

THE CRESTON REVIEW

Vol. XIX.

CRESTON, B. C., FRIDAY, APRIL 8, 1927

No. 8

Conservative Club Elects Officers

Creston Ladies' Conservative Club had a representative turnout of members for the annual meeting Thursday afternoon last, with the president, Mrs. F. H. Jackson, occupying the chair. A comprehensive report of the year's activities was presented by the secretary, Mrs. Cherrington, along with the financial statement, both of which were adopted, and officers elected as follows:

President—Mrs. F. H. Jackson.
1st Vice-President—Mrs. E. Mallandaine.
2nd Vice-President—Mrs. H. S. McCreath.
Secy.—Mrs. J. Cherrington.
Executive—Mrs. J. Maxwell, Mrs. C. B. Twigg, Mrs. M. Young, Mrs. J. P. Johnston.

Two other members to complete the executive will be named at the next meeting. Votes of thanks were tendered the old officers, Mrs. Jas. Compton being specially mentioned due to the able way she carried on as acting president, due to the illness of Mrs. Jackson part of the year.

The club announces a whist and dance for Wednesday, April 27th to which all are invited, and the same hearty invitation is extended the ladies of the district to join the club which is looking forward to an active 1927. At the close refreshments were served and the social hour was much enjoyed.

Sirdar

Mr. Neil of Spokane, a former resident at Kuskanook, was a visitor here and at Nelson the past week, leaving for home at the first of the week.

Mr. and Mrs. Turner, who have been guests of Mr. and Mrs. Bysouth at Kuskanook, were Fernie visitors a couple of days last week.

Mr. and Mrs. Geo. Mawson, who are temporarily residing at Kuskanook, were Creston visitors, Wednesday and Thursday.

Mr. and Mrs. Jim Pascuzzo left on Sunday for Cranbrook, where they will spend the week visiting friends.

Mr. and Mrs. Larue, the world trotting wheelbarrow tourists arrived on Friday evening from Creston, leaving on Sunday for Nelson. They attended the dance at the schoolhouse on Saturday and during the evening gave a talk on their travels so far round the globe.

Conductor Dallas with a work train and ditcher arrived on Monday and are now at work at the Landing. The ditcher is taking out the mud that the water has washed in along the tracks at that point. The crew will be here all week.

Mrs. Brawn and Mrs. Loasby, assisted by Misses Rogers and Tolerico, were in charge of the tea on Saturday

"Is it nothing to you all ye that pass by!"

Good Friday United Service

in the Parish Hall, Creston

Friday, April 15

at EIGHT p.m.

SPECIAL SINGING!
SPECIAL MESSAGE!

afternoon, which attracted the usual attendance.

Mr. and Mrs. R. Dennes were motor visitors to Creston on Saturday, and were accompanied by Principal and Mrs. Smith.

Miss Ridyard of the Whiteside boarding house staff, was a visitor with Cranbrook friends from Friday to Tuesday.

Father Cullinan of Cranbrook took Roman Catholic Church service here on Saturday, and Rev. S. Newby took the Church England service here on Sunday a.m.

A C.P.R. telegraph crew arrived at the first of the week and are looking after the putting in of the new copper wire to Nelson from Calgary, via Macleod and Cranbrook.

Wyndel

Lars Emenas of Valdal, Norway, arrived here last week and is at present staying with E. Uri.

R. Foxall arrived home on Friday from Nelson, where he has been employed for the past ten months by the Associated Growers. He spent the weekend at Creston.

W. Johnson and Percy Lunt left last week for Calgary, Alberta.

O. J. Wigen's two sisters arrived from the United States last week, and will make an extended visit here.

Mrs. St. Denis is here on a visit with Miss L. Piggot.

A shipment of young fruit trees arrived on Saturday from the Layritz nursery at Victoria.

D. Kunst, who is at present employed here, spent the weekend at Boswell.

Bill Campbell, lawyer for Winlaw Company, arrived on Sunday to prepare for the season's operations.

Quite a number of Wyndel people were at Sirdar for the dance on Saturday night, and all report a fine time. Howard Slingsby had the bad luck to have a bad breakdown with his auto on the trip down.

Spring work is progressing well on most ranches, and all the available land is being got ready for clover. Orchard cultivation is also having attention.

Mr. and Mrs. Larue, the wheelbarrow, world-circling tourists, were here on Thursday night last, when they gave a lecture in the old schoolhouse on their travels. The talk was most interesting but on account of the wet weather the audience was small.

Quite a number of the Wyndel ranchers are getting into the poultry line seriously. The latest enthusiasts are Mrs. and Miss Foxall, who are starting off with 100 baby chicks. This seems to be quite profitable line as records provided by G. W. Taylor show his March output to be 1630 eggs from 68 birds.

Work on the pre cooling plant is progressing favorably, the foundation work starting on Monday. E. Uri, manager of the Co Operative Fruit Growers got back Wednesday last from his trip to the coast on pre-cooling matters.

Anglican Church service will be held on Sunday, 10th—Palm Sunday—at 11 a.m., with Sunday school at 10.15. The W.A. meeting is on Wednesday afternoon at Mrs. Nathorst's. Rev. J. Herdman will be here on Monday evening for United Church service.

FOR SALE—Strawberry plants, Van Sun, at \$7 per 1000. E. Ostronsky, Alice Siding.

HATCHING EGGS—For Sale Spangled Sussex eggs, \$1 for setting of 15 eggs. E. H. Fritcham, Creston.

STRAWBERRY PLANTS—Senator Dunlap and Van Sun mixed, \$5 per 1000. A. Wickholm, Canyon.

At Cook's Greenhouse, now is the time to place your orders for Easter Lilies, Pot Plants and Cut Flowers for Easter.

FIGS FOR SALE—Yorkshire-Duroc Jersey cross, ready April 27th, going price. A. G. Cox, Vaness Ranch (Alice Siding), Creston.

Trinity Church Has Men's Club

The men of Trinity United Church were out in strength Friday night for the meeting called to organize a branch of the Beaver Brotherhood—a society that is doing a very fine work in the United congregations at Cranbrook and Fernie.

Organization was preceded by a supper, and after ample justice had been done to the excellent menu the pastor, Rev. J. Herdman, very briefly introduced Norton F. Brand, United States consul at Fernie, who in practical terms sketched the aims and objects of the brotherhood, and the lines along which it was developing at Fernie particularly.

He was followed by short speeches by a number of those present, all of whom agreed that there was room for the new order of things in Creston, and on a motion to organize receiving unanimous approval, the election of officers was proceeded with, after some two dozen of the men had signed the membership roll. Those who will be in charge the ensuing year are:

President—Fred Lewis.
Correspondent—Dr. Lillie.
Steward—W. Craig.
Song Master—W. J. Truscott.
Chaplain—Rev. J. Herdman.

At eight o'clock adjournment was taken the church which was well filled to hear Mr. Brand's lecture on "The Philippine People"

Lister

This section was quite well represented at the hard times dance at Canyon on Friday night. The affair was under the auspices of the Ladies' Community Club, and was most successful in every way.

Rev. S. Newby will be here from Creston on Sunday afternoon, and will have the Sunday service at 3 o'clock, and on Monday, after school, he will have religious instruction.

Notices are out to shareholders of Lister Trading & Supply Company, for the annual meeting on Thursday next, April 14th, at the school house.

Jim Huseroff is the very latest to get into the auto owning class, having just purchased a 1926 Chevrolet from Martin Byrne.

Sam Lazachuk, who has been working at Kellogg, Idaho, for almost the

Independent Growers Meeting

A meeting of independent growers to consider a plan market their Fruit and all other Products through retail stores owned and operated by themselves, will be held in

Speers' Hall, Creston

at 2.30 p.m.

All independent shippers who want better prices are invited.

ALE. NELSON.

the past year, arrived back at the end of the week, and is at work ploughing up five acres, which he will plant to clover. He is accompanied by Pete Krevenko of Kellogg, who will make a short stay here.

Building permits for April include a new hay shed to be erected on the Jas. Duacan place. The surplus wetness of the season has, apparently convinced Jimmy that there is to be a big hay crop.

A. R. Bernhard of Invermere, who has been here for ten days looking after spring work, returned to the Columbia Valley at the first of the week. He has R. T. Millner at work stump blowing on the former McKay place which Mr. Bernhard purchased last fall.

Willfred Langston is another who is active at stumping operations. He is getting almost another three acres ready for crop. He now owns the former Ivor Christensen place.

Fred Powers arrived back at the end of the week from Mullan, Idaho, where he has been since early in the year. He is busy with some land clearing work, and intends greatly enlarging his poultry operations.

The enrollment at Lister school for March was 23, and the average attendance was 87 per cent. Those making highest standings were: Grade 8—Jack Bird. Grade 7—Charlie M. Ithouse. Grade 6—Peggy Smith, Billy Yerbury, Wallace Sinclair. Grade 4—Leah Cannady. Grade 3—Frank Yerbury. Grade 1a—Kirk Beard and Randall Smitte equal. Grade 1b—Douglas Sinclair, Cyrille Bird, Gladys McCullough. Perfect attendance—Cyrille Bird, Jack Bird, Charlie Malhouse, Manning Powers, Douglas Sinclair, Wallace Sinclair.

Canyon City

Will Wickholm left on Sunday for Kitchner, where he will be employed again this season as C.P.R. section man.

Miss Nissie McRobb, who has been attending business college at Nelson for the past three months, arrived home at the end of the week.

Miss Murray, who has spent the winter here with her aunt, Mrs. Cross, at the McQueen ranch, left a few days ago on the return to her home in Saskatchewan.

E. Nougier is a business visitor this week at Carstairs, Calgary, and other Alberta points.

George Strong was a business visitor at Kaslo on Thursday and Friday of last week.

A. D. Pochin, outside circulation representative of the Daily News, Nelson, was a business visitor at his ranch here at the first of the week.

Mrs. C. A. Robinson is spending a few days with friends in Calgary, Alberta, this week.

Rev. S. Newby of Creston will be here on Monday night at 7.45 for the usual Church of England service at the church.

