THE CRESTON REVIEW

VOL XX. CRESTON, B. C., FRIDAY, SEPTEMBER 28, 1928 No. 34

Institute Awards Scholars' Prizes

The September meeting of Creston and District Women's Institute was held on the 14th. Mrs. R. Stevens, president, occupied the chair. The prizes awarded by the Institute for the high and puplic schools, for highest standings in 1927, go to William Manuel and Thomas Crawford respectively.

Mrs. Stevens was named official delegate to the Kootenay-Boundary Institutes conference next week. It was decided to enter a collection of cooking at the fall fair. Mrs. Lillie and Mrs. Murrell were appointed convenors of the exhibit.

The following ladies were appointed to assist the fall fair directors in receiving and arranging exhibits: Mrs. Geo. Cartwright, Mrs. Maxwell, Mrs C. W. Allan, Mrs. Frank Staples, Mrs. Hayden, Mrs. Lillie and Mrs. Murrell.

The proposed arrangements for catering for the delagates and visitors at the approaching conference were discussed, after which the members listened with great interest to a paper by Mrs. J. W. Dow on local history, in which she dealt with the early days in Creston up to 1899. A hearty vote of thanks was tendered Mrs. Dow for her paper. It is hoped to print Mrs. Dow's paper in the near future.

Four new members joined, roll call being responded to by 27 members. The hostesses were Mrs. Irving, Mrs. Hare, Mrs. Forbes and Mrs. Goodwin. The freewill offering for the Crippled Children's Fund amounted to $3 70.

Lister

The Community Society open the social season on Saturday night, 29th, with a card party and social evening at the schoolhouse.

D. P. Dawson of Calgary, Alberta, representing the Spiller Milling Company, was a business visitor at the end of the week.

Stan. Watson of Creston has his truck on the haul of ties from the John Huscroft Harry Helme mill at the Huscroft school, with shipping from Canyon siding.

Miss Ruby Lister, who is now engaged in her profession as nurse, at Spokane, spent a few days last week at her home here.

Rev. R. E. Cribb commenced United Church services at Lister on Sunday, 16th, with worship at 4 p.m., and a representative turnout to hear him.

Lister will have a display at the Creston fair this week in the school districts competition, but due such a prolonged dry season the display will not be up to the standard of 1927. Mrs. Fred Powers is in charge of the effort.

Misses Nettleton and Bostock, who are in charge of the Sunday school van in the Kootenay diocese, were here on the afternoon of the 17th, when a reception was tendered them in the schoolhouse, and at which the former gave a talk for the benefit of the children. Refreshments were served.

There was a fine turnout on Thursday night last for the reorganization meeting of the Community Society at which it was decided to operate on much the same lines as the past season. E. J. Malthouse was named president, with Mrs. Powers, secretary, and an executive of Mrs. W. Mitchell, Miss Curtis and A. K. F. Bernard.

At the meeting of the Huscroft Lister Farmers' Institute on September 11th, the most important move was to have a Lister-Huscroft display at the Creston fair this week, the directors agreeing to allow ten feet for that purpose. A committee of Mrs. H. Langston, Miss Hazel Hobden, A. R. F. Bernard, W. Mitchell and John Huscroft was named to assemble and stage the exhibit.

Alice Siding

H. E. Ostendorf spent a few days at Cranbrook last week, returning on Friday.

Mrs. Geo. Moore was a few days' visitor at Nelson last week, where she attended the fall fair.

Robert Moore left on Sunday for Lethbridge, Alberta, in which district he has secured a school and will teach for a year.

Mrs. Bill Kelly has just returned to Elko, after a visit with her mother, Mrs. John Marshall.

With the exception of a few late harvesters the haying season is over on the flats, and cattle have again been turned loose to pasture.

Arthur Webster left a few days ago for Staveley, Alberta, where he will remain for the harvest and threshing seasons.

The pick of McIntosh Red apples is in full swing, but it will be at least another week before this work is completed.

Miss Winnifred and Bob Cox of Cranbrook were here for the weekend with Mr. and Mrs. A. G. Cox.

Alice Siding exhibitors are not so largely in evidence as usual at Creston's 1928 fall fair, and due to the light attendance Principal Lukas was unable to take any part in the school sports competitions.

Erickson

Mr. and Mrs. Frank Celli and son, Lloyd, who have been visiting relatives and friends at Vancouver the past few weeks, have returned to the ranch at Erickson.

Ray McKelvey left at the middle of last week for Nelson where he has secured a job, and will be remaining for some time.

Dick Hall of the Imperial Bank staff, Natal, is spending his two weeks' vacation with his parents, Mr. and Mrs. John Hall.

Miss Beulah Penson left on Sunday for Spokane where she will visit with relatives for a few weeks.

Mr. and Mrs. N. Leveque of Montreal, who are on a tour of western cities, are guests this week of the former's brother and sister-in-law, Mr. and Mrs. L. T. Leveque.

Mrs. F. Clark has been a visitor with Cranbrook friends the past few days.

Mrs. Geo. Cartwright returned from Nelson on Friday, in which city she had been a judge at the fall fair.

D. A. McDonald and son, Allan, of Cranbrook, are visitors with Mr. and Mrs. Geo. Cartwright.

Creston Stages Institutes' Meet

The annual conference of some 24 Women's Institutes grouped in the Kootenay-Boundary district will open at Trinity United Church, Creston on Tuesday afternoon at 2 o'clock, and reports reaching the reception committee of Creston and District Institute indicate that upward of 35 official delegates will be in attendance.

The Gathering will be presided over by Mrs. E. D. Barrow of Chilliwack, who previous to her marriage early this year was resident at Nakusp and was chosen president of the conference at the annual meeting at Kaslo a year ago. The address of welcome will be delivered by Mrs. R. Stevens, president of the Creston Institute, and will be responded to by Mrs. Pitts of Nelson.

According to the programme there will be an afternoon and evening session on Tuesday; morning, afternoon and evening meetings on Wednesday, and a morning session on Thursday, and the meetings are open to all who care to attend.

With the exception of three or four the speakers are mostly all connected with institute work in the conference area. Col. Fred Lister, M.P.P., is assigned an address on 'Old Age Pensions," which will be given on Tuesday evening, and on Tuesday afternoon Mrs. Cherrington will present the report of the committee on "Institute Work and Methods." Wednesday afternoon, Dr. Henderson is to speak on "Medical Inspection of Schools."

Other Kootenay speakers who are known in Creston are Mrs. Hennessey of Cranbrook whose topic is "Public Health and Child Welfare," and she appears on Wednesday afternoon. The same evening Mrs. John Keen of Kaslo will speak on "Education and Better Schools," and at the same session P.S. Inspector Sheffield of West Kootenay will also have a talk on an educational subject. Wednesday morning Mrs. Rutherford of Nelson will talk on "Gardens."

In between addresses, demonstrations and committee reports there will be reports from the two dozen institutes represented on the year's work carried on by each of them.

The local reception committee has been able to secure billets for all the delegates, and to expedite feeding them a community dining room will be conducted in the church basement at which the delegates and members of Creston Institute will dine free. Others who wish to eat at the convention hall will be welcome to do so at a charge of 35 cents for lunch, and 50 cents for dinner.

For the past month various committees of Creston Institute have been at work arranging all the details of the conference, which promises to be even more successful than the 1020 annual, which was also staged at Creston.

Sirdar

Mrs. Fabiano of Spokane, with her daughter, Mrs. D. Lombardo of Revelstoke, are visiting with Mr. P. Lombardo.

Mrs. Price of Cranbrook was a visitor at the C.P.R. boarding house a few days last week, returning on Saturday.

Mrs. Embree of Medicine Hat, Alta., was a weekend visitor with her brother, J. McDiarmid.

Miss Belanger of Fort Steele spent the weekend with Sirdar friends.

Cyril Boothley of Lethbridge, Alta., is a business visitor this week.

Mrs. Francis and daughter of Calgary, Alberta, are Sirdar visitors this week.

Mr. and Mrs. Strachan of Fernie are visiting with Mr. and Mrs. R. Heap this week.

Mrs. Crigler of Tekoa, Wash., was a visitor with Mrs. Heap a few days last week.

Rev. A. and Mrs. Garlick, with Misses Hamilton, Nettleton and Bostock, were here on Sunday for Anglican Church service. Miss Nettleton gave an interesting talk on what they did through the Sunday school van. There was a good turnout.

Jas. Wilson was a business visitor at Creston Thursday and Friday. Mr. Mr. and Mrs. Cameron were at the metropolis on Saturday, and Mrs. Martin on Monday.

Principal Hanna of Sirdar school has been busy since school opening training the children for the school sports at Creston fair on the 26th.

Mr. Statley of Vancouver was a business caller on Saturday.

Frank Simister of Alice Siding has been here for a few days, unloading a car of coal for R. Heap.

Mr. Belanger of Cranbrook was a visitor this week with Mr. Backus.

Canyon City

Mrs. Blackledge of Waldo has been a Canyon visitor the past week, a guest of Mrs. Ridd.

Miss Arlene Halstead, who has been at Nelson the past few months, arrived home at the end of the week.

Principal Kolthammer has leased the Martin Nelson residence for a year, and gets possession immediately.

A. A. Bond, who is working on a plastering contract at Nelson, was home for the weekend.

Picking of the McIntosh Red apples will be pretty well completed in this section this week. The crop is above the average and of exceptionally fine color.

Mr. and Mrs. A. Walde and family of Fernie are here on their usual fall holiday with the latter's parents, Mr. and Mrs. Wearmouth.

Rev. Mr. Helquist of Cranbrook was here on Sunday for Norweigan Church service.

