THE CRESTON REVIEW

VOL. XIX. CRESTON, B. C., FRIDAY, JULY 15, 1927 No. 21

$7500 is Voted School Trustees

The ratepayers of Creston school district were out for economy at the annual meeting on Saturday night and this year's trustee board will have to be circumspect in financing to finish the year with any sort of surplus at all. Instead of getting the $8000 asked for, the meeting voted them but $7500.

There was a fair turout of citizens for the session which was presided over by S. A. Speers, whom the meeting voted to the chair. Geo. Nickel, board treasurer, submitted the balance sheet showing an intake for the past year totalling $9398, which included $1128 carried over from the previous, year, $275 from tuition fees ond receipts from taxes of $6995. Expenditures for the past year had totalled $8290, and the books closed with a balance of $1108.

For this year salary raises of $50 are to be given Miss Cowling of the high school staff, and Principal McLellan of the public school, and there is a raise of $25 each for Miss Wade and Miss Holmes of Divisions 3 and 4 of the public school.

Balloting was necessary to fill the vacancy in the trustee board, with Chairman Fred Lewis beating ex-trustee F. H. Jackson by a narrow margin. Dr. Henderson was re appointed auditor for the thirteenth consecutive term.

Kitchener

Miss Laura Andeen left on Wednesday for Wynndel, where she is on the strawberry packing staff at one of the Duck Creek ranches.

Mr. and Mrs. B. Johnson, Miss Laura Andeen, Messrs. Jim McGovern and A. G. Strudwicke were calling on friends at Camp Lister on Thursday.

Martin Nelson, Jack Dodds, Ray Crisler and Alf. Speaker, well known Erickson residents, were auto callers on Sunday. Tom Hickey of Canyon favored with a business call on Monday.

Dr. Henderson of Creston was called to Kitchener on Friday to attend Mrs. W. O. Davis. At present she is making a very satisfactory recovery. Mrs. Z. Geroux is another resident who has been on the sick list but is recovering.

Ed. Stilk and Mr. and Mrs. C. R. Paulsen and family of Spokane motored in for a short stay last week, arriving on Friday.

Mrs. A. Carter of Eastport, Idaho; W. R. Suder of Addie, Idahe, and C. Beach of Kingsgate were Saturday motor callers at Kitchener.

A. LePage left on Tuesday last to resume work at the Ten Mile Camp at Terry's.

M. Lanktree and family and E. Bohan and family are now residents at Camp Lister, to which point they moved last week.

Don't forget the dance in Hunt's Hall, Saturday night, July 16th.

Miss Clara Hunt, who has been under the doctor's care the past ten days, is able to be around pretty much as usual.

Mr. and Mrs. J. D. Spiers and son, Gordon, of Creston were calling on Kitchener friends, Monday.

J. R. Forber, manager of the Bank of Commerce, accompanied by Mrs. Forbes, paid Kitchener a business call on Saturday.

The annual meeting of the school district was held at the school on Saturday evening. J. Langlois was elected trustee, with Mrs. E. Driffil reappointed auditor, and G. A. Hunt, secretary, treasurer of the board.

R. E. Sang of Cameron & Sang, Cranbrook, with Chas. A. Sang of the Crystal Dairy, Cranbrook, were motor visitors on Wednesday. Bert Sly of the P. Burns Company, and Alex. Derby, Western Grocers representative, were motor visitors, Thursday.

H. L. Devlin, Lethbridge, and F. Stevenson, Calgary, were business callers on Thursday. Mr. and Mrs. W. Graham, Miss Campbell and O. A. Lindsay of Flint, Mich., were motor visitors here on Friday. Mr. and Mrs. Wachter of Coeur d'Alene, Idaho, and J. McAlander Oxford, Wash, were motor callers Friday.

Wynndel

Oscar Ofner left for Trail last week, where he hopes to obtain work for the next few months.

Mrs. Hooke and children of Spokane are visitors here at present with the former's parents, Mr. and Mrs. J. J. Grady.

Rev. S. Newby of Creston were visiting with Wynndel parishioners on Friday, Rev. J. and Mrs. Herdman, also Creston, were visitors here last week.

Mrs. Boutray of Bellvue, Alberta, who has been a visitor with her mother, Mrs. Rudd, and sister, Mrs. R. Dalbom, left for home on Friday.

C. B. Twigg, provincial horticulturist, Creston, was here on an official visit, Saturday. Provincial police H. McLaren of Creston was here on Monday.

Mr. and Mrs. Arthur Cooper are visitors here at present with the former's mother, Mrs. Ashley Cooper.

Mrs. Haggart of Vancouver, representing Oloane & Kelly of that city, is here at present superintending the shipping of about thirty tons of jam berries to that firm.

Miss Glenn of Ireland was a visitor last week, a guest of Mrs. Towson. She was en route from Vancouver to Winnipeg, from where she leaves later on a tirp to London, England.

K.K.K. berry season dance, Friday, 15th. Mrs. Lister's orchestra. Gents $1. Ladies 50c.

Mary and Felix Willingshoffer of Bellvue, who have been with Mrs. R. Dalbom, returned to Bellvue at the end of the week.

Erickson

Mr. and Mrs. E. Cartwright were visitors with Cranbrook friends a few days the latter part of the week.

Mrs. R. Dodds is a visitor with her daughter, Mrs. W, Percival, at Yahk.

Jas. Carr spent a few days on business at Cranbrook last week.

Due to the road roller being shipped to Trail last week the finishing touch rolling in the new gravel on the lower Erickson-Creston road is delayed for a few weeks.

The road crew is now at work on the gravelling of the Erickson-Arrow Creek road, starting in the Arrow Creek bridge. A very fine quality of gravel is being spread, and when the job is completed at the end of the month that stretch of highway will be in splendid shape.

The Erickson business section is being enlarged with the erection of a blacksmith shop for Ed. Gardener of Crestou, who will be ready for business within the next few days.

Agent T. W. Bundy had sweet peas in bloom in the station garden at the end of the week. Considering the dull weather that has prevailed most of the year this is a very early showing.

Erickson's educational affairs will be in the hands of the former board of trustees for the next twelve months, trustee E. Carawright being returned for another three-year term at Saturday night's meeting, and with Mrs. Putnam and R. M. Telford will constitute the trustee board, with W. J. C. Richardson re appointed auditor.

The 1927 early vegetable honors belong to the L. T. Leveque ranch who was supplying the local and Creston trade with new beets, carrots, turnips and peas for Dominion Day dinners. At new potatoes the Kelsey and Haskins ranches are this week both delivering fine looking early spuds by the sack.

Institute Cancels '27 Flower Show

Creston and District Women's Institute had their July session Friday afternoon, with the president, Mrs. R. Stevens, in the chair, and 21 members present. Minutes of the June meeting, and the treasurer's statement to date, were read and adopted.

A statement of the receipts and expenditures in connection with the Institute booth on July 1st was received. It showed a cash intake of $227.

The president then thanked all the ladies who had contributed and helped and the committee in charge of the booth. Mrs. Geo. Cartwright moved a vote of thanks to the business men of the town who had suported the Institute, which was seconded by Mrs. M. Young, and heartily endorsed.

A request for interchange of correspondence was received from an Institute in England. Particulars of the poster competition at the Canadian National Exhibition in Toronto, and of a display and sale of homemade rugs at the Vancouver fair, were put before the meeting Will any members who desire information please consult the secretary.

The proposed flower show was discussed and the meeting expressed itself as not in favor of having a show this year. After the roll call came adjournement with a pleasant half hour with Mrs. C. H. Hare, Mrs. Manuel, Mrs. A. Palmer as tea hostesses. The freewill offering was $2.10, which goes to the Crippled Children's Fund.

LETTERS TO THE EDITOR

C. O. Rodgers' Statement

Creston, July 14.

EDITOR REVIEW:

Sir—I wish you would publish in your paper, the following statement, so the people may know the facts.

I understand that some of the Commissioners are circulating around that I refused to sign the contract to furnish the Village of Creston with electric light. It is quite correct, I did refuse to sign a contract that they wanted me to sign. I am ready to sign a contract as per my letter to the Commissioners on February 2nd, 1927, and which was published in your paper, and this was what the plebiscite was taken on, and I am quite prepared to live up to this agreement. so don't be misled by what you may hear.

CHAS. O. RODGERS.

Lister

Capt. Jos. W. Bell of Kimberley was a weekend visitor here, the guest of Col. and Mrs. Lister.

Geo. Jacks put Lister on the fruit shipping list on Wednesday with an export of a crate each of raspberries and currants.

Mrs. Fred Powers and son, Manning left on Monday for Spokane, travelling by auto in company with Rev. S. Newby. Manning has been in poor health lately, and a children's specialist is being consulted.

Mrs. Andrew Sinclair left on Monday for a short visit with Nelson friends, and on her return will be accompanied by her daughter, Agnes, who has been at Vancouver for almost two years.

H. Rohan and family and M. Lanktree and family, all of Kitchener, arrived here this week, the former occupying the former Ernest Langston house, and the latter the Filmer place. Both are going to work for Putnam, Palmer & Staples, Limited.

John Blinco, the well know Creston apiarist, has been here a couple of days taking the honey from the fifteen hives he has on the old F. N. Thompson place. He says this year's honey yield is smashing every previous record.

W. Mitchell, sr., presided at the annual school meeting on Saturday night, which was slimly attended. $325 was voted to finance the ensuing year's educational effort. John Bird was re-elected trustee, and Mrs. Mitchell, auditor. Mrs. Fred Powers and E. J. Malthouse complete the board of education.

