THE CRESTON REVIEW

VOL. XXV | CRESTON, B. C., FRIDAY, JUNE 1, 1934 | No. 10

Creston Athletes Make Showing

At Kootenay-Boundary Schools' Track Meet at Cranbrook—Minnie Huscroft is High Jump Champion—Score 13 Points

Creston Valley schools need not be ashamed of the track athletes they sent to the sixth annual meet of the Kootenay-Boundary schools at Cranbrook, on May 26th. In competition with Trail, Cranbrook, Kimberley, Fernie and Grand Forks, a small team of nine managed to garner 13 points Creston competitors are showing steady progress. In the first track meet they attended they got but one point; two years ago at Kimberley 6; last year no team was sent to Trail because of lack of finances.

Minnie Huscroft brought Creston six points, with a first in the girls' high jump and a third in the 100 yards dash. Winning her heat in the 100 quite handily, she placed third to Jean Downie of Trail and Ruby Andrews of Kimberley in the final In the high jump she cleared 4 ft. 6 in. on the first attempt to win. Ruby Andrews of Kimberley and Myrtle Gummer of Cranbrook both failed to clear that height on the three attempts allowed, but, in jumping off the tie, the former made 4 ft. 7 in.

Wilfred LaBelle added four points to the local total when he took second in the junior boys' 220 yard dash and third in the 100 yard dash. In the latter race he came second in his heat after an extremely late start.

Tom Tedford of Canyon brought the other three points when he placed second in the junior pole vault.

Other members of the team were not point-winners, but created a good impression both by their performance and their good sportsmanship. In the junior girls, 75 yard run, both Margaret Huscroft and Gladys McCulloch placed in their heats to get in the finals. George Dodd ran fourth in the 220 junior. Tom Tedford placed fourth in the broad jump. In the relays the boys did not make a very good showing, but in the girls' Minnie Huscroft made up a deficit of almost five yards in the last lap to finish less than six inches behind the third place.

As soon as Creston can develop a track at least one-quarter of a mile long she can have the honor of staging a Kootenay Boundary meet. If the ground were mad availabl, the expense of installing the track would be almost negligible, the clay soil here being especially suitable for track purposes. It is hoped that in the next four years some public body will see to it that such a track is installed.

Kitchener

School inspector V. Z. Manning of Cranbrook was here on an official visit, Monday.

Creston Intermediate baseball team invaded Kitchener Sunday afternoon for a game with the local nine. Kitchener won by a margin of 6-3. The Kitchener battery was Bohan, Anderson and Simpson. Creston, Andrew Miller, Roy Penson and Syd. Scott.

Mrs. Ed. Barr of Kimberley arrived on Friday on a visit with her sister, Mrs. B. Johnson.

Mr. and Mrs. B. Johnson and son, Robert, with W. Conn, were Cranbrook visitors on Friday.

Dr. J. Olivier, the new school officer of health, was here from Creston on Friday, and examined all the children.

Mrs. Gordon McPhail and daughter, Maxine, of Blewett, who are on a visit here, spent a few days at Cranbrook last week.

Wynndel softball team played the airport on Kitchener diamond Sunday evening, with a score of 12-11 in Wynndel's favor.

The airport softball team was at Eastport on Sunday afternoon for a game which resulted in a win for Eastport 40-31.

Jas Higginson and Geo. Norgrove, painters, of Cranbrook are dolling up the Kitchener hotel with a nice new coat of paint.

A. E. McBride, W. Conn and A Hanson of Vancouver are here on business at the Sullivan mine. A few local men, including F. Smith, A. Lepage, C. and M Senesael, W R. Cranna and Z. Geroux, are employed at the mine.

A fairly large crowd from here was at Yahk on Thursday last for the sports day. Kitchener Pine Katz softball team played wonderful ball that day They played Yahk to win by a score of 10-8 with Miss Jessie White and Mrs. Priest doing battery work. In a second game the Pine Katz downed Creston Wildcats, 8-2. Kitchener battery in this game Miss White with Hazel McGonegal as catcher. Creston, Margaret Torchia, Dot Wightman and Mrs. Levirs.

Sirdar

Chas. Wilson was a visitor with friends at Canyon on Sunday.

Mr. Quigley of Coalhurst, Alberta, is pending a holiday in Sirdar.

Mr. and Mrs. T. Kirk of Creston were Sunday visitors at Atbara.

Miss Helen Hopwood of Vancouver is a visitor with Sirdar friends.

Mrs. Mitchell of Trail is a visitor with her sister, Mrs. James Pascuzzo.

Art Lombardo, who left for Trail some time ago, has become apprenticed in the baking trade.

C. McPherson, truckman at the road camp, was a week-end visitor with his family at Kaslo.

A large number of people from here attended the dances at Wynndel and Boswell on the holiday.

Mass was celebrated here on Saturday with a large number of worshippers Father Choinel officiated.

S. P. Woodhall, head of the Canada Smelters, was at the mine at Sanca for a few days, l aving for Calgary on Tuesday.

The water at Slough bridge guage reads 16.75, a fall of .05 for the week. Almost daily fluctuations have been noticed all week.

A softball game between Wynndel and Sirdar took place on Sunday forenoon before a fair attendance. Sirdar won with a score of 10-5.

H. Gillie, a resident here for some years, paid a visit between trains during the week, returned to Carmi, where he has taken a situation.

The Sauca mines resumed operations on Tuesday morning with a crew of 14 men, and it is expected a continuous run will be maintained from now on.

Miss Josephine Passcuzzo of Cranbrook arrived here for a few days' stay, previous to leaving for Trail, where she has secured work as a stenographer.

W. H. Cartwright, game warden, paid an official visit during the week. Crows and hawks are much in evidence and are causing havoc among gamebirds and fish.

Two car loads of piling have arrived at Atbara which, together with the several cars of square timbers will be used for the renewal of the Slough bridge in the course of the next few weeks.

A very successful picnic was held on Saturday evening consisting of the younger set of Wynndel and Sirdar. Kuskanook was the rendevous and despite a somewhat blustery wind the outing was voted a great success.

A well contested baseball game between Boswell and Sirdar resulted in a win for Boswell the score being 5-3. While here Boswell also took on Wynndel and lost, the score being 20-1. The umpires for the Boswell-Sirdar game, R. Bloumenauer and S. Rogers. For the Wynndel-Boswell match G. Benedetti and E. Martell.

June 30th Date C.C.F. Nominate

At Organization Meeting on Saturday J. F. Murrell, Creston, and Jas. Sims, Cranbrook, are Prominently Mentioned.

The first constituency convention of Co-Operative Commonwealth Federation in East Kootenay took place at Cranbrook on Saturday. Thirty delegates from clubs throughout the riding, and representing a membership of almost 500, were seated in the meeting, which was opened by James Sims, who welcomed the assembled delegates to Cranbrook and to the convention. Following the opening address, the meeting elected Charles Bennett of Kimberley, chairman of the convention.

For convenience in further organizing, the constituency was divided into five districts, centering on Cranbrook, Michel, Creston, Windermere and Golden. A central executive was elected, the members being C. A. Bennett, Kimberley, president; W. J. Wilson Cranbrook, vice-president; W. Henderson, Cranbrook, secretary. Each C.C.F. Club within tue riding will appoint a member to the executive, these appointees to be responsible for executive duties within their district. Those named so far are T. M. Anderson Kimberley; J. Laurie, Cranbrook; J. F. Murrell, Creston; and R. Rader, Wardner. Delegates of o her clubs decided to refer back to their respective clubs before making their choice.

Chief among the items on the agenda was the matter of choosing a candidate to contest the federal election. Two were named. Creston Club nominated J. F. Murrell, and Cranbrook nominated J. Sims. Final decision is deferred until June 30th, when these two names, along, with any others that are brought forward, will be submitted to a nominating convention.

At the close of the convention the chairman called upon Messrs. Sims and Murrell to address the assembly, in order that delegates might carry back to their respective clubs some knowledge of the ability and personality of the respective candidates.

Alice Siding

Miss Elsa Willis is home after a short visit with Miss Minnie Downes at Creston.

Principal Freney got back from Rossland Monday and school resumed the same morning.

Lizzie and Millie McNeil have left for near Sirdar where they are berry picking on the John Ringheim ranch.

Walter Werre is employed in town at present. He is helping with the erection of the new residence for Geo. Scott.

In the winter varities of apples the drop is reported as quite heavy and the crop will be only an average one this year.

Strawberry shipping got under way at the first of the week, the Reed & Mather ranch being the first to have them in any quantity.

In addition to June weddings it now looks as if Alice Siding will have at least one bride and one groom for two July nuptial events.

Robert Moore of Coal Creek was a caller here on Empire Day with his mother, Mrs. H. H. Taylor. He came to Creston to take delivery of an Oldsmobile sedan, and returned the same day.

Alice Siding softball talent ran into a couple of beatings at the end of the week. Playing here on Thursday eveniug Canyon won 9-7, and in the return game at Canyon on Sunday Alice Siding was nosed out 16-17. Webster and Jeff. Collis did the battery work on both occasions.

Wynndel

Alex. Cameron of the Lochiel ranch was a business visitor at Nelson last week.

Miss H. Andestad was renewing acquaintauce in Nelson a few days last week

Miss Annie Hook of Spokane is a visitor with her grandmother, Mrs. J. J. Grady.

The K.K. Klub have booked the night of June 15 for a dance at the community hall.

Mrs. Rumsey and son were renewing acquaintances in Cranbrook a few days last week.

The first crates of strawberries were shipped on Friday, May 25th. Gooseberries are also moving.

Misses E. Towson, B. Hulme and A. E. Towson and E. Hulme were auto visitors to Cranbrook last week.

