THE CRESTON REVIEW

VOL. XIX. CRESTON, B. C., FRIDAY, JANUARY 20, 1928 No. 50

Institute Elects 1928 Directors

The annual meeting of Creston and District Women's Institute was held on Friday afternoon. There were thirty members present. The chair was occupied by the retiring president, Mrs. R. Stevens. The secretary presented an interesting review of 1927 Institute effort, which will be found elsewhere in this issue. The financial report was submitted and showed that the organization had had a very successful year.

Mrs. Stevens briefly thanked the members for their unfailing support during 1927, saying that the responsibility for the Institute's success rested on the membership. The election of the executive for 1928 resulted as follows:

President—Mrs. R. Stevens.
Vice-President — Mrs. C. F. Hayes.
Secretary treasurer—Mrs. Chas. Murrell.
Mrs. Lillie, Mrs. Jas. Cook.

A hearty vote of thanks to last year's executive was carried, being moved by Mrs. Mallandaine, seconded by Mrs. Cherrington. Tea hostesses for the afternoon were Mrs. J. D. Spiers, Mrs. Walters and Mrs. Geo. Young. The free-will collection amounted to $2.45, which goes to the Crippled Children's Hospital.

Erickson

W. G. Littlejohn got away on Sunday to Kelowna, where he is looking after the interests of the Valley at the annual meeting of the B.C. Fruitgrowers' Association.

Geo. Leadbeater was combining business with pleasure on a trip to Cranbrook the latter part of the week.

Nelson Burgess of Calgary, Alberta, was a visitor at the Hill home last week.

Mrs. Harrison of Yahk was a visitor here a few days at the ranch, a guest of Mrs. McMasters.

Mrs. McKelvey spent a few days on a visit with Yahk friends last week.

Mrs. Ron. Lidgate of Lethbridge, Alberta, who has been a visitor with her mother, Mrs. McKelvey the past three weeks, left for home on Friday.

W. R. Long left on Sunday for Kelowna where he is in attendance at the sessions of the B. C. Fruit Growers' Association at the first of the week.

Leslie Boffey left a few days ago for Longbeach, Calif., where he is on a visit with his uncle, and will probably be remaining permanently.

Kitchener

E. Driffil and Sam Littlejohn were motor visitors to Creston last Wednesday.

Mr. Spence of the Sash & Door Company was at his home in Cranbrook for the weekend.

Mrs. Abberson, who has been seriously ill the past two weeks, is now on the road to recovery.

Dr. Thompson of Yahk spent a few days in Kitchener last week.

A sleighing party to the Paulson ranch on Saturday was the social event of the week, and was much enjoyed by all.

G. A. Hunt and daughter, Clara were Cranbrook visitors at the first of the week.

R. G. A. Hockley Dead

Word reached here on Tuesday of the death at Essondale of R. G. A. Hockely, who was taken to that institution a little over a month ago, following observance by the medical authorities at Nelson for a couple of weeks early in December to ascertain his sanity. Hockley was flim flammed out of $565 early in the fall in connection with an "operation" on his eyes and the loss of this sum mentally unbalanced him. He was about 50 years of age and had resided at Creston for the past fifteen years.

Legion Favors Club License

A special meeting of the Canadian Legion was held on Tuesday evening, January 10th, with 31 comrades present. Many matters were discussed and eight applications for membership were received. Membership now stands at 34. The matter of a club license was discussed and after great deliberation a motion was submitted and the count was 13 for and 6 against—the balance of comrades present did not vote. The secretary was advised to have full data on hand for the starting of a club by next meeting, February 7th, at which a good turnout is expected.

"Flesh and the Devil"

Filming the most militaristic period in Germany's history—without any military scenes in it—that is the paradoxical feat of Clarence Brown, famous screen director, in "Flesh and the Devil," playing at the Grand on Saturday, with John Gilbert, Greta Garbo, Lars Hanson and a famous cast.

The story, a vivid drama of German life just before the war, is adapted from the great Sudermann drama, "The Undying Past." It portrays the rigid militaristic spirit of the times—even affecting home life in its inflexible conventions of love and marriage which precipitate the tremendous dramatic situation in the new play.

Owing to the opening scenes, showing the interior of a barracks of an officers' school, where John Gilbert and Lars Hanson are first introduced in the story, absolutely no military scenes are used.

The story is an elaborate production based on the Sudermann tale of the charmer who ensnared the love of her husband's best friend, bringing on her home a cataclysm. Miss Garbo, the famous Swedish star who recently has scored sensational successes in "The Torrent" and "The Temptress," plays this role, with Hanson, known as "The Swedish Barrymore," as the husband, and John Gilbert the lover.

The picture is gorgeously staged. Old castles on the Rhine were reproduced; a complete replica of the Berlin railroad station including its trains was built at the studio, and many remarkable feats in screen stagecraft were carried out to make the picture so typically European that one would imagine it filmed there.

Canyon City

Mrs. Ridd and son, Will, are back from Britt, Alberta, where they have been visiting with Mr. Ridd since the Christmas vacation.

Mrs. McRobb and daughter, Nissie, are Spokane visitors this week.

W. E. Searle is in charge of the engine at the J. P. Johnston sawmill at present, engineer Andestad being on the sick list.

There was a large turnout at the dance on Friday night with excellent music by a travelling Swedish orchestra from Edmonton, Alberta.

Gunnar Larson, who was at Spokane last week seeing an eye specialist, returned on Saturday.

A. G. Samuelson, who was hurt slightly in a logging mishap last week, is still confined to the house.

Chas. Pipe, who has been working at Trail for some time past, returned last week.

Martin Nelson has just disposed of his ranch to Jim Dodds of Erickson, and report has it that Mr. Nelson is now the owner of the Guy Browell place.

Nels. Larson is looking for the owner of a dark Jersey cow with horns, but looks deformed. The stray came to his place a few days ago.

Local and Personal

The Presbyterian Ladies' Aid have taken the afternoon of Saturday, Feb. 11th, for their usual St. Valentine tea and sale of home cooking.

"Home Acres" caught on so well that the Young People's Club at Canyon have asked that it be repeated at the community hall under the club's auspices on January 18th.

Miss Irene Johnson, who has been at Calgary, Alberta, the past few months, taking a course in marcelling, is here on a visit with her parents, Mr. and Mrs. E. Johnson.

Creston board of trade has just been advised that the much talked of north and south highway has been officially named North and South Panoramic Road by the U.S. authorities.

A meeting of all the Anglican ladies is called for 3 o'clock Tuesday afternoon, January 24th, to discuss a reorganization of the womens' work in this section of Christ Church parish.

Mrs. Cheal arrived on Monday on a visit with her sister, Mrs. Geo. Kelly. She is returning to her home in Los Angeles, Calif., after an extended visit in New York and other eastern cities.

After a week of thaw the weather took a turn for the colder on Sunday morning, and with the additional snow that has arrived since Saturday climatic conditions are all that could be desired.

FOR SALE—Thirty White Leghorn Pullets, Hollywood strain. Also twelve hens and cockerel. $45 takes the lot. Also one Jersey cow recently freshened, cheap. T. H. Ireland, Creston (north end)

L. T. Leveque has been on the rounds since the irrigation meeting on Tuesday of last week, and reports a splendid pay up by those who were on the guarantee list for the work done by Engineer McCullough.

Village trade licenses expired at December 31st but there has been no rush for renewals according to the village treasurer, who would appreciate a call from all interested. 1927 trade license collections amounted to $593.

Speers' sale of ladies' sweaters was such a pronounced success that this week he is offering equally good values in boys and children's pure wool sweaters at a sale price of $2.50. These have all been selling regularly up to $5.

At the annual meeting of Creston and District Women's Institute on Friday afternoon, Mrs R. Stevens was re-elected president, and Mrs. Chas. Murrell re-elected secretary. For 1928 the Institute starts off with a membership of nearly 40.

Mr. and Mrs. S. B. Beyts, who formerly resided here, but of late years have been living at prairie points and Vancouver, have returned to town and are looking over various properties with a view to buying and making Creston their home.

If the return of the birds is any indication of what to expect in the weather line it looks safe to predict a very early spring. Within the week the Review has heard of robins, meadowlarks, canaries and hawks having been seen or heard.

The second of the Legion's cinderella dances in the Beninger hall on Saturday night attracted a crowd that taxed the floor space to capacity. The music was by Mrs. Lister, violin, and Mrs. Constable, piano, and all report a most enjoyable time.

Since the keeping of the vital statistics for this district has been in the hands of provincial police McLaren, there have been recorded 33 births, 12 marriages and 9 deaths. Of the newcomers 17 were boys. The report covers a period of eight months.

Monday next is nomination day for village commissioners and at present it looks as if there will be at least four candidates for the three vacancies. Which is a much better showing than Kaslo made last week, when only one candidate would accept nomination for six vacancies in the council board.

At the annual meeting of Christ Church on Friday night the financial statement showed that the total free-will offerings within the parish, which extends from Sirdar to Yahk, were the heaviest in the history of the local church. 12 new members were added to the roll, with 20 baptisms and three marriages.

Christ Church Annual Meeting

The annual meeting of the Anglicans of the Creston parish was held in the Parish Hall on Friday evening. Owing to the inclement weather the attendance was only moderate. The general account showed an income of $1443.61 with a credit balance of 99 cents. The Creston offerings and guarantees totalled $503.44, and the outstations' offerings $238.16. All the parochial organizations showed a credit balance.

