THE CRESTON REVIEW

VOL. XXV. CRESTON, B. C., FRIDAY, APRIL 13, 1934 No. 3

Refused to Put Sewer Motion

Councillors Murrell and Comfort Balked in Effort to Secure an Engineer's Report on Cost—Curfew By-Law Coming Up

If village property owners wish to have an engineer's estimate as to the cost of a sewer system for Creston it will be necessary for a petition to be passed for signature, and said petition be presented for consideration of the village commissioners.

This procedure was established at the regular meeting of the council on Monday night at which Reeve F. H. Jackson presided and with Councillors Comfort and Murrell in attendance. This decision was not the wish of the two councillors, who submitted a motion asking that $200 be appropriated for a survey by A. H. Green & Company of Nelson. The reeve, however, ruled the motion was out of order, and despite the vigorous protest of Councillor Murrell, with some support from Councillor Comfort, that the motion was in order and that the reeve had no authority to refuse to submit it to the meeting, the reeve stuck to his decision. Councillor Murrell threatened to appeal the ruling of the chair and take a vote to declare the ruling invalid but for some reason changed his mind, gathered up his coat and hat as if to leave, and for a time refus d to participate in the council's deliberations. Later, however, he joined in proceedings which were not concluded until almost 11 p.m.

In connection with the sewer survey there was a letter from the inspector of municipalities that stated it was quite in order, and there was a letter from the department of health stating the govern ment would not supply an engineer for such a job.

The correspondence feature of the session was of much importance. The council was told they could not levy a trade license against the liquor store. Approval was given a resolution from the Saanich council which asks that the B.C. Telephone Company be not allowed to increase its capital for a period of one year. Jas. Cherrington, jr., was advised that if a sewer system were put in, his application for a position to assist with the engineering work would be consider ed, and the heirs of the late Chas. O Peters were informed that the deceased owned no property in the village As yet no reply has been received from the Rod and Gun Club to whom the clerk had writted asking for permission to erect a tieup post on the club's lot on Barton Avenue.

There was a letter from the Lutheran Church secretary offering to sell the council a 150-foot lot on Creston Avenue, opposite the new hospital, for $150. As the lot may be required when Vancouver street is opened through to the hospital the council will investigate the proposition.

There was a letter from the West Koo tenay Power & Light Company, Limited, stating it was willing to remove its poles from Canyon Street between the Bank of Commerce corner and Barton Avenue, but pointed out the pole line was jointly owned by the Kootenay Telephone Company, and that the consent of the latter would have to be secured before any re moval work would be done.

In connection with electrical matters the council has arranged with the provincial inspector of electrical equipment to look after inspections in the village, and J. F. Coates of Nelson, who has been in charge of this work, was notified his services were dispensed with as at the end of April.

A very sympathetic reception was accorded a letter from the hospital board asking for a donation of $184 to help retire the building fund debt. It was pointed out that $816 has already been received and were this amount raised to the even $1000 another $350 would be forthcoming this latter sum having been pledged provided the initial $1000 was raised. Due present scarcity of village funds it wa decided to lay the matter over for future consideration, although Councillor Comfort favored an immediate grant of $100.

Rev. A. Walker and W. Liphardt were present to support a petition, emanating with the official board of the United Church, which asks the council to inaugurate the curfew law which will compel children under 16 years, unaccompanied by their parents or guardians, to be off the street by 9.30 each summer evening, and by 9 in the winter months. Councillor Comfort gave notice he would introduce such a by-law at the May meeting. The police have expressed their willingness to enforce the by-law but will not be responsible for ringing the town bell.

Dog owners will have until April 23rd to take out dog licenses, after which date it is proposed to inaugurate a campaign to kill off unlicensed canines. Clean up day will be Wednesday next, 18th, with the free haul away of garbage the following day. Tenders for the garbage haul will be asked for.

Handyman Canute Anderson reported on the condition of the hydrants, which shows improvement, but not as much as desired. The matter, however, is receiving due attention. Another street light will be put in—near the steps leading to the C.P.R. platform.

Dr. Olivier, health officer, reported the village free of scarlet fever and all other contagious diseases, with a great improvement in sanitary conditions generally. It was agreed to have the village shade trees pruned and cultivated, and residents are asked to co-operate in the work of developing sure tree growth by giving the trees in front of their properties supplies of water from time to time.

Accounts passed for payment totalled $758, much of which was for road improvements. The Waterworks Company will be notified that in future no digging up of streets can be undertaken before securing a permit from the council. In w ter matters it was decided that investigation be begun looking to the securing of an adequate supply for the swimming pool at the exhibition grounds.

The handyman was given authority to purchase any wire needed to provide screens for the ends of culverts. In future no purchases will be considered legal unless made on a requisition from which will be signed by the clerk.

CORPORATION OF THE

Village of Creston

Clean-Up Day

All owners, agents of owners, and tenants of property within the boundaries of the Village of Creston, are hereby notified that

Wednesday, April 18th

has been proclaimed Clean-Up Day, on which date all yards and premises must be put in clean and sanitary condition.

All refuse (except ashes and liquid) placed in cans, boxes or other receptacle, and set out handy to street or lane will be taken away free of charge by Village trucks the following day.

By order.

E. F. ARROWSMITH,
Clerk.

Creston, April 10, 1934.

Erickson

T. Ackerman was a business visitor at prairie points last week.

Richard Thurston, jr , left at the end of the week for Trail.

Bob Currie left at the end of the week on a visit with friends at Kimberley.

Miss B tty Kemp, who has been spending a holiday with friends at Nelson, arrived home on Monday.

Mrs. T. Wilson and baby are here from Crankrook on a visit with her parents, Mr. and Mrs. J. E. Healey.

Miss Marcella Sanford arrived back on Monday from a visit with Calgary and Champion, Alberta, friends.

East Creston Irrigation District annual meeting is called for Saturday, April 14th, at 2.30 p.m. at the United Church hall.

Mrs. Auger and daughter of Greenwood were renewing old Boundary acquaintances in the district this week, and were guests of Mr. and Mrs. J. M. Craigie.

Erickson Ladies' Hos it l Auxiliary held the April meeting on Wednesday last, at he home of Mrs. Percy Boffey. It was in the form of a towel shower for the hospital.

Arrow Creek

There was a dance at the E. Cardinal home Saturday night.

W. Ramm was at Wynndel on business the latter part of the week.

A very successful dance was held at the hall Saturday evening.

School opened again on Monday after being closed for the Easter holidays.

All the new settlers in this district are busy burning and clearing land for spring planting.

P. M. Wiltse, the local fox farmer, reports a better average price for the pelts this year than last.

John Strobel, sr., was the winner of the cushion drawn by the Ladies Social Club, April 7th.

The strawberry ranchers in this district report very little damage from winter killing and most of the fields are showing up good.

Kitchener

Clarence Anderson was a business visitor to Nelson last weekend.

Miss Alta Blair returned on Sunday from an Easter week visit at Creston.

C. Senesael, who is employed at Fort Steele, spent the weekend with his family here.

Telesford LaBelle, who is employed at the Goatfell west camp, spent the weekend at his home at Canyon.

Miss Helen Heise of Cranbrook spent a few days last week, on a visit with Miss Clara Hunt, returning on Saturday.

Mrs. B. Johnson left on Thursday on a visit with Kimberley and Creston relatives and friends, returning on Monday.

Miss Hope McInnis of Yahk spent last week visiting Miss Marie Thomson of the M7 ranch. She left for home on Friday.

Mrs. C. Fransen of Creston arrived on Wednesday last at the homes of Mr. and Mrs. N. P. Molander and Mr. and Mrs. G. A. Hunt, returning on Saturday.

Mrs. H. H. Redmile left last week for Cranbrook on a visit with her uncle, Ted Clauson, of the Mount Baker Hotel. Mr. Redmile drove her by auto to the divisional city.

Miss Jessie White, school principal, who was a guest of Mrs. McKelvey, Erickson, for Easter week, returned on Sunday, school reopening on Monday after a ten-day holiday.

F. Darnalee, C.P.R. roadmaster, from Proceor is here on business, arriving Monday. The special train carrying th governor-general and Lady Bessborough went through, westbound, at an early hour Tuesday morning.

A pair of towels, donated the Kitchener Hospital Auxiliary by Miss A. L Doy e of Penticton, formerly of Creston, was raffled at the recent bridge. 60 tickets were sold and the holder of the lucky pasteboard was. A. G. Strudwicke.

Miss Clara Hunt entertained a number of friends at her home on Thursday evening, in honor of her house guest, Miss Helen Heise, when first prizes were captured by Miss Edith Nelson and Richard Molander. A dainty lunch was served.

The hospital bridge on Wednesday, March 28th, was not very well attended, only seven tables participating. The high scores were made by Miss Clara Hunt and Fritz Molander. Second prize went to Mrs Carl Anderson and Cliff. Foisy. Consolation prizes went to Miss Myrtle Anderson and Mrs. Sid. Abar, who played a gent's hand.

Alice Siding

Jack Smith was a Tuesday visitor at Sirdar.

