Institute School Fair, Success

Large Entry and Keen Competition in All Grades—Open to Public School Pupils—Women's Institute Serves Tea.

Education Week was brought to a close Saturday afternoon with a display of school work in Trinity United Church hall, sponsored by Creston Women's Institute. The work was varied, from cutout landscapes in the kintergarden to photography in the higher grades. Penmanship, map drawing and art were among the display.

Judging was difficult due the high quality of the pupils' work, and was in charge of Principal Cobus of the Erickson school, and Principal Levirs of Creston high school. Mrs. Fraser was in charge of placing the work and hall decorating which was in green and white.

The Women's Institute served tea and the whole affair was well attended, parents and children alike crowding the hall viewing the display. An added feature of the tea were the menu cards designed by pupils of first year high school, all showing talent in art and lettering.

One corner of the hall was given over to Jas. Cook's cabinet display of fossils, shells, petrified wood, etc., which attracted much attention from adults and children alike. The prize winners:

GRADE 1.

Writing—Mary Jean Husband, Laurel Keirn, John Bullock.

Art—John Bullock, Henry Read, En Jones.

GRADE 2.

Writing—Bob Ibbitson, Eunice Hughes, Gwen Moore.

Art—Lewis Millin, Gloria Romano, Hawkshaw Powell.

GRADE 3.

Writing—James O'Neil, Ethel Hendren, Anna Peltzer.

Geography—Bertha Gardiner, Louise Hare, Earl Beninger.

Art—Bill MacDonald, Anna Peltzer, Helen Stewart.

GRADE 4.

Writing—Rosie Rota, Dorothea Schmidt, Jean Pridham.

Geography—Audrey Cooper, Dorothea Schmidt, Rosie Rota.

Art—Arthur Sutcliffe, Tony Joy, Russell Martin.

GRADE 5.

Writing—Esther Ostendorf, Olga Hurack, Linden Bell.

Art—David McFarland, Charlotte Wilks, Charlotte Wilks.

Geography—Charlotte Wilks, Vera Watson, Muriel Raymond.

Health—Ethel McLaren, David McFarland, Charlotte Wilks.

GRADE 6.

Writing—Thelma Stewart, Lillian Hendren, Irene Pridham.

Art—Bud Lowther, George Cartwright, Thelma Stewart.

Geography—Julian Cartwright, Steve Bullock, Thelma Stewart.

GRADE 7.

Writing—Lottie Klein, Francis Bourdon, Ruby Palmer.

Art—Lester Weiss, Edith Johnston, Helen McCreath.

Geography—Georgina Paulson, Ronald Cooper.

History—Ethel Morrow, Egon Hollm, Lottie Klein.

Map Work—Lottie Klein, Ruby Palmer, Egon Hollm.

GRADE 8.

Writing—Ruth Davis, Gordon Martin, Jessie Spratt.

Art, Object Drawing Group—Irene Brady, Charlie Klingensmith, Charlie Klingensmith.

Art, Colored Industrial Poster—Jessie Spratt, Iona Hills, Charlie Klingensmith.

Geog aphy—Iona Hills, Doris Beninnger 3rd.

History—Irene Brady, Doris Beninger, Iona Hills.

GRADES 7 and 8.

Composition—Billy Craig, Jessie Spratt, Gordon Martin.

Poster—Francis Bourdon, Egon Hollm, Louise Parry.

Class Project, best group of snapshots of Creston Valley, mounted—Miss Wade's pupils, Division 3.

The Institute is indebted to the managers of the United Church, who gave the hall free of charge. Thanks are also extended all who donated prizes.

Kitchener

Sid. Abar is busy at present putting up a summer supply of ice.

The men working on relief are busy clearing and hauling the snow of the streets of Kitchener this week.

Miss Edith Nelson was a Cranbrook visitor a few days last week, a guest of her sister, Mrs. Art Bowness, returning on Saturday.

M. Senesael, who has besn home on a two-weeks' holiday, left on Sunday for New Lake, where he is working for the Sash & Door Company.

The dance in aid of the baseball club in Hunt's hall on Friday evening was fairly well attended. A goose, donated the club, was raffled with L. Nowlin holding the lucky ticket.

Mrs. C. Senesael and daughter, Hazel McGonegal, were Saturday visitors with Mrs. D. F. Putnam, at Erickson. Miss Jessie White was a visitor with Erickson friends also at the weekend.

The bridge at Paulson's store in aid of the baseball club on Wednesday evening realized $2.40, only six tables being in play. High scores for the past month were: Ladies, Mrs. C. Senesael; gents, L. Nowlin. Low, ladies, Mrs. A. Simpson; gents, Scotty Schullard.

Erickson

Mr. and Mrs. J G. Connell were renewing acquaintances in Spokane a few days last week.

W. Bouey and Audrey returned last week from a few weeks visit with friends at California points.

Mrs. J. Mermet, Sr., left last week on a trip to Weed, California, on a visit with her son and daughter.

Jack Dodds, who is with the West Kootenay Power & Light Company construction crew at Salmo, spent the weekend at his home here.

February meeting of Erickson Women's Hospital Auxiliary was held at the home of Mrs. Percy Boffey, Wednesday afternoon, and was well attended.

Mrs. Cobus arrived at the end of the week to join her husband, Principal Cobus of Erickson school. At present she is a guest of Mr. and Mrs. E.E. Cartwright.

Mr. and Mrs. Ed. Clark, with Mr. Clark, sr., and son, Frank, left on Tuesday for a three weeks' vacation to be spent on a trip to California making the journey by auto.

Bob Currie and Jim Brown were on the Creston hockey team that played at Nelson on Sunday. They were beaten 5-2. They expect to make another trip at the middle of the week.

A meeting was held at the schoolhouse on Wednesday evening for the purpose of hearing speakers on the proposed valley-wide hospital district. J. F. Murrell was the chief speaker, telling of what they were doing in other provinces. At the close several signed a petition to be sent the authorities at Victoria asking for some action along the lines set forth at the meeting.

12 Mills Village Tax Rate, 1935

Same Rate as Previous Years—Correspondence is Heavy—Would Help Select Building Site—Amend By-Laws.

Village ratepayers will hear with satisfaction that at the February meeting of the council Monday night, the tax rate for 1935 was fixed at the familiar 12 mills—the rate that has prevailed ever since incorporation in 1924. The rate will apply on both land and improvements but the latter will be assessed at only 50 per cent. of their value. Reeve F. H. Jackson presided, with Councillors A. Comfort and C. Murrell in attendance. The session was brief and businesslike, concluding at about 8.45.

The reading of correspondence took up much of the session. There was a letter from the C P.R. divisional engineer explaining why an underground crossing of their right of-way was not to be considered at this time. A copy of a letter sent Hon. H H. Stevens in connection with choosing a site for the new $30,000 federal building was read. Another letter was from the clerk of the town of Magrath, Alberta, telling of a sewer system and disposal plant that had been installed there at a cost of $40,000, and which was operating satisfactorily. Magrath has a population of 1200.

R. Sinclair Smith wrote protesting he inefficiency of the assessor and councillors in connection with the assessment roll which the court of revision accepted on Friday last. Mr. Smith notified that he was applying to the proper authorities for an investigation in this connection. In reply to a previous letter from Mr. Smith there was a letter from the village solicitor intimating that on payment of small fee any ratepayer could procure copies of by-laws or look over the assessment roll, but that minutes of meetings and certain corresponden e could be examined on applying to the village clerk.

The clerk and board of trade publicity department will co-operate to gi e much information sought by the board of trade at Powell River. In response to a letter asking assistance for the present hospital drive the council voted to buy a $10 book of tickets.

Accounts passed for payment totalled $387, about 25 per cent. of which was for snow removal after the big January snowfall. The auditor's report was received and ordered published, and certain recommendations made by Mr. Mr. Spencer will have attention

Some amendments were passed to the Poolroom By-Law and at the next meeting considerable will be given to a minor change in the opening and closing hours of barber shops and beauty parlors. Information will also be sought as to the possibility of the village being made a bird sanctuary.

Lister

Chas. Huscroft, who is working at the mine at Tochty, was home for the weekend.

The first 1935 meadowlark has arrived It was seen on Tuesday morning near the school by Mrs. McKee.

Mrs. Rhiel, who has been on a visit with her parents, Mr. and Mrs. Bollinger, is returning to her home in Nelson this week.

Fred Yerbury and Douglas McKee were weekend visitors with Kimberley relatives taking in the ice carnival in that town.

George Hurry received a hurried call to Nelson on Monday due the fatal illness of his mother who passed away that day, in her 83rd year.

Mr. and Mrs. Reno House and family are renewing acquaintances in this section at present. They have been located at Salmo for some time past.

Lister school district ratepayer are to meet this (Thursday) evening at the schoolhouse to discuss and vote on going into the proposed consolidated high school at Creston.

The Community Society are having a St. Valentine social and dance at the schoolhouse Friday evening, 15th. Mrs. D. J. McKee and a committee of four ladies are directing the affair.

About 40 of the residents of Lister and Huscroft treated Col and Mrs. Lister to a real surprise party at their home on Tuesday when a thoroughly enjoyable time was spent at bridge, music, dancing and other amusements, with a very fine lunch served at midnight.

Adolf Marzke was host to a party of about two dozen young people at a birthday party at the home of Mr. and Mrs. Otto Becker on Saturday night. Dancing and games featured a most enjoyable evening The host has been on a visit with his sister, Mrs. Paul Meyer.

Loren, the young son of Mr. and Mrs. Bert Hobden, had the misfortune to fall while at play at home Tuesday morning sustaining an injury to his arm that necessitated his being taken to Creston hospital for an X-ray. The injury is not serious and he was able to be brought home.

Six tables were in play at the Community Society bridge at the schoolhouse on Saturday night, with the high score prizes going to Miss Curtis and Waddy Huscroft. The speakers from Creston who were expected to talk on the new hospital scheme failed to arrive. Misses Webster an Curtis were hostesses and a splendid lunch was served after cards.

Canyon

Miss Elsie Clayton has returned from an extended visit with her sister, Mrs. John Chapman, of Nelson.

A R.C.M.P. constable from Yahk was here on business in connection with naturalization papers on Monday.

Pruning is pretty general in the Canyon district So far there are no reports of frost damage or winter injury.

Canyon troop of Boy Scouts are putting on a variety entertainment at the hall next Friday night with an admission of 25 and 15 cents.

Ice conditions at the power company dam are still troublesome and men have still to be employed to keep the intake free of the floating ice.

Campbell Blair and daughter, Miss Eleanor, have left for Winnipeg, Man., where the latter will attend business college. Mr. Blair will be back before the end of the month.

Ratepayers of Canyon City school district are meeting tonight at the schoolhouse to consider joining up with the other valley districts In creating a consolidated high school at Creston.

Three baptisms featured the afternoon service at the United Church on Sunday, the pastor, Rev. A. Walker, officiating. All are members of the family of Mr. and Mrs. A. L. Barnhardt of Glenlilly. Names given are: Garry Targett, Clara Violet and Ananey Faith Arline.

A crew of ten men commenced work this week to remove a large rock obstruction at a point about 75 yards below the West Kootenay Power & Light Company, Limited, power plant at Goat River canyon. With it out of the way and giving the water free flow there will be no danger of the water backing up and flooding the plant. Considerable trouble was encountered in this respect a year ago.

Death has taken an aged and highly respected resident of Canyon in he passing of Mrs. William Barnes, at Creston hospital Monday afternoon Deceased, who was in her 81st year was born in Redding, England, in which ci y she was married and resided until 1919, when she came to Canada, to take up residence at Uren, Sask , where she resided until 1924 when she came to Canyon to make her home with her only son, Ernest, and has resided here continuously ever since. The funeral was on Tuesday afternoon from Trinity United Church, Creston, to Creston cemetery, Rev. Andrew Walker officiating and the pallbearers were . G. Wearmouth, Jas. Turner, F. Knott, A. Halstead, J. Simister and A. Bond, with many Canyon friends out to pay their last tribute of respect. Although deceased had been in poor health for some time and the end was not unexpected she will be missed and the sympathy of the community goes out to those who mourn her demise.

Alice Siding

Jack Smith is combining business with pleasuse on a visit at Calgary, Alberta, this week

Miss Opal LaBelle spent a few days this week at Lakeview, a guest of Miss Elsa Willis

Arthur Constable was holidaying at West Creston a few days last week, a guest of Reg. Sinclair Smith.

H. Reed has been confined to the house for the past few days. A kick from one of the work horses laid him up.

Bill Mather, who is interested in the wood contract for Alice Siding school, is this week delivering his share of the wood contracted for.

George, youngest son of Mr. and Mrs. George Hood had to have several stitches put in his lip which he accidently cut while playing with an axe one day last week.

The second dance of the season at Compton's hall on Friday night was quite well attended. The music was by Serenaders orchestra, and there was a fine midnight lunch.

At the ratepayers meeting on Friday afternoon the vote was overwhelmingly against going in on the proposed consolidated high school at Creston. The vote was also against the proposed hospital district to be formed from all school districts in the valley.

Wynndel Wins Over Cardinals

Maple Leafs Capture Seesaw Contest by Two Points—Review and Moore's Continue to Win—Playoffs in Sight.

The defeat of the Car inals by Wynndel by a score of 21-19 was the outstanding feature of league basketball games at Park pavilion on Friday night This upset gives the Imperial Groceteria a one-point lead over the redshirts in the men's division. There is no change in the ladies' division standing as Creston Motors went down to defeat by Moore's Garage, 20-10, and Pharmacy was trimmed by Creston Review, 11-3.

As was expected the first game between the Motors and Moore's Garage was very one sided and uninteresting throughout. The league leaders had the best of the play all the way through, the Motors being handicapped due to a shortage of players. Liz. Armitage did some nice playing for Motors and was strongly supported by Dot Wightman The latter, however, was put off the floor in the latter quarter for personals, Moore's dropping Ruth Hare to equalize the teams. Although Moore's were not playing their usual game, they had no trouble downing their opponents, with Betty Speers and Nell Payne getting most of the baskets. The teams:

Cecil Moore's Garage—Abbott, Hare, Tompkins 2, Swain 5, Crane, N. Payne 6, Speers 7. Total 20.

Creston Motors—E. Armitage 6, K. Payne, J. McCreath 3, M. Armitage Wightman 1. Total 10.

In the second game Creston Review walked over Pharmacy with an eight point lead at the final whistle. Neither team played a good game, proving a bit tiresome or the fans. The game was marked by numerous fumbles and rough and tumble pile ups. Both quints had many perfect opportunities to score but most of these were not taken advantage of. Marjorie Learmonth and Opal LaBelle starring for the druggists, with Dot Palmer and Irene Bourdon slating up the majority of the baskets for the Review. The teams:

Creston Review—Palmer 3, Bourdon 4, N. Payne 2, Levirs 2, A. Lewis. Total 11.