An exceptionally thorough canvass was made of the Canyon district last week and in consequence of which about 40 names were added to the provincial voters list the revising of which for 1927 closed on Saturday. The new list will show over 100 names for this poll.

Last week's surprise party host and hostess were Mr. and Mrs. Niblow whose home was invaded on Saturday evening for the usual few hours of dancing and other amusements, with the Mawson-Davie orchestra officiating at the dance. The usual fine lunch was served and a very fine time was had.

Canyon Ladies' Community Club had an intake of \$80 at the hard times masquerade dance at the hall on Friday night last. The attendance from outside points was very large. The music was by Mrs. Lister's orchestra. During the evening a quilt that had been donated the club was raffled with A. Spencer holding the lucky ticket.

1926 Flats Hay Cut 1800 Tons

1800 tons of hay were cut on the Kootenay Flats at Creston last year, according to the statement submitted by assistant grazing ranger Browne of Nelson at the annual meeting of Creston Valley Stockbreeders Association on Tuesday afternoon last. The meeting was in charge of the association president, C. Sutcliffe, and was favored with an attendance of about forty. According to Mr. Browne 125 haying permits were issued in 1926 in the area from Kuskanook to Canyon. Due to little flooding of the flats last year cut on Nick's Island was very light, but the absence of water on the east side of Kootenay enabled the haymakers to operate on acreage that cannot be worked in average high water seasons, and it was the low water factor that brought the total cut well up to the average of other years. Officers elected for 1927 are:

President—C. Sutcliffe.
Vice-president—Geo. Nickel.
Executive—F. K. Hurry, John Spratt, Geo. Hood, John Miller and J. W. Robinson.

It was agreed that the association should resume the self-governing status that existed from 1919 until three seasons ago, and to make this possible an assessment of 25 cents a ton on all hay cut will be levied in future to provide funds for a paid secretary to the board, as well as giving funds for other working expenses. For 1927, however, the permits will be issued as usual by Mr. Browne. A very satisfactory announcement was made that the unpaid tonnage fees of 1923 will not be collected by the new advisory board.

T. P. MacKenzie of Victoria, provincial commissioner of grazing, was present and spoke along general lines. He stated that in the Cranbrook grazing district an order had been issued to clear the range of all wild horses, and he anticipated similar action would be taken as regards the Creston hay flats.

Mr. MacKenzie strongly favored resuming the old order of affairs with the local advisory board in full control. It would assure better satisfaction, he thought, in handling applications for grazing and haying permits, collecting fees, fixing the seasons for grazing and haying, as well as giving locations for the erection of hay sheds. With a paid secretary responsible to the advisory board he felt better relations would obtain between the board and the department in all matters that had to be arranged by correspondence.

POTATOES FOR SALE—About 5 tons Netted Gems, \$25 a ton at ranch. E. Haskins, Erickson.

WORLD HAPPENINGS BRIEFLY TOLD

Major General Sir Granville Ryrie has been appointed Australian High Commissioner in London. He will succeed Sir Joseph Cook, who is retiring after many years of service in that post.

Premier Mackenzie King assured the House of Commons an extension of time would be granted this session in which civil servants might elect to come under the Calder Act for superannuation purposes.

Home Minister Hanaguichi of Japan announces that 3,271 persons were killed and 6,721 injured, and that 83 per cent. of the buildings in the affected area were wholly or partially destroyed in the recent earthquake.

To replenish depleted British Columbia herds, a carload of mountain sheep from Banff National Park and another of elk from Wainwright National Park are being brought to the province and will be released in the mountains near Spences Bridge.

Manitoba farmers are calling for British and Scandinavian farm laborers to assist in the spring work, stated an official of the Land Settlement branch of the Canadian Pacific railway, and every immigrant of this class will be certain of a position.

Creating two new records Captain F. J. Marigold, of the steamship Dalhousie City, brought his ship into Toronto Port, March 22, from Port Dalhousie. In opening navigation Captain Marigold clipped two days off his previous record. The time-honored silk hat was presented the captain.

The City of Jerusalem is the name of the first giant aeroplane of the British Imperial Airways which will connect England with India. Lord Plumer, High Commissioner of Palestine, will christen the airship at the Kalandia Aerodrome. The airship recently flew from England to inaugurate commercial aviation between Cairo and Karachi.

In a letter received by Col. J. T. Thompson, commander of school cadets in Toronto, King George highly praises the marksmanship of Canadian school boys who took second place in the Empire-wide competition for the King's trophy, and the Imperial Challenge Shield last year. Canadian boys received the lion's share of the medals won in these competitions.

To Asthma Sufferers, Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best advertisement. If you suffer from asthma get this tried remedy and find help like thousands of others.

Manitoba Good Roads
The Province of Manitoba has expended \$7,645,591 on good roads since the incorporation of the Province, according to a return tabled in the Legislature by the Hon. W. R. Clubb, Minister of Public Works. Maintenance of roads has increased from \$10,391 in 1926 to \$99,989 in 1928, owing to the inauguration of the provincial trunk highway system.

Plan to Eliminate Fog

Airplanes to be Used Over Lake Michigan for This Purpose
Flying branches of the army and navy are greatly interested in experiments shortly to be made in Chicago to determine whether the fog overhanging Lake Michigan can be eliminated by static electricity shot from airplanes.

Success will have an important bearing on the project for a \$3,900,000 airport on the lake front there. Unless the fog can be eliminated or greatly lightened, operation of the proposed airport would be much handicapped about one-third of the year.

Both the army and navy have conducted experiments along this line in the past with considerable success. Solution of the problem will be of great value to aviation in general.

Alberta Hen Wins Out

Performs Best Laying Record at Contest Held Down in Georgia

Amongst a thousand competitors from many sections of the United States, a hen owned by A. M. Dykes, of the Winter Egg Poultry Farm, Lettbridge, secured the best laying record of the International Egg Laying Contest, recently conducted by the State College of Agriculture at Athens, Georgia.

Dykes' hen was declared the best individual egg layer and accordingly won the silver cup put up for competition by the college. His hen secured 102 points out of a possible 120.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that a few children will refuse them. In some cases they cause vomiting through their action in an unsoiled stomach, but this is only a manifestation of their cleansing power, no indication that they are harmful. They can be thoroughly depended upon to clear worms from the system.

A Dainty Bloomer-Dress

Charming indeed is this bloomer-dress for the small girl. Shimmering makes an attractive self-dramming around the neck and lower edge of the short sleeves, while narrow lace is sewn on the skirt in two rows of scallops. The accompanying bloomers have elastic run through the top and leg casings. No. 1521 is in sizes 2, 4, 6 and 8 years. Size 4 years requires 2 1/2 yards 30-inch material, or 1 1/2 yards 54-inch. Price 20 cents the pattern.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

Will Not Tour Dominion

Prince Intends Going Direct to Ranch From Ottawa

That the Prince of Wales would not make a general tour of the country on his next visit to Canada, but proceed direct to Ottawa and thence to his ranch in Alberta, was the statement made by Prof. W. Carlyle, manager of the prince's ranch, who arrived at St. John on the steamship Montclair. While nothing definitely had been settled, the Prince, accompanied by Premier Stanley Baldwin would probably arrive in Canada next August, the professor said.

Professor Carlyle had been on a regular visit to England to confer with the Prince on matters pertaining to the ranch.

The advisability of importing additional stock for the ranch was discussed but nothing decided as it was impossible to export cattle from England at the present time owing to the foot and mouth disease there.

Britain's Labor Problem

Urges Pensioning Workers at Age of 65 to Make Room for Able-Bodied Unemployed

The pensioning of workers over sixty-five years of age to make room for England's young able-bodied unemployed was a suggestion made by Lady Cynthia Mosley, wife of the Laborite member of parliament, Oswald Mosley, at a Laborite meeting.

There were nearly 600,000 men and women, aged 65, whom it would be better to retire on pensions, drafting in their places part of England's 1,500,000 unemployed. The money saved from unemployment doles would pay the pensions, she said.

Tourist Land Ideal

Possibly the greatest appeal of the Canadian national parks lies in the fact that notwithstanding the many conveniences introduced for the comfort of travellers through these immense virgin areas, none of the lure of the unknown has been lost. Primal forests, peopled by hundreds of wild birds and animals, creep down to the towns in the parks and border the roads and trails. The beautiful lakes teem with fish, and the upland gardens are masses of wildflowers. Here, surely, is the tourist land ideal, where the mental and physical man may be refreshed and invigorated.

Give some people half a chance and they will take the other half.

HAD BAD SPELLS WITH HER HEART

Mrs. R. G. Hall, Bolton Centre, Que., writes:—"Some time ago I had had spells with my heart which I believe was caused by nervousness. I tried everything I could think of, but could get no relief until one of my friends persuaded me to get a box of

After I had taken a few boxes I got wonderful relief. I now weigh one hundred and thirty-five pounds where, before, I never went over ninety." Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

APRIL 3
PETER BECOMES A DISCIPLE OF JESUS

Golden Text: Come ye after me, and I will make you to become fishers of men.—Mark 1:17.
Lesson: Mark 1:14-18, 29-31.
Devotional Reading: Isaiah 55:1-5.

Explanations and Comments

1. Peter Becomes a Disciple of Jesus, verses 14-18.—After John the Baptist was imprisoned and his work as a herald was over (Matthew 14: 3-5; Luke 3: 19, 20), Jesus went from Judaea to Galilee and there proclaimed the good news (the gospel) of God, and announced that the time had been fulfilled, the world was ready for a new order of things, and the Kingdom of God was at hand. More than a hundred times Jesus used the phrase "the Kingdom of God" or its equivalent; what did He mean by it? It is a phrase which in different passages seems to have different meanings, being now present and now future; but its usual meaning is here, the rule of God in the hearts of men. Lo, the Kingdom is within you, Luke 17:21.

