THE CRESTON REVIEW

VOL. XIX. CRESTON, B. C., FRIDAY, JANUARY 27, 1928 No. 51

St. Stephen's Has Successful Year

Closing the year with all church organizations in a healthy condition, Sunday school fully staffed with efficient teachers and finances in better condition than shown at any other previous meeting of St. Stephen's Presbyterian Church, the year just ended set a high water mark in its history.

With an income of over $2,000 from all sources all debts were reported paid and a substantial balance in hand for the following year.

The Sunday School secretary reported an enrollment of 97 with an average attendance of 65. Holding two meetihgs monthly the girl's mission band presented a very interesting account of their work the result of their labor in cash amounting to close to $70.

The Ellen Dow Club in this their organization year held fifteen meetings half of them for work the other half for study. This body is off to a good start and will be heard in the future.

The Boy's Steadfast Club reported holding eighteen meetings at which much good work was accomplished and is lined up for an even better year in 1928.

The Ladies' Aid and the Women's Missionary Society also had most satisfactory reports to submit.

Dr. Henderson and Mr. McDonald were re-elected as managers for a further term.

The congregation passed vote of thanks to Church Secretary to Mrs. Rose and Mrs. Beninger, Church Organists; to Mr. Bundy for supplying flowers to the Church, and to the three leaders of the junior organizations, Mrs. Stevens, Mrs. Row and Mrs. McLaren.—Com.

Canyon City

Canyon Orangemen were out in full force on Sunday at Creston for the funeral of the late Tom Ross, who was buried that day. Deceased was a former resident of Canyon and highly respected.

Mrs. Blair, who left a few days ago on a visit to Winnipeg, Man., has just undergone an operation for appendicitis, and is reported making a very satisfactory recovery.

Due to the absence of our foremost Scotchman, Geo. Davie, who is in hospital at Vancouver, the anniversary of Bobby Burns did not have its usual enthusiastic observance this year.

The J. P. Johnston sawmill was shut down at the first of the week due to engine trouble.

"Home Acres," the dramatic offering of the Creston and District Community Players, was presented here on Wednesday evening last, and attracted quite a good turnout.

W. Dovey, missionary student in charge of the United Church work at Moyie, Yahk and Lumberton, accompanied by Rev. J. Herdman, took the service here on Monday, delivering an excellent address. The visitor was a member of Pastor Herdman's Sunday school class at Trail some years ago.

Village Commissioners

Although more were expected to enter the lists nominations on Monday found but four candidates offering for election as village commissioners, and up till within a few minutes of nominations closing there was great promise of an acclamation. None of the aspirants had more than three names on their papers—with business men taking little or no interest in this detail.

Polling was on Thursday with a very large turnout of the electors to mark their ballots, about 80 ballots being cast. Commissioners elected for the ensuing two years are Jas. Cherrington and F. H. Jackson with 45 votes each, and A. Comfort, who polled 42. The defeated candidate T. M. Edmondson, made a good showing, with 35 votes to his credit.

Wynndel

Adolph Hagen who has been working at Slocan, returned home on Tuesday.

R. Foxall of Nelson, with Miss M. Crawford of Creston were Sunday guests of the former's parents.

The latest addition to the order of benedicts is Mr. Pete Camoe who left on Friday, accompanied by Miss D. Penson, for Nelson, where they were united in mrrriage, arriving home on Monday.

Miss Nancy Severn returned on Monday after a week's visit at Nelson.

Anglican Church service on Sunday evening at 7.30, Sunday, January 29th.

P. Andestad, who has been home on the sick list for some days, has returned to his work at Canyon.

A most unfortunate accident occurred last Wednesday when Mr. Vankoughnet, while hauling logs, had the misfortune to have the load break with a resultant crushed ankle. Dr. Henderson was summoned, and it was found necessary to take the injured man to Cranbrook hospital.

A very enjoyable evening was spent by K.K. Klub members last Wednesday, when the committee put on a whist drive followed by a dance. The winners at cards were Miss Florence Wood and Adolph Hagen, with the consolation honors going to Olga Hagen and Carl Carlson.

Miss Emma Hagen is away at present, on a visit with her sister, Mrs. Cecil Moore, at Nelson.

On Thursday and Friday some of the ranchers were busy hauling home alfalfa and mixed hay from a car delivered to the Co-Operative Fruit Growers Association.

Mrs. Towson was a between trains' visitor at Canyon on Thursday, calling on her daughter, Mrs. R. Andestad.

Fred Hagen left last week for Creston, where he has secured a job.

Mr. and Mrs. Dixie and family, who have been away for the yuletide holidays, returned home on Friday.

A whist drive in aid of the W.A. will be held in the schoolhouse on Friday, January 27th, at 8 p.m. Good prizes and refreshments. Admission 50 cents.

Provincial police H. McLaren of Creston has been here on several official visits the past week.

The annual meeting of the Anglican W.A. was held on Wednesday at Mrs. Sixsmith's. The officers elected for the coming year were: President, Mrs. Sixsmith; vice-president, Mrs. Towson; secretary, Mrs. Davidge.

Fire Destroys Bevan Residence

The most disasterous fire Creston has experienced in years was that of Thursday, January 19th, when the residence of R. S. Bevan was badly gutted. The blaze would appear to be due to a defective stove pipe and originated in the second story, and as the family were sleeping downstairs it had gained considerable headway before the smell of smoke awoke Mr. Bevan. He at once notified the neighbors and the alarm was turned in by M. J. Boyd. The fire brigade and citizens generally made a quick response and practically all the contents of the house were removed. Unfortunately the hydrant at the corner of Hillside Road was frozen and the only means of fighting the fire was from garden hose attached to taps in the Speers, Boyd and Bevan residences. That the fire fighters did good work is indicated in the fact that the blaze was largely confined to the second story which with the roof is badly burned with loss on the first floor due to water and damages incidental to the hasty removal of furniture. The loss is partially covered by insurance and as soon as the inspector of insurance had made his appraisal the work of rebuilding commenced. Mr. Bevan estimates his loss at around $2000, and takes this means of thanking the firemen and all others who helped for their effective work so cheerfully done.

Sirdar

Jas. Wilson of the Grey Royal Granite quarry was a business visitor at Kimberley and Cranbrook last week.

Jack Cameron was a business visitor at Cranbrook a few days last week.

Mrs. Martin was a Creston caller on Friday. Mrs. Talerico and children were visitors at the metropolis on Saturday.

Ernest McCabe and Mr. Gillie were between trains callers at Creston on Saturday.

Mrs. Dibley and Mrs. Heap were hostesses at a tea in the schoolhouse on Saturday, proceeds going to the Community Hall fund.

Mrs. Sweezy, who has been on the boarding house staff for the past five months, left for her home in Grand Forks on Saturday.

Mrs. Smith, who has been visiting her son, Principal Lea Smith of Sirdar school, for the past three weeks, left for her home in Vancouver on Sunday.

Mrs. Buckland, who has been a patient in Nelson hospital for some weeks past, arrived on Tuesdao, and is again the guest of Mrs. North.

Fred Payne, who has been relieving Ernest McCabe for a few weeks, left for Creston on Monday.

Miss Eileen Heap was home for the weekend, returning to Cranbrook on Sunday.

Mrs. Jack Cameron and children arrived from Cranbrook on Monday to join her husband, who is the new yardmaster.

Erickson

Alvin McMaster, who has been working at Yahk, returned home on Tuesday.

Bob Long, who is at Nelson attending high school this term, was home for the weekend.

Eric Craigie left last week for Fernie, and thence goes to visit his sister, Mrs. Hindman, near Portland, Oregon.

H. Clements is the latest in this neighborhood to branch out as a Chinchilla rabbit farmer. He is operating four pens of them.

Nelson Burgess, of Calgary, Alberta, who has been a visitor at the Hill home, has left for home.

Bill Long got back at the end of the week from Kelowna, and at the meeting of the B.C. F. G. A. was named director for the Creston district.

The young people of this section were guests of Miss Marcella Sanford at a most enjoyable party on Friday night, which all appreciated.

Local and Personal

About 40 ratepayers, including a sprinkling of ladies, were out for the ratepayers' meeting on Monday night, with Jas. Cook elected as chairman. The affair passed off very quietly. Little attention was paid the doings of the retiring council, most of the session being taken up with hearing from the four candidates for commissioner for the new two-year term.

Creston Masons housewarmed their new quarters in the old Speers' Hall with a bridge and whist on Wednesday evening last with invitations confined to members of the craft. There were some fifteen tables in play, and the affair was very much enjoyed. The at home was in charge of a committee consisting of Messrs. Mallandaine, Joyce and Fraser who are complimented on all hands on their unusual ability as hosts.

