THE CRESTON REVIEW

VOL. XXIV — CRESTON, B. C., FRIDAY, JULY 21, 1933 — No. 18

Wynndel School Meeting Stormy

Secretary Resigns—A. Glasier T. Sixsmith New Trustees—Salaries Cut—Estimated Requirements Slashed $400.00

The annual meeting of the ratepayers of Wynndel school district was held on Wednesday evening, July 12th, in the hall, and was one of the longest sessions of the sort for many years, adjournment not being taken until well after midnight. E. Foxall was named chairman, and after the list of those eligible to vote was read the minutes of previous annual meeting were read and adopted.

Nominations for trustees to fill the vacancy caused by the retirement of George Huscroft were called for. Three names were balloted on resulting in a tie vote in the case of A. Glasier and Mr. Martel. The chairman's casting vote was in favor of Mr. Glasier. W. Greig, jr., was elected auditor for the ensuing year.

Financial statement was read, showing a credit balance. Mr Martel brought up the question of tuition fee for his son who is attending Alice Siding high school, and why this had not been paid in full the same as with the students attending at Creston. School Act was read regarding length of time of attendance at school to be eligible for full fee. Secretary admitted he was unaware of the part fee pay ment at the time of conversation with Mr. Martel and so his claim for reinbursement was granted.

Appropriation for 1933-34 was next taken up, amount required being estimated at $1402. A heated argument took place with regard to work to be done on teachers' residence for installation of wat r system. Finally a motion was submitted and carried that the board put the residence in sanitary condition re cesspool and sink.

Motion was made that appropriation be $1400. There was an amendment that it be reduced to $700. There was another amendment to strike the happy medium of $1000 appropriation. The ballot was in favor of $1000, with a show of 21 15.

Letter from Creston Valley Hospital read. It asked for a donation toward building cost and a motion was passed in favor of fyling the letter. Letter from Women's Institute asking for donation for fall fair. Donation of $15 was granted. Letter from Creston Women's Institute for a donation to the 1933 fall fair wa also fyled.

A heated argument over an unread letter, which, unfortunately, brought personalties to light, resulted in the secretary, J. G. Abbott, handing in his resignation.

The question of teachers' salaries was next dealt with and brought plenty of argument. Minutes of trustees meeting were asked for and read, and also report of Inspector Manning. The secretary was asked if Mr. McGregor had handed in his resignation and he replied that up to the present he had not, and had until August 1st to do so A motion was made that teachers' salaries be cut $780. Amendment made that senior teacher be paid $900 and junior teacher $800. The amendment carried 18 to 16. Fuel used by teachers discussed, all fuel having been supplied by board. Motion made that in future teachers pay for their fuel. Amendment made that wood be supplied and coal, if necessary, be bought by teachers. Amendment was los .

Resignation of secretary J. G. Abbott was read. Motion that this be accepted made. Amendment made that the secretary be askee to reconsider his resignation. Amendment lost 13 to 12. Many of the ratepayers had gone home by the time this ballot took place, but Mr. Abbott had refused to consider withdrawing his resignation and nominations for new trustee were called. J. Johnson and T. Sixsmith were named and the ballot was in favor of Mr. Sixsmith, who is elected for one year—the unexpired part of Mr. Abbott's term. The secretary's salary was fixed at $40, and the auditor's remuneration at $2.50. Minutes of this meeting were read and adopted and a vote of thanks passed to retiring trustees.

Public Meeting

of the

C. C. F.

Co-Operative Commonwealth Federation

United Church Basement
CRESTON

MON., JULY 24

at EIGHT p.m.

Messrs. PRITCHARD and SKINNER Vancouver delegates, returning from the First National Convention of the C.C.F., at Regina, Sask., will give addresses covering in detail the platform and Policies of the new party.

Don't miss this opportunity to learn the true nature of this Dominion wide organization.

Wynndel

Mrs. Rays of Calgary, Alta, is renewing acquaintances in the Wynndel district this week.

Mrs. R. Barry and children of Robson are here on a holiday visit with the former's parents, Mr. and Mrs. Matt. Hagen.

V. Erickson and Geo. McInnis were Nelson visitors the Past week.

Mr. and Mrs. McGregor left by auto for Nelson last week, where they will be visiting for the next month.

Geo. Leach of Spokane is on a visit with friends in this section at present.

The Athletic Club dance at the hall on Friday night was only fairly well attended, with music by All's Four Aces orchestra from Creston.

The Women's Institute are expecting the prize lists of the 1933 fall fair to be available at the first of the week, and all interested should secure their copy and entry form early.

At the annual school meeting Wednesday night last A. Glasier was elected trustee for a three year term, succeeding Geo. Huscroft who declined re-nomiation. T. Sixsmith was elected trustee to succeed J. G. Ahbott, who resigned. W. Greig, jr., was named auditor, and $1000 was voted for running expenses for the ensuing year.

Sirdar

Bob Stewart has just returned from Calgary, where he spent several days attending the stampede.

Frank Lombardo was a visitor at Nelson last week, returning at the end of the week.

A C.P.R. paint crew have been painting the new bridge over the Kootenay River at Kootenay Landing, have completed the job and moved away.

Mr. and Mrs. J. VanAckeran and Phonse Huygens of Canyon were Sunday visitors at the home of Mr. and Mrs. J. S. Wilson.

Frank Hamilton was a visitor at Creston on Saturday. He is the Canadian Bridge Co. representative.

Miss Ethel VanAckeran of Canyon is the house guest of Miss Gwen Wilson.

Father Choinel said Mass at the home of Mr. and Mrs. Pascuzzo last week.

The number of cars passsing over the highway at this point is well maintained, Alberta and U.S. cars predominating, nnmerically.

Many of the younger folks of Sirdar attended the Athletic Club dance at Wynndel on Friday last.

The water guage at Slough bridge stands at 16.80. This is a drop of 0.60 for the week.

Gerry Shaw, who was in charge for the C.P.R. during the construction of the new bridge at Kootenay Landing, was here for a day on business, returning the following day to Vancouver.

The bridge crow, who have been here for a considerable time, have completed their work for the time being and have moved to Blake to clean up the remainder of the slide which occurred some time ago, and was only dealt with temporarily.

A series of beach parties have been held on the Sirdar beach, there being one Thursday and one Friday. On Thursday evening the local boys team played a game of softball against the bridge crew and were the victors with a 20-21 score.

The annual meeting for the school district ratepayers was held on July 12th. The trustees are the same as last year, R. Heap, R. Blumaneaur and J. Pascuzzo. It is expected that Adam Robertson, of Creston will return as teacher.

A work train and large crew have been engaged for the past several days depositing huge stones at the foot of the embankment of the C.P.R. right-of-way on the north side between Kootenay Landing and Atbara, the purpose being to break the force of the waves during a storm from the north and thus prevent erosion of the railway bank.

Start Building Swimming Pool

35 x 80-ft. Cement Pool Under Way at Exhibition Park—To be Rushed to Completion—Citizens Contribute Liberally.

Excavation work is in full swing on Creston's community swimming pool at Exhibition Park, and the work will be pushed at full speed in order to have the pool ready for use at the earliest possible date.

Decision to proceed with the work and class of construction was decided on at a meeting of those interested on Friday night, which was presided over by Col. Mallandaine, with C. H. Hare acting as secretary, after hearing from members of the committee as to possible sites and funds available.

For tne finance section of the committee Frank Staples reported that $900 was in sight, although that amount had not been actually guaranteed at the time of the meeting. Estimates had been secured on two types of construction on a pool 30x70 feet. A pool of wood and galvanized iron would be around $600, while for just over $800 a cement pool could be had, this latter figure, of course, did not include the necessary excavation, but on this latter cost could be kept down as consideradle voluntary labor had been proferred

Three sites were considered. Three lots at the corner of Fifth street and Park Road could be had for $300. A 50x125 foot lot in the Tourist Park was offered at $250, and there was the site at Exhibition Park, which was available without cost.

The two former had the advantage of having the better water supply very convenient and very fine drainage facilities while the best water supply to be had at the park is from a ¾-inch pipe that runs along Park Road. However, in view of financial considerations a motion to place the pool at Exhibition Park was carried by a handsome majority.

The size of the pool was discussed at length with most everyone agreed that it should be built to a permanent width so that when enlargement is necessary only an addition would be required at the one end. A 40x60 feet seemed to be popular with the meeting but it was agreed to leave this matter with the committee, who have decided upon a pool 35x80 feet, two feet deep at the shallow end and seven foot deep at the other

Alice Siding

Mrs. Hamilton of Calgary, Alberta, has arrived on a visit with her son, Cecil, who is on the Bourne ranch.

More Alberta cars are seen travelling west this summer than ever before. With the oiling of the highway travel is very much improved throngh here.

At the inaugural meeting of the school board after the annual session Guy Constable was named chairman, and W. H. Mather re-appointed secretary-treasurer.

Chas. Sutcliffe is making day headquarters in Creston for the next couple of weeks—in charge of Burns & Co. butcher shop while Mr. Johnson is away on vacation.

Something definite as to whether the government will consider creating this a pound district is looked for before the end of the month or very early in August.

Mr. and Mrs. Albert Nickel and two children of Edmonton, Alberta, are here for a two weeks' vacation with the former's parents, Mr. and Mrs. Geo. Nickel.

A Mr. Quigley of Hillcrest, Alberta, was looking over some ranch properties in this section at the first of the week. He is a friend of Mr. Duncan, who recently purchased the Pagan ranch at Erickson.

Victor Carr and Geo. Hood left yesterday for Yahk to take a look over the local herd that is summer ranging in that area. While there they took delivery of two registered bulls for Chas. Sutcliffe and Jas. Davis. The animals are from the McDonald Bro. Shorthorn farm near Cranbrook.

Percy Argyle and Jack Smith headed a quintette of local fishermen who were at Sanca and Kuskanook on Sunday. At the former place they had fair luck but they were not biting off the wharf at the latter place.

Wiring of houses to be ready for the West Kootenay "juice" early this fall goes on apace. Among those who have already had the work done are H. Ostendorf, F. Martin, Chas. Sutcliffe, Geo. Hood and Jonn Miller, senior and junior.

EFFECTIVE IMMEDIATELY

Creston FARMERS' INSTITUTE

Lister

Miss Lily Fisher of Nelson is a visitor here this week, a guest of Mr. and Mrs. A. W. Sinclair.