Misses Mary Abbott, Ellen Hagen and Agnes Crane were at Destiny Bay on May 24th for the original Grade 9 High School reunion picnic and report a very enjoyable day. Tennis and swimming were features.

M. Saunders was a visitor at Yahk on Thursday last for the softball tournament in that town that day.

E. Uri, manager of The Co-Operative Fruit Growers Association, was a business visitor at prairie points last week.

The provincial electrical inspector, who hails from Vancouver, was here last week inspecting the wiring in local residences.

The tennis club dance on May 24th was a splendid ruccess. Mus'c was supplied by the Ness orchestra, and the supper by the club committee.

Misses Hannah and Illingsworth of the Anglican Snnday school mission van were in the district last week, making their call at wynndel on Sunday afternoon.

Miss Marion Cooper of Creston is a visitor with Miss Leah Abbott. Miss Evelyn Johnson, also of Creston spent the holiday here a guest of Mrs. C. Leamy

Mrs. Martell entertained at a triple birthday celebration on May 19th, when the anniversairies of Lois May and Gordon Martell and Hazel May Davis were fittingly observed. There was a peanut scramble, a great variety of games and a very fine lunch. Mrs. Davies and Miss Ellen Uri assisted the hostess

Canyon City

F. Rosen is a patient at Creston hospital at present

Mr. and Mrs. A. A. Bond and family were Empire Day visitors at Bonners Ferry.

Mrs. Irwin Davis of Rossland arrived on Tuesday on a visit with her parents, Mr. and Mrs. Jock McRobb.

W. E. Searle and J. W. Simister were at Cranbrook on Saturday for a convention of C.C.F party workers embracing East Kootenay.

Mrs Vic Grundy was taken to Creston hospital at the first of the week and on Tuesday successfully underwent an operation for appendicitis.

Orchardists are busy with thinning operations on Wealthy apples On winter varieties the set of fruit is not as heavy as was first anticipated.

J. W. Dubley, of Vancouver, provincial electrical inspector, is here this week making an inspection of all homes that have been wired by the West Kootenay light.

The warmest May weather Canyon has encountered in years has been in evidence this week, when the mercury at the West Kootenay power station got np as high as 88.

Andy Wickholm and Joe Clayton have the contr ct of remodelling the house on the former D. Linn ranch at Erickson, which has recently been purchased by W. V. Jackson.

The United Front party had a meeting in the hall on Saturday night under the direction of W. Hook and K. Demchuk of Huscroft. It was an invitation affair and not largely attended.

Tom Tedford was one of the students selected to represent Creston valley schools at the Kootenay-Boundary school's track meet at Cranbrook on Saturday. He captured third place in the junior pole vault.

Lister

Geo. Johnson of Wynndel was visiting here, a guest of Mr. and Mrs. John Huscroft.

Alfalfa cutting commenced on Tuesday at the Col. Lister and A. W. Sinclair ranche.

Mr. and Mrs. C. H. Phillips of Kimberley were at their ranch here for the weekend.

Misses Illingworth and Hannah, who are in charge of the Anglican Sunday school van, were here on Sunday for a special Sunday school service, and were back on Monday making calls in the Huscroft area.

Pat Holland of Kimberley, accompanied by Mrs. Jock McConnchie and Miss Fay Pendry were weekend visitors with Mrs. H. Yerbury. Mrs. Hollond and Jean returned with them, but Mrs. McConnchie is remaining for a couple of weeks with her mother, who is recovering slowly from her recent runaway mishap

Chas. Huscroft was a motor visitor at Cranbrook on Saturday, taking along Masses Minnie and Margaret Huscroft and Gladys McCulloch, who competed at the Kootenay-Boundary schools' track meet in that town. Minnie Huscroft was first in the high jump and third in the 100 yards dash. In the junior girls' 75 yard sprint Margaret Huscroft and Gladys McCulloch ran in the final heat but were unplaced.

Miss Curtis had the very good luck to hold the winning ticket on the 1934 Plymouth DeLuxe sedan raffled by the Kimberley hockey club and Kimberley Gyro club, the drawing taking place on Thursday. On Saturday Miss Curtis and Mrs. Bird motored to Kimberley to claim the new car, returning the same day, leaving her Ford in that town On Sunday Mr. and Mrs Bird and Cyrli, with Manning Powers and Miss Curtis again motored to Kimberley in order to bring back the Ford.

In connection with the schools' track meet at Bonners Ferry last week was a spelling match, arithmetic contest as well as a championship marble shooting contest.

Athletics Annex Baseball Opener

Bat Out 14-4 Win Over Kimberley, Sunday—H. Couling Sets up Strikeout Record—Losers Weak in all Departments.

By a score of 14-4 Creston Athletics auspiciously opened the local baseball season at Exhibition Park on Sunday afternoon, beating the Kimbesley team by that rather impressive margin.

Creston was too good for the visitors in all departments, particularly in the box, where Herb Couling established an all time record with sixteen strikeouts in six innings. Another fine defensive performance was turned in by Ollie Christie in right field, who covered a lot of territory without misadventure For the locals the outstanding hitter was Doug. Corrie, whose triple to deep centrefield was the only big hit of the game.

Kimberley did not field their best team, the mound work being entrusted to Jahrens, a one-time star, but whose days of effectiveness are long since past. However, blame for the defeat does not rest entirely on him as the support accorded him both in the outfield and infield was very poor, centerfielder James making the poorest showing of the lot. If there was an outstanding performer amongst the visitors, it was Livingston, who showed some ability with the stick. Phil Briggs of Cranbrook umpired satisfactorily. The teams:

CRESTON		KIMBERLEY	
Genest, c	1	Cotnoir, c	0
Christie, rf	2	Robertson, 1b	1
McKelvey, 1b	4	Jahren, p	0
LaBelle, ss	2	Forsey, 2b	1
Humble, lf	2	McKay, 3b	1
D. Corrie, 3b	2	Livingstone, ss	0
Cherrington, 2b	1	Shea, rf	0
Payne, cf	0	James cf	1
H. Couling, p	0	Marcella, if	0
A. Couling, 2b	0		
	41		4

The Athletics take on Bonners Ferry on Sunday at 2.30 p.m. at Exhibition Park, and playing in Sunday's form should give a good account of themselves against the oldtime Idaho enemy.

Erickson

Jack Dugdale of Bellvue, Alberta, spent the weekend at his ranch here

Public school inspector Manning was here on an official visit on Tuesday.

Durring the absence of T. W. Bundy on vacation Mr. Leveque is in charge of the C.P.R. depot.

Mrs. T. Wilson arrived home on Sunday, after a month's visit with her parents in Vancouver.

Mrs. S. Fraser and Margaret and Sadie spent a couple of days at Bonners Ferry at the end of the week.

Misses Ruth Cartwright, Madeline Putnam and Margaret Wakley spent a few days with Cranbrook friends last week.

Peter Heric was at Cranbrook on Saturday, representing Erickson at the Kootenay-Boundary schools' track meet.

Among the 24th of May visitors at Bonners Ferry were Mr. and Mrs. E. E. Cartwright and Roy, Mrs. Putnam with Yvonne and Gwen.

Mr. and Mrs. T. W. Bundy left at the end of the week on their usual two weeks' vacation. They are visiting at Vancouver and Nanaimo.

Dr. Olivier and Nurse Downes were visitors at the school on Wednesday of last week. The former is the new schools' health inspector.

Beryl Tompkins is a patient at Creston hospital this wee. She was operated upon on Monday for appendicitis, and is making a nice recovery.

Geo. Hobden, who recently sold his ranch on the lower road, is busy with the erection of a new home on some land he has secured from Fred Boffey on the west side of the latter's ranch.

"Fresh from the Gardens"

Obstacles To International Agreement

Obstacles to international agreement are many and various; so many, so various as to becloud the vision of the conferees and defeat the ends sought.

Particularly is this true when a complex of nations is represented round the conference table. Despite the good intentions of conferees, the high sentiments they express and the noble purposes they proclaim, invariably dissonance interrupts the even tenor of the proceedings, divergent points of view protrude themselves and, with each interruption and each protrusion, practical agreement becomes the more remote.

The conflict of opinion appears less with regard to the general objective sought, as with regard to the methods by which that objective can be reached. In the ultimate analysis, political rather than practical issues prove the stumbling block.

These thoughts are occasioned by the succession of disasters which has befallen world conferences held for perfectly laudable purposes during recent months. The League of Nations itself, perhaps the greatest agency for world co-operation yet devised, has suffered considerable loss of prestige through recurrent manifestations of local interest, local jealousies, prides and susceptibilities. In matters such as the drug traffic, in which public rather than political and national considerations are paramount, the League has been able to take decisive action and render invaluable service. But where political and national interests and prejudices are involved, directly or indirectly, its decisions have been of less unanimous acceptance. In fact, they have seldom been effective because they have been largely ignored.

In spite of the League and the large body of opinion supporting it, where matters of national significance have been broached, the nations involved have proved a law unto themselves, using the simple expedient of withdrawal from the League as a means of asserting their right to go their own way. Disarmament questions have brought prominently into the foreground this conflict of national viewpoints, and this insensate desire for autonomy in matters affecting the peace of the world. There can be little question that world opinion, generally, favors disarmament on a sane and safe basis. It is equally true, however, that there is sharp clash of opinion as to what the basis should be and as to the methods whereby it should be undertaken. World disarmament conferences have proved futile, so far, in spite of the unanimity voiced by national spokesmen as to its desirability. All nations, it appears, are in favor of disarming—provided the other fellow does it.

