

THE CRESTON REVIEW

VOL. XIX.

CRESTON, B. C., FRIDAY, MAY 27, 1927

No. 15

Factory Making Hallock Veneer

With the installation early this month of a veneer lathe and a veneer clipper the Chas. O. Rodgers box factory is now turning out entirely-made-in-Creston strawberry crates and cups—with the exception of the wire stitching in the latter, and the nails and the label ink on the former. Incidentally the new equipment will mean the distribution in the way of wages of a good part of the \$6500 spent in past seasons at the coast for the cup veneer, to say nothing of the bill of about \$750 per annum for freight on same.

The two new machines are operating in the addition built to the factory the past winter. The lathe will handle timber four feet in diameter cutting it in strips up to 36 inches long, and to a thickness of almost one thirty-second of an inch, for the berry hallocks, on which it is now operating, using cottonwood, which gets a twelve hour soak in a hot water vat before being put on the spindle and revolved against a keenly sharpened blade which turns it out in almost endless strips of the desired lengths and thickness. These strips are fed into the clipper four or five deep and can cut in widths from one to 10 1/2 inches. Besides cottonwood the lathe works just as well with spruce and Mr. Rodgers informs that where the logs are handled within a few days after being felled there is no occasion for soaking them.

At the present time the factory is operating with a staff of about twenty, five of whom are girls operating cup making machines, with three men making up the crates and another placing the cups in the crates ready for shipment. About 17,000 pint hallocks are turned out daily, which accounts for an output every eight hours of about 700 crates.

Early next month there will be a further addition to the staff when, for the first time here, the "tin tops," or fillers for the 4-basket crates will be in course of manufacture. Five machines for the make of these are expected any day now. In addition to the local demand Mr. Rodgers has practically closed a contract to supply the demand at all Kootenay Lake points, giving a 1927 output of probably 50,000 of these tomato, plum, cherry, etc., crates and the necessary 200,000 containers.

Last year the records show that the Rodgers plant utilized almost one and a quarter million feet of pine in the make of fruit boxes and crates, the 1926 output including 202,000 apple boxes, 10,000 pear boxes, 23,000 4-basket crates, 34,000 strawberry crates, 11,000 raspberry crates, and 74,000 crates of various other sorts. This year an increase of probably 25 per cent. will be recorded, with a proportionate advance in the payroll, which for 1926 was just a little over \$52,000.

In order to meet the grower at least half way in an effort to avoid an apple box and crate shortage this season Mr. Rodgers states that on all orders placed before August 1st he will quote a net price where payment is made by October 1st, and he is giving a 2 per cent. discount on these advance orders which are paid by 10th August.

Kitchener

F.H. McGregor of Cranbrook was a business visitor on Tuesday. A. G. Thompson, M.D., of Yahl, was making a professional visit the same day. J. D. Brackett of Cranbrook was here on a business visit, Tuesday.

Miss Alice Molander who has been relieving stenographic in the C.P.R. office at Cranbrook the past month, arrived home on Wednesday.

Frank Pym of Cranbrook and Capt. Oatts of Creston, forestry department officials, were here on an official visit Wednesday.

The baseball game between Kitchener and Yahl at Yahl on Sunday was quite exciting and the Yahlites had to go the limit to get the win by a mar-

gin of 8 to 7. The score was tied at the end of the seventh and it was not till ten innings had been complete that Yahl put over the winning counter.

Col. Fred Lister, M.P.P., and Principal Jenks of the Lister school, were motor visitors here on Saturday.

Miss Clara Hunt, who is at the high school at Creston, was home for the weekend, going back on Tuesday.

Julius Gillard, millwright for Continental Lumber & Pole Company for the past five years, left Kitchener on Wednesday, and will certainly be missed by everyone.

Mr. and Mrs. McAttee and J. H. Fleming of Port Hill were Kitchener callers on Saturday, and Mr. and Mrs. C.B. Lewis of Copeland were here on Sunday.

R. Joyce, C. Bush and E. Blair were Creston callers on Monday, going up by auto.

T. Trevelyan of Creston is here at present doing some carpenter work for W. L. Hathaway.

E. J. West was down from the Leadville mine on a business call, Saturday.

Mrs. Charles Bush, who has been seriously ill, left on Monday for Spokane, where she is in the hospital. Bush accompanied her.

Provincial police H. McLaren of Creston was here on official business, Wednesday.

A. J. Wahl and R. J. White, mining engineers of Wallace, Idaho, were visitors at the Leadville mine at the middle of last week.

Mr. and Mrs. Douglas McKee and family, who have resided here for the past four years, are moving to Lister this week, where they will make their home in future.

Wynndel

Reg. Price of Rossland was a between trains visitor one day last week, with his father Mr. Sheppard.

Mrs. A. Joy is spending a couple of weeks with friends at Bull River this month.

Mrs. E. Uri left last week on a visit with friends at Robson and Nelson.

Miss E. Davis left on Saturday for Riondel, on a visit with her sister, Mrs. R. Cornwall.

Andrew Backman was a business visitor at Wynndel last week.

Mrs. S. Laker arrived on Monday from Washington and is visitor with her sisters and brother at the Sulem and Ringheim homes.

Miss E. Towson is spending a few days in Creston this week the guest of Miss M. Bush, and was a guest at the Victoria Day dance on Tuesday night.

Wynndel will have its first Church of England evening service on Sunday, at seven o'clock.

The water on the flats is rising rapidly, and with so much snow still to melt landowners along the flats are preparing for the highest water yet experienced.

The heavy rains encountered last week were just what was wanted to bring along the strawberries as well as clover and alfalfa.

The outgoing express shipments are principally to rubbark these days, for which there appears to be a fair demand.

E. J. Chambers, president, and D. J. McNair, sales manager of the Associated Growers of B.C. were visitors at Wynndel on Friday, coming down from Creston, where they had addressed a meeting of the Exchange shippers the night previous.

Joe Burgess of Ottawa, who has charge of inspection for the cold storage branch of the federal department of agriculture, was here on Wednesday last, when he made an official inspection of the new per cooling plant, and reported the building and equipment of the highest standard. He left next day for Vernon, after Manager Uri had given him an auto drive through all parts of the Valley.

Alice Siding

Mrs. J. Patterson of Grand Forks was a visitor here a few days last week with Mrs. Taylor, leaving on Tuesday last for coast points.

J. McDonald of Kimberley, who was a visitor here last week with Mr. and Mrs. J. Kelly, was accompanied on his return by Mrs. Kelly, who is a visitor in that town with her daughter, Mrs. McDougall.

Bill Vanees, who is working at Kitchener, was here for the weekend the guest of his sister, Mrs. A. G. Cox.

Several of the Alice Siding cattle owners spent Victoria Day getting the cattle off the flats and driving them up to summer pasture, in the hills beyond Erickson.

Alice Siding young people had a dance at the Todd house on Friday night. The affair was organized on short notice and only fairly well attended, but all report a good time.

Some minor repairs are being made in the school hall.

Birth—To Mr. and Mrs. Dick Smith, a son, on May 26.

Canyon City

Mr. and Mrs. Jock McRobb were Kimberley visitors a few days at the first of the week.

Miss Vera Lister is in charge of the Chautauqua ticket sale in this district, and from appearances Canyon will be represented in the usual number at the days of entertainment at Creston.

Tomato planting is in full swing in the Canyon district, and while a little late the plants are going into the ground under ideal soil conditions.

Mr. Chase, who is occupying the Geo. Strong place has received notice to vacate early in June. It is reported Mr. Strong has found a buyer for the ranch.

Hope is renewed for road betterments this year, with the setting up of the rock crusher in the neighborhood of the high level bridge this week.

Rev. Mr. Helquist, Swedish pastor from Cranbrook, was here on Sunday for church service.

Victoria Day passed off very quietly here. Motoring was a favorite way of putting in the day, which was favored with fairly respectable weather.

Lister

W. P. Edwards took a few days off work last week for a combined business and pleasure trip to Nelson.

Mrs. Knott left at the end of the week for Creston, where she was a guest of Mrs. Hare for a few days.