The vicar reported the actual offerings in church were the highest in the history of the parish, but due to removals the individual communions were lower than 1926, though the second highest on record.

The number of Sunday School scholars in the parish was nearly double that of the previous year. An energetic branch of the Women's Auxiliary had been formed at Wynndel with the building of a church as their aim, in addition to the usual W.A. grants and attention to parochial needs.

The incumbent appealed to the ladies of the parish to join the women's organizations making special mention of the Creston Ladies' Guild. The Anglican Young People's Association had to postpone its meetings due to many of the members going out of town to work, but a grant from the society had enabled the Parish Hall to be painted.

The vicar announced that owing to domestic reasons he had accepted a collegueship at Lakenham, Norwich, England, and would shortly be leaving for his new sphere.

The church committee of last year was reappointed, but the appointment of wardens was left over.

The parish register showed 20 baptisms, 12 confirmations, 3 marriages and one burial.

Votes of thanks were passed to the various branches of the churches work for last year's undertakings.

The concentrator at Kimberley is now handling up to its full capacity of 4000 tons daily of lead and zinc

VICKS VAPORUB

OVER 17 MILLION JARS USED YEARLY

WORLD HAPPENINGS BRIEFLY TOLD

Colonel Charles A. Lindbergh has been invited to make a good-will tour of Alaska next summer.

Clarence D. Chamberlin, trans-Atlantic flier, plans to attempt a new record for endurance and altitude flying.

The department of external affairs has denied a report that Canada contemplated establishing a legation at Tokio.

Hon. Frank Kellogg, Secretary of State, plans to visit Ottawa in February, leaving Washington on February 5.

A national campaign against greyhound racing has been launched in Scotland, among the supporters of the movement being J. Ramsay MacDonald, former Premier.

The navies of the world powers would be prohibited from further use of submarine under a resolution introduced by Representative Fotheringham, Washington.

Henry Ford announces that he is planning an aeroplane trip to Brazil to inspect a rubber plantation which his company will develop as a private enterprise.

Charles Stewart Pingle, M.L.A., died suddenly at Medicine Hat, as a result of a stroke. He was a former Speaker of the Alberta House in the Stewart Government, a Liberal administration.

Fifteen Russian inhabitants of the territory adjacent to the Russo-Finnish frontier, were convicted of espionage recently by the revolutionary tribunal and three of them sentenced to death.

June 11 has been selected as the date for the opening of the National Conference of the Canadian Legion British Empire Service League. The conference will be held at St. John, N.B.

Major Tien Lei Huang, Chinese aviator, plans to fly from Los Angeles to China next summer, and has raised $130,000 among Chinese merchants for the project. He will attempt to have Col. Charles A. Lindbergh pilot the plane.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Eclectric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Established Air Base

Two Airplanes Will Be Placed In Commission At Fort Churchill

Establishment of an air base at Churchill, Man., on the shores of Hudson Bay, is contemplated by the Royal Canadian Air Force, and it is said here indications are that it will be completed by the early spring. Present reports are that two aeroplanes will be placed at the new base to undertake similar work to those now being used at the Nottingham Island base in Hudson's Straits.

The seaweed collected along the Breton coast of France brings in the sum of $5,000,000 annually. Most of this is used in the manufacture of iodine.

Grippe.

Heat and inhale Minard's. Also rub it on throat and chest. The great preventative.

MINARD'S "KING OF PAIN" LINIMENT

Sound Controls Machinery

Wonderful New Device Is Invention Of Electrical Engineer

A new system of supervision and control by which operator-less machinery can be called on the telephone and asked questions and given instructions, was demonstrated recently in New York City, U.S.A., at the offices of the Westinghouse Electric and Manufacturing Company.

"This system, which is called the 'Televocal' System, represents the latest step in the automatic operations of distant machinery," said Mr. R. J. Wensley, Westinghouse engineer, in explaining the device of which he is the inventor.

"By means of it, not only can a load dispatcher of an electric power company or street railway call up on any telephone unattended power plants or sub-stations, receive reports on the status of every machine in the station, and start or stop machines, open and close switches, and perform other operations at will, but even the housekeeper could direct the operation of her home from the club or whist party.

Mr. Wensley demonstrated the device by starting and stopping lights, fans, vacuum cleaners, and other devices by means of musical notes transmitted by telephone.

Buffalo Meat For Eskimos

Part Of Thousand Recently Killed Has Been Reserved

Fifty buffalo carcasses out of the thousand recently slaughtered by contract at the Wainwright Park, Alta., have been reserved by the Northwest Territories branch of the Department of the Interior, Ottawa. The meat of these animals will be sliced and dried for shipment to the Eskimos in the extreme northern part of the Dominion to help replenish their food supply which has been reduced by the diminishing of the herds of Caribou in parts of their hunting grounds.

A Smartly Simple Frock

The chic frock shown here is an unusually smart style. The skirt has an inverted plait in the centre-front and is joined to a pointed bodice which fastens at the left side, and the back is in one piece. Contrasting material may be used for the cuffs on the dart-fitted sleeves and the long collar. No. 1698 is for misses and small women and in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 3½ yards 36-inch, or 2⅜ yards 54-inch material, and ½ yard 31-inch contrasting (cut crosswise). Price, 20 cents the pattern.

Many styles of smart apparel may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

All druggists—25c and 75c red pkgs.

The Laziest Man Dead

Had Let Mother Support Him For Thirty Years

George Thompson, who long had the reputation of being the "laziest man in the world," died at Lurgan, County Armagh.

George took to bed in early manhood and declined to leave it for 30 years, until his mother, who supported him, was forced to enter the workhouse. He accompanied her. The authorities said that he could not loaf there, but he stayed with them anyway until his death.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; banish constipation and indigestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Moise Cabotte, Makamik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Build More Elevators

Grain Pools Contemplate Extensions To Facilities

The Western Canada Grain Pool contemplate spending $5,000,000 during the coming year in extensions to facilities in country elevators and terminals in Western Canada, according to George H. McIvor, General Sales Manager of the Pool. The building programme includes 100 or 150 country elevators in Alberta; 150 in Saskatchewan and 40 in Manitoba. At present there are 160 in Alberta; 730 in Saskatchewan; and 50 in Manitoba.

Don't Submit to Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Builder: This is the house sir, in the Tudor style.

Prospective Buyer: I don't care for the Tudor style.

Builder: Soon after that, sir, George! Just bring a pail of water and wash out those oak beams.

WAS VERY WEAK NERVOUS AND MELANCHOLY

Mrs. Geo. McKenzie, Campbellford, Ont., writes:—"A short time ago I was troubled very badly with my heart and nerves, the cause of it, I think, was my going through the change of life.

"I was very weak and melancholy, and so nervous I could hardly bear to hear a clock ticking, and I did not sleep well.

"I was advised to try MILBURN'S HEART AND NERVE PILLS so I sent at once for a box; took them and got another, and before they were all gone I felt good, my nerves are fine, I do not mind any noise, and I can sleep well. I cannot recommend them too highly to those suffering as I did."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

JANUARY 22

JESUS AND THE LAW

Golden Text: "Think not that I came to destroy the law or the prophets: I came not to destroy, but to fulfil."—Matthew 5.17.

Lesson: Mark 2.18-22; 3.1-6.

Devotional Reading: Psalm 119. 33-40.

Explanations and Comments

I. The Higher Law Which Jesus Taught In Regard To Fasting, 2.18-22.—The law prescribed one day in the year—the Day of Atonement—for fasting, but two fast days a week were observed by the Pharisees (Luke 19.12), and the disciples of John the Baptist. John's disciples, already jealous of the Teacher who was so much greater than their master (John 3. 26), and therefore willing tools of the Pharisees, came one day with the latter to Jesus and asked, "Why do the Pharisees fast, but Thy disciples fast not?" Their question was like our modern one, "We have always done thus and so; why don't you do it?" By their question they aimed to show how more religious were the Pharisees and John's disciples than were Jesus and His disciples, and also to obtain an answer which would cause John the Baptist to repudiate Jesus, for they did not think it possible for Jesus to defend His disciples without condemning the Baptist.

The disciples of John went to Jesus' disciples and criticized Jesus, and to Jesus and criticized His disciples. Are we ever guilty of similar cowardly criticisms?

Jesus avoided the dilemma as skilfully as he did in the famous question about the tribute money. Fasting should be the expression of feeling rather than the observance of ritual, he told them when He said, "Can the sons of the bridechamber fast while the bridegroom is with them?" The "sons of the bridechamber" were the friends of the bridegroom who escorted the bride and her companions to the home of the bridegroom and remained there for the wedding festivities, which often lasted a week. As Jesus uses the phrase, it refers to His disciples. The disciples of John must have remembered that it was their master who had called Jesus the bridegroom, John 3.29. Dr. George A. Barton refers to the fact that the prophets Hosea and Ezekiel had spoken of God's covenant with Israel as a marriage covenant, and thinks that Jesus may have meant to suggest that he had come to establish a new covenant, and so figuratively claimed for his work the privileges of a wedding.

Jesus desires cheerful followers, who rejoice because of his presence with them. "The true child of God is a joyful creature of divine grace, who worships God with a face radiant with happiness."

Corns cannot exist when Hollway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Recipes For This Week

(By Betty Barclay)

GINGER COCKTAIL

6 tablespoons ginger syrup.
4 tablespoons lemon juice.
4 tablespoons orange juice.
½ cup mineral or ice water.
Few grains salt.

