THE CRESTON REVIEW

VOL. XIX. CRESTON, B. C., FRIDAY, JULY 29, 1927 No. 23

Kitchener

Mr. and Mrs. B. Johnson and son Robert, and Mildred Andeen, returned on Sunday after a weeks' visit at Nelson, Trail and Rossland.

Lewis Simpson left on Monday for Claresholm, Alberta, and other prairie points.

Don't forget the dance in Hunt's Hall, Saturday night, July 30th.

Miss Beatrice Molander left on Friday on a visit with Canyon City friends.

Mrs. G. A. Hunt and daughter, Clara, left on Monday for Erickson, where they will spend part of the week an the ranch.

Misses Laura Andeen and Esther Nelson are on a visit at Cranbrook, leaving on Tuesday.

Ray Crisler of Erickson and Orin Hayden of Creston were motor business visitors on Wednesday last.

Jock McRobb, Creston's new provincial police officer, made an official call on Wednesday.

Mr. and Mrs. C. L. Brown of Calgary, were motor callers here on Wednesday. A. R. Barge of Whitefish, Montana, was a Monday motor caller.

Capt. Oatts, forestry official at Creston, was here on Thursday last, arranging for the forestry moving picture show depicting forestry work given here on the 28th.

G. Sutherland of the Sutherland garage, Kimberley, was a motor caller on Thursday.

Mrs. J. J. Baston of Seattle was a visitor here last week with her sister, Mrs. Andy Abrahamson, returning on Sunday.

Grover Kifer and L. Martinson of Canyon City were motor visitors here on Thursday.

Mr. and Mrs. B. Sly and Alex. Derby of Cranbrook, were combining business with pleasure on a call last Thursday.

J. D. Spiers and Tom Ross of Creston were renewing acquaintances in Kitchener one day last week.

Of the five pupils who wrote on the High School Entrance examinations at end of June, Beatrice Molander and Claude Simpson were successful.

Mr. and Mrs. K. N. Jones and W. Hilder of Calgary, Alberta, C. Fagerstrom of Porthill, Idaho, and Mr. and Mrs. H. B. Davis and family of St. Marries, Ihado, were motor callers during the past week.

C. A. Anderson, J. Ryckman, H. S. McCreath, S. A. Speers, C. F. Hayes, Geo. Johnson and Jock McRobb, were a septette of Creston's foremost citizens who were enjoying the scenic beauty of Kitchener on Monday.

Major Mallandaine and C. W. Allan two other distinguished residents of Creston were renewing acquaintances here on Friday.

BASE BALL!

Lumberton vs. Creston

at

CRESTON

on

Sunday, July 31

2.30 p.m. Prompt.

Mitchell, who pitched for Creston against Borners Ferry four years ago, is pitching for Lumberton this season.

Creston lineup will be strengthened and the boys hope for a good crowd to support them. They have won 10 out of 12 starts this year, and in Lumberton they are running up against a team that is the best in the Cranbrook area this year.

MOYIE will also play a return game here in a couple of weeks' time.

Wynndel

Monard Wigen left last week for the Lardeau where he is superintending loading out several cars of poles.

Mr. Haggart, representative of the O'Loane-Kelly Company, left here last week after seeing the berries for his firm shipped out.

Will Johnson and Percy Lunt, who have been away since spring, returned home last week.

Ray McKelvey and Angus Cameron, who have been motor trucking logs for J. B. Winlaw, have completed their contract, and have returned to Erickson.

Miss Rose Cherrington has tendered her resignation as principal of Wynndel school, after two years at the work, during which time she has given the very best satisfaction.

Ranchers are busy now cutting down and burning their strawberry patches.

The heat and the mosquitoes are making this year's pick of raspberries anything but an agreeable job. We are grateful, however, for the rapid disappearance of the water in the slough, which will help some.

Mrs. and Miss Peterson left last week for their home in Saskatchewan.

David Taylor was the fortunate one of the half-dozen candidates who this year wrote on the High School Entrance exams.

Lister

Ed. Langston, sr., of Kimberley was visiting with his son, Harold, at the end of the week.

Jas. Duncan is temporarily in charge of the cookhouse at the Putnam, Palmer & Staples, Limited, sawmill, the regular chef, Mr. Chevalley, being laid up with a bad leg.

Alex. Charneski of Prelate, Sask., a student in agriculture at the University at Saskatoon, where he is taking the B.S.A. course, was a visitor here this week with Wm. Demchuk, with whom he neighbored on the prairie a few years ago.

Mrs. Bamford of Nelson was a Lister visitor a few days last week, a guest of Mrs. Bird.

Mr. and Mrs. J. Burrows and daughter, Laura, of Winnipeg, Man., are Lister visitors for a couple of week's guests of their daughter, Mrs. Harold Langston.

Geo. Jacks is keeping Lister on the fruit shipping list, starting to move his crop of Lambert cherries on July 21st.

Mrs. O. VanEtter of Bonners Ferry is a visitor here this week with her parents, Mr. and Mrs. Sam Demchuk

The hay cut is completed here, and is most satisfactory, but the extreme heat of the past week will shorten up the second cut of alfalfa unless we get rain shortly.

A meeting is called for August 27th at the Huscroft school for the purpose of discussing the advisability of forming a Boys' and Girls' Calf and Sheep Club.

Bill Demchuk had the misfortune to lose his log residence and much of the contents in a fire that destroyed the old log home on Wednesday afternoon of last week. Fortunately some insurance was carried.

Pupils from this section were quite the best of all writing on the High School Entrance examinations at Creston at the end of June. Jack Bird with 848 marks, and Pearl Huscroft with 821, taking highest and fourth highest standings of 90 pupils from Creston Valley writing.

COWS FOR SALE—Holsteins, fresh. H. Helme, Camp Lister.

Erickson

Miss Frances Handley left for Cranbrook at the end of the week, where her brother, Lawrence, is a hospital patient, suffering from typhoid fever.

Mr. and Mrs. E. W. Klingensmith were motor visitors at Cranbrook on Monday, returning the following day.

Mrs. Geo. Cartwright is another visitor to Cranbrook, who got back on Monday.

Miss Dorothy McKowan of Cranbrook, who is holidaying here this month, is a visitor with Miss Home at Boswell at present.

Word has just come that Miss Ferguson, a former teacher here, who was on the temporary staff at Fernie last year, has just been appointed to to the permanent teaching staff in that town.

Miss Kathleen Bundy left at the end of the week for a holiday visit with Mr. and Mrs. Clarence Bundy at Cowley, Alberta.

The road crew started work on Monday to put in a cutoff that will eliminate the rather lengthy gooseneck on the Erickson-Arrow Creek road about a quarter mile from the Crisler garage.

Jack Dodds and Martin Nelson left a few days ago for the Lardeau, where they have a pole skidding contract.

Crisler's garage last week disposed of a classy Chrysler sedan to E. W. Klingensmith.

The results of the Entrance exams. this year was not up to the high standard of 1926. Richard Thurston and Lyle Kemp are the only two who were successful.

Mrs. Roy Telford and Master Sandy, with Madeline and Douglas Putnam and Ruth Cartwright, left on Monday on a visit with friends of the former at Staveley, Alberta.

Raspberries are the big shipper here at present and are moving in satisfactory quantity. Sunday was the big day of the season with an outgo of 124 crates. The first crate of cucumber went east on Wednesday, 27th. It was from the E. S. Cuming ranch.

Mrs. Harry McKowan of Cranbrook was a motor visitor here on Monday and on on her return was accompanied by her father, Geo. Cartwright, and her sister, Mrs. J. S. Peck.

LETTERS TO THE EDITOR

Electric Light Contract

EDITOR REVIEW:

SIR.—I wish to correct some statements that are being circulated re electric light.

It is being stated that the contract between the Village Commissioners and myself was approved by me, before it was sent to Victoria for approval. This is not so, I never saw the contract before it came back from Victoria approved.

It is also being stated that my factory, office and residence was exempted and specified in the contract. This is not so, the Commissioners said it was understood, but it was not in the contract.

There is also some people can't understand why I did not want to furnish lights outside the Village limits and these are the reasons. I agreed to put in a 2300 volt generator which is ample for the Village of Creston, and, for your information I wish to explain to you regarding generating of electricity. You put in a 2300 volt generator, it will deliver electricity for a given distance and no farther. If you wish to extend to a greater distance you must use higher voltage, and the higher the voltage, the more expensive generator is required, and you would have a greater voltage on this high voltage machine to cut it down to 110 volts. that you must do, before it enters your house.

But this should not be considered by your Commissioners or anyone else, for the Village of Creston, cannot sell lights outside of the Village of Creston, if I am rightly informed, so why should we argue this question.

CHAS. O. RODGERS.

Death of Richard Walters

Death, at St. Eugene Hospital, Cranbrook, on July 21st, of Richard Walters, has claimed a well known figure in the local fruit industry, deceased having had charge of the Creston Co-Operative Fruit Exchange packing houses a Creston and Erickson for the past four seasons coming here from Kelowna in May, 1924. He was 45 years of age and death ensued after a brief serious illness as it was only the Saturday previous that he was taken to the hospital.

A native of Detroit, Michigan, deceased came to British Columbia almost twenty-five years ago, and for the greater part of that time has been associated with the fruit industry—in its infancy in the Kootenays deceased conducted packing schools at Arrow Lakes points. Prior to coming to Creston he had been engaged at warehouse work at Vernon, Kelowna and Peachland. He was married at Vancouver in 1919, to Miss Marie Newmayer, and is survived by Mrs. Walters and one daughter, Doris, besides his mother, five sisters and one brother.

The remains arrived from Cranbrook on Friday afternoon and rested at St. Stephen's Presbyterian Church, from which edifice the funeral took place on Saturday with the pastor, Rev. W. E. Daly, assisted by Rev. J. Herdman of Trinity United Church, conducting the last sad rites. There was a large turnout of friends to pay a last tribute of respect, with R. J. Long, Jas. Compton, C. H. Hare, M. J. Boyd, M. R. Joyce and R. A. Palfreyman, pallbearers, with a wealth of floral remtrances bespeaking the high esteem in which deceased is held.

