in the bidding.

Sick from Heat

"Baby's Own Tablets are excellent for children's summer complaints", writes Mrs. M. E. Conron, Brantford, Ont. "Best of all children's remedies for summer complaint", writes Mrs. Geo. Walker, Thomasburg. Equally effective for teething, fever, colic, constipation. Pleasant as candy—and absolutely SAFE. 25c a package. 241

Lesson: Exodus 11.1 to 12.36.

Devotional Reading: Psalm 63.1-7.

Explanations and Comments

Instructions As To the Instituting Of the Passover Rite, verses 1-11.—In the words of the Rabbi Wise, we have now come to "the natal day of the first independent nation constituted upon the principles of liberty and equality." It was fitting that the new era should be dated from that deliverance. The calendar was changed to commemorate it: "The month Abib, known to the Baylonians as Nisan, shall be to you the beginning of months; it shall be the first month of the year to you." Ahib corresponded to the end of March and the beginning of April. The month Tishri, the month of harvests, had hitherto been the beginning of the year. "The later Jews had a twofold computation of the year—the ecclesiastical year, which began with the month Abib, and by which all festivals were arranged; and the civil year, which began in the autumn, in the seventh month of the sacred year. In Egypt the year properly began with the summer equinox, when the Nile commenced to rise."—Edersheim.

Specific directions were given for the Passover feast. "Note the significance of everything about it. (1) The lamb was to be roasted, apparently that it might be kept whole; this represented the unity of the partakers. Its purpose has been achieved; in no race is the family bond and the racial bond stronger than among the Jews. (2) Bitter herbs were to be used. They were symbols of the sufferings from which God's people were to escape. (3) The bread was to be unleavened, and they were to eat the feast in the garb and attitude of travellers. Both were reminders that their food was not to give them ease, but to make them strong for the journey. They were to stand ready for the signal for departure."—R. C. Gillie.

Subsidy Had Expired

Householders In Ireland Must Bear Expense Of Building

People who recently built houses in Omagh, Ireland, have failed in their efforts to get subsidies from the city and the government, and must pay for all the work and materials themselves. At a recent council meeting it was disclosed that many had started the houses under the impression that they would receive aid from both the municipality and the country. It was then revealed that the subsidy had expired March 31, 1931.

Emancipation For the Deaf

Social emancipation for deaf persons, opportunities to obtain education and employment for which they are qualified were demanded by Edwin G. Peterson, Saskatoon, superintendent of the Saskatchewan School for the Deaf, at the triennial convention of the Western Canada Association of the Deaf, held in Winnipeg.

SAYS RALPH GRAVES

RALPH GRAVES
Scenario Writer

"Here in Hollywood," Ralph Graves, scenario writer, says, "women don't use birthdays as an excuse for growing *old*. They seem to know the secret of becoming more and more alluring year after year.

"The screen and stage stars usually *keep* that lovely irresistible glow that youngsters have. And lots of other women, these days, seem to have learned their complexion secret!"

LEILA HYAMS
M.G.M. Star

"Above all, guard complexion beauty," the stars will advise you. "Use gentle, soothing Lux Toilet Soap regularly as we do!"

Actresses the world over use fragrant, delicately white Lux Toilet Soap to keep their complexions always exquisite. In Hollywood, where 686 of the 694 important actresses are devoted to it, this fine soap is *official* in all the great film studios.

MARION DAVIES
M. G. M. Star

You are sure to love the way it cares for *your* skin! The caress of dollar-a-cake French soap for just 10c.!

THE HOUSE OF DREAMS-COME-TRUE

— BY —

MARGARET PEDLER

Author Of
"The Splendid Folly." "The Hermit Of Far End."
Hodder & Stoughton, Ltd., London.

CHAPTER XXV.

Arranged By Telephone

The visit to London, if it had not been prolific in the results which Lady Anne had hoped for, had at least accomplished certain things.

It had acted as a brake upon the swiftly turning wheels of two lives precariously poised at the top of that steep hill of which no traveller can see the end, but which very surely leads to heartbreak and disaster, and had sufficed, as Jean had suggested that it might, to restore Nick to a more normal and temperate state of mind.

He and Claire had passed a long hour alone together the day after his return to Staple, and now that the first violent reaction, the first instinctive impulse of unbearable revolt from Sir Adrian's spying and brutality had spent itself, they had agreed to shoulder once more the burden Fate had laid upon them, to fight on again, just holding fast to the simple knowledge of their love for one another and leaving the ultimate issue to that great unfathomable Player who "hither and thither moves, and mates, and slays," not with the shadowed vision of our finite eyes but with the insight of eternity.

Jean had seen them coming hand in hand through the cool green glades of the wood where the great decision had been taken, and something in the two young, stern-set faces brought a sudden lump into her throat. She turned swiftly aside, avoiding a meeting, feeling as though here was holy ground upon which not even so close a friend as she could tread without violation.

To Jean herself the week in London had brought a certain new tranquility of spirit. Quite naturally and without effort—thanks to Lady Anne's skilful stage-management—she and Blaise had been constantly in each other's company, and, with the word "Beloved" murmuring in her heart like some tender undertone of melody, the hours they had shared together were no longer a mingled ecstasy and pain, marred by torturing doubts and fears, but held once more the old magic of that wonder-day at Montavan.

Somehow the dividing line did not seem to matter very much, now that she was sure that Blaise, on his side of it, was loving her just as she, on hers, loved him. Indeed, at this stage Jean made no very great demands on life. After the agony of uncertainty of the last few months, the calm surety that Blaise loved her seemed happiness enough.

Other sharp edges of existence, too, had smoothed themselves down — as sharp edges have a knack of doing if you wait long enough. Burke seemed to have accepted her last answer as final, and now spared her the effort of contending further with his tempestuous love-making, so that she felt able to continue her friendship with Judith, and her consequent visits to Willow Ferry, with as little "gene" as though the episode at the "Honeymooners' Inn" had never taken place. She even began to believe that Burke was genuinely slightly remorseful for his behaviour on that particular occasion.

Apparently he had not made a confidant of his sister over the matter, for it was without the least indication of a back thought of any kind that she approached Jean on the subject of spending a few days with herself and Geoffrey at their bungalow on the Moor.

"Geoff and I are going for a week's blow on Dartmoor, just by way of a 'pick-me-up.' Come with us, Jean; it will do you good after stuffy old London—blow the cobwebs away!"

But here, at least, Jean felt that discretion was the better part of valour. It was true that Burke appeared fairly amenable to reason just at present, but in the informal companionship of daily life in a moorland bungalow it was more than probable that he would become less manageable. And she had no desire for a repetition of that scene in the inn parlour.

Therefore, although the Moor, with its great stretches of gold and purple, its fragrant, heathery breath and its enfolding silences, appealed to her in a way in which nothing else on earth seemed quite to appeal, pulling at her heartstrings almost as the nostalgia for home and country pulls at the heartstrings of a wanderer, she returned a regretful negative to Judith's invitation. So Burke and Mrs. Craig packed up and departed to Three Fir Bungalow without her, and life at Staple resumed the even tenor of its way.

The weather was glorious, the long, hot summer days melting into balmy nights when the hills and dales amid which the old house was set were bathed in moonlight mystery—transmuted into a wonderland of phantasy, cavernous with shadow where undreamed-of dragons lurked, lambent with opalescent fields of splendour whence uprose the glimmer of half-visioned palaces or the battlemented walls of some ethereal fairy castle.

More than once Jean's thoughts turned wistfully towards the Moor which she had so longed to see by moonlight—Judith's "holy of holies that God must have made for His spirits"—and she felt disposed to blame herself for the robust attack of caution which had impelled her to refuse the invitation to the bungalow.

"One loses half the best things in life by being afraid," she told herself petulantly. "And a second chance to take them doesn't come!"

She felt almost tempted to write to Judith and propose that she should join her at the bungalow for a few days after all if she still had room for her. And then, as is often the way of things just when we are contemplating taking the management of affairs into our own hands, the second chance offered itself without any directing on Jean's part.

The telephone bell rang, and Jean, who was expecting an answer to an important message she had 'phoned through on Lady Anne's behalf, hastened to answer it. Very much to her surprise she found that it was Burke who was speaking at the other end of the wire.

"Is that you, Geoffrey?" she exclaimed in astonishment. "I didn't know your bungalow was on the telephone. I thought you were miles away from anywhere!"

