THE CRESTON REVIEW

VOL. XXIV. CRESTON, B. C., FRIDAY, DECEMBER 2, 1932 No. 37

Irrigating 500 Acres, Wynndel

Most Every Acre Tillable—80 Per Cent. Cultivated—Ample Water from Duck Creek—Six Miles of Steel Main Pipe.

Five hundred acres at Wynndel will be under irrigation in ample time for 1933 productirn, with excavation work well under way for the main pipe line of the Wynndel Irrigation District water system now well under way. According to conservative estimates the whole work of laying this bipe should not take more than four months.

The area to be served may best be described by stating the east bouadary is at the Sam Moon ranch, and the district includes the Sam Heller place on the west side. On the south the water is taken below the C.P.R. tracks to serve the Monrad Wigen, R. Uri and other places in that locality, and on the north side the pipe serves as far up as the A. E. Hackett place.

Practically every acre in the tract is tillable, and 75 per cent. of it is cleared. Up to 80 per cent. is in cultivation, principally to raspberries, and strawberries, along with currants, some tree fruits, as well as vegetables.

Ample water is assured from Duck Creek. Measurements on the stream in the very low water of 1931, indicating not less than ten cubic feet per second, without the necessity of erecting any storage dam.

Plans, as prepared by engineer A. L. McCulloch of Nelson, provide for the laying of about six miles of main pipe; about a mile each of 16, 8 and 6 inch, and three miles of four inch pipe. All this is of steel manufacture, from the well known Scotch firm of Stewart & Lloyd, and the pipe is all delivered over the system.

In addition to irrigalion the system as laid out provides an ideal site for electric power plant installation, at a point where the water used for power can be turned back into the stream and be available for irrigation purpose. For the present the power development will remain in abeyance.

When completed the project will cost around $42,000. Towards this a loan of $30,000 has been obtained from the provincial conservation fund, and this latter amount is expected to pay in full for all material used, while the men employed on construction will be the landowners themselves, and they have agreed to work for a nominal cash wage per day, and to permit the unpaid wages to apply on their individual shares of the cost of the project.

The Co-Operative Fruit Growers Association of Wynndel is directly back of the project, and it has already arranged to finance the purchase of pipe needed by the individual growers, and will see to it that it is installed on the various places so that 1933 production will receive the maxlmun benefit of the water and expenditure.

Elias Uri, managing director of the Co-Operative Fruit Growers, is chairman of the irrigation district board of trustees, and associated with him are John Wigen, another director of the co-op., and R. C. Eakin. A. Spencer, the co-op., secretary, is the district secretary-treasurer.

Almost 40 landowners will benefit by the water and in addition to irrigation the system will provide a demestic supply of water of exceptional purity.

On the mainland Wynndel ranks as the largest strawberry producing section in British Columbia, with a 1932 output of 20,000 crates, which will possibly rise to 25,000 in 1933 as along with the water there was quite a considerable new acreage planted to strawberries last spring. The 1932 raspberry shipping was almost 2000 crates, and for 1933 an advance to 2500 is looked for.

Wynndel has exceptional facilities for strawberry shipping. In 1927 a commodious and fully modern pre cooler was erected by the Co-Operative Fruit Growers Association, which was fully paid for at the time of completion, and this year the "cooler" not only handled the strawberry crop, but also loaded out mixed cars of raspberries and cherries most of the latter coming from the Creston-Erickson section, as well as points down Kootenay Lake.

Co-Operative marketing has met with outstanding success at Wynndel. Today 98 per cent. of the Wynndel fruit crop, as well as vegetables, are handled through the Co-Operative Fruit Growers Association, which has about 65 shareholders. The association was organized in 1913 with but seven members, some of whom were not shippers at that time.

Along with berries and currants Wynndel is beginning to give attention to apples and cherries, shipments of the former this year running to about 6000 boxes.

Kitchener

G. A. Hunt has taken delivery of a carload of flour and feed.

Frank Horkey arrived on Wednesday from Cranbrook to work with the Sash & Door Company at Hazel Creek.

C. H. Perkins of the M7 ranch shipped 45 head, or two carloads, of beef cattle to Calgary, Alberta, stockyards. He departed for Calgary on a business visit the same day.

Mrs. M. Manuel of Creston arrived on Friday on a visit with Mrs. C. Senesael. She returned Monday.

A. Ragotte and Mr. Maver of Belson arrived on Saturday for a few days' hunting. Both were lucky, in each getting a buck. While here they are guests at the home of Mrs. C. Senesael.

Miss Hazel McGonegal, who attends high school in Creston, and who has been on the sick list, arrived home on Thursday, but well enough to return to school on Tuesday.

Lewis and Claude Simpson, who have been spending some time at Macleod Alberta, arrived home on Saturday.

Misses Sarah and Laura Brett of Canyon arrived on Saturday on a visit at the home of Mr. and Mrs. J. Hankey.

Mrs. Chas. Nelson and daughter, Laura, who have been on a visit at Salmon Arm, with their daughter and son-in-law, Mr. and Mrs. G. McPhail, returned on Monday.

Birth—At Salmon Arm, October 6th, to Mr. and Mrs. Gordon McPhail (nee Elsie Nelson) a daughter.

Erickson

Erickson Christ Church Ladies' Guild had a special meeting at the home of Mrs. Putnam on Tuesday afternoon.

Ed. Kopenic arrived on Saturday on a visit with Mr. and Mrs. J. E. Healey.

Geo. Leadbetter is taking the week off for a hunting trip in the Wynndel district.

Richard Hall, who has been holidaying with his parents, Mr. and Mrs. John Hall, for the past three weeks, left on Thursday for Revelstoke, where he is on the Imperial Bank staff.

E. E. Cartwright had a number of men at work at the end of the week lowering part of the Erickson irrigation system water pipes at a number of places. It looks like a cold winter.

Some of the men on West Kootenay Power & Light Company construction crew are busy building two garages on the old Erickson hotel lot.

Mr. and Mrs. J. G. Connell returned on Thursday last from a two weeks trip to Lacombe and Edmonton, Alberta.

Erickson Ladies' Hospital Auxiliary had the November meeting on Tuesday at Mrs McKelvey's at which it was decided to have the annual bridge on January 6th, on which evening the drawing will take place for a wool comforter.

Up to the end of the month 122 carloads of apples have been shipped from Erickson This is somewhat less than a year ago, but this is accounted for in the fact that more apples are in storage than at December, 1931.

The bridge at Erickson school Saturday evening for the Christmas tree entertainment was a complete success. The high scores were made by Mrs. Boninger and R. P. Brown of South Slocan, and the low scores by Miss M Carr and Con. Nygaard. 12 tables were in play, and an excellent supper was served.

Drastic Change Train Times

Commencing December 11 No Afternoon Trains—Eastbound Due Six A.M.—Westbound to Go Through Two Hours Later

According to daily press reports Creston will on Sunday, December 11th, experience a change in C.P.R. train service that will deprive it of a midday and late afternoon train service it has been accustomed to for the past quarter century.

Effective that date the eastbound train will go through from Nelson about 6 a.m. town time, and the westbound will go through here at approximately 8 a.m. town time. Up till Thursday no information was to hand of the exact time of arrival.

On the new schedule there will be no stop over at Nelson either way, and passengers will arrive in Vancouver about 10 a.m. Eastbound connection will be made with the mainline train at Medicine Hat.

Westbound the change will work a great improvement to through travelers, but passengers for Calgary, Alberta, will not be so happy, as the night train between Lethbridge and that city has been cancelled and it will now be necessary for Calgary bound travelers to spend a night at Lethbridge.

Lister

R Stevens got back last week from a visit with his son, Ernest, at Trail, and a short stay with friends in Nelson.

Col. Lister was at Nelson at the weekend, where he met Mrs. Lister, who has just returned from a visit at coast points.

Charles, John and Elmer Huscroft spent the weekend on a hunting trip in the Boundary creek district. On the outing the former had the good luck to bag quite a fine buck.

Ivor Gustafson is one of the local residents who has secured employment with the West Kootenay & Light Company on their development work at Goat River canyon. He is on the carpenter crew.

Fred Powers pen of White Wyandottes in the 52-week egg laying contest at the Dominion experimental farm at Brandon, Man., are beginning to get into the lay on much the same scale as at this time in last year's contest.

At the very popular admission price the Community Society cleared $14 at the dance on Saturdap night in aid of the Christmas treat fund The Canyon orchestra supplied the music, and was made up of Mrs. Kolthammer, L. W. Stephens and Miss Holly Bond.

The Jas. Huscrost baling machine is at work at the W. P. Edwards ranch this week, and is putting about 50 tons of alfalfa into bales.

Rev. Carl Baase of Creston was here on Sunday afternoon for the fortnightly Lutheran Church service at the schoolhouse.

School is due to close for the Christmas vacation on the 16th, which will necessitate having the closing concert rather early this year. Practices have been under way for the past three weeks.

H. Wolfrum is counting on supplying much of the local demand for Christmas turkeys. He has a flock of 200 of them. His birds gave great satisfaction at Christmas dinners last year.

BAZAAR

The annual Bazaar under the auspices of the Woman's Auxiliary of Christ Church will be held in

Parish Hall
CRESTON

SAT., DEC. 3rd

3.00 to 6.00 p.m.

OFFERING:

Plain and Fancy Sewing

Candy
AFTERNOON TEA

Everybody Welcome!

Canyon City

Mrs. and Miss Edna Cross left at the end of the week by train for Winnipeg, Man., where it is expected they will spend the winter.

Harry VanAckeran, who has been with Crestland Fruit Company, Limited, at Oliver, for the past four months, arrived home on Tuesday. The firm have finished the season's operations at that point.

