THE CRESTON REVIEW

VOL. XXIV CRESTON, B. C. FRIDAY, FEBRUARY 9, 1934 No. 46

Hoop Honors Shared Evenly

Local Girls Trim Cranbrook 20-10; Kimberley, 22-16—Boys Handed 26-14 Setback, Cranbrook and 38-8, Kimberley.

Creston ladies avenged themselves on Cranbrook by defeating them 20-10 on the local floor. Creston men took a bad beating from the railroaders when they ended up on the shortend of a 26-14 score.

The Creston ladies played a nice game and were easily the better team. The forwards were a little selfish on the shooting, taking too many long chances at the basket, but on the whole combination was good. Mary Abbott played a nice intercepting game. The teams:

Cranbrook Ladies—Haley 3, MacDonald 4, Gould, Spence 1, Dixon 2, Williams. Total 10.

Creston Ladies—Nell Payne 10, Martello 4, Nora Payne 4, Levirs 2, Abbott, Olivier: Total 20.

Without Martello, the local men made a very poor showing. The game was sloppy, featured by long passes and fumbling. Cranbrook took a healthy lead early in the game, but this was cut to a mere 8 points before the intermission. Rogers on the guard line and Farris and Doug. Corrie on the forward line showed up nicely. For some unknown reason the former two left the game at half-time and Corrie dropped back to guard. The new combination didn't click, with the result that Cranbrook forged ahead once more. The teams:

Cranbrook Men—Parker 6, Muirhead, Bakkin 15, Dixon, Brookes 4, O.Haley 3, E. Haley, Provenzano 1: Total 26.

Creston Men—H. Corrie 4, Rogers, Holmes 3, Couling 2, Ross, Webster, D. Corrie 4, Farris, Crawford 1: Total 14.

Creston high school basketball teams broke even on the return game with Kimberley High School at Kimberley on Saturday night. The boys were outclassed 38 8, but the girls came through with a 22-16 win.

The first round of the Crest n Basketball League play-o s is over. In the men's division the Imperial Grocetiria defeated the Centipedes for the right to play the Cardinals in the finals. The Centipedes will meet the High School in a consolation series. In the ladies' division the High School knocked out the Pharmacy in two straight games, while the Creston Motors won from the Colleens in the consolation series. The High School will now play the Creston Review and the Pharmacy the Motors

The Centipedes, who held second place in the league standing won their first game by the narrow margin of one point, 13-12, but lost their second 31-14.

High Reps. took both games from the Druggists, 9-3 in the first and 10 5 in the second.

The Creston Motors defeated the Col eens 11-5 and 15-4.

Next Tuesday sees the High boys meet the Centipedes at 8.30 and the Pharmacy tackle the Motors at 7.30.

Wynndel

G. McInnis was a business visitor at Nelson last week.

Wynndel W.I. have taken the date March 16th for a dance.

Notices are up calling for tenders for the supply of wood for school.

J. Vankoughnet of Boswell was renewing acquaintances here last week.

Joe Martell has been laid up with an injured foot, having stepped on a spike.

A. Joy lost a yearling heifer, last Saturday night—run over by the eastbound train.

Rev. M. Percival will be here at 2.30 p.m., Sunday, for Church of England service.

Miss M. Harrop, principal of Wynndel school, was a weekend visitor with her parents at Harrop.

Due the bad shape of the roads, the K.K Klub dance announced for Wednesday, February 14th, is cancelled

G. Hulme was confined to the house for a few day due a sprained ankle sustained while skating.

The February meeting of the Ladies' Aid was held at the home of Mrs. Paul Hagen on Thursday last.

Miss Ida Glasier, who had been visiting in Nelson, returning home last week, accompanied by Bill Bollick of Blake.

The February meeting of the Woman's Auxiliary will be at the home of Mrs. C. Gregory, Wednesday, 14th, at 2.30 p.m.

Jack and Agnes Crane were Kimberley visitors on Saturday, the latter playing on Creston high school team in the basketball game in that town that evening.

Mrs. Pattalla is a patient at Creston hospital, where she underwent an operation for appendicitis, and is recovering slowly.

John Johnson is one of the latest to install an electric cabinet radio. A. E. Towson has also installed a similar model.

Ken Packmann is out and about again, having been confined to the house for a few days with a bruised head, which he sustained by a fall on the ice.

Wyn del had two church services on Sunday, Rev. A. Walker taking United Church worship in the morning, and Rev. C. Baase, Lutheran at 3 p.m.

Residents of Wynndel had the dinner hour disturbed on Thursday last when earth tremors caused many to rush out doors to see what had happened. Three distinct tremors were felt at 12.55.

Members of the K.K. Klub witnessed a closely contested basketball game on Wednesday evening last, when Creston high school met Wynndel reps. Creston won by a margin 33 27. Two baskets were scored for Wynndel by Irving Ferguson who dropped the two of them in his opponents basket in error. Wynndel players continue to show improvement and with more practice will make things lively for any opponent. Wynndel was weakened by the absence of J. Martell, a lively forward, who could not play due to an injured foot. The teams: Creston H.S.—Downes 12, Maddess 13, Goplin, Telford, York, Jack Payne 6, Ferguson 2. Wynndel—O. Payette 2, A. Hagen 2, Markin 16, Slingsby 4, Taylor 1, L. Martell, C. Payette.

Canyon City

E. Langston is here from Coalhurst, Alberta, on a visit with his father-in-law, A. Halstead.

A. Barndardt of Glenlily was here at the weekend on a short visit with Mr. and Mrs. F. Knott.

Rev. H. Hulgen, Swedish pastor of Nelson, was here for the usual monthly service on Monday evening.

Wedding bells can be faintly heard in the Canyon area Early in March there will be something definite to report.

W. Ridd has just heard from his son, Will, who has secured a position in a garage at Edmonton, Alberta, and will not be coming home as was expected.

Canyon growers were out almost 100 per cent. for the growers meeting at Creston on Friday, and have pretty well all signed up for the new marketing policy.

Mr. and Mrs. Sid Parker and her father, Mr. Sheppard, have vacated the Martin Nelson house and are now occupying the West Kootenay Power Company residence at the power house site.

Berggren and Johnson have been forced to discontinue logging operations as the roads are in too poor shape to haul out the logs to the Rodgers mill at Creston.

Workers are busy putting in the electric light equipment at the community hall and the new lighting will be available for the presentation of "Yimmy Yonson's Yob."

In common with other valley points Canyon felt the "quake" Thursday noon last. Locally the belief is that it was a meteor—the noise coming before the shock was felt.

Mrs. E. Nouguier was a last week visitor in Seattle and Wenatchee, Wash., with relatives and her daughters, Misses Helen and Mary Nouguier, R.N., who have left for St. Louis, Mo., to take a post graduate course.

Erickson School Report

The January report of Erickson school shows the following taking the high standings in Division 1: Grade 8—Hazel Beam, Gwen Putnam, Jack Fraser. Grade 7—Margaret Bundy, Marion Healey, Yvonne Putnam. Grade 6—Aileen MacDonald, Joan Heric, Jim Carr. Grade 5—Mildred Fraser, Zane Beam.

Perfect attendance—Hazel Beam, Margaret Bundy, Jim Carr, Roy Cartwright, Elvaline Clark, Bertha Fraser, Jack Fraser, Mildred Fraser, Marion Healey, Joan Heric, Lawrence Leadbetter, Aileen MacDonald, Gwen Putnam, Kenneth Tompkins.

In Division 2 the high standings have been awarded: Grade 4a—Norma Bundy, Martha Neumann. Grade 3b—Elizabeth Gatski, Lois Bundy. Grade 3a—Jessie Beam, Tony Holder. Grade 2—Joan Langston, Mabel Chernoff. Grade 1—Evelyn Andrews, Eddie Gatski.

Perfect attendance—Norma Bundy, Martha Neumann, Grace Neumann, Anita Heric, Rose Leadbetter, Elizabeth Gatski, Eddie Gatski, Jessie Beam, Harold Beam, Freddy Speaker, Evelyn Andrews, Leslie Timmons.

Alice Siding

Miss Elsie Willis is a visitor with Canyon friends at present.

George Martin of Elk Point, Alberta, has arrived on a visit with Mr. and Mrs. Ira Willis.

Kenneth Hester, who has been on the sick list for some time past, is now making a nice recovery.

Pruning operations are in full swing now, and the more experienced report the outlook good for a real crop in 1934 with most tree fruits.

The weaving is so bad on the school hill that Taylor Bros. truck got stuck coming down grade Tuesday night and a tractor had to be brought out from Creston to pull it out.

Messrs. R. Walde, Tom Marshall and E. Ostrensky provided the music for the dancing which was the feature of the Social Club meeting at the home John Parkin, sr., on Friday night last. Mrs. Schmidt will entertain the club at tonight's meeting.

The January report of Alice Siding school shows that 26 out of 28 had perfect attendance last month. Those making the high standings were: Grade 8—Gordon Smith, Hazel Miller. Grade 7—Lizzie McNeil, Meta McNeil. Grade 6—Joan Smith, Violet Parkin. Grade 5—Marion Smith, Evelyn Mather. Grade 3—Bill Constable, Dick Smith. Grade 2—Frank Simister. Grade 1a—Joe Smith, Mabel Mather. Grade 1b—Phillip Smith, Mather Marshall.

Perfect attendance—Gordon Smith, Hazel Miller, Lizzie McNeil, Meta McNeil, Joan Smith, Violet Parkin, Marion Smith, Evelyn Mather, Bill Constable, Dick Smith, Frank Simister, Joe Smith Mabel Mather, Phillip Smith, Martha Marshall, Elsie Mather, Carl McDougal, Alfred Parkin, Edna Willis, John Smith, Ada Smith, Sadie McNeil, Robert McDougal, Margaret Simister, John Marshall Robert Willis.

Sirdar

Bob. Maxwell of Creston was a visitor on Sunday.