Mr. and Mrs. R. G. Randall and daughter of Vancouver are here on a visit with Mrs. Randall's parents, Mr. and Mrs. J. Pendry.

Mr. and Mrs, John Bird and Cyril, left on Saturday for Spokane, where they are spending a week's vacation.

Mr. and Mrs. C. H. Phillips of Kimberley spent the weekend at the ranch here, leaving for home again on Tuesday.

Mr. and Mrs. Abbie of Vancouver, nephew and niece of Mrs. A. W. Sincair, have arrived on a two weeks' holiday visit at the Sinclair home.

Arthur Hurry, who has been working at the berry harvest at Wynndel, was rushed to the hospital at Creston on Friday where he underwent an operation for appendicitis and is making a satisfactory recovery.

Work has been started at putting the telephone poles at the new location into Lister. The new line will follow the main highway, instead of via rocky point.

Mrs. H. Yerbury left last week on a visit with her daughters at Kimberley, and was accompanied by Mrs. McConachie who has been visiting her mother for the past three weeks. Raymond McKee was also in the party and will spend his summer holidays there.

Mr. Buell, a well known coast authority on potatoes, and who is on the staff at the laboratory at Saanich, was here on Wednesday last and made an inspection of the potato plots on the F. Baker ranch. Six of these plots he found entirely free of disease and the other plot showed one-sixth of one per cent. He will be back again in August.

The annual meeting of the ratepayers of Huscroft school district was held at the school on Wednesday evening last, and passed off very harmoniously. John Huscroft was re-elected for a three year term, and with Bert Hobden, as secretary and Reno House the board is complete Many applications were received for the position of teacher, due the resignation of Mrs. Foxall, and after careful consideration it was decided to engage a Miss Olson of Nelson, a teacher of experience, who comes splendidly recommended.

Canyon City

Principal and Mrs. L. W. Stephens and family left at the end of the week for a holiday visit at Vancouver and coast points.

Floyd Walde and friend of Fernie motored in on Saturday for a short stay with the former's grandparents, Mr. and Mrs. J. G. Wearmonth.

Mr. and Mrs. Blair and Eleanor have gone to Balfour for a couple of weeks' holiday, and have taken along their rowboat to do some fishing on Kootenay Lake.

Gus. Oberg and Otto Johnson have taken a log cutting contract with Cranbrook Sash and Door Companp, at their limits near Kitchener.

Cherries and raspberries are on the move from Canyon ranches, Messrs, Clayton, Gartland and Bond being prominent in the raspberry marketing. Rain is rather badly needed to assure a maximum crop.

West Kootenay Power & Light Company, Limited, started in a construction crew at the end of the week on their dam, all danger of high water now being past.

Mrs Baptist and daughter of Pentic ton were Sunday visitors here with Mr. and Mrs. Knott, en route to Republic, Wash. They were residents of Canyon about 20 years ago. Mr. Baptist being employed by Canyon City Lumber Company at that time.

At the July meeting of Canyon Farmers' Institute at the home of L. Moberg on Saturday night, vice-president F. Knott occupied the chair. It was unanimously agreed to send along a protest against the proposed dividing of the taxes to be paid by West Kootenay Power & Light Company as between Canyon and Erickson. Public works foreman A. E. Dalgas is to be asked to do some widening out of the narrow places and sharp turns on Goat River hill.

Porthill Leading Baseball League

Athletics Meet Leaders in Crucial Struggle Here Sunday—Canyon Takes Spectacular Game from Erickson in Ninth

	Won	Lost	P.C.
Porthill	11	0	1000
Athletics	7	1	875
Erickson	5	5	500
Eastport	4	5	444
Canyon	4	6	400
Intermediate	3	7	300

The crucial game in the international baseball league is scheduled for Sunday afternoon at 2.30, when Creston's Athletics hook up with the league leading Porthill nine in which the A's can go into a tie for first place by scoring a victory, and there should be a big turnout of fans to help along a Cres on win.

The thriller of last Sunday's encounters was at Canyon where the home team put on an exciting ninth-inning rally to pull out an 8-7 win. At the end of their half of the final round Erickson was leading 7-6, but with two out and two on Canyon put in a pinch hitter who doubled to right field sending home the very necessary two counters. Batteries were: Erickson, Anderson and Schade; Canyon, Niblow and Hale.

At Creston Porthill easily disposed of Creston Intermediates 17-0 in a seven-inning contest in which "Smoky" went the route for the losers, and King, Baldwin and Hawks did the battery duty for Porthill.

The Athletics were scheduled to play at Eastport but the trip was not made to the boundary town as on Saturday word came Eastport would be unable to field a team, and the A's are claiming the game by default. Other games scheduled this Sabbath are Canyon at Eastport, and Erickson and the Intermediates.

But two games are set down for July 30 h, and the final in the regular league series is set for August 6th. This latter game is between Erickson and the Athletics, and it is likely it will be played on August 2nd, so that the playoff series, best two in three, can start on August 6th.

Women's Institute Meets

The July meeting of Creston and District Women's Institute was held at the home of Mrs. Jas. Cook on Friday afternoon, with the president, Mrs. C. F. Hayes, in the chair, and a fair turuout of members.

Mrs. R. Stevens asked for all needlework for the exhibit at Vancouver exhibition be sent in in good time for selection and preparation. Exhibits have to reach Vancouver by August 24th, and should leave here not later than August 21st.

It was decided to have a regular meeting in August instead of omitting it as formerly. With the flower show and school fair coming in September it was felt necessary to have a meeting on August 11th, at the home of Mrs. M. Young.

In the absence of Mrs. (Dr.) Warren a paper on Institute work was read by Mrs. W. Fraser. Tea hostesses were Mrs. E. W Payne and Mrs. Fraser.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. E. T. Lila Burke, 58 years old, of Morrison, N.J., was the three-millionth visitor to pass through the gates at the World's Fair, Chicago.

Great Britain's unemployment figures show 144,771 fewer unemployed on June 26 than a month before, and 309,235 fewer than a year ago at that time.

Mr. Justice William Alfred Galliher, member of the British Columbia Court of Appeal since it was established 24 years ago, has retired because of ill-health.

Subscriptions and collections in the Toronto diocese restoration fund for Western Canada have already reached a total of $240,061, or slightly more than 96 per cent. of the whole three-year objective.

Experimenters have come within one-quarter of a degree of Centigrade of producing absolute absence of heat. They produced, at the University of California, 459.1 degrees below zero Fahrenheit.

President Roosevelt has assigned two college professors—James H. Rogers of Yale, and George Warren of Cornell—to make a special study of United States government financing and balancing of the budget.

Governments of the United States and Canada have been given an interim report from the commissioners set up to arbitrate the "I'm Alone" case, and the next scene in the proceedings will probably be laid in Washington.

The Communist party has taken vigorous steps to bolster up Soviet Russia's faltering railway transport system, ordering immediate creation of "transport political sections" to strengthen labor discipline and weed out hostile eements throughout the entire organization.

Future of the empire marketing board, the organization formed to stimulate sale of empire products in Britain, is still undecided. J. H. Thomas, secretary for the Dominions, indicated no agreement had been reached about dividing expenses of the board between the United Kingdom and other empire governments.

One Way To Decide

Einstein Advances Novel Test As To His Fame In Future

Professor Einstein appears to be something of a wit, for he has propounded a very good test of his fame with posterity. He says that if, in after years, the Germans declare that he was a German, and the French say he was a Jew, then he really was a great man. But if the Germans call him a Jew and the French are emphatic in declaring him a German, then there can be no possible doubt that he was a failure. The mathematician who has astounded and sometimes puzzled the world by his theory of relativity, is to receive an LL.D. from Glasgow University shortly. He intends to deliver some mathematical lectures at the same time which will be open to the public.

Useful In Many Places

Telescope In Toronto University Would Help Out Often

A two and a half ton glass disk has been ground for the great telescope which is to be installed at the University of Toronto. How useful that telescope would be in the front room of a Chicago flat during the World's Fair. You could see your relations from the country coming to stop at your house before they crossed the county line. There would be plenty of time to hang the sign on the front door, "Gone to Europe, Will Not Return Until Christmas."—Chicago Tribune.

Stole Roosevelt's Gun

Possibly the thief who visited the North Dakota exhibit at the Century of Progress wished to have something to make a loud noise on the fourth of July. He took a revolver Theodore Roosevelt used as a young rancher at Medora, N.D. So treasured is the weapon that no questions will be asked if and when it is returned.

W N U 2008

Steamship Tonnage

Gross, Net, Deadweight and Displacement Explained In Simple Manner So the Landsman May Understand

Many people seem at a loss to know what tonnage means. The various kinds of tonnage are often a bit confusing. For the benefit of these the Cunard Line has distributed the following information:

To begin with, vessel tonnage should not be confused with cargo tonnage. A cargo-weight ton is 2,240 pounds, while a cargo-measurement ton is 40 cubic feet. A vessel-measurement ton is 100 cubic feet. The carrying capacity of ships is limited by the amount of measurement space available within their holds, and by the amount of weight they can safely carry. This is called register or deadweight tonnage ,respectively.

The five kinds of vessel tonnage are as follows:

Gross register tonnage.—The total enclosed space of a vessel, expressed in measurements tons of 100 cubic feet, including engine room, bunker (fuel) spaces, crew quarters, storeroom spaces, cargo spaces, etc.

Net register tonnage.—The total enclosed spaces of a vessel available for cargo and passengers, in measurement tons of 100 cubic feet.

Total deadweight.—The number of weight tons of 2,240 pounds, consisting of cargo, fuel, stores, supplies and fresh water for the boilers, etc., required to put a vessel down to her marks, her maximum load-line.

Deadweight cargo capacity.—The number of weight tons of 2,240 pounds, which a vessel can carry as cargo after deducting the weight of fuel, stores, supplies, and fresh water required for the boilers, etc.

Displacement tonnage.—The equivalent of the weight of the water displaced by a vessel fully loaded and ready for sea; it is the largest tonnage dimension of a ship, but is not commercially important.

Helped Oil Lamp Industry

Depression Has Increased Working Forces In Glass Factories

Believe it or not, but it took the depression to bring a dying industry back on its feet and start paying dividends.