At the annual school meeting at ths Huscroft school district, John Huscroft was re-elected trustee, and Albert Tedford named to replace T. A. Banks who is leaving on a trip to the Old Country shortly. The third member of the trustee board is H. Helme.

Mr C. H, Phillips spent the holiday week-end on his ranch at Camp Lister, and reports the apple trees looking fine; he also tells of a crop of sweet clover six feet high. Rain made the roads bad for the return trip, and Mr. Phillips had trouble on Goat River Hill; anyhow, this was overcome and Kimberley reached on Sunday night. During the trip a visit was made to Mr. T. E. Slingsby at Wynndel. Tom is reported to be in splendid health and busy gathering a fine crop of strawberries.—Kimberley Press.

Canyon City

Arthur Hale of Trail arrived at the end of the week on a visit at his home here.

Wm. Strong was in from Alberta at the end of the week, coming in to get his auto, in which he made the return trip.

Mosquitoes are the worst ever known in this section. They are so thick that some Canyonites who have a log cutting contract with Putnam, Palmer & Staples, Limited, have knocked off work for the present.

The government road crew have done a good job elimnating the very short curve that gave autoists, particularly, trouble in travelling the road to the old bridge.

Cherries are on the shipping list this week, and local raspberries will be moving by the end of the week. Neither cherries or raspberries will be as heavy a crop as a year ago.

The annual school meeting passed off satisfactorily, the trustees getting the vote for the $1800 asked for, and W. G. Wearmouth re-elected trustee for a three-year term. A. Bond is the new auditor.

Married at Vancouver

A pretty wedding took place at St. George's Church on July 6, when Murriel Margaret, eldest daughter of the late John Hobden and Mrs. Hobden of Creston, was united in marriage to Mr. Samuel M. Whittaker, eldest son of Mr. and Mrs. James Whittaker of this city. Rev. Maj. C. C. Owen officiated. The bride wore a white crepe de chine dress with hat to match and carried a shower bouquet of Ophelia roses and lily of the valley. After a wedding supper at the otel Georgia, Mr. and Mrs. Whittaker left for Banff and Lake Louise where the honeymoon will be spent. On their return they will reside in Cranbrook. For travelling the bride wore a black and white ensemble.—Vancouver Province.

Apples Show Increase

According to the first crop bulletin issued by the provincial department of agriculture the 1927 estimated apple crop is 175,000 boxes, as compared with a 1926 yield of 150,031 boxes. 4000 boxes of crabapples are expected, which is much the same as a year ago. The pear crop is figured at 6000 boxes as against 5042 in 1926, and there will be 4500 crates of cherries of all sorts as compared with 4010 last season. The slump in the Valley is in plums and prunes which are due to drop from 8623 crates to about 3000 in 1927.

Hitch Develops Light Agreement

A hitch has occurred in executing the agreement betwen the village of Creston and the C. O. Rodgers box factory for the electric light for the corporation, which was expected to be available at the middle of September at the latest, and this matter was the chief item of business at the July meeting of the village council, on Monday night at which all the commissioners were present.

The agreement as originally drafted, and which has been approved by the inspector of municpalities and given the necessary legal standing by provincial order-in-council, was submitted Mr. Rodgers a few days ago and on perusing same he notified council that he could not sign it until certain alterations were made and a couple of other features were more specifically stated.

These were: 1. That the village bind itself not to sell electricity outside the village boundaries; 2 That the Grand Theatre should be exempt from using village light, as well as the C. O. Roders residence, box factory, office, yards, etc. 3. That the new residence of F. C. Rodgers on Barton Avenue should be allowed to use electricity direct from the plant and not liable for payment of rates to the village.

As items 1 and 2 were covered in the agreement the commissioners agreed to make any necessary alteration to make the matter as specific as Mr. Rodgers desired, but on item 3 the council were unanimous that when the agreement was drafted at a conference at which C. O. Rodgers was present no mention was made of exempting the F. C. Rodgers residence, and no exemption could be given.

Accounts for June totalling $254 were ordered paid, and Chairman McCreath of the roads and streets cammittee was authorized to confer with Putman, Palmer & Staples, Limited, to ascertain definitely the streets they would traverse in their haul of ties and lumber so that any bridge that might be used could be put in shape to stand the loads to be hauled.

Village treasurer W. O. Taylor reported the 1927 collection of taxes to be the best on record, along with which there had been a very satisfactory liquidation of tax arrears.

Alice Siding

The Social Club had a good turnout for their usual berry season dance at the Todd ranch on Friday night. The music and lunch were excellent and the affair very much enjoyed.

Mr. and Mrs. Stewart and family were weekend visitors with friends at Bonners Ferry.

Miss Ivin Compton, who has been attending commercial college at Vancouver the past six months is expected home this week for a short holiday before taking a position.

Jack and Dick Smith tried out the fishing at West Creston at the weekend. Summit Creek is none too promising but they predict bass will be at their best about the middle of the month. Ron. Stewart tried out Meadow Creek at the weekend and brought in a fine catch of trout.

Tenders for carrying the mail twice a week on the Alice Siding rural route closes on the 29th, but before delivery can start it willl be necessary to do considerable repair work on that part of the old K.V. roadbed that will have to be used on the return trip of the mail man.

$300 was voted at the meeting on Saturday night with which to carry on Alice Siding school the next twelve months. The trustees are as before: W. H. Mather, Victor Carr and John R. Miller, with Guy Constable, auditor.

Raspberries are on the shipping list at the Smith depot this week, and with so much moisture it is likely the crop will be larger than first anticipated.

BAYER

Genuine

ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Outdoors

The editor of this column steps aside this week to give place to the following "Four Minute Essay" by Dr. Frank Crane, and to commend it to all readers as well worthy of adoption:

A good dose of Outdoors would cure almost anything.

Quit wearing a hat and let your hair Outdoors, for that bald spot.

Go barefoot, and your feet will slip back ten years.

Take off your clothes and lie on the sand in the sun, acquire a rich tan, and you will become healthy as a savage.

Go Outdoors and find a appetite. It's out there somewhere.

Go Outdoors and get rid of Nerves. They live in the house.

Other rats and mice that infest houses are Dyspepsia, Constipation, Liver Complaint, Peplessness and Insomnia.

Not only Bodily Ailments, but all other kinds of plagues and nuisances are house creatures.

Creeds were all made in stuffy rooms. Religion, faith, hope, love, and courage inhabit the woods and meadows, sail the seas, and seek wind and sun.

Jesus taught Outdoors. Ecclesiastical Councils are held behind closed doors. The decline of religion is traceable from the Sermon on the Mount in the asphyxiating Meeting-House.

Education ought to be Outdoors. My favorite dream is the University of Outdoors, where pupils go shoeless and hatless and learn under the stars.

This University would teach the child how to be as healthy as a panther. And healthy bodies would obviate most neurasthenic intellectual vagaries.

Where but Outdoors can you learn Botany, Geology, Astronomy, and the like. Real Science lives Outdoors, as much as Leap-Frog.

Play Outside. Prisoner's Base is better than Whist.

Even kissing is better Outdoors. Copenhagen is much betier for your general system than twosing on the parlor sofa. When you chase a girl half a mile to kiss her you realize what real Kissing is.

Eating is better Outdoors. A horse is healthier than a man because a horse has to walk after every bite of grass he gets.

Outdoors is the solution of the Prison problem. From cell to sunshine means from the destruction to the reconstruction of the human waste-heap.

Insane patients who are violent when locked up become peaceable Outdoors.

Children thrive Outdoors and pine in the house.

Outdoors is cheap and plenty.

God made Outdoors; man made Indoors.

And God lives Outdoors; in man-made edifices—Idols.

New Device for Motor Cars

Electric Brake Will Use Less Current Than Horn

The near future may see the adoption of an electric brake system on passenger cars that will require the least energy on the part of the driver to stop the heaviest type of machine within a short distance.

This type of brake is being manufactured for use on heavy trucks and trailers, and is being found more practicable than the mechanical type.

The apparatus requires less electricity to operate all four brakes on a heavy passenger car than is needed to run one headlight or to blow the horn once, it is said.

If a man is out of his head he is apt to put his foot in it.

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates.

The genuine bears signature of

Chas. H. Fletcher.

Owns Pig With Two Mouths

Alberta Farmer Says Animal is Otherwise Normal

C. E. Henninger, a farmer, is the proud owner of a freak member of the swine family. The pig in question was born with two mouths, has two sets of teeth and two tongues but does not require double the amount of fodder. One of the mouths is stationary but both tongues move in unison. The creature appears to be normal in all other respects.

On one day the Henninger Farm saw an increase of thirty-nine animals within three hours. In all 28 pigs, a colt and ten chicks were born within that time.

"If every rancher had a similar increase, the country would be soon overstocked," Mr. Henninger humorously observed.

Plan to Shorten Voyage

Passengers Will Be Catapulted in Seaplanes From French Liner

Passengers will soon be catapulted in seaplanes from the deck of the Ile De France, latest addition to the French Line fleet to cut short the voyage across the Atlantic ocean, it is announced in a cable to the French Line.

The cable came from the Ile De France, which was en route to the United States on her maiden voyage. The plans call for the seaplanes being shot from the liner off the Grand Banks whence they will carry passengers to seaboard cities of the United States and Canada.

The seaplanes will not be added until the liner has made several trips.