George Everall and Harold Swan were visitors at Creston on Saturday evening.

Among visitors to Creston during the week were F. Hamilton and Clifford Neil.

A. L. Palmer, road superintendent Creston, was a business visitor on Monday.

Father Choinel said Mass at the home of Mr. and Mrs. S. Pascuzzo on Saturday, February 2.

A Lombardo and J. Geno of Sirdar are at present helping J. Mannarino with the hauling of his hay from the flats.

Owing to the heavy thaw, the roads here are in very bad shape, but are being dealt with as effectively as is possible.

Miss Josephine Pascuzzo of Cranbrook is at present here on a short holiday, and is the house guest of Miss Rose Pascuzzo

W. A. Millen and assistant, of the B.C. Telephone Company, were visitors at Rodgers camp at Boulder creek during the week, installing the telephone.

The water at slough bridge stands at 2.20, a drop of .52 for the week. The flow off is very slow, and while it is early yet to prophesy, except the flow increases, this would indicate high water.

St. VALENTINE

TEA AND SALE of COOKING

Under the auspices of Erickson Christ Church Ladies' Guild at

Mrs. F. Putnam's Erickson

on

TUES., Feb. 13

2.30 to 5.30 p.m.

FREE AUTO TRIPS

from town and return, all afternoon, from Postoffice.

EVERYBODY WELCOME!

Joe Koliman, employed with the C.P.R., whose duties are patrolman along the C.P.R. track from Kootenay Landing to Tye, was unfortunate enough to be caught in a small slide while on patrol, suffering a severely injured knee.

The exceptionally mild weather of the past few days has brought the ants and yellow jackets out and the vegetation is noticeably becoming active. Game is more plentiful at this time of year than in the past, thanks to the presence of a game warden.

A small slide took place between the first tunnel and Kootenay Landing, but was successfully cleared within a few hours without disruption to tramc. Every precaution is being taken to guard against spring slides and should any arise they will be dealt with quickly

The earth tremor which shook the vicinity on Thursday, need give no cause for alarm, as it was simply nature's safety valve acting on a small scale. The sound which accompanied it was an effect and not associated with the tremor, and was, no doubt, caused by a huge slide of ice or of rocks in the mountains, the atmosphere at the time being such a nature as to afford high conductivity of sound making the sound and tremor apparently similtaneous. There can be no doubt that the tremor had its incentive at a very great distance.

Kitchener

Mrs. B. Johnson, who has been on a visit with her sister in Spokane, arrived home on Thursday.

Mrs. Wm. Slean and son, Billy, of Corbin, arrived on Thursday on a visit with her parents, Mr. and Mrs. N. P. Molander.

Richard Molander, who was at Pincher Creek, Alberta, for the Molander-Simpson wedding, arrived home on Wednesday last.

Mrs. Claude Simpson (nee Beatrice Molander) of Pincher Creek, Alberta, is here on a short visit with her parents, Mr. and Mrs. N. P. Molander.

Mr. and Mrs. Richard Broad who for the past month have been guests of Mr. and Mrs. B. Johnson, left on Monday by bus for their home at Beaverdell.

At a well attended meeting on Tuesday last, which was in charge of Miss Jessie White, it was decided to organize the Kitchener Woman's Hospital Auxiliary, with Miss White named president, and Miss Hazel McGonegal, secretary. It is planned to hold at least one bridge and dance each month to raise money to assist Creston hospital.

Eleven members of the Presbyterian Church choir, Creston, were here Sunday afternoon and participated in a sacred concert at the schoolhouse which whs well attended by townpeople as well as men from the airport. The full choir participated in all the numbers and their offerings were all very much enjoyed, with the hope expressed that they will make other appearances In the party were Misses Lily Barner and Kathleen Bundy, Mr. and Mrs. G. H. Kelly, Rev. and Mrs. Thomson, Mrs. Bundy, and Messrs. Bundy, Lynne, H. H. Taylor, and D. Ross.

AT THE HOSPITAL

Mrs. L. T. Leveque of Erickson is a patient at the hospital.

Kirk Beard of Lister, who met with an accident on Sunday, is in the hospital.

Mrs. J. G. Wearmouth of Canyon is a patient.

Miss Lily Lewis is improving.

Mrs. P. Henstridge and baby are both doing well.

Mrs. J. Patalla of Wynndal continues to improve.

Mrs. J. W. Robinson was able to leave for home on Thursday last.

Jack Daley, who underwent an operation last week, is improved.

Lister School Report

Division 1 of Lister school had another record for regularity in attendance for January, the report showing 99.4 of the enrollment in attendance every day, with the high standings going to: Grade 8—Douglas Sinclair, Kirk Beard. Grade 7—Cyril Bird, Vernon Donaldson. Grade 6—Margaret Dent, Alice Wellspring. Grade 5 Milly Beard, Margaret Sinclair.

Perfect attendance—Kirk Beard, Kitty Beard, Milly Beard, Cyril Bird, Margaret Dent, Martha Domke, Jean Donaldson, Lorna Donaldson, Vernon Donaldson, Jean Flynn, Raymond McKee, Erika Meyer, Erwin Rylan, Douglas Sinclair, Margaret Sinclair, Alice Wellspring, Frank Yerbury.

In Division 2 the per centage of perfect attendance was 95, with the following making the highest standings: Grade 4—Mary Daus, Helen Gustafson. Grade 3—Stella Beard, Mary Millner. Grade 2—Dorothy Millner, Arthur Sommerfeld. Grade 1a—Irene McKee. Grade 1b—Harry Krebs.

Perfect attendance—Stella Beard, Harold Daus, Daniel Domke, Mary Domke, Theodore Domke, Oscar Herman, Irene McKee, Gerhard Meyer, Dorothy Millner, Mary Millnee, Dorothy Rylan, Deslie Rylan, Arthur Sommerfeld, Hugo Sommerfeld, Harry Krebs, Bernice Dent, Freda Donaldson.

Shuttle Talent Evenly Matched

Local Club's February Tournament Shows Margin of Three Games in Thirty-Three Played —Points Spread is 29.

At the February tournament of Creston badminton club Park pavilion on Monday night the hospitality of the club was extended a number of players from Canyon, who were teamed up with Creston talent in a number of the mixed doubles, the visitors showing good form considering the short time the Canyon club has been playing.

The talent was pretty evenly matched with the "Crazy" squad winning against the "Crazy Too" by a margin of 18-15 in games, and a spread of 420 to 391 in points registered. The players and scores:

Miss E. Blair and A. W. Millen won from Miss M. Thurston and J. Murrell, 15-8.

Miss H. Hobden and F. C. Rodgers won from Miss Gartland and Albin Nelson, 15-4.

Miss A. McDonald and S. Mensinger lost to Mrs. A. Weir and J. P. MacDonald, 10-15

Miss M. Goodwin and S. Mensinger lost to Mrs. Sinclair and H. Wilks, 11-15.

Mrs. T. Wilson and J. McRobb won from Miss M. Murrell and Geo. Niblow, 15-9

Mrs. J. P. MacDonald and R. Chandler won from Mrs. G. H. Kelly and H. A. Powell, 15-11.

Miss Jean Henderson and G. Nelson won from Mrs. A. W. Millen and Mr. Lynne, 15-11.

Mrs. Lynne and G. Sinclair lost to Mrs. Chandler and C. H. Hare, 12-15.

Miss M. Smith and G. H. Kelly lost to [illegible], 11-15.

Miss N. Payne and T. Wilson won from Miss K. Payne and John Murrell, 15-3.

Miss E. Blair and F. C. Rodgers won from Miss M. Thurston and Albin Nelson, 15-4.

Miss Hobden and A. W Millen won frym Miss Gartland and J. P. MacDonald, 15-12.

Miss A. McDonald nd F. Mensinger lost to Mrs. Weir and H. Wilks, 7-15.

Miss Goodwin and S. Mensinger lost to Mrs. Sinclair and G. Niblow, 14-16.

Mrs. T. Wilson and R. Chandler lost to Miss Murrell and H.A.Powell, 7-13.

Mrs. J. P. MacDonald and J. McRobb won from Mrs. G. Kelly and Mr. Lynne, 15-12.

Miss J. Henderson and G. Sinclair won from Mrs. Millen and C. H. Hare, 15-9.

Mrs. Lynne and G. Nelson lost to Mrs. Chandler and F. V. Staples, 11-15.

Mrs. Levirs and T. Wilson won from Mrs. Rodgers and J.P.MacDonald,15-12

Mrs. McLaren and G. Kelly lost to Mrs. Hare and J. Murrell, 8-15.

Miss Blair and S. Mensinger lost to Miss Thurston and J. P. MacDonald, 10-15.

Miss Hobden and S. Mensinger lost to Miss Gartland and R. M. Telford, 12-15.

Miss A. MacDonald and A. W. Millen lost to Mrs. Weir and O. A. Thomson, 15-18.

Miss M. Goodwin and F. C. Rodgers lost to Mrs. Sinclair and A. Nelson, 7-15.

Mrs. T. Wilson and G. Nelson won from Miss Murrell and Mr. Lynne, 15-7.

Miss Blair and G. Sinclair won from Mrs. Kelly and H. H. Wilks, 15-8.

Miss J. Henderson and J. McRobb won from Mrs. F. Rodgers and G. Niblow, 15-18.

Mrs. Levirs and R. Chandler won from K. Payne and H. A. Powell, 15-3.

Miss M. Smith and T. Wilson lost to Miss M. Hamilton and C. H. Hare, 17-18.

Mrs. Levirs and G. Kelly lost to Mrs. Hare and F. Staples, 8-15.

Miss N. Payne and Mrs. Lynne won from Mrs. Chandler and Mrs. Millen, 15-8.

Mrs. McLaren and Mrs. Levirs won from Mrs. Hare and F. Rodgers, 15-11.

Miss N. Payne and Miss M. Smith won from Mrs K. Payne and Miss M. Hamilton, 15-8.