Add remaining ingredients to syrup from Canton ginger and mix thoroughly. Put crushed ice in cocktail glasses, pour in ginger mixture and serve at once.

EGGS IN NESTS

To 3 cups of left-over mashed potatoes well softened with milk add ½ cup finely chopped ham or bacon, 2 tablespoons finely chopped parsley, 3 tablespoons butter, salt and pepper. Cover the bottom of a well-buttered baking dish and arrange little nests into which gently break an egg. Allow an egg to reach person. Sprinkle buttered bread crumbs over the top, and bake in a moderate oven until the eggs are cooked, but not hard.

Laurier's Old Home As Museum

Home That Great Statesman Built In 1877 To Be Utilized As Permanent Museum

The home of Sir Wilfrid Laurier, in Arthabaska, which the great statesman had built in 1877, is to become the property of the Government of the Province of Quebec, and will be utilized as a permanent memorial museum to Sir Wilfrid Laurier. Two friends of Sir Wilfrid have arranged to purchase the property and to hand it over to the Government. The purchasers are Noah Timmins, and A. Kirk Cameron, both of Montreal.

A music writer says jazz is a dead art. He's doubly wrong. It isn't dead and it isn't art.

Answer: It is food and tonic rich in vitamins and other nourishing factors *that are particularly helpful* to a weakened child.

For your child—old reliable

SCOTT'S EMULSION

New Engine For Airplanes

Made On Diesel Principle By Inventor Of Gyroscope Compass

Elmer A. Sperry, inventor of the gyroscope compass, announces that he has perfected an aeroplane engine on the Diesel principle.

He said that within a year he expected to have a motor of 1,000 horsepower weighing two pounds per horsepower and consuming crude oil instead of gasoline with a higher power development per gallon at one-fifth the fuel cost.

Adoption of the Diesel engine to aircraft, considered one of the surest steps to huge air liners, has been the problem of aeronautical engineers throughout the world.

The fuel used in his engine, said Dr. Sperry, is so non-inflammable that in experiments it even has proved a good fire extinguisher.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

One of the loneliest white men in the world is a young Briton who has charge of a cocoanut plantation on an island in the Solomon group. His letters from home are usually ten months old by the time he receives them.

Ward off Flu and Pneumonia

Neglected bronchial colds are dangerous. Stop them *instantly* with Buckley's Mixture. Its action in relieving the cough and clearing the tubes is amazingly swift—and sure. All druggists sell "Buckley's" under a positive guarantee. Buy a bottle today, and be safe.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symtoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XVI.—Continued

Jack kissed her again. "Forget him, Helmi," he said; "he is a poor, dirty, miserable old soak, and he cuts no ice in our lives."

Helmi, who knew that weddings should be stately and dignified ceremonies, was deeply distressed. "Jack, I cannot feel that we are married by just those little no-good words; no prayers; no good wishes; no solemn words at all. It's a wicked way—I not like it."

"I don't like it, either," Jack replied, "but it is legal."

"I'll tell you, Jack." She was recovering her good spirits now. "I know what we will do—we'll make it good. When we come to little puro—what you call creek—on the way home, we'll stand one on each side and say good words across the running water, and then we will be married sure. I will feel better then."

"All right, Finn—anything you say."

They stopped beside a little brook that found its way down to the river, following one of the flutings in the saucer's edge, and there, with the horses looking wonderingly on, they held each other's hands across the running water and plighted their vows:—

"I take you, Helmi, to be my wife," said Jack, "and I will love you always." And Helmi said, "I take you, dear Jack Doran, for my man, forever."

And then, still holding each other's hands across the little stream, they repeated the words that Helmi had learned that night so long ago now at the Girl's Club.

"These are good words, Jack; I learned them in God's house. They are religious words that God understands. I'll say them first, then you.

"Cherish health; seek truth; know God; serve others."

Jack repeated the words after her, and then they kissed each other and stood silent for a moment. And for their witnesses, besides the angels in heaven, who surely were looking down, they had two honest hay livery horses that bore upon their shoulders the honorable scars of patient service.

And in the woods near by a robin, which really had retired for the night, opened one sleepy eye and sang a little song because it was the Springtime and he, too, had a pleasant dream.

CHAPTER XVII.

The tops of the mountains still held the glow of sunset although the valley was filled with mountain darkness. The lights in the curtainless windows of the little houses made bright holes in the platinum curtain of night. Helmi lifted her eyes to the hill-tops for some sign of encouragement—the hills had never failed her—and, flinty-hearted, stern and rock-ribbed though they were, they smiled back as even mountains smile at young lovers. The sky above them was clear and blue, with every cloud tidied away for the night.

As Helmi and Jack drove into the one little street of Eagle Mines there came to them the heartsome smell of frying bacon.

"Good luck, Helmi," said Jack, "it's good luck to smell bacon frying when you're hungry, isn't it?" He liked to laugh at her Finnish superstitions.

Helmi breathed deeply. It seemed to her that the magic hour of love would last forever, and that each night of her life would come to meet her as this one was coming, on wings of gossamer and gold.

Helmi and Jack together took the team to the stable, and while Jack paid the bill Helmi patted the horses' heads and talked to them in Finnish.

"Come on, Helmi," Jack called, starting to walk toward their house.

"Wait a minute," she replied, running after him. "Can't I say thank you and good-night to my two morsiuspikas—what do you call them?"

When Helmi entered the little house all her fears fell away. Here was her home, and the gates of hell could not prevail against it. The lamp was lighted on the table, her new, shining kettle was boiling on the stove. These little attentions had been shown them by old Sim, the night watchman. Old Sim had had a checkered career matrimonially, but some old memory, which unfortunately he was not able to catalogue accurately, stirred in him when he saw Jack and Helmi drive away, and in a sudden rush of sentiment he had thrown after them his one gaiter for good luck. All the afternoon he had thought of them in his waking moments, and just before he went on duty he went over and lighted their lamp and fire, just to remind them that someone was wishing them well. As he settled down for his long night vigil at the mine Sim tried to decide once and for all whether it was of Malmo, Lucy or Min that the Finn girl always reminded him.

Helmi pulled a chintz apron over her black dress and began to get the supper ready. Jack had gone to the postoffice to see if there was any mail—anyway, there would be the paper. Helmi stepped about tightly and happily in her new home. Oh, what a letter she would write home to Finland! Anna would be glad, and her grandmother, too. Now she knew what the river was singing—the river was right—home is best.

Jack came in then and hung his coat behind the door, and stood smiling at her. The bacon was frying—the kettle singing. Helmi drew the blinds on the three little windows.

That night, after Helmi had gone to sleep, Jack lay for a long time looking into the darkness. The fire in the stove had burned low, giving out but a faint glimmer through the mica windows. What a lot had happened since morning! He tried to forget the terrible ten minutes in the magistrate's house. Maybe Helmi would tell him after they got to know each other better. Anyway, he was glad he had her here right beside him, and even if he never should know the truth he would trust her. Then he tried to turn his thoughts to the great secret he had to tell her.

She thought he was a common miner, and had married him as such. Helmi, he knew, would be happy to live in this little house all her life with him. But better things awaited her. He tried to picture her surprise; and still he knew she would be anxious, too, when she heard he would have to leave her before long. That was the worst of it . . . Hang that old magistrate!

The wind began gently in the mountain pass, coming in from the sea so far away, a soft Spring wind, sent to ferret out the last snowbanks hiding in river-bottoms and below trees—a sighing, singing wind, that went by the little house with gentle whisperings. But tonight Jack started at its voice, because it had something sinister in it and full of malice—a sort of double meaning for all it was so spring-like and so velvet-footed. He could hear in it the cackle of evil tongues, searing and stabbing, behind doors, in corners.

Helmi, knowing nothing of this, and having no sense of guilt or doubt, slept peacefully on.

They were married on Friday. On Sunday Jack told her his great secret.

He had been on an exploration party the year before, up on the Liard River, and had seen the gold in the sands, and knew there must be great deposits farther up. He had seen oil dripping into the river and running away, red and blue and green, and once had put his can below the drip and put the oil in a basin of the rock and cooked his supper on it. But the gold, it was the gold he was going to find. When he was in the city at Christmas time he had met a man whom he had often heard of in the North, a prospector who had been there fourteen years searching for gold, and now he had found it away up on the Nehanni River. He had found the motherhole, and had showed Jack specimens of the quartz with gold shining in it. Jack had seen it with his own eyes, and while he told her of it, his eyes gleamed with man's ancient lust for gold.

"That's our secret, Finn," he said, "aren't you glad? Oh, Helmi, there are silk dresses and diamond rings in this for you. I want my girl to have every good thing in life—English, education, poetry, music, fine pictures, all the lovely things her heart craves, yes, and a trip to Finland, and plenty of money for anything she wants to do with it.

(To Be Continued.)

Owing to scarcity of wood and cost of labor, wooden toys have increased in price about 100 per cent. in the last ten years.

OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any help for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband got me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sanative Wash."—Mrs. L. LAJEUNESSE, Box 103, Coniston, Ontario.

Story Of Famous Statue

Statue Of Venus Cost $50 and Nearly Brought On War

Venus de Milo, the world's most beautiful and absolutely priceless piece of sculpture, cost the French nation only $50 a century ago, but her preservation for the art world nearly caused a war.