Are you acquainted with any man who flatters his wife?

Keep Minard's Liniment near at hand.

Prince Favors Playgrounds

Glad to See Movement to Provide Place for Poorer Children

The British National Playing Fields' Association, which has issued an appeal for "£1,000,000 and many acres," states that there are in England 4,000,000 boys and girls who are without such facilities and that many great cities have not a single football field or cricket pitch for the use of the poorer youths. The King on his birthday placed two of the Royal paddocks at Hampton Court, containing about six acres, at the disposal of the Association. In the absence of the Duke of York, who is president, the Prince of Wales on his return from the Derby visited a broadcasting station and gave a wireless talk in support of the movement.

As a lover of games himself, the Prince said that he was really glad to see on foot a movement to provide proper playing fields for these 4,000,000 boys and girls and that he hoped soon to see the day when not one of them could say, "I have nowhere to play."

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVILINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 35c. bottle of Nerviline today; it will make you well quickly.

Greatest Menace to Motorists

The two greatest menaces to the safety of motorists are the speed mania and the level crossing. When it is properly appreciated that roads are not race tracks and that level crossings are a species of death trap, the number of fatal accidents caused by the automobile will become practically negligible, at least in comparison with what has been the case the last few years.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

The First Economy

A young man proposed to a girl and was accepted. After their first tender transports were over they fell into serious talk.

"Now that we are engaged," said the girl, "we must begin to economize. Promise me, darling, that you won't do anything you can't afford."

The young man laughed grimly.

"If I promised you that," he said "I'd have to break off our engagement."

Great Britain, Canada, France and Italy have paid bonuses to their world war veterans.

DYSENTERY WAS SO BAD BECAME ALARMED

Mrs. Wallace Pepper, R.R. No. 6, Simcoe, Ont., writes:—"Last summer I was very bad with dysentery. I lost my appetite, and had such severe pains in my abdomen they made me very faint. I passed blood which greatly alarmed me, so I hurried to the doctor. He told me the quickest way to get rid of it would be to take

"I took only part of a bottle and was completely relieved. I feel I cannot recommend it too highly."

This wonderful bowel complaint remedy has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Urge Vaccination to Prevent Tuberculosis

French Doctors Would Have New Vaccine Given to All Children

The success obtained by the use of the anti-tuberculosis vaccine developed by Dr. Albert Calmette of the Pasteur Institute has led to a movement among French medical authorities in favor of the universal vaccination of children.

Results just tabulated up to the present year show that from 21 000 cases of vaccination with the Calmette vaccine, which is known as "BCG," there have occurred only 1 per cent. of deaths from tuberculosis, while the tubercular mortality among unvaccinated children is shown by medical statistics to reach 26 per cent.

Professor Calmette explains that his vaccine does not inoculate the patient with the disease, but "suggests" the disease and rouses anti-tubercular bacilli to activity. This has been done through use of vaccine obtained through reducing the virulence of the tuberculosis bacilli by the inbreeding of weakened bacilli until an innocuous vaccine is evolved which is only strong enough to suggest tuberculosis in the system.

Early experiments were made with laboratory animals, and then with monkeys, over a period of thirteen years before the scientists of Pasteur Institute felt sure enough of the harmlessness of the vaccine to test the effect upon man. The vaccine need not be injected, but may be administered in food.

Despite the apparent success of this vaccine, French doctors report a general hostility upon the part of the public to anti-tubercular vaccination, the same objections being advanced as those opposing vaccination for smallpox and typhoid. But an increasing number of physicians are becoming interested and the use of the vaccine has already spread to all countries of Europe.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Russia Building Airplanes

Equipment of Soviets Increased by Sixty New Machines

An increase of more than sixty aeroplanes in the aerial forces of the Soviet union is announced as the result of a country-wide campaign conducted under the watchword, "Our answer to Chamberlain."

(This refers to the breaking off of diplomatic relations with Russia by Great Britain).

Reports from 23 provincial cities published at Moscow announced the intention of the various unions in those places to construct from one to twelve aeroplanes each.

Leningrad leads in the building program.

Minard's Liniment for Insect bites.

English scientists are experimenting with an electric machine designed to eliminate the dense fogs which visit London.

A system of communication by eyelid talking to bulk criminals is being used by detectives in Canada.

Minard's Liniment for warts and Pimples.

First Yokeless Egg

Adolph Goldberg is an egg candler; he has been one for 30 years, But not until the other day did he ever see an egg without a yolk. He took it to the Museum of Natural History, New York, where officials agreed that it was the first on record.

WEAK, LISTLESS GIRLS

Need Such a Tonic as Dr. Williams' Pink Pills to Restore Health

When a girl in her teens becomes pale and sallow, especially if at the same time she shows inclination to tire easily, a listlessness and inattention to her work or studies, she needs Dr. Williams' Pink Pills, a tonic which directly and specifically corrects the condition from which she is suffering. A chemical analysis of the blood of such a girl would show it to be deficient in just the elements Dr. Williams' Pink Pills can supply. But an analysis of the blood is not needed—the physical signs are plain. Among these signs are a pallor of the cheeks and lips, dark circles under the eyes easily tired and breathless after slight exertion. Poor appetite, headaches, and sometimes fainting spells follow; often the patient is nervous and is startled at the least noise. In all run-down conditions there is no other tonic will build you up so quickly and so surely as Dr. Williams' Pink Pills. The statement of Miss Dorothy Lumblin, Bush Island, N.S., will bring hope to other weak girls. She says:—"I wish from my heart I could persuade every person who is in a run-down condition to give Dr. Williams' Pink Pills a trial. About a year ago I was a weak girl suffering from impoverished blood and a run-down system, with many of the attendant symptoms. I had often read of Dr. Williams' Pink Pills and decided to take them, and after using six boxes I feel as well and strong as ever. Dr. Williams' Pink Pills will be my standby in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to others."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Selling Deer Antlers

Reindeer have shed their antlers and native herdsmen at Nome, Alaska are busily gathering and transporting them to the coast for shipment to the south. The bone material is valuable for many articles of manufacture.

For Both House and Stable. — There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

At a depth of 66 feet the water of the Dead Sea is twice as salt as it is on the surface, and at 1,000 feet three times as salt.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

An electric shoe-polishing machine that shines both shoes automatically and in only three minutes, has been developed.

KEEP QUIET!

That's good advice if you have Diarrhoea. Then for quick relief take a dose or two of

GOVT. VICTORY IS NOW ASSURED IN MANITOBA

Winnipeg.—Premier John Bracken and his Progressive supporters were returned to power in the provincial general election with a clear-cut mandate to guide the political destinies of Manitoba for another five years.

Indications are for a Government victory in 29 of the 55 seats in the Legislature, or equal to its representation at dissolution.

The striking feature of the election however, was the showing of the Conservative Party, which in standings early compiled, was credited with 15 seats, a gain of nine. Liberals appeared to have lost two seats, with only three candidates declared elected and two leading, while Labor appeared to have weathered the storm with its pre-dissolution representation unimpaired. The gains were chiefly made at the expense of the Independent group, which had only elected one member and was leading in two. In the last House the Independents had a voting strength of eight.

The electors of Manitoba appear to to have registered a sweeping verdict in favor of extending the present facilities for the sale of beer. Winnipeg piled up a majority of approximately 15,000 for changes in the beer laws, and sale of beer by the glass in Government-licensed establishments likely will be the result. Proponents of the beer parlors out-voted those in favor of beer by the bottle under the "cash-and-carry" system by nearly two to one. Indication that the electors want the Government to continue its control over the distribution of intoxicants was shown in the defeat of the proposal which would have given the brewers the right to deliver beer direct to permit-holders.

Returning From England

Cabinet Ministers Will Sail for Canada Shortly

Ottawa.—Hon. James Malcolm, Minister of Trade and Commerce, who is at present in England will sail for Canada on July 9, according to present plans. Mr. Malcolm has visited the offices of the trade commissioners for Canada in Great Britain and will inspect several of the offices on the continent before returning.

Hon. Robert Forke, Minister of Immigration, will sail for Canada, July 23. Mr. Forke has been several weeks in London involved in negotiations with the British Government for the extension of the 3,000-family settlement scheme as well as other immigration agreements.

This month, Hon. Charles Dunning Minister of Railways, will make the trip to Hudson's Bay accompanying Frederick Palmer, the British engineer the Canadian Government has appointed to report on the comparative merits of Port Nelson and Fort Churchill as a terminal for the Hudson's Bay Railway. Major Graham Bell, deputy minister, and Col. Dubuque, chief engineer of the department also will be in the party.

Ship License Cancelled

Panama.—Panaman Consul Morris at Vancouver, B.C., has been ordered to cancel the Panaman registry of the ship Federalship which some time ago was seized by the American prohibition authorities and later released on the order of a Federal court. The Panaman action was based on the non-payment of $115 due to the National treasury for taxes. M. Morris reported that cancellation of the Panaman registry had been solicited by the owners of the vessel.

Authorized to Fire Salutes

Ottawa.—Edmonton has been added to the list of stations at which artillery salutes are fired on certain authorized occasions including Royal salutes on the sovereign's birthday and Dominion Day, according to an announcement by the department of National defence.

Receives Peace Prize

Oslo, Norway.—Foreign Minister Stresseman of Germany has arrived here to receive the Nobel peace prize for 1926 which he shares with Foreign Minister Briand of France.