Alf. Nelson is utilizing a couple of trucks for hauling apples to Pincher Creek, Alberta, where he is selling them direct to the consumer.

Local weather prophets are predicting that with the change in the moon to-morrow the Valley is due for a spell of bad weather.

Wynndel

Mrs. Glasier was a visitor with Nelson friends a few days last week.

The Misses Davis, L. and S. Benedetti, E. Hagen and M. Ringheim left for Boswell last week to help in the apple-packing shed.

Mrs. R. Uri was with Nelson friends a few days during the fair last week.

Mr. and Mrs. Ed. Butterfield of Vancouver are visiting with the former's parents, Mr. and Mrs. E. Butterfield, here.

Mrs. Gordon of Victoria and Mrs. Pitts of Nelson were visitors here last week, attending the Women's Institute meeting.

Mrs. Vic. Johnson was another of our residents who visited Nelson last week.

Vic. Johnson, who has been working at Slocan City, spent the weekend with his family here.

Mr. and Mrs. Towson were visitors to Willow Point, where they were guests of Mr. and Mrs. H. Middleton.

Anglican Church harvest festival service Sunday, 30th, at 11 a.m. There will be a celebration of Holy Communion.

Mrs. Grady was a visitor to Spokane, returning on Monday. She was accompanied by her granddaughter, Miss M. Hook.

WANTED—Second hand piano, in good shape, state price. Box 50, Creston postoffice.

FOR SALE—One Toggenburg doe, and one solid oak buffet. Miss Alma Johnson, Creston.

FOR SALE—Wool filled bed comforters, handmade, very warm and good. Your choice of cover. M. Knott, Erickson, B.C.

Fall Fair Fruit Display Improves

Creston's 1928 fall fair is now a matter of history, and while the display of products was not on a par with the earlier years of the exhibition, it can be safely said that improvement was shown over 1926 and 1927, particularly in the fruit section, while the display of needlework was equal to the best.

The school districts' display continue to improve and these, along with a Lister-Huscroft district display were the features of this year's exhibition.

The fair was officially opened about 1.30 by Col. Fred Lister, M.P.P., who was introduced by President C. W. Allan. The local member's remarks were appropriate but brief, stressing particularly the benefits of a fall fair to this community, and urging the fullest possible support by all citizens.

With ideal weather prevailing the school sports attracted the attention of grownups and youngsters alike. This year the sports were much better organized and were pulled off with little or no delay. The children, too, evinced much keener interest than a year ago. The honors of the day went to Creston with a score of 72 points, Erickson 36, Canyon 29, Wynndel 38, Sirdar 8, Lister 3.

Judging in the fruit section was in charge of B. Hoy of Kelowna, and P. C. Black of Grand Forks. The Speers' cup for the five box lot was won by W. H. Hilton with some very fine Jonathans. R. W. Long had the best three box lot and best two boxes of Delicious, while T. Goodwin scored with two boxes McIntosh Red, and Sam Moon's two boxes of Wageners were the best of that variety. R. W. Long had the best box of apples in the show, and Miss M. Murphy got the prize for the best colored box. Vic. Mawson's cup for the best box of pears went to M. B. Archibald.

H. S. French of Cranbrook

NOTICE!

The regular meeting of Creston Volunteer Fire Brigade will be held in

FIRE HALL, CRESTON

Monday, Oct. 1

at EIGHT p.m.

The volunteer boys will attend and to this meeting we also invite all interested in Fire Protection.

The purpose of this meeting is to discuss and appoint a Fire Engine and Equipment Committee for the Village of Creston and District.

We need your co-operation—you need our help. Please attend.

MATT. YORK,
Fire Chief.

A Double Escape

DOCTOR'S DAUGHTER'S STORY

Another Toronto home provides evidence of how a simple cut, scratch or bruise, may pave the way to deadly blood-poison, and how vital is the need for keeping Zam-Buk, always handy?

When called upon at 3, Bushness Avenue, Mrs. J. E. Zealley, daughter of the late Dr. Bevan, of St. David's, S. Wales, said:—"My boy Alfred scratched his leg with the brass tag of a shoe lace. A nasty poisoned sore developed and it defied all the usual ointments. Hearing splendid reports about Zam-Buk I decided to give it a trial. To my great relief, the balm soon caused healing to set in. All inflammation and poisonous matter was quickly removed by Zam-Buk, and it healed the sore without leaving a scar.

"Again when I fell over a steel fender and injured my knee badly, Zam-Buk alone saved me. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus. But I again pinned my faith to Zam-Buk, and it cleansed and healed the wound." All druggists and stores sell Zam-Buk at fifty cents per box. Equally valuable for eczema, pimples, cuts, burns, etc.

WORLD HAPPENINGS BRIEFLY TOLD

Thomas Loudon, one-time Canadian sculling champion, died recently in Toronto, at the age of 87.

The first windmill 'plane has crossed the English Channel, piloted by its inventor, J. De La Cleva.

A Chinese laundry man and the employees of a millinery shop at Mexico City, divided the first prize of $400,000, in the September 14th lottery. They held number 1246 which was winner.

Permanent government flying posts in Hudson Strait are a strong possibility it was stated by Squadron Leader T. A. Lawrence, who with eight others, has returned from 16 months' service in the North.

Members of the provincial government and Lord Lovat, under secretary of state for the Dominions in the British Government, discussed the placing of British settlers on the land in British Columbia. The government offered the fullest co-operation.

French Canadians, resident of New England, may decide the presidential election. Ordinarily these states are Republican but it is thought Democrats will get the majority of the French-Canadian vote which is considerable.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

About two-thirds of all the employees in the telephone business in the United States and Canada are women and girls.

One medical authority says that the growth of children takes place entirely when they are asleep.

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word *genuine* printed in red? It isn't the genuine Aspirin without it! A drug-store always has Bayer, with the proven directions tucked in every box:

Aspirin
is the trade mark
(registered in Canada)
indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

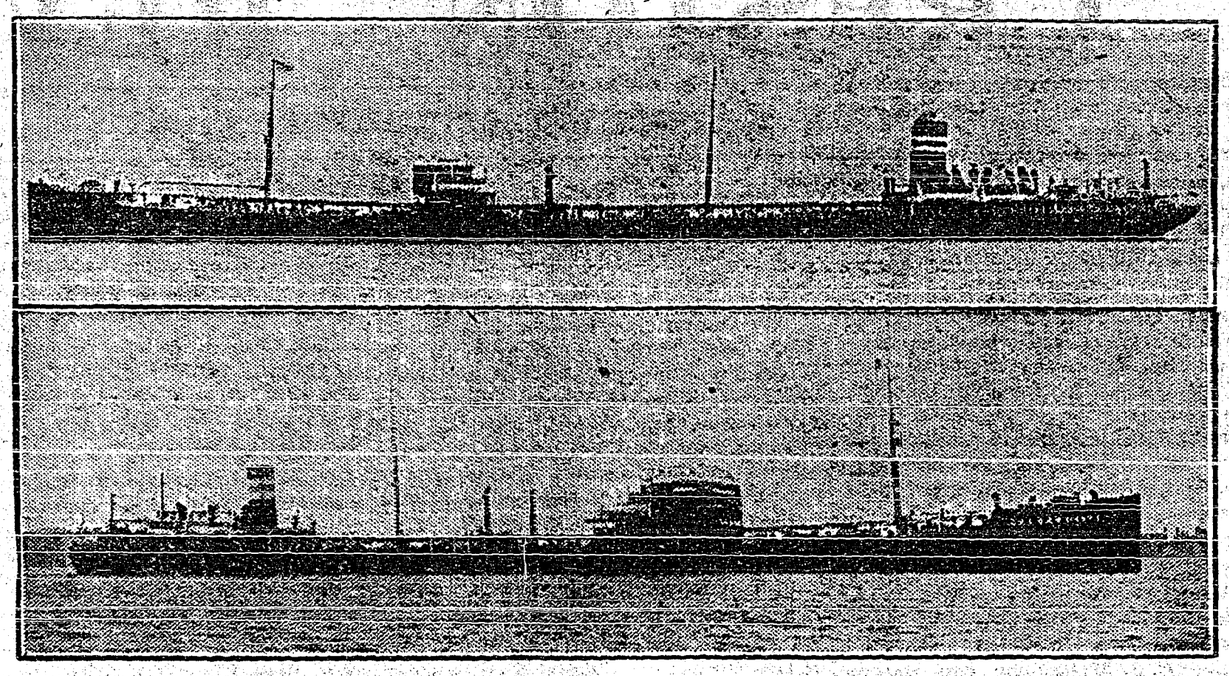
LARGEST AND FINEST OIL TANKERS SAIL UNDER CANADIAN ENSIGN



ABOVE—The "C. O. Stillman" world's largest Tanker. BELOW—The "Calgariolite" most modern of Tank ships.

With the launching in England on September 14th of the motor tank ship "Calgarolite" Canadian interests which already own and operate the world's largest tank ship, claim also the most modern and efficient of tankers, and a Canadian tanker fleet wins further eminence as one of the major oil fleets of the world.

The "Calgarolite" slipped from the ways at Haverton Hill-on-Tees with Miss Eleanor Ross, daughter of Victor Ross, Vice-President of Imperial Oil Limited, acting as sponsor. The "Calgarolite" is a 15,600 ton vessel with an indicated horsepower of 6,500, which makes her one of the most powerful and fastest tankers of her size. She is guaranteed a service speed of 12 knots. She is 540 feet long with a 70-foot beam and moulded depth of 37 feet 9 innhes. Her modern equipment will permit loading and unloading of 120,000 barrels of oil in twenty-four hours, and so she will be almost continuously in transit, serving much as an "oil ferry" between Talara in Peru, Cartagena in Colombia, and Montreal and Halifax. She will establish new figures for economical transport of petroleum.