The Social Club will be guests of Mr. and Mrs. E. Ostrensky this evening.

Preparations are being made for building operations in the Lakeview district.

Geoffrey Constable was a visitor a few days last week with friends at West Creston.

Mrs. W. A. McMurtrie, who has been at Victoria for the past few months, has returned.

Mrs. R. Dalbom of Wynndel spent a few days last week a guest of Mrs. W. A. Pease.

Mrs. T. Perry, who spent Easter here a guest of Miss Helen Moore, has returned to Fernie.

ANNOUNCING

The New 1934 Chevrolet

The people of Creston and Creston district are cordially invited to call and inspect the new 1934 Chevrolet car now on display at the

Creston Motors

Canyon St., at Barton Ave.

Reed & Mather are busy planting a new field of strawberries north of the John Kelly ranch.

Mrs. Mathews of Nelson spent a few days here last week, a guest, of Mr. and Mrs. J. C. Martin.

Mrs. Ivan O'Neil of Vancouver arrived this week on a visit with her mother, Mrs. Stace Smith.

Miss Iris Taylor returned to Cranbrook on Sunday to resume her studies at the high school in that city.

The baseball diamond had been gone over by the grader and is in much better shape for the baseball enthusiasts.

Miss Gladys Webster left on Sunday for Natal to resume her position as teacher at the Natal-Michel consolidated school.

W. A Pease has just completed the replacement of his hay shed roof which was partly blown off in last week's windstorm.

The logs on the C. Hamilton limit on Goat Mountain are being hauled to the C. O. Rodgers mill at Creston by W. Keirn.

J. J. Freeney arrived in on Monday from Rossland where he spent the Easter vacation, and school reopened with a full attendance.

Miss H. Moore ond R. Moore, here for the Easter holidays, have returned to resume teaching duties at Lumberton and Coal Creek respectively.

The road roller and scarifier commenced work in this area at the first of the week, and is giving the bad spots in the highway some needed attention.

Mrs. J. H. Webster is hoping to be about as usual by the end of the week. She is recovering from the effects of injury sustained to her ribs just prior to Easter.

In order to complete road grading while the highways in this section are in best shape for that work a night shift has been put on the grader consisting of H. H. Taylor and I. Willis.

Some of the members of the I. Willis family are in quarantine for scarlet fever. Mr. Willis is with Mr. and Mrs. Pease; Elsa is with Mrs M. York, and George and Bob are camping on the former's place at Lakeview.

Mr. and Mrs. F. K. Chappe'l and family arrived from Kimberley at the first of toe week, and have taken pos session of the Richardson (Lidgate) ranch, which they recently purchased. Mr. Chappell will spend about ten days here putting the place in shape before returning to Kimberley. Mrs. Chappell and family will make their permanent home here.

Sirdar

Arthur Lombardo left on a visit to Trail, where he expects to spend a week.

J. Horatio of Kootenay Landing was a business visitor at Creston at the weekend.

A large number from here attended the Easter dance at Wynndel last Friday.

Cecil Moore of Moore's Garage, Creston, was a business visitor at Sirdar, Saturday.

J Geno is looking after the coal loading plant during the absence of J. Pascuzzo.

Mr. and Mrs Hamblie of Sanca were in Creston shopping during the week, from Boswell.

The H. McCreath truck, with a large load of supplies for two of the ranchers, was here on Saturday.

High Mass was said on Wednesday at the home of Mr. and Mrs. S. Pascuzzo, Father Choinel officiating.

Mr. MacLeod of the Canadian Smelters Limited, Sanca, was in Creston for a supply of gas for the mine.

The remarkably fine weather has given an impetus to work on the land, every rancher being busy in this direction.

Mr. and Mrs. Fred Martello have returned from Trail, where they spent their Easter vacation at their homes.

Canadian Smelters Limited completed a carload of ore at the beginning of the week, consigned to the smelter at Trail.

Alf. Palmer, road superintendent, has been over the roads twice this week. The roads are coming into nice shape now.

Mr. Franklin of Sirdar and H. Trevalyn of Kuskanook were visitors during the week. S. Lombardo was a business visitor at Creston on Friday.

Gordon Beeston, engineer for the West Kootenay Power and Light Co., was at Kootenay Landing changing the automatic guage recorder, and returned to Nelson the same day.

P. Longuille of Twin Bays was shopping at Creston between stages on Tuesday. T. Rogers and F. Pelle of Sirdar were also Creston visitors that day, as were Mr. and Mrs. J. S. Wilson.

Mr. and Mrs. J. Koliman were visitors to Nelson over the weekend.

The water as indicated by guage at Slough bridge reads, 5.00 ft. a rise of 1.00 ft. for the week. The flow off is quite heavy and if it continues like this it will be helpful in minimizing the danger of high water.

Sirdar softball team met the Wynndel farmers here on Sunday in a well contested game. The persistence and aggressive tactics of the local team were successful in getting them a victory, the score being 15-13. D. Blumaneaur and C. Lombardo were umpires.

April Meeting Board of Trade

Name Resolutions Committee and Delegates for Associated Board's Convention—Discuss Curfew and Beer Plebiscite.

There was considerable variety to proceedings at the April meeting of Creston Board of trade on Tuesday night, which was in charge of President W. L. Bell, with quite a good turnout of members. The proposed curfew law was under review, full information was on tap as to how to proceed with a vote for beer, hospital matters were touched upon as well as proceeding at the 1934 convention of the Associated Boards of Trade of Eastern B.C.

In connection with the latter gathering payment of the annual membership fee was authorized, a resolutions committee composed of Dr. McKenzie, J. G. Connell, C. O. Rodgers and Col Mallandaine was named, and the board's repres ntatives at the conclave will be President Bell, vice-president F. F. Staples and C. O. Rodgers. Alternate delegates are Frank Putnam, M P P., C l. Mallandaine and J. G. Connell.

Two new members were added to the roll. They are A. E. Davies of Creston Transfer, and high school principal, F. P. Levirs. The meeting agreed that for services rendered the secretary's dues for 1934 be remitted; and that official gracefully accepted the remission on the understanding that the amount be turned over to the hospital treasury.

The board expressed its pleasure in connection with the recent broadcast over KHQ, and a vote of thanks was tendered Reeve F. H. Jackson, and all who had assisted in preparing the material for the night on the air.

Full approval was given the 1934 federal Fruit Marketing Act and wires will be sent Premier Bennett, W. K. Esling, M P., a d also H. H. Stevens, minister of trade and commerce urging them to see that the legislation goes into effect without undue delay.

The secretary will write the C.P.R. divisional superintendent at Nelson asking that the company at the earliest possible moment provide electeic light service at both the Creston and Erickson depots. The report of the municipal and hospital committee and approved by the executive at a special meeting last month and forwarded the authorities at Victoria was entrusted to the committee for future action.

To the publicity committee was entrusted a letter from H. H. Peel, district superintendent of colonization for the C.P.R. at St. Paul, Minn., which that gentleman had sent the Board of Trade at Kootenay Landing, and which had been given to J. R. Bleumenaeur, C.P.R. agent at Sirdar, who in turn, had mailed to Creston board. It is an enquiry for literature, etc., concerning this part of Kootenay, from a Mr. Filmer at Otley, South Dakota.

The Western Economic Outlook

Writing in "Agricultural and Industrial Progress In Canada," Mr. John F. Sweeting, Industrial Commissioner, Western Lines, Canadian Pacific Railway, declares that confidence in the outlook for 1934 business is the dominant feature of the Western situation. Signs are not lacking in many parts of Canada that we are slowly emerging from the depression of the past four years. Improvement appears to be more noticeable in the Eastern parts of Canada, where some acceleration is apparent in the manufacturing industries. In the West where we depend almost entirely on agriculture, recovery will necessarily be more slow in coming. As a matter of fact we cannot hope for any great degree of prosperity whilst agriculture languishes. A good crop, fair prices for our wheat, and a market for our products are the needful factors. Mr. Sweeting says that improvement in trade, together with the realization that an upturn is now noticeable, has brought back the more satisfactory feeling that it is possible to consider that a period of trade and industrial expansion is, to a moderate degree, justified. Anticipated during the last few months, it is not difficult to venture the statement that every effort is being put forth to increase the volume of business throughout the West by methods that are most likely to react favourably.

It is, of course, too early to state what programme of new development is likely, though enquiries towards the end of last year appeared to indicate that some industrial expansion of note might take place during the present year, and that there may be more money available for building operations of all classes. In this relation, there should certainly be a distinct improvement over 1933 if necessary requirements are to be met in the erection of houses and commercial buildings, quite apart from any factory expansion. Any programme of moderate size would soon improve the home lumber market, which has been nearly at a standstill for some time, though the export business has been showing important increases.

The mining industry is looking for a steady improvement, and activities in relation to development would show a confident outlook in this respect. In British Columbia, Manitoba and western Ontario work continues on an increasingly larger scale, which will bring some important properties into production during the present year.

