THE CRESTON REVIEW

VOL. XXV — CRESTON, B. C., FRIDAY, JUNE 8, 1934 — No. 11

Start Permanent Work K.V. Road

Creston-Porthill Link North and South Highway Getting Some Permanent Betterments—May be Extended Entire Length.

After at least six years of agitation the North and South highway via the old K.V. roadbed between Creston and Rykerts-Porthill, Idaho, is likely to be realized.

Last week the necessary surveys for a standard highway were completed and immediately a crew of about fifteen men, in charge of J. E. Hayden, with two trucks and the gas shovel, commenced operations at the south end, and that it is the intention to improve the highway its entire length is assured as Chas. Moore is now at work putting in grade stakes between the Idaho boundary and Creston.

Work this week is at the south end where a standard width highway is being built to connect at the Idaho boundary with the new road that is well along toward completion on the U.S. side.

The new Idaho road leaves the main highway about two miles south of Porthill and keeping to the west of the old highway, with its steep grade, crosses the old road in close proximity to the U.S. immigration and customs offices which have been shifted to face east on the new road.

On the B.C. side the present road is used to a point about 100 yards beyond the long bridge just south of the Rykerts customs house, where a swing is made to the left and on a likely looking grade the Idaho boundary is crossed a d the U.S. customs offic. reached.

At the middle of the week there was nothing definite as to funds being available to complete the road the entire distance from Creston to the boundary, but with assurance that the Dominion government is making the province an advance of twelve millian dollars it is confidently expected sufficient funds will be available to widen and surface the old K.V. for its entire length.

Engineer Dixon appears to be giving the Creston district highways considerable attention. Late last month he shipped in a heavy grader, operated by its own power, which is operating in the Sirdar area and doing excellent work.

Wynndel

Miss Harrop spent the long King,s birthday weekend at her home in Harrop.

Mrs. E. Payne, jr., of Creston, is a visitor with her parents, Mr. and Mrs. E. Foxall.

Father Choinel of Cranbrook was calling on his Wynndel parishioners one day last week.

Bill Campbell arrived on Monday to take his usual job as sawyer at the Winlaw sawmill.

Mr. and Mrs. E. Stevens and family are now occupying the former Rosindale residence below the track.

Mrs. M. Young of Creston spent a few days with her sister, Mrs. Nathorst, at hhe beginning of the week.

J. McFarland of Rossland, who was visiting at the home of Mr. and Mrs. L. A. Davis, left for home on Saturday.

Bible students were distributing literature in the district last week, and held service in the church on Sunday evening.

Dr. J. Olivier, health inspector of schools, accompanied by Miss N. Downes, R.N., were at the school on Friday, and examined all the children.

The June meeting of the Woman's Auxilary has been cancelled. Rev. M. T. Percival is due here for Anglican Church service at 3 p. m., on Sunday.

Doukhobor families from the prairie and quite a number of the unemployed are coming into Wynndel looking for work at the strawberry harvest

Guy Cooper of Trail s id hello to some of his Wynndel friends on his way to Elko to visit his parents. He was making the trip by motorcycle.

Fred Hagen, John Wigen and P. Lachat were motor visitors to Kimberley on Saturday evening for a spec'al K.P. meeting, that was very largely attended

Mr. and Mrs. Crane, with Jack and Agnes, were weekend visitors with friends at Nelson. Miss Mary Winlaw, who has been visiting with them, returned to Nelson.

The dull and somewhat showery weather of the past week has slowed up the strawberry movement. The mosquitoes have arrived to make berry picking more interesting, and are certainly of a vicious nature.

Mrs. Rumsey entertained at the tea hour on Tuesday last, honoring her mother Mrs. M. Young of Creston. Those present were Mrs. and Miss Florence Wood, Mrs. Lachat, Mrs. Dunseath, Mrs. Pedersen, Mrs. Davidge, Mrs. Towson and Mrs. Young.

Wynndel softball team handed the all star Shell Oil Company team of Creston an artistic 23-4 trimming at Crestoh on Monday vening. The Creston battery was Schade, T. Wilson and O. Christie. Mike Markin and Bill Martin did the battery work for Wynndel. The other members of the Wynndel team were H. Corrie, C. Wilson, D. Benedetti and Fred Hagen, infield; G. Benedetti, Frank Pigott and Melvin Hagen, outfield.

Lister

Mrs. M. St. Denis of Canal Flats is a visitor here this week with her parents, Mr. and Mrs. J. W. Pendry.

Lister and Huscroft schools were closed on Monday—observing King's birthday which fell on Sunday this year.

Miss Olsen, who has charge of the Huscroft school, was at her home at Nelson for the King's birthday weekend.

D. J. McKee left on Tuesday for Vancouver on busines in connection with the Workmen's Compensation Board.

There will be Anglican Church service here on Sunday morning at 11 o'clock, in charge of Rev. M. T, C. Percival of Creston.

The quite heavy rain that came along on Monday was most welcome as all vegetation was beginning to suffer. Fortunately, too, very little alfalfa had been cut.

Misses Curtis and Hazel Hobden, Mrs. Bird and Mrs. Hobden, and Fred Powers spent the weekend on a visit with relatives and friends at Cranbrook and Kimberley.

Another community picnic is announced for the Huscroft picnic grounds on Sunday, commencing at 11 a.m., to feature two baseball games, a softball match and children's sports. Hot water provided free.

Public school inspector Manning was here on Wednesday last arranging for the 1934 Grade 8 examinations the last week in June. What Lister and Huscroft pupils there are to write will take the exams. at Canyon, where Miss Goodwin will be presiding examiner.

The May report of Lister school shows an average daily attendance of 98 per cent. in Division 1, according to the report issued by Miss Curtis principal. The high sta dings were taken by: Grade 8—Douglas Sinclair, Jean Donaldson. Grade 7—Martha Domke, Cyril Bird. Grade 6—Margaret Dent, Alice Wellspring. Grade 5—Margaret Sinclair Millie Beard. Perfect attendance—Millie Beard, Cyril Bird, Margaret Dent, Martha Domke, Jean Donaldson, Vernon Donaldson, Jean Flynn, Erika Meyer, Manning Powers, Erwin Rylan, Douglas Sinclair, Margaret Sinclair, Alice Wellspring.

In Division 2, Miss Webster reports an average attendance for the month of 89 per cent., with the following making the high standing: Grade 4—Mary Daus, Helen Gustafson. Grade 3—Stella Beard, Mary Millner. Grade 2—Dorothy Millner, Arthur Sommerfeld. Grade 1b—Harry Krebs, Gerhart Meyers. Grade 1a—Irene McKee and Doreen Beard and Freda Donaldson, equal. Perfect attendance—Doreen Beard, Stella Beard, Mary Daus, Daniel Domke, Oscar Herman, Irene McKee, Dorothy Millner, Leslie Rylan, Doris Stieb, Bernice Dent, Bernice Donaldson, Freda Donaldson.

Arrow Creek

Miss Lillian Staff returned from Canal Flats last week.

Henry Edwards has left for Creston, where he is picking berries for Herb Lewis

Raymond Clarkson was a hospital patient at Creston last week, for a tonsils operation.

If the weather takes a notion to warm up strawberry picking will be under way here by the middle of the month.

Mel. Jorde is back from Camrose, Alberta, and is accompanied by his mother, two brothers and a sister, who are to reside here permantly.

A picnic, sponsored by the Arrow Creek Improvement Association, was held Saturday, June 2nd, at the school. There was a good turnout and in spite of threatening weather a good time was had by all.

Wynndel

S. Benedetti was a business visitor at Cranbrook at the weekend.

The planer at the J. B. Winlaw sawmill commenced operations on Tuesday.

Miss Olwen Evans of Cranbrook, was a weekend visitor with her mother, Mrs. Rumsey.

Miss Leah Abbott spent the King's birthday weekend at Sirdar, a guest of Miss Daisy Rogers

Father L. Choinel of Cranbrook was a visitor here on Friday, when Mass was celebrated at the home of Mrs. Grady.

Carl Wigen, W. G. Greig and G. Lunt are the latest to connect up with the West Kootenay Power & Light system.

"The best dance of the season," is the the way K K. Klub announce their berry season" hop," Friday. 15th. Paramount orchestra music. Ladies 25 cents; gents 75 cents.

The senior children of the United Church Sunday school enjoyed a picnic on Monday at the old mill, under the direction of Miss O. Hagen. The junior children were entertained at the home of Mrs. J. G. Abbott. Games were played and lunch was served. Mrs. Wall and Mrs. Packman assisted Mrs. Abbott.

Alice Siding

J. J. Freney spent the Friday-to-Tuesday King's birthday weekend at his home in Rossland.

Gordon. Dick and Ron Smith are improving their residence by having running water installed.

Mr. Dubley of Vancouver, the provincial electrical inspector, was here on official business the past week.

Mrs. Travis and Mrs. Halkow of Michel, are here on a visit with their parents, Mr and Mrs. J. W, Parkin

Mrs. J. H. Webs er, who has been a patient at Cranbrook hospital for the past three weeks, arrived home at the weekend.

Mr. aud Mrs. A. Miller of Wasa are visitors here at present, with their daughters, Mrs. Hec. Stewart and Mrs. John Miller, jr.

E. Hovermann is busy with slashing work in the scrub timber on his ranch to provide himself with a road to connect with the main highway.

N. Husband had his mail delivery rig rather badly smashed in a runaway mishap on Friday afternoon. Fortunatley Mr. Husband escaped unhurt.

Alice Siding baseball club bested the Creston Intermediates 10-3 in a well attended game here on Sunday afternoon, with Fritz and Collis doing battery work for the locals.

Alice Siding baseball club had a well attended dance at the home of Mr. and Mrs Ostendorf on Friday evening, with music by Messrs. Hovermann, Ron Smith and Tom Marshall.

The cool weather of the past week has slowed up strawberry shipping, which started the latter part of May. Reed & Mather, J. Kelly, Stewart & Son and F. Simister are amongst the first to ship.

Canyon City

The school children had a holiday on Monday —King's birthday.

Mrs. J. G. Wearmouth was a visitor with her daughter, Mrs. Walde, at Fernie the latter part of May.

Mr. and Mrs. C. Blair and daughter, Eleanor, spent a few days this week with Mr. and Mrs. Pochin at Nelson.

Arvid Samuelson has a crew of ten men at work at Wynndel on a contract to make and haul 10,000 cedar posts for the Winlaw firm.

A Wickholm ha- just been notified of his appointment to take charge of bridge construction and repair work in the Gray Creek-Goatfell area.

Mr and Mrs. Ruff and family, who have been on the Cleave place for the past few months, are leaving this week for Kindersley, Sask., to reside.