"Jesus came preaching that this Kingdom was at hand. Most of his teaching was conversational, but he preached four great sermons, all of which concerned the coming of the Kingdom. In the first, he announced that it was his mission to initiate this Kingdom. In the second he interpreted the fundamental principles on which the Kingdom would be founded. In the third, he traced the method and process of its development. In the fourth, he declared the secret of its power, a divinely inspired spirit of self-sacrifice in the heart of all its citizens. At the end of his life, in the Court of Calaphas, he reaffirmed himself to be the long-expected Deliverer coming to establish this Kingdom of God on the earth. And after his resurrection his disciples went forth, not to teach a new ethics or a new philosophy, but to proclaim their faith in the Kingdom and in Jesus its Founder."—Lyman Abbott.

A Corrector of Pulmonary Troubles.

Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Princess Louise

Duchess of Argyle, Wife of Former Governor-General of Canada, Reaches Her Eightieth Year

Many Canadians of middle age who remember when Royalty held sway at Rideau House may be surprised to learn that the Princess Louise, Duchess of Argyle, has entered upon her eightieth year. It was near the close of the '70s that Her Royal Highness, then the young and beautiful Marchioness of Lorne, came over to Canada with her husband, who had been appointed Viceroy of the Dominion. Four years previously the wedding of the Princess and Lord Lorne, son and heir of the Duke of Argyll, had taken place in St. George's chapel, Windsor, the bride being given away by her mother, Queen Victoria. The Duchess of Argyle, as she became upon the death of her father-in-law in 1900, spent several delightful years in Canada, and she has always entertained the most affectionate regard for Canada.

Living Longer

Average Length of Life Is Now Placed at 58 Years

Is it true that everybody is living longer than his forbears, and how does that happen? wondered Dr. Charles Horace Mayo's hearers at Washington. The average length of life was twenty years in 1650; forty in 1850; forty-five in 1875; is fifty-eight now. This improvement is so, he declared, because people are learning to take better care of themselves. Said he: "The dangerous age of a woman is from 16 to 18. But the dangerous age of a man is from 50 to 55. If you can't keep your eye on them, look them up. Gland transfusion is the bunk."

Alberta Co-operative Credits

A million dollars, roughly, was advanced to the farmers of Alberta under the Co-operative Credits Act in 1926, according to the annual report of the working of that Act presented to the Legislature by Provincial Treasurer Hon. R. G. Reid. There were 23 societies with a membership of 1,155 farmers operating.

What's in a Name?

Would you buy canned goods that bore no label? Would you buy an automobile of unknown make, no matter how cheap? Nobody would be so foolish.

You get to trust a name or a label just as you get to trust a man, through satisfactory and honest dealings. That is why kitchen and household utensils bearing the SMP label are bought without question by millions of Canadians. The shield-shaped green and red SMP trademark is a guarantee of full value and best quality. The firm behind SMP goods is

Reindeer for the North

May Move Reindeer From Alaska to Canada for Food Supply for Natives

The Porssild brothers of Denmark are now in the extreme north of Canada where they are making an investigation into the possibility of moving reindeer from Alaska into Canadian territories for the purpose of maintaining the food supply of the natives, according to a wireless message received by the Northwest Territories Branch. The two brothers went into the north country last June and will not come out until the spring of 1928, when they will make their report to the Dominion Government on all phases of the reindeer question.

A BROKEN DOWN SYSTEM.
This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—break down, as it were, of the vital forces of the body system. No matter what may be its causes (they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, loss of appetite or weakness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what ails is absolutely essential in all such cases is increased vitality—vigour, vital strength and energy to throw off these morbid feelings, and as night succeeds the day this may be more certainly secured by a course of THE NEW FRENCH REMEDY, THERAPION No. 3 than by any other known combination. Sooner is it taken in accordance with the directions accompanying it, will be healed. It is the only remedy THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH, and a new existence imparted in place of what had so lately seemed worn-out, used up, and valueless. This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex, and is difficult to imagine a disease or debility whose main feature is weakness, that will not be speedily and permanently overcome by this reciprocal essence, which has destined to create oblivion everything that had preceded it for the wide-spread & numerous class of human beings, afflicted with weakness, either in form of nervousness, or in any of the various conditions of the system.

Calls for Milk

Planning Big Air Program

Britain Determined to Have Air Fleet Second to None

The Cairo-India air line is already so popular that it carries "straphangers," Air Minister Sir Samuel Hoare told the House of Commons in discussing estimates for the air force. The line carries more passengers than there are seats in the planes, he explained.

Sir Samuel plans a 10 per cent. decrease in air force expenses next year but he made it clear Great Britain is embarking on an ambitious program which will entail heavy costs after that. It is generally reported this country is determined to have an air fleet second to none.

The program for commercial planes calls for regular passenger lines to Canada and to South Africa, via Cairo, Canada, Egypt and South Africa bearing a share of the expenses. Sir Samuel stressed the value of the Imperial co-operation shown by this.

He predicted development of a British air service which would bring Canada within reach of Great Britain in two days, South Africa in six, India in seven and Australia in eleven.

Sir Samuel foreshadowed a future when the development of the Imperial air service would enable the movement of forces to any threatened point with a swiftness, that a few years ago, would have appeared incredible.

He announced that a number of co-operative flights would be undertaken soon across the whole of Africa with the assistance of the South African, Sudanese and other colonial governments and eventually similar flights in other distant parts of the Empire.

If his anticipation were fulfilled, he said, it will some day not only be possible quickly to concentrate forces where needed but to economize force through its much greater mobility.

The Care of Her Family Weighs Upon the Energies of the Mother

—Givens' Studio

Mrs. Matilda Milne

London, Ont.—"Dr. Pierce's Favorite Prescription is a splendid tonic for women to take at any time when weak and rundown. While I was bringing up my family I found the 'Favorite Prescription' very beneficial as a strengthening tonic and nerve builder. On several occasions I took it when in a run-down and nervous state of health and it built me right up. I found it especially beneficial during pregnancy. It not only kept me in good physical condition but was a great help to my mental state, also."—Mrs. Matilda Milne, 15 Wyatt St.

All druggists. Tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package of the tablets.

Auto Competition Is Not Affecting Horses

More Being Sold in Manitoba Than Ever Before Says Delivery Firm

They talk of the automobile supplanting the reliable old horse, and of the motor age, but statistics for Manitoba show that old hobbin' is holding his own against this menacing competition. There are more than 260,000 horses in the province today, representing an increase of several thousand since last year.

Contrary to general belief there is no sign of the horse disappearing from the streets of Winnipeg. It is estimated that there are more than 700 light delivery, and 800 drag horses earning "their oats" in the Manitoba capital.

"Because horses do not require a dose of antifreeze before they can be left to the exposure of the elements in winter, nor need to be towed out of mud holes in the spring, they still retain a large measure of popularity among concerns whose businesses demand deliveries into the suburbs of the city.

"We are selling more horses now than we ever did before," declared one manager of a large delivery firm. Good horses were in good demand; farmers did not appear to realize that there was a good market for the light type of horses. They were not breeding light draught type which found a ready sale in the cities.

Rapid Growth Of Co-Operative Association

Movement Developing Rapidly in the Province of Manitoba

Poultry and egg marketing on a co-operative basis is developing rapidly in the province of Manitoba. A recent statement issued by the Manitoba Co-operative Marketing Association Ltd., the headquarters of which are at Hartney, Man., shows that in 1926 shipments of dressed poultry totalled 946,307 pounds, compared with 116,351 in 1923. Live poultry shipments totalled 85,446 pounds last year compared with 21,586 pounds in 1923 and the export of eggs in 1925 amounted to 1,242,950 dozen compared with 129,360 dozen in 1924.

Dressed poultry was shipped from 78 points in 1926, compared with nine points in 1923 the first year of operation. Only one egg station was operated in 1924. In 1925 there were three, and five in 1926.

Gross receipts for eggs in 1926 amounted to \$336,930, as against \$156,907 in 1925; and \$23,432 in 1924. The average net prices to producers in 1926 ranged from 25 1/2 cents to 15 cents per dozen according to grade.

The membership of the organization has grown steadily since it was first formed as indicated by the following figures: 1922, 719; 1923, 2,245; 1924, 3,015; 1925, 5,600; 1926, 7,900.

Farmers in Western Canada are now marketing most of their products co-operatively. The largest farmers' co-operative organization in the world is the Canadian Wheat Pool, which is made up of three units, one in each of the prairie provinces. The membership of the pool now totals over 140,000 actual farmers.

Novel Way of Advertising

Shabby Bookshop in St. Louis Offers Patrons "Literary Food"

In St. Louis a Pine street bookshop with shabby exterior and an unpretentious display window has sold itself to the public as "a mental dining room."

"Literary food is served here," advertises the proprietor. "Feed the intellect and nourish the brain."

"Sacred soup," "literary pudding," "logical hash" and "dessert" for all are among the courses which nourish the bookworms. The works of Paine, Voltaire, Darwin, Huxley and Ingersoll are displayed as "free thought chops," and Dante's Inferno and Milton's Paradise Lost are "heated dishes" telling who is going to be the cook in the next world."

Hold Book Upside Down

Left-handed in everything except sewing, Nellie Apps, a 13-year-old girl of Colford, England, is called the "mystery girl" because she reads a book held upside down and writes backward unless directed by her teachers. She is perfectly normal physically but is in classes with children of 11.

Children's Colds

Are best treated externally. Check them overnight without "dosing" by rubbing Vicks over throat and chest at bedtime.

VICKS VAPORUS

Will Work Together Over Mining Problems

U.S. and Canada Have Many in Common and Can Reduce Expense by Co-operation

Vancouver Province: An agreement has been reached between the department of mines at Ottawa, the Dominion research council and the United States bureau of mines for close co-operation in the investigation of problems affecting the mineral industry of the two countries. This agreement should prove of the very highest value. So far as the recovery of minerals is concerned, and their utilization, Canada and the United States have many problems which are identical, and others that are very similar. It would be a mere waste of effort and money on the part of the two governments to set up separate and independent establishments to investigate the same questions, when co-operation might easily bring earlier results at smaller cost.