Strange as it may seem, while world conferences on the question are disheartening failures, the same can not be said with respect to understanding on the subject between particular nations. Bilateral disarmament agreements appear easy, by comparison. Where two or three nations are involved, amicable solutions come readily to hand. Britain, for example, has little difficulty in reaching understanding with Italy, Italy with France, and so on. Even with Germany amicable negotiations are possible. Yet, when Britain, Italy and France sit around a conference table with Germany, it becomes immediately impossible to focus all eyes on the same objective and on the same means of achieving that objective.

This is not to say that Germany is entirely at fault, or that the blame attaches to any particular one of the parties to the conference. It is apparently due to the complications which arise with every addition to the conference. Compromise as between nation and nation is easy; between three nations it is a little more difficult, but less difficult than when four nations are involved. Perhaps then, the real solution is to be found in multiplying bilateral disarmament agreements until the whole world is involved and all the nations are committed to peace.

The same course may be found the ultimate solvent of the world wheat problem. Apparently, the London Wheat Agreement has foundered on the shoals of national aspiration for, as this is written, the Argentine has virtually negatived the good work accomplished in the London conference, and the United States, in reprisal, is threatening unlimited production and the dumping of its surplus on the markets of the world.

The London conference resulted in what has been acclaimed as a unanimous agreement representing the first really co-operative arrangement yet reached by the nations of the world. It was not, howver, a finite thing, in itself. It left certain important decisions for later consideration, particularly the matter of minimum prices. Experts met at Rome to discuss prices in accordance with the terms of the agreement, only to be met by objections from the Argentine and demands from that country for an increase of 40,000,000 bushels in her quota allotment. Having already virtually exhausted her export quota for the year as set in the London Agreement, the Argentine demanded an additional 40,000,000 which could only be given at the expense of other great exporting countries, including Canada. The price conference, however, reached certain tentative conclusions which were submitted to the governments involved.

The next stage in the proceedings was the London conference on prices to amend or ratify the decisions of the Rome discussions. Here again, clash of national interests proved a handicap. Doubts have been raised whether or not price-fixing by a central body is a sound practice to adopt. In fact, British grain men have been emphatic and outspoken on the subject. The head of the London grain exchange had no hesitation in stating that the representatives of the various nations were amiable gentlemen "but they knew very little about wheat". With warnings against price-fixing, demands for increased quotas, and threats of unlimited production, the whole agreement appears in jeopardy. Obviously, the complexity of national interests is accentuated in conferences on so large as scale as that at London. Perhaps (be it repeated) the solution may be found in a series of bi-lateral agreements involving all interested parties.

Health For Young Girls
Happiness For Tired Women

MILBURN'S HEART AND NERVE PILLS

Thousands of women become tired out and run down, become thin and pale, and profound weakness makes life a burden.

The whole outlook of life is changed when the nervous, sick headaches, the sleeplessness, the spells of dizziness, of weakness and discouragement, and the tired, languid feelings disappear with the use of Milburn's H. & N. Pills. They tone up the nerves, enrich the blood, and bring the health back to normal again.

Wants Room For Expansion

Mussolini Expresses Need For Italy To Seek Room In Africa And Asia

Geographic and historic reasons were given by Mussolini in an interview with Hector Bywater, editor of the "Daily Telegraph" in Rome, for the expansion of Italian power in Africa and Asia, and the need for a strong navy.

During the interview, Mussolini said:

"Thirty provincial capitals are situated on the coast. Rome herself is near the sea. Geography is one of the immutable factors that determine the destinies of a nation."

Then he went on to say:

"Geography and history both warrant us in taking Asia and Africa as objectives. We are nearer to those two continents than any of the greater western European powers. No one should mistake the meaning of our task. We are not thinking of any territorial conquest, but everyone should know that we are thinking of a natural expansion allowing us to co-operate with the nations of Africa and the Far East."

Mussolini then turned to the problems of the League of Nations and of disarmament, saying:

"The principle of the reform of the League of Nations, which is almost universally accepted, is clear. The reforms that are being considered should only be undertaken after the closing of the disarmament conference, because if this conference fails, there will be no need to make any reforms, it will be enough to consider the work of the League of Nations as ended.

"It is generally considered that the conference will fail, at least as regards the most important objectives. The greatest armed powers will not disarm; those that are not armed will be in a position to arm with a more or less defensive purpose."

Paris Hotels Face Ruin

Taxes Heavy And American Tourist Business Falling Off

Instead of opening the customary new extensions as the tourist season starts, one leading Paris hotel, the Plaza-Athanee, already has closed its doors, and numerous others are on the verge of doing likewise.

Hotel managers blamed two factors for their plight. First, that an average of one-third of all money taken in must be sent to the state in the form of taxes. Secondly, that the American tourist business has almost evaporated.

"If this continues for a short time more we'll have to close up, too," the director of a leading hotel in the Etoile district declared.

Here are a few of the hotel taxes:

Six per cent. of every penny collected as a luxury tax.

Four per cent. of all room bills as a city tax.

A social insurance tax.

A tax for apprentices.

A tax for mutilated soldiers.

A tax for operation.

A property tax.

This totals from 25 to 50 per cent. of receipts.

Trying To Find Secret

Manufacturers Seek Buddhist Method Of Producing Stainless Steel

To study four columns which have stood for 2,000 years without showing a sign of decay or dust, a body of European steel manufacturers are visiting India. They hope to learn how people of those days produced stainless steel. The columns were erected by Asoka, the great Buddhist emperor, in four districts of his Indian Empire. Each stands on a high rock and is inscribed with the laws of Asoka's reign. Through the centuries earthquakes have not shaken them and storms have not rusted them. The secret of their making is believed to rest with descendants of the makers, and the steel manufacturers hope to learn this.

The fox-tail lily is a striking looking plant for the back of a large border. It is also known as "the desert candlestick" on account of its long strap-shaped leaves and tall spikes of flowers like a column or a candle.

"Britain Of The East"

Story Of Japan's Progress And Development Reads Like Romance

Whatever may be said of the aggressiveness of Japan in the Orient, it must be acknowledged that she deserves the designation, "the Britain of the East". Never in the history of the world has any of the backward nations made such gigantic strides forward in the path of civilization as has Japan.

The story of her progress and development reads like a romance. From the very time when she reformed her government and established democratic institutions she has gone forward in the path of educational and scientific progress and in industrial development at a remarkable rate. Her educational and scientific institutions are among the finest in the world. Moreover, her army and navy have reached a stage of development that is second to no other country. Hence, Japan is a nation so perfectly equipped from a technical and scientific point of view that her competition may well be feared by other nations. To make light of her industrial development shows a lack of appreciation of the remarkable progress she has made.—Brantford Expositor.

Used Sign Language

Sign language was used by members of the Western Canada Association of the Deaf as the medium of presentation at a unique concert in Saskatoon. A short play, given by school pupils, depicted early education of the deaf in this country. In addition, "O Canada" was rendered in the sign language.

Are You Sluggish?

Soybeans Profitable

The Farmers' Advocate says many livestock men, and dairymen particularly, are finding soybeans a profitable crop to grow. The beans add to the protein content of the meal mixture and for hay they are both productive and palatable.

Almost Instant Relief From Neuralgia

For Quick Relief Say* ASPIRIN *When You Buy

Now comes *amazingly quick* relief from headaches, rheumatism, neuritis, neuralgia . . . the *fastest safe relief, it is said, yet discovered.*

Those results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly you swallow it. *And thus is ready to go to work almost instantly.*

When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN'S *quick relief*, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.

WHY ASPIRIN WORKS SO FAST

Drop an Aspirin Tablet in a glass of water. Note that BEFORE it touches bottom, it has started to disintegrate.

What it does in this glass it does in your stomach. Hence its fast action.

Does Not Harm the Heart

SWEEPSTAKE BILL IS DEFEATED BY NON-PARTY VOTE

Ottawa.—The Fraser bill to legalize hospital sweepstakes was defeated in the House of Commons 105-57 in a division that cut across party lines. It met the same fate last year.

With the whips off, in an open vote, the three party leaders, Premier R. B. Bennett, Rt. Hon. Mackenzie King and J. S. Woodsworth, united in opposing the bill. Every member of the Bennett cabinet, excepting Solicitor-General Maurice Dupre, voted against it.

The bill, which would empower provincial attorneys-general to authorize sweepstakes for the benefit of hospitals and charitable institutions, gained its support mostly from Quebec members, the majority from the Liberal benches. It was sponsored by J. A. Fraser, Conservative member for Cariboo, B.C., after passing the senate 10 days ago by a narrow margin.

Opposing the bill were 67 Conservatives, 27 Liberals, eight Progressives, two Independents and one Laborite. Supporting it were 22 Conservatives, 33 Liberals and two Laborites.

Defeat for the bill was engineered by A. M. Carmichael, Progressive member for Kindersley, a retired minister, who moved the six months' hoist early in the day. When the house passed the Carmichael motion, it killed the bill.

Dominion Loan Arranged

Three Prairie Provinces Are Assisted By Federal Treasury

Ottawa.—Orders-in-council passed under the Relief Act disclose that a further loan of $600,000 on provincial treasury bills at five per cent. maturing May 28, 1935, will be made by the federal treasury to enable Manitoba to consolidate two similar loans maturing in May and June of this year. The maturing loans are for $500,000 expiring May 28, and $100,000 expiring June 15.

A loan of $294,000 has also been authorized to assist the Manitoba government in meeting its share of relief costs during May and June of this year.

Saskatchewan and Alberta will be assisted by the federal treasury with loans up to $750,000 each to enable them to proceed with road building operations this year, according to orders-in-council passed under the Relief Act. The amounts will be advanced as the work proceeds and will be secured by provincial treasury bills at five per cent. interest.

Case Has Been Closed

Ottawa. — The Dominion government is discharged from any liability as guarantor of bonds of the Beauharnois corporation, Prime Minister R. B. Bennett informed the House of Commons. In addition, the cost of the Beauharnois investigations in the House of Commons and senate amounting to $43,536 has been paid.