Pharmacy—E LaBelle, Olivier, Y LaBelle, Learmonth 1, O. LaBelle 2, F. Tompkins, Madge Moore. Total 3.

Wynndel Maple Leafs certainly gave the crowd a big surprise in their win over the Cardinals. Right from the start the Leafs were, undoubtedly, the best team, never appearing to tire or lose heart. The Cardinals were unable to get going, and were completely played before the final whistle. They had tough luck with their shooting, and, due possibly to the cold, their long, hot passes went astray too often, with Wynndel capitalizing on the Cards mistakes. All the Leafs played a wondetful game, special mention coming to Joe Martell, A. Hagen, and Os Payette. For the Cardinals Howard and Doug. Corrie and Charlie Holmes played great ball. The teams:

Wynndel—O. Payette 9, A. Hagen 7, C. Payette, O. Hagen, Joe Martell 3, Packman, B Martell 2. Total 21.

Cardinals—H. Corrie 3, Holmes 10, Cobus 3, D. Corrie 1, Gobbett, Ross 2. Total 19.

The Major Problem

Surfeited and perplexed by the multitude of theories advanced as to the underlying and basic cause of this world economic depression, and equally surfeited and perplexed by the multitude of suggestions, ideas and plans advanced as the only means whereby the depression can be ended and a permanent cure effected, tens of thousands of people are becoming callous and skeptical of all economic doctors. More and more people are asking themselves whether this very large problem, vital to the welfare of every individual and to the very existence of the nation and the civilization of the world, is being approached from the right angle.

To an ever increasing extent people are asking whether the provision of old age pensions to prevent poverty and suffering in old age is the solution, or whether that solution is to be found in the creation of conditions whereby men and women can through their own efforts and by shift and saving make necessary provision themselves for their declining years. People are inquiring whether the provision of this and that Government maintained social service to provide for their needs,—and all provided for out of taxation,—is not merely attempting to cover up "sores" and "doctor" the patient, instead of making the patient well and capable of caring for himself.

People are thinking and asking whether it is not true that, just so long as taxes are piled upon taxes to provide for these social services, the very burden of those taxes is operating to make it impossible for them to take necessary care of themselves and families and make wise provision for their future.

Mankind must work, and produce, and save against the time when their working days are over. In a word, the business of the world must be carried on, and the more business that is transacted, the more it is produced and exchanged for other products, the better it is for all concerned. Consequently, the fewer restrictions imposed upon the carrying on of the world's business, the better. This great truth is sinking deeper into the minds of men.

Therefore, without further comment, we quote an editorial article appearing in one of Canada's most widely circulated magazines, a publication having no political party affiliations, but which discusses Canadian and world problems in a fair and impartial manner. Under the title appearing above, it says:

"These are the days in which we are regaled or surfeited with economic theories—some ancient and some modern, some untried and some exploded, some original and some borrowed, some thriving and some still-born, some springing like Minerva, full-armed from the head of Jupiter, others old and decrepit no longer fitted for service in a changed world, some that promise better social conditions and more enduring prosperity, and others that if followed would surely lead to anarchy and moral ruin. It may be profitable to consider some of these theories at another time. To-day it is more fitting that we should concern ourselves with a concrete problem—one that is growing to be more and more serious, and which must be solved if any of the economic theories now advanced can be rendered workable.

"The basic industry in Canada is agriculture. The basic product in agricultural is wheat. The basic need in the wheat industry is marketing. The basic condition of marketing is exchange values. The basic condition of exchange is open trade. That is lacking at the present time. For four years we have deliberately closed the door. We have thereby encouraged countries which might have exchanged goods with us to grow their own grain. Now we are shut out—some people say forever. True, of late there has been an attempt to undo the mischief, but there has been no apparent success. An accidental shortage of food for stock in the United States made it possible to dispose of some low-grade products, but the granaries are still filled with the best the country has produced. The figure has been given as 286,000,000 bushels. We do not say this is correct, but the exact figure is not essential. Should we sell 4,000,000 bushels a week from now till harvest we should yet have some in store. Some weeks we cannot hope for any such sale as that.

"It is beyond our wisdom to say which is better—to hang on to the surplus in the hope of better days, or to dump a lot on the market at greatly reduced prices in hope of clearing the way for next year's supply. That is the problem for Mr. McFarland, the government, and the farmers to settle.

"Yet it is a major problem. There is nothing to be gained by side-tracking it in discussing general economic theories. They need to be discussed without doubt but just now they are secondary. The first problem for Canada is the restoration of world trade. This means the re-writing of the tariff schedule. Is our government prepared to re-write it? Is Mr. Stevens prepared? Is the opposition?"

The "Lift" and Energy of Cod Liver Oil

PLUS

GREATER EFFICIENCY

Vitamins A and D, abundantly found in Scott's Emulsion, bolster up tired, Winter-worn bodies, restoring vitality and strength. But Scott's Emulsion gives you more: Emulsification—the minute breaking up of the particles—making for quicker assimilation, easier digestibility. Yet none of the virtues of pure cod liver oil are lost. One of the PLUS values you get only in Scott's Emulsion.

SCOTT'S EMULSION

THE COD LIVER OIL WITH THE PLUS VALUE

For Sale by Your Druggist 5A

The Baby Airplane

Machine Produced In England Weighs Only 190 Pounds

We have had baby grand pianos, and baby automobiles, and have had jokes poked at the baby Austen, but now comes the baby airplane. A baby aero engine has been produced in England, capable of developing a hundred horsepower and weighing only 190 pounds. The engine is fitted in an "upside-down position, allowing the pilot a clear field of vision. Self-starters are fitted with it, so that the pilot climbing in, merely touches a button and away goes the baby machine like the starting of a motor car. Many of us may yet live to see these babes of the air thick as midgets in the summer time.

Perfect Engineering

Crew Drilling Tunnel From Opposite Sides Met In Centre

A direct bull's-eye was scored by two tunnel excavation crews on the Colorado River aqueduct recently when they met in the centre of a mountain after having drilled from opposite side for 17 months.

The bore was 3.8 miles long, 17 feet in diameter and represents the first major section of tunnel to be completed on the project by which southern California municipalities seek to augment their water supply. Four shorter tunnels have been completed.—Christian Science Monitor.

HIS LUMBAGO HAS NOT COME BACK

Keeps Free Of It With Kruschen

There can be no doubt about the effectiveness of the remedy this man uses against lumbago. Read his letter:—

"About four years ago, I had a bad attack of lumbago. After being in hospital for two weeks taking heat treatment, I started taking Kruschen Salts. Since then, I am happy to say, I have not been troubled with lumbago. I shall still continue taking Kruschen to be sure the lumbago won't come back."—A. C. C.

Why is it that Kruschen is so effective in keeping lumbago at bay? Simply because it goes right down to the root of the trouble, and removes the cause, which is an impure bloodstream. The six salts in Kruschen keep the bloodstream pure and vigorous by promoting a clockwork regularity of all the organs of elimination.

Twenty Years Late

French Court Clears Family Convicted As Spies During War

Tardy vindication of the memory of a French family, two of whom died in jail for allegedly spying and aiding the enemy in war time, was granted on Jan. 19 in a military court. A total of 28,000 francs in damages ($1,850) was awarded to surviving members of the family of Louis Moreau, who had been fighting for twenty years to clear their name.

Moreau and two of his sons were sentenced at the time to penal servitude in French Guiana, while his wife got a prison sentence for allegedly signalling to Germans with a bicycle lamp. Moreau and his wife died in jail. The two sons later were pardoned by a post-war premier as victims of "war hysteria."

The court decided that the light flashes seen at Moreau's house had not been proved to be signals, since the Moreaus did not know how to send code messages.

A Real Brainwave

Chinese Warlords Impose "Friendship Tax" To Raise Money

Warlords of the province of Szechwan, in China, found when they discussed ways and means of filling their empty treasure chests that there was nothing left on which to impose new duties. Then one of them had a brainwave—why not a "friendship" tax? Now all civilians have been ordered to pay a new levy which will guarantee the friendship of the soldiery. They have been warned that if the "good feeling tax" is not paid cheerfully and promptly, "immunity from the enmity of the army cannot be promised."

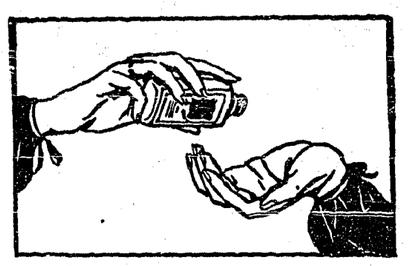
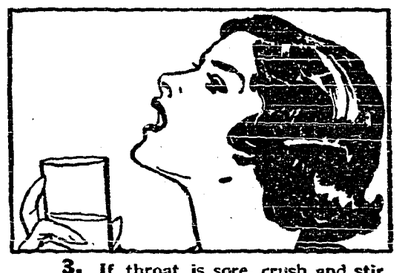
HOW TO RELIEVE YOUR COLD ALMOST AT ONCE



1. Take 2 Aspirin tablets.

2. Drink full glass of water. Repeat treatment in 2 hours.



3. If throat is sore, crush and stir 3 Aspirin tablets in a third of a glass of water and gargle. This eases the soreness in your throat almost instantly.

Follow Simple Directions Here For Quick Relief

When you have a cold, remember the simple treatment pictured here . . . prescribed by doctors as the *quick, safe way.*

Results are amazing. Ache and distress go immediately. Because of *Aspirin's* quick-disintegrating property, *Aspirin* "takes hold"— *almost instantly.* Your cold is relieved "quick as you caught it!"

All you do is take *Aspirin* and drink plenty of *water.* Do this every 2 to 4 hours the first day—less often afterward . . . if throat is sore, the *Aspirin* gargle will ease it in as little as 2 minutes.

Ask your doctor about this. And be sure you get ASPIRIN when you buy. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every *Aspirin* tablet. Aspirin is the trade mark of the Bayer Company, Limited.

DOES NOT HARM THE HEART

New Chemical Formula

Discovery May Help In Treating Nerve Disorders

Columbia University has announced discovery of the chemical formula of Vitamin B, an epochal step toward preservation of health.

B is the nerve vitamin, without which nerves go to pieces. The discovery gives hopes of more effective treatment of nerve disorders.

Until now Vitamin B has been available only from foodstuffs such as tomatoes, spinach, legumes, eggs, yeast, liver, kidney and other glandular tissues. Its extraction was difficult and it has not been obtained entirely pure.

Synthesis will produce the pure vitamin, and it is expected to do so in virtually unlimited quantities. The formula was discovered by Robert R. Williams of Columbia.

The atoms composing the vitamin are carbon, nitrogen, hydrogen, oxygen and sulphur. This fact has been known for a long time. The discovery is how to hook them together so that they will be Vitamin B.

Key West, Fla., has one street which runs from the Gulf of Mexico to the Atlantic ocean; it is Duval street.

Portugal Has Problem

No Room For 282 Convicts Sent Back From Colonies

Two hundred and eighty-two convicts—and nowhere to put them. This is the problem which is puzzling the prison authorities in Portugal. The convicts who have arrived in the country from Portuguese colonies, from which they have been sent as convicts from Portugal, can no longer remain in the colonies. Many hundreds are to return to their native land, in accordance with the provisions of the Colonial Act. The 282 who have arrived cannot be accommodated in Lisbon's prisons as these are already overcrowded. They are to be placed in "concentration camps." Many are criminals of the worst type.

The Overseas Daily Mail says P. C. Walter J. Taylor, who has just retired after 26 years' service in the Southampton police, is believed to be the man who fired the last shot in the Boer War—and, by mistake, injured a British corporal.

New York has been the largest city in the United States from the time of the very first census, 1790, when it had 33,000 inhabitants.

IN ONE POT

Cook these three Cauliflower VEGETABLES without intermingling of flavors

It really is possible to cook such strong-flavoured vegetables as onions, cauliflower and carrots all in one pot entirely without intermingling or escape of odour. You simply wrap them in Canapar Cookery Parchment.

That not only stops mixing of odors—but it causes the vegetables to retain all their own natural goodness and flavour. Vegetables cooked the Canapar way are most delicious.

Bake or boil fish in Canapar, too. And line meat pans with Canapar. Save fuel. Increase goodness and flavour. End risk of burning fats. And eliminate pot scouring.

Appleford PAPER PRODUCTS LIMITED

HAMILTON, ONTARIO

FAVOR PLAN TO DEAL WITH THE DROUTH PROBLEM

Saskatoon. — Two useful points were seen by Dean A. M. Shaw, head of the Saskatchewan college of agriculture, in commenting on the proposals of Hon. Robt. Weir, federal minister of agriculture, for dealing with the drouth problem in southern Saskatchewan.

The collection of detailed information was an excellent step and he also thought that the scheme was good in that it did not call for great expenditure of public money. Many of the suggested larger schemes called for more conclusive evidence than at present existed, Dean Shaw commented.

A drouth plan similar to that proposed by Hon. Robt. Weir was recommended by a committee on agriculture reporting to the Bryant commission two years ago, Hon. J. G. Taggart, Saskatchewan minister of agriculture, said.

Dean A. M. Shaw, Dr. L. E. Kirk and Mr. Taggart were members of that committee.

The plan was recommended as a means of getting information about the best method of dealing with drouth conditions.

Mr. Taggart said there was a lack of evidence to support many ideas put forward to combat drouth.

While the scheme would be valuable as a means of getting information its effects could not be felt for some years even in the areas where the work was undertaken. The eight townships selected as demonstration townships might contain 320 farmers, while the number of farms in the area affected by drouth was about 40,000.

"While these demonstrations are set up and carried on, we cannot allow these farmers to wait without applying such knowledge as we have towards their problems," Mr. Taggart said. "We propose to go ahead with our plans at once although welcoming any information that may come from these demonstrations," he concluded.

Butter Costs

Cost Of Manufacturing Pound Of Creamery Butter

Saskatoon.—The average cost of manufacturing a pound of creamery butter in the prairie provinces last year was 3.65 cents and the average creamery turned out 348,432 pounds. These figures were given by C. V. Parker, economics branch, Ottawa, to the manufactureres' session of the provincial dairy convention.

Mr. Parker's survey showed the largest creameries to have the lowest manufacturing cost per pound of butter produced. Plant wages and overhead were much lower in the large plants but salaries and other administration costs were higher.

The highest cost for making a pound of butter in a creamery was 6.71 cents and the lowest 2.42 cents. The big creameries had higher transportation costs.

Application Refused

Vancouver. — Application of Attorney-general Gordon Sloan for leave to appeal to the Supreme Court of Canada from a judgment of the British Columbia court of appeal, ordering a new trial for three Indian brothers convicted of murder, has been refused by Chief Justice Sir Lyman Duff.