Even between countries so widely separated as Great Britain and the United States, co-operation in seeking solutions to mining problems has proven of value. For some years, the United States has had a couple of men in England, and there have been one or two British representatives in the United States, striving to co-ordinate the work of the two countries. Dr. Dorsey Lyon, chief metallurgist of the United States bureau, has stated that the United States has reaped very great benefit from the work done in the republic by some of the British representatives, and has expressed the belief that Britain benefitted also from the work done there by the American scientists.

Between Canada and the United States there has been unofficial co-operation, and exchange of result in the past. Now the co-operation is to be made official and a matter of policy. It is not thought an exchange of investigators will be necessary, since the two countries are so close together that they can easily keep in touch with one another.

Kill warts with Minard's Liniment.

More Building in Canada

Six Provinces Report Large Increase Over Last Year

The value of the building permits issued by 63 cities during February as compiled by the Dominion Bureau of Statistics was higher by \$2,349,253, or 43.3 per cent. than in the preceding month and by \$639,003, or 9 per cent. than in February last year; the total stood at \$7,778,552 during the month under review.

Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba and Saskatchewan reported increases in value of permits issued as compared with January, 1927, while in Alberta and B.C. there were comparatively small decreases.

PIMPLES OVER FACE AND HANDS

Irritation Caused Scratching. Healed by Cuticura.

"I had pimples all over my face and hands. The pimples were small and festered, and the irritation caused me to scratch. Scratching caused eruptions, and I could not rest or sleep either day or night. "I used several remedies but got no relief. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it three days I got relief so purchased more, and within a month I was completely healed." (Signed) Miss Adelaide Thomas, 45 Hohner Ave., Kitchener, Ont.

Use Cuticura Soap daily for the toilet, assisted by Cuticura Ointment when required, and have a clear, fresh complexion, free from pimples and blackheads.

Says Prince Needs Rest

Life is Too Strenoous and Health is Beginning to Suffer

The Passing Show, London, says: The health of the Prince of Wales is at last beginning to suffer from the results of his too exuberant energy. His most intimate friends have for some time been telling him that he must have a real rest—a sea voyage without official functions, or at least a quiet time at some home or foreign health resort.

The last few years have been strenuous ones for him. His foreign tours, with their abundance of banquets and other ceremonies, his almost daily visit to perform official opening and such-like in the provinces, his recent "slumming parties," the hunting, horse-racing and dancing—all these occupations have combined to wear down his powers of recuperation. He is fairly strong constitutionally, but no young man alive can burn the candle at both ends for so long with impunity.

Using More Canadian Wheat

Germans Prefer It to That From Any Other Country

The consumption of Canadian wheat in Germany is increasing year by year because the preference of the German people is rapidly swinging from rye bread to wheat bread, was the statement made by Dr. Lorenz, German consul at Winnipeg, who paid his first visit to Saskatchewan recently and while in Saskatoon spent a great deal of time at the University where he showed a particular interest in all things having to do with Saskatchewan agriculture.

The change from rye bread to wheat bread has come about during the last few years, according to Dr. Lorenz. "We are, I believe," he said, "the second greatest importer of Canadian wheat and we prefer that wheat to that of any other country."

Medals For Good Drivers

Safety First Association in Britain Gives Award to Careful Motorists.

Silver medals, and perhaps gold, are to be awarded to motorists throughout Great Britain for careful driving. The competition is open to all drivers of any class of road vehicle employed by members or subscribers to the National Safety First Association. A silver medal is awarded to every driver who completes five consecutive years free from blameworthy accidents. At the end of each year free from accident each driver gets a diploma. It is planned to award a gold medallion to those who go ten consecutive years free of blameworthy accident.

Little Helps For This Week

Be strong, and quit yourselves like men.—I Sam. iv. 9.

Oh, this battle-field vast of the world, This trample and rush of the foe, This gauge that forever is hurled, This ceaseless recoil of the blow.

This stringent command of the King, Proclaimed through His armaments wide,

That none of His soldiers shall fling Their armor one moment aside.

Life is not victory, but battle. Fight on, fight on! The perfect character shall come at last. What will it be to fight no more? Shall we then forget the battles? Shall we then forget our sins? Why should we? Hated, renounced, subdued, let them hang on the walls of memory like the shields of vanquished enemies. Be patient a little longer. By and by in our hushed and waiting chambers, such in his turn we shall hear the sunset gun.

—Margaret J. Preston.

—R. Hitchcock.

First News In Fifteen Years

Slav Islanders Have Just Heard of Czars Overthrow.

News of the overthrow of the Czar and the establishment of a Soviet government in Russia has just reached a large island in the Bering Strait between Siberia and Alaska, with the arrival of the first ship in fifteen years. The Slav and Eskimo residents of the island were much astonished to learn that Russia is no longer a monarchy.

THE SPRING TIME IS TONIC TIME

Something is Needed to Quickly Improve Your Health

With the passing of winter many people feel weak, depressed and easily tired. There is no particular disease, but the system lacks tone. You find yourself tired, low-spirited, often unable to get sound sleep at night. All this is the result of closer in-door confinement of the winter months and shows that the blood has become thin and watery. New, rich, red blood is what you need to put you right and there is no other tonic medicine can give you this new, rich blood as surely and as speedily as Dr. Williams' Pink Pills. This new blood goes to every part of the body and quickly improves the general health. The digestion is toned up, and you have better appetite, the nerves are strengthened and sleep is refreshing. The special value of Dr. Williams' Pink Pills at this season is shown by the statement of Mrs. Elizabeth Clarke, R.R. No. 1, Hastings, Ont., who says:—"I know Dr. Williams' Pink Pills are a great blood builder because I use them in the spring, when one naturally feels run-down after our long winter. Last spring I was feeling weak and easily tired, and again used the pills with the result that I have had splendid health since. The pills also restored my daughter, Mae, who was badly run-down, and seemed almost bloodless. She used the pills faithfully for a time and has since enjoyed the best of health. Naturally I never hesitate to recommend Dr. Williams' Pink Pills to people who are run-down."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canada's Timberland

Of the total area of Canada, 1,200,000 square miles (approximately one-quarter of the whole) is forest land. Less than half of this carries timber of merchantable size (6 inches in diameter) at the present time, and only about one-quarter carries saw material (10 inches in diameter).

A Blessing to People of Advanced Years

Gin Pills relieve sufferers from kidney and bladder trouble

"I wonder if you really know what a blessing Gin Pills are to people of advanced years."

"I am 72 years of age, and suffered for a considerable time with kidney and bladder trouble. My rest was broken through having to get up in the night three and four times. Later I suffered with pains in the bladder, and my son, who had used Gin Pills for pains in the back and lumbago, bought me a box. Before I had finished it I was relieved of the pains in my bladder and had to get up less frequently. At my age I can scarcely expect to be permanently free from troubles of this kind, but if Gin Pills will give others the relief they have given me, they will be a blessing indeed."

(Name on request.)

Prompt and lasting relief has been found in Gin Pills by thousands of people of advanced years who have had kidney or bladder trouble. If even slightly troubled in this way, get a box today at your druggist's—50c. National Drug & Chemical Company of Canada, Limited, Toronto, Canada.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: \$2.50 a year in advance \$3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, APR. 8

Winter Spray

Now that the pruning is practically over the time approaches for applying the winter spray, if needed, to control such pests as blister mite on pears and apples, or any of the scale insects of which oyster shell is the one commonly found in this district. Also to control the mildew on gooseberries, leaf curl on peaches and eggs of various insects that are deposited in the fall hibernate in such form attached to the twigs and limbs of fruit trees.

The strength of lime and sulphur winter spray may vary a little, depending on which pest control is sought. For blister mite it is generally diluted one to fifteen, and for the other pests mentioned on to nine.

The leaf roller at present is not numerous but is present in every part of the district, and if growers would include arsenate of lead in the early pink spray for apple scab it would help to prevent the pest from becoming numerous. When very very troublesome the only means of practical control is by applying a winter spray of miscible oil, one gallon to 11½ gallons of water, or an eight per cent emulsion. It is applied at this time of year, during the dormant stage of tree and is an expensive spray in this country.

Further, where any winter injury is noticed on the trunk of the tree—generally on the southwest side where the afternoon sun warms up the bark, and it is effected by the frost soon after the sun sets—it is considered good policy to sever it with a knife, even cutting out a thin strip, and if the bark has a tendency to curl or appears loose, tack the edges to the wood by means of small tacks. C.B.T.

Kitchener

Jack Hutchinson and Geo. Betus left on Wednesday for prairie points.

G. Johnson and R. Walmsley Creston were business callers on Friday. Alf. Speaker of Erickson was another business caller—on Wednesday.

Will Wickholm of Canyon arrived on Friday and has started work on the O.P.R. section, and will be here all summer.

Miss Mary Bush, Creston, was calling on friends here on Sunday, returning the same day. Mrs. E. Payne of Creston is a visitor here at the Moland home, where she is nurse-in-charge.

Rev. J. Herdman, United Church pastor, Creston, took the usual service in the schoolhouse on Wednesday.

Miss Olga Nelson of Cranbrook, spent the weekend with her parents, Mr. and Mrs. Chas. Nelson.

Mr. and Mrs. L. Moberg and Otto Johnson of Canyon, were between trains callers on Sunday.

Elwood Meritt spent Sunday and Monday on a visit with friends at Creston. Mr. and Mrs. Walter Walby of Creston spent the weekend at Kitchener, and were guests at the whist on Saturday night.

BIRTH—On March 31st, to Mr. and Mrs. Douglas McKee, a daughter. To Mr. and Mrs. Leland Moland, a daughter, on March 31st.

Marcel Senesnel, Lewis Simpson and Wm. Arb made a flying trip to Creston on business Friday. Lewis Anderson and Claude Simpson were at Creston on Saturday.

Zenon Geroux paid a visit to his daughter and son-in-law Mr. and Mrs. M. St. Denis at Moyie last week, returning on Sunday.

Mr. and Mrs. Andy Abrahamson made a business trip to Creston at the weekend, returning on Sunday.

Mr. and Mrs. Strong, and family, who are leaving for Lethbridge, Alber-

ta, to reside, after living here for the past four years, are at Canyon visiting relatives before moving to their new home on Wednesday. We regret very much to lose them as they were good neighbors and citizens. Here's wishing them the best of luck.