Song And Drama

Lethbridge, Alta.—Lethbridge was a city of song and drama recently. Five halls were required to stage the elocution and vocal classes for 500 boys and girls attending the annual school and dramatic festival of southern Alberta. It is held in conjunction with the 27th annual musical festival of Alberta.

Vote To Strike

Lethbridge, Alta. — Demanding recognition of the United Mine Workers of Canada, 350 miners at the Natal-Michel mines of the Crow's Nest Pass Coal Company voted to strike, but left decision as to when the walkout is to start until after further consideration.

Pay Increases

Winnipeg.—Pay increases are in sight for Winnipeg civic employees. City council has approved pay increases for 266 employees of the city hydro and asked the finance committee to consider favorably pay increases for all other employees.

W. N. U. 2043

Would Regulate Trade

Proposal Made Before Parliamentary Price Spread Probe

Ottawa.—Wiping out of the Combines Investigation Act to be replaced by legislation giving the Dominion government power to regulate trade and commerce, was proposed before the parliamentary price spreads probe. The suggestion was made by C. H. Carisle, president of the Goodyear Tire and Rubber Company.

The principal object of the Combines Act was to safeguard the public against unwarranted or unfair prices. This safeguard, to which the public was entitled, should be brought about in a more constructive way, the rubber company head stated. Companies should not be prevented from organizing so as to become highly efficient.

Many phases of trade and commerce might be regulated as well as high prices, Mr. Carlisle told the inquiry. Low prices were as destructive as high prices.

The government owed it to industry to give it adequate supervision. His proposal would develop healthy business and be a proper safeguard for the public.

Balanced Railway Budget

President Beatty Of The C.P.R. Favors Unified Railway System

Montreal. — A balanced railway budget within a reasonable period of time was promised by E. W. Beatty, K.C., president of the Canadian Pacific Railway, if his scheme of a unified and privately administered system were adopted by the railroads of Canada. He made his promise in the course of an address to the Canadian Political Science Association, holding its annual meeting here. He said the unified system would be able to finance justifiably extensions which expanding settlement and development might in future demand.

Mr. Beatty's subject was "The Canadian Transportation Problem," and he dealt with the present situation created by the Canadian National Railways debt after outlining the physical and political events leading up to it. He styled the history of Canadian government railways since 1900 as a "veritable rake's progress."

Mr. Beatty announced that displacement of labor would be overcome through the normal turnover.

Britain's Stand On War Debt

London. — Modification of Great Britain's stand on the war debts question was hinted strongly in informed circles, with the possibility that the government may approach Washington for a discussion of the subject.

Decoration For Sir Geo. Perley

Ottawa.—Sir George H. Perley has received one more decoration to add to the many which now adorn him. The latest is one of a military character—the Canadian efficiency decoration.

Medals For Mounted Police

Ottawa.—More than 300 members of the Royal Canadian Mounted Police are reported eligible for a long service medal authorized for issue through a royal warrant from the king.

CRITICIZES PACT

Malcolm MacDonald, son of the British Prime Minister, and Under Secretary for the Dominions, told the House of Commons he would not say the United Kingdom was entirely satisfied with what Canada and Australia had done in the way of implementing their Ottawa Economic agreements.

B.C. Proposals

Negotiations With Premier Bennett Are Revealed

Vancouver. — Premier T. D. Pattullo returned to British Columbia to reveal two new and interesting facts evolved from his negotiations with Prime Minister R. B. Bennett.

The Dominion government's contribution to a provincial works program will come by direct cash payment rather than by loan, he said. The amount or nature of the contribution has not been determined.

Mr. Pattullo said he has notified Mr. Bennett that the province will submit a definite proposal to the Dominion to turn over the Pacific Great Eastern Railway at replacement value. He said valuation of the railway on this basis will be started at once.

Sweepstake Winnings

Should Be Forfeited To Crown And Not The Informant

Ottawa.—Two changes in the law governing lotteries were suggested in the sweepstakes debate by Hon. Hugh Guthrie, minister of justice. The debate ended in the bill to legalize sweepstakes being killed.

Under the existing clause in the criminal code when a man wins a lottery prize, it is forfeited to any informer who may succeed against him in court. This was not a suitable provision, Mr. Guthrie thought. The winnings should be forfeited to the crown, not to the informant.

The fine for purchasing a lottery ticket was $20. This might very well be raised to a larger amount, the minister suggested.

Winnipeg Strike Settled

Winnipeg.—The partial strike of employees at the Western Packing Company here which has disrupted wholesale meat deliveries since March 7 was amicably settled by mutual agreement and the men returned to work. Wages have been increased by 10 per cent. an hour for the lower paid categories and 7½ for the higher.

British Columbia Reports Improved Business

Early Promise Of Better Conditions Being Borne Out

Victoria. — The first quarter of 1934 has borne out early promise of a happier year for British Columbia.

Bank clearings were up some 25 per cent. over the same period in 1933. Lumber production was up 90 per cent. to 487,336,000, f.b.m. Lumber exports by water were 291,139,097 f.b.m., about double that for the first four months of 1933.

Gold production at 61,833 ounces showed an increase of 22 per cent. Silver, lead, zinc and copper were reported improving though current figures are not available. Coal gained five per cent.

Agricultural products were up 10 per cent. in volume with prices firmer.

Payrolls are about $10,000,000 monthly, up about $200,000 per month, inferred from the fact the one per cent. tax is yielding $100,000 monthly, and this excludes incomes below $50 a month.

Decline in number of persons on relief was at about the rate of 12,000 per month for March and April compared with those months last year.

Advocates Silver Policy

President Roosevelt Wants Authority To Make Necessary Purchases

Washington. — President Roosevelt recommended to the United States congress that it declare American policy to be "to increase the amount of silver in our monetary stocks with the ultimate objective of having and maintaining one-fourth of their monetary value in silver and three-fourths in gold."

The policy would be mandatory. The president, in fulfillment of his agreement with congressional silver advocates, said he should be "authorized and directed to make the purchases of silver necessary to attain this ultimate objective."

Payments for present silver holdings in the United States would be limited to 50 cents an ounce, and profits so made would be taxed 50 per cent.

Pointing to a world-wide bi-metallic agreement as the ultimate solution of the silver problem, Mr. Roosevelt revealed to congress he has already begun negotiations with neighboring countries "in regard to the use of both silver and gold, preferably on a co-ordinated basis, as a standard of monetary value."

Lowers Record

Miss Joan Batten Establishes New Record For Women In Flight From England To Australia

Darwin, Australia. — Miss Joan Batten, New Zealand aviatrix, set a new women's record for an England-to-Australia flight when she set down her plane here. She lowered the 19-day record, established by Mrs. Amy Mollison in 1930, by 4½ days.

Mrs. Mollison required 19 days to cover the route that since has been flown in seven days by male aviators. Miss Batten kept well ahead of the record all the way from London.

BRITAIN PLANS TO ASSIST OWN MEAT PRODUCERS

London. — The Daily Telegraph forecast the British government plans to help its own meat producers when the Ottawa conference agreements respecting imported meat expire on June 30. The newspaper said the government is determined first and foremost to look after the needs of the home producers.

Should the Dominions refuse to agree to a new scheme, limiting meat imports, the British government would take steps to restrict imports, said the Daily Telegraph. It would be compelled to choose between imposing restrictions by way of quotas to both Dominion and foreign imports of frozen and chilled meats entering the United Kingdom and "insulating" the home market, the paper said.

This "insulating" step, the Daily Telegraph said, might be taken to protect the home producer from the shock of abnormally low market prices by making a price guarantee, as was done for a temporary period for the benefit of home dairy farmers.

Drouth In Russia

Mobilization Of Fire Departments Ordered To Water Parched Crops

Rostov, U.S.S.R.—With a mobilization akin to a military movement, Communist party chiefs started a farflung war on drouth which menaces the Russian wheat fields.

In the Azov-Black Sea region the party chief of the regional agricultural department, carrying out instructions from Moscow ordered mobilization of all city and village fire departments and started concentrating all available barrels at strategic points in the fields.

All able bodied men who can be spared from other tasks are ordered to help bring water to the parched crops.

Both winter and summer crops, the party chief said, "are in sad condition and getting yellow because of lack of moisture." Sprinkling from streams will be undertaken.

Meanwhile, light to heavy rains were reported to have fallen in southwestern Ukraine and part of the lower Volga region, two large regions of Soviet Russia's chief grain-growing section.

Awarded Gold Medal

Miss Jessie Gray Of Toronto Wins Honors In Medical Graduating Class

Toronto. — Miss Jessie Gray, of Toronto, was awarded the gold medal in the graduating medical class of the University of Toronto, the university announced.

Second place in the medical graduating class went to T. Kakyama, Japanese student from Cumberland, B.C., and third honors went to R. C. Dickson, of Ottawa.

Byrd Reports Severe Cold

Little America, Antarctica. — A temperature of 72 degrees below zero was reported May 21 by Rear-Admiral Richard E. Byrd in his isolated outpost on the Ross ice barrier. Since the coldest part of the Antarctic winter is still to come, this temperature indicated Admiral Byrd's prediction that his base may be the coldest spot ever inhabited will be fulfilled.