"It isn't. And we are," came back Burke's voice. From a certain quality in it she knew that he was smiling. "I'm in Okehapmton, 'phoning from a pal's house. I've a message for you from Judy."

"Ye-es?" intoned Jean enquiringly.

"She wanst you to come up to-morrow, just for one night It'll be a full moon and she says you have a hankering to see the Moor by moonlight. Have you?"

"Yes, oh yes!"—with enthusiasm.

"Thought so. It certainly does look topping. Quite worth seeing. Well, look here, Judy's got a party of friends, down from town, who are coming over to us from the South Devon side—going to drive up and stay the night, and the idea is to do a moonlight scramble up on to the top of one of the tors after supper. Are you game?"

"Oh! How heavenly!" This, ecstatically, from Jean.

"How what?"

"Heavenly. Heavenly" — with increasing emphasis. "Can't you hear?"

"Oh, 'heavenly'—yes, I hear. Yes, it would be rather—if you came."

Even through the 'phone Burke's voice conveyed something of that upsettingly fiery ardour of his.

"I won't come—unless you promise to behave," said Jean warningly.

Bubbling over with pleasure at the prospect unfolded by the invitation, she found it a little difficult to infuse a befitting sternness into her tones.

"Do I need to take fresh vows?" came back Burke's answer, spoken rather gravely. "I made you a promise that day—when we drove back from Dartmoor. I'll keep that."

"I'll never kiss you again till you give me your lips yourself."

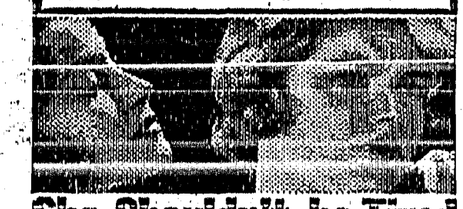
The words of the promise rushed vividly into Jean's mind, and now that steady voice through the 'phone uttering its quiet endorsement of the assurance given, made her feel suddenly ashamed of her suspicions.

"Very well, I'll come then," she said hastily. "How shall I get to you?"

"It's all planned, because we thought—at least we hoped—you'd come. If you'll come down to Okehampton by the three o'clock train from Coombe Eavie, I'll meet you there with the car and drive you up to the bungalow. Judy is going to drive into Newton Abbot early, to do some marketing, and afterwards she'll lunch with her London people—the Holfords. Then they'll all come up together in the afternoon."

(To Be Continued.)

Try Lydia E. Pinkham's Vegetable Compound



She Shouldn't be Tired

No energy... circles under her eyes. If she would only try Lydia E. Pinkham's Vegetable Compound in tablet-form, she could be strong and happy again.

The Line Is Busy

But Chinese Have Most Polite Way Of Saying So

In China, when a subscriber rings up the telephone exchange the operator asks: "What number does the honorable son of the moon and stars desire?" After a short silence the exchange resumes, "Will the honorable person graciously forgive the inadequacy of the insignificant service and permit this humble slave of the wire to inform him that the never-to-be-sufficiently censured line is engaged?"

Tired All Day Long

Mother and Daughter Both Praise Dr. Williams' Pink Pills For Restoring Vigour

Improvement Came Quickly

"Being rundown, I was not able to do my work; I had no ambition, and could not sleep at night," writes Mrs. Reuben Ament, Grafton, Ont. "I saw an advertisement for Dr. Williams' Pink Pills. Trying two boxes, I got relief right away; so I kept on taking the Pills, and now I am able to do my work with pleasure, and I have no ailments whatever."

Mrs. Ament adds: "My daughter was also rundown. Every one thought she was going into a decline. I gave her Dr. Williams' Pink Pills, and I could see success immediately."

Don't allow yourself or your daughter to be robbed of health and vigour. Take Dr. Williams' Pink Pills. They banish rundown or nervous conditions by creating new red blood cells, which impart health and vitality. Get a supply at your druggist's; in the new glass container 50c.

To Keep Slender You Must Be Clean Inwardly

Let ENO keep you well regulated and you will have the normal, slender body nature intended for you. ENO'S "Fruit Salt" will keep the body normal by ridding the intestinal tract of poisonous waste matter. Be ENO conscious. ENO is the safe, sure way to normal health—and slenderness.

CaW2

ENO'S "FRUIT SALT"

Punctuality Is Amazing

Birds and Fish Seem To Have Extraordinary Time Sense

Some birds certainly have a sense of time. Observations made at Barton Abbey, England, in the month of June prove that the lark is definitely the first to sing in the morning. This at two minutes after three. Next comes the thrush, third the sedge warbler, fourth the blackbird. Then in order the reed bunting, robin, cuckoo, willow-wren, rook and garden warbler. The whole list is too long to give, but the same order was kept faithfully, morning after morning, ending with the tree creeper which did not sound its note until four thirty-seven.

Great shoals of a delicious little fish arrive yearly off the coasts of Samoa on the same day in the same month, with such regularity that, from time to time out of mind, the day has been set apart by the natives as a holiday and a feast day. The shoals take twenty-four hours in passing, then they are not seen again until the same day the following year. There is no explanation of the amazing punctuality of their yearly visit.

Persian Balm—the unrivalled toilet requisite. Essential to every dainty woman. Imparts rare charm and beauty to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Cools and refreshes. Relieves roughness. Ideal for the feminine distinction. Delicately fragrant. Swiftly absorbed into the tissues, leaving no stickiness. Persian Balm invariably creates a subtle elegance and charm.

THE RHYMING OPTIMIST

By Aline Michaelis

HEART OF GOLD

Life is a flower with a golden heart;
  Though petal after petal drop away
As one by one the swift-winged years depart,
  Still something of its charm and fragrance stay.
As ever wider open falls the rose,
  Still heavier, more potent grows its scent,
And rare, new loveliness the hours disclose,
  Surpassing speech, yet strangely eloquent.
A flower is life; yet, as youth's petals fall,
  And flying years reach out with eager clutch,
Time is defrauded; he cannot take all
  But only graces valued overmuch;
For not until the final leaves unfold
  Does it reveal its matchless heart of gold.

Terribly Inconsiderate

According to an official, says London Punch, the offices of income-tax collectors are so scantily furnished that it isn't possible to ask taxpayers to take a seat. Nor is there any accommodation for those who faint.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

Only On Map

With all the present talk of communism, it might be well to point out that although, on all maps of the world, the British Empire is colored red, there is very little of that spirit found in any part of the Empire.

Nome, Alaska, is farther west than the Hawaiian Islands.

Little Helps For This Week

"Great peace have they which love Thy law."—Psalm cxix. 165.

Dear Lord and God, incline
  Thine ear unto my call;
O grant me that in all,
  This will of mine
May still be one with Thine!

Teach me to answer still,
  Whate'er my lot may be,
To all Thou sendest me
  Of good or ill,
All goeth as God will.

—Alice Williams.

The root of all dissatisfaction and discontent with self, and with one's surroundings, and with one's prospects, can never be reached until we go down to the will of God in our soul's birth and soul's mission, and make the discovery of that will for us, and the doing it our chief aim and hope. No change in life's circumstances, no larger work, no happier outlook will be enough. We ourselves need to be born again; it is not our outward life that needs to be refashioned.—Newman Smyth.

DECLARE THEY HATE SIGHT OF DUST CLOTHS

Canadian women vote dust cloths a nuisance to use and to wash

MUCH PREFER APPLEFORD WONDER PAPER

With so much inventive thought being given to eliminating unnecessary housework, it is only natural that a worthwhile substitute for the musty dust cloth should be sought.

Now it has been found! Appleford Wonder Paper which actually dusts—as it cleans—as it polishes is receiving a hearty welcome from Canadian women who detest dust cloths and all they stand for.

Wonder Paper is made from clean rags and soft paper pulp, thoroughly impregnated with a high-grade furniture polish, and absorbs dirt instead of spreading it.

Appleford Wonder Paper comes in handy-size package, twenty-five sheets, each as large as a duster. You merely crumple a sheet into a soft wad, and go over the surfaces requiring attention.

You'll be amazed at the quick and lasting finish Wonder Paper gives. When one side is worn and soiled, simply turn the Wonder Paper inside out. After the furniture or woodwork has been gone over, you can still use your Wonder Paper on the floors.

And when you're through—throw it away.

No duster to shake out or wash. No bother at all. The most obnoxious part of housework done in half the time and with half the effort. Doesn't the idea appeal to you?