Omer Geroux made a business trip to Creston on Monday. He has just purchased Jim Sonia's Ford car.

Geo. Davie of Canyon was here on business on Saturday, coming in by auto. Dr. Henderson of Creston was here on a professional call on Monday. H. McCreath of Creston was a business caller Monday.

Mrs. B. Johnson and son, Robert, returned on Monday from Spokane, where they have been holidaying for two weeks.

Mrs. Albert Ragotte, who has been in the hospital at Cranbrook for more than a month, arrived home on Monday.

Fritz Molander, who is working at Sirdar at present on a O.P.R. telegraph crew, spent Sunday at his home here.

Alphonse LaPage and Pat Mariner are at work putting in a new floor in the Kitchener Hotel.

Mrs. E. McGonegal, who has rented the Tourist restaurant, Bennett Ave., moved into her new quarters on Monday. She is putting the place in shape and will be ready to welcome patrons very shortly.

H. Bohm and Carl Lindbloom are home with their families at present, after working for the winter with Putnam Palmer & Staples, whose mill has shut down.

Mr. and Mrs. Dan Laroux, the wheelbarrow globe tourists, pushing a wheelbarrow, gave a lecture in Hunt's Hall on Monday evening last, giving an account of their travels, leaving the next day for Creston. They had a fair turnout at their entertainment.

The whist and dance in Hunt's Hall on Saturday night was quite a success. There was a large turnout from Creston. Those winning at cards were Mrs. G. A. Hunt and Clarence Devlin, while the consolation honors went to Mrs. Howard and Richard Joyce. The dance music was by Mrs. W. Arb, piano; and Lewis Simpson, violin.

Richard Molander had a birthday party at his home on Saturday at which he entertained quite a company of boy friends. Games were played and a dainty lunch served. The invited guests were Clarence and Selmer Anderson, John and Henry Nelson, Douglas and Raymond McKee, Jack and Joe Langlois. This was his eleventh anniversary and the guests all wish him many happy returns of the day.

Alice Siding

Alice Siding is again the early point for Easter lilies. The first of the 1927 blooms were picked on Friday last.

Dick Smith is busy with stump blowing operations, and is planning to clear at least three acres this spring.

Ron. Stewart was a visitor with Nelson friends a few days last week, returning on Saturday.

Fred Taylor is a visitor at his home here at present. Tom Anderson was down from the mine for the weekend. I. Rhodes, who has been employed as scaler at the Putnam, Palmer & Staples mill at Goat River Crossing, is home again.

W. A. Pense made the rounds of Alice Siding district a few days ago getting signatures to a petition asking for the establishment of a rural mail delivery. Everyone signed readily, and are hoping something will come of it.

Mrs. W. H. Reed was Thursday afternoon's hostess to the local lady church workers. Miss Morgan's address on this occasion was on "Church Work," and to mandolin accompaniment Miss George led the singing of revival hymns. The half hour of sociability at the close was much enjoyed.

Mrs. Hugh Taylor was at home to quite a company of Alice Siding young people on Wednesday evening last, games and dancing being the features of the affair, for which the music was by Miss Helen Moore, piano, and Hon. Smith, violin. An excellent lunch was provided, and a real good time had by all.

Principal Marriot of Alice Siding school reports an average attendance of 19.34 for March, with the following making highest standings: Grade 7—Fred Taylor. Grade 6—Jessie Parkin.

Grade 5—Bessie McDougall. Grade 4—Betty Smith. Grade 3—Arthur Constable. Grade 2—Geoffrey Constable. Grade 1—Hazel Miller. Perfect attendance—Harry Mather, Ethel Mather, Elsie Mather, Hazel Miller, Betty Ostrensky, Betty Smith, Gordon Smith.

FOR SALE—Chevrolet touring car in good condition, \$350. Also three lots next Church of England, and 4-room cottage with two lots. For terms apply Mrs. W. K. Brown.

FOR SALE—Touring car, good as new, snap. Enquire Review.

FOR SALE—Van San and Farson Beauty strawberry plants, no weevil, \$6 per 1000. Fred Lewis, Creston.

FOR SALE—Two milk and butter cows, one just fresh and the other will freshen in June. Also few sacks of potatoes. Angus Cameron, Erickson.

We are now booking orders for Tomatoes, Cabbages, Cauliflower, Celery and assorted flower plants for spring planting. Place your orders early. Cook's Greenhouse, Creston.

WIFE TAKES VINOL FEELS FINE NOW

"I was weak and had no strength. Since taking Vinol, I feel fine now and do my work again."—Mrs. G. Barnsberger. The very FIRST week you take Vinol, you begin to feel stronger, eat and sleep better. Vinol is a simple, strengthening iron and cod liver compound in use for over 25 years by weak, nervous women, run-down men and sickly children. Creston Drug & Book Store.

PUBLIC NOTICE

Attention is called to the following Notice which has been advertised for the Cranbrook Grazing District:

Notice is hereby given in accordance with the provisions of Section 43 of the Grazing Act Amendment Act, being Chapter 14 of the Statutes of British Columbia, 1924, that all horses, branded or unbranded, and owned or claimed by any person or persons, must be removed from the Crown Ranges of the Cranbrook Grazing District on or before March 28th, 1927, and must not be returned to the said Crown ranges except under grazing permit issued in accordance with the provisions of the Grazing Act, being Chapter 100, R.S.B.C. 1924. Stallions are not allowed upon open ranges, either Crown or private, at any period of the year.

All persons are warned that in accordance with Section 18a of Chapter 3, Animal's Act Amendment Act, 1925, any horses in trespass on Crown lands on the Creston Plate are liable to destruction.

THOS. F. MACKENZIE,
Commissioner of Grazing.
Dated at Creston, March 23, 1927.

Local and Personal

At the annual meeting of Creston Ladies' Conservative Club on Thursday afternoon last Mrs. F. H. Jackson was re-elected president, and Mrs. Cherrington was again chosen secretary of the club.

With the removal of E. C. Gibbs Creston loses its issuer marriage licenses. The work has been turned over to provincial police H. McLaren, whose appointment will likely be gazetted in a few days.

Cash collections at the provincial police last month were on the light side, running to about \$310. Poll tax collections of \$190 were the feature intake. Only \$67 worth of motor licenses were taken out.

All bandsmen are asked to attend a meeting to be held at the Rod and Gun Club hut on Monday night for the purpose of forming a band to play at the Confederation Jubilee celebration at Creston, July 1st.

Ploughing and cultivating operations have been under way at the school grounds the past few days

getting the land in shape for tree planting and other features of school grounds beautification.

Trinity United Church Ladies' Aid remind of the Easter sale of cooking, candy and sewing, which will be held in the church basement on Saturday afternoon, April 16th. Afternoon tea and refreshments will be served.

April meeting of Creston Board of trade will be held on Tuesday night, 12th, at 8 o'clock. All members should be out as preliminary arrangements will be made for the Confederation Diamond Jubilee celebration at Creston July 1st.

Mrs. D. H. Linn and daughter, Evelyn, who have been visiting at Lethbridge, Alberta, and Vancouver, for the past year, arrived in Creston at the first of the week, and are guests of Mr. and Mrs. J. W. Robinson at present.

C. Davis, customs officer at Rykerts (Porthill) was a business visitor in town on Saturday, being about the first to make the trip to Creston from that point by auto this year. Records kept in the office at that point show that 2500 U.S. autos entered and left Canada via Porthill in 1926.

At the first of the month the partnership between A. Comfort and his son, R. A., in the Creston Dairy, was dissolved, and the latter is now owner of the business throughout. The latter is planning extensive improvements in the business, and at the first of May is putting milk on the summer price basis.

As will be seen by notice elsewhere a meeting of the independent shippers in this section is called for Saturday afternoon, 9th, in Speers' Hall, when a new system of marketing all products through retail stores will be submitted. Alf Nelson, of Creston Valley Produce Company, will be in charge of the meeting.

There was quite a rush to get names on the voters' list at the end of the week, and the list for 1927 should show well over 2300 names. The largest addition was from Canyon City where almost 40 names were added. A court of revision will be held at the middle of May on which date a last opportunity will be given to register.

W. H. Puckett, field manager for Morrison-Knudsen Company, Boise, Idaho, with the firm's engineer, G. McGee; Mr. Bruce of the bond department, and Mr. Joslyn, the firm's treasurer, were Creston visitors on Saturday evening, and had a long session with the directors of Creston Reclamation Company, Limited. Morrison-Knudsen are now at work on a dyking contract between Porthill and Copeland, Idaho, and last year dyked 4000 acres at Porthill in what is known of District No. 8. They had a look over the No. 1 unit of the local

TENDERS FOR WOODEN HULL, ETC., FOR DREDGE "P.W.D. ARROW LAKES"

SEALED TENDERS addressed to the undersigned and endorsed "Tender for the Construction of a Wooden Hull, etc., for the Dredge 'P.W.D. Arrow Lakes'" will be received at this office until 12 o'clock noon, FRIDAY, APRIL 22, 1927, for the construction and delivery at Nakusp, B.C., of a wooden hull, bonnet, etc., for the dredge "P.W.D. Arrow Lakes." The Department furnishing free of charge all materials entering into the construction.

Plans, specification, and forms of tender can be obtained at this Department and can be seen at the office of the Mechanical Superintendent of Dredges, Hunter Building, Ottawa, Ontario, the District Engineers, Nelson, B.C., and New Westminster, B.C.

Tenders will not be considered unless made on the printed forms supplied by the Department and in accordance with the conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender. Bonds of the Dominion of Canada, or bonds of the Canadian National Railway Company will also be accepted as security, or bonds under a cheque if required to make up an odd amount.

By order, G. E. O'DRISCOLL, Secretary, Department of Public Works, Ottawa, March 19, 1927.

When You Travel

Are you going abroad this year? If so, we suggest you carry a Letter of Credit. It is the most satisfactory method of providing your needs in foreign currencies. It acts as an introduction to bankers in all parts of the world, and then, your funds are drawn from your own Bank only as you draw on the Letter of Credit.