The Western agricultural situation is a matter of constant study of ways and means to bring it to a more stabilized level but, in the meanwhile, the Western agriculturist is bent on carrying on with ever-improving methods in the production of grain and livestock, having in view that ultimately his returns will justify confidence in Western Canada and its products. This is considered to be a reasonable attitude that will eventually realize greater value for farm products, more especially as the major effort is towards a higher standard that will meet export market requirements. This work is already showing results that further the belief that the correct course is being followed.

In Alberta and to some extent in Saskatchewan and Manitoba, drilling for oil and gas is to be continued. The Alberta programme is to be of considerable size, according to present indications, the more southern field getting the larger share of the proposed operations.

The sodium sulphate industry of Saskatchewan increased its production during 1933, and it is anticipated other deposits will be brought into operation during the present year. The clay areas of southern Saskatchewan continue to cause interest, awaiting further development at such time that capital and growing markets are availble.

The fishing industry of the inland lakes of the three Prairie Provinces is being fully investigated in order that the marketing of the products of these lakes may possibly be put on a better footing, and efforts are being made to expand the marketable areas for whitefish, as well as for other classes of fish that are available in large quantities from the fresh water lakes of the West.

Fishermen Perish In Storm

Eight Hundred Lives Lost When Storm Lashes Chinese Coast

Eight hundred fishermen were drowned in China, when a storm off the coast of Kwangtung province sank 300 fishing junks.

A Chinese customs cruiser rushed to the scene and picked up a number of survivors, the reports said.

Kwantung province, lashed by a storm which was reported to have destroyed a fishing fleet, is the southern-most sea coast province of China. In it are located the cities of Canton and Hong Kong, and toward the northern border is the seaport of Swaton.

Cleveland is probing a poorhouse whose books show 24,000 gallons of gas used in 11 months in six small cars. Someone must have cleaned a tie.—Detroit News.

Toys Made By Prisoners

Many Danish Convicts Continue Trade After Their Release

Convicts in Denmark, land of Hans Christian Anderson, of fairy tale fame, have been put to making toys. They are allowed to use their imagination instead of helping in mass production. The toys are sold outside, and the men paid regular wages, part of which goes to the state for their keep, some to the Prisoners' Aid Society, a portion to dependents and a small amount to the prisoners, to be spent at the prison canteen. Many men are following the trade after their release.

Nervous Suitor—"Sir, er—that is, I would like to—er—that is, I mean I have been going with your daughter for five years—"

Father—"Well, waddye want— a pension?"

MILBURN'S HEALTH AND NERVE PILLS

Shortness of Breath

Weak, Sinking Feelings

If going up stairs, climbing hills, walking too far; if the least exertion causes you to stop to get your breath, or if you have weak, sinking feelings, it is time for you to stop and think as to the cause of your trouble.

What you should do is take a course of Milburn's H. & N. Pills. They tone up and strengthen the vital organs so as to prevent any harmful attacks of disease.

Ask your druggist for Milburn's H. & N. Pills.

European Travel Costs Lower

Reduced Railway Fares As Well As Hotel Rates

Contrary to a wide-spread impression, European travel costs this year, despite foreign exchange rates, are actually lower than they were in the peak travel year of 1926, according to the Cunard & Anchor-Donaldson Lines.

This fact is revealed in the inclusive tour costs of the big travel agencies and the reduced fares on railways, automobiles and hotels. Private automobiles can be hired at a much lower price, the costs being reduced by 44% in Paris and in Rome by 46%, with comparative reductions in other countries.

Hotel rates average 36% less all over Europe than they were in 1926. In Paris the reduction is 33⅓%, in London 21%, in Nice 26%, in Genoa 66%, in Romé 50%, in Naples 60%, in Lucerne 33%, in Interlaken 40%, in Heidelberg 25%, in Cologne 35%, in Amsterdam 41%, and in Brussels 23%.

Railway fares have been lowered in many countries. In Holland, for instance, the reduction has been as much as 22%, in France 30%, in Poland 25%, in Switzerland 30%.

Taxis have come down considerably; in Amsterdam, for instance, a taxi ride, regardless of the distance covered, costs you only 27c, half as much as in 1926.

Organized sight-seeing tours in Europe are considerably reduced. In Paris, they are 25%, in Nice 28%, in London 14%, in Brussels 22%, in Rome 25%, and in Heidelberg 37% less than in 1926.

These reductions more than off-set any unfavourable effect of high exchange operating in some countries.

SHE LOST 32 lbs.

New Frocks No Longer Worried Her

"How did she lose that 32 lbs. of fat?" is what you will be asking. Let her tell you herself:—

"About 18 months ago I weighed 178 lbs.—which I can assure you annoyed me very much. Everything seemed a worry to me, especially new clothes. Nothing would fit me comfortably, and walking was unbearable. I was advised by a friend to try Kruschen Salts, and I am very glad I did, too. During the first ten months I lost 28 lbs. of fat. Now, for the last 6 months my weight has been 146 lbs., and I feel much better in health. I have all my weight tickets to substantiate my statements."—(Mrs.) M. P.

Kruschen contains those six mineral salts, proportionately balanced, found in the waters of those famous European Spas used by generations of fat people to reduce weight.

Kruschen helps blood, nerves, glands and body organs to function properly—you gain new strength and energy—feel years younger—look better, work better.

To Assist Livestock Industry

Want Reports On Detrimental Practices Of Livestock Buyers

To assist him in the presentation of the important information respecting the livestock industry to be submitted by joint representation of the government of the prairie provinces, Hon. W. C. Buckle, minister of agriculture for Saskatchewan, is desirous of having farmers interested in the production and marketing of livestock, report any specific example of where the producer is not the recipient of full market value for his livestock due to detrimental trade practices or other defect in the present system of marketing livestock. All statements should be accompanied by documentary proof. Opinions are valuable when based upon facts, but without them, are useless in a case of this kind.

It is expected that joint representations from the prairie provinces will be submitted to the Parliamentary Committee, Ottawa, very shortly. The Livestock Associations and the Livestock Pool, have been invited to present available data to Hon. Mr. Buckle to be incorporated in a joint statement on behalf of the three prairie provinces.

Evidence that the seabed of the Indian ocean once was a continental area, including deserts, has been found by an oceanographical expedition.

Wales Takes Canadian Steel

First Order Will Likely Be Followed By Others

Canada for the first time in her industrial history, the Guardian says, is supplying South Wales with her steel in competition with the imports received from Belgium, Germany, France and Sweden.

The steamer Grey County recently arrived at Newport with 3,600 tons of Canadian steel billets and further cargoes of this product are expected.

"Although there is a heavy duty on foreign steel," the paper says, "South Wales still imports about 18,000 tons per week, which is used for conversion into tinplates. Canada recently gave an order for 1,000,000 boxes of Welsh tinplates and an endeavor is being made to create a reciprocal trade between South Wales and the Dominions."

Farmers of the Netherlands are welcoming the payments by the government from its agricultural crisis fund.

Of 18 swimmers, including nine women, who attempted to swim the English channel in the summer, only one, a woman, was successful.

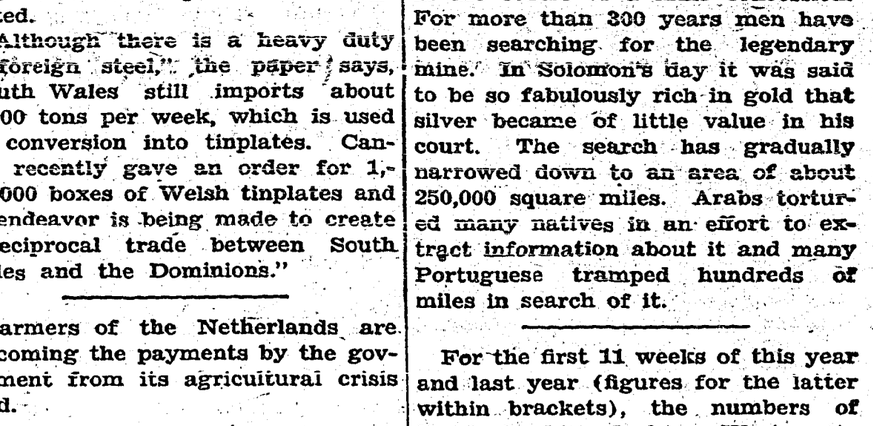
Report Finding Of King Solomon's Mine

Rhodesian Prospector Refuses To Give Exact Location

Finding of King Solomon's mine, search for which has caused the death of thousands has been reported by a prospector in Broken Hill, Northern Rhodesia. He declares that he discovered it while following a wounded buck, but refuses to give the exact location except that it is in the centre of a mine concession. For more than 300 years men have been searching for the legendary mine. In Solomon's day it was said to be so fabulously rich in gold that silver became of little value in his court. The search has gradually narrowed down to an area of about 250,000 square miles. Arabs tortured many natives in an effort to extract information about it and many Portuguese tramped hundreds of miles in search of it.

For the first 11 weeks of this year and last year (figures for the latter within brackets), the numbers of livestock shipped from Western to Eastern Canada were: Hogs, 57,995 (78,234); cattle, 18,554 (5,921); calves 148 (19); and sheep, 25,932 (21,480).