Indian Is Fined

Prince Albert, Sask.—Believed the first case of its kind in Canadian court history, John Smith, Jr., a treaty Indian, was convicted on a charge of carrying firearms on a game preserve. The hearing was considered a "test" case and it was believed an appeal would be launched.

Admiral Byrd Sails For Home

S.S. Jacob Ruppert, at Sea.—The second Antarctic expedition of Admiral Richard E. Byrd turned away from Little America and headed for the civilization it left behind 17 months ago.

Riots In Paris

Many Communists Are Arrested And Arms Confiscated

Paris. — A dramatic last-minute descent upon the capital of several thousand Communists from outlying "Red" districts was broken up by police with 1,200 "preventive" arrests to commemorate the anniversary of the fatal riots of 1934.

Confiscating pistols, clubs and cans of explosive material, police pounced last night upon Communist groups converging on the Place de la Concorde, focus of the bloody riots a year ago where 19 met death, after a generally quiet day marked only by memorial services and elaborate police precautions.

Shortly after midnight police arrested a band of 40 Communists, armed with revolvers and daggers, near the Elysee palace, residence of the French president. Police said they were heading for the Place de la Concorde.

In the earlier roundups two shots were fired but nobody was hurt.

The Reds were picked up at railroad stations, subway entrances and autobus entrances on the outskirts of the city as they gathered from the "Red belt" around Paris and headed toward the centre of the city.

The Communists apparently responded to orders of their leaders to assemble at the Place de la Concorde. The Rightists sought to gather there after their memorial meeting. They came from the outlying suburbs in large groups.

Meanwhile, the Patriotic Youth organization marched 3,000 strong under police escort after the memorial meeting to the Arch of Triumph. There they dipped their flags in salute to the unknown soldier and dispersed.

Shortly after midnight the Place de la Concorde was practically deserted.

Premier Pierre-Etienne Flandin was hooted and hissed, the Place de la Concorde was splashed with red paint and milling crowds clashed twice with police in minor scuffles.

Large Sum Collected

Excise Tax On Sugar Brings Over Eight Million

Ottawa. — The sum of $8,546,119 was collected from the excise tax on sugar from last April to Dec. 31, according to a return tabled in the House of Commons. Of this total, $8,222,675 was collected on domestic sugar sold and the balance of $323,444 on imported sugar.

For April last, the tax was at the rate of two cents per pound, but this was reduced to one cent from May 1 under the last budget.

Royal Wedding Gown

Gown Worn By Duchess Of Kent May Be Placed in Londno Museum

London.—It is expected the bridal gown worn by the Duchess of Kent on the occasion of her marriage to Their Majesties, youngest son, on Nov. 29 last, eventually will be placed permanently in the London museum. The museum already holds many other similar royal robes. The dress was on view at St. James Palace for some time, along with the exhibition of wedding presents.

To Donate Park

Paris.—France will cede to Canada a 4½-acre strip adjoining the famous cemetery of Canada's war dead at Vimy, Pas de Calais, if a bill introduced by two French cabinet ministers is enacted into law. The land is used as the site for a park and monument to the memory of Canadian soldiers killed from 1914 to 1918.

Librarian Of New Bank

Kingston, Ont.—Miss Mary Rowland, graduate of Queen's University and at present assistant in the reference department at the Douglas library, has been appointed librarian of the Bank of Canada in Ottawa, and assistant to D. A. Skelton. Miss Rowland assumed her duties February 11.

Pension Applications

Ottawa.—Probably from 45,000 to 50,000 pension applications will require adjudication by the Canadian pensions commission in the next two years, according to a return tabled in the House of Commons.

WILL SUPPORT INDIA BILL

Lord Sinha, India's only peer, is expected shortly to take his seat in the House of Lords, when he will support the British Government's India Bill in the Lords' debate. Lord Sinha has been prevented from taking his seat in the House of Lords due to the fact that he could produce neither birth certificate or his father's marriage certificate when his father died. The first baron married according to the Hindu custom, and it is believed that no certificates, such as are required in England, existed.

Dominion Status For India

Stated That This Is The Ultimate Goal Of British Policy

London.—A definite pledge that Dominion status was the ultimate goal of British policy in India was given by Sir Samuel Hoare, secretary of state for India, as debate opened in the House of Commons on second reading of the bill providing a new constitution for that country.

The declaration was considered as the answer of the government to criticisms levelled in many quarters against omission from the proposed bill of any mention of dominion status.

Sir Samuel said there was no need of a preamble to the present bill similar to that of the act of 1919, which the government had no intention of repeating. That preamble was interpreted by the viceroy in 1929 (Lord Irwin) with the full authority of the government of that day as meaning that dominion status was contemplated as the natural issue of India's progress. The present government stood firmly by the viceroy's statement and the preamble.

Students From Australia

Toronto.—Sixteen young women, students of the School of Science, Sydney, Australia ,were welcomed to the University of Toronto by president H. J. Cody. The purpose of their visit is to gain first hand knowledge of how the schools on this continent are dealing with social problems.

Merge Departments

Ottawa Legislation Contemplates A New Set-Up

Ottawa.—Amalgamation of railways and canals, civil aviation, wireless and telephone services and the Canadian radio commission under one minister is contemplated in legislation to set up a department of communications as forecast in the speech from the throne.

The measure will be presented to parliament shortly but will be preceded by acts respecting hours of work which may be brought down this week.

Few details of the merger of communication activities under the new department have been made public and complete information will have to await presentation of the measure in the House of Commons. It is known, however, that the department will have jurisdiction over telephone and telegraph rates. Inclusion of railways and canals removes the necessity of creating an additional portfolio.

Jurisdiction over the Canadian radio commission will be taken away from the department of marine but it is understood the radio-telegraph branch of that department will not be disturbed.

Other items of reform program are approaching readiness for introduction of legislation. They include establishment of an economic council, which will start shortly.

Preparing To Give Reports

Mass Buying Commission Working On Exhibits And Records

Ottawa.—Members of the royal commission on price spreads and mass buying were delving into a mountainous heap of exhibits and records, analysing statistics, studying evidence and comparing notes preparatory to writing their report—or reports. It was believed a majority and two minority reports may emerge from the commission. Examination of all the documents will occupy about three weeks, Chairman W. W. Kennedy said.

Test Proved Fatal

Madras, India.—A fatal test of a snakebite cure for acute tuberculosis was made by a brahmin here. Inspired by his diety, the triple-headed goddess Datu, to try the cure, the brahmin ferreted out a cobra, the deadliest Indian reptile, and permitted the snake to bite him repeatedly. He died in agony shortly afterward.

Predicts Ocean Air Route

Plymouth, England. — Sir Philip Sassoon, British under-secretary for air, told the Plymouth Chamber of Commerce he looked forward to inauguration of a trans-Atlantic air route from Britain to the United States and Canada.

ROYALISTS HONEYMOON IN NEW YORK

United in marriage at a brilliant royal ceremony in Rome, Prince Alessandro Torlonia and his bride, the Infanta Beatrice, daughter of the exiled King Alfonso of Spain, are pictured upon their arrival in New York City on their honeymoon.

KIDNAPPER IS GIVEN FIFTEEN YEAR SENTENCE

London.—The week-old trial of David Meisner ended when the former Cincinnati gambler was convicted and sentenced to 15 years in penitentiary on charges connected with the kidnapping of John S. Labatt, wealthy London brewer, last August.

After deliberating one hour and 13 minutes, a Middlesex county assizes jury composed of 10 farmers, a jeweler and a painter, brought in a verdict of guilty on each of three counts.

Mr. Justice G. F. McFarland then sentenced the bookmaker. Meisner heard the same sentence on each count, all to run concurrently.

Two counts dealt with the kidnapping—the abduction and detention of Labatt—and the third charged Meisner with armed robbery. Labatt was abducted near Sarnia last August 14.

The armed robbery charge arose from the theft of $99 from Labatt's person when he was taken captive.

Meisner's pallid face wore little expression as he faced the jurors. His mouth dropped slightly as he heard "guilty" pronounced on each count. Before the verdict was announced by Donald Bright, 30-year-old farmer, Meisner mopped his face with a mauve silk handkerchief.

Meisner's expression did not change but he learned forward and the corners of his mouth moved nervously after the final pronouncement.

Cut In Dole Payments

Riots Staged In Sheffield As A Protest

London.—The cabinet met to consider modifying the provisions for unemployment relief under the unemployment assistance board while protests against the system were voiced through the country.

The government took note of the growing unpopularity of the "needs test" regulations framed by the board and Oliver Stanley, minister of labor, ordered a "standstill" on the regulations and promised that all cuts would be restored.

The protests took violent form at Sheffield. Nine policemen were injured and between 20 and 30 persons arrested when several thousand people clashed with police. The crowd tried unsuccessfully to send representatives to interview the city council. Stones were thrown and mounted and foot police had to charge into the crowd before order was restored.

Local communities and groups of unemployed in sections where inequalities have been charged—and hardships in some instances officially admitted—registered demands for adjustments of the scales, which, if accepted, probably would bring about general increases in the old rates.

Coincident with the creation of the board new regulations were arranged which sliced "dole" payments in some sections and increased them in others.

A general uproar resulted. During recent weeks hundreds of sectional protests, including one demonstration in the public gallery of the House of Commons, have taken place. An estimated 300,000 persons attended various meetings in South Wales alone.

Would Destroy Prize Poultry

Toronto.—All prize birds entered in poultry contests should be slaughtered immediately after the competition, Dr. C. H. Weaver of the Dominion experimental farm, Ottawa, told members of the Canadian National Poultry Record Association in convention here. "Only by such radical action can the spread of infection and contagious diseases among poultry be checked," he said.

Ship Fodder From North

Prince Albert. — An average of 1,500 cars of fodder a week is being shipped from farmers in the Prince Albert division of the Canadian National Railways. About 65 per cent. of the baled fodder is for export to the United States, the remainder is to alleviate the feed situation among farmers in the drought-stricken areas of southern Saskatchewan.

Board of Trade '35 Committees

Consider Raising Membership Fee to $10—May Seek Federal Incorporation — Endorse W.I. Federal Relief Resolution.

Business before the February meeting of Creston Board of Trade on Tuesday night was, for the most part routine. President Mallandaine was in command and there was a turnout of about 20 members. The outstanding feature was a notice of motion that the annual membership fee be raised from $3 to $10. The president announced the standing committees for 1935 as follows:

Education—F. P. Levirs, Frank Putnam, M.P.P., H. W. McLaren.

Membership and Entertainment—Dr. McKenzie, G. H. Kelly, W. Donaldson.

Agriculture and Irrigation—Guy Constable, F. H. Jackson, J. B. Holder.

Industries—C. O. Rodgers, C. W. Allan, G. Johnson.

Highways—F. V Staples, G. Sinclair, J. G. Conneil.

Municipal and Hospital—Jas. Cook, Chas. Murrell. H. A. Powell.

Publicity—C. F. Hayes, S. A. Speers, R. J. Forbes.

The correspondence included a letter from Vancouver Board of Trade stating that when the business men of the coast metropolis take their trip through the interior, Creston will be made a port of call if at all possible. A letter from the hospital board asking the board of trade to back the membership drive by buying one or more books of tickets was left over till the March meeting when it is hoped funds will be available to comply with the request

There was a letter from the Associated Boards of Trade of the Fraser Valley asking what the local board thought of reviving the Associated Board of Trade of B.C., which has not functioned since 1926. This will be decided upon at the March meeting.

A resolution from the Women's Institute urging that unemployment relief payments be assumed in full by the fed eral government was endorsed. The executive will look into the matter of hav ing the local board apply to the federal authorities for permission to incorporate under a Dominion charter.

Chas Murrell reported at some length on the meetlngs the hospital committee had held at Creston and Wynndel in connection with erecting all the valley school districts into a hospital district, and asked for a more sympathetic support of this work by board members by attendance at future meetings, the next one at Canyon on the 20th. J. B. Holder reported briefly for the irrigation committee, and the president told of answering a letter from Eureka, Montana, from a gentleman seeking information about the village and district

1934 WITH THE LEGION

By JOHN BIRD, President

In reviewing the activities of the past year it is a source of pleasure that material progress can be noted in the affairs of this Post. During that time twelve new members have been admitted and the membership now stands at 46.

Meetings have been held regularly throughout the year with good attendances, which speaks well for the interest that has been taken by the members. The matter of building a hall was discussed and voted down as being inadvisable at this time.

In April Comrade Mallandaine was presented with the gold badge and Certificate of Life Membership, as a tribute to his never failing help and intesest in all matters pertaining to the conduct of Legion affairs.

Many members wives and friends enjoyed the hospitality of Boswell people following their Ypres memorial service. About a dozen members visited Kellogg, Idaho, where Comrade Mallandaine was delegated by the B.C. Provincial Command to organize a Post of the Canadian Legion in that city, which function was carried out in splendid fashion, and attended by many leading citizens. Our Canadian comrades there and citizens generally treated us to a right good time. The Kellogg comrades paid a return visit at July 1st and were looked after by members of the local post.

In October Comrade Mallandaine officiated at the reorganization of the Spokane Post of the Canadain Legion, and was accompanied by several members, who reported a very pleasant visit.

The annual picnic was held in August at the second bend of Goat River and was a huge success in every way.

The Armistice Day parade was largely attended by veterans. The Boy Scouts again paraded and we were also glad to welcome the Girl Guides. The addition of these two branches serves to widen public interest n this very important anniversary. Owing to Armistice Day falling on Sunday the usual banquet was not held. The dance held on November 12th was a great success, thanks to the fortunate choice of the Imperial orchestra of Cranbrook. Referring to Armistice Day we are pleased to note that the government is to make it a statutary holiday.

Christmas was made bright for the home of many veterens, irrespective of wether they were Legion members or not, by the Chri tmas Hamper Fund, and the distribution from same was on a larger scale than previously.

Notwithstanding the many calls on our finances during the past year I am glad to say we have finished up with quite a nice balance in hand.

I wish at this time to voice the appreciation of the Legion to the general public for tneir generous support accorded us in the poppy and poppy wreath sales. Armistice Day dance and sale of Christmas hamper fund raffle tickets, and would bespeak the same kindly support for the future.

Great praise is due the Women,s Auxiliary for their unselfish labors on behalf of the legion in many ways. The sale of poppies and wreaths by them established a record.

I wish to thank the members for their attendance at meetings and interest with which all matters have been debated and especially do I wish to thank the members of the executive whose ready and willing help at all times has helped to make the work of pas year so successful and pleasant.

Before concluding I cannot refrain from commenting upon the necessity of an increased membership. There are many veterans n the valley who should be active members of this organization. As we were a unit on the battlefield so should we be one large unit today, doing our utmost to look after the interests of those who need our aid.

In placing before you thss call to duty I cannot think of any greater appeal than that which is contained in the poem of Canon Scott entitled "The Unbroken Line."