Canyon Farmers' Institute have the December meeting on Saturday night at the hall. Various matters will be up for discussion, including the final arrangsments for the debate with the United Front-Farmers' Unity League debators.

At the special meeting of Canyon Water Users on Saturday night the vacancies on the board due to the retirement of Jas Turner and Jas. Bateman, were filled by the election of Phons Huygens and Andy Wickholm.

Canyon had a visit from a traveling show company at the hall on Saturday night, which attracted a rather light attendance.

For the first time in many years December 1st has arrived and as yet no Canyon residents have secured a supply of venison. Deer are scarcer than ever in this district.

About half a dozen men from here are at work with the crews on the Canyon power development. W. Cook is with the carpenter crew, and L. Clark has his truck on the job.

Although there seems to be no end to the rain this area has been favored with this year, ranchers who have been busy with fencing operations say that it has not gone down more than two feet. Below that point the earth is real dry.

Mrs. Kolthammer, L. W. Stephens and Holly Bond made up an orchestra that played for a Community Society dance at Lister on Saturday night.

The final dance in connection with Canyon children's Christmas concert and tree will be held in the hall tonight, 2nd, with an admission of 35 and 25 cents. Roy Browell has consented to act as master of ceremonies.

Kitchener School Report

The high standings at Kitchener school for November are as follows, according to the report just issued by the principal, Miss Jessie W ite: Grade 8—Myrtle Anderson 83. Grade 6—Frank Huson 74, Helen Oja 73, Leonard Bohan 69, Jack Langlois 63, John Bohan 60, Alta Blair 58, Robert Johnson 58. Grade 4—James Huson 74, Joe Langlois 74, Jean Blair 66. Alice Bohan 64. Grade 2—Mary Bohan 68, Lillian Hankey 66. Grade 1—Ralph Abar, Marjorie Blair, Maxine Nowlin, James Bohan, Alton Nowlin, Jack Huson, Harold Nelson.

Champion Fishermen

The 1932 fishing contest conducted by Vic. Mawson closed at the middle of November and this year's champion bass catcher is E. K. Holdsworth whose prize effort was one weighing 4 pounds 10¼ ounces, with a length of 20½ inches, and girth 14 inches. Second prize went to W. F. Tillotson, whose best showing was one weighing 4 pounds 1½ ounces; length 19 inches, and girth 14 inches. J. L. Handley won first place for eastern brook trout with one weighing 2 pounds 2 ounces; 17¼ inches long, and girth of 10½ inches. For boys under 14 years the winner was Edward Brady with a 3¼ pound squawfish, 23 inches long and girth 11 inches. Vic. reports a heavy entry in the bass competition, although the winners had one somewhat lighter than the prizewinner of 1930.

League Race is Close, Basketball

High Reps. in Front in Ladies' Section—Centipedes Lead in Men's Division—High Boys and Dominoe3 Still to Win.

LADIES

	Pld.	W.	L.	Pctge.
High Reps	3	3	0	1.000
Ex-High	4	3	1	.750
Meds	3	1	2	.333
Highfliers	3	1	2	333
Dominoes	3	0	3	.000

MEN

	Pld.	W.	L.	Pctge.
Centipedes	2	2	0	1.000
Bearcats	1	1	0	1.000
Imperial Groceteria	2	1	1	.500
High	3	0	3	.000

Fans got their dime's worth of thrills at Friday night's games, when they witnessed three of the hardest-fought games to date.

In the curtain-raiser, the High Reps seemed to find it Hard to get going and barely nosed out the Ex-High, 9-7, to take the head place in the league. It was Mary Abbott's game, her harn playing saving the High Reps from defeat. Elizabeth Armitage and Helen Browell were the pick of the losers.

The second game saw a hard battle between the Dominoes and the Highfliers. Half-time score was 4-2 in favour of the former, but before the final whistle the two point lead was reversed, Highfliers winning 8-6. Ruth Hare played a good game at guard for the Highfliers, and Phyllis Macdonald showed up well as forward. Nora Payne, captain of the Dominoes, played a beautiful game at centre.

In the third game a rapidly-improving High School team made the Centipedes look sick as far as speed was concerned. The latters' shooting was especially weak, except for Harry Webster, who scored five field goals. The High School is shaping up as a real threat to the other men's teams. The game was very rough, due chiefly to the inexperience of the High School boys. Centipedes won by a score of 16-11.

In Tuesday night's junior games, Public School defeated the Highwaymen, 22-16, and the Pirates won from the Highbrows, 12-5.

High Reps—Bourdon, Payne 3, Y. LaBelle, Crane 2, Speers 2, Moors, Abbott 2, O. LaBelle; Total 9.

Ex-High—McGonegal, M. Armitage, Olivier, Macdonald, Ross, Payne, Browell 2, E. Armitage 5; Total 7. Referee: E. Marriott.

Highfiiers—LaBelle, Macdonald 4, Tompkins, Palmer 2. Phillips, Hare 2, Downes; Total 8.

Dominoes—M. Macdonald 2, Henderson, Payne 4, Walker, Sanford, Downes, Cartwright, A. Macdonald; Total 6. Referees: C. Macdonald and M. Levirs.

Centipedes—Tully 2, Freeney 2, Marriott, Webster 10, Sostad, Moore, Levirs, Farris 2; Total 16.

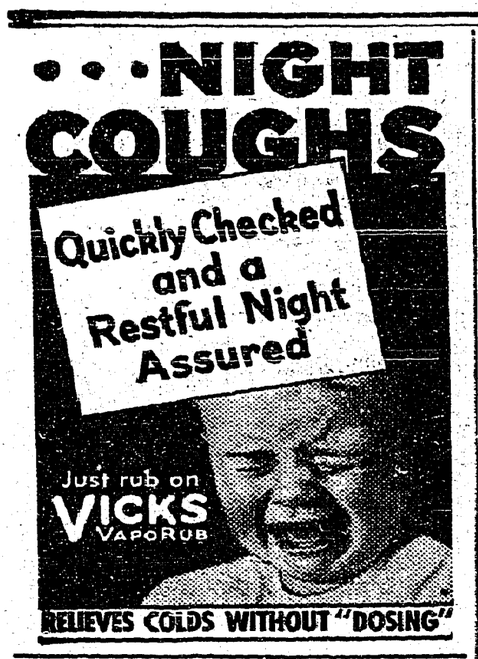
High—Telford, Payne 4, Miller 2, Young 3, Speers, Nichols, Scott 2, Dodd; Total 11. Referees: G. Kelly and C. Macdonald

K.P. Officers

Wild Rose Lodge Knights of Pythias had the semi-annual election of officers at the regular meeting on Thursday night last at which officers for the next six months were chosen as follows;

C.C.—Vic. Mawson.
V.C.—Fred Hagen.
Prelate—Fred J. Hale.
M. of W.—E. C. Clark.
K.R. & S.—Joe Romano.
M. of F.—Osborn Bell.
M. of E.—A. E. French.
M. at A.—W. G. Hendy.
I.G.—W. J. Craig.
O.G. Jack Dodds.

The newly-elected officers will be installed at the first regular meeting in January.



WORLD HAPPENINGS BRIEFLY TOLD

Political considerations will be cast aside in the selection of men for the tariff board, Premier R. B. Bennett promised the House of Commons.

Friend of Louis Reil and the man who brought the rebel's body to Winnipeg for burial after his execution in Regina, in 1885, Arthur Suave, is dead in his 73rd year.

A total of 187 Japanese and one Chinese were admitted to Canada from June, 1931, to November 1, 1932, according to a return tabled in the House of Commons.

Abbott Lawrence Lowell, 76, one of the world's noted educationists and for the past 23 years president of Harvard University, has resigned. No reason was given.

Liquor revenue for British Columbia under the government liquor board for this year is off 40 per cent., according to a preliminary report compiled by government auditors for the information of the cabinet.

First shipment of its kind, some 12,000 tons of Russian fuel oil arrived at Montreal recently. Since September three shiploads of crude oil rom Soviet Russia reached the Montreal port.

A group of Harvard undergraduates have begun organization of a permanent "Harvard League of Nations," in which students from all countries represented in the university would have membership.

Nine sleek Alaskan sled dogs headed out of Copper Centre, Alaska, on November 20, en route with their driver, Clyde Williams, veteran of 31 years of prospecting, trapping and mushing in the northland, on an overland trip to Chicago.

Canada gave whole-hearted support to any and every constructive proposal for the limitation and reduction of armaments which was laid before the Geneva disarmament conference. Sir George Perley, who headed the Canadian delegation, informed the House of Commons.

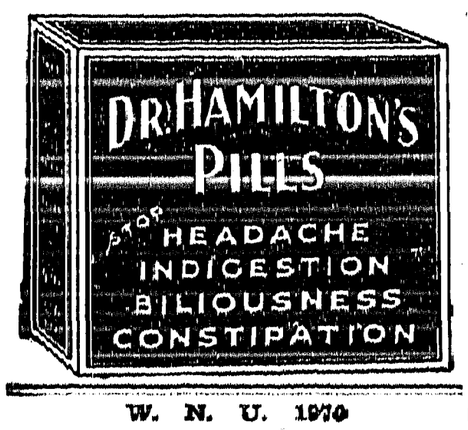
Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable in cases of croup, sore throat and quinsy. Keep a bottle handy.

Men In New Business

Contend There Is Room For Them As Manicurists

Entering a field hitherto belonging exclusively to women, six Edmonton young men have finished training as manicurists. And they're deadly serious about it.

The head of a prominent school of beauty culture in the east gave them their training. Economic conditions forced them into this experiment, but they don't intend to compete with women manicurists. There's room in the field for both, they say.