Quick Relief Now From Neuralgia



Real* ASPIRIN *Starts Taking Hold in Few Minutes

Now comes *amazingly quick* relief from headaches, rheumatism, neuritis, neuralgia . . . the *fastest safe relief, it is said, yet discovered.*

Those results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly you swallow it. *And thus is ready to go to work almost instantly.*

When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN'S *quick relief*, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.

WHY ASPIRIN WORKS SO FAST

Drop an Aspirin Tablet in a glass of water. Note that BEFORE it touches bottom, it has started to disintegrate.

What it does in this glass it does in your stomach. Hence its fast action.

MADE IN CANADA

Does Not Harm the Heart

MOVE TO BOOST AND STABILIZE WHEAT PRICES

Rome.—World wheat experts gathered here for conferences that may write agricultural and economic history by boosting and stabilizing wheat prices through an international agreement and point the way to other recovery efforts.

Minimum quotations for wheat exports were considered the chief topic for discussion during the meetings, but legislative measures to increase consumption of wheat and the control of all shipments also were important items on the agenda.

The permanent advisory commission of countries signing an international wheat export limitation pact last year was represented as desirous of reaching a world agreement to raise the minimum export wheat price at least 25 per cent., and experts said that a boost of 30 or even 35 per cent. would be more welcome.

The present world parity, based on the average price of all parcels of imported wheat of all grades sold during the week at British ports, is a little more than 40 gold cents a bushel.

If the advisory commission agrees to recommend a minimum price to the governments, and the nations agree, the minimum quotation will be about 55 gold cents.

A canvass by the Associated Press of the delegates showed the following reaction to the plan:

Great Britain favors it as a means of aiding agricultural exporting countries, including Canada and Australia.

France was one of those formally proposing the measure.

Germany, another of the original proponents, will support it.

Argentine delegates were inclined to be skeptical regarding the practical possibilities of a minimum agreement in the belief that the control thereof will be difficult and evasions frequent.

The United States wants an international agreement on the reduction of wheat acreage as a preliminary to the minimum export price agreement, her argument being that a minimum price accord otherwise would discourage an acreage reduction.

Canada and Australia are the only countries whose internal wheat price equals the world export parity, and they favor a minimum quotation.

The French delegation suggested to the advisory commission that compensation in the way of increased exports of industrial and other products in return for a reduction of wheat acreage should be made importing countries.

This scheme, its advocates contended, would get the support of other importing countries, including Germany, Italy and Great Britain.

Canada, the world's greatest wheat exporter, is known to be ready to lead in fully implementing the August wheat pact. Under her recent Natural Products Marketing Act, wheat boards are to be set up in the wheat growing provinces, acting with a federal board, to license and restrict sales so that Canada's exports abroad will not exceed the maximum she accepted for the crop year 1934-35. This maximum is expected to be around 265,000,000 bushels, compared with the maximum of 200,000,000 for the expiring crop year.

The selection of John I. McFarland as the chief Canadian representative to Rome was interpreted as signifying Canada may again take the initiative she showed last August. McFarland is in charge of Dominion stabilization arrangements for the Winnipeg market.

Girl Guides For Switzerland

Toronto.—Girl Guide leaders of each of the Canadian provinces have been asked to recommend a first class Guide, aged 18, to the Canadian headquarters executive committee, for the selection of Canada's representative to the international encampment at the Guide chalet, Adelboden, Switzerland, next July.

W. N. U. 2041

Appeals Will Be Allowed

Clause In Manitoba's Wheat Control Bill Has Been Altered

Winnipeg.—Premier John Bracken's emergency wheat control bill passed safely through law amendments committee of the Manitoba legislature with one significant amendment. The bill now goes into committee of the whole.

The section of the wheat bill proposing orders of the wheat control board would be above any question, review or appeal in the courts was the only clause to be altered.

On the motion of Premier Bracken it was rewritten and remodelled after the clause in Saskatchewan bill, providing for court action on the wheat board's decision only when a fiat has been obtained.

Dominion guarantee of a minimum price of wheat to the farmer while the world wheat agreement is in effect will be asked in a resolution to be moved in the legislature by Douglas Campbell, government member for Lakeside. It requests a guarantee of a minimum of 63.02 gold cents per bushel, basis No. 1 Northern grade, C.I.F. Liverpool, equivalent to 1.05⅝ at Liverpool or 90 cents at Fort William.

Manitoba Beer Bill

Sale Of Beer By Case In Licensed Hotels

Winnipeg.—After three hours' debate, the bill to amend the Government Liquor Control Act to permit beer depots for the sale of beer by the case in licensed hotels was given third reading in the Manitoba legislature.

Party lines were split on the debate with Hon. W. J. Major, attorney-general, declaring widening of the beer selling facilities was necessary in the drive to eliminate bootleggers.

The vote on a motion by George Dinsdale (Cons., Brandon) to delete the clause providing beer depots from other minor amendments was defeated 30-10. There was no recorded vote on third reading.

Volcano Active In Iceland

Rain Of Ashes Over Eastern Part Of The Island

Reykjavik, Iceland.—Eruptions of the famous Skeidararjoekull Cirka volcano grew in intensity and hurled a rain of ashes over the entire part of eastern Iceland.

The rumblings, which began some time ago, became louder and could be heard distinctly up to 155 miles away.

The centre of the explosions was located beneath the Medio Vatnajoekul glacier, which is north of the Skeidara river. The nearest village is 31 miles south of the glacier's edge.

Provincial Marketing Board

Alberta Bill To Give Effect To Dominion Marketing Act

Edmonton.—Implementing federal legislation, a bill to provide for the functioning of a provincial marketing board was introduced in the Alberta legislature by Premier J. E. Brownlee. It was given first reading.

The bill aims to give the provincial government power to bring into effect by proclamation any part of the Dominion Marketing Act.

TO RETIRE

Hon. Thomas Ashmore Kidd, who retires from the Speakership of the Ontario Legislature when the House dissolves. Irrespective of the outcome of the forthcoming Provincial General Election, Colonel Kidd will not be back in the Speaker's chair. Sitting through five sessions, never once sick, and never once absent for any reason, is the enviable record which Colonel Kidd has established.

Fortune Awaits Disposition

Will Covering Estate Of Fur Trader Lost Many Years Ago

Fort William.—A fortune reputed to amount to millions of dollars awaited disposition while apparent direct heirs in widely separated parts of Canada looked for developments.

The fortune consisted of the estate of James Hudson, accumulated 200 years ago in fur trading with the Indians in James Bay district.

Claimants to the fortune include Moses Frost, 93, of Port Arthur, and Mrs. John Peever, Vancouver. They were grandson and granddaughter respectively of the trader. The fortune is now understood to be in chancery in England.

Delay in settlement of the estate was caused because the will, written on buckskin, was lost or stolen from Mr. Frost's mother in 1867.

Kitsilano Boys' Band

Western Aggregation To Make Tour Of England And The Continent

Vancouver, B.C. — Arrangements have been completed for the Kitsilano Boys' band of Vancouver to spend several weeks in England on tour this summer, with the prospect that engagements on the continent will also be filled.

The band, numbering about 45 members, will leave Vancouver on June 25 and play in Banff, Alta., Calgary, Swift Current, Sask., Moose Jaw, Sask., Winnipeg and Montreal, sailing from the latter port on July 6.

Socialism And Monarchy

Montreal.—The English crown and Socialism are not incompatible, and England would be better off as a hereditary monarchy even if the country became Socialistic, Sir Stafford Cripps, leader of the English Labor party, said here in an interview.

Will Go To Ottawa

Victoria.—Premier T. D. Pattullo announced that he would go to Ottawa late this month to confer with the federal cabinet on British Columbia matters.

Advance In Science

Dr. Tory Criticizes Present Methods Of Education

Toronto.—Defence of the rapid strides in advancement of science and criticism of the present-day educational methods were made by Dr. H. M. Tory, head of the research bureau of Canada, in an address before high school principals at the Ontario Educational Association annual convention here.

Answer to the topic of his address, "Why science is worthwhile," said Dr. Tory, was in its effect on the intellectual life of the modern world; social well-being and material progress.

One of the great social problems of to-day, he said, was unemployment but "to claim scientific effort has resulted in over-production in a world where millions of people are for the moment suffering want is merely to acknowledge progress in producing a suitable economic structure, hindered as it has been by industrial stupidity and greed and by extreme nationalistic policies on the part of statesmen, has not kept pace with growth of knowledge and with the world's needs."

A National Responsibility

Hon. G. M. Weir Advocates More Centralization In Educational Control

Vancouver. — Education is being recognized as a national responsibility and the British North America Act is due for amendment to meet this principle and for amendment without reference to the imperial parliament, Hon. Dr. G. M. Weir, British Columbia minister of education, told 1,000 delegates to the annual convention of the B.C. Teachers' Federation.

Dr. Weir declared the federal government should pay half the cost for elementary education. He also suggested there should be greater centralization in educational control and control of educational finances and predicted that within 25 years, possibly 10, the B.N.A. Act would be amended to provide for these changes.