WORLD HAPPENINGS BRIEFLY TOLD

Passenger traffic receipts of British railways in two recent months were $1,390,000 higher than in the same period of last year.

The minister of industry has announced the Irish Free State is planning to establish a large cotton industry and to launch other pretentious industrial undertakings in 1934.

Veteran of the Northwest rebellion of 1885 and one of the originals of the old Royal Northwest Mounted Police, Charles R. W. Stuart died in Ottawa at the age of 78.

More than 60,000 silk workers are out of employment in Shanghai. This is caused by the fact that 65 silk factories have closed down, due to the lack of foreign markets for Chinese silk.

Mrs. Amy Johnson Mollison, British aviatrix, who was fined $50 on a reckless driving charge at Fort Lauderdale, declined to discuss the incident. Sheriff W. R. Clark said she speeded 70 m.p.h.

R. W. Diamond, of Trail, B.C., has received the McCharles award for his research activities in metallurgy and chemistry at the University of Toronto. The award is worth $1,000 and includes a gold medal.

It is believed that the Prince of Wales will be a competitor in the Army golf championship, which will be held at St. Andrews at the end of April. His Royal Highness will probably represent his own regiment of Guards.

The Eighth International and Intercolonial Exposition, the most important event of the kind in North Africa, is to be held in Tripoli for one month beginning March 11. Not only will there be a large number of local exhibits, but many from foreign countries.

Conditions in Canadian penitentiaries have improved steadily if somewhat slowly and this improvement has been especially noticeable during the last years, says the report of the committee on criminalogy of the Social Service Council of Canada.

Drums Of Gordon Highlanders

Germany Returns Captured Drums To Old British Regiment

General Sir Ian Hamilton journeyed to Berlin to receive from President Paul von Hindenburg the drums of Gordon Highlanders and what he describes as a "gallant gesture from a very old soldier of world-wide reputation."

When the second battalion of the Gordon Highlanders landed at Ostend in the autumn of 1914 they were ordered to stack their drums at the police station and proceed with pipes alone in rapid marches. Hearing they were likely to be overwhelmed by heavy German forces, they edged off towards Ypres and never saw Ostend again.

After their long occupation of Ostend the Germans took the Gordon drums and placed them in their war museum. Sir Ian recently made representations to the highest quarters in Berlin with the result he was invited to go to Germany and get the drums.

Soviet Russia plans to use aeroplanes in sowing 1,235,000 acres to grain next year.

Port Arthur boasts two consecutive years without a street traffic fatality.

Ask Mother—She Knows

Mother took this medicine before and after the babies came. It gave her more strength and energy when she was nervous and rundown . . . kept her on the job all through the Change. No wonder she recommends it.

SALT

(By Gordon H. Guest, M.A.)

Common salt, known to the chemist as sodium chloride, has played an important part in man's everyday life since the beginning of time. Although it now has wide-spread commercial uses, it is primarily essential to the diet, and it is estimated that each person consumes twenty-nine pounds of salt in a year.

Salt was first valued by primitive man when cereals became part of his diet. As time went on, it became increasingly important, and bitter wars were waged for it, when nations possessing rich salt deposits were invaded by their less fortunate neighbors.

The first trade routes are said to have been established for the transportation of salt, and the Via Salaria (Road of Salt), one of the most ancient roads in Italy, received its name in this way. Roman soldiers were given salt rations, called "salaria", as part of their pay, and from this is derived our word salary.

Salt has been taxed in many countries, and the role played by the salt tax in the political history of India is well known. In some parts of the world, salt has been used as money, and it is said that in Africa a few pounds of it will purchase a native princess.

To-day salt is used not only on the table, but in the manufacture of many commodities. Large quantities of it are utilized in the production of caustic soda, better known as household lye, which in turn is necessary to the production of hard soaps. It is also used extensively in the production of washing soda, known as sodium carbonate. Further, the decomposition by electricity of a strong solution of salt in water, produces the poisonous gas chlorine. Besides its well-known use in warfare, chlorine is employed for bleaching textiles, paper and flour, as well as for purifying water supplies. The use of salt as a preservative for meat, fish and other foods is familiar to all.

Salt is said to supply the body almost entirely with hydrochloric acid, an important part of the digestive juice. It is also thought to play a part in the production of the alkaline secretion which keeps the walls of the stomach from being broken down by the digestive juices.

Canada is fortunate in possessing one of the richest salt mines in the world. This is located near Windsor, Ontario, and has an area of over three thousand square miles. The bed is from one thousand to two thousand feet below the surface of the earth, and it is estimated that it contains sufficient salt to last the world for 90,000 years at the present rate of consumption.

Other great salt deposits are found in various parts of the continent including Michigan, Kansas, Ohio, and Louisiana. At Simpson, Sask., there is a deposit which yields considerable crude salt. In Europe the most celebrated salt deposits are in Prussia, where there are mines which have been worked since the twelfth century. There are also rich deposits in China, Persia, Caucasus, Crimea, the Sahara desert, and in various parts of Australia.

SUNDAY SCHOOL LESSON

FEBRUARY 11

TIMELY WARNINGS

Golden Text: "Every tree that bringeth not forth good fruit is hewn down, and cast into the fire." Matthew 7:19.

Lesson: Matthew 7:1-29.

Devotional Reading: Proverbs 2:1-8.

Explanations And Comments

The Golden Rule, verse 12. All things therefore: the context shows the meaning of the word "therefore"; since God is so good to us, we must be good to others, verses 7-11. "With these words Jesus closes up the teaching of these chapters and ties them all up in a little bundle," Martin Luther observes. Whatsoever ye would that men should do unto you, even so do ye also unto them. "Taken literally, and without qualification, this would mean that we must do whatever others want, and give them whatever we might wish under like conditions. So interpreted, it would mean that we must give the child his folly, the toper his liquor, and even the burglar his booty. Altruism, as Tolstoy has shown in an entry in his diary, if taken by itself, and followed to its logical issue, ends in anarchy—against which an elemental sanity protests. Obviously Jesus means that we must do unto others—not necessarily what they want us to do—but what we ourselves would like them to do unto us if we, with our desires as disciples of Christ, were in their position. And just as we like to be treated, not exactly according to what we are, but according to what we are hoping and trying to be, so we should treat others."—(Joseph Fort Newton).

"If you have been reading the Golden Rule, put it on. See how you look in it compared with your appearance in your habitual dress. Put it on your church. Do you recognize your church when it is wearing the Golden Rule? Put it on your city and your nation. In what respects would they change their attitude and conduct if they should come to feel that this rule is a law from heaven for them? Fit it on the human race. It belongs there. It is for nations as well as for individuals, it is universal and not local, it is everlasting and not temporary. If only every man and every woman should on every day of all the year obey the Golden Rule!"—(Charles E. Jefferson).

Teacher (in bookkeeping)—What is a debtor?

Witty Student—A man who owes money.

Teacher—And what is a creditor?

Witty Student—A man who thinks he is going to get it back.

SOURED ON THE WORLD?—THAT'S LIVER

Wake up your Liver Bile —No Calomel necessary

Many people who feel sour, sluggish and generally wretched make the mistake of taking salts, oil, mineral water, laxative candy or chewing gum, or roughage which only move the bowels and ignore the liver.

What you need is to wake up your liver bile. Start your liver pouring the daily two pounds of liquid bile into your bowels. Get your stomach and intestines working as they should, once more.

Carter's Little Liver Pills will soon fix you up. Purely vegetable. Safe. Sure. Quick. Ask for them by name. Refuse substitutes. 25c. at all druggists. 31

Marvels of the Human Eye

By F. M. CROWE, Optometrist-Optician, Calgary

NO. 8.—CATARACT

Much ignorance exists as to what a Cataract really is. A great many people think it is a growth of some kind on the outside of the eyeball which can be seen with the naked eye—but such is not the case.

A Cataract is that condition of the eye in which the Crystalline Lens has, from various causes, lost its former transparency thus preventing the rays of light from passing through it unhindered and focusing a clear image on the Retina. This loss of transparency usually progresses very slowly. Sometimes it starts from a single point or nucleus and gradually spreads throughout the whole Lens, while in other cases the entire Lens is involved at the same time. In the latter case it is very difficult, even for an expert with instruments, to recognize it in the early stages but as and when it continues to progress, the Lens becomes more and more cloudy or "milky", the Retina becomes more difficult to observe (with instruments) and finally when the Cataract has become "ripe", the pupil instead of being black, is grey, which can be seen by anyone without the aid of instruments.

That condition then, in which the Lens has become cloudy is known as a Cataractous Lens or Cataract and glasses seldom offer much assistance. In fact, as the condition changes, the Lens swell, necessitating the frequent changing of the glasses worn till eventually the Lens having become so convex, the effect of the convex glasses formerly worn is neutralized and such people can read better (but not satisfactorily) without glasses than with those formerly worn and this is how the false idea of "second sight" originated. There is no such condition in normal life as "second sight" and such an apparent experience was or is due to the above cause. It is next to impossible, however, to make many people believe this. They insist in all sincerity that a relative lived to be over ninety years of age and could see to read without glasses although he formerly had to wear them, hence he must have got his "second sight". In the first place such people have no means of knowing the percentage of normal vision such a relative possessed at any time of life and the only foundation for their belief is that the relative before death could see better without glasses than with them—the explanation of which I trust have made clear. So do not hope that you will ever "get your second sight".

Occasionally both eyes are simultaneously affected but usually the opacity appears in one Lens years in advance of the other but eventually both eyes become diseased. When the Cataracts have become "ripe" the patient has difficulty in distinguishing daylight from darkness and in proportion to the progress of the disease, dimness of vision follows for which glasses are of little or no avail. Patient sees as if he were in a fog or as if a film is before the eyes. He usually has an aversion to bright light and in fact prefers a dark or cloudy day because he sees better and more comfortably. Cataracts do not cause any inflammatory condition to the eyeball.