H. Winch, M.P.P., Vancouver East, addressed a well attended meeting under C C.F. Club auspices at the hall on Wednesday evening last. F Knott was chairman of the gathering.

Public school inspector Manning was here on Wednesday last arranging for the Grade 8 departmental examinations later in June. Canyon will again be a centre, with Miss Goodwin presiding.

The Ladies Hospital Auxilary had quite a good turnout at their social at the home of Mrs. T. Hickey on Wednesday last. Mrs. Maxwell of Creston had the lucky ticket on the cushion that was raffled. The affair enjoyed a cash intake of about $12.

Canyon lawn tennis club has been formally organized with the following officers for 1934: President, G. Messinger; vice-president, Miss Nissie McRobb; secretary- treasurer. Miss Eleanor Blair. About 15 members have enrolled and the game is proving very popular.

Sirdar

J. S. and Charles Wilson were Creston visitors Saturday.

Mrs. M. Hagen and son, Oscar, of Wynndel were visiting at Sirdar.

Bob Martello of Rossland is spending a week with his brother at Sirdar.

V. M. Vasseur of Creston brought a team here for log hauling purposes.

Bob Mackie of Boswell was here taking delivery of a consignment of baby chicks.

H S. McCreath of Creston was a business visitor here and up the lake points.

The water as indicated by guage at Slough Bridge reads 18.66, a rise of 1.91 for the week.

Mrs. D. Bradley of Cranbrook is spending a few days here, guest of Mr. and Mrs. T. Rogers.

Joe Koliman, who has been on the sick list for some time, has resumed work as patrolman on the line.

The C.P.R have a small crew at work preventing the accumulation of driftwood at Slough bridge.

W. H. Cartwright and Chas. Sutcliffe of Creston were business visitors to this district during the week.

Mr. and Mrs. Martello, accompanied by the latter's brother, were at Trail and Rossland for the week end.

The motor boat fleet was out cruising Sunday on Duck Lake. There are five of them located on the lake.

V. M. Vasseur of Creston took a truck load of sawn timber from the portable saw mill at Twin Bays on Saturday to Creston.

Mrs. R Taylor of Cranbrook was here Saturday on route to Grey Creek, where she will spend a vacation at the home of her sons.

Arthur Speers of Creston was at Kuskanook during the week, preparing the Speers summer home at Kuskanook for the season.

J. P. MacDonald and George Huscroft of the forestry department. Creston, were business visitors here and at points up the lake.

A new type of grader has arrived here and is under the the charge of Roy Browell. It is a very heavy one and operated by one man.

Mr. and Mrs. Quigley of Coalhurst, Alberta, who have been spending an extended holiday here, left for their home the beginning of the week.

The latest readings at the guage shows a recession of the water, and while it may come up a little again it is expected to gradually fall from now on.

The softball game scheduled to take place at Sirdar and Grey Creek had to be postponed owing to the unavoidable absence of one of Sirdar's best players.

The recently arrived compressor has now started work under Dolf Weir of Creston. With this equipment, and other appliances recently arrived, much progress can be expected on the roads here.

Cooler Weather Slows Up Berries

Shipments Not Quite Equal the Crow Market Demand—Eastern Canada is Getting Coast Berries—Raspberries Early.

The cloudy and somewhat showery weather that ha prevailed since the middle of last week, is retarding strawberry shipments somewhat, and up till yesterday the valley supplies had been hardly equal to the demand on the Crow line.

There is a greater degree of optimism in connection with the strawberry deal in evidence this week, due the fact that the coast growers are shipping much of the 1934 crop to supply the market in eastern Canada which is ater than usual this year. With the movement east prairie points are at present going short, and as the coast is now past its peak it begins to look as if Creston Valley berries will find a better-than-expected demand on the prairie. Too, Alberta is feeling much better since the heavy rains encountered at the weekend.

The showery weather of the week, while causing the apple grower some concern due to the possibillty of scab, is bringing along all the the other fruits. Raspberries are looking wonderfully well and from present appearances will be on the shipping lst long before June is out. And the same prediction is made on cherries, Royal Annes being looked for by the 25th. Cherries are not likely to be as heavy as the bloom indicated but they are setting well, and sizing nicely.

Both Long, Allan & Long and the Exchange are making every effort to move some part of the local gooseberry crop, but the demand is light, notwithstanding the very attractive six pound basket both firms are using this year.

Reports on both apples and pears are that the "set" is not on a par with the bloom. Flemish Beauty is having an "off" year, but the show of Bartletts is encouraging. For so early in June the size on all varieties of apples is unusual.

Long, Allan & Long have improved their shipping facilities at Erickson by the purchase of the former Scott Fruit Company warehouse which they are fitting up as their packing shed, having shifted their two-section Cutler grader into it and have installed an electric motor for power purposes. The firm is handling strawberries again at Wynndel, Reed & Mather's Creston and Erickson.

WORLD HAPPENINGS BRIEFLY TOLD

The Straits Settlement legislative council adopted a bill restricting rubber production in conformity with the London agreement.

France and Great Britain plan to consider jointly the problem of debts owed to the United States at a meeting of envoys in Geneva.

Forty aborigines and whites have perished in Western Australia, victims of a mysterious disease, the Daily Herald's Australian correspondent has cabled.

Hints are heard that a new move would be made to get Germany back into the tottering world disarmament conference. The move was said to revolve around the United States.

The body of Sam Behan, Portsmouth penitentiary convict who died suddenly of a heart condition, has been claimed by his widow and has been sent to Brooklyn, N.Y.

Half a million pickerel fry were deposited recently in the Moose Jaw river at the Wild Animal park by officials of the department of natural resources.

Definite adoption of a pacifist attitude and committal of the organization of public opinion in the interests of peace was made at Toronto at the conference of the Association of Canada Clubs.

Birth of five daughters to Mrs. Oliva Dionne near Callander, Ont., is the first quintuple birth in Canada. So far as he knows, Dr. F. C. Routley, general secretary of the Canadian Medical Society, said.

The shipments of livestock from Western to Eastern Canada during the first 17 weeks of 1934 and 1933 (latter figures within brackets) were: Cattle, 29,267 (12,135); calves, 164 (19); hogs, 82,908 (118,992); and sheep, 40,423 (32,245).

Low Price For 'Planes

Britain Sells Reconditioned Fighters For Two Hundred Dollars Each

Aeroplanes entirely reconditioned and capable of doing 120 miles an hour, price—$200!

The British air ministry has sold many of these aeroplanes at prices usually given for second-hand cars.

They originally cost $20,000 and were built as fighters, with engines which cost at least $5,000. They are in perfect condition and are almost as airworthy as when new.

There is one which is now on offer for $350, but for the extra $150 you get a spare engine, two spare wings and the all-important certificate of air-worthiness. The engines are of a world-famed make and in tip-top condition.

These machines and engines are obtainable at these crazy prices because they have been superseded by later fighting models. While light aeroplanes can be used fairly cheaply, these powerful machines cost so much to run that few private owners can afford to run them.

DENICOTEA CIGARETTE HOLDER

DENICOTEA Cigarette Holder absorbs the nicotine, pyradine, ammonia and resinous and tarry substances found in tobacco smoke.

Complete holder with refills — $1.00 postpaid, or from your Druggist or Tobacconist. Dealers wanted everywhere.

Little Journeys In Science

SPONTANEOUS COMBUSTION

(By Gordon H. Guest, M.A.)

Combustion of a fuel has been shown to be the rapid chemical combination of the material with oxygen, accompanied by the production of heat and light.

The temperature to which a substance must be heated before it will burn is known as the ignition or kindling temperature. We know that paper and wood will ignite more easily than coal. When we use a match to light a fire, we rub the match-head until friction has heated it to its kindling temperature, and the tip burns. The heat of the burning tip raises the temperature of the stem to its kindling temperature, and so the process continues until the wood or coal reaches its kindling temperature, and burns. As long as a substance is cooler than its kindling temperature, it cannot burn.

Sometimes we have a slow combining of oxygen with a substance which develops into active burning, and this is known as spontaneous combustion. Scientists have shown that a given weight of material, for example, iron, in combining with oxygen to form a certain oxide, will give off the same total amount of heat whether the union proceeds rapidly or slowly. If the combining goes on slowly and the heat goes off, little rise in temperature will be observed. But if the material is a poor conductor of heat, we find that the heat accumulates until the kindling temperature is reached and burning commences. Such a situation often arises when rags soaked with the oils used in making paint (linseed oil and turpentine) are left lying about, instead of being placed in a metal can, or, better still, burned. These oils, in "drying", combine with oxygen from the air, and turn into a tough resin-like material. Rags being poor conductors, the heat developed finally sets the mass on fire. Fires in coal bunkers and hay stacks arise from the same cause—slow combination with oxygen, with the accumulation of the resulting heat until the kindling temperature is reached. The beach-wrecked carcass of the whale has been known to take fire spontaneously due to the union of oxygen with fat.

To Visit Australia

Duke Of Gloucester To Make Extended Tour In September

The British government has announced that the Duke of Gloucester will leave for Australia in September aboard the H.M.S. Sussex and will spend four days at Colombo, Ceylon, before continuing to Perth, West Australia, where he is due October 5.

He will arrive at Melbourne, Victoria, two days later and will open officially the centenary celebration of the state of Victoria.

His Royal Highness will sail December 10 from Brisbane, Queensland, going home via New Zealand where he is due December 15. He will leave that Dominion at the end of January and proceed via Bay of Islands for deep sea fishing.

He will visit Fiji, Western Samoa, sail through the Panama canal and possibly touch Jamaica en route to England.

The Duke of Gloucester, the king's third son, will go to Australia instead of his younger brother, Prince George, who visited South Africa in the spring.

Advice From Tibet

Newspaper Tells World How To Restore Good Times

Tibet's only newspaper, which comes out once a month, knows just what is the matter with the western world. It is called The Mirror of Events in Every Corner of the Globe. It asserts that the economic crisis has been caused by wheels, because machines "enable two men to do the work of 20,000." Unemployment means no money and lack of money kills trade, the argument runs. The western world is warned that it must suppress wheels before it can have better times.

The channel of the ancient Hudson river runs under the sea for many miles, showing that the land was once above the sea.

Celebrates Centenary

Sportsmen Started Racing Club In France Hundred Years Ago

Organized horseracing, in France is just one hundred years old, and recently at Longchamp a special race called the Centenary Prize was run.

The societe came into being in November, 1833, as a result of a sudden storm over Paris which drove a number of sportsmen into a cafe at the Palais Royal. While waiting for the weather to clear up, they discussed racing, and there and then decided to form a racing society. The president was Lord Henry Seymour, about whom plays, films, and novels have been written. The first secretary was Mr. Thomas Bryon, an Englishman, who owned a Paris shooting gallery. The first race-meeting was held on the Champ de Mars, Paris, on May 4, 1834.