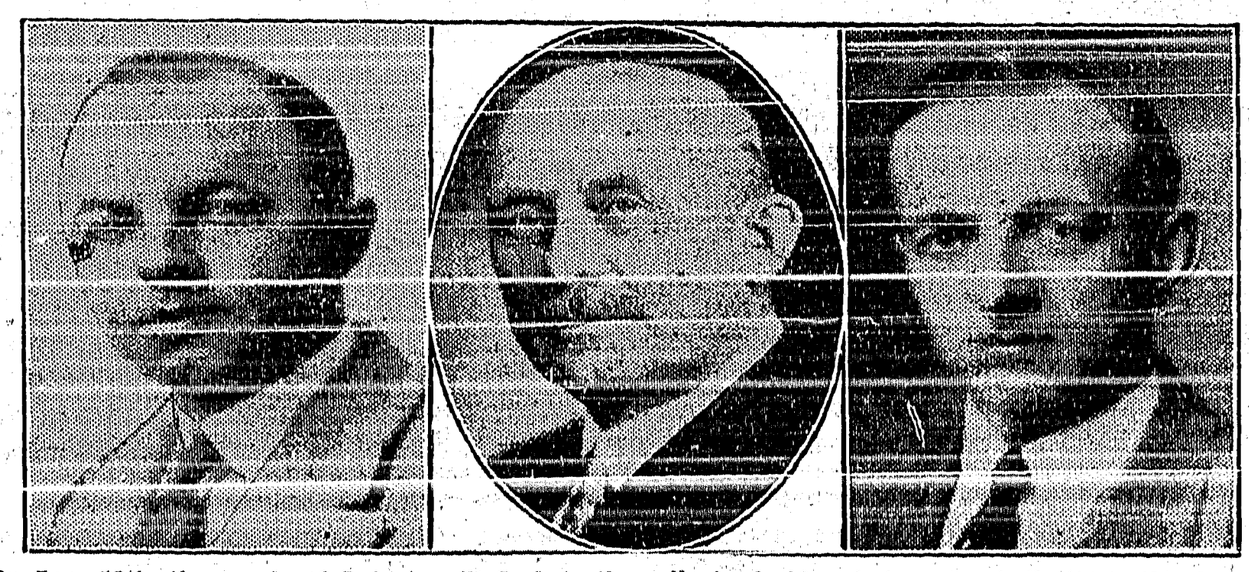
No Insurance Plans

Ottawa. — While believing some form of contributory unemployment insurance is inevitable, Prime Minister R. B. Bennett was unable to inform the House of Commons if any legislative action would be taken at the present session.

Eligible For Medal

Ottawa.—More than 300 members of the Royal Canadian Mounted Police are reported eligible for a long service medal authorized for issue through a royal warrant from the king.

ONTARIO'S POLITICAL ARENA CLEARED FOR BATTLE



On June 10th, the people of Ontario will flock to the polls to decide what party shall sit on the Government benches at the next session. Above are the political leaders who are in the midst of one of the most strenuous election campaigns in the history of the province. Left to right: Mitchell Hepburn, leader of the Liberal party; Premier George S. Henry, leader of the Conservatives; and H. C. Nixon, head of the Progressives.

He knew its value in times of emergency

A man walked into the B.C. Telephone Company's Glenburn office and said he wanted a telephone installed as soon as possible. His work was taking him from town, he said, and he didn,t want to leave his family without the protection of a telephone in the home.

In case of burglary, fire, accident or sudden illness, a telephone call may be the means of saving life or property.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, JUNE 1

LETTERS TO THE EDITOR

No Free Tennis

Editor Review:

Sir,—Creston tennis club has had the courts repaired this year at cons.derable expense. We have a very small paid-up membership. However' there are a great many young people who are taking a thoroughly mean advantage in using the courts without, apparently, intending to pay fees. Moreover they do not observe the rules of common decency sufficiently to wear proper shoes, but often play in leather shoes with heels!

Apropos of this evidence of their utter lack of public spirit, I would like to point out two thlngs: Tennis courts cannot be maintained without money—equipment is costly. Somebody has to pay for it. You cannot in this world get something for nothing. You pay for it sooner or later.

I may be accused of getting metaphysical at this stage, but that is not my intention. I simply suggest that it would be much more inspiring if the young people would exert themselves to rise above the moral rotteness of the age. What one does in little things is a pretty good indication of the type of action that will be taken when it comes to big things.

I submit, that if people would refrain from sneaking surreptiously, at unusual hours, onto tennis courts that they have no right to use, it would not only simplify matters for the exasperated executive, which is primarily the end that I have in view, but it might also have much more far reaching effects.

All Stone Fruits Show Increase

Cherries Sizing Well and Trees Adjusting Load to Their Carrying Capacity—Tree Fruits are Progressing Favorably.

The latest crop bulletin issued by C. B. Twigg, district agriculturist under date of May 23rd, is an optimistic one. Mr. Twigg says in part:

The weather during the last two weeks has been more moderate, cloudy and cool with light winds and showers. This delayed the early melting of snow and retarded the ripening of small fruits. Very slight frosts occurred in low areas the beginning of the week, affecting the advanced growth of early tender vegetables chiefly, such as potatoes and beans.

At Wynndel growers have been busy spraying and weeding the strawberry rows. The beds have been in full bloom for some time. On warm early side hill situations the odd ripe berry has been found, indicating that in another week a few crates may be expected. Growing conditions have been ideal- Raspberries are still in bloom. Tne young growth is well advanced and crop prospects are excellent.

Cherries are sizing well and the drop will soon be over. Growers are taking precautions against aphis by sprayiug regulary. Some complaints have been heard about the set, but this season it is not the fault of the winter or the inclemency of the spring weather, but due entirely to the tree adjusting itself, according to its vigor, to the load it can carry as derived from the fertility of the soil. Tree fruits are progressing favorably. Growers are following the spray schedule very closely and cultivation and re-seeding are still in progress. Woolly aphis has made its appearance early this year and is attracting much attention as it is spreading rapidly throughout the district.

All stone fruits show a heavy increase over last year's crop, also bush fruits. Gooseberries are about ready to pick

Asparagus is still coming in regularly, as also such early vegetables as radishes spinach etc. Some early transplan of head lettuce will be ready in about two weeks. Now that the danger of frosts is over, tomatoes and peppers are being planted freely.

Alfalfa meadows are growing rapidly. The first cutting will commence in some instances early in June.

Wynndel

Ira Rhodes is undergoing treatment at Creston Hospital.

Mrs. M. Young of Creston spent a few days with her daughter, Mrs Rumsey, at the first of the week.

A. Piggott and F. Hagen are the first to start hay harvest. Perhaps this activity will bring along the much needed rain.

The irrigation system is being used to full capacity during tue continued hot weather and is proving the salvation of the newly-planted strawberry fields.

L. Gillette of Nelson is here on a visit with his sister, Mrs. S. Benedetti.

T. Shypika and Mr. and Mrs Bush of Lumberton were visitors at the home of Mr. and Mrs. E. Stevens.

Mr. and Mrs. McFarlan and young son, of Rossland, are visiting at the home of the latter's parents, Mr. and Mrs L. A. Davis.

Carl Petersen, Matt. Hagen, P. Popovich and the Ringheim ranches all share the honor of being the first 1934 strawberry shippers.

The much needed repair work on the road opposite the Rudd ranch is nearing completion, and is a credit to C. Payette and his road crew.

Monday being a public holiday (King's Birthday), the postoffice will be open from 8.30 to 9.30 a.m., for the distribution of mail only.

The Co-Op. Fruit Growers are busy getting the pre cooler in shape to handle the 1934 crop. They took delivery of a carload of salt on Tuesday.

Strawberry Crop Starts Moving

Wynndel is Earliest with Few Crates Available May 25th—Crop is Promising—Opening Price Lowest Ever Known.

Creston Valley's 1934 fruit shipping season is under way. Wynndel rolled the first of the strawberries on Friday, to be followed on Saturday by Long, Allan & Long, Limited, with a half dozen crates from Reed & Mather's. On Monday R. Stewart & Son and John Kelly had a few crates each which were handled by the Exchange. Up to the present the outgo has not been heavy, but there will be a considerable volume by the early part of next week and Wynndel should be shipping in car lots before before the middle of the month The opening price on berries is the lowest in years. All the indications are for a full crop.

At the Exchange work of making ready for the pre cooling plant is well along. Some of the machinery has not arrived as yet but everything is in readiness for quick installation, and it is expected the much wanted utility will be in readiness by June 8th. Along with the pre cooler the directors have also had the big warehouse newly roofed, using in the neighborhood of 10,000 square feet of Barrett 3-ply slate roofing.

The June dro is making its appearance very early this year, and the fall off in most winter varieties, particularly Delicious, is quite heavy. In some orchards thinning has commenced on the earlier varieties, such as Wealthys. For the end of May all fruits are showing remarkable size.

Considerable optimism prevails in selling circles as to a profitable export market this year. This is based on seemingly accurate reports that light crops are looked for in Eastern Canada as well as in Australia and New Zealand, while the British crop is much below normal. With this in view orchardis s are asked to seriously onsider less attention to thinning this year particularly on the Macs and Delicious. Enquiries from British buyers are more numerous than ever, and right now it looks as if export business on firm f.o.b. Creston prices will be much better than last year.

The crop bulletin issued by C. B. Twigg, district agriculturist on May 23rd predicts a heavy yield on all stone fruits and indicates that all tree fruit crops, with the possible exception of pears, are looking just about the best the valley has ever known.

Two women took out miner's licenses at Greenwood last week.

The Miner notices a small sized real estate boom in evidence at Rossland.

Deer running in gardens on the hill at night are doing much damage at Kaslo. H. Giegerich states that a herd of seven of them wrecked his strawberry patch in a single night.

POUND DISTRICT ACT

Pursuant to the provisions of Section 11 of the "Pound District Act", chapter 197, R.S.B.C. 1924, notice is hereby given of the appointment of George Nickel, of Creston, B.C., as poundkeeper of the pound established in the vicinity of Alice Siding, in the Nelson-Creston Electoral Distrct.

The location of the pound premises is Block 24 of Lot 892, Group 1, Kootenay District.