"We who have trod the borderlands of death.
Where courage high walks hand in with fear,
Shall we not hearken what the spirit saith,
'All ye were brothers there; be brothers here."

Let us draw close in these narro ver years;
Before us still the eternal visions spread;
We who outmastered death and all its fears
Are one great army still—living and dead"

Wynndel

Gus. Rudd of Moyie was a Wynndel visitor last week.

Wynndel Co-Operative Fruit Growers Association began putting up ice on Sunday.

A meeting of the Ladies' Aid was held at the home of Mrs. Ogilvie on Thursday last.

Miss Marion Cooper of Creston was here at the weekend on a visit with Miss Leah Abbott.

Anglican Church service on Sunday, 17th, at Mrs. Rumsey's at 11 a.m. Holy Communion.

The February meeting of Wynndel Women's Institute will be held in the church, Thursday, 21st, at 2.30 p.m.

Mrs. Birch was called to Cranbrook last week on account of the death of her father, Mr. Baxter. Mr. Birch was at Cranbrook on Wednesday for the funeral.

Mrs Boutery and daughter of Bellvue, Alberta, were visitors last week, guests of the former's father, brother and sister, J. B. and A. F. Rudd and Mrs. R. Dalbom

A bridge in aid of the basketball club was held at the home of Mrs. Martell, Saturday evening. First prizes went to Miss Elleen Dubar and E. Ostrensky. Consolation, Miss Leah Abbott and Fred Hagen.

Wynndel was shocked on Friday to hear of the death of Alex. Cameron at Coleman, Alberta, where he was spending the winter. Deceased will be very much mlsed in social as well as church circles. A Memorial service will be held in the United Church Sunday morning at 11 o'clock.

The K.K. Klub benefit military whist and dance on Wednesday, 6th, was well supported, over $22 being taken at the door. Prize winning tables were: 1st, Spain, R. Uri, captain; Mrs. M. Wigen, Mrs. A. Benedetti and Mrs. Lachat. 2nd, Canada, E. Ostrensky, captain; Mrs. Gregory, Stan Gregory and Mrs. Rudd. Music for the dance was supplied by Messrs. Ness and Goplin, backed by local talent. Lunch was provided by club members.

Sirdar

Robert Stewart was a business visitor to Creston, Thursday.

Miss Francis and Joe Talarico were visitors to Creston for the weekend.

J. S. Wilson was a business visitor to Cranbrook and Kimberley this week.

Mr. Gahns, public works master mechanic, Nelson, was here on a business vis it Monday.

A good shipment of beef was made by a local rancher this week the destination being Trail.

Clarence Wilson of Wynndel was here with his truck for some equipment from Kuskanook.

The water as indicated by guage at Slough bridge reads 1 95 a fall of 0.20 for the week.

Mrs. Tucker of the Lodge, Kuskanook, was a visitor to Creston at the beginning of the week.

Mrs. Thackuk and sister, from Cranbrook, along with Mrs. Keliman, were visitors at Creston Thursday.

F. Patnam, M.P.P., along with E. S. Jones of Cranbrook, were here on Wednesday on their way to Nelson.

A. Vito is at Cranbrook for medical attention. In his absence Carl Lavezello takes his place in the section gang.

Mr. and Mrs. Art. Reed and baby of Creston, were here on a visit to Mrs. Reed's parents, Mr. and Mrs. Tillot on.

Gerald Timmons of Creston was a business visitor during the week and proceeded to the Lakeview Mines, Twin Bays.

Arthur Glasier of Wynndel made a stay over here Saturday on his way to Nelson where he went to seek medical advice.

Gravel is being hauled from the pit at Washout Creek to Wynndel for use in the construction of a concrete flume on the dyking project.

Donald Bolton was home at Creston at the weekend visiting his mother who was unfortunate enough to fall and receive an injury to her wrist.

Thos. Rogers was a business visitor to Creston, Saturday. Frank Hamilton and J. S. Wilson were business visitors to Creston during the week.

A. L. Palmer, road superintendent, Creston, made a trip of inspection over the roads at the beginning of the week. Roads are now coming into good shape.

Mr. McLeod, mine manager of the Sanca mines, returned from a business trip to Vancouver and Calgary on Thursday, making the trip from Calgary by stage.

Lin. Anderson, who has been an inmate of Creston hospital for the past ten days, returned to his home Monday, but it will be a few days yet before he is able to resume his duties.

Sirdar was well represented at the benefit military whist and dance held at Wynndel, Wednesday. Those making the trip were George Everal, D. Bolton, Matt. Hagen, Syd Rogers, Charles Lombardo, Dominic Passcuzzo, Tony and Arthur Lombardo, and Frank Hamilton.

Sirdar were visitors to Boswell on Thursday where they were the guests of the Boswell Badminton Club in a splendid evening's play. Sirdar were vanquished 10-5 After the match lunch war served and an enjoyable evening had by all. A return match will be played at Sirdar, Tuesday.

Boswell hockey te m journeyed to Sirdar on Sunday, February 3rd, and played before a large number of spectators. Sirdar were in splendid form and inflicted a decisive defeat, the score being 14 5. A. Ringwell was the referee. Boswell players: Bill and Samu l Mackie, Jim Johnston, Dick Maloy, Lloyd Cummings, Steve Sherman. Sirdar—Syd Rogers, Dominic Passcuzzo, Buff Cam, Fred Martello, Arthur and Chuck Lombardo.

Boswell hockey team made a trip here Sunday and met Sirdar team on good ice. The local team proved very much the masters of the visitors and beat t em by 17-1. The game was refereed by Vincent Cherbo. Players: Boswell—Bill, Albert and Samuel Mackie, Dick Maloy, Lloyd Cummings, Dan and Jim Johnston. Sirdar—Syd. Rogers, Dominic Passcuzzo, Buff. Cam, Fred Martello, Arthur and Chuck Lombardo. Following this a game was played with Creston juniors which was also won by Sirdar. Score 8-1.

Our K. B. O. Broadcast

Grand Forks' first badminton club has just been organized.

Commencing the first week in February the Miner will be issued twice a week at Rossland.

At Grand Forks the carcass of a chased deer that had to be shot, was handed over to the hospital.

Last year the hospital at Invermere operated at a per capita cost of $3.17. There were 1721 Hospital days.

The Courier states that L. Lundy at Cranbrook is now growing almost enough mushrooms to supply the local trade.

The game warden at Bonners Ferry states that about 600 deer are being fed daily at half a dozen feeding stations in Boundary country.

The Herald states that poison bait is being set out at various points near Bonners Ferry to kill off coyotes aud other predatory animals.

Appropriations have already been made for new postoffice buildings at Penticton and Kelowna. The latter place gets $65,000. Penticton gets $61,000.

Okanagan advices are to the effect that while export apple prices are 10 per cent. lower than last season. domestic markets are about 10 per cent. better. There are more apples in storage, however, than at this time a year ago.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, FEB. 15

STATES CRESTON'S CASE

By OBSERVER

We have had several news paper references to Creston's selling tactics and the detrimental effect this has been to the apple market on the Prairies. The latest comes in the last issue of the Vernon News. The writer believes some explanations of the situation from Creston's angle might not come amiss and might bring about a better understanding of the matter.

Certainly no marketing scheme born and reared in the Okanagan, nurtured and planned to take care of their marketing problems, can ever be expected to fit our needs here. This may sound to Okanagan ears a very startling announcement, but only for the reason that our problems are not understood there. We also know that no scheme or plan launched in the Okanagan can ever be a success unless it covers the whole B.C. fruit deal.

The results of the administration of the new Marketing Act by the B.C. Tree Fruit Board this season has most certainly proven to at least the present members of that body the truth of the above, and in all fairness to them, we in Creston are convinced that they are among the first men from the Okanagan to ever make an honest effort to get an understanding of the problems here. These men made a very careful study of the whole problem and decided that in all fairness to Creston it should be permitted to leave the pool. No doubt this came as a surprise to a good many shippers and growers over there but we repeat, that is because the reasons are not understood by them.

Consider these points and then decide if we could play one hundred percent on the present plan:

1. Creston has no cold storage facilities whatever to cope with an apple storage deal.

2. We have no chance to make up the mixed cars and tailor mades as supplied by the Okanagan by reason of her cheap assembly rates and close proximity to all the varied commodities produced there. These mixes are supplied at the same prices that we should have to charge for straight apple cars. During the fall months very few buyers on the Prairies wanted straight cars of apples and would not take them at the same price when they could get cars of mixed apples, onions, celery, cabbage, lettuce, etc. It costs the Okanagan more to put out these mixed cars and they should charge more for them.

The Okanagan, by reason of her large tonnage, is able to book straight cars of a given variety, grade and specified sizes, just as named by the trade. This means an added expense to the shipper but they are sold at the same prices we have to ask for our run of the pack cars. These are called tailor made cars and should be priced in accordance.

3. Creston is the nearest fruit producing district to the fruit hungry Prairie dwellers. We are only a short day's run from Lethbridge by truck. The towns, villages and farms are overloaded with idle trucks and men looking for any means of making a dollar. What is more reasonable than that hundreds of them conceive the idea of loading that idle truck with wheat and cheap Turner Valley gas and taking a flier at trading wheat for apples. Our own farmers are not immune to offers of a good trade and closing immediately. This trucking problem is as great a worry to the Creston shippers as it is to the industry everywhere, in fact we think the Okanagan only knows one half of it. We have that competition to meet all over the territory which should be our most profitable one. These truckers and farmers selling to them escaped until the latter part of the season any levies of the Tree Fruit Board. Should the grower, who played the game this season and turned all his produce into the shipping houses have been called upon to pay the levies, only one result could have been looked for, a very great increase in truck sales next year.

Creston enjoys a cheaper freight rate to certain parts of the Prairies than does any other fruit district in B.C. One of the first concessions given to Nelson and Grand Forks under the regulations of the Tree Fruit Board was permission to meet Creston rates. This in spite of the fact that Grand Forks was completely out all control and made no effort to come into the new deal. Creston was simply in the position of being under the guns of that district and our tonnage is large enough to be an entity in any deal of the future.

The Okanagan have been in the habit, for some years past, of making preferred deals. This season was no exception to the rule. Two of the largest snippers made the usual prefered deals with the two largest distributing firms on the Prairies. This can have but one result, it starts a bargaining for markets and in spite of any agreements made by the distributor he will buy where he makes the best deal. These preferred deals were made prior to the passing of the Marketing Act and the formation of the B.C. Tree Fruit Board, but no action was taken to make these deals illegal.

The pooling plan as explained to Creston, when she voted to go into the general pool, was a commodity pool. We were advised that under this deal we should all share alike, and should we not be able to hold back some of our commodities, through lack of cold storage, we should be given orders for these or, in any event, they would be in the general pool and we should not be the losers. How did this pan out? Commodity pools were thrown out and a price pool instituted with the ruling that each shipper assume his own shrinkage. This would have spelled ruin for the Creston grower.

Creston is just as anxious as is the Okanagan to see some plan put into operation which will spell better living conditions for our growers, but any such plan will have to take into consideration our natural pro lems and advantages. It will also have to take out the unfair practices as at present existing.

PROVINCE OF BRITISH COLUMBIA

INCOME TAX RETURNS

ARE NOW DUE TO BE FILED BY:—

(1.) Employers, respecting salaries and wages paid to employees during the calendar year 1934.

(2.) Every person in receipt of salary, wages, or investment income.

These Returns are required to be filed not later than

February 28th, 1935

Taxpayers should obtain forms from any Provincial Government office or chartered bank in the Province.

An urgent request is made for these Returns to be filed as much in advance of the final date as possible to enable the Department to give better service to taxpayers than can be provided during the rush of the last day.

Corporation, business, or professional income is required to be returned within three months after the end of the taxpayers fiscal year.

C. B. PETERSON,
Commissioner of Income Tax.

Victoria, B.C.

250 Pupils Attend Public School

Attendance in Division V. and VI. Above Mavimum—Former Room Houses 49—Average Attendance Well Maintained

Division 1—E. Marriott, Principal.
Enrolled, 38.
Average attendance, 36.63.
Perfect attendance—Sidyey Argyle, Francis Bourdon, James Bourdon, Ronald Cooper, Anna Dickinson, M. Donaldson, Elsa Foerster, Russell Gabelhei, Margerite Grant, Jack Hall, Doris Hendy, Kenneth Hester, Egon Hollm, K. Kerluke, Thelma Lowther, Hughena McCreath, Irwin Nickel, Ruby Palmer Eva Phillips, Norman Phillips, Goldie Walker, D. Fowlie.

Division 2—A. Robertson, teacher.
Enrolled, 38.
Average attendance, 34.
Perfect attendance—Linden Bell, Jack Bell, George Carr, Barbara Cartwright, Edward Davis, Olga Hurack, Edna Hutts, Edward Hutts, Eric Jacks, Dorothy Klingensmith, Ethel MacLaren, Esther Ostendorf, Irene Pridham, Muriel Raymond, Clayton Sinclair, Ardrey Weir, Robert Weir, Lillian Wocknitz, Glenna Fowlie, Norma Walde.

Division 3—Miss Wade, teacher.
Enrolled, 37.
Average attendance, 3
Perfect attendance—George Bourdon, Harley Brady, Jean Bunt, Audrey Cooper, Helen Dzvigolu, Kenneth French, Louise Haro, Leslie Jones, Anna Kinkade, Russel Martin, Raymond Moore, Teddy Olivier, Jean Pridham, Willie Rodgers, Dorothea Schmidt, Marion Staples, Mary Imhoff, Earl Walde.

Division 4—Miss Learmonth, teacher.
Enrolled 41.
Average attendance, 37.64.
Perfect attendance—Ruby Biecum, Allan Comfort, Patsy Forbes, Leslie Harris, Richard Hood, Eunice Hughes, Louis Klingensmith, Grace Lewis, Bill MacDonald, Lewis Millin, Gwen Moore, Harry Ostendorf, Lewis Palmer, Anna Peltzer, Victor Peltzer, Russell Pridham, Richard Staples, Margaret Timmons, Kenneth Weir, Robert Armstrong.

Division 5—Miss Hobden, teacher.
Enrolled, 42.
Average attendance, 43.58.
Proficiency: Grade 2—Laurel Keirn, Kathleen Joyce, Ena Jones, Charlie Tompkins. Grade 3b—Rose Knorr, Joyce Arrowsmith Rose Kinkade.
Perfect attendance—Jerry Alder on, Joyce Arrowsmith. Division 6—Miss Holmes, teacher.
Enrolled, 46.
Average attendance, 39.83.
Proficiency: Grade 1—Betty Gilchrist, Phyllis Wilks, Delores Biccum, Muriel Hughes, Dorothy Dickinson.
Perfect attendance—Bruce Arrowsmith, Mary Biccum, Delores Biccum, Dorothy Dickinson, Roland Gariepy, Betty Gilchrist, Alvin Hendren, Muriel Hughes, Lloyd Ibbitson, Jennie Kinkade, Andy Leavitt, Lyle Mawson, Irene Moore, Bobby Patrick, Sylvester Schmidt, Mary Timmons, David Timmons, Phyllis Wilks, George Smith, Carl Smith.