W. N. U. 1970

Government May Remove Some Dumping Duties

Certain Imports From Great Britain Are Under Consideration

The Canadian Government is giving "serious consideration" to removal of exchange dumping duties from certain imports from Great Britain. This was announced in the House of Commons by Hon. H. H. Stevens, Minister of Trade and Commerce.

Canada promised "sympathetic consideration" under the Anglo-Canadian treaty to removal of currency dumping duties from British imports.

A Pocket Sheep-Shearer

Small Machine Can Run From Lighting Battery Of Car

A small machine for shearing sheep weighing only five pounds, has been invented for use with the lighting battery of a motor car.

Many modern shepherds in Britain go to and fro by car, and with such a shearer—attached by a flexible wire to the dashboard—they can remove 12 pounds of fleece in five minutes.

Winnipeg Newspaper Union

Fashion

By Ruth Rogers

A DARLING NEW MODEL IDENTIFIED BY ITS RAGLAN SHOULDERS WITH PUFFED SLEEVES

The raglan shoulders in this charming daytime dress have much to do with creating sleeve interest.

It is gay red rough crepe silk. Contrast is provided by the black, rough crepe collar. Buttons give decorative touch. They are made of the black crepe with the red crepe used for the rims.

It's as simple as eating apple pie to make it.

It's a dress that you can wear for street or afternoon parties.

Style No. 938 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust.

Size 16 requires 3¾ yards 39-inch with ¼ yard 39-inch contrasting.

Crinkly crepe satin, wool crepe, velvet and wool and crepe silk novelties are also appropriate.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

HAPPY TO BE 136 Lbs

Lost 38 lbs. — More To Follow

Most women would be alarmed if their weight showed 136 lbs. But not this one. You see she was 174 lbs. and she has found a way to take off that disfiguring overweight.

She writes:—"Six months ago, when my weight was 174 lbs., I started to take Kruschen, and have gradually got down to 136 lbs.—and am still going down. I have not altered my diet at all, and I only take a half-teaspoonful of Kruschen in a glass of hot water every morning. I also find Kruschen very good for biliousness, from which I used to suffer a great deal. But it has completely left me now—in fact, I feel a different person, and have only to thank those wonderful Kruschen Salts."—(Mrs.) M. K.

Taken every morning, Kruschen effects a perfectly natural clearance of undigested food substances and all excessive watery waste matter. Unless this wastage is regularly expelled, Nature will eventually store it up out of the way in the form of ugly fat.

One bottle is enough to prove to you that Kruschen will make you feel younger—spryer—more energetic—you'll enjoy life—every minute of it.

Complete Moth Collecton

Manitoba Men Proud Possessors Of Every Known Specimen

Manitoba has discovered herself the home of two of the greatest butterfly and moth collections in the world. They are owned by J. Hannibal, Winnipeg, and Jack May, of Riding National Park.

Comprising insects of varying size and design the two collections are representative of the entire world's entomological phenomena.

The "Silex" as it is called, is the Cattagramma from Columbia. South America, with two perfect numerals on its back, reading 89. Another has a death's head on its back, and still another a pair of owl's eyes. The specimens vary from the Great Hercules moth with a wing spread of eleven inches to others that are so tiny they can be hardly seen with the naked eye.

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

In classical mythology, elysium meant the place where the souls of the good dwell after death.

A gun, if fired under water, will generally explode.

SUNDAY SCHOOL LESSON

DECEMBER 4

LIVING WITH PEOPLE OF OTHER RACES

Golden Text: "Of a truth I perceive that God is no respecter of persons."—Acts 10.34.

Lesson: 1 Kings 8:41-43; Luke 10: 25-37; John 4:5-10; Acts 10:9-19, 28-35; 17:22-28.

Explanations and Comments

Jesus Was No Respecter Of Persons, John 4:5-10.—We have in this incident the example of Jesus in dealing with a representative of another race. This was our text for the Fourth Lesson of the First Quarter, and Explanations and Comments there may be recalled.

"The world menace of interracial friction and antagonism constitutes the supreme concrete challenge to the Christian belief that all men are the children of God."—Basil Matthews.

The Lesson Peter Learned About Other Nations, Acts 10:9-35.—While praying on a house top in Joppa, Peter had a vision of a receptacle resembling a great sheet let down from heaven by its four corners, and in it all manner of four-footed beasts and creeping things and birds, and he heard a voice bidding him kill and eat. Horrified at the thought, Peter exclaimed, "Not so, Lord, for I have never eaten anything that is common or unclean." The Levitical law prescribed what animals could be eaten and how they should be slaughtered, and all else was held to be unclean.

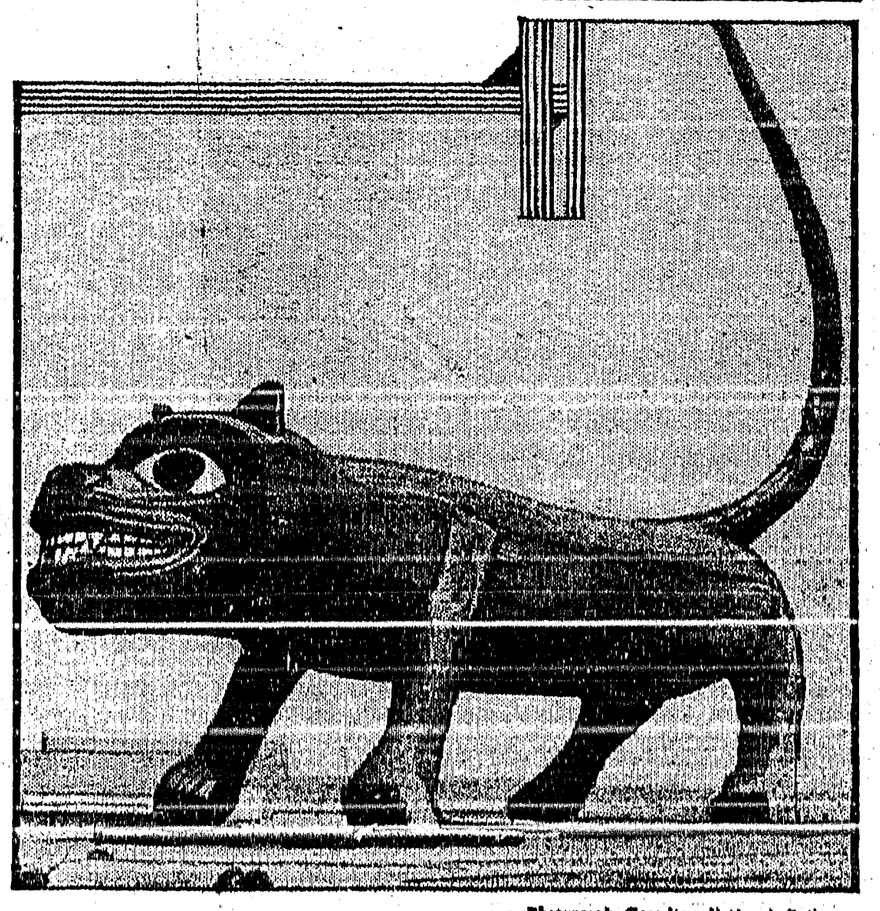
"What God hath cleansed, make not thou common," were the words the voice uttered to the astonished Peter. What God had made and given was good in His sight. Apart from the symbolic meaning of the vision, it was important for Peter and all the leaders to recognize the fact that the distinction of meats held by the Jews in the past must now be given up, in order that Jews and Gentiles might eat together, associating on terms of equality.

Peter was pondering the meaning of the vision when messengers arrived from Cornelius, a Roman centurion at Caesarea, a devout man who was generous to the poor. They were men of another race, whom before this Peter would have called "unclean," but with his lesson in mind Peter bade them enter and lodged them over night. The next day he accompanied them on their return to Cornelius. He took the precaution to take with him six brethren as witnesses, for he felt that he was doing a venturesome thing. Cornelius told Peter of the vision he had had, in which he was directed to send for the latter, and said that he and his friends and kinsmen were all present "in the sight of the Lord" to hear what God had commanded Peter to tell them.

After fourteen years of flying, Douglas H. Davis, air mail pilot, of Griffin, Georgia, has completed 1,000,000 miles in the air.

A forestry course for army recruits has been instituted in Norway.

Do You Know?



—Photograph Canadian National Railways.

—THAT in many parts of northern British Columbia the Indians, in addition to erecting totem poles to commemorate the deeds of some members of the tribe, also build grotesque figures to frighten from the villages such evil spirits as may wish to work harm upon its inhabitants? Here is pictured one of the animals—a mountain lion perhaps—at Kitwanga in northern British Columbia.

Steamers Missed Rock Through Good Luck

Found Near Surface In Channel Off Vancouver Coast

Lady Luck has been standing on the bridge of every steamer that has navigated Reilly's Cove, Clayoquot Sound, West Coast of Vancouver Island, because in the dead centre of the channel there is a pinnacle of rock that had less than fifteen feet of water over it at low water.

This pinnacle was located by the Dominion hydrographic steamer "Lillooet in the course of her charting work and a lot of mariners are shaking hands with themselves at getting over that dangerous spot without trouble.

How ships missed piling up on this rock is explained by the hydrographers that none happened to be in the neighborhood at low water. "Just a matter of luck," said one of the hydrographers.

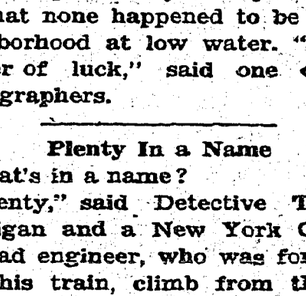
Plenty In a Name

What's in a name?

"Plenty," said Detective Thomas Hennigan and a New York Central railroad engineer, who was forced to stop his train, climb from the cab and help shove an automobile from the railroad tracks where it apparently was abandoned. The automobile was parked on the tracks by a man named Leavitt.