The "Calgarolite" is the last of three large modern sea-going tankers and one lake tanker which were laid down some time ago in British shipyards for Imperial Oil. Preceding her in launching were the "Windsolite" for lake service and the "Victolite" and "Vancolite." The flagship of the fleet in which she will serve is the world's largest tanker, the "C. O. Stillman." The three sea-going ships just built in the British yards replace three Imperial vessels which went to the bottim at the hands of the enemy while transporting petroleum for the allied cause. They were the "Luz Blanca," the "Retlaw" and the "Palacine."

The motor driven tanker of today is a highly specialized vessel which is designed to move a great volume of petroleum at maximum speed and with minimum delay at loading and unloading ports. A few years ago three days was considered a quick "turnaround" for a tanker. Today, with modern pumping equipment, a tank ship turns around in twenty-four hours. That is to say, twenty-four hours after she arrives in port she has taken on or discharged her cargo and is again at sea. Consequently the modern tanker is moving practically all the time and, more than any other type ship, is the actual home of her crew. To compensate for the more continuous service, the crew is accommodated in a style that would turn the average tar green with envy. Nothing is overlooked to provide complete comfort and the sailors enjoy quarters and cuisine that compare favorably with passenger accommodation on many liners.

The Imperial Oil fleet now comprises nine large ocean-going motor tank ships: the "C. O. Sttillman" of 22,175 tons, the "Victolite," "Vancolite," "Calgarolite," "Montrolite" and "Canadalite" of 15,600 tons; the "Ontariolite" and the "Reginolite" of 12,000 tons, and the "Trontolite," formerly a steam turbine vessel, which was converted into a motor ship, with a tonnage of 9,150. The combined motor tank ships carry 1,016,000 barrels of oil which they load and discharge at an average port time of twenty-four hours. It is estimated that these ships carry for about 25 per cent. cheaper than steamships of corresponding size.

In addition to the ocean tankers, Imperial Oil is operating six canal size steam driven ships on the Great Lakes. These move refined products from Halifax to various ports in the Great Lakes and to Fort William, serving the Halifax, Montreal and Sarnia refineries. Most of these vessels tie up during the winter but in the summer it is a rare thing for one of them to have more than eight or ten hours in port. On the Pacific Coast the SS "Imperial" and two other steam vessels transport petroleum products for the company, and there is also the small motor ship, the "Marvolite," with a capacity of about 1,000 barrels. The combined capacity of the entire Imperial fleet is approximately 1,100,000 barrels; sufficient to fully load more than 5,300 tank cars, making a train 36 miles long.

The modern ocean-going tank ship contrasts interestingly with the shallow draft river boats which are used by the Imperial interests on the Magdalena River, in Colombia, and which resemble in appearance the old stern wheelers Mark Twain once piloted on the Mississippi.

Shorter Names Suggested

The Society for the Saving of Time, a newly-founded efficiency organization in France, has decided in favor of the shortening of names. It wants to limit family names to five letters and other names to two. In this way, it is declared, the business world would save millions of pounds in correspondence yearly.

A Corrector Of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Eclectric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Banana cloth is being used now. It should make a nice little thing to slip on when you're in a hurry.

In the Wieliczki salt mines at Cracow there are altars, shrines and statues made of salt.

Minard's Liniment cleanses cuts, etc.

Louis XIII. often prepared his own food in order to thwart the attempts of enemies to poison him.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother, Graves' Worm Exterminator will protect the children from these distressing afflictions.

The happiest people are those who are so busy they don't have time to think about whether they are or not.

Veterinaries use Minard's Liniment.

Devotional Reading: Philippians 4.4-8, 19, 20.

A Review By Means Of Allusions

There have been men like those Jews in every age and every land who have delighted in stirring up others. There is no community free from them.

"Nurse Cavell in Belgium was hemmed in by a brutal soldiery who gnashed on her with their teeth, and she was at once heroic and tender and forgiving."

When men refuse to retain God in their knowledge, they can hardly expect to be secure from the temptation to bow before creatures of like passions with themselves, whether they be cunning adventurers or heartless tyrants.—The Christian.

"The supernatural is the native air of Christianity, its cradle-song is that of angels, its death-chant the triumphant exclamation, 'Behold, I see the heavens opened.'"

We are daily judging ourselves unworthy of divine grace in every act of refusal to accept and rely on it.—Lyman Abbott.

"There stood a man of Belgium saying, 'Come over and help us,' and immediately men of Britain arose to answer the call."

We cannot think of the vastness of the universe without feeling that we are citizens of no mean city, but perhaps we should be more impressed by the order and the uniformity of the heavens.—J. Arthur Thomson.

"When came the Sabbath of worship and rest,
Out of the city, in reverent quest,
Down by the riverside faithful ones came,
Where prayer was wont to be made in His name."

The world has often had its dreams of gods who had come down in the likeness of men, and even of a divine influence pervading all things; but no ethnic religion has told how men may come to God.—H. E. Fox.

"The talk of Lenine was overbearing and belligerent as he breathed out threatenings and slaughter on the road to Genoa."

"What is all this solar energy compared to that boundless supply of divine grace—always available to the believing heart! Therein lies power to turn the world upside down, if only the people of God would receive and transmit what he is so willing to bestow!—The Christian.

Life is like a race. Speed up and you cover more ground, but you get to the end more quickly.

Aluminum serves mankind in many ways—one of them being as a container for fine teas. All Red Rose Tea is put up in clean, bright aluminum, thus insuring its coming to your table as fresh and flavory as the day it was packed. T-W

Dressmaking School

Record Cheese Shipment

Canadian cheese shipped from Montreal in a single week to foreign markets totaled more than 55,000 boxes, an increase of nearly 20,000 boxes compared with the same week a year ago. Prices paid at country points were records for the year to date.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

It is said man can now fly five times as fast as a bird. Maybe so, but you hardly ever hear of a bird coming down out of control.

No man can cut a wide swath who always has an axe to grind.

BABY GIRL HAD DIARRHŒA WHEN CUTTING TEETH

Mrs. A. J. Murray, Gull Lake, Sask., writes:—"Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhœa. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any

why, I wouldn't be without it where there are children.'

"My husband went to town and got a bottle, and the very first dose helped her wonderfully, and in three days she was well over the diarrhœa and was running around as well as ever."

THE CRIMSON WEST

—BY—

ALEX. PHILIP

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

CHAPTER I.—Continud

Gillis rose with an embarrassed air. "Here I am talkin' 'bout you and I travellin' together. I guess you're one of them tourist fellers, and I don't suppose you want to go along with a rough-neck like me."

Donald liked this big, bluff Westerner, with his honest face and simple manner. He reached in his pocket and took out the money the sheriff had given him.

"You see that? Well, before this money is gone I'll have to find a job. And it's borrowed money, too."

Gillis studied him carefully. "Well, you got my goat in a way, but there is one thing I do know, and that is that you ain't no slicker. I'm 'bout twice your age, and I knows a good face when I sees it. I'll meet you tomorrow mornin' at the station. I'm goin' to start callin' you Donald right now. And what's more, Jack Gillis is your friend from now until hell freezes over. Good-night, Donald."

CHAPTER II.

Two days later Donald and the Westerner boarded a C.P.R. train in Montreal for the West. They were no sooner comfortably seated in their section of a tourist sleeper than they began rushing westward through the winter evening.

The days that followed were full of interest to Donald. The train roared West, running on time like a clock. They tore through towns and farming settlements and plunged into forests and hills in the northern part of Ontario. The hills dwindled when they reached Manitoba, and in Alberta Donald felt as if he were sailing over a vast sea of land.

"We'll see them old Rocky Mount'ns pretty soon," said Gillis happily. "You'll like B.C. Donald. And after you bin there awhile all hell won't pry you loose. I know, 'cause I broke away from her twice, but I always drift back. I ain't got the eddication to tell you the funny feelin' I have when I'm comin' back to her. When I see them big mount'ns loomin' up I feel sort of scrumptious inside, like I wanted to smile at everybody, and I have a hard time to keep from lettin' out a yell."

"Your power of expression needs no apology," laughed Donald.

"Forgot to tell you that I ain't goin' right through to the Coast. The Company I work for has a mill at Revelstoke that needs fixin'up. The job'll probably last 'till spring. You better stay off with me, 'cause you'll find things on the Coast pretty quiet this winter."

Gillis had played the part of host from the start, and Donald knew that if he accepted the invitation to stop off at the interior town, Gillis would insist on treating him as a guest. He felt that his new friend could not afford to pactise this lavish generosity.

Donald shook his head regretfully. "I think I'll go through to Vancouver."

Gillis arose with visible reluctance as the train drew into Revelstoke. "Well, I got to leave you, pardner."

Donald had developed a sincere friendship for the man. There was a great deal of tenderness beneath the rough exterior of this Western logger.

"I'm pretty lucky in finding a friend like you," Donald said feelingly as they shook hands.

"That's all right, my boy," Gillis replied awwardly. "I like you, and Ill sure look you up when I hit the Coast. So-long."

The sun was shining brightly as the train rushed along the edge of Burrard Inlet toward Vancouver. The lawns were a bright green, and the breeze blowing in the car-window was soft and balmy. Across the Inlet, that sparkled in the sunlight, were huge mountain-peaks; their tops covered with snow. The homecoming passengers were smiling happily, while a look of eager interest shone on the faces of those who were strangers to the Coast.