There was a banner turnout at the banquet which featured the annual meeting of Creston Board of Trade on Tuesday night, at which Major Mallandaine was re-elected president for a third term. J. R. Forbes is the new secretary. C. W. Allan was elected vice-president, and the old executive was returned without opposition. Next week we hope to be able to publish the president's address which covers the 1927 shipments in all lines in considerable detail.

The half dozen rinks representing President Henderson who were the losers in the curling competition president vs. vice-president this season were hosts to the latter at a bean supper served free and easy fashion—along with several other lines of good eats—during the progress of a curling tourney at the rink on Wednesday night. The win of vice-presinent McLaren's supporters was by a margin of 33 points, and is the third year in succession the president has been the loser.

The service at Trinity United Church last Sunday was most impressive. The theme centered around the home. The hymns and music were all of the home life. W. J. Truscott gave a reading from "The Cotter's Saturday Night," and also sang "The Old Fashioned Town." The bible reading was the story of the prodigal, and the choir sang "The Prodigal," and "Home, Sweet Home." The pastor gave two monologues, "Just as I am," and "Come Home." Musical numbers by Mrs. Kernaghan, Mr. C. Moore and Mr. Fred Smith contributed largely to the success of the service, which attracted a large congregation

Badminton Club Wins at Canyon

Creston Badminton Club had a very enjoyable evening on Thursday last when fifteen members journeyed to Canyon to take part in a tournament with the Badminton Club there. The trip was made by sleigh. Creston had the best of the evening's play, winning nine out of ten games. Following are the scores:

H. L. Robinson and Jim Cherrington, Creston, beat John McPherson and Bill Clayton, Canyon, 21—10.

C. B. Twigg and H. G. Greenwood, Creston, beat Clifford Vance and Harry VanAckeran, Canyon, 21—5.

Mrs. C. W. Allan and Mrs. Greenwood, Creston, beat Jack McRobb and Con. Nygaard, Canyon, 21—6.

Mrs. C. Murrell and Mrs. Hilton, Creston, lost to Jim McPherson and Gordon Vance, Canyon, 6—21.

H. L. Robinson, Creston, beat Clifford Vance, Canyon, 15—1.

H. G. Greenwood, Creston, beat Harry VanAckeran, Canyon, 15—3.

Mrs. Twigg and Mrs. Hilton, Creston, beat Miss Cook and Jack McRobb, Canyon, 15—12.

H. L. Robinson and Jim Cherrington, Creston, beat John McRobb and Bill Clayton, Canyon, 15—4.

C. B. Twigg and H. G. Greenwood, Creston, beat Clifford Vance and Harry VanAckeran, Canyon, 15—10.

Mrs. G. Murrell and Miss Cowling, Creston, beat Miss T. Vance and Miss K. Clayton, Canyon, 17—14.

Death of Tom Ross

Creston lost another of its quite old time residents on Friday last when the death occurred at Cranbrook hospital of Tom Ross, who had been removed to that institution on January 9th suffering from blood poisoning and consequent complications. Deceased was in his forty-sixth year, and had resided in this district since about 1908. The remains were brought back to Creston and the funeral took place from the Presbyterian Church on Sunday afternoon uneer L.O.L. auspices, Rev. W. E. Greer and Rev. J. Herdman having charge of the exercises at the church, while at the grave the last sad rites were in charge of the Orange order, six members of the order, J. P. Johnston, John Sherwood, Jas. Compton, W. H. Crawford, John Spratt and Matt. York, officiating as pallbearers. Deceased was married in 1916 to Miss Maud Huscroft, daughter of the late Mr. and Mrs. Wm. Huscroft, and is survived by his widow and eight children who have the sympathy of the whole community in their bereavement. The esteem in which deceased was held at all points in the valley was shown in the very large turnout to pay a last tribute of respect, as well as in the many floral remembrances.

Government vs. Private Ownership

It does not call for the vision of a seer, or the wisdom of a seventh son of a seventh son, to realize that a battle royal is looming up on the horizon of Canada's national life involving acceptance of one or the other of the two policies noted in the heading of this article. It will be a battle of giants, with not merely millions or tens of millions, but hundreds of millions of dollars at stake

The initial stages of this gigantic financial battle are now being waged over the subject of control and development of vast water-powers in various parts of the Dominion. In more than one instance these are linked up with schemes of canalization, as, for example, the Great Lakes-St. Lawrence waterways scheme, and the long discussed Georgian Bay Canal project. Although both of these undertakings must be carried out in the East, they are matters of vital interest to Western Canada.

Financial, commercial and industrial interests in Montreal and Toronto may be interested, and more or less directly affected by the deepening of the channels of navigation between the present head of ocean navigation at Montreal, and the head of the Lakes ports of Port Arthur and Fort William, but the more vital concern of these financial magnates is centered in and upon the development of the huge water-powers which will be made available as part of this canal construction.

The West, on the other hand, is more concerned about the greater waterways feature and the effect which the deepening of the water channels between the head of the Great Lakes and the Atlantic seaboard will have on freight rates, both by water and rail, on the huge exportable surplus of Western products.

So far as the Great Lakes-St. Lawrence project is concerned, it is not wholly a domestic matter for Canada. It is an international matter, inasmuch as a portion of the St. Lawrence belongs jointly to Canada and the United States, and the construction of the proposed deep canal system will affect approximately forty million of the people of the neighboring republic.

Eastern financial interests, whose real concern is to secure private control of the vast water-powers to be developed, are busy raising the bugaboo of United States interference in Canadian affairs, United States control of Canadian resources, and are urging all the possible dangers of entangling alliances. The old, worn-out stock arguments used at the time of the Reciprocity campaign are beginning to be trotted out once more, the Old Flag is to be waved, and all and sundry who do not see eye to eye with the financial magnates looking with a covetous eye of this wealth of water-powers are to be classified as traitors to the Dominion.

There is some evidence, too, that, as on former occasions when questions of great national moment were up for discussion and decision, attempts will be made to cloud the real issue by again raising despicable cries of race and creed, and seeking to set one section of the Dominion against another.

Too frequently in the past, with great national policies at stake, the people of Canada have allowed themselves to be swayed by these cries and have been made the victims of their own shortsightedness and foolishness in giving heed to such unworthy appeals. Now that Canada has largely put these things into the background and is moving forward to a development and prosperity unsurpassed in its past history, it is to be sincerely hoped that any and all such ignoble attempts will receive no quarter from the overwhelming mass of the Canadian people; that, as a people, they will put their foot down, and put it down hard, upon any such campaign, the originators of which are the real enemies of and traitors to Canada.

We are not proposing to discuss the respective merits of public and private ownership. But we would most earnestly ask the people of Western Canada to be on their guard, and in the discussions which are bound to take place within the next few years, to keep their minds persistently on the facts of the case, and not be influenced one way or the other by catch cries, sectional, sectarian, or partizan appeals. It is the national good of all Canada, present and future, that is at stake.

Another Victory For Science

Danger Of Collapse After Pneumonia Crisis May Soon Be Overcome

Forecast of an imminent announcement that medical science had achieved another great victory was made before the Canadian Club at Toronto, by Prof. J. C. McLennan, of Toronto University.

Danger of collapse following a pneumonia crisis, caused by inability of the body to attain requisite temperature, may be overcome as a result of recent observations in the General Electric laboratory in Schenectady, N.Y.

It was recently observed that operators experimenting with a long metre wave apparatus built for radio suddenly had a tremendous rise in temperature. It soon became apparent that if these waves could be controlled and applied to sodium chloride in the blood there was a marked absorption and the temperature was increased to a given point. It is now believed by application of these waves any known temperature required to destroy different disease-forming organisms can be produced without danger to the patient.

The Experience of Mrs. Roy Brown is Well Worth Reading

Peterboro, Ont.—"I was in a miserable state of health, my nerves gave way completely, I could not sleep, had backaches and was completely exhausted—so weak and sleepy and tired that I was compelled to give up and take to my bed. I was advised to try Dr. Pierce's Favorite Prescription, as nothing I had used helped me. By the time I had taken one bottle I was able to be up and around, I kept on taking it and was completely restored to health. I cannot say enough in praise of the 'Favorite Prescription' for the wonderful help it gave me."—Mrs. Roy Brown, 322 King St.

All druggists—Tablets or liquid.

Millions Spent On Roads

Canada Has Built 7,436 Miles In Last Few Years

Out of a total of 8,415 miles of road provided for under agreement authorized by the Canada Highways Act of 1919, 7,436 miles has been completed at the end of the fiscal year ending March 31, 1927. This is shown in the annual report of the Commissioner of Highways.