This new story of the incomparable, armless goddess has just arrived in New York from Paris and is retold by the Women's Home Companion. The statue originally was dug up on the Greek island of Milo more than a century ago, so the story goes, and when the news filtered to the western world, English, Dutch and other foreign expeditions were rushed to the island to obtain the prized work of art. The French emissary arrived first, however, with orders to obtain the statue at any price.

The islanders did not want to sell Venus as they planned to send her as a gift to a Greek nobleman. The Frenchman coolly gave an ultimatum, however, that if the statue were not sold at once his country would send ships and troops to occupy the island.

The Greeks capitulated and Venus was purchased for a sum equivalent to less than $50. The statue was transported at once to Paris, where it has since been viewed in the Louvre by art lovers from the entire world.

Find Old Flint Axes

Swedish Pedlar's Stock Was Of Exquisite Shape and Workmanship

The 4,500-year-old stock in trade of a stone age peddler in flint axes has been found by some workmen in a gravel pit in the Swedish province of Soedermanland. The peddler's hoard consisted of a number of light gray flint axes of exquisite shape and workmanship, evidently hidden in the ground by the trader, who seems to have wandered a long way from the South of Sweden to barter his axes for the precious furs of the hunters of the Soedermanland forests.

The poor peddler seems to have met his death, for he never returned for his axes, that now are said to be the best find of its kind ever made in that part of Sweden. Almost every week new important discoveries of treasures hidden thousands of years ago, runic stones, grave mounds, and wall drawings, are reported from different parts of Sweden, the soil of which has turned out to be a vast treasure house for archaeologists.

No Interference In Irish Affairs

Retiring Governor-General Healy Has Good Word For English Government

Strong testimony of the non-interference by the British Government in Free State affairs was given by Retiring Governor-General Healy at a banquet in his honor held in Dublin, at which President Cosgrave presided.

"The English Government, in my few years in office, has never interfered—I pledge my faith and honor to this—to the extent of a tittle or a scintilla in any Irish matter," said the Govenor-General.

"The British Government has left the ministry absolutely free; left them in fact, uncoached and unadvised, and that tribute should not be left unpaid. I have heard much talk about "our foreign King," but there is one thing about "this foreign King," he is a gentleman and we know his pedigree. I wish we knew as much about those who talk about his "interference" in Irish affairs."

First Agricultural Pool

"The first recorded 'pool' in agricultural produce" remarks the Scottish Farmer (Glasgow), "was Joseph's effort in Egypt, as set forth in Genesis xli. By his foresight in controlling the surpluses during the seven years of plenty, Joseph fed not only Egypt, but neighboring peoples during the seven years of famine."

Ready For Anything

A well-known pessimist of a western town had wrestled with dyspepsia for years. He stood in front of the post office as the noon whistles sounded. "Twelve o'clock, eh?" he said, half to himself and half to an acquaintance. "Well, I'm going home for dinner. If dinner ain't ready, I'm going to raise thunder; and if it is ready I ain't going to eat a bit!"

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning; it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

Children Cry for Fletcher's CASTORIA

PIN-HEAD SCAB

This year, as many growers know, was cloudier and wetter than usual during August and September, which rendered conditions suitable for the spread of scab, resulting in much loss to the grower. Apparently many are of the opinion that scab only occurs in the spring, but it is present all the growing season if favorably located. The early infestation is held in check if the weather later turns dry and hot as sunlight dries up and kills the summer spores wherever exposed. However, if the season should be wet and cool spores are given a chance to spread and settle from a sheltered infected area, and as its complete summer cycle is only three weeks of duration if the wet or even damp and cloudy weather should continue longer than that it soon spreads over leaves and fruit. After infection takes place it is about two weeks before it is large enough to be detected by the naked eye and it is then about the size of a pin point.

At this stage if further growth be arrested by subsequent hot weather where exposed to sunlight long enough to weaken it, or continued cold weather or change of environment of host, it will not increase any larger in size. It is generally found situated around the stem and on the shoulder in the skin of the apple, in appearance like so many small dots. Such condition is known as pin-head scab to all who are engaged in the apple trading business.

This year a lot of it developed in storage and even after the apple was graded and packed; it is only reasonable to infer that they got infected as late as two weeks before being harvested. It is through the broken skin at these scab points that spores of other moulds and rots gain access causing rapid decay during mild weather conditions to take place, rendering them unfit for any later use.

Pin-head Scab has been a source of great loss and grief to the packing houses this season causing considerable repacking and lowering of grades. Growers should learn to know the weather conditions under which it can develop and spread as a late spray of lime and sulphur even diluted as much as 1 to 50 will help to control it if the weather should break for several days any time during the late summer or fall.

NEWS OF KOOTENAYS

Two hundred couple attended the Trainmen's New Year ball at Cranbrook.

Rossland has a snowshoe and hikers' club this winter with forty members.

Canada Savings & Loan Association is opening a branch at Kimberley. It already operates at Trail.

At Kimberley 1500 residents saw the new Ford car the three days it was on display this month.

$400 was collected at Cranbrook to supply Christmas cheer to the needy, and $350 of it was actually spent.

Kimberley Elks treated some 700 children of that town and district to a free picture show in New Year's week.

If there are no unforeseen expenditures to take care of Kaslo council will have the town clear of debt in six years.

The First National Bank of Bonners Ferry issued a year-end statement that shows cash on deposit of $138,000.

About ninety couples attended the firemen's ball at Kaslo this year—a slight falling off as compared with last year's ball.

Dealer MacPherson claims almost 2000 persons viewed the new model Ford car in the one day it was on display at Cranbrook.

Sales of postage at Bonners Ferry postoffice for December ran close to $1300. There was $8,066 worth of money orders issued.

Official weather recorder John Fingal Smith at Cranbrook had two of his best thermometers stolen during the December cold snap.

Just over $50 an acre has been paid for 160 acres in Drainage District No. 7 at Bonners Ferry, to which another $50 must me added to pay dyking costs.

In his effort to keep the electric light plant running and to keep the water power flume clear of ice Electrician Billings at Kaslo averaged eight hours sleep during the last week of December.

The Herald claims that if 1928 is normal the proceeds from the crops on the dyked areas at Bonners Ferry will give the town a trade equal to the best enjoyed when the big sawmill plant payroll was available.

Bonners Ferry is hoping to share in an appropriation of $65,000 to finance an extensive survey to ascertain just exactly the damage, if any, that will result if West Kootenay Power & Light Company put in their proposed dam below Nelson.

MINERAL ACT

[FORM F]

Certificate of Improvements

NOTICE OF APPLICATION

NIAGARA MINERAL CLAIM. Situate in the Nelson Mining Division of West Kootenay District. Where located: On Iron Mountain, northwesterly from Kitchener, B.C. Lawful holder: Charles Plummer Hill, Victoria, B.C. Number of the holder's Free Miner's Certificate. No. 12016-D.

TAKE NOTICE that I, G. A. M. Young, Free Miner's Certificate No. 4334-D, acting as agent for the said Charles Plummer Hill, intend sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under Section 85 of the Mineral Act, must be commenced before the issuance of such certificate of improvements.

Dated this 8th day of November, A.D. 1927.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,948; Lode Gold, $126,972,318, Silver, $80,787,003; Lead, $106,976,442; Copper $209,967,068; Zinc, $50,512,557; Coal and Coke, $204,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1925 show an

Aggregate Value of $988,108,470

Production for year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES

VICTORIA, BRITISH COLUMBIA

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.

THE QUALITY OF BEER depends, of course, almost entirely upon the MATERIAL that is used in its composition.

The main constituents are MALT, which gives it BODY and CONDITION, and HOPS, which FLAVOR and PRESERVE it.

We are using only the finest CANADIAN MALT and the finest BRITISH COLUMBIA HOPS, blended with the best IMPORTED BOHEMIAN HOPS, thus our BEERS are fine, pure and palatable.

Our storage capacity is very large, which enables us to create in our Beer the qualities of RIPENESS and MATURITY.

We brew and bottle the famous OLD MILWAUKEE LAGER BEER, try it.

For sale at Government Liquor Stores and Beer Parlors.

We invite the public to visit our Brewery Plant, at New Westminster, where they can convince themselves of the truth of our statements.

WESTMINSTER BREWERY LTD.
New Westminster B.C.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions, is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant, unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers or travellers, up to ten head.

Institute Review Yer's Activities

In laying before you the annual report of 1927, which I do with great diffidence, I think I may say that on the whole we have had a very successful year, but always, it seems, that we could, and perhaps ought, to accomplish more than we do, especially locally. The monthly social evenings, which were started last winter, gave much pleasure. They were held in January, February and March, and one also in November.

In February a dance was held to raise money for a family who had their home destroyed by fire. On this occasion the sum of $77 was cleared. The Institute owes thanks to Mrs. Lister's orchestra, who played practically free, and to Christ Church committee who only charged half the usual rent for the Parish Hall.

The Institute appointed a committee to confer with the village commissioners and Board of Trade with regard to Canada's Confederation Jubilee celebration, and put forward several suggestions, amongst them being tree planting along some of the village streets. This suggestion was acted on, and well over 100 maple trees were planted, which will in due time much improve the appearance of Creston.