W. N. U. 1628

Canadians All

Mlle. Cartier Says Canadian Is a Title to Be Proud Of

Toronto.—After 68 years, Mlle. Hortense Cartier, daughter of one of the Fathers of Confederation, Sir Georges Etienne Cartier, returned to Toronto. Toronto was her childhood home between 1854 and 1859. When the Government moved to Quebec at that time she went with her father, and until today has never seen Toronto since.

Mademoiselle Cartier came from France as the guest of the Canadian Government to attend the celebration of the diamond jubilee of Confederation.

"One thing I do hope to see soon is the adjective 'French' dropped in French-Canadian," she said. "I think everyone should be just plain Canadian—and it is a title of which everyone should be very proud.

"I'm going through to the West and I am eager to get a feather crown. My father had a wonderful head dress and belt given him by the Indians."

Welcome Return of Royalty

Duke and Duchess of York Are Home After Six Months' Tour

London.—The British newspapers were filled with enthusiastic welcome to the Duke and Duchess of York upon their return from their six months tour to New Zealand and Australia. In connection with the welcome are many references to the self-sacrifice of the Duchess of York in having left her infant daughter, Princess Elizabeth, for so long a period. One writer says this gives the Duchess a link of common understanding with all those other British wives and mothers whose husbands are called to visit or make homes in the outposts of the empire and who must choose between their husband and children.

Chinese Nationalists Suffer Defeat

30,000 Casualties Reported After Four Day's Fighting

London.—A Shanghai despatch to Exchange Telegraph says the Chinese Nationalists admit suffering the heaviest reverse of the war at Suchowfu, North Western Kiangsu province.

Attacked by General Sun Chuan-Fang and his Shantungese, the Nationists evacuated the city after four days fighting, in which they lost 30,000 men, mostly killed, and retreated 30 miles to Pengfu.

Killed in Air Crash

Flight Lieut. Anderson in Fatal Accident at High River

Calgary, Alta.—Flight Lieut. C. N. Anderson, Royal Canadian Air Force, was instantly killed when his plane crashed and burned at the High River Federal air patrol station.

The accident occurred as the flier was landing in formation, a test flight for the Jubilee Celebrations being in progress.

The wrecked ship immediately burst into flames.

Anderson was 25 years old, unmarried, and his family resides in the Brandon district.

Retains Premiership

HON. JOHN BRACKEN,
Premier of Manitoba, whose Government is returned to power.

TWO CLASSES FOR CRUISERS URGED NOW BY BRITAIN

Geneva, Switzerland.—Great Britain proposed to the technical committee of the tripartite naval conference that the cruisers be divided into two classes, one of 10,000 tons carrying eight-inch guns and the other of 7,500 tons with six-inch guns.

The United States and Japanese delegations requested time to examine the proposal in the light of the effect it would have on the navies of each power concerned during the life of the treaty.

Some observers have expressed fears that the tripartite naval conference has reached a critical stage because the British and United States representatives have not yet been able to come together on the question of reopening the Washington treaty.

The Japanese have announced their inclination to support the British view on the question of limitation of the size and armament of battleships, consideration of which would mean re-discussion of problems thought to have been solved by the Washington treaty of 1922.

The determination of the United States delegates to restrict the conference to the scope outlined by President Coolidge's invitation to the powers remains unchanged.

Makes Parachute Descent

Toronto Girl Drops From Aeroplane At One Thousand Feet

Hamilton, Ont.—Miss Caroline Sykes, a Toronto office clerk, made what is known to be the first parachute descent from an aeroplane by a woman in Canada here when she stepped off an aeroplane 1,000 feet up in the air and made a perfect landing on the top of a mountain. Miss Sykes had been up in an aeroplane but once before. It is likely she will be employed to repeat the stunt daily at the Canadian National Exhibition in Toronto.

Dusting Wheat Fields

Will Use Aeroplanes to Control Dust by Spreading Chemicals

Fargo, N.D.—Aeroplanes for dusting wheat fields with "cola," a chemical with which experiments are to be made in the hope that it will prevent or control black stem rust on wheat, will be used on an extensive scale in Manitoba and will be tried in a smaller way in Cass County, North Dakota, it was learned here.

T. M. Shields, officer of the Royal Canadian Flying Corps, spent Sunday here en route from Philadelphia to Winnipeg with a new aeroplane which he will use in dusting fields in Manitoba. It is planned to treat about 8,000 acres in the Canadian provinces.

Walter R. Reed, who is to make smaller experiments on his farms near Chaffe, N.D., conferred with Mr. Shields regarding the proposed Canadian experiment. Mr. Reed will have experiments made on three different kinds of wheat dusting about 10 to 15-acre tracts of each.

Newspaper Men Elect Officers

Mr. Sam Wynn, Yorkton, New President of Weekly Newspaper Convention

Huntsville, Ont.—Sam Wynn, Yorkton, Sask., was elected president of the Canadian Weekly Newspapers Association at the concluding session of the annual meeting here. Other officers are: First vice-president, S. B. Anslow, Campbellton, N.B.; second vice-president, Hugh Savage, Duncan, B.C. Directors include: British Columbia, R. E. White, Kamloops; H. G. Parsons, Golden. Alberta: Charles Clarke, High River; A. R. Ennis, Leduc, Saskatchewan; C. R. MacIntosh, M.P., North Battleford; D. C. Dunbar, Estevan.

Transfer of Military Units

Several Western Units Will Change Location

Ottawa.—Re-location of a number of military units throughout Canada is announced by the department of national defence.

The Westminster Regiment "C" Company, has been transferred from Mission to New Westminster, B.C.

The Assiniboia Regiment, C. Company, has been transferred from Manor to Indian Head, Sask.

Canadian Machine Gun Corps, No. 3 Company, machine gun battalion, has been transferred from Nanaimo, B.C., to Mission, B.C.

Hungary's Wheat Crop Less

Ottawa.—According to a cablegram rebeived from the International Institute of Agriculture at Rome, the wheat crop of Hungary is 68,784,000 bushels as compared with 69,200,000 last year and 71,674,000 in 1925. The cablegram also states that Hungary's rye crop is 25,511,000 bushels against 30,015,000 in 1926, and 32,525,000 in 1925.

Dr. Haanel Passes

Ottawa.—Dr. Eugene Haanel, for 20 years superintendent and director of mines, died here recently, aged 86 years. He was internationally famous and held a number of degrees from Canadian and American universities.

UNITS OF EMPIRE AS ONE IN TIME OF COMMON PERIL

Chicago.—The British family of nations may bicker among themselves but they will meet an outside menace with a united front, Sir Cecil Hurst, legal adviser to the British foreign office, told a University of Chicago audience during the second of a course of lectures on "Problems of the British Empire."

In this lies the claim of empire to be a total unit and international though foreign powers might question the reasonableness of treating the empire as a unit in strength of the common allegiance to one king, Sir Cecil said.

"Families cannot be made by contract; they cannot be made or unmade by mere agreement of their members. The British empire has grown up together and as they became stronger, they may have become more self-contained more able to stand alone; but the ties which united them to the parent state remain intact."

British nations, Sir Cecil declared, will continue to act together in foreign affairs because the spirit of British autonomy is based on the admission that questions affecting the whole group cannot be left to one member of the group to conduct without reference to others.

Equality of status among nations, as among individuals did not necessarily mean equality of stature, wealth or temperament. In the British Empire equality meant the absence of any power of control by one community over another. Some inequalities still exist between the powers of the British and Dominion governments but these were being swept away.

Crops Doing Well

Favorable Crop Report Covering All Western Areas

Winnipeg.—Since the completion of seeding operations weather conditions have been entirely favorable for growth, and crops are doing well almost everywhere, according to the weekly report issued by the Agricultural Department of the Canadian Pacific Railway. Earlier sown grains are practically as far ahead as at this time last year, with the grain sown later about a week behind. A considerable percentage of the crop was put in unusually late, but with present weather conditions maintaining the rapid and healthy growth there should be no question of harvesting the crop within time this fall.

Cutworms have caused damage of a minor character at a few points, but the loss in this respect does not nearly approach the average. Hail has beaten down the crops over limited acreages in a few localities in Saskatchewan and Alberta, but the grain was not sufficiently advanced to be permanently injured. The noticeable feature this year is found in the increased amount of new breaking undertaken, and the farmers are taking every advantage of the satisfactory soil moisture conditions.

Novel Flight Planned

London.—Mayor Moore announced that an invitation would be broadcast immediately to aviators to qualify for a non-stop flight from London, Ont., to London, England, for a prize of $25,000 to be provided by a local brewery. A machine for the flight will be purchased by the same concern and handed over to the aviator as soon as one fully qualified, preferably a Canadian, has been found to undertake the trip.

Favor Amalgamtion

Vancouver, B.C.—Ratepayers of Vancouver and South Vancouver by overwhelming majorities voted in favor of amalgamation of the city and the municipalities of South Vancouver and Point Grey.

Increase in Coal Output

Vancouver.—During the first four months of the year the coal mines of British Columbia produced 854,236 long tons, an increase of 154,923 compared with the similar period of 1926.

Famous Explorer for Japan

Captain Roald Amundsen, famous Norwegian explorer, who has flown and sailed to the North Pole or its vicinity, is taking a trip to Japan and is here shown on board the Canadian Pacific liner Empress of Asia just before leaving for Yokohama from Vancouver, B.C. With him in the photograph are C. D. Stahlschmidt, Norwegian consul at Vancouver and S. L. Premer, of the Vancouver Harbor Commission. It is understood that Captain Amundsen is merely taking a holiday trip.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, JULY 15

The North and South Road

Creston awaits with unusual interest an official announcement regarding the boundary terminal of the Idaho north and south road, following the recent visit of a Porthill and Bonners Ferry delegation to Nezperce to discuss with the authorities of the state the matter of getting on with the completion of the highway from Copeland.