Technically there are several varieties and the causes are many. There is the Senile due to extreme old age but fortunately few even very old people are afflicted. Injury to the eyeball at some time of life is a common cause while certain diseases of the body have a tendency to produce it, Bright's Disease for example.

There is no medicine, exercises or other "cures" for Cataracts although much money and time, with resultant sorrow, have been spent by people who have fallen into the hands of the fakir (usually by means of literature) who has promised cures with his nostrums or "special glasses". Surgery, performed by a skillful operator, when the Cataract is "ripe" is the only solution and when the opaque Crystalline Lens has been successfully removed from the eyeball and proper glasses supplied, there is nothing to prevent the rays of light from passing into the eye and focussing on the Retina and very often one hundred per cent. vision obtainable.

Refuse To Take Balloons

Paris Pawnshops Lend Money On Nearly Everything Else

The state pawnshop of Paris will not lend money on balloons. A man has just been successful in pawning an aeroplane, and in doing so was told it was lucky he was not trying to pawn a balloon, because the institution had loaned money on a balloon 60 years ago, and had a suit brought against it because the balloon's fabric burst and made it leak badly. There is everything in the storerooms of the shop—saucepans and bicycles, gold teeth and toys, sewing machines, furniture, and even a canoe.

Not only must the present day reporter be able to write what was said, but he must also know what the speaker meant to say. Outside of that, the job's a cinch.

Record For Single Seed

From a single citron seed, John E. McKinney, farmer, who lives near Mena, Arkansas, grew a vine that produced 48 citrons. They weighed more than a quarter of a ton, or 562 pounds. The fruit is known as "pie melons" in that section.

European scientists have determined that there are 15,000 bees in the average hive.

Children's Coughs and Colds

Go Overnight

Mother, don't worry when one of the little ones has a bad cough or cold—just get a bottle of BUCKLEY'S MIXTURE and mix with equal parts of honey. "It acts like a flash." One little pleasant dose will give unmistakable relief. Two doses often end a bad cold.

And don't forget—BUCKLEY'S MIXTURE will rid you or daddy of a cough, cold, 'flu or bronchitis just as quickly. Its lightning-quick action will astound you. Play safe. Refuse substitutes. Buckley's is sold everywhere.

OCCASIONAL WIFE

By

EDNA ROBB WEBSTER

Author of "Joretta," "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarreled. At a party at an exclusive club Peter entertains Camilla's guests with impersonations. When the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Avis is stunned and Camilla's mother likewise. Camilla decides that she must leave the home of her adopted parents immediately and go to live with Rose, her sister, who is a file clerk in a business house. They decide to take an apartment. Bowman and Weeks, an advertsing agency, where Camilla has submitted some of her work, send for her and tell her they have a new account which requires unusual treatment of juvenile art. To Camilla's surprise she learns that the account is that of her foster father's company, which has decided on an extensive campaign to bolster up lagging business.

(Now Go On With The Story)

CHAPTER XXIX.

Camilla's first thought was to rush to Peter with the news. Then a second one assailed her—what if she failed? Could she admit that? No, she was riding the crest of the wave of excitement now—or was she riding in the clouds again, she wondered giddily, as she guided her car by instinct and habit through the lanes of traffic. It behooved her to come down to earth, forget her own reactions and breathless hopes, and consider seriously the problem before her.

This was not a matter of willingness to work or desire for success or even artistic talent. Success involved creative genius. It meant that her brain had to produce from nowhere a new idea—to think of something which no other brain had produced, to originate that which did not now exist. The thought quickened her breath, stirred her imagination, awed her a little.

And then—it happened. Like a flash, the inspiration struck her, forcefully. In an instant, the whole idea enrolled before her, like a panoramic scene of a moving picture film. Of course, there would be endless details to develop and all sorts of problems to work out—but there it was—her idea, all ready to begin work.

She pressed her foot harder on the accelerator and increased her speed, anxious to be home and at her work before the muse of inspiration should desert her.

Arrived at last! To her consternation, she detected voices in the garden as she entered the driveway. Guests! Had anyone seen her, she wondered, and backed quietly into the street again. She drove half a block, parked the car and stopped the motor. Then she closed the windows, made sure that the doors were locked when she closed them from the outside, and walked back to the house. Although she had a key, she rang the bell, because Bates would answer it and tell her how to get to her rooms without being seen. She could take no chances of anyone being in the hall or library and demanding her presence. Bates stepped back in surprise when he found her there, but was instantly motioned to curious silence.

"Who is here? Anyone to see me, Bates?" she whispered.

"Yes, Miss Camilla, they're waitin' for you, they are, to take you somewhere."

"Well, I don't want to see them, Bates. I can't!" Something of her desperation impressed him with her anxiety. "Can I get upstairs without being seen?"

He glanced around warily. "They're all in the garden or the drawing room now. If you come through the dining room and pantry and up the back stairs, no one will be seeing you."

"Thanks, Bates, and please tell them I've telephoned that I won't be back today. Sorry to ask you to lie for me," she smiled, "but it's terribly important, Bates, or I shouldn't. I'll tell you about it some day, and you'll say it was worth more than a little white lie."

"Don't I know it, now?" he beamed. "If you say so, then it is."

The strategem worked beautifully. The crowd had stopped for her to go with them to the country club for lunch and golf and a tea-dance, but presently they drifted into their motor cars and speeded idly away. Bates had given them her message, Camilla knew.

That faithful servitor also brought her lunch on a tray at her request and delivered her keys to Sims with orders to take her car to the garage. Finally, she was not to be disturbed for any reason less important than fire or sudden death.

In her sitting room, which had been converted into a studio when she entered National to study art, she donned a thin smock and loose slippers and set to work. She had determined to give Weeks and Bowman the surprise of their lives. At least, she supposed it would be a surprise, judging from Mr. Bowman's remarks when she had talked with him at that first interview. And why shouldn't she surprise them? Hadn't this splendid idea been given to her for that very purpose?

Late in the afternoon, Bates knocked timidly at her door.

"Yes?" she called impatiently.

"Will you answer the telephone, Miss Camilla?"

"Who is it?"

SCOTT'S EMULSION

RICH IN VITAMINS

"Mr. Anson calling. I thought you might—"

"Why, of course, I didn't include Peter when I said I wasn't at home to anyone," she laughed.

"I thought you didn't," Bates grinned slyly. He never smiled in anyone's presence save Camilla's.

"Hello, Lovable," Peter's sunny voice greeted her. "What are you doing?"

"Oh, don't ask me, darling, because I can't tell you now, please."

"Is that so? Why not, I'd like to know?"

"It's a surprise—a nice one. And if you ask me another question, I shan't be able to keep the secret, Peter. What are you doing?"

"Well, that's a surprise, too," he bantered, "but I just finished it and now I want to see you. It has been three days—or didn't you know?"

"I thought it was three weeks, but I may be wrong. But darling, I can't see you now."

"Soon, them," he insisted. "Meet me at Charm Cottage for dinner at six. I want to look at something beautiful and talk to something sweet."

"Oh, Peter, I'm so sorry, but I can't. I'm terribly busy and can't be disturbed at all tonight." Her heart yearned to say "yes" and meet him eagerly and share that sweet pleasure of dining with him at Charm Cottage — where they had shared their wedding dinner. Here, already, was where her career stepped in and demanded first consideration. Perhaps if she explained to him, it would help. No—she had to take a chance that Peter would understand. Perhaps, after all, a test of his faith. But her doubt reproached her.

"Busy—at what?" he inquired with dismay.

"Work."

"Did you get a position?" quickly.

"No—not yet." It was so difficult not to tell him about it.

"Well, then, there's tomorrow and all the other tomorrows for your work."

"No, Peter, I can't see you, tonight," firmly.

"When—then?" he asked, after a moment of silence, and his voice

She clung to her resolution and sounded desolate.

nite should be decided tomorrow, she thought rapidly. If—something defi- could have dinner with him and tell him the wonderful news. Probably, there would be no decision even for days after she submitted her drawings. Even so, it would be wonderful to see Peter, and she would have to try to keep her secret from him. "Make it tomorrow," she said. "And I'm awfully sorry about tonight, dear."

"May I stop in for a few minutes, then, later?" anxiously. "You're not ill?"

"Oh, no, dear. And please don't stop in. I do want to see you awfully much—but I can't."

"Okay, then. Tomorrow at six."

"Goodbye, Peter."

"'Bye, Lovable."

She put down the telephone regretfully, sat musing forlornly for a moment, then rose quickly and returned to her work. "If you're a good sport, you'll play this game by the rules you laid out when you invented it. Your and Peter's careers come first — marriage second, for awhile. Peter has been splendid about it all. Now, don't you give in at the first test." She gave herself a little shake of impatience and returned to her drawing board to lose herself again in the make-believe world which her imagination had created for her this day.

She had dinner, also, alone in her room. For one thing, she did not wish to face those stern, probing eyes of her foster father, yet, with this new secret in her heart. It had been different about the secret she had shared with Peter. That was hers alone. This matter concerned her benefactor vitally, and she feared for the effect of his influence upon her work, if she saw him now. Besides, she wished to remain alone until her plan had been worked out. So she had a light dinner alone, practised a series of calisthenics to relieve her taut muscles and resumed work.

She was amazed when the pert little clock on her desk chimed a musical midnight, and increased her effort. The work had to be finished before morning. Inside the house and out, the stillness grew heavier, like the darkness. Muffled traffic sounds from the street were diminished until there was only an occasional brief whirr-r-r of a passing automobile. A truck rumbled past. Only the little clock kept insisting that the night was passing and trying to remind her every quarter hour how late it was. Three o'clock. Camilla toiled on, steadily.