Below London is a natural underground reservoir of water stretching about 30 miles north and south of the city and the same distance east and west.

The United States is represented in 15 foreign countries by ambassadors.

SUNDAY SCHOOL LESSON

JUNE 10

JESUS ON THE CROSS

Golden Text: "Looking unto Jesus the author and perfecter of our faith, who for the joy that was set before Him endured the cross, despising shame, and hath sat down at the right hand of the throne of God." Hebrews 12:2.

Lesson: Matthew 27:1-66.

Devotional Reading: Psalm 22:1-5, 14-19, 27, 31.

Explanations And Comments

The Crucifixion, verses 32-38. They led Jesus away to be crucified, going outside the city limits, as was the custom (Acts 7:58), to a knoll called Golgotha, whose name meant "the place of the skull." We call the place Calvary, from the Latin word calvaris, a skull. There they offered him wine mingled with gall, a narcotic, for it was a merciful practice to give a stupefying drink to one about to be crucified This charitable office, Alfred Edersheim tells us, was performed at the cost of an association of women in Jerusalem. Jesus tasted but would not drink. "Jesus declined it, not because the endurance of physical suffering was needful to the efficacy of his sacrifice, not because he had a sentimental repugnance to dying in a state of stupefaction (compare Dr. Johnson: 'I will take no more physic, nor even my opiates; for I have prayed that I may render my soul up to God unclouded'), but because he still had work to do. It was well for the penitent brigand (Luke 23:39-43) and Mary (John 19:26, 27) that he declined it."

Then they crucified him. "The astonishing thing is that the crime was not committed by criminals. It was not the underworld that crucified Christ. It was the world of average men that demanded his death. Nor was that world to be dismissed as barbaric or anarchist or atheist or communist. On the contrary, it represented the highest civilization upon this planet, and the civilization included a government, armed forces, a judiciary, commerce, religion, arts, education, and pleasure. It was a world of Roman law, of Greek culture, and of Jewish faith. This is the mystery of iniquity that we have to explain." (P. Whitwell Wilson).

The Taunts of Spectators, verses 39-44. The cross was near the public road leading to Jerusalem, and passers-by mocked and gibed, shaking their heads in the direction of the cross as if to say, some one suggests, "That is what it has come to!"

Darkness Without and Within, verses 45-49. From twelve noon till three in the afternoon there was darkness over the land. What was it! Who shall say? There was an earthquake and an eclipse, say some. It was a sympathetic response of nature, say others.

The Death, verse 50, Yet again Jesus cried with a loud voice, (Luke 23:46 records the words: "Father, into thy hands I commend my spirit"), and yielded up his spirit. "Immediately my heart sings a new song,—

'O Jesus, Lord! 'tis joy to know
Thy path is o'er of shame and woe,
For us so meekly trod.'

Eternity cannot suffice for the unfolding of the mystery of the passion, but this I know, he bare my sins in his own body on the tree." (G. Campbell Morgan).

Produced In Dominion

Canadian National To Feature Home Grown Foods On Diner

Distinctive Canadian foodstuffs and dainties in their proper season will be a feature of the table d'hote meal service on the trans-continental trains of the Canadian National Railways, commencing with the abolition of a la carte service on these trains, stated W. W. Swinden, general superintendent of sleeping, dining and parlor car services on the National system. Sea foods from the Maritime provinces; meats, including the famous Ontario spring lamb; freshwater fish, including Lake Winnipeg goldeyes, and fruits from the Maritimes, Quebec and Ontario, and the famed Okanagan valley of British Columbia will all be featured in these plate service meals at appropriate seasons.

"Tourists from the United States when they board our trains at border points and visit the dining car will find fresh broiled lobsters, smelts, baby mackerel and other favored sea foods, along with potatoes from Prince Edward Island, apples from Nova Scotia and blueberries from the Maritime provinces, all with places of honor on the menu when these foods are at their best," said Mr. Swinden.

The famous European news agency, "Reuter", started business some 90 years ago with a pigeon post service.

Agricultural Notes

Many Items Of Interest To The Western Farmer

The average annual loss in the Prairie Provinces through cereal rust is estimated at $25,000,000.

Comparing Reward, Marquis, and Garnet wheats as to protein content, Reward stands highest, Marquis second, and Garnet third.—Dominion Division of Chemistry.

To produce an acre of turnips in the six Dominion Experimental Farms in Eastern Canada (1923-30) required 127.4 hours of manual labour and 7.6 hours of horse labour.

The total resources of spruce throughout Canada are estimated at 560,000,000 cords which, if turned into paper, would have a value of $98,000,000,000.

The application of toxic materials in the form of finely-divided powder was used by the Greeks and Romans who threw ashes, lime, and other materials on plants to protect them from the ravages of disease.

As a source of nitrogen in a fertilizer mixture for tobacco, soybean meal was found to be equal, if not superior, to cottonseed meal in a recent test at the Dominion Experimental Farm at Harrow, Ont.

As the result of a questionaire from represenative farmers in Eastern Canada it was found that the average annual cost of operating farm machinery was $2.85 per acre of cultivated land.

For more economical production of crops in Eastern Canada, large sized farms, or a greater area of land under cultivation, would seem to be necessary.—Dominion Department of Agriculture bulletin on farm crop costs.

Authorities who have worked specially on the iodine content of waters in relation to the occurrence of goitre have stated that in districts in the Western United States, in which the iodine content of the water is below 0.5 parts per billion, goitre is likely to be quite prevalent.

The original Red Bobs selections of spring wheat, as developed by Seager Wheeler, Rosthern, Saskatchewan, and re-selected by him, yielded two outstanding forms to which he gave the names Early Triumph and Supreme. In general appearance these two forms are very much alike.

The value of information given by the Dominion Department of Agriculture respecting the composition and nutritive value of feeds is more and more being realized. When put into practice this information leads to a lowering in cost of production of all animal products on the farm, milk, beef, pork, eggs, etc.

One acre contains 160 square rods, 4,840 square yards, or 43,560 square feet. If the length and width of any field be known, the required width and length to enclose an acre may be found by dividing the known distance in feet into the number of square feet in an acre. The length of a side of a square acre is 208.71 feet.

In the Prairie provinces much interest has been shown in the use of triple superphosphate and ammonium phosphate as a means of increasing crop yields. As yet, the data obtained in this work are insufficient to make any definite pronouncement, but it would appear that under favourable conditions nitrogenous and phosphatic fertilizers, more particularly the latter, may be used to advantage to increase the yields of grain in certain sections of the Prairie provinces.—Dominion Division of Chemistry.

Power From The Clouds

Hope To Obtain Electrical Energy From Lightning

Studies of the various phases of lightning and thunderbolts have been undertaken by Dr. B. F. J. Schonland, director of research for the Institute of Electrical Engineers, at Johannesburg, South Africa, with the hope that knowledge of the mechanism and nature of thunderbolts may enable man to utilize at least part of the tremendous electrical energy being constantly built up in the clouds and discharged to the earth.

A bee has been found to travel 43,776 miles in gathering one pound of honey.

Because it LASTS and LASTS and LASTS

OCCASIONAL WIFE

By

EDNA ROBB WEBSTER

Author of "Joretta", "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, when the rest of the members of the party go a a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earrings to help him along, but Peter refuses and they quarrel. After Camilla has gone from the studio, Avis Werth calls and persuades Peter to accept a loan of $1,000. Peter and Camilla are reconciled. Avis invites them to a party, at which she introduces Peter to well-known artists and public men.

(Now Go On With The Story)

CHAPTER XLVI.

Avis was in her element, the figure of attention in the small room filled with guests, eager to see Peter's entry for the exhibit. Peter stood beside her, handsome and debonair, happy that his work was finished and well done. Camilla was a spectator; in fact, she stood the farthest from the centre of interest, which was the veiled statue.

Avis spoke brilliantly, impressively; of her pride in Peter and his work, her hopes for his success, and vouchsafed for the good wishes of these friends of his who were honored to be present at the christening of his first great work.

Camilla's eyes traveled from her illumined face to the modeled group in the window alcove which had been Peter's first gift to her. Nothing he ever might produce could be more precious to her, and she doubted if anything could be much better. She actually believed that it was a better piece of work than the new "Inspiration," but conceded that the latter would probably qualify better as an exhibit entry. Peter had caught the spirit of the thing so admirably in that group, perhaps because it had been inspired by his new love for her and her staunch defense of his ancestry.

Avis concluded, "And it has been my great privilege and honor to give the name to the marvelous piece of art, which I have called 'Inspiration'." With a dramatic gesture she drew the veil from the figure and stood aside. Followed exclamations and compliments, Peter surrounded by the ebullient guests. Even the title was praised, pronounced perfect by flattering critics who gave little thought either to its significance or originality.

Avis sought and drew approbation like a magnet. It might not be sincere, but it served her purpose of the moment. Platitudes and trite phrases pattered about like hailstones and melted as inconsequentially. No one cared particularly about the merits of the sculptured figure, the pertinence of its title or the success of its creator. They were much more intent upon the hilarity which this occasion afforded them and the liquid refreshments which awaited them across the hall.

There was no time lost when they arrived here. Cocktails were passed immediately. Toasts were drunk, to the sculptor and to his work, to his success, to the one who had named the statue, to every possible subject—except Camilla. She was as useless as the veil which had shrouded the figure and was cast aside. She had inspired Peter, loved him, urged him to do the work, shielded him from obligations to her, humored his moods, forgiven him harsh and unjust words, sacrificed her personal happiness—and this was her reward.

Avis had intruded where she had no right, had insidiously commanded Peter's favor, usurped the privileges of another—and now shared Peter's momentary triumph as if she belonged to him.

It was Avis with whom he danced first, out of duty and gratitude; Avis who clung to his arm possessively and discovered any number of reasons to prevent his dancing with the other girls.

Though the rooms were comparatively small, Camilla was not near enough even to speak to him for an hour. She observed, wistfully, that his obsequious attentions to Avis did not appear to be at all reluctant. But she chided herself for her jealousy and tried to be gay.

When she finally did speak to Peter, desirous of one dance with him, he exclaimed, "It's too warm and crowded in here to dance. I've had enough of it. Gosh! I'm tired, anyway Here, Terry, take my wife, she wants to dance."

Terry was most obliging, while he made a few calculations of his own. Give the Ansons another year, and he would have another chance to win Camilla. But he said casually, "Peter looks done out. Guess he's been close at the grind all summer. It would have been more considerate of Avis to let him rest instead of giving this party. I should think it would have been better to wait to celebrate when the prize is awarded."