Increased demand for oil lamp chimneys and lantern globes since hard times had been felt, resulted in the doubling of working forces of a glass company in Fort Smith, Arkansas, and huge increases in others. Glass products have been slumping since the "horse and buggy era."

An officer of one of the companies said the oil lamps are cheaper to operate than electric or gas lights. He also asserted the "back to the farm" movement had contributed to prosperity in the industry.

TRIM AND JAUNTY JACKET DRESS THAT WILL GIVE DASH TO YOUR SPRING WARDROBE

Good looking jacket dress for youth and youthful women types.

It is navy blue thin woolen weave with coral-red plaided crinkly crepe silk contrast.

It is effective too in grey crinkly crepe silk with navy crepe.

The jacket has the smart shoulders that jut out over the arms. And note the interesting back buttoned closing of the dress.

interesting back buttoned closing of the dress.

Style No. 711 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

Size 16 requires 3⅛ yards 54-inch with 1¾ yards 35-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

The greatest trouble with the world is that a great majority of people are trying to make something for themselves instead of making something of themselves.

SUNDAY SCHOOL LESSON

JULY 23

ISAIAH DENOUNCES DRUNKENNESS AND OTHER SINS

Golden Text: "Righteousness exalteth a nation: But sin is a reproach to any people."—Proverbs 14:34.

Lesson: Isaiah 5:1-30.

Devotional Reading: Psalm 85:7-13.

Explanations and Comments

The Sin Of Greed, verses 8-10.—Woe unto the rich and powerful, cries the prophet Isaiah, woe unto those who are so avaricious for large estates that they "join house to house," seize houses of the poor, and "lay field to field till there be no room [for the peasantry]. And ye be made to dwell alone in the midst of the land!" The time would come when the land would be in the possession of only a few. The Hebrew law (Numbers 35:54) provided that there should be a proportional division of the land, and there were stringent laws against the alienation of hereditary family rights: see Lev. 35:8-17; Dt. 27:17. Every fifty years, the jubilee year, all lands that had been sold or given away were to revert to the family of the original owners. But the law was abrogated. "Behind the Hebrew regulations regarding the seventh year of fallow and the fiftieth year of release was the principle that 'The earth is the Lord's not the landlord's'; that it was held in trust for the benefit of all the people. When the commercial development of Israel came, the primitive land system was lost. The independent farmers were impoverished by taxes laid to pay for wars. The land was taken for loans made by the merchants. The farmers became serfs. Economic ruin and social degradation followed. This is why the prophet cried the wrath of God upon those who joined land to land, and upon the religious leaders who 'devour widows' houses'."—John Bayne Ascham.

"In mine ears saith Jehovah of hosts," Isaiah continues. "In Hebrew to 'say into the ears' does not mean to speak secretly and softly, but, as Genesis 23:10-26; Job 33:8, and other passages show, to speak in a manner that is distinct and intelligible, and excludes all misunderstandings. The prophet is able to distinguish distinctly the thoughts an words of his own ego from the inspeaking of Jehovah which rises loud within him."—Delitzsch. "Of a truth many houses shall be desolate, even great and fair, without inhabitant," because the land will be barren, verse 10. "For ten acres of vineyard [literally, ten yoke, or ten times as much as a pair of oxen can plow in a day] shall yield one bath [the largest liquid measure, about eight gallons], and a homer of seed [the largest dry measure, ten or twelve bushels] shall yield but one ephap, a tenth of the seed sown."

"Ill fares the land, to every ill a prey,
Where wealth accumulates and men decay."

A regular Ireland-Scotland air service has begun. Passengers are able to fly from Belfast to Glasgow in less than three hours. The usual time for steamer and train is about twelve hours. The actual air journey is 75 minutes.

Something To Think About

Canadians Not Bothered With Banking Troubles Like United States

W. L. Clark, writing in Border Cities Star, says some of the banks in Maine have not reopened yet. Closed for about three months, the bank holiday has hit some people hard. Here is a case told about in Portland. A man, formerly of Montreal, had a savings account in one bank. He wanted some money for a business transaction and instead of drawing his savings, he borrowed from the bank and put up some Government bonds as security. Then the bank closed.

The savings account of the man is more than sufficient to cover the loan he got from the bank. But they will not apply that amount against his loan. Instead, they are trying to sell his Government bonds to raise cash to pay off the loan. In other words, they not only have gobbled up the customer's savings, they also want to swallow his Government bonds as well.

This was just one of the sad stories we heard. Another man sold a timber lot for $30,000, put the cash in the bank one afternoon and the second day following, the bank shut down. He has not been able to touch a cent of the $30,000 since.

Many a widow, orphan, school, religious institution and other persons or organizations, who could ill afford to lose, had their funds go in the cash.

All Canadian who are talking about what the banks should and should not do might think of these things. Nothing like that has happened in Canada through the present depression.

Encouragement For Spain

Recent Flight Broke Atlantic Record For Distance and Time

In flying from Seville to Cuba the Spanish-built and Spanish-engined "Cuatro Vientos," Captain Barberan and Lieutenant Collar have broken the record across the Atlantic for distance and time. For the encouragement of aviation Spain needed an achievement like this. Her name, it is true, has been kept before the world by intrepid pilots like Commander Franco, who with three other army officers made a flight to South America in January, 1925, and the following year flew from Spain to Brazil and Argentina, 6,232 miles, in sixty hours; Captains Loriga and Gallarza, who in 1926 accomplished the feat of taking a Spanish 'plane from Madrid to Manila; and Captains Jiminez and Iglesias, who crossed the South Atlantic to Bahia, Brazil, 4,200 miles in forty hours less five minutes, March 24-26, 1929.

Spain has given to the world a great inventor in Juan de la Cierva, of whose autogiro Thomas A. Edison said that it answered the question whether an airplane could be built that would take off and land in a small space, and be practicaly foolproof and easy to fly. This odd-looking 'plane has undergone improvements in England and the United States, and has been uown to the Pacific Coast and back. It is still a question whether the autogiro will be able to compete with the standard airplane as a transport machine. For light commercial and pleasure flying it is coming into use.—New York Times.

Cleveland Port-Of-Call

Freighters From Holland Making Use Of Welland Canal

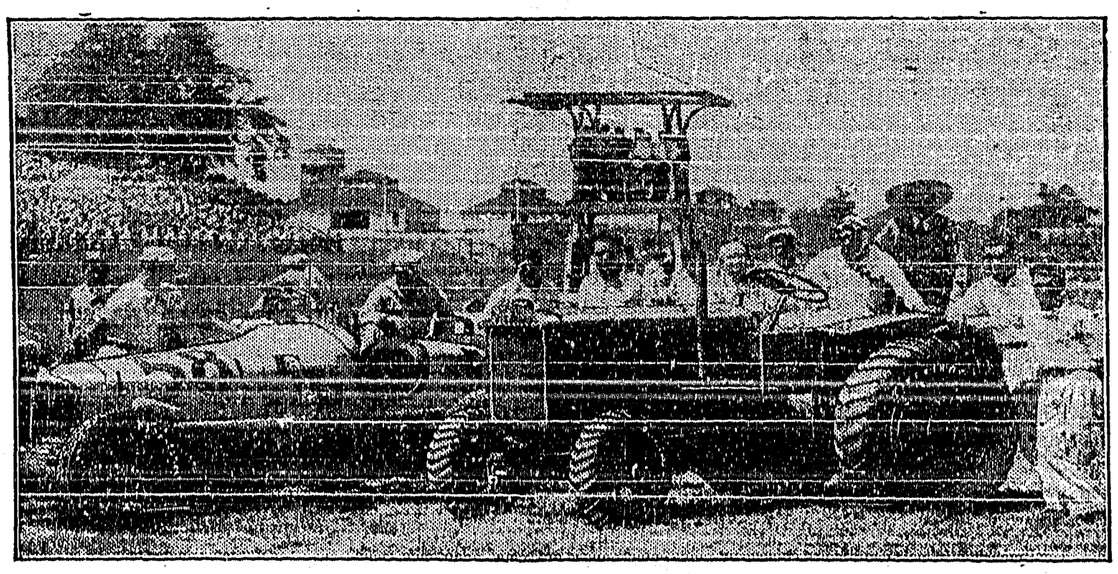
Cleveland has become a port-of-call for the ocean-going freighters of one enterprising steamship line.

Through use of the Welland Canal, the freighters, the "Havtor" and the "Vardeljell," out of Rotterdam, Holland, have gained entry to the rich Great Lakes ports.

Both vessels are about 250 feet long and draw only about 14 feet of water.

The shipping manager of one large industrial concern here declared that freight rates from Cleveland to Rotterdam via water are the same as railroad rates fom Cleveland to Baltimore.

Farm Tractor With Air Balloons Makes New Record



Frank Brisko, noted racing driver at wheel of tractor with which he set an official world speed record of 35.4 m.p.h. for five miles. The other helmeted racing driver is Chet Gardner, and beside the big tire are Bill Cummings, left and Shorty Cantlon, right—all famous race drivers.. Behind the driver is Albert Schroeder, farmer who gave a plowing demonstration with this Firestone air tired Allis-Chalmers tractor. At the left is the $30,000 F.W.D. racing car Brisko drove after the tractor run.

Farm Tractor With Air Balloon Tires Makes New Record

Enthusiasm of farmers for pneumatic tired tractors is making tractor manufacturers seek higher speeds to make the tractor more valuable for hauling or travel, and for use as an all-purpose farm machine. The most interesting speed performance is the recent official AAA record of 35.4 m.p.h. for five miles made by a tractor at the Wisconsin State Fair Grounds AAA race.

Thousands of people watched Albert Schroeder, a prominent Wisconsin farmer, using a new standard farm tractor equipped with the new Firestone Low Pressure Tractor Tire, plow several rows of the hard uneven ground inside the race track oval. Mr. Schroeder then unhitched the plow and turned the tractor over to Frank Brisko, a famous race driver, who was one of the leaders in the Indianapolis Race this year. The crowds were amazed to see the tractor streak down the straight stretches—at times travelling 40 miles an hour.

A new four-speed transmission development combined with the pneumatic low pressure tire development mad possible this unheard of speed.

At the end of the run, Frank Brisko, asked how he liked the ride, said "It was just like driving a passenger automobile."