The road has been halted at that point for at least two years pending a decision as to whether the terminal should be at Eastport or Porthill. Up till very recently Eastport appeared to be favored, but with the extensive dyking work that has been completed in the Kootenay Valley between Copeland and Porthill it now seems all but assured that the latter place will have the prererence, the county commissioners having decided that they will not vote their one third of the construction cost if the road goes anywhere but to the town to the south of us.

Insofar as the Britsh Columbia connection goes Creston has always been given to understand that in case Porthill was favored by the U.S. authorities undoubtedly the abandoned K.V. right of way would be used and the transprovincial highway linked up with here.

From newspaper reports the chance of the road reaching Porthill in 1927 is not bright as there are only funds to build it half the uncompleted distance, but this should not interfere with a drive being made on the public works department to include in the 1928 estimates the fnuds needed to build the Creston-Porthill link.

With the U.S. road headed for Porthill, British Columbia should make every effort to have the high way from that point open to Creston at least as soon as the road makers from the south tap their boundary objective.

LETTERS TO THE EDITOR

A Tourist Park?

EDITOR REVIEW:

SIR—With much talk heard about the north and south highway shortly to be opened up, and the consequent rush of auto tourists east and west, it was but natural that the question of a liquor store or beer parlor to make Creston really attractive to the tourists should bob up again.

So far as these facilities are concerned there should be little need to worry. They are conducted purely for gain and when the trade seems to justify their existence assuredly enterprising citizens will not be backward in coming forward with the necessary petitions seekseeking their establishment.

However, something that may well be occupying the attention of interested citizens is the establishment of a tourist camp ground, where motor visitors can put up over night or for a more prolonged stay with the maximum of comfort and modern camp conveniences. These are now a part of every worth while community and it is not a bit too early to make a start in this direction at Creston.

So far as the tourist whose chief anxiety is to get into a place with thirst quenching facilities goes, we can afford to be generous and pass him on to Sirdar or Kitchener, but people who want to stay awhile and look the place over deserve the best possible attention, one of the chief of which is a conveniently located and well appointed tourist park.

NEWS OF KOOTENAYS

Over 50 babies are enlisted on the cradle roll of Fernie United Chnrch Sunday school.

Bonners Ferry is to have an old-time Free Methodist camp meeting ing from July 21 to 31.

The first report for the year shows the Okanagan apple yield about a million boxes lighter than 1926.

The Free Press hears that construction is to start at once on the long delayed Calgary-Fernie Railway.

According to the Cranbrook Courier East Kootenay farmers will have the biggest hay crop on record.

Car lot vegetable shipments from the Okanagan commenced on July 5th. This is about ten days later than 1926.

At Grand Forks the United Church congregation is observing the Sunday half holiday, having morning service only.

Rossland's tourist park was too small to accommodate all the autoists who spent the fourth of July weekend in that town.

Regular sessions of the county court of East Kootenay are now held at Kimberley. The town has three resident lawyers.

Dr. Basted of Vancouver is now residen physician at Nakusp, succeeding Dr. Emerson who has gone to the coast to practice.

H. Stanley French of Vernon succeeds Angus Hay as provincial agriculturist for East Kootenay with headquarters at Cranbrook.

For June Kaslo had a rainfall of 3 61 inches. In the last fifteen years this moisture supply has been exceeded but once—1923 with a showing of 3.81 inches.

In all British Columbia the Kootenay and Arrow Lakes districts are the poorest at apple growing with an average of 46 boxes per acre on 3944 acres.

Misses Lena Vipond and Olive Abey of Nelson recently made the tirp from Nelson to Nakusp, via Kaslo, on horseback, where they are visiting the former's parents.

The paper mill at Everett, Wash., has just commenced shipping cottonwood from Bonners Ferry for use in making pulp. The first shipment will be about 5000 cords.

Grand Forks has the real community church spirit. During July Rev. P. C. Haymann, former English Church rector in that town, is taking the services in the United Church, whose pastor is on vacation.

Moose are becoming somewhat numerous in the East Kootenay country west of the Kootenay River, and the big game hunters figure these animals are coming back again to stay.

The Ledge assures that Greenwood is catching its share of the tourist traffic. One day last week cars from Quebec and Massachusetts were seen on the main business thoroughfare.

The Okanagan crop of pears will be about 50,000 boxes less than a year ago, and the crabapple crop 55,000 boxes less. The falling off in plums and prunes is placed at close to 100,000 crates.

Grand Forks will have an apple crop 40 per cent. lighter than 1926, but with such excellent moisture fruit of better size and quality is looked for. Raspberries promise a heavier crop than usual.

It is reported the Consolidated will double the capacity of its steam auxiliary power plant at Kimberley giving it 8000 h.p. for use when there is a breakdown in the supply from Elko or Bull River.

For the Okanagan the estimated fruit crop for 1927 is 2,679,507 boxes of apples, 126,350 boxes crabapples, 96,500 boxes of pears, and 231,944 crates of plums and prunes. In every case the figures show a decrease of at least 25 per cent.

Mr. FRUIT GROWER

Don't you think it would be good business to have your APPLE BOXES and APPLE CRATES delivered NOW, so as to avoid the rush later on?

For orders placed before August 1st we will date the invoice August 1st, payment 60 days nett, or 2% discount 10 days from August 1st.

90 thirty foot poles, 7-inch top.
90 thirty-five foot poles, 8-inch top.
20 forty-foot poles, 8-inch top.

Price quoted to include delivery at desired points within the village. Lowest or any tender not necessarily accepted.

W. O. TAYLOR,
Village Clerk.

Creston, July 12, 1927.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Local and Personal

The big steam roller wnich the public works department has had here for some years on hard surface roads, was shipped to Trail last week for use on a stretch of rock road between Rossland and Trail.

Up to the middle of the month 226 auto licenses have been issued at the Creston office of the provincial police. This is a gain of almost 20 over 1926, and will represent an intake of considerable over $3000.

At the July meeting of Creston and District Women's Institute it was decided to cancel the 1927 flower show and to devote special effort to making the floral display at the fall fair bigger and better than ever.

Creston and District Women's Institute wish to convey their very best thanks to the business men of Creston for their effective help in making a success of the Institute boooth n Dominion Day.

A. Stephens of Victotia, supervisior of lookout stations and trail construction for the provincial forestry department, was here on an official visit this week, accompanying Capt. Oatts or a trip up Boundary Creek.

G. J. Bayle, who is now working at Washington, Oregon, was visitor with his family here last week, and on his return was accomapnied by Mrs. Bayle and children, who will spend July and August in that city.

City clerk W. O. Taylor is taking the customary two weeks' vacation commencing to-morrow, and his office at the town hall will be closed until August 1st. He will spend his vacation at at Kaslo and Slocan points.

FOR RENT OR LEASE—Newly renovated cafe and lunch counter, well situated in heart of Creston, opposite hotel, splendid opportunity, open about August 1st. Write or wire me. M. J. Beninger, Creston Hotel, Ceeston.

At the annual school meeting on Saturday night Fred Lewis was re-elected trustee for the three-year term, and Dr. Henderson was again elected auditor. $7500 was voted to carry on the schools for the ensuing year.

Mr. and Mrs. Winkler of Maltby, Montana, were weekend guests of Mr. and Mrs J. F. Rose. Oldtimers will recall Mrs. Winkler, who previous to marriage was Miss Miller, a daughter, of a former-day proprietor of the Creston Hotel.

Considerable work has just been done on the hill at the Archibald (Hooper) ranch which will make the hauling easier for the Canyon and Erickson flats hay makers and others who have occasion to bring loads up that bit of highway.

Rev. S and Mrs. Newby and children left on Monday by auto for a three weeks' vacation, which will be spent in Victoria. In the absence of the rector, Rev. Clyde Harvey of Procter will be available for any Anglican ministrations in this parish.

Creston's share of the 1927 provincial motor licenses is $480 and a cheque for that amount is due from the minister of finance. The amount is a few dollars larger than that received a year ago. The money is marked for expenditure on roads and streets.

The biggest bass yet taken in local waters has just been entered by Melt Beam for the season's prize offered by Vic. Mawson. The big one weighs 4 pounds 9 ounces. In the contest for trout D. A. McDonald of Yahk leads with a rainbow weighing one pound fifteen ounces.

According to the Gazette Rev. Fr. Cocola, a well known early day Roman Catholic priest at Creston, who has lately been at Grand Forks, and is at present on a holiday in France, has resigned his charge at Grand Forks and intends to reside permanently in France in future.

Due to the showery weather the cost of fighting forest fires in this district for May and June was nil. Arthur Hurry went to work as patrolman at West Creston at the first of the month and is busy clearing out the trails in the Corn and Summit Creek sections at present.

According to the July crop estimate Creston Valley has a 25 per cent. decrease as compared with 1926 when there was 20 acres of spuds to 15 acres this year. The tomato planting has slipped from 25 acres in 1926 to 15 this year. In cucumbers and peppers is an acre to each—the same as 1926.