Rev. J. Herdman of Creston was

here for United Church service on Sunday morning and was favored with a large turnout. Rev. S. Newby was here on Monday giving Sunday school instruction.

Geo. Hurry and family left a few days ago for Nelson where it is their intention to make their home for the present at least.

J. Connon of Port Haney, who is on his way home from a visit on the Prairie, spent a few days last week with E. Tedford.

Jos. W. Bell of Kimberley, in company with Grant Henderson of the same town, spent a few days here this week, guests of Col. and Mrs. Lister.

School inspector Manning was here on his semi-annual official call last week, and reports things educational in very fine shape.

Mr. and Mrs. Sam and Harry and Kathleen Demchuk left on Monday for the coast, and will make a visit with Kim Demchuk, who is located at at Steveston at present.

General satisfaction is expressed here at the sale of the L.S.B. timber to Putnam, Palmer & Staples. They will put in their sawmill at a site near the K.V. right of way, and their operations will provide employment for a number of Lister residents at least.

The picnic season opened on Sunday last when the residents of Huscroft had a gathering at the community recreation grounds. A baseball match was one of the features of the day, which all thoroughly enjoyed.

Sirdar

G. Cory of Medicine Hat, Alberta, was a visitor here a couple of days last week, looking after property interests he still has at Sirdar.

McCabe's B & B crew have been at Canyon a few days this week looking after some urgent repairs on the bridge at that point.

Messdames Brawn, Smith, Loasby, and North were at Creston on Saturday afternoon for the English Church bazaar, going up by auto in charge of Principal Smith.

Mr. and Mrs. Dennes were motor visitors at Fort Hill on Sunday.

Sirdar residents, as well as members of train crews, were quite generous in their contributions to the Children's Victoria Day outing fund, a total of \$70 being given.

Geo. Cam, got away on Friday 20th, on his two months' holiday visit in the Old Country, intending to spend a day in Winnipeg on the trip east.

Mr. and Mrs. Wilson left on Saturday for Cranbrook where they were visiting with friends over the Victoria Day.

Now that the full moon period is passed safely tomato planting is in full swing at Sirdar, and the acreage will be at least average.

Messrs. Hare, McLaren and Speers, with their families, from Creston, were at Kuskarook for the holiday, getting their camp site in shape to take possession as soon as warm weather arrives.

Those in charge of the Children's Queen's Birthday celebration are grateful for the following contributions: \$5—T. Rogers, \$2—R. Heap, H. Dibley, L. Smith, H. A. Dow, T. A. Leighton, F. Brennan, C. R. Lane, J. McDiarmid, W. Neil, Mrs. Whitlock, Mrs. Talerico, Miss Pascuzzo, J. Wilson, \$1.50—H. Simpson, \$1.00—Mrs. Martin, Mrs. Cherbo, Mrs. Cam, Miss Ridyard, Mrs. Lombardo, Mrs. McOnbe, Mrs. Parente, C. J. Neil, G. Cam, W. Glaser, R. Derines, E. J. Brawn, H. Crosby, F. Frey, G. B. Macdonald, L. Sneddon, R. Quinn, E. McCabe, C. Lavazella, J. B. Hall, H. Brock, W. Walby, P. Longueval, C. M. Loasby, A. Salment, C. Wallace, S. Ingraham, 50c—J. H. Lewis, S. Bysouth, J. Simpson, G. Omen, L. Russell, A. North, G. Foster, S. Spencer, G. Lidstone, L. Anderson, M. Machan, G. Vedunk, M. Fenton, E. Swan, 25c—S. Rombough, G. Ramsey, W. Riddle, E. McCann, T. R. Coard, J. Landle, T. Hickey. Pound of butter—Mrs. Walthera.

1927 Chautauqua Opening Tonight

Everything is in readiness for the initial programme of Creston's four-day Chautauqua, which opens at 8 tonight at the Grand, with the Schubert Male Quartette giving the full two hour program of a variety of vocal and instrumental numbers—a programme that gets the 1927 Chautauqua off on the right foot, and is followed for the next three days by entertainment of an equally pleasing sort.

This is the word brought by Miss Sheer, who will supervise at Creston this year, and comes direct from Chilliwaak, where the 1927 Chautauqua scored the biggest success of the many seasons in that town. Miss Sheer is particularly enthusiastic over the play, "Smilin' Thru," which is the Monday night feature, and the closing joy night concert by the Plantation Jubilee Singers on Tuesday, which is tremendously popular with this year's Chautauqua audiences.

It is expected there will be the usual community church service at the theatre with the Chautauqua artists assisting, but definite announcement as to this cannot be made until Saturday.

The holding of the entertainment in the theatre has brought a demand for tickets from unexpected sources and as the seating is limited great care has had to be exercised to see that tickets have not been sold in excess of the actual chair capacity of the Grand. As we go to press we hear there is likely to be a few tickets available for Friday selling and any that are wanting season pasteboards should be after them early at Kelly's drugstore.

Erickson

Rev. S. Newby, Creston, will be here at 2.30 p.m. Sunday, for English Church service at the schoolhouse.

Gordon Stanley of Nakusp was a visitor here a few days last week with Mr. and Mrs. Healey.

Mr. and Mrs. John Andrew of Detroit, arrived on Friday on a visit with the former's parents, Mr. and Mrs. K. Andrew.

Frank Celli of High River, Alta., paid friends here a short visit at the end of last week, coming back to take his Chrysler car with him to his new home. He reports the season late for seeding in Alberta, but that spring crop prospects were never better.

Frank Staples was a business visitor at Cranbrook a couple of days at the middle of the week.

The last of the 1926 potato crop moved out of Erickson on May 14th, when John Huscroft of Lister loaded out a car, that are reported to have got him but \$20 a ton.

Tomato planting is in full swing in the Erickson section this week, and the set out of these will be about average.

Mrs. Kitch of Dover, Idaho, arrived at the end of the week on a visit with her parents, Mr. and Mrs. E. Botterill.

Mrs. W. Percival of Yahl was a Victoria Day visitor with her parents, Mr. and Mrs. R. Dodds.

Work of surfacing the lower Erickson-Creston road should be under way any day now. The rock crusher has been set up for work near the high level bridge, and will furnish the rock for both the Erickson-Creston and Erickson-Arrow Creek road improvements.

Chautauqua Tickets!

A limited number of Season Tickets to be had up till 8 p.m. on Friday at Creston Drug & Book Store.

Buy Early—only a few left

Over 30 years the same good tea.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

Western Canada Points the Way

One of the most notable gatherings of the year, and one in which all the people of Western Canada were particularly and directly interested was the international co-operative wheat pool conference held at Kansas City, and at which representatives were present from the United States, Australia, Germany, Russia, as well as from the three great wheat producing provinces of Canada.

Western Canada was easily the outstanding and dominant factor at the conference. And rightly so because in three short years the farmers of the Prairie Provinces have organized and developed the greatest grain handling co-operation in the known world. Their success has been phenomenal eclipsing anything of a like character ever attempted in connection with any commodity. They can speak from actual experience in definite achievement.

It is not surprising, therefore, that at the Kansas City conference the reports presented on behalf of the Alberta, Saskatchewan and Manitoba Pools, and their common central selling agency, were received with great enthusiasm, and that the views expressed and suggestions advanced by the Canadians commanded respect and gave strength to the deliberations of the conference.

Many of our own people have not yet grasped the full magnitude of the operations of the wheat pool, nor realize just how much has been accomplished in the brief period of approximately 1,000 days. Three years ago there was no Canadian Pool. Today, to quote A. J. McPhail, president of the Saskatchewan pool and of the Central Selling pool, there is a membership of 128,000 in the three provinces. In 1924-25 the Canadian pool handled 187,000,000 bushels of wheat belonging to its farmer members and 27,000,000 bushels of coarse grains. The pool has representatives in all wheat importing countries and ships direct to sixty European ports. It owns and controls approximately 650 country elevators in the three provinces with a combined storage capacity of approximately 22,000,000 bushels. At the head of the lakes the pool has six terminal elevators with a storage capacity around 18,000,000 bushels and also a 2,600,000 transfer house at Buffalo. The pool is also operating terminal elevators at Prince Rupert and Vancouver, while plans are under way for large extensions to the country elevator systems in all the provinces. Since the pool began to operate it has paid its farmer members around half a billion dollars.