The new highway speed and comfort now available in farm tractors shows how completely the tractor, with these big tires, serves as an all-purpose machine. Demonstrations in all parts of the country have proved to farmers that tractors using these tires give greater fuel economy in farm operations, greater traction, do not pack seed beds, make the farmer's work easier, and save time as well as money.

LOW PRICED but DEPENDABLE

OLDFIELD TIRES

made and guaranteed by Firestone

YOU do not have to sacrifice quality and mileage to get a low priced tire. Oldfield Tires — made by Firestone—have the quality and features of tires costing much more.

Only Firestone, with its vast resources and experience, could build such a big, full-sized, rugged tire with a Gum-Dipped cord body and a long-wearing safety tread to sell at such a low price.

Save money with Oldfield Tires. See the nearest Firestone Dealer today.

Guaranteed for 12 Months

Copyright by William Byron Mowery

CHAPTER XIII.—Continued.

As he went out along the slope toward the post, he was realizing, with bitterness of heart, that his sacrifice eighteen months ago, the greatest sacrifice a man can be called upon to make, had been worse than futile. It had cost him dearly, it had brought pain to Joyce, it had brought them tonight to their hour of separation. And yet, through his bitter mood ran the knowledge that in his sacrifice he had set all personal desires aside and had kept faith with a partner dead and had held sacred his pormise to Curt Spauling, until Elizabeth herself had made that promise impossible of fulfilment.

Again he lived over that hour when he came upon a trapper's deserted, snow-drifted hut, and found Curt there, stricken with the disease, with both lungs frozen, deserted by his treacherous Indian helper, dying as valiantly as he had lived. He felt that no man on earth could understand the emotion that racked him as he knelt beside the bunk, whispering to a partner who was going down into the dark, leaving a sister penniless, alone in the savage North.

"Alan, she loves—you," he could hear those broken whispers that presently were stilled. "If you'd marry her—my sister, Alan . . . I wouldn't mind—going—if I could think of you—partner and brother, too—" And over and over again that dying whispered plea, and the ineffable peace that came when Alan made covenant, "I will, I will, Curt. I love her, too, because she's your sister."

And now, as he thought of that lone funeral sled trip home, and as he glanced up the slope toward Curt's towering lobstick, his lips fashioned silently:

"I tried, Curt. You wouldn't have asked more of me than what I did. But it couldn't be, it couldn't be."

* * * * * * *

Joyce had helped Bill take her personal baggage down to the wharf, and had talked over with him final arrangements about forwarding the poltry to Edmonton and selling the trading store. Waiting for the steamer she had quietly stepped out of Mrs. Drummond's house into the garden back of it, telling no one where she had gone.

She was aware that Alan intended to come down before she left, for half an hour with her. She had slipped out in the garden to make that impossible. If he came down to the wharf at the last moment, she felt she could say good-by calmly enough, with a brief handclasp a voyageur's nod and bon chance; but a longer time with him would be unbearable.

As she stood there, half-hidden by an arbor of morning glories, she saw a dim figure come out along the slope from the direction of the woods edge, and as it passed her, scarcely a dozen feet away, she recognized Alan. He went on to the factor's house. She heard him knock, heard him ask for her, heard his puzzled "That's odd," when Mrs. Drummond said she'd been gone for half an hour.

By a lightning flash Joyce saw him as he started on past her. Something in his manner, in his dejected head, in his slow beaten gait, let her know he was aware she deliberately had gone away in these last minutes and deliberately had shunned a parting talk with him.

As Alan went slowly past the garden, unconscious of the lightning flashes, thinking only that Joyce, who had burned his picture and his gift, was now refusing a last hour with him, he heard a voice in the windy blackness. It sounded like his name. In surprise he whirled toward the arbor of morning glories, and as he stood there, listening, he heard it again—his name—Joyce's voice, half-sobbing:

"Alan! Don't—don't go. . . . I'm —I'm here. . . . ."

CHAPTER XIV.

The North's Call

As she worked on a report that evening in the little library nook, Joyce would pause now and then and listen intently, with her dark eyes peering into the blackness outside the window.

It was time for Alan to be returning with Bill and Ped from a patrol down the Mackenzie. In the sharp vigorous gusts of October wind she kept thinking she heard the drone of the launch. Across the room from her, on a blanket-padded couch, little Marion Montgomery had fallen asleep over a picture book, her tiny moccasins off, one arm hanging over the couch. In the deep dreamless sleep of babyhood the little tot was oblivious of the threat and snarl of autumnal wind swirling around the cabin. If there was any sacrifice in having that airy little companion in her home, Joyce had not yet become aware of it.

The report she was working on was a statement to her former bureau chief in Ottawa of the money expended in her work among the Indian women around Endurance.

During a lull in the wind she suddenly heard the unmistakable sound of the big police boat skimming up the wave-tossed Mackenzie. Putting aside her report, Joyce ceased being Dputy Indian Agent at Fort Endurance, N. W. T., and became the wife of Inspector Baker, officer commanding there. With a glance at the sleeping tot she flung a cape about her shoulders and went out the cabin and ran down the dark winding terrace toward the wharf.

When the yellow eye of the launch drew near, Joyce saw a tall figure step upon the prow half-deck and stand ready with the painter chain.

When he jumpe out upon the planking, jerked the launch alongside and lapped the painter around a pier-head, he turned to her, hat in hand, reproaching her:

"Girl, girl, you shouldn't have come down here, in this raw wet wind. You've got to begin learning to be careful—"

Pednoault snapped off the launch searchlight; and as the two men began gathering their packs together, in the mantling darkness Joyce silenced Alan's reproach, rising on tiptoe, oblivious of his wet slicker and the cold steel of his gun buckle.

After supper, when Alan had made himself regimental again after the six-days hard patrol, he stepped out into the living room where Joyce was finishing her report.

She beckoned him over to her, holding out several letters which had come for him on the Chipewyan mail. She had not opened them; but now when he brought a chair beside her, she read them with him.

Buzzard had dashed off a page from his apartment address in Winnipeg. He had "done" a couple dozen fairs and pumpkin shows in his new DeHavilland, but had found that line too tame. Right now he was flying the Winnipeg-Edmonton lap of the Air Mail. Next spring he was going to boss the "smoke hawk" division of the Manitoba Fire Prevention, with a circus of ten scouting 'planes under him.

"Some time this winter (he postscripted), we might put skis on the crate and hop down north to visit you. But Alan, you find out first if Joyce holds anything against me for telling you she burned that rainbow scarf. I don't think she ever has forgiven me."

Joyce looked up, laughing, but with a catch in her voice as she remembered that haunting day.

"Did you notice the 'we,' Alan? He puts her into a postscript! She's just a mere afterthought! Who is she?"

"Louise of Kamloops, is all I know," Alan answered.

The next envelope was an enigma. It contained no message, no writing—nothing but two pictures. One was a panorama of a large country estate, with lawns, servant quarters, gardens, orchards. The other showed an imposing town residence, a stone building overrun by ivy, with a limousine waiting in the doorway.

Bewildered, Alan looked at the pictures twice, searched in the envelope for a possible note, glanced again at the address. And then, as he studied the crest of the envelope, he started a little. This was from Elizabeth! That insigne was the Lamroth-Haskell crest! Since Haskell married her and they left the North, they had written to on one at Endurance; but Alan had heard that Haskell, transferred to a small detachment in the Kootenay coal fields, had resigned and gone east.

Suddenly understanding the pictures, Alan looked up an met Joyce's eyes, and he saw that she too understood. In a kind of scorn she remarked:

"That's like Elizabeth, isn't it, Alan? She wants you to realize she's got a country estate and town house and uniformed chauffeur and all the things that—that—"

"Say it?" Alan bade. "—All the things I'd never been able to give her. She's trying to rub it in. Yes, it's like her, Joyce."

"Sometimes I pity her a little—with ihm, Alan."

"I wouldn't say that, Joyce. I knew her better than you did. I'd say, God pity him—with her."

With a gesture of finality he flipped the pictures contemptuously into the fireplace.

Later, when the lights of the post were out, when the fire logs had burned to red coals and Joyce had carried her sleepy little charge away to bed, they went outside the cabin.

In the night sky they heard the honking of Arctic geese, last of the migrants, winging swiftly south; and they had the feeling that in the illimitable woods all furry creatures were seeking out warm dens and storing food for the Frozen Moons. Up and down the wilderness rivers and far-flung over the Strong-Woods, a whisper had gone abroad of a mighty change brooding—a whisper that drove less courageous things into headlong flight, yet was but a challenge to those more valiant of heart. The spirit of winter was in the air tonight; and Alan and Joyce were welcoming it. Here in the far North they had lived through other winters; they knew the savagery of those Moons and their white silent beauty, too. They had work to keep them busied during the long Dark, and a home against the blind swirling blizzards, and the vista of a life together here in this far land of their choosing.

[THE END.]

Youth Seen In Attempt To Adjust

Stirred by modern youth's desperate efforts to adjust itself to the complicated demands made by life and a rapidly changing world, Edna Robb Webster, noted serial story writer, has given her attention to the problem in her latest book, "Occasional Wife," a romance of modern marriage. The story begins in this paper at an early date.

Mrs. Webster takes as her two chief characters, Camilla Hoyt, adopted daughter of a wealthy family, and Peter Anson, poor and struggling artist. They love each other an want to marry. Camilla, whose foster mother, wants her to marry for money, is not to share in her family's wealth when she comes of age, but she is tying to carve out a career for herself as a commercial artist. To marry Pete and saddle him with the responsibility of her support and happiness would mean, so Camilla thinks, the sacrifice of his already promising career. So she evolves a unique marriage plan.

Mrs. Webster's serial stories are known wherever newspapers are printed. She has written many favorites, among them "Dad's Girl," "Joretta," and "Lipstick Girl."

Control News Broadcast

Commission Has Issued Instructions To All Canadian Stations

Instructions have been issued to all radio broadcasting stations in Canada to the effect that as from July 17, they would not be allowed to broadcast items other than those provided by the Canadian Press or some other licensed news agency in the Dominion of Canada. Beginning on that date the Canadian Radio Broadcasting Commission has been furnished with news bulletins for two five minute broadcasts daily, including Sunday.

In Saskatchewan, Manitoba and Alberta the broadcasts will be at 7:25 and 10 p.m., central standard time.

More ships are visiting the Virgin Islands than a year ago.