Special Offer

Wonder Paper is made by the makers of the famous PARA-SANI heavy waxed paper in the Green Box. Most grocery, hardware and department stores sell Appleford Wonder Paper. If yours doesn't, just send the coupon and we'll give you a new and unique booklet entitled "Leftovers," containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one full-size package of WONDER PAPER and your 100 recipes for "Left-overs."

The doctor arrived on time---- thanks to the telephone

"It's a good thing I got here when I did," the doctor was telling Mrs. Jones, "A few minutes later there wouldn't have been a chance to save the child's life."

The doctor had been summoned by telephone,— and the time saved by the call had saved a life.

"And to think," said Mrs. Jones, "I used to believe we could get along without a telephone. I know better now.

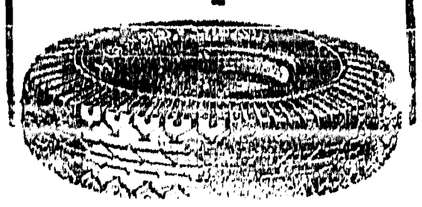
CRESTON MOTORS
L. C. McFARLAND
Canyon St. at Barton Ave.
CRESTON



Nelson has had a run of bad fires lately, the Griffin block being destroyed entirely last week, while on Sunday morning 1700 cedar poles piled in the Schnefer-Hitchcock yards furnished a spectacular blaze.

Regatta Sports Program

(Continued from Page 1)

operator and a passenger. All boats are held stern to the wharf, the motors started, and set at whatever speed the operator may desire. No change of position of the passenger and no readjustment of the motor is allowed after the boat is released at the starting gong. Boats run straight away until a whistle blows, when they turn and come back. First in wins.

It should not be forgotten that the program runs on Creston time, and junior events commence at 10 a.m. A picnic luncheon interval from 12.30 to 1.30 precedes the afternoon schedule. Visitors should bring their lunch and picnic along the beautiful Boswell beach. Hot water for tea making will be provided free.

Tickets are for sale in all Creston stores. In this connection it should be remembered it is by the sale of these tickets that revenue is to be raised, to provide for expenses. Half the net gate will go to the Creston public hospital. As the beach can not be fenced off to prevent non-ticket holders seeing the show, the committee is counting on the traditional good sportsmanship of our citizens to participate financially by purchasing tickets.

In this connection all should be reminded that after the last event the ticket drawing will be made, holders of the lucky ticket numbers winning substantial cash prizes. Tea will be available at a small charge from 4 p.m.

The closing attraction, the big dance in Boswell hall, commences at 9 o'clock. For this the 50c charge includes refreshments.

It's going to be a great day. Let's all go!

Local and Personal

Hospital board meeting, scheduled for Wednesday night, was postponed.

M. Reade, of Western Grocers, Cranbrook, was here on business Tuesday.

COW FOR SALE—Milch cow, will freshen in July. Nels Larson, Canyon.

INSURANCE—Fire, life, automobile, sickness and accident. H. A. Powell, Cre ton.

H. Miller, Camp Lister, has been admitted to the hospital. His arm is broken.

FOR SALE—Lloyd baby carriage, in good shape. Also push cart. Mrs. Geo. St.Denis, Creston.

FOR SALE—Deering mower. Practically as good as new. Morrow's blacksmith shop. 17-2

WAGON FOR SALE—Low wheel wagon with rack, in good shape. Apply Bert Boffey, Creston.

No trace has been found of the burglars who entered the Creston Co-Operative store last week.

Rapid progress is being made in construction of an addition to the Farmers' Institute store premises.

HORSE FOR SALE—Work horse, about 1400 lbs., in good shape. E. Ostrensky (Alice Siding), Creston.

FOR SALE—White Leghorn cockerels, two months old, R.O.P. stock, 8 for $1. J. C. Martin (Alice Siding(, Creston.

Sam Boyd, of Canal Flats, near Invermere, is a guest at the home of Mr. and Mrs. Fred Brownrigge Mr. Boyd expects to be here a week.

C. F. Hayes, editor of The Review, accompanied by Mrs. Hayes, left Monday on an extended vacation trip to points south of the line.

FOR SALE—Mowing machine; Frost & Wood mower, 5-foot cut, in good order. Price $40. Apply J. Sherwood, Mordock St., Creston.

The Creston Christ church committee will meet the Kimberley church committee in the Parish hall on Saturday, July 16 at 4 p.m.

The strawberry movement is practically done. The raspberry harvest is in full swing. Bing cherry shipments are underway. Prairie market for Bings is only fair but improvement is looked for next week. Black currants are moving in considerable volume.

A fair turnont at the Grand Theatre on Saturday night was well pleased with Janet Gaynor and Charles Farrell in their offering of "Delicious."

The Canadian Forestry Association show at the Grand Theatre drew such a crowd Wednesday evening that the pictures had to be shown twice.

Wm. Ramsay, public works engineer, Nelson, is asking for sealed tenders for of a Federal truck, stored in the public works department's garage here.

Will the parties who have borrowed tools from the cemetery, marked "W I.", and belonging to the Women's Institute, please return them to the cemetery without delay.

Some placer prospecting is being done in this vicinity. An occasional individual with a gold pan is seen. So far no discoveries of the yellow metal have been reported.

Miss Mary Murrell, who has been a student at the B.C. School of Art, Vancouver, for the past year, is home for the vacation with her parents, Mr. and Mrs. Chas. Murrell.

Rev. F. V. Harrison, Anglican rural dean of Cranbrook, was here on Thursday for a conference with the vestry of Christ Church, and was a guest of Rev. T. Scott at the rectory.

Dr. G. G. McKenzie is back from a two weeks' visit to Vancouver, where he attended the wedding of his sister. He reports an improved sentiment in business circles at the coast.

Will the party removing the handbag and contents from the table at the K. of P. dance held on July 1, please return same to the Review office. Name of person is known, but no proceedings will be taken if returned at once. 17-1

Trout fishing in Goat river is reported to be very good, with some fine catches being made. Fishermen who care to go still further are taking some nice trout from Meadow creek, near Kitchener.

The secretary of the Creston board of school trustees is asking for applications for leveling of the school ground. The work is to be done by day labor and applications must be in by Saturday, July 23rd.

At the annual school meeting on Saturday night Geo. Nickel was re elected to succeed himself for another three year term as trustee. $9800 was voted to finance educational affairs the ensuing year.

Chas. Moore returned to Nelson on Friday having been called there owing to his equipment, records, etc., having been burned in the fire that destroyed the Griffin block in that city the night previous.

Rev. and Mrs. C. Baase and daughter left on Friday last on a trip that will take them to Trail and Nakusp, at which centres the local Lutheran pastor will have charge of musical festival services for the next two weeks.

For Sundays July 17th and 24th there will be no Lutheran services locally Service will be resumed on July 31st when Rev E. Bieverdorf of Trail will preach at a musical festival service at St Paul's as well as at Lister.

In order that there may be no more cases of burglary as far as the Creston Co-Operative store is concerned, Manager Palfreyman has had stout iron bars placed over the side and back windows, or wherever there is an opportunity of illegal entry. The bars were fabricated by "Art" Reid.

APPLICATIONS WANTED

Man and team to level school ground. Rate of pay, $6.00 per 8-hour day. Applications to be in by Saturday, July 23rd. GEO. NICKEL, Secretary.

Mr. and Mrs. Chester O. Power, Los Angeles, Cal., are visiting in Creston. They are on a vacation trip and will proceed from here to Kaslo. Mr. Power is a member of the mechanical staff of Handy Parts Manufacturing Co., Los Angeles.

A Scotch piper blew into Creston on Monday afternoon, blew his instrument in a thoroughly professional manner up and down the streets for a time, and after collecting mony a muckle for his braw music frae the toonsfolk, blew himself out again.

The widely read and warmly discussed Rupert Hughes' novel, "No One Man," which also ran as a serial in magazine form, reaches the Grand Theatre screen Saturday as a Paramount offering. It is a new kind of story done in the modern manner, relating the loves of a typical daughter of today, "Nep," who endeavors to solve the matrimonial problem. Settings, chiefly those of New York City and Palm Beach are lavish.

OUR K.B.O. BROADCAST

Bonners Ferry has $7,295 of uncollected taxes.

Invermere will have its usual three-day fall fair at the end of August.

East Kootenay game wardens located at Golden and Fernie have swapped places.

The Free Press says the Fernie strawberry crop promises well as does also the blueberry crop.