These are truly remarkable achievements, but they do not tell the whole story. The pool has practically revolutionized the financing methods of our Western farmers. Instead of the farmer getting all his money in one bulk sum every Fall, at which time every creditor made immediate demand upon him, with the result that he was practically forced to sell his wheat at the then prevailing price, and by all following the same course glutting the market, he now receives a first payment and several successive payments spread over the year. The result is not only orderly marketing of the wheat but orderly financing on the part of the farmer. He is to an ever increasing extent conducting his business on cash rather than a credit basis. The system has been of wonderful assistance to the weaker, less business like farmers.

Equally important has been the effect the pool has had in restoring confidence to the farmer and to business interests generally throughout the west. It has given the farmers a feeling of independence and security hitherto lacking. It has emphasized the value of co-operation, and the strength that is to be found in organized co-operative effort as contrasted with each man striving to work out his own problems and his own economic salvation.

The farmers of Western Canada have demonstrated the wisdom of having one great selling agency instead of one or two hundred thousand farmers each selling individually and in competition with each other. The object of the Kansas City conference was to try and devise ways and means whereby the great wheat producing countries of the world could co-operate instead of competing against each other. The most cordial reception was accorded the idea, and efforts will be made to devise a workable plan.

New Depot for Edmonton

The Canadian National Railways will build a new depot at Edmonton, Alberta, this year. The estimated cost is \$1,000,000. Tenders for the erection of the building have been received and the contract will be awarded as soon as they have been considered.

World's Shortest Railroad

The shortest railroad in the world now belongs to the city of Union, Ore., having been bought for delinquent taxes at a sheriff's sale. The line is ten miles long and the rolling stock includes one locomotive, one passenger and three freight cars. It sold for \$1,100.

Children Cry for

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. *Analgesic, Laxative, No Opium.* Physicians everywhere recommend it.

Huge Dairy Farm

Largest Herd of Dairy Cattle in North America to be Established Near Winnipeg
There is now a herd of one thousand head of Holstein dairy cattle on the Manitoba dairy farms at Marchand, on the Canadian National Railways southeast of Winnipeg. It is the intention of the company, which is colonizing a 90,000-acre tract of land with dairy farmers to increase this herd to 5,000 head, which will make it the largest herd of dairy animals under one ownership in North America.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. For the minor pains and ills that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuralgia, and colds. 25 cents at all dealers.

Whale Destroys Cable

A whale which interrupted traffic on the Alaska cable early in April chewed up so much of the cable that an 80-foot replacement was necessary to restore communication.

THIS GREAT TONIC RENEW'S STRENGTH

Simply Because it Enriches and Builds Up the Blood

In no trouble is delay or neglect more dangerous than in anaemia, which means poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized. But taken in time there is a tonic that so enriches and purifies the blood that good health and strength soon comes to the former weak anaemic sufferer. This tonic is Dr. Williams' Pink Pills, which for years have been the most successful blood-builder known, and have credit for restoring to good health thousands and thousands of people who have suffered from some of the many ailments that come through weak, watery blood.

The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. As proof of this Miss Margaret A. Smith, Burgoyne, Ont., says: "After having a severe attack of jaundice I was left in a very weak and run-down condition. I was pale and my nerves on edge. I could not sleep at night and would toss and turn for hours at a time. I finally decided to try Dr. Williams' Pink Pills, and soon began to feel better, and after taking a few more boxes of the pills I felt as strong as ever, and could thoroughly enjoy my rest at night. Now, I always recommend these pills to any friends who may be ailing."

Better sleep, steady nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers, or by mail post paid at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Australia's New Fruit

Australia is producing a new fruit called the cucumber apple for use in salads. Although it has the appearance of an apple the flavor is said to be distinctly that of a cucumber.

For all pain—Minard's Liniment.

It was believed during the Middle Ages that a child brought up without being taught any language would speak Hebrew spontaneously.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

If you have an ailment in life you can't afford to waste any time in treating people.

Minard's Liniment for dandruff.

W. N. U. 1631

Why Bald So Young? Cuticura will help You

To prevent loss of hair. Dandruff, usually the cause of premature baldness, may be easily removed by regular shampoos with Cuticura Soap, preceded by touches of Cuticura Ointment. This treatment keeps the scalp clean and healthy and promotes hair growth.

Sample Each Free by Mail. Address Canadian Depot: "Stanhope, Ltd., Montreal." Price, Soap 25c. Ointment 25c. and 50c. Cutsicura Shaving Stick 25c.

Clever Blind Student

Completes Four Years Arts Course in Three Years

Gregory Sullivan, blind since birth, has become such a good listener that he soon will have completed a four-year course at the University of Georgia in three years.

His election to Phi Beta Kappa national honorary fraternity is the latest honor that he has attained. He also won the French medal offered the student making the highest average in that language.

Sullivan, who is 22 years old, has a general average above 90 and will be graduated in June with a bachelor of arts degree.

Throughout his college career, he has relied mainly on friends to read his text books to him.

Mennonites Purchase Land

Mennonites have bought 2,500 acres of land in the Vulcan district, paying \$125,000 to the vendors, Messrs. M. & R. Lyman. The Mennonites have acquired 12 sections this spring in Southern Alberta.

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

An Indiana town has abandoned its fire department composed entirely of women. They insist on silk hose.

Marketing of Manitoba Cattle

Last year 493,139 head of cattle and 392,329 hogs were marketed through the Winnipeg Public Stock Yards and realized \$32,047,000. Though the number of animals marketed was less than the 1925 record, the monetary return was \$1,000,000 greater, owing to the better prices that prevailed. Ontario feeders took 45,580 and 41,000 went to United States feed lots and 17,365 went to Manitoba farms. Sheep and lambs to the number of 55,850 were marketed, compared with 36,600 in 1921.

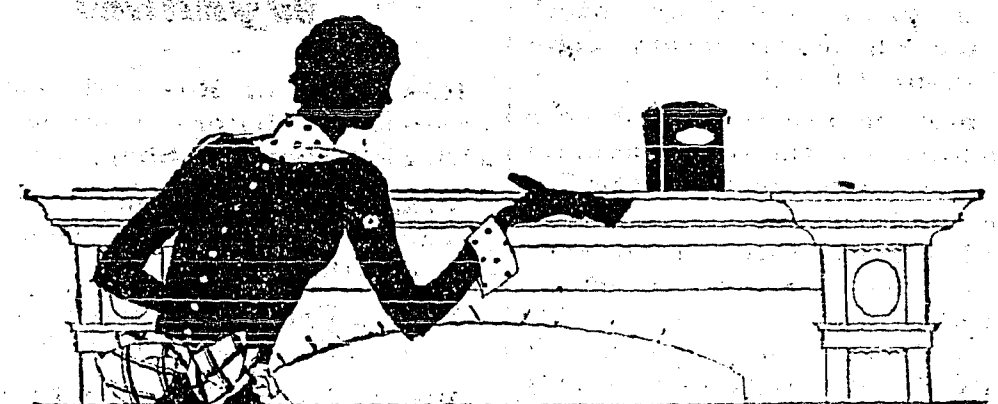

Why! This is My Old Standby!

We use it at our house every day. The children just love Wrigley's.

After Every Meal

Use DUCO for hundreds of home uses

PAINTING in the home used to be considered a man's job but DUCO has changed that old idea.

Brush DUCO has a particular appeal to women. It is so easy to apply and it dries in less than an hour. Thousands of women are using DUCO who never did any painting before.

When you go to buy DUCO, people may tell you that other products are just as good. Don't be misled. Insist on getting genuine DUCO.

DUCO Clear and four DUCO Stains are now added to the wide range of colors.