CRESTON, B.C., FRIDAY, JULY 21

HOME BREW

In the retirement of Jas. Cook as a member of the school board Creston parts company with a trustee who has rendered outstanding service in the three years he has been on the board, and whose retirement at this particular time is very genuinely regretted. Mr. Cook brought to his work as trustee a considerable native business ability and a thoroughness in the conduct of school affairs that, it is not going too strong to say, was somewhat of an improvement over some preceding boards. In handling school policy Mr. Cook was progressive, as evidenced in the cooperation extended the staff, particularly in the matter of athletics in all directions, and the modernizing of high school facilities insofar as funds were available—and in the matter of finances during his term the district got good value for every dollar spent. In all branches of trnstee work Mr. Cook has given freely of his time and intelligently of his ability, and the ratepayers, and those attending school alike, lose the services of one who appreciated the responsibilities of a trustee, and who discharged them without fear or favor.

The banner turnout at this year's school meeting very clearly indicates that the financial angle of the schools' conduct is exciting just a little more than the usual interest, and with this situation there is no complaint, except with the extreme economists who affect to believe that school costs at Creston are altogether too high. Our information is that the total assessment of Creston school area is just over $900,000, and with a request for $8125 for the ensuing year at a rate of 10 mills will provide about a thousand dollars more than is asked for—but a rate that is likely to be unduly heavy in times like these. On this levy of 10 miils Creston maintains a six room public and three-room high school· At Kaslo, where there is but a one-room high school and a three-room public school the citizens are paying 18 mills this year, and Kaslo is a very fair semple of all the small towns in the province. Educational services considered, the Review doubts very much if there is another village of its size in all British Columbia where educational costs are so moderate as right here in Creston.

In connection with future school meetings when teachers' salaries are being discussed a much be ter idea of what the ratepayer directly contributes towards these stipends would be gathered if the matter of what the government pays was kept out of the discussion. The impression the Review gathered at this year's meeting is that for 1933-34 the department will pay each public school teacher $637. If this amount is deducted from the $900 the instructors in Divisions 4, 5 and 6 are to receive this year, it means that the ratepayers are putting up only $263 for each of these teachers—or about $22 a month, or a little more than $1.30 per day for each day taught. It might be observed, too, that the board would escape some criticism if the item of "supplies" was stated in a little more detail, and shown in two sections—high and public school.

In looking over the schedule of salaries as shown on the board at the annual school meeting, more than a few seemed curious to know why there should be a spread of about $400 in the stipenes paid the igh and public school teachers The answer to this question is probably found in the salary schedule as set in the School Act by the minister for guidance of trustees, which puts what might be termed the minimum pay for a high school teacher at $1200, and that of the public school $780. On this basis all the teachers are drawing over the School Act minimun salary with one exception.

A friend of ours who believes that history repeats itself furnishes another "straw" which indicates that the wind is blowing favorably to the Libdra cause in the oncoming election. Our friend recalls that in 1916, when the Liberals came into power in B.C., was the year of the last high water and that the the Conservative admisistration went to the people after over-staying its usual term of office one year, as ss the present case of Premier Tolmie. It should be pointed out, too, that W. J. Bowser was the 1816 premier, and that for the first time in its history Creston, then a part of the Kaslo riding, had its first Liberal representative in the late John Keen. All of which is respectfully submitted.

OUR K.B.O. BROADCAST

Drive-yourself autos can now be hired at Cranbrook at 12 cents a mile.

The Gazette expects Grand Forks will have a Gyro club by October.

Kaslo will have its annual water sports and regatta on August 12th.

Th· Bulman cannery at Vernon if this year putting up a pack of spinach.

The Okanagan has only about 50 per cent. of the 1932 apricot crop this year.

Rains the latter pa.t of June split almost 20 per cent. of the Okanagan cherry crop.

The 1932 pack of dehydrated appies at the Bulman plant at Vernon is now all sold.

Rossland Knights of Pythias are to have a children's day celebration on Labor Day.

Porthill has its beer parlor, a license to operate one having been granted R. C. Hawks.

After being in operation 22 years the railroad Y.M.C.A. at Cranbrook will close this month.

Golden hospital women's auxiliary cleaned up $138 at the annual garden party last month.

Tax collections at Bonners Ferry up to July 1st were less than half the amount due on that date.

The airport at Cranbrook is to be lengthened by 1000 feet. Unemployed single men will handle the job.

For July and August the Presbyterian and United Churches at Gra d Forks are having union services.

200 tons of Royal Anne cherries are being processed—130 tons at Penticton and 70 tons at Summerland.

The Herald protests that house -to- house and street corner begging is altogether too common at Penticton.

W. H. Dunn of Kaslo has a pear tree, half of whick is in blossom and the other half laden with green fruit.

At a recent hospital benefit garden party at Golden more money was made selling hot dogs than at the tea room.

Oscar Bangs, county game warden at Bonners Ferry, claims to have hatched 513 out of 723 Chinese pheasant eggs.

Two scows towed by a motor boat are being used in dismantling the old bridge over the Kootenay River at Bonners Ferry.

Enough Christian Scientists are now living at Kimberley to warrant the establishing of regular Sunday morning services.

At Penticton the Co-Op. Fruit Growers will enlarge the old storage facilities to accommodate 35,000 additional boxes of apples.

At Penticton the Co-Op. Fruit Grawers are processing 20 tons daily of Royal Annes—making marschino cherries out of them.

10 Bonners Ferry council has fixed upon $12 a year as the license to be paid by beer parlors in that town. So far only two have opened for business.

Kaslo city will be 40 years old September 14th. Something befitting the anniversary will be featured at the Women's Institute fall fair on that date.

The council at Bonners Ferry will this week consider a petition asking that the town abandon daylight saving time which was established late in May.

At July Ist unemployment at Grand Forks had dropped to 15 per cent. of ohe number out of work in April, and all relief work was discontinued on Dominion Day.

At Penticton the Canadian Canners would like to purchase 100 tons each of apricots, Royal Anne cherries, pears and J. H. Hale peaches. The total crop of the latter hardly equals that total.

List of school books is ready, for September school opening. Lists may be obtained at Creston Drug & Book Store. Order your books now. August 1st is positively the last date, to order, to ensure delivery when school starts. A ten cent deposit on books.

Mr. Bullough, musical director, pianist and teacher of music in all branches, has ppened a Summer Preparatory Course at special rates for all Associated Board and Toronto Conservatory exams., and would be pleased to meet all interested in any branch of music. Studio, Hillside Road and Creston Ave.

WATER ACT

Notice of Application for the Approval of Plans

TAKE NOTICE that West Kootenay Power and Light Company Limited will apply to the Comptroller of Water Rights for the approval ofthe plans of the works to be constructed for the diversion of water from Goat River under application for a license for Power purpose which application was filed in the office of the Water Recorder at Nelson, B.C., on the 18th day of June, 1930.

The water is to be diverted from the said stream at a point 600 feet downstream from South boundary of Block 29 of Lot 812, and is to be used for the generation of electrical energy at a power site located on Block 30 of Lot 812, Kootenay District.

The locality within which the business of the Company is to be transacted is within a twenty-five mile radius of Power site, including the village of Creston.

The plans and specifications of the said works made pursuant to Authorization No. 1008 have been filed in the office of the Comptroller, and duplicates of such plans and specifications are now open to inspection at the office of the Water Recorder at Nelson, B.C.

Objections may be filed with the Comptroller at any time prior to the expiration of thirty days after the first publication of this notice.

The date of the first publication of this notice is June 30th, 1933.

Library Makes Appeal for Books

Institution Must Close if Books Not Donated—Works of Fiction Specially Desired—Government Withdraws Support

At a meeting of the members of the wublic library on Saturday afternoon the difficulty that has just been encountered in the matter of securing fresh supplies of books, as well as library matters generally, were fully discussed, and it was decided to make a special effort to keep the library open.

What has happened is just this: Up till now the Public Library Commisson has, free of charge, supplied Creston with new supplies of books four times each year. From now on the local library has been advised that works of fiction cannot be had and on non-fiction the library must pay the freight charges both ways. As the librarian has not funds for this purpose there is nothing for it but to close unless local residents who have books they can spare donate these to the Creston library. The Library Commission's letter to the board reads:

"As there are no funds for the purchase of new fiction, and an insufficient stock of old fiction to supply the regular Travelling Library stations shipments to Associations will consist of non-fiction only.

Associations are required to pay freight charges both ways on shipments of books, and it is hoped that next year more favourable arrangements may be made."

In view of the new situation Creston library management is making an urgent appeal to Valley residents requesting the gift of books for the library. In almost every home there are one or more volumes that can be spared, and these can be left at the village clerk's office at the town hall any afternoon from 2 to 4 o'clock, or at the library on Saturday afternoons.

The library is a very valuable asset to our community and every endeavour will be made to keep this institution functioning until the department can again assist us in a more liberal manner.

Kitchener

Mrs. Barr. and son, Robert, of Kimberley, are here on a visit at the home of Mr. and Mrs. B. Johnson.

Miss Myrtle Anderson spent the week on a visit with Creston friends, returning on Sunday.

Mrs. Allan Moore, jr., of Fort Steele, arrived on Friday on a visit with her sister, Mrs. A. Lepage, returning on Tuesday.

Mrs. B. Johnson left on Friday for Nelson and Spokane, where she is visiting friends and relatives

A. Lepage, Fred Smith and C. Senesael were weekend visitors at their homes here, returning to Fort Steele on Tuesday morning.

Miss Sarah Brett arrived on Sunday from Canyon on a visit with Miss Myrtle Anderson.

At the annual meeting of the ratepayers of Kitchener school district on Saturday evening G. A. Hunt was re-elected trustee for a three year term, and with C. Senesael and Sid Abar complete the board. C. Foisy was elected auditor for the year. The treasurer's statement showed quite a substantial surplus, and $300 was voted for 1933-34 supply. The teacher's salary was cut 10 per cent., and the janitor suffered a reduction of from $16 to $10 per month.

Boswell Regatta Plans Complete

Visitors Promised Great Day Acquatic Sports at Boswell Wednesday, 26th — Morning and Afternoon Attractions.

Valley residents are again reminded of the big day planned at Boswell for July 26th. The comprehensive progrom of events, advertised in detail on the posters this week, is chosen and arranged to offer the greatest attraction to both contestants and spectators, and a large number of stunt events assures plenty of laughter.