This mileage was constructed under the provisions governing the Federal subsidy whereby the Dominion Government undertook to furnish 40 per cent. of the cost, the province taking care of the remainder.

The estimated subsidizable cost of the highways was $13,000,975.

Manitoba Agricultural College Re-Union

400 Ex-Students To Celebrate the Coming Of Age Of the Institution

Friends and ex-students of the Manitoba Agricultural College are preparing to celebrate the coming of age of that institution at a re-union to be held February 16 and 17, for it is twenty-one years ago since the charter class foregathered.

Re-unions come with unfailing regularity in M.A.C. circles, but this one, on account of its historic significance, is to be the daddy of them all. A big committee under the energetic leadership of J. H. Evans, deputy minister of agriculture, is making a special drive to get in all ex-students, particularly those who went through the mill on the old site at Tuxedo, now the military barracks. The first evening of the re-union will be given over to a banquet. Efforts are being made to secure the attendance of Dr. W. J. Black, Montreal, President Reynolds, of O.A.C., and Hon. John Bracken, the three ex-presidents of the college. Mr. Evans estimates that at least 400 ex-Aggies and Household Science graduates will be on hand, every one of them cautioned to leave seriousness at home.

The afternoon of the second day will be spent in visiting the classrooms and laboratories at St. Vital. Students now in attendance at the college stand prepared to take the conceit out of graduate athletes who may be harboring any notion that they can still curl or play basketball. A dance at the college will wind up proceedings.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by acutal experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Recipes For This Week

(By Betty Barclay)

Cardinal Gelatin Salad

1 package lemon-flavored gelatin.
1½ cups boiling water.
½ cup canned beet juice.
1 cup celery, shredded.
1 cup beets, diced.
½ cup Spanish onions, cut fine.
1 green pepper, shredded.
¼ teaspoon salt.

Dissolve gelatin in boiling water. Add beet juice. When cold, add celery, beets, onions, green pepper and salt. Pour into individual molds. Turn out on lettuce, serve with Mayonnaise dressing. Serves eight.

Fifteen-Dollar Pie

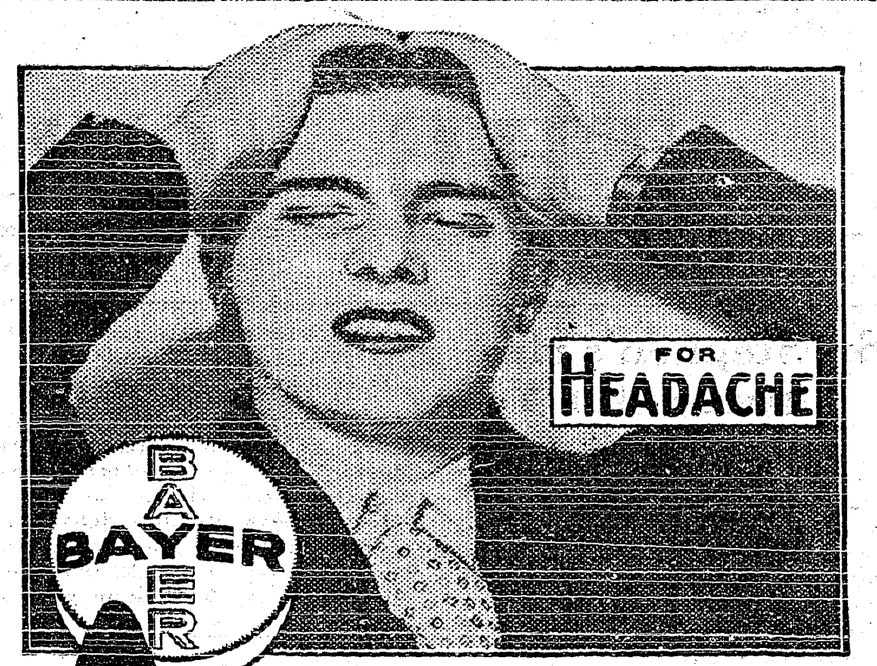
½ cup sugar.
2 tablespoons flour.
1½ tablespoons melted butter.
Juice 1 lemon.
1 egg yolk.
½ cup milk.
1 egg white.
Few grains salt.

Mix sugar and flour, add melted butter, lemon juice, egg yolk slightly beaten, milk, egg white stiffly beaten, and salt. Bake in one crust, and cover with meringue or not, as desired.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

Edinburgh is to be commended on its decision to sell its relics of the Great War, and give the money to charity. Better that children should have food and clothing than have machine guns to play with.

For frostbite use Minard's Liniment.



ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Experimental Farm For North

Establishment In Meadow Lake District Has Been Approved

Of interest to the settlers in the far north of the North Battleford federal constituency is the news that the federal department of agriculture has sanctioned the establishment of an experimental station at Meadow Lake. The farm will be selected, and will be put in operation during the coming summer. The telegraph line built this year, linking up the 55 mile stretch between Meadow Lake and Loon Lake is now in operation, and is already proving a boon to the people in this remote part of the province. With better farming facilities and improved conditions for the settler, a development of the agricultural possibilities is expected, resulting ultimately in improved railway and highway service.

Carols were first sung in the thirteenth century.

Fur Farming In Alberta

The growing importance of the fur farming industry in Alberta is indicated by the importation recently of a shipment of 27 pairs of silver foxes from ranches in the Maritime Provinces. These animals, valued at $25,000, were consigned to the National Silver Fox Club at Morinville, a newly organized firm which plans to engage in fox breeding on a large scale.

"Buckley's" for Throat Health

A sip night and morning relieves soreness and hoarseness, and prevents more serious developments. A bottle of Buckley's—40 doses for 75 cents—is an economical guarantee of healthy throats for the whole family. Pleasant to take—instant in action—positive in relief. All druggists sell it.

GRADING SYSTEM FOR WHEAT IS UNDER REVIEW

Calgary.—Following a debate during which every phase of the question of grain grading was explored, the United Farmers of Alberta, in convention here, by an overwhelming vote declared their opposition to the introduction of measures which might result in the lowering of the standard of Canadian wheat on the markets of the world.

Two resolutions were presented on grain grading. One advocated a division of grades to provide for increased moisture content, "tough A" testing from 14.4 to 15.5, and "tough B" from 15.5 to 17 per cent. It was suggested the spread in price be proportional. The other resolution asking the convention to petition the Government to empower the Canadian Board of Grain Commissioners to allow a certain amount of damaged grain to go into contract grades two and three Northern. Both resolutions were rejected.

Before consideration of these recommendations, the systems of grain inspection and grading now in vogue in Canada were explained in exhaustive detail by J. D. Fraser, chief of the western grain inspection division, and James Robinson, member of the Board of Grain Commissioners.

For nearly three hours the two officials were bombarded with questions from the floor of the convention. They were requested to show how grain standards were set, why grain from the same field produced wheat of varying grades, the benefits of drying, results of re-inspections, the effect of mixing on the reputation of the Canadian product, and answer a barrage of queries bearing upon the movement of wheat from the time it is shipped to the country elevator until it reaches the export market.

Claims were made that the important task of inspecting the wheat of the country was being placed in the hands of incompetent men who often proved to be "poor guessers." To overcome this objection it was urged inspectors be drawn exclusively from the agricultural population and not from the civil service.

Replying, Mr. Fraser declared all inspectors were required to pass a rigid examination before appointment. Illustrating the difficulty in obtaining suitable men, he pointed out that from a recent list of 56 applicants only 12 had survived the test.

"Trading," Mr. Fraser added, "is primarily a matter of judgment. Naturally every man's judgment is not the same and wherever the human element enters, there is always the possibility of mistakes. In reaching classification of grain inspected, we are solely guided by the terms of the Canada Grain Act and our efforts at all times have been to reach some basis of uniformity.

Mr. Fraser deplored the increasing number of varieties of wheat being produced in the country. Fifteen years ago, he said, when the varieties were fewer, the grade of wheat had been considerably higher than at present. He expressed the opinion that half a dozen varieties would be quite sufficient.

Television Established

London. — Television already has been successfully established between London and New York, according to T. G. Hutchinson, director of the Baird Television Company. Prior to sailing on the Aquitania for New York, Mr. Hutchinson announced secret experiments had been in progress for six weeks and that recently "contact" with New York was made on several occasions, it being possible to see the faces and hands of individuals, although the features were indistinct.