Seeds from water lily pods are used by Indians as food, and taste like popcorn when roasted.

"I haven't been so happy for years"



"I've just thrown out all my dust cloths

—because I've found how to do the work better, easier and quicker.

"I use Appleford Wonder Paper now. You buy it in a neat package that tucks away handily in a table drawer. Twenty-five large sheets for a quarter. When you use it, you simply crumple a sheet into a soft wad and go over whatever needs attention.

"I've never seen anything like Wonder Paper. It really dusts, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides.

"What I used to loathe about dusting was the bother of keeping the dusters clean. I always used odds and ends of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw them into a bag or cupboard. They seemed so unsanitary.

"The beauty of Wonder Paper is that you throw it away when you're through with it.

"I can promise that you'll like Wonder Paper. It gives you time for things very much more attractive than dusting."

Special Offer

WONDER PAPER is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have *Appleford Wonder Paper* in stock. If yours hasn't, send us the coupon below and we'll give you a booklet entitled "Leftovers", containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one package of *The Wonder Paper* and your 100 recipes for "Leftovers".

CHAPTER 11.

A Northern Man

At Fort Endurance, in his big three-roomed cabin overlooking the rest of the post, Alan Baker was changing uniform and making himself regimental again, after a four-day patrol to a camp of drunken Hares.

Just turned thirty, tall and lanky and powerful of body, Baker had shaken off the last vestige of an unhappy boyhood and his three harrowing years Across. He was in the prime of virile and hardened manhood. Coming here to Endurance as a corporal seven years ago, with Jimmy Montgomery and Curt Spaulding, as his constable, he had speedily showed his worth as a "northern man" and a detachment leader able to cope with frontier problems. To him it was like coming into his own. In his boyhood he had daydreamed of hunting big game; and here, at this post just beneath the Arctic circle, these daydreams had been realized, though in a strange way. For here he had hunted the biggest of big game—human game that had intelligence to match against his; that carried a rifle in its hands, and wore a belt-gun, and must be captured alive, at risk of his own life.

During the years that he had been officer commanding here, he had built up an enviable reputation. With his gradually increasing pack of northern men he had successfully brought his big territory through Indian troubles and epidemics, and had smashed those lawless elements that came in with the oil-prospecting rushes farther south.

With a record like that and with Superintendent Williamson as his friend, Alan had expected to get his commission last fall when the post was raised to an inspectorate. No one in all the Three Rivers country doubted that Baker would be the chosen man. To them, to Alan, the blow came unexpectedly. A political appointee named Haskell, a newcomer to the Force, a worse than raw newcomer to the North, got the inspectorship and command of this coveted detachment.

In these last months, Alan had been very thoughtful about his future. Here, at thirty, he found himself in a blind alley, a non-com on meager pay, with no hope of promotion. He had turned down the opportunity of going into a big mining company that was prospecting by 'planes through Athabasca country. He had refused half a dozen offers that held prospect of advancement and fine money. And then the Force that he had given such loyalty to had betrayed him. Worst of all, most stinging of all, he was forced to manage this territory still, straightening out the mistakes and enduring the arrogance of the man who had got the place he himself had earned.

As he brushed his sandy hair and dressed quickly, Alan's glance strayed down the slope to Mrs. Drummond's flower garden. Elizabeth Spaulding, his fiancee, the sister of his dead partner, was there.

And Inspector Haskell was there with her . . . that blue and gold of his uniform, through the shrubbery . . . Alan wondered how many hours Haskell had spent with Elizabeth in these last four days.

Commanding all the other buildings at Fort Endurance, Alan's cabin, which he and Curt Spaulding had built for themselves one summer, was light and airy, homelike with fireplace, bookshelves, radio, flower pots on the ledges; and comfortable with good furniture which Jimmy Montgomery had turned over to him when Jimmy's young wife died. But in spite of its comforts after barrack life, the cabin was lonely to Alan. Eighteen months rolling by had not made him forget a dead partner. Every log and every nail in the building held some memory of Curt Spaulding; and Curt's picture, his chevrons, his empty gun, were poignant reminders of that fatal patrol a year ago last January. . . . .

When he finished dressing, Alan stepped over to a deep alcove, a sort of library and study—a tiny niche for a man so tall and lanky. Above the work table hung a shelf of dog-eared books and three pictures framed in carved walrus ivory. One was of Elizabeth Spaulding taken two years ago when she came down north to this Waterways country to live with Curt, her brother. Another was of Jimmy Montgomery in jaunty "walking-out" uniform, taken before Jimmy got his raw deal from headquarters and bought out of the Mounted.

The third was of Curt Spaulding. And that picture, flanked with the chevrons and the belt-gun, hung more prominently than even the other two, as though, with that face always in front of him, Alan felt less lonely for his dead partner and could imagine Curt here in this cabin still.

In Curt's death he had lost the best and truest friend he had ever had or ever would have; and he knew that through all the years of his life he would be lonely for that strong handclasp and a voice he once had known.

From a pigeonhole between two logs—a secret mailbox for himself and his hard-working men—Alan pulled out a scrawled note from Corporal Bill Hardsock. He had to smile as he read, for the note was so like Bill.

"Somebody found an awfully dead Smoky on a mud bar down river this side the Big Alooska, Alan. He probably got drowned in the break-up but I'm going down to see who he is so's he won't be drawing treaty money by proxie for the next 20 years."

Alan sat down to write out the report of his last patrol. But his thoughts strayed to Elizabeth in the garden; to Haskell, there with her. He knew that these trips he constantly was sent on, these trivial assignments that took him away for days at a time, were deliberate on Haskell's part, to get him out of the road. With anger at this gross abuse of authority, he thought: "If Haskell could come within a mile of managing this post himself, he'd frame some detail to keep me out in the bush altogether. Any person who'll wield his official power in a personal matter like this . . . They used to cut off a knight's spurs with an ax!"

There was little passion in Alan's emotions toward Elizabeth, but there was a sturdy loyalty and a certain blind idealization of her as a girl. In that fatal patrol he and she, had suffered a mutual loss of partner, brother. During the eighteen months since then, he had been her only friend here at Endurance, for even Mrs. Drummond, with whom she was living, did not like her. To have a girl so dependent upon him, not only for friendship but for maintenance itself, aroused a very tender and protective attitude in Alan.

"But at times, deep in his heart, he was troubled about his engagement to Elizabeth. At times the fear rose in him that their marriage was going to be a terrible mistake. Something lacked in their betrothal; they weren't the deep and intimate friends they should be.

It shocked him to realize he was going into marriage with a girl knowing he did not love her whole-heartedly. In brooding hours, when he thought of another girl in his life, of Joyce MacMillan and his comradely intimacy with her, the old longing for that deeper and richer relation surged through him. He grew bitter at the secret powerful circumstances which had separated him from Joyce; which he kept locked within himself, telling no one, neither Joyce nor Elizabeth.

Father Claverly, alone, of all the people at Endurance, knew that there was something back of that engagement which Alan had kept to himself—some hidden reason, some unalterable fact, that would explain it. At first he had thought that the profound shock of a partner's death had caused Alan to turn to Elizabeth; but with the passing months he became convinced the reason was not that. It was something deeper and more lasting.

With infinite sorrow Father Claverly had seen Alan's fine comradeship with Joyce break up and had watched the engagement come about. He saw that Elizabeth was a wise, cool-headed girl, very clever at managing relationships for her own ends In the good priest's opinion the marriage of this cool-headed, calculating girl to a man so sincere and warm-hearted, would be a sorry, sorry pass.

When Elizabeth came in the door, she merely nodded to Alan's warm greeting. In her precise tones she said:

"I want to talk to you, Alan, about something very important to us both. Unless you're too busy . . . ."

Her rebuff hurt Alan. Her coldness, her lack of any passion, were always bewildering to him

Waiting, painfully aware he could never answer her arguments, he glanced out the window at the river and shimmering pine hills. A mile down the broad Mackenzie a canoe, a small patrol craft with outboard motor, came whipping around a headland.

Alan thought: "That's Bill Hardsock coming. And coming wide open. Something's happened.

Elizabeth saw the craft, too. But she glanced only once at it, entirely uninterested. Police work—patrols, arrests, map surveys, treaty money, pelts to be stamped, bickering Indians—all this bored her, now that the novelty of it had worn off.

She loved Alan—with reservations. She admired his natural-born leadership over other men; admired his rugged honesty, especially in contrast to Haskell's lack of it. In their life together Alan would always be loyal to her; she could always depend upon Alan Baker. And he could get her what she wanted of life. Much better than he himself did, she realized he had qualities that would take him far in any other profession; a good intellect, ambition, the ability to work hard, and—most valuable of all—a rare capacity for friendship.

All in all, Elizabeth felt that if only he did not choose to bury himself here in this northern backwoods Alan Baker was by far the likeliest man, of the four or five she had known well, to lift her out of genteel poverty to a more agreeable plane of life.

(To Be Continued).

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver Bile
—No Calomel necessary

For you to feel healthy and happy, your liver must pour two pounds of liquid bile into your bowels, every day. Without that bile, trouble starts. Poor digestion. Slow elimination. Poisons in the body. General wretchedness.

How can you expect to clear up a situation like this completely with mere bowel-moving salts, oil, mineral water, laxative candy or chewing gum, or roughage? They don't wake up your liver.

You need Carter's Little Liver Pills. Purely vegetable. Safe. Quick and sure results. Ask for them by name. Refuse substitutes. 25c. at all druggists.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Many mine strikes have been reported in Scotland this year.

Rents have risen 70 per cent. in Copenhagen since 1916.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, DEC. 2

Pear Blight

The past summer this bacterial disease has spread throughout Creston municipality and north around the foot of Goat Mountain.