Our K. B. O. Broadcast

Invermere has three rinks of lady curlers.

Loss by fires at Penticton in 1934 was $1694.

The new movie theatre at Grand Forks will have air cushioned seats.

Cranbrook has slowed down to the point where the juniors are playing badminton.

Vernon council will cut assessments in the residential section 10 per cent. for 1935.

56 marriages were recorded at Bonners Ferry in 1934. Thirteen divorces were granted.

In the Okanagan the 1934 apricop crop has been more than double the crop of 1933.

Payment of current year's taxes at Grand Forks in 1934 were $3,058 less than in 1933.

At Penticton the council is this winter operating a free skating rink on a pond near town.

The Okanagan hears there will be no advance in prices on fruit crates and boxes this year.

At Penticton 125 members were on hand for the annual meeting of the board of trade.

The Chinese Masonic Lodge at Vernon has just made a donation of $100 to the hospital in that town.

Growers of peas on the dyked lands at Bonners Ferry will be paid the same prices as in 1934.

Total assessment on land and improvements at Penticton is placed at just under six million dollars.

Bonners Ferry school board has just purchased 350 cords of wood, at prices a little higher than a year ago.

British Columbia had an asparagus crop from 364 acres, about 204 of which are in the north Okanagan.

At January 1st the Okanagan had 805,032 boxes of apples in storage. This is somewhat less than in 1934.

According to the Vernon News the Okanagan has still 5646 tons of potatoes and 2068 tons of onions to dispose of.

For the first ten months of 1934 some 2123 auto licenses were issued at Vernon, 2011 at Penticton and 1629 at Kelowna.

Due to difficulty in getting title to the necessary site the erection of a new $45,000 customs building at Eastport is held up.

Stockholders in the First National Bank at Bonners Ferry are to be paid a dividend on 1934 business at the rate of $6 per share.

Vital statistics recorded at Vernon for 1934 show 168 births, 64 deaths and 91 marriages. November was tne popular marriage month.

Penticton had a profit of $11,225 on its electric light, operations last year, along with a profit of $6,696 on its waterworks system.

The Herald complains that new-come prairie residents drawing relief at Penticton are to generous with their patronage of mail order houses.

At Kelowna 61 new autos were sold in 1934, as compared with 17 in 1933. At Penticton the figures were 143 last year as compared with 53 in 1933,

Due the cut at the first of the year in electric light rates, the Gazzette claims a saving equal to 20 per cent. in general taxation has been effected at Grand Forks.

Population Of Canada Is Year By Year Becoming More Of Canadian Born Composition

Remarkable changes are taking place in the population of Canada. As it increases year by year it is becoming more and more a Canadian-born population. This is one of the direct results of the years of depression.

As 1935 begins it finds Canada with a population of some 10,835,000 according to the Dominion bureau of statistics, just 185,000 more than a year ago. This is so despite the barriers which have been steadily maintained against immigration during the last four years.

Further the increase from 1933 to 1934 of 185,000 is the largest in a single year since 1928.

Prior to 1930 when Canada's doors were open to immigrants from overseas the doors of the United States were open to Canadians. As immigrants moved in Canadians moved out. Now immigrants stay out and Canadians stay in. The natural increase in population balances the gain formerly made by the excess of immigrants over the number of Canadians leaving Canada.

In the 19 years from 1911 to 1930 the number of people in Canada rose from 7,207,000 to 10,206,000, an average yearly increase of 157,000. In the four years from 1930 to the present when the immigration bars were set up the population has increased from 10,206,000 to 10,835,000, an average annual increase of 157,200, approximately the same.

Heavy Water Compound

Toronto Man Not Afraid To Sample New Chemical Composition

G. H. Carter, 48, government employee, of Toronto, has $50 or any part of it to bet he will drink a thimbleful or even a glass of "heavy water", a compound of recent discovery and valued at $10,000 a quart —and suffer no temporary or permanent ill effects.

The heavy water compound, discovered a year ago by Dr. Harold C. Urey, has been mentioned as one of the possible causes of symptoms of old age and cancer. He has been awarded the Nobel prize in chemistry.

Heavy water is composed of two atoms of double-weight hydrogen (deuterium) and one of oxygen. Of every 5,000 drops of water, one is "heavy." It is far more weighty than river water and believed to have therapeutic uses as yet undiscovered. It is being used now almost entirely by research chemists.

The British Isles

Most Numerous Are Hebrides But Majority Not Inhabited

It is scarcely possible to calculate how many islands comprise the British Isles if we include every little rocky projection, but more than 5,000 have been charted. Most of them are to be found off the western shores of Scotland and Ireland, where the coast has been broken up by the full fury of the Atlantic.

Most numerous are the Hebrides, which comprise about 500, although the majority of them are uninhabited.

There are more than 50 inhabited islands in the Shetlands and Orkneys, and there are about 150 others on which no one lives.

Studying Cereal Diseases

Dr. Greaney Of Winnipeg To Spend Year In England

Dr. Frank Greaney of the Rust Research Laboratory, Winnipeg, has gone to England to spend a year at the Rothamsted Experiment Station. Dr. Greaney has been working on the control of root rot disease of cereals and for the past few years has devoted considerable time to a study of the effect of fertilizer in connection with the diseases of cereal crops. At Rothamsted are the most famous and outstanding fertilizing experiments in the world and their work on soils is known all over the world.

People of Rumania are again adding to their bank savings accounts.

Think Drought Punishment

Queer Ceremonies Held In India To Bring Rain

So acute has the drought become in several districts of the Madras Presidency that religious ceremonies are being held in a number of towns to appease the wrath of God, who, the inhabitants believe, has sent the drought to punish sinners. Effigies of "Kodumpapi" (the Greatest Sinner on Earth) are dragged through the streets, with "mourners" accompanying them, beating their breasts. This ceremony represents the death of great sinners, and, the world being rid of them, it is believed that rain will be sent. In Dharapuram, where acute distress prevails because of the lack of even drinking water, a crowd of Moslems marched bare-footed and bare-headed in the blazing mid-day sun to a neighbouring village, where prayers for rain were offered up. That night, for the first time in eight months, rain fell in Dharapuram.

Source Of Instinct

Interesting Experiment Conducted By American Scientists

A hypodermic of "hen instinct" extracted from a hen's head, sets roosters to clucking.

This in brief is the amazing story of an announcement at the American Association for the Advancement of Science of the first discovery ever made of the real nature and source of an instinct.

This particular instinct, "broodiness" or the wish to cluck and sit on eggs, turns out to be a very powerful chemical called prolactin. It appears to open a new explanation of the things called behavior and beyond that of understanding the sources of consciousness.

The experiments were reported by Dr. Oscar Riddle, Dr. Robert W. Bates and Mr. Ernest L. Lahr, of the Carnegie Institution of Washington station for experimental evolution at Cold Spring Harbor, N.Y.

Football Fatalities

Challenge To United States Schools To Reduce Death Toll

A sharp challenge to United States high and preparatory schools to reduce their football death toll was issued by Prof. Floyd H. Eastwood of New York University in reporting the results of a four-year survey of football fatalities.

Fatal injuries in college, athletic club and sandlot games are decreasing, Eastwood told the American Football Coaches Association. In contrast, the undiminishing number of high and preparatory school fatalities form an increasing percentage of the total. The percentage was 56.5 this year against 36.3 in 1931.

Return To Native Land

One Hundred And Fifty Destitute Chinese Sail From B.C.

One hundred and fifty Chinese, destitute and unable to find employment, have started the journey back to China at the expense of the British Columbia government, Hon. G. S. Pearson, minister of labor, announced.

Mr. Pearson said the Chinese went voluntarily because they felt they would be better off in their native land, where they can join relatives and frends. The government will also gain through the arrangement by eliminating future costs for their support.

All the Orientals were from British Columbia and there is no bar against them returning when they are financially able to do so.

Edmonton Fair Profitable

Showing a profit on the 1934 operation of $13,084, the Edmonton Exhibition Association's summer fair was more successful than any other class "A" fair on the North American continent, Manager Percy W. Abbott, K.C., told the annual meeting of the exhibition shareholders.

Success Seems Assured

Medical Authorities Believe Anti-Paralysis Vaccine Is Ready

Five years ago, in a Montreal laboratory, Dr. Maurice Brody set himself on the trail of the germ responsible for afflicting untold millions wtih infantile paralysis.

Some medical authorities accept his anti-paralysis vaccine as a now proven guardian against the disease which destroys the spinal motor cord of the muscles, thus causing lameness and withering of limbs.

"Final proof," says the young scientist, "will be in studies in epidemic areas."

Only then can be determined if the immunity gained in vaccinated persons is adequate.

The young Canadian bacteriologist reported before the Pittsburg convention of the American Association for the advancement of science on his long labors and the vaccine they have produced to bring high hopes that the frightful disease is to be curbed.

The modest, 31-year-old Ottawa scientist left untold, however, the fact that his experiments appear to be also pointing a way to ridding the world of sleeping sickness.

His laboratory search for a preventive vaccine for this mysterious malady is advanced to the point where vaccinated white rats are able to withstand intracerebral injections of the virus itself.

Senseless War Talk

General Smuts Says Pacifists Are Mostly Responsible For It

The condemnation by General Smuts of what he rightly described as senseless war talk is very timely. The curious thing about it, he said, is that the pacifists are mostly responsible for the scaremongering. This is perfectly true. There is an old saying that if a thing is repeated sufficiently often people will come to believe it. The pacifists never weary of proclaiming that we are on the brink of another war.—Belfast Telegraph.

Monkeys and apes are afflicted by tooth trouble in the same manner as human beings.

Records Show Climate Of Dominion Gradually Turning Milder During Past Fifty Years

Minerals For Young Chicks

Feeding Too Little Is As Bad As Too Much

There is such a thing as overfeeding young chicks on minerals, and that is just as bad as underfeeding. The rather strange thing, however, is that an excessive supply of minerals manifests itself in much the same manner as when too little mineral matter is suppled. A mash containing the usual percentage of meat scraps or meat and bone meal and dry skim-milk, according to tests at the Ohio experiment station, carries plenty of mineral matter for chicks until they are ten weeks old.

These tests are in accord with results obtained at other stations, and may therefore be considered as quite reliable. Meat scraps, of course, are very rich in calcium, carrying from 20 to 25 per cent. of that element, which normally makes up three-quarters of the minerals in the mash of chickens. Dry skim-milk carries about 10 per cent. of phosphorus and calcium in a very digestible form. When one substitutes part vegetable protein for meat scraps in the mash, it is highly desirable to feed additional minerals as the vegetable proteins do not contain as much mineral matter as the animal proteins.

Pay Old Debt

Turkey Finishes Payment To Britain Of Loan Made 60 Years Ago

Turkey recently finished paying off a debt to Great Britain which dated back to 1874 and the Balkan Wars of that period. She paid the last of a series of £6,000 ($30,000) instalments on loans made 60 years ago. British authorities expressed satisfaction with the promptitude and regularity of the Turkish payments.

One-fifth of all homes in the United States are without kitchen sinks.

Although the Pacific coast is experiencing some of the coldest weather it has had for some time, F. Napier Denison, director of the Dominion meteorological observatory at Victoria, said recently that the climate of British Columbia and of the whole Domnion has been gradually turning milder for the past fifty years or more.

Winnipeg can boast of the greatest change in average temperature, said Mr. Denison, with an improvement of six degrees, 1883 being the coldest year on record during the last 53 years and 1931 the warmest.

Records for Toronto and Montreal show these cities have experienced a gradual rise of about four degrees. Montreal's record cold year was 1875 and 1931 was the warmest.

Alberta and the Maritime provinces are tied in third place, both being about three degrees warmer. Records at Calgary show the lowest temperatures there in 1887 and the highest in 1931, while 1875 was the coldest year recorded at Charlottetown, P.E.I., and 1901 the mildest with 1930 and 1931 coming next.

The Pacific coast shows the smallest change of all, about one and one-half degrees. Records show 1880 and 1884 were the coldest years with 1893 and 1915 coming near the low mark, and 1926 being the warmest. Fort St. James, in the northern interior, shows a change of about three degrees in the past 40 years.

These figures seem to indicate the warm and cold years come in cycles with the cold years around 1875 to 1890 and the warm years between 1926 and 1931.

Two important questions to be answered in the future will be, what is causing this peculiar change in our climate and how long will it continue? Mr. Denison can answer the first question as far as British Columbia is concerned.

"It is evident that in recent years the North Pacific ocean storms have been more severe and widespread, and have caused unusual ocean currents from the warmer southern latitudes, and these in conjunction with mild weather prevailing in these vast ocean storms have caused milder weather on this coast," he said.

Taken Out Of Circulation

Sixty Million In Paper Currency Destroyed Every Year

Sixty million dollars in Canadian money goes down the sewer annually —into the Ottawa river. From the east block of the Parliament buildings it is poured into the sewage system with all kinds of refuse periodically, it is beyond retrieve, even in times of depression.

The sum total represents Canadian bills of all denominations, taken out of circulation. Because of wear and tear, their life averages from nine to 10 months. In one and two-dollar bills alone, $40,000,000 are destroyed each year.

Time-worn paper currency is treated now by the department of finance in paper-mill fashion. Oiled beyond recognition with the aid of chemicals to obliterate the print and coloring, the bills are put through a steam pressure and beater and then shoved into the sewer pipe.

Indians Blame White Man

Say They Have Caused Disappearance Of Caribou Herds

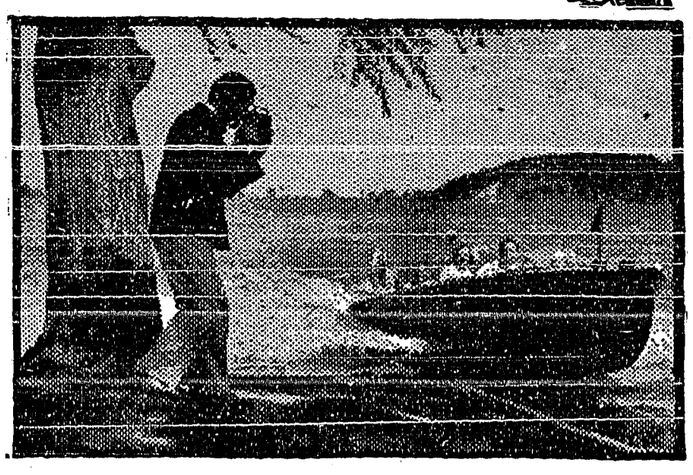
From Fort Chipewyan, in Alberta's northland, thousands of caribou which a short time ago roamed the bush country, closest to that post in many years, have vanished, according to a wireless despatch received by the Edmonton Journal.