Donald paused for a moment on the corner of Granville Street while the cosmopolitan crowd flowed past him. Stolid-faced Klootchmen, dressed in flamboyant colours, with baskets of clams on their backs, rubbed shoulders with the haughty, turbanned Hindu. The little brown-faced Jap darted here and there amongst the crowd. A Chinaman came swiftly around the corner of an alley, moving with a peculiar trot, a pole across his shoulders, from each end of which dangled a basket filled with fish and vegetables. Another Chinaman, with a face of true Oriental impassiveness, riding a bicycle down the street, a clay pipe jutting from his mouth, was extremely incongruous. The wide, well-paved streets and the city's general air of modernity were impressive. In common with many other Easterners, Donald had pictured Vancouver as a rough Western town.

Donald engaged an inexpensive room and at once began a search for employment. Many of the mining and logging camps were closed for the winter, and work was scarce. He applied to all the engineering firms in the city, but their answers were invariably the same: "Nothing doing until spring."

Days passed, and as late winter merged into spring there was a stir throughout the city. Men who had spent the winter in idleness were "going out" again. Loggers in their characteristic blanket shirts hanging loose outside their trousers, could be seen on all sides saying good-bye to their friends.

One morning Donald counted his rapidly dwindling cash and found that he would have barely enough to tide him over the week-end.

With all his assets in the way of clothes and jewelry in a pawnshop, he could not stave off the inevitable, and there came a day when he had not even the price of a meal. Too proud to ask for a loan, he went without breakfast and lunch.

At the logger's employment agency he was told the same old story: "Only men of experience wanted. But," the agent added hopefully, "men are going to be scarce this summer, and they will be taking on everything before long." Donald made the rounds of the engineering firms where he had applied for a position, but without success. Force of habit led him back to the employment agency, where he sank disconsolately to a bench.

A diminutive man with blond hair, bright blue eyes under shaggy brows, and his head set at a cocky angle, entered briskly and approached the wicket. "S'y, do you know where I can find an 'eavy-weight that can box a bit?" he said to the agent.

"How about those two I sent you yesterday, Andy?"

The one addressed as Andy made a gesture of disgust. "Those two blighters were as 'eavy as cows. They didn't know their right 'and from their left. I don't want any 'uman punchin' bags, I want a man that 'as a little speed. Blime me, if I was in Austrylia I could get a 'arf a dozen in 'arf a minute."

"I'm your man," said Donald stepping forward.

The small man turned. The keen eyes under the bushy, light-coloured eyebrows studied Donald carefully. "Can you box?"

"I can."

"Good! Come with me."

Donald followed the sturdy little Australian. For a few blocks they walked in silence.

"'Ad your dinner?" queried the Australian.

"No."

"We'll 'ave a bite in 'ere."

They turned into "Old Joe's" restaurant.

"Sounds good to me," observed Donald with a pleased smile.

"Been missin' a few meals, 'ave you? Order what you want," said the Australian, as they sat down to a table.

"I'll warn you that I'm hungry," cautioned Donald.

"'Op to it, my lad; about all we get in this blinkin' world is what we eat. What's your name?"

"Donald McLean."

"Mine's Andy Pettray."

Then Andy delivered himself of the following information: "I'm the manager of Bill Hagin, the Austrylian 'eavyweight. We are to fight Slugger Garrieau, The Canadian champion, in about two weeks. The Slugger is well named, as 'e is an 'eavy 'itter and it tykes a good boxer to beat 'im. I want an 'eavy man that can speed Bill up a bit, and I've 'unted this town over, but I can't find one. Now, if you can deliver the goods, you will be worth three dollars a day and your eats. What do you s'y?"

"I say 'yes,'" was the decided answer.

Andy dug into his pocket. "'Ere's three dollars to bind the bargain."

"Better wait until I earn it," suggested Donald.

"That's all right, me lad; you'll be needin' it to eat on. I ain't worryin'.

"Come to the gymnasium at the corner of Robson and Granville at two o'clock tomorrow," advised Andy as they stepped outside.

"I'll be there, and I want to thank you for your kindness."

"Forget it," smiled Andy. "I've been flat many a time myself."

"Half an hour ago I was broke and hungry," mused Donald, "and now I am well fed and have three dollars in my pocket. Great old world this." He chuckled happily as he swung down sun-splashed Cordova Street with a buoyant stride.

To Be Continued.)

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symtoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Little Helps For This Week

"And the Lord make you to increase and abound in love one toward another, and toward all men." — 1 Thessalonians iii. 12.

If any little word of mine
May make a life the brighter,
If any little song of mine
May make a heart the lighter,
God help me speak the little word,
And take my bit of singing,
And drop it in some lonely vale
To set the echoes ringing.

If any little love of mine
May make a life the sweeter,
If any little care of mine
May make a friend's the fleeter,
If any lift of mine may ease
The burden of another,
God give me love and care and strength
To help my toiling brother.

God divided man into men that they might help each other.—Seneca.

Bears Well Behaved

Have Better Manners Than Any Other Wild Animal

The epicurean bears have the best table manners of any wild animal, in the opinion of Scorehum Alarid, who presides at the nightly feasts served to bruins in the park at Yosemite, Cal.

Scraps of food gathered from eating houses of the region are brought to a regular place, where bears are always waiting to be fed.

"Each evening the hungry bruins patiently wait until I have backed my truck containing their food to the platform and have set their table," Alarid said.

"When I empty the scraps on the platform they take their places. They do not guzzle their food and are not in the least disturbed by the thousands of tourists who watch them," he added.

Airplane Saved Men

A score of men without food and very little clothing, in a wild part of the Red Lake District, Manitoba, have been saved by airplane, which took emergency rations from Hudson. The plight of the men was caused by a forest fire which destroyed their cabins and supplies.

The principal difference between a "shoppe" and a "shop" is about ten bucks per garment.

Don't forget it, that self-pity is the most despicable of all vices.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

TOOTH STRUCTURE

You examine the highly polished clean tooth surface and you conclude, and rightly so, that the enamel does not persist all the way through. As the bark is to the tree, so the enamel is to the tooth, its protective covering, but serving as well, the purpose of ornamentation of the tooth body.

In the tooth, this body which constitutes the main bulk of the tooth, is known as the dentine.

Then is this all? No, for as in the tree we have a pith or core, so in the tooth we find a central chamber known in the crown of the tooth, as the pulp chamber, and in the root, as the root canal.

But you have observed, too, that the enamel covers only the exposed portion of the tooth, or crown. The root, then, is protected by a covering known as cementum, which attached the myriads of fibre or "threads," that hold the tooth firmly in place in its socket.

Nature, ever wise, has constituted the enamel the hardest substance in the human body, to better withstand the stress to which it is subjected. Also, enamel does not undergo the physiologic changes of dissolution ond repair to the extent of any other body tissues, hence the need of hardness as an effective barrier to injury and disease.

In the dentine are minute tubules, or canals, containing soft tissue filaments through which communication is established from the outside of the tooth to the nerve tissue of the pulp; and because of this honeycombed structure and, too, owing to dentine being softer than enamel, it is less resistant to disease than is the latter.

So you can see how important it is to keep intact the enamel which constitutes the outer defences of the tooth since disease processes, once penetrating the enamel barrier, can quickly gain access to the more vital tissues within and there proceed apace to work disaster.

German youths are not so tall now as in the pre-war days. The general decrease is about 1½ inches.

Athletes — Keep Minard's Liniment handy.

What Will you do When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless. Castoria was never more popular with mothers than it is today. Every druggist has it.

Fletcher's CASTORIA

GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I began taking Vegetable Compound for nerves and other troubles and I must say I felt different after the first dose. I have been told this last six months that I look twenty-five, although I am now forty-seven and have had seven children. I have taken the Vegetable Compound regularly for some time and sleep well, rise early and feel young."—Mrs. McKEE, 18 Laurier Ave., Toronto, Ontario.

Pimples Itched And Burned Badly Cuticura Healed

"Pimples broke out on my nose and spread all over my face and body. They were hard, large and red, and festered and scaled over. The pimples itched and burned so badly that I scratched, and scratching caused many eruptions. They were so painful that I could not sleep, and used to cry from the pain. The trouble lasted two years.

"I purchased some Cuticura Soap and Ointment and after using them two days I found they were helping me. I continued the treatment and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed." (Signed) Miss Lucy Kinakin, Verigin, Sask.

Make Cuticura Soap and Ointment your every-day toilet preparations and have a clear, sweet skin, soft, smooth hands, and a healthy scalp with good hair. Cuticura Talcum is unexcelled in purity.

Sample Each Free by Mail. Address Canadian Depot: [illegible], Montreal. Cuticura Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

Fall Fair Fruit Display Improves

[Continued from Page 1

judges to roots and vegetables, but due such a dry season the exhibit was not up to standard of other years. W. K. Brown was the prize winner for potatoes, and Carl Wigen captured the tomato honors this year.

There was the usual entry in the poultry class, in which G. L. Langdon of Nelson placed the awards. The Jackson cup for best male bird went to D. Bradley, who also won first on utility pen. A. Comfort captured first on the special prize given by Mr. Bradley for utility pen of Rhode Island Reds.

The display of flowers showed a falling off, which is also accounted for by the dry season. Mrs. F. H. Jackson was first in the collection of house plants, and Mrs. G. Cartwright's collection of cut flowers took home the red ticket.

In the cooking class chief interest centered in the big collection open to women's organizations and this year first prize was carried off by the Women's Institute. The prize bread makers were: Maple Leaf flour, Mrs. H. McLaren; Purity, Mrs. Nathorst; Bake Rite, Mrs. G. Cartwright. The champion pie makers were Mrs. W. J. Craig, lemon; and Mrs. G. Cartwright, apple.