K. C. MacDONALD,
Minister of Agriculture.

TOWN LOTS FOR SALE—Three lots, each 50 x 150 feet, next Christ Church, plan ed to fruit trees; garage; will sell separately. Mrs. W. K. Brown, Creston.

STRAWBERRIES WANTED—2000 crates of strawberries. Highest market price. Growers paid every week. Enquire immediately. J. A. Sherwood, agent, Creston.

H. Manning of the forestry office staff, Victoria, was here during the past week in conference with Stockbreeders' Association officials in connection with grazing matters in this area.

At the May meeting of the Rod and Gun Club on Monday night June 10th was the date set for the club's crow shoot, which had to be postponed from earlier date due to high water.

J. D. MacDonald, general superintendent, and S. W. Drury, superintendent of sales, for West Kootenay Power & Light Company, Limited, were visitors from Trail on Thursday.

Trinity Church Ladies' Aid June meeting is at the home of Mrs. Jas. Compton, Thursday, June 7th, at 3 p.m. Those wishing transportation please be at postoffice corner by 2.30 prompt.

The fans are due for some real baseball on Sunday when Bonners Ferry will be here for a game with Creston Athletics, with play due to start at 2.30 p.m. prompt. Buy a booster ticket.

Creston had no trouble disposing of Kimberley in the opening baseball game of the season at Creston on Sunday afternoon, winning by a 14-4 margin. Phil. Briggs of Cranbrook was umpire.

A couple of local anglers were given suspended sentence by stipendary magistrate Mallandaine one day last week, when th y pleaded guilty to fishing in Summit Creek, which does not open until July 1st

May has been the busiest month Creston hospital has ever known. 14 patients were being treated on Wednesday, and to cope with the rush Miss Hislop has been added to the staff as night nurse.

Mrs. Ruth Hopwood, 1201 West Georgia Street, Vancouver, announces the engagment of her youngest daughter, Helen Whyte, to William Douglas Rultan, also of Vancouver. The wedding will take place in une.

Mrs, Bolin, demonstrator for Nestle's milk, will demonstrations at the Speers' store on Monday and Tuesday, and Wednesday and Thursday she will be at Corrie & Sons grocery Free coffee will be served the ladies all of whom are invited

Commencing Monday, June 4th, and continuing throughout the strawberry and raspberry seasons, the C.P.R. station at Creston will close each afternoon at 4.30 town time and will re-open from 3 to 5 a.m for the convenience of shippers.

Misses Hannah and Illingsworth, who are in charge of the Anglican Sunday school van on wheels, this year, spent a few days in the district at the first of the week. On Tuesday night the W.A. had a shower to stock the van with a supply of provisions.

Creston Intermediate baseball club was at Kitchener on Sunday afternoon at which point they ran into a 5-3 trimming from the home team. The Intermediates showed some improvement. The Sunday previous, at Creston, Kitchener batted out a 17-2 win

Miss Doris Ferguson entertained a number of young people on Friday at her home, honoring Miss Margaret Miller, who is leaving shortly to make her home in England. Contests, games, dancing were enjoyed by all, and a dainty lunch was served at midnight.

Farmers and others from West Creston are complaining rather bitterly that when they tie up their boats to do business in town on their return they find their boats gone or oars or paddles missing, which is causing them much inconvenience, to say the least.

Rev. J. W. Cuddeford, B.A., of Kimberley will have charge of the services at St. Stephen's Presbyterian Church on Sunday at 11.30 a. m, and 7 30 p. m. Rev. Mr. Cuddeford will supply the puplit of St Stephen's during the minister's absence at General Assembly

Jim Bourdon looks to have the boys' squaw fishing championship clinched for 1934. In Vic. Mawson's competition he last week brought in one weighing 5 pounds 15 ounces, with a length of almost 25 inches. Jack Hall previously led the field with one weighing 3 pounds 3 ounces, 21 inches long.

The first strawberries were shipped on Saturday, when the Reed & Mather ranch had half a dozen crates for export. On Monday Stewart & Son and John Kelly had joined the early shippers. The outgo is not heavy as yet as the weather has cooled off. Prices are disappointingly low.

Bonners Ferry drew an unusually large number of Creston visitors on Empire Day (May 24th). One party who made a count of them said 85 had visited that town during the day.

"Queen Christina," the film in which Greta Garbo scored her greatest success, will have a special showing at the Grand on Wednesday, June 6th, at regular prices. This is one of a series of outstanding pictures the Grand has booked for June, which includes "Going Hollywood," to be shown Wednesday, June 27th

Word reached here on Tuesday of the death of Mrs Ernest Ryckman at Kellogg, Idaho, the day previous. Death was due to an auto mishap but no particulars are available. Mrs. John Ryckman left on Thursday to attend the funeral, which takes place today, accompanying Fred Ryckman of Cranbrook, a brother of the bereaved husband. Deceased was well known here and her passing will be heard with regret.

Creston troop of Girl Guides were out in full force for their first church parade on Sunday evening to Trinity United Church, where a very appropriate address was delivered by the pastor, Rev. A. Walker. The troop, which was organized early in the year, has 26 members, and are in charge of Miss Mary Murrell, captain; Mrs. Lynne, lieutenant; with Ruth Davis, Helen Staples and Beryl Palmer as patrol leaders. The guides meet weekly

AT THE HOSPITAL

Ira Rhodes of Wynndel is undergoing treatment. F. Rosen of Canyon i a patient. Birth—On May 27th, to Mr. and Mrs. A. S. Reed of Creston, a son. Beryl Tompkins of Erickson is recovering from her appendix operation. Mrs. Clarke and Mrs. V. W. Grundy of Canyon underwent major operations tnis week, and are progressing favorably. Mrs. Joe Romano is improving steadily. Pete Cherbo of Sirdar is undergoing treatment, G. Pagen is progressing slowly. T. Lacey, sr, is improving. Mrs. Ben Long is a patient. Mrs. F. V. Staples was able to leave hospital on Monday.

Fires in Alberta in 1933 took toll of 30 lives compared with nine in 1932, according to the report of Fire Commissioner Henry Brace. There were 1,832 fires during the year with property loss of $1,435,612 compared with loss of $2,495,491 from 1,937 fires in 1932.

Rich Radium Find

Biggest Pitchblende Strike Yet Uncovered In The North

Radium ore beds at Hottah lake, 100 miles south of Cameron bay, N.W.T., are even richer than first reports of prospecting parties stated, Edward Harlreaves, Toronto mining man and managing-director of Great Bear development, revealed recently.

"It is the biggest pitchblende strike ever to be found in this country or the United States," he continued. He displayed a sack of sample ore. He declared that in his company's field they have a ton of ore sacked and ready for shipment. It was taken out only with sledge hammers.

He declared that the ore is worth $6,000 or $7,000 a ton, and will be shipped to an eastern refinery. He declared that silver is not showing yet in the new area, as at Great Bear lake.

Legacy, a new, promising variety of oats, produced by the Cereal Division, Dominion Department of Agriculture, from a cross between Banner and Eighty Day has done particularly well in Northern Saskatchewan, Central and Northern Alberta, and in the Eastern Townships of Quebec.

Ninety-five patches were required to repair damage inflicted to wings of an aeroplane caught in a hailstorm in South Dakota.

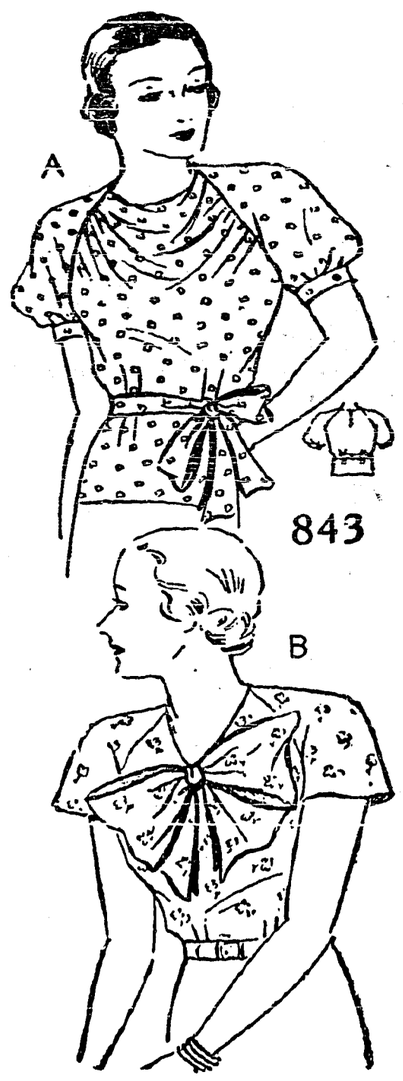
Fashion

By Ruth Rogers



COTTON BLOUSES ARE SMART, COOL FOR SUMMER, PATTERN PROVIDES FOR BOTH STYLES

Don't miss this opportunity to order today's pattern. It provides for both styles illustrated. The high neck blouse with short raglan sleeves gathered into wrist bands, is alluringly feminine.

You can fashion it of sheer cotton crepe prints, organdie novelties, cotton net, handkerchief-finish lawn prints, pastel tub silks, etc.

The V-shape neck blouse with that windblown bow is decidedly young. Any of the cotton prints as checked or striped seersucker, plaided gingham, pique, lawn, sateen are attractive for it. Tub silks and linen are also lovely.

Style No. 843 is designed for sizes 14, 16, 18 years, 36, 38 and 40 inches bust. Size 16 requires 2¼ yards of 39-inch material for View A; View B requires 1⅝ yards of 39-inch material.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Little Journeys In Science

MOLECULES

(By Gordon H. Guest, M.A.)