Indians blame the white man for the disappearance of this natural meat supply. They base the claim on an old superstition that wild animals must be speared or shot to death and not clubbed. The story is that a white hunter recently wounded a caribou and then kicked the animal down with the butt of the gun.

A bachelor's life, after all, is just one undarned thing after another.

The SNAPSHOT GUILD

HOW ABOUT MOVIES?



Making home movies with a modern, low-cost camera is actually as easy as making snapshots. It's fascinating sport, too.

May as well be frank about it. Until a few months ago I had the notion, shared by a good many other folks, that home movies were (1) expensive, (2) difficult, and (3) not very good, anyway.

And then Bill, a friend of mine, got a movie outfit. Neither he nor his family can be classed as wealthy, or anything like it, but there he was —sporting a movie camera. Naturally, I was curious.

The camera itself was about the size of a small book. Slid into a topcoat pocket without any fuss at all. It was neat as the proverbial pin and about as simple. Bill showed me how to run it. You merely held it up, aimed it as you would a gun, pressed a button—and you are making movies. Oh, of course, there was a spring to wind and a lens aperture to set, but it was any amount simpler than my favorite snapshot camera. Even the loading was easy.

That particular camera, as I recall it, cost about $40. It used 8 mm. film and held enough to allow for a couple dozen full-length shots—each shot long enough to show, for example, a sensational football play, from the snap of the ball to the end of a fifty-yard run, forward pass included. All that on about ten cents' worth of film.

Movie film, I learned, is really pretty cheap to begin with and doubly so when you consider that the purchase price includes the cost of finishing done by the manufacturer.

Well, I revised my notions of movies, as to cost and difficulty, promptly. And when I saw the finished movies, a week later, I got all over the idea that amateur movies weren't very good. Bill's were excellent. And he's only an average person, a snapshooter like the rest of us.

I'm passing all this on merely for your consideration. Movies, at their best, will never in this world take the place of good snapshots. The snapshots camera has a charm all its own. But there's no reason at all why snapshooters shouldn't take up movies, too. For, obviously, movies can do things that still cameras cannot. They can get the whole of a bit of action instead of merely a part of it.

As far as technicalities are concerned, anyone who has mastered the essentials of snapshooting can take up the modern movie camera without a qualm. Bill has permitted me to make a number of movie shots and I'm both surprised and delighted with the results. Maybe someday I'll get me an outfit.

I find that there are two standard sizes for amateur movie film—8 millimeter and 16 millimeter (Hollywood uses 35 millimeter film.) Naturally, costs are less in the 8 mm. class than in the 16, but even the 16 mm. outfits are surprisingly reasonable in both first and operating costs. Of course, you can spend a great deal of money on special equipment, but it's not at all necessary. By the way, with certain 16 mm. outfits you can get action pictures in full color. That's something we snapshooters can't quite do, to date.

JOHN VAN GUILDER.

Ask Restocking Local Streams

Rod and Gun Club Ask Generous Consideration for Goat River and Kid Creek – Open Meeting on Monday, 25th.

There was a good turnout of members of Creston Valley Rod and Gun Club at the special meeting on Monday night at which recommendations were adopted in connection with restoking of local streams during 1935, and certain regulations were approved as to closing certain waters to fishermen. President Harry Smith was in the chair.

In connection with Goat River the club is asking the fishery department for 50,000 cutthroat and 25,000 eastern brook trout. For Kid Creek near Kitchener a supply of 40,000 cutthroat will be asked.

For Arkansaw and Devil's Hole lakes, situated near Canyon Creek, 10,000 each of Kamloops trout are asked The club also recommends the closing of these lakes for a period of three years.

Recommendations on 1935 game laws and regulations were left over for the open meeting of the club on Monday. February 25th. This meeting is open to everyone interested in hunting and fishing, and will be held in the United Church basement at 8 o'clock.

To make this session more than usually interesting the club is inviting C H. Keirn, game guardian for West Kootenay, and C. H. Robinson, dominion fishery inspector, of Nelson, to be present and give short talks on the work they supervise.

Local and Personal

Thursday night last saw the completion of play in the President vs. Vice-President curling competition. Tne rinks supporting President E E. Cartwright won by 8 points in the four-game series.

Creston is to have a third gas and oil distributing warehouse The British America Oil Company is busy installing a big tank on the C.P.R. right of way, next the Imperial Oil Company, Limited.

At a ratepayers meeting Friday afternoon last Alice Siding school district turned down the proposed consolidated high school at Creston. Votes are to be taken at Lister and Canyon this week.

Don't miss the Eest Kootenay basketball league championship games at Park pavilion Saturday night, 16th. Ladies' and men's teams from Kimberley meet Creston quintettes in the first of the playoffs.

A new engine house is being built on the ferry at the Reclamation Farm, and with it completed the engine will again be put to work on the ferry. Ever since the fire late last fall that destroyed the engine room the ferry is being operated by hand power.

COWS FOR SALE—Jersey-Shorthorn, 2 years old, gentle, gives 36 pounds milk daily, freshened January 25th, with heifer calf, $40. Or purebred Jersey, 7 years old, freshened January 11th, $50. Mrs. Sinclair Smith, Creston.

Wynndel basketball team showed the best form of the season in the league game Friday night when they trimmed the champion Cardinals 21-19. In the ladies' division Creston Review won from Pharmacy and Moore's Garage scored a win over Creston Motors.

At the meeting of the hospital board on Wednesday evening it was decided to have the dance and drawing for the ten acres of land or $750 cash, on March 1st Postponment of the drawing for two weeks was deemed wise in order to be sure all tickets have been returned.

A bridge in aid of Creston and District Women's Institute was held at the home of Mrs. Jas. Cook on Tuesday evening, with eight tables in play and the high score prize going to Mrs. Cherrington, and consolation honors to Mrs. Best. Mrs. F. Staples held the lucky ticket on cushion that was drawn for.

Cup competitions at Creston curling rink are getting along, despite the rather mild weather that obtains. In the Fraser and Fernie-Fort Steele silverware the play is down to the finals and a start has been made on the Imperial Bank and Cranbrook Brewing Company cups, the bank trophy being a third-man-skip contest

There was quite a big turnout of parents for the sports feature of Education Week at Park pavilion Friday afternoon. It was a basketball game in which Creston High School downed Creston Public School, 12-3. The boy's game, Loallo vs High School A did not materialize as the latter quintette failed to put in an appearance.

The first of the home-and-home championship games in East Kootenay basketball league will be played at Creston Saturday night, Feb. 16th, at Park Pavilion, commencing at 8.30, when the Kimberley and Creston ladies' teams meet, with the men's quintettes due to clash at 9.30. Two very close games are expected. The admission is 25 cents.

Freight traffic east through Creston is very heavy at present. Due to the Kettle Valley line being closed due to a washed out bridge west of Nelson all the fertilizer and metal output from the Trail smelter destined for the coast or the far east is going out via Cranbrook and the Kootenay Central to Golden and thence west over the main line.

Win and Lose, Hockey

Creston hockey club got an even break on their games with Nelson this week, losing to the intermediate Fairview team on Suneay, at Nelson, 5-2, but staging a real comeback on Wednesday evening on Nelson ice, again, trimming them 4-1. In Sunday's game the Creston talent forced play from the start, showing up to good advantage until they began to tire, but, as no subs. were available they were all compelled to stay on the ice. Fred Simister scored the first goal on a hard shot from the blue line, closely followed by a count by Jim Brown, on a rebound from Doug Corrie. The Nelson squad was much at home on their own ice, but had to play hard to hold Creston down, scoring only at the end of periods, when the local boys were played out. Bishop, Nelson goalie played a nice game. In Sunday's game Creston lined up: Goal, C. Schade; Defence, Jake Fritz and H. Fddie; Forwards, Fred Simister, Doug. Corrie, Jim Brown, Bob Currie, Cliff Reynolds.

On Wednesday evening Creston again invaded Nelson and were rewarded for their game play by a 4-1 victory. The local squad was in good form and the addition of Dick Malloy of Boswell and Howard Corrie supplied the much needed substitutes For Wednesday night's game the lineup was the same as on Sunday, with the addition of Corrie and Malloy.

Education Week Canyon School

Friday is Visitors' Day—Many Inspect Rooms and Afterward Hear Junior Choir — Pupils Put on Basketball Games.

As their contribution to Education Week the Canyon City school had an open day for visitors on Friday afternoon. Visitors were invited to inspect the school during a routine morning while, for the afternoon, a special programme was arranged.

Parents first visited Miss Knott in Division 2, where they watched the juniors at work. In the senior room, Principal Hunden had a debate and display of work Miss Magee had a nature lesson which the visitors appreciated. The new high school as then visited. Here the chemistry students under the supervision of Mr. Hunden, had arranged a series of unusual laboratory experiments.

After 25 had signed the visitors book, everyone moved on to the community hall where about 50 visitors saw the completion of the program. In an opening basketball game the junior boys managed to win. Then followed a close struggle between the senior boys and girls, both of whom are leaders in the district junior league. Both teams staged a splendid exhibition of Canyon's new sport. As a special novelty the high school boys played the inexperienced all stars and later the oldtimers, winning both encounters. Mr. Hunden refereed all games.

After the games the visitors were treated to some choir and community singing, with Miss Knott leading, and Mrs. Kolthammer at the piano. The day closed with a delightful lunch, with coffee kindly supplied by members of the community.

The teachers were well pleased with the respons by the people on open day, and trust their interest and support will continue.

Women's Institute Meets

The February meeting of Creston and District Women's Institute was held at the home of Mrs. F. C. Rodgers on Tuesday afternoon. The president, Mrs. H. W. McLaren, presided, and there were 14 members and 4 visitors present.

Correspondence was heavy, dealing with school exhibits to a great extent. A letter was read from the Crippled Children's Hospital, thanking for donations of tea collections taken at the close of each meeting of the institute, and enclosing a copy of the annual report.

Mrs. W. Fraser reported for her committee, announcing that all arrangements had been made for placing all exhibits in the hall, and that all prize money was collected. Mrs. Fraser and Mrs. F. V. Staples both donated special prizes for classes for plasticine modelling and photo display.

Mrs. C. Murrell reported on help being given needy families by the institute. Activity was evidenced in the report of the ways and means committee. Mrs. Maxwell, Mrs Vigne and Mrs. Ibbitson donated articles to be handled as the latter committee might see fit. Mrs. Maxwell, and Mrs. Ibbitson, visiting committee, reported making several calls. They were reappointed visiting committee for the ensuing month. There was usual half hour of sociability, with Mrs. Rodgers as hostess. The March meeting will be at Mrs. Maxwell's.

High School Pupils Entertain

Education Week Featured by Function Introducing Folk and Tap Dancing, Instrumental as Well as Vocal Music.

Thursday evening last Creston High School Literary Association presented a pleasing entertainment in connection with education week, at the Parish Hall. There was a very large crowd present, filling the hall to capacity.

The affair opened with O Canada by all present. Miss M. Smith then directed a class of folk dancing which proved to be one one of the bigger and more attractive numbers. Composed of 12 girls, dressed in colorful peasant costumes, who went through a series of lively dances to the accompaniement of Miss June Wigen on the piano. Those taking part were Misses Doris Crosby, Eleanor Spratt, Ethel Sutcliffe, Agnes Crane, Nell Payne, Hilda Hagen, Ruth Hare, Theo Tompkins, Marion Cooper, Hughena McCreath, Dorothy Collis and Hazel Sinclair.

The selections of French songs, directed by vice-principal O. Sostad were also a feature of the evening, with his Grade 10 students as vocalists.

The evening was given over to musical numbers almost entirely, with a big hit scored by the instrumental trio, Donald Phillips, violin; Lloyd McLaren, violin; Corrie Celli, piano. The boys were vigorously encored as was also the latter in his piano solos.

Miss Thelma Erickson provided several tap dancing numbers and was favored with numerous encores This feature can be readily set down as the most popular feature of the evening.

Following this an address was given by Charlie Taylor, pointing out the advantages of education and impressing on the audience the absolute necessity of educational training to get anywhere in the world these days.

Musical selections followed by a choir of girls who favored with some popular songs. They were directed by Agnes Crane. High School principal spoke briefly on Education week at the opening of proceedings and presided throughout the evening.

Grand Forks' first badminton club has just been organized.

After the recent heavy snow it took the caterpillar snowplough from Tuesday to Sunday afternoon to get through from Cranbrook to Golden.

West of Bonners Ferry sectionmen report that Great Northern trains are killing many deer who fail to get off the track when the engines approach.

Up to February 1st $965 had been contributed of a minimum of $1000 required for a down payment on a new X-ray for the hospital at Salmon Arm.

Coyotes, cougar and wolves are taking a heavy toll of deer at Kaslo in the prevailing deep snow. More than a few dogs are also fattening up on venison.

WORLD HAPPENINGS BRIEFLY TOLD

Lady Willingdon, wife of the Indian viceroy, has issued an appeal for a special charity fund to commemorate the king's silver jubilee next May.

A grant of $9,000 for the Canadian Legion was passed in the House of Commons. It is used to help returned men present their pension cases to the tribunals.

The sum of $8,546,119 was collected from the excise tax on sugar from last April 1 to Dec. 31, according to a return tabled in the House of Commons.

A decline of 53,500 in the number of persons in receipt of British war pensions or allowances is shown in the latest report of the ministry of pensions. The total figure now is 1,503,000.

Sir Philip Sassoon, British undersecretary for air, told the Plymouth Chamber of Commerce he looked forward to inauguration of a trans-Atlantic air route from Britain to the United States and Canada.

Probably from 45,000 to 50,000 pension applications will require adjudication by the Canadian pensions commission in the next two years, according to a return tabled in the House of Commons.

Canada recently lost a $1,000,000 order for wheat from China because the Chinese bankers resented "our contempt for them," Prof. C. T. Currelly, curator of the Royal Ontario museum, told members of the Optimists Club in Toronto.

Prof. William L. Carlyle, manager of the Prince of Wales E.P. ranch near High River, Alta., said there was a better demand for stock this year than last and prospects for general improvement in Western Canada were bright.

SKIN BLEMISHES

Vanish Before Physician's Prescription

Those spots or pimples on your face—why let them go on tormenting you? Like millions of others have done, you can get rid of your skin trouble through the work of a great physician—Dr. D. D. Dennis. Dr. Dennis' prescription—known in many countries as D.D.D. and now manufactured by Campana's Italian Balm chemists—will bring you relief at once, and quickly restore your skin to health. All druggists sell D.D.D. Trial size, 35c. Guaranteed to give instant relief or money refunded. 8

For Smaller Ships

Battery Of Diesel Engines Are Better Than Steam

The Diesel engine has been applied quite extensively to ships. A member of the Institute of Mechanical Engineering of London suggests that for ships of over ten thousand tons steam is best. For smaller ships he would change the present system and substitute a whole battery of small Diesel engines. He would install a hundred engines of seventy-five horsepower. An engine here and there could be cut in or cut off at will. They would consume no more fuel and would stop the vibration and make no more noise than "bees on a summer afternoon."—Halifax Chronicle.