In the forefront of the days attractions is the presence of Creston band throughout the afternoon. The band have generously offered their service for no other remuneration than the privilege of taking a silver collection.

All are invited to take advantage of the full holiday in the village to make an early start and be at Boswell for the children's sports commencing at eleven a.m. Facilities are available for picnicing on the beach at noon, and refreshments are on sale during the day, while from three thirty on, afternoon tea will be seryed in comfortable quarters adjacent to the grounds.

McCreath's truck, leaving the warehouse at 9.15 in the morning, offers transportation to children and others at the nominal charge of 50c. for the round trip. Car owners are requested to offer available space to less fortunate persons and carry a full load to the regatta.

Don't miss the trophy display in V. Mawsons store this week, or the larger exhibition on the regatta grounds Raffle tickets on sale in the valley offer attractive prizes to the lucky ticket holders. Too good a chance to overlook.

The committee wish to stress the fact that the competition is amateur throughout and that local athletes need not hesitate to enter any and all events through fear of being outclassed. All prizes remain in the riding, outside competitors being ineligible. The big dance in the enening, with music by a Creston orchestra, offers the final attraction in the big program. Remember, it's Wednesday, July 26th.

Erickson

Mrs. J. S. Peck of Calgary, Alberta, is a visitor here at present, a guest of her mother, Mrs. Geo. Cartwright.

Mr and Mrs A. Clements and family, who have spent the past six weeks here with the former's parents, Mr. and Mr. H. Clements, left at the end of the week for their home at San Francisco.

Miss Mary Pollock and friend of Fernie are here for a short visit with the former's sister, Mrs. A. G. Mensinger.

Frank Putnam combined business with pleasure on a visit at Nelson at the weekend.

Mrs. Harold Kemp of Victoria, who spent a week here, a guest of Mr. and Mrs. W. H. Kemp, left at the end of the week for here home at the capital.

Mr. and Mr. D. A. MacDonald and family of Greenwood, who are visiting with Mrs. Geo. Cartwright, spent a few days last week in Cranbrook, making the trip by auto.

Miss Molly Kemp of Winnipeg, Manitoba, and Aubrey Kemp of Trail, are here on a holiday visit with their father, W. H. Kemp.

At the annual meeting of the school district ratepayers on Wednesday evening last J. B. Holder was elected trustee to replace the retiring trustee, E. E. Cartwright. The other members of the board are Mrs. F. Putnam and R. M. Telford. E. J. C. Richardson was re-elected auditor and $1800 was voted for operating expenses—$100 less than last year.

Local and Personal

Birth—On July 14th, to Mr. and Mrs. A. E. French, a daughter.

Raymond Martin is spending his holidays with his uncle in Nelson.

H. Godderis of Cranbrook took over the work of assistant C.P.R. agent on Monday.

COW FOR SALE—Jersey-Shorthorn, milking, price is right. H. Clements, Erickson.

R. Walmsley and A. L. Palmer were business visitors at Nelson at the first of the week.

COW FOR SALE—Jersey, good butter cow, no pasture, will sell cheap W. H. Gobbett, Creston.

Mr. and Mrs. Christenson of Spokane were Creston visitors a few days last week guests of Mr. and Mrs. Forbes.

Fred Duck, cashier of the Bank of Commerce, is back from a two weeks' vacation at Vancouver and coast points.

Mr. and Mrs. F. Hulburt of Moosejaw, Sask., are here on a holiday visit with the latter's mother, Mrs. Fransen.

LOST—Between Grand theatre and S. A. Speers' residence, gold wrist watch. Finder leave at Review Office. Reward.

Mr. and George E. Hodson of Medicine Hat, Alberta, were weekend visitors with Mr. and Mrs. J. A. Avery.

Miss Maisie Ferguson left last week for Nelson, where she is spending the summer with her sister, Mrs. W. Defoe.

FRUIT WANTED—Three-ton truck load best grade Cherries. Write stating kind and price. W. Chadwick, College Heights, Alta.

Miss Bernice McKinnon of Medicine Hat, Alberta, spent a few days with Mr. and Mrs. Avery last week, returning home from a holiday in the Okanagan.

Dr. Warren has just completed planting well over 2000 celery plants and is demonstrating the twofold value to health—his health and good food for others by growing the world's renowned nerve food.

The district was in the grip of a very heavy windstorm for a couple of hours Wednesday afternoon and in some orchards there has been quite a heavy blowoff of some varieties of plums, as well as some cherries.

Mr. and Mrs. Geo. Johnson got away at the first of the week on a holiday visit with old friends at Revelstoke and Trout Lake, in both of which places he was with P. Burns & Company before coming to Creston. They will also visit at Okanagan points. On the trip they are accompanied by Mr. and Mrs. W. Belanger of Jaffray.

Word has just reached here of the death, early in July, at Coeur d'Alene, Idaho, of Walter B. Forward, a former well known resident of Creston who about 12 years ago disposed of his ranch to W. S. McAlpine and moved to Coeur d'Alene. He is survived by his wife and one daughter, Mrs. John Redden, who lives on the prairie.

A quiet home wedding was that of Saturday morning at the home of the bride's parents, Mr. and Mrs. Herb Christie, when their eldest daughter, Miss Hazel Ena, was united in marriage with Robert B. McKay, with Rev A. Walker officiating. Mr. and Mrs. McKay left immediately on a short visit with friends at Kimberley and Cranbrook, returning early in the week to make their home at Creston where the groom is with the provincial police.

Another Creston young couple joined the ranks of the benedicts on Sunday morning at Trinity United Church manse when Rev. Andrew Walker officiated at the marriage of Miss Donna Tillotson and Arthur S. Reed. The bride wore a stylish suit of pink and white with shoes and accessories to match, and was attended by Miss Pearl Spencer. Ollie Christie supported the groom. Mr. Reed, who is deputy fire chief was fittingly welcomed by brigade members on leaving the manse having to pass under an arch of axes, nozzles and other fire fighting equipment and with Mrs. Reed and attendants to take places on the fire truck, which had been taken to the scene of the happy event and the groom's car removed to the firehall. With siren effects a tour of Canyon street was made, and the newlyweds were then allowed to take their car and left on a honeymoon trip to Banff and Red Deer, Alberta. Both are very popular members of the younger set and have the best wishes of all for future happiness and success. They will take up residence at Creston on their return at the end of the month.

DISSOLUTION OF PARTNERSHIP

NOTICE is hereby given that the partnership heretofore existing as between A. L. Palmer and R. W. A. Maxwell in the business known as the Premier Garage, at Creston, B. C., has been dissolved as from July 15, 1933. All accounts owing the firm are to be paid to A. L. Palmer on or before August 15, 1933. All accounts owed by the firm will be paid by the undersigned.

A. L. PALMER

Creston, B. C., July 19, 1933.

POUNDKEEPER'S NOTICE OF SALE

NOTICE is hereby given that there is impounded in the Pound kept by the Village of Creston, one red and white heifer, no brand visible; ears have half-moon nitch on tips and lower edges. Unless the animal is sooner claimed it will be sold by auction at the pound at 10 a.m., Saturday, July 29th, 1933, to recover costs and expenses. B. CRIPPS, Poundkeeper.

CANYON STREET at BARTON AVE. CRESTON

A Dog With A Bad Name.

Alignment of the various countries participating in the World Economic Conference at London, England, into a Gold Bloc on the one side and a Sterling-Dollar group on the other, served to rivet attention of the world on the difficulties attending a conference of the kind. There is no gainsaying the fact that the people of all countries participating are anxious to see the conference reach some definite, if not spectacular, conclusions, but, despite this unanimity of desire for adjustment of the economic machine, the burning hunger of all peoples to end depression and restore world trade and world purchasing power, memories of old crises hedge the inflationist suggestions with almost insuperable obstacles. It is a case of the dog with a bad name.

Countries of Europe, which with France and Germany adhere to gold, have painful recollections of their ventures into the realm of uncontrolled inflation. They remember the disastrous sky-rocketing of commodity values in relation to monetary units. They recall the hectic efforts to keep abreast of currency depreciation, and the desperate calculations, involving reckoning in astronomical figures, which maintenance of an ordinary family budget entailed. Inflation to them means printing presses working overtime, and the catastrophic uncertainty of day-to-day business. No wonder then that they hesitate to venture again from the gold anchorage.

Great Britain, the Dominions, the United States, and adherents of the Sterling-Dollar group, have not the same grim experience of frenzied reckoning. Britain hazarded a return to gold, and bled herself white in the process of maintaining the standard. So much so that when the country eventually was forced off gold, it was with something of relief that the country abandoned its heroic efforts to maintain the pound at gold par, and allowed it to find its own level on world exchanges. The United States, having embarked on a policy designed to raise commodity price levels and revive moribund industry, has seen fit to release the dollar from gold, and is not to be persuaded to hitch it to any other monetary standard until experience has demonstrated the proper level at which it should be pegged for the country's good. The assurance the world now awaits is whether or not the United States will be able to control the inflationary process upon which it is launched.

London news would indicate that, whereas Britain abandoned the gold standard and apparently was allowing sterling to find its own level, in reality the pound, for some time, at least, has been maintained in a position of some relationship with the French franc. Some measure of control, therefore, has been exercised in Britain and, in the result, there has been no appreciable disequilibrium between money wages and commodity values. The possibility is that the United States will pursue a similar course. That is to say, the dollar will be permitted to find a level at which the beneficial effects of the inflation are real and, this position having been reached, a strenuous effort will be made to prevent the inflationary trend from going far enough to negative the good done.

The controversy between the members of the Gold Bloc and those adhering to the Sterling-Dollar group had the effect of forcing Great Britain to declare its inclination. It is notewothy that, in the test, Britain threw in her lot with the Dominions and the United States, which would appear to indicate that Britain is looking toward these countries rather than to the continent of Europe for the trade opportunities essential to her economic wellbeing. London despatches have made it abundantly manifest that the British people are becoming more wedded to the idea of an Empire Economic unit, to the extent that such an idea is tenable. Indeed, at one crisis in affairs of the conference, when definite attempts were made to force its adjournment, there were many proponents of a scheme to organize a second Empire Conference from among the representatives of the British dominions now gathered in London.