Since the fall of 1930 Fernie council has spent $111,000 of its own money on unemployment relief.

Grand Forks small fruit area has slipped to 19½ acres. 7 of these are raspberries and 4 strawberries.

Dr. Arthur, Kootenay old timer and prominent physician of Nelson died last week at the age of 75.

A fairly heavy movement of fertilizer from the Consolidated plant at Trail to the coast is reported.

From Bonners Ferry comes the report that the 1931-22 tax collections in Boundary county fell off $20,000.

Business at the auto tourist camp at Cranbrook is pretty well up to the standard of 1931 so far this season.

Fred Martello, Trail, has gone to Hamilton, Ontario, for training in anticipation of the Canadian Olympic trials.

Cupid was unusually busy at Kimberley the last week in June in which time five local couples were married.

The Courier editor at Cranbrook got his first boquet of sweet peas on June 29th from a local amateur gardener.

During the past few weeks the smelter at Trail has shipped almost $250,000 worth of fertilizer to the Dutch West Indies.

For the summer months Rossland stores will close each afternoon at 5.30, except Wednesday when they close at 12 noon.

The Cranbrook Courier announces that it will be pleased to receive payment of subscriptions in three-month instalments.

Bonners Ferry operated its town-owned water works at a loss of $1400 last year. The year previous the loss was $3460.

The S.I. Railway will build a new bridge across the Kootenay River at Bonners Ferry this fall. It will be 500 feet long.

The Associated Growers expect to supply Penticton cannery with 500 tons of cherries, apricots, peaches and pears this season,

The Courier editor is greatly incensed because vandals are stealing peonies from the post-office flower garden at Cranbrook.

Many of the higher bridge structures on the Kettle Valley line between Midway and Penticton have been replaced by steel.

Ten inches to two feet of ore, averaging $50 per ton gold, was struck a few days ago in the Butcher Boy mineral claim, near Carmi.

Notwithstanding a reduction in rates Bonners Ferry light and power plant for the year just ended shows a net profit of $16,205.

It took 6½ hours for the new ferry to float itself down the Kootenay River from Bonners Ferry to Copeland, a distance of 45 miles.

With a view to making some reduction in expenses, the Golden customs office has been moved to Eagle Farm, on the Trans-Canada highway.

S. G. Blaylock, vice president and general manager of C. M. & S., stated in Vancouver a few ago that there was absolutely no truth in a rumor to the effect that the big mining and metallurgical company intended a general shut-down.

The Dominion Cannery plant at Penticton commenced operations on Saturday. At the height of the season 150 hands will be employed.

According to a special report compiled by the city council, Fernie has this year provided relief funds to 48 per cent. of its total population.

Penticton council has just ruled that across-the-street banners advertising Sunday baseball games must be taken down at midnight Saturdays.

In the Oganogan experienced fruit packing house employees will have their pay cut 10 per cent. Inexperienced help will get only 23 cents an hour.

Kimberley would reorganize its fire brigade and wants the clerks in stores to join up so as to have quite a few of its members centrally located for emergency calls.

The cannery at Penticton will this year experiment with 20 tons of Royal Anne cherries which will be processed for the candided trade. If the venture proves profitable larger quantities will be taken.

There is great rejoicing at Penticton. Dominion Canners now announce they will accept a considerable quantity of Royal Ann cherries. Earlier in the season they were doubtful of taking any of these.

School attendance at Kimberley has decreased to the point where the services of three teachers have been dispensed with. The school at the Top Mine has been closed.

Rossland has a lawyer that works for nothing—occasionally. Barrister Clegg has just received a vote of thanks from the swimming pool authorities for doing $50 worth of legal work free.

Garage employees at Rossland have considerable spare time on their hands these days and they are getting so expert at horseshoe pitching that they are organizing a league to promote the sport.

Of Local Interest

Mrs. Page McPhee left on Thursday on a visit with friends at Kaslo and Nelson.

Mrs. J. Attwood of Cranbrook is spending a few days here this week a guest of Mrs. Fransen.

Miss Florence McDonald of Stony Plain, Alberta, is holidaying with her mother, Mrs. H. W McDanald.

W. Vance, manager of the Kootenay central Associated Growers, was a business visitor here at the weekend.

Mrs. H. Stanton of Kimberley was a Creston visitor for a few days last week with her father, L. N. Leamy, who has been a patient at Creston Valley public hospital.

Mrs. Wayne Kellogg of Tampa, Fla, (nee Ethel Huscroft), is on a holiday visit with relatives in the Valley and was a guest of Mrs. W. H. Crawford a few days last week.

Don. Archibald, who is a student at Brentwood College, Victoria, arrived home on Thursday last, and left almost immediately on a visit with his sister, Mrs. Warren, at Calgary, Alberta.

Mrs. Castley of North Cowichan, is renewing acquaintances in Creston this week, while looking after her property interest. Miss Vickers was for three years vice-principal of Creston public school about five years ago.

Col. and Mrs. Fred Lister announce the engagement of their eldest daughter, Vera Maude Isabel, to Mr. Berton B. Stallwood, son of Mr. and Mrs. J. B. Stallwood, North Shore, Nelson, B.C. The wedding will take place at the end of July.

Mr. and Mrs H. Connatty and family, who have been residents of Creston for almost the past three years, during which time he was engineer at the electric light plant, left last week for Armstrong, where they will remain for the present.

The best sample of baseball Creston fans have had this season was on Sunday afternoon when Creston Intermediates beat Kitchener 4-3. The finish was a thriller, Creston batting in the needed three runs to win in the final game after one man was out. At Eastport the Frothblowers duplicated this performance, coming from behind in the ninth to win 8-7.

Charles Lombardo and John Rogers of Sirdar, Peter, Leona, Joan and Anita Heric of Erickson, Dorothy Schmidt and Olga Hurack spent ten days at the St. Eugene Mission near Cranbrook, returning to their various homes Sunday last. They report Father Choinel kept them busy but they had a good time. There were 34 children at the outing.

Miss Marjorie White and Arthur Stanley, Nakusp, were united in marriage at St. Mark's church, in that town, on Tuesday, July 5. The groom is a former Creston boy, having been a pupil in the public schools here. Mr. Stanley now publishes the "Arrow Lakes News" His father, A. B. S. Stanley, was at one time in the newspaper business in Creston.

Next Sunday's league baseball fixtures brings Eastport to Creston for a game at Exhibition Park. The Intermediates are at Kitchener and Porthill will entertain Canyon. The league race is a decidedly interesting one with Kitchener and Canyon tied for leadership each having won 4 games and lost 2. The Intermediates, Frothblowers and Porthill are in a tie for next place each having 4 wins and 3 losses to their credit In seven starts Eastport has not yet won a game.

Father L. Choinel will say mass at 9 30 at Holy Cross Church, Creston, Sunday, July 17.

An important land deal was closed here a few days ago, when James H. Eddy purchased the 62-acre Attwood ranch near Erickson. The consideration is not made public. Mr. Eddy comes from Burmis, Alberta. He has moved in with his family. The vendor is Mrs. B. Attwood, who has been residing in Cranbrook with her son-in law, Percy Adams, chief of the Cranbrook fire department. The Attwood place is one of the best in the valley, there being 20 acres of it highly improved; the property is well supplied with buildings. The late Mr. Attwood acquired the property as far back as 1900, so it is one of the pioneer ranches in this vicinity. The sale was made by R. Walmsley.

IMPERIAL GROCETERIA

IT PAYS TO PAY CASH AT THE IMPERIAL

THE BEST IN THE DISTRICT in quality and price has been our aim since opening the Imperial Groceteria. . . . We are not; however, asking your business because of sentiment but because of giving you

"The Best Value For Your Money"

266

Finest quality for 40 years has built the largest sales in North America.

Ourselves.

Bruce Barton, the well known author and magazine writer, has proposed the toast: "To the only folks who can make us or break us—to Ourselves." And he quotes the saying of Carlyle: "The world's being saved will not save us; nor the world's being lost destroy us. We should look to ourselves."

The truth of these statements, differently worded but meaning exactly the same thing, cannot be gainsaid. The biggest factor in the world now, as always, is the individual. No man is actually down and out, defeated, unless and until he himself admits defeat. Furthermore, more people are destroyed by prosperity than by adversity; more people fail to grasp and enjoy the realities of life when the gods are showering them with riches or other gifts than when they are faced with difficulties and confronted with seemingly unsolvable problems.