Of a decidedly retiring disposition deceased's friendships were limited, but they were genuine. And this same thoroughness was characteristic of him in his work which was very largely responsible for the Exchange output ranking so high with other Associated Growers sub centrals packing to the well-known OK brand, which was was introduced here in 1924. In the passing of "Dick" Walters Creston has lost an estimable husband and father and a worthy citizen and all sincerely sympathize with Mrs. Walters and family in their heavy bereavement. Those remembering with flowers were:

Wife and daughter, Mr. and Mrs. Boyd, Mrs. Bevan, Mrs. W. K. Brown, Mr. and Mrs. Jas. Cook, Mr. and Mrs. Craigie, Mr. and Mrs. A. L. Cameron and Mrs. Boninger, Mr. and Mrs. Jas. Carr, Mr. and Mrs. Craig, Miss Ruth Compton, Mr. and Mrs. Dow, Mrs. and Miss Fleetwood, Mr. and Mrs. Greenwood, Directors Co-Operative Fruit Exchange, Mr. and Mrs. G. Hendren, Mr. and Mrs. Hamilton, Mr and Mrs. Hester, Rev. J. and Mrs. Herdman, Mr. and Mrs. C. H. and Mrs. W. Hare, Mr. and Mrs. Joyce, Mr. and Mrs. G. Johnson, Mr. and Mrs. G. Kelly, Mr. and Mrs. L. T. Leveque, Mrs. L. Mead, Major and Mrs. Mallandaine, Mrs. McGonegal and family, Mr. and Mrs. McCreath and family, Mr. and Mrs. Palfreyman, Presbyterian Ladies' Aid, Mr. and Mrs. C. O. Rodgers, Mr. and Mrs. S. A. Speers, Mr. and Mrs. R. M. Telford, Mr. and Mrs. W. M. Vance, (Nelson), Mr. and Mrs. A. Weir, Mr. and Mrs. McLaren, Mr. and Mrs. T. W. Bundy, Mr. and Mrs. S. Watson, and others from which the cards became detached.

HAY FOR SALE—Five tons alfalfa at $20 ton delivered; or $15 ton at stack. Albert Stewart, Creston.

Alice Siding

BIRTH—At Vancouver on July 21st, to Mr. and Mrs. Roy Pease, a daughter.

Mr. and Mrs. Frank Pascoale and sons, Robert and Ray Cox, of Cranbrook, were motor visitors last week with Mr. and Mrs. A. G. Cox.

Miss Gladys Webster, who has been in charge of a school at Foremost, Alberta, is home for the summer vacation.

John Marshall left a few days ago for Vancouver, where he will be remaining until about October. He is a guest of his son in that city, and is taking optical treatment.

Anthony Anderson spent a day here last week with his son, Tom, enroute to Victoria,

Mr. and Mrs. Charles Martin and family motored in from Vancouver last week, on a visit with his parents, Mr. and Mrs. J. C. Martin.

Reed & Mather finished the strawberry shipping on the 19th. The crop was heavy and was moved in excellent shape with Bob Marshall as field boss.

Mr. and Mrs. J. C. and Frank Martin, with Misses Jennie and Lucy Marshall were Monday holidaymakers at Kuskanook, where they tried out the fishing with great luck.

Bill Vaness of Kitchener was here on a weekend visit with his sister, Mrs. A. G. Cox. He is with the Sash & Door Company mill, which will close next month.

Those winning honor rolls at Alice Siding school for the year ending at July were: Proficiency—Arthur Constable. Punctuality—Betty Ostrenski. Attendance—Betty Smith.

Successful Candidates

Passed (Entrance) into Grade 9: Creston—Ena Christie, Arthur Webster, Letty Couling. Lister—John Bird. Canyon City—Elsie Clayton. Erickson—Richard Thurston, Lyle Kemp. Huscroft—Pearl Huscroft. Kitchdner—Beatrice Molander, Claude Simpson. Wynndel—David Taylor.

Passed into second year High School—Mildred Andeen, Marion Collis, Alex. Henderson, Ada Lewis (all with supplementals).

Passed into Grade 11—Jeanne Hall (with supplemental).

Passed into Grade 12—Edward Bush, Robert Long, Joyce Moore, Winnie Palfreyman (S).

Your grocer knows when you order RED ROSE ORANGE PEKOE you are a judge of fine tea.

The Canadian People

In rounding out the celebration of the Diamond Jubilee of Confederation, the Dominion Parliament at its next session might well take one more step to further promote a united Canadian sentiment and develop a stronger Canadian national spirit by making legislative provision for the recognition of the Canadian race, and to enact that a person born in Canada, whatever their racial descent, shall be designed in the census returns of this Dominion as a "Canadian."

At the present time, tens of thousands of native-born Canadians are made to suffer a feeling of inferiority, not only in their own eyes but before the world, through their inability to record themselves as Canadians. Under the census regulations of the past they have been forced to designate themselves as English, Irish, Scotch, French, Dutch, German, American, — anything but what they really are, Canadians.

As a result, the census statistics of this Dominion advertise to the world that this country of Canada is inhabited by all manner of races and conditions of people, except Canadians. That in all this broad Dominion, a self-governing nation in the British Commonwealth of Nations, with a status equal to that of Great Britain itself, and a full-fledged member of the League of Nations, there is no such person as a Canadian.

If in England the same antiquated and obsolete system of census enumeration prevailed, many families who have lived in England for centuries would be compelled to classify themselves as Dutch, or French, anything but English. His Gracious Majesty the King, the Prince of Wales, and other members of the Royal Family would be recorded as German. In the United States, if our absurd system existed, there would be every known race under the sun, except Americans. It is the un-understandable insistence of the Ottawa authorities in this matter which is one of the causes of people in other lands failing to understand and appreciate the national and international position of Canada today.

Furthermore, the existing state of things is most unfair to the people of Canada. There are thousands of Canadians whose parents, grandparents, great-grandparents, were born in Canada, and who do not know, and much less care, whether generations back their forebears originally hailed from the British Isles, the continent of Europe, or the isles of the seas. They are Canadians. That is good enough for them, and it ought to be good enough for the Canadian Government.

In some cases a man's great-grandfather may have been Scotch and his great-grandmother French; their son may have married a German; the female offspring of this latter union hay have married a Ukrainian born in Canada but one of whose parents was a Hungarian, who in turn had Russian blood. What is the nationality of such a Canadian-born man? He himself does not know, and it is doubtful if the average census enumerator can figure it out. The only point on which the enumerator is clear, and because the Government in its instructions to him makes it absolutely clear, is the man is not a Canadian regardless of the number of these generations of varying racial descent who were born in Canada.

"Canada our Country" was the motto of the Diamond Jubilee celebrations. "Our people Canadians" should be the record disclosed by the census returns, not a conglomerate mixture of peoples. Under the existing system of enumeration it is not at all surprising that so many false statements are being made to the effect that Canada is rapidly becoming a non-English country, and that the foreign-born predominate. If the children of three and four generations of native-born Canadians must still be classified as Russian, or German, or Austrian, anything and everything but Canadian, it is small wonder that people who do not understand our uniquely absurd system are misled and arrive at conclusions the very reverse of true.

Canada's Diamond Jubilee year is a most appropriate time for Parliament to right this injustice to so many of its citizens and to the Dominion as a whole.

To Cross Ocean In Small Boat

Steel Vessel Twelve Feet Long Will Be Used By Daring Navigator

In a tiny, submarine-like steel vessel of his own construction, built during his spare time, William Oldham, of Warrington, Lancashire, proposes to set out shortly on an adventurous voyage from Dover to New York. The boat, which is only 12 feet long, with a beam of 3 feet, will be propelled by a navigator with a pedal mechanism much like bicycles operating the two bladed propellor.

A "windmill" geared to the shaft will relieve him when the wind is fair. Two persons can be accommodated, although there won't be full length sleeping quarters. There are six watertight compartments and four gunmetal windows. Oldham will be able to button himself down when the weather is bad and keep a lookout from a small "conning tower." He has estimated that the trip will occupy 40 days, and he is desirous of finding some one to share the hazards with him.

Insulin Capsules Made

Insulin may now be taken in capsules, according to investigators at the University at Breslau, Germany, who claim to have found a substitute for the pancreatic insulin. Heretofore the remedy for diabetes could not be given in the form of drops, powders or tablets, but must be injected under the skin. Prof. J. C. Minkowski, who conducted the method of giving insulin has been effective in a number of cases.

By a new device an approaching train completes a circuit and thus swings a crossing light into a *coin manding position*, rings a bell and displays a danger flag.

FACE LOOKED TERRIBLE

Pimples Were Awfully Painful. Cuticura Heals.

"A small pimple appeared on my chin and I scratched it causing more to come. The pimples were hard and sore and I used to keep scratching. They festered and were awful painful, and my face looked terrible. I was discouraged because when I went out it seemed as if everyone was looking at me.

"I began using Cuticura Soap and Ointment and in a week's time I could see they were helping me. I continued using them for a month and the pimples disappeared. I was healed." (Signed) Mrs Harry Heffel, Borden, P. E. I., Nov. 19, 1926.

For every purpose of the toilet and bath, Cuticura Soap, Ointment and Talcum are excellent.

Sample Each Free by Mail. Address Canadian Depot: "Cuticura, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Quick Stop for Airplanes

New Device Will Permit Planes to Land on Roofs of Buildings

Airplanes can now be safely brought to a stop within a distance twice their own length under a reversing propeller arrangement patented by C. Francis Jenkins, noted Washington inventor.

The propeller cannot be operated until the plane lands, Jenkins explained, and when thrown in reverse halts the airplane with the ease of powerful brakes.

The inventor believes his device will permit air fields for mail and commerce to be established on the roofs of buildings, eliminating the slower and costly hauling of mail, express and passengers from suburban fields.

Sour Stomach Risings Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergent ills, always keep trusty Nerviline on hand. 35c. at all dealers.

Mapping Canada From the Air

Since 1921 when aerial photographic surveys were begun by the Topographical Survey of the Department of the Interior, 25,630 square miles in Canada have been covered by vertical photographs and 127,740 square miles by oblique aerial photographs.

DEBILITY DUE TO INDIGESTION

Perfect Digestion Comes Through Rich, Red Blood

There can be no perfect digestion unless you have rich, red blood. This is scientifically true. It is also true that there is no tonic for the stomach that is not a tonic for every other part of the body. The way, then, to tone up the stomach is to tone up the blood.