In the latest O.K. Bulletin issued by the Associated Growers a strong case in favor of irrigation is made out in a statment of production in various districts and which shows in the past five years the apple crop at Creston covering 997 acres has averaged 120 boxes per acre while at Penticton the showing is 977 boxes over 1123 acres, and at Kelowna 277 boxes per acre on 3429 acres. At Kootenay and Arrow Lakes points on 3944 acres the crop averaged but46 boxes.

WORLD HAPPENINGS BRIEFLY TOLD

The Duke and Duchess of York received a warm welcome home upon their arrival at Portsmouth, June 27, after their six months visit to Australia.

The Council of the League of Nations decided to invite the United States to the League's third international transit conference at Geneva, Aug. 24.

Three persons were killed when an aeroplane fell 3,000 feet in the outskirts of Winner, S.D. in an effort to restore the hearing and speech of a deaf mute.

Canadian employment conditions at the beginning of June showed a more favorable aspect than in any other month since 1920. Approximately 43,695 more workers were employed on June 1 than on May 1.

Twenty so-called Kirghiz noblemen have been arrested and banished and their property including some 20,000 sheep, confiscated because of the former Czarist affiliations of the so-called noblemen.

Jugo Slavia has an aspirant for trans-Atlantic flight honors. The newspapers say that the aviator, Boulinbachich, is making preparations for a flight from Belgrade to New York in the near future.

The population of Ontario for the calendar year was 3,108,000, the latest vital statistics report issued by the provincial government shows. The urban population is given as 1,478,189, and the rural population is 1,629,811.

Two hundred and seven persons in the United States paid taxes on incomes of $1,000,000 and over for the calender year of 1925, as compared with 75 in 1924 and 206 in 1916, the previous high mark.

Hon. Rodolphe Lemieux, Speaker of the Canadian House of Commons, was unanimously elected by the Paris Academy of Moral and Political Science, as the foreign member of the academy in place of the late Cardinal Mercier of Malines, Belgium.

Dairy men from the four western provinces will gather in Regina for the western Canada dairy convention, to be held Feb. 7-10, 1928. The board of directors of the Saskatchewan Dairy Association decided on this at its meeting held recently.

Both Were Mistaken

Playing over an Irish links, a choleric colonel lost his ball and accused his caddie of having stolen it.

When a moment later it was found the golfer began an apology.

"Arrah, niver mind at all, at all," said the boy. "You thought Oi was a thaife and Oi thought you was a gintlemin, an' begorrah, we both made a mistake."

Justice may be blind, but she has a good memory.

UNIVERSITY OF MANITOBA
WINNIPEG

Offers, among others, the following Courses:

Through the FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A.; and B.Sc., including B.Sc. (Pharm.) and M.Sc.

Through the FACULTY OF ENGINEERING AND ARCHITECTURE courses leading to the degrees of B.Sc. (C.E.), B.Sc. (E.E.), M.Sc., and B.Arch.

Want Increased Annual Grant

Saskatchewan Livestock Board Approach Provincial Government

An increase of $5,000 in the annual grant from the provincial government will be asked by the Saskatchewan Livestock Board, it was decided at a meeting held in the Legislative buildings, Regina, Hon. C. M. Hamilton, provincial minister of agriculture, took the matter into consideration after hearing D. T. Elderkin, manager of the Regina exhibition, and R. W. Johns, manager of the Saskatoon exhibition, speak in support of the application. The board at present receives a grant of $10,000. In explaining the uses to which the extra $5,000 would be put it was stated that $1,000 would be used for the board's expenses and the remaining $4,000 would be divided equally between Regina and Saskatoon winter fairs. The $10,000 grant has in the past been split equally between Regina and Saskatoon winter fairs.

That the winter fairs are essential to the development of the livestock and poultry industry of the province was stated in the resolution sanctioning the request to the government which also added that the progress of the winter fairs is being handicapped by the lack of funds.

Both Mr. Elderkin and Mr. Johns, in their statements indicated that the winter fairs had been run at a loss but added that they had an important part to play in the development of the livestock industry in the province.

It was explained that the $1,000 sought for the expenses of the board included $500 in connection with the proposal to send a livestock judging team, consisting of five boys, to the Royal Fair at Toronto.

The various stock selection committees were appointed in connection with the Royal winter show at Toronto and the International at Chicago.

A Dainty Frock

This charming frock is suitable for many occasions. The skirt is shirred to the bodice having tucks at each shoulder, a becoming round collar and short sleeves. In View A the frock is made of plain material and is effectively trimmed with braid or insertion, while View B is fashioned of figured voile and has the trimming omitted. No. 1560 is in sizes 6, 8, 10 and 12 years. Size 8 requires 2 yards 36-inch material, or 1½ yards 44-inch, and 7 yards trimming for View A. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

Miracles in Crime Detection

Seattle Criminologist Thrills Delegates to Convention of Chief Constables Association

Crime, its deep rooted causes in human nature and social conditions, the mechanism of its detection, its punishment and cure, the handling of the convicted criminal, the development, training and administration of the police officers who have those problems daily before them—all of those problems came within the scope of the deliberations of the Chief Constables Association of Canada during their annual convention.

Luke May, Seattle criminologist, and president of the North West Association of Sheriffs and Police, thrilled the case hardened veterans of police departments from every province of the Dominion with his absorbing account of the miracles of the laboratory in crime detection from clues as a dropped match, a shred of fabric caught on a window-sill, the measurement of the nicks on the blade of a knife, the identification of a strand of hair, a finger prints located on the inner workings of a pistol.

Development of scientific methods of crime detection and co-ordination of all law enforcement agencies through central state and provincial bureaus was his message. It was due to such co-operation as found in Canada that Nelson, the suspected strangler, had been apprehended.

"It was the sorriest day of his life that he chose to commit a crime in this Dominion," declared Mr. May.

Britain Must Guide Egypt

Empire's Highways Depend on Suez Canal Says Hurst

"Since Egypt must be guided in government by a foreign nation, we must be that foreign nation," declared Sir Cecil Hurst, legal advisor to the British ministry of foreign affairs in an address before the English-speaking union and the Chicago council of foreign affairs at Chicago.

"Because the Suez Canal is the approach to our Australian Dominions and the Far East" Sir Cecil added, "through Egypt go the highways, arteries and living veins of British life and we must control them."

Fish prefer dark or shady sections of water because the ultra-viloet rays of the sun are harmful to them. All other creatures, however, are benefitted by the rays.

SUNDAY SCHOOL LESSON

JULY 10

SAMUEL'S FAREWELL

Golden Text: Thy loving kindness is before mine eyes; And I have walked in Thy truth.—Psalm 26.3.

Lesson: 1 Samuel 12.

Devotional Reading: Psalm 26.1-8.

Explanations and Comments

1. "I Have Fought a Good Fight," verses 1-5.—In a solemn address in which he resigned his office as judge, though retaining that of prophet, Samuel stood before his people and announced that he had done their bidding in giving them a king. "And now, behold, the king walketh before you; and I am old and grayheaded; and, behold, my sons are with you." Various explanations may be given for this remark about his sons; by mentioning his age and his sons he referred to the reasons given by the people for demanding a king (1 Sam. 8.5); the sons were mature men and they proved that their father was of advanced age; he was about to abdicate his position as judge, and he bespoke their kind treatment for his sons who had been his assistants. "And I have walked before you from my youth unto this day." See 1 Sam. 2.18, when his service first began. Buddee suggests that his thought here was: The king you will find out later, but me you have known well for a long time.

Then Samuel put himself on trial and asked them to witness before Jehovah and Saul, his anointed, as judges, as to whom he had defrauded or oppressed, or of whom he had taken a bribe. "Whose ox or whose ass have I taken?" is his question. These were the most valued possessions of the people, who were farmers and shepherds. "Of whose hand have I taken a ransom to blind mine eyes therewith?" The ransom was the money offered him as judge to induce him to acquit a murderer.

Compare Paul's assertions of blamelessness in his farewell address to the Ephesian elders at Miletus, Acts 20.17-27. The people emphatically testified that Samuel's record was stainless, and he reminded them that God was their witness.

"Who shall ascend into the hill of Jehovah?
And who shall stand in His holy place?
He that hath clean hands, and a pure heart;
Who hath not lifted up his soul unto falsehood,
And hath not sworn deceitfully."

Is Still a Problem

Getting Prince of Wales Married Seems Hopeless Task

After one of the most active years in his life in which Edward Albert Christian George Andrew Patrick David Windsor, Prince of Wales and heir to the British throne, has been "engaged" or "married" more than any year since he was born, he still remains single.

Ever since 1911, when the Prince was 17, trying to marry him off has been a favorite sport. It was at that time that his marriage to Princess Victoria Louise of Prussia was mooted. The fact that the Kaiser and Kaiserin were then visiting Buckingham Palace probably gave rise to the report. Next, Grand Duchess Olga, daughter of the Czar of Russia, became the candidate—probably based on the fact that the Prince and the Grand Duchess played together as children.

The prince now often laughs at his former "tea-cup betrothals" as much as he does at all of the latest ones that are heaped upon him.

The feeling is growing in England that the Prince will ultimately turn to the strong solid stock of his own country for a wife. This type of marriage by the Prince would be the most popular he could make, for the people of England look upon him as an excellent type of young Englishman and they would like their future queen to be just as typically English.