NO RETALIATION ON ACCOUNT OF BORDER RULING

Quebec, P.Q.—There will be no effort at retaliation on the part of Canada because the United States have chosen to restrict the movement of Canadians who are employed in the United States, and we are hoping that the whole matter will be amicably settled at the conference," declared Hon. Robert Forke, Minister of Immigration in connection with news despatches that the Department of Immigration had decided to investigate the number of Americans employed in this country as a means of retaliation against the United States measure.

Hon. Mr. Forke sailed from Quebec on board the Empress of France, for a three-months' tour of Europe. He was accompanied by Mrs. Forke and just prior to the Honors' sailing, quite an interesting event took place when a diminutive bell boy made his way to the cabin occupied by Hon. and Mrs. Forke, and therein deposited huge bouquets of American Beauties and other flowers. There were a dozen or so bouquets among which was one from the local staff of the Immigration Department.

The Minister of Immigration stated that he was going over to Europe to look over the immigration conditions and matters there, and also to see whether there were any suggestions to be made to the Imperial Government and others as to beneficial changes which may be made.

A possible increase in the 3,000 family scheme whereby the number of families which will come out to this country under the plan will be increased to 5,000, was voiced by the minister.

"Of course," said Mr. Forke, "this is a matter that is largely up to the Imperial Government, but as regards the 1,200 odd families that are scheduled to come out under the scheme this year, we will place them if we can find the land."

Must Surrender Aims To U.S. Government

General Disarmament in Nicaragua Essential if States Supervise Election

Managua, Nicaragua.—Plans are under way to drop from aeroplanes and otherwise distribute thousands of copies of a proclamation drawn up by Rear Admiral Latimer, commander of the United States naval forces in Nicaraguan waters, saying he has been directed by the United States government to accept the custody of the arms and ammunition of those willing to give them up, including the government forces, and to disarm forcibly those who do not peacefully deliver up their arms.

"The United States government," the proclamation declares, "having accepted the request of the Nicaraguan government to supervise the elections in 1928, believes general disarmament necessary for the proper and successful conduct of such elections."

Large Bequest for Charity

Wife of Prominent Winnipeg Financier Leaves \$800,000 to Foundation

Winnipeg.—The Winnipeg Foundation, established several years ago for charitable purposes, benefits to the extent of \$800,000 through a bequest from the will of the late Mrs. Wm. Alloway, which has been made public. Mrs. Alloway, who died last year, leaves her entire estate to the foundation. The amount is exempt from succession duties. Mrs. Alloway was the wife of William Alloway, prominent Winnipeg financier.

Non-Stop Flight to India

London.—Announcement has been made that Lieut. C. R. Carr, as pilot, and Flight Lieut. L. S. M. Gillman, in a big specially constructed Horsley-Royce machine which passed its test at Brooklands, will start probably on May 20 from the Cromwell aerodrome in Lincolnshire on a non-stop flight to India, a distance of 4,000 miles, which they hope to accomplish in 48 hours.

Forecast Heavy Grain Shipments to Europe

Large Volume of Tonnage Has Already Been Chartered
Fort William, Ont.—Record grain shipments have left head of the lakes ports since the official opening of navigation April 18, according to a report issued by F. A. Ursell, statistician to the grain commissioners.

Shipments to April 30 totalled more than 40,000,000 bushels and heavy export shipments from seaboard ports to Europe during May and during the early part of June are forecast in the report.

Mr. Ursell says: "From reports received from different sources, the export movement from Atlantic seaboard ports to Europe will be very heavy throughout May and at least the early part of June. A very large volume of tonnage has been chartered already, aggregating close to 40,000,000 bushels of all grains. These heavy purchases undoubtedly are occasioned by a more or less urgent need of grain. Although statistics of the world's wheat show an ample surplus of supplies in exporting countries over indicated requirements by importers, the shortage of the rye and potato crops of 1926 are partially responsible for a larger wheat consumption."

It is apparent, Mr. Ursell points out, that a large portion of export grain will be shipped via United States Atlantic seaboard ports, a heavy volume of tonnage having been chartered, much of it rates around 12 cents per 100 pounds to some British ports and Antwerp-Rotterdam.

Ready to Test Beam Service

Messages Between Canada and Australia Possible Within Six Weeks is Report

Melbourne, Australia.—It is officially stated that the Marconi beam service between Australia and Canada is now practically ready for testing purposes. The aerial transmitting station is almost completed and the assembling of the transmitting apparatus well advanced.

Hopes are entertained that the service will be in operation within six weeks or possibly a month.

Montreal officials of the Marconi company confirmed the above report, declaring that the situation in Canada was practically the same as in Australia.

Mr. Thompson, the chief engineer, said that the messages from Australia would be received by the apparatus at Yamachiche, near Three Rivers, and that Canadian messages to the Commonwealth would be despatched from Drummondville, Que.

He expected the beam system would be functioning properly within six weeks.

No Change in Policy

Britain Will Keep Mission to the Holy See

London.—Maintenance of an official British representative at the Vatican now can be regarded as a permanent policy of the British Government, Sir Austen Chamberlain, the Foreign Secretary, announced in the House of Commons.

"The Government does not intend withdrawing the mission to the Holy See," said Sir Austen. "It was found convenient to establish this delegation at a time of international trouble and difficulty, and to withdraw it now would be an almost offensive action to adopt."

British relations with the Holy See were established in 1914.

Says Water Seal Aided Tragedy

Toronto.—Sir Frederick Stupart, director of the Toronto bureau of the Dominion Meteorological Office, expressed the definite opinion that if any excess of water had not been taken from the Great Lakes system through the Chicago drainage canal, the raging Mississippi floods that have taken such toll of life and property would have been very much less severe.

Ministers Doing Double Duty

Ottawa.—Hon. J. A. Robb, Minister of Finance, will be acting minister of trade and commerce during the absence of Hon. James Macdonald in Europe, and Hon. Charles Stewart, minister of interior, will be acting minister of immigration while Hon. Robert Forke is in the Old Country.

GOOD PROGRESS BEING MADE ON H. B. RAILROAD

Mile 320, Hudson's Bay Railway.—Following completion of a trip of inspection to the end of steel on the Hudson's Bay Railway, Hon. Charles A. Dunning, federal Minister of Railways and Canals, declared he was gratified by the amount of work completed and agreeably surprised at the manner in which the rehabilitation of the line has advanced.

Weather and other conditions, coupled with some difficult engineering problems, had tended to interfere with the progress of the work, but Mr. Dunning felt that these had been ably met and that, allowing for the late spring, those in charge of the building program now have their schedule well in hand.

The trip to Kettle Rapids, on the Nelson River, was made by train and from there to the Limestone River, Mile 350, the end of steel, by speeder.

The terminal under construction at Bowden, Mile 137, was inspected Wednesday, Mr. Dunning and party inspecting the roundhouse, coaling plant, machine shop and other work now underway at that point.

W. A. Kingsland, general manager, Western region, Canadian National Railways; H. A. Dixon, chief engineer, and J. G. MacLachlan, divisional engineer in charge of construction, accompanied the minister on his inspection tour.

Increase in Canada's Trade

Total During Twelve Months Shows Advance of Forty-two Millions

Ottawa.—Canada's total trade increased approximately \$42,000,000 during the twelve months of the fiscal year ending March 31. Total trade for the 12 months was \$2,298,465,647, as compared with \$2,256,028,869 for the previous 12 months and \$1,878,294,180 in the 12 months ending March 31, 1925.

The twelve months just ended witnessed a decrease of approximately \$61,000,000 in Canadian exports and an increase of approximately \$103,000,000 in imports when compared with the 12 months of the previous fiscal year.

Want Labor-saving Devices

Geneva.—Women delegates to the international economic conference contributed their bit today to the plans for the world's economic restoration. They introduced a resolution for the creation in all countries of committees comprising of housewives and manufacturers to establish practical types of household utensils which would economize labor both in the home and in the industrial production of such articles.

To Build Big Hospital

Toronto.—Mrs. A. E. Huestis, recently introduced a deputation representing the Women's College Hospital to the provincial secretary. It is the intention of the college to build a new million dollar structure on property acquired. The new hospital is to have 150 beds. The provincial secretary promised consideration.