"But Peter may not win, then she couldn't give a party," Camilla defended her, for effect.

"That's right. Well, any party that gives me a chance to dance with you is okay, anyway. And do we miss you in our crowd! I'm not the only one who does, but I'm at the top of the list."

She laughed with indifference. "It is nice to be missed, but I am much happier now than I ever was, much as I like you all."

"Sure about that?" quizzically.

"Why, of course."

"And what will you do if Peter goes to Paris?"

"I'll wait to decide that when he goes," she laughed, "but I shan't have much time for gayety, I'm sure. I shall be very busy with my own work.

Just then Peter danced by with Avis, ostensibly enjoying himself. His head was inclined close to Avis' lips, intent upon what she was saying. He laughed, and their eyes met with an intimate air of understanding.

Camilla's heart stood still for a moment, and she felt like a wax figure moving about the room propelled by Terry's arm. He said something that she did not hear.

"I'm sorry," she apologized.

"I said, how is your work going?"

"Oh, splendidly."

"What do you do, anyway? I know you work for an advertising agency, but what do you do?"

"Just ad copy," evasively.

"Like it?"

"Immensely."

She was beside Peter again for a moment, but his eyes watched someone across the room. It was Avis who were cloth of silver molded to her figure as if she were a model cast in metal. Camilla ventured, "Avis looks lovely, doesn't she?"

He nodded quickly then brought his gaze back to her as if he were seeing her for the first time. "Why didn't you get a new dress for the party?" His tone criticized her black lace of last season.

"Why, I—didn't think it was so important. Besides, I haven't had much time for shopping."

"So you don't think the celebration of the finish of my first real work is very important?" he repeated, coolly.

"Oh, of course—I didn't mean it that way, dear. It's the party that isn't important," she smiled into his eyes, but there was no response. He seemed to be pre-occupied, lighting a cigarette.

Avis hurried up to him. "Give it to me," she requested. "I haven't time to light one. And come in the other room with me a minute. I have something to tell you that I just heard from Uncle John about the exhibit. Excuse us please," she smiled, with saccharin sweetness, at Camilla, and took his arm possessively, as he transferred the lighted cigarette from his lips to her heavily rouged ones.

The room blurred for Camilla, whirled dizzily. It must be the heat, or the portion of a coctail she had drunk—she must get outside. Without notice, she slipped along the wall to the door and into the hall outside, glanced about her and quietly opened the door into Peter's studio.

She would not be missed if she went in here for a while, where it was cool and dark and—she might cry a little to dissolve that horrible aching lump in her throat which threatened to choke her. She could not imagine what was the matter with Peter tonight. He was not himself and she wouldn't let herself be angry with him. She only wanted to be alone for a while to adjust herself and somehow let the evening pass. After that, everything would be all right again.

Peter was only tired and anxious and baffled with an exaggerated sense of obligation to Avis, who had made him believe she had done a great deal for him. He would see everything straight again after this excitement was over and they had had a little time together.

She closed the door and crossed the room to the armchair beside the window, where the immigrant group made a sharp silhouette against the dim light outside. She would not turn on the lights and attract attention from across the hall. With her aching head pressed on her hand, she began to plan for the week ahead all the time she could give to Peter. She would take care of him and let him rest and relax.

There were sounds at the door and it opened presently. Camilla looked us quickly. Avis was whispering to Peter, who stood behind her in the square of light from the hall. Camilla rose from her chair instantly, not trying to overhear what Avis was saying, and just as Peter reached over and turned on the lamp near the door.

As the light illumined the room, each of them exclaimed incoherently when they saw Camilla—and instantly, all three cried out at what the lamplight revealed to them. The bronzed figure, "Inspiration," lay in shattered fragments on the floor around the pedestal where they had left it standing so proudly an hour before.

MAKE YOUR FALSE TEETH HOLD FAST

Eat, talk, sing and shout and never fear embarrassment. Your false teeth stick all day long when you sprinkle on Dr. Wernet's Powder—they fit snugly—comfortably—they can't slip. Prescribed by world's leading dentists—they know it's the best! Costs but little—any drugstore.

Canadian Stamps Auctioned

Exceedingly Rare Specimens Sold For Seven Thousand Dollars

Seven thousand dollars for two little pieces of gummed paper, together less than two inches square. That is what happened at a saleroom in Bond St. W., London, recently.

True, the little pieces of paper are dignified by the name of stamps. They were two of the 1851 issue of Canada, valued 24 cents ,and bearing a charming portrait of Queen Victoria in her early womanhood.

These stamps, described as "superb in every respect and exceedingly rare," were items in the collection of the late Arthur Hind, of the United States.

The renown of the collection brought buyers and commissions from all parts of the world, and in the saleroom were people whose names are familiar wherever stamp collecting is discussed—Messrs. Stanley Gibbons, F. B. Smith, T. Allen, R. Roberts, L. Aarons, H. Nissen, L. Gill, Josling.

Experienced men of the world though they are, and doubtless acting on commission for clients, they were as excited as a pack of schoolboys about the treasures displayed before their eyes.

Bidding was lively. That for a block of four Newfoundland stamps started at $1,250, and rose to double that sum.

Then there was what was described as "an immaculate pair" of cold violet Nova Scotia stamps, used on an envelope to India with a yellow green. This fetched $2,300, but a prominent expert said afterwards that many collectors would not consider themselves robbed if they were asked $2,500 for this lot, because "there is hardly any doubt that another such pair does not exist in the world."

THE RHYMING OPTIMIST

By Aline Michaelis

CHIMING CLOCK

Have you lived where a clock strikes the hours
So long you no more heard its chime?
Have you listened to melody marking
The dispassionate passage of time
Till it creeps, all unheard, past your hearing,
No more noted than heart-beat or breath,
Yet its music is part of your living,
Its silence is part of your death?

For, though its notes dwindle, unheeded,
Yet if one day the chiming should cease,
A sudden unrest would besiege you,
And would subtly shatter your peace.
Have you lived where a clock chimes the hours
So long you no more heard it strike?
Then you know—you can sense, although dimly,
What my living with you has been like!

Moving Reindeer By Motor

Seven Being Taken From Sweden To French Pyrenees

Seven reindeer are being transferred from Sweden to the French Pyrenees, and it is expected that they will not reach their destination until summer. They are in charge of two Swedes and a Lapp, who will care for them after their arrival until the experiment of transplanting is completed. The journey is being made in a motor truck, and long stops are made on the way to accustom the animals to the changes of climate. How they will thrive in the land of starlit summer nights instead of the silvery twilight of Sweden, is a conjecture. Reindeer once lived in the French Pyrenees, and the experiment is to get them to settle there and multiply. A similar trial was made some years ago, but the long trip was made by boat and train, and the animals died.

"PERSONS NOT FAT LIVE LONGEST"

Eminent Physician Declares

In a recent lecture before the American Academy of Medicine, a prominent physician stated that persons who aren't fat live the longest.

Common sense confirms this. Insurance companies often reject overweight folks, or charge higher premiums on account of the risk. Fat crowds and weakens body organs—it slows you down and puts unnecessary strain on the heart. A host of ailments (even rheumatism, acidity, shortness of breath and lassitude) are often associated with fat.

So get rid of this dangerous, unhealthy fat. There's no reason why you shouldn't, when science has given you this safe, effective treatment—a half teaspoonful of Kruschen Salts in a glass of hot water first thing every morning.

This healthful "little daily dose" of Kruschen keeps the system free from harmful toxins, it helps to re-establish normal and proper body functioning—it keeps you feeling fine and fit all the time. Energetic activity takes the place of sluggish indolence all while you lose excess fat gradually and without discomfort.

Little Helps For This Week

"Let Him do to me as seemeth good unto Him." 2 Samuel 15:26.

To have each day the thing I wish,
Lord that seems best to me;
But not to have the thing I wish,
Lord, that seems best to Thee.
Most truly then Thy will is done
When mine O Lord is crossed,
'Tis good to see my plans o'erthrown,
My ways in Thine all lost.
—H. Bonar.

O Lord Thou knowest what is best for us; let this or that be done as Thou shalt please. Give what Thou wilt, and how much Thou wilt, and when Thou wilt. Deal with me as Thou thinkest good. Set me where Thou wilt, and deal with me in all things as Thou wilt. Behold I am Thy servant, prepared for all things; for I desire not to live unto myself but unto Thee, and O that I could do it worthily and perfectly.—Kempis.

Using Small Potatoes

English Firm Proposes To Make Substitute For Flour

A company is being formed at Ely, England, for the manufacture of farina and dextrine from potatoes. In the past one of the problems of the potato grower has been to find a market for his undersized vegetables, or "small." This new factory proposes to utilize them. They will screen the potatoes over a 1 inch riddle.

The new industry will cosume 75,000 tons of this year's crop, and after two years will materially increase that figure. Farina, during the war, was used as a substitute for flour. It is still extensively used in the manufacture of foodstuffs.

Too Much Uric Acid

is a very common cause of Rheumatism, Sciatica, Lumbago. Deranged kidneys allow an excessive amount of uric acid to accumulate. Take Gin Pills to give relief while they are assisting your kidneys to function normally.

LETTERS TO THE EDITOR

British Israel Work

Editor Review:

Sir,—Notwithstanding your well known prejudice against th.ngs sectarian, in view of the unusual interest that is being shown in western Canada, particularly, in what is commenly known as British Israel truth, and with the Dominion commissioner, Rev. E, J. Springett of Toronto, due to speak here Wednesday evening, it would be much appreciated if you could find space in your well read weekly for the following from the pen of one "Barak," in the Calgary Daily Herald of February 3rd. ADHERENT.

"Rev. E. J. Sprihget', prominent Anglican divine, of Toronto, was a visitor to Calgary last week-end, addressing large audiences in both Al Ashar Temple and the Pro-Cathedral church. Mr. Springett is a notable figure in the councils of the British Israel Association of Canada and his Calgary visit did much to arouse general interest in the cause which the association represents.

"One cannot help bu' be interested in the faith which the British-Israelites show in the cause. Whether one understands that cause or not association with its advocates immediately impresses one with the fact that once that cause is espoused it makes an enthusiast of its espouser. The live interest shown by British-Israelites in their faith at all times and the zeal with which they pursue its furtherance is as refreshing and as inspiring as is the atmosphere of a congregation in the midst of a great spiritual revival.