It is then people begin to call upon latent powers they possess. William James, in his essay on "Vital Reserves," pointed out that underneath our daily store of strength and courage, all of us have reservoirs that are tapped only by emergency. We are all able, under the test, to surprise ourselves with an unsuspected capacity to be and do more.

It is that capacity which is our greatest asset. It is our hope in the present and for the future. It is ours to employ now.

The writer is acquainted with a man resident in one of our prairie cities who lost his position over a year ago. He has a bed-ridden wife not only to support but to care for. He is not an educated man, and prior to losing his position received only a small salary. Did he despair and call upon the Government to put him "on relief?" Not a bit of it! He called upon his own reserves of strength. Although he had no experience, he got a job painting a garage. This led to other small painting jobs. Then at Christmas time he got work soliciting orders on a commission basis. When spring came he hunted up garden work to do. Thus he keeps going. He is seldom idle because he is willing to take on any kind of a job, no matter how humble. And when you meet him he always has a new joke to tell. He goes whistling on his way, scorning to accept Government or municipal relief, always looking forward to better days that must inevitably come, and in the meantime keeping his head well above water. He is a bigger, better man than ever before; has maintained his self-respect and kept his courage, and, in the days to come, will command a better position than any he might have secured had "hard times" not descended upon him.

This is a very simple illustration of a very ordinary individual. Nevertheless he has and is displaying the spirit of a hero. Yet he possesses nothing that each and every person has not got, namely, a reserve of strength, of courage, of determination, to call upon in times of emergency. But the important thing is—he called those reserves into action. Too many of us fail to do this. We hesitate, we drift, we refuse to use the powers lying latent in us with which we have been endowed. In a word, we have not faith in ourselves, and without that faith anything that others may do for us will fall far short. Such people will come out of the present time of difficulty weaker and less well equipped to take advantage of the opportunities which the future will offer to us.

Let us put ourselves to the test. We have been buffeted about; we may be gasping, but if we are strong of heart and keep on we will get our "second wind." A race is never lost until it is over; we always have a chance to win until the tape at the finishing line is definitely broken. Our success or failure depends, not on the other fellow, but on ourselves.

Muskeg Has Its Use

Possibility It May Be Manufactured Into Wall Board

Muskeg, the moss-like substance that covers thousands of miles of Canada's treeless north country, has at last found a use. An inquiry recently received by the Board of Trade at The Pas, Manitoba, may lead to a trainload of muskeg being shipped to Brampton, Ontario, for use in the manufacture of wall board.

Sitting in the midst of millions of tons of muskeg, long believed valueless, officials of the board were amazed when they received the letter asking about the possibility of buying a dozen carloads or so. Negotiations are now under way for shipment and the Board of Trade is looking into the possibility of getting a factory to locate there and use the material.

Right Up-To-Date

The new one-franc piece which France is coining shows how modern that country is. "Marriane," as the girl on the coin is called has been given a bob. Until this year she had long hair.

Had Riel For Customer

Ontario Barber Has Followed Trade For Seventy-Six Years

Louis B. Lafrance, the oldest active barber in the Dominion, celebrated his ninetieth birthday in June. He has been engaged in the trade seventy-six years, and hopes to be able to continue for another ten or fifteen, he says. He was born n Quebec City, moving to Montreal, where he learned the trade. He then went West and opened a shop in Winnipeg, which at that time was little more than a village. One of his customers was Louis Riel, the leader of the Northwest Rebellion. Mr. Lafrance and Riel became friends, and he still thinks Louis was a very good man. He was in Winnipeg when Sir John Macdonald went out there to the dedication of Winnipeg as a town. Coming East some fifty years ago, he settled in Trenton, where he has kept shop ever since. He is the father of nineteen children.

It cost nearly $12,000,000 to supply London with water in the last 12 months.

All Her Children Were Troubled With Diarrhœa

Mrs. J. J. Bickert, R.R. 1, Enderby, B.C., writes:—"Last Summer all my children were troubled with diarrhoea, and were so bad I did not know what to do. A friend told me to give them Dr. Fowler's Extract of Wild Strawberry, so I got a bottle, and after a couple of doses you should have seen the change. The children were soon well again, and I am very thankful to your wonderful remedy. I find it the only one that relieves so easily and quickly."

High Tariff Walls

Action Of U.S. Proves a Severe Blow To Canadian Agriculture

The exports from Canada to the United States of principal commodities, such as are produced on Canadian farms, or manufactured directly from such farm products, during the month of May amounted in value to $590,195, as compared with $3,237,340 in May, 1930, and $8,604,898 in May, 1921, according to the Dominion Bureau of Statistics.

The high tariff walls erected by the United States, culminating in the Hawley-Smoot tariff in June, 1930, were a severe blow to Canadian-agriculture, making the export to that country of many commodities practically impossible.

During the eleven months ending May, 1932, the export of such commodities to the United States totalled $8,632,428, as compared with $44,078,-930 in the same period of 1929-30, and $171,492,982 in the eleven months ending May, 1921.

With a duty of 42 cents per bushel on wheat, the export of Canada's chief agricultural product to the United States declined from $101,050,-200 in eleven months of the crop year 1920-21, to $2,490,774 in 1931-32. Three cents per pound on beef cattle has caused a drop from $21,182,824 to $617,745.

Three dollars per head on sheep brought the export down from $1,-666,213 to $826. Butter at 14 cents per pound fell from $2,289,221 to $145,946, flaxseed at 65 cents per bushel from $4,763,311 to $573,709, potatoes at 75 cents per 100 pounds from $6,557,031 in eleven months of 1929-30 to $459,449, hay at $5 per ton from $2,369,295 to $115,979, etc. Of course, lowered prices have also had some effect upon the values.

Fast Ocean Travel

Canada Now Only Week-End Journey From England

Canada is now only a "week-end's journey from England," thanks to the record-breaking crossings of the Atlantic by the C.P.'s "Empress of Britain," says Viscount Rothermere, famous British newspaper magnate. Viscount Rothermere declares that the interval between the time the "Empress of Britain," passed Bishop's Rock lighthouse, off the Scilly Islands, and the time she reached the entrance to the Strait of Belle Isle, was only 73 hours and 53 minutes.

"The passage of the north Atlantic was made with only two nights spent out of sight of land," declared Viscount Rothermere's message, "after which the rest of the journey has been through smooth land-locked waters."

Treacherous Police Dogs

Bringing These Animals Into Canada Looks Like Mistake

The Stratford Beacon-Herald in connection with a case of a lad of six being bitten in Toronto by a police dog, observes that breeders of dogs are agreed that it was a mistake to bring this dog to Canada. It has not the background and tradition of the Collie, the bulldog, the setter, St. Bernard, Newfoundland or any of the other well-known breeds of dogs to which we are accustomed. The police dog is a wild animal, and treacherous in the sense that he cannot be trusted not to take a bite at any moment. The breeding of these dogs should be discouraged, especially for city life.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Eclectric Oil is that it can be used internally for many complaints, as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

Evidently Not Known

The case came before a London coroner the other day of a man who "with an income of nearly £3,000 a year, had not a friend in the world." It cannot have been generally known that he had an income of nearly £3,-000 a year.

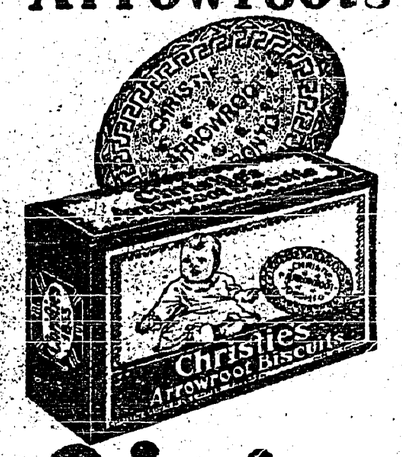
With good management there is still money in farming. Fifty years ago an Ontario farmer plad $500 for a farm and last week he sold it to a golf syndicate for $550.

W. N. U. 1950

Your Children

will thrive on Christie's pure Arrowroots

For the tiniest babies . . . for older children . . . for growing boys and girls . . . there is nothing more delicious and nourishing than Christie's Arrowroots. No substitute is good enough.