Scientists believe that all matter is composed of very small particles called molecules. These molecules are invisible and cannot be observed even with the aid of the most powerful microscope. It has been calculated that it would require about forty million molecules, touching one another, to make a row one inch long. Again it has been computed that a small thimbleful of air contains about twenty-seven billion billion molecules. There are spaces between the molecules which are supposed to be much larger than the molecules themselves. These spaces between the molecules are known as the inter-molecular spaces.

Molecules are constantly in motion and they are also elastic. The hydrogen molecule, for example, has an average speed of over a mile a second and bumps against its neighbors about ten billion times per second under ordinary conditions.

In the case of gases the molecules are quite separate and distinct and have great freedom of movement. The particles of a gas appear to be perfectly elastic, and as a result their motion is slowed up when they collide with one another or when they bombard the sides of the enclosing vessel. The pressure of a gas upon the vessel is due to the hail-storm of molecules upon its walls. A definite quantity of a gas left in an open vessel is capable of indefinite expansion. Gases are therefore very compressible. A good illustration of this fact is that when a quart of water is evaporated it yields about seventeen hundred quarts of steam, measured under the normal pressure of the air and at the boiling point of water. This shows us why a strong vessel is required to hold steam at high pressure.

A liquid is more compact than a gas: that is, its molecules are closer to one another, and therefore have less freedom of movement. When a liquid evaporates some of the molecules escape into the air. The speed of a molecule depends upon its temperature and hence the warmer molecules of a liquid are lost first. This migration of the warmer molecules from a liquid results in a fall in temperature when a liquid evaporates. It is well known that water is cooled in certain countries by placing it in porous vessels in order to promote evaporation.

Solids, like liquids, are much more compact than gases. The molecules of solids are much restricted in their movements, and appear to vibrate or rotate about fixed centres of rest.

Canada expends $135,000,000 annually to keep her schools going.

Ordinary printers' ink is used in making fingerprints.

SUNDAY SCHOOL LESSON

JUNE 3

JESUS IN THE SHADOW OF THE CROSS

Golden Text: "He went forward a little, and fell on his face, and prayed, saying, My Father, if it be possible, let this cup pass away from me: nevertheless, not as I will, but as thou wilt." Matthew 26:39.

Lesson: Matthew 26:1-75.

Devotional Reading: Psalm 42:1-5.

Explanations And Comments

Boastful Self-Confidence, verses 31-35. "It was the night before the end. The little company were met secretly in an atmosphere charged with emotion. Either they did not know or they did not realize what the crisis would mean. They only knew that the purpose for which they had come to the city was near its accomplishment. The secrecy of their meeting place; the solemn and mysterious actions of their Lord; the departure of Judas fading into the night; the gracious words of comfort, spoken to his friends by their master—all these things had moved their hearts deeply. They were like men at a mess talk on the eve of action. It was the airless silence before the storm breaks. In such a mood of excitement they then listened to the chilling words spoken by Jesus" (Edward Shillito). He, the Shepherd of the flock, was to be put to death that very night, and they, the sheep, were to be scattered, for they would all be offended in him, that is, caused to stumble by what was to befall him, as it was written (Zech. 13:7). Then he added the encouraging words: "After I am raised up, I will go before you into Galilee."

"If all shall be offended in thee," vehemently Peter exclaimed, "I will never be offended." He is not sure of the other disciples, but he is certain in regard to himself! How little he knew of his own weakness! Even after Jesus warned Peter that "this very night, before the cock crow, thou shalt deny me thrice," Peter reiterated his statement, and this time more forcibly: "Even if I shall die with thee, yet I will not deny thee."

In Gesthsemane, verses 36-46. Jesus led the disciples to the Garden of Gethsemane, retracing for the last time his oft-repeated journeys thither for seasons of prayer and meditation. "Sit ye here," he said to his disciples, "while I go yonder and pray."

Jesus began to be sorrowful and sore troubled, and even said to his disciples, "My soul is exceedingly sorrowful, even unto death." Before this he had talked calmly with them of the cup he was about to drink, but now, in truth, he was "clean forespent, forespent."

Electricity Helps Farmers

Greater Use In Scotland Is Making Life Easier

Farmers of Scotland are using electricity to speed growth and make life easier. Nearly 400 are employing it for milking and in butter making. Market gardeners have recently found that they can accelerate the growth of vegetables by starting them in a hot-bed warmed by electricity. The "magical current" is just being introduced into hen houses, lights early in the evening and morning, deluding the biddies into believing the day is longer and thus causing them to lay more eggs. Ultra-violet rays produced from a lamp is being used extensively in the rearing of chicks.

May Ship Via Panama Canal

Route Being Investigated By B.C. Livestock Interests

The proposal by British Columbia livestock interests that beef cattle might profitably be shipped to European or British markets is again being investigated. A proposal has been advanced that B.C. cattle could be shipped alive through the Panama Canal from Vancouver and the feasibility of this is under consideration.

Statistics reveal that the move would not be so much a means of finding an outlet for any excess production, since B.C. already imports more than half as much beef as it produces, but would merely serve as an avenue for bolstering the price, if it were feasible. Stockmen claim that Alberta beef depresses their prices to such an extent that the industry becomes unprofitable for the B.C. producers. By shipping to the British market, according to the argument advanced, B.C. cattlemen could get a better price for their beef than they can on the home market, even with rates included.

Dr. W. R. Gunn, livestock commissioner, and J. A. Grant, marketing commissioner have been discussing the matter with livestock men during their recent visit to Williams Lake.

A Women's Who's Who

With an array of over 6,000 sketches of English women, Hutchinson & Co., the London publishers, will soon launch a "Women's Who's Who". The list has taken two years to prepare and contains the names of 150 women air pilots, 3,500 women doctors, 300 women justices of the peace, 300 women county councillors, 84 women architects, and dozens of solicitors, estate managers, housing pioneers and members of parliament.

OCCASIONAL WIFE

By

EDNA ROBB WEBSTER

Author of "Joretta", "Lipstick Girl" Etc.

SYNOPSIS

Camilla, Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, when the rest of the members of the party go a a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel. After Camilla has gone from the studio, Avis Werth calls and persuades Peter to accept a loan of $1,000. Peter and Camilla are reconciled. Avis invites them to a party, at which she introduces Peter to well-known artists and public men.

(Now Go On With The Story)

CHAPTER XLV.

"You may as well wish Peter a bon voyage now," Avis advised Camilla with bright optimism. The three were in his studio viewing the finished product of his efforts.

"Wait a minute," Peter demanded. "I haven't entered the exhibit yet, even." But his own exuberant spirits betrayed his secret hope.

The bronzed figure, poised on its oval plinth, would be entered in the national exhibit on the following day. Camilla's heart swelled with pride and ached with a wistful anxiety. Peter's sudden change of attitude toward his work, and his spirit of optimism during the past fortnight, both puzzled and delighted her.

Previously, he had wavered between contrasting moods of hope and despair, ambition and lassitude. Money had been his difficulty and the reason for his despondency. But he had maintained a cheerful attitude ever since that day of their first quarrel, which had concerned their finances. Perhaps his chagrin over it had transformed him permanently, Camilla thought. Yet she scarcely believed it, and wondered just what had happened. Perhaps the imminence of the exhibit awards sustained him. If that were the explanation, she anticipated with dread the depth of his disappointment if he lost.

"And she is still a lady without a name," Peter observed. "The committee will have to decide the title here and now. Any new ideas floating around between you two girls?"

They looked at each other, each reluctant to speak first. Finally, Avis asked sweetly, "What was that suggestion you made the other night, Camilla?" As if it had been of too little consequence to remember.

"I don't think I can offer anything better than 'Eager Youth'. But Peter must have thought of something better during these weeks while he has worked on it."

"Fact is, I hadn't thought much about it until Avis brought up the subject several weeks ago. I thought her idea was pretty good, and still do. 'Inspiration'," he repeated thoughtfully. "She does look rather inspiring, at that," he grinned.

"Which of us—the figure or I?"

"Both of you," he bantered.

"Oh, I have a marvelous idea," Avis declared suddenly. She was giving a party for Peter that evening to celebrate the completion of his work. All her plans, so far, had worked as smoothly and satisfactorily as well-oiled machinery, and her confidence was mounting rapidly. She was even venturing a little ahead of her plans, so sure was she of her victory.

"Why not have a christening and unveiling of the statue to begin the party tonight? Everyone will want to see it, so we'll all come in here for a nice little ceremony and then adjourn to celebrate with whoopee. I'll get a thin white cloth to drape over it and—oh, may I, Peter—be the mistress of ceremonies, name the statue and unveil it?" Her manner conveyed that she asked no more humble honor.

"Why not?" Peter inquired. What else could he say? "It's your idea. Go ahead with it."

"Then you will use my title?" hesitantly.

"Sure. It's all right. Any good sculpture is inspiring; and if it isn't that good, the name doesn't matter, anyway."

Avis fluttered across the room. "You're a dear to let me do this, Peter. Well, I'll have to run home and get busy. I've several things to do for tonight. You carve the name on right away, so everything will be ready. I'll bring the veil over later." Avis did everything energetically, by leaps and hunches, as if she were rushed for time doing important things; while she actually accomplished very little except the satisfaction of her own selfish desires.

"She's a pretty good scout," Peter observed indulgently, when she had gone. "What do you think, honey—is the name all right?"

"What's the difference what I think?" she asked quietly.

"Plenty!" he looked at her in surprise. "Didn't I consult you about the name, too?"

Camilla smiled bravely. "But you gave mine no consideration."

"Sure, I did. Fact is, I don't know much about it. I just want to use whatever is best, regardless of whose it is. So you don't like 'Inspiration'?"