Creston Branch - D. T. Scrimgeour, Manager

company and are in the field for the contract of dyking the Creston area.

An audience that half filled the Grand theatre was in evidence on Sunday afternoon for the public meeting in aid of the B.C. Branch of the Canadian Bible Society, at which appropriate addresses were given by Pastors Daly, Herdman and Newby, with D. T. Scrimgeour, treasurer of the Creston branch society, presiding and A. A. J. Collis officiating at the piano. The freewill offering was about \$25, practically all of which will go to the society as Manager Rodgers very kindly gave the theatre free of charge.

Mr. and Mrs. E. C. Gibbs and family got away on Sunday for their new home at Penticton, where Mr. Gibbs has taken a working partnership in a cold storage warehouse in the town. In his removal the town will miss a familiar figure and useful citizen, as Mr. Gibbs has been resident here for at least eighteen years, practically of which time he was assistant postmaster. He was one of the original village commissioners and took a prominent part in the community life generally. Before her departure Mrs. Gibbs was guest of honor at a number of social functions. The family have the best wishes of all for success in their new home.

Certificate of Improvements

NOTICE

Klondike No. 1 Fractional Mineral Claim, situate in the Nelson Mining Division of Kootenay District.

Where located: Near Ymir, B.C.; adjoining the Yankee Girl.

TAKE NOTICE that I, A. H. Green, acting as agent for William Thomas McDowell, of Ymir, B.C., Free Miner's Certificate No. 82460, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim. And further take notice that action under Section 85, must be commenced before the issuance of such Certificate of Improvements. Dated this 9th day of August, 1927. A. H. GREEN.

MINERAL ACT FORM F

Certificate of Improvements

NOTICE

Midnight Fractional Mineral Claim, situate in the Nelson Mining Division of Kootenay District.

Where located: On Sheep Creek, adjoining the Queen Mine Group.

TAKE NOTICE that I, A. H. Green, acting as agent for Michael Murphy, of Kamlo, B.C., Free Miner's Certificate No. 84701, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim. And further take notice that action under Section 85, must be commenced before the issuance of such Certificate of Improvements. Dated this 1st day of February, 1927. A. H. GREEN.

Nelson-Rossland-Slocan-Nelson areas to the B.C. Telephone Company, effective the first of April. Lineman Crosby, previously in charge of the lines just sold, has claimed his seniority rights with the result that Dolf Weir, who has for the past five years had charge of the line between Proctor and Yahk, has laid off.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5000 board feet per acre west of the Coast Range and 3000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, on conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Co-Operation

Since the year 1901, when a small group of farmers under the leadership of W. R. Motherwell, now Dominion Minister of Agriculture, met in the town of Indian Head and organized the Territorial Grain Growers' Association, the plan of applying the principles of co-operation to the solution of problems peculiar to the West has found increasing favor with both people and governments until today it has come to be recognized as the most effective means of righting many wrongs and removing grievances from which the great army of producers suffered.

At the beginning of the present century people were inclined to look to Government Ownership as the only way out of the economic difficulties with which they were confronted. The most serious problems were in relation to the marketing of grain, and the first great achievement of the Territorial Grain Growers' Association was securing the passage of the Canada Grain Act, with its loading platform feature, which had the effect of breaking the old elevator monopoly.

That in itself was not sufficient, and an agitation was begun for Government owned and operated grain elevators. This was given a trial in Manitoba, but was rejected in Saskatchewan in favor of a system of co-operative elevators, owned and operated by the farmers themselves through a joint stock company backed with financial guarantees by the Government. The Government owned system in Manitoba was not a success, and the elevators there were soon leased to a farmers' organization. The Saskatchewan Co-operative Elevator Co. was a huge success and in a comparatively few years became the greatest grain handling concern in the world.

From that time onward co-operation became a word to conjure with throughout Western Canada. Co-operative creameries, co-operative stockyards, co-operative hail insurance, co-operative wool growers' associations, quickly followed. The Grain Growers' Association was duplicated in Manitoba and Alberta and spread to Ontario. Their forces were then united in the Canadian Council of Agriculture. Co-operation brought unity and in unity the producers of the West found strength.

There yet remained one great weakness in the economic condition of the West. The increasingly large grain crops of the country were dumped on the market at one time, glutting it, breaking prices below a profitable level to the producer. The seemingly impossible task of uniting the farmers in one great co-operative enterprise to handle all their wheat and to market it in an orderly and scientific manner was undertaken through the organization of Wheat Pools. It succeeded, and the Provincial Pools organized one central selling agency. The result is common knowledge today, and the wheat pools have been followed by Coarse Grain pools, Egg and Poultry pools, Livestock pools, Dairy pools.

Truly enormous as have been the material gains to the producers of the West through this general acceptance of the principles of co-operation, resulting, as it has, in more orderly marketing, more orderly financing, in greater contentment all round, it is not altogether wide of the mark to say that even more significant and permanent effects have resulted.

The underlying principle of co-operation is that the strong shall help the weak, and that in the union of all still greater strength will be found. No member of a wheat pool, however large his resources, regardless of the size of his crop, irrespective of his financial strength, will realize the top price for his grain, and, equally so, no member however poor he may be, or small the quantity of his crop to market, will be forced to accept the lowest price. Strong and weak, rich or poor in resources, each and every member will receive the average price. In other words, some make sacrifice for the good of the many. But, in the long run, even those who seemingly do sacrifice something are the gainers because through control of the aggregate large volume of the many small producers the pool brings strength and profit to all.

Whether it is fully realized or not by even the most enthusiastic pool advocate, the fact remains that in the development of this spirit of co-operation, and in the application of co-operative principles to the everyday business of the farm, a great work of good citizenship is being performed,—an educational movement of outstanding importance is being fostered.

Tens of thousands of men and women banded together to achieve purely material benefits find it necessary to sink all differences of race, of creed, of political faiths, and to disregard varying conditions in life. They find compromises necessary; that there must be a spirit of give and take. They make the happy discovery of each other's good qualities. Living in an atmosphere of co-operation for material gains, they unconsciously cultivate the idea. It begins to color their thought and permeate their activities. Inevitably it must display itself in municipal and school district administration. It influences church affairs, it becomes a habit, an environment affecting all community life and activities. In a word, it reflects itself in worthwhile citizenship.

And the youth of today is being brought up in this atmosphere of co-operation. It is influencing the whole thought and outlook of the boys and girls of this generation, broadening their sympathies, teaching them to work together for the common good instead of at cross purposes, developing a new sense and a finer ideal of citizenship.

Babies Cry For "Castoria"

Prepared Especially for Infants and Children of All Ages

Mother Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrup. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it.

The genuine bear's signature of *Chas. H. Fletcher*

The Gloomy Bolshevik

Visitors Are Struck by Depression and Dejection of People in Russia

The Bolshevik ruffian is a gloomy, dismal, morbid creature, and recent visitors to Sovietland are struck with the utter depression and dejection of the hapless people who are doomed to exist there because for them there is no escape. Russia is in tragic fact an even more wretched place today than it was represented in the Russia novels of the Czarist regime, where everyone is depicted as plunged in mooping melancholy.

Let us pause for a moment to shed a tear over the sad fate of the misguided humorist who gave his wife a box of pearl powder for her birthday.

Going fishing—take Minard's Liment.

May Prolong Life Span

Pennsylvania Doctor Has Announced Discovery of Valuable Serum

The span of human life may be prolonged 25 years or more by a new mercury compound called Metaphen, according to Dr. George Benjamin Raizish, professor of chemotherapy at the University of Pennsylvania graduate school of medicine, discoverer of the serum. In describing the new compound, Dr. Raizish said it was the strongest antiseptic and the most powerful organic compound in chemistry. He said he hoped to develop metaphen as a possible cure for tuberculosis, influenza and septicaemia.

A life span of one hundred and twenty-five years and old age of a few months instead of many years are among the future possibilities discussed by Dr. Sege Voronoff, the eminent specialist in gland operations, before an assemblage of foreign newspaper correspondents at Paris.

It has been established, said Voronoff, that some men had lived 125 years. "Therefore," he added, "I and others have the right to live that long."

Sour Stomach Risings Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressing feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergent ills, always keep trusty Nerviline on hand. 35c at all dealers.

Assistance to Settlers

The Manitoba Government, according to the Premier, will give special assistance to settlers within its borders this year. It will establish a bureau of information in connection with the plans for the development of unused agricultural lands. Several inspectors, acting under the Minister of Agriculture, will be appointed and will aid in placing new settlers in desirable locations.

Great Canadian Remedy Helped Him Like Magic

Saskatchewan Man Used Dodd's Kidney Pills

Mr. A. M. Pacholko Who Suffered From Backache Tells of Relief He Sought and Found.

Jedburg, Sask. (Special) — Every corner of Canada holds at least one person who has found relief by taking Dodd's Kidney Pills. They have been relieving kidney troubles all over this vast Dominion for more than thirty-five years. They relieve only kidney trouble and those diseases that spring from disordered kidneys. That's why they are so popular today. Read what Mr. A. M. Pacholko says about them: "I have suffered from backache for a long time and have tried different things, plasters, etc., and found no benefit. Finally I tried Dodd's Kidney Pills which helped me like magic. I also found them good for that tired feeling."

Dodd's Kidney Pills have become a family remedy because people have tried them and found them good. They help Rheumatism, Lumbago, Lame Back, Heart Disease and Urinary troubles, because all of these are either kidney diseases, or are caused by the kidneys failing to do their work.

Alberta Is the Corn Belt

The Province of Alberta is definitely in the corn belt of North America, says a report from the Provincial Government. Although a few years ago it was producing very little corn, this has now come to be a notable item in the annual agricultural production. Last year more than \$1,000,000 worth was produced, mainly in the southern part; and the corn exhibits were favorably commented on at various seed grain fairs.

Indians Need No Boundaries

The aborigines of the continent know no boundary lines and may pass to and from the United States without let or hindrance. Federal Judge Dickinson has ruled at Philadelphia. The ruling was given in the test case of Paul Dlabo of the Caughnawaga reservation of Montreal. Dlabo was deported to Canada last March on a charge of illegal entry into the United States.