"It is not difficult to understand why this is so. Based as it is on prephecy, fulfilled, in process of fulfilment and yet to be fulfilled, theirs is a faith which may be said to be a constant adventure to all its followers. To them there is always a message of some sort in world events and in the signs of the times. Whether their interpretations of scripture are right or wrong, there is to them a fascination in the study they are pursuing and a tremendous satisfaction when the proofs appear clearly. It is not indicated that British Israelite fa th displaces one's religious beliefs from the viewpoint of the fundamentals of Christianity; rather acceptance of this faith is calculated to vitilize one's religion giving it a reality hitherto unrecognized.

"Listening to the Toronto man on Sunday afternoon I was quite as much interested in him and his personality as I was in his message, which was intensely absorbing. Mr. Springett is a big man, physically as well as intellectually. His characteristically British head and neck, solidly set upon a broad-shouldered body, give one a sense of power in reserve. His intellectual face speaks as eloquently as does his full-toned musical voice. In all one is bound to agree that this man is all alive and that his aliveness is a force to be reckoned with in whatever direction his activating brain directs.

"And what a difference there is between speakers. The message Mr. Springett delivered to his audience on Sunday afternoon coming word for word from some other man might easily have meant little or nothing to his hearers As he spoke it no matter how disinclined, naturally, one might be to accept British-Israelitish teaching, the effect was mu.h the same as that of Pau 's defence before Agrippa, which led that Roman dignatory to exclaim: "Almost thou persuadest me to be a Christian."

"Already I have said that Mr. Springett gives one the impression that he is all alive. The way he took upon himself the duties of a chorus leader at the Al Azhar meeting proved that. Let me add to "all alive" the further suggestion that he is a man unafraid, and I think we will have arrived at the secret of his effectiveness as a speaker and leader of his fellow men."

Erickson

Mrs. W. F. Smith of Kimberley was a Sunday visitor with Mrs. S. Fraser.

Miss Pearl Walkey of Cranbrook is a visitor here at present, a guest of Mrs. F. Putnam.

The residence of J. G. Conneli is greatly improved in appearance with a new coat of paint.

Bert Young is combining business with pleasure on a visit at Calgary, Alberta, this week.

Miss Madeline Putnam returned on Friday from Cranbrook, where she has been on a visit with friends.

R. M. Telford was a Saturday evening visitor at Kimberley at a special Knights of Pythias Lodge session in that town.

Mr. and Mrs H. A. McKowan and danghter, Eleanor, of Cranbrook, were Sunday visitors with Mrs. McKowan's mother, Mrs. G. Cartwright.

Mrs. Lewis Leveque has returned from M dicine Hat, Alberta, to look after operations at the ranch, and is accompanied by her daughter, Mrs. W. L Bell and young daughter, Lois Bell.

George Connell was at Yahk, Moyie and Lumberton on Sunday, where he was supplying the United Church pulpit in the absence of Pastor Addyman, who is away on a holiday visit in England

J. G. Connell left at the end of the week on a business visit at Lethbridge and other Alberta points, returning on Wednesday. He came back in a new 1934 Dodge and while in Lethbridge secured the agency for the Dodge in the Creston district. The new car is attract i g a whole lot of attention at the Connell Motors.

Kitchener

Mrs. Art Bowness left on Friday for Cranbrook.

Mrs L. Nowlin and son, Alton, were Creston visitors on Monday.

Mrs. Gordon McPhail and daugnter, Maxine, left last week for their home at Blewett.

Mrs. Ed. Barr of Kimberley, who has been visiting her sister, Mrs. B. Johnson, returned home last week

E. Driffil, C.P.R. tie inspector, who is working in the Windermere district, spent the weekend at his home here

Carl Anderson left on Sunday for New Lake, where he has secured employment with the Sash & Door Company.

Frank Putnam, M.P.P., F. V. Staples, W. L Bell and R. J Forbes of Creston were here on Saturday making an inspection of developments at the Sullivan mine.

Kitchener baseball team played Canyon at Canyon on Sunday, and dropped a close contest by a 9-8 margin. Kitchener battery was Bohan, Anderson, Simpson and Klein. Canyon—Niblow and Browell

The Pine Katz softball team played the Wildcats at Creston on Thursday evening and were trimmed 18-17, after a regulation nine innings play. The Kitchener battery was Misses White and McGonegal. Wildcats—M. Torchia, Dot Wightman and Mrs. Levirs. A return game will be played here tonight at 6.30, after which a dance will be held in Hunt's hall, given by the Pine Katz

Miss Clara Hunt and Mrs. A. Lepage were joint hostesses at a miscellaneous shower at the home of Mrs. B. Johnson, Friday, honoring Miss Olga Nelson, whose marriage takes place shortly. The bride-elect was remembered with very many useful gifts. Bridge was played with the top score made by Miss May Parson; second prize going to Miss Jessie White, and consolation to the guest of the evening. A delightful lunch was served after cards. The invited guests were Mesdames Johnson, N. P. Mol nder, Driffil, Hunt, A. Simpson, Senosoal, Nowlin, Foisy, Blair, Renzie, Nelson, McPhail, C. Simpson, Bowness, Abar, Howard, F. Molander, Bohan, and Misses White, McGonegal, Edith Nelson and Parsons.

At Bonners Ferry the game association is paying a bouuty for killing ground squirrels, and up to June 1st more than 3000 of them have been disposed of.

Local and Personal

A full stock of Goodrich tires at Connell, Motors, Erickson.

FOR SALE—Good quality lawn tennis net, absolutely new, $10. Mrs. A. McKelvey, Creston.

COW FOR SALE—Jersey-Holstein cow, due to freshen June 20th, third calf. A. W. Sinclair, Camp Lister.

LAND FOR SALE—20 acres improved land, all under irrigation, crop included if sold before harvest. E. Nouguier, Canyon.

F. M. Smith arrived from Cranbrook on Sunday and has taken over the work as assistant C.P.R. agent for the fruit season rush.

Mrs. W. M. Archibald returned on Saturday from a short visit with her daughter, Mrs. J. F. Warren, at Calgary, Alberta.

HOUSE FOR RENT—Five-room house with bathroom and garage, centrally located. For particulars apply Mrs. Fransen, Creston.

FOR SALE—Refrigerator, in A1 condition, size 20 x 31 x 40; for quick sale, $10 cash. H. A. Powell, secretary Creston Valley Hospital, Creston.

Vital statistics for May for Creston Valley show seven births, one death and one marriage license. Of the new citizens recorded four were girls.

The swimming pool at Exhibition park was open for the season on Sunday, but due the rather chilly weather at the weekend was not largely patronized.

J, A. Avery of the Farmers' Institute store staff is taking his usual two weeks' vacation this month, on a visit with friends at Edmonton and other Alberta points..

The Grand was filled to capacity, and more than a few were unable to gain admittance for the Garbo film, "Queen Christina," which was shown Wednesday evening.

The Shell Oil softball club headed by the local manager, W. R. Long took a 24-3 beating from the Wynndel team at Exhibition park on Monday evening. Cam MacDonald umpired.

H. Ross, general manager for General Motors, and W. Cummings, service manager, both of Calgary, Alberta, were business visitors here last week with the local dealer, Creston Motors.

Dr. A. E. SHORE
of Drs. GUNN, HACKNEY & SHORE, Calgary
will be at
St. Eugene Hospital, Cranbrook
WEDNESDAY, JUNE 13th.

Anyone wishing to consult him with regard to EYE, EAR, NOSE or THROAT, or to be fitted with glasses, please call at the Hospital on that date.

According to the official records the 87 in the shade encountered on the 29th, is the hottest single May day ever encountered in the valley—for ten years at any rate.

The biggest score ever rolled up at a local baseball game was amassed by Bonners Ferry in the game with Creston Athletics at Exhibition Park, Sunday afternoon, Creston losing 29 to 9.

Rev. A. O. and Mrs. Thomson, left on Saturday for Toronto, where the former is one of the Kootenay presbyterv representat ves at the 1934 session of the General Assembly of the Presbyterian Church in Canada.

While last month was just about the hottest May ever encountered in the valley, it begins to look as if June will be about the coolest. Since the end of May the weather has been cloudy, showery and decidedly cool.

The financial intake at Creston office of the provincial police was well up to standard, accounting for an ingathering of about $1120, of which the Motor Vehicle Act accounted for $938, and police court fines and costs $96.50.

The end of the month was quite a busy one for R. H. Hassard, deputy mining recorder, who reports issuing 35 miner,s license for 1934. These licences all expire at the end of May. Last year a total of 49 licenses were issued at Creston.

Honors are now even in softball circles as between Creston and Kitchener. On May 24th Kitchener trimmed the Wildcats at Yahk by a one point margin. On Thursday night at Creston the Wildcats reversed matters by nosing out a 19 18 victory.

West Kootenay Power & Light Company, Limited, have this week commenced the work of installing new street lamps The old wooden fixture is being replaced by a gracefully curved metal arm and spacious shade, which should greatly improve the light effect.

F. Marsack of Salmon Arm, who has charge of potato bug control work in B.C. interior, spent a few days here at the ffrst of the week on official business. In company with C. B. Twigg he visited all points in the valley and arranged for the distribution of bug poison.

The official weather records for May show Tuesday, 29th, the hottest day of the month, with the mercury getting up to 87. The coolest morning was Monday 21st, when as low as 28 was reached. The rainfall for the montu was less than an inch. Showers were encountered on 12 different days.

Dr. A. S. Lamb of Vancouver, travelling provincial medical health officer and chest specialist was a Monday-Wednesday visitor at Creston, making headquarters at the hospital. He was very busy during his stay making ches examinations. He was accompanied by a trained nurse, who assisted with the work.

After being closed for at least a year the former Premier garage on the east side of town was re-opened this week and will be known as the Hi-Way Garage. C R. Reynolds of Nelson, a mechanic with many years experience is in charge, and is prepared to give you prompt, first-class garage service at reasonable cost.

According to a Kaslo despatch to the Nelson News of Monday, Frank Putnam and Frank Staples, both of Creston, with other associates, have formed a syndicate and plan to spend $25,000 this summer on the old Hillside mine, Jackson Basin. A crew of men will be put to work shortly. Messrs. Putnam and Staples were in Kaslo recently on their way to look over the property.

The local British Israel Association have an outstanding speaker coming on Wednesday evening, June 13th, in Rev. E. J. Springett of Toronto, who is at the head of this work in Canada. He speaks at the Grand theatre at 8 p m. The vi itor is possessed of unusual platform ability, and his talk on the identity of the Anglo-Saxon race will be of interest to all. Collection.

Mrs. Jas. Cherrington and Miss Kate Payne were joint hostesses at the former's home on Wednesday aftetnoon at a linen shower in honor of Miss Helen Hopwood, whose marriage takes place at Vancouver later in the month. The bride-elect was the recipient of a great variety of linen articles which she appropriately acknowledged. Informal sociability prevailed throughout the afternoon and lunch was seved.