Alberta Planning Bar On Outside Competition

Bill Has Received Its Second Reading In House

Edmonton. — Power to prevent outside competitors from entering the Alberta field is provided in "modified code" legislation now being considered by the provincial legislature.

This was revealed by Premier Brownlee, speaking in the house on second reading of the Bureau of Trade and Industry Act, first legislation of the kind introduced in a western legislature.

The premier said the purpose of section 15 of the bill was to give power to prevent a similar business from entering Alberta and competing with those in business in this province.

Demand For Wheat

Fort William. — Accumulation of export orders for wheat indicates brisk movement when the shipping season opens, according to Fort William elevator and shipping offices. A total of 15,000,000 bushels of wheat held in local elevators have been sold, according to N. M. Patterson and Co.

ELIMINATION OF LOSSES THROUGH RESEARCH WORK

Toronto.—Elimination of an annual $20,000,000 loss to the wheat farmers of Manitoba and Saskatchewan has been effected by the research bureau of Canada through the development of strains of wheat which are immune to rust, according to Dr. H. M. Tory, head of the bureau.

Addressing the high school principals' section of the Ontario Educational Association here, Dr. Tory said the research, conducted by the council, the federal department of agriculture and the three prairie universities, cost only $250,000.

Since 1916, the total loss from black stem rust, he said, was $600,000,000. In 1924, research was started to overcome the tremendous loss. Within a short time, he said, new wheat strains would be distributed to the rust-infected areas.

"Recently, when I was challenged to justify the expenditures made, I stated I was prepared to demonstrate to any body of reasonable men that we had already repaid to the people of Canada, in work done, the total cost of the research council to date," he said.

Another successful research was in connection with the fishing industry of the Maritime provinces, he said. An annual loss amounting to $500,000 resulted from deterioration of the processed product, but the loss had been completely eliminated by the council at a cost of $5,000.

"Some years ago during a series of wet years a serious problem arose in Western Canada due to damp and tough grain being put on the market," Dr. Tory continued. "A consequent fall in price due to imperfect drying occurred.

"We joined the producers and dealers in an attack upon the problem, solved and eliminated a loss which was estimated some years as high as $3,000,000. A man prominent in the grain trade said to me the other day that this piece of work alone was worth more than the total cost of our research organization to date."

War On Bootleggers

Extend Powers Of Alberta Liquor Control Board

Edmonton.—With the object of giving battle to the bootlegger, the provincial government has brought down a bill in the legislature extending powers of the liquor control board.

One of the principal provisions gives the board power to extend the closing hour for vendors' stores, which is now 8 p.m., the purpose of this is to check the sales by bootleggers.

The new act also changes the present provisions as to $2 yearly and 50 cent single purchase permits. It provides for one class of permit, fees for which will be in the discretion of the lieutenant-governor-in-council. In all likelihood, the new fees will be much lower than those now required.

Tales Of The North

Miners Get Together And Recall Incidents Of Yukon Days

Quebec.—Vivid tales of the north country and the Odysseys of the Sourdoughs who blazed the trails of the Klondyke and the Yukon in the days when men lived on snowshoes and women shared a plateful of beans with them in a rudely-constructed hut in Canada's northern hinterland were recalled at the 35th annual meeting of the Canadian Institute of Mining and Metallurgy.

Mining prospectors were at bat at the meeting. A number of symposiums on prospecting were delivered in which former pan-sifters spoke of their trials and tribulations in early struggles to eke out a living.

Car Prices Advance

Detroit.—Rising wages and materials costs brought automobile price increases by all automotive producing units of General Motors Corporation.

THREE POSTMASTER GENERALS MEET IN THE BRITISH CAPITAL

Left to right: Hon. Arthur Sauve, Postmaster General of Canada; Sir Kingsley Wood, Postmaster General of Great Britain, and Hon. Robert Archdale Parkhill, Postmaster General of Australia, are shown in London, discussing the International Postal Congress which they recently attended in Cairo.

Mrs. Willikins likes to talk

"I don't think I'm an old chatterbox," said Mrs. Willikins, "but I'll admit that I like to talk. It's just a matter of sociability. I like company. If I didn't have someone to talk to, I believe I'd go mad.

"That's why I value my telephone so highly. I'm alone so much, with George at work and the children at school, but thanks to my telephone I'm never lonely. I can always lift the receiver and chat with a friend."

A telephone in the house prevents many lonely hours.

CRESTON, B.C., FRIDAY, APR. 13

LETTERS TO THE EDITOR

The Boys' Cnoir

Editor Review:

Sir,—The visit of St. Paul's boys' choir to Creston on April 3rd was an event to be remembered, and with a great deal of p easure, as it was the outstanding performance that it has been our privilege to attend for many a moon. Such a programme, chosen with the good taste of Mrs. Ferguson, and conducted by that talented lady, contained some splendid numb cs.

With the opening notes of the choruses, "Under the Greenwood Tree" and "The Jolly Miller," the audience settled down to an evening's pleasure. The 'Cradle Song,' as a trio, was a notable contribution. As a coming soloist Master Donald Brown creditably shone, indeed, singing 'The Better Land, and "Baby Boat." His tones were clear and true and considering his tender years the natural artistry shown promises much for the future.

In those old favorites, "St. Michael's Tower" und "Sweet and Low," the ensemble was heard to good advantage. Boys' voices n sacred song are of long association and the capacity audience was thrilled with the beauty as contained in the two numbers, "God that Madest Earth" and "Let All the Earth."

Walter Thompson was a very welcome soloist with "That's the Way" and "Home, Sweet Home," the audience insisting on a repeat of the second number. As one of the senior members Foster Mills gave "But the Lord is Mindful of His Own"—quite a heavy number—following with "Sweetest Little Feller,"

The last chorus awakened many pleasant memories in the delighted gathering, as the boys sang "Angels, Ever Bright and Fair." Throughout the entire evening the beauty of the boy's voice in concert was made evident—the result of a lot of painstaking training from out of the rough in a short two or three years, by Mrs. Ferguson.

There were a few indications of room for improvement. Possibly a little lack of power in the ensemble. And did we—maybe we did—hear a little insecurity in the part songs.

It is a highly creditable performance; a boon to Creston music lovers and quite a feather in the cap of Nelson. Much of the success of the evening is due Rev. and Mrs. Ferguson. The former for his monologues, stories and jests, which succeeded in diverting both choir and audience between musical numbers, and the piano selections given by Mrs. Ferguson.

Creston would do well to have an organization along the lines of St. Paul's choristers, to train and develop our younger citizens for music's sake. We look forward to a return engagement, so come come again, St. Paul's. W.J.T.

Lister

Birth—On April 5th, to Mr. and Mrs. E. Stieb, a daughter.

Miss Olson, teacher at Huscroft, returned from Nelson on Sunday.

Col. and Mrs. Lister and their guest, Miss Jean Fisher, left on Sunday for Nelson.

Miss Ida Rylan was an Easter week visitor with her friend, Miss Annie Gartland, at Canyon City.

Mr and Mrs. A. Wilson of Cranbrook are spending the week with the latter's father, George Hurry.

Mrs. Sam Whittaker and son, John, of Cranbrook, are visitors this week with the former's mother, Mrs. A. Hobden.

Mrs. R. Stevens, who was an Easter week visitor with her son, Ernest, at Trail arrived home with Miss Curtis on the Sabbath.

Miss Margaret Weisz of Kootenai, Idaho, is a visitor here at present, with her sisters, Mrs. F. Hollaus and Mrs. J. Kranabetter.

At the Anglican Church service on Sunday afternoon Rev. M. C. T. Percival officiated at the christening of the infant daughter of Mr. and Mrs. Fred Powers—Margaret Rose.

School re-opened on Monday morning, Misses Curtis and Webster getting back the day previous from their holiday visits at Slocan City and Coal Creek respectively. Kirk Beard, who has been absent for a couple of months, due to accident, has resumed his place in Grade 8.

Two trustees will have to be elected at the annual meeting of Lister Waterworks District on Saturday, at the schoolhouse. The term of Col. Lister and W. P. Edwards, the latter an acting trustee, have expired. It is expected E. C. Hopper, secretary of the Land Settlement Board, will be here from Victoria.

Vice-president Fred Powers presided at the annual meeting of Lister Trading & Supply Company, Limited, at the annual meeting on Friday night at which the balance sheet and trading statement for the year was presented and adopted, the utmost satisfaction being expressed with the year's fine business. The directorate was reduced from five to three members, with the following elected: H. Helme, F. Powers and John Bird.

SEED POTATOES—Early Ohio, $2.25 per 100 lbs. Netted Gem, $1.50 per 100 lbs. Mrs. G. Gartwright, Erickson.

FOR SALE—1 and 2-year old hens, splendid layers, 50 and 60 cents each. Mrs. N. Husband (Alice Siding) Creston.

NOTICE!

WATER ACT

NOTICE IS HEREBY GIVEN that his Hon ur the Lieutenant-Governor, by and with the advice of his Executive Council, has been pleased to order:

THAT the reservation of the unrecorded waters of Goat river and its tributaries, except Arrow Creek, in the Nelson Water District, which reservation was established by order-in-council numbered 1457, approved on the 21st day of December, 1928, be cancelled.