Orchard owners at this time of year will easily recognize it as the affected leaves are dark in color and still adhering to the limbs; the bark of tee affected limb will also be depressed and dried up in appearance and dark in color. The disease also affects transcendent crabs, Spitzenberg apples just as badly as some of the ssuceptible varieties of pears. Young grown, Wagners, Jonathans and Wealthies are also attacked. and are capable of holding the disease over until next year when the canker formed becomes a source of infection.

Owners at this time of year should cut out a foot or more below the affected part, collect and burn all such prunings; if left to later in the season it may become harder to distinguish slight traces which if left will continue to spread down the limb and help to become a source of infection next year. Insects, birds, etc., spread the bacteria, as they visit the affected area, then fly to other parts susceptible to infection, such as the bloseoms, open wounds, etc., whereever the bacteria can gain an entranco to the canbium layer. The disease works rapidly during the early summer period of succulent growth but begins to dry up when the hot weather comes, and remains dormant all winter.

C. B. TWIGG.

Wolly Aphis

Some gardens and orchards are apparently never free from the ravages of American Blight, whether through lack of attention or because the trouble has become chronic through years of past neglect. The presence of the pest is easily seen by the white woolly stuff surrounding them. The easiest method of dealing with the pest is spraying with paraffin emuision; the most deadly painting all affected parts with methylated spirits and water in equal proportions. Another methud which I have used with good results is to paint them with boiled linseed oil; this kills the insects by clogging the breathing pores of their bodies. After the leaves have fallen and while the buds are still dormant the trees should be sprayed with a winter wash made by dissolving two pounds of caustic soda in ten gallons of water, applying it forcibly to all parts of the tree.—R.H.S. Bulletin.

Wynndel

Percy Cockle who has been working at Alhambra, Alta, returned home last week.

Mrs. Stevens and daughter, Mildred, were Nelson visitors last week.

The drawing for the Women's Institute wool rug took place and the rug was won by Mr. Nicholson of Cranbrook.

A meeting of the committee of Wynndel Recreation Company, Limited, has been called for November 29th.

Meeting of K.K.K. held last Wednesday decided to hold meeting as usual this year, each Wednesday evening. Last year's officers were re-elected: F. Hagen, president, F. Menhenick, secretary-treasurer. Dancing brought the evening to a close.

The second bridge drive for the Christmas Tree funds was as successful as the first $12 being received. High scores went to Mrs. Martell and O. Hagen, consolation to Miss D. Moon and C. Wilson.

Quilting bees are still popular. There were two of them last week, one at the home of Mrs Abbott and the other at the home of Mrs. E. Uri. Two very fine wool comforters were completed

OUR K.B.O. BROADCAST

The Turnbull apiary at Penticton will have a honey crop of 35 tons.

At Cranbrook the beer parlors are now remaining open till 11.30 p.m.. and opening at 10.30 a.m.

At Kaslo the town policeman has been instructed to have all children off the street at 8 p.m.

But eight cases were heard in Cranbrook police court in October. $97 in fines was collected.

At the Catholic Church bazaar at Cranbrook last week there were a total of 34 drawing contests.

The Trail smelter has just placed an order for 75,000 tons of coke with the mine at Coleman, Alberta.

From spring to fall Penticton this year had 171 days free of frost. The 17-year average is 175 days.

Penticton shippers through the Associated Growers have received $54,564 for this year's peach crop.

621 pupils at Kimberly school have accounts in the penny bank operated in connection with school work.

Although Nakusp voted dry in a recent plebiscite, a beer license has just been issued the Veterans' Club in that town.

At the end of October tax payments at Kelowna are about $7000 in excess of payments at that date a year ago.

Dr. W. S. Severen has closed his dental practice at Bonners Ferry to go farming on land he owns near that town.

Herb Coolidge, who has been operating a motor truck freight service between Nelson and Kaslo, has quit the business.

The auto tourist park at Fernie closed at the end of October. For the year 436 auto carrying 1483 passengers were registered.

In the Arrow Lakes district a move has been launched to have but one fall fair, alternating between Nakusp and Edgewood.

Express rates between Bonners Ferry and Spokane have been cut 36 cents per 100 lbs, on certain farm and packing house products.

A carload of lambs from Bonners Ferry fattened on pea stubble were the best offered at Portland market one day last week.

Fernie city council is having trouble getting permission from the attorney geneoal to cut the police magistrate's salary to $50 a month.

The cemetery in the abandoned mining town of Phoenix is being kept in presentable shape by the provincial road crew in that locality.

Grand Forks ratepayers will vote on a by-law to spend $15,000 on necessary improvements to take care of unemployment this winter.

Although the Oliver vinegar plant at Penticton has not operated for the past four years, it still has a three year supply of cider vinegar unsold.

The Herald is proud of the fact that to date 87 per cent. of the 1932 taxes at Penticton have been paid. A year ago the showing was but 88 per cent.

Sunken logs and trees in the Kootenay River between Bonners Ferry and Porthill are now being removed by a crew of eight men who are operating irom a tug and barge.

Kaslo council has appropriated $4000 for unemployment relief this fall and winter. $3000 of this will be secured from the provincial and Dominion governments.

Honey prices are so low that this year Okanagan bees will be winter fed on honey, instead of a ceeap grade of syrup. This is the first season in many years that this has been done.

Education Week Successful Close

Variety Program Attracts Large Attendance Thursday Night Feature—Public School Keeps "Open House" Friday.

Education Week at Creston closed in splendid fashion with Thursday night and Friday afternoon features that attracted a large turnout of parents, particularly the latter afternoon when the different rooms of the public school were taxed to capacity to handle the turnout.

Thursday's concert was a huge success from the point of view of attendance, over three hundred people crowding into the Parish hall and many being turned away. It showed very clearly the crying need for a community centre of some kind.

The programme consisted of but five items, yet lasted a good two hours. A gymnasium display by the girls of Grade 9, under the direction of Miss Smith, proved very popular. It was in no sense a performance essentially planned for exhibition, but a typical example of an ordinary physical education lesson. The girls went through several exercises, played several games and gave two dances. Due to the crowd of spectators space was cramped, but the performance was worthy of the applause so generously bestowed on it.

The second item was a group of poyular songs, sung by the girls of Grades 11 and 12. A great deal of credit is due to both the girls and Miss Betty Speers, who not only played the accompaniment, but had full charge of this particular event.

A debate, "Resolved that a person who has completed a high school course is better equipped for citizenship than one who has not", resultee in a victory for the negative, supported by Miss Murial Thurston and Mr. Herbert Dodd. Miss Esther Stace-Smith and Mr. Sidney Scoth supported the affirmative. This, the first event of its kind that has been staged for some time, excited great interest. The speakers were inclined to be nervous and did not speak loud enough, but gave a very creditable performance. Rev. Smith and Messers. Cook and Marriott kindly consented to act as judges.

Miss Kathleen Bundy's piano solo was well-received by the audience, the young pianist showing clever interpretation and polished finish.

The concluding item, a one-act play, "Between the Soup and the Savory" was under the direction of Mr. O. S. Sostad. Dorothy Palmer, as the parlormaid, Ethel VanAckeran as the cook and Agnes Johnson as the kitchenmaid played their parts very creditably. The whole action takes place in the kitchen when a family dinner is in progress, the feelings and actions of the servants reacting on the unsuspecting people in the dining-room.

The High School wishes to thank the United Church for donating chairs and the Parish Hall committee for the use of the hall.

Miss Opal LaBelle and Miss Frances Lewis are also to be commended for the tactful manner in which they managed the difficult job of ushering.

The Friday afternoon feature was a sort of "open house" affair in which each of the six divisions was at home for a period of fifteen minutes, during which classroom demonstrations were given, along with some musical selections by the pupils in Division 5 and 6, the afternoon's schedule being as follows: Division 6, A Singing Game. Division 5, Dramatized Reading Lesson. Division 4, Writing Lesson. Division 3, Dramatized Geography Lesson, South America. Division 2, A Health Lesson. Division 1, A Socialized Geography Lesson, 'Wheat Growing in the Prairie pravinces."

Local and Personal

FCR SALE—General Flectric vaccum cleaner, good as new. A Anderson, Victoria Ave., Creston.

J. G. Farris, superintendent of Creston Power & Light Company, Limited, was a business visitor in Calgary, Alberta, during the week.

The Presbyterian Church authorities have decidedly improved the appearance of their church grounds by tearing down the old drive shed which was erected about 20 years ago.

Ike Lewis, formerly of Sirdar, and well knuwn by many in Creston, is dead. He died of cancer at the hospital at Trail on Tuesday, in which city he had made his home of late.

Although November provided what seemed like enough rain to soak halfway through to China, orchardists who are doing new fencing state the oisture has not penetrated more than two feet.

A. B. Ness of Strathmore, Alberta, is a business visitor here this week. He is an experienced electrician and if he can secure suitable premises he will open out in that line in Creston immediately.

Ra mond Martin, Harvey Gobbett and Lionel Moore got in on Wednesday night from a three days' camp at Nick's Island, and brought back with them the best of the season's kill of ducks and geese

The open season on ducks and geese closed on Wednesday. Despite unfavorable weather some hunters claim the kill of ducks has been well up to the standard of other years, though fewer geese, have been shot. The eight or ten Spokane residents who have been in camp near Wynndel at the weekends made their final visit for the year last week.

FOR SALE—Desirable 10-acre property, in Canyon district, good house, some orchard and small fruits, near school, or will exchange for village property. Apply Norman Strong, Erickson, or enquire Review Office.

ICEMAKER WANTED—Sealed tenders for the work of icemaker and caretaker for Creston curling rink for the winter of 1932-33 will be received by the unkersigned up to noon Thursday, December 8th. For all information apply F. V. STAPLES, Creston.