Music lovers, and those who believe in encouraging young artists, should be out in numbers on Friday night, 15th, at Trinity Church hall when the pupils of Mrs. J. E. Johnston appear in their annual recital. Misses Goldie Walker, Phyllis Barnhardt and Edith Johnston, who made such a good showing at the festival at Nelson, will appear, and along with the music will be general entertainment The admission is 35 cents.

There was a small attendance at the monthly meeting of the Canadian Legion on Tuesday. During the session Presiden John Bird presented Col. Mallandaine with th gold badge of life membership and expressed the post's high appreciation of the colonel's long service and loyalty to the Legion. Col. Mallandaine, who is the 124th life member in the Dominion, leaves at the end of the week for Portland, Oregon, where he will represent East Kootenay zone at the provincial convention.

The First Presbyterian Church manse, Spokane, was the scene of a very quite wedding on Saturday last, when Rev. A. Caldwell officited at the marriage of Miss Grace Eleanor, eldest daughter of Mr. and Mrs. H W. Wightman of Creston to Gilbert H., eldest son of Mr. and Mrs. S. H. McGlocklin, north bench, Bonners Ferry, Idaho. The attendants were Mr. and Mrs. Leonard Alberts, schoolmates of the groom. After the ceremony a reception was held at the Alberts home. Fairview Avenue, w ich was attended by a company of relatives and fri nds.

About a dozen members of Wild Rose lodge were at Kimberley on Saturday evening for a special meeting of East Kootenay Knights of Pythias on the occasion of a visit from R. A. Clark, assistant supreme keeper of the supreme K.P lodge. A dinner preceded the lodge session at which a most 200 sat oround the festive board. Amongst those making the trip were Fred Hagen, chancellor commander of Wild Rose Lodge, who was accompanied by P. R. Truscott, R. M. Telford, Dr. Henderson, Art Reed, Joe. Ro ano, John Wigen, P. Lachat and others.

A June Wedding

Two well known members of Creston's younger set were united in marriage on Tuesday afternoon at the home of Mr. and Mrs. Wm. J. Avery, when their eldest daughter, Miss Elizabeth Jean, became the bride of Harry N. Smith, only son of Mr. and Mrs. Fred Smith, with Rev Andrew Walker officiating.

The home was prettily decorated for the occasion, and the ceremony was performed under a floral bell. Mrs. Walker played the wedding march and the bride was given in marriage by her father. The bride wore a long gown of Nile green satin with yoke of cream silk lace and carried a boquet of pink roses The bridesmaid was her sister, Miss Edith Avery, who wore biege flat crepe and carried a boquet of dark red roses. Herb Lewis, brother-in-law of the groom, was best man.

After the ceremony and the round of congratulations the guests, which included only the relatives and close friends of the contracting parties, sat down to a wedding dinner, and later Mr. and Mrs. Smith left by auto on a wedding trip to points south. On their return they will take up residence in Creston and have the best wishes of a host of friends for a successful and happy future

AT THE HOSPITAL

Mrs. Ben Long continues to show improvement. G. Pagan was able to leave hospital at the end of the week. Baby K. Potyok is improving. Ira Rhodes of Wynndel was discharged from hospital, condition improved. F. Rosen of Canyon is still undergoing treatment. Mrs. Art Reed and baby left for home on June 6th Beryl Tompkins of Erickson. Mrs. Clarke of Canyon, and Mrs. Vic Grundy of Canyon, are improving. Mrs. Joe Romano left hospital on Saturday. Roy Clarkson of Arrow Creek and June Bedry of Canyon were patients following tonsils removal. Mrs. R. Milloy of Boswell is at present a patient. Mrs. Hislop of Creston and Mrs. Wasilansky of Wynndel are undergoing treatment. R. Walmsley of Creston was a patient last week, leaving on Saturday. Pedro Chorbo of Sirdar and T. Lacey of Creston are improving. Mrs. L. T. Leveque of Erickson is undergoing treatment.

"Fresh from the Gardens"

That "Bought And Paid For" Idea

There is a curious persistence in the idea current in certain parts of Eastern Canada, that the older provinces of Confederation have proprietory interests in the prairie provinces by "rights of purchase".

Just recently, a storm which ranged West against East, broke in the House of Commons at Ottawa, when relief and other expenditures required by Western Canada were under consideration. During the discussion, the "bought and paid for" mentality was prominently in evidence, according to newspaper despatches. It appears inevitable that, when any expenditure which may be construed as exclusively Western, is mooted in the federal parliament, some member from one of the older provinces, impelled by this idea, seems bound to object on the ground that the prairie provinces are not entitled to further consideration—and terms such as "blood-suckers" are applied, indiscriminately and with reckless abandon, to governments and people of the West.

Forgotten in the heat of debate is the amazing part which the West has played in the material advancement of the Dominion. Forgotten, for the time being, is the gigantic contribution which the wheat-growing prairies have made to the wealth of Canada. Forgotten are the tremendous expenditures made, by the Dominion as a whole, for works, projects and purposes which may be construed as exclusively Eastern. Forgotten is the use made of the resources of the West in the building of great transportation systems of advantage to the whole of Canada. Forgotten is the influence of prairie purchasing power upon the industrial development of the East. Forgotten, too, is the fact that the West's present needs are due to the dire extremity of many of its people—a condition they certainly did not seek and did nothing to create. The "right of purchase" idea reigns paramount over all others when tempers are frayed and local zeal is in the ascendancy. In one breath it is admitted that the prairie section has contributed more to the wealth of Canada in a specified period than any other component part of the Dominion. In the next, the prairies are branded as "blood-suckers", draining, as it were, the coffers of Canada which, by implication, apparently are filled solely by the contributions made by the older, Eastern provinces.

The idea, of course, has its roots in the historical charter granted by Charles II. of England, in 1670, to the Hudson's Bay Company, which conferred upon that company "rights in the territory tributary to the rivers draining into the Hudson Bay"—including property rights and rights of government. These rights the company exercised in the territory known as Rupert's Land for some two hundred years.

When, however, Confederation became an accomplished fact in 1867, the Canadian parliament, pursuant to the great vision of a united Canada stretching from ocean to ocean, initiated negotiations with the Imperial Government at London with a view to acquiring possession of the territory held under this charter by the Hudson's Bay Company. The British Government agreed to the request on condition that the arrangement entered into would not involve expenditure by the Imperial Treasury, and on the further condition that there should be no surrender of territory until the terms had been agreed upon.

Negotiations with the Company proceeded for two years, during which time it held out for a cash payment of £300,000 (approximately $1,500,000), as one of the terms under which it was prepared to relinquish its rights in the territory. The Canadian Government, then representing the original provinces of Confederation, borrowed the required sum on bond issues which matured in 1904. The money being paid, the Company surrendered its rights under the charter, and Canada stretched one and indivisible from the Atlantic littoral to the Pacific seaboard. That is the story, that the genesis of this "bought and paid for" idea which crops up, ever and anon, during debate in the federal parliament.

Obviously, $1,500,000 is a ridiculously small sum against which to assess a claim of proprietory rights of purchase in the entire prairie section of Canada. It is ridiculously small not only in proportion to the wealth produced normally each year in the far-flung wheat field of the West. It is ridiculously small not only in proportion to the contribution made by the "purchased" territories to the aggregate wealth of the Dominion. It is ridiculously small in comparison with the annual contributions made by the Western provinces to the revenues of Canada. That the idea should survive at all in the face of recent history is incomprehensible to Western minds. That it should be used to justify opposition to present claims of certain sections of the prairies for aid in their extremity, demonstrates not only the mental poverty of the objector, but a naive ignorance of obvious facts. Recent economic experience has proved that, instead of the East holding the West in fee, the reverse is closer to the truth.

Invention For Radio Fans

Dr. Nevil M. Hopkins, of New York University, is the inventor of a new electrical device which he claims will revolutionize the radio broadcasting industry. He calls it the "televotes" and by use of this instrument, a listener-in on a broadcast can, by pressing a button, immediatly transmit to the station his reaction to the program being presented.

Has Regular Zoo

Pity the prowler who breaks into the room of Kenneth Johnson, University of California student. Johnson, who aspires to be a zoo keeper, keeps eight snakes, a black widow spider, and a Gila monster in his bedroom. The pets have the run of the bedroom. Johnson studies the best way to make them happy, and improve their intelligence by running them through mazes.

Household Drudgery

The Bane of a Woman's Life

Nature intended women to be strong and healthy instead of weak and sickly, but how can a woman have good health when she has to go through the household drudgery without any relaxation. Is it any wonder she becomes nervous and irritable, has hot flushes, faint and dizzy spells, shortness of breath, sinking and smothering sensations, and can't sleep at night.

Women who are weak and run down will find in Milburn's H. & N. Pills a remedy to strengthen the system and bring back the much desired health.

Fulfilling Father's Hopes

Captain Scott's Son Makes Study Of Natural History

Twenty-two years ago Captain Scott, one of the greatest English explorers of all time, lay dying in a tent in the Antarctic.

The last letter he wrote was to his wife. He spoke of their infant son Peter. "Make the boy interested in natural history if you can," he said. "It is far better than games."

Peter Scott is 24 now. He has fulfilled his father's hopes. Recently he opened in Bond street, London, his second exhibition of paintings of bird life.

The grey light of dawn is there; so are the mudflats, the sinuous creeks, the ebb of the tide, and eerie, plaintive noises. The curlew calls; you can hear the piping of awakening redshank and stint. Grey geese rise V-shaped into the sky and flight shoreward to the fresh marshes of the mainland.

It is a world of thrills to the mere wildfowler. It is a world of exquisite joy to the wildfowler-naturalist, which is what Peter Scott has become.

He shoots little now, as he said recently, but night and day, the winter through, lies in a scooped-out hole in the Wash, or huddles in a pit in the salt marshes, waiting to catch the fleeting visions he has captured in paint.

The Grasshopper Campaigns

Provincial And Federal Organizations To Deal With Menace

The Canadian Insect Pest Review for May of the Dominion Entomological Branch in the 1933 summary of insect outbreaks of that year states with reference to grasshoppers that control campaigns involving the use of poisoned baits were actively carried out in most areas, and, despite many difficulties, resulted in the destruction of vast numbers of grasshoppers and the material saving of crops. In July and August, extensive dispersal flights of grasshoppers occurred in many parts of the infested region. As a result, practically all of the open prairie land of the three Prairie provinces is now involved, and the areas of severe infestation have been considerably extended, except in Eastern Manitoba where there was an encouraging reduction. It is expected that during 1934 the outbreak will be even more intense and destructive than that of 1933, and consequently Provincial and Dominion authorities are organizing a comprehensive campaign to deal with it.