May Study At Scotland Yard

Winnipeg.—The Provincial Government and the city of Winnipeg are considering sending some senior officers of the provincial and city police forces to England to take advantage of a special course of instructions to be given at Scotland Yard at the invitation of Old Country authorities.

W. N. U. 1717

Spies Are Convicted

Two Men Are Sentenced In Britain For Espionage

London.—An Old Bailey jury convicted two men of trafficking in British official military secrets in the interests of Soviet Russia and dealt a heavy blow to what the prosecution termed "a dangerous spy organization operating against the safety of Great Britain."

Wilfrid Thomas McCartney, variously described as an Englishman and as an Irish-American, and George Hanson, a youthful German, were sentenced to ten years' penal servitude each on their conviction.

McCartney was accused of being the chief spy and Hanson his aide, in obtaining and communicating information useful to opponents of Great Britain in warfare. While admitting that not all those engaged in the espionage organization had been trapped, Attorney-General Hogg declared the activities of the arrested men had been halted before material damage could be done the country.

Summing up, the Lord Chief Justice said the accused had been convicted of "terrible offences" and denounced them for trafficking in official secrets for gain, uninspired by any thought of serving their own countries.

Asks For Wider Powers

Regulations Governing Soldier Cases Not Flexible Enough

Toronto.—As a result of the report of Col. A. T. Hunter, on his recent investigation into the Department of Soldiers' Civil Re-establishment here and in Hamilton, London, Ottawa, and Montreal, the minister, Hon. Dr. J. H. King, will ask Parliament to grant him wider powers in dealing with the cases of the veterans, said the Globe recently.

At the present time, it is said, the regulations are not flexible enough, so that in certain exceptional cases hardship is undergone by veterans.

Would Be a City

Regina.—Formal petition for the incorporation of the town of Yorkton as a city—the eighth in Saskatchewan—has been received by Hon. S. J. Latta, minister of municipal affairs. The petition was signed by Mayor A. C. Stewart and Town Clerk F. J. Pilkington, and accompanied by the usual fee of $250. The application will receive the consideration of the Lieutenant-Governor-in-Council.

Resignation Expected

Toronto.—The Evening Telegram says the resignation of Hon. Forbes Godfrey, Ontario Minister of Health, from the cabinet is expected shortly owing to ill health.

WAS WAR ACE

Capt. F. J. Stevenson, war air ace, and member of the Ontario Provincial Corps, who crashed to death at The Pas, Man., when his plane nosedived into the street.

Want More Prize Money

Would Have Exhibition Boards Boost Prizes For Shorthorns

Regina.—Calling upon the Saskatoon and Regina exhibition boards to increase the prize money for the Shorthorn classes at the two summer fairs, delegates to the annual meeting of the Sask. Shorthorn Club here expressed appreciation at what had been done for them in the past. It is with the desire to encourage the small breeder to show at these summer fairs, that the boards will be asked to increase the money prizes for Shorthorns bred and owned within the province.

Jorn Brandt, Edenwold, was re-elected as president, with Mr. A. G. Hopkins, Surbiton, as vice-president, and Chas. Harlton, Belle Plaine, as secretary.

Reports from the secretary and president indicated that the club is increasing in numbers, and that there is a greater interest in the breed being developed in the province.

No annual sale will be held this coming fall, as it has been found that weather conditions prevent a large number of breeders attending.

Millions For Manitoba

Winnipeg.—More than $120,000,000 came to the province of Manitoba from the field crops for the fiscal year ending April 30, 1927, according to the annual report of the department of agriculture placed before the legislature by Hon. A. Prefontaine, Minister of Agriculture.

Liverpool Greets Canadian Farmers

Miss Cora Hind Replied To Address For Visitors

Liverpool.—The touring Canadian farmers spent 48-hours visiting Liverpool, Birkenhead and other points on the Mersey River, and their visit created considerable interest here.

One Liverpool paper says of them. "They are dressed like Englishmen in their Sabbath best, except for a few who give distinction to the party by wearing fur coats."

The farmers were welcomed on the corn exchange by President Harker, who assured them that Canada's wheat graded as reliably as a bank note.

Miss Cora E. Hind, Winnipeg, replied for the visitors in an address that was replete with information about the Dominion's resources, advantages and progress.

The visitors were received at the city hall by the Lord Mayor, Miss Margaret Beavans. Short speeches were made by many of the leaders in Liverpool's great commodity handling business. Conferences were held in the fruit and general produce exchanges.

The party visited the Liverpool Cathedral, of which, after 30 years building, only a part has been completed and the complete construction of which may occupy a century.

Manitoba Will Adopt Immigration Scheme

Bringing Boys From England For Placement On Farms

Winnipeg.—The British boy immigration scheme has been adopted by the Manitoba provincial government and about 50 lads will be brought here this year for placement on farms in the province, Hon. A. Prefontane, Minister of Immigration, has annuonced.

Temporarily, the boys will be placed at Manitoba Agricultural College where they will receive training to accustom them to farm work.

New Ruling At Ottawa

Fee Of $25.00 Now Charged All Parliamentary Agents

Ottawa.—Before a parliamentary agent can appear before the House of Commons to promote or oppose any private bill or petition, he must pay a fee of $25 and secure the express sanction of the Speaker of the House.

This is contained in a new ruling. Now there are nearly 30 such measures on record and proponents and antagonists alike, aside from members of the House, will have to conform.

MANY WESTERN MATTERS ARE TO BE DEALT WITH

Ottawa. — Western matters will have considerable prominence in the legislation of the forthcoming session of parliament. There will be a large additional vote for the Hudson's Bay Railway and if the anticipated agreement is reached regarding the policing of Saskatchewan, legislation may be required, although it may be effected by order-in-council. In any event, the subject will be before the House.

Alberta and British Columbia also figure in the sessional program and in legislation defining the boundaries of national parks in Alberta. An agreement on long standing points of dispute will be sought.

The re-survey of boundaries made in the last few months paves the way. The fundamental interest in the parks which the Dominion proposes to retain will be the scenic beauty, leaving to the province the water powers and minerals to a large degree. The Dominion Government is willing to exclude Spray Lakes and other powers from the parks, along with the principal coal fields, providing it is guaranteed against future claims by the province respecting any mineral deposits which may be incidental to the essentially scenic portions of the domain. In other words, it is proposed to establish a new boundary and exclude the villages, water powers and the known mineral deposits, providing the title to the remainder is left inviolate in the Dominion. An agreement along these lines is probable. The resources to be excluded would be held by the Government until such time as the resources generally are returned.

Meanwhile, in regard to the latter question, there are no new developments. Conferences on the subject last week between Premiers King and brownlee are expected to result in a pronouncement one way or the other, when the latter has consulted his colleagues. The Dominion Government is desirous of having the constitutional issue finally determined, after which it is prepared to return the resources, but difficulty has been encountered in getting the case before the Privy Council without some new intervenant. The obstacle arises from the unusual procedure of the federal government appealing a judgment in its own favor.

In regard to British Columbia's case for better terms, a report from Mr. Justice Martin is awaited. The hearing has made it pretty clear that if the lands sought are returned it will not be in recognition of a legal claim but as a matter of equity.

Served In South Africa

Duke Of Richmond Dies At Home In England

London.—Charles Henry Gordon-Lennox, Duke of Richmond and Gordon, and aide-de-camp to King George, died at his home, Godwood House, Chichester, after a brief illness. He was 82 years old.

The Duke of Richmond and Gordon served as aide-de-camp to Queen Victoria, King Edward and King George. He was a former member of parliament and was a colonel in the Sussex regiment. He was Lord Lieutenant of Elgin and Banff, and had been chancellor of Aberdeen University since 1917.

He served in the South African War and was mentioned in despatches.

Re-Elected To Presidency

Calgary. — Unanimous demonstration of loyalty was accorded Henry Wise Wood in his re-election to the presidency of the United Farmers of Alberta for the third convention here. The candidature of the veteran leader was not opposed. Similarly the United Farmer Women of Alberta expressed their confidence in Mrs. R. B. Gunn, who despite protestations, was persuaded to accept the presidency of the U.F.W.A. for another year.

Beer By the Glass

Toronto.—The Ontario Legislature will open in three weeks, and, according to The Toronto Star, it is possible the question of sale of beer by the glass may be a live issue at the session.