Christie's Arrowroots

Miracle Recorded In Church

Mosaic Panel Depicts Basket Of Bread and Two Fishes

A fourth-century church, built during the reign of the Emperor Constantine the Great, has been uncovered near Tiberius, on the way to Capernaum. This church commemorates the miracle of the loaves and fishes, performed by Jesus on the shores of the Sea of Galilee, and the actual stone said to have figured in the Gospel narrative as the boulder on which He stood has also been found in the centre of the church, where it presumably lay beneath an altar. Behind the stone a wonderfully designed mosaic panel was found depicting in vivid black, red and yellow a basket, several loaves of bread, and two fishes. Although buried beneath dust and rubble for about 1,600 years, and only a stone's-throw from the sea, the mosaic shows no signs of erosion, and the colors are well preserved.

Good Service For Citizens

Toronto Health Department Furnishes Tablets To Purify Water

A notice published in Toronto papers says that free tablets for the purification of water can be obtained from the city health department by any citizen. These tablets are recommended for those going on picnic or on camping trips where there are chances of having to use water of questionable purity. The tablets will purify water and make it fit for drinking in a few minutes.

That is a useful service for any city to give its people. People who go away and who use water of which they know nothing at all are running risks, and a tablet which will eliminate this risk is a friendly thing and a good travelling companion.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Game Fish In North

Transferring Speckled Trout Along Hudson Bay Railway Line

There is a possibility that game fish of the speckled trout variety, will be transported from the streams along the Hudson Bay Railway to the Clearwater Lake summer resort and other adjacent waters by airplane or tank cars, so the lakes may be stocked for sportsmen.

E. H. Stevenson, inspector of fishing, who is in Churchill, is at present engaged in making a survey of the brooks along the bay line. It is his intention to pick out suitable places for the capture and keeping of fish until transferred to other waters.

Douglas' Egyptian Liniment, always quick, always certain. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning. Splendid for muscular rheumatism.

Using 'Planes In Stampede

Wild Horses To Be Rounded Up From Air

Klamath Falls, Ore., plans the mightiest wild horse drive—from the air. Three airplanes will dip low over the plateaus and passes, set the wild bands running, head them at the turns and finally stampede 2,000 of them it is expected, into a gigantic trap corral in the lowlands. The finest stallions and mares, it is promised, will be allowed to escape again to the hills, but most of that vast catch will be slaughtered—for chicken feed. The automobile could replace the horse in man's heart, but not even the auto could chase him off the map. Only thunder-birds swooping down from the sky can bring extermination to those wise, fleet, liberty-loving mustangs—can stampede them into poultry bait.—Christian Science Monitor.

An Imposing Monument

Prince Of Wales Will Dedicate War Memorial In France

One of the most imposing war memorials on French soil is that which is to be dedicated by the Prince of Wales at Thiepval, on the Somme, next March. This monument, which is nearing completion, will be composed of triumphal arches 140 feet high, and only five feet less in breadth. On the pillars will appear the engraved names of 73,367 British officers, N.C.O.'s and men.

Asthma Brings Misery, but Dr. J. D. Kellogg's Asthma Remedy will replace the misery with welcome relief. Inhaled as smoke or vapor it reaches the very innermost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you knew as well how this remedy would help you as do thousands of grateful users, there would be a package in your home tonight. Try it.

And now it is reported crocodiles do not cry. Next thing we know someone will muster enough courage to declare there is no such thing a thing as a weeping willow.

It is said that more persons disappear from Paris than from any other city in the world. About 520 were reported missing every day in 1931.

PERSONAL

SCOTTISH LADY AT PRESENT IN Canada, would like to take in charge one or more young ladies. Has experience in travel abroad, and with Canadian girls. Could act as companion to lady, in any part of Canada, or as travel companion. Has excellent testimonials both in Canada and in Britain. Would willingly give more information to interested party.—Apply Box 50, Winnipeg Newspaper Union, 175 McDermot Ave., East, Winnipeg, Man.

CHURCHILL WILL GOVERN FREIGHT RATES ON GRAIN

Churchill, Man.—Churchill will eventually govern freight rates on export grain from the west, according to northern shipping men.

Shipping men believe that the strategic position of the port will have a wide influence over all other North American terminals. They base their forecast on the fact that Churchill is not only more accessible to the overseas ports, but that the saving in time of shipments en route, and consequent saving in interest on money tied up in cargoes, will bring great volumes of business here.

For instance, it is stated that while 16 days were occupied in taking the test shipments of last year across the ocean, the ships can make the voyage easily in 12 days, if necessary.

It is pointed out that the Dalgleish steamers are high grade vessels, capable of 12 knots an hour. Wheat could be started from prairie points and delivered in the European ports in three weeks.

This gives Churchill a decided advantage over Vancouver, where grain is delivered to ships, which must of necessity take as many as six weeks to deliver grain over the longer route.

Speaking of reports from Ottawa to the effect that special compasses, costing $5,000, would have to be installed in ships entering this port, harbor men here declare that the modern ships already are equipped with necessary instruments. They also point out that no pilots are necessary to bring ships in here. There is deep water all the way. Ships have radio protection and steam into Churchill in safety to find a deep water pier and safe anchorage.

Who gets the benefit of the saving in freight rates by shipping wheat via Churchill?

This was the question asked by the Prince Albert board of trade. It was shown that the rate from Prince Albert to Churchill was 20 cents per hundred pounds, as against 23 cents per 100 pounds from Prince Albert to Fort William.

It is said here that in the case of the sale by the pool to the Continental Grain Company, the pool farmer receives the benefit, since the grain is sold on delivery here. The farmer is said to receive the market price at the country elevator, through the pool, which in turn ships it to Churchill, where it is bought "in storage" by the grain company.

It is pointed out that the grain company has nothing to do with that saving since they bid on wheat "in Churchill." It does not matter to them how it gets here, or what it costs.

The railways do not get the saving. In fact they do not receive as much revenue as they would if Churchill port were not open, and they got the longer haul to the lake head.

On the other hand the Saskatchewan pool, with five terminals at Fort William, where handling charges are collected, profits by no handling charges in this government elevator in Churchill. In order to encourage shipments, the government took off the handling charges on all shipments until after the end of August this year. The charges are approximately one and a quarter cents per bushel.

There is a saving on freight rates of one to three cents on the Churchill route, according to the locations of the northern prairie towns shipping export wheat.

Giant Stand Of Wheat

Ontario Farmer Has Grain Over Five Feet High

London, Ont.—Farmer Frank Spettigue, of Westminster township, proudly surveys his broad wheat fields after reading that the grain stands of the west, which promise to produce a better-than-average yield, are about three feet tall. And the reason for Farmer Spettigue's pride hangs on the fact that his wheat right now averages five feet, four inches in height. The giant stand is believed to set a record for the district at this date.

Cocos Island Treasure Not Yet Uncovered

Head Of Expedition Says Report Of Success Unfounded

Panama City.—Col. J. E. Leckie, head of the Vancouver, B.C., expedition which is searching for buried treasure on Cocos Isle, off the coast of Costa Rica, wirelessed the United States naval reserve station at Balboa that reports the treasure had been uncovered were unfounded.

In a wireless conversation with the naval reserve station operator the operator of the expedition added: "How did anybody ever get the notion we would ever find anything on this God-forsaken island?"

The Balboa reserve station is the expedition's means of contact with the rest of the world and officials there said no message indicating the treasure had been found were transmitted lately.

J. Walter Young, engineer of the reserve station at Balboa, said Leckie declared before he left Panama for Cocos Island: "If we find gold you'll never know it until after it is safely aboard the Canadian destroyers which are standing by within the area to take the treasure to Canada."

Ottawa, Ont.—"We hope the destroyers are there, for we need the money," was the comment of defence department officials. "However," added the officials, "we are rather afraid the destroyers are still to be found in the neighborhood of Esquimalt, their home station."

'Plane Crash In North

Bodies Of Three Aviators Will Be Brought To Fort Smith

Edmonton, Alberta.—Bodies of Andy Cruikshank and two air mechanics who died with him in a 'plane crash near Lake Mazenod, in the Northwest Territories, are likely to be brought to civilization for burial, it was learned here.

Pilot Walter Gilbert who found the broken bodies of Cruikshank, one of the north's greatest airmen, and Horace Torrie and Harry King, mechanics, has made a second flight to the lonely spot where the wrecked 'plane lies with the intention of taking the bodies to Fort Smith.

Mrs. Cruikshank and Mrs. King are at Fort McMurray, radio station and trading post in northern Alberta, and it is considered possible the remains of their husbands may be taken there.