"It means nothing. As you just said, it could be applied to any piece of sculpture. I don't say that 'Eager Youth' is the best possibility, but at least it applies to the figure, and means something. A young girl standing on tip-toe and drinking eagerly from the fountain of life which she holds to her lips in the form of a fluted shell. Doesn't that describe it, exactly? There is some imagination in it, anyway. I suppose hundreds of figures and groups have been named 'Inspiration'."

"Yeah, maybe thousands," he conceded coolly. "Well, it done, I can't offend her now. She's been mighty decent to me in a lot of ways."

Camilla held tightly to her words and emotions until she could escape. "Then, it's all settled," she said lightly, moving toward the door. "I'll have to run home and dress now for the party. See you later, dearest," and kissed him goodbye.

Alone, she thought bitterly, how treacherous love was. It took you to the heights of happiness only to dash you down mercilessly and fiendishly to the bottomless pit of anguish. She just couldn't understand Peter these days.

Was it Avis who had so changed him? True, he had been sweet enough to her whenever she saw him, but his attentions had been more dutiful than spontaneous, his love more perfunctory. She may have imagined that in her resentment toward Avis, however. This matter of naming his statue had hurt her immeasurably. Peter's work was such an intimate part of their love together and their future. It should represent as much as possible their combined interests.

It seemed to her that since Peter had not named his own work, he should have been delighted to give her that privilege and honor. Of course, had Avis' suggestion been superior to her own, she would have been glad to favor it. As it was—well, there was just a heavy weight of sadness in her heart as she prepared for the evening. She recalled with a little wry smile what Peter had said about Avis being mighty decent to him in a lot of ways.

How like a man! to give credit in full measure, pressed down and running over, to some woman whose attentions were an inexcusable intrusion, and to dismiss lightly the sacrifices and generous considerations of the woman who loved him.

The thought suddenly mocked her that if Peter were so susceptible to feminine influences right here in the same city with her, what would happen to him for a whole year in Paris without her? But she dismissed that thought as instantly as it occurred to her. She did not doubt for a moment that Peter was loyal and true. His work abroad, if he had the chance to go, would absorb all his time and thought; and their life together after that would by a joyous eternity.

Her mind leaped ahead to plan for the days just before her. If Peter should go away, they would have to crowd all the happiness they could find together into the two intervening weeks. There would be a week of anxious suspense awaiting announcement of the prize winner. It would be a difficult time for Peter. She doubted if he could work at all—and he shouldn't. He needed a complete rest after these strenuous weeks of work and anxiety.

For the moment, she regretted her confinement to her own work, but resolved to give Peter every possible moment which she could spare from it. Perhaps she could persuade him to come to the apartment with her for a week, and Rose would generously go back to her mother's for the time.

Her own work was well established now, her copy up-to-date and planned ahead. It promised success, but only time would prove that. Already, her Tiny Tots actually were smiling up at her from the pages of numerous magazines, waving gleefully at her from signboards along the highway, peering down from store shelves where they cavorted on the boxes of cereal which they exploited—just as she had dreamed they would be doing when she had created them on that memorable night two months before.

She was proud of her achievement, whatever the outcome might be, but she kept to herself the fact that she was the originator of the Tiny Tots who had recently sprung up everywhere to claim attention. Only Peter shared her secret, and not even Rose knew how important the work was which her sister did for the advertising agency.

(To Be Continued)

CHILDREN'S CONSTIPATION Ended!

Mrs. H. T. Rowsome, Athens, Ont., writes, "My baby boy was troubled with constipation. I gave him Baby's Own Tablets as directed . . . Before I had given half the box the constipation was righted." By relieving constipation, Baby's Own Tablets prevent more serious ailments developing. Much easier to take than nauseating laxatives and perfectly *safe* for all little folk from the wee babe to children of school age. 25c package.

CAN'T SLIP OR SLIDE FALSE TEETH

Don't use any old kind of remedy to keep false teeth in place—use a reliable, recognized one which dentists prescribe such as Dr. Wernet's Powder—the largest seller in the world—grips teeth so secure yet comfortable they feel natural. Positively no slipping or clicking—blissful comfort assured all day long. Forms a special comfort cushion to protect and sooth gums. No colored, gummy paste-keeps mouth sanitary-breath pleasant. Inexpensive—all druggists.

A Super-Highway

U.S. Government Receives Plans For Coast To Coast Route

An engineer's idea of the "superhighway" of the future was envisioned by the Pittsburg chamber of commerce as it submitted plans with the federal public works administration for such a transcontinental route.

Advocates estimate the approximate cost of the 3,000-mile roadway between $300,000,000 and $400,000,000, which would be borne by the government. Tolls and other mileage charges would make the project self-liquidating and self-sustaining.

Congested cities in its cross-country stretch would be eliminated as the proposed high-speed, non-stop thoroughfare would have no intersecting lanes, but ingress and egress by ramps only, and would be 90 feet wide with different lanes for varied speeds.

States traversed under the preliminary plan would be New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Missouri, or Nebraska, Colorado or Wyoming, Utah, Nevada and California.

In their resolution favoring the project, chamber directors stated it would provide a needed main artery for transcontinental traffic and furnish employment.

Tribute To King George

Empire Fortunate In Having Wise Man For Sovereign

It is 24 years since King George ascended the throne of his illustrious ancestors, and thus Their Majesties are entering upon their silver jubilee year. It is to be marked, at its end, by Empire-wide ceremonies in keeping with so important an anniversary in our widespread affairs.

For many reasons the people of the Empire will rejoice with their King and Queen in this anniversary year. There is much reason for congratulation in the fact that in the extraordinary events since 1910 the Sovereign was a man so wise, so adaptable, so much opposed to sham and pretence, so thoroughly a man of the people. When we consider for a moment the catastrophes which would have been inevitable, the misery of millions, if the King in these decades had been another sort of King, we realize something of what the Empire has been saved by the shrewed, simple, kindly, dignified family at Buckingham Palace.—Ottawa Journal.

THE RHYMING OPTIMIST

By Aline Michaelis

A MOTHER

How can a mother ever find
Through toil-filled days, through hours of stress,
So many ways of being kind,
So many moods of tenderness?

Life, sometimes, is a lonely thing,
Bare of beauty and drained of dreams;
How can a mother always bring
Shining hope back and faith's white gleams?

Wild regrets like grim ghosts will rise,
Threatening all of the years ahead;
Who but a mother can check vain sighs
And show how futile are tears we shed?

Failure and folly may trouble each breast;
How can a mother's clear eyes see
All of the virtues it once possessed
Bloom in the heart, as it used to be?

Will Come In Time

Law To Compel Traffic To Stop At Railway Crossings

Every little while, some advocate arises to suggest a law making it compulsory for all motor vehicles to come to a dead stop before crossing railway tracks. Motor buses now voluntarily comply with such a regulation; but the general public seem to think they are safer in their own cars than they are in buses—for what reason we do not know, for buses are usually controlled by the most experienced drivers—and in addition to this they fear that such a law would slow up traffic and cause congestion. Some day we will have such a law.

YOUR LIVER'S MAKING YOU FEEL OUT OF SORTS

Wake up your Liver Bile

—No Calomel needed

When you feel blue, depressed, sour on the world, that's your liver which isn't pouring its daily two pounds of liquid bile into your bowels.

Digestion and elimination are being slowed up, food is accumulating and decaying inside you and making you feel wretched.

Mere bowel-movers like salts, oil, mineral water, laxative candy or chewing gum, or roughage, don't go far enough.

You need a liver stimulant. Carter's Little Liver Pills is the best one. Safe. Purely vegetable. Sure. Ask for them by name. Refuse substitutes. 25c. at all druggists. 58

DEPRESSED BY ACUTE ACIDITY

There can surely be no doubt about the effectiveness of a remedy for acidity that can give such permanent relief as in this woman's case:—

"I suffered for many years from acidity in various forms," she writes. "At last it became so acute that every morning I woke with a gnawing pain and a great depression of spirits. I tried Kruschen Salts, and the effect was magical. The pain subsided and the depression lifted like a cloud. I have taken the daily dose of Kruschen ever since. That was about five years ago, and the Kruschen does not lose its effect."—(Miss) E. M. H.

Kruschen is so effective with acidity because it neutralises acid, takes all the torment out of it, and gently expels it from the system. And by stimulating your organs of elimination to perfect regular action, Kruschen will prevent this harmful acid from even accumulating again. After that you'll experience no more misery after meals.

Little Helps For This Week

"I have finished the work which Thou gavest me to do." John 17:4.

He who God's will has borne and done,
And His own restless longings stilled;
What else he does or has foregone,
His mission he has well fulfilled.

Cheered by the presence of God I will do at each moment without anxiety and according to the strength He has given me, the work that His Providence assigns me. I will leave the rest without concern, it is not my affair. I ought to consider the duty to which I am called each day as the work God has given me to do, and to apply myself to it in a manner worthy of His glory, that is to say, with exactness and in peace. I must neglect nothing.—Fenelon.

It is thy duty oftentimes to do what thou wouldst not, thy duty too to leave undone what thou wouldst do.—Thomas A. Kempis.

Attempt To Steal Relic

Watchman Saves Sacred Garment Said To Be Christ's Tunic

A daring attempt to steal a sacred relic reputed to be Christ's tunic was foiled by a watchman at Argenteuil, France.

The watchman repulsed intruders after they had wounded him in the head. The tunic belongs to the Argenteuil Basilica, where it has been guarded since the 12th century.

Since Easter, the relic has been publicly shown and hundreds of cripples and invalids have been brought into the Basilica daily seeking miraculous cures. The tunic supposedly was woven by the Virgin Mary.

It is purple, a seamless shirt spotted with blood and showing marks of the Cross diagonally across the back.

"The attack was very mysterious," Canon Louis Breton said, "but public exposure of the tunic may have tempted some international bandit or maniac to steal it."

In Pennsylvania, a man has the privilege of marrying his grandmother.