After a long interval of intense silence, she was startled suddenly by the sound of a stopped motor and soft thudding of quick footsteps in the driveway. Her heart seemed to stop beating and a cold fear gripped her for an instant. Thumps in the rear of the house. She relaxed, laughing shakily to herself. The milkman, of course. It was the silence and weariness and her long concentration that had caused her to be frightened so foolishly

At four oclock, she looked up in surprise to discover that the windows were pale grey squares of light. A rose light crept into the room, and presently it was dawn. At six o'clock, she stopped work and surveyed her efforts. Tired as she was, a thrill of pleasure possessed her. She arranged the cards in her portfolio, stripped and slipped into a hot tub. Then she slept for two hours and awoke at the regular time for breakfast.

37 lbs. OF FAT GONE

No Wonder She Looks Younger!

"How much younger you are looking!" What a pleasure to hear that compliment from your friends' lips—as this woman did

"Since I started taking Kruschen Salts," she writes, "I have reduced myself by 37 lbs. I am still going down and hope soon to be normal weight. My health has greatly improved. My friends see such a difference in me now. I look younger, and I have such a fresh look always about my face which I never used to have. I take my usual food, but my first drink in the morning is my little dose of Kruschen Salts, which I will never be without."—(Mrs.) K.

The six salts in Kruschen keeps the organs of elimination in perfect trim and so ensure a regular, gentle and natural clearance of all fat-forming food refuse.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your druggist for the new "GIANT" 75c. package.

This consists of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorised to return your 75c. immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Hughes, Ltd., Manchester, Eng. (Estab. 1756). Importers: McGillivray Bros., Ltd., Toronto.

Little Helps For This Week

"My presence shall go with thee, and I will give thee rest." Exodus 33:14.

"Thou will show me the path of life, in Thy presence is fullness of joy, at Thy right hand there are pleasures for evermore." Pslam 16:11.

They presence fills my mind with peace,
Brightens the thought so dark erewhile,
Bids cares and sad foreboding cease,
Makes all things smile.

—Charlotte Elliott.

How shall we rest in God? By giving ourselves wholly to Him. If you give yourself by halves you cannot find full rest, there will ever be a lurking disquiet in the half which is withheld. Martyrs, confessors and saints have tried this rest, and counted themselves happy in that they endured. A countless host of God's faithful servants have drunk deeply of it under the daily burden of a weary life; dull, commonplace, painful or desolate. All that God has been to them he is ready to be to you. The heart once fairly given to God with a clear conscience, a fitting rule of life, and a steadfast purpose of obedience, you will find a wonderful sense of rest coming over you.—Jean Nichols Grou.

THE RHYMING OPTIMIST

By Aline Michaelis

TO MY MOTHER

You, who have never faltered,
Once through the changeful years,
You, who have never failed me,
Whether in joys or tears,
You, who have soothed each sorrow,
Who have assuaged each ache,
What can my poor toil offer
Fit for your heart to take?

Just as your love is flawless,
Steadfast and not of earth,
It will endow my efforts
Out of its own vast worth;
So I dare bring you daily
Work of my faulty hand,
Certain your love's perfection
Ever will understand!

Feed For Average Flock

The amount of grain and mash a flock of birds will eat in a week will vary with the flock and with the season. Some flocks will eat more than others. On the average, however, in a week's time, fifty White Leghorns would eat about fifty pounds of grain and about an equal amount of mash in the fall and winter. In the late spring and summer birds may be encouraged to eat more mash than grain by cutting down the amount of scratch that is fed.

A big worry removed by a telephone call

"I noticed that the telephone man stopped at your place yesterday," Mrs. Evans called over the fence to her neighbor, Mrs. Thomas.

"Yes, we have a telephone now," replied Mrs. Thomas, "and it has certainly proved a blessing already. Young Tom went over to see the Fraser boys last evening, and it got so stormy out, he decided to spend the night with them. If he hadn't telephoned me to say where he was, I'd have been worried sick."

Marketing Plan Well Received

New Grower-Controlled Selling Policy Outlined at Largely Attended Meeting—Wynndel and Boswell Support it Solidly

The largest attended and most attentive meeting of orchardists Creston has seen in years was that of Friday afternoon when the recently formed Growers Stabilization Committee summoned the ranchers to a conference at the United Church hall, to hear a report from W. G. Littlejohn, who had represented this district on the central Growers Stabilization committee that met in Kelowna last month to draft the 1934 grower controlled marketing policy. Mr. Littlejohn occupied the chair and the minutes of the previous growers meeting read by the secretary, L. Littlejohn, and adopted.

Before taking up the marketing plan, copies of which had been mailed all the growers, Mr. Littlejohn was happy to point out that on his trip to the Okanagan he had secured everything he had insisted upon which would assure a square deal to Creston Valley growers.

The new policy was read clause by clause and where necessary was enlarged upon, or where required full explanation was given. It was pointed out that the plan was not a 100 per cent, grower product. R. B. Staples had been amongst a delegation of eight of shippers who had sat in at one session of the committee to lend a hand with rough drafting the plan.

Briefly stated Creston Valley is entirely independent of the Okanagan and the two other districts, except in the matter of adhering to prices that are fixed, and dates at which the different varieties may move. Creston will have a voice in selecting the central board that will have final authority in setting prices, etc., and will have complete control of selecting the committee that will supervise the deal in Creston valley. Sale over one desk was not favored by Mr. Littlejohn.

In the matter of price fixing the chairman reported that he had been able to convince the Okanagan delegates that they were unfair in 1933 in the matter of putting the price on Wageners. It was too low, and guarantees have been given that the variety would be more favorably considered.

The local committee will fully control pooling, packing, grades, etc., and will be under no obligation to store. The new deal proposes to start each variety off at a price above cost of production and raise the price on each variety as the season advances. In fixing price regard is to be had as to the buying power on the domestic market.

In the disposal of culls Mr. Littlejohn stated that in the Okanagan this year as high a $5 a ton had been secured for these and they were used in the manufacture of cider, wines and liquor. Recent investigation had disclosed that culls could be used for the manufacure of raw alcohol, and if such a manufactory were started it would not be extravagant to look for a price of as high as $10 a ton for culls. With the grower controlling the market it should be possible, too, to place culls on sale at points where they could be retailed without disastrous effect on other grades.

Effective control was counted upon through legislation that would give Stabilization Committees sole power to bond and license all who engage in apple marketing, be they packing houses, grower-shippers or trucks from any province. It was counted on, too, that more rigid inspection was coming that would militate against the operations of the trucker. Those getting licenses to sell must adhere to the board prices or their license would be cancelled and a healthy fine imposed as well. The rancher was at liberty to choose the house he would ship through, but every house would be snbject to board regulations, even to the extent of having a special audit of their books to make sure full returns were being made to orchardists, not only as to selling, but possibly as to the fairness of packing charges.

Mr. Littlejohn made it quite clear nothing had been done to take away the advantage in freight rates enjoyed by the Creston district, and he submitted figures to show that a preference for Creston exists as far as Broadview, Sask., and includes Edmonton, Alberta.

He pointed out, however, that it was time Creston let up on the policy of letting the jobber have the advantage of the money saved on freight charges. He believed local shippers could safely add to their price the full preference, and still compete with the Okanagan, where operating costs are higher than here.

With the printed copies of the policy mailed out was attached a ballot that could be marked for or against the policy. A. Mackie was present from Boswell with a sheaf of ballots that showed that centre (which is now included in the Creston district) as 100 per cent. in support of the movement, while A. H. Rudd had ballots to show that 26 out of 27 tree fruit growers at Wynndel were also in favor.

On the request of the chair those present who were prepared to do so were asked to turn in their ballots, and the response was an encouraging one, only four objectors to the plan being heard from. Those who have not, as yet, sent in their ballots are asked to do so at the earliest possible date so that the work of organizing the local board of control and getting it down to work can be effected as quickly as possible.

On all hands are heard nothing but complimentary references to tne work accomplished by Mr. Littlejohn on the central committee and the courteous, businesslike way he handled the Friday meeting. He had the knack of clearly explaining all the points raised and throughout a rather tedious session demonstrated a very thorough knowledge not only of the new deal but of the needs of the district as a unit in the proposed 1934 marketing plan, all of which he was able to convince those present had been fully protected.

POUND DISTRICT ACT

Whereas under the provisions of this Act application has been made to the Lieutenant-Governor in Council to constitute, as a pound district, all that certain portion or tract of land in the Nelson-Creston Electoral District, in the vicinity of Alice Siding—which may be more particularly described as follows:

All that portion of land in the Alice Siding School District, as established by Notice published in the BritishColumbia Gazette under date of October 23rd, 1928, which lies to the east of the right of way of the British Columbia Southern Railway and to the west of the easterly boundary of Sub. Lots Forty-four (44) and Sixty-six (66) of District Lot Four Thousand Five Hundred and Ninety-five)4595) Group One (1) Kootenay District,and all that portion of District Lot Eight Hundred and Ninety-two (892) and District Lot Eight Hundred and Ninety-one (891) of said Group One (1) Kootenay District lying and being east of the aforesaid right of way, and without the limits of the Village municipality of Creston, as established by Notice published in the aforesaid Gazette under date of May 22nd, 1924, and of the Erickson Pound District, as established by Notice published in the aforesaid Gazette under date of October 15th, 1931.

Notice is hereby given that, thirty days after the publication of this notice, the Lieutenant-Governor in Council will proceed to comply with the application, unless within the said time objection is made by eight proprietors within such proposed pound district, in Form 2 of the Schedule of said Act, to the undersigned.

K. C. McDONALD,
Minister of Agriculture.
Department of Agriculture,
Victoria, B.C.
January 20th, 1934.

Lister

The community Society are having a dance at the school house on Saturday night, with Canyon orchestra music, and an admission of 25 cents.

Lister will have two church service ons Sunday. Rev. M. Percival, Anglican pastor, will be here at 11 a.m., and in the afternoon Rev. C. Baase, Lutheran minister, will have service.

Last Thursday's earthquake shock was distinctly felt at Lister, some residents reporting it severe enough to rattle the dinner dishes.

Harry Helme had the very bad luck to have to shoot one of his team of work horses on Thursday last. While running in the yard the animal, in some unknown way, sustained a broken leg.