Gift for Lady Willingdon

Winnipeg General Hospital Presenting Model of Spanish Ship

Directors of the Winnipeg General Hospital and members of the Provincial Government are making a presentation to Viscountess Willingdon of a silhouette model of a 15th century Spanish caravel. The work on the model has been done by the occupational department of the Winnipeg Psychopathic Hospital, under the supervision of Miss J. M. Stewart. Viscountess Willingdon, on the occasion of her recent visit to the city, remarked on the efficient workmanship on the model, which is a replica of a famous ship "El Rayo De Sol." As a token of regard and as a memento of her first visit to the city the government and hospital board decided to make the presentation.

"Swat the fly" with GILLETT'S LYE

A teaspoonful of Gillett's Lye sprinkled in the Garbage Can prevents flies breeding

Use Gillett's Lye for all Cleaning and Disinfecting

Costs little but always effective

Will Revolutionize Telegraph System

Exact Facsimile of Messages Possible by New Wireless Discovery

Recent experiments by G. M. Wright, research worker of the Marconi Company, have brought appreciably nearer the day when messages will be sent by wireless and cable in exact facsimile of the whole message instead of dots and dashes, letter by letter, at at present.

The process is an adaptation of that by which wireless photographs are being transmitted, and by this method it will be possible for whole pages of newspapers to be filed at one end of the line and received in the form of facsimile photographs at the other end.

Under Mr. Wright's experiments, messages of this kind have already been sent a few miles in facsimile.

The expense of operating under this system has naturally not yet been worked out but if the cost permits, the day is not far away when, for instance, a newspaper in Montreal can photograph its whole edition page by page and telegraph it to Vancouver for reproduction there.

London newspapers could produce Canadian editions by simply wireless-ing or cabling photographs of the completed pages to a printer in Canada who by photo engraving processes could speedily reproduce the pages there.

Under this system an aeroplane observer in wartime would be able to transmit from his plane to army headquarters instantaneous pictures of enemy country and enemy activities It is obvious that the new system will revolutionize telegraphy.

The Corliss engine at the Philadelphia Centennial in 1876 was the largest built up to that time. It was rated at 1,400 horsepower, but now single steam turbo-generator sets develop 60,000 horsepower.

SPECTACLES
On 30 Days' Trial

Non-Breakable Clear Vision

Will give you a younger and yet more distinguished appearance.

Built for Strength, Comfort, Beauty. Light as a feather, with smooth, hand-polished nose bridge and gracefully curved temple bows that cannot cut the most tender nose or ears. A work of beauty and a delight for the wearer.

PAINTED FIRES

BY NELLIE L. McCLUNG.

COPYRIGHT, CANADA, 1925

CHAPTER III.—Continued

From this distance Helmi could think of her work in the hotel with greater composure. She knew she was awkward sometimes, and maybe stupid, though she always tried hard to please. Anyway, it was good to have a job, even if she had to pick roots off potatoes in a mouldy, dark cellar, and gather up the rotten ones to burn in the furnace.

Helmi had the large, restless hands which generations of hard-working women acquire, eager, capable, hands ready for anything that has to be done. Even the cook, Maggie Kenny, who wasted few words of praise on her assistants, admitted grudgingly that the Finn girl "has good smart hands and makes every move tell;—if she could use her head as well, she'd do."

Helmi from the little hill on which she sat looked back at the smoky city, lying like a great giant under its greasy, gray blanket of smoke. It reminded her uncomfortably of the blankets she had to spread every morning on the beds in the rear room of the hotel. In the front of the house she knew there were pleasant rooms, with white spreads and flowered wash-basins, but at the back a great yard of a room had what seemed like a hundred beds, spread with sweaty blankets, and it was this room she had to sweep and tidy every day. Some days she found men still in bed when she went in, but having set out to tidy the room, Helmi held to her course, taking no notice of the storm of abuse which came from the late sleepers.

Helmi's dreams that Sunday afternoon as she sat on the bank were for the most part pleasant. Consciousness of youth and bounding health made her hopeful of the future. She could work and she could learn, and she too would one day go back to Finland with a velvet bag, a long white plume, and silk linings and fringe on her gloves; and all the young people would gather round her while she would tell of how she started, right at the bottom, washing ugly heavy dishes in a hotel.

Helmi always held the dream, too, that she might some day meet a prospector, maybe a young man from Finland who had found gold. Men can do such wonderful things. Women have to work hard, but pretty girls have a good chance. Lots of Finn boys had come away to Canada, and maybe she would meet some of them. She thought of the Prince who was in love with a poor girl and swore he would marry her and whose proud uncle sent him a lovely coat that had a great ugly patch of coarse cloth on it, meaning that if he married the poor girl she would be like the coarse patch. That was a dirty thing for the bad old uncle to do. But what did the Prince do? He got the patch all embroidered with pearls and lovely jewels and sent it back signifying that his lovely poor girl would be the grandest thing about the place. Helmi guessed that held the uncle a while, maybe.

Helmi was so deep in her dreams she was unconscious of the approach of two young men. They were close upon her when she looked up. She did not like their appearance, but she felt no fear. There was strength in her right arm which brought assurance.

Helmi smiled and nodded to them as she would have if they had been two of the neighbors' boys at home.

They said something to her in English.

"Yes," she said, because it was the only word she could think of—and then added—"No talk—Finn."

The boys laughed at that and looked at each other meaningly.

Helmi's young heart was athirst for adventure. If the young men had been dressed more elegantly she might have thought they were the successful gold-diggers of her dreams. Bdt with a calculating eye she appraised them correctly. She motioned them to go on, which they interpreted to mean that she desired to go back to the city with them. When she began to walk away the boldest of the two followed her.

Helmi quickened her pace. The young fellow caught up to her and took her arm. She shook him off and began to run. The running thing always invites pursuit, and, just as she expected, they followed. Helmi purposely let her pursuers gain on her, then, stopping and bracing herself, she gave the first one a powerful body blow which sent him rolling down the bank towards the stream below. While the other one stopped to see what injury had been done to his friend, Helmi raced on. She was neither frightened nor angry.—it was all good fun to her,—but she knew enough to put as great a distance as she could between her and them for she suspected that the young man who had gone rolling down the muddy bank, might not be pleased with her.

A woman, driving a gray horse in a buckboard, saw her coming and waited for her, deeply concerned to see the flying Helmi, who had evidently been set upon by two ruffians. Helmi sensed her concern, and climbed into the seat beside her without delay. Again came the difficulty of language.- "Yale Hotel," said Helmi in answer to the unintelligible inquiries, giving the name the accent and pronunciation by the Swedish telephone girl ot the hotel.

"Yell hotel?" Why should I? Why should anyone?"

All of which was lost on Helmi, who merely repeated the name of her present domicile.

Miss Abbie was distressed and greatly excited over the real adven- which had broken in upon her Sunday afternoon meditations. She had been making her weekly visit to the Girls' Friendly Home, where delinquent girls of the city lodged. The labors of the day were over. Miss Abbie had told the girls a beautiful story of a patient princess, held prisoner in a castle, who at last was set free by the ingenuity of her lover; and now as she drove home she was deep in a dream of golden romance.

Miss Abbie was a maiden lady of forty-eight years, thin, neat and proper, her only extravagance consisting in the number of ornaments she would hang around her neck. On the day that Helmi had bounded into her neat buggy Miss Abbie wore her Miller-gray suit of serge, with the chaste neck-piece of black fur crowned with a small hat of dovetyn and quills. All of this of course was most unobtrusive and ladylike; but hanging around her thin neck was a string of jet beads (her mother's), a gold chain (her father's), and a riot of miscellaneius articles suspended from the chain. There were keys and a kettle, a pencil which had never had lead in it, a little pig made of bog oak, with a silver ring in its back and a pierced silver urn.

In the little seven-roomed house where she lived the strictest order and precision prevailed everywhere save on the piano, where the same promiscuous spirit asserted itself. There, photos and vases, fans and shells, books and pictures, old stones, painted bottles, Easter eggs, a Buddhist idol, basket and candlesticks crowded and jostled each other for standing room.

Miss Abbie's life showed the samo unevenness. Years of careful puritanic living would suddenly give way to unexpected outbursts of wild extravagance. After living in one room in the house of a friend she horrified her select circle by building a house of her own. With equal suddenness she left the class of immaculate maidens in the First Presbyterian Church to whom she expounded from Sunday to Sunday the International Sunday School lessons and began her weekly visits to the Girls' Friendly Home.

Certain members of the Ladies' Aid Society said Miss Abbie was very deep, and that these strange outcroppings were but indications of her real nature. The minister's sister, who was something of a psycho-analyst, mentioned icebergs in this connection, with their small percentage of visibility as compared with their hidden volume.

Driving along the dusty summer road this Sunday afternoon, with the houses thickening on each side as they approached the city, Miss Abbie, roused from her dream, carefully studied her new companion. She suddenly felt that she was about to experience another outcropping. An extravagant wish swelled her heart; a daring, unheard of ambition convulsed her soul . . . . She would do it. No matter what any one said. Let the minister's sister rave. She would show them. She would adopt the girl if she could get her.

(To Be Continued.)

DRAGGING-DOWN PAINS RELIEVED

Woman Suffered Nearly a Year. Lydia E. Pinkham's Vegetable Compound Brought Her Health

Moose Jaw, Sask.—"I am going to try to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very badly with dragging-down pains and inflammation, also pains in my right side over my hip and down my whole side into my leg. I had it nearly a year when I went to a doctor and he said I would have to have an operation. But my mother said to take Lydia E. Pinkham's Vegetable Compound as it saved her life years before. I took two bottles and I found I was better, so I kept on taking it and also used Lydia E. Pinkham's Sanative Wash. I have had two more children since then and am perfectly well. I used to have to lie down two or three times a day, and now I do all my housework without trouble. I always keep the Vegetable Compound in the house as I find a dose now and then helps me. I am willing for you to use this letter any way you see fit and I will answer letters. If I can help any other woman I'd be only too glad to try."—Mrs. ESTHER HOUGHTON, 414 Morse Square, Moose Jaw, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all women.