Mrs. W. S. McAlpine scored a decided triumph in the butter class getting first on both prints and rolls. Mrs. Robson's collection of candy scored first, and Mrs. W. K. Brown's collection of pickles was adjudged the best at this year's fair. The special prize by Mrs. Hennessey of Cranbrook, for the best and most perfectly packed can of vegetable was won by Mrs. F. H. Jackson. The judges in domestic science were Mrs. Hennessey and Mrs. Gordon of Victoria.

In the school districts display first prize went to Wynndel, with Creston second, and Lister third. The awarding of the honors in this fashion was generally satisfactory. For attractive appearance the Lister display was the best of the lot but it was short on quantity, while on the other hand Erickson appeared to be on a par with the others as to both quantity and quality but had not the attractiveness necessary to get in the prize money.

The non competitive district display put in by the Lister Huscroft Farmers' Institute won the admiration of all. It was a splended collection of grain, fruit, vegetables, dairy products, honey, canned goods, etc., that indicated that in all round production the districts are quite in a class with the other points in the Valley. Mrs. H. Langston and Miss Hazel Hobden, were responsible for staging the display and did first class work in that respect.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions, is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant, unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers or travellers, up to ten head.

LETTERS TO THE EDITOR

Misses the Flag

EDITOR REVIEW:

SIR—A few years ago many Canadians went overseas and fought for the flag of their country. Is it not distressing to note that the flag they fought for is not flown at Creston public schools? Is it not part of the school regulations that "the flag" is to be hoisted and flown every day? If so, why should this duty be neglected?

VETERAN.

NEWS OF KOOTENAYS

Kimberley will have the four-night Chautauqua in November.

The community swimming pool at Fernie operated this season at a small profit.

The co-operative selling agency at Penticton handled 755 tons of peaches this year.

The medical health officer at Vernon advises citizens to boil the water before using.

Almost 500 pupils were enrolled at Kimberley when the public school opened at September 3rd.

The old North Star hotel at Kimberley, which was destroyed by fire early in September, is being rebuilt.

For August, 1928, the Vernon creamery manufactured four tons more butter than in the same month of 1927.

Of $93,417 paid out by the Associated Growers on cherry sales this year, over $24,000 went to Penticton growers.

If sufficient pupils enroll Fernie will have a night school again this winter teaching commercial subjects, domestic science and even furniture making.

STEER ASTRAY

Came to the premises of the undersigned on or about July 10th, 1928, one steer, about 18 months old, red and white, no brands visible. Owner can have same on proving property and paying all expenses. Notice is further given that unless said animal is claimed within thirty days it will be sold by public sale at my premises at 10 a.m., Monday, October 29, 1928.
JOHN WOOD, Canyon.

TENDERS FOR WOOD

Sealed tenders will be received up till Friday, October 12, 1928, for the supply of stovewood for Creston schools as follows: 10 cords of 16 inch wood; 10 cords 20 inch wood, and 90 cords of 4-foot wood. Lowest or any tender not necessarily accepted. For all other particulars apply GEO. NICKEL, Secretary, Creston.

MINERAL ACT

Form F

Certificate of Improvements

NOTICE

Rhomberg Fractional Mineral Claim, situate in the Nelson Mining Division of Kootenay District. Where located: On Fawn Creek, near the Reno Mine.

TAKE NOTICE that I, A. H. Green, acting as agent for W. H. Rhomberg, Free Miner's Certificate No. 14889D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under Section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 19th day of July, 1928.

A. H. GREEN,

Our Service

The Bank was established in 1875, and during a period of more than fifty years Branches have been established from time to time at carefully chosen points. The service at all Branches is local and personal, but it is also world wide in scope. A moderate sized Bank—not too machine-like,—with a friendly interest in its clients.

Printed Butter Wraps at Review Office

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $78,174,795; Lode Gold, $136,651,919; Silver, $86,689,046; Lead; $121,850,734; Copper, $221,501,079; Zinc, $59,508,692; Coal, $271,294,668; Structural Material and Miscellaneous Minerals, $53,502,891; making its mineral production to the end of 1927 show an

Aggregate Value of $1,048,837,828

The substantial progress of the Mining Industry of this province is strikingly exhibited in the following figures, which show the value of the production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $36,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for six years, 1921-1926, $281,915,492; for 1927, $60,729,358.

Production Last Ten Years, $453,266,721

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties, upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C., Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
Victoria, British Columbia.

Almost 500 pupils were enrolled at Kimberley when the public school opened at September 3rd.

Local and Personal

John Murrell and his friend, Robert Hynes of Calgary, Alberta, who were visitors last week with the former's parents, Mr. and Mrs. C. Murrell, have returned home, via Spokane. They were travelling by auto.

Creston lodge of the Knights of Pythias had a special meeting on Monday night at which they received an official visit from J. A. McKinnon of Trail, grand chancellor for B.C. There was a large turnout of members and the lodge was complimented on the efficiency shown.

St. Stephen's Church Sabbath school rally will be held next Sabbath, 30th—merged into the morning service commencing at 11.30 a.m. Scholars to be in their places at 11.15 sharp. Interesting programme and full attendance of parents and scholars requested. Special rally day offerings.

A meeting will be held in Trinity Church basement on Friday evening, October 5th, at 8 o'clock, to discuss plans for athletics during the coming season. This is an undenominational effort, and all interested in athletics for the young people are invited to be present. W. J. TRUSCOTT.

The attraction at the Grand Saturday night, 29th, will be the Georgian Singers and Players, which are appearing under the auspices of Creston Post of The Canadian Legion. Along with a high class musical and literary programme they also present a one-act comeny, "Who Done It." It comes highly recommended as a variety show and at 75c., 60c., and 35c. none should miss it.

His honor R. Randolph Bruce, lieutenant governor, accompanied by his niece, Miss McKenzie, and Mr. Lake, manager of the Paradise mine, Invermere, along with W. Howard Cleland of Invermere, were motor visitors to Creston on Sunday, where they were guests of Major and Mrs. Mallandaide, and during his stay the lieutenant governor was motored through the district, making a special inspection of the Lister area. The visitor regretted very much being unable to be here on Wednesday having been invited to open the fall fair.

Before his departure from Creston on Tuesday, Grand Chancellor J. A. McKinnon of the Knights of Pythias, suggested to the local lodge that they present two small silver cups to be given to the best boy and girl athlete at the fall fair sports. This suggestion has been promptly acted upon by the local officials and we feel sure it will act as incentive to our growing generation to take an active interest in clean sports. The action of the visitor and the local K.P. Lodge is much appreciated by the sports committee.

Word has just reached Creston of the marriage last month at Taylor, B.C., of J. S. Clark, who was attached to the R.C.M.P. at Creston about the time the post was closed some five years ago. Mr. Clark is now with the B.C. provincial police and has just been transferred from Hudson Hope to Port Nelson and will be the furthest north provincial police in the province. Mrs. Clark was formerly Miss Christie of Lethbridge, Alberta, and following the honeymoon the young couple are en route to Fort Nelson. Many friends in Creston will extend the usual good wishes to the newly weds.

Vernon school opened with an attendance of 809. A year ago the opening day registration was 749.

For neglecting to report their entry into Canada four young men were fined from $10 to $25 at Fernie police court last week.

The Kootenaian may justly be proud of Kaslo as a summer resort. Dr. and Mrs. Rutherford have just returned to San Diego, Calif., after a three months visit there.

An Inspiring Sight

The prairies of Western Canada during this year of grace, 1928, have been a joy to behold. In the early summer following the June rains the tender verdant green of the recently sown grain crops presented a restful picture full of promise for the future. As week followed week of almost ideal growing weather, with only an occasional storm affecting restricted areas, and an absence of rust and insect pests, the early promise of a bountiful crop grew steadily into a certainty.

Inspiring as the prairies were in early spring and the first days of summer, and full of promise as they were, as the crops became taller and the heads began to develop and fill out as they swayed to the passing breeze, it is in the late summer and early fall months that the West really comes into its own and presents a picture which few places in the world can rival and none surpass.

This article is written in mid-September when days of unsurpassed sunshine prevail, each day closing with a glorious sunset, the promise of still another day of perfect harvest weather to follow. The writer has just completed a motor trip through hundreds of miles of grain fields. And what a sight! If the pessimists of our Dominion could make such a trip surely their croaking voices would be silenced.

Speeding along almost perfect roads, albeit only well graded dirt roads, whether over prairie as level as a billiard table, or with the feeling of a bird rising and dipping as the car speeds over more rolling country, dropping into a valley here and winding up through the hills, only one sight reaches the eye, and that panorama extends unchanged as far as the eye can reach,—a seemingly limitless expanse of yellow golden grain. The whole country is golden yellow.

And no great industrial city in the world can show a scene of greater activity. On all sides can be heard the click and clatter of the binders as they cut down the ripened grain and with automatic carelessness toss the bound sheaves to one side, ready for the stookers. With amazing frequency the sight is witnessed of the newer combines—reaper and thresher—some using the swather attachment, others threshing the grain as the big machines move onward with the irresistibility of a tank in modern warfare. In some fields the harvest hands are busy in groups gathering the sheaves into stooks; across the road a threshing gang is at work, horses hauling great racks or stook-loading machines, pitchers, engineers, firemen, drivers, all covered with dust and working at high pressure to accomplish a maximum of work before daylight fails.

And as one speeds along the road it becomes a necessity to slow down and turn out every few minutes as we pass, or allow to pass, a box wagon or motor truck loaded to capacity with the wheat being hurried to the elevators, those far from artistic but essentially modern and practical adjuncts to twentieth century grain raising and marketing. Every road is alive with them, great wagons drawn by teams, double teams, horses three abreast countless new motor trucks, strings of wagons hauled by a tractor, driven by old men and young, boys hardly in their teens, women and girls, all headed to the nearest railway station.