The many so-called stomach remedies merely try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended. There is no pleasure in eating predigested food. Tone up your stomach and your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin you need the help of Dr. Williams' Pink Pills to enrich the blood and restore strength. In addition use care in the selection of your food and your stomach trouble will soon pass away. Mr. Gordon Dundas, Peterboro, Ont., tells as follows what this medicine did for him. He says: "Something over a year ago I was a gasoline salesman when I was taken sick. I felt very miserable and lost twelve pounds in weight. I did not sleep well and could not eat as I could scarcely retain anything in my stomach. I went to a local doctor who told me the fumes of the gas had got into my system. He gave me some medicine and told me I had better go to the country for a change of air. I did so, but I still felt listless and groggy, and had no ambition. On the advice of a friend I decided to try Dr. Williams' Pink Pills. I had not been taking the pills long before I was beginning to rest better, and to eat fairly well. I kept on taking the pills until at the end of the seventh box I knew I did not need any more; as I had gained the weight I had lost, slept well and could eat anything. I have since had splendid health and cannot say too much in praise of Dr. Williams' Pink Pills.

You can get these Pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Teacher: "For men must work and women must weep." What is the meaning of that line, Tommy?"

Tommy: "It means that men have to work to get money, and then the women have to cry before the men will divide it with them."

Blisters.

Prevent any chance of infection by using Minard's. Heals also.

MINARD'S "KING OF PAIN" LINIMENT

Farmers Market Tour

An Exceptional Opportunity for Farmers of Western Canada to Visit the Old Land

The British market must ever remain the most desirable outlet for Canadian farm products. As a result of keen competition from other countries, it is vital that the Canadian farmer should become familiar with what this market desires. As very few agriculturally trained observers from this country have had this privilage, many would welcome the opportunity of making an intimate study of marketing conditions at first hand. There has therefore been organized a "Farmers' Marketing Tour" by the Department of Agriculture of the Canadian National Railways. This tour, which will be open to any Canadian farmer, will be of some seven weeks duration, leaving Halifax January 8, next, with a full month spent in the old land, during which important marketing centres in England and Scotland, and some of the farms where famous breeds of livestock have been developed, will be visited, with a side trip to Denmark for a study of co-operative marketing in land of its birth.

The tour originated by Dr. W. J. Black, director of colonization, agriculture and natural resources, on the Canadian National Railways is being planned to provide the maximum of educational value, combined with all the pleasures of the ordinary sightseeing tour. The study of conditions abroad by a large group of observers from the farms in Canada should have its practical results in the successful application of the knowledge gained on such a tour to the general improvement of the agricultural industry in Canada.

The tour is essentially for the Canadian farmer. Any farmer anywhere in Canada, or anyone vitally interested in agriculture and marketing problems, and in the development of wider markets for Canadian products, may join the tour, and it will also be possible for women who are interested in any phase of agriculture to go.

The cost of the tour from the time of leaving Halifax, Canada, until the return to that port will be $500.00. This cost includes all ocean fares and meals, railway and bus fares in the old land, accommodation at good medium-class hotels, meals and ordinary costs incidental to the tour while overseas.

In addition: members of the party will pay their railway fare and cost of travel to and from the port of sailing at special rates provided, and will be required to bear passport costs. Government tax on steamship ticket, tips on board ship crossing the Atlantic, and personal expenses such as laundry, etc., and any additional expense of entertainment incurred by themselves.

Ocean accommodation is being provided by the White Star Line, Canadian Service. The party will sail on the steamship "Devonian" on Sunday, January 8th, the accommodation for the party being tourist class with rum of ship. The return voyage will be made on the steamship "Albertic," sailing from Glasgow on February 19th, the accommodation for the party on this ship being tourist class. The accommodation and service on these well known steamships is excellent and the party is assured of a pleasant and comfortable voyage. Members of the party wishing to remain longer in the old land may arrange for similar accommodation on any later ship through the White Star Line offices overseas.

Further information may be secured aboht the Farmers' Marketing Tour by communication with W. J. Black, Director of Colonization, Agriculture and Natural Resources, Canadian National Railways in Canada.

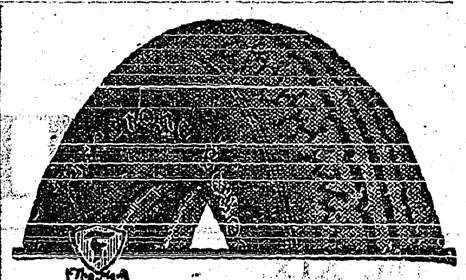
Alberta Fur Production

Official figures show that Alberta's total fur production for the fiscal year 1925-26 was valued at $2,122,778.-00. This represents a gain of $90.-000.00 over the preceding year, and puts Alberta in third place among the provinces in the value of furs produced.

A London school started primarily to teach languages, now finds most of its pupils among American tourists who are anxious to acquire an English accent within a short time. A close second in popularity is a course in "curing" accents.

Canada's gross agricultural wealth is nearly eight billions, increasing nearly three-quarters of a billion in three years.

The way to see the virtues of a trust is to become a stockholder.



Gum-Dipping

A Firestone Contribution to Economical Travel

The greatest enemy to tire life is not the chopped-up road, the broken pavement or the harsh grind of rough city streets—but heat, which is created by internal friction. Heat not only weakens the fabric, but also softens the the rubber and causes blowouts and tire failures.

Firestone chemists and engineers knew that if they could find a way to eliminate this destructive heat and internal friction, the mileage-giving qualities of tires would be greatly increased. Such a method was found and called "Gum-Dipping."

The Gum-Dipping process is one of Firestone's contributions to economical travel—in insulates and impregnates every fiber of every cord with rubber, reducing internal friction and at the same time binding the cords together by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Firestone dealers everywhere—familiar with Gum-Dipping and its advantages—will gladly explain how thousands of extra miles are built into Firestone tires by this exclusive method. Take advantage of the Gum-Dipping process to lower your tire costs this year.

Russia Preparing For War

Military Sports Advocated to Awaken Enthusiasm of Youth of Country

A campaign is on foot throughout the Soviet Union for the promotion of military preparedness in the face of recent developments, which are regarded as threats of war. The period from July 10 to July 17 was designated as "defense week," toward the success of which all efforts were directed.

Military sports are being strongly advocated as a means to awaken the enthusiasm of the youth of the country and the heads of the unions are exhorting their members to rally around "Ossosviaket," Russia's greatest voluntary martial organization. The latter is headed by Alexis Likoff and War Commissar Voroshiloff, and its members are said to number millions.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Eclectric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Science has gone far, but the stairs still creak under the softest pressure at 2:30 a.m.

Minard's Liniment for earache.

Oysters and clams contain about 100 times as much iodine as beefsteak.

CHOLERA, CRAMPS, PAINS IN THE STOMACH RELIEVED BY

Mrs. D. Leavitt, Back Bay, N.B., writes:—"Last summer my children were very ill with cholera and suffered severely from cramps and pains in their stomachs. I tried several remedies, but nothing seemed to do them any good. A friend of mine told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle and gave them a few doses and they soon found relief. Now I will never be without it in the summer months."

Don't Accept a Substitute

This preparation has been on the market for 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

GRAND TRUNK SHAREHOLDERS WANT TEST CASE

London.—Lord Askwith chairman of the Grand Trunk Railway, junior stock holders organization, at an extraordinary general meeting of the shareholders here after resolutions had been passed asking for the conversion of the existing £1 shares into preference shares, mentioned that a meeting of the old Grand Trunk proprietors would be held to decide on what measures to adopt in the interests of those concerned.

Lord Askwith suggested that the stock holders should provide money for the purpose of making a test case of their rights and after quoting the opinion of Sir John Simon, who has been associated with other eminent lawyers in the matter, said the committee did not feel justified in abandoning the case without taking legal proceedings.

The resolutions passed at the meeting provided for the conversion of the existing £1 shares into preference shares with priority as to capital, the increase of the capital from 10,000 shares of £1 each to £52,000 by creating 850,000 new ordinary shares of a shilling each, and also providing for changing the organization's name to that of the Grand Trunk Junior Stocks, Limited.

The Grand Trunk Junior stockholders, several years ago, became incorporated as a private limited company whose objects were "to secure and obtain and receive compensation as an act of grace or otherwise for the former holders of first, second or third preference and ordinary stock.

Ottawa.—The Canadian Government will not take any immediate action as a result of the decision of the Grand Trunk Railway junior stockholders' organization, it was officially stated here.

"The Government will meet the legal situation when it arises in definite form," Hon. C. A. Dunning, Minister of Railways and Canals said, after reading London despatches reporting the action of the stockholders.

Rapid Transit Plans

Aferican Railroad May Use Pullmans by Night, and Aeroplanes by Day

Washington.—The statement of William P. MacCracken, Jr., assistant secretary of the department of commerce for aviation, made at Cedar Point, Ohio, that five railroads are planning to use aeroplanes to supplement their service caused much comment here. The Government will encourage the carriers in this program.

Railroad managers have in mind a part rail and part air trip from New York to the Pacific coast. It was pointed out it would soon be possible for a person to travel by train from New York to Chicago by night, take a 'plane from Chicago to Salt Lake City by day, and shorten the time to the coast materially. This is only one of the long jumps that can be fade Pullman by night and aeroplane by day. This sort of combination transportation, it is believed will become popular within a few years.

Floods in China

Shanghai.—More than 1,000 persons are reported to have been drowned and tens of thousands of people rendered homeless by floods in South Anhwei province, according to belated reports received here. The floods are reported to have taken place July 6.

Apply For License

Winnipeg.—Application has been made at the provincial secretary's office for a license to allow the Sherritt-Gordon Mining Company, a $6,000,000 mining company of Ontario, to operate in Manitoba.

Release Madame Borodin

London.—Madame Borodin, the wife of Michael Bofodin, advisor to the Hankow Government, who has been under arrest at Peking, has been released, according to the Daily Mail's Peking correspondent.

W. N. U. 1690

Hog Grading Regulations

Owing to Criticisms New Ruling Will Not Be Enforced at Present

Ottawa, Ont.—As a result of criticisms received by the department of agriculture in connection with the new hog grading regulations, it has been decided not to put them into effect July 15. It is probable that some change in the wording will be made and that the new draft will not be put into effect until August 1 or later.

In addition to the need of changes in the regulations, there are administrative difficulties in the way. It is understood that some of the parties, whose co-operation is essential if the grade of hogs is to be carried back to producers; are not now willing to assist in the scheme, several conferences will have to take place before the problem will be solved.