Miss Scrimgeour, one of the directors left Creston in April. Previous to her departure she was entertained by the Institute members at the home of Mrs. Stevens, and a very enjoyable afternoon was spent, court whist being played. Mrs. R. B. Staples, vice-president, left Creston shortly afterwards and it had been planned to entertain her also but owing to her brother's illness at Nelson she left suddenly, and it was impossible to carry out the arrangements. The places of these two on the executive have been ably filled by Mrs. J. E. Hayden, who replaced Mrs. Staples as vice-president, and Mrs. Maxwell.

On May 7th the annual bulb display, tea and sale of cooking was held and was well attended realizing $33. The Institute was interested in receiving a letter from an Institute in England, and answered the letter, hoping the corresondence will continue.

On July 1st the Institute had an attractive booth for the sale of refreshments and novelties, and rest room, in the fall fair building, which were much appreciated. About $110 was cleared on that day, including $21, realized on a raffle of a birthday cake, donated by the president, Mrs. R. Stevens.

The Institute subscribed $35 to the Jubilee celebration fund. Mrs. Stevens represented the Institute on the Jubilee celebation committee. A popularity contest was sponsored by the committee and the Creston candidate nominated by the Institute — Miss Irene Huscroft — was the first-prize winner. The contest was a decided financial success.

The usual annual flower show was not held in 1927 owing to the Jubilee celebration making such a heavy demand on Institute energies, but we hope to resume it in 1928.

At the March meeting Capt. Manning, school inspector, gave a very interesting address on the intelligence of children. Baby clothes have been donated by the Institute in two cases, and the First Aid kits at the schools have been replenished.

$25 was donated to the Creston fall fair to be used for prizes in the plants and flowers section. The Institute made an entry of cooking at the fair, but was not successful in carrying off the prize. A number of the members co-operated with the fall fair directors, assisting in arranging the entries.

A tag day was held on fair day, and resulted in $52 being collected. The Institute made it up to $60, sending $20 each to the Crippled Children fund, the Queen Alexandra Solarium and the Children's Aid Society. Monthly tea collections of $27 have also been sent to the Crippled Children's Fund. $10 was given Creston Public Library. Clothing was collected in response to appeals from two families. In November Walter McRaye gave an exceedingly interesting lecture on "This Canada of Ours," and in the afternoon addressed the school children.

Dr. and Mrs. Lillie gave three demonstrations in Gesso work, which were well attended. On Armistice Day a wreath in Institute colors was laid on the soldiers' memorial. The regular meeting, falling on this date, was made a secial occasion, the members being at home to the ladies of Creston. Major Mallandaine gave a short address, and Mrs. Mallandaine a recitation appropriate to the day.

The Institute was represented at the Provincial Conference of Women's Institutes at Chilliwack in May by Mrs. Murrell, and at the district conference at Kaslo, in November, by Mrs. Cherrington. The president, Mrs. Stevens, also attended the latter. An invitation was sent to the district conference to hold its 1928 meeting at Creston and the invitation has been accepted. Eight Christmas hampers were distributed, nearly all the contents being contributed by members.

Flowers were sent in several cases to sick members. Remembering our motto, "For Home and Country," may we do more and better work than before. Even in our town town there are several things that need doing, and if we can help to do them the Institute will have justified its existence in Creston.

Your Pocket

used as a bank has many disadvantages.

Money carried in it is easy to spend on trifles or may be lost or stolen.

Creston Dairy

R. A. COMFORT

ANNOUNCEMENT

Due the steady advance in cost of all lines of feed, I am compelled to raise Milk prices, which from December 1st will be as follows:

MILK

JERSEY—8 Quarts for $1.20
HOLSTEIN—10 Quarts, $1.10

CREAM

Pint..... 30c ½-Pint.. 15c.

Our Prices on Printing are Just as Handy as Your Telephone!

We are forcibly reminded to pass out the above information due the fact that this month we are receiving "duns" from local business men made out on stationery that was not printed in Creston—and in every case on stationery the Review was never even asked to quote a price on.

Altogether aside from this being poor community spirit, it is still worse business policy, because on all standard lines the Review can give you better service, equally good stock, and no-higher prices.

If the travelling order-taker—who leaves nothing in Creston but a one-day board bill (and not even that where he travels by auto) can give you a better price than the Review it will be good business, maybe, to deal with him.

But don't overlook the other equally sound business principle that no harm can come of getting prices locally—regardless of anything and everything the order-taker may tell you about the local printer's limitations.

RED ROSE TEA "is good tea"

Red Rose Orange Pekoe is the finest tea in the best package—Aluminum

Grain Crops In 1928

The prediction has been made from many sources, and with but few reservations, if any, that the year 1928 gives promise of being one of the greatest years of development in Canada's history, marked by unprecedented activity in mining, manufacturing, building, water-power development, transportation, and a rising tide of immigration. Authorities in banking and finance are a unit in declaring that Canada is now in a position to take a giant step forward, and that apart from the financial ability and resources of Canada itself, both British and United States money will be available for sound development enterprises.

What of agriculture, the basic industry of Western Canada, and upon the prosperity of which much of the growth and prosperity of all Canadian industry depends?

It is generally recognized that agriculture occupies a stronger position today than it did a few years ago and that conditions have been steadily improving year by year. There is a feeling of hopefulness abroad that this situation will continue. But if 1928 is to prove a successful year for our Western farmers they must themselves take time by the forelock and lay the foundations of that success. It is now when the snow is on the ground and the temperature hovers around the zero point that the first step towards assuring good crops in the fall of the year must be taken.

Later in the year everybody, and especially the farmers, will look anxiously for adequate rainfalls at the right season, for bright sunshiny days, for an absence of frosts, hail, rust and other blighting agencies, and for good weather for harvest and threshing. But a combination of all these favorable conditions will not in themselves assure the West a bumper crop. Something more is required, and now is the time to provide it. The conditions noted above are not within the power of man to determine, but, fortunately, it is in his power absolutely to provide the first essential requirement, namely, good, clean seed possessing a maximum of germinating qualities.

Unless the best of clean seed is sown, the best and cleanest crops cannot be obtained. If weed seeds are sown, weeds and not wheat, oats, or other saleable grain will result. This fact is so obvious that it would seem quite unnecessary to lay any stress upon it. But what is the situation?

All Western farmers can profit from the lessons learned from a seed drill survey conducted by the Saskatchewan Department of Agriculture last year. In 25 townships samples of grain were taken from the seed drills of the farmers and tested as to grade. Out of each ten samples submitted in wheat, three graded No. 1 or No. 2, four graded No. 3, and three graded rejected.

The oats being sown did not make as good a showing,—16 per cent. graded No. 1 or No. 2, 16 per cent. graded No. 3, and 68 per cent. rejected. As in the case of wheat, the oats rejected was caused chiefly by the presence of noxious weeds. In other words, only three out of every ten farmers were sowing good, clean seed wheat, and only 16 out of every 100 farmers were sowing good, clean seed oats. Under such conditions, how can Western farmers expect to obtain large yields and a highly profitable return from their labor?

Ninety-seven per cent. of the farmers in these townships were using cleaning machinery of some kind, while 92 per cent. were using one or another of the recognized methods of treating grain for smut. It was established that the success, or non-success, in the operation of seed cleaning machines did not lie so much in the make of the machine used as it did in the man operating it. Another factor, of course, was the extent of the pollution of the seed stock. The moral is, that farmers should at this time overhaul their seed cleaning machines and make a close study of the best methods of operation. Of major importance is the obtaining of the cleanest possible seed to put through these machines.

There is a lot of truth in the claim of the Canadian Seed Trade Association that an investment too often overlooked in these days of mining and oil speculation, is the one of better seed. The assertion is made that one dollar invested in better seed during the spring should return at least six or seven dollars in the fall, and with right conditions and care it may return as high as ten or fifteen dollars.

Good, clean seed will not in itself assure a heavy and profitable crop,—there are many other factors involved,—but unless good, clean seed is sown it is certain that such a crop can never be harvested. It is necessary to begin at the beginning, and the seed sown is the beginning, whether it be of a crop of hard wheat or noxious weeds.

ECZEMA IN SMALL PIMPLES

On Hands and Face. Itched and Burned; Cuticura Heals In Six Weeks.

"Eczema broke out in small pimples on my hands and face. The pimples were hard and red, and itched and burned. I could not put my hands in water because it made them worse. I could not help scratching and rubbing the affected parts and causing disfigurement. The trouble lasted three months.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and in about six weeks I was completely healed." (Signed) John A. MacDonald, South West Margaree, N. S.

Nothing quicker or safer than Cuticura Soap and Ointment for skin troubles that itch and burn.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

W N U 1716

What "Toc H" Means

Stands For Talbot House Which Commemorates Heroes Of Flanders Fields

Probably nothing in the way of phrases is more widely known, and yet so little understood as "Toc H." A reader asks me to elucidate the mystery. It is described in one of its own publications as "Merely an affectionate diminutive the signaller's trick for saying 'T.H.' amid the noise of war." It stands for Talbot House, a memorial "house that love built" at Poperinghe, near Ypres, just 12 years ago, and commemorates young Gilbert Talbot, son of the Bishop of Winchester, and all the flower of manhood of Allied camp who fell in Flanders Fields. The lamp of remembrance in Toc H. Chapel—All Hallows-by-the-Tower—is to be kept alight for all time to effect moral regeneration of the whole world.

Hair for the best violin bows comes from white horses.

Minard's Liniment for sore throat.