And these small prairie towns and villages through which we pass every eight or ten miles all present the same scene of tireless activity. The loaded grain wagons and trucks are lined up awaiting their turn to reach the elevators, while the "putt, putt" of the engines testify to the energy with which the elevator operator is striving to keep up with the golden stream pouring in upon him. At the same time is heard the "hiss" of the grain as it is emptied through the elevator chutes into the waiting freight cars. All night long the elevators struggle with the gigantic task before them and through the night the long trains plunge through the darkness hurrying the proceeds of the farmers' toil to the hungry markets of the world.

And where are those tens of thousands of harvesters from Eastern Canada, British Columbia, and the miner-harvesters from over the sea, which only a few days ago thronged our cities and larger town distributing centres? Scattered singly or in groups they have been swallowed up in the grain fields of Canada's prairie provinces. They have been merged into and become a part of the Epic of the West. They are working hard, but they are, too, catching a glimpse of a new life and it is inconceivable that they will fail to become imbued with some of the courage, the optimism, the vision of this great new land.

September days in Western Canada! Glorious days, health-giving, wealth-giving.

A New Wireless Wonder

Apparatus Supplies Heat Without Apparent Direct Contact

The latest performances in which wireless is employed consist of supplying heat to bodies without establishing apparent direct contact between the heater and the heated body, and lighting lamps without any apparent electrical supply.

These are done by power obtained from a new short-wave vacuum tube. High frequencies are produced at high power, using a short-wave length.

Foodstuffs have been enclosed in a glass tube and hung from the end of a metallic "aerial" that receives the transmitted power and conveys it to the food in the form of heat and cooks it.

New methods in electrical treatment are always being looked for by doctors. Perhaps, in the future, this new apparatus will be used for imparting heat to the body to produce artificial "fever," one of Nature's most prevalent factors in recovery from many diseases.

Foot Comfort

For aching feet use Minard's. Soothes and relieves pain.

MINARD'S "KING OF PAIN" LINIMENT

W. N. U. 1752

Explanation Is Simple

Exceedingly strange are the whys and wherefores of names. Take, for instance, the letter "Q"—how many of us have ever stopped to think or to ask ourselves why we call it "Q"? And the answer is just as strangely curious as the question. The name of the letter "Q" is from the French word "queue" meaning "tail," "Q" is simply an "O" with a tail!

The prison population of England and Wales has decreased from 20,000 to 10,000 since 1878.

New Use For Radio Waves

Will Kill Germs Found In Milk, Says Austrian Professor

Radio waves will kill germs found in milk, according to a report received by the medical college of the University of California from Dr. Karl Seidel of the University of Vienna.

Research done by the Austrian professor indicated that intense radio beams of very short wave length will kill germs without altering the milk molecules nor changing the natural flavor, the report says.

HAD NO APPETITE WEAK AND DIZZY

This New Brunswick Woman Restored By Dr. Williams' Pink Pills

Mrs. James Belyea, Brown's Flat, N.B., says:—"I am writing to tell you the great good I had through the timely use of Dr. William's Pink Pills. My health had failed and I was troubled with great weakness: I had no appetite and frequently had dizzy spells. The least exertion would make my heart palpitate violently and I felt tired at all times. I had doctored a great deal without getting much relief, and was feeling greatly discouraged when I finally decided to try Dr. Williams' Pink Pills. The happy results following the use of this medicine can best be summed up by saying that I am again perfectly well, able to do my housework and enjoy life once more. I feel it a duty to recommend Dr. Williams' Pink Pills to all weak people."

If you have any, or all, of the symptoms above noted, do not delay, begin treatment at once with Dr. Williams' Pink Pills. You will be surprised to note the improvement in your condition after a few weeks. You can get these pills through any dealer in medicine or by mail at 50 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont. If you will send your name and address a little booklet, "Building Up the Blood," will be sent free.

Ex-Kaiser Recovers Farms

Former Kaiser Wilhelm of Germany, has won a suit for the recovery of two confiscated farms. The farms were seized by the Government of the Union of South Africa, in 1920. The case is considered important as setting a possible precedent for actions to recover the former imperial estate in other countries, notably in Poland.

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

Intelligent Congressman

Shipowner: We must have government aid! Congress does not realize how expensive it is to operate a ship. Why, barnacles alone cost American ships $100,000,000 a year.

Congressman: You ought to cut that item down. Use a cheaper grade of barnacles, or get along with fewer of them.

When Asthma Comes do not despair. Turn at once to the help effective—Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the aid you need so sorely. Choking ceases, breathing becomes natural and without effort. Others, thousands of them, have suffered as you suffer but have wisely turned to this famous remedy and ceased to suffer. Get a package this very day.

Turks Are Progressing

Dictator Kemal Pasha is compelling the Turks to abandon the Arabic alphabet and to learn the Latin alphabet. Turkey is more progressive than the Irish Free State with its compulsory Gaelic. While the Turk goes forward the Celt goes back.

It Has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Eclectric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

"Not by appointment do we meet delight and joy; they heed not our expectancy: But round some corner in the streets of life they on a sudden clasp us with a smile."

Minard's Liniment for Every Pain.

Milk May Be Sold In Sheets

Danish Farmer Has Invented Wonderful New Machine

The world is used to several varieties of prepared milk and to milk powder, but shortly it will be made, and sold, in sheets.

A landed proprietor at Copenhagen has invented a device which extracts the water from fresh milk and leaves dry milk which comes from the machine in a form resembling sheets of rather heavy tissue paper. In this form the milk, it is stated, can be kept for years, and becomes "fresh milk" again by mixing it with lukewarm water.

It is intended to build a factory to make this "sheet milk," which should be important to agriculture.

Locating Rome

An American mother and daughter had made an exhaustive tour of the Continent. When they returned to their "home town" somebody asked the mother if they had been to Rome.

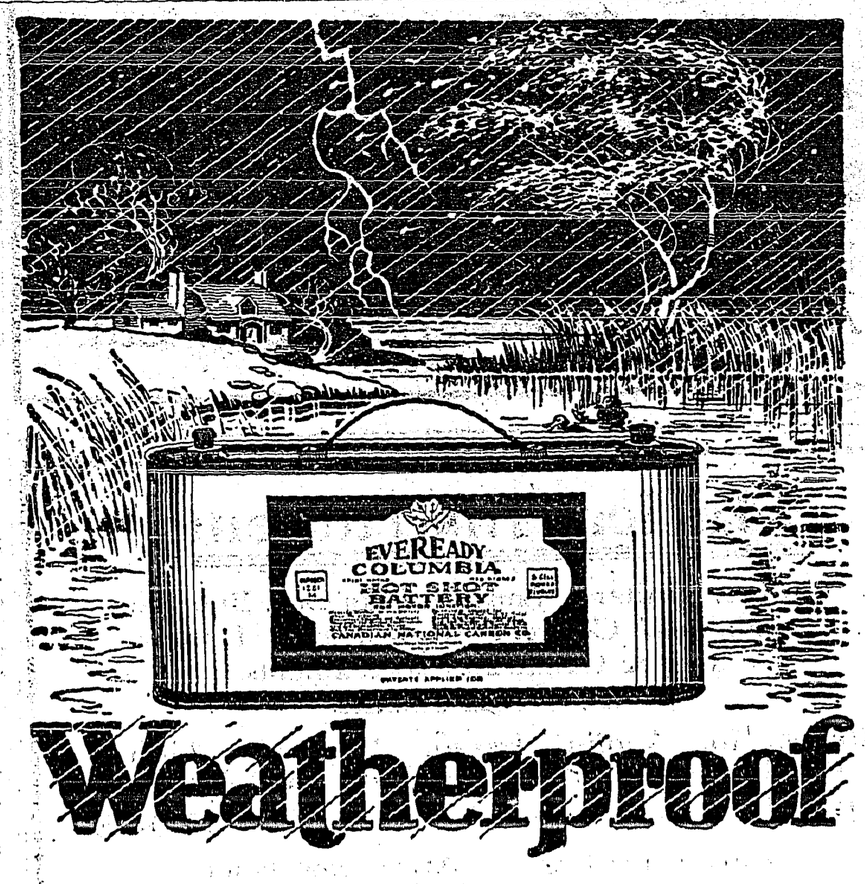
"Say, Sadie," said the mother to the daughter, "did we go to Rome?"

"Why, mother," replied the daughter, "of course we did. Don't you remember that's where you bought the black silk stockings with the white clocks?"

Joseph Conrad, the novelist, could not speak English until he was 19.

There are 42,992 women employed underground in the mines of Japan at present, and new regulations provide that no more shall be so employed.

The hardest part about knowing some people is to conceal your opinion of them.



Dry batteries last longest when protected from wet or damp. Eveready Hot-Shots give you full value for your money, because they are housed in metal cases.

Before you buy a battery for ignition in exposed places, make sure it bears the name "Eveready Hot-Shot." Other batteries may resemble these famous power plants in appearance, but only Eveready can make the genuine Hot-Shot.

The Eveready Ignitor shown on the left is the longest lived single dry cell money can buy. It is for use indoors or under cover.

Eveready Ignitors are the longest lived single Dry Cells made. For use in unexposed places.

SAYS CANADA PROVED TO BE A REVELATION

Southampton, Eng.—"Canada is the best holiday country I ever struck," said Rt. Hon. J. Ramsay MacDonald, leader of the Labor Party in the House of Commons, on his arrival here after a visit to the Dominion.

In an interview he said he did not think immigration to Canada would "cure or even substantially alleviate our unemployment problem."

Discussing the British miner-harvester migration, Mr. MacDonald said:

"There is no doubt a very determined attempt is being made by certain people to spread discontent among the harvesters. It is my impression that a considerable number of the men will remain and get employment in Canada.