While playing with some of his boy friends at the Yerbury ranch on Sunday, a .21 revolver was accidentally discharged and lodged in Kirk Beard's leg just above the knee. The young fellow was taken to the hospital at Creston, where he is doing as well as can be expected.

A. R. Bernard presided at the settlers meeting on Thursday night, at which the resolution presented to Hon. Joshua Hinchcliffe last summer was re-endorsed, and Messrs. Baker, Bernard and Bird were named a committee to discuss the situation with Frank Putnam, M.P.P.

Intolerance

Experience is a great teacher, and the world is learning many things from this period of financial and economic difficulty through which it is passing. In the process of learning, it is, of course, not only absorbing new ideas and accepting new standards but it is abandoning old ideas and methods. The world is losing certain things it can well afford to lose; the loss of which can indeed be set down as gain. The danger is, however, that it will lose other things which it can ill afford to lose, and may accept and adopt things which will spell loss and disaster in the future.

Signs are by no means lacking that one of the greatest losses which the world of mankind may suffer as the result of the times through which we are struggling is the loss of much of the political liberty gained through centuries of persistent striving and battle. In one European country after another dictatorships in government have been set up in varying degrees and in somewhat different forms, but the effect in every instance is to deprive men and women of much of the political liberty and rights of citizenship they formerly enjoyed. One or two individuals, or a small group, backed by force are imposing their wills upon tens of millions of people.

Acceptance by people in many countries of these dictatorships is one of the phenomena of this age. It appears to be the outcome, not of one only, but of several reactions to the experiences through which people are passing. In the first place, many individuals have lost confidence in themselves and in their own abilities to manage their affairs and order their lives. With this lose of confidence there is, of course, loss of ambition and initiative. They are willing to throw up their hands, and let some other person, or group of persons, do their thinking for them and plan and manage their lives and life's activities. In a word, they have reached the stage where all they ask for is a bare materialistic existence, and they want that without any effort on their part or even the trouble of thinking and planning how it may be obtained.

The second contributing factor to the phenomena we are witnessing is Fear. In the individual this is the outcome of the lack of confidence already noted, and it finds expression in public opinion throughout the State in doubts as to the ability of national institutions to withstand any attack that may be made against them. Thus the aspiring dictator who arises and proclaims his ability to handle the situation if only everything is left to him for decision and all necessary power is reposed in him for action. He promises quick action, decisive action, as contrasted with the slower, more moderate methods of democratic government. And because people are obsessed by Fear, and weakened by a loss of confidence in themselves, they supinely bow before the dictator, or grasp at the glowing promises of a man or a group who, in reality, are no greater, wiser, more competent or far-seeing than they are themselves.

More deep rooted is the third cause of this present day phenomena. It reaches back into the ages of the past, the dark ages of the world. At recurring periods in the world's history it rears its ugly head. It is Intolerance. It is never wholly absent but always slumbering in the breasts of mankind, ready to flare up upon almost any provocation. It caused the great religious wars of the past; it caused the great racial struggles; it is deep rooted in social and economic struggles. Demagogues and dictators play upon this weakness in man. It is a brand they always use wherewith to start the fires of revolution.

The world to-day is witnessing a resurgence of Intolerance. There was much of it during the Great War; in fact, it was cultivated by all the warring nations in order to spur on their people in the waging of that titanic struggle. The world is paying the price of that folly now. It bedevilled the Peace Conference; it has been the crippling factor in the councils of the League of Nations. It has resulted in narrow nationalism on the part of the nations; ever increasing armaments; every conceivable kind of trade-restricting device; in prohibitions, embargoes, quotas; in immigration prohibitions; in class struggles everywhere.

The Socialist-Communist leaders of Russia are determined to drive all Christian religion out of that great land because they are intolerant of everything but their own particular theory. Hitler and his followers are equally grim and determined against the Jews. Mussolini will brook no opposition to his own views and methods and rides roughshod over all who oppose him. And people everywhere who have sustained losses and are in difficulty because of the world depression, instead of looking to the basic cause, unthinkingly follow would-be leaders who intolerantly point to others who still possess some property as the people who are responsible for all the difficulties, losses and suffering of others.

The world is going to lose much of the selfishness which has grown up in and around present day business, and such loss will be gain. But is it also, through Intolerance going to lose that liberty for man which has been won at such a great price? Is it true that man can only achieve a larger measure of material and economic comfort at the price of the loss of his spiritual and intellectual liberty and, in some measure at least, of his economic, social and physical liberty as well?

Intolerance may maintain dominance over men's minds for a time, but it will be but a temporary ascendancy, finally subsiding to flare up again at some future date. But during the period of its ascendancy it will work havoc, as it always has done. It will not, and never has, made for progress or happiness; it has only intensified the sorrows and troubles of the world always. Man needs to be on his guard against acceptance of any of its manifestations.

Smothering Sensations
Faint and Dizzy Spells

Those feelings of faintness; those dizzy spells; those all-gone smothering, sinking sensations which come over people, from time to time, are warnings that should not go unheeded. They indicate an extremely weakened condition of the nerves and other vital organs, and should be given immediate attention.

Those suffering in this way will find in Milburn's H. and N. Pills a remedy with which to recuperate their health, build up their run down system, and bring back their bodily vigor.

Ask your druggist for Milburn's H. & N. Pills.

Receives First Air Mail

Belated Christmas Gifts Delivered At Copper Mine, N.W.T.

Winter isolation of the little post of Copper Mine on Canada's Arctic shore was broken January 25 with the arrival of the first air mail it has received.

The mail machine, piloted by Walter Gilbert, of Canadian Airways, hero of a sensational dash to the magnetic pole three years ago, brought 600 pounds of mail, including 8,200 "first flight" covers for collectors from all parts of the world. Accompanying the shipment was Postal Superintendent Walter Hale, of Edmonton. Third man in the machine was Lew Parmenter, air engineer.

Mail and belated Christmas gifts from "outside," were distributed by Rev. J. Morris, Anglican missionary, who was sworn in as postmaster. Meanwhile, Parmenter, working in the shelter of a special igloo constructed by willing Eskimo hands to hous the nose of the big Junkers plane, checked over the motor in readiness for the return flight.

The new post office serves traders and trappers over a strip of Arctic coast 1,000 miles in length.

Canadian Composer

Celebrated Contralto Sings Songs Composed By Montreal Man

Sigrid Onegin, celebrated contralto, is proud to have in her repertoire a song written by the Canadian composer, Emiliano Renaud, of Montreal, whose works, she believes, will be famous in years to come.

"I was in Switzerland five years ago," she began, telling the story of her first meeting with him in the course of an interview, "and one day I received a great pile of music from this Emiliano Renaud, who said he was an admirer of my voice. My accompanist and I went over the music and found some songs of rare beauty. I at once learned them and sang them for the first time on my next visit to Montreal."

No Danger From Gases

Deadliest Kind Can Never Be Used In War

By getting into a hot bath the average person would be almost completely safe during a wartime gas attack, Dr. Francis Freeth, of the headquarters staff of the Imperial Chemical Industries, Ltd., said in a lecture at London.

Dr. Freeth ridiculed popular fears of poison gas as a war weapon. The deadliest gases, he said, can not be used in a war.

The only effective military gas, Dr. Freeth declared, is mustard gas, the value of which is now ended, he said, since complete defensive measures have been discovered.

Wonderful Jewel Display

Costly Stones Seen At Birmingham Jewellers' Annual Ball

An astonishing display of jewels took place at the first annual ball of the Birmingham jewellers. Many single pieces of jewellery on view were worth more than $30,000 each. There were diamonds as big as dimes, black and fire opals, emeralds, rubies, amethysts, topaz, and pearls set in platinum and gold rings, brooches and necklets. The jewels, which were worn by England's loveliest mannequins, were worth altogether about $750,000. Mingling among the guests were armed detectives dressed in immaculate "tails."

Cost Of Municipal Government

The cost of municipal government in Canada in 1932 exceeded that of any previous year, according to a report of the Citizens' Research Institute, made public recently. In that year the per capita cost was $54.74, as compared with $53.12 in 1931, $50.63 in 1930 and $47.37 in 1929. Toronto was third on the list with a per capita cost of $61.61, behind Victoria with a cost of $90.05, and Edmonton, with $69.51.

Small Boy—"What's the use of washing my hands before I go to school, mother, I'm not one of those who are always raising them."

Here's Quickest, Simplest Way to Stop a Cold

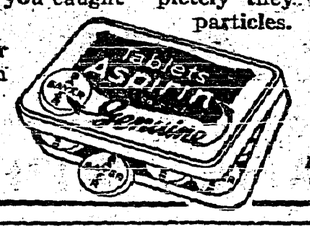
1. Take 2 Aspirin Tablets.
2. Drink full glass of water. Repeat treatment in 2 hours.
3. If throat is sore, crush and dissolve 3 Aspirin Tablets in a half glass of water and gargle according to directions in box.

Almost Instant Relief in this Way

The simple method pictured above is the way doctors throughout the world now treat colds.

It is recognized as the QUICKEST, safest, surest way to treat a cold. For it will check an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, see that you get Aspirin Tablets. Aspirin is the trademark of The Bayer Company, Limited, and the name Bayer in the form of a cross is on each tablet. They dissolve almost instantly. And thus work almost instantly when you take them. And for a gargle, Aspirin Tablets dissolve so completely they leave no irritating particles. Get a box of 12 tablets or a bottle of 24 or 100 at any drug store.



ASPIRIN TABLETS ARE MADE IN CANADA

DOES NOT HARM THE HEART

Predicts Second Slide

Geologist Advises People At Frank, Alberta, To Move

Warning that the railroad, highway, telephone lines and homes of people in the valley should be moved, Dr. J. A. Allan, geologist at the University of Alberta, declared that a second slide is possible at Frank, Alberta.

"Three million cubic yards are definitely preparing to give way on Turtle mountain," he said. He declared that it was useless to attempt to dynamite sections but to clear the area "and let nature take its course."