Submitted Best Design

Woman Is Architect For New Shakespeare Memorial Theatre

A young English woman of 29, has been named architect of the new Shakespeare Memorial Theatre at Stratford-on-Avon. The design of Elizabeth Scott, daughter of a Bournemouth doctor, was unanimously selected from the 70 submitted to the Anglo-American selection committee.

Miss Scott comes from a family of architects. Her plans are described as a bold and splendid conception taking full advantage of the beautiful site on the banks of the Avon.

OUR WINTER WEATHER

A Trying Time For People With Weak Watery Blood

Canadian winter weather is a trying time for debilitated, run-down people. The close air of shut-up houses, lack of out-of-door exercise, the restricted diet of the season, all have their effect on weakened systems. There is always in such cases the danger of severe colds, attacks of influenza, or the still more dreaded pneumonia. There is no other time of year, when a bountiful supply of rich, red blood is so necessary; and the one way to keep the blood rich and pure and thus avoid winter trouble is through the use of Dr. Williams' Pink Pills. If, unfortunately, you have fallen a victim to influenza, or other winter troubles, this same medicine will restore your health and strength. Among those who have proved the value of Dr. Williams' Pink Pills is Miss Margaret Pearson, R.R. No. 3, Chatham. Miss Pearson had passed through a severe attack of influenza and says: "It left me so weak and run-down, that I could scarcely walk. Anaemia set in and it almost seemed as if I would not pull through the winter, as I grew so weak that the least exertion would bring on fainting spells. I was under medical treatment, but it did not help me. Then one day in our local paper I read an advertisement of Dr. Williams' Pink Pills, and decided to try them. By the time I had used three boxes I felt much better, and continuing the use of the pills it was not long before I felt better than I had been before the influenza attacked me. My rapid recovery surprised my friends, and when asked "What did you do?" I would proudly say, "Not my doing, but Dr. Williams' Pink Pills." To me, at least, the pills have been worth their weight in gold."

As a precaution against winter ills take Dr. Williams' Pink Pills now. Sold by all medicine dealers, or sent by mail at 50c a box by The Dr. Williams' Medicine Co., Brockville, Ont.

War Weapons Used To Aid Humanity

Airplanes and Army Tanks Carry Relief To Needy People

Another dream of the novelist has come true. Aeroplanes have been used in England to carry food to starving people in villages isolated by storms from ordinary communication with the outside world. The aviators were unable to find any landing-place, so the food was placed in bags and dropped by way of parachutes. The manifold uses to which the aeroplane can be put in time of peace are increasing in number everyday. It ought to be a tremendous satisfaction to those who have striven for years to perfect control of the air that their efforts are being utilized in the cause of humanity.

The past year has afforded many dramatic incidents similar to that recorded from England. The traditional and symbolic beating of swords into ploughshares is a mere figure of speech compared to the literal and practical use of army tanks to crush a path through roads rendered impassable by snow and thus carry relief to those in need. It would be a great day for the civilized world if all the army aeroplanes and all the army tanks of the Powers could be converted into mail carriers and road rollers.—Montreal Star.

Collie Has Own Method

A remarkable dog is owned by a farmer of Bajarg, Ayrshire. He is a black and white collie and answers to the name of "Laddie." Recently he was witnessed catching a rabbit; but he evidently was sensitive as to the spilling of blood and refused to worry the rabbit to death. Instead of that he hauled his captive to a burn, where he held his head under water till it was drowned. He has never, the farmer says, done other than drown his rabbits.

The first waterproof cloth was made by a Scotch chemist, Charles Macintosh, in 1823.

Biplane Built For Experimental Purposes

New British Machine To Take "Soundings" Of Upper Air

A new biplane, specially designed for attaining high altitudes, is now at the Royal Aircraft Establishment, Farnborough, England. In this machine it is hoped to ascend to a great height and obtain "soundings" of the upper air. One theory to be tested is that, at 10 or 12 miles above the earth there are constantly moving currents of air travelling at 200 miles an hour and more. Such upper air tides as these might have a revolutionary influence on long-distance flying. The British machine which is to carry out this test is a Bristol biplane with an air-cooled Jupiter engine specially equipped for maintaining its power in rarified air.

It will probably be piloted by Flight-Lieutenant J. A. Gray, one of the most expert of the Government test pilots. For these high-altitude flights pilots are being provided with special air suits and helmets like those of diving suits, the airmen peering out through small circular windows. In one new 'plane the airmen will be enclosed in a glass-windowed cabin, which will be automatically supplied with oxygen.

Five Eclipses This Year

Three Will Be Of Sun, and Two Of Moon

For those whose interests centre to some extent in the astronomical world, the new year will satisfy them in that five eclipses are scheduled. Three will be of the sun, and two of the moon, the new year bringing the same number as in 1927. On May 19 there will be a total eclipse of the sun but the powers that be say it will not be visible in Canada. June 3 a total eclipse of the moon is forecast which will be visible in some parts of the West. Two weeks later the sun will go into a partial eclipse and on November 12 the performance is repeated. Western Canadians will have to take the word of the scientist for these because they will not be visivle in the West. The last eclipse of the year will be on November 27 when the moon will be completely hidden. The eclipse will be visible throughout the North American continent.

The usual legal and national holidays will be on the program for the year with any additional ones the authorities might permit. To round off the twelve months the year 1928 is the 19th year of the reign of King George V. and the 62nd year of Confederation will commence on July 1.

The King of Pain—Minard's Liniment

The toy industry of the United States shows an increase of more than 1,300 per cent. in the last twenty years.

11 OUT OF 83

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted.

When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

Zam-Buk

Money For Research Work

Chicago Philanthropist Gives Large Sum For Medical Research

A 47-year-old man and his wife, Mr. and Mrs. Albert D. Lasker, Chicago, have established a foundation for medical research at the University of Chicago, with an initial endowment of $1,000,000, to lengthen the span of life through the study of degenerative diseases incurred past the age of 50.

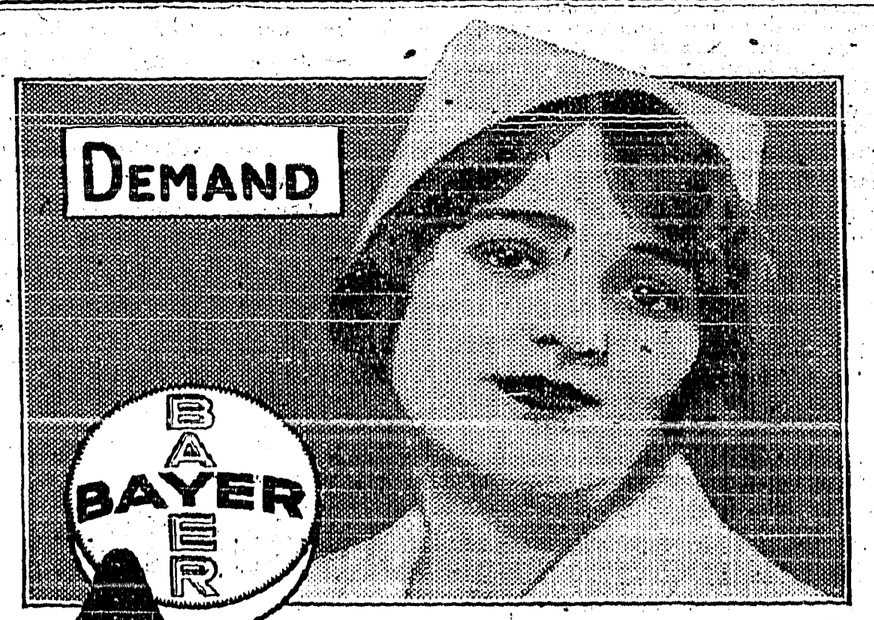
The foundation will be known as the "Lasker Foundation for Medical Research." Lasker is a former chairman of the United States shipping board. He has been long interested in medical research.

Your Home Medicine Chest. — Among the standard household remedies that should always be on hand in your home medicine chest none is more important than Dr. Thomas' Eclectric Oil. Its manifold usefulness in relieveing pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Eclectric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Proposal Is Favored

Hon. Charles Stewart, minister of the interior, is favorable to the naming of a mountain peak after the late Premier John Oliver, according to advices received at Victoria. He will recommend the proposal to the geographic board of Canada.

A simple electric alarm that tells when the door to which it is attached swings open, is a French invention.



ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. *But it's just as important to know that there is only one genuine Aspirin.* The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

WOULD DISPOSE OF TWO ROADS IN PEACE RIVER

Montreal.—Possibilities of increased development in the Peace River District, and prospective prosperity to be derived by new settlers in that area, were pointed out by Hon. John E. Brownlee, K.C., Premier of Alberta, in an interview.

Premier Brownlee explained he had come to Montreal for discussion on the Alberta railway questions with Sir Henry Thornton, president of the Canadian National, and E. W. Beatty, president of the Canadian Pacific Railway. The provincial government operated two roads, the Edmonton Dunvegan and British Columbia Railway, and the Alberta and Great Waterways Railways, both of which, in the Premier's opinion, should be incorporated in one of the two great trans-continental systems. He was prepared to discuss terms for the disposal the two government-owned lines, being convinced both the province and the absorbing company will derive benefits from the amalgamation.

The Edmonton Dunvegan and British Columbia Railway serves the Peace River district, which Mr. Brownlee explained was one of the most fertile portions of Alberta. The area was being opened up rapidly, and had a tremendous future as a grain producing country. In order that it might be developed to the greatest advantage, the provincial government thought the railway should be extended through one of the Rocky Mountain passes to obtain a direct outlet on the Pacific Coast for its products. As a provincially-owned concern, the Premier said this could not be undertaken by his government, as it would encroach on the territory of another province.