Returns From World Tour

Mrs. George Stephen, Winnipeg, who arrived in New York April 12 on board the Canadian Pacific flagship Empress of Scotland, having completed a 20-day tour of the world, visiting twenty countries. Mrs. Stephen was in Shanghai and Peking about two months previously.

Irish Free State Cannot Claim Bonds

Is Not Successor to Irish Republic Says U.S. Judge

New York.—Supreme court justice Peters dismissed the suit brought by the Irish Free State claiming to be successor of the "Irish Republic" and entitled to the \$2,500,000 bonds; the unexpended portion of more than \$6,000,000 subscribed for in the United States for the republican cause.

Justice Peters also denied the claim of Eamon De Valera and his co-trustee, O'Mara, to the bonds and ruled that the proceeds from the sale of the bonds here should revert to original subscribers.

Justice Peters, in his decision, refused to allow the claim of the Free State that it was a successor to the self-styled Irish Republic, on the ground that, as a de facto government the republic had never existed and therefore could have no successor.

Many Unemployed Men Available for Farms

But Demand in Alberta is Expected to Drop Off

Edmonton.—With about 5,000 men placed in farm employment throughout the province this season, the peak of the spring farm labor situation has been reached, according to Walter Smitten, commissioner of labor, and from now on the demand will be steadily dropping off. There are still a good many unemployed men available for work on the farms if wanted, but the lateness of the season, the reduced acreage in consequence and the influx of immigrant labor are combining to restrict the calls for help from Alberta farmers.

Notwithstanding the more or less unusual features of the situation this spring, the total number of men placed is not greatly below that of last year. About 5,600 placements on farms were made for the same period a year ago.

Can Deport Immigrants Who Refuse Positions

Department Has Power to Deal With Such Cases

Ottawa.—A week of good weather would clear up any congestion of immigrants in the western cities, it was stated at the immigration department offices. The seeding being so late this year has meant that the usual demand for farm labor has been retarded.

The department stated that if, as reported, men who had entered the country as farm workers are refusing to take positions, deportation was the quickest and most effective method of dealing with such cases. The department has the power to send immigrants back to their countries of origin if they refuse to take work when it is offered.

Parties Almost Even

St. John's, Nfld.—A legislature in which the parties are almost evenly divided opened its session here May 4. Premier Monroe will have 18 followers in the legislative assembly, while the oppositionists will number 17.

SOLVES PROBLEM OF ELIMINATION OF WEED PESTS

London.—The problem of the scientific elimination of certain weed pests, which has baffled researchers in America and Europe for 50 years, has been solved, it is claimed, by a young Canadian scientist, Leonard Huskins, of the University of Alberta.

At the Royal Society here he showed the results of two years experiments at King's College, London, and the Horticultural College at Merton, to which he recently has been appointed. Professor Huskins' discovery, which is of great value to farmers, as it is expected to bring about an appreciable improvement in cereal crops, consists of tracing the reversion to the wild type of the so-called false wild oats, which are a well known pest in Canada and the United States and elsewhere. Irregularities in the chromosomes were found to be responsible for these abnormal reversions, which also occur in wheat and other food plants, and it is asserted that through this discovery it will be possible to produce varieties of plants containing only the normal type of chromosomes, which never produce degenerate forms.

May Press For Settlement

Possible Claim May be Filed Over Seizure of Federal Ship

Vancouver.—Possible filing of claims by the Consolidated Exporters, Limited, against the United States Government, in connection with the recent seizure of the liquor-laden steamer Federalship was indicated here by Harold Faulkner, San Francisco attorney, who was in Vancouver conferring with officials of the company. Mr. Faulkner states that, because of admittedly illegal seizure by the United States of a vessel of foreign registration, the way is open for normal and physical claims in connection with damages sustained by the company and crew. According to Mr. Faulkner, it is the purpose of the company to go into the matter immediately and, if claims are sufficient, to warrant such a procedure, to press for settlement.

Strange Phenomenon In Owen Sound Harbor

Water Moved Out and Returned Much Above Normal Level

Owen Sound, Ont.—Waters in Owen Sound harbor and the Sydenham river were stirred up greatly recently, and no reason has been found for the phenomenon. Within a few minutes the waters in the harbor moved out so that the level was two feet lower than usual.

When the water returned, the level was much higher than under normal conditions. At one time the waters in the harbor got so low that some boats were resting on the mud at the bottom.

Sends Demand To China

Japan Wants Soldiers Removed From Consulate at Nanking

London.—Japan has peremptorily demanded that the Chinese authorities at Nanking give orders immediately for the withdrawal of soldiers who occupied the Japanese consulate at Nanking after the outrages of March 24, says an Exchange Telegraph despatch from Tokio.

The demand, the despatch states, was not sent in the form of an ultimatum, but it is expected in Tokio that the Chinese will comply without hesitation.

Task for Boy Scouts

Ottawa.—The Boy Scouts' Association of Canada has offered its services to the national committee for the celebration of the jubilee of Confederation, and has requested that to them be allotted the task of decorating the graves of the Confederation Fathers. Where the graves of the fathers are distant from central points, the Scouts will delegate faithful members of its order to perform the task. Shapely wreaths of Maple Leaves will form the decoration.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C.
Subscription: \$2.50 a year in advance
\$3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, MAY 27

Valuable Publicity Available

If, as is quite freely predicted, the pre cooling facilities at Wynn del will enable that point to capture the strawberry trade of the dining cars of the Canadian Pacific on its service at all points west of Winnipeg, as well as for a couple of divisional east of that city, a splendid chance to advertise this district will be created if the company can be persuaded to have the menus definitely state that Wynn del berries are being served.

And with such consideration in the matter of berries the courtesy might be extended to similarly feature Creston Valley apples while the local fruit is available.

Now that a definite price-fixing arrangements is being established in connection with marketing the fruit from this district should enjoy at least equal popularity with the Okanagan output with C.P.R. purchasing officials and be entitled to the same prominence on the bill of fares that the Okanagan apple now gets.

This is the sort of advertising that comes as close to the effective "taste them and try them before you buy them" as the district can possibly get at no expense, and every effort should be made to reap its advantages.

WHAT OTHER PAPERS SAY

Crawling Out from Under

As was fully expected by everyone who knew the three men, Hon. Dr. W. H. Sutherland, minister of public works, and Mr. Speaker Buckham, of the Provincial Legislature, have been exonerated by a royal commission of the implications contained in the charges levelled at the last session of the House, and Mr. H. D. Twigg, M.L.A., who brought the charges, has side stepped and is attempting to evade responsibility for the imputations against the minister and Mr. Speaker.

When Mr. Justice Morrison brought in his interim finding last week, clearing Dr. Sutherland and Mr. Buckham, he pointed out that Mr. Twigg had asked to be unreservedly dissociated from any personal reflections upon either of the two men. It is, therefore, established that no member of the government is guilty of any wrong doing and that a too active member of the opposition is running for cover after an attempt to crush two of the province's best-known and best-liked public men.

But Mr. Twigg cannot so easily save himself from the structure of evil charges and insinuations that crashed about his ears. His resolution, as presented to the Legislature, clearly imputed wrong doing on the part of the minister of public works and speaker of the House. The preamble to the resolution follows:

"Whereas, we are credibly informed and do believe that we will be able to establish by satisfactory evidence the truth of the allegations of one, John A. Gauthier; and,

"Whereas, by declaration of Gauthier, dated sixteenth of February, nineteen twenty-seven, the said Gauthier doth make statements reflecting upon the honor of certain members of this Legislature and upon the manner in which the

public business of this Province has been transacted."

It will be noted that Mr. Twigg's resolution plainly said "certain members of the Legislature," and not "members of the Legislature." He could not possibly have meant other than Dr. Sutherland and Mr. Buckham. His present effort to dodge responsibility is almost pitiful.

The Conservative press of the province, as Mr. Twigg's charges collapsed, did a remarkable about face. It now asserts that the charges and subsequent investigation were meant to show, not that any members of the government party had sinned, but that the system of liquor purchasing, built up by the present government, is wicked and detrimental to the people. A valiant attempt is being made to save Mr. Twigg's "face."