STUDYING MARKETS IN EUROPE

Farmers and others interested in agriculture in all parts of Canada are members of the Canadian National Railways Farmers' Marketing tour of Europe which is being spread over January and part of February. Of the 68, more than 40 were from Western Canada. This photograph is of a portion of the party which left Winnipeg, and includes Ernest Raper, Victoria, B.C., vice-president of the British Columbia Dairymen's Association; Herbert Scott, district agriculturist of the Alberta Government, Sedgewick, Alta.; J. Haggerty, Olds, Alta.; Robert Johnston, Westlock, Alta.; Ed. McConnell, Hamiota, Man.; W. J. Pollock and Wm. Guild, of Kenmay, Man.; Parker Perry, W. H. Measham and J. M. George, Deloraine, Man.; Arthur Fargey, La Riviere, Man.; George Batho, special representative of The Nor'-West Farmer, Winnipeg; Robert Johnson, Winnipeg; John Strachan, Canadian National Railways' agricultural agent, Winnipeg; and J. S. McGowan, manager of the railways' department of agriculture and colonization. Absent from the photograph because they went in advance of the party, are, among others: Hon. George Langley, former president of the Saskatchewan Grain Growers, and member of the Saskatchewan Government; and D. W. Warner, ex-M.P. of Edmonton. Eastern men making the tour include H. S. Arkell, Dominion Livestock Commissioner and Hon. Walter Lea, minister of agriculture, Prince Edward Island. The tourists will visit Denmark as well as England and Scotland.

CRESTON, B.C., FRIDAY, JAN. 27

LETTERS TO THE EDITOR

Road Policies

EDITOR REVIEW:

At a recent meeting of the Creston Valley Board of Trade a joint road committee delegation from the Canyon Lister-Huscroft-Erickson districts were in attendance.

The condition of the roads in their environment was presented verbally to the Board and the necessity of having them surfaced was strongly expressed, objection was made to any large sums of money being expended by the Government on the old K.V. road bed, rather it was suggested that the Board should give consideration and support to the question of betterment of the roads in their districts. This was all quite in order and deputation amicably received.

Since that meeting it has come to my knowledge that the Roads committee of the above districts have by letter addressed various organizations in Creston on the same subject and if a copy of their letter dated December 8th last as sent out by them is correct then the regrettable attitude assumed by them towards this Board is entirely erroneous and certainly misleading.

The Board of Trade has functioned for many years and worked always for the best interests of the Valley. it is neither a political body. a closed corporation or a secret organization. It is supported solely by a small nominal voluntary subscription of its members and its roll is at all times open to membership.

The Board certainly has advocated the reopening of the K.V. road as well as urging the betterment of other roads throughout the Valley against strong representations to advocate the expenditure of large sums of Creston District public monies outside of our own environment and I can find no record of this Board on our books having at any time asked or demanded of the Government an expenditure of "an inevitable minimum of $10.000.00 for the construction of a road from Creston to Port Hill via the old K.V. track" This Board has never opposed or discriminated in any way nor has it any idea of discriminating against other districts in our Valley having their roads put in proper usable condition, on the contrary the Board has continually urged the authorities time and again to better the conditions of all roads and is always willing to back up any reasonable request from the outlying districts of the Valley realizing as we do that in unity is strength and if the people in these communities support us then we will support them, there is no room for disagreement or dissension in this Valley on public policy.

In conclusion I regret that the Committee did not come to the Board in the first instance then there would have been no need of any misunderstanding in the matter and I would be pleased indeed to welcome the gentlemen of the districts as members of our Board.
E. MALLANDAINE, President
Creston Board of Trade.

Fire losses at Fernie last year totalled $72,717. A blaze at the Fernie Hotel accounted for $60,000 of th.s.

Whist drives for church money making are flattening out at Fernie and the Anglicans are now trying out a cribbage tournament.

DEPARTMENT OF LANDS

NOTICE

Application for Grazing Permits for the Season of 1928

Application for permits to graze live stock on The Crown range within any grazing district of the Province of British Columbia, must be filed with the District Forester at Fort George, Kamloops, Nelson, Prince Rupert, Vancouver, or Williams Lake on or before March 31st, 1928.

Blank forms upon which to submit applications may be obtained from the District Foresters at the above named places, or from the Department of Lands at Victoria, B. C.

G. R. NADEN,
Deputy Minister of Lands.

Long Service

THE Imperial Bank was founded during the period when farming constituted almost the whole industrial life of Canada. City streets were once thronged on Market Day and the teams waited at every post.

Times change—the hitching post has gone—but the farming industry can never be superseded. Every day is market day now, and the farmer is a business man and a student of markets.

The Bank has always regarded the farming industry as of prime importance and will give every consideration to the interests of its farmer clients.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,948; Lode Gold, $126,972,318, Silver, $80,787,003; Lead, $106,976,442; Copper. $209,967,068; Zinc, $50,512,557; Coal and Coke, $264,699.133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1925 show an

Aggregate Value of $988,108,470

Production for year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
VICTORIA, BRITISH COLUMBIA

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.

A REAL MALT BEVERAGE

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions, is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant, unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers or travellers, up to ten head.

NEWS OF KOOTENAYS

Cranbrook's total fire loss for 1927 was about $2500.

Another butcher shop has opened for business in Vernon.

J. E. Kelderman is putting on a motor service between Rossland and Trail.

Almost 25 per cent. of the cases tried at Cranbrook police court last year were for intoxication.

For 1927 the municipal waterworks system at Grand Forks shows a profit of over $3000.

286 cases were tried in Cranbrook police court last year, and fines totalling $4,165 were collected.

Vernon district had a snowfall of 56 inches in December—ten inches more than the average for that month.

The general health at Penticton was much better last year than in 1926. 41 less patients were treated at the hospital.

The News is not quite certain whether the extreme cold of December has done damage to Vernon orchards or not.

The Herald is quite happy to report that at Bonners Ferry last year there were 39 marriages and but 13 divorces.

Fernie council has resolved to support the move to have legislation enacted making automobile insurance compulsory.

By a vote of almost three to one Cranbrook ratepayers authorized the trustees to go on with a $35,000 addition to the high school.

The Women's Auxiliary of the English Church at Grand Forks are happy to record a year's intake of $339 despite the depression that prevailed in the parish last year.

I. Glover is operating a radio broadcasting station at Rossland. It is quite modest as yet, and confined to two hours about noon each Sunday.

The Anglican rector at Kimberley is quite practical. In order to be assured of a turnout at the annual meeting he held the business session after evening service on Sunday last, winding up proceedings with a feed, too.

For 1927 the hospital at Penticton had $3123 of uncollectable patients bills, but came through the year with an actual deficit of but $1093.

For 1927 Cranbrook had 259 births, 95 deaths and 73 marriages. July was the busiest month of them all for the stork, cupid as well as the grim reaper.

T. W. How, president of Nakusp Post of the Canadian Legion, stoutly denies the persistent chatter as to the legion selling liquor at the dances given by that organization.

The Women's Institute at Nakusp is backing up the efforts of the town school board to have the government conduct classes in basketry work in that town, open to the public.

December appears to have been the coldest month Fernie has encountered since weather records have been kept. On 19 of the 31 days the mercury went below zero, with a fine finish at 35 below the last day of the old year.

In order to get a crowd out to the annual meeting the English Church officials at Penticton are advertising in the Herald that this year they will not allow the rector to carry on in such high handed fashion in preventing members or adherents from voting.

Creston Branch - R. J. Forbes, Manager

Our Prices on Printing are Just as Handy as Your Telephone!

We are forcibly reminded to pass out the above information due the fact that this month we are receiving "duns" from local business men made out on stationery that was not printed in Creston—and in every case on stationery the Review was never even asked to quote a price on.

Altogether aside from this being poor community spirit, it is still worse business policy, because on all standard lines the Review can give you better service, equally good stock, and no-higher prices.

If the travelling order-taker—who leaves nothing in Creston but a one-day board bill (and not even that where he travels by auto) can give you a better price than the Review it will be good business, maybe, to deal with him.

But don't overlook the other equally sound business principle that no harm can come of getting prices locally—regardless of anything and everything the order-taker may tell you about the local printer's limitations.

Foresees Atlantic Air Service

Dominion Secretary Predicts Edmonton Will Be Northern Depot

The Rt. Hon. L. C. M. S. Amery, British secretary of state for Dominion Affairs, foresees the day when Edmonton will be the northern depot for a great British air line service across the Atlantic, north through the Peace River Country and across the Rockies to Vancouver.

"It is not generally realized," he said, "and only the development of an airline across the Atlantic will show it, that Churchill is as near to London as is Montreal; that Edmonton is as near to London as is Toronto, and that practically all of Canada is nearer to London than is New-York."

Experimental air line service will be commenced in the summer stated Col. Amery, but it will be three or four years yet before there is a regular air line service across the Atlantic and there is yet to be much ascertained in measuring air distances for such a comparison of distances as the fog, the feasibility of an all year air crossing of the dangerous and forebidding territories of Iceland and Greenland.