At the present time there were 300,000 acres under cultivation in the Peace River District, between eight and nine million bushels of wheat being harvested in 1927 from this area, and it was estimated 12,000,000 acres could be placed under cultivation in that domain.

Discuss Canadian Navy

London Paper Comments On Canadian Government Proposals

London.—Returning to its discussion of the Canadian Government's proposal to replace its two present destroyers, the Patriot and Patrician, with new ships, The Weekly Truth reprints a statement which is described as "officially inspired from Ottawa." The statement says the first of the new ships will be laid down immediately the Canadian Parliament approves the necessary estimate. It adds that the Patrician is still serviceable, so the second destroyer will be ordered for later delivery, thus spreading the total outlay over two years.

The Weekly says: "A point to which the message makes no reference is that the Canadian Department of Defence has asked the British Government to loan two destroyers to replace the old ones, while the proposed vessels are under construction. I confess that if I were a Canadian I should ask, 'Why build warships at all so long as you can borrow them?'"

May Purchase Rifles

London.—The rifles which Canada is reported desirous of buying from the Irish Free State are merely surplus stock which are to be disposed of to help the Free State public funds. A report in Ottawa was that 1,200 rifles had been purchased for the Canadian naval volunteer reserve at a cost of $7 each, but it is stated at Belfast that the negotiations are not yet concluded.

Banishing His Enemies

London.—Russian dispatches to The Daily Mail from Riga, Latvia, say that semi-official information there is that Joseph Stalin, secretary-general of the Communist party, has disposed of his political enemies by giving some of them minor posts in remote villages and others by summary banishment to the Caucasus, Russian Turkestan, and even distant Siberia cities.

Death Of Noted English Writer

Thomas Hardy, Dean Of English Literature, Passes In 87th Year

Dorchester, Eng.—Thomas Hardy, aged dean of English literature, is dead at his home here after a month's illness.

The famous 87-year-old novelist had a chill December 12, and thereafter his condition was alternately hopeful and then critical, but his age imposed heavy odds against recovery.

With Hardy's death, one of the greatest of the Victorians, scenes of whose novels of English life were laid in his beloved Wessex where he lived most of his years, passed from the literary world.

Hardy died in surroundings which he, no doubt, would have chosen for his end. The historic country side of his home was to him the most loved of spots. More than 40 years ago the novelist planned and built a fine red brick and stone country house which has been his home and sanctum ever since. It was in this home that he produced some of the greatest literature of modern times.

Involves Big Revenue

Validity Of Alberta Coal Tax Is To Be Tested.

Edmonton. — The validity of the provincial coal tax, which represents revenue of some $300,000 annually to the provincial treasury, is to be tested before the Supreme Court of Canada at the forthcoming Easter sitting, it was announced recently, and the Province is "ready" to go ahead with the case.

The case against the original defendants, the Caledonian Collieries, Limited, is to be proceeded with, in place of pushing the more recent action in which the C.P.R. was cited as defendant.

The question is one of the right of the province to collect a tax on every ton of coal mined in the province and the decision hinges on whether or not such tax is a direct or an indirect one. If it is held to be a direct tax, then the province has the power to enforce collections; if the reverse, the province loses $300,000 per annum.

Irish President Is Coming To America

Visit Is Purely One Of Courtesy Says Cosgrave

Southampton. — President William T. Cosgrave, of the Irish Free State, and his party, sailed for a visit to Canada and the United States aboard the steamship Homeric.

The president plans to spend about 10 days in North America, including a side trip into Canada. The visit has been described in Dublin as purely one of courtesy.

"This is a visit that we have looked forward to for a number of years," President Cosgrave said just before sailing. "I firmly believe that the visit will make still happier the relations between Ireland and America."

New Cosmic Ray Discovered

Has Greater Penetrating Power Than Radium Or X-Ray

Moscow.—Unknown cosmic rays, emanating from interplanetary space, have been discovered in Khokand, middle Asia.

The rays have a penetrating power many times stronger than radium and 200 times stronger than the X-ray.

The source of these cosmic rays has not been discovered and a scientific expedition has been organized on the highest mountain in the Khokand range to study the phenomenon.

New Senators Appointed

Ottawa.—Three Senatorial appointments in Ontario were announced by Premier Mackenzie King. J. H. Spence, K.C., of Toronto; E. S. Little, London, Ont.; and Dr. Gustave Lacasse, of Tecumseh, are appointed to the Senate. T. Ahern, Ottawa, becomes a member of the privy council, the prime minister announced.

Carried First Air Mail

Moncton, N.B.—After numerous delays since the first date fixed in December, the Canadian Trancontinental Airways Company aeroplane, carrying the first air mail for the Magdalen Islands, hopped off from Moncton, Jan. 11. E. J. Cooper, veteran British flier, was the pilot and he took some 700 pounds of mail.

A Distinguished Visitor

Lord Beaverbrook, who was recently bereaved by the death of his wife, has returned to England after a short visit here.

Search May Be Renewed

Friends Of Mrs. Grayson Offer To Furnish Two Planes

St. John's, Nfld.—Inquiries have been received here from New York friends of Mrs. Francis Wilson Grayson, in regard to the possibilities of organizing a search for the missing aviatrix and her three male companions, whose amphibian aeroplane, the Dawn, was lost after taking off from Roosevelt Field, N.Y., for Harbor Grace, December 23.

Friends of Mrs. Grayson, in their message, said that they were prepared to furnish two planes to make a thorough search of the Eastern part of Newfoundland where inhabitants reported they had heard an aeroplane which they believed might have been the Dawn.

Leads World In Shipbuilding

British Yards Doing More Than Half Says Lloyd's

New York.—More than half the world's shipbuilding is being carried on in British yards, according to facts disclosed by Lloyd's Register of shipping.

Ships now under construction in all countries amount to a tonnage of 3,118,000, an increase of 44,000 gross tons over the preceding quarter year. Of this amount, Great Britain has 1,579,713 tons. The United States, with 97,370 tons, dropped from fourth to eighth place during the quarter and is eclipsed by Germany, Italy, Holland, France, Sweden and Denmark, as well as by Great Britain.

More Bodies Recovered

Provincetown, Mass. — Fifteen bodies of members of the crew of the sunken submarine S-4 were recovered by eight divers who descended and thoroughly examined the submarine's battery compartment. This brought the total to 32.

Will Receive Canadians

Party Of Farmers From Dominion Will Be Received By the King At Buckingham Palace

Montreal.—That His Majesty the King will receive the Canadian farmers' party now on tour, was the effect of a cable received at headquarters of the Canadian National Railways. This group of farmers from all provinces is now on the high seas. It was organized through the Department of Colonization and Agriculture of the National System, with the co-operation of the White Star Line, to make a survey of agricultural marketing systems in Great Britain and Denmark. H.R.H. the Prince of Wales had previously announced his intention of receiving the Canadians who will also have the benefit of meeting technical advisors of the Ministry of Agriculture.

His Majesty will receive the Canadian party at Buckingham Palace at 3 o'clock on the afternoon of Saturday, February 4.

Future Of Sheep Industry

Experts Say There Is No Danger That It Can Be Overdone

Edmonton.—That the future of the sheep industry in Canada is assured, that there is no danger that it can be overdone and that it will pay well the investments of those who go into it with even modest capital and moderate skill and knowledge were the expressed views of experts and experienced producers who addressed the annual meeting of the Alberta Sheep Breeders' Association here. The speakers included F. S. Freeborn, Dominion livestock commissioner; J. G. Robertson, livestock commissioner of Saskatchewan; and Prof. J. P. Sackville, of the University of Alberta.

Wheat Exports Drop

Increase In Stocks Of Grain In Canada Is Shown

Fort William, Ont.—A decided decrease in the export demand for Canadian grain, with a consequent increase in the stocks all over the country, is reported by E. A. Ursell, statistician to the Board of Grain Commissioners.

Export of the new Argentine crop is under way, and Mr. Ursell points out that this may account for the falling off of export demand for Canadian wheat.

No Announcement

Ottawa.—Premier Mackenzie King declined to make any announcement with respect to the report of the national advisory committee on St. Lawrence waterways. The Prime Minister stated merely that the report had been received. As the subjects treated in it were matters of international negotiation, it seems likely that no announcement will be forthcoming until Parliament meets.

Ban Morbid Film

Victoria. — Attorney-General Manson has taken steps through the board of censors to prevent display in motion picture houses of British Columbia pictures of the Los Angeles Marian Parker murder case.

World Grain Records Created by C.P.R.

World records in grain marketing during the peak of the movement were created this fall by the Canadian Pacific Railway. A recent statement issued by A. Hutton, General Superintendent of Transportation of the Company, shows that in the ten working days, from October 20-31, 40,474,000 bushels of grain were marketed. November 24, saw the greatest single day's marketing with 5,109,000 bushels; and 2,260 cars loaded October 24. These figures have never been even closely approached in the history of transportation. The total amount of grain handled between August 1 to the end of navigation on the Great Lakes were 172,619,000 bushels in 102,686 cars. It is estimated to the end of December approximately 190,000,000 bushels were moved over C.P.R. lines.