For sale by druggists everywhere. G

An Enviable Position

Practically no Tuberculosis Among Dairy Cattle in Fraser Valley

Dr. W. H. McKenzie, superintendent of the Dominion health of animals branch, in British Columbia, is of opinion that tuberculosis among dairy cattle in the Fraser Valley, B.C., will be practically eradicated within a year. Last year almost 8 per cent. were infected on test; this year's inspection showed a reduction of infection to 1.11 per cent. Next year he expects the reactors will be lower than one-half of one per cent. in this area. That is the rate officially regarded as T.B. free. Testing of herds from Hope to North Bend has been done, and of the 42,500 tested this year only 430 were condemned. Last year 4,338 out of 46,989 reacted. This year he says, farmers in the Fraser Valley, realizing the value of healthy herds welcomed the veterinarians who conducted the test.

For Rheumatic Pains. — The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Eclectric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Had Several Reasons

A minister who had not been long appointed to a church in the South of Scotland asked one lady how she liked his preaching.

"I didna like it at a'," she answered.

"And, pray, why not," he asked.

"Weel, in the first place," she answered, "ye read yer sermon; an', in the second place, ye didna read it weel; an', in the third place, it wasn't worth the readin'."

ACHING JOINTS.

Apply Minard's a few times and note the quick relief.

MINARD'S "KING OF PAIN" LINIMENT

The Emden in the Pictures

German War Film Being Shown in London

Evidence that feeling engendered by the War is dying down is forthcoming from the fact that a German film illustrating the exploits of the Emden is being shown in London by an English firm who are best known as the distributors of the British war films "Ypres" and "Mons." Some people consider that they have taken a bold step in booking his wholly German war picture, but the film is so good and so impartial that there is no reason why British audiences should not welcome it on its merits.

The story begins with the Emden's departure from Tsingtau at the outbreak of war, and winds up with a remarkably vivid portrayal of her final battle with H.M.S. Sydney, on Cocos Island. It is as restrained and as fair as any of the British war films, and has a stronger narrative force than any except that of Zeebrugge. without any unnecessary exaggeration of the glory or of the horrors of actual fighting, the War is shown from the angle of the crew of the German raider, and particularly from that of one young officer, a reservist in business at Tsingtau, who meets his own wife as a passenger on one of the captured British steamers, is put in command of the captured British crews, and eventually dies during the bombardment by the Sydney.

Enough glimpses of her various exploits are shown to give one a pretty good idea of her touch-and-go career, and the co-operation of the German admiralty has ensured an authentic naval atmosphere. One episode is omitted. That is the interval during the Cocos Battle when the Sydney, seeing the Emden hopelessly stranded, went off to capture her coal tender, the Buresk. before returning to enforce on Captain Von Muller an honorable surrender. The British are treated quite fairly; there is no "hate" anywher in the picture.—London Correspondence in Free Press.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones — whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour R. R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

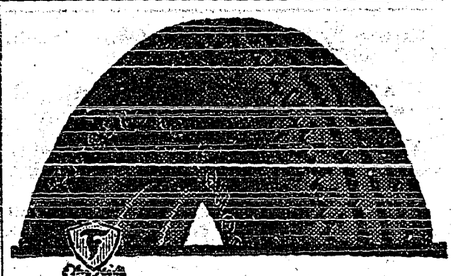
Conan Doyle's Early Struggles

First Twelve Years of Literary Career Were Hard

Sir Arthur Conan Doyle, who was 68 years old recently, is fond of recalling his own early struggles for the encouragement of budding story-tellers. Though he had a short story published in "Chamber's Journal" — first encourager of so many famous writers—when only 19, he wrote for three years after that without an acceptance, and his early books brought but a small financial return. During the first twelve years of his literary career, indeed, he never made more than £58 per annum by his pen, and the first of the famous Sherlock Holmes series he sold outright, after numerous publishers had rejected it, for £25.

Girls Won In Competition

The one and only man in the butter-making class at the Bath and West Agricultural Show took his hand at the churn when he competed against over a dozen shingled and silk-stockinged dairymaids—and lost. The man was E. J. K. Elliott, from the Somerset Farm Institute, Bridgwater, and the class was for students who had been through a course of instruction in buttermaking at a county school.



Enjoy a Real Tour on Gum-Dipped Tires

When you tour on Gum-Dipped Tires all roads seem equally good. There is nothing to compare with the smooth, sure performances of these big, low-pressure tires. Jolts and vibrations disappear. Stretches of rough going cannot disturb you or harm the mechanism and well-built structure of your car.

If it is slippery and muddy underfoot, Gum-Dipped Tires, having double the road contact, cling to the road and hold the car unwaveringly to a true, straight course. On grades there is extra traction; at sharp curves or in quick stops you will have perfect control of wheel and brake. Skidding is almost impossible.

Through the development of the exclusive Gum-Dipping process, Firestone has tremendously increased tire mileage in balloon tires. This insulates and impregnates every fibre of every cord with rubber, reduces internal heat and friction and delivers thousands of extra miles with added comfort and safety.

Ask any Firestone Dealer to show you the structure of Balloon Gum-Dipped Tires and to tell you their advantages. He is an authority on this type of tire and is in a position to serve you better and save you money. See him to-day.

Little Helps For This Week

Behold, we count them happy which endure.—James v. 11.

Well, to suffer is divine;
Pass the watchword down the line,
Pass the countersign, "Endure!"
Not to him who rashly dares,
But to him who nobly bears,
Is the victor's garland sure.
—John Greenleaf Whittier.

If for some of us, and sometimes for all of us, action cannot mean doing, then remember bearing too is action,—oftenest its hardest part.
—William Channing Gannett.

Endure and dare, true heart; through patience, joined with boldness, come we at a crown encircled with a thousand blessings.
—Spanish Proverb.

Minard's Liniment for earache.

Experimenting on Dental Serum

That dentists soon may be injecting serums to prevent tooth decay is the prediction of a specialist in Chicago Dr. C. N. Johnson, who is experimenting on such a preparation. Tooth decay, he says, is the most common ailment known.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Pity may be akin to love, but a girl isn't willing to accept it as a substitute.

PIMPLES ON FACE ITCHED BADLY

Skin Became Scaly, Arms Later Affected, Cuticura Heals.

"I suffered from pimples that broke out all over my face. They were large and red, and itched so badly that I scratched them until they would bleed. My skin became scaly and started to peel off, especially around my mouth. Later my arms became affected with pimples.

"I began using Cuticura Soap and Ointment and they helped me. I continued the treatment and in about two weeks I was healed." (Signed) E. M. Bradley, 185 Queen St., Charlottetown, P. E. I., Aug. 11, 1926.

Use Cuticura Soap, Ointment and Talcum to promote and maintain skin purity, skin comfort and skin health; the Soap to cleanse and purify, Ointment to soothe and heal, and Talcum to powder and refresh.

Sample Each Free by Mail. Address: Canadian Depot: "Cuticura, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Chiropractic Fundamentals

That "Innate Intelligence" builds the body and governs it through the brain and nerve system by means of mental impulses.

That a misaligned vertebrae pinches the nerve and stops the flow of mental impulse to the organ or part of the body supplied by that nerve.

That the stoppage of the flow of mental impulse over the nerve by the pressure of a misaligned vertebrae is the cause of disease.

That by adjusting the misaligned vertebrae Chiropractors remove the cause of disease.

The spine is composed of movable segments (vertebrae) between which the spinal nerves leave the spine, and these segments can and do become slightly misaligned, thereby pinching the nerve, one of which functions it is to carry the coordinating impulses from the animating principle (innate intelligence) to every tissue and cell in the body. When a nerve leading to any tissue in the body becomes impaired the tissue supplied by that nerve does not receive the proper mental impulse, and, as a result, it does not work in harmony with the rest of the organism. It is then what we call diseased, which means without ease.

When relation of the spine to disease became clear, puzzling questions were answered, a philosophy reconciling facts of religion and anatomy was produced.

BIRTH—On July 9th, to Mr. and Mrs. Ed. Gardener, a daughter.

Camp-Fire Permits

This year it is necessary to have a Permit from some Forest Officer before any camp-fire may be set out in any forest or woodland.

Be sure to get a Permit for your camp-fire and follow the instructions printed on the back of it.

YOU CAN HELP

Printed Letter Stationery

A pad of *plain* writing paper that you get from the store costs you 25 cents, and there are probably 50 sheets in the tablet. This works out at $2.50 for 500 sheets—and is good value.

But every so often you have a letter to write with which you want to create a favorable business impression, and you instantly wish you had some printed letter paper.

Besides being just what's wanted for these all-important letters, Printed Letter Paper is always correct, except for rather rare social occasions—for which the wife will always have enough of the plain sort available.

Just to tempt you to use the printed kind we offer 500 sheets, put up fifty or one hundred sheets to each pad, at $4 —just 15 cents a pad more than the plain sort costs.

Printed Envelopes to match at equally attractive prices.

Our prices on all the standard lines of Printing are just as handy as your telephone.