At the end of the month it was estimated that about 35 cars of apples are still in storage at Creston Valley points. More apples this year are being held for later selling by individual growers who have them in home storage..

Up to the end of the month apple shipments from all points in the valley total 225 cars. Shipments to the Old Country are heavier than ever before. The shipping of bulk apples is also heavier than in 1931. Reports from the Okanagan are to the effect that 80 per cent. of this year's crop has gone in bulk.

The Women's Institute Hospital Committee had their final tea at the home of Mrs. Jas. Cook on Wednesday afternoon, and in spite of the bad weather it was a splendid success. In connection with the tea there was a raffle of an electric bed lamp, and the two affairs enioyed a cash intake of $25. Mrs. Stapleton held the lucky ticket on the lamp.

Pains Around Her Heart

Tired Out After Doing Housework

MILBURN'S HEART AND NERVE PILLS

Mrs. Henry Ranch, Muriel Lake, Alta., writes:—"Last fall I had bad pains around my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out.

Seeing that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box, and after taking the Pills for a few days I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

British-U. S. War Debts.

At the time this article is written, President Hoover and President-elect Roosevelt are in conference giving consideration to applications made by the British, French, and other Governments which are indebted to the United States for loans made by the latter during the war, for an extension of the one-year moratorium covering repayments granted last year, and generally for a revision of the terms of settlement of such debts.

Inasmuch as these enormous international war debts are admittedly one cause of the existing financial and economic depression affecting all nations, whether they are directly concerned as debtors or creditors or not, it is well that the general position in regard to these debts should be understood in its broad outlines.

The war debts of the nations of Europe to the United States total approximately $22,143,539,000, of which amount Great Britain owed $11,105,-965,000, and has paid almost $2,000,000,000; France owed $6,847,674,000 and has paid $486,075,891; Italy owed $2,407,677,000 and has paid $97,584,422, with the smaller nations owing varying amounts. Repayment of these huge amounts were to be made within a period of approximately 60 years.

On the other hand, Germany was obligated to pay these allied European nations the sum of $26,377,000,000 during a like period of time. In other words, as Germany paid her debts to the Allies, they in turn could pay the United States. But Germany cannot pay; the whole world now recognizes that fact. So at the Lausanne Conference last June, Great Britain and the other nations agreed to let Germany off for $714,000,000 instead of $26,000,-000,000, provided the United States would radically reduce or cancel the war debts due to that country. This the United States has thus far refused to do.

The Allies carried on the war against Germany for three years before the United States entered the conflict. Some of them had completely exhausted their credit in those three years and would have collapsed, the result of which might easily have been a German victory. Great Britain came to their rescue. But while Great Britain could have continued to finance all her own stupendous war expenditures, she could not do so and at the same time finance her allies. So Great Britain borrowed from the United States and, in turn, financed these other allied countries. They cannot repay Great Britain, nevertheless Great Britain is obligated to repay the United States, and, as the above figures indicate, has been doing so. As a result Great Britain was drained of gold; had to go off the gold standard; and now, because of failure of Germany to pay her, or pay other European nations which are so heavily indebted to Great Britain, it is no longer possible for Britain to continue paying out to the United States when others are not, because they cannot pay her.

Furthermore, in the huge borrowings by Britain and other countries from the United States, the latter country did not actually lend them gold. What the United States Government did was to advance them credit wherewith to buy food supplies, munitions, raw materials and manufactures of all kinds in the United States. In other words, the money was practically all spent in the United States in enormously high war prices for farm products, in war-time wages to workers, in war-time profits to manufacturers and people generally. The people of the United States prospered while Europe was impoverished.

With the ending of the war, and the necessity of paying off these huge credits, the United States Government demanded payment in gold. The United States, we repeat, did not lend gold but sold supplies of all kinds on credit; then they refused to take supplies back in repayment but demanded gold. In order to prevent repayment in supplies they raised their tariff to prohibitive heights and shut out foreign goods. In so doing they killed off the export trade of the debtor nations, thus making it still harder, in fact impossible, for them to pay.

Great Britain has never defaulted in payment of its obligations to any one at any time. Repudiation of obligations has never been countenanced by Great Britain, although it has been the victim of sucb practices by other countries, including several of the States of the United States. Britain has no desire to default now, and years ago offered to write off the debts owing to her if her own debts, created by borrowings to assist these other nations, were similarly written off. The world's financial and economic troubles today are not due to Great Britain, and had her advice and example been followed after 1918 there would be no trouble.

If the United States still remains adamant, if it refuses to cancel or very substantially reduce the amounts owing to that Government, and continues to insist on payment in gold, then, in our humble opinion, the stand to be taken by the British Government should be this: Payment in gold being impossible, and in view of the fact that the debt was created through the supply of goods produced or manufactured in the United States, thus creating employment and wealth in the United States, Great Britain should now offer to repay the United States by exactly the same method,—that is, by supplying the United States with goods produced or manufactured in Great Britain, or through services, such as shipping which Britain can supply, thus providing employment for Britain's unemployed, and producing wealth for Britain's over-taxed people and institutions.

Until the United States is prepared to accept such British credits in exchange for the credits extended to Britain, that is, to accept British goods and services in payment for the United States goods and services supplied, Great Britain, while not repudiating anything, would refrain from making any further payments in gold, and let the United States wait for any further settlement until that country is prepared to accept the same treatment from Britain that, in the hour of the world's extremity, the United States accorded to Britain. Could anything be fairer?

Boost Woollen Trade

Believes New Trade Agreement With Britain Will Be Beneficial

Both Canadian and British woollen manufacturers should enjoy greater business in the Canadian market, in the long run, as a result of the changes in the textile tariffs affected by agreements at the Imperial Conference, declared H. Barrett, of Toronto, in his presidential address to the annual meeting of the Canadian Woollen and Knit Goods Manufacturers Association.

Addressing the members who had gathered from all parts of Canada, Mr. Barrett devoted the greater portion of his address to the Imperial Conference and its effects on the woollen industry.

"The improvement of Great Britain's position in the Canadian market," he said, "will be partly at the expense of employment in the Canadian mills and partly at the expense of mills in non-empire countries. But as the preferences on our primary products become effective the market in Canada for wool products should increase so that the total effect should be to increase business done in Canada by both Canadian and British mills."

Whistling Pigeons

Birds Used By Ontario Provincial Air Force To Carry Messages

Travellers in the north woods of Ontario next summer may be astonished when they hear and see what they may take to be a new species of bird, and into their heads may pop visions of whistling swans and wild pigeons. They may see the birds, real pigeons, and hear the whistle, but the two are separate entities, joined it is true but only for a space and then to carry out an idea.

Next spring, after a period of training, teams of homing pigeons will be transported to various fire patrol points where communication by wireless is now difficult or impossible. Reports of fires, forced landings and important messages may be relayed by the use of these birds to the base camps of the Provincial Air Force. The whistle! That is to scare away hawks and other predatory birds that might attack the homers, and is attached to their legs along with identification tags.

Persian Balm—Invaluable to the whole family. To the mother, a flawless aid to loveliness. To the child a soothing, healing balm. And to the father, a splendid hair fixative and cooling shaving lotion. Persian Balm tones and refreshes the skin. Makes hands delightfully soft and white. Indispensable to dainty women. A little rubbing and it is absorbed by the tissues, making the skin truly rose-leaf in texture.

Decide To Advertise

Brazil Taking Best Way To Solve Coffee Problem

Having failed to solve the coffee problem in Brazil by destroying the beans and after trying out numerous schemes, the Coffee Council of Brazil has finally decided the best thing to do is to advertise the coffee and sell it.

One million dollars has been set aside for an intensive advertising campaign in North America. There is no better way to move goods than to advertise them. Successful business men discovered that long ago.

Useful In Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Eclectric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

The McIntosh Is Popular

Popularity of the "McIntosh Red" apples grown in Canada is evident from the fact that the whole of this year's crop grown in Western Canada has already been marketed. More than 365,000 boxes of these apples have been shipped to the domestic and export markets.—Department of Agriculture.

Brazil is requiring all gold miners to sell their product to the government.

W. N. U. 1970

The Newest Shooting Club

Buenos Aires Criminals Practise Shooting At Cardboard Policemen

A shooting club for criminals where they could practice firing at cardboard figures of policemen was discovered by authorities at Buenos Aires wth the arrest of one of the band. A letter from the woman proprietor of the club, found in the captured man's possession, revealed the location of the range.

On raiding the house the police found a 90 ft. underground shooting range and three gunners assiduously practicing their marksmanship. The range was lined with soundproof boarding and fitted with the latest appliances. Blue cardboard figures of policemen, both moving and stationary formed the targets. The scores of the shooter were kept in a card index.

Well Repaid For Kindness

King George and Queen Mary Enjoyed Meeting Helen Keller

Their kindly majesties of England, the King and Queen, never performed a more gracious act than, when they received informally Helen Keller, the marvelous deaf and dumb and blind American woman, who has surmounted her terrible handicaps in such a wonderful manner. And their kindness was well repaid, for after conversing with Miss Keller, they marveled at her attainments just as have all of us who never had the privilege of meeting her.—Boston Post.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath too familiar evidence of asthmatic trouble, cannot daunt Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

The 500-year-old elm at Chalfont St. Giles, England, beneath which Milton sat frequently, was felled recently.

There are supposed to be 303 holds in the science of ju-jitsu by which a man can be quickly thrown.

Thinks Canadian Fox Ranch Will Disappear

Fur Importers Predicts Its Merging With General Farm

Complete disappearance of the fox ranch in Canada is predicted by Leon Chapal, managing director of Les Magazine Generaux de Marche Francais, fur importers. Mr. Chapal feels that fur farming will become merged with general farming, as there is not sufficient market to make it worth while for a man to devote his whole time to it, while it fits in admirably with mixed farming.