The fact is that Mr. Twigg and his backers attempted to destroy the personal reputations of members of the government in the eyes of the electorate, failed, and are now trying to make the people believe they "meant no harm," but were merely trying to point out a weakness in the purchasing agent's department, which it has yet to be proved exists.—North Vancouver Review.

Valley Tories Elect Officers

There was a representative turnout of Conservatives from the different polling places in the district for the annual meeting of Creston Valley Conservative Association, which was held in the Grand Theatre on Monday evening, with the retiring president, Major Mallandaine, occupying the chair.

The president in a brief speech reviewed the association's activities during the past year, and stated that as the executive of the Creston riding association had decided to at once call a convention to nominate a candidate the meeting in addition to electing officers should also name its quota of seven delegates to the forthcoming convention. Prior to nominating the new officers announcement was made that the Kitchener and Boswell polls would name their own representative on the Valley executive, and the following officers were chosen for the ensuing year:

President—F. H. Jackson, Creston.
Vice-president—Hilton Young, Canyon.

Secretary-Treasurer—J. W. Hamilton, Creston.

Executive: Camp Lister—R. T. Milner, H. Helme, W. P. Edwards.
Canyon City—C. Blair, H. Halstead.
Erickson—W. G. Littlejohn, L. T. Leveque, J. B. Holder, R. J. Long.
Creston—C. O. Rodgers, Major Mallandaine, Geo. Johnson, Vic. Mawson, Stan. Watson, Jas. Cook, Jas. Cherrington, Robert Stark, John R. Miller, H. S. McCreath, Rev. Dr. Daly, Rev. J. Herdman, W. Fraser.

Alice Siding-Wynn del—Jas. Compton, W. J. Cooper, Sam Moon, Leslie McInnis, R. Alderson.

Sirdar—C. M. Lonsby.
West Creston—R. Sinclair Smith, A. Currie.

Lady representatives to the executive will be named by the Creston Ladies' Conservative Club. The usual votes of thanks to the retiring officers were enthusiastically carried, the mover and seconder dealing at length with the splendid services of the retiring president, as well as secretary J. W. Hamilton, the decision of the former not to again accept office being received with reluctance.

A May Wedding

A very pretty house wedding was that of Tuesday at the home of Mr. and Mrs. Axel Anderson, Victoria Avenue, when their third daughter, Miss Selma Margareta, was united in marriage with Mr. William Keith Kettlewell of Kimberley, Rev. J. Herdman officiating. The happy event was witnessed by a company of the immediate relatives of the contracting parties, the rooms being attractively decorated with tulips and all the other spring blooms. The bride, who was given away by her father, was handsomely gowned in tulle of roses silk flat crepe, and carried a bouquet of white narcissus and tulips. She was attended by her sister, Miss Anna Anderson, who was gowned in Nile green silk. Mr. Harry Hogg of Kimberley was best man. A buffet

lunch was served immediately after the ceremony and about noon Mr. and Mrs. Kettlewell left by motor on a trip to Spokane and other Washington and Oregon points, the bride travelling in a costume of pearl grey. The groom's gift to the bridesmaid was a pearl necklace, and the best man was remembered with a pair of gold cuff links. Many acceptable gifts for the new home bespoke the popularity of both bride and groom, who have the best wishes of a host of friends for a long and happy wedded life. On their return from the wedding tour Mr. and Mrs. Kettlewell will reside at Kimberley where the groom is employed in the Company Store at Chapman Camp.

CRESTON MERCANTILE COMPANY

LIM TED

Surpassing Last Year's Success

NOT even its electrifying success during 1926—not even its tremendous sales, which more than doubled the best previous first-year record of any new make of car.—Not even these amazing achievements can compare with the present-day triumphs of the New and Finer Pontiac Six!

The reasons for this spectacular advance in popularity are obvious. Always a surpassing value, the New and Finer Pontiac Six now towers above its field like a beacon in the night. Vivid new beauty enhances the fine craftsmanship of its new lower bodies by Fisher. Chassis refinements emphasize the thrilling performance of its famous six-cylinder motor. Fresh and original combinations of enduring Duco lend a marked note of style to its six smart body types.

Yet even with all these improvements the New and Finer Pontiac Six sells for new low prices! Never has such surpassing value been offered in a low-priced quality six. Never has any car of its price kindled such wildfire buying enthusiasm! And never has any car in its class so clearly deserved such success!

Local and Personal

Miss Sheer, who will have charge of the four-day Chautauqua which opens at the Grand tonight, arrived from Penticton on Wednesday and has everything in readiness for the first programme. There are a few season tickets still available and these are on sale at the drugstore up till 8 o'clock to-night.

Press despatches from Victoria at the end of the week state that the agreement as between the village commissioners and C. O. Rodgers for a five year supply of electric light and power has been approved by the lieutenant-governor-in-council, and is now in order for signature by the village authorities.

Patrons of the Associated Growers were out in large numbers on Thursday night at Trinity Church hall for a meeting which was addressed by E. J. Chambers, president, and D. J. McNair, sales manager for the Associated, President R. J. Long of Creston Co-Operative Fruit Exchange occupied the chair.

Creston's observance of the Confederation jubilee got off to a good start at meeting of representatives of all the Valley organizations and other citizens on Wednesday night at the town hall, when the committees to handle the different features of the day were named and given full power to add. Some promises of financial support were forthcoming but as yet only one outside school district has been heard from.

The rock crushing machinery that was last used on rock road repair at Alice Siding has been transferred to a spot near the high level bridge at Canyon, and by the end of the week will be grinding out crushed rock for surfacing the lower Creston-Erickson road, as well as the Erickson-Arrow Creek highway. A supply of local gravel has been contracted for and work will be carried on simultaneously at both ends of the Creston-Erickson road with teams and two trucks.

Bids for the ten million feet of standing timber owned by the Land Settlement Board adjacent to the Lister area closed early last week, and announcement was made on Friday that Putnam, Palmer & Staples, Limited had been awarded the tract—the buy also including the old mill put in by the board in 1920. The firm will move their plant from Goat River Crossing, where they have operated the past four years, to the new site about four miles from town and will do all their shipping from Creston. The purchase will keep their mill going for at least three seasons.

An alarm of fire was turned in late Saturday afternoon for a blaze that completely destroyed the former J. P. Cook residence on his ranch along the K.V. north of Fourth street, and which was occupied by Mr. and Mrs. Burnett and family, who lost a part of their effects so fast did the flames spread in the somewhat ancient structure, which was erected over 30 years ago, and was Creston's first and only hotel for several years. The fire originated in the roof at the chimney, and due to the distance to telephone an alarm and the equally lengthy trip for the fire brigade, the flames had spread too extensively for the fire fighters to cope with on their arrival.

A neat granite cross-design head stone now decorates the grave of the late Sergt. Searle in Creston cemetery. It will be recalled this R.O.M.P. officer was drowned in the Goat River on the mission road in the early morning of Sunday, May 15th, while coming in off a patrol at the boundary. Full credit for obtaining this recognition is due President Major Mallandaine of Creston Board of Trade, who for some months past has carried on a voluminous correspondence with the federal militia post heads at Ottawa as well as R.O.M.P. headquarters, Regina, Sask., and every other likely spot where pressure could be brought to bear to assure the erection of a suitable headstone, the erection of which has been in charge of the president, and completed last week.

GOVERNMENT LIQUOR ACT

Notice of Application for Consent to Transfer of Beer License

Notice is hereby given that on the 10th day of June next, the undersigned intends to apply to the Liquor Control Board for consent to transfer of Beer License No. 962, issued in respect of premises being part of building known as the Northern Hotel, situated at Salmo, British Columbia, upon the basis described in class 6 and 7, Block 4, Salmo Township, Map 122, Nelson Land Registration District, in the Province of British Columbia, from Ernest John Summers of Salmo, British Columbia, transferee, to Douglas Gibson to Ernest John Summers of Salmo, British Columbia, transferee. Dated at Salmo, B.C., this 3rd day May, 1927. ERNEST JOHN SUMMERS.

"Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mme. Beatrice Charlebois, of 22 Rose St., Ottawa.

"What happened in that time could not be told," she said. "I was so weak I could hardly walk. My appetite was poor and my stomach gave me no end of trouble. Gas and pains would bring on fainting spells."

"My nerves were so completely shattered that I jumped in fright every time the doorbell rang. My hand trembled so that it could not hold the pen to write my name. Night after night I've gone without sleep, too nervous to lie still for even a few moments. Even my housework became too much for me."

"I tried all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up so that I regained 11 lbs., eat and sleep fine and have nerves as

calm and steady as ever. Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Guarding Canada's Wheat Reputation

Canadian Product Must Be Kept Strictly Up to High Standard

The economic importance of Canada's wheat crop is so widely recognized that no further argument in that connection is necessary when discussing the advisability of entrusting to the Minister of Agriculture the powers necessary to guard the reputation of this basic farm product.

The suitability of wheat varieties grown in Canada is not determined altogether by their yield or adaptation to soil and climatic conditions. Wheat for milling at home and abroad must possess certain qualities before it is a factor in world trade; and it is our world dominating position in wheat that our government must safeguard and protect. The milling value of wheat is, after all, the most important consideration. Its protein content must be high; its color must be right and its baking qualities must be pleasing to the trade. Our reputation has been built largely on a standard that means Marquis; for that variety is now the leading bread wheat on the American continent.

If we allow inferior wheats to be grown to any extent and become blended or mixed with Marquis, we shall simply lower the standard of our product and at the same time the world-wide reputation of Canadian wheat. That should not be permitted, all would agree, but the Minister at present cannot refuse to recognize a new variety proposed if it is distinctly different from the established kinds, even though it be definitely inferior.

The agricultural committee of the House of Commons has recommended an amendment to Section 6 of the Seeds Act, to provide that a license

may not be issued for a new variety of wheat unless it is found by field and baking tests to possess real merit. That amendment is fundamentally sound, and we should prevent, if possible, even a multiplicity in the varieties of good wheats, for no variety excels Marquis, and there is nothing to be gained by adulterating our grain with a number of different wheats, thus destroying the uniformity and general excellence of a typical Canadian product.—Farmer's Advocate.

Planning An Aerial Train

German Engineers Working on Idea For Future Means of Travel

Aeronautical engineers in Germany are working on plans of an air train as a possible means of travel in the future. The locomotive will be a powerful airplane and the pullmans a row of gliders coupled to the locomotive and to each other, as the cars of a train, only with considerably greater spacing between units. Passengers in each glider will be destined for some particular town, and as the air-drome of each town is approached the glider for that destination will be released from the end of the string and settle gracefully down with its special pilot and passengers.

The Germans are often spoken of as a stolid and phlegmatic race, but no people without imagination could have conceived of that great gun which bombarded Paris from a distance of unknown miles and which conceives of an aerial train. There may not be much grace about such things but surely the imaginative and the creative qualities are not lacking.

Provides Real Exercise

Medical Men Claim Driving a Car is Conducive to Good Health

There still are those who declare that the automobile has "done wrong" by the nation's health in converting everyone to driving or riding. Some medical men disagree with this view. Many of them declare that automobile driving also provides a form of exercise that is beneficial.

Walking exercises mainly the leg muscles, while driving brings into greater use the arm and shoulder muscles. The motorist's leg muscles get considerable action in operating the brake and clutch pedals. The exercise one finds in car operation has the additional advantage of being regular and not too strenuous.

It takes less muscle to drive a car today than ever before, but at that it requires enough muscular effort to be conducive to good health.

Canadian Alfalfa Seed

The superior quality of northern grown seed is nowhere more strikingly shown than in the success obtained with Canadian alfalfa seed. For a long time it was found difficult to grow alfalfa successfully in many parts of Canada, but the development of an ample supply of hardy strains of seed has, to a certain extent, solved the problem of winter-killing and the Dominion's alfalfa crop increased from 238,000 acres in 1920 to 358,000 in 1926.

Most men believe in the honesty of their fellow men until after they have endorsed a few notes for their friends.

Poilu Pays Old War Debt

But Creditor is Loser Because France Worth Much Less

A French wartime "marraine" or soldier's godmother, with a flair for bookkeeping, has just succeeded in collecting what was owed her by her "adopted" soldier for the goodies, woolens and other things she sent him all through the war, while he was prisoner in a German camp.

The fact that the soldier paid her hospital bill when she fell ill after the armistice mattered not.

The soldier, Gustave Marchand, was captured during the first few weeks of the war in 1914. Without friends, he got in touch with a French girl by the usual method—advertising with the promise that some day he would reimburse his war godmother for whatever she might spend on him.

A Parisian cook, Mlle. Germaine ed Pierre, answered the advertisement and regularly sent him packages of food, clothing and other things to lighten his imprisonment. She expended 3,825 francs, 25 centimes. When she went to a hospital, Marchand gave her 1,160 francs, no centimes.

This week, Mlle. De Pierre sued for the difference and got it. However, she is the loser after all, for the francs she spent for Marchand were worth almost 20 cents each, while those the court ordered him to pay back, are only about one fifth that value.

Anxious to Ring Carillon

Forty Applications Received by Civil Service Commission

No fewer than forty applications have been received by the Civil Service Commission regarding the employment of a carillonneur for the "singing tower" of the Parliament Buildings which will peal out for the first time on July 1, 1927, the day on which the Dominion celebrates the Diamond Jubilee of Confederation.

While the carillon bells were on their way to Canada from Crofton, England, the Civil Service Commission has been advertising for a carillonneur. Applications have come from all parts of the world, but the only applicants being considered are British subjects with three years' residence in the Dominion. The Commission will call in an advisory board of musicians to help them select the proper man to play the carillon. The position will pay a salary starting at \$2,880 per year, with a maximum of \$3,000.

Most of the applicants for the position of carillonneur are Canadians. Some of them have had instruction from Jet Denys, the renowned old carillon master at Malines, Belgium.

Cable Railway in Bavarian Alps

Train Runs Ten Thousand Feet Above Valley at Many Places

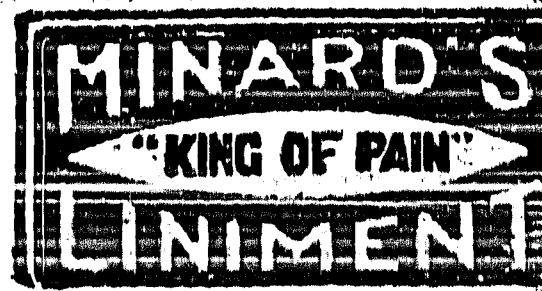

When builders of the new Alpine Railway up the Zugspitze wanted a high official to dedicate the line they made one, for they took Dr. Michael Haptsch, president of Austria, to the loftiest point in the country. The railway is a cable stretched to the summit of the highest mountain in the Bavarian Alps, the Zugspitze, and at many places is 10,000 feet above the valley directly below. The "train" consists of cabin, which is furnished in lavish style, suspended to the cable along which a trolley carries the cabin. Workmen in swinging seats inspected the line before the inauguration.

New lines to be constructed by the Canadian National Railways in the next three years call for a total expenditure of \$18,550,000.

Conscientious people are like ideas. They refuse to strike a man when he is down.

HIKERS

Take Minard's in your first aid kit. Fine for stiff muscles, bruises and insect bites.

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acetate of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Large National Park For Saskatchewan

Good Sized Area at Prince Albert Has Been Set Aside

Saskatchewan gets a national park by the setting aside at Prince Albert of a good-sized area for that purpose. An order-in-council, after pending for some time, has been passed.

For the present the park will comprise the Sturgeon forest reserve and two additional townships mainly suited to the purposes of summer resorts, but the ultimate plan contemplates a much larger extension northward.

There has been no action on the scheme advanced by Dr. Bissett, M.P., for Springfield for a national park in Manitoba.

MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grown-up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the new-born babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

If thine enemy hunger, feed him; if he thirst, give him drink; for in so doing thou shalt heap coals of fire on his head.—Rom. xii. 20.