Minard's Liment soothes tired feet.

Health Broken—Lost 66 lbs. Now Well, Won Back 82 lbs.

Ottawa merchant, formerly city officer, rundown by kidney trouble. Wasted from 201 to 135 lbs. Tanlac restored robust health; now weighs 217 lbs. and feels fine

Philius Sequin's grocery at 285 St. Patrick St., is well known in Ottawa. Mr. Sequin was formerly a police officer. When ill-health seized him he lost weight rapidly. "I had kidney trouble for 6 years," he tells, "and was given up as a hopeless case. Many times, from sheer weakness, I have fallen where I stood, and had to be helped to my feet."

"Pains racked my entire system, especially my back, which felt like splitting. Needless to say, I could neither eat nor sleep normally. Weak spells and nervousness would leave me trembling all over. I faded away from 201 to 135 lbs., and tried endless treatments and remedies in those 6 years, without result."

"I had begun to despair, and when a friend advised Tanlac I was skeptical. But one month's regular use of this wonderful medicine convinced me that I was on the road to health. I kept on taking Tanlac and to my delight and surprise it made me a new man in a surprisingly short time."

Now I weigh 217 lbs., eat and sleep like a healthy boy, and feel like a different man altogether. If neglect or overwork are taking toll of your health, try Tanlac. It is nature's own tonic, made from roots, barks and herbs. Your druggist has it. Over 52 million bottles sold.

Growth of Power Development

Quarter of Million Horse-Power Being Developed on Winnipeg River

By the close of the present year plants with a capacity of over a quarter of a million horse-power of hydro-electric energy will be installed on the Winnipeg River, Manitoba—a remarkable growth in twenty years. When the river is fully developed about three times this amount of power will be available, so that the city of Winnipeg and district can hope to enjoy the advantages of low-cost power for some time to come before the market having absorbed all the power available on his river will have to seek further afield to increase its energy supply.

The salient features of the last three years' progress are the expansion of the application of Winnipeg River power from an almost purely urban market to large individual outside industries, the co-operation of otherwise competing interests, and finally the remarkable growth of the power market in the rural districts.

Boy Immigration Scheme

Federal Government Co-Operating With the Provinces by Lending Financial Assistance

Reports reaching the Immigration Department from Manitoba indicate that Premier Bracken is favorably impressed with the boy immigration scheme, and will join up, probably, with the Federal Department. The scheme is that the Federal Department brings out the boys and makes a grant of \$80 per head to sustain them during an instruction period when they are on the farm. The farm is to be provided by the Provincial Government. Ontario and the Maritime Provinces have already come into the scheme and more than 1,000 boys will be brought out from England this year. The Manitoba Government, it is learned, already possesses a large farm which could be used for this scheme. It is located in the Birle district.

Envy provides the mud that failure throws at success.

Alberta's Industries

Returns filed by the Alberta Bureau of Labor show the industrial payroll of the province in 1926 at \$34,991,086, of which the wage-earners' share was \$30,392,721.

A GREAT PUZZLE TO CAREFUL PARENTS

One of the greatest puzzles to the careful parent is to know just what medicine to give the little ones. When the child falls ill with griping pains; is seized with cold or fever, refuses food or vomits what he has taken, when he cries a great deal and cannot get the sleep so necessary to the growing child, the parent is in a quandary. What is to be done on such occasions? As often as not there is not a suitable medicine in the house. The puzzle is what to give him to set him right quickly.

It is to meet such emergencies that Baby's Own Tablets were designed. These pleasant little Tablets quickly reduce fever, break up colds, relieve constipation and indigestion and allay teething pains. They quiet the nerves and promote restful health-restoring sleep. They are guaranteed absolutely harmless and safe for even the youngest and most delicate baby.

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

What is regarded as the earliest recorded fossil forest has been unearthed in New York state.

It Has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

Polliteness is the zero mark of love's thermometer.

Worms in children, if they are not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

"Of all the Gauls!" exclaimed Julius Caesar, as he stood on the mountain top and scanned the horizon.

Proved safe by millions and prescribed by physicians for

- Colds Headache Neuritis Lumbago
- Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark registered in Canada of Bayer Manufacturing of Monacohausen, a subsidiary of Bayer (Acetyl Salicylic Acid, "A. S. A."). Within it is well known that Aspirin means Bayer Manufacture. To assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

WOULD REMEDY PRESENT GRAIN GRADING SYSTEM

Moose Jaw.—Explanations of the work and objectives of the Wheat Pool committee investigating grain grading were given at the annual convention of the United Farmers of Canada, Saskatchewan Section, Limited, by Harry Marsh, Herschel, director of the Saskatchewan Wheat Pool.

The Saskatchewan Wheat Pool formed a small committee to investigate the system of grain grading in operation in Canada, said Mr. Marsh, for the purpose of finding remedies for the faults in the present system. The committee consulted with the National Research Council of Canada, and the laboratories in Saskatchewan, Alberta and Manitoba, as well as the Dominion laboratory in Winnipeg under the board of grain commissioners, were working on the problems involved. The laboratories were endeavoring to ascertain the actual values of the present grades in flour products and whether or no the milling value of wheat was injured in the drying process.

The laboratories are trying to establish the actual limit of moisture that can safely be allowed in the contract grades of wheat. At present the limit of moisture content is 14.4 per cent, but there is a wide-spread belief that this can safely be increased to 15 per cent, without danger of the grain being damaged in its milling value in transmission.

A second point in the laboratory investigation is to establish, as definitely as possible, the relative milling values of the various grades of wheat so as to determine whether the spreads between the grades at present are equitable from the point of view of the producer of the grain.

Mr. Marsh said it was expected that the laboratories would have solved the problems involved before the 1927 crop was marketed.

The investigating committee had visited the inspection departments in Canada and the United States and as a result of their visit the committee came to the conclusion that the inspection work was being done as well as possible under the existing circumstances. It was proposed that one grain standard should apply both to primary grain inspections and to output from terminal elevators, so that the average of grade leaving the terminal elevators for export would be equal to the average at the inspection point in Winnipeg.

Italian Aviator May Come to Canada

De Pinedo May Include Dominion in His North American Flight

Montreal.—Possibility of an extension of many thousands of miles of the North American continent part of the flight of the Italian aviator, Commander de Pinedo, is held out in advice received here from Italy. Under the new plan, if adopted, the aviator, instead of flying direct from New Orleans to Chicago and New York, would go via Galveston, San Diego and San Francisco, Seattle, Chicago, the province of Quebec in Canada and New York.

Commander de Pinedo is now on the Brazil part of his European-Western Hemisphere flight and no date is set for his arrival in Canada.

France Demands Total Tonnage Geneva.—The French draft of a general treaty for the limitation of armaments, shows a continuation of the French insistence of a system of total naval tonnage in any allotments of naval strength, instead of the splitting up of tonnage by categories of warships, as advocated by the United States and Great Britain.

No Aid For Victims of Farmers Bank Ottawa.—By a vote of 105 to 56, the House of Commons rejected a motion by Hon. J. W. Edwards (Conservative, Frontenac-Addington), that the Government should grant the same measure of relief to those who suffered loss through the failure of the Farmers' Bank as has been granted to those who lost through the failure of the Home Bank.

To Represent Consumers

Counsel to Look After Interests of Consumers Before Tariff Advisory Board

Ottawa.—A meeting of members of the House of Commons took the first step to provide that counsel representing consumers be permanently before the tariff advisory board when applications for increased customs tariff are heard.

During the past year counsel nominally representing George Spence (Liberal, Maple Creek), appeared on behalf of the consumers, the expense being defrayed by Mr. Spence, assisted by certain other members. However, the meeting was for the purpose of having a committee of members of the House look after it in the future. An executive was appointed but no statement was issued until the question could be more thoroughly canvassed, when another meeting will be called. There was a fairly large attendance of members not only from the West but from Ontario.

Paris Approves Idea Of Canadian Minister

But Diplomatically Appointment Is Not Considered Worth While

Paris.—The idea of a Canadian minister to France is receiving the strongest support in Paris, especially from French-Canadian trade interests, but as yet nothing is known here officially concerning the project.

It is pointed out that so far as trade between the two countries is concerned, the appointment might be opportune, but that diplomatically it hardly seems worth while.

It is believed here that Ottawa is watching the effect of Hon. Vincent Massey's appointment as Canadian ambassador to Washington and also the cost thereof, and that at the present there is little likelihood of the new policy being extended to other countries.

Many Japs Entered Canada Last Year

Majority Were Women and Children Says Minister of Immigration

Ottawa.—Four hundred and forty-three Japanese and fifty-eight Chinese entered Canada during the year 1926, according to Hon. Robert Forke, Minister of Immigration, who replied in the House to a question from A. W. Neill, Independent, Comox-Alberni. Mr. Forke stated, of the Chinese, 32 had already passed out of Canada and that no Chinese immigrants were among the number admitted.

With regard to entrance of Japanese, Mr. Forke stated that they were divided as follows: 119 males, 216 females, and 108 children under 18. There were 168 farmers and farm laborers in the number and 151 general or unskilled labor.

Maritimes Are Pleased

Lowering of Transportation Costs Will Prove of Great Benefit

Ottawa.—"The implementing of the Duncan report with regard to transportation costs and facilities will undoubtedly be a long step toward reinstating a proper basis of transportation costs and services in the Maritimes," says a statement issued here by F. C. Cornell, who presented the case for the Maritime Governments with regard to freight rates before the Duncan commission.

Mr. Cornell estimated that \$5,000,000 would be a conservative estimate of the amount involved in the rate reductions.

A Picturesque Farewell

Wellington, N.Z.—A quaint farewell message was sent by the Maori tribes to the Duke and Duchess of York who sailed for Australia after visiting New Zealand. The message reads: "Farewell to you, the snow white crane which flies but once in a life time, and to you, inestimable high born lady, good luck."