The said cancellation shall be effective on the 8th day of May, 1934.

Dated at Victoria, B.C., this 29th day of March, 1934.

A WELLS GRAY,
Minister of Lands.

WATER NOTICE

DIVERSION AOD USE

TAKE NOTICE that Salmo Malartic Mines Ltd. whose address is P.O.Box 1082, Nelson, B.C., will apply for a license to take and use 10 cubic feet per sec. of water out of Hidden Creek, which flows westerly and drains into Salmo River about four miles south of Ymir B.C.

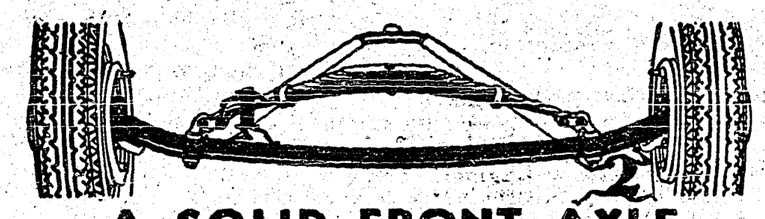
The water will be diverted at a point about two miles from the G.N. Ry., and about 400 feet below the point where wagon road crosses Hidden Creek, and will be used for mining and power purpose upon the Aspen Mine, described as the Aspen group.

This notice was posted on the ground on the 15th day of January, 1934. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Nelson, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

SALMO MALARTIC MINES, LTD.,
Applicant.
By W. M. MYERS, Agent.

The date of the first publication of this notice is April 6, 1934.

Safety is combined with Easy Riding in the NEW FORD V-8

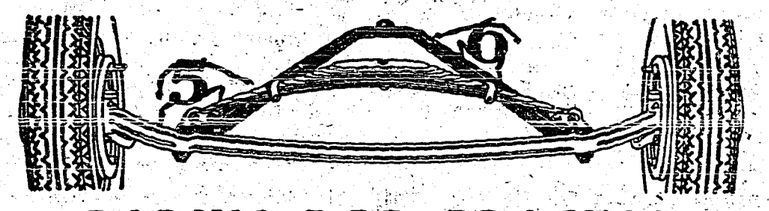


A SOLID FRONT AXLE

(1) The structural advantage of a sturdy front axle of high quality steel is apparent to anyone. (2) The proper camber, caster and "toe-in" of the front wheels can also be maintained with consequent reduction in tire wear. (Drop in and we'll show you what camber, caster and "toe-in" are.)

TRANSVERSE SPRINGS

(3) The heavy section of spring is attached to the frame. (4) The flexible, feather-like tips are attached to the axle near the wheels; they receive road shocks first and absorb most of them before they reach the frame. The rear wheels also have the same easy spring control.



RADIUS ROD BRACING

(5) In the Ford, regardless of braking stresses, alignment of the wheels and ease of steering are maintained by axle, radius rod and transverse spring. (6) The rear end of the radius rod is firmly fastened to the frame by a ball and socket joint which is insulated with rubber.

The lucky ticket on the radio set raffled by the ladies of Holy Cross Church, was held by a Mr Thompson, of Toronto, Ontario. The drawing took place after the show at the Grand on Saturday night.

Miss A. Fleetwood left on Friday for Portland, Oregon, in which city she will be making her home for the present, at least. Her residence on Hillside Road is now occupied by Mr. and Mrs. A. Goplin.

Creston and District Women's Institute April meeting is scheduled for this afternoon at the home of Mrs. Maxwell. The chief business is to arrange for the annua bulb show and tea later in the month.

There was a good turnout Wednesday evening at the United Church hall for the lecture on "Present Day Problems of Youth, by Mrs. Jamieson of Burnaby, who appeared under the auspices of Creston C.C.F. Club.

FOR SALE—Asparagus, Mary Washington, two years old, $3 per 100 Black Currants, Boskoop Giant, two years old, $2 per dozen. Strawberry Plants, British Sovereign and Parson's Beauty, $4.00 per 1000. Also Pansies. H. F. Robson, Wynndel.

Christ Church W.A. had a fair turnout at their bridge at the Parish hall Wednesday afternoon at which the prize-winners at auction were Mrs. L. C. McFarland and Mrs. J. G. Connell. At contract the high score was made by Mrs. M. Smith.

A lecture on Technocracy is scheduled for Monday night in the United Church hall, at 8 o'clock. The speaker is W. Everett of Spokane, who is a member of the Technocracy executive committee of the state of Washington and an outstanding aut or ty on the subjec . He is being brought in by a committee of local citizens. Collection.

Mr. and Mrs. W. M. Archibald met with what might easily have been a much more serious auto mishap on Friday morning on their return from a trip to Spokane. On a very bad stretch of road at the Twin Creek ranch, five miles south east of Porthill their car got out of control and was thrown over a 60-foot bank. Luckily they were followed by an Idaho car the driver of which came to the rescue, bringing the Archibalds into Creston hospital for treatment. Mrs. Archibald fared the worst, being badly shaken up, bruised and cut about the face, but is expecting to leave the hospital toworrow. Mr. Archibald was bad ly shaken up but he was able to be out early in the week, and yesterday left by plane for Trail.

Wynndel

Miss Daisy Rogers of Sirdar was an Easter week visitor here, a guest of Miss Leah Abbott.

The annual meeting of Wynndel Irrigation District is called for Thursday, April 12th, at 8 p.m.

Miss Ethel and Warren Hook of Spokane were visitors with their grandmother, Mrs. J. J. Grady.

Tennis play has commenced with the court in good shape and the followers of the sport keen at the game.

Mrs. H. Middleton of Willow Point was a weekend visitor at Wynndel, a guest of Mr. and Mrs. Towson.

Father Choinel was here on Thursday last, and Mass was celebrated at the home of Mrs. Grady that morning

The April meeting of the Women's Institute will be held at the United church hall at 2:30 p m., Tuesday, 17th.

School opened on Monday after the E ster vacation. Miss Harrop getting back on Sunday from her holidays at Harrop.

The grader was over the road last week and cured the ruts greatly, making travel much better. Gravelling, now, would complete the job.

The Easter dance of the K.K. Klub on Friday evening was a success and everyone had a good time. Walde's four piece orchestra supplied the music.

Wynndel ranchers are busy uncovering berries, ploughing and some land clearing. The berries seem to have come through the winter in good shape.

The K.K. Klub meeting Wednesday evening last featured two basketball games. Creston ladies' Pharmacy and Creston High school was a 16-4 win for the high girls. The men's game Wynndel vs. Creston high school resulted in a win for Wynndel 27-17. At this meeting it was decided to close the club until autumn.

Canyon City

School re-opened on Monday after the ten day Easter vacation.

Due to a shortage of material construction on the Craig barber shop at the former Browell corner is held up.

The government grader was over the roads on Tuesday and has made a considerable improvement in travel conditions.

Stumping operations are much more in evidence than a year ago. Some of those busy are A. A. Bond, W. Ridd, F. H. Jackson and Axel Berggren.

E. Nouguier got back last week from a business trip to Carstairs and other p ints in Alberta, and reports soil conditions there ideal for the spring crop.

"Yimmy Yonson's Yob" is getting its second presentation at the hall this evening with Orville Bothamley replacing Harry VanAcheran as the redoubtable "Yimmy."

Canyon Farmers' Institute have the April meeting at the hall on Saturday night. The semi-annual meeting of the directors of the water district is called for the same evening.

The wiring crew of West Kootenay Power & Light Company has been busy here since the first of the month and with recent installations it would look as if 90 per cent. of the homes were using the "juice."

At the annual meeting of Creston Valley Co Operative Association on Wednesday last Canyon was well represented with H. Young elected as one of the three new directors. The other two were T. Goodwin and L. Littlejohn These with L. T. Leveque, Jim Turner, T. R. Mawson and P. Boffey complete tha board.

FOR SALF—Asparagus roots, 1 cent each. Van San Strawberries, $4 00 per 1000. Everbearing Strawberries, 50 cents per 100. Black Currant roots, 25c. per dozen. J. W. Robinson, Creston.

WORLD HAPPENINGS BRIEFLY TOLD

After spending 24 hours and 10 minutes swimming continuously, P. K. Ghose, the famous Bengalese swimmer came out of the water to claim he had beaten a world's record.

Central collegiate orchestra, of Regina, directed by R. J. Staples, were adjudged the winners in the high school orchestras competition in Winnipeg.

The London Times commenting editorially on the Canadian government's new natural products marketing bill, said the bill is likely to become the principal issue in Dominion politics.

Electric bulbs giving light corresponding with the colors of the solar spectrum have been used with remarkable results in developing plant life in a laboratory of the Academy of Science in Paris, France.

Britain is getting the ice cream habit. In 1933 the United Kingdom consumed 40,000,000 gallons, a new record, and the consumption was almost as great in winter months as in summer.

Sweden will not be able to reduce her defence armaments, whatever international agreements are made, said R. J. Sandler, Swedish minister of foreign affairs, in an address at Stockholm.