The obvious deduction to be made from the propagation of such ideas is that, whatever the outcome of the World Conference, the trade relationships as between the Mother Country and the Dominions overseas are bound to be improved. Contacts established have proved fruitful. British opinion is emphatic for practical application of the Ottawa agreements and for their extension. Canada should not hesitate to capitalize this favorable attitude; and, with prices of the primary products moving upwards, the stage is being set for a real revival.

Costs Little To Operate

Small Airplane Weighs Less Than Thousand Pounds Loaded

One of the smallest airplanes built, a two-cylinder Aeronca, is proving its wings in high altitude flying at the Western Airport at Denver, Colo., more than a mile above sea level. The 'plane weighs less than 1,000 pounds loaded, and can be operated for less than $2 an hour, its owners say. It develops a maximum speed of ninety-five miles an hour and maintains a cruising speed of eighty-five miles per hour. It burns only two and a half gallons of gasoline an hour. The craft is a two-seater cabin monoplane.

Prince Likes Scotch Costume

Prefers Kilts When Full Dress Uniform Is Required

The Prince of Wales, who deputised for his father at the last levee of the season at St. James's Palace, is very fond of wearing the kilt on such occasions of State, which demand a full dress uniform. The reason for the Prince's preference is simply that he finds the full dress Guards uniform with its Wellington boots, and tight trousers, which he wears as Colonel of the Welsh Guards, gives much less comfort and freedom of movement than the loose kilts he wears as Colonel-in-Chief of the Seaforth Highlanders.

Bowel Complaints of Children During the Summer Months

Mothers should look well after their children during the hot summer months. Despite all they can do the children may be seized, at any time, with diarrhoea, dysentery, summer complaint, or other forms of bowel trouble.

There is a safe remedy in Dr. Fowler's Extract of Wild Strawberry; a remedy that has received the endorsement of legions of Canadian mothers during the 88 years it has been on the market. Don't experiment. Get "Dr. Fowler's" and be on the safe side.

Grain Elevators Busy

Rise In Wheat Prices Brings Changed Conditions

Saskatchewan wheat elevators are working night and day and there is a much happier situation there than has prevailed for a long time, Hon. Robert Weir, Minister of Agriculture, stated on his return to Ottawa. Mr. Weir has been for several weeks on a visit to his constituency of Melfort, Sask., and also visited much of the surrounding country.

The minister said there was much more wheat in the hands of the farmers than has been realized and they are now disposing of it at 60 cents a bushel and more, with the result that conditions have taken on a brighter aspect. The activity of Saskatchewan elevators was without precedent, Mr. Weir said.

Some 50 municipalities had been badly stricken by the grasshopper plague, Mr. Weir said, and assistance would have to be given them.

Use Russian Lumber

Britain Reported To Be Importing Large Quantities This Season

The Morning Post states Timber Distributors, Limited, a group of British importers, announced in a letter to British firms interested in purchasing timber that they would import 693,000,000 board feet of Russian lumber during the coming navigation season.

The newspaper said Timber Distributors, whose previous plans to import Russian wood were stopped by declaration of the recently lifted embargo against Russian goods, told its clients it was adding 15 shillings to the contract price for the lumber to cover inconvenience caused by the embargo.

Even with this addition, the Post quoted the firm as saying, the price in the British market would be far below anything with which Canadian timber interests could compete.

Completes Cross-Canada Flight

Secretary Of Clubs Finds More Flying Being Done In Cities

George M. Ross, secretary of the Canadian Flying Clubs Association, landed at Sea Island Airport, Vancouver, completing a flight across Canada during which he visited all the Aero clubs en route. He made the final leg from Calgary in eight hours, flying the Moth 'plane presented to Major-General J. H. MacBrien, president of the aviation league, several years ago. Is is the Moth's fourth visit to Vancouver and its fourteenth trans-Canada flight. It has done some 86,000 miles.

Mr. Ross finds more flying is being done in nearly every city. "Fewer Canadians are going to the United States for their aviation training," he said. "In some parts of the east, in fact, the trend is the other way."

SOURED ON THE WORLD?—THAT'S LIVER

Wake up your Liver Bile —No Calomel necessary

Many people who feel sour, sluggish and generally wretched make the mistake of taking salts, oil, mineral water, laxative candy or chewing gum, or roughage which only move the bowels and ignore the liver.

What you need is to wake up your lives bile. Start your liver pouring the daily two pounds of liquid bile into your bowels. Get your stomach and intestines working as they should, once more.

Carter's Little Liver Pills will soon fix you up. Purely vegetable. Safe. Sure. Quick. Ask for them by name. Refuse substitutes. 25c. at all druggists. 51

Railroad Station Nursery

Newest Innovation Established In France Will Be Free

A nursery is the latest innovation to be installed at the Montparnasse Railway Station in Paris which serves Brittany and La Vendee. From 40 to 50 babies may be cared for in this railroad nursery, the first to be established is France, which will shortly be imitated in the principal stations of the State Railways. If baby wants a bath, a change of clothing, a bottle of milk, an hour or two of sleep, all this will be available at the nurseries, and all of it will be free.

In the last two years 403 women have been appointed magistrates in London.

The number of illiterates in the United States is 4,283,753. This is a drop of 33 per cent. in a decade.

Cars Are Practically Immune To Lightning

Safest Place For Motorists If Storm Overtakes Them

If you are driving along the highway when an electrical storm comes up, and you seek a nice safe place to stay until the storm passes, just take the advice of experts, and stick right to the driver's seat.

The Bureau of Standards tells us that automobiles are practically immune to lightning despite the fact that rubber tires and the car as a whole become very wet during the storm.

Persons driving within a conducting enclosure are fairly safe against lightning, and the auto body, although enclosed to a considerable extent by glass, approaches this condition.

The average motorist is probably safer in his car during an electrical storm than in his home. Come to think about it, there are mighty few cases on record of autos being struck by lightning. And this is rather remarkable when you stop to consider the hundreds of thousands of cars out in electric storms, particularly in our larger cities.

Society Doing Good Work

Entomological Society Of London Meeting With OutStanding Success

More than 150 delegates, representing 22 counties, will assemble in London for the three-days centenary celebrations of the Entomological Society of London, England.

Economic entomologists in every country of the Empire are now fellows of the society, and in proof of the value of their work two outstanding successes may be instanced —the recent reclamation of three million acres of land in Queensland from the prickly pear, and the rescue of the entire cocoanut industry of the Figi Islands from a little purple moth which had damaged the trees beyond bearing.

In each case success was achieved by the introduction of a parasitic insect. The world's hope of controlling the migratory locust in Africa and Asia is also dependent on the economic entomologist.

Wonderful Trip For English Schoolboys

Have Left Manchester On Holiday Trip To Morocco

Twelve pupils at the Manchester grammar school, who have left for a holiday trip to Morocco, will be the first Europeans to inspect the hitherto forbidden city of Tchzewen. Permission has been granted to them on account of the school's friendly relations during previous trips with the Sultan and high officials.

In addition to exploring many little known parts of Morocco, the boys will also act as ambassadors for the Lancashire cotton trade. They are taking with them samples of Lancashire cloth, in order to impress the people of Morocco with its quality. As a result of doing this on previous visits many of the Moroccan hotels have purchased large quantities of such Lancashire goods as tablecloths and bed sheets.

Boom In Construction

Twenty-Six Cities Plan Building Projects Which Will Total $160,000,000

Twenty-six cities in Canada expect shortly to undertake engineering and building projects amounting to $160,000,000, according to a survey made by the national construction council. In all, questionnaires were sent to 54 centres, and it is expected the final figures will rach $350,000,000.

Twelve local committees are to be appointed at strategic points in Canada, to be formed along similar lines to the national construction council, in order to carry out survey and research work in the various provinces for the national body.

Had New Experience

Canada's Governor-General has met with a new experience. He attended his first baby clinic. Doctors examined 25 lusty youngsters while Lord and Lady Bessborough looked on. The clinic was part of the program staged for their Excellencies as they visited Digby on their Nova Scotia tour.

The Inside Story!

Right inside your pipe bowl . . . there's where Ogden's Cut Plug tells the story of smoking pleasure and it's a serial story, too—every pipeful is a chapter of enjoyment . . . complete in itself . . . told in a language you'll always understand. The more particular you are about pipe tobacco the more you'll like Ogden's Cut Plug. You can't help but like it . . . it packs right . . . lights right . . . burns right . . . in your pipe!

OGDEN'S CUT PLUG

If you "roll your own," use Ogden's fine cut cigarette tobacco and Chantecler cigarette papers

Best Container For Cream

A well soldered plain-bottomed tin can, about eight inches in diameter and 20 inches deep has been found by dairy farmers to be the best kind of vessel in which to hold cream. It is easily cleaned and convenient to handle. If cream is held in earthenware crocks that have in any way become chipped, an undesirable flavor may be imparted to the butter.

BABY'S OWN SOAP

"It's Best for You and Baby too"

TRUCE EFFECTED WITH GOLD BLOC AT CONFERENCE

London, Eng.—Monetary questions, tariffs and import quotas were finally cut out of the agenda of the world conference in an amicable truce with the European gold bloc.

Great Britain, the Dominions and the United States acquiesced in the gold-standard nations' view that nothing can be accomplished satisfactorily on the more important monetary questions so long as there is no stabilization of currencies until the U.S. changes its attitude.

To this extent the conference was right back where it was in the crisis of last week but there was an important difference. Then the incensed gold-standard delegates were ready to quit the parley. Now they are well satisfied monetary questions are dropped and they will keep on working at the other questions.

The conference will go on, but it is expected to continue only two or three weeks in order to reach agreement on the non-contentious questions left on the agenda. Then the plan is to adjourn the conference proper until the fall, leaving some committees at work and hoping that before the conference meets again the U.S. will be willing to stabilize currencies. In that event the conference might tackle properly the broad programme originally laid before it. Many delegates were very hopeful about this end.

Prime Minister R. B. Bennett, who characterized the decisions as permitting the work to go smoothly on, is prepared to return with the Canadian delegation at the end of July.

The steering committee accepted the recommendations of a special drafting committee of the full monetary commission, a committee of which Premier Bennett was a member. It decided it was no use going on with problems on which unanimous agreement is not likely.

The questions left are indebtedness, meaning long and short term commercial loans, not war debts; along with central banking co-operation, creation of central banks in countries which have not got them now, rehabilitation of silver and other questions on which the respective subcommittees think there is a chance of agreement.