Passenger and mail service will first be developed, followed by the carrying of precious cargoes such as gold, gems, and the like on which insurance charges are extremely heavy for each hour of transportation.

One huge airship is being built by the British air ministry for commercial and military tests and another for passenger and criminal work is being built by Col. Burney for a private company.

London-Dublin Air Service

Would Cut Journey From Ten To Four Hours

An air service between London and Dublin is the object of negotiations now in progress between Imperial Airways, Limited, and the Air Department of the Irish Free State. Passengers would fly from London to Liverpool in air expresses. At Liverpool they would change from land-plane to a 15-passenger flying-boat. The aerial journey should be accomplished in about four hours, compared with ten hours by boat and train.

WOMEN WHO ARE WEAK

Gain New Vitality By Building Up the Blood

There are many women who pass their days in a constant state of weariness. They have barely sufficient energy to enable them to perform their manifold duties. Often they have an aching head, a miserable pain in the back, and limbs that feel as heavy as lead. The whole trouble is due to bloodlessness. No woman need suffer in this way. It is easy to obtain a supply of rich blood by taking Dr. Williams' Pink Pills. The new blood created by these pills rapidly builds up the system; headaches and backaches disappear, energy returns and the joy of living is felt once more.

Proof of these statements is given by Mrs. Ed. Lanore, Stoney Point, Ont., who says:—"For a long time I had been in a very miserable condition, always feeling tired out, sleepy and weak. The least work about the house would leave me helplessly tired and nothing that I did seemed to give relief. Believing that a rest might do me good, we moved to town, but, contrary to expectations, instead of getting better I was growing steadily weaker. One day while talking to a neighbor, she urged my taking Dr. Williams' Pink Pills, telling me that her daughter had been in a condition much like mine. This persuaded me to try this medicine, and I have much reason to be grateful that I followed her advice. After the use of a few boxes of the pills, there could be no doubt that they were helping me, and as I continued their use my health and strength came back and now I am doing all my own work and feeling in the best of health. For this splendid condition I must give my thanks to Dr. Williams' Pink Pills."

The pills are sold by all druggists, or you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Time was when banks occupied all the best corners in our town and cities, but service stations seem to adorn them now. Perhaps that indicates where the money is going.

The Friend Of All Sufferers.—Dr. Thomas' Eclectric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

A lawyer is the only man who ever comes out ahead in opposing a woman's will.

HEART WAS SO WEAK Had to Stay in Bed

Mrs. J. Wilson, Lethbridge, Alta., writes:—"My heart was very weak, and I had to stay in bed for five weeks with it.

"My aunt advised me to take

MILBURN'S HEART AND NERVE PILLS

as she had taken them with good results after a very bad operation.

"I took them and some time after a doctor came to examine me for life insurance and he said there was nothing wrong with my heart."

Milburn's Heart and Nerve Pills are 50c. a box at all druggists and dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

JANUARY 29

THE GROWING FAME OF JESUS

Golden Text: "The common people heard him gladly."—Mark 12.37.

Lesson: Mark 3.7-12; 6.53-56.

Devotional Reading: Isaiah 60.1-5, 8, 9.

Explanations and Comments

I. Why the Crowd Followed Jesus, 3.7-12.—Because of the hostility of Scribes and Pharisees, Jesus withdrew with his disciples to the Sea of Galilee. The opposition of the religious authorities was growing, and at the same time Jesus was becoming increasingly popular with the masses. Great crowds followed Him, for His fame had gone throughout the land. Crowds came from Galilee and from Jerusalem; from Idumea and beyond Jordan; from the region of Tyre and Sidon. One day when the pressure upon Him of the throng was great Jesus bade his disciples secure a boat in which He could take refuge. It was the fame of Jesus as a wonder-worker which drew them. They knew about his wonderful cures and many afflicted ones pressed upon Him to touch Him. Those afflicted with unclean spirits fell down before him crying, "Thou art the Son of God." He charged them not to make Him known. Popular enthusiasm was dangerous for His cause; it might lead to an outbreak.

"What attracted the crowds? His power to heal? Yes. His sermons that were so easily understood? Yes. But above all it was Himself. It was His personality. It was the Christ that attracted the people. And isn't it true today that where Christ is held up to the people, there we do find the crowds, and there we do find the Church taking her part in the life of the people."

A CANADIAN RIVER THAT LOSES ITSELF

Maligne Rievr, In Jasper National Park, Has Interesting Feature

A river that loses itself so completely that no trace of its course can be found for several miles, is one of the interesting features of Jasper National Park, Alberta, which, with an area of more than 5,000 square miles, is the largest national playground in the world. The name of this river is the Maligne—French for "bad"—and given to it because where it joins the Athabaska there was a ford which was much feared by the trappers and voyageurs of early days in western history.

The Maligne River finds its source in Maligne Lake, about thirty-five miles from its confluence with the Athabaska. Maligne Lake is about fourteen miles long, more than a mile wide and the largest glacial fed body of water in the Canadian Rockies. From this lake the Maligne River flows swiftly down-hill for about fourteen miles to empty into Medicine Lake, a body of water four miles long and from a half to a mile wide. This lake, in some places, reaches a depth of 150 feet.

Out of this lake there is no known outlet. At the foot of it and for a mile or so below there is the dry course of what was once a river. But this bed is dry and there is neither sight nor sound of water in or near it. After about a mile, a trickle of water makes its appearance and within a comparatively short distance a river is once more flowing through the valley.

This is again the Maligne River, although from this point to the Athabaska, the volume of water is never as great as that which flows into Medicine Lake. A mile above the Athabaska River, the Maligne hurls itself down into a great canyon, hundreds of feet deep and, in places, less than a yard wide at the top.

Air Route Via Yukon

Great Northern Airway Is Predicted By Dr. Thompson

The Yukon will some day be one of the main air routes of the world, providing an airway between Asia and Europe, if the prediction of Dr. Alfred Thompson, former minister of parliament for the Yukon, comes true.

"The airway will be routed through the Northern part of British Columbia or the Yukon to the Aleutian Islands," said Dr. Thompson. "With Siberia in the North and China, Japan and the Phillippine Islands to the South, the route will be free from fog, wind or snow. Airships will probably be the main means of travel, and stations will be established in the summer months in the Yukon when the rivers are open.

Minard's Liniment for sore throat.

LESSON No. 19

Question: Why is *emulsified cod-liver oil so wonderful a food-tonic* for young girls and women?

Answer: Because it abounds in nourishing factors that are particularly beneficial to people prone to anemia and other conditions due to malnutrition.

Keep your system vitamin-nourished—take

SCOTT'S EMULSION

Motor Driven Sleighs

Plans are under way for the establishment of a regular line of transportation by sleighs driven by airplane motors between Omsk and Tara, Siberia, according to advices received by the Department of Commerce. The route to be covered is 200 miles long. Sleighs are expected to maintain a speed of thirty to thirty-five miles an hour.

Awful Asthma Attacks. Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

Savings deposits in the chartered banks of Canada at the end of 1927 totalled $1,406,000,000 or over $140 per head of the population of the Dominion.

Minard's Liniment for rheumatism.

The farthest north police station in the world is on Herschel Island on the Arctic Ocean, a post of the Royal Northwest Mounted Police.

The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic; or constipation; or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

Children Cry for Fletcher's CASTORIA

Why Bald So Young? Cuticura will help You

To prevent loss of hair. Dandruff, usually the cause of premature baldness, may be easily removed by regular shampoos with Cuticura Soap, preceded by touches of Cuticura Ointment. This treatment keeps the scalp clean and healthy and promotes hair growth.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

COPYRIGHT, CANADA, 1925

CHAPTER XVII.—Continued

Helmi's eyes were two deep pools of wonder and delight. Then over them swept fear, like a raw east wind.

"But Jack, have you to go? Will you have to leave me and go away to the north? I don't want gold, dear Jack, I just want you—big lot money makes only trouble."

Jack kissed her and laughed. "O Helmi, you will not mind my going. This man I am going with knows the North. He has lived in it for fourteen years, and he has the maps and all, and it's a great thing for me that he is taking me with him. There's hundreds of fellows who would wish they were in my place if they knew. But it is just the two of us and a half-breed guide. We have to keep it dark, because the oil syndicate are watching him. They know that he knows where the oil springs are. Helmi, he told me of a hot spring valley there where the rocks are always warm, and tropical plants grow, and the creeks come boiling out of the mountains. He is a wonder, this man, and to think he asked me to go with him, and he will let me stake my claim with his and give me a share in everything."