Winter—and doughnuts. Younger members of the family as well as Dad and Mother respond instantly to these delicious palate provokers. And when the doughnuts are made with PURITY FLOUR—crisp and full flavored — there's a delicious, distinctive quality that makes them greater favorites than ever before. That is one outstanding fact in PURITY FLOUR, whether it is used in cakes, pastries, bread, rolls or biscuits. Always the quality is the same, high, appetite appealing kind. PURITY FLOUR is protected. Only the finest of Western Canada hard spring wheat — personally selected by our representatives—is used in its milling. That's why it is possible to state that a trial will convince you that PURITY FLOUR is best for all your baking.

PURITY FLOUR

BEST FOR ALL YOUR BAKING

From the New
PURITY COOK BOOK

Illustrated are Doughnuts, recipe number 59 in the new Purity Cook Book. Containing 743 tested recipes, with numerous household hints and special menus, this new Cook Book, costing $10,000 and two years of research to prepare, is invaluable in the kitchen. Easy to keep clean and lying flat at the page at which it is opened, this great kitchen help is now sent to you postpaid for 50 cents. Write for your copy today, to Dept. 629, Western Canada Flour Mills Co., Limited, Toronto, Winnipeg or Calgary.

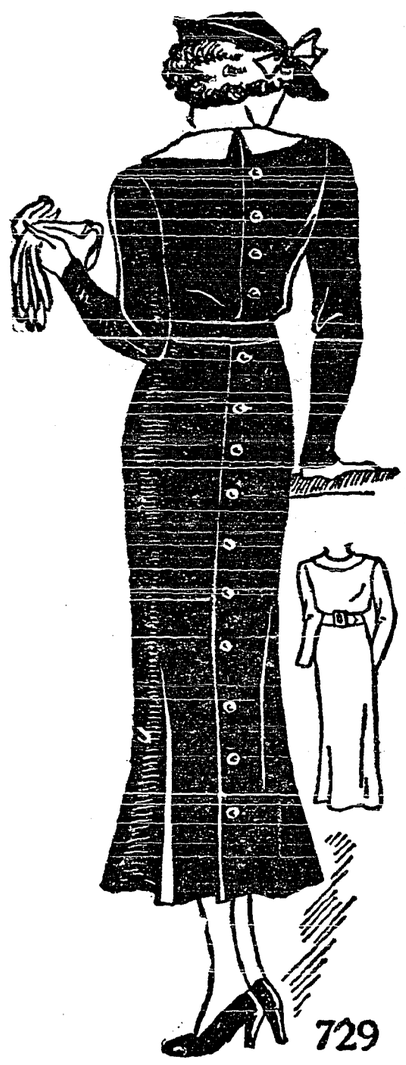
FASHION FANCIES



BUTTONS TRIP DOWN BACK OF SMARTEST DRESSES THIS SEASON—SUCH A YOUTHFUL MODE!

By Ellen Worth

Here's a charming little dress done in black novelty jersey, a sportsy type for general daytime occasions. A white bengaline collar completes this youthful costume. The buttons are black bone.

A gay angora plaid is another practical suggestion that is extremely youthful.

Pebbly crepe silk in black with white collar, purple with beetroot red or monk brown with beige you'll like especially well.

Style No. 729 is designed for sizes 14, 16, 18 years, 36, 38 and 40-inches bust. Size 16 requires 3½ yards of 39-inch material with ⅜ yard of 35-inch contrasting.

Patterns 20c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

You can have a very smart wardrobe at little expense of time and effort — our attractive Book of Fashions (price 20 cents) is just bulging with ideas that you can turn into chic wearable clothes. Send for your copy to-day.

"How to Make Better Dresses" booklet, a helpful guide to sewing, is obtainable for 20c. Whether you are a beginner or quite adept with the needle, we think it would pay you to obtain a copy.

No Argument

An amateur dramatic society in Australia was giving a show, an affair with royalty in it.

"Come," said the actor, who was playing the king, "let us go into the 'ouse."

There was a titter from the boxes. "He said 'ouse," an occupant remarked. The actor, overhearing, turned to the offender. "Yus, I said 'ouse—do you think a king would live in hapartments?"

WHAT DOES YOUR HANDWRITING REVEAL?

By LAWRENCE HIBBERT
(Grapho-Analyst)

(All Rights Reserved)

(Editor's Note: Do you know what your handwriting tells about your character? And what your friends really are like? The author of these interesting articles will tell you things about yourself and your friends that will interest and surprise you. See the announcement following this article.)

I am going to devote my space this week to giving extracts from some of the interesting readings that have been mailed to readers in the past week. The problems they embrace will find a counterpart in the case of many of my readers and will, for that reason, prove particularly interesting and helpful.

J. S., Vancouver.—Your girl friend is very proud and sensitive. She is probably too solicitous of other people's opinions. She is loyal—intensely so to her own personal standards. And she will expect the same rigid code from you. She will be hard to live up to, because she is relentlessly opposed to human frailty. This is not because she is essentially harsh, or callous, or lacking in sympathy. But she has probably been brought up in an atmosphere of almost puritanical conduct. I am afraid that you are going to have a very difficult time convincing her that your attentions to the other girl were merely platonic and friendly. Just the same, I suggest that you be quite dignified about the matter. Perhaps, if you show her my letter to you, it will be of some help.

Mrs. A., Brandon.—Your trouble with your husband arises from your lack of understanding and patience. You are invariably ruled by your mind. Your head dictates your views. And, so very often, it is necessary to show some of the milk of human kindness—and this comes from the heart. Do not be overbearing. Your husband is having a trying time, like so many other men to-day. He is undoubtedly doing his best to provide the things which you need. He is doing his best for you. And because he is unable to provide you with everything you would like, you suggest that he is unaggressive and lacking in ambition and push. Bear in mind that it is always easier to catch flies with sugar than with vinegar. Show your husband more sympathy and tolerance.

Miss C. W., Regina—The young man whose writing you sent me is a procrastinator, he lacks driving power and accepts things as they are, without looking for or expecting any improvement. He is hardly the right type of man for an ambitious girl like you. Your doubts about him show that you have already thought along this line, and I suggest that you give up expecting the impossible. You are still young—only 19. There is lots of time for you to find a more suitable partner.

Miss G., Calgary—I think you are troubling yourself unduly about your boy friend's feelings for you. He is not the demonstrative type. He is rather reserved, somewhat backward in showing his feelings. And because he is not for ever telling you that he loves you is no reason for jumping to the conclusion that he is getting cool towards you. He is straightforward and sincere, is inclined to reticence, a trifle clannish by nature. He does not make friends easily, but will be very loyal to the few he does make. Don't worry yourself, Miss G. He would not see you so often if he did not think a lot about you.

Would you like to know the real you. Would you like to find out what your friend is really like? Merely send a letter in your normal writing, and enclose specimens of your friends' writing, stating birthdate in each case. Send 10c coin for each specimen, and enclose with 3c stamped addressed envelope to: Lawrence Hibbert, Graphologist, care of Winnipeg Newspaper Union, 175 McDermot Ave., Winnipeg, Man. All letters are confidential, and letters will be answered as quickly as possible. Some delay is, however, unavoidable, due to the large number of letters that are coming in.

CHEST COLDS — A MECCA OINTMENT AND MUSTARD POULTICE

Relieves Congestion — Does Not Blister

At first sign of a cold on the chest apply a Mecca Poultice with the addition of mustard. The warmth in combination with marvellous healing properties of Mecca Ointment will give quick relief. Full directions in each package. 38

SUNDAY SCHOOL LESSON

FEBRUARY 17

PETER TEACHES GOOD CITIZENSHIP

Golden text: Love worketh no ill to his neighbor: love therefore is the fulfilment of the law. Romans 13:10.

Lesson: I. Peter 2:11-17; 4:1-5.

Devotional reading: Psalm 146:5-10.

Explanations And Comments

The Seemly Life, 2:11, 12. "Behold, I beseech you as sojourners and pilgrims"—thus Peter addresses his readers. This may be taken in the literal sense, for his readers, the Jews, were scattered throughout Asia Minor and therefore might consider themselves in exile, but probably Peter is here speaking metaphorically; he wishes them to realize that life is a journey, not a goal, and that the attainment of character which is eternal should be their aim; they were living, as it were, in exile on earth: heaven was their true home. Since they had but a short time to stay on earth, they must live their brief life nobly. "I beseech you to abstain from fleshly lusts, which war against the soul," are Peter's words.

"Having your behavior seemly among the Gentiles; that, wherein they speak against you as evil-doers, they may by your good works, which they behold, glorify God in the day of visitation." How like an echo from the Sermon on the Mount this seems! "Let your light shine before men; that they may see your good work, and glorify your Father who is in heaven." "So Christ's pilgrim leaves a track of light behind him: he is a witness. The phrase 'in the day of visitation' suggests a fear in the apostles heart lest the response to this witness might not be immediate: it might have to bide Christ's own time. The hour of visitation which will also be the hour of illumination will come, and then all the quiet witness will tell—the holy walk, the patient endurance, the lofty testimony, the life that is fair to see.

Good Citizenship, 2:13-17. "Be subject to every ordinance of man for the Lord's sake." By "every ordinance of man" is meant every human institution established by man for man's welfare. And the reason Peter gives is "for the Lord's sake"; "Because Jesus said 'Render what is Cæsar's to Cæsar,' or, generally, because God is the source of all duly-constituted authority; or because your loyalty redounds to the credit of your Master in heaven."

Has Another Use

Copal, a form of resin, is used for varnish making, but to the entomologist is has a different use, in that insects of past ages have frequently been found imbedded in the product in a perfect state of preservation.

Little Journeys In Science

PHOTOELECTRONS

(By Gordon H. Guest, M.A.)

In 1887, a scientist called Hertz discovered that violet and ultra-violet light tended to cause an electric spark to start more readily. He also found that ultra-violet light causes the discharge of negatively charged bodies. Several years later it was observed that crystals of a mineral called fluorite not only became electrically charged by heat but also by exposure to sunlight or to the light from an electric arc, both of which are rich in ultra-violet light. Quartz becomes charged when exposed to sunlight, the edges of a quartz prism being alternately negative and positive. An insulated metal plate becomes highly charged when exposed to sunlight. Science has shown that every material is electrically sensitive to light, regardless of the state of that material. All substances give off electrons when exposed to a suitable source of light.

Ultra-violet light will cause solids, especially metals, to give off electrons. All such electrons which are ejected from any material by light are called photoelectrons. When light falls upon films made from the alkaline metals, photoelectrons are ejected from these metallic films at high speed, and it is possible to measure their speed, the speed depending upon the kind of light which hits the films. Thus the blue light from the star Sirius will cause more powerful, though less numerous, electron ejections than full sunlight.

The distance which the light travels through space has nothing whatever to do with its effect when it strikes and ejects photoelectrons in photoelectric cells. Thus the light which travelled through space at the speed of 186,000 miles per second for 40 years before striking the negative pole of a photoelectric cell, to open Chicago's 1933 Century of Progress Exposition, was just as "strong" when it approached the telescope as when it left the star Arcturus 40 years before at the time of Chicago's 1893 Columbian Exposition. However, due to the great distance of Arcturus from the earth only a small fraction of the light which is radiated from that star at any instant 40 years earlier, ever reaches the earth.

Have Homing Instinct

A Kansas farmer drove his cows to a pasture twenty-five miles away. Next day the animals were back home having made the trip in thirty hours. The homing instinct which is so strong in pigeons and dogs also shows itself in cattle at times.

FALSE TEETH

THE TENDERFOOT

By

GEORGE B. RODNEY

Author of "The Coronado Trail", "The Canyon Trail", Etc.

SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin."

Dad Kane, desert rat and luckless prospectors till now returns to tell Dustin and Spike Goddard, who had grubstaked him, of his discovery of a rich gold mine, and shows samples of the ore.

Dustin unexpectedly comes along while Stone and Edith are riding fence, and seeing them, stops and talks to Edith. He mentions their dispute could be settled by marrying him, and Edith refuses his proposal with remarks that make Dustin furious. He insults Stone, who promptly throws him into a pool of water.

Stone tells Crewe, his foreman, about his meeting with Dustin. Stone and Crewe go to Seco to send a telegram to Gerald Keene. While at Seco an attempt is made to kill Stone, who proves more than a match for his enemies.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men rustling Carr's cattle. He sets out with Dad Kane to learn the location of his gold discovery. Dad Kane shows Dustin the mine.

They go back to camp, and Dustin shoots Kane. He fixes the shooting on Peyoti Gregg, a drug addict, who, stupefied by the narcotic he had taken, did not know whether he was guilty or not. They bury Kane and then return to the Broken Spur ranch.

Meanwhile at the Hour Glass, Carr, Crewe and Stone speculate as to the meaning of entries in the notebook belonging to Dane Kane that Stone had found. Stone thinks of a possible solution, and, accompanied by Edith Carr, rides out to Red Water to test out his theory, which proves correct, and they find the rich gold deposit mentioned in the prospector's notebook. As they return to the ranch, they meet Dustin leaving he house, and he deliberately tries to ride down Stone.

(Now Go On With The Story)

CHAPTER XI.—Continued

Stone's half-raised bridle hand came down till the back of his hand struck the crest of the withers. The gripping legs closed sharply behind the forward cincha and his body swung forward to place his weight where it belonged . . . above that tremendous fore-hand, the weight-carrier. The next moment, when the big black was within fifteen yards, the great Isabella horse launched himself, a living thunderbolt, against him.

The red dust swirled high above them and eddied down in a close-lying cloud and from the heart of that cloud came one sharp oath. The next moment Edith, sitting her half-crazy horse well to the side of the trail, saw. . . .

She saw the great Isabella horse, bleeding at mouth and nostrils, pitching wildly as he slid to a halt. She saw Stone . . . Duro Stone, the amateur cow-puncher, who had learned his lore from Wild West fiction and who undoubtedly bought his apparel from a catalog, sitting that pitching horse like a centaur and she saw, and for one short moment did not believe her own eyes, Sam Dustin's big black lying on his side, every leg kicking wildly while his rider lay as still as death beneath him.

"Oh, my God!" she cried sharply, "you've killed him."

"I'm afraid not. . . ." Stone pitched out of saddle. "Ride on down the trail," he said sharply. "Go at once. . . ."

That strange tone in his voice made her stare. Then she went on down the trail and so missed what took place.

Stone almost leaped at Dustin's prostrate figure. A quick jab of his spurred heel made the black struggle to his feet and Duro dragged the unconscious man from the dust of the trail.