"From east to west in Canada the British worker is preferred to anybody else, providing he is prepared to do the work Canada requires him to do."

He expressed the opinion that the problem of winter work could easily be solved if some simple system of organization were brought into existence. Statements that Canada does not welcome British workers were untrue, he said.

"After more than twenty years absence from Canada," Mr. MacDonald remarked, "I hardly recognized places I had visited visited before. It was an absolute revelation and a good revelation to me.

"There is a vitality of expansion, a youthfulness and a hopefulness in Canada," said the former British premier. "Her weakness is that she has not got sufficient magnetic power to keep her people both Canadian born and British immigrants within her own borders.

"The great magnet that is always pulling them is the U.S., and it is of the most vital interest to Canada to devise some means whereby she can accumulate sufficient magnetic power to hold her population within her domains."

New Branch Lines

Settlers In Saskatchewan Are Promised Railway Facilities After Long Wait

Winnipeg, Man.—Settlers of Saskatchewan who have waited in some cases for as long as twenty-five years for railway services are assured of these before the end of 1929, is the annuoncement from Western Headquarters of the C.P.R. made here.

In the south section of the province a line of eighteen miles will be completed easterly from Coronach, 37 miles westerly from Wood Mountain to the Consul branch of the C.P.R.

Another branch line 12 miles easterly from Coderre will give railway services to settlers of the Lake Johnston District.

Possibly the most important of the lines are those from Hatton, Aikins and Pennant. The Hatton extension north-easterly of about eighteen miles will tap the Fox Valley country at the west side, and the line from Pennant, 24 miles south-westerly, will tap it from the east side.

From Aikins, the first station east of Swift Current on the Main Line of the C.P.R., a branch approximately 20 miles long will be sent northward. This line will eventually connect Swift Current direct with Saskatoon.

In Central Saskatchewan the following lines are being projected:

From Foam Lake, southwesterly 27 miles.

From Rosetown to Perdue, 45 miles.

From Unwin, westerly 20 miles.

Northern Saskatchewan will benefit by the 10 miles northeasterly from Lloydminster.

Reject Marketing Board Plan

Sydney, Australia.—Wheat gorwers have rejected a scheme to form a marketing board to control the sale of wheat for the next three years. A ballot to decide what course should be taken on the matter resulted in 7,453 growers opposing the scheme, while 6,020 approved it.

Nations Must Agree On Naval Matters

Or Conference On Disarmament Would Be Useless Says Dr. Loudon

Geneva.—An early meeting of the League of Nations preparatory commission on disarmament would be useless unless an accord on naval matters is reached among the five leading sea powers, says Dr. Loudon, president of the commission.

Dr. Loudon, who is Dutch ambassador to France, suggested that the best way to meet this condition would be through a private conference at Paris of representatives of the United States, Great Britain, France, Italy and Japan. He said such a conference might readily reach an agreement on the points respecting naval matters which now divide them.

He said that unless a working basis could be found among these powers he would not take the responsibility of re-convoking the preparatory commission except upon a direct mandate from the full assembly of the League.

Rules In Oratorical Contests Altered

Manitoba Trying To Reduce Interference With School Studies

Winnipeg, Man. — Alteration of rules for International oratorical contests, designed to reduce to the minimum interference with school studies, has been decided upon by the provincial central committee. Under the new rules, Manitoba will take part in the 1929 contest. The revised conditions are:

That the contest be open to students of grades 10, 11 and 12 only. Last year students of grade 9 were eligible.

Schools teaching any of the grades from 10 to 12 are to be asked to decide their respective champions by Christmas, by any method they determine, provided public speaking by a considerable number of the pupils is involved.

The preliminaries to the championship contest in Easter week are to be complete by the end of March. The district elimination contests are to be held before Christmas.

River Steamer Wrecked

Sinks After Hitting Huge Boulder In Peace River

Peace River.—The steamer D. A. Thomas, according to reports reaching here, is sunk 60 miles below here, broken in the midddle by a huge boulder.

Since the palatial steamer left here September 10, loaded with freight for Vermilion Chutes and other way points, navigation has been carried on under the most trying circumstances, due to the extremely low stage of water. She was on her way upstream loaded with 60 head of cattle and several passengers when disaster overtook her. The cattle swam ashore and all aboard were rescued.

The steamer Thomas was built by the late Baron Rhondda in the summer of 1915, and was one of the finest on the island waters. The material for her construction was freighted in over the old Grouard trail by teams when the end of the steel was at Reno, and her cost was upwards of $100,000.

Warns U.S. Gangsters

Toronto.—The Ontario Government, acting through the department of the attorney-general, will take immediate steps in an effort to see that United States gangsters do not commit acts of violence upon Canadian soil. Attorney-General Price has issued this warning to United States gunmen.

NOTED ENGLISH STATESMAN

The late Lord Haldane, Viscount of Cloan, noted English statesman, who died recently at the age of 72.

Loss From Damage Claims

Canadian and U.S. Railways Face Heavy Liability Each Year

Winnipeg. — Representatives of Canadian and United States Railways are meeting in Winnipeg to seek some method of reducing the enormous amount of damage claims paid for lost and damaged goods. Last year this amount totalled $38,000,000.

A great deal has been done already as was reported at the meeting. In 1920 when the railways were first aroused and took definite action the figure was $119,000,000. Since then reductions have been brought about each year. Shippers and receivers are co-operating better with the carriers and a great deal of education has been done among railway employees with a view to lessening rough handling and the other cause of loss. The American Railway Association employs three full-time special representatives to gather data on the subject and present it to the parties concerned.

Famine In Russia

850,000 Persons Will Be Fed Through Public Funds

Kharkoy, Ukraine, Soviet Russia.—Eight hundred and fifty thousand persons will be fed through public funds during the coming winter in the Ukraine, the grain crop having fallen far below the need of the population. Ordinarily the Ukraine is one of Russia's best granaries and in good years has wheat both to eat and to export.

The Moscow government has appropriated 31,000,000 rubles, the Ukrainian government 10,000,000 rubles and social service organizations have begun a campaign to raise an additional 6,000,000 rubles to provide nourishment this winter for the stricken population. One-third of the Moscow advance is a gift and the balance is a loan.

Trail Riding Popular

Banff, Alta.—Trail riding in the Canadian Rockies is increasing in popularity. In 1925 Pat Brewster had five parties on the trail. In 1926 there were 19 who took this form of pleasure as the only way in which to see the full beauty of the Rockies. Last year the number was augmented to 41, and this year it will run to about 85.

Letter Carriers' Demands

Windsor.—A boost in maximum salaries from $1,500 a year to $2,100, a seven-hour day and a five-day week comprise the main demands to be made by the Canadian letter carriers of the government as formulated by the delegates to the biennial convention of the Federated Association of Letter Carriers of Canada.

New Northern Route Is Complete Success

Was Opened By Blasting Of Montreal River Channel

The Pas, Man.—Saskatchewan's new route into the mineralized country of the far north, made available by the federal government blasting rocks out of the Montreal River in North Central Saskatchewan, is a complete success.

Hon. Thomas C. Davis, attorney-general of Saskatchewan, and Frederick MacDermid, K.C., of Saskatoon, accompanied by their wives, left Prince Albert on September 5, to make the swing around the great water half circle in the northern part of the province.

The voyage ended Tuesday afternoon, Sptember 18, at The Pas, and was a complete success in every way, only 14 days being required for the entire trip.

That the distinguished travellers were accompanied by their wives proves conclusively the ease with which the new passage can be made.

Northcott Is Apprehended

Youth Wanted On Murder Charge, Is Arrested In B.C.

Vancouver. — Gordon Stewart Northcott, wanted by the Riverside, California, authorities on a murder charge in connection with the alleged slaying of several youths on a chicken ranch, and for whom the entire Canadian West has been searched for four days, was arrested at Okanagan Landing, five miles south of Vernon, by provincial police Constable Morley Green, according to information telegraphed to Inspector Forbes Cruickshank, in charge of the Vancouver District.

The arrested youth, according to the police, did not deny his identity nor did he actually admit it. The police are certain, however, that he is the much-sought man for whom a country-wide search has been in progress for several days.

New Branch Line Opened

First Train From Melfort North Makes Journey Over C.P.R.

Melfort, Sask.—The opening of the new branch from Melfort north on the C.P.R. created considerable excitement and loud cheering when the first passenger train made its journey to the end of the steel at Edenbridge. Crowds of people greeted the "iron horse" which was quite reminiscent of the days gone by when the first trains made their journey across the western prairies.

Every station platform along the way was jammed with people who were present to greet the first train to traverse the distance between Melfort and Edenbridge over the new C.P.R. branch line. With shouts and cheers they hailed its coming, thinking, no doubt, of the benefit to be received in being linked with the outside world.

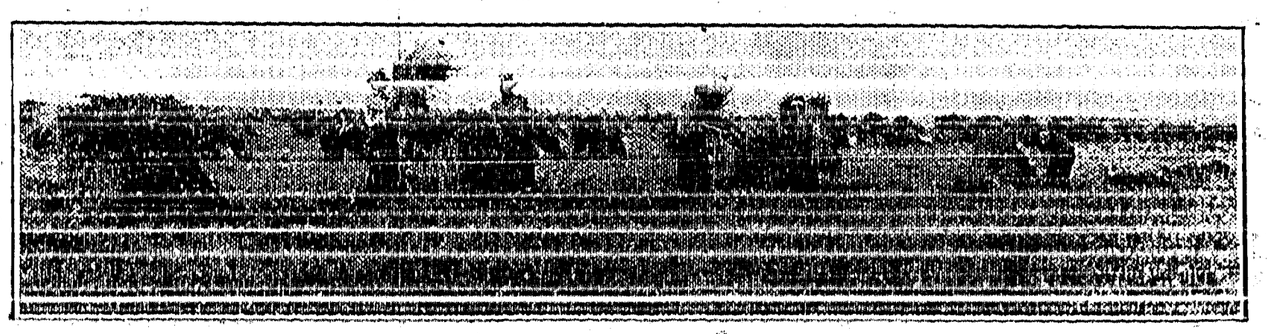
Eligible For League Posts

Geneva.—Women's rights have won still another victory. Henceforth appointments on the government boards of all international institutions which are linked with the League of Nations will be made without distinction of sex and women are now assured representation. A resolution to this effect was given unanimous approval by delegates at the league assembly. It was introduced by Dame Edith Lyttleton, of Great Britain.