Meantime the whole situation will be discussed at a meeting of the swine committee, to be held in Regina on July 19. The federal department will be represented by L. C. McOuat, of the livestock branch.

President of Alberta Law Society Dead

Dr. Conybeare Was One of Leading Lawyers in Province

Lethbridge, Alta.—Dr. C. F. Conybeare K.C., dean of the Lethbridge bar, died suddenly at his home, July 13. Heart failure was the cause. Dr. Conybeare who was 67 years of age, was born at Little Sutton, England, and came to Lethbridge in 1886 from Winnipeg. He had been Crown prosecutor here during the whole of his career in Lethbridge.

He was president of the Alberta Law Society, succeeding the late James Muir. Dr. Conybeare, besides being one of the leading lawyers in the province, was a leader in the Knights of Pythias and had been grand lodge officer for many years. He was also a poet and writer of some note, being especially well versed on Isdian lore.

Editors Will Visit Prince

British Newspaper Men Going to Ranch at High River

Ottawa. — The party of British newspaper men and their wives that will arrive in Quebec on August 12 will pay a visit to the Prince of Wales ranch at High River, Alta., on August 24, according to word received here. It is expected that the Prince asd his brother Prince George will be at the ranch at that time and that they will personally receive the visitors. The party will be the most distinguished newspaper group that has visited Canada since the Imperial Press Conference in 1920.

Sales Show Increase

Life Insurance Business in Canada Reaches High Record

Montreal.—Eighteen per cent. more ordinary life insurance was purchased in Canada during the month of May than in May, 1926, according to the Life Insurance Sales Research Bureau. During the month $44,553,000 of new business was paid for by companies having in force 84 per cent. of the total outstanding business in Canada. This is the highest record ever made in any month with the exception of December, 1926, and May sales are only $2,813,000 below the December record.

Put Ban on Sun Dance

Paynton.—The Indians began their sun dance a week ago on Poundmaker's Reserve nine miles south of Paynton. For several days Indians from the north had been coming in large numbers to take part or be spectators. Tuesday a R.C.M.P. officer from Battleford arrived and stopped the dance, which is forbidden by the Dominion Government. Four of the leading Indians were taken to Battleford and were later released.

Recount Elects Conservative

Winnipeg. Dr. E. J. Rutledge, Conservative, was declared officially elected to the Manitoba Legislature following completion of a recount in the constituency of Minnedosa where he was credited with a majority of three votes over his Liberal and Progressive opponents on election night. The final figures gave Dr. Rutledge a margin of 14 votes.

STUDENTS FROM OLD COUNTRY AS HARVESTERS

Montreal.—Canadian Pacific steamship arrivals over the week-end—the Montrose, the Melita, and Empress of Scotland—brought over 1,200 newcomers to be added to Canadian population. Practically the entire week-end's immigration quota will be absorbed by agriculture or domestic service.

A party of 50 students recruited from various universities and agricultural colleges in the British Isles is coming to aid in the garnering of the Western Canadian harvest. These first arrivals will proceed direct to Toronto, where they will be placed by the Ontario Government on provincial farms for a month's work. At the end of this period they will travel west to be absorbed in harvest work in Saskatchewan through the agency of the British Immigration League. This party constitutes only the vanguard of the student army to attack the western Canadian wheat crop. Up to three thousand students are expected.

Given Control Of Indian Reserve Roads

British Columbia and Federal Governments Reach Agreement

Victoria.—By an agreement between the British Columbia Government and the Federal Government, roads through Indian Reserves in this province will be owned by the Province. At present they are held by the Federal Government for its wards, the Indians.

The arrangement will be ratified formally shortly following negotiations between Hon. W. H. Sutherland, minister of public works, and the Federal authorities.

Insect Plague in B.C.

Grasshoppers Threaten Serious Loss to Agriculturists

Victoria, B.C.—Tons of poison bait are being sent out by the department of agriculture to combat threatened serious losses in agricultural areas of British Columbia from insects. Retarded in their natural progress by rains, grasshoppers are beginning to hatch out in millions while the clover root borer has appeared in the North Okanagan district, apparently from the State of Washington, where the insect makes clover-growing in some districts impossible.

Divers Locate Valuable Cargo

Genoa, Italy.—Divers have succeeded in locating the steamer Washington, which was sunk in October, 1917, by a German submarine while on the way from America to Genoa. They found the vessel at Camogli not far from Genoa. The Washington had a cargo of copper worth $60,000,000, which it is hoped to recover.

Will Execute Wife Of Naval Commander

Aided Husband in Espionage for Britain is Soviet Charge

Moscow, Soviet Russia. — Mme. Klepikoff has been sentenced to death by a court martial at Kronstadt, on the charge of aiding her husband, Commander Klepikoff, in espionage for Great Britain, Klepikoff, who formerly commanded a ship in the Baltic fleet, was executed by a firing squad recently after being found guilty of espionage. He was alleged to have confessed to giving a report to a British intelligence agent in Finland containing information on the condition of the Soviet armed forces, particularly the navy.

At the same time Mme. Klepikoff was sentenced to three years imprisonment for complicity, but the supreme court failed to confirm the sentesce. She was then brought to trial before a courtmartial.

Succumbs To Injuries

Cecil K. Parrish Dies as a Result of Automobile Accident

Winnipeg.—Succumbing to injuries received in an automobile accident on the Beach road Saturday, Cecil K. Parrish died at St. Boniface hospital on Tuesday evening.

The late Mr. Parrish was well known among the younger business men of Winnipeg, and for more than twenty years has been in the employ of the Toronto Type Foundry Co., Ltd., as accountant. He was a member of the Traffic club, but it was in bowling circles that he was most widely known, and had served on the executive of the Winnipeg Bowling Association every year since its inception. Of a retiring disposition he never sought to push himself forward, but was always unstinted with his time in the furtherance of anything in which he was interested.

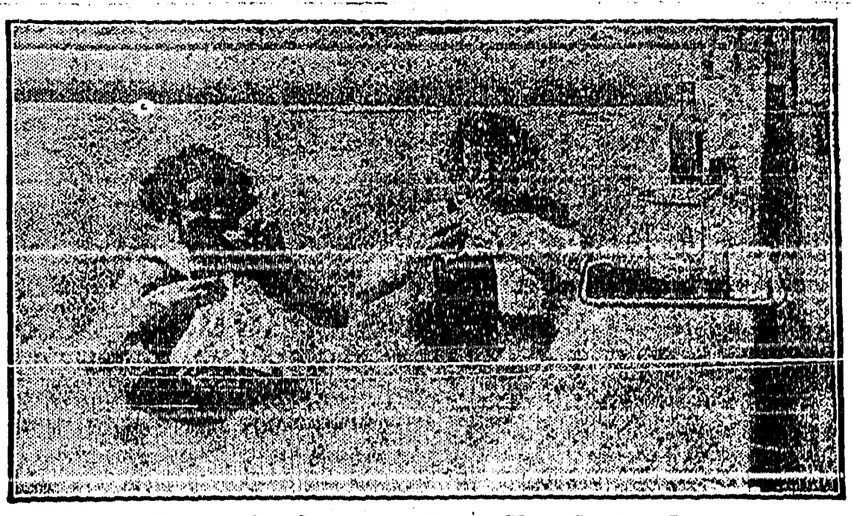
Ontario Wheat Pool

Easters Provinces Has Affiliated With Western Organization

Toronto.—For the purpose of marketing its product, the newly formed Ontario Wheat Pool has affiliated with the similar organizations in the three western provinces and, it is expected, will soon have representation on what is known as the Central Selling Board for the western pools. Members of this board have arrived in Toronto to complete arrangements. The members of the board will stay in the city until final details of the affiliation have been completed.

Earthquake in Palestine

London.—The Daily Mail's Haifa (Syria) correspondent says that 500 persons were killed in the earthquake in Palestine and Trans-Jordania and that more than 700 houses in Jerusalem and the surrounding districts were damaged. These include the Greek convent and the Patriarch's residence on the Mount of Olives. A minaret fell while a sheik was reciting prayers, killing him.



Lunch Swimming-Pool Style

There's nothing like a bite to eat after a swim. At least that is what these young ladies maintain and from the general consensus of opinion they aren't far wrong.

The photograph was taken recently at the Chateau Lake Louise swimming pool and not the least of its attractive features are the two young ladies who decided that the invigorating water of the pool was too much for their appetites. The waiter admitted that serving lunch swimming-pool style was somewhat of a new one on him, nevertheless he complimented the originality of idea.

But Lake Louise and other mountain resorts in this vicinity have always novel attractions for thousands of tourists that visit in the Canadian Rockies each year, regardless of whether the season is summer or winter. In fact, in winter open-air bathing is indulged in at Banff with the utmost comfort, the naturally warmed sulphur water pools making this possible.

VISITOR URGES EXTENDED TRADE WITH AUSTRALIA

Winnipeg.—"Though the products of Australia and Canada are similar, there are many opportunities for trade between the two countries," said Sir George Fairbairn, agent general for Victoria in London, England, who arrived in Winnipeg over Canadian Pacific lines. Sir George, who is accompanied by Lady Fairbairn, is en route to his home in Melbourne, and will spend several days at Lake Louise and at Vancouver, before sailing on the Aorangi, July 27.

"Wool and lumber are the two great exchanges we can make commercially," continued Sir George, "though dried fruits are fast becoming a source of revenue. The government has established returned soldiers on fruit farms in the great irrigated district of Victoria and New South Wales, and they are successfully growing sultanas, prunes and other fruits which, dried, are finding a large market.

"Much of the land which formerly was used for sheep farming has been bought back by the government and sold to settlers with the idea of growing wheat, the Commonwealth now equalling about one-third of Canada's production. Irrigation is doing its part in agriculture; within the next three years, we expect to put into operation what will be the third largest reservoir in the world. Fed from the Murray River, this reservoir will have 8,000 miles of channels, covering 2,000,000 acre feet. This means that a depth of 12 inches can be poured over 2,000,000 acres. The cost of the work will be in the vicinity of $15,000,000," Sir George said.

Lady Fairbairn has made many trips across Canada going back and forth to school in England.

Wild Animal Invasion

Cougars and Bears Reported Plentiful in Vancouver District

Vancouver.—The latest report in what seems to be a wild animal invasion of Vancouver and vicinity was that a woman had seen a cougar in Stanley Park here. She was confident that it was not a dog or any large tame animal. Officials doubt that a cougar would be in the park but are combing the woods. A cougar was found in the park some years ago.