Dustin's face was cut from brow to chin and a little trickle of thin blood oozed from the cut to mingle with the dust and sweat and grime of the encounter. He was breathing heavily in great gasps and as Stone drew him clear of the horse, his head fell inertly across Duro's arm. He laid him on his back along the path under a great mesquite bush and squatted by him.

"I'm sure sorry I didn't break your fool neck," he muttered. "I wonder if you've got anything in your poke that'll clear things up."

His lean hands made short work of Dustin's pockets. From the inner coat-pocket he pulled a narrow pocket-book that was filled with papers that he examined swiftly but carefully. At sight of one of the papers he gave a low whistle of surprise. Then he looked again at Dustin. There was no sign of returning consciousness and after a second glance, Stone returned to a careful reading of the paper.

"Huh. It's clear enough," he muttered. "It's old Joe Carr's note for eleven thousand dollars made out to John Pegram and by him transferred to Sam Dustin. Looks bad for Carr. Looks to me like Carr got his money from Pegram; Pegram got scared or needed money, so sold the note to Dustin; then this bird, workin' with Kane, finds gold on the Hour-glass and holds Carr's note for more than his share of the ranch. A pretty mess it looks to me. Dustin has sure got a strangle-hold on Carr. It looks to me as though one Gerald Keene is likely to find himself partner to Sam Dustin first thing he knows. Huh! I reckon it's time to draw cards. What else. . . ."

His hands again explored Dustin's pockets and brought out a little chamois skin bag that he opened and decanted into his hand. A little pile of glittering schist fell into his palm and a few yellow points that there was no mistaking.

"Specimens of Kane's ore, of course," he muttered. . . . "Hello! What's this?"

It was a red-and-green package of tightly rolled cigarettes that he found in a small pocket next the skin. He considered them at length. Then he carefully extracted two and placing one in his own pocket he broke the other and rubbed the contents on his tongue. He shook his head in a puzzled way. Then he pulled out the butts that he had found by the fire some hours before and compared them. They were exactly alike.

Very quietly and without haste he thrust his find back in Dustin's pockets and squatted on his heels till a slight movement told of the man's recovery. A moment later he sat up and rubbed a hand across his face; then his eyes fell on Stone and his face darkened under its blood and grime.

"I owe you one for this," he growled, struggling to his feet.

"That's all right," said Stone lightly. "I'm glad to do it. I saw that you wanted to show off before Edith so I helped you. But if I were you, before you try it again, I'd take a course in riding. You can get a cook or a horse-wrangler at some Dude Ranch to show you how to sit a horse. It only needs practice. I'd do it myself but I haven't got time. My time seems to be taken up with tryin' to break your damned neck instead of savin' it."

The utter scorn in his voice made Dustin wince. He flushed in silence and thrust a hand into his coat pocket. His grunt of satisfaction was expressive. His clothing had not been looted. He walked unsteadily to his horse that stood with drooping head and heaving flanks.

"Of course you know I'll pay you for this. If my cinch hadn't broken . . . ."

That was true enough. The rear cinch had parted.

"A weak cinch is a sure sign of mental degeneracy," said Stone. "Any good text-book will tell you to be sure of your equipment before you try trick riding."

While Dustin was staring evilly at him, he swung into saddle and thrust his great Isabella horse into full stride and caught up with Edith as she neared the house. Crewe was standing on the porch and greeted them as they rode up to the house.

"'D you all meet up with Dustin anywhere along the trail?" he asked as Stone took Edith's horse.

"Yeah. We met him all right," said Stone. "He tried to ride me down but his horse slipped I reckon . . . ."

"Slipped nothing . . ." Edith laughed sharply. "That big black of his doesn't slip. The man tried to ride Duro down in the golpe de caballo. . . He . . . He made a mistake. That's all."

Frank Crewe asked no questions. He knew what happens when a man makes a mistake in the golpe de caballo. There a man has but one chance.

"You'd better go in the house at once, Edith," he said heavily. "Joe wants to talk with you."

She glanced uncertainly at him and started for the house and as she went, Stone, seeing her eyes, could have sworn to a new light in them. The moment the door closed behind her, Crewe turned to Stone.

"Hell's broke loose at last," he said. "We know now exactly where that hound Dustin stands. Do you?"

"The last I saw of him he wasn't standin' at all," said Stone grimly. "He was lyin' in the senda with his horse on top of him. . . ."

"Yeah. And because of that, you'll get a bullet through your back some dark night if you're not careful. . ."

"What did Dustin want?" asked Stone.

"He come to see Joe," said Crewe carefully. "He offered to settle the lawsuit over Soda Springs and he offered a lot of other things, too, provided . . ."

"Yeah. Well . . . Go on. What's the price? What's the man want?"

"Provided Edith will marry him," Crewe jerked out.

"Oh. I see . . . She ought to do a thing like that," said Stone scornfully. "Listen here, Crewe. I may be on a good trail. I don't know yet. Lend me the car. I've got to get to Seco on business for the ranch."

Crewe studied him for a moment and liked what he saw.

"Take the car," he said. "You'd better take this, too. . ."

He slid belt and holster to Stone and stood watching him as he headed for the little garage behind the bunk-house.

(To Be Continued)

Go to Glenwood, Alta., if you wish to live to a ripe old age. With another year over, no deaths during the past 12 months were recorded and only six persons have died there in the past six years.

Too Much Uric Acid

Is a very common cause of Rheumatism, Sciatica, Lumbago. Deranged kidneys allow an excessive amount of uric acid to accumulate. Take Gin Pills to give relief while they are assisting your kidneys to function normally.

Here's Planned Defense
AGAINST COLDS

When Colds THREATEN ...VICKS VA-TRO-NOL

At the first warning sneeze, stuffiness or nasal irritation, quick!... apply Vicks Va-tro-nol—just a few drops up each nostril. Its timely use helps to *prevent* many colds, and to throw off colds in their early stages.

If a Cold STRIKES ...VICKS VAPORUB

Don't experiment or take half-way measures. Rub on Vicks VapoRub—standby of two generations for relieving colds. Its direct double action—by stimulation and inhalation—helps to *end* a cold.

BUILD RESISTANCE TO COLDS—by following the simple health rules that are also a part of Vicks Plan for Better *Control* of Colds. (Full details of this clinically tested Plan are in each Vicks package.)

VICKS PLAN FOR BETTER CONTROL OF COLDS

An Odd Weather Map

Shows Eight Kinds Of Air Exist Over North America

A new kind of weather map, showing eight kinds of air over the United States, was presented to aviation leaders at the annual meeting of the institute of aeronautical sciences in New York.

The eight, discovery largely by aeroplane, are all the kinds that exist in North America. They contain, and split all the types of weather troubles known, including those on which forecasters go wrong. The map is a step in "air-mass" analysis the new system of forecasting being inaugurated by the U.S. Weather Bureau. It was developed by R. Irving Krick of the California Institute of Technology.

ARE YOU MISERABLE?

Mrs. A. Cluckie of 78 Charles St., Hamilton, Ont., said: "When growing into womanhood I became pale and thin, had not much appetite, suffered from headaches, pains in my back, and cramps. Mother gave me Dr. Pierce's Favorite Prescription. Soon my appetite improved, I had better color and all pain disappeared." All druggists.

New size, tablets 50 cts., liquid $1.00.

Will Stick To Story

English Woman Claims She Owns All Of Labrador

The proprietress of a London, Eng., cold cream shop—Mrs. M. Cowan—has just announced that she owns Labrador lock, stock and barrel. Already she has cast possessive eyes on North America's most northeasterly 120,000 square miles, and if her lawyers are right she won't take "no" for an answer.

And here's how she bases her claims:

Her family genealogical table asserts that she is one of 300 direct relatives of a fabulously wealthy Dutch trader, one Isaac de la Penha, whose death in 1700 was a real shock to no less a person than William of Orange, King of England. The king had every reason to feel badly, too, says Mrs. Cowan, for he owed his life to the rich merchant. It seems that monarch and merchant were sailing close to each other when the royal ship sprung a leak. De la Penha rescued the king, thereby avoiding what might have developed into a decidedly unpleasant piece of business.

As a purple-hued reward De la Penha got Labrador and a standing invitation to visit with his majesty when he was in England. At any rate that's Mrs. Cowan's story, and she is bound she will stick to it—as well as the present owners if she wins her case.—Toronto Star Weekly.

Now You Tell One

Wolfhound In Prague Plays Drum And Sings

A dog that "croons" popular songs is arousing a lot of interest at Prague. The dog is a wolfhound and can sing several songs, all of the sentimental kind. It can also accompany its mistress when she sings by tapping a drum with drumsticks tied to its forelegs, and occasionally during a performance introduces a few notes on the cymbals. The dog was trained by its woman owner.

Little Helps For This Week

"Rest in the Lord and wait patiently for Him." Psalm 37:7.

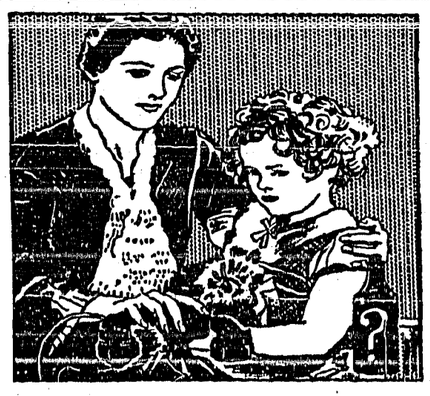
"Trust in Him at all times." Psalm 42:8.

Dost thou ask when comes His hour?
Then when it shall aid thee best.
Trust His faithfulness and power,
Trust in Him, and quiet rest.

I had found communion with God to consist not only in the silencing of the outward man, but in the silencing of every thought, and in the concentration of the soul and all its powers into a simple quiet watching and waiting for the food which the Heavenly Father might see fit to give or withhold. In no case could it be sent empty away, for if comfort, light or joy were withheld the act of humble waiting at the gate of heavenly wisdom could not but work patience in it, and thus render it by humility and obedience more "meet to be partaker of the inheritance of the saints in light," and also more blessed in itself.—M. A. Kelty.

"Rest in the Lord, wait patiently for Him." In Hebrew "be silent to God and let Him mould thee." Keep still, and he will mould thee to the right shape.—Martin Luther.

More than 1,000 Gideon Bibles were stolen from hotel bedrooms during 1934—a form of theft the Gideons doubtless expect, and count on to do some good.



ASK YOUR DOCTOR FIRST, MOTHER

Before You Give Your Child an Unknown Remedy to Take

Every day, unthinkingly, mothers take the advice of unqualified persons — instead of their doctors' — on remedies for their children.

If they knew what the scientists know, they would *never* take this chance.

Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used "milk of magnesia," doctors, for over 50 years, have said "PHILLIPS' Milk of Magnesia — the safe remedy for your child."

Remember this — And *Always* Say "*Phillips'*" When You *Buy*. Your child deserves it; for your own peace of mind, see that you get it — Genuine *Phillips'* Milk of Magnesia.

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

WANTED—Girl wants house or other work, capable and reliable; experienced waitress. Enquire Review Office.

Mrs. W. H. Crawford left at the first of the week for Nelson, where she is visiting her daughter, Mrs. R. Foxall.

Creston Motors announce the arrival of the new 1935 Oldsmobile and all are invited to call and inspect the new car.

At the February meeting of the council on Monday night the 1935 tax rate was struck at the usual 12 mills.

H B. Johnson of Fernie was a week-end visitor here with his son, Henry, of the Palm Bakery and Confectionery firm.

Creston Hospital Women's Auxiliary will hold their February meeting in Trinity Church hall, Thursday, 21st, at 3 p.m.

Due to a shortage of space a letter from T. M. Edmondson on the "electric sewer" problem is crowded out but will appear next week.

About a dozen players from Creston badminton club are going to Kimberley on Sunday for an inter-town game with the Kimberley club.

Creston and district Women's Institute netted $15 at the tea they put on in connection with the school fair in the United Church hall on Saturday

The Dale dragline is making splendid headway putting up the new dyke at the Reclamation Farm. The machine is being worked 24 hours a day.

The heavy snows of late January levelled an old valley landmark when the big barn on the Reclamation Farm crashed under the heavy snow load.

A. Dickinson of Creston Motors is back from a business visit to Calgary, Alberta. The new 1935 Oldsmobiles are now on display at Creston Motors.

The East Kootenay badminton tournament opens at Cranbrook on Friday next. Creston expects to send up ten players for the various competitions.

The Presbyterian Ladies' Aid announce their St. Valentine tea and sale of cooking for Saturday, February 16th, 3 to 5 p.m., at Mrs. Henderson's. All are invited.

At February 1st the Tree Fruit Board estimated there were 3200 boxes of apples unsold at points in the Kootenay and Arrow Lakes, of which 1500 boxes were at Creston.

His lordship the bishop of Kootenay, Rt Rev. W. Adams, of Vernon, was a Creston visitor on Tuesday. a guest of Rev. M. C. and Mrs. Percival at Christ Church rectory.

Donald, the young son of Mr. and Mrs. "Bud" Andrews, had the bad luck to sustain a fractured collarbone when he slipped on the sidewalk coming from school on Monday.

Creston board of trade seems to be of the opinion prosperity has already rounded the corner. It will consider raising the yearly dues from $3 to $10 at the March meeting.

The weather at the weekend was decidedly chilly going down to 2 above zero on Sunday morning. Since then it has been milder with light snow flurries Tuesday and Weduesday.

About $1000 was struck off the original assessment roll as a result of the dozen appeals that were heard at the court of revision on Friday morning at which all members of the council sat

Trinity United Church Ladies' Aid will hold a "Jiggs" supper in the church hall. Wednesday February 20th, from 6 to 8 p.m. Adults 35 cents; children 25 cents. Everybody welcome.

There were no upsets in the league basketball games at Park pavilion on Tuesday night. Creston Review won over Creston Motors, Wynndel lost to Imperial Groceteria and Loallo was beaten by the Cardinals.

Mrs. J. D. MacDonald, president of the B.C. Provincial Command Canadian Legion will pay Creston and district a visit on February 22nd, when the Legion Women's Auxiliary will be at home to the members of the auxiliary and a cordial invitation is extended all relatives of ex-service men. Mrs. MacDonald will speak on work done by Legion Auxiliaries on Friday evening, 22nd, at Mallandaine hall at 8 o'clock.

Basketball fans should be out in force to-night (Friday) for the local league basketball games, with a thriller promised in the men's section when the Cardinals and Imperial Groceteria meet at 9.30. The Cardinals are out to win in order to get on an even footing with Groceteria in the league standing. The other fixtures are Moore's Garage vs. Pharmacy at 7.30, and Wynndel vs. Loallo at 8.30.

CARD OF THANKS

The Creston School Board appreciates very much the interest shown by parents and friends during Education Week, and wish to express their thanks to one and all for their co-operation.