Helmi looked at him with deep trouble in her eyes. "I wish you had never seen gold in the sand, and never met this man," she said, "Now all our good times will be spoiled by thinking you have to go. Jack, I hate money, plumes on hat, and big rings and trip to Finland—now I just want you—and my nice little house to work in—and make nice. Don't go, Jack—just stay with me."

"Poor little kid," Jack said, "I know how you feel. That was the reason I did not say anything about getting married when I came at Christmas. I thought we would wait until I came back from the north, but its better that we did get married, dear. I am glad we did, even if you are pretty cross at me leaving you so soon."

"Not cross, Jack, but just sad. My heart is cold and heavy, just like a stone."

"Now cheer up, Helmi, and listen. I want to tell you what sort of a dress we will buy first when we get our money. The color for you, with that top-knot of yours, is green, and you shall have a clinging dress of green satin, with jade ear-rings and necklace, and a cloak of sea-foam green, lined with a sort of flame color that will show a little when you walk. Now, what's the matter?"

Helmi was looking at him in horror. She could see herself in Mrs. St. John's room before the glass. "Don't, don't," she cried excitedly; "that dress brings bad luck."

"Goodnight!" cried Jack, "what dismal old Finnish superstition have I jarred loose now?"

"No, no, not Finnish—but I will never wear a green dress Jack, not even to please you."

Jack could see he had awakened a very poignant memory and again he wondered, wishing the magistrate had not told him. Was he always to be haunted by these evil spirits of the past?

If Jack had not been told anything he would no doubt have asked Helmi more about her past. As it was he avoided the subject. He hoped she would tell him everything, and to this end he told her all there was to tell about himself. His father and mother had died when he was five, and his sister, ten years his senior, and himself, were brought up in Toronto by his mother's sister. His sister had been very kind to him, and he adored her. When she was old enough she trained for a private secretary and got a position with a very wealthy woman, and travelled with her in Europe for several years.

"And then I seemed to lose her," continued Jack, "for when she came back she had such extravagant tastes my aunt was at a loss to know how to get along with her. She hated our way of living and all our little economies. She made no secret of the fact that she was going to marry a man with money—and she did, a very decent old scout, too, who worships her, I can understand that, too, for she has a way with her, I can tell you. She is good to look at, and she is so frankly selfish. She loves beauty more than anything on earth, and would sacrifice principle for it. Now, she may love this husband of hers—I hope she does—but I know this that if he had been poor she would not have looked at him.

"I must tell her about you, Helmi, and send her some snaps of you. She would love you for your beauty and I daresay when you meet her you will fall in love with her, too, as most people do. But I like to remember her best when she was such a good sister to me—before she went away. I am going to write to her right now."

This was Sunday afternoon, a dull, gray day, with a high wind and low hanging clouds. There was no pleasure in going out, so they stayed beside their own cheerful fire all day. The mountain tops were hidden in the clouds, which seemed to be slipping lower and lower down their rugged sides.

Jack was writing his letter on the table. "I will read it for you when I am done," he said, "and I want you to write too. It is rather nice to have a relative to write to in case of marriage," he said smiling. "I want to show pictures of my lovely Finn girl to someone."

Helmi smiled back at him. Her mind was concerned with the one overwhelming thought that he would have to leave her some day soon. She could not think clearly because of this. Away in the North where there were whirling rapids, deep crevices in the mountains, and horrible roaring canyons; where there were bears and wolves, the possibility of starvation, and blinding storms and lost men going mad with loneliness! . . . . .

Helmi cursed this man, this prospector who had put this wild scheme before her Jack. She wished the lightning had struck him dead. She interrupted Jack's writing. "What is the name of this man you will go with?"

"His name is Keith, Tom Keith. He has his home in Winnipeg, but is seldom there. His wife and family live on the Crescent."

Helmi's eyes blazed with sudden Finnish anger. Keith—a prospector—gold on the Nehanni! Again she could hear Minnie, poor little Minnie, broken and ashamed, telling her pitiful story. "He said he would stake a claim for me if I would never tell."

"He's a devil—he's a devil and a liar!" Helmi screamed. "I know about Mister Tom Keith!" and she poured out curses in Finnish which made Jack shudder, even though he understood not a word.

"Helmi, Helmi! What is wrong? How do you know this man—where could you know him?"

"I knew Minnie," she said, quite off her guard in her excitement," the poor little girl he fooled. He's a devil, I tell you and you are not to go with him."

"Come here, little wildcat," Jack laughed; "calm down and tell me what you know. Don't scream like that; Mrs. McMann will think I am beating you. I may have to yet, too—I can see that."

Helmi stood looking at him—she would tell him everything—she must tell him. She had sworn never to tell, but surely when one is married it is different. Jack would keep an oath, too, with her—it would still be kept! Oh, it would be such a relief to tell her dear Jack! He would be sorry for all she had suffered. Yes, she would tell him everything. Her anger was all gone now, and the happy light had come back to her eyes. It would be so good to tell him.

She came over to him and put her arms around him. "Forgive me, Jack, I am a wild-cat; but it's all for love of you. Have you finished your letter? No! Well, I will wait."

Jack was just writing the address—

Mrs. (Dr.) St. John,
Chestnut Street,
Winnipeg.

"I forget the number," he said, "but everybody knows the Doctor. Now, come, Helmi, and tell me who Minnie is, and where you met her; in fact I want to know a lot of things."

Helmi, stood staring at the name, pale with emotion. She choked back a sob by biting her lip until it bled.

"Oh, there is not much to tell," she said, as carelessly as she could with her heart beating so wildly.—"Minnie was a girl who lived in the same house in Winnipeg, and she said this man had said he would do big things for her, and he was just lying. He broke Minnie's heart—he is a bad man Jack—that is all." She did not look at him when she spoke; she was afraid he would read in her face what she must not tell.

(To Be Continued.)

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonical in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Student (to Professor): "What's that you wrote on my paper?"

Professor: "I told you to write more plainly."

EXPECTANT MOTHERS

Read Mrs. Menard's Letter. Her Experience May Help

Chatham, Ontario.—"I want to tell you how much good your medicine has done me. Before my baby came I felt so weak and run-down that I could hardly do my work. My head ached continually and I was so discouraged that I could cry from morning till night. I had another baby just one year and a half old and it gave me a lot to do. So I thought I would try Lydia E. Pinkham's Vegetable Compound, as I had read so much about it in the little books. I found a difference right away as my head was relieved and my tired feelings gone. My sister had been doing my washing and she continued doing it, as she said it might set me back if I started to do it again. It sure did help me and I had taken just two bottles when my baby came. He is a fine big boy, now nearly five months old. I am taking your medicine again and I am able to do my work all by myself now. I always recommend the Vegetable Compound to women, and especially to expectant mothers, as I believe they need help at those times."—Mrs. Oliver Menard, 24 Harvey St., Chatham, Ontario.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

RAILWAY EQUIPMENT COSTS MUCH MONEY

One Sleeping Car Is Worth Price Of Five Average City Dwellings

Canada's first railway was sixteen miles long. It was called the Champlain and St. Lawrence Railroad and it ran between Laprairie on the St. Lawrence River and St. Johns on the Richelieu River. It began operation in 1836. The tracks were made of wood and the carriages were pulled by horses. The following year a steam locomotive was built to pull the train and the wooden tracks were covered with an iron surface.

Railroading in Canada has progressed somewhat since then. In 1926 almost thirty-five million passengers were carried by the railways of Canada and it is safe to assume that almost every citizen in the Dominion has been on board, or at least has seen, a modern railroad train.

If, however, the average traveller were asked to hazard a guess as to the cost of building a modern sleeping car, the chances are he would be many thousands of dollars short of the correct figure. There are few who know that one sleeping car is worth almost as much as five average dwellings and that it takes as long to build one as it does to erect a modern six-room house.

Some information on this subject was given by the Hon. C. A. Dunning, Minister of Railways and Canals, when he tabled the equipment order of the Canadian National Railways in the House of Commons during the 1926-27 session. Some of the figures quoted by him at that time are as follows:

A mountain type locomotive, such as is used in passenger service by the Canadian National Railways between Montreal and Chicago, costs $85,000; a mikado type locomotive used in freight handling on various parts of the system costs $75,000; a first class coach, $34,000; a baggage care, $25,000; a dining car, $47,500; a compartment-observation car, $50,000; a sleeping car, $47,083; an express refrigeratir car, $10,000; an automobile car, $2,400; a box car, $2,700; a caboose, $3,000; a rotary snowplow, $61,000; and a wing snowplow, $10,000.

The Irish harp was originally quadrangular instead of triangular, as at present.