Pitt Lake, some miles from the city, reports that two loggers were chased up a tree by bears. The animals were so numerous and bold around the camps in the district that they have broken into pantries and taken food, scarcity of berries in the wilds being given as the reason for the influx. A number of bears weighing from 100 to 500 pounds have been shot. Similar reports have been received from other localities. At Seymour the bruins have shown a taste for bacon, mutton and cheese. A number of goats have been killed. A bear was seen on the Burnaby Lake interurban line near here, while three skunks were killed on the same line, necessitating fumigation of the interurban.

French Armed Sloop at Montreal

Montreal.—The Ville D'ys an armoured sloop belonging to the French government, her ensign at the "dip" in response to the same courtesy from steamships lying in the harbor, steamed slowly into Montreal recently. She is under the command of Captain Emile Antoine, of the French navy, who paid a visit to the French consul immediately on arrival. The ship will remain here for a week, and will later proceed to Quebec.

Will be Guest of Honor

Toronto. Lord Hewart of Bury, chief justice of England, will address the Canadian Bar Association annual meeting here this month and be a guest of honor at the dinner on August 23 to be given by the Law Society of Upper Canada to the council of the Canadian Bar Association and its distinguished visitors.

Queen Victoria's toys were recently put on exhibition at the State Apartments of Kensington Palace.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, JULY 29

Apple Advertising

Announcement is just made that $40,000.00 will be spent this season in the endeavor to increase the consumption of British Columbia apples.

At first blush this looks like quite a tidy sum toexpend in popularizing the product consumed with such disastrous consequences by our illustrious predecessors, Adam and Eve, in the garden of Eden many centuries ago.

But to fully appreciate just now insignificant the appropriation really is one has but to recall that Wrigley's expend almost half a million dollars each year to keep the people chewing their well known gum, which sells at a nickel a package.

Or the makers of Old Dutch Cleanser, who at least once a month take the back page of the Saturday Evening Post at a charge of not less than $1500 per issue, to remind of an article of cleansing propensities that retails at about fifteen cents a tin. And the Post is only one of hundreds of publications in which Old Dutch is fea tured.

This year the B.C. apple crop is estimated to run not less than four million boxes, which makes the advertising appropriation work out at a cent a box to quicken the sale of an article that will retail at not less than $2.50 or $3 a case.

While, undoubtedly, benefit will come from the apple publicity yet certainly nowhere near the maximum of benefit need be expected to accrue from any such effort until such time as the expenditure is brought more in line with the standards adopted not only by the firms mentioned by the thousands of other concerns that have found that it is advertising that assures dividends to shareholders.

Jubilee Surplus

Considerable speculation is being indulged in these days as to what the committee entrusted with the safe keeping of the $385 surplus on Creston's Confederation Jubilee celebration are going to do with the money.

And it can be quite as safely stated that no one is doing more speculating in this connec tion than the committee members themselves.

Everyone will agree that a part of it can be used to advantage in having a big free children's field day, either in connection with the fall fair or on Labor Day, but as to the dispos l of the balance now is the time to come forward with any suggestions there are to make so that those in charge can take the best offered.

The Review's idea is that after the youngster's have their innings the remaining surplus should go into a fund for an annual celebra tion, preferably July 1st.

These get togethers help main tain friendly relations between the different sections of the whole district, and at that time of year a day off is welcomed by everyone. Profiting by the unintentional mistakes of 1927 a bigger and better celebration should be possible in 1928 and in each succeeding year.

North and South Road Again

The locally historic north and south highway is again to the fore on the Idaho side, with a definite announcement last week at Bon ners Ferry that C. J. Chaffins, engineer of the state hi hway de partment, will be at Bonners before the end of the month to confer with the county officials on highway matters, "particularly the route for connections of the North and South highway with Canadain highways," and referring to the incident the Herald says: "Mr. Chaffins states that the state high way department will not attempt to force either the Porthill or East port connection. He writes that both connections should be constructed, but that only one can be built at a time, and the question to be solved is which one is of the greatest benefit to local people and to the entire state from a stand point of serving the troveling public. It is understood that the highway department favors the construction of the Eastport road at this time, claiming this route woule be of more benefit to through traffic."

A Chance to Talk Tariff

Around about election time much is heard as to what the administration at Ottawa should do in the matter of tariff regulations, dump ing clauses, and so forth, to help out the fruitgrower—and that is just about as far as the many impractical and few worth while ideas ever get.

However, a chance to talk turkey, as it were, to those who have a hand in framing the tariffs is to be given Creston Valley orchardists in the visit next week of Mr. McKenzie of the Federal Tariff Com mission, who in company with Prof. Grant of the department of agricultural economics at the Manitoba Univers.ty, is making a tour of the fruit districts to quite informally discuss these matters with all and sundry who have anything to pass out for the good and welfare of the industry.

Very wisely, it seems to us, it has been decided not to have a public meeting, but every opportunity will be given individual growers to meet Mr. McKenzie personally and thresh things out man to man.

The visitor has a reputation for being easy to meet, and a very fine listener, so nono need hesitate in making his acquaintance and giving him the benefit of their observations.

NEWS OF KOOTENAYS

A soft ball league is to be formed at Cranbrook, with prospects of five or six teams entering.

Moyie claims to have had less mosquitoes this year than any other place in the Kootenays.

Flower garden thieves are a little too numerous and active at Cranbrook to suit the Courier.

Fifty men are on the payroll at Rossland on the construction of the town's new domestic water supply reservoir.

The Cranbrook Scotch are becoming unmindful of the strict religious training of their forebears. The Caledonian Society of that town had their annual picnic last Sunday, features of which were a baseball game and racing for the bairns.

According to a recent Associated Growers bulletin and covering a five year period Penticton orchards are the best producers in all British Columbia with an average of 377 boxes to the acre. Kelowna as next with 277 and Vernon third with 255.

Mr. FRUIT GROWER

Don't you think it would be good business to have your APPLE BOXES and APPLE CRATES delivered NOW, so as to avoid the rush later on?

For orders placed before August 1st we will date the invoice August 1st, payment 60 days nett, or 2% discount 10 days from August 1st.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Local and Personal

FOR RENT—Five-room cottage, good location. F. H. Jackson.

POTATOES—Big, new potatoes, 3 cents pound. C. Kelsey, Erickson.

Col. Allan of Victoria, inspector of scalers with the forestry department, was here on an official visit this week.

Chiropractic Fundamentals

CHIROPRACTIC does not believe in dietetics, for they believe that "Innate Intelligence' can and will adapt the stomach to the diet much more easily and quickly than any dietitian can adapt a diet to the stomach.

They do not believe in vaccination and serum therapy, because they believe that the only antitoxin that is fit to be put into the blood stream is that which is made by the alchemist that converts common food into living flesh.

They do not believe that germs cause disease, because the results obtained by Chiropractic adjustments in the so-called germ diseases are completely at variance with the germ theory.

They do not believe in drugs, for they cannot reason how a decoction that will make a well person sick can make a sick person well.

They do not believe in health springs or mineral waters or pink pills, for their science teaches that "all power cometh from within."

For the adjustment of the misaligned vertebrae they use nothing but their hands.

Neither do they assist Nature. They know the power that flung the sun and stars in space and makes the oceans ebb and flow, doesn't require assistance.

WANTED—Horse, cows, plough for 12-inch furrow, buggy, bathtub. C. Hollm, Hobden ranch, Creston.

Mrs. Green of Cranbrook is a Creston visitor this week, a guest of Mrs. Twigg.

John Wallace of Winnipeg, Man., is a Creston visitor this month, guest of his sister, Mrs. Edmonson.

H. E. Browne of Nelson, assistant commissioner of grazing, was here yesterday investigating the flats haying situation.

Official announcement is made this week that animals will not be allowed to run to pasture on the flats until after August 8th.

Mrs. J. S. Irvine and daughter, Margaret, of Fernie, motored in on Tuesday, on a visit with Major and Mrs. Mallandaine.

Dr. and Mrs. Scanlan of Edmonton, Alberta, were visitors this week with Dr. and Mrs. Lillie. They were returning from a trip to Vancouver.

Contractor A. Anderson has this week started work on the erection of a commodious bungalow residence for W. H. Gobbett on his ranch in the Grandview Heights section.

In the fourth year pass list for the Nelson high school Misses Edith Crawford and Marion Learmonth and Jim Cherrington are shown amongst the students, each graduating with a supplemental.

Miss Irene Johnson left at the first of the week for Calgary, Alberta, where she is taking a course in hairdressing. She was accompanied by her cousin, Miss Edna Johnson, who has been a Creston visitor the past few weeks.

Now the the weather has squared away and prairie road travelling is normal, the auto tourist traffic through Creston is the heaviest yet noticed. The class of cars on the road is also noticeably superior to other years.

Miss Evelyn Bevan, who has just completed her two year course in nursing at Kelowna hospital, arrived on Friday for a three weeks' vacation with her parents, before going to Vancouver for her final year at the General Hospital.

Creston trustees have been successful in securing Frank Lewis of Vancouver, a graduate of the University of British Columbia, to take charge of the high school the coming term. He graduated this year with a first-class standing in all subjects.

R. D. G. McKenzie of the federal tariff commission, and Prof. H. C. Grant of the agricultural staff of the University of Manitoba, are due to Creston next month to make an informal enquiry into tariff matters as affecting the fruit industry.

Saturday was the final day for teachers favoring with their resignation, and none having yet come to hand it looks as if Creston will have the same public school staff this year as last. So far the trustees have not secured a successor to Principal Kelly for the high school.

There will be one change in Creston's public school teathing staff when operations resume in September. Miss Ross, vice-principal, is not returning, and her place will be taken by Miss Grace Rendall who for the past two years has successfully taught Division 1 of Kitchener school.

Kimberley Press: Mrs. B. H. Bentley, Blarchmont Park, received the sad news of the death of her father, Mr. H. McFarlane, at Forest, Ont., on Monday last. The late Mr. McFarlane was 84 years of age, and one of the oldest and most highly respected residents of the district, having come from Lanark and settled there over 50 years ago.

The baseball match of the year is announced for Sunday afternoon, July 31st, at Exhibition Park, Creston, when Creston meets the classy Lumberton team, at 2.30 prompt. The visitors are bringing along their strongest nine and Creston will give them stiff opposition, as the locals have this year won ten out of twelve games played.