Dr. John F. Coar, professor of German in the University of Alberta, will retire from that position at the end of the present academic year, it has been announced. He has reached the pension age. Dr. Francis Owen, associate professor in the department, will take over teaching of German.

Even Toys Are Speedier

Toy automobiles for the 1934 season have been streamlined like most of their big prototypes, and also speeded up, according to advance information from the toy association. The new models are guaranteed to travel 100 feet in a minute. The electric ones will travel five miles without new batteries.

Professor—"What! Forgotten your pencil again, Jones. What would you think of a soldier without a gun?"

Jones (an ex-service man)—"I'd think he was an officer."

Aid For Saskatchewan Horse Breeders

Federal-Provincial Premium Policy Of Assistance To Horse Breeding

The Hon. W. C. Buckle, minister of agriculture for Saskatchewan, has made an announcement that is of great interest to the horse breeders of Saskatchewan. He states that the Federal-Provincial Premium Policy of Assistance to Horse Breeding will be put into effect in Saskatchewan this year on a modified scale.

This provides for the payment of a premium to choice, sound, outstanding stallions that are approved by the federal-provincial board for this season. The premium will be calculated on mares proving to be in foal to these stallions at the rate of $4.00 for each, to a maximum of fifty, that is, not over $200 will be paid for the services of any one stallion.

This policy is designed to benefit horse breeders, but the premium is payable to the stallion owner to allow him to reduce his service fees in order to enable farmers to make use of the service of a premium stallion at a moderate cost and thus raise a superior type of draft horse. The payment of premiums is shared equally between the Dominion Department of Agriculture, Ottawa, and the Saskatchewan Department of Agriculture, Regina.

The only stallions that are eligible for this premium are pure bred, registered stallions that are free from unsoundness, of outstanding type, conformation and quality, with true, straight action, possessing plenty of size, and three-year-olds in ordinary breeding condition, must weigh 1650 pounds or over, four-year-olds must weigh 1750 pounds or over, and mature horses must weigh 1850 pounds or over.

No stallion will be considered for the premiums unless he is enrolled and licensed for 1934 under the Provincial Horse Breeders' Act.

Spring And Summer Cruises

Delightful Ocean Voyages Planned By The Cunard Line

In announcing a series of twenty spring and summer cruises to the Mediterranean from London and Liverpool the Cunard Line adds a new development; overnight stays in the more popular or festive ports. The idea of prolonging the call is to enable passengers to attend places of entertainment open only at night. Experience gained during the past two years proves that passengers after spending the day in shore excursions like to visit a theatre or attend some festivity taking place in the evening.

Thus itineraries have been arranged for the ship to stay late in such ports as Lisbon, Barcelona, Monte Carlo, Naples and Casablanca, all of which offer attractive opportunities to take part in spirited night life.

These shore cruises will be made by the Samaria and Lancastria. The first left Liverpool on March 29, calling among other ports at Lisbon and Vigo. As an illustration of how the new scheme will work out the ship will remain at Lisbon for 24 hours, instead of the usual 8, and at Vigo for 15 hours, instead of the usual 10. Similar holdovers will be included at all festive ports.

The cruises will range from 6 to 17 days and the rate will begin at 9 guineas. The Lancastria will sail from Liverpool and the Samaria from London.

During July three additional cruises will be made to the Norwegian Fjords, while two others will visit the principal northern capitals.

Trans-Atlantic connections with any of these cruises may be booked through any of the Canadian offices of the Cunard Line.

Eating Up The Fee

The teacher heard a child crying, and rushed out to the playground to find out the cause of the disturbance.

"What is the trouble?" she asked of little Jimmie, who stood calmly by, eating an orange.

"Billy took Fred's orange," explained the witness.

"And where is the orange?" asked the teacher.

"Oh, I have that," replied Jimmie. "You see, I am the lawyer."

Warren Hastings was the first governor-general of India.

Little Journeys In Science

OCEAN DEPTHS

(By Gordon H. Guest, M.A.)

Much has been written about the conquering of Mount Everest and other great mountain peaks but few people have interested themselves in the other extreme in nature, the deepest depths of the ocean. Mount Everest in the Himalayas is some 29,000 feet high, but in the Swire Deep, off the island of Mindanao—in the Phillipines, the sea is 32,088 feet in depth. The average depth of the ocean is considered to be about 12,600 feet, or nearly two and a fourth miles.

Little sunlight goes down farther than 1500 feet, and below that level there is utter darkness, and the water is so cold that were it fresh, and at the surface, it would freeze. No plant life exists here, but there are many fish, who depend for their food solely on particles that come down from the surface of the sea. These fish live where the pressure of the water is two tons to the square inch. Because their tissues are so porous that they absorb sufficient water to balance the pressure on the outside, these fish are quite at home with that tremendous force pounding on them from all sides.

Fish living in these ocean depths have one peril that confronts no other living creature, the danger of falling upwards. If these fish rise too far above the bottom of the sea, the gas in their swim-bladders expands, and they are forced towards the surface where the bladder bursts or the fish "explodes".

Even the most severe storms do not disturb the water to a depth of more than 300 feet and so the deeps are always still, dark and cold. Strange fish cruise around in the depths and occasionally there comes to rest a dead whale or some other saturated object from the higher levels.

Let no one think that religion does not apply to private life; it applies to the way you do your most common work just as really as to what are sacred duties.

OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver Bile —Without Calomel

Your liver's a very small organ, but it certainly can put your digestive and eliminative organs out of kilter, by refusing to pour out its daily two pounds of liquid bile into your bowels. You won't completely correct such a condition by taking salts, oil, mineral water, laxative candy or chewing gum, or roughage. When they've moved your bowels they're through—and you need a liver stimulant.

Carter's Little Liver Pills will soon bring back the sunshine into your life. They're purely vegetable. Safe. Sure. Ask for them by name. Refuse substitutes. 25c at all druggists. 48

SUNDAY SCHOOL LESSON

APRIL 15

JESUS TEACHES FORGIVENESS

Golden Text: "Forgive us our debts, as we also have forgiven our debtors." Matthew 6:12.

Lesson: Matthew 18:15-35.

Devotional Reading: 1 Corinthians 13:1-8.

Explanation And Comments

How To Treat Offenders, verses 15-19. Jesus advised his disciples first to tell the offender of his fault, then to rebuke him in the presence of two or three others, and then, if he still gave no heed to their words, to tell his offense to the church. "When two or three are gathered in my name," he added, "there am I in the midst of them."

Unlimited Forgiveness, verses 21, 22. Peter's question, "Lord how oft shall my brother sin against me, and I forgive him?" followed naturally. "Until seven times?" Peter suggested. Peters heart glowed with complacency, for was he not ready to go much farther in forgiveness than was the ordinary man? Did not the Talmud say: "When a man sins against another, that other forgives him once, he forgives him a second time, he forgives him a third time, but the fourth time he does not forgive him"?

"No," answered Jesus, "I tell you not until seven times, but times without number until seventy times seven." "Seven was with the Jews the number of perfection. When time has run through seven days, it begins again; the circle is complete. So no expression could more forcibly convey the impression of endless, ever-renewed, eternal iteration than 'seventy times seven'" (Marcus Dods). Magnanimity is not calculating; there is no place for arithmetic in the grace of forgiveness, or, as Dr. Jowett poetically says, "Forgive to a number where the scaling power of arithmetic retires with wearied wing."

"O man! forgive thy mortal foe,
Nor ever strike him blow for blow;
For all the souls on earth that live,
To be forgiven must forgive.
Forgive him seventy times and seven;
For all the blessed souls in heaven
Are both forgivers and forgiven."
—Tennyson.

Peter himself was an illustration of the grace of unwearied forgiveness. He sinned and sinned and sinned again. Dr. J. D. Jones fancies Peter after Christ's death saying to himself, "O to grace, how great a debtor, daily I'm constrained to be,' and again and again taking himself as a text and preaching a sermon of comfort and hope to downcast and despairing souls.

During the month of February 2,778,358 lbs. of branded beef were sold in Canada.

Agricultural Notes

Many Items Of Interest To The Western Farmer

The haricot or French bean is a native of South America, and was seen by Columbus in Cuba.

Spinach was a comparatively late arrival in Europe from Persia via the Moorish invasion of Spain.

Sugar is being made out of wood in a large-scale factory finished this year at Mannheim, Germany. At present the sugar is fed to livestock.

It was not until after the civil war in the U.S. that the tomato reached the northern states, although well-known in the south.

It took 300 years to popularize the potato in Europe, and only dire necessity forced the country cottager to include it among his vegetables.

The number of producing maple trees on Eastern Canadian farms is estimated at over 70,000,000, of which 24,000,000 will probably be tapped.

Insect pests, notably the corn borer, influence the tonnage of sweet corn available for canning in Canada, but wherever this pest may reduce production in one area, the decrease may be replaced by increased plantings elsewhere.