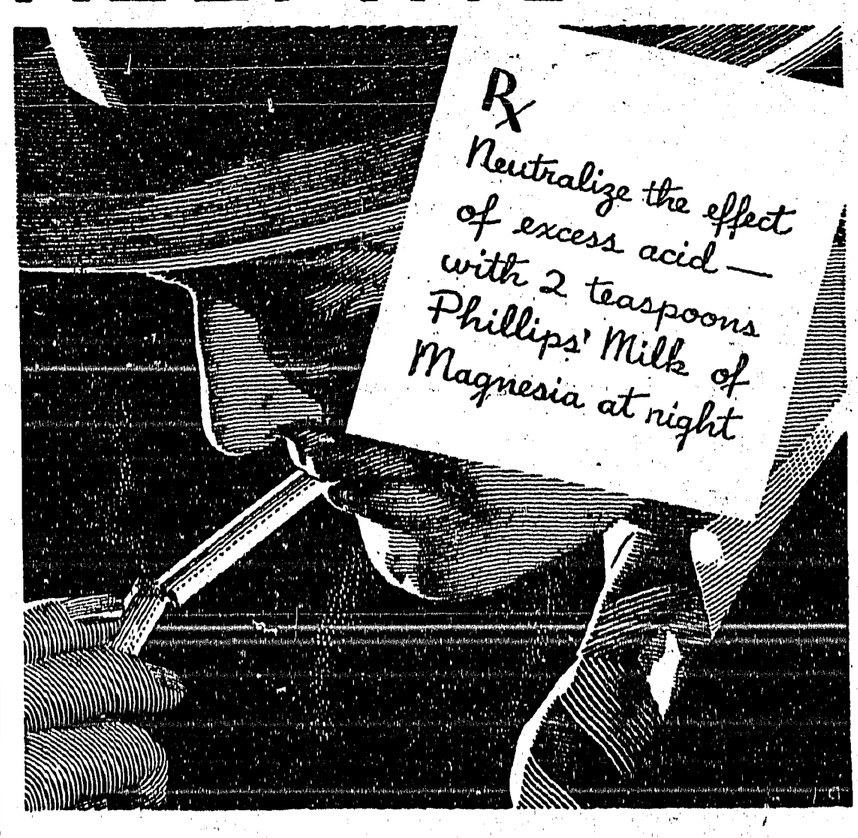
Mr. Chapal was in Montreal en route to Prince Edward Island to make a survey of the fox ranching industry there. No competition exists between Russia and Canada, he said, as the furs produced by the two countries are of different types. Canada deals in silver fox and other furs of that variety, while Russia produces white fox and astrakhans.

All Canadian furs, except the small quantity bought in the Dominion, are purchased by Parisian interests, Mr. Chapal said. Even Americans are buying Canaian furs in Paris because buying Canadian furs in Paris because his firm had sold more furs in August and September of this year than ever before in its 40 years of existence.

Eggs vary in weight from 18 to 32 ounces to the dozen.

As love thinks no evil, so envy thinks no good.

KEEPING FIT



Made In Canada

● Indulgence in rich foods, tobacco, or anything else that piles up acid in the system should be offset with a little Phillips' Milk of Magnesia. This neutralizes the acidity and you feel fine. Plenty of men know there is nothing like it for "mornings after." Get the genuine; there's something about the Phillips formula, and the way Phillips' is made. Substitutes don't act the same.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

193

U. S. IS AGAINST MOVE FOR DEBT CANCELLATION

Washington.—Climaxing a rapidly moving picture of war debt discussion, President Herbert Hoover launched—with the knowledge of President-elect Franklin D. Roosevelt—a request that foreign debtors meet the December 15 payments on their war debts to the United States.

Simultaneously and in the face of congressional opposition, he proposed legislative creation of an agency to review international financial pledges in connection with world economic and disarmament problems.

In view of determined objections made on Capitol Hill, especially by Democratic powers in the House, there seems little chance for such a United States commission.

Only a few minutes before Mr. Roosevelt left Washington and shortly after an extraordinary conclave of congressional leaders at the White House, Mr. Hoover issued a lengthy formal statement declaring flatly against debt cancellation but suggesting "other forms of tangible compensation than cash."

Immediately there followed a chorus of mixed approbation and opposition. One senator and representative after another declared against a commission to review the debts. The same men, however, expressed approval of Mr. Hoover's stand against further moratorium or cancellation.

Some congressional leaders told President Hoover at the White House conference that he already had power to negotiate or set up a commission such as he proposed to negotiate with Great Britain, France and other European powers. The same view was echoed later by other prominent members of congress who did not attend the meeting, but in administration quarters it was held the executive had no such power.

Speaker John Nance Garnet, the vice-president-elect, who led the Democratic contingent into the cabinet room conference at the White House, and later into parley with Mr. Roosevelt, reiterated in public a belief expressed by several at both meetings.

"Let them default," he exclaimed in answer to questions. "Who said they would default? They won't."

Relief On Mortgage Payments Is Sought

One Per Cent. Interest Cut Asked By Prairie Provinces

Ottawa, Ont.—Efforts to free prairie farmers for one year from mortgage interest and to persuade mortgage companies to reduce interest rates by one per cent., were put forward last week by western provincial treasurers in an interview with officials of these companies.

The interview, it is understood, took place at Toronto, and the reply given the treasurers is not known here.

It is understood, however, that the companies pointed out that few if any foreclosures are being sought for arrears of interest, and that the companies are dealing generously with farmer debtors on the prairies.

Church Union

Australian Making Study Of Church Union System In Canada

Ottawa, Ont.—"I don't think there is any chance of stopping union," declared Lieut.-Col. the Rev. A. T. Holden, D.D., president-general of the General Conference of the Australian Methodist Church, and chaplain-general of the Australian military forces, who was a visitor in Ottawa. Col. Holden is making a trip across Canada for the sole purpose of studying church union as it exists in this country, so that he can put forth proposals in his own country for the union of churches.

During the months from January to September, 1932, Saskatchewan coal mines produced approximately 500,000 tons.

W. N. U. 1970

Many Questions On Beauharnois Project

Matter Is Again On Ottawa House Order Paper

Ottawa, Ont.—The Beauharnois power project again figures in questions placed on the order paper of the House of Commons. E. J. Garland, United Farmer member for Bow River, has a dozen queries on the order paper with a view to obtaining further information in respect to the financing of the undertaking.

Mr. Garland first asks for the tabling of copies of any arrangements which have been entered into by the government in respect to the Beauharnois project. He wishes to know the total amount of money advanced by the government to date in connection with the construction and completion of the enterprise.

"What security has the government been given for the money advanced?" he asks.

The member for Bow River asks if the government has obtained any legal opinion regarding the legal right of the Beauharnois Heat and Power Company to transmit electrical energy beyond the limits and boundaries of the province of Quebec.

"Did the minister of finance or the prime minister approve of loans estimated at $6,500,000, made by the Royal Bank of Canada, the Bank of Montreal, and the Canadian Bank of Commerce to this enterprise?" he asks. "Are such loans permissible under the Canadian Bank Act?"

Attack Duff Report

Labor Makes Attack On Its Recommendations

Ottawa, Ont.—Thousands of railwaymen throughout Canada will be thrown into the ranks of the unemployed if the Duff commission's report is adopted, the House of Commons was told when Labor made its initial attack on its recommendations.

Humphrey Mitchell, Labor, Hamilton East, estimated 20,000 railwaymen would lose jobs. Hon. Peter Heenan, who returned to overalls and a locomotive cab when he left the portfolio of Labor in the King cabinet, placed the number at "many thousands and thousands."

Branch railway lines would be scrapped, noted the former minister. Services would be dropped and curtailed. The Canadian National and Canadian Pacific Railways would be drawn into closer co-operation. Competition would disappear.

May Demand Provincial Election In Ontario

Progressive Leader Will Introduce Amendment When House Opens

—Toronto, Ont.—A demand for a provincial election next summer will be made immediately after the opening of the Ontario legislature in February by H. C. Nixon, Progressive Leader, who was in Toronto.

He declared he would introduce an amendment to the moving and seconding of the adoption of the Speech from the Throne demanding the business of the House be concluded with reasonable speed and an election cled for June next.

Alberta Deficit

Decreased Revenues Shown In Provincial Treasurer's Report

Edmonton, Alberta.—Deficit of $5,153,050 in Alberta provincial finances for the fiscal year ended March 31, 1932, is shown in public accounts released by Hon. R. O. Reid, provincial treasurer. This compares with a deficit of $2,806,581 for the previous fiscal year, 1930-31.

Revenue for the year which had been estimated at $18,441,457 actually yielded $13,492,480, a shrinkage of nearly five millions, expenditures were estimated at $18,828,798, but were cut to $13,645,481.

Would Improve Bacon Hogs

Toronto, Ont.—Advocating a higher quality of bacon hog suitable to the demand of the Great Britain consumer, Hon. Robert Weir, Dominion Minister of Agriculture, addressed several hundred farmers and exhibitors at the Royal Winter Fair luncheon recently.

NEW AMBASSADOR

Herr Von Hoesch, new German Ambassador to Great Britain, is shown above as he arrived in the British Capital.

New Stamp Issue

Bears Profile Of King Engraved In Medallion Style

Ottawa, Ont.—A new stamp issue, in denominations of one, two, three, four and eight cents was placed on sale by the post office department on December 1.

The new issue bears the profile of the King, engraved in medallion style, and is similar in design to the 3-cent stamp issued to commemorate the Imperial Economic Conference.

At the same time a new 13-cent stamp will be issued replacing the current 12-cent stamp that bears the view of the Quebec capital. The design of the new stamp will be the same as that of the 12-cents issue, but its colour will be violet.