One way to prevent seasickness is to remain on shore.

Little Helps For This Week

"Whatsoever ye do, do it heartily as to the Lord, and not unto men."—Col. iii. 23.

The ministry of little things,
Not counted mean or small
By that dear alchemy which brings
Some grain of gold from all:
The faith to wait as well as work,
Whatever may befall.
—Susan Coolidge.

Little self-denials, little honesties, little passing words of sympathy, little nameless acts of kindness, little silent victories over favorite temptations,—these are the silent threads of gold which, when woven together, gleam out so brightly in the pattern of life that God approves.

—Frederic W. Farrar.

Fresh Supplies In Demand.—Wherever Dr. Thomas' Eclectric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Old Country Travellers

Canadian Pacific Operates Through Service To Seaboard

A through tourist sleeping car service from Winnipeg to Saint John, N.B., will be operated by the Canadian Pacific Railway, for the convenience of overseas travellers. These cars will make a direct connection with each sailing of the Company's steamers, thus providing a fast through service and assuring connection.

The King of Pain—Minard's Liniment

Travel By Canoe

Only Means Of Transportation In the Superior Forest

Canoes afford the only possible means of travel in the Superior Forest—Quetico Park region along the Minnesota-Ontario international boundary, where the Izaak Walton League of America seeks to create an international park.

It is the only large area left in America South of the Hudson's Bay region where all travel is by canoe. The territory consists of pine forests, interspersed by a network of waterways which provide transportation in all directions and to the remote corners.

GEO. H. KELLY

Local and Personal

Miss Lyda Johnson is spending the week at Yahk.

BIRTH—To Mr. and Mrs. C. Hester, a son, on January 21st.

Dr. Henderson was at Boswell on a professional visit, Friday.

FOR SALE—Saddle pony, going cheap. Frank Putnam, Erickson.

WOOD—16-inch slabwood, $2 rick delivered. Rodgers Box Factory.

WANTED—Baby buggy, in good condition, state price. Write Box 87, Review Office.

Miss Eva Bolton of Kimberley is spending a few days with her mother here this week.

Mrs. R. Hopwood left last week for Lethbridge, Alberta, where she is visiting friends.

Miss Marguerite Crawford was a Nelson visitor last week returning home on Monday.

CABBAGE—For sale a quantity of cabbage, $2 per 100 lbs. R. Stewart (Alice Siding), Creston.

Misses Eileen Hendy and Clara Morrow left on Monday for Waldo where they are visiting friends.

Dennis Hotson, former cashier at the Imperial Bank, has been transferred to Vancouver, leaving on Saturday.

Orin Hayden, who left last week for Spokane, has pulled up at Kellogg, Idaho, where he has secured a position.

Mrs. Geo. H. Kelly and young daughter left on Tuesday on a month's visit with her parents at New Westminster.

H. Ireland left on Saturday for Kimberley where he has secured a position and will be remaining for some time.

R. V. Willcox of Salmon Arm, an inspector for the provincial poultry department, was here on an official visit last week.

Villagers are this week in receipt of their school tax notices from the provincial assessor at Nelson. The 1928 rate is 10½ mills.

COW FOR SALE—Jersey-Holstein, seven years, freshened December 17th, three gallons milk daily, $65. Tony Heimer, Wynndel.

FOR SALE OR TRADE—Will sell or or trade 1500 lb. mare, 9 years old. In exchange would take horse about 1300 lbs. E. Nougnier, Canyon.

HAY FOR SALE—Clover and alfalfa mixed, about three tons, $15 per ton at barn. Reduction to anyone taking the lot. Geo. Jacks, Camp Lister.

The meeting of the Anglican ladies held on Tuesday last was adjourned to February 7th, when all ladies of the congregation are invited to be present.

Mr. and Mrs. A. Anderson left on Monday for Winnipeg, Man., having been called to that city owing to the poor health of their daughter, Mrs. de Falaise.

Mrs. Suckland of Nottingham, England who is spending the winter with her friend, Mrs. North at Sirdar, is a Creston visitor this week, a guest of Mrs. Jas. Cook.

C. F. Hayes got back on Tuesday from Victoria where he had a very successful trip on some business in connection with Creston Reclamation Company, Limited.

The first job the new commissioners have on hand is to sit as an assessment roll court of revision on February 8th. Assessment notices will be going out in a few days.

The competition under way this week at the curling rink has the vice-skips in charge of rink and the skip playing lead, and substantial prizes will be given the winners.

The Legion remind of the bridge and whist drive at the Parish Hall next Friday night, February 3rd, with cards to start at 8 o'clock. The admission is 50 cents, which includes supper.

The Legion had another good turnout for the cinderella dance in the Beninger Hall on Saturday night. A lunch counter has been installed and patrons can now secure refreshments if desired.

The Ladies' Conservative Club remind of their bridge and whist drive and dance in the Parish Hall to-night, with cards to start at 8 prompt. Refreshments will be served, and the admission is 50 cents.

Creston High School has reorganized the Literary Society with Byron Willis, president; and Fred Burnett, vice-president. It has been suggested they put on Shakespeare's play, "Midsummer Night's Dream."

Messrs. Victor Carr and Geo. Hood have commenced filling the village ice houses this week with the frozen fluid Hood's Lake. It is about 18 inches thick and of excellent quality. Last winter they supplied close to 200 tons locally.

This week Creston Dairy announces a change in policy. From now on but one grade of milk will be handled, and will sell at the popular price of eight quarts for one dollar. It is largely from Manager Comfort's well known Jersey herd and is bound to give satisfaction.

R. B. Staples arrived at Creston at the first of the week after attending the B.C.F.G.A. meeting at Kelowna and the Jobbers Association convention at Regina, Sask., last week. He will be remaining for about two months looking after the ranch and lumber interests.

The finals in the curling club competition for the tea and coffee donated by Alex. Derby, Western Grocers representative, Cranbrook, were played last week, the Joyce rink landing the tea, while the quartette skipped by Frank Staples beat Craig by a single point to win the coffee.

The Neurocalometer

We know that if you are sick, your sickness is caused by nerve pressure and if that pressure is relieved by Chiropractic adjustments given with the bare hands alone, you will get well. The new instrument, the NEUROCALOMETER, shows exactly where this pressure is. When after taking an adjustment, the Neurocalometer is again applied to the same spot and you, with your own eyes, see that the pressure has been reduced several degrees, possibly to zero, YOU KNOW that Chiropractic is right.

The Neurocalometer is a very delicate, sensitive instrument which, when placed upon the spine:

1. Verifies the proper places for adjustments.
2. It measures the specific degree of vertebral pressure upon nerves.
3. It measures the specific degree of interference to transmission of mental impulses as a result of the vertebral pressure.
4. It proves the exact intervertebral foramina that contains bone pressure upon nerves.
5. It proves when that pressure has been released upon nerves at a specific place.
6. It proves how much pressure was released, if any.
7. It verifies the difference between cord pressure or or spinal nerve pressure cases.
8. It establishes, from week to week, whether you are getting well or not.
9. It makes possible a material reduction in time necessary to get well, thus making health cheaper.
10. It removes all doubt as to what we are doing for you.

CHARGES: With Neurocalometer service, Month, $35; Single Adjustments, $10. Without Neurocalometer service, Week, $10; Single adjustments, $2.

C.A. MITTUN, D.C., Ph.C.

LAMONT BLDG.

IN MEMORIAM

In loving memory of Pte. Russell Louis Leamy, Canadian Infantry Battallion, who died at Creston, January 28, 1927.

"He whom this scroll commemorates was numbered among those who, at the call of King and Country, left all that was dear to them, endured hardness, faced danger, and finally passed out of the sight of men by the path of duty and self-sacrifice, giving up their own life that others may live in freedom. Let those who come after see to it that his name be not forgotten."

Card of Thanks

Mrs. Tom Ross and family take this means of expressing a very deep appreciation of the sympathy and many kindnesses shown them in their recent bereavement.

All of us have at least two pleasures in life—eating and sleeping. For 1928 the Co-Op. would like to make the former just a little more pleasurable, particularly as to quality and cost.

We congratulate ourselves on being able to fairly accurately guage the requirements of the average home, and in our buying accordingly you can absolutely rely on the freshness of our goods.

And in specializing in staple lines we get the quick turnover with the inevitable lower cost of doing business which benefit, as co-operationists, we pass on to you in the shape of more attractive prices.

This has been the experience of our constantly-growing list of customers, and we invite you to share in these benefits.

Everything carried in a fully modern Grocery and Provision Store is here. Come on in and get acquainted.