Growth of the export business via Vancouver in grain is shown by the fact that in the period mentioned above, 9,420 cars of grain were handled by the Canadian Pacific to that port against 7,398 cars in the same period of 1926. Similar growth is shown in the opposite end of the Dominion. In the winter months of 1925-26, there were moved 13,584,000 bushels through the port of West Saint John against 10,781,000 bushels during the same period of 1926-27.

WORLD PEACE IS GREAT AIM OF BRITISH PEOPLE

Washington.—Senator Raoul Dandurand's words to the League of Nations' Assembly in 1925 that "peace is the greatest of British interest," were quoted by Sir Esme Howard, British ambassador, in an address before the American Engineering Council here.

The Senator's statement that governments would all have to conform to the principle of peace or "their existence would be shortlived indeed," would be unhesitatingly endorsed by the vast majority of British people, Sir Esme said.

Referring to occasional criticism of Britain for holding back a little as at the time of the rejection, with full approval of the Dominion governments of the Geneva protocol for pacific settlement of international disputes, Sir Esme said Senator Dandurand had stated there had been a suggestion that the British were not in earnest in these great causes. Nothing could be more foolish and nothing more unjust.

Ambassador Howard concluded: "Believe me, gentlemen, if there is one country in the world with which both from inclination and interest we desire peace, it is the United States of America.

Seeking Discipline System For Lawyers

Sir James Aikins Giving Whole Time To Question

Toronto.—The problem of a Dominion-wide system of discipline for erring members of the legal profession became of immediate interest to Ontario with the arrival in the city of Sir James Aikins, a former lieutenant-governor and former chief justice of Manitoba.

The question is engaging the whole of Sir James' energies at the present time and is taking him on a tour of all the Canadian provinces. He conferred in Toronto with the benchers of the law society on the Ontario aspect of the proposal.

The question of discipline has been recognized by the legal profession for some time as one which should be faced but it has been left for Sir James Aikins, since his retirement form the presidency of the Canadian Bar Association to endeavor to work it out.

At the present time the only penalty which can be evoked against a lawyer who is guilty of unprofessional conduct is to have him stricken from the roll of the Bar. This penalty is so drastic since it deprives the offender of his livelihood as to be rarely invoked.

Will Take No Action

Washington.—John S. Deforest, weather bureau paymaster, contemplates no action against Henry A. Howard, 14-year-old son of Sir Esme Howard, the British ambassador, who was driver of the embassy automobile when it struck and severely injured his daughter, Beatrice May Deforest, 12 years old. "We are entirely satisfied," Deforest said in a statement.

Museum Was Flooded

London.—Sir Arthur Conan Doyle's psychic museum in Victoria Street was among the buildings invaded by the waters of the Thames. The museum was flooded to the depth of four feet with considerable damage to exhibits, some of which are unique and date back to the early days of spiritualism.

Urges Huge Naval Expenditure

Washington.—Approval of the administration's $725,000,000 new warship construction program was urged upon congress by high naval officials as necessary to the establishment of a navy strong enough to "protect commerce, preserve our ocean trade routes, and provide adequate national defence."

Hon. Peter Heenan Appointed

Ottawa.—Hon. Peter Heenan, minister of labor, has been appointed a member of the advisory council of the American Association for Labor Legislation. Hon. Mr. Heenan recently visited Washington and attended the annual session of this body.

Massey-Harris SPRAYERS

These machines are the best value dollar for dollar on the market today, and the well-known Massey-Harris quality is combined with efficiency and right price.

FOR RENT—Five room house, centrally located. F. H. Jackson, Creston.

Orin Hayden is a business visitor at Spokane this week, leaving on Tuesday.

John Fritz of Rosthern, Sask., arrived on Saturday on a visit with his uncle, H. E. Ostendorf.

CABBAGE—For sale a quantity of cabbage, $2 per 100 lbs. R. Stewart (Alice Siding), Creston.

WANTED—Will pay highest cash price for cattle of all descriptions. Ivan O'Neil Box 98, Creston.

D. W. Dow of Cranbrook was a weekend visitor with his parentr, Mr. and Mrs. J. W. Dow, at Creston.

WANTED—Team work horses, about 2800 lbs., state price and weight in writing. Albert Stewart, Creston.

Creston Post of the Canadian Legion have taken Friday evening, February 3rd, for a bridge and whist drive.

FOR SALE—Chesapeake setter pups, parents best duck and grouse dogs, ready February 15. Enquire Review Office.

Commissioners McCreath and Jackson sat as a voters list court of revision at the town hall on Monday morning, and the list as revised shows about 140 names, about half of which reside locally and thus be here to vote.

1926 Ford Car For Sale

In excellent condition.

All accessories.

$300

All information and inspection at

Bevan's Garage

CRESTON

Miss Helen G. Moore spent the weekend with her parents, Mr. and Mrs. Geo. Moore, returning to Cranbrook on Sunday.

FOR SALE—Hand engraved saddle and bridle, and Batwing chaps, all in good condition, and going cheap. F. C. Rodgers, Creston.

Creston Masonic Lodge is giving the first of its series of bridge parties for members only at the new hall this (Wednesday) evening.

$300 of poll tax was collected locally last year, as well as $165 in trade licenses outside the village. Police court fines ran to $300.

Creston Badminton Club are due to visit Canyon on Thursday, January 19th, for games with the Badminton talent of that district.

Up till the first of the week 51 auto licenses have been issued at Creston. This equals the total for the full month of January in 1927.

FOR SALE OR TRADE—Will sell or or trade 1500 lb. mare, 9 years old. In exchange would take horse about 1300 lbs. E. Naugler, Canyon.

The mild spell last week started the hens laying in such commendable fashion that the price of eggs to the seller has dropped from 50 to 40 cents.

Creston Community Players enjoyed a total intake of about $155 at their presentation of "Home Acres" at the Grand on Wednesday night of last week.

An even $800 worth of hunting and trappers licenses were issued by the Creston office of the provincial police for 1927. Amusement tax collected was $318.

Mr. Chambers arrived from Wetaskiwin, Alberta, at the first of the week to take the position of cashier at the Imperial Bank, Mr. Hotson being transferred.

H. L. Robinson was a weekend visitor at Nelson. Friends of Mrs. Robinson will be pleased to hear she has sufficiently recovered as to be able to leave the hospital.

A meeting to discuss municipal affairs to hear the views of the candidates for commissionership will be held at the town hall on Monday night, at 8 o'clock.

Village clerk Taylor reminds that dog taxes are due and must be paid at once. So far but one tag has been taken out. 1927 revenues from this source totalled $66.

Creston Valley Women's Conservative Club announce a bridge and whist drive and dance at the Parish Hall, on Friday evening, January 27th. Cards at 8. Admission 50c.

Mrs. Brown and Mrs. Boyd will be hostesses at a missionary silver tea at the home of Mrs. Boyd on Friday afternoon, January 27th, from 3.30 to 5.30. All are welcome.

Residents outside the town are also slow in coming for their 1928 dog tags, only half a dozen being issued to date. In 1927 about 100 were issued and gave a revenue of $122.

For 1927 the intake at Creston office of the provincial police office for motor licenses breaks all previous records, sales of number plates and transfers totalling $4566.

An oldtime former resident of Creston passed away at Calgary, Alberta, on Saturday in Dr. Wallace E. Cartwright. Up till some sixteen years ago deceased practised his profession at Creston and was the owner of the 30-acre ranch just east of town at present occupied by the widow of deceased's son, the late Bryce Cartwright.

Nerve Pressure !

We know that if you are sick, your sickness is caused by nerve pressure and if that pressure is relieved by Chiropractic adjustments given with the bare hands alone, you will get well. The new instrument, the NEUROCALOMETER, shows exactly where this pressure is. When after taking an adjustment, the Neurocalometer is again applied to the same spot and you, with your own eyes, see that the pressure has been reduced several degrees, possibly to zero, YOU KNOW that Chiropractic is right.

The Neurocalometer is a very delicate, sensitive instrument which, when placed upon the spine:

1. Verifies the proper places for adjustments.
2. It measures the specific degree of vertebral pressure upon nerves.
3. It measures the specific degree of interference to transmission of mental impulses as a result of the vertebral pressure.
4. It proves the exact intervertebral foramina that contains bone pressure upon nerves.
5. It proves when that pressure has been released upon nerves at a specific place.
6. It proves how much pressure was released, if any.
7. It verifies the difference between cord pressure or spinal nerve pressure cases.
8. It establishes, from week to week, whether you are getting well or not.
9. It makes possible a material reduction in time necessary to get well, thus making health cheaper.
10. It removes all doubt as to what we are doing for you.

HEALTH IS WEALTH

FOR 9 YEARS GAS RUINED HER SLEEP

"I had stomach trouble 9 years, and gas made me restless and nervous. Adlerika helped so I can eat and sleep good." — Mrs. E. Touchstone. Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Creston Drug & Book Store.

All of us have at least two pleasures in life —eating and sleeping. For 1928 the Co-Op. would like to make the former just a little more pleasurable, particularly as to quality and cost.

We congratulate ourselves on being able to fairly accurately guage the requirements of the average home, and in our buying accordingly you can absolutely rely on the freshness of our goods.

And in specializing in staple lines we get the quick turnover with the inevitable lower cost of doing business which benefit, as co-operationists, we pass on to you in the shape of more attractive prices.

This has been the experience of our constantly-growing list of customers, and we invite you to share in these benefits.

Everything carried in a fully modern Grocery and Provision Store is here. Come on in and get acquainted.