The Putnam, Palmer & Staples, Limited, sawmill is expected to start the season's cut on Monday and by the middle of August will be hauling ties into town for shipment, using Hooper ranch road. The village council has put the cemetery bridge in shape to carry the traffic. The firm will put in their car loading platform on the east end of the siding running into the big Union warehouse.

Canyon Ladies' Community Club give notice of their concert and parcel post sale on August 17th. The concert promises to be a good one as it features Miss Frances Knott, as soprano soloist. She has just completed her first term in vocal training at Columbian College, New Westminster, and passed her examinations with honors. The proceeds of this concert and sale are to help pay off the debt on Canyon community hall.

Rev. Dr. Johnston, head of the board of foreign missions of the Methodist Episcopal Church in America, with headquarters in New York, preached in Trinity United Church on Sunday evening. He gave a stirring address comparing Christianity with religion in India and China. There were special musical numbers, Mrs. A. Cooper contributing a solo, and with Mrs. Williams of Yahk favored with a duet. Dr. Johnston is a brother-in-law of Mrs. H. A. French of Porthill.

C. F. Hayes, G. Johnson, H. S. McCreath and S. A. Speers of the Creston Reclamation Company, Limited, directorate were visitors at Cranbrook on Monday, where they had an eminently satisfactory interview with Hon. Charles Stewart, minister of the interior, with reference to the participation of the indian department in the dyking of the company's first unit of 10,000 acres in which a considerable indian acreage is situate. Hon. Dr. King introduced the delegation and took part in the interview.

The results of the Grade 8 (Entrance) examinations were announced at the end of the week and in the Valley are, for the most part, disappointing. Principal McLellan kept up his splendid reputation by passing three of four writing. Out of 30 writing only eleven were successful, with John Bird, jr., of Lister school, taking highest standing of all the Valley students. The successful Creston pupils are Ena Christie, Arthur Webster and Letty Couling. In addition to these ten others were passed on recommendation.

Previous to going to Cranbrook to interview Hon. Charles Stewart on Monday, C. W. Allen and C. F. Hayes visited Bonners Ferry on Saturday to get the latest facts and figures on dyking districts to use in the discussion of the local dyking project with the minister of the interior. Crops on all the dyked areas across the line are marvellous, and in the highest water known on the Kootenay River in years and with fifty miles of dykes thrown up, trouble was only encountered in one stretch of 150 feet of a total of over a quarter of a million feet of dyking.

Mr. and Mrs. Emil Johnson, who a few months ago purchased the Adlard place in town, were motor visitors to Bonners Ferry on Sunday. They took the lower road from Porthill to Copeland and had opportunity to inspect the grain crops on District No. 8. Mr. Johnson has had considerable experience with prairie farming and states that the Porthill wheat crop will run 60 bushels to the acre. If anyone doubts the unusual ability of these lands to grow grain they should make the trip to Porthill and be convinced of just what it will mean to the district when Creston flats are under cultivation.

Creston lost an oldtime and prominent citizen in the departure on Thursday last of R. Lamont, who announces that in future he will make his permanent home at Hamilton, Ontario. He has resided here for a score of years and has played a considerable part in development in developing and selling improved orchard properties as well as logged off areas. He is a firm believer in the possibilities of the Arrow Creek section which this year figures in the strawberry shipments from Erickson. Of late his health has been none too robust, which largely accounts for his removal to a lower altitude.

Sirdar

Mrs. Whiteside is a visitor at Cranbrook a few days this week.

Mr. and Mrs. George Cam and Miss Dorothy Cam are Nelson visitors this week.

Jas. Wilson, of the Grey Royal Granite works, was a business visitor at Cranbrook on Monday.

Engineer W. Neil is taking his usual three weeks' vacation at present, and is on a visit at Calgary, Alberta, and coast points.

Jim Tanner, who was a visitor last week with Mr. and Mrs. E. J. Brawn, left for his home in Calgary, Alberta, on Tuesday.

The 1927 mosquito crop has been not only the largest but the fiercest in many years.

Mr. and Mrs. C. M. Loasby, accompanied by Mrs. Geo. Mawson, were motor visitors to Porthill and Rykerts on Sunday, where they were guests of Mr. Rykert and Mr. and Mrs. Chas. Davis. Like all all the other visitors they were taken with the great variety and beauty of the flower garden at the customs office grounds at Rykerts, which are personally supervised by Mr. Davis.

The 1927 strawberry crop is at an end, the North ranch having the last of them on Wednesday. Notwithstanding the grief at other points the Sirdar growers had a successful season, the quality of the berries being equal to other years.

Card of Thanks

Mrs. Walters takes this opportunity of expressing her deep appreciation of the sympathy and many kindnesses shown her in her recent bereavement.

Stockmen, Attention!

No cattle will be allowed on the Creston flats until after August 8th, 1927. All cattle and horses must have either a free or paid grazing permit. GEO. NICKEL, Secretary, Creston Valley Stockbreeders' Association.

LAND REGISTRY ACT

Section 160

IN THE MATTER of Part of Block 10 of Lot 525 Plan 633 A to which part the Registrar has assigned the distinguishing letter "A," the said part being all that portion of said lot lying east of a line equally bisecting the north and south boundaries of said Block 10.

Proof having been filed in my office of the loss of Certificate of Title No. 17948-I to the above-mentioned lands in the name of Carl Olaf Quist, bearing date the 27th December, 1924, I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication hereof to issue to the said Carl Olaf Quist a provisional Certificate of Title in lieu of such lost Certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

Dated at the Land Registry Office, Nelson, B.C., this 15th day of July, 1927.

A. W. IDIENS,
Registrar of Titles.

Date of first publication July 29, 1927.

GOVERNMENT LIQUOR ACT

Notice of Application for Consent to Transfer of Beer License

NOTICE is hereby given that, on the 26th day of August next, the undersigned intends to apply to the Liquor Control Board for consent to transfer of Beer License Number 729 issued in respect of premises being part of a building known as Pinehurst Inn and situate at South Slocan, in the County of Kootenay, upon lands described as Lot 2 of Block B of District Lot 303, Nelson Land Registration District, in the Province of British Columbia, from Kenneth Campbell to Albert Gibbon, of South Slocan, British Columbia, the transferee.

Dated at South Slocan, B.C., this 26th day of July, 1927.

ALBERT GIBBON,
Applicant and Transferee.

Camp-Fire Permits

This year it is necessary to have a Permit from some Forest Officer before any camp-fire may be set out in any forest or woodland.

Be sure to get a Permit for your camp-fire and follow the instructions printed on the back of it.

BRITISH COLUMBIA FOREST SERVICE

Prevent Forest Fires

YOU CAN HELP

WORLD HAPPENINGS BRIEFLY TOLD

H.R.H. the Prince of Wales will visit Vancouver and Victoria after August 10.

The population of Edmonton, as shown by the official city census figures made public today, is 67,083, an increase of 1,920 over the Dominion Government totals of last year.

An increase in wages and adjustment of working rules is sought by Canadian National telegraph employees, who started negotiations with the management through the international union representatives.

The New York Herald-Tribune says that Colonel R. Rex Rennee, former officer of the Lafayette Escadrille and World War ace, announced that he would attempt a flight to Paris and return in 24 hours. The hop will be made in September, he said.

It is possible that Australia's 1931 exhibition may be of a British Empire character. There is a suggestion that the King may be invited to open it, but, as His Majesty is unlikely to go, the Prince of Wales will be invited to perform the ceremony.

Homestead entries for the first five months of the present year in the four western provinces total 2,261, as against 2,381 for the corresponding five months of last year. Saskatchewan heads the list with 1,038 entries, followed by Alberta with 813, Manitoba with 273, and British Columbia with 37.

Rt. Hon. Ramsay MacDonald, leader of the Labor party in the United Kingdom, will not accompany Hon. Charles Dunning and party to the Hudson Bay this summer. Mr. Dunning is as yet unable to fix a time for his trip. He has not yet heard when Frederick Palmer, the port engineer, will reach the capital.

Twenty-five thousand peonies, sent by the Canadian Government for free distribution in England, arrived in Liverpool on the liner, Albertic. A staff of girls sent by a London florist immediately began the task of transferring bunches of flowers to 2,500 cardboard boxes for despatch to members and officials of public bodies all over the country.

Sorting Mail In Air

British Air Ministry Is Making Test of Special Plane

An aeroplane specially designed for the rapid transport of mails is being tested by the Air Ministry. It will carry, besides the pilot and an engineer, a postal sorter, who will continue his work while flying at 100 miles an hour.

This latest type of mail aeroplane is fitted with parachutes, and instead of the usual tail skid has a steerable tail wheel, with powerful brakes to help pull the machine up quickly on alighting at small aerodromes. A central engine room contains two Napier engines, each of 500 h.p.

Nothing as Good for Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

British Expedition To B.C.

Will Collect Rare Flower Seeds in Mount Garibaldi District

The Royal Horticultural Society of Great Britain, with its history of over one hundred years of good work, has decided to finance an expedition to the Mount Garibaldi district of British Columbia for the purpose of collecting seeds from the numerous rare and beautiful flowers which revel in the higher slopes of these grand hills. J. C. Bennett, Lake Hill, alpine and rare plant specialist, is to organize and direct the expedition.

Corns cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Canadian Is Appointed

Dr. J. T. Dickson, professor of botany at McGill university, Montreal, has been appointed by the Commonwealth Government as chief mycologist of the council of scientific and industrial research, Australia.

M. B. MURPHY

Terminal Superintendent Canadian National Railways, Winnipeg, who is transferred to Hornpayne, Ont.

Layette for the New Baby

Clothes for the new baby may be made with a great saving of time and trouble, when using the pattern for this layette. Every garment required in the new baby's wardrobe is included. The first long dress of soft nainsook is made dainty with tucks, and a yoke with touches of embroidery. A second dress of the same material has tucks running into the shoulder, embroidery, and narrow lace trimming the neck and sleeves. A gertrude skirt buttoning on the shoulders is worn beneath the dress, and to provide extra warmth for cool days a barrow-coat of soft wool with shaped top should be worn. A diaper-band, shirt with kimono sleeves buttoning up the front, together with nightrobe having extension buttoning from back onto front, completes this layette, which is cut in one size only. Dress requires 1⅞ yards of 36-inch material, nightrobe 1⅝ yards, straight petticoat, 1⅝ yards, shirt ⅞ yard, diaper-band ½ yard. Price 20 cents.