Dredging For Gold

Work To Be Started On Jugoslav-Rumanian Border

Modern miners are to attempt to dredge the River Pek on the Jugoslav-Rumanian border, on the bed of which gold has been collecting for more than 2,000 years. Up this river sailed Jason and his Argonauts from the Black Sea, and the Golden Fleece of their quest is no legend today, for the peasants of the Pek River Valley steep sheepskins in the water and after a few weeks pull out golden fleeces, the allevial gold brought down from the mountains by the water having settled in the wool. It was here that Alexander found all the gold for his expedition in 328 B.C. Firms of many nations have made bids to supply the dredging machinery and the operations are expected to be extensive.

Dwarfs Holding Congress

Likely To Take Place In Budapest Next Year

Fired by the Nazi doctrine of racial purity, dwarfs of Hungary have formed a National Union of Hungarian Dwarfs and have invited all the dwarfs of the world to a Dwarf Congress which is to be held, probably in Budapest, next year. Their creed is to "preserve the purity of the dwarf race," to forbid marriage with normally-sized people, and to demand lower fares and smaller houses for all tiny folk. Their leader, their Hitler, is said to be 30 inches tall.

The world is wide, but there are lots of narrow people in it.

W. N. U. 2040

Vaccine For Tuberculosis

New Preparation Being Tested On Cattle In Ireland

Experiments to find a cure for tuberculosis in cattle continue in various parts of the world. The Spahlinger vaccine, of which much was heard two or three years ago, is still undergoing tests, the most recent of which have been made in Northern Ireland under official auspices. The calves vaccinated with the Spahlinger preparation have survived the injection of heavy doses of tubercle infection and are thriving, while untreated calves have succumbed.

As the United Kingdom is now embarking on a national campaign to clean up her dairy herds and to eradicate tuberculosis, the final results of the Ulster trial seem likely to offer an economical and practicable means of immunising dairy cattle against tuberculosis and gradually ridding the country of a scourge which is costly to public health and farmers.

Islands in a river, unless caused by rock outcrops, are continually travelling downstream as the current cuts at the upstream end of the island and deposits at the other end.

A Closely Guarded Secret

Germany is closely guarding its experiments with radio-controlled airplanes. It is reported that successful flights were made by a machine entirely without a crew, direction being entirely by radio. The tests were made under greatest secrecy, and officials refuse to divulge any information.

Good Friend To Horses

When Policeman M. Elwood prosecuted John Hill, a grocer, for cruelty to a pony it made the 1013th equine he had befriended in court. Elwood has been on the London force for 20 years. A lover of horses, he watches for cases of cruelty and brings the offenders before the law.

Ease Pain, Headache in Few Minutes

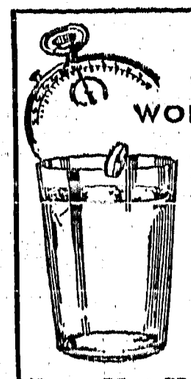
For Quick Relief Say ASPIRIN—*When You Buy*

Now comes *amazingly quick* relief from headaches, rheumatism, neuritis, neuralgia . . . the *fastest safe relief, it is said, yet discovered.*

Those results are due to a scientific discovery by which an Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly you swallow it. *And thus is ready to go to work almost instantly.*

When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN'S *quick relief*, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.



WHY ASPIRIN WORKS SO FAST

Drop an Aspirin Tablet in a glass of water. Note that BEFORE it touches bottom, it has started to disintegrate.

What it does in this glass it does in your stomach. Hence its fast action.

MADE IN CANADA

Does Not Harm the Heart

FRANCE OBJECTS TO RE-ARMING OF GERMANY

Geneva.—France has almost administered the finishing stroke to a dying world disarmament conference.

A vigorous British plea that the conference get down to brass tacks, or else quit making speeches and hindering other efforts at solving the troublesome arms question, ran smack into a French stone-wall.

In caustic phrase the veteran French parliamentarian, Louis Barthou, foreign secretary, made it plain France will not consent to any rearmament of Germany—regarded as the keystone of a disarmament agreement—on any conditions.

Opening predictions the conference had only a remote chance of salvation were heard.

Furthermore, an unpleasant reaction from Germany is inevitable. Delegates who are incontestably well-informed, predict it is now only a question of time before Germany openly announces her refusal to be bound any longer by the disarmament clauses of the treaty of Versailles.

The French contend Germany has been actually re-arming anyway, in defiance of the treaty. Barthou, who said Sir John Simon's speech reminded him of his own long-ago "ardent youth," and thereby aroused some laughter, declared Germany had publicly increased her military budget some weeks ago even while Britain and France were seriously discussing the question of guarantees, which might have solved the disarmament plan problem.

The outline of the French viewpoint was so uncompromising, coming on the heels of Sir John Simon's speech, that some journalists hastened to report it would strain relations between Britain and France.

While it was admittedly received with deep regret in British circles here, the Canadian Press was authoritatively informed suggestions would lead to a breach of the present good relations between Britain and France could be dismissed.

"There is no ground whatever for any such assumption," the authority said.

Barthou's speech was plainly interpreted as meaning that France now does not want any disarmament agreement. Under no circumstances will the French government ever make an agreement, whatever else it contains — security provisions or otherwise—that would permit immediate re-armament of Germany in any degree.

Sir John, speaking privately after the session, admitted the day's "developments" increased the difficulties of reaching any agreement.

The Frenchman seemed particularly aroused by Sir John's stand for conciliation with Germany as a necessary foundation for an arms pact—on the basis of the British plan, and Sir John's frank declarations that if the conference cannot see its way to achieving anything it had better shut up shop.

Referring to the British suggestion that a bridge should be found on the basis of the British plan between France and Germany, the Frenchman declared:

"We are perfectly willing to cross the British bridge, but first we want to make sure that the planks are sound. We will take care not to fall through hidden traps into the stream beneath."

Sir John earlier stressed "the time is long past when we can delude ourselves into imagining that by a pious expression of our desire to reach an agreement we are promoting an agreement.

Relief For Single Homeless

Ottawa.—The federal government contributed $463,760 for food, fuel, clothing and shelter to single homeless persons in the three prairie provinces from March 31 to July 31 of last year, according to a return tabled in the House of Commons. The amount was divided as follows: Manitoba, $241,710; Saskatchewan, $44,493; Alberta, $177,566. In these cases the Dominion bore 100 per cent. of the relief.

W. N. U. 2049

Radio Expenses

Canadian Radio Commission Spent $316,934 For Artists

Ottawa.—During the fiscal year 1933-34 the Canadian Radio Broadcasting Commission spent $316,934 for artists and $104,143 for equipment of studios and stations and new construction at Ottawa and Montreal. Details of the total expenditure of $1,128,591 during the year have now been given out.

The commission's statement shows that Hector Charlesworth, the chairman, received $9,000 per annum salary, and Vice-Chairman Maher and Commissioner W. A. Steel each $7,200 per annum.

Travelling expenses of the three commissioners were as follows: Mr. Charlesworth, $1,097; Mr. Maher, $3,733, and Mr. Steel, $1,201. Other travelling expenses were $23,545.

Other items of the commission's expenditures are as follows: Total salaries of office staff, $54,740; leases of stations, $28,163; leases of time on stations, $102,836; other salaries, $67,049; printing and stationery, $10,997; freight and express, $2,241; office equipment, $6,669; telephones and telegraph, $10,996; publicity, $1,144; rental of studios, $14,601; power and light, $4,170; maintenance, $11,331; wires, lines, etc., $302,978; music, royalties, etc., $16,340; station charges for programs, $20,276.

The total spent by the radio commission is outside $245,429 spent by the radio branch of the marine department, including $66,339 for cost of the sale of radio receiving licenses and $179,090 for the elimination of interference caused by electric power supply lines and distribution systems, electrical machinery and domestic electrical devices.

Strange Malady Killing Alberta's Wild Fowl

Mystery Death Again Strikes On Stobart Lake Near Calgary

Calgary.—The mystery death that took toll of thousands of wild fowl on Stobart Lake last fall threatens again. The lake is about 60 miles southeast of Calgary. A strange malady, which Dominion and provincial investigators failed to solve last year, has struck again, it was reported, and this year it has spread to gulls, thousands of which have died in the last few days. In September, 1933, and later in the fall, ducks by the thousands died at the lake.

Conditions are reported far worse than last year and authorities in Ottawa and Edmonton have been notified.

Business From Russia

Moscow Proposes To Place Large Orders In Great Britain

London.—The Moscow government proposes to place large orders in Great Britain, if the prices and terms are right, declared L. E. Mather, president of the Anglo-Russian Chamber of Commerce, at the annual meeting of the organization here.

The information was from a reliable source in Soviet Russia, Mather said. Soviet purchases in Great Britain during the first four months of 1934 were two and one-half times larger than in 1933.

LIBERAL LEADER

Mitchell F. Hepburn, leader of the Ontario Liberal Party, who is conducting a strenuous campaign in preparation for the forthcoming Provincial General Elections. This is a new picture of Mr. Hepburn.

Forest Fires Serious

Situation In Timber Lands Of New Brunswick Alarming

Toronto.—While in Quebec and Ontario the bush fire situation was reported as vastly improved, alarming blazes broke out in New Brunswick and 300 people were homeless at Oliver settlement, their quarters licked by flames of forest fires raging through Restigouche county.

The situation was held dangerous enough to warrant a government edict forbidding passage through the province's timberlands.

Backed by a near-gale wind, flames menaced huge timber resources in Cumberland county, Nova Scotia, with destruction of a seven-mile stretch of forest behind them. Rain was badly needed. Fires are also raging in parts of Manitoba.

The homes of 16 settlers were destroyed in the new Alcida settlement in Gloucester county, N.B., with Queens, Madawaska, York and Victoria counties all reporting outbreaks also.

C.P.R. Trust Bonds

New Issue Placed On Market Quickly Disposed Of

Montreal.—The subscription books for the new $12,000,000 Canadian Pacific Railway 15-year four per cent. collateral trust bonds were closed a few hours after they were opened, the amount being fully applied for.

The bonds, priced at 97.79 and accrued interest to yield about 4.2 per cent., are convertible at holder's option into common shares at the ratio of four shares for each $100 worth of bonds. They are non-callable and are due July 2, 1949.

The sale was handled by a large syndicate of banks and security companies.

Lottery Bill Defeated

Ottawo.—Quebec's hopes of legalized lotteries for educational and charitable purposes died a quiet and painless death in the House of Commons. A bill to amend the criminal code, introduced by P. F. Casgrain (Lib., Charlevoix-Saguenay), was defeated on second reading.