Form New Association

Ottawa.—A new organization of postal employees, to be known as the "United Postal Employees of Canada" was launched here by the fifteenth annual convention of the Dominion Postal Clerks' Association.

BRITISH HARVESTERS IN ACTION



Photograph shows a group of British harvesters aiding in the gathering of Canada's 1928 bumper crop.

DEATH TOLL IN STORM AREA MOUNTS HIGH

Washington.—With death reports to the American Red Cross from the tropical hurricane area—Guadeloupe, Porto Rico, the Virgin Island and Florida—reaching 1,199, the relief plans were rushed to combat the possibility of disease and pestilence following in the wake of the storm.

Hundreds of injured are to be treated, thousands fed and additional thousands given shelter from the elements. To this end the Red Cross is directing its gigantic relief machine.

Figures reaching the Red Cross place the dead as follows: Guadeloupe, 660; Porto Rico, 106; Florida, 427; Virgin Islands, 6.

Estimates of injured run into the thousands. Property damage is estimated at exceeding $150,000,000. Tens of thousands are without homes.

The chief concern of the Red Cross and local relief agencies is now centered in maintaining sanitary conditions in the area ravaged by the hurricane.

Plans were rushed to establish two camps in Palm Beach to care for refugees where they can obtain treatment for disease. Sanitary conditions in the interior of Palm Beach county were reported bad.

Governor-General Waldo Evans of the Virgin Islands, notified Red Cross headquarters that health conditions were bad but there was not immediate danger of an epidemic. United States Consul William H. Hunt, reported from Guadeloupe in the French West Indies that disease in epidemic form is feared.

Evans and Hunt both appealed for Red Cross aid in the emergency.

Henry M. Baker, National relief director for the Red Cross, arrived in Porto Rico and radioed to headquarters here that while there was no immediate danger of epidemic there, he said conditions were bad and food and clothing needed.

Looks For Better Prices

United States Farmers Are Urged To Hang On To Their Crops

Washington, D.C.—Secretary Jardine asserted in a statement released through the Republican national committee that "if Governor Smith is elected and tariff rates are reduced to the schedules of the Underwood Act, as Governor Smith forecast in his acceptance speech, the entire farm industry will be thrown into a state of utter demoralization."

He reiterated his views that wheat farmers should hang on to their crops. He said that the present price level is lower than justified, and that everything pointed to an increase.

Noting prospects of increases in this country's wheat crop, and the forecast for the biggest Canadian crop in history, he said, however, that from a world point of view the situation is about the same as last year. Shortage of rye abroad and growth of world population, he asserted, would increase foreign demand.

Plot To Kill Trotzky

Several Attempts Are Made To Assassinate Exile In Siberia

London, Eng.—The London Daily Mail says that despatches received in London revealed several attempts to assassinate Leon Trotzky, since his exile to Siberia by the Soviet government.

According to the reports, Trotzky had written letters to Christian Rakovsky, former Soviet envoy to Great Britain, describing how his cottage was besieged and how sharpshooters attacked him from trees.

Trotzky said he and his son defended their house with two sporting guns and told how the attack was repeated three successive nights.

After the failure of the sharpshooters, local authorities denied food to the Trotzky family, the latter were purported to have said. Only the kindness of friends saved them from starving.

In the regular "shopping list" of the London Zoo appear large quantities of sunflower seeds, mealworms, condensed milk and dried flies.

WANTED—Second hand piano, in good shape, state price. Box 60, Creston postoffice.

STEER ASTRAY

Came to the premises of the under signed on or about July 10th, 1928, one steer, about 18 months old, red and white, no brands visible. Owner can have same on proving property and paying all expenses. Notice is further given that unless said animal is claimed within thirty days it will be sold by public sale at my premises at 10 a.m., Monday, October 29, 1928. JOHN WOOD, Canyon.

TENDERS FOR WOOD

Sealed tenders will be received up till Friday, October 12, 1928, for the supply of stovewood for Creston schools as follows: 10 cords of 16 inch wood; 10 cords 20 inch wood, and 30 cords of 4-foot wood. Lowest or any tender not necessarily accepted. For all other particulars apply GEO. NICKEL, Secretary, Creston.

Local and Personal

CIDER VINEGAR—Finest quality, at 50c. gallon. A. Mirabelli, Creston.

FOR SALE—1920 Ford runabout, in good shape. Harry Smith, Creston.

W. O. Taylor spent part of last week seeing the sights at Nelson fair.

Miss Eva Bolton of Cranbrook is spending the week with her mother, Mrs. P. Bolton.

Mrs. R. Rose of Medicine Hat, Alta., is a visitor this week with Mr. and Mrs. J. F. Rose.

Miss Avery of Medicine Hat, Alta., was a visitor last week with her sister, Mrs. A. Comfort.

Mrs. A. L. Palmer was a visitor last week with relatives and friends at Nelson and Trail.

FOR SALE—One Toggenburg doe, and one solid oak buffet. Miss Alma Johnson, Creston.

Mrs. DeLucca of Michel is a visitor this week with her parents, Mr. and Mrs. Frank Romano.

WANTED — Young girl for light housework for the winter. Apply Box 57, Review Office.

Mrs. (Dr.) Henderson has just returned from a short holiday visit with friends in Vancouver.

A. L. Palmer of the Premier garage is spending the week at Calgary, Alberta, on a business visit.

Ted Bush left on Friday for Beaverdell, where he has secured a position at mine work in that district.

Mr. and Mrs. W. S. Bush combined business with pleasure during a few days visit at Nelson last week.

C. F. Hayes got back on Sunday from a business trip to Vancouver, leaving the previous Wednesday.

FOR SALE—Honey, 16 cents a pound, bring your own containers. Mrs. F. Bunt, (former Gobbett Ranch) Creston.

Mrs. E. J. Brawn of Cranbrook was a Creston visitor for the fall fair. She was en route home after a holiday at Sirdar.

FOR SALE—Wool filled bed comforters, handmade, very warm and good. Your choice of cover. M. Knott, Erickson, B.C.

Miss M. Ireland of Medicine Hat, Alberta, is renewing acquaintances in Creston this week. She is a guest of Mr. and Mrs. Jas. Cook.

Miss Marion Learmonth left last week for Lethbridge, Alberta, in which district she has secured a rural school, and will teach until midsummer.

John Blinco, who has been at Rochester, Minn., the past ten days consulting with the Mayo Brother hospital authorities, arrived home on Tuesday.

Mrs. McKay of Vancouver is a visitor this week with her sister, Mrs. Mallandaine, on her return to the coast from a holiday at Winnipeg, Manitoba.

Annual rally day will be observed at Trinity United Sunday School at 11 a.m., Sunday, 30th. Parents are cordially invited to come to this service with their children.

Harvest thanksgiving services at Trinity United Church will be held Sunday evening, 30th, at 7.30 o'clock. The address and music will be appropriate for the occasion.

Miss Edith Crawford, a 1928 graduate of Victoria Normal School, left on Thursday last for Barons, Alberta, where she has secured a school, and will teach until next midsummer.

A. E. Davies, who has been in charge of a hard surface road crew near Smithers, B.C., this season, arrived last week on a visit with his daughter, Mrs. Chas. Armstrong.

A new and sure sign in weather forecasting has just been put forward. It is pointed out that the mountain ash berries are much redder than usual this year, and indicates an early, long and severe winter.

Rev. Nelson Harkness, secretary of the Bible Society, will be in Creston, Friday evening, Oct. 5th, at 8 o'clock, and will give a lantern lecture in the Parish Hall. Rev. A. Garlick will preside and addresses will be given by Revs. Cribb and Greer.

Special attention is directed to the notice calling a meeting of the fire brigade on Monday night This will be an open meeting and all citizens are asked to attend. A fire engine and equipment committee to serve both village and district is to be appointed.

Rev. E. Snaud, the new Lutheran pastor at Creston-Yahk, took the services at Nelson on Sunday last. In addition to his two main stations the new minister will also look after Wynndel, Kitchener, Fernie, Michel, Natal and the Windermere, it is announced.

Miss Louise Bevan, who has been a visitor for the past six weeks with her parents, Mr. and Mrs. R. S. Bevan, left on Wednesday last for Macleod, Alberta, where she will spend a few days before proceeding to New York to resume her position in the Chase National Bank.

In connection with the Kootenay-Boundary Women's Institute conference which opens in Trinity Church on Tuesday afternoon, the local institute are conducting a dining hall at which the delegates to the conference and members of Creston Institute will dine free. Any and all others who wish to have their meals with the ladies can do so at 35 cents for lunch, and 50 cents for dinner. Meals will be served in Trinity Church basement.

John Cartmel, government agent, Nelson, was here on Tuesday to conduct an auction sale of the lot formerly occupied by "Slim" Lewis at the rear of the Percy Boffey ranch. Although several had been corresponding with the department re purchasing the place, no one turned up at the sale.