C.N. Shops Using Wood

Port Arthur, Ont.—Wood instead of coal is being burned in northwestern Ontario roundhouses and shops of the Canadian National Railways with favorable results on the labor situation in the district, Hon. William Finlayson, Ontario Minister of Lands and forests, said here. The railway, he said, agreed to use the wood in substitution for coal formerly imported from the United States.

Lost Trapper Returns

Lindsley Bay, N.W.T.—Andy Nelson, lost seven days in the bush around Great Bear Lake, limped into his camp near exhaustion. Nelson had injured his ankle while making a short prospecting sally from camp, and then became confused in his direction. For seven days, without food, he wandered about and finally managed to take the correct route back to his camp.

Stay Was Limited

Churchill, Man.—Tired, wet, cold and bedraggled, the first man to get as far as Churchill in a gate-crashing attempt, arrived here aboard a wheat special. The grain train was carrying one car of lumber. The man crouched between the jutting ends of the timbers. He suffered intense cold. He was sent south on the first train.

World-Wide Depression

Vancouver, B.C.—That abolition of world-wide depression depends not on any one nation, but on world co-operation, was indicated by speakers at session of the convention of Pacific Advertising clubs in annual meeting here.

Bridge Bandit

Calgary, Alta.—Calgary's "bridge bandit" has re-appeared. He entered a home and robbed two women at gun-point of $9.75. The bandit has terrorized bridge parties for the last month, holding up the players and obtaining all ready cash.

COMES TO CANADA

Sir Douglas Newton, famous British agricultural expert, who will come to Canada with the Brit'sh Imperial Conference delegation to advise on matters pertaining to agriculture.

Obtains Her Freedom

Divorce Has Been Granted To Ethel Catherwood McLaren

Reno, Nev.—Ethel Catherwood McLaren, known throughout Canada as the "Saskatoon Lily," and rated the most beautiful athlete in the 1928 Olympic games, was divorced on grounds of non-support here from James Gillan McLaren of Toronto.

The divorce action was filed last October, but Mrs. McLaren declined to proceed at that time for fear that her residence in Nevada would jeopardize her chances to represent Canada in the coming Olympic games. She refused to discuss her Olympic games plans, but said, however, that she is in training.

The "Saskatoon Lily" and McLaren were secretly married in York township, Ontario, November 25, 1929.

Free State Delegates

Twenty-Five Representatives To Attend Economic Conference

Dublin, Ireland.—It was officially announced that the Irish Free State's delegations to the Imperial Economic Conference will consist of 25 persons and will be headed by three government ministers. Sean T. O'Kelly, vice-president of the executive council; Sean Lemass, minister of industry and commerce, and Dr. Ryan, minister of agriculture.

Senator Johnson, one of the Free State's labor leaders, will accompany the party as an expert adviser of labor problems.

Will Support Party

Alfred Smith Decides To Back Presidential Nominees

New York.—Alfred E. Smith said he would support the nominees of the U.S. Democratic Party, after expressing an opinion that the formation of a third party would not be practical "at this time."

Smith amplified a prepared statement in the affirmative just once to say that his declaration of support for the Democratic party included support for its presidential and vice-presidential nominees, Roosevelt and Garner, neither of whom was mentioned by name in the statement.

Wheat At Churchill

Over 1,600,000 Bushels Of Wheat In Bins At Northern Port

Churchill, Man.—More than 1,600,000 bushels of the first order of 2,000,000 bushels of wheat to be shipped through this new port this summer, are now in the bins in the harbor, and the second order is rolling in from Saskatchewan points. It is expected 11 ships will be necessary to take away the first two orders of grain. There is much speculation here as to when they will arrive, but none as to how fast they can be loaded. Two or three days will do the job, if there are enough trained cargo trimmers on hand.

Four ocean steamers will be able to line up in a row, when the extension of the grain galleries is completed. They can be loaded in a day.

The elevator was designed for a total capacity of 10,000,000 bushels. The first storage unit of 2,500,000 has been completed, and is being filled for the first time. Grain men state it will soon be necessary to increase the storage capacity since the investment in plant equipment and machinery has been made for a much larger storage plant.

Dairy Probe

Alberta Government Announces Members Of Fact-Finding Committee

Edmonton, Alberta.—Alberta Government announced the members of the fact-finding committee which will study the milk question in the province. Formation of the committee is the result of complaints made by milk producers and distributors over the low price received for their product.

J. J. Frawley, solicitor of the attorney-general's department, is chairman of the committee which will concentrate mostly on the situation in Calgary and Edmonton. Every phase of the question from producer to consumer will be investigated by the committee which will commence its work at once.

Trans-Continental Flight

Vancouver Sun 'Plane Lands Safely At Coast Airport

Vancouver, B.C.—Landing their 'plane, "The Vancouver Sun," at the Sea Island airport here, pilots R. H. Storer and B. R. Ronald completed their trans-Canada flight which started from Montreal.

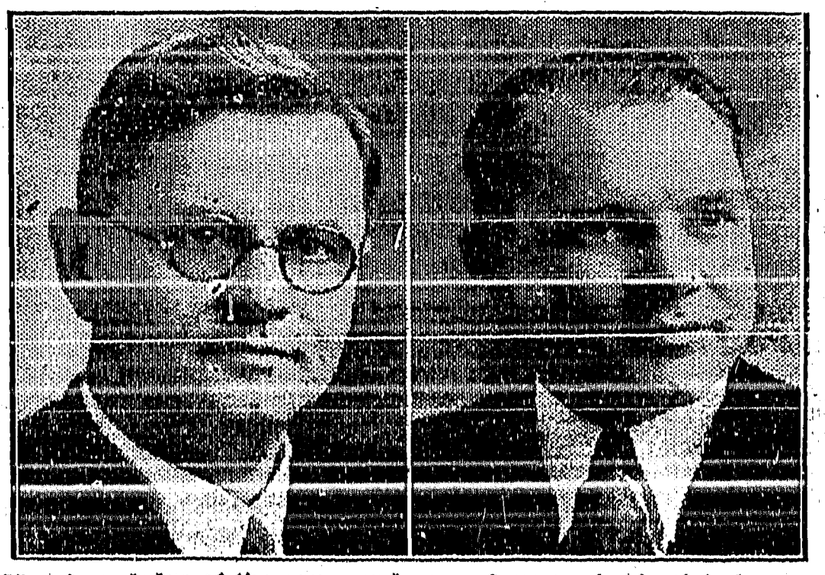
Originally planned as a trans-Canada nonstop refuelling flight, the flyers were forced to break up their flight when a broken oil line forced their ship down near Sudbury and delayed them three hours shortly after their takeoff from St. Hubert aerodrome, Montreal.

Practically the entire flight was made bucking strong head winds and rains which lashed the ship.

Trapper Lost In Arctic

Ottawa, Ont.—James Asesela, lone Fiji Islander, who for more than 20 years eked out an existence trapping along the Arctic coast and islands east of Coronation Gulf is listed among the missing, and is thought by the Royal Canadian Mounted Police to have perished on an ice floe north of the mainland of Canada.

CANADIAN MEDICAL MEN COMPLETE CANCER REPORT



New knowledge of the cause and cure of cancer is about to be revealed to the Cancer Institute of London, England, by Dr. F. J. H. Campbell (left), who with Dr. E. P. Johns (right), has been working for five years on cancer research for the University of Western Ontario. Dr. Campbell has sailed for England to present the unpublished report which is said to contain many startling discoveries.

REPORTS OF GUN RUNNING ON IRISH COAST

Dublin, Ireland.—President Eamon de Valera was bombarded with questions in the Dail Eireann over alleged attempts to land arms illegally on the coast of the Irish Free State. The president declared the government had taken all precautions that the representations warranted.

The discussion ended with Patrick McGilligan, former minister for external affairs, declaring he was unsatisfied and would again raise the matter.

In reply to questions, Mr. de Valera declined to say whether the Free State had sought the collaboration of other governments or had received any offer of collaboration of other governments or had received any offer of collaboration from "another government' 'to deal with the gun-running.

A member asked if the president was aware that a boat had been searched for arms two weeks ago. Mr. de Valera said the step had been taken in accordance with "general precautions." He declined to say whether boats had been searched at the authorities' request.

Unofficial reports some time ago said that vessels of the royal navy were on the look out for vessels reported to be attempting to land arms, probably for the illegal Irish Republican army.