French Language On Radio

Objections Are Voiced In House By Regina Member

Ottawa.—Objections of the people of Saskatchewan to the use of the French language over the radio were voiced by F. W. Turnbull, K.C., (Cons., Regina), to the House of Commons committee on radio. Mr. Turnbull, declaring he was voicing the views of the people of that province, asserted the commission was allowing itself to be made an instrument in promoting the view that French was the official language of the whole of Canada.

A feeling existed in many quarters in his province, Mr. Turnbull declared, that the French people were insisting on rights and privileges to which they were not entitled. The objection in Saskatchewan was that in using French in the broadcasts there, an effort was being launched to make Canada a bilingual country.

It was bad for Canadian unity and bad for the French language if such a belief continued.

He had no hostility to French, nor did any hostility prevail in Saskatchewan. However, underlying the whole matter were some fundamental questions. One centred on the belief that, he declared, prevailed largely in Quebec that French was the official language of the entire Dominion. On the other hand, the people of Saskatchewan and in other parts of the country were largely of the opinion the French language was not the official language of Canada, but was confined in its application to the terms of the British North America Act.

Trade Union Funds

May Exempt Amounts Paid For Relief From Income Taxes

Ottawa.—Trades union members who contribute a portion of their income to such union funds as are allocated for the relief of their unemployed colleagues may, if it is found to come within the administrative features of the act, be permitted to claim exemptions from income tax on account of such contributions, Hon. E. N. Rhodes, finance minister, told A. A. Heaps (Labor, Winnipeg North), in the House of Commons. The house, in committee of ways and means, was considering the budget resolutions.

Radio Operators

Say Employees Should Come Under Civil Service Status

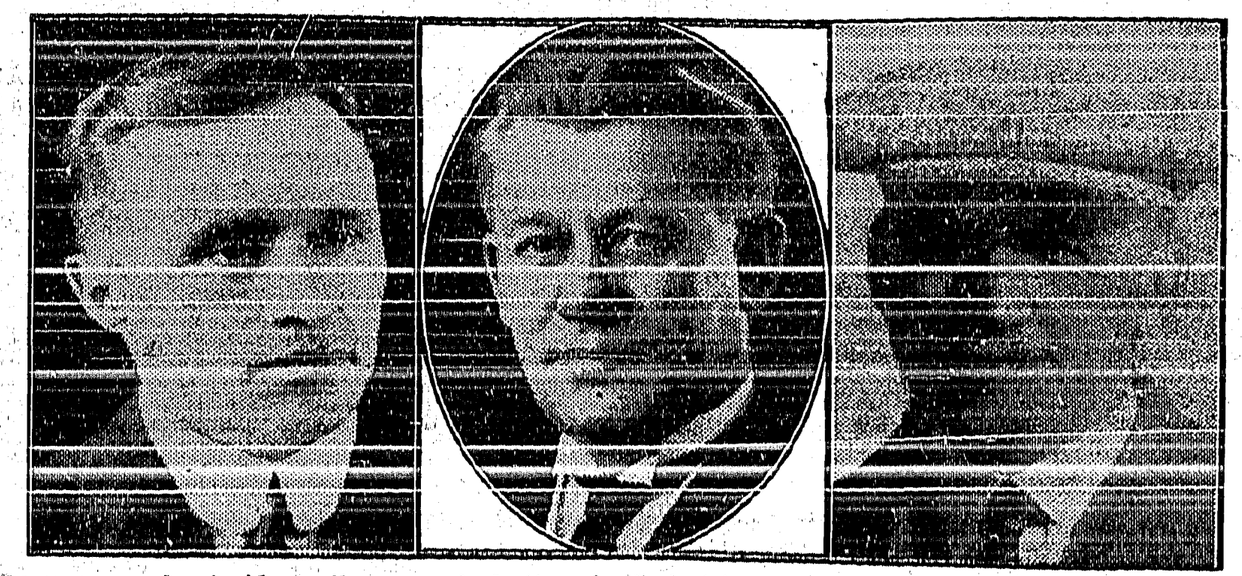
Ottawa.—The civil service commission replied to the request of the radio commission for powers to appoint and set the salaries of its employees, clerical as well as technical.

C. H. Bland, Ottawa, civil service commissioner, told the radio committee of the commons that technical as well as clerical employees of the radio commission should come under the civil service.

Issuing Special Stamp

Ottawa.—In commemoration of the 150th anniversary of the final settlement of the United Empire Loyalists in Canada, a special double-size postage stamp of the denomination of 10 cents will be issued, it was announced by the post office department.

SASKATCHEWAN'S GENERAL ELECTION TAKES PLACE IN JUNE



By an unusual coincidence the general elections in Saskatchewan will be held on June 19th, which is the same date as the elections in Ontario. Above we see the three political leaders, left to right: Hon. J. D. Gardiner, leader of the Liberal Party; Premier J. T. M. Anderson, leader of the Conservatives; and M. J. Coldwell, Farmer-Labor Leader.

FUTURE WELFARE OF EMPIRE RESTS WITH DOMINIONS

Ottawa.—Great Britain's unemployment problem would never be solved until the flow of her surplus population to the Dominions was resumed, Hon. S. M. Bruce, former prime minister of Australia, told a luncheon audience here. Since the Dominions offered the only outlet for that surplus, and since they could not take immigrants until a measure of prosperity was restored, it was to the advantage of Great Britain to co-operate toward the restoration of prosperity in the Dominions.

Apart from all question of traditional or sentimental ties, Great Britain was the logical trading associate of the Dominions, Mr. Bruce declared. Great Britain offered the natural industrial complement to the primary producing Dominions such as Australia and Canada.

He was not alarmed at the efforts being made in Great Britain to stimulate agricultural production, Mr. Bruce said, feeling certain such development would never proceed to a point at which it would handicap exports from Empire countries.

The World Economic conference was a "tragic failure," Mr. Bruce said. With a growing belief throughout the world that the necessities and some of the luxuries of life should be made available to every person in the world, the conference had urged restriction of production and the resulting loss to mankind of the benefit of scientific advancement of recent years.

In a "world gone mad with economic nationalism" the 66 countries at the world conference had announced their intention of continuing that policy. Only when there was a return to "sanity" among the nations of the world would there be general prosperity.

In the meantime, Mr. Bruce said, the countries that would best pull through were those possessing the greatest home markets, resources, capital and experience for developing resources. Canada and Australia had all the necessary resources and potentialities of development but lacked population.

"What we must do, as primary producers, is to group with other countries that are industrial and provide a market for us," said Mr. Bruce. Apart altogether from the traditional and sentimental associations naturally pointing in that direction Great Britain remained the best hope for Canada and Australia as the one country most advantageous as a trading associate.

Such an association had to start out with the fundamental principle that all members of the group must prosper. He believed it was quite understood and appreciated in Great Britain that the Dominions were determined to develop also their secondary industries, and he anticipated no great difficulties on that score, Mr. Bruce said.

Neither, said Mr. Bruce, did he apprehend any difficulty arising from Great Britain's agricultural policy. Such development would essentially be limited.

Great Britain was a country relying financially and economically on her exports of industrial products and nothing would be allowed to interfere with that. Also, many countries indebted to Great Britain could only pay by agricultural products.

"If Great Britain is ever to solve her unemployment problem and become prosperous again the flow of emigration to the Dominions must be resumed," said Mr. Bruce. It was therefore in the interests of Great Britain that the Dominions become prosperous enough to resume immigration from the Old Country.

Bait Not Sweet Enough

Calgary.—Grasshoppers in Alberta have a "sweet tooth" and farmers are urging the poison bait formula be changed. From Munson comes the report the 'hoppers are not taking to the poison bait with the usual vigor. It lacks sufficient molasses, and has proved unattractive to the grain field pests.

Creston and District Women's Institute had a very su cessful afternoon tea and cookery sale at home of Mrs. Mallandaine on Thursday afternoon at which the intake was about $20. Miss Laura Holmes held the winning ticket on the fruit cake that was raffled.

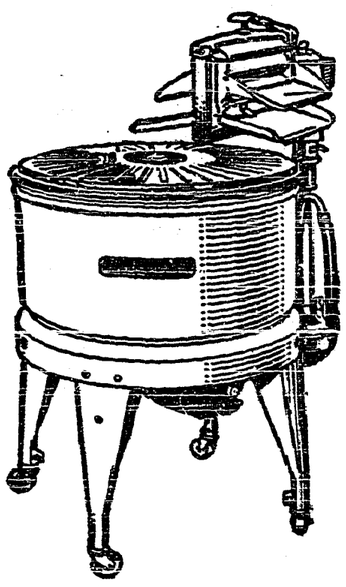
Penticton Herald: It has been reported this week that a Mr. McFarland, of Creston, s contemplating the erection of a service station on the corner of Main street nad Padmore avenue, where Mrs. E. A Titchmarsh's music studio now stands. Permanent arrangements have not been mode as yet, it is said.

While many are of the opinion that last month was the hottest May the valley has ever encountered, a look over the official weather records kept by Dr. Henderson reveals the fact the warmest May was in 1 24 when the average maximum temperature for the month was 73.51, as compared with 68.70 in 1934. Other hot Mays were 1928 when the average was 70.48. In 1931 the average was 70.70, and in 1925 it was 69.48.

Creston and District Women's Institute tendered Mrs. M. Young a farewell reception at the home of Mrs. H. W. McLaren an Friday evening which was well attended by institute members. Court whist was the order of the evening with the high score prizes taken by Mrs. J. E. Johnston and the consolation trophy captured by Mrs. C. Murrell. A splendid enlarged photographic view of Goat River was presented Mrs. Young which was suitably acknowledged. The guest of the evening leaves this month to reside in England and will be much missed by the institute in which she is a charter member and a consistently good worker since its organization.

Mrs. John Ryckman returned on Sunday from Kellogg, Idaho, to which city she had gone for the funeral of the late Mrs. Ernest Ryckman, which took place on Friday. She was accompanied by Mr. and Mrs. Fred Ryckman of Cranbrook and Mrs E. Bidder of Kimberley. Deceased met a sudden death the Tuesday previous. While driving with her son, Stewart, on the road between Wallace and Kellogg a crash of lightning caused the driver to temporarily lose control of the car which swerved off the road and down a bank. The late Mrs. Ryckman was thrown clear of the car which struck her on its decent down the bank, death being instantaneous. Stewart clung to the wheel and was badly shaken up but not seriously injured.

Week's Washing Done in a Few Minutes—



Thanks to the famous General Electric SUPER AGITATOR

Let us demonstrate this G-E Washer in fast time.

Six-blade Super Agitator is the last word in efficiency. Prevents tangling or "braiding" of clothes.