Between 85 and 90 persons died in the slide, which occurred on April 29, 1903.

Dr. Allan said that he spent some time last summer in examining the mountain and found new fissures, some of them 40 feet wide and hundreds of feet deep, and giving off peculiar noises.

Probe Building Industry

Appointment Of Federal Government Commission Is Urged

Appointment of a federal government commission to investigate the building industry was urged in a resolution passed at the final session of the Canadian Construction Association, completing a three-day convention in Toronto.

The purpose of the commission, the resolution indicated, would be to maintain a more even level in the industry, abolishing the wide fluctuations through which it now moves from year to year.

The government was asked in a resolution to appoint someone from the association to sit with the government in all deliberations about unemployment relief insurance.

W. H. Yates, Jr., of Hamilton, was elected president. Col. W. A. Foster, of Vancouver and Cecil Gunn, of Winnipeg, were elected western vice-presidents.

Asking Too Much

The manager called his office boy into his room and indicated his desk.

"Look at this," he said sharply. "It is disgraceful! Why can't you keep it cleaned and polished as you do the banister rail outside?"

The boy shook his head artfully.

"Well, sir," he replied, not in the least put out. "I can't very well slide down your desk."

More progress will be made by outlawing guns than by gunning outlaws.

Through traffic on the Peiping-Mukden railway in China has just been resumed.

A Coveted Honour

Manitoba Horticulturist Develops New Type Of Lily

Another popular assumption has been shattered by a doughty champion from the West. While public opinion has identified Eastern Canada more or less as the hub of floral plant breeding in the Dominion, the winning of a highly-prized and signal honour by a Manitoban at the world's great horticultural centre, the Royal Horticultural Society at London, England, has once more directed attention to the long list of champions emanating from Western Canada. A coveted honour, the Cory cup, has been awarded to Mr. F. L. Skinner, Dropmore, Manitoba, for breeding a new variety of lily which he has named the Maxwill. The cup is awarded to the originator of the best new hardy plant of garden origin shown to the society during the year. The Maxwill lily was exhibited last July in London, and the presentation of the cup will be made with due ceremony at the next annual meeting of the society this month.

Money Well Spent

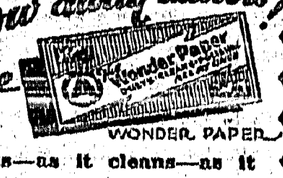
It will cost $5,615,595 next year to operate the Royal Canadian Mounted Police force, the same figure as this year, it was shown in the financial estimates tabled in the house of commons. The total includes pay, clothing and allowances for the men, arms and ammunition, building and repairs to barracks, purchase of horses and dogs, and all items down the line to stationery and printing.

Milngavie, Scotland, has abandoned its street cars and is seeking government permission to operate trolley buses.

Have You Pimples or Boils?

Mrs. T. A. Berney of 645 Wellington St., W., Toronto, Ont., says: "I had a bad case of boils due, I believe, to the condition of my blood. I certainly was in misery as the boils were all over my face. I took only two bottles of Dr. Pierce's Golden Medical Discovery and the boils gradually disappeared. I have had no return of these eruptions." Sold by druggists everywhere. Write Dr. Pierce's Clinic, Buffalo, N. Y.

Throw away dusters! Use



It dusts—as it cleans—as it polishes.

Appleford PAPER PRODUCTS
HAMILTON, ONTARIO

MOVE TO SET MINIMUM WORLD WHEAT PRICE

London. — Government legislation and a thorough-going propaganda campaign to encourage a wider use of wheat were reported to be among the main recommendations of the international wheat commission which seeks to relieve an unfavorable price situation in that commodity.

The committee completed its study of proposals for ending a glut of wheat stocks by increasing consumption.

Its drafting committee was expected to combine these suggestions with a project to set a minimum world wheat price, the commission resuming its conference when the report is ready for final approval.

It was considered almost certain that the minimum price recommendations will go to the 21 governments represented in the commission without official publication here, but it was indicated strongly that the index price will be about 55 gold cents —the average British parcel price.

A campaign in the far east to educate millions of people in those countries to eat wheat—now a negligible part of their diet—probably will be recommended, it was learned.

The governments can enforce a greater consumption by law through measures restricting the amount of flour extracted from wheat and requiring the denaturing or cutting of green wheat to insure its use for animal feed, A. Cairns, Canadian secretary of the commission, said. He cited measures taken in France and Italy as precedents for such action.

President Of C.N.R.

Official Announcement Of Promotion Of S. J. Hungeford Has Been Made

Montreal. — Official announcement of the promotion of S. J. Hungerford to the presidency of the Canadian National Railways was made here by Hon. Charles F. Fullerton, chairman of the trustees.

Mr. Hungerford had been acting president since July 20, 1932, following the resignation of Sir Henry Thornton, who died later in New York City. Mr. Hungerford also carried on his former duties as vice-president in charge of operation since that date.

Mr. Hungerford has been acclaimed as a thorough railwayman since the days when, in 1886, he trudged with his dinner pail to the South-eastern railway shops in Farnham, Que., to start his career as an apprentice.

In due course he became a machinist and from that start moved steadily on until in 48 years he has become president of one of the largest railway systems on the North American continent.

Neglected Getting Permit

Edmonton. — Because John Morawski, a prospector, neglected to get a permit for the gun which he had borrowed "to protect myself from bears," and from men, who, he said, had threatened to kill him, he will serve a year in jail. He was convicted of a charge of carrying a revolver without a permit.

For Mapping Stars

London.—For mapping the position of 1,000,000 stars, Miss Ethel Bellamy has received an honorary degree of master of arts from Oxford university. Now 45 years of age, Miss Bellamy has been assistant director of the university's observatory for many years.

Oil Well On Prince's Ranch

High River, Alta.—The ranch of the Prince of Wales near here, well known as the E.P. ranch, comes into the news with the spudding of a small well half a mile from the prince's property line and a mile and a quarter from the ranch house.

W. N. U. 2032

Problem Of The Idle

Hon. Arthur Meighen Says Canada Should Study Efforts Of Roosevelt

Ottawa. — Canada should study carefully and with a lot of sympathy the courageous effots of the president of the United States to overcome the serious conditions with which that country is faced, Rt. Hon. Arthur Meighen declared in the senate. As government leader in that chamber he was speaking on the address in reply to the speech from the throne.

Canada was doing, he believed, the best it could to meet the situation.

Day by day, hour by hour, this great problem of the unemployed was being impressed upon him, Senator Meighen said.

Searching For Coal

Mine Experts Have Already Found Iron Ore In Irish Area

Dublin.—The green of "Ould Ireland" may be covered by the smoke of industry if the Republican government is successful in its announced determination to make the Free State independent of the United Kingdom or any other country, for its fuel supplies.

French engineers and mining experts engaged in boring operations in the Arigna valley, County Leitrim, under government auspices, have discovered three rich veins of iron ore, it was announced. They were proceeding to search for coal.

Receives Letter From Queen

Cambridge Man Offered Lift When Royal Car Stalled

Cambridge, England. — Mr. and Mrs. Percy Titmous have received a letter from the queen.

Her Majesty expressed to the Titmouses her grateful thanks for their assistance when the queen's automobile broke down on the road between Cambridge and Ely.

On that occasion Mr. Titmous transported the queen in his little sedan from the stalled royal limousine to the queen's destination in Cambridge.

Seek Lower Freight Rates

Crow's Nest Rates Asked For Grain Moving Westward

Ottawa. — Designed to provide lower freight rates on grain from Fort William to the Pacific coast, an amendment to the Railway act will be introduced in the house of commons by Thomas Reid (Liberal, New Westminster).

The bill would make the Crow's Nest rates, now applying on grain moving eastward from Calgary to the head of the lakes, applicable to grain shipments from Fort William to Vancouver.

Bonus Paid U.S. Farmers

Washington, D.C. — Bonus payments to farmers reducing wheat acreage in co-operation with the agricultural adjustment administration program up to January 21, last, totalled $30,994,785 among 399,762 farmers in 35 states. It is planned to pay out about $100,000,000 in this drive.

Says U.S. Should Join

Ottawa.—An appeal to the United States to join the League of Nations was made by Senator Raoul Dandurand in the senate. For seven years he was one of Canada's representatives on the league and president of the assembly in 1925. He is opposition leader in the upper chamber.

Would End Economic War

Dublin.—The Free State senate passed a motion urging the government to approach the United Kingdom with a view to setting up a joint commission to put an end to economic warfare.

Relief Fund For India

London. — The lord mayor has opened a fund for relief of sufferers from the earthquake in India a fortnight ago. He said latest news indicated the death toll would be more than double previous estimates.

NEW DEPUTY MINISTER

William M. Dickson, who has been appointed Deputy Minister of Labor for Canada. Mr. Dickson has been private secretary to Hon. Wesley Gordon, Minister of Labor.

Verne Sankey Arrested

Former Westerner Is Suspected Of Kidnapping

Chicago.—Verne Sankey, one of the United States' notorious kidnappers, suspected of the fatal Lindbergh abduction and nearly a half dozen others, was captured here by federal agents.

The former Melville, Sask., railroader turned desperado was taken in a Northside barber shop. He was unarmed and offered no resistance.

In his clothing were found several poison pills, presumably carried for the purpose of ending his own life in event of apprehension. He was overpowered, however, before having a chance to use them.

In the apartment of the 43-year-old naturalized Canadian was found a small arsenal—two .38 calibre revolvers, a sawed-off shotgun and a large quantity of ammunition. In a tin box was found $3,200 in $100 bills, $200 in $20 bills and $30 in $1 bills. A woman giving the name of Helen Mattern also was arrested in the apartment. She denied knowing Sankey's true identity.

Want Interest Moratorium

Victoria.—Extension of mortgage moratorium legislation to include interest as well as principal is sought in a resolution passed by the Union of British Columbia Municipalities in convention here. The union decided to ask the provincial legislature to provide that judges may remit interest as well as principal payments entirely within their own discretion.