A whole host of projects is under way outside the conference proper and the outlook for some of them is most promising. Canada especially has been working actively with the other Empire delegations on furtherance of Empire trade and straightening out the Empire currency tangle, but what progress, if any, has been made on these topics of vital interest to the Empire is being closely guarded.

There is also wheat, timber and silver. Negotiations are said to be progressing very favorably on wheat. The Big Four—Canada, Australia, the Argentine and the U.S.—are already agreed in principle on limiting production, regularizing exports. They are understood to have gained a considerable measure of co-operation from the European exporters. Now they are working on the importers.

Much of the groundwork for restoring the world's timber markets has been done, since Canada's earnest declaration that if Russian dumping continued to wreck the English market for her, she would ask the United Kingdom to make good her promise to maintain the imperial preference intact. All countries interested will be busy during the summer organizing statistics of their production and exports, studying collective agreements.

Powder Stores Robbed

Winnipeg, Man.—Believed to have been perpetrated by a gang of safe blowers, seeking material with which to crack strong boxes, City of Winnipeg's powder magazine at Stony Mountain, Man., has been broken into and a large quantity of dynamite, fuses, caps, and detonators stolen, it was disclosed Wednesday. The crime is believed to have taken place last Thursday night.

W. N. U. 2002

Factor Is Freed

Abducted Millionaire Is Released By Captors

La Grange, Il.—John Factor, millionaire market plunger, held prisoner 12 days by kidnappers, was released here Wednesday night after payment by his friends of ransom estimated at $200,000.

He walked into the La Grange police station and reported that he had been freed by his captors a short distance away and instructe how to reach the place by street car.

He was held by the officials pending arrival of a squad of Chicago detectives and federal agents.

Factor, according to the sergeant, appeared little the worse for his experience. He was clean shaven and neatly attired.

He asked for the use of a telephone to get in touch with members of his family who had kept vigil at his Morrison hotel headquarters since the kidnapping.

Whale Attacks Schooner

Crew Of Small Fishing Boat Had Narrow Escape

Pope's Harbor, N.S.—Captain Howard Daye and the crew of the fishing schooner "Evelyn M. Young" made port safely after a thrilling encounter with an enraged whale off the Nova Scotia coast.

The little vessel was hove to 11 miles off Pope's Harbor when a 50-foot whale attacked at night. The whale slashed into the vessel and the blow sprung the schooner's seam. Water started to enter the hold.

Captain Daye turned the "Young" for Pope's Harbor and made port before morning. The vessel was in a sinking condition and had to be grounded.

Ten Ships Still Unsalvaged

No More Vessels To Be Raised From Scapa Flow

London, Eng.—The last of the German warships to be raised from Scapa Flow, the battel-cruiser "Von der Tann" has been taken to Rosyth to be broken up. This ends the greatest feat of salvage ever undertaken.

It was on June 21, 1919, that the German high seas fleet was scuttled. Eleven battleships, 13 cruisers and 50 destroyers foundered, mostly in deep water. Salvage work was started in 1924. Thirty-two ships, including the 28,000-ton battleship, "Hindenburg," have been raised and taken to the breakup yards. Ten ships still remain under water, but it has been decided not to raise them.

May Have Escaped Death

Boy Plunges Into Niagara Gorge To Eluded Police

Niagara Falls, Ont.—A death defying leap into the Niagara gorge near the whirlpool by an identified 17-year-old youth after he had been handcuffed by provincial police is believed to have resulted in his escape.

Police said they came upon the youth in the act of stealing copper wire from electric light poles near the edge of the embankment. The handcuffs had just been placed on the youth's wrists when he suddenly wrenched himself loose and plunged over the bank.

Police thing his fall was broken by shrubbery and that he euded them and escaped.

Nova Scotia Elections

Halifax, N.S.—Nova Scotia's provincial genereal election will be held on Tuesday, August 22, Premier Gordon S. Harrington announced late Wednesday night, with the approval of the lieutenant-governor. The present general assembly will be dissolved Thursday, and writs issued for the election. Nomination ay is Aug. 15.

Nurses' Convention

Paris, France.—Thirty-two nations are represented among delegates at the international congress of nurses here this week. Canada has sent 125 delegates, Africa 25 and the United Kingdom 300, but there are no nurses from Soviet Russia. Altogether, 2,000 nurses are attending.

Interest in silver mining is being revived in Mexico.

NEW MINISTER

Sir Eric Drummond, British Secretary-General to the League of Nations since its inception, has been appointed British Minister to Rome. Sir Eric Drummond resigned from the League post recently.

Usefulness Has Been Proved

Hon. Hugh Guthrie Upholds Section 98 Of Criminal Codde

Calgary, Alberta.—Section 98 of the criminal code was upheld by Hon. Hugh Guthrie, Minister of Justice, in addressing the Calgary bar association. This section of the criminal code, containing prison terms for those advocating constitution changes by violence and threats of violence, had proved useful recently, he declared.

In his brief address, the minister of justice described his duties and problems. He said the law as set forth in section 98 did not interfere with any law-abiding citizen. At the same time, he concluded. it had come in very handy in dealing with certain disturbance arising out of unemployment problems.

Inaccurate Statements

Resents Report That Roosevelt Wrecked Conference

Plymouth, England.—Laurence A. Steinhardt, United States Minister to Sweden, on his arrival aboard the "Ile de France" described as inaccurate statements he was carrying new instructions from President Roosevelt to the American delegation to the world economic conference. Mr. Steinhardt said he would spend a week in London before leaving for Stockholm.

"I think it is grossly unfair and inaccurate to say President Roosevelt wrecked the conference," the minister said.

Dogs Travel By 'Plane

Calgary, Alta.—R. B. Carter and Dr. G. L. Kroshus, both of Assiniboia, Sask., brought their two prize dogs to Calgary's annual canine show by aeroplane. The Boston bull and Scotch collie made the air trip from Assiniboia in time to enter the judging Wednesday.

Pool Elevators

Saskatchewan System Shows Increased Business

Regina, Sask.—Handlings of the Saskatchewan pool elevator system showed an increase during the crop year 1932-33 over the crop year 1931-32.

The company will presently make its final payment in full to the liquidators of the Saskatchewan Co-Operative Elevator Company on account of the purchase of that elevator system and also the mortgage to the provincial government on the same account. The total account involved is close to $2,000,000.

These statements were made by L. C. Brouillette, president of the Saskatchwan Wheat Pool, at the Wheat Pool committee convention of contract signers of the Regina area recently.

Mr. Brouillette said further that the pool would this fall make the first payment on principal under the agreement with the government on account of the 1929 over-payment guarantee.

Operating policies for the crop year 1933-34 are to be the same as at present. The grower may either deliver to a seasonal pool or to the open market. He spoke in favor of an international export quota plan, which he said the organization now definitely favored.

He was convinced that acreage reduction by legislation was impracticable. He stressed the value of a grain reserve carried on farms, which would be the essence of the grain quota scheme.

Referring to the World Economic Conference at London, Eng., he expressed the opinion that if it accomplished nothing else than to bring about some measure of understanding as far as the world wheat problem was concerned then it could be described as a success.

Canadians Welcomed

Rudyard Kipling Addresses Touring Authors' Association

London, Eng.—Canada, her glorious past and her wonderful future, the great inheritance she has had from the mother country, formed the theme of a vividly-phrased address by Rudyard Kipling when he made one of his few public speeches to welcome the touring party of the Canadian Authors' Association.

G. K. Chesterton was another celebrated speaker at the luncheon tendered the visiting Canadian writers by the Royal Society of Literature. The Marquess of Crewe presided and many notable Englishmen were present.

A New Pest

Ottawa, Ont.—The Japanese beetle which, according to United States research officials will eventually spread from coast to coast, attacking crops and flowers, has not yet come to Canada, agricutural officials said. Whether the Canadian winters would be any protection against the pest is therefore not known.

"BRAIN TRUST" HEAD IN LONDON

Assistant Secretary of State Raymond Moley (left), confidential adviser to President Roosevelt, pictured with Herbert B. Swope, outside the conference hall in London, where the economic parleys are being held. Moley is acting as liaison between the President and the American delegation to the Conference.

SIR JOSIAH STAMP APPROVES U. S. RECOVERY PLAN

New York.—Sir Josiah Stamp, British financier and economist, approved President Roosevelt's recovery programme in an address from London.

"I am one of those who think that the president's policy is to a large extent indeed right because all regular expedients have failed," said the text of his speech as made available here.

"Although I do not think that the control of industry can ever have more than a limited success at best and may create great insecurity at its worst, people on this side do not realize the depths of the difficulties into which the United States' price-level collapse and banking collapse have brought her industrial activities and how necessary it was for such striking measures to be put forward.

"I would also say that so far the public use made of the existence of the powers, as distinct from the actual use of the powers themselves, has also been skilful.

"The great thing I have to fear is too high a degree of speculative activity with its inevitable reaction."

Wheat Output Reduction

Matter Discusse At U.F.A. Meeting In Edmonton

Edmonton, Alberta.—Curtailment of wheat production was the main topic of discussion at the session of the U.F.A. members' annual get-together meeting in the council chamber o fthe parliament buildings here. The general question of crop conditions in relation to the economic situation, was also considered in a preliminary way.

The majority of the members taking part in the discussion expressed agreement with the action taken thus far in respect to reduction of wheat acreage. In view of the recent improvement in price levels, however, no decision has yet been reached as to what measures of curtailment will be necessary.

Fodder relief in the southern and eastern parts of the province will likly be needed to some extent, it was believed by members from these districts, and this will be one of the matters to be further discussed.

On a Holiday

Mrs. Roosvelt Visits Quebec City On Motor Tour

Quebec, Que.—Mrs. Franklin D. Roosevelt, wife of the president of the United States, who drove her own roadster into Quebec, after traversing several of her own United States gave a few minutes to reporters in her sitting-room in a hotel here.

"I am on a holiday," the first lady of the United States said, "and that means I have no definite plans."

Before returning to Washington at the end of a fortnight, Mrs. Roosevelt said she intended going to her cottage at Campbello, N.B.

Pay Is Protested

Windsor, Ont.—Protest against what was described as employment of single men by the department of militia at various military grounds for 20 cents per day, was registered by Essex county trades and labor council. The protest will be sent in a resolution to Dominion government officials.