But if for wrongs we needs revenge must have, Then be our vengeance of the noblest kind;

Do we his body from our fury save, And let our hate prevail against our mind?

What can 'gainst him a greater vengeance be Than make his foe more worthy far than he

—Lady Elizabeth Carey.

If thou must needs have revenge of thine enemy, with a soft tongue break his bones, heap coals of fire on his head, forgive him and enjoy it. To forgive our enemies is a charming way of revenge and short Cæsarean conquest, overcoming without a blow; laying our enemies at our feet under sorrow, shame, and repentance; leaving our foes our friends, and solicitously inclined to grateful retaliation.

—Sir Thomas Browne.

A man recently fainted three times at his own wedding. It was no use, however. They waited until he came round the third time and then went on with it.

Homestead Filings

Homestead filings in Western Canada during the first quarter of 1927 totalled 1,030, as compared with 1,282 in the corresponding period of 1926. In Manitoba 138 quarter sections were filed upon, in Saskatchewan 513, in Alberta 367, and in British Columbia 12.

Nation-wide Fame. — There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed and it can also be taken internally.

Thriving Swiss Settlements

Eight hundred families from Switzerland are expected to come out to Western Canada to settle during 1927, according to the Acting Consul for Switzerland here. There are thriving Swiss settlements in Notre Dame de Lourdes, Manitoba, and Stettler, Alberta.

Useful in Camp. — Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

When a young married man gets sick his mother always imagines that it is due to his wife's cooking.

Treat corns with Minard's Liniment

A French scientist has invented a vacuum bottle to hold liquid oxygen for use of aviators in altitude flights. The liquid vaporizes as fast as it is breathed.

Appetite Gone? Nervous? Why Wait for a Breakdown?

Mrs. I. Hicks

London, Ont.—"Dr. Pierce's Golden Medical Discovery is the tonic I took when in a weakened and rundown state of health and it strengthened me at once. My appetite improved, and my nerves became normal. In fact I have felt so much improved in health since I took the 'Medical Discovery' that I would never hesitate to recommend it to any other person who is in a debilitated and nervous condition. It is the only tonic I would ever take again if necessary."

Mrs. I. Hicks, General Delivery. Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Bridgeburg, Ont., and sold by all druggists in 15th tablets and liquid form. Dr. Pierce's is the only tonic I would ever take again if necessary.

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sanative Wash I am feeling better than I have for the past seven years, and advise my friends to take it."—Mrs. F. JOHNSON, 40 Moore Street, St. Thomas, Ont. O

arrived a few days ago by auto to
look after the season's operations on
his ranch adjoining town.

Due to the four-day Chautauqua
being staged in the Grand theatre the
usual Saturday picture is cancelled
for to-morrow night, 28th.

Dr. O. Lillie and wife of Blairmore,
Alberta, motored in for a holiday visit
with the former's parents, Dr. and
Mrs. Lillie, at the weekend.

Robt. Duncan of San Rafael, Calif.,
who has been here on a visit with his
sister, Mrs. D. S. Timmons for some
days, left for home on Friday.

Mr. and Mrs. S. Burnett and family
take this opportunity to thank their
many friends and neighbors for their
timely assistance during the recent
fire.

Sunday's baseball attraction was a
game between a combination Wynn-
del-Sirdar team and the Creston nine,
in which the latter won by a score of
11-10.

Jack Bowman of the Imperial Bank
staff, who has been on vacation the
past six weeks, returned on Friday
and is again in charge of the cashier's
wicket.

taken on an additional saleslady this
week. Miss Edith Couling has the
position.

Shoe repair shop at Canyon open for
business. All work guaranteed or
money refunded, and prompt service
assured. Shop next to schoolhouse.
J. W. Kwansy.

Ollie Christie and Harold Sims of
Kimberley were here for a couple of
days' visit at the first of the week
with the former's parents, Mr. and
Mrs. H. Christie.

Up to Saturday the local provincial
police office had paid out \$80 on crow
bounty at the rate of ten cents a head.
Practically all of the cash was collect-
ed by local Indians.

The catch of muskrat in this terri-
tory the past season is valued at \$200,
of which amount Art Hurry, who had
a line at West Creston, is reported to
have taken almost \$700.

The Ladies Guild of Christ Church
had quite a good turnout of buyers at
their spring sale and cafeteria tea at
the Parish Hall on Saturday after-
noon, at which the cash intake was
\$60.

The tennis court at the high school
is a very popular resort for local
racquet wielders these evenings, and
the court is available to others besides
high school students at a fee of \$2 for
the season.

At the annual meeting of Creston
Valley Conservative Association Mon-
day night, F. H. Jackson was named
president, with Hilton Young vice-
president, and J. W. Hamilton, secre-
tary-treasurer.

J. D. Spiers and W. E. McAlpine are
amongst the local residents to gradu-
ate into the auto owning class. The
former is driving a 1927 model Chev-
rolet touring, while the latter's pur-
chase is a Ford sedan.

In addition to the reputed heavy
snowfall of last winter, the prophets
of big water point to the fact that
with all the lands in the Kootenay
Valley in Idaho dyked there is no
possible escape from floods worse
than in 1910.

At a directors meeting last week R.
J. Long was re-elected president of
Creston Co-operative Fruit Exchange;
with J. M. Craigie, vice-president; J.
E. VanAckerar, secretary; and J.
W. Hamilton, treasurer.

Creston baseball team had no
trouble disposing of Yahk in the hol-
iday game at Exhibition Park on Tues-
day. The score was 19 to 9. The visit-
ors presented the weakest team they
have had in action the past few years.

Under revised schedule of services
Christ Church the rector will be at
Creston on the fifth Sunday in the
month, instead of Yahk as for some
years past. Next Sunday's services
are at 8 and 11 a.m. at Creston; and
Wynadell at 7.30 p.m.

Creston Valley Liberal Association is
in session this (Thursday) evening
selecting delegates for the nominating
convention on June 2nd. Arrange-
ments are being made to send a full
quota of fifteen representatives from
the Boswell-Kitchener area.

The Wolf Out Pack under the lead-
ership of Chas. Murrell had another
appreciated outing on Victoria Day
when a hike was taken into the
Arrow Creek country, one of the fea-
tures of which was talk on botany by
W. P. Stark, whose remarks were
illustrated by the use of wild flowers.

G. O. H. Coleman of Cranbrook, dis-
trict manager for the Dominion Life
Assurance Company, was here on a
business visit at the end of the week.
He represents one of the most reliable
companies in Canada and would like
to secure a local agent for the Creston
territory.

Creston is again favored with the
services of a resident lawyer. H. L.
Robinson now being open for business
in this line in the offices over the
Imperial Bank. Mr. Robinson has
had previous experience as a barrister,
having been associated with the firm
of Robertson, Heisterman & Tait of
Victoria, prior to coming to Creston.

That the territory between Kuskan-
ook and Yahk, served by the Creston
agency of the Imperial Oil Company,
is a heavy user of lubricating oils par-
ticularly, is indicated in the company's
monthly statement which shows that
for April the local agency led in oil
sales in all the country from Fernie to
Grand Forks. Creston stood fourth
in March. Local selling was particu-
larly heavy to Marvelube.

*A well-known, old-established
Life Insurance Company desires
a representative—man or woman
—splendid opportunity. Write,
"Insurance," Box 47, Review
Office, Creston, B.C.*

The Rod and Gun Club had a swell
turnout for their dance in the Grand
theatre ballroom on Tuesday night for
which the music was by Mrs. Lister
and W. G. Hendy, violins; Mrs. Con-
stable, piano; E. Craigie, cornet; G.
Craigie, drums. The lunch was up to
the usual high standard maintained by
the club, and everyone thoroughly
enjoyed themselves.

That there should be no difficulties
in connection with warming up the
water in Edmondson's Emerald
swimming pool was demonstrated at
the middle of the month. Following
the hot days on the 15th and 16th the
water showed a temperature of 65,
and this was attained with 2000 gal-
lon of spring water running into it
every hour.