Propose Wage Investigation

Hon. Chas. Stewart Would Probe Industrial Activities

Ottawa.—Hiding behind tariff protection, some Canadian manufacturers have made excessive profits throughout the depression yet paid the lowest wages in history to their employees, it was charged in the house of commons by Hon. Charles Stewart, former minister of the interior. He proposed a sweeping investigation into industrial activities, along the lines proposed for chain and departmental store buying practices.

"I am creditably informed," said the former Alberta premier, "and I am going to ascertain the truth of the matter, that in western Ontario there is an individual engaged in production of silk stockings and silk underwear who stands to make a profit well over $200,000 this year and he is paying the lowest wages he ever paid."

There was need of an investigation to stop extravagant profits and low rates of pay, said Mr. Stewart and, at the same time, to determine how manufacturers were hiding behind tariff protection.

Titles Resolution

Labor Member For Hamilton East Makes New Motion

Ottawa. — Humphrey Mitchell, Labor member for Hamilton East, withdrew his "titles resolution" from the house of commons order paper and filed a substitute with the clerk based on the suggestion made by Premier R. B. Bennett.

The new motion reads "that in the opinion of this house the prime minister should refrain from recommending to His Majesty the King the granting of titles, honors and awards to British subjects resident in Canada."

Intercollegiate Debates

Results Are Announced Of Four Trans-Canada Contests

Toronto.—Results of four intercollegiate trans-Canada debates were announced here as follows:

Dalhousie University defeated University of New Brunswick, Fredericton; Laval University, Quebec, defeated the University of Ottawa; University of Western Ontario, London, defeated McMaster University, Hamilton; University of Saskatchewan, Saskatoon, defeated University of Manitoba, Winnipeg.

GOVERNOR-GENERAL OPENS PARLIAMEENT

Our picture shows His Excellency, the Earl of Bessborough, Governor-General of Canada, arriving at the Houses of Parliament to preside at the ceremony in connection with the opening of the fifth session of the 17th Parliament of Canada.

ARMS EQUALITY FOR GERMANY IS BRITISH PLAN

London.—Hopes for a way out of the present deadlock in efforts towards limitation and reduction of world armaments were revived here by publication of a revised British disarmament plan, now being studied by the principal powers concerned.

Stepping into the breach existing since Germany abandoned the disarmament conference and the league, the United Kingdom called for adherence to a concrete 10-year plan of actual disarmament, recognition of Germany's claim to equality in arms, and acceptance of further security proposals.

The plan, circulated to principal governments in the form of a memorandum, definitely aims at satisfying Germany's claim for equality and thereby bringing her back into the arms conference and the League of Nations.

The memorandum was seen as an attempt to bridge the gap between the Hitler equality claim and insistence of France on security. It said:

"The object of His Majesty's government in formulating these proposals and presenting them for consideration is not to describe the terms of an agreement which they themselves would most desire without regard for the claims or needs of others, but to propound a basis for compromise on which it would appear in the present circumstances a general agreement could and should now be reached."

The heavily-armed powers are urged to abandon certain classes of weapons. It is pointed out that Chancellor Adolf Hitler has declared Germany voluntarily renounces any claim to possess "offensive" weapons and limits herself to normal "defensive" weapons.

Declaring Chancellor Hitler advanced this proposition on the assumption that heavily-armed states are not prepared to abandon, under the convention, any portion of their existing weapons, the memorandum said:

"His Majesty's government, entirely unwilling to accept this last assumption, must insist that the only agreement worthy of the name disarmament convention will be one which contains a reduction as well as a limitation of armaments."

The British memorandum heavily stresses the importance of the principle of equality or rights. Parity between the principal nations is considered of greater importance than any actual figures of army strength or categories of weapons that may finally be approved.

Flight Ends In Tragedy

Crew Of Soviet Balloon Killed While Attempting To Land

Moscow.—All three members of the crew of the Soviet stratosphere balloon "Osoaviakhim" were killed, several hundred kilometres southeast of Moscow, near the village of Potiskyostrog.

After reaching an altitude which they reported as 67,585 feet and beginning a descent, the crew reported they could not determine their position.

The crew was killed while attempting to land the great balloon.

The balloon bag broke away from the gondola as it hit the ground in a hard landing. The force of the concussion killed the three occupants of the gondola and destroyed all the scientific instruments aboard.

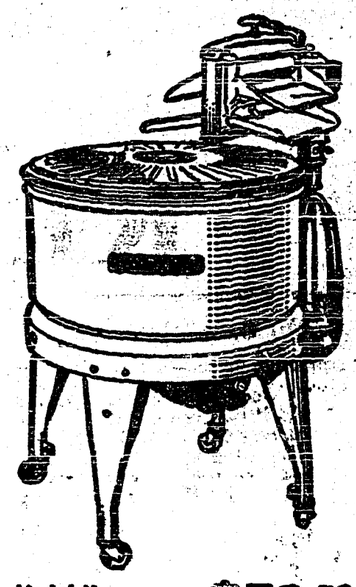
Following the crash the bag tore loose from the gondola and disappeared into the clouds.

What Canada Has Gained

Toronto.—One thing Canada had gained by the recent years of depression she has passed through was the realignment of trade routes and the formation of new trade channels, according to the monthly crop report, compiled for the Ontario department of agriculture by S. H. Symons, statistician and economist.

GENERAL ELECTRIC

Agitator Washer



An exceedingly low-priced washer that renders excellent service. The modern agitation method assures a thorough washing action. The tub will accommodate approximately 6 pounds of clothes.

The wringer is adjustable with safety lever and highest quality cushion rubber rolls. The gear drive insures the ultimate in efficiency and trouble-free operation.

Costs only TWO CENTS AN HOUR to operate!

CRESTON MERCANTILE

GROCERIES COMPANY LTD. HARDWARE

Local and Personal

FOR RENT—Three acres of bearing orchard, opposite Sinclair's hardware store, Creston. Will rent for cash or on shares. Enquire R. Walmsley, Creston, or write owner, B. Johnson, Kitchener, B.C.

A. Mackie of Boswell was here Friday for the Growers Stabilization Committee public meeting, and reports that every grower at Boswell has signed up as favoring the proposed new marketing policy.

Creston high school basketball teams broke even on the return game with Kimberley High School at Kimberley on Saturday night. The boys were outclassed 38-8, but the girls came through with a 22-16 win.

Friday was Candlemas Day, the day when the bear and groundhog come out to size up the weather. As the day was partly su ny it is presumed he saw his shadow and has gone back for another six weeks' snooze, meaning winter is not yet over.

F. Ricketts who, in January, took over the Creston Valley barber shop in the old Speers' store on Wilson Avenue, has retired from business and the shop is again in charge of the former owner, Ed. Lewis. Mr. Ricketts left for Calgary on Thursday last.

Ed. Lewis of Creston Valley barber shop and beauty parlor announces that he has again taken possession. Business is being carried on as usual, and by the middl of the month modern equipment will again be installed and still better service given at the old moderate charges.

The coldest weather encountered in January according to the official records was on the 15th when the mercury went down to 9 above zero. The mildest touch was on the 21st when 48 above was recorded. There was almost two inches of rain and 19 inches of snow during the month.

Friday night's clash at basketball at Park pavilion brought another even break. Cranbrook men's team swamped the locals 26-14, but Creston ladies had no trouble disposing of the divisional city girls by a 20-10 margin. After the game the visitors were guests at a supper and dance.

NEW VICTORIA STRAWBERRY—Cross between Royal Sovereign and Magoon, good flavor, heavy cropper, drought resister, strong plants for spriug delivery, ORDER NOW for a propagating patch, 12 plants for 30 cents; 50 plants for $1; 100 plants for $2; cash with order. H. F. Robson, Wynndel, B.C.

Orchardists were out in large numbers for the public meeting of the local Growers' Stabilization Committee in United Church hall on Friday afternoon. W. G. Littlejohn presided in very capable fashion and the number signing up as favoring the proposed new marketing plan was exce tionally satisfactory.

The ranks of the unemployed were reduced about two dozen at the end of the week when the C. O. Rodgers veneer mill and basketmaking plant commenced the season's operations, taking on 18 girls and four or five men in the make of veneer and bedding boxes and tintops. Prospects are bright for a longer run than in 1933.

The Ladies Legion Auxiliary had a fair turnout for the bridge drive at the Parish Hall on Friday evening at which the high score prizes were take n by Mrs. Mallandaine and Eric Craigie, and the consolation honors went to Mrs. E. W. Payne and W. G. Littlejohn. A lunch was served after cards and the prizes presented by Col. Mallandaine.

Another ranch property sale is reported closed this week. The purchaser is Mrs Gay of Prince Albert, Sask., who has secured the ten-acre orchard of Col A. Fitzgerald, who for some years has been residing in Hants, England. The sale was put through by R. Wa msley and the purchaser gets immediate possession.

Creston encountered what has all the earmarks of being an earthquake shock at about 12.40 noon on Thursday last. It lasted a few seconds and reminded of the after effects of a heavy blast, only it was of longer duration. Below the track the tremblor was quite noticeable but in other parts of town one hears of houses rocking and dishes rattling on the table. One reliable reader informs that where there is a depth of snow the white goods sank five inches following the "quake." Daily press reports there were no reports of shocks anywhere else that day.

The schedule for the Kootenay basketball championship playoffs has been issued by President Foubister of Kimberley. Creston men play Kimberley at that town on February 10, with a return game here on the 17th—a two game series to decide who will meet the winners of Cranbrook-Fernie on February 24th, to get the East Kootenay champion to meet the West Kootenay finalist in a sudden-death game for the Kootenay honors. Creston ladies have a bye into the East Kootenay finals, playing the winners of Kimberley-Cranbrook in a two-game home-and-Home series on February 24th and March 3rd. If they win they will play the West Kootenay finalists for the right to proceed to the Okanagan.