Many styles having a smart appeal may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

Almost any one will take your advice, but one out of a hundred will generate faith enough to use it.

The important event in many a man's life is an accident — the accident of birth.

About the only way to convince a contrary man that he is wrong is to agree with him.

Comets Baffle Astronomers

Laws That Govern These Bodies Are Still a Mystery

Comets are strange bodies that baffle even the minds of those behind the huge telescopes in the observatories. Travelling at a dizzy speed they rush toward the sun, travel around it, and then return to the distant spaces from which they emerged.

Edmund Halley, an English astronomer, began studying the orbits of comets, and in 1682 he calculated that the comet then visible would return in 1759. When in December of that year the comet did re-appear, scientists realized that Halley had made an extremely important contribution to the study of comets, and this particular one was named after him.

With Halley's computations the study of comets was rendered infinitely more simple than it had been previous to his time. There still remains the question as to how these swift travellers begin their journeys and what their significance may be in a universe governed by inexorable laws. Scientists have yet to discover the unknown laws that govern these bodies, for they seem sometimes to flout those laws already known.

Wheat Pool Agency For South America

Western Canadian Wheat Pools Will Establish Selling Agency in the Argentine

W. J. Jackman has been appointed resident representative in the Argentine for the selling agency of the three Western Canadian wheat pools. He will leave for his new field of work early in September and will have his headquarters in Buenos Aires.

The appointment is the outcome of a scouting trip that Mr. Jackson made to South America last year for the purpose of inquiring into the general conditions of the wheat trade in that country. It has since been decided by the wheat pools to be permanently represented there and while the office will be of a somewhat experimental character it is intended to give it a thorough trial, in expectation of the two countries coming into fairly close relations as both producers and exporters of wheat.

Airships Terminal Planned

$350,000 To Be Spent On Equipment In South Africa

Plans concerning the projected mooring mast and ground equipment for an airship terminal in the Union of South Africa are almost completed. It is agreed that the airship service shall be controlled by the Union's railway administration and that approximately $350,000 will be spent on the mast itself. It is understood this will be located near Cape Town. The Government committed itself to construction of a mast as the Union's contribution to an Inter-Empire airship service.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Believed Oldest Inhabitant

Believed to have been the oldest inhabitant of Canada, Mrs. Margaret Thickfoot, of Salteaux Indian extraction, is dead at the Jackhead Indian Reserve near Lake Winnipeg at the age of 112. Until recently the squaw had full use of all her faculties. She was the widow of Chief Thickfoot, who before his death many years ago, played an important part in the Christianizing of the Salteaux Indians.

Premier's Daughter Visits Canada

Mrs. Maurice Huntingdon Whitely, daughter of the Rt. Hon. Stanley Baldwin, Premier of Great Britain, photographed at Winnipeg during her recent trip across Canada on Canadian Pacific lines to Victoria where she joined her husband, on relief from his ship H.M.S. Danae, now in Chinese waters.

SUNDAY SCHOOL LESSON

JULY 24

DAVID AND GOLIATH

Golden Text: "Jehovah is the strength of my life; Of whom shall I be afraid?—Psalm 27.1-5.

Lesson: 1 Samuel 17.

Devotional Reading: Psalm 27 1-5.

Explanations and Comments

1. The Philistine Peril and Goliath's Challenge, verses 1-11.—The armies of the Israelites and of the Philistines were encamped on opposite heights of the Valley of Elah. Every morning and evening for forty days a Philistine giant named Goliath had stood forth and challenged the Israelites to settle the matter by single combat, saying: "I defy the armies of Israel; give me a man that we may fight together. If he is able to fight with me, and kill me, then will we be your servants; but if I prevail against him, then shall ye be our servants and serve us." The Israelites were utterly dismayed. When they saw Goliath approaching, they fled.

"Goliath boasted of just the things in which men are prone to boast today. He had physical strength. His height was six cubits and a span. Athletics had done all they could for him, and he was a fine type of animal perfection. He had splendid military equipment—a helmet of brass, a coat of mail and a spear like a weaver's beam. Surely, if fine material equipment determines combats, the shepherd-lad from the hills of Bethlehem will be annihilated. And he enjoyed the enthusiastic confidence of the Philistines. He was his nation's pride and glory. He strode out amid their shouts, and the cheers were like iron in his blood. But all this counted for nothing, because God was against him.

"Men and nations may attain to a fine animalism, their warlike equipment may satisfy the most exacting standard, and yet, with God against them, they shall be as structures woven out of mists, and they shall collapse at the touch of apparent weakness. The issue was not Goliath versus David, but Goliath versus God!"—J. H. Jowett.

Your Home Medicine Chest. — Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Eclectric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Eclectric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Canada's Water Power Wealth

Only One-tenth of Dominion Resources Now Used

Although development of Canada's hydro-electric energy last year brought the total now harnessed to 4,169,275 horse-power, this is only one-tenth of the Dominion's resources, says the Dominion Statistician. He adds that with an average of 820 kilowatt hours per person per year, Canada leads the world in the consumption of hydro-electric energy according to population. Switzerland is second with 700; Norway third with 493; and the United States fourth with 427. The United Kingdom is not yet in the running. New installations for industrial purposes are increasing in Canada at the rate of 20 per cent. per annum, compared with 12 per cent. in the United States. During the past 24 years the increased use of water power for industry has been 300 per cent., and in the United States 400 per cent.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER IV—Continued

Any neighbor would tell you that Dr. St. John had built this house when he got married, and if you had time to wait you might hear that the doctor would not have an office in his house because his young wife was not strong and the overflow of human misery from a doctor's office, even the coming and going, would be depressing to her. So the doctor had an office down town, where visiting patients sat in wicker chairs reading the selected magazines on the wicker table while they waited.

The doctor's wife had her own car, plenty of money, and all the time the day or night holds.

When Helmi had been with Miss Abbie three months the doctor came one day to call. It was not a professional call. Indeed, he, who advised in so many cases, now came looking for advice. He and Miss Abbie had known each other in Cannington, where they had lived on the same street, went to the same Epworth League, and were taught in the same stone school-house on the hill.

The doctor sat in Miss Abbie's golden oak rocker and stated his case. "You have a young Finn girl with you, Abbie," he said.

Miss Abbie nodded; there was no denying it. At that moment Helmi was scrubbing the back verandah and singing at the top of her voice a song of her own country.

"She's a bright girl," continued the doctor, "and attractive." Miss Abbie smiled and nodded again. "But needs more teaching in English. You send her to nightschool, do you? Yes, well, here's my point. My wife needs more interest in life; she gets low spirited and upset, though I cannot find the cause. I think if you would ask her she might consider teaching your girl for an hour every second day or so. She admires the girl; indeed, made a sketch of her the day she dug your garden."

"She would do it," said Miss Abbie, apologetically, "I cannot keep work ahead of her. She wanted me to let her take in washing, at least enough to keep her busy, one morning. She does ours in such a little time, and she tells me she loves it. I wanted to hire a man to dig the garden but she coaxed me so that I gave in."

The doctor's face was wistful. "Don't spoil her, Abbie, let her work, work and salvation are closely related."

Across the street the perfect bungalow dozed in the bright sunshine. Its windows sparkled, its flowers turned their faces to the sun. It looked like an abode of happiness and contentment.

The doctor's wife came down the steps in a long silk motor coat and veil. She had heard a horn pealing a signal and went around to the side of the house, where a closed car was slowing down. A man sprang out lightly and opened the door for her.

"She needs something, Abbie," the doctor said sadly. "I don't know women very well. Women are queer now, Abbie, they are so restless and discontented. I believe the women who had to sew and knit and work early and late were happier. Womne of this day, having little to do, do nothing. I fear I am a dull old stick for Eva. She is fifteen years younger than I am, and I'm afraid it is too much."

Miss Abbie's lack of matrimonial experience kept her dumb, but she knew her old friend was suffering, and her face spoke her sympathy.

"Eva is the kindest hearted kid in the world, and she would love to help anyone," went on the doctor. "Will you come over tomorrow—she's out now—and ask her."

The first day Helmi went across the road for her lesson she spent an unusual time over her toilet. Her face shone from soap and water, her hair was tortured into crocheted curls, and as a final preparation she tightened her corsets until breathing became difficult. She had noticed the extreme slimness of the dainty person who went in and out of the doctor's house, and had grown critical of her own ample form.

The doctor's wife received her in the sun-room, whose magnificence completely overpowered Helmi. The sun came in through curtains of yellow silk, falling in pools of light on the green and white tiled floor. The tables were of wicker, with pockets of silk from which gaily covered books and magazines protruded. A black dish had gorgeous birds perched on its rim, apparently just going to slake their thirst from the water below, on whose surface wax waterlilies floated. Ferns with trailing fronds of green lace hung from the low ceiling, and birds in gold cages turned the air into a musical jingle.

Helmi stood at the door transfixed with the beauty of it all.

"Come in, pretty thing," sang the doctor's wife in a chanting voice. She was lying on a chiniz-covered lounge with a box of chocolates on a low stand beside her. "Come in and let me look at you."

Though Helmi did not know the words, she knew she was being made welcome. She glided in with the peculiar walk she had when she was frightened, arriving as noiselessly at the couch as if she had come on runners.

"Creamy skin, green brown eyes and fiery gold hair—you should do well in this land of opportunity."

"Yes, Ma'am," agreed Helmi.

"No, don't say that." Mrs. St. John was sitting up now, making a pretty picture with her flushed cheeks and rumpled hair. "Say, 'Yes, Mrs. St. John.' 'Yes, Ma'am.' is gone forever with the hair-wreaths and petticoats and lots of other things I could mention. Say 'Yes, Mrs. St. John.'"

Helmi repeated the words correctly. The lesson lasted an hour, coinciding exactly with the duration of the chocolates and Helmi was invited to come every Tuesday.

To Helmi there seemed to open a new world, rapturous, rainbow hued and golden — something she had dreamed about. The subtle perfume of the sun-room, the air of indolence and luxury, of freedom from care or responsibility, the muffled sounds in the house, as if every one walked on carpets of plush—all this seemed a part of her dream.

When she came out into the sunshine and ran across the road Helmi, for the first time, was able to think in English, and the words that she said were, "Some class."

CHAPTER V.