Reducing Liquor Prices

Victoria, B.C.—Reductions in liquor prices on all save continental European brands, ranging from 10 cents to 60 cents a bottle, went into effect in British Columbia December 1, Hon. R. H. Pooley, attorney-general, announced. Government approval has been given the new price list prepared by the liquor control board.

For Better Understanding

Makes Plea For Closer Union Between Britain and U.S.

London, Eng.—Speaking at a Pilgrims' Society luncheon in honor of Robert Frazer, the new United States consul-general, Lord Hailsham, Secretary for War, made a plea for close union between Great Britain and the United States for the economic salvation of the world.

"Never has there been a time when it was more important that our two peoples should understand one another," he said. "We stood together in arms to protect civilization from violent destruction. I believe that today we, the two great creditor nations of the world, must stand together to protect the world from economic disaster. I believe that the hope of civilization lies in fuller understanding between Great Britain and the United States."

Talked Over Light Beam

Scientists Make Longest Narrow-Casting Equipment On Record

Schenectady, N.Y.—A group of scientists at Schenectady talked with another group at Lake Desolation, 24 miles away, over a light beam projected across the lower Adirondack mountains.

It was the longest narrow-casting experiment on record. During a part of the experiment John Bellamy Taylor, who developed the method of transmitting sound over light waves, was interviewed by Heywood Broun, newspaper columnist, who was at Schenectady, while Taylor was at Lake Desolation.

A searchlight mounted on a building at the General Electric Company's plant projected its beam upon a 30-inch mirror which was part of the receiving apparatus at Lake Desolation.

No Jobless In Jerusalem

Not One Man Unemployed Statement Of Jewish Leaders

New York.—Three Jewish leaders from Palestine, arrived on the "Berengaria" on their way to a convention of the American Misbachi organization in Buffalo, boasted that their city is the one place in the world that has not one unemployed man.

One of them, Aran Bis-Nun, said the Jewish population in Jerusalem has grown from 50,000 in 1917 to 220,000 today.

ITALY PASSES TENTH MILESTONE UNDER FASCISM

Since that October day, ten years ago, when the black-shirted legion, led by an almost unknown agitator, Benito Mussolini, marched into the Eternal City and started Italy on its comeback to greatness, many changes have taken place in the land of the Caesars and Popes. The most remarkable of these changes, to the looker-on, has been the climb to power of Mussolini. His word is law in every corner of the country. He is hated by many, feared by many, adored by many—but obeyed by all. Fascists claim that Il Duce has built up the economic structure of Italy to a position it has not enjoyed for decades.

MORE DIVERSITY OF PRODUCTION ON THE FARM

Toronto, Ont.—Radical changes are required in western Canadian agricultural practices before the prairie provinces' economic picture is again bright, in the opinion of a prominent Toronto banking official quoted by the "Mail and Empire."

Just returned from a month's intimate study of conditions and prospects in the west, the banker advocated turning the bulk of Manitoba's wheat lands into grass for cattle. That, he suggested, would permit Saskatchewan areas suitable for wheat alone to retain this as a major crop without congesting the market.

Alberta, he stated, already was well on the way toward a more balanced production. However, greater interprovincial co-operation was required before the problem finally could be solved.

There must, in the banker's opinion, be drastic curtailment of wheat acreage in western Canada, and he suggested the best method of attaining it would be through interprovincial co-operative measures tending toward a planned and co-ordinated diversity of production, allocating to each area the new crops and types of livestock it was best fitted to produce.

Western Canada could not get along with general comfort throughout all its sections so long as wheat prices at Fort William were less than 65 cents a bushel. Readjustments already made had placed the average farmer in the position of being as well off with wheat at 60 to 65 cents as he was three years ago when it was selling at $2.

Some communities and individuals had so organized their production they were doing well with 50-cent wheat, the banker stated. Others in such areas as southeastern Saskatchewan had not yet exhausted their cash surpluses from former years. Thus, there was by no means a uniform condition throughout the west. Bright spots were sufficient in number and variety to mitigate the gloom cast by others.

New Bacon Policy Will Benefit Canada

British Markets More Open Than Ever For Product

Toronto, Ont.—"Canada will benefit automatically in the new policy by reason of the 280,000,000 pounds of bacon per year," declared J. S. McLean, of Canada Packers, Limited, in commenting on Great Britain's policy with regard to bacon restrictions which are now in effect.

"Her market will now be more open than ever to receive this Canadian bacon, which will take care of about 50,000 hogs a week," he said.

Great Britain has started cutting down on her imports of bacon from foreign countries. She is doing this essentially as a preliminary to building up her production."

Oil From Oklahoma

Trainload Of Crude Oil Leaves Seminole For Regina

Seminole, Okla.—A trainload of 40 cars of crude oil will leave here for the Imperial Oil Company, Regina, Sask.

The train will provide 120 working days for railway employees in Canada and the United States. The railroad men call it the "King George Special." It is the first trainload of Seminole crude oil to be shipped to Canada in months. There used to be three a week.

Sees Better Times

Toronto, Ont.—President Frank A. Rolph told the annual meeting of the shareholders of the Imperial Bank of Canada here today there is a greater feeling of optimism throughout the country than there has been for two years, that opportunities are offered for developing business due to the imperial economic conference, and that further stabilization may be expected from the coming world economic conference.

Local and Personal

Boys' rubbers at special prices at V. Mawson's.

FOR SALE—Single bed spring and mattress, $8 cash; brick lined heater, $8 cash. H. A. Powell, Creston.

Leather coats and jackets for sale at V. Mawson's.

INSURANCE—Fire, life, automobile, sickness and accident. H. A. Powell, Creston.

Birth—On November 26th, to Mr. and Mrs. J. V. Lockhead of West Creston, a daughter.

The Girls W.A. of Christ Church have their annual bean supper at the Parish Hall, Wednesday, December 7th, from 6 to 8 p.m. to which all are invited. invited. Tickets are 35 cents.

Col. Mallandaine was a business visitor at Nelson a couple of days at the first of the week.

Mrs. E. Martin of Sirdar was a week-end visitor here with here parents, Mr. and Mrs. W. T. Simister.

PARSNIPS—For sale, parsnips, $1.25 per 50 lbs., delivered in town. Foot, Fairview Ranch, Croston.

Miss Bessie Matthews of Nelson is renewing acquaintances in Creston this week, a guest of Mrs. Cecil Moore.

Erickson Ladies' Hospital Auxiliary have booked the night of Friday, January 6th, for their annual bridge.

MURDOCH McLEOD, Registered Optometrist, will be at Cranna's jewelry store, Creston, Saturday, December 3rd.

W. H Fortin and H. Cornwall of the Bank of Commerce staff, were weekend visitors at Nelson, returning on Sunday.

Monday is the last day for receiving bids for the 40-cord supply of stovewood Creston school board will require next year.

Certainly no two winters are alike. A year ago there was skating on the flats and ice making was well in hand at the curling rink.

Creston Reclamation Company, Limited, shareholders meet in annual session on Monday night. C. O. Rodgers is the retiring president.

FOR RENT—Three room house, good location, elecrtic light, water, cement basement, newly painted and papered. Apply S, A. Speers, Creston.

The curlers are now ready for colder weather. Three ventilators have been put in at the rink and other improvements completed ready for icemaking.

(Rev.) N. G. Smith will take the services in Kimberley Presbyterian Church on Sunday, in an exchange of pulpits with (Rev.) J. Simpson Coulter of that town.

The warm spell of weather is bringing the poultry back into lay and the intake of eggs is steadily increasing. The Farmers' Institute station is still paying 43 cents for firsts.

Creston and District Women's Institute have the December meeting on Friday afternoon next, 9th, at 3 o'clock. Mrs. Mallandaine will read a paper on the Gold Standard.

Trinity United Church Ladies' Aid were well pleased with business done at the annual bazaar on Saturday afternoon in the church basement. The cash in take was about $90.

Remember the annual bazaar with afternoon tea under the auspices of Christ Church Woman's Auxiliary at the Parish Hall tomorrow afternoon, 3rd, from 3 to 6 p.m.

The depression does not appear to effect the users of telephones. There were 134 phones in use in Creston at the first of November as compared with 136 at the first of the year.

A meeting of the newly organized Creston Women's Hospital Auxiliary will be held in the town hall on Tuesday, December 6th, at 3 p.m. All ladies are invited to attend and join.

While the weather is anything but ideal for deer hunting the take of venison is quite heavy at the weekends. Just at present the most likely hunting grounds are around Sanca and east of Kitchener.

After a couple of days of somewhat sunny weather early last week, rains have been of daily occurence ever since, and il begins to look as if there might be some truth as to the winter being short and mild.

Mrs. Cecil Moore and Mr. Walde were at Cranbrook at the weekend where the former spent a few days with her husband who is in the hospital. Along with leg injuries Cecil was also a flu victim the latter part of the month, but, is now nicely over that and coming along fine.

The Young Ladies' Hospital Auxiliary are having an afternoon tea with sale of home cooking and candy, at the home of Mrs. R. J. Forbes on Saturday afternoon, December 10th, 3 to 5 p.m. There will be a short musical programme.

Members of Creston Valley Post Canadian Legion are reminded that an important meeting of the Legion will be held in the Legion hall, Mallandaine block, at 8 p.m., Tuesday, December 6th. Special features of the meeting will be the address of the president, Walter V. Jackson, which will review the activities of the post for the past year. John Hall, retiring secretary, will present a summary of 1932 work.

For the regular meeting next Thursday evening Wild Rose Lodge Knights of Pythias will have a visit from members of Acme Lodge, Bonners Ferry, whose degree team will confer the rank of knight.