Air Mail for Canada

Ottawa.—The Government intends to establish an air mail service and to extend this to Eastern and Western Canada as conditions warrant, Hon. Fernand Blain, Secretary of State, said in reply to a question in the House of Commons. He gave no definite as to when a start would be made to establish this service.

FAVORABLE TO AMENDMENT OF SEED GRAIN ACT

Calgary.—The inter-provincial wheat pools, at the close of its conference in Calgary unanimously approved of the resolution passed recently by the agricultural committee of the House of Commons recommending that the Dominion Seed Act be amended by granting the minister of agriculture power to refuse a license for any new variety of wheat until its quality had been established.

A committee was appointed by the directors of the inter-provincial pools, consisting of the Dominion Cerealists, a representative of the Canadian Seed Growers' Association, a representative of the seed boards of the provinces in which the new variety originates, and representatives of the pools.

The purpose of the committee will be to make a study of the quality of any proposed new variety.

C. H. Burnell, president of Manitoba Pool, in the course of a brief address in referring to a world wide organization stated that while some wheat pool men might have their heads in the clouds their feet were still in the furrow. They would certainly not be led away by prospects of a world pool if there was any danger of the Canadian producers suffering.

Limit Time of Speeches

New Rule of House Becomes Effective Next Session

Ottawa.—New rules of the House of Commons will become effective next session, the house having adopted the report of a special committee.

The house in committee of the whole approved the rule limiting general speeches in the house during debates to forty minutes, after defeating an amendment which would have added to exceptions under the rule "leaders of opposition groups." Under the new rule, no member, except the prime minister and the leader of the opposition or a minister moving a government order and a member speaking in reply immediately after such minister, or a member making a motion of "no confidence" in the government and a minister replying thereto, shall speak for more than forty minutes at a time on any debate.

Will Be Important Port

Ten Million Being Spent on Construction at Havre

London.—Havre will be one of the most important ports in Northern France, with wharfing accommodations for the largest trans-Atlantic liners, when present construction plans are developed, Lord Kylsant announced at a general meeting of the London and Thames Haven Oil Wharves, Ltd.

Huge oil storage tanks have already been built. The whole scheme is said to involve an expenditure of about \$10,000,000. The new wharf will be able to berth the Leviathan and Majestic, side by side.

British Officials Think Balkan Incident Closed

Dangerous Developments Averted by Action of Italian Government

London.—British officials believe the latest Balkan war cloud has about blown over. This view is based on the conference between Sir Austen Chamberlain, the foreign secretary, and the Marquis Della Torretta at the foreign office, in which the Italian ambassador gave Sir Austen the reasons for Italy's alarm over the Albanian situation.

The marquis also expressed the view that it was largely due to the prompt action of the Italian Government in informing the powers of its suspicions of Jugo-Slavia's intentions toward Albania that dangerous developments were averted.

Downing Street considers the incident closed. It is felt in French diplomatic quarters that the moment now is ripe to seek to remove the cause of the trouble in the Balkans by a thorough examination of the situation created by the Treaty of Tirana.

The Jugo-Slav Government, it is known, has expressed willingness to accept such procedure and it is understood that Great Britain and France are disposed to use their good offices with the Italian Government in favor of having a frank exchange of views between Italy and the Belgrade Government.

No Reciprocity Agreement

United States Will Not Enter Into Any Pact With Canada, Says U.S. Senator

Washington.—The United States won't make any reciprocity agreement with Canada along the lines suggested by Premier King, according to Senator Watson of Indiana, Republican leader.

The senator, who is a prominent member of the Senate finance committee, said Canada in any such agreement would want to exchange foodstuffs for eastern manufactured goods and this was out of the question. He asserted the farmers of the United States would never stand for it, their feelings having been stirred by failure to get farm relief legislation.

Confusion in Broadcasting

Movement Advocated in U.S. to Eliminate Nuisance Stations

New York.—Confusion in broadcasting due to delayed legislation cost the radio industry \$100,000,000, said L. B. F. Rayeroff, vice-president in charge of the radio division of the National Electrical Manufacturers Association, in a statement.

Mr. Rayeroff said that he was in favor of revoking the licenses of every station which jumped the wavelength reserved for Canadian use under the "gentlemen's agreement" of the Hoover conference of past years and added that all nuisance stations should be eliminated.

Customs Will Be Re-organized

Ottawa.—Final reading has been given in the Senate to a bill providing for the reorganization of the department of customs and excise under the name of department of national revenue.

SHANGHAI MOB ATTACKS BRITISH DEFENCE PARTY

London.—Lieut. Col. Heywood, of the British defence force, and a small party of Britishers narrowly escaped mobbing and possibly death in the native city of Shanghai, says a dispatch to The Daily Mail from its Shanghai correspondent, Sir Percival Phillips.

The dispatch says Lieut. Col. Heywood and his party went by automobile to the native city to interview the Cantonese general, Chou, to discuss means of alleviating the general situation.

The British car was caught in a seething mob of students, who, shouting "kill the foreign dogs," called for the executioner. The latter appeared in his black clothes ready to perform the duties of his office, when General Chou's bodyguard rescued the Britishers in the nick of time.

Describing the Northerners' debacle, he correspondent says the retreating soldiers were like driven sheep. News of the arrival of the Cantonese spread like wildfire, and the Northerners appeared to have but one object in life, namely, to gain the shelter of the foreign settlement barriers at which they had been sniping only a few minutes before. The correspondent estimated that at least 1,000 Northerners were killed, wounded or captured in the fighting with the Cantonese since only about 1,700 succeeded in entering the settlement.

Financial Panic at Tokio

Banks Unable to Pay Current Withdrawals Close for Adjustment

London.—Despatches from Tokio to the Exchange Telegraph announce a condition approaching financial panic there. Three banks announced they had "closed for adjustment," making a total of five which have been unable to pay current withdrawals.

The Bank of Japan called a meeting of bankers to consider coping with the situation, which is considered grave but not critical, being attributed to uneasiness over the earthquake relief legislation now before the diet.

London.—A Tokio despatch to the Exchange Telegraph says the Japanese Government has stemmed the money panic by giving assurances of unconditional support for all banks. A timely Japanese bond subscription in the United States, it adds, has tended materially to reassure the public.

Nevertheless, the nervous strain left financial Tokio prostrated and extremely apprehensive, and confidence will be necessarily slow in returning.

Grants To Universities May Be Discontinued

Ontario Government Cannot Undertake to Maintain Three Says Premier

Toronto.—This will be probably the last year in which the government of Ontario will advance large grants to Queen's University, Kingston, and the Western University, London, according to Premier Howard Ferguson, speaking in the Ontario legislature as minister of education.

The time has arrived, said the premier, when a halt would have to be called to the grants to these institutions. They must not expect the province could further undertake to maintain three universities, and they must look to private sources for increased assistance.

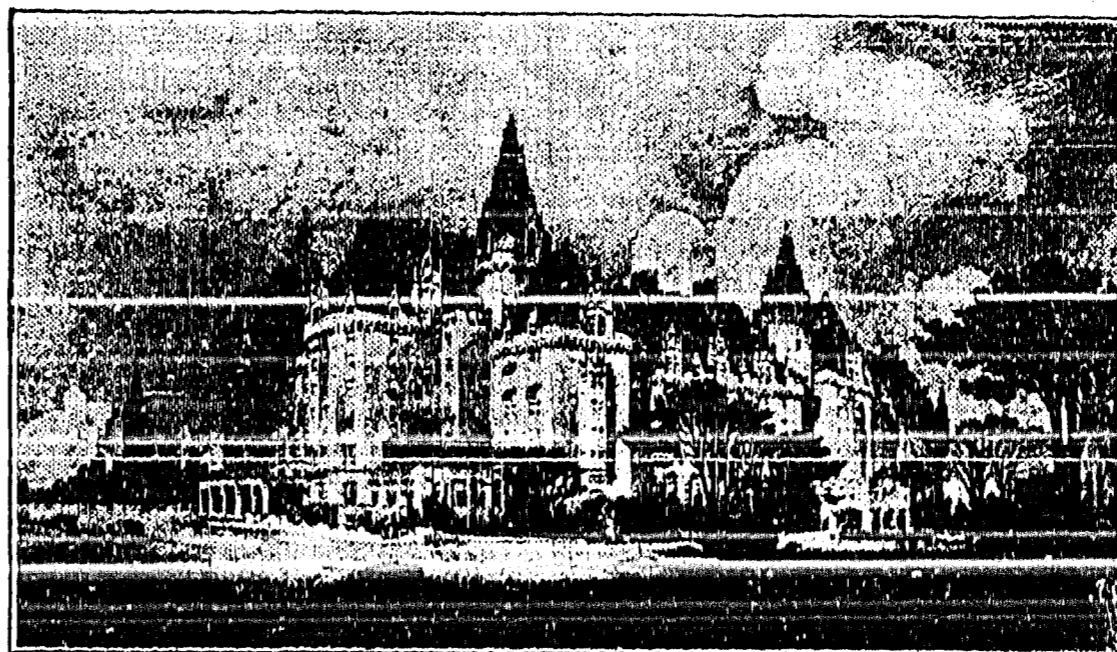

International Pool Conference

Calgary, Alberta.—Queried here while in attendance at the inter-provincial wheat pool conference with reference to the international wheat pool conference to take place at Kansas City, Mo., early in May, George W. Robertson, secretary of the international conference, intimated that a meeting of the executive committee of the conference was to take place at Minneapolis on the 28th of this month at which time final arrangements for the programme of the conference would be made.

Congratulations From Reds

Warsaw.—The communist faction of the Polish Diet sent a message of congratulation to Shanghai on its "delivery from Imperialist oppression."

ENLARGEMENT OF THE CHATEAU LAURIER HOTEL

The illustration has been prepared from the architect's drawings showing the appearance of the Chateau Laurier at Ottawa when the new wing will have been added. The structural addition to the hotel will provide for another 200 rooms, making a total of 500 rooms available for guests. With the changes, banquet hall and ballroom space and other public rooms will be provided on proper scale, thus enhancing the usefulness of this fine unit of the Canadian National Railways hotel system.