Young Methodist Church, though not set on a hill, was determined that it would not be hidden in spite of that geographical handicap, and so resorted to the wholly worldly but nevertheless effective method of advertising. A black and gold signboard on the corner of Broadway and Balmoral acquainted the wayfarer with several facts in the hope of interesting that fickle person in his own welfare. It told the name of the pastor, the subject of his sermon, the name of the choir-leader, the soloist for next Sunday, the deaconess, the president of the Ladies' Aid Society, and in larger and still more golden type it proclaimed that this was the Strangers' Church. The stranger naturally looked around in an endeavor to locate his property, and if he would follow the indication of the gold hand which pointed up Broadway he would find it, sure enough. There it stood, solidly brick, an abbreviated tower and empty belfry, deep set windows, a few straggling vines holding to a network of wire that swayed in the winds and kept the vines in constant remembrance of the uncertainty of life!

Over the side door one evening, though it was yet early, a light burned, pale amber and faint because of the daylight. At first it looked as if the sexton had forgotten to put it out from the night before, but members, adherents and frequenters knew that it had a meauing. It simply meant that something was in progress—the house was in session. The sexton, a burdened man, with a lame leg and a short temper, who was rarely seen without a duster in his hand, was arranging and dusting the seats in the Tower Room. The Girl's Club was holding a supper meeting.

(To Be Continued.)

RUN-DOWN AFTER BIRTH OF BABY

Ottawa Woman Made Strong by Taking Lydia E. Pinkham's Vegetable Compound

Ottawa, Ontario.—"I was terribly run-down after the birth of my third baby. I had awful bearing-down pains and was afraid I had serious trouble. I was tired all the time and had no appetite. My sister-in-law is taking Lydia E. Pinkham's Vegetable Compound and cannot praise it too highly and asked me to try it. I have had splendid results and feel fine all the time now. Any one who needs a thorough pick-me-up soon learns from me what to take."—Mrs. RENE PAQUIN, 312 Cumberland Street, Ottawa, Ontario.

Terrible Backache

Hamilton, Ont.—"After my baby was born I had terrible backache and headaches. I could not do my work and felt tired from the first minute I got up. But worst of all were the pains in my sides when I moved about. I had to sit or lie down for a while afterwards. I could keep my house in order, but many things had to go undone at the time, because of my ailments. I was told by a neighbor to take Lydia E. Pinkham's Vegetable Compound, as she said it would build me up. I was relieved before I had taken the first we bought and have not had any trouble like it since."—Mrs. T. MAHKLE, 60 Burton Street, Hamilton, Ontario.

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores — 10c and 25c per package.

Millions of "Dead" Letters

Yearly Report Shows Necessity of Being Careful About Address

It will come as a surprise to most people, and as a shock to many, to learn from the Canadian Post Office Department that nearly 2,000,000 "dead" letters were handled by this department during last year. More than 1,000 of these letters were registered — and had a monetary value amounting to thousands of dollars. In fact, the sum of $19,150 was recovered by Postal authorities from this large quantity of undelivered mail. The number of such letters is far too great. While it will never be possible, perhaps, to completely eliminate all "dead" letters, they could be reduced to a negligible number through a little carefulness by the writers.

It is sheer carelessness on the part of the writer in addressing the envelope that is the primary reason for the majority of the 2,000,000 "deads." What a world of tragedy may lie behind this huge quantity of undelivered mail. Think of it. Two million persons in the world wondering why two million others "never replied to the letter I wrote." Hopes may have been blighted, hearts broken, fortunes lost. Who can tell how many tender outpourings of feminine hearts have been revealed to ruthless official searching in "dead" letters for a return address. The moral is clear; Make sure the address on all letters is correct, and heed the admonition of the Post Office Department to write a return address on the outside of all envelopes, you will be doing the officials a good turn and, incidentally, yourself.

Has Stringless Violin

Canon F. W. Gilpin rector of the parish of Faulkbourne, England, has a hobby—unique musical instruments. He has about 600 specimens from all corners of the earth. Oddest of all, perhaps, is a stringless violin. Another surprising musical instrument is what appears to be a large family Bible; when opened it shows a keyboard and a small set of pipes. On this organ the canon has played at mission services.

An enamel for wood and metal has been made from a solution developed from cotton, which is hard, durable and waterproof.

Canada's New Carillon

Is Considered Finest and Most Complete Ever Constructed

Canada's splendid new carillon, installed in the Memorial Tower of the Parliament Buildings in Ottawa, seems to have met the highest anticipations of the Government and added another laurel leaf to the crown earned by the famous foundry at Croydon, England. Both the thousands who heard the bells peal forth their joyous message at noon of Jubilee Day, and the millions to whom it came by radio throughout the length and breadth of the Dominion, were enthralled by the rich quality of the sound and amazed at the ability of the bells to reproduce every kind of music. This had been demonstrated in England at the recital given by M. Lefevere, the distinguished Belgian carilloneur, at the foundry. An account printed at the time stated that no less than 1,200 people visited the Croydon works to see the Canadian carillon, described as the finest and most complete ever constructed in the home of bell-ringing.

Ottawa has indeed been favored in becoming the possessor of a carillon unrivalled at the present time, and that will remain a perennial fountain of joy and inspiration to the people of today and to generations yet unborn. In England it was generally admitted that this latest production of a craftsmanship unequalled by any other country of the world is an instrument of great majesty and beauty. The carillon is, indeed, the greatest in the world, ranging from a ten-ton Bourdon, tuned as closely as possible to that of Big Ben at Westminster, to a treble only twelve pounds in weight, 53 separate bells in all. The demonstration in England revealed its ability to reproduce all kinds of music, classical and popular.—St. Thomas Times-Journal.

Puddings For Desert

Two Recipes That Have Been Found Unusually Delicious

There is one thing in favor of puddings for dessert that makes the dish a frequent selection, and that is that the average simple pudding can be used for the little ones as well as the adult members of the family. Here are two recipes that have been found unusually delicious and yet are simple to prepare and economical:

Orange Bread Pudding

¾ cup Eagle Brand Condensed Milk.
2 cups hot water.
1 cup sifted soft bread crumbs.
2 egg yolks, slightly beaten.
1 tablespon melted butter.
Juice of three oranges.
Grated rind of one orange.
¼ teaspoon salt.

Add hot water to condensed milk, blend thoroughly, and bring to scalding point. Pour over bread crumbs; let stand until cool. Add egg yolks, salt, melted butter, orange juice and rind. Pour into a buttered pudding dish, set in a pan of hot water. Bake in a moderate oven about forty-five minutes. Cover with meringue of stiffly beaten egg whites and one-fourth cup sugar. Brown slightly in a moderat oven. Serve cold. If desired, the whole eggs may be added to pudding, the meringue omitted and the pudding served cold with cream.

Tapioca Cream Pudding

¾ cup Eagle Brand Condensed Milk.
2¼ cups hot water.
4 tablespoons quick-cooking tapioca.
¼ teaspoon salt.
2 eggs beaten separately.
1 tablespoon melted butter.
1 tablespoon vanilla or any preferred flavoring.

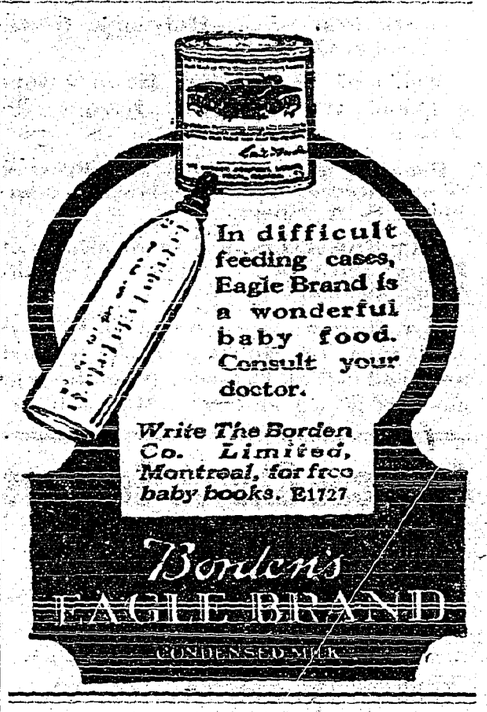
Dilute milk with hot water, blending well. Bring to scalding point in a double boiler. Stir in tapioca and cook about one-half hour. Add butter and salt to egg yolks. Pour over them gradually the hot tapioca, stirring constantly. Return to double boiler and cook three minutes longer. Pour slowly over the beaten egg whites, folding in gently; flavor and chill. Serve plain or with cream or fresh fruit sauce.

Vary cream tapioca pudding by arranging fresh or canned peaches, apricots, or sliced oranges in bottom of serving dish, pouring over the chilled tapioca cream.

Estevan Briquetting Plant

Five units of the Estevan Briquetting Plant turning out 750,000 tons of fuel annually is the objective of the new company which has taken over operations at Estevan, according to G. F. Sheehan, of Seattle, inventor of the process now being installed. One unit, turning out 20 tons an hour, for 24 hours of the day, will be in operation by December 1st, he said. E. A. Hartley, of Seattle, is president of the new company.

Minard's Liniment for warts and Pimples.



Little Helps For This Week

He that contemneth small things shall fail by little and little.—Eccles. xix. 1.

Despise not little sins;
The gallant ship may sink
Though only drop by drop
The watery tide it drink.
—Richard Chenevix Trench.

The sins by which God's spirit is ordinarily grieved are the sins of small things,—laxities in keeping the temper, slight neglect of duty, lightness, sharpness of dealing. If it is your habit to walk with God in the humblest occupations of your day, it is very nearly certain that you will be filled with the Spirit always.
—Horace Bushnell.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands of Mothers Say of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past twenty years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

A block of coal nine feet high and four feet square was recently shipped to Italy.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy — Mother Graves' Worm Exterminator.

Canada has 50 million poultry, with an annual production value of $50,000,000.

Keep Minard's Liniment near at hand.

Colors of every tone and shade, numbering 1400, compiled from productions of dye makers, are displayed in an index recently issued.

UNIVERSITY OF MANITOBA

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,948; Lode Gold, $126,972,318, Silver, $80,787,003; Lead, $106,976,442; Copper $209,967,068; Zinc, $50,512,557; Coal and Coke, $264,609,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1925 show an

Aggregate Value of $988,108,470

Production; year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
VICTORIA, BRITISH COLUMBIA

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department o Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mideral Survey Districts are published separately, and are available on application.