Phillips' Milk of Magnesia

OCCASIONAL WIFE

By

EDNA ROBB WEBSTER

Author of "Joretta," "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. At a party at an exclusive club Peter entertains Camilla's guests with impersonations. When the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Bowman and Weeks, an advertising agency, where Camilla has submitted some of her work, send for her and tell her they have a new account which requires unusual treatment of juvenile art. The critics were enthusiastic about her work, and Mr. Weeks offers her a salary of $50.00 a week to start and a prospect of having it doubled. She tells Peter of her good fortune in securing employment. Mrs. Hoyt is also informed that Camilla has obtained work and is going to leave the Hoyt household. Avis Werth rents a studio on the same floor as Peter, and invites him to have lunch there. He accepts reluctantly, but is favorably impressed with his visit. Camilla urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel.

(Now Go On With The Story)

CHAPTER XXXVIII.

She remained with him for another hour, striving to find the magic word or gesture that would break this spell of their disenchantment, but he remained aloof and impersonal. There was no ecstatic hour of murmured endearments and close embraces, while they discussed their work and hopes and plans. There was no deeply poignant meeting of blue and brown eyes, eloquent with wordless meanings.

She might have been any girl who had stopped in and interrupted his work, any girl whom he would have entertained with desultory words and a not too gracious manner—except for the first ten minutes which had been followed by their ugly quarrel.

Their farewell was like an act in a play which they had rehearsed too many times to find exciting any more, and Camilla walked out into the mellow autumn sunshine, seeing nothing, oblivious of sounds and feeling paralyzed. She avoided traffic by instinct and boarded the right car from habit. Nothing mattered.

Her world had turned upside down. She and Peter had said unkind words to each other, their eyes had avoided each other's in shame instead of meeting with sympathy. Somehow they had lost that precious, happy intimacy which had made any hope possible and every denial a promise. Her eyes stared out the window at the passing landscape. Buildings, houses, trees, lamp posts, were blurred like a photograph that was badly out of focus. No object was distinguishable.

When Camilla had gone, Peter sank into a chair and dropped his head into his hands. In his gesture was all the weariness and despair of his whole past. Never had life seemed so futile and ambition such a mockery. He might have known it would be like that, he told himself bitterly. Camilla had made practical use of her talent, and within a few weeks was offering to take care of him. He was a dreamer who couldn't even take care of himself.

He believed it was his pride that was hurt because he couldn't support the woman he loved, but it was just common human jealousy which gnawed in Peter's mind. Only the deadly poison of jealousy could so distort both love and pride. But the most malignant factor in jealousy is that it cannot be admitted, and therefore is difficult to cure.

The more Peter brooded over his situation, the more his anger grew, and his wrath settled upon Camilla because she was the object of his jealousy and of his overwhelming desire to succeed at the same time.

A light knocking at the door startled him violently, so deeply was he sunk into the absorbing quicksand of despair. He aroused himself with an effort and thought, "Camilla has come back to try to make it right. Well, she can't. I'm sick of it all."

The knocking was repeated, more imperative. He called crossly, "Come in."

The door opened and his hostile eyes met the pleasant greeting in Avis'.

"Hello, everyone," she called cheerfully, then stopped with an inquiring glance around the room. "Oh, I thought Camilla was here. I ran in to ask you both to have a little supper with me. I'm alone — and lonely." She laughed, without sincerity. "Didn't I hear her come in early this afternoon?"

"Yes, she was here," Peter replied tonelessly, and added, "but she had to leave early."

"Well, it's a good thing I came over in time to pull you out of your gloom. Another half hour and you would pass out." Her banter concealed her own suspicions of the situation and her good humor encouraged Peter. "All the more reason, then, why you should have supper with me, anyway. That's just one of the disadvantages of having a genius for a wife. Of course, she can't afford to spend all her time chirping you up."

"Oh, I'm all right," he insisted, smoothing back the bright, disordered curls with a big, shapely hand. "Tired, I guess."

"Of course, you are. You've worked all day, haven't you? Come along."

He obeyed meekly. Following Avis across the hall had got to be something of a habit. Rather a pleasant habit, too.

Avis was a clever actress. To prove that she had anticipated two guests for supper, she removed one of the plates from the table that was laid for three. She also talked easily and sparingly while she served Peter unobtrusively. Here was a "rift within the lute" of Peter's marriage, and she drove her wedge in cautiously. She restored his tranquility, made him comfortable and entertained him quietly. Just what he needed.

When they left the table, Avis suggested without insistence, "You surely don't need to work tonight. You should rest. Sit down and be comfy for awhile. Is your piece almost finished?" She turned the volume low on the radio, and a sentimental voice crooned, "You take me to Paradise." Then she lighted a cigaret and held it to his lips. He took it with an amused laugh. She fired another for herself and dropped down lightly on the opposite end of the divan, arranging the pillows for her comfort.

It was strange how Avis, served and pampered and indulged, found her greatest pleasure in serving and humoring this young giant who looked as if he had been made to struggle with physical force instead of molding bits of clay. The ignominy of love—that makes servants of parasites and weaklings of slaves.

He blew smoke into space, with contentment. "Yes, I'll finish this week. I had planned to have it bronzed before sending it to the exhibit," pensively.

"Of course, you should. Why not?"

"That costs money," he replied, after a moment's hesitation, and met her glance defiantly. "So, I'll enter it as it is."

"Don't be absurd," she reproved him gently. "What's a little saving like that, if it hurts your chance to win?"

"I can't save what I don't have," enigmatically.

"Well, wouldn't it pay you to borrow money on a chance like this? Besides, supposing that you don't win the prize, you can put it into marble and sell it as you suggested before."

He made a gesture of hopelessness. "Who is going to loan money to a fellow who has made a clay figure, on the chance that it will win him a prize or that he might copy it in marble and perhaps find a buyer for it? That's all the collateral I have to offer. Did you ever hear of a financier who would take such a long chance as that?"

"A better guarantee would be your talent and ambition," she suggested.

He laughed ironically. "Who would believe that I had anything so valuable as that?"

"I know you have." Her eyes held his gaze, significantly.

"Oh—that!" he dismissed the implication of her words, instantly. And added presently, "Funny how the women insist upon taking care of me. What's the matter with me, anyway?"

"Women?" Avis asked vaguely.

"Oh, Camilla and I just had a row about that this afternoon," he confessed bluntly. "She wanted me to let her help me with her money. Of course, she isn't making a fortune, but I guess she could spare a little. She thinks I should accept it, but what kind of a fellow wants his wife to keep him, even if he is trying to do something worthwhile? That wasn't in our agreement in the first place."

Avis exulted, but managed to keep her voice matter-of-fact and as impersonal as if she were answering Camilla herself when she said, "I think you are quite right about that, Peter. So many fellows are letting down on their pride these days, and allowing their wives to do it all. Of course you don't want to do that. I admire a man with some sand."

"Well, I have as much right to be independent as she has — and more. She wouldnt' let me help her if she needed it, as things are with me now. Then why should I accept her money?"

"I think you are both right, under the circumstances. I see her point exactly—" Avis was shrewd, "—but I also see yours."

"I'm glad somebody does," he shrugged. "Well—that's that! What I think I had better do is to get a good honest job and go to work at something that turns to gold at the magic touch of toil."

"At what?"

"That's it—what. And where? Jobs being the least plentiful thing in the world just now, that complicates the problem even better."

"Then don't be silly, Peter. Let me tell you something. Will you listen?"

"With both ears," he grinned.

"I'm beginning to believe the supposition is true that genuine artists haven't a grain of business sense—you being the first and best example I know."

"Is that all you have to tell me? I know that already," disdainfully.

"Well, that's a good start. You admit the truth. Then, see here! Did you ever realize that no business success is ever founded on hope and ambition and ability, alone? Every success has to have a financial foundation. Yet of all the stupid people in the world, artists imagine that they are not self-made unless they starve and freeze and live absolutely independent of all the rest of the world. Is that sense?" she demanded.

"Put into words, it doesn't sound practical," Peter admitted. "But what else can they do? You think I should take my wife's money, then?"

"Absolutely not. No more than a man with a lot of pride would take his wife's money to go into any business. But he would borrow money and sell stock for a foundation, and then set ot work to make good. Your talent and your future are just as good risks as any business, and if you were as practical as you are artistic, you would borrow money to secure your peace of mind and a comfortable living, and then give yourself to your work. You owe that to yourself and Camilla."

Peter sighed. "I had hoped to make it alone."

"You are stubborn, aren't you?" Avis smiled.

"All right, granting that you are right and my future is worth an investment, who else could be convinced?"

"No one else needs to be,' she replied casually, intent with lighting another cigarette. "I have money to invest, and right now I don't know a safer place to put it than in the career of Peter Anson, famous American sculptor of the future!"

(To Be Continued)

CAN'T SLIP OR SLIDE

FALSE TEETH

Don't use any old kind of remedy to keep false teeth in place—use a reliable, recognized one which dentists prescribe such as Dr. Wernet's Powder—the largest seller in the world—grips teeth so secure yet comfortable they feel natural. Positively no slipping or clicking—blissful comfort assured all day long. Forms a special comfort cushion to protect and sooth gums. No colored, gummy paste—keeps mouth sanitary—breath pleasant.