Sensational Trial Ended

Mrs. Elvira Barney Acquitted Of Charge Of Murder

London, England.—A jury of 10 men and two women found that Mrs. Elvira Barney, 26-year-old daughter of a wealthy baronet, was not guilty of the murder of Thomas William Scott Stephen, her lover, who was shot to death in her flat after a party, May 31.

The verdict was reached after one hour and 53 minutes of deliberation.

Mrs. Barney collapsed when she heard it. A short time later, wholly freed, she left the Old Bailey and went to the home of her father and mother, Sir John and Lady Mullens.

The jury also acquitted Mrs. Barney on two other charges—one of manslaughter and another of intent to do Stephen, the son of a banker, grievous bodily harm by trying to shoot him during a quarrel a few weeks before his death.

A New Racket

American License Plates Cause Quebec Officials Much Worry

Quebec, Que.—The range of human ingenuity in the "racket" business seems to be unlimited.

The latest twist of humanity's preoccupation to make or save money is revealed in a statement by Quebec highway officials. They say 1931 license plates of several American states have been imported in quantities, and sold to Canadians who have thus saved license renewal fees.

The beautiful part of it all—for the offenders—is in the officials confessed inability to deal with the offence severely, because of the great number of "real" American citizens at present touring the province.

Wolves Of Algoma

Sault Ste. Marie, Ont.—Wolves of Algoma will strut before visitors during Wolf week, July 25 to 30, without fail. This was the assurance which was given Wednesday, July 6, by the committee in charge, when it was reported nine wolves were available already. Others are being sought. The wild life show will include moose, bear, deer, beaver, mink, and other animals seen in this territory.

Foot and Mouth Disease

Victoria, B.C.—Foot and mouth disease in cattle, prevalent in certain areas in the British Isles, has been definitely traced to the importation of foreign broccoli through scientific investigations conducted by Scottish agricultural organizations, says T. G. Coventry, British Columbia markets' representative in England, in a letter to J. B. Munro, deputy minister of agriculture here.

"Modern marriage is not made in heaven," says Rupert Hughes, the famous novelist. From Palm Beach to Reno---he shows why! See

F. V. Staples and Frank Putnam are business visitors at Beaverdell this week, leaving by motor on Friday.

At the nnual school meeting on Saturday night, R. M. Telford was re-elected trustee for another 3-year term, and with Mrs. Putnam and E. E. Cartwright will be the school board for the next twelve months.. E. J. C. Richardson was re-elected auditor. $1900 was voted to carry on with for the ensuing year, which is the same amount as last year.

Mr. and Mrs. Percy Adams of Cranbrook spent a couple of days here at the end of the week, guests of Mrs. Attwood at her ranch, returning on Saturday.

Mr. and Mrs. W. Mason, Vancouver were in Creston Thursday, en route from Regina to Vancouver. Mr. Mason, who installed the irrigation system in here in 1929, made an inspection of the plant. He has recently completed installation of a water works plant in Regina.

Mr, and Mrs Frank Brown and family of Lethbridg, were week end guests at the home of G. McWilliams. They left ou Tuesday. Mr. Brown is connected with the International Harvester Co.

Tom Manson, Jr., Kimberley, is a guest at the home of his uncle, G. McWilliams.

Alice Siding

Miss Joan Hilton, who has been attending commercial school at Vancouver since last fall, is home for the summer vacation with her parents, Mr. and Mrs. W. H. Hilton.

Miss Helen Moore, who teaches at Lumberton, arrived home last week for the summer holidays with her mother, Mrs H. H. Taylor.

At the annual school meeting Saturday night the trustees agreeably surprised the ratepayers by asking for only $400 to finance on the coming year, which is the same as the 1931 axation, despite the fact that the government grant has been reduced. W. H. Mather was re-elected trustee and with Victor Carr and Guy Constable are the new school board. E. Ostrensky was re-elected auditor.

A. Willis and wife returned from Saskatchewan, staying a few days with Mr. Willis' brother. They left for Freeport, I on Monday.

Mr. Martingale, of Elkhorn, Sask., is visiting his daughter, Mrs. Ira Willis.

Mr. and Mrs. James Eddy and family have taken up their residence on the Attwood place.

Women's Institute

The regular meeting of Creston & District Women's Institute was held July 8. Mrs. C. F. Hayes, vice president, was in the chair. Fourteen members and one visitor were present.

There was very little business requiring attention. The time of those in attendance was chiefly taken up with sewing for the hospital. Quite a quantity of the useful work was done.

The home industree committee reported that so far there was not sufficient articles of needlework promised for the exhibit at the Vancouver Fall Fair, and asked members to make a special effort in this direction.

The hospital committee held one sewing meeting during the past month. Sewing had been done and handed in by Mrs. E. Martin, Mrs. McKelvey and Mrs. Cherrington. Mrs Crai painted some bottles for vases. Donations were white rags from Mrs. Edmondson and Mrs. Maxwell, and a feather bed for making pillows from Miss Fleetwood. Mrs. Hopwood has made and donated a bed lamp for the W. I. ward.

At the close of the meeting tea was served by Mrs. Lowther and Mrs. T. Ross. The collection for crippled children came to $1.35.

Sirdar

Miss Ethel Staples of Cranbrook has been visiting in Sirdar this week, the guest of Misses Nora and Irene Pascuzzo.

Mrs. E. Martin was a visitor at Creston last Monday.

Mrs. Geo. Cam of Nelson, accompanied by her young grandaughter, Doris, also her two sons, Harold and Ronald were visitors at Sirdar last Thursday.

Work on the new coal shute at Sirdar is going right ahead, three bents now being in, at the beginning of the week

Mrs. Hopwood and daughter, Miss Helen of Vancouver, are visiting with Mrs. Hopwood's brother-in-law and sister, Mr and Mrs. R. Heap, arriving last Monday.

Masters Johnny Rogers and Charlie Lombardo returned from Mission Sunday, where they have spent the past week.

Dominic Pascuzzo who was a business visitor at Cranbrook, returned on Wednesday last.

The water guage at Slough bridge stands at 13.00. This is a drop of 2.60 for the two weeks.

Bass fishing is exceptionally good right now at the steel span at Athara, many having been caught in the last week. Char fishing appears to have slackened.

Mr. A. Goodwin was a visitor at Creston on Thursday. Lin Anderson was a visitor at Creston on Monday.

Fred Hagen, Vic. Johnson and Mr. Menhenick of Wynndel, came down by way of omter boat from Wynndel on Sunday with the intention of crossing the lake to fish, but owing the rough weather they had to postpone it.

The Rev. Dr. Brewing and Mrs. Brewing of St. Andrews-Wesley United church, Vancouver, arrived in Creston by motor on Sunday. They gave Rev. Walker and family a friendly call at the Manse and left Monday morning for Calgary, where Dr Brewing supplies the pulpit of Knox church for one month.

Egg Markets

Manager Murrell of the Farmers' Institute reports an egg price advance of 2 cents per dozen on July 11. Export price for the Crow market is Extras, 20c; Firsts, 18c; Pullets, 16c. Taking into consideration the depleted state of the local supply sales of ungraded eggs by producers direct to consumers should be at least 20c. Price to Trail retailers is the same as the Crow; sales made to this market of graded eggs should be on at basis. The Kootenay Poultry Association through the Robson Co-Operative agrees on this price with the retailers in Trail and any producer in the Creston Valley can always obtain the proper shipping prices he grading station. The B. C. Livestock Exchange's weekly market letter is now received by the institute ava lable to anyone seeking information on livestock prices. The poultry Market Review and the Canadian Fruit and Vegetable Bulletin are also on file.

Orangemen Parade

There was a good turnout of members of the local Orange Lodge to the United church on Sunday evening. The Rev. A. Walker preached a highly instructive and interesting sermon, in which he particularly touched upon the general history of the Orange order Mr. Walker is to go to Nelson on Sunday next, and will preach at the annual church services of Nelson Orange lodge.

The B. C. District Musical Festivals Association has been organized by music enthusiasts of Nelson, Trail, Nanaimo, Cranbrook, Kamloops and Kelowna.

Kaslo [illegible] a protest with publishers of the "Red Trail Map", issued from Lethbridge, regarding a statement made in that publication to the effect that Kaslo is a "ghost" mining camp of the last century.

JAM AND JELLY MAKING TIME

RASPBERRIES are now coming in, and jam and jelly making are getting into full swing. This household activity will continue until Fall.

This means you will be using MEMBA or CERTO all summer long.

How easy it is to make better jam with either of these preparations. We suggest that you always keep a supply on hand.
